

## Bodyguard 8261

### Chapter 8261

this sima yi, wasn't he an alchemist? how could his attainment in formation path be so terrifying?

the language of manifestations had never mentioned lin yi's strength in formations to the first hall master, so this was the first time he'd learned about it!

after lin yi finished sealing and stabilizing the node, the first hall master walked up and saluted, ""steward sima! it's all thanks to you that we were saved! i will never forget your great kindness!"

lin yi waved his hand and didn't reply. it wasn't the first time he saved her, and he didn't expect her to repay him. just don't sell him out.

"First hall Master, where is brother Hua now? I heard that a vice Hall Master has gone missing. Who is the missing one?"

There were no monsters or Luo caidie in the room.

There were no traces of the two among the casualties, but there were not many people here.

If it was all of them ... It wouldn't be a problem for the people first hall Master brought to say that they were all wiped out!

"Vice Hall Master Hua ... It's the missing vice Hall Master!"

the first hall leader's expression was sad. "he fell into the group of darkness magical beasts to save me. i'm sorry ... but he should still be alive. the higher-ups of the darkness magical beasts are very intelligent. they know that vice hall leader hua is an important person, so there's a high possibility that they captured him!"

"although many of the nodes were damaged this time, the darkness magical beasts that were able to come out from the seal were not the best. it's because of this that we were able to resist until now!"

"the darkness magical beasts still need time and space to break free from the seal. they didn't immediately invade our world on a large scale because they're waiting. they're waiting for the top darkness magical beasts to come out, and then they'll start the final war!"

"He probably wants to use vice Hall leader Hua as a bargaining chip to force us to make some concessions ... Of course, there's no room for discussion! Compared to the survival of the entire human race, vice Hall leader Hua's sacrifice was nothing! He would agree to this!"

"Of course, we can't give up any chance to save vice Hall Master Hua. But before that, we have to make sure that the darkness magical beasts can't threaten the humans!"

The first hall Master said a lot in one breath, but Lin Yi just kept silent.

"Steward Sima, this is only one of the many damaged nodes. There are still many nodes that need to be repaired ... I hope steward Sima can help. Only you can quickly repair the seal with your array Dao strength!"

The first hall Master looked at Lin Yi and bowed slightly in a begging manner.

For this expedition, he had brought along many array Masters to repair the array seal!

But none of these formation Masters had Lin Yi's abilities, and their efficiency was very low. Under the interference of the darkness demon beasts, they couldn't move at all.

This also directly led to the darkness magical beasts taking control of the tempo of the battle. If the seal could be quickly repaired, the situation would not have deteriorated to this extent.

"First hall Master, please tell me the details of how brother Hua was captured, and where he was when he was captured!"

Lin Yi didn't agree to the first hall master's request. He didn't have the time to talk to the first hall Master before he confirmed the whereabouts of the language of artifacts and Luo caidie.

The nodes needed to be repaired, but that was Lin Yi's own plan. He wouldn't listen to the head master's orders!

"in addition to brother hua, i wonder if you have any news about teacher luo caidie from the alliance institute?"

the head hall master's face was a little stiff, but he forced a smile and said, ""vice hall leader hua met with an accident at another node ... that's also one of the targets we need to counterattack!"

"as for teacher luo caidie from the alliance academy, i'm not too sure. the teachers recruited by the academy are all scattered in different places and responsible for different sealing nodes. it's hard to say where they are now ..."

it was hard to say if he was still alive ... the first hall master didn't dare to say this, but he was very pessimistic in his heart.

even the main force of the martial alliance had been defeated. although the academy's instructors were stronger individually, they might not be able to survive when faced with the astonishing number of darkness magical beasts!

lin yi frowned, worried. the abandoned forest limited the use of spiritual sense, and the damage to the spatial nodes had caused the turbulence of the space. spiritual sense was useless, so he had to run himself if he wanted to find someone!

"Steward Sima, there's another node next to the one where vice Hall Master Hua was lost. These two are the origins of the large-scale destruction of the nodes. Putting aside the other places, these two must be repaired!"

"If we delay any longer, the darkness magical beasts will be able to open a path through these two nodes and enter the abandoned forest!"

"If you want to find vice Hall Master Hua, you have to go here. I won't say anything unnecessary. We need the combat power in your hands and your own array Dao ability! Please give me a hand!"

The first hall Master bowed deeply at Lin Yi, maintaining a 90-degree bow, as if he wouldn't get up until Lin Yi agreed!

The first hall master's character aside, he had a firm stand when it came to righteousness-this was something Lin Yi admired.

"there's no time to waste! first hall master, let's set off immediately to the two nodes you mentioned!"

since there was no news of Luo Caidie for the time being, he would find the language of the living things first.

Lin Yi waved his hand and led the imperial guards to follow the first hall master.

On the way, there were sporadic battles everywhere. Most of them were darkness magical beasts chasing after human martial artists who were alone. When they saw a large group of people coming over, those darkness magical beasts turned around and ran far away!

therefore, along the way, the first hall master had recruited a lot of subordinates, which could be considered to have strengthened his strength.

"steward sima, at least ten nodes have been damaged during the turmoil in the abandoned forest this time. when we first arrived, we split up into groups in order to repair the seal as quickly as possible."

"We only sent a few people to repair some of the lighter nodes, and we only sent a large number of troops to suppress the more serious ones. But we didn't expect the darkness magical beasts to be so powerful, and a few of our nodes were destroyed by their counterattacks."

"The two places we're going to now are the two most powerful! If we go over now, we have to make a plan first! Otherwise, going up without any preparation would just be a waste of time!"

The first hall Master went to Lin Yi's side and whispered his opinion.

"So, first hall Master, if you have a plan, just tell me, I'll see if it works!" Lin Yi said.

"good! then i'll say it! those two nodes are at each other's horns, so we can't just attack one of them, or we'll be attacked from the front and back. what i mean is, i'll take some people to block the attacks from one of the nodes, and you'll take the main force to quickly destroy the other one. as long as we repair the seal of one node, we won't have to worry about the other one!"

Chapter 8262

The first hall Master did have a plan, and it was very feasible!

The only doubt was that if he brought a small number of people, would they really be able to withstand the attacks of a group of darkness magical beasts?

If they couldn't hold on, it wouldn't just be one or two people who would be dragged down. This battle might completely collapse, and the sub-Island would become a hunting ground for the darkness magical beasts!

"Steward Sima, what do you think? Will that work?"

The first hall Master couldn't help but ask after Lin Yi's silence.

Lin Yi actually thought that it was a good idea to focus their forces on one route first, then turn around and destroy the other one. They could use their advantage in numbers to break through the enemy one by one.

When he was in Hongshang Commandery, he had used this tactic often, and the effect was quite good!

But Lin Yi didn't know how many of them there were, and if they all combined, would they be able to form an advantage?

The essence of taking them down one by one was to end the battle quickly. If they were entangled, there was no such thing as taking them down one by one. They could only be surrounded and annihilated by the other party!

"I have no problem with that. We'll do as first hall Master says!"

Lin Yi thought about it and decided on the safer option. "I'll only take the Imperial Guards under me. The others will still be under the command of the first hall Master!"

The so-called safer method was not the first hall master's suggestion, but to not let the first hall master's people get involved.

The Yulin royal guards had been training in the nine-story lapis lazuli Pagoda for a long time and were extremely familiar with battle formations. If a group of people who didn't understand battle formations came in, not only would they not form a combat power, but they would also become a huge burden.

So Lin Yi's plans were much easier to achieve without the head's people ...

On the surface, he was carrying out the first hall master's plan, but in reality, he was ignoring the first hall Master and bringing the Imperial Guards to carry out his own plan!

Well, the two plans did not seem to conflict. Perfect!

The first hall Master didn't know what Lin Yi was thinking, but he did know that Lin Yi agreed. He started gathering people for missions happily.

When they got to the two adjacent nodes, the first hall Master brought people to support the dark beasts that rushed out of one of the nodes, leaving the rest to Lin Yi.

"Wings for the people, like the prosperity of the forest!"

The battle generals of the Imperial Guards had already fallen in love with this slogan. Before they attacked, they would first shout and their momentum would be much higher!

Lin Yi led the charge, acting as the sharpest blade on the blade, cutting into the formation of the dark beasts as if he were cutting through dead branches.

In the beginning, the formation of the Imperial Guards turned into a huge meat grinder, constantly killing the darkness magical beasts that were caught in the battle formation.

But as time went on, more and more dark beasts appeared, and even with the formation, Lin Yi and the Imperial Guards were starting to feel the pressure!

"The situation is not good! The broken seal node is getting bigger and bigger, and the darkness magical beasts coming out from inside have already formed a beast tide. The pressure is getting bigger and bigger, and I'm afraid it'll be difficult to follow the plan!"

Lin Yi said to Fei daqiang as he looked at the other node with worry.

The two sides were too close, and they could see each other's situation with their naked eyes. The beast tide that broke out at the first hall master's side was not inferior to this side.

If Lin Yi's side could still fight evenly, the first hall master's side couldn't take it anymore. He was basically at his limit and could collapse at any moment!

"boss, what should we do? that side seems to be collapsing. at that time, if we are attacked from both sides, i'm afraid we won't be able to hold on!"

fei daqiang had a rare look of worry on his face. he had thought that with the greatly improved feathered forest guards, they would be able to sweep away all the darkness magical beasts in the abandoned forest, but he didn't expect the reality to be so cruel.

in the face of the beast tide, the formation of the imperial guards could only protect themselves. there were simply too many darkness magical beasts, and it was impossible to kill them all!

"there's no other way now. if we split up, both sides will collapse, and it won't be easy to retreat. the beast tide has already formed at two nodes, and it won't be easy to escape. we'll definitely pay a huge price!"

Lin Yi's expression was serious as his eyes lit up. "Prepare to change the formation and use the offensive formation! We have to break the seal and close this node, or everyone will die!"

The so-called attack formation was the most powerful attack formation that the Imperial Guards had practiced. It was a battle formation that sacrificed all defense to obtain huge attack power.

Currently, they were using a battle formation that balanced both offense and defense, allowing the Imperial Guards to stand firm like a huge rock in the beast tide.

Once the formation was changed, not only would the attack power increase greatly, but the danger factor of the Imperial Guards would also increase exponentially!

If he couldn't seal the node successfully, Lin Yi himself might still have a chance to escape, and Fei daqiang could hide in the Jade space, but the other generals of the Imperial Guards would all die!

It was either success or death!

"I understand! Don't worry, boss, we'll definitely succeed!"

Fei daqiang nodded solemnly. He was confident in the attack and killing array. As long as the array was changed, the beast tide in front of him would no longer be an obstacle that was difficult to cross!

The Yulin royal guards began to change their formation under their excellent command.

At this time, the first hall master's side could no longer hold on. People in the team kept dying, and the front line began to show signs of collapse.

The first hall master's face was ashen. He knew that he would not be able to escape today, but he did not care about his own safety. In his heart, he was only thinking about the consequences of the darkness magical beasts wreaking havoc in the world!

"Everyone, retreat! Evacuate immediately!"

The first hall master's face suddenly became extremely determined, as if he had made up his mind. While loudly commanding his men to retreat, he took out a pill and put it into his mouth.

Lin Yi saw it, but he didn't see what pill the first hall Master ate. After three seconds, countless black flames burst out of the first hall master's body!

This Black Flame was like the legendary Hellfire. Any Dark Demon beast that touched it would be instantly ignited and turned into ashes!

"Sima Yi! I've let you down in the past, and I've also let down the language of the living things who have gone through life and death with me! "But I'm worthy of this position I'm in, worthy of the trust martial League and the people have placed on me! I don't expect anyone to remember me for sacrificing my life today. I only hope that mankind will be safe forever ..."

"Sima Yi, I'll leave the rest to you! He had to seal the node again so that the darkness magical beast could not go out and wreak havoc in the human world! Please!"

The first hall Master shouted loudly as he turned into a black meteor and rushed straight into the group of darkness demonic beasts.

The black flames burned everything that came into contact with the first hall Master. Even the darkness magical beasts, who were not afraid of death, couldn't help but retreat when facing the first hall Master in this state.

And so, the first hall Master's Men had a rare chance to escape-they took this chance and retreated, moving closer to Lin Yi.

Chapter 8263

At the same time, they watched helplessly as the first hall Master rushed to the destroyed spatial node and used himself as a medium to detonate the broken spatial node!

There was no earth-shattering roar, nor was there any beautiful scene of fire shooting in all directions. There was only the quiet collapse of space!

The darkness magical beasts within range didn't even have the chance to resist before they were drawn into the disaster of the space collapse and torn apart by the space fragments without any resistance!

Lin Yi was dumbfounded as he watched all this happen, not even able to say anything to stop it!

The first hall Master detonated the node, creating a spatial collapse point that would continue for a short period of time, temporarily blocking the endless stream of darkness magical beasts inside the node.

Most of the beast tide that had already come out had also been destroyed by the spatial collapse. The remaining portion was no longer a threat!

"Kill!"

Lin Yi shouted. The tragic change that happened at the node had also shocked the beast tide on this side, causing their attacks to pause for a moment!

This opening was captured by Lin Yi's sharp senses, and he directed the Imperial Guards who had successfully changed their formation to turn into an invincible blade and stab in!

A crazy killing array! A powerful offensive array! An unsolvable killing array!

Blood and flesh flew everywhere, and countless darkness magical beasts were killed.

In just a minute or two, Lin Yi and the Imperial Guards had killed their way through the dark Demon beasts. The number of Dark Demon beasts that came out of the node was far less than the number of demon beasts that the Imperial Guards had killed!

When Lin Yi completed the magnificent feat of sealing the node, the Imperial Guards were all relieved and felt a sense of weakness in their bodies. If it weren't for their strong will, most of them would've fallen to the ground!

The energy consumption of the attack formation was high. Even the battle generals who had increased their strength couldn't maintain high damage output.

If the node was not sealed, and they were allowed to continue fighting for a few more minutes, the attack array might collapse!

This was truly a life-risking strike, and this was the best result. Without suffering too much damage, they had obtained their strategic goal.

Lin Yi had already prepared himself for a huge loss, but fortunately, the worst case scenario didn't happen.

"Fei daqiang, don't relax. Bring some people to clean up the battlefield and kill those who escaped!"

Lin Yi didn't dare to let the Imperial Guards rest. There were still some dark beasts around, and if he didn't clear them out now, they'd become a problem again, "Everyone, don't be stingy with the pills and quickly recover your strength. There's a node not far away that needs our support!"

Fei daqiang replied and started to sweep the area with the Imperial Guards. Lin Yi said that it wasn't far, and it wasn't too far.

The first hall Master and Lin Yi's rooms were visible to the naked eye. If they were on the same floor, Lin Yi's room would be 101, the first hall master's room would be 102, and the node not far away would be 109.

It was invisible to the naked eye, but Lin Yi could feel the shockwaves from the battle. It should be the people who went there in the first group, and Lin Yi was surprised that they could hold on until now.

after taking care of the spatial node, lin yi quickly flew towards the first hall master. the first hall master's men and the dark beasts outside the spatial node didn't dare to get close to the spatial collapse point, so they could only continue fighting at a safe distance.

the first hall master had detonated the node and killed 80 - 90% of the darkness demonic beasts. the remaining ones were already like arrows at the end of their flight and were being killed by the martial artists.

"first hall master!"

when lin yi arrived, he found that the first hall master wasn't completely dead yet. the strange black fire on his body hadn't dissipated yet. it was weak, but it was barely protecting his broken body.

it was not accurate to say that it was broken, but it should be said that it was left behind. because the first hall master's body below the abdomen had disappeared, and his two arms were also gone. only the tattered parts above the chest were still left.

what was rare was that the first hall master still had a bit of consciousness left, and his eyes lit up when he saw lin yi.

lin yi sighed to himself. if he was still unhappy with the first hall master before, then all the love and hatred disappeared with a sigh.

it wasn't because the first hall master was so miserable and pitiful, but because when he sacrificed himself for justice, in exchange for victory in battle, and protected the peace of mankind, his personality was sublimated!

Even if the first hall Master had always been selfish, harming others for his own benefit, indecisive, cold-hearted, and other bad qualities, a choice in the face of righteousness was enough to cover up all his shortcomings!

He was indeed a hero!

To be able to die without hesitation, no matter what his character was in private, he could still be called a hero!

It was just like GUI Shan, Wang Ba, Gao Zi, and the others from the Alliance Institute-no matter how much he hated them, they didn't do anything for the sake of justice, and so Lin Yi didn't really hate them!

"Si ... Sima ... Sima ... Yi ... Don't come over ..."

The first hall Master tried his best to make a weak sound, stopping Lin Yi from entering the area.

Because the space here was still extremely chaotic, the first hall master's body was still slowly disintegrating even though it was protected by the black flames!

If an ordinary person were to enter this area, they would probably be instantly ground to pieces by the power of space!

The hall Master knew that he couldn't make it anymore-he had to count on Lin Yi to repair the node. He couldn't just watch Lin Yi enter this death zone and die!

What he didn't know was that Lin Yi's understanding of space was far beyond normal people's. He only felt a little at the edge and stepped into the death zone easily!

The first hall Master was shocked and almost died. The weak Black Flame on his body shook for a while, but it didn't extinguish.

"First hall Master, hold on for a while. I'll get you out!"

Lin Yi reached the first hall master's side in the blink of an eye. He couldn't help but frown when he felt the terrifying temperature of the black flames.

This thing was really powerful. If he used his hand to grab the first hall Master, he might be turned into ashes!

However, if he didn't care about the head Hall Master, he would be finished in minutes. He had to get him out of this area first.

Lin Yi had no choice but to combine his fire with his elemental Qi to block the black fire. He quickly moved the first hall Master to a safe area!

"I didn't expect you to have such an ability. I've let you down in the past ..."

The first hall master's expression was complicated, but he seemed to be in better spirits. It was unknown whether it was because he had left the death zone filled with spatial turbulence or because he was dying!

Lin Yi took out a Mystic first class great recovery pill and put it to the first hall master's mouth. "Open your mouth and eat the pill!"

Chapter 8264

In this situation, pills were of no use. The head Hall master's abdomen was already gone, what use could pills have?

The first hall Master was also very clear about this, so he shook his head with a bitter smile and said, ""It's no use, Sima Yi, you don't have to waste such a precious pill! This pill could save my life last time, but it can't do anything this time!"

After barely finishing this sentence, the first hall Master panted for a long time.

Lin Yi didn't say anything and just put the pill in his mouth. It didn't matter if it was useful or not, he still had to eat it.

Fortunately, the elixir melted as soon as it entered his mouth and did not need to enter his stomach to digest. The medicinal power spread quickly, but it could not stop the first hall master's body from collapsing. It only made him feel a little better and he could speak a few more words.

"Sima Yi, thank you ... Thank you for letting bygones be bygones ... There's no time to talk too much now ... I hope you can take up your responsibility ... Before we find vice clan leader Hua or vice clan leader Gu, you'll be the commander of all the combatants in the abandoned forest. You'll have the highest authority ..."

"There's a Hall Master token on my chest ... Take it ... And use it as a Hall Master ... Sima Yi ... Next ... I'll leave the forest of forsaken to you ... The responsibility of protecting the humans ... Will be handed over to you ... Promise me ... You must win ..."

at this point, the first hall master did not catch his breath. his head tilted and he completely lost his breath!

if lin yi had pure energy, he might be able to save him, but he couldn't use pure energy on the sub island.

at this moment, the elixir was no longer of any use. he could only watch the first hall master die.

lin yi wanted to use the soul catcher hand to pull the head's spirit out, but the black fire was burning his own spirit as well!

"first hall master, don't worry. i'll definitely repair all the nodes in the abandoned forest ... i won't let you and the other heroes who sacrificed their lives in vain!"

lin yi said his promise to the first hall master in a low voice. he then watched as the first hall master's remaining body gradually turned into ashes and was blown away by the wind, disappearing into the abandoned forest!

perhaps this was the best outcome, so that he could still guard every inch of the abandoned forest after his death!

the people at the two nodes had already cleared out all the dark beasts, and those who were still alive gathered around, quietly watching lin yi and the first hall master disappear!

If the first hall Master had not sacrificed his life for the sake of justice, it was hard to say how the battle would have ended. The beast tide would only increase in number.

Without the first hall master's intimidating effect, Lin Yi and the Imperial Guards 'formation might not have been able to break through the dark Demon beasts' horde!

The dead had already passed away, but the living still had to continue fighting, leaving them time to mourn. In less than ten seconds, they had to rush to the next battlefield to save more companions.

At that time, how many people present would be wrapped in horsehide?

Everyone's heart was a little heavy, but they became more determined to drive all the darkness magical beasts back into the node!

In this solemn atmosphere, a few people in modern armors suddenly flew over and quickly collected the limbs and pieces of the darkness magical beasts, putting them into metal containers.

For someone who had just experienced a great battle, there was no intention of communicating at all.

After packing up in silence and speed, they left quietly, not saying a word the entire time or even looking at Lin Yi's group. They treated them like air.

Some people looked at the leaving armored man with anger, but they couldn't say anything.

Lin Yi glanced at them and knew that they were all from central.

Other than the central island, no other sub-Island forces could own such a modern armor.

If there was, it must be a puppet supported by central!

"I know that everyone is very tired, but we don't have time to rest now. There is more than one node where the darkness demon beast is breaking through, and we still have companions who are stubbornly resisting. If everyone really can't take it anymore, then rest here. Those who can walk, hurry to the next node with Fei daqiang and be ready to fight at any time!"

Lin Yi turned to the crowd and said in a deep voice, "I'm going to seal the node here again. I'll leave the other side to you guys!"

"Yes, sir!"

No matter if it was the Imperial Guards or the people the first hall Master brought, they were all convinced by Lin Yi's power. After accepting the order, they followed Fei daqiang to the nearby node.

The Imperial Guards weren't stingy, either-they distributed all their pills to the others. Thanks to the automatic furnaces, Lin Yi had enough low-level pills in his storage.

Most of these battle generals who had entered the nine level glazed Pagoda knew how to refine pills. In the nine level glazed Pagoda, they had refined many pills as inventory. At this time, they distributed some to the others to recover their strength. There was no need to worry about not having enough.

Lin Yi didn't waste any time and entered the chaotic space again.

This chaos was only temporary, and as time passed, it would quickly calm down. If they didn't do anything, the darkness magical beasts would charge out again.

Since the dark Demon beast wasn't coming out yet, Lin Yi decided to set up the seal again and stabilize the node completely. He didn't have to worry about any future problems!

After doing all this, Lin Yi immediately chased in the direction Fei daqiang and the others went. Not long after, he saw Fei daqiang and the others, as well as a few Dark Demon beasts.

That's right, the battle was over!

There weren't many darkness magical beasts that had rushed out at this point, and they hadn't formed a beast tide yet, so the people who had come to suppress them at the beginning could hold on until now.

Lin Yi was curious as to why the dark beasts from the other two nodes didn't come over to help, but it was a good thing.

Perhaps the darkness magical beasts needed to ensure that one or two nodes were fully opened, so they didn't spread it out fully in order to completely destroy the first two nodes.

They didn't think that Lin Yi would bring people to help, causing the dark beasts 'attack to be in vain!

"Boss, the damage to this node isn't too serious. Should we split up and suppress the other nodes?"

Fei daqiang was also very active at this moment, and he didn't feel tired at all. "Now that boss is the Supreme Commander, we have to show everyone what we're capable of. We have to let everyone know that as long as our boss is leading, darkness magical beasts and the like are not worth mentioning!"

Lin Yi's mouth twitched. What was this guy thinking? However, his suggestion did make sense.

There were still a few nodes that needed to be suppressed and repaired. If they did not split up, it was naturally safe to push their way through.

However, he was afraid that the few nodes here would be sealed, and the darkness magical beasts inside would go all out and move to the other nodes to launch a general attack.

Chapter 8265

There were not many people defending those nodes. After so many days of fighting, they were probably an arrow at the end of its flight!

"Good! Then let's split up! Fei daqiang, go and make arrangements for Zhang Butong and the others to lead their teams and set off. If they encounter a powerful beast tide, there's no need to fight it head-on. Just form a line of defense and retreat while fighting and wait for reinforcements!"

"I'll act on my own and reseal all the nodes as soon as possible! You guys must be careful and pay attention to your safety, understand?"

Lin Yi knew that splitting up was the best and only option.

otherwise, once one of the nodes was completely destroyed, the darkness magical beast horde would arrive on a large scale, and all their efforts would be in vain!

fei daqiang solemnly agreed and immediately went to arrange the division of troops.

the imperial guards were split into a few teams, each led by an experienced battle general. then there were people outside of the imperial guards. they had originally been assigned to the imperial guards, so it was a good choice to follow.

however, fei daqiang felt that they were not familiar with battle formations and following the imperial guards would only hinder their performance. thus, he grouped them together and formed the largest team, which went to a node alone to support.

relying on the advantage of numbers, it shouldn't be too dangerous.

lin yi didn't care how they were going to split up or move out-he quickly repaired and sealed this node and moved on to the next one.

when they were in a stalemate, lin yi would personally lead the charge and break through the enemy lines. he would be able to break through the situation quickly, suppressing and sealing the nodes one by one!

a day later, all the turbulent nodes were completely suppressed and sealed, and those who had come to the abandoned forest to fight finally had a chance to relax and catch their breath.

the group gathered at the two points where the first hall master died, and lin yi scanned the crowd with his spirit sense, looking tired.

There was definitely no sign of the artifact language. Luo caidie was nowhere to be found, and even GUI Shen, Wang Ba, and Gao Zi were not there.

Lin Yi knew that the two had entered the forest of forsaken as well, but he didn't see them. He didn't know if they were dead or missing.

"Boss, everyone is gathered here! We suffered great losses in the battle in the abandoned forest. More than 50% of the first batch of people who entered were killed or injured. 20% of the injured were here, and the rest who died or went missing ... We can't find them!"

Zhang Butong reported the results to Lin Yi with a heavy heart, "The second batch of reinforcements, including the Imperial Guards, suffered around twenty percent casualties. The situation is similar!"

The number of casualties he had calculated only referred to the degree of serious injuries and above, light injuries were not included at all.

In a battle with darkness magical beasts, light injuries were nothing, and it wouldn't be an exaggeration to say that everyone was injured.

As for those who died ... There were almost no complete corpses left after fighting with the darkness magical beasts, and it was indeed impossible to find them!

Therefore, death and disappearance actually had similar meanings in the battle in the abandoned forest!

Lin Yi's face darkened. The two people he cared about the most, the language of artifacts and Luo caidie, were missing!

The first hall Master had said that the monster language might still be alive, but if it was alive, where could they find it?

'Damn darkness magical beasts, if I have the chance, I must exterminate them!'

"Fei daqiang, go and invite a few teachers from the Alliance Academy over!"

Lin Yi calmed himself down and thought of asking the people from the Alliance College about Luo caidie's whereabouts.

There were also quite a few teachers from the Alliance Academy who had come this time, but the casualties were equally heavy. Only a few of them had light injuries, but they were also dispirited from the long battle.

Lin Yi knew the last two people that Fei daqiang brought over. They could be considered acquaintances.

Seal the mountain, Gu Fengji!

They didn't have a good relationship with Lin Yi when he was in the Alliance Academy.

But now that Lin Yi's status was different, and he wasn't in the school anymore, there was less of a grudge between them.

"Dean Sima! Long time no see!"

Feng Shan and Gu Fengji weren't in good spirits, but they still bowed to Lin Yi respectfully, ""This time, it's all thanks to Dean Sima's efforts to turn the tide. Otherwise, we would all have died here!"

"it's just something you should do, no need to be polite! we're all acquaintances, so let's cut to the chase. i would like to ask, do you know the whereabouts of teacher luο caidie? she came in with you, right?"

lin yi waved his hand and went straight to the point.

feng shan and gu fengji looked at each other, both hesitating. in the end, it was gu fengji who answered, ""teacher luο caidie did come in with us, but we were separated during the battle!"

"We don't know the details. We only know that she was with vice Hall leader Hua ... Vice Hall leader Hua was captured by the darkness demon beast and lost in the spatial node ... If Luo caidie is still alive, she's probably with vice Hall leader Hua, right?"

Gu Fengji used to love Luo caidie, but he didn't dare to say anything intimate about her in front of Lin Yi- he was probably afraid of what Lin Yi might think.

He was really overthinking things-Lin Yi only cared about Luo caidie's life and death, not Gu Fengji's thoughts.

"What did you just say? Luo caidie ... Was with vice Hall Master Hua? The two of them are lost in the node?"

Lin Yi was shocked, but he didn't know how to describe his feelings.

This news could be considered bad news, but on the other hand, it was good news.

At least, these two people were still alive ... There was a possibility that they were still alive!

This was enough. It was better than knowing the news of their deaths!

"We can't be sure. We can only guess ... It should be like this!"

Gu Fengji shook his head slightly. He didn't dare to make any promises, even though to him, those who entered the node were no different from dead people.

Lin Yi's heart was heavy as he looked at the sealed node!

No matter what, Lin Yi had to save the language of manifestations and Luo caidie. Even if he had to face mountains of swords and seas of fire, he wouldn't back down!

"I understand. Thank you for telling me this. I also thank you for your efforts in protecting the human race. Go and have a good rest!"

Lin Yi turned to Feng Shan and Gu Fengji with a smile, "If you need any healing pills, you can ask Zhang Butong for them. Zhang Butong, make the necessary arrangements for everyone to recover as soon as possible!"

"Yes, boss!"

Zhang Butong accepted the order and left, while Feng Shan and Gu Fengji also bade their farewells and went to find a place to rest.

"Fei daqiang!"

After they left, Lin Yi turned to Fei daqiang and whispered, ""The unstable nodes in the abandoned forest have all been sealed again. For the time being, there won't be any danger!"

Chapter 8266

"i'm going to go in and find the rescue of the artifact and luo caidie. i'll leave the guards outside to you! you must be careful and don't make any mistakes!"

"boss! you want to enter the node alone? that would be too dangerous! let me go with you!"

fei daqiang had been with lin yi for quite a long time and naturally knew that he couldn't stop lin yi from saving the people. so, he took a step back and wanted to go in with him!

"Don't be silly. You know it's dangerous and you still want to go in with me? Could it be that you think you can handle the danger that I can 't?"

Lin Yi's one sentence made Fei daqiang choke.

What could he say? if he said 'thigh', was he not a 'thigh'? No!

"Fei daqiang, the situation inside is still unclear for the time being. It's more convenient for me to move alone, and you're not doing nothing outside. Help me guard this node. I still have to come back from here!"

"if there's a problem with this node, i might not be able to come out again. don't you think your responsibility is very heavy? you also know that the person i trust the most is you! i can only leave this guarding task to you!"

fei daqiang thought about it and agreed. as a senior leg hair, who could be more loyal to the thigh than him?

such an important task, he definitely couldn't give it to others!

"i understand! don't worry, boss. i, fei daqiang, will not let you down. i guarantee that this node will not be damaged in any way!"

"that's right! then i'll leave the rest to you!"

lin yi smiled and patted fei daqiang's shoulder before walking to the node and removing the seal!

the others noticed lin yi's movements and were shocked. those who were resting on the ground stood up, not knowing if they should stop lin yi.

before they could figure it out, the seal of the node had already been opened, revealing a small space passage that could allow one person to pass through.

lin yi turned around and looked at everyone, smiling. "i'm sorry, everyone. i'm going in to find two people, so i may need you to hold on for a while. if you want to go back, feel free to go back! don't worry, the darkness magical beasts won't come out!"

With that, Lin Yi jumped through the tunnel and disappeared into the node.

After Lin Yi disappeared, the tunnel slowly closed up and became sealed again.

Gu Fengji looked at the place where Lin Yi disappeared with a complicated expression. He knew that Lin Yi was going to save someone, and that was why he admired him. He knew that he couldn't do it!

Entering the node alone to find someone was no longer something that could be done without fear of death!

No matter how unafraid of death one was, they would not easily throw away their lives!

So even if Gu Fengji was sure that Luo caidie was in the node, he wouldn't go in. Just this point alone was enough for him to know that he was far from Lin Yi!

After passing through the spatial tunnel, the scenery in front of Lin Yi changed.

Without the forest and trees from before, the entire world had become desolate and empty.

The sky was gray and he couldn't see anything. As far as he could see, the ground was cracked, and there were one or two dead trees occasionally, but they were completely lifeless!

All in all, this was a lifeless world, and humans could not live in it!

It wasn't an exaggeration to say that it was the end of the world in movies.

Lin Yi looked around, but didn't see any dark beasts.

Obviously, his previous prediction was right. After this node was resealed, the darkness magical beasts knew that it was impossible for them to break through again, so they had probably all moved to other nodes to look for an opportunity!

The intelligence of these darkness magical beasts wasn't low, or it could be said that the intelligence of the person behind them wasn't low.

However, they would never have thought that Lin Yi would open the seal again and enter it alone!

Spiritual sense was still greatly affected and suppressed here, but it was not impossible to use.

Lin Yi activated his spirit sense to the maximum, but the area he scanned was still barren.

They didn't even find a single darkness magical beast, let alone a human.

There wasn't even a living thing.

This place was like a corner that had been abandoned by the world.

Lin Yi didn't know why, but he felt like he'd returned to an abandoned place.

Although the environment of the two didn't seem very similar, his heart had such an intuition!

He wondered if he would return to that abandoned land.

He thought of Wang shiqing, Wu Yuhua, and some sad memories.

He wondered if Wang shiqing was doing well, and if she was being ostracized at home.

He wondered if Wu Yuhua, who had transformed into Wu yuca, great witch of ghost Yin, Ling Hanxue, and the others had encountered any trouble.

Lin Yi sighed softly at the thought.

This soft sigh actually created a somewhat strange atmosphere in the frighteningly quiet environment.

But Lin Yi didn't mind. The biggest problem was that there were no humans or dark beasts in this area. What should he do?

If he couldn't find the man and beast, he had no way to start.

Now, there was not even a ghost. He didn't know where to find the language of the living things and Luo caidie!

Moreover, the most important thing was that there seemed to be no North, South, East, or West here. There was no sun or moon, and the sky was always gray, making people feel lost.

It was as if it was the same no matter where they went. It was all barren.

Lin Yi had no choice but to choose a random direction and slowly move forward, hoping to meet some people or beasts!

If the darkness magical beasts discovered that someone had invaded, they might take the initiative to come over!

That's right, this was what Lin Yi was planning.

As expected, not long after Lin Yi left, countless pale white hands appeared on the ground behind him, surrounding him like ghosts.

A cold smile appeared on Lin Yi's face as he continued to move forward, as if he didn't notice anything.

In the blink of an eye, those pale white hands appeared on both sides of Lin Yi, and then expanded!

Then, these small hands quickly attacked and grabbed Lin Yi's ankle. The hands clenched tightly and pulled back quickly, pulling Lin Yi's body in an instant.

"Ah Yingluo, what's that? Let me go!"

Lin Yi let out an exaggerated shriek and pretended to struggle, acting helpless as he was pulled to the ground by the countless pale hands.

When he landed on the ground, it did not feel as hard as he had imagined. The originally hard-looking ground actually began to soften strangely, as if it had turned into a muddy swamp!

Lin Yi's body was pulled into the ground by the countless pale hands, leaving only a few exaggerated screams.

If Lin Yi really wanted to break free, it would be an easy and pleasant thing to do.

Chapter 8267

But how could Lin Yi give up so easily when he finally had a direction?

He had been worried that he couldn't find the language of the living things and Luo caidie, but with these strange white hands leading the way, it was much more convenient!

And so, not only would Lin Yi not resist, he'd even let himself be caught.

He didn't know how long he'd been dragged through the dark ground, but his body suddenly disappeared and he fell to the ground.

This time, the ground was really hard and no longer sank.

He spread out his spirit sense-it was dark, but he could still clearly grasp his surroundings.

It was obvious that this place ... Was actually a prison?

Lin Yi was thrown into a cell by the pale hands!

Then, those small hands disappeared without a trace.

Lin Yi didn't move, and only checked his surroundings quietly.

It was unknown what material the bars surrounding this cell were made of, but they actually had the effect of restraining attribute Qi, making it impossible for people to display the slightest strength.

Not only that, but there was also a seal outside the prison.

Under the two-pronged approach, it was basically impossible for anyone to break the seal and escape.

It seemed that these darkness magical beasts weren't simple. They were much stronger than the chickens and dogs he had encountered in the abandoned land.

At least, there was no such high-class prison in the abandoned land.

Retracting his spirit sense, Lin Yi turned his attention back to the cell.

It wasn't surprising that there were other humans here other than Lin Yi.

However, the few people in the prison were all in a state of near death.

To Lin Yi's disappointment, transformation language and Luo caidie weren't among them.

He didn't know if he should feel regretful or glad.

After all, Lin Yi couldn't figure out why these people were so old. Could it be that there was something strange about this cell that could speed up the aging of humans?

So, if Lin Yi saw the old lady's transformation language and caidie Luo as soon as he came in, he would be depressed.

However, Lin Yi was caught on purpose because he wanted to see the two of them here.

However, now that he had found this place, at least he had a direction. It was definitely much better than searching outside without any clues!

At least, he had seen a few living people in this desolate place ... Even if they looked like they were about to die, at least they were still alive!

Lin Yi walked over to the men, ready to ask them about the situation.

Unexpectedly, among the few people, an old man who was in better spirits actually spoke first.

"Young man, you look very young, but you're actually able to come here. You're really not simple ... It's a pity that a genius like you hasn't truly grown up!"

The old man's body was so thin that it could even be said to be shriveled. His arms that were exposed through his ragged clothes were a true portrayal of skin and bones.

His eyes were also rather dim, and it seemed to have taken a lot of effort for him to be able to speak clearly.

After saying that, he coughed weakly a few times.

He didn't need to ask to know that this was the end of his life!

"Young man, what year is it outside?"

The old man coughed a few times before asking a question that confused Lin Yi.

Which year? What was the calculation of the sub-Island? I don't think I've ever noticed it ...

Lin Yi didn't even pay attention to it on Sky Class Island, but he did know about Ji Nian in the common world.

"Now ... It should be 2020 A.d ..."

Lin Yi could only answer that he already knew the answer, and it was the old man's turn to be confused.

2020 A. D.? Which year was it?

Could it be that there had been a change of dynasties in the outside world and that an earth-shattering change had occurred?

If it was in the past, the old man would have asked until the end and would have definitely figured out the problem.

But now, he really didn't have the energy to argue with Lin Yi about these things.

"Young man, how did you get here? What was the situation outside? Have the humans already attacked the node?"

The old man thought that a young kid like Lin Yi might've followed the martial Union Army into the node and got caught by mistake. There might be more people who would be caught later.

"Old man, are you also from the nado martial Alliance branch? Are they battle generals who are participating in the suppression of the node, or are they martial artists who volunteered to come?"

Lin Yi didn't answer directly, but asked a question first.

However, he didn't think so. After all, the old man and the others seemed to have been here for a long time.

If they were only captives from this operation, they would not be in such a terrible state.

Unless, as he had guessed, there was something wrong with this prison. Perhaps time was hundreds or thousands of times faster than the outside world!

As expected, the old man shook his head with a wry smile after a moment of surprise. "We can be considered members of the nado martial Alliance branch, but we're not part of your operation this time!"

"In this dark place, it's hard to count the days. Roughly, we should have been here for more than a hundred years ... A hundred years ago, your parents weren't even born yet, right?"

A hundred years?

Lin Yi was shocked.

Although the old man and the others looked like they had been locked up for a long time, it was still hard to imagine that these people had been on this road for more than a hundred years!

The old man continued, ignoring Lin Yi's shocked expression, ""It's meaningless to be trapped for so many years and struggle on whilst at death's door. Look over here!"

Lin Yi followed the old man's finger-it was a big pile of bones in the corner.

Lin Yi knew what they were without needing to be told.

"Young man, you should be able to tell, right? Most of them were earth-splitting stage cultivators, and a few of them had broken through to the sea splitting stage. However, they couldn't hold on for long and were reduced to bones in the tomb!"

"There's no food here, and no elemental Qi to cultivate. If you want to survive, you can only rely on your own reserves and accumulation! I used to be at the consummate level of the sea splitting realm and was considered a relatively powerful expert. That's why I was able to hold on for a few more days. Now, I'm reaching my limit!"

"The situation of these old friends of mine is even worse! They also want to talk to you, but their energy doesn't allow it! Right now, even breathing is consuming their life force ... So this old man can only speak to you alone!"

Although the old man spoke weakly, his words were slow and clear.

Lin Yi quickly took out some food and water, as well as some medicine for the old man, "senior, let's not talk about it anymore. I have pills, food, and water here. You can eat a little first and recover some of your Yuan Qi!"

The eyes of the few people, including the old man, lit up.

It was extremely clear even in the dark night!

After being cut off from the world for so many years, fresh food, water, and precious pills were all great temptations to them!

Chapter 8268

However, when Lin Yi delivered the food to their mouths, their eyes were filled with desire, but none of them opened their mouths to eat!

The old man raised his hand and pushed away Lin Yi's gift with trembling hands. He was the only one who had the strength to do that.

"Young man, this old man and my brothers appreciate your good intentions, but we can't accept it! Because we are already at the end of our rope. Even without these things, we can't change the outcome!"

"Instead of wasting these precious resources on us, why don't you stay by our side? perhaps you can hold on for a while longer and fulfill our wishes!"

The old man laughed soundlessly, 'perhaps this is heaven's will. If you had come two days later, we old men might have all died! To be able to meet a young man like you at the last moment of my life, the heavens must have taken pity on you and sent you to inherit the will of our nado martial Alliance!"

Lin Yi really wanted to say that these things weren't valuable at all-he had as much as he wanted in the Jade space, and he could even trap them for a thousand years, let alone a hundred!

However, what the old man said was also right. The few of them had reached the point where they were like oil lamps running out of oil. No medicine could cure them. Their life force had reached the end, and it was definitely not something that a little food and medicinal pills could recover.

Unless he had true Qi!

Lin Yi wouldn't have been able to extend their lives otherwise.

They were sea-shattering realm cultivators, but their spirits were far weaker than Wangba 'S. Lin Yi couldn't save their lives with his hand.

Since they were determined to die, Lin Yi could only obey and continue listening to the old man.

"Young man, I'm going to tell you a secret, and you must keep it in mind! If we can get out of here, pass this secret to the martial union branch and have them turn it into a plan to carry out properly. "

"If you can't leave this place, then live well. When the next batch of people come in, think of a way to pass on the legacy ... So you must save your food, water, pills, and so on. These resources are extremely precious, and every portion used is one portion less. You must treasure them!"

The old man's breathing was shallow, and Lin Yi couldn't help but try to persuade him after some hesitation."Forebear, actually, I've prepared a lot of living materials. These things are nothing. You'd better eat some first so as to recover some physical strength ..."

However, before he could finish, the old man sternly refused,""Don't say anymore! We're going to die soon, what's the point of wasting these precious resources? As long as you live well and pass down the secret that we've passed on to you, we'll be able to die with a smile!"

At this point, the old man's tone slowed down and he sighed softly,""Young man, this old man knows you have good intentions, but these old lamps are about to go out. Don't think about saving them! That would only be a waste of energy and resources!"

"The fact that you're able to come here means that you're a top heaven's favorite of this generation of humans! This old man hopes that you can properly use every bit of resources and strength to complete the secret this old man has given you! Remember, our only hope is you!"

The old man said slowly.

Lin Yi's heart felt heavy. These old people were people worthy of respect. They had risked their lives for the people on the sub Island. They had been imprisoned for a hundred years, but they still remembered the great cause of humanity fighting against the dark Demon beasts!

Even in the face of death, they still couldn't let go of the secret that concerned humanity, not their own safety!

"Senior, I'll definitely fulfill your request. As long as I can get out, I'll definitely pass on the secret to the martial Alliance branch ... However, I can't guarantee that the martial Alliance branch will definitely form a perfect plan ..."

Lin Yi wouldn't be able to reject this, so he agreed.

But he had to make things clear-the first hall Master was dead, and the martial union branch would definitely send a new first hall Master. They didn't know who it would be, and they might not even care about Lin Yi.

"It's okay, you don't have to worry about that ... By the way, I haven't asked you yet, what's your name?"

The old man panted as he looked at Lin Yi, his eyes shining. He really did see Lin Yi as his last hope.

"I'm Sima Yi, and I don't have a real position in the martial Alliance's branch. During the battle to suppress the darkness demon beast, the first hall Master of the martial Alliance's branch fell, and before he died, he temporarily handed over the command of the battle to me. However, it's only limited to this battle. Once we leave the abandoned forest, it'll be invalid!"

Lin Yi explained the battle at the various nodes and the situation, "So, senior, you have to understand that although I have to pass on the secret, I'm not sure if I can get the approval of the new first hall Master ..."

"Sima Yi ... That's a good name! And this old man really didn't misjudge you. The first hall Master was able to give you command before his death, which shows that you must be a talent! However, there's one thing you don't need to worry about!"

As he spoke, the old man shakily reached into his clothes and took out a token. "I'll give you a token. With this in hand, you can rest assured that even the first hall Master of the martial Alliance's branch will value every word you say!"

"I'll tell you the truth. I'm actually a secret agent of the martial Alliance! This token is the secret envoy's token, and only the hall Master is qualified to issue it!"

"The status of the martial Union's Secret envoy is extraordinary, and you have the power to make arbitrary decisions. Now that I'm passing on my position to you, who in the martial union branch would dare to be disrespectful to you with this identity?"

"Sima Yi, hear my order!" The old man raised his token and shouted in a low voice.

Lin Yi's mouth twitched. To be honest, he wasn't interested in this martial Union spy or whatever.

But out of respect for the old man, Lin Yi couldn't reject him. He cupped his fists and bowed, listening attentively.

"Sima Yi, from now on, I'll pass on the identity token of martial Union's Secret agent to you. When you receive it, you'll have to take on the responsibility of martial Union's Secret agent. You'll have to be ready to fight for martial Union and mankind at all times, not fearing danger and not fearing sacrifice. Can you do that?"

"I can't do it!"

Lin Yi didn't even think about it and rejected it.

The old man couldn't even catch his breath-Lin Yi didn't follow the script at all!

Normally, at this time, shouldn't everyone be impassioned and say that they could do it?

Even if you can't do it, you should at least pretend that you can. What the hell is with directly saying that you can't do it?

"senior! i have no problem fighting for the martial league and humanity, but i can't be ready to sacrifice myself at any time! because this junior has more important things to do, so i can't sacrifice myself here!"

it was fine if lin yi didn't explain, but the old man's eyes widened even more as he almost died!

Chapter 8269

In his opinion, what could be more important than sacrificing himself for the sake of the martial League and mankind?

Did I? Why don't you tell us!

He was angry, but Lin Yi was his only choice-the old man was dying, and he couldn't wait for anyone else!

Helplessly, the old man could only patiently guide him."Sima Yi, think about it. If you're afraid of death and sacrifice, why would you risk entering the node?"

"You should know that no one who enters the node can get out, right? If you were afraid of death, you wouldn't have come in at all, so this isn't a problem, right? Am I right? You can taste it again, you can taste it carefully, isn't this right?"

However, Lin Yi shook his head, "that's not the case!" It's not that I'm not afraid of sacrifice, but my brother, the language of the living things, and my friend, Luo caidie, are trapped in the node. I have to come in to save them! I mentioned this in my explanation just now. Senior, you shouldn't have forgotten, right?"

The old man was furious. Was there a F \* cking difference? Didn't they only come in because they weren't afraid of death?

"Pretty much. Aren't your brothers and friends all human? When the nest is overturned, no eggs will remain intact. If you can sacrifice yourself for them, it's the same as sacrificing yourself for humanity. It's the same!"

The old man was so angry that he was almost twisting his words. "So you're willing to sacrifice for humanity, right? Don't be stubborn and tell me the truth!"

"No!"

Lin Yi continued to deny it, not caring about the feelings of an old comrade who was about to die!

The old man was speechless, "Sima Yi, can't you increase your awareness?."

"We can 't!"

Lin Yi shook his head without even thinking.

Those who didn't know better would think that he was deliberately bickering with the old man!

The old man's heart was exhausted-he was thinking if he should just die right now, a natural death at least, or he'd be pissed to death by Lin Yi later ...

"Forget it, let's put it in another way. For example, if the dark Demon beasts are going to attack the entire sub Island, and all humans are going to be killed, and you have the ability to stop it, what would you do?"

Even if he was tired, he had to continue to guide her patiently. Otherwise, he would have to give up on this only hope ...

"What else can we do? if you're not convinced, then fight! Since you have the ability to stop them, then go and kill them, or at least send them back to their nest!"

Lin Yi's answer finally satisfied the old man, and he nodded with a smile. "Isn't that right! If you can think this way, it means that you have the world in your heart and are willing to fight for all of humanity. Why are you so stubborn? You have to look at your own heart!"

"No, senior, please don't misunderstand. The reason I want to stop the darkness demon beast is because I have a close female friend on the sub Island. I have to keep looking for her until I find her. If the sub Island is destroyed, where am I going to find her?"

"In addition, I have a lot of friends on the sub Island. I have to protect them from the darkness demon beasts ... As for the others, I just saved them along the way."

"if it's not for the people i care about, i don't really care about the lives of others."

if he could, he'd try to save her. if he couldn 't, he wouldn't pretend to be a good person.

the smile on the old man's face immediately stiffened. after a long while, he laughed dryly and said,""alright, it's almost the same, almost the same ..."

he had no choice. he was still lacking a lot, but he could only say that he was almost there.

the old man decided to skip this boring topic. if he continued, he would probably really die.

there wasn't much time left, and he couldn't waste it on these boring conversations!

"there's no problem with your qualifications. this old man will pass the token to you now ... i originally had a lot to say ... forget it, this is an urgent matter, so i won't say much!"

The old man really did have a lot in mind, and was ready to give a serious and impassioned speech at this token-giving ceremony, but Lin Yi put him on the spot-he lost all interest in it.

And so, the ceremony ended, and the Messenger's token was sent to Lin Yi."With this token, you'll be a true secret emissary of the martial Alliance in the future, and you'll have the power to make arbitrary decisions! You must take good care of it, and there can't be any mistakes!"

Lin Yi accepted the token with both hands and replied in a low voice,"Senior, didn't you say that only the first hall Masters were qualified to issue this token? What's the use of you being so private? It'll be awkward if they don't admit it!"

"It's an emergency. Other than the first hall Master, the martial league's Secret envoy can also pass the inheritance to a designated person when his life is in danger. You're a special case!"

As the old man spoke, he cut his index finger and flicked a drop of blood onto the token.

The token absorbed the drop of blood, and a red light flashed in the dark.

"With this old man's blood essence seal, you can prove that you've legally inherited your identity as martial Alliance's Secret agent. Your authority is extremely great, to the point where you can easily dismiss the head Hall Master of the martial Alliance branch in naduo!"

After the old man flicked out the blood essence, his entire body quickly withered.

It was hard to say how much longer he could hold on, so the old man subconsciously spoke faster. ""After dismissing the martial union branch's first hall Master, you can take over the command yourself, or you can appoint someone to act as the commander. That's why I told you not to worry! As long as you can get out of here alive, you'll definitely be able to turn the secret into a plan!"

Lin Yi was a bit speechless, his lips curling. Wasn't the first hall Master the one who gave out the token? How could he dismiss the first hall Master so easily? Was he deliberately looking for trouble?

Was it fun to bury a mine and step on it at any time?

What kind of weird operation was this? Lin Yi really didn't understand!

The old man panted heavily, occasionally coughing a few times. He looked like he was about to die.

Lin Yi didn't dare to waste any time-he took out a recover pill and stuffed it into the old man's mouth.

If it wasn't for the top-grade great cyclic pellet that melted in the mouth, it might have choked him to death ...

Although this Supreme-grade great recovery pill couldn't save the old man's life, it could only make him slightly more energetic and hang on to his life for a while. However, it wasn't a cure.

However, this was enough. After all, the big secret hadn't been revealed yet. He couldn't just die like this.

After the old man consumed the recover pill, his spirit was indeed slightly better, and his breathing and coughing gradually subsided. "This old man doesn't have much time, don't interrupt, listen carefully to this old man!"

Lin Yi couldn't help but roll his eyes. You've been talking nonsense all this time and didn't even get to the point, and now you have the cheek to criticize me?

if it wasn't for the fact that the old man was about to be finished, he would have had a good fight with him!

"the secret i'm going to tell you is related to the darkness demon beasts. their ultimate goal is to occupy the entire sub-island and destroy all the human forces! there was no need to say more! and among the darkness magical beasts, the plan to achieve this goal is called the dark revival plan!"

the old man paused for a moment, took two deep breaths, and continued, ""within the darkness magical beast race, there is a clear hierarchy. among their higher-ups, there are so-called darkness priests who are proficient in the art of divination. this old man isn't sure if it's accurate, but the darkness magical beasts are very convinced."

Chapter 8270

"It's said that the darkness priest prophesied that the God of the darkness demon beast race was about to be resurrected, so they built a city in preparation for the rebirth of the darkness God! And once the god of darkness is resurrected, the darkness demon beast clan's magic power will be fully restored, and their power will increase by several times. "

"When that time comes, the humans on the sub Island will be no match for the darkness demon beast clan. The experts at the sea Rift stage will be like toys in front of them! The era of the great Dark Demon beasts is destined to be the end of the sub-island's humans!"

"The people outside don't know about this yet, so I'm asking you to bring this secret out and let martial League deal with it as soon as possible. No matter how difficult it is, you have to find a way to destroy the darkness demon beast's plan and stop their god of darkness from awakening!"

The old man spoke quickly, but Lin Yi didn't know what he was talking about. He couldn't tell if the old man was telling the truth.

The darkness magical beasts had priests, and they had to build a city, and the god of darkness was about to awaken ... Why were they so complicated?

"Wait ... Senior, you said that the god of darkness is about to awaken. If I can't leave, I'll still be trapped here for 180 years. Wouldn't that mean that everything would be for nothing?"

Lin Yi couldn't help but interrupt.

She didn't want to interrupt him, but she had to ask now. It was too confusing.

"That's also fate. As long as the god of darkness doesn't wake up and descend, we humans still have a chance. So, we can't give up. We must persist until the end!"

The old man panted lightly before explaining to Lin Yi, "A thousand years ago, the darkness magical beasts were once prosperous, and humans could only struggle at death's door in a corner. The reason why the darkness magical beasts were so powerful was because of their goddess of darkness!"

"No one from the outside world knows about this secret because the history of the sub-Island has been altered! It was also here that I heard the rumor that the previous darkness goddess of the darkness demon beasts had an undying body! Under her leadership, the darkness demon beast clan became extremely prosperous and powerful for a time!"

"It's a pity that many powerful countries in history eventually collapsed due to internal conflicts, and the darkness demon beast clan couldn't escape this fate! The Dark Goddess was harmed by a mole and fell into a trap. She was sent into the fourth dimension and can not return to this plane!"

"It's said that when the Dark Goddess fell into the fourth-dimensional space crack, even her immortal body couldn't resist the tearing of the space crack, resulting in the destruction of her soul. However, it's also said that the Dark Goddess had just fallen into a deep sleep, so the priest had a prophecy that the Dark Goddess was about to wake up and come back!"

"After losing the leadership of the goddess of darkness, the darkness demon beast clan experienced internal strife. The darkness demon beast clan, which had been extremely powerful for a time, immediately fell apart and weakened!"

"However, after experiencing internal strife, the magical beasts of darkness 'forces have been reduced sharply, but the remaining ones are all of one mind and are all United. So, you should be able to see that the actions of the magical beasts of darkness are not a pile of loose sand, but rather a rather organized and disciplined existence!"

"In addition to the darkness demon beasts, the darkness spirit beasts were also a race that had once been enlightened by the goddess of darkness. They were the indigenous spirit beasts of the sub-Island, but now they have merged with the darkness demon beasts as one race! You should know that the darkness magical beasts and darkness spirit beasts that have been enlightened all have intelligence, and are not much worse than ordinary people. "

"I've said so much, so you should understand the importance of this matter, right? If you can leave this cage, you must do everything you can to return to martial League ..."

What the old man meant was that it would be best if Lin Yi could give up on saving the language of manifestations and caidie and bring the secret back to martial League.

But he knew that Lin Yi wouldn't like it, so he only hinted at it.

Lin Yi didn't pay much attention to the last part of the sentence-he was still in shock.

Lin Yi didn't expect the dark beasts to have such a glorious history.

However, senior ghost had never mentioned these things!

The Starlight wizard had never mentioned it.

In order to confirm that the old man was telling the truth, Lin Yi sent his spirit sense back into the Jade space and asked, ""Senior ghost, did you hear what he said? Is it true?"

"it doesn't really matter if he's resuscitated or not, but the rest is real!"

the ghastly thing sighed softly and seemed to hesitate. it paused for a moment before saying, ""in the past, this old master had always avoided mentioning the darkness demon beast to you, but now that you know a lot of the truth, there's no need to hide it from you."

"this person's words should be true. in fact, in the distant past, the darkness demon beast clan and our spirit beast clan were originally of the same lineage. because of some changes, they were split into two branches."

"this matter can be traced back to 10000 years ago. at that time, the king of the spirit beasts had two daughters. the two princesses had completely opposite personalities, but they both fell in love with the same man!"

"The two princesses were very restrained and courteous in other matters, but when it came to this man, they were at loggerheads with each other and refused to give in, causing their relationship to quickly break down until they were like fire and water! Even the king of the spirit beasts at that time could not reconcile the relationship between the two princesses. "

"As for the man who was admired by the two princesses at the same time, he was a coward. To put it nicely, he swayed left and right and didn't want to hurt anyone. To put it bluntly, he was a scumbag! I'm eating from the bowl and looking at the pot, not wanting to let go of any one of them!"

"If this coward had any of your tricks, perhaps what happened later wouldn't have happened ..."

"What?"

Lin Yi couldn't help but interrupt, rolling his eyes. "Stop! Senior ghost, what do you mean by 'I have my ways'? you make it sound like I'm even worse than that scumbag! What means do I have? All this time, I've only been passively receiving treatment from others!"

"En, this is what you said, this old master didn't say it. I didn't expect you to have such self-awareness! Slag Yi!"

"You still have the face to say that you're passively receiving it?" the ghostly thing laughed and teased. "I feel ashamed for you!"

Lin Yi's mouth twitched, and he wisely didn't continue to argue-he didn't want to drag the topic further and further away, and he'd lose in the end!

"Back to the main topic. In short, that coward man doesn't have your excellent means to balance the conflict between the two princesses, which led to the complete fall out between the two princesses, which led to the biggest Civil War in the spirit beast clan and eventually divided it!"

"The darkness demon beast clan has chosen to support Princess an, while the spirit beast clan has chosen to support the eldest Princess. Of course, these two names were created later on, and there was no such saying at first. A shocking battle broke out between the two sides, and in the end, both sides suffered casualties. "
