

Bodyguard 8291

Chapter 8291 The End

it was hard to say how many magical beasts of darkness would survive, but with the combat power of the imperial guards, it should be enough to deal with them!

"yes, sir!"

fei daqiang cupped his fists and bowed, replying loudly.

then, the entire imperial guards 'morale was restored, and their fighting spirit was boiling.

gu shi and the martial alliance's messenger looked at each other in dismay. as they looked at the opening of the node passage, it was as if they were looking at an ancient giant beast with its mouth wide open. they were somewhat nervous!

after all, this was the darkness magical beast's lair ... how could he just go in like this? isn't that a little too crazy?

Lin Yi's lips twitched at the two's cowardice, and he chuckled in disdain."If the two of you don't dare to go in, you can stay here. After we clean up the battlefield, we'll bring you some spoils of war. That will prove that I'm not lying!"

The body of a powerful darkness demon beast was full of treasures. Not to mention its inner core, its fur, bones, flesh, and blood were all top-grade materials that body cultivators wanted!

Lin Yi didn't think much of it before, but now that he thought about it, he didn't need it, but it would be great to use it to increase the Imperial Guards "combat strength!

Therefore, he really had to clean up the battlefield!

With that, Lin Yi didn't care about what Gu Shi and the martial Alliance Messenger thought and walked into the tunnel.

The language of the living things followed closely behind, and then Fei daqiang led the feathered forest guards in one after another!

After the Imperial Guards had gone in, Gu Shi and the messenger of the martial Alliance finally stopped hesitating and followed them in.

They thought that even if there was danger inside, with Lin Yi and the Imperial Guards as cannon foddery, it was enough for them to turn around and escape.

However, after entering the passage, nothing unusual happened.

The scenery in front of him changed. It was no longer a forest like the abandoned forest, but a desolate and vast land. The entire world was gray and quiet, as if there was no life in this world!

"This is the darkness magical Beast's Lair? Why is there nothing?"

The martial Alliance Messenger couldn't help but Mutter softly. It was obvious that he didn't pay much attention to the dark Demon beast race's information before, and seeing that there wasn't any danger, he sped up and came to Lin Yi's side, "Sima Yi, where is the internal battle of the dark Demon beast tribe that you mentioned?"

"It's naturally in the darkness magical beast's tribe! Please follow me, esteemed Ambassador!"

Lin Yi sneered in his heart, but he still maintained his politeness on the surface. He turned his body and led the martial Alliance's Messenger and Gu Shi to the entrance of the high priest tribe.

The entrance was closed, and there didn't seem to be anything out of the ordinary on the outside. Lin Yi wouldn't have been able to find it if he didn't make a mark.

"It's so secretive and elaborate. There must be a capable person among the darkness magical beasts!"

The martial Alliance Messenger's expression was serious, yet a little impressed. Before entering the tunnel, he couldn't help but confirm with Lin Yi, "Sima Yi, is there really no problem inside? If the darkness demon beasts were to ambush us, we would be completely annihilated ..."

He couldn't be blamed for being afraid of death, because martial League had never had such a precedent!

This was the first time that a team from the martial League had entered the territory of the darkness demon beast tribe, and it could be considered a historical event.

If he could retire after achieving success, he would have an irreplaceable political qualification in the martial Alliance.

Therefore, even though the martial Alliance's envoy was apprehensive, he still wanted to convince himself to enter.

When it was time to take a risk, he still had to take a risk. After all, the risk and the reward were proportional. The greater the risk, the higher the reward!

"Don't worry, my Lord. Most of the darkness magical beasts inside should be dead. We can deal with the remaining scattered soldiers. Of course, if my Lord is still worried, you can also stay here and wait!"

Lin Yi's smile was asking for a beating, and the martial Alliance Messenger felt his face heat up. He was obviously looking down on him!

After thinking that it might not be safer to stay at the entrance alone than to go in with a large group of people, he immediately made a decision. "There's no such thing! I must confirm with my own eyes whether what you said is true or not! Let's go!"

"High Ambassador! You should reconsider!"

Gu Shi felt a little flustered and subconsciously stopped the messenger, ""What if this is a trap set by the darkness demon beasts and Sima Yi? He wants to lure us in and then catch us all in one fell swoop. What should we do? It's not like there haven't been human traitors in the past ... Esteemed Ambassador, we have to be on guard!"

"Bullshit! I think you're the traitor of humanity! With your shifty eyes, you have the nerve to say that our boss is a spy?"

Fei daqiang was furious and was about to flip out on the spot. "If I wanted to take care of you, would I need to waste time and effort to set a trap? Don't you think too highly of yourself?"

"Who the hell are you, how dare you speak to me like this? Could it be that you dare to deny the possibility of that? If Sima Yi really is a spy for the darkness demon beasts, he'll lure all of you into it and will definitely capture all of you in one fell swoop. Don't be sold and still have to count the money!"

Gu Lishi argued with Fei daqiang with a red face. He thought that what he said made sense, but he saw the disdainful eyes of the whole Imperial Guards.

"Hahaha! What an idiot!"

Fei daqiang laughed three times and looked at Gu Shi as if he was showing concern for an idiot, "You really don't know anything! If the boss wants our lives, does he need to go through so much trouble? As long as you give the order, we're all willing to sacrifice our lives for you!"

"Similarly, as long as boss gives the order, killing you all will really be as easy as moving his fingers!"

Fei daqiang raised his hand, and all the Imperial Guards activated their formation. Everyone's killing intent was intense as they locked onto Gu Shiyi and the martial Alliance's Messenger. As long as Lin Yi gave the order, they would kill them both immediately!

The martial Alliance's emissary and Gu Shi's hair stood on end. A sense of crisis that was so thick that it felt like it was tangible enveloped them, and they felt like they were about to suffocate!

The combat generals of the Imperial Guards were not as powerful as Gu Lishi and the messenger of the martial Alliance. They were not even stronger than ants in their eyes.

But now that they were being watched, they didn't dare to move. They were afraid that if they made a mistake, it would directly trigger the killing intent and they would be annihilated instantly!

That's right, the emissary of martial League and Gu Shi could clearly feel the threat of death. They also understood that their strength was useless now!

He was too strong! This team was too strong!

"What are you all doing? Be more honest! Don't mess around!"

Lin Yi scolded unhappily, and the killing intent that almost materialized disappeared instantly.

Only then did the martial Alliance's emissary and Gu Shi finally relax. They then realized that their backs were already drenched in cold sweat!

"Please don't blame me, esteemed envoy. These fellows lack discipline. Please don't laugh at them!"

Lin Yi smiled as he brushed it off.

The martial Alliance Messenger replied perfunctorily as he looked at Lin Yi, still a little scared.

With such a powerful team by his side, there was no need to play any tricks or set up an ambush!

Chapter 8292

Seeing how loyal Fei daqiang and the others were, the martial Alliance emissary did not doubt Fei daqiang's words at all!

This really was a team that would die without hesitation if Lin Yi asked them to!

How did he do that? An ordinary death warrior would be like this, but they clearly didn't have the rigid appearance of a death warrior!

There was no solution!

"High Ambassador, shall we enter?"

Lin Yi pretended to ask, and before the messenger could reply, he entered the tunnel with the language of manifestations.

It was clear that they didn't have to go in, and he didn't want to waste time.

The martial Alliance Messenger didn't hesitate and immediately followed behind Lin Yi. He knew what to do after seeing the situation.

Gu Lishi had nothing to say this time. He lowered his head and followed the messenger obediently, followed by the whole Imperial Guards.

Lin Yi walked down the tunnel, familiar with it.

No matter how many forks there were, Lin Yi didn't stop at all. Soon, he led the group to the place where the war first broke out in the high priest tribe. It was also the empty area where The Dark Barbarian tribe and the mixed Yin tribe had the most casualties.

The tribal Civil War had indeed come to an end. The darkness magical beasts 'destructive power was too strong, so the battle didn't last too long, but the casualties were unexpectedly huge!

Although they weren't completely annihilated, the remaining darkness magical beasts were all covered in injuries and exhausted. In the end, it wasn't that they had survived a disaster, but that they really couldn't fight anymore!

And now, Lin Yi had arrived with the Imperial Guards!

"Clean up the battlefield!"

Looking at the mountains of corpses and seas of blood, Lin Yi's heart didn't waver at all. After giving a simple order, the Imperial Guards immediately split into small teams and fought on their own, constantly looking for the dark Demon beasts that were still alive to kill!

The humans and the darkness demon beasts were fighting a war of annihilation, and it was a life-and-death battle! Therefore, there was no such thing as mercy!

If the high priest's tribe could still have some fire left, they might be able to regain their glory after a long time of rest, but after Lin Yi's sweep, it was completely over!

The martial Alliance Messenger was stunned by what he saw. He couldn't believe that Lin Yi wasn't just bragging, he was telling the truth! He was even being a little humble!

The number of high-level dark beasts that had died on the battlefield seemed to be more than what Lin Yi had said!

It was simply ... Unbelievable!

Gu Shi was also a little dumbfounded. His mind was spinning with all sorts of thoughts, but he could not grasp any of them. It was no different from a blank space.

"Gu Shi! What else do you have to say? It's shameful to be jealous to this extent! I must have been blind to believe you!"

The martial Alliance's Messenger regained his senses and pointed at Gu Shi's nose as he scolded, "How can someone like you have the face to be the managing vice Hall Master? I think you're more like the blind vice Hall Master! When this matter is over, I'll definitely report it to the headquarters and convict you of your crime!"

Now that Lin Yi's words were proven to be true, the martial Alliance Messenger instantly changed his stance.

Of course, this was also because the situation was more advantageous than the person. If he continued to support Gu Shi, he was also worried that he would not be able to leave this tribe of darkness magical beasts alive.

To attack a tribe of darkness magical beasts and annihilate an entire tribe ... It should be very normal for some of their envoys to die, right? The battle losses could be ignored, right?

The Imperial Guards were so loyal to Sima Yi, who would care about the life and death of an emissary? Therefore, the emissary made a wise choice!

Gu Lishi was scolded like a dog's blood pouring out of his head. He could only nod and bow in agreement, not daring to refute in the slightest.

"Vice Hall Master Hua, you've made such a great contribution that it's truly earth-shaking. I'm so excited that I can't even express it! I'm really sorry for misunderstanding you just now!"

After the martial Alliance's Messenger finished scolding Gu Litian, he turned around and bowed to the language of the living things. He apologized sincerely, "From now on, vice Hall Master Hua, I'll have to trouble you to temporarily take over command and take over the authority of the first hall Master. We'll discuss how to deal with it after we return!"

"Many thanks, Ambassador! In these troubled times, I can only reluctantly accept it!"

The beast's whisper didn't refuse. If Lin Yi was willing to help, it would be more than willing to be his assistant. Since Lin Yi didn't want to help, it was natural for it to have the command.

Giving it to someone like Gu Shi would not only ruin things, but it might also target Lin Yi!

Hua Yu understood that as long as Lin Yi had power in his hands, it would be much easier for him to do anything he wanted in the future!

Gu Shi was unwilling to accept this, but he could only endure it. He forced a smile and gave his blessings,""Congratulations, vice Hall Master Hua. Please take care of me in the future!"

"You're too polite. I should be asking vice Hall Master Gu to take good care of me!"

The language of living things responded calmly, while Lin Yi ignored Gu Shi completely!

The martial Alliance's envoy and Gu Shi felt uncomfortable for a while before leaving with an excuse.

The spoils of war from the darkness magical beast tribe were definitely huge benefits, but they didn't have the face to stay and split them, so they could only leave early to avoid being embarrassed.

It took a total of eight hours to collect the spoils of war before they could be considered to have plundered the entire tribe.

This time, he had gained a lot.

At that time, after digesting the spoils of war, the overall strength of the Imperial Guards would increase by at least three to four levels. It would definitely be a huge change!

There were more people this time, and there was no danger. Lin Yi and the Beast language could finally get the survivors out of the prison.

The Yulin royal guards made a batch of stretchers and carried the weak old people out of the tribe carefully.

Even so, 90% of the survivors still died when they saw the abandoned forest.

However, when they died, they had a satisfied smile on their faces. Obviously, they could die in peace if they could see the abandoned forest while they were still alive and return to the place that represented human society!

Lin Yi, the language of the monsters, and the others all treated these human heroes with great respect and respect. They all held a simple but Grand funeral for them!

Only Gu Shi had left the abandoned forest as soon as he had exited the spatial node, so he had not participated in this matter.

He didn't want to face Lin Yi and the language of living things again, so he left the abandoned forest first.

After returning to the nado martial League branch, Gu Shi immediately sent someone to summon Ouyang Changqing.

"Chang Qing, quickly sit down and talk!"

When Gu Shi saw Ouyang Changqing entering the door, he was too lazy to waste time with small talk. He went straight to the point after greeting him, "I called you over this time because I have something to discuss with you! To tell you the truth, the first hall leader is dead, and the artifact language has made great contributions to the abandoned forest. If nothing goes wrong, it's very likely that this guy will be promoted by his contributions when he comes back!"

Chapter 8293

"Once the monster language is promoted, we will have a hard time. That's why I asked you to come here to discuss how to deal with it!"

"What? The language of assimilation wanted to rise? What right did he have? It's not like he's the only one who made a small contribution. Why would he dare to push you aside, vice Hall Master Gu? Preposterous!"

Ouyang Changqing immediately slammed the table in righteous indignation. "Vice clan master Gu, don't worry. I, Ouyang Changqing, will definitely support you! The martial Alliance branch is not ruled by the demon language. If he wants to be promoted, have you asked for our opinion? Even if we have to choose the first hall Master, you should be the most qualified, Deputy Hall Master Gu. The language of the living things is nothing!"

"No... Chang Qing, you don't know this, but that amazing feat was really done by the artifact language alone ..."

Gu Shi was a little embarrassed. He really did not want to mention this matter, but he had no choice. He did not want Ouyang Changqing to misjudge the situation. "Let's not talk about this for now, I'm very happy to have your support, Chang Qing. Don't worry, I'll never let my own brothers suffer a loss! As long as I can get promoted and become the first hall Master, Chang Qing, you will be the next managing vice Hall Master!"

"thank you for your guidance, first hall master!"

ouyang changqing immediately changed his tone and coaxed gu shi until he was all smiles.

however, in reality, he had already started to think of other ideas, thinking about how he could gain the most benefits from this incident.

"chang qing, don't worry, i won't let down your support! come to think of it, chang qing, you have quite a wide network of people. think about it, do you have any connections that can help us get promoted smoothly?"

gu shi had looked for ouyang changqing because he wanted to make use of the connections of the ouyang family. however, he did not expect that this would remind ouyang changqing instead, making his little plan even more obvious!

of course, ouyang changqing would definitely say a lot of pretty words to coax gu shi to smile as if he would be the new first hall master tomorrow.

The two of them pretended to socialize for a while before Ouyang Changqing excused himself and left.

As soon as he left, Ouyang Changqing became even more focused on his calculations.

His pill business had been doing very well recently, too-with the blue-robed man's automatic furnace, he could now compete with Lin Yi's pill shop.

But Lin Yi didn't react at all-he didn't care if Ouyang Changqing's business was doing well or not. This made Ouyang Changqing feel very regretful, as if he was dancing for the blind.

From Ouyang Changqing's point of view, it would only be interesting if both sides were full of hostility. If one side was unmoved, the other side would also find it boring.

At the end of the day, both sides were doing batch business, using automatic alchemy furnaces to refine pills. The quality and quantity were about the same, and the cost was also about the same. No matter which one, it was basically impossible to overpower the other.

In view of this, Ouyang Changqing felt that there was not much room for improvement in his business, so he wanted to take it one step further in his career.

The first hall master's death was a rare opportunity!

Ouyang Changqing returned to his residence, took out the communication device given by the blue-robed man, and contacted him.

"Hello, Mr. Blue robe! I'm Ouyang Changqing, and I have something that I would like to ask the blue-robed man to help me with!"

After the call connected, Ouyang Changqing immediately put on a smile and said in an extremely humble manner, "The Great Hall Master of our nado martial Alliance branch has fallen in the abandoned forest, and the position of the Great Hall Master is currently vacant. As one of the Vice Hall Masters and the president of the alchemy Association, I'm also qualified to compete for the position of the Great Hall Master. Therefore, I would like to ask for your help, manager blue robe!"

The blue-robed man didn't say anything. He lowered his head and thought for a while before slowly raising his head and saying, "This matter ... Isn't easy for me to handle. After all, the nado martial Alliance branch isn't under my jurisdiction. If I interfere rashly, I'll break the rules!"

"You know that there are people in charge of all the branches of our central Chamber of Commerce. Nado is gray robe's territory, so it's not convenient for me to interfere!"

Ouyang Changqing became anxious when he heard this. The blue robe was his last and biggest trump card. If the other party refused to participate in the operation, then everything would be just an illusion and would have nothing to do with him!

"No! Blue-robed manager, you'll have to help me with this! Both you and the gray-robed man are in charge of a region in the central Chamber of Commerce. Are you afraid of the gray-robed man?"

Ouyang Changqing knew that it was better to goad him into action than to invite him, so before he hung up, he continued to tease the blue-robed man,""Boss Blue robe, we are allies. If you help me, I will be able to help your central Chamber of Commerce better in the future, right?"

The blue-robed man was silent for a moment before he said indifferently, "It's not that I'm afraid of the gray-robed man, but I'm just following the rules and respecting each other, so as not to mess up the rules! Furthermore, the gray-robed man has another identity, and he's not as simple as he looks. It's not good to offend him ..."

"But forget it, what you said makes sense. If you can get promoted, you can indeed help our central Chamber of Commerce better ..."

Ouyang Changqing was overjoyed and immediately nodded."That's right, that's right. As long as I can rise to the top, I'll have more power to help concoct and sell pills. This is a matter of mutual benefit. Blue robe, are you willing to consider helping me?"

"Eh? That's right! Forget it, I'll give it a try! The result can't be guaranteed, and you have to keep it a secret. You can't let gray robe know about this, understand?"

The blue-robed man solemnly warned him, and the overjoyed Ouyang Changqing naturally nodded repeatedly, agreeing to anything!

Ouyang Changqing persuaded the blue-robed man to help, and he began to wait with satisfaction.

The next day, Lin Yi and the Beast's group returned with victory.

Although they had suffered great losses this time, they had still won in the end, and even destroyed a tribe of darkness magical beasts. It could be said to be the greatest victory for humans against the darkness magical beasts in the past hundred years!

The people who lost their loved ones and friends were in pain, but those who survived to enjoy the glory were also overjoyed. The imperial capital started a series of wild celebrations.

With the approval of the martial Alliance's emissary, the language of assimilation was temporarily acting as the Great Hall Master, but it would only be for a few days ...

A few days later, the martial Alliance of the continent sent a new appointment at lightning speed!

Wufu appointed naduo martial Alliance branch's Deputy Hall Master, Ouyang Changqing, as the acting Hall Master and took over all the affairs of the martial Alliance branch! The positions of the rest of the people remained unchanged!

The emissaries from the martial Alliance who were reading out the appointment letter were both surprised and embarrassed.

In terms of contribution, the language of artifacts should undoubtedly be the biggest beneficiary. Even if the merits and qualifications were not considered, it should be the executive Vice Hall Master, Gu Lishi, who should be rewarded ... What did it have to do with Ouyang Changqing?

"Congratulations, Hall Master Ouyang. I hope that Hall Master Ouyang will work hard in the future and bring the naduo martial Alliance branch to greater heights of glory!"

Despite his doubts, the martial Alliance emissary still sincerely congratulated him, putting on a good show!

Chapter 8294

"thank you for your encouragement, high ambassador. i will definitely not let down the headquarters' expectations and will not hesitate to work hard for our martial union branch! moreover, he's only acting as the first hall master now. it's not appropriate for you to address him like that!"

ouyang changqing was smiling so widely that his eyes could not be seen. he pretended to be humble and polite as he received the letter of appointment, which made gu shi, who was standing beside him, feel disgusted.

"haha, hall master ouyang is so humble. everyone knows that before officially taking over as the hall master, one will be the acting hall master for a period of time. as long as there are no problems, the acting "word will be removed very soon! with hall master ouyang's strength, he'll definitely be able to do it very quickly!"

the martial alliance emissary didn't mind flattering him a little. after all, flattery didn't cost money, and it could even build a good relationship. who knew if it would be useful in the future?

gu shi was puzzled, but at the same time, he felt very annoyed.

He had looked for Ouyang Changqing to use his connections to help him get to the top, not to let Ouyang Changqing get to the top and step on his head!

What the hell was going on?

Gu Lishi had the same thoughts as the martial Alliance's Messenger. Whether it was in terms of contribution or experience, he was firmly above Ouyang Changqing!

So how could the position of the Great Hall Master have anything to do with Ouyang Changqing!

Who would've thought that Ouyang Changqing would suddenly rise up and directly surpass him to become the acting Hall Master ... There must be something fishy about this!

"Congratulations, Hall Master Ouyang. I'll have to ask you to take care of me in the future!"

Gu Shi suppressed the anger in his heart and put on a fake smile as he cupped his hands at Ouyang Changqing, "Hall Master Ouyang is indeed an outstanding man. I have always admired you! Hall Master Ouyang is the most suitable person to lead the martial union branch!"

These words sounded like they were praising and congratulating Ouyang Changqing, but in fact, they were sarcastic, and anyone could understand it.

Although he could not turn hostile on the spot, Gu Shi was still the managing vice Hall Master. He did not have much respect for the first hall Master in the past, and now, he was even less polite to Ouyang Changqing.

Ouyang Changqing, do you understand how to directly express your dissatisfaction?

Of course, Ouyang Changqing understood. Anyone who thought that the position of the first hall Master had been snatched away by someone else would feel uncomfortable in their heart. If it were Ouyang Changqing, he would be the same.

So, he pretended not to understand and cupped his hands with a smile. "You're too kind, vice Hall Master Gu. You're the pillar of support for the martial Alliance branch! The martial Alliance's branch can lose anyone, but not you! We'll need your help in the future, vice Hall Master Gu. Let's work hand in hand and build the martial union branch to a better place!"

Ouyang Changqing's words sounded like he was showing weakness. He was willing to manage the martial Alliance's branch together with Gu Shi and share the power ...

However, only he knew the truth.

However, Gu Shi did feel a little better after hearing that.

Since the appointment letter had been issued, he couldn't make any more reactions for the time being. He could only slowly find an opportunity to take down Ouyang Changqing and make him the Deputy Hall Master again!

Anything was possible before he became a full-time employee!

It was better not to fall out with him now! He could only find more weaknesses by getting closer!

As such, the two hypocrites began to flatter each other, causing the martial Alliance's envoy to feel goosebumps all over his body. He secretly looked down on them before chuckling and joining in.

Only the artifact language was standing on the side with a blank expression and was completely ignored!

At this moment, the artifact language was really cold in the heart. The chill could freeze people, so it was normal for him to be expressionless!

Lin Yi gave all the credit to the language of manifestations, hoping to push it to the seat of Hall Master.

Not even a hair!

The continental martial alliance only praised him with a few words, then gave him some routine encouragement and some inconsequential material rewards.

Basically, everyone who had participated in the battle of the abandoned forest had these things, and the only difference was the amount.

However, for a great contribution like the language of monsters, it was better to have nothing at all than to give them these things!

If it was really a reward based on contribution, the language of monsters' contribution was enough to make him the new hall Master!

Taking a step back, he would at least be promoted by one level and become the managing vice Hall Master!

But now, the positions of the rest of the people remained unchanged!

He didn't even have a name, and the rest of the people were waiting!

Ouyang Changqing, who did not do anything and did not participate in the operation, had managed to get into the position of the acting Hall Master, while Gu Shi, who was a villain who stole credit, was still sitting firmly on the throne of the executive Vice Hall Master.

The artifact language wasn't a person who was greedy for power, but the way the martial Alliance handled things was really chilling!

Looking at the contemptible villains who were flattering each other, transformation language felt disgusted. He turned around and went to chat with Lin Yi.

"Brother Sima, the martial Alliance is really going to decline! Such an unfair reward and punishment, wouldn't it chill the hearts of the soldiers?"

The artifact language let down its guard in front of Lin Yi and sighed, ""It's always a great taboo to not know the rewards and punishments. Who would be willing to work hard in the future? The martial Alliance is destroying its own Foundation!"

Lin Yi waved his hand and smiled."Brother Hua, will you hold back in the future battle against the darkness demon beast because of the unfair reward and punishment? Or should I just not participate in it?"

Hua Yu was stunned for a moment and then shook her head firmly."Of course I won 't! The battle with the darkness demon beast clan is related to the rise and fall of humanity, and I don't need any rewards. I will do my best, and even if I die in a hundred battles, I will not retreat!"

"That's right!"

Lin Yi smiled and sighed,"you're a gentleman, brother Hua!" There are many people like you who don't ask for anything in return and only fight for the sake of justice, so the higher-ups all know that it doesn't matter if they give you rewards or not, it won't change your attitude towards the darkness demon beast clan!"

"In that case, those rare rewards will naturally be used as bargaining chips for those who don't work hard without any rewards and even want to cause destruction!"

Lin Yi's words stunned the beast, but it had to admit that Lin Yi's words made sense!

Of course, there were other benefits involved. Lin Yi didn't say anything, but the language of manifestations knew.

The language of living things would never believe that Ouyang Changqing had ascended to the top of the hall without a dirty exchange of interests!

"Sigh~the morals of the world are getting worse day by day, and the hearts of people are not what they used to be ... It's still younger brother Sima who can see it clearly!"

After thinking it through, the artifact language could only shake its head with a bitter smile. Although it was still dissatisfied, it was much better than before.

"Brother Hua, don't mind him too much. This kind of person who uses little tricks to get to the top will definitely not be able to stay in this position for long! We'll just quietly watch Ouyang Changqing stir up trouble. When he goes overboard, we'll take action and deal with him!"

Lin Yi didn't really care-first hall Master wasn't that great, after all, he'd just been doing whatever he wanted to, right?

Chapter 8295

Now that Ouyang Changqing was only a substitute Hall Master, he was even less of a concern.

As for the identity he'd gotten from the high priest's prison in the wilderness, Lin Yi didn't even plan on using it.

Putting everything else aside, there was no way someone like Ouyang Changqing would admit that Lin Yi was a spy!

Lin Yi might be able to prove his identity as the agent, but there was no need for that-it was too much trouble!

Wouldn't it be more convenient to kill Ouyang Changqing simply, directly, and violently?

So now that Ouyang Changqing wanted to jump around, he would let him. When he went too far, there would naturally be a time to deal with him!

"Brother Sima, you're really open-minded! This old brother is really far behind in this aspect!"

After talking to Lin Yi, the beast's mind became a lot more open, and it wasn't as troubled as before.

"Haha, it's not a big deal in the first place. What did brother Hua say about being open-minded? let's just wait and see!"

"I've been thinking that the NA duo conferred Empire stage isn't big enough yet!" Lin Yi said with a smile. I told you before that I'm looking for a friend. Perhaps I'll go to the martial Alliance of the continent to take a look after a while. "

The sub-Island was far bigger than Lin Yi had expected.

Until he had news of Xinyan, he'd have to go to higher platforms.

However, there were still some things that he could not let go of at the NA duo conferred Empire. First, he had to find out whether Luo caidie was still alive or not!

There was a high chance that she would return to the capital after being brainwashed.

But he wouldn't be at ease until he saw her, and if she really came back, he'd have to think of a way to solve her brainwashing problem.

Other than that, Lin Yi still had to train his disciples, be it Qin mengzhen, MA pijing, tu Gelao, or the others.

Especially his fourth disciple, who Lin Yi saw as the next pill master of Zhang Liju-he had to focus on her!

"Brother Sima, you want to go to the martial Alliance? It's good to go and take a look! The tribe of the wilderness's high priest has been destroyed, so it should be safe here for the time being. There won't be a big battle. "

hua yu nodded, very supportive of lin yi's decision to go to the martial alliance, "however, brother sima, don't just go and never come back! there are still many people and things waiting for your return!"

"heh ... brother hua, i didn't say i'm leaving right now ... but since you've said so, there's no problem with leaving now. i'll go take a look first, and i'll be back after a short walk!"

lin yi pinched his chin and thought, "even if luo caidie comes back, she won't be in any danger. the dark demon beasts must be hiding to get her back, so we can guarantee her safety for a short time. i'll go to the continent first and solve her brainwashing problem. there should be enough time!"

"brother sima, if you want to go to the martial alliance, you'll need a lot of customs documents. leave these to me, i'll definitely help you get everything done properly!"

the language of living things patted its chest and promised, thinking that it was rare for it to be able to help lin yi.

lin yi nodded in thanks. he'd heard of these things before, but he'd never done them before. it'd save him a lot of trouble with the language of manifestations.

it wasn't that they couldn't go to the martial alliance without a customs document, but they would be stopped and questioned at various checkpoints. if there were any suspicious places, they would be detained for a few days.

don't think that you can fly over by air. if you're discovered to not have a customs clearance document, you can ride an aerial spirit beast to the martial alliance of the continent and shoot it down without warning ...

lin yi wasn't afraid, but he couldn't stand this kind of trouble. it would be best if he could save it!

"this is just a small matter, younger brother sima. you don't have to say thank you, that's just smacking your older brother's face! i'll go and settle these things first. you can leave whenever you want to, so that you won't be flustered when the time comes. "

the artifact language immediately got up and left to get the customs clearance documents done.

Lin Yi didn't even have the chance to say that he wasn't in a hurry!

Anyway, it wouldn't expire even if it was done, so she just let him prepare. Just as he said, he could leave whenever he wanted to.

Lin Yi didn't think much of it, but he didn't expect the language of monsters to be so concerned. It only took him half a day to get the documents done.

Normally, these things would take a few days to complete. However, with the convenience of his identity as the Deputy Hall Master, the matter was settled quickly.

As long as the first hall master's approval was approved, the final step was over!

According to past practice, the first hall Master would only symbolically look at it and pass the review.

After all, those who had problems would be screened out along the way. Those who could reach the first hall Master were considered to have no problems.

It was the story of assimilation that wanted to help Lin Yi, but it got stuck at the last moment!

"vice hall master hua, it's not that i don't want to approve it! i really can't approve it!"

ouyang changqing threw the documents prepared by the language of the living aside and squeezed out a helpless expression. "you also know that i'm only a substitute hall master, so i have to be cautious in everything and not dare to make the slightest mistake. you should understand this, right?"

"we're in a critical period right now, and the martial alliance of the continent has already notified us that unusual movements have appeared at various nodes. all members of the martial alliance are on high alert, and if it's not necessary, try to avoid going out. especially our nado martial alliance branch, we're the main target of our attention. we can't afford to make any mistakes. "

"Although Sima Yi is not under the martial Union's jurisdiction, he is still an important member of the martial Union. At this time, he can't just leave and head to the martial Union, don't you think so?"

It didn't matter if he was right or wrong, Ouyang Changqing would never let Lin Yi go to the martial Union.

Putting aside the fact that they'd been at each other's throats for a long time, Ouyang Changqing would always oppose whatever Lin Yi wanted to do.

Especially in a sensitive place like the continental martial Alliance, Ouyang Changqing would never let them pass!

Lin Yi was the manager of the martial Union and central Communication Department. What if he went to the martial Union and made progress? what would happen?

So he had an excuse to stop Lin Yi, but he didn't have an excuse to do so. These were Ouyang Changqing's thoughts, and it pissed the language off.

In the past, this would have been true, because the node in the naduo martial Alliance branch had the most and most intense abnormalities. The defense was tight, and the martial Alliance of the continent had sent an envoy to check the situation.

However, it was completely different now. The other nodes still needed to be on guard, but the nado martial Alliance branch did not need to be on guard at all!

Because the high priest tribe on the other side of the node was completely finished!

Before a new tribe of darkness magical beasts was formed, the nodes here would be as stable as Mount Tai!

In such a situation, what was there to be wary of!

Chapter 8296

"Deputy Hall Master Ouyang, you haven't forgotten that we returned victorious from the battle in the abandoned forest, have you?"

With a cold face, the artifact language deliberately emphasized the word "substitute" to remind Ouyang Changqing that he was not the first hall Master yet.

"The dark magical beast tribe behind the node has already been destroyed, and the node has been repaired and reinforced. There's no need to be so careful ... Of course, Deputy Hall Master Ouyang, you didn't participate in the battle this time, so it's normal that you don't know the details. Do you need me to report it in detail?"

After hearing this, Ouyang Changqing's face turned green. The words of the artifact language were almost undisguised!

This was a direct slap to the face!

"The language of the living things? I'm the current Hall Master. You're not convinced, are you? Was that why he wanted to pick a fight? Let me tell you, if you're not convinced, you can go to the martial Alliance of the continent and talk it out! However, I won't allow you to go to the martial Union during this special period. You'll have to hold it in even if you're not happy!"

Ouyang Changqing took out a document and slammed it on the table. "This is a document from the martial Alliance of the continent. If you have the guts, tear it apart!"

The document was real. The artifact language didn't need to read it to know that the martial Alliance of the continent had indeed issued such an order.

This time, Ouyang Changqing had a good reason. If he continued to pester her, it would become the language of the living things pestering her!

"Hehe ... Very good. As expected of the hall Master. Impressive!"

The artifact language clapped with a mocking smile as it picked up the documents Lin Yi had prepared for him. "I don't believe that the continental martial Alliance will continue to maintain the alert. The nodes at the nado martial Alliance branch have already stabilized. Let's see how many more days you can delay!"

Without waiting for Ouyang Changqing's reply, he turned around and walked out, leaving Ouyang Changqing with a gloomy face. His eyes flickered as he looked at the figure of the language of the living things.

They went back to Lin Yi's side, and the Beast's language was still a little embarrassed. "Brother Sima, I'm sorry. I can't even handle a mere customs clearance document ... It's so embarrassing!"

Lin Yi asked out of curiosity, and the Beast language explained how Ouyang Changqing made things difficult for him. Lin Yi smiled and waved his hand, indicating that it was fine.

"Brother Hua, don't take it to heart. It's just that we can't go to the martial Union for the time being. It's no big deal! I haven't decided whether I should go to the martial Union immediately. "

Lin Yi shrugged nonchalantly, "it's fine now-I don't have to worry about it anymore. Ouyang Changqing made the decision for me, so I'll just have to wait a little longer!" What's the big deal!"

"Even if I can't wait to leave, Ouyang Changqing can't stop me. At most, I won't be the manager anymore. If I'm not a member of martial League, he can't force me to stay, right?"

The artifact language smiled and nodded. Without an excuse, Ouyang Changqing won't be able to stop you. And I think if you ask to quit being a manager, he will be eager to see you off!"

If it was before, the beast transformation language would be determined to pull Lin Yi into the martial Union, binding him to its war chariot so that Lin Yi could display his super strong array skills, command abilities, and so on.

But now, even monster language was disheartened. It continued to stick to its post out of its sense of responsibility to protect the humans.

But he didn't want to drag Lin Yi along anymore ... He was enough, he didn't need Lin Yi.

As for Ouyang Changqing, he wouldn't let Lin Yi go if he still had his position in the martial Alliance.

But if Lin Yi resigned, he'd be nothing-he'd just go wherever he wanted, and wouldn't be an eyesore by her side.

"That's right. But there's no hurry. Wait until I decide to leave!"

As Lin Yi was speaking, a student from the Fuyao apothecary school ran over. "Dean Sima, Dean Hua has invited you to go back. She said that she has something important to discuss with you!"

"Alright, I understand. Go back and tell principal Hua that I'll be there soon!"

Lin Yi nodded and waved the student away before turning to the language of manifestations. "Brother Hua, I'll make a trip back to the fu Yao apothecary school first. For the time being, don't get into a conflict with Ouyang Changqing. We'll just wait and see!"

"understood. brother sima, you can go and do what you need to do. you don't need to worry about me! this elder brother has a sense of propriety!"

the artifact language smiled and patted lin yi's shoulder, sending him off.

after leaving the martial union branch, lin yi rushed back to the fuyao alchemy school without stopping.

the student from earlier had reported back to hua yao, and so he was already there to welcome lin yi.

"principal hua, what's the rush?"

lin yi thought that something big had happened, but hua yao couldn't wait any longer.

"There is indeed something urgent! Dean Sima, come over quickly, we'll discuss this!"

Hua Yao said it was urgent, but his face didn't show any signs of it. He only walked a little faster than usual and brought Lin Yi back to his office.

"Sit down and talk! I won't say anything else, let's get straight to the point!"

Hua Yao didn't beat around the bush and went straight to the point, "This time, the higher-ups have given our Fuyao apothecary school five slots for the apprentice apothecary examination. Time is a little tight, and we need to quickly select suitable candidates to report to the higher-ups, so we were in a hurry to find you for a discussion!"

"Wait a minute, Dean Hua, wait a minute. What does an apprentice mean?" We still need the higher-ups to give us a quota for the assessment?"

As far as Lin Yi knew, any student who couldn't become an official apothecary could be considered an apprentice. In other words, more than half of the students in the entire Fuyao apothecary school were apprentices. Why would they need to take the test?

"Haha, it seems like you don't know much about this. To be honest, you're really an anomaly. Your alchemy skills are obviously unfathomable, and you're at least a Grandmaster level figure, but you don't even know these basic rules of alchemy."

Hua Yao chuckled as he stroked his beard. "Apprentice apothecary doesn't refer to the students of the Academy. Instead, it is an official rank within the apothecary profession!"

"In the continental martial Alliance, alchemists are generally divided into three ranks. From low to high, they are apprentice Alchemist, Alchemist, and Alchemist Grandmaster! And within each large level, there are several small levels, from low to high, they are Bronze, Silver, gold, dark gold, diamond, and so on!"

"This is the level 3, level 15 Alchemist that ordinary people talk about. It's said that there are even stronger existences above the Grandmaster level. Unfortunately, these only exist in legends. The martial Alliance of the continent hasn't appeared for a long time. Among the people I know now, the Grandmaster Alchemist is the most respected!"

Lin Yi's lips twitched-Bronze, Silver ... Wasn't there Platinum between gold and diamond? What the hell was dark gold? Then, above Diamond, should there be a level like star brilliance?

Chapter 8297

(Starlight great wizard said, "yes, yes, yes!")

Jiuying said, "goulanzi, your ass!"

Lin Yi couldn't help but ask, "What's principal Hua's current level?"

Hua Yao's face immediately revealed a sense of pride. He subconsciously raised his head and smiled. "This old man can be considered an alchemy Grandmaster ..."

He suddenly remembered that Lin Yi's skills were above his, and the pride in his heart dissipated by half. He coughed awkwardly and lowered his eyes, "He's only a low-ranked bronze Grandmaster. What a joke ... Dean Sima must be embarrassed!"

"what are you saying? principal hua, you're a grandmaster alchemist. how many grandmasters can there be in the entire martial alliance? if that's laughable, then who under the grandmaster level would dare to say they know alchemy?"

lin yi, naturally, didn't think that a bronze grandmaster was a low level. he complimented hua yao a lot, making the old man smile before getting back to the topic. "principal hua, i roughly understand the classification of the alchemist profession, so let's return to the previous topic."

"the higher-ups have given the fu yao apothecary school five slots for the apprentice apothecary examination. is that right?"

"That's right!" Hua Yao nodded. This is because apprentice apothecary is the foundation of an apothecary. Every year, there are many who wish to take the examination, but only a few of them are truly capable. "

"The assessment will definitely need an Alchemist to oversee it. On the sub Island, the number of alchemists is not too many. A large-scale assessment will definitely not work. It will waste too much time. You also know that the time of an Alchemist is very precious!"

"That's why the higher-ups made such a rule. Only those who have obtained the assessment slots are qualified to take the apprentice Alchemist test. Some of these slots are distributed to the schools below, while some are placed outside the school so that non-students have the opportunity to take the test."

"Our Fuyao apothecary school has quite a number of people, but we only have five spots. It's very difficult to allocate them. In a situation where there are too many monks and too little gruel, we have to be especially careful in allocating them so as not to cause dissatisfaction. That's why this old man has come to find you, Dean Sima, to discuss this!"

"Dean Hua?" Lin Yi blinked, "you're asking me who's the best candidate?" My disciple Tang Yungui is not bad. I think he can get a spot!"

"Tang Yungui is indeed very talented ... But that's not what I meant. Dean Sima, please let me finish!"

Hua Yao laughed awkwardly. "Actually, I didn't make myself clear just now. On paper, these five slots are meant to be used to take part in the examination. However, as long as there are no accidents, they will definitely be apprentice apothecaries!"

"In other words, the Academy is actually using an internal examination to choose these five people. They are qualified to participate in a higher level of examination. If they pass, they will become a silver apprentice. If they don't, they will still obtain the title of bronze apprentice."

Lin Yi understood-this meant that as long as they passed the school's test and got one of the five spots, they'd be a bronze apprentice!

"For the sake of fairness, the internal examination or selection of the Academy is open to all students. Every teacher is allowed to register for the participation of their students!"

"Tang Yungui has a lot of potential, and I'm also very optimistic about him, but I can't give him a place directly. He needs you to sign him up for it. Moreover, Dean Sima, you're an honorary Dean. In order to avoid suspicion, you'll have stricter requirements for Tang Yungui. You can't get in through the back door!"

Lin Yi smiled,"Dean Hua, you've been beating around the bush for so long, so that's what you meant?" You're afraid that I, Sima Yi, will go through the back door for my disciple and lose fairness, so you've specially come to inform me?"

"You're underestimating me, Sima Yi! He has also underestimated my disciple. Tang Yungui, this kid, doesn't need to go through the back door! Don't worry, you can take the test however you want. I will not say anything. Tang Yungui will also pass perfectly!"

"Haha, haha, Dean Sima, don't misunderstand. I didn't mean it that way ... Forget it, I won't explain. In short, I have confidence in you and Tang Yungui. I believe that he will stand out and successfully get a place!"

Hua Yao's face reddened in embarrassment.

"Definitely! Principal Hua, you should be mentally prepared by now. All the students in the entire Fuyao apothecary school can only compete for the remaining four slots, because the first slot has already been reserved by Tang Yungui!"

Lin Yi's domineering declaration showed his unparalleled trust and confidence in Tang Yungui!

After the two of them finished speaking, the internal examination of the fu Yao apothecary school officially entered the preparation stage.

Due to the urgency of the matter, the selection was completed on the second day. In order to compete for the five slots, more than half of the students of the Fuyao apothecary school had signed up.

It didn't matter if he succeeded or not. After all, there were five spots. What if he was lucky enough to get one?

Hua Yao stood on the podium in the hall of rites and swept his gaze across the students who were taking part in the assessment. He cleared his throat and said indifferently, "This old man is very pleased that so many of our Fuyao apothecary school's students are willing to take part in this examination. Although only five of you will win in the end, as long as you maintain this fighting spirit, you will become true alchemists sooner or later!"

"I won't say any more unnecessary words. First, let's talk about the rules of today's assessment. First, today's assessment will be divided into three rounds. The first round is theoretical knowledge, which is written with pen. There are five points in total."

"The second round of practice will give the effects of a type of medicine and an incomplete formula. You will need to complete the incomplete formula and successfully refine the medicine. The total score will also be five points, and it will be calculated according to the completion rate."

These students weren't alchemists yet, and most of them didn't have the ability to refine pills, so they could only use potions as a practical assessment.

Tang Yungui, who could refine pills independently, had a huge advantage in this regard.

"In the first two rounds, the top ten with accumulated points will enter the third round. Those who can't enter the top ten means that they lack theoretical knowledge and practice. There's no need to waste time entering the third round!"

"The third and final round is a debate! Each person has five chances to debate with different opponents. With the previous points as the base, the winner of the debate will get one point from the opponent. After five chances, the top five will be the winners of this quota!"

The rules were simple and fair, so no one raised any objections.

After Hua Yao announced the start of the exam, all the participants entered the first round of the written exam!

Soon, the written test began.

A corresponding number of futons and low tables had already been prepared in the hall of rites. Every student participating in the assessment had been given a seat number and found their corresponding seat.

There was a simple spiritual sense shield on these low tables, which could block spiritual sense peeking and prevent people from cheating.

Chapter 8298

of course, it was very easy to break it. it could be done with a little spiritual sense attack.

however, once this divine sense barrier was destroyed, the attacker would immediately appear.

thus, there was no need to ask. even being disqualified was considered a light punishment, and even being expelled from the fuyao apothecary school was not considered too much!

tang yungui found his seat. just as he was about to sit down, he heard a sneer.

turning around, he found that it was ouyang fantong. the two were considered rivals, but he didn't expect the other to be sitting next door.

in fact, it would be an overstatement to say that they were enemies.

previously, in ouyang fantong's heart, tang yungui was a joke that she could bully at will.

"Tang Yungui, where do you get your confidence from? you actually dare to participate in the assessment? On what basis? A good-for-nothing, did he think that he could become a true Alchemist just because he found a master?"

When Ouyang Fantong saw Tang Yungui look over, her face immediately showed disdain. She sneered in a low voice, "I think it's already very good if you can get one or two points in the first round of the written test. Don't get no points at all, that would be too embarrassing! I'm not saying that you're embarrassing, you trash already have no face to begin with, I'm saying that Sima Yi's face is about to be completely embarrassed by you!"

"Ouyang Fantong, don't go too far! Is my master's name something you can casually call out?"

Tang Yungui didn't want to care at first, but he couldn't stand Lin Yi's name being used to humiliate him.

However, in order not to affect the people around him, he didn't dare to speak too loudly. If he spoke in such a low voice, it wouldn't have much of an aura!

"Oh, you still know how to protect your master. However, if you really want to think for your master, you should quickly withdraw from the assessment obediently. Only then can you save your master's face! Why are you still hesitating? Hurry up and quit!"

Ouyang Fantong continued to taunt him, but she didn't take any further action.

In his opinion, it did not matter whether Tang Yungui retired or not. He could not pass the assessment at all.

In the past, Tang Yungui had not been able to condense his pill fire, so he was a student at the bottom of the fu Yao pill refining school. His authority was also the lowest, and he could not even go up to the second floor of the library.

One had to know that the theoretical knowledge assessment required one to have profound knowledge!

Tang Yungui's Foundation was there, so it would be strange if he stood out!

This wasn't something that could be changed just by acknowledging the Dean as a master.

Although Tang Yungui had the right to enter the second floor of the library, how many books could he read in such a short time?

"Ouyang Fantong, don't be too proud. If you have the ability, then beat me in the assessment. What's the use of talking nonsense here? You'll only look stupid!"

Tang Yungui had a temper and immediately retorted.

The two of them unconsciously raised their voices a little, and the people around them were also ready to watch the fun.

"Hehe, won't it be as easy as flipping my hand to defeat you? Do you really think you're some great figure? How about this, do you dare to make a bet with this young master?"

Ouyang Fantong squinted her eyes, a disdainful smile on her face. "Let's bet on who will score higher in the written test. Although there's nothing to be happy about if I win, if you call me "daddy" a few times, this young master will be a little happier. "

"Let's bet then! Who's afraid of who? Whoever lost would have to call the other party 'daddy'! Whoever reneges will be punished by the heavens and die a terrible death!"

Tang Yungui's eyes were red. The word "father" was a taboo in his heart because he had lost it since he was a child.

Not only that, he still had to rely on the respect his father had earned from his death to allow him to grow up and study in the Fuyao apothecary school.

This was Tang Yungui's weakness and reverse scale.

"Okay, it's a deal then. I'll wait for you to call me daddy ..."

The smile on Ouyang Fantong's face grew bigger. It was as if he could already see the end, and everything was under his control.

The small commotion was naturally noticed by Hua Yao on the stage. He immediately frowned and shouted, "Silence! This is the test to become an apprentice apothecary. If you don't care about it, then hurry up and leave. Don't waste everyone's time! Anyone who makes any more noise will be disqualified immediately!"

With the Dean's words, Tang Yungui and Ouyang Fantong no longer spoke. They glared at each other and then sat down.

after the small interlude, the written test officially began. tang yungui took the question and glanced at it. he was immediately assured!

it was all knowledge that he was familiar with, and there was nothing that he was unfamiliar with. as long as he answered it normally, he would be able to get a score!

this bet should be considered as an undefeatable one, right?

when ouyang fantong got the question, she didn't rush to look at it. instead, she quietly observed tang yungui's expression.

although he was sure that tang yungui would not do well, he was still a little nervous when it came to a bet.

but when she saw tang yungui's smile and his confident expression, ouyang fantong suddenly lost her calm!

if tang yungui really did well, he would have to call him father.

no, he had to stop the other party!

this kid didn't want to score high points. his first reaction was to get tang yungui down. he was indeed a pure-blooded bad guy!

However, Ouyang Fantong had no good way to interfere with Tang Yungui. She had no choice but to do the question in his hand.

The time limit for the written test was five minutes. There were not many questions, and the difficulty was also moderate. Those who understood would naturally understand, and those who did not would not understand no matter how much time was given.

Therefore, before the time was up, most of them had finished answering and stopped writing!

Ouyang Fantong was secretly upset. In the end, she couldn't think of any way to ruin Tang Yungui's answer.

But fortunately, Ouyang Fantong felt that her written test was also perfect. Even if she didn't win, she shouldn't have lost, so she felt much better.

"Time's Up! Everyone stopped writing and sealed the scroll! Rest for the time it takes for an incense stick to burn, and prepare for the second practical assessment!"

Hua Yao looked at the time and began to have the papers collected.

As for the specific results of the written test, it would be revealed very soon. The time it takes for an incense stick to burn was for the students to rest and for the teachers to mark the papers.

During the break, Tang Yungui and Ouyang Fantong didn't mention the bet. After all, there were still teachers nearby.

Before the start of the second round of practical assessment, the written test results would be announced.

When the practical test was over and the results of the two rounds were combined, most of the people would be eliminated. The remaining ten would enter the final third round of assessment.

"Tang Yungui, how is it? are you ready to call me father? This young master is young and promising. It's a bit of a loss to take in a son of your age. But forget it, it's fine if it's a little loss. This young master will also accept it! Later on, I'll take your master as my little brother, and it'll be just right for the seniority!"

When she returned to the examination room, Ouyang Fantong thought about it carefully. It seemed that there was nothing wrong with the written test. She might even get a full five points and beat Tang Yungui. So, her previous nervousness was swept away and she began to show off in front of Tang Yungui again.

Chapter 8299

"Principal Hua, you flatter me. Tang Yungui is indeed very hardworking. His achievements are the result of his own efforts!"

Lin Yi smiled faintly, maintaining his humble attitude. "Moreover, his current achievements are also thanks to the Academy's teachings. All these years, although he was unable to condense an alchemy fire, his Foundation is extremely solid! Otherwise, I wouldn't have been able to help him improve so much in such a short time!"

"Hahaha, well said! Dean Sima didn't want to take credit, but this old man was thick-skinned and took it seriously!"

Hua Yao was in a good mood, and he chatted with Lin Yi for a while before continuing to review the papers.

In the end, there were a total of nine people who got a full five points. Most of them got 4.5 points, and only a few people, about thirty or so, got four points.

There was almost no one below four points ... But there was still one who only got 3.5 points.

Coincidentally, this person's teacher was also among the teachers who were marking his paper. He was so angry that he tore his paper on the spot and crossed out his score. He was considered to have withdrawn from the assessment!

There was still a chance to catch up with the 0.5 point gap in the second round, but the 1.5 point gap was basically a huge chasm!

It would be embarrassing to stay, so he might as well quit to save some face!

In the hall of rites, Ouyang Fantong was still entangled with Tang Yungui. She was relying on her numbers to bully him.

"Hahaha, Tang Yungui, why aren't you talking? The time for one incense stick to burn is almost up, and the results are about to be announced. Are you ready to call me daddy? Don't worry, daddy will love you!"

The crowd burst into laughter. Tang Yungui's expression was cold as he said indifferently, "We'll see who's calling who daddy after the announcement!"

"Oh, you're still not convinced! Ouyang, this kid isn't convinced. After the assessment is over, we have to clean up!"

"If not for the fact that we're taking the examination in the hall of rites right now, I would have already taught him a lesson!"

"If I don't beat him up for a few days, he'll most likely be a little arrogant!"

.....

Ouyang Fantong's followers all expressed that they wanted to teach Tang Yungui a lesson. At that moment, the results of the first round of written exams were announced.

The first was Tang Yungui!

They were both five points, and there was no order in the rankings, but there would always be someone whose name was at the top.

Even if it's meaningless, it'll look better!

As the principal, it was not a problem for Hua Yao to make use of his authority to do something that would not affect the fairness of the assessment.

They did this because they didn't want Tang Yungui to be a child they raised, and also because they wanted to give Lin Yi face. It would be glorious for Lin Yi's disciple to be ranked first.

Tang Yungui's eyes also brightened. He smiled and looked at Ouyang Fantong. "Good-for-nothing from the Ouyang family, did you see that? I, Tang Yungui, have a full score of five points. What else do you have to say?"

The veins on Ouyang Fantong's forehead popped out. He had heard the word "good-for-nothing" again. What was even more annoying was that Tang Yungui had actually gotten full marks!

"So what? It's probably because you have an honorary Dean as your master that the grading teacher gave you face and got full marks, right?"

Ouyang Fantong gritted her teeth and mocked Tang Yungui. "That's all you can do! So what if it's a perfect score, this young master also got a perfect score! Did you beat me? I don't think so?"

"There really isn't, but so what? You've been showing off in front of me for half a day, but you still can't beat me, can you? Your name is even behind mine. In this case, you've actually lost. Since you've lost, you must accept your loss. Quickly call me daddy!"

Tang Yungui had been ridiculed by so many people just now. Now, he could finally hold his head high. When he started to mock, no one came out to help him.

"What do you mean lose? This young master also got a perfect score, and with the same perfect score, what's the point of winning or losing? It's a draw this time!"

No matter how unwilling Ouyang Fantong was to admit it, she could only say this! If his name was at the top of the list, he would not say that it was a draw. Instead, he would go after Tang Yungui.

Hua Yao must have noticed the bet and put Tang Yungui's name at the top of the list. It was the third use!

"Tang Yungui, since it's a draw, we can't just let it go. We'll compete again in the second round of practical assessment! Old rules, whoever loses has to call the other party "father," and you have to kneel and kowtow ten times. Do you dare to accept?"

Ouyang Fantong had not given up. She had failed to beat Tang Yungui in the written test, so she wanted to beat him in the practical test!

In the past, Tang Yungui couldn't even form an elixir fire. He was a complete waste of elixir refining!

Although things were different now, Ouyang Fantong still didn't think that Tang Yungui would have any achievements in the practical assessment.

In theory, potions could be made without the alchemy fire. However, if one used the alchemy fire, the quality of the potions would be many times higher!

Tang Yungui had never had the chance to practice it before, so it would be strange if he won!

Ouyang Fantong thought that she was an outstanding disciple of the Ouyang family and an elite student of the Fuyao pill refining school. She had been in this position for many years. If she couldn't beat Tang Yungui, then she might as well buy a piece of tofu and die!

"What's there to be afraid? Although it's a little embarrassing to take in a good-for-nothing as a son, if I don't agree to your strong request, I'll be too inhumane! Let's do this! With so many witnesses, aren't you afraid that you'll renege on your debt!"

Tang Yungui agreed without hesitation. Now that he could even refine low-grade elixirs of high-grade quality, what was a mere potion?

"Alright, you've all seen the results of the first round. You're also clear of your own position. The second round of practical assessment is about to begin. Whether you can enter the third round will all depend on your own performance!"

Hua Yao spoke on the stage, temporarily stopping the conversation between Tang Yungui and Ouyang Fantong. "Return to your seats. The effects of the potion and the incomplete formula will be announced immediately. You will figure it out and fill in the formula. Then, the materials will be distributed together, and you will refine the finished potion by yourself."

"The final score will be based on the quality and effect of the medicine! Do you all understand? If you understand, then quickly return to your positions!"

After Hua Yao finished speaking, the students quickly returned to their seats.

Ouyang Fantong, who was next to Tang Yungui, made a throat-slitting gesture. Tang Yungui returned a look of disdain.

Ouyang Fantong didn't continue to provoke him, but started to think about how she could guarantee her victory in the second round.

He had underestimated Tang Yungui in the first round. Although he was confident this time, he did not dare to be careless. He had to ensure that he would win!

"Next, we'll look at the effects of the potion and the incomplete formula. After everyone has read through it, you can start to complete the formula!"

After Hua Yu finished speaking, a huge cloth curtain descended from the high platform. On it were many large words-it was the topic of the second round of practical assessment!

Chapter 8300

Tang Yungui only took one look and felt that many thoughts had appeared in his mind.

In the past, this would have been impossible.

Ever since he became Lin Yi's disciple, Tang Yungui had improved in all aspects.

This was because Lin Yi's teaching method was different from others-he didn't memorize anything at all. He went straight to the source and started analyzing from the core.

Tang Yungui felt that a day's study was more than a year's study. After seeing the practical assessment's questions, he was even more sure of this!

Tang Yungui was sure that he had never seen the incomplete formula before, but after combining the description of the medicinal effects, he immediately began to analyze it in his mind. He listed at least three complete formulas according to the medicinal effects!

After a round of comparison and selection, the best among the best would be completed!

All of this was just a few thoughts in Tang Yungui's mind.

The other students who were taking part in the assessment had not even finished reading the questions on the paper!

Ouyang Fantong had been paying attention to Tang Yungui. He did not even look at the question. He was just observing Tang Yungui. When he turned to look at the question, he was shocked to find that Tang Yungui had started writing the formula!

How was that possible?

He knew how to complete the formula just like that?

Or did Tang Yungui cheat and knew the formula from the start?

Ouyang Fantong suddenly turned her head to look at the stage. She glanced at the ten lines of the question, and then her eyes were filled with confusion.

He had studied the formulas of potions, but he had never seen this formula before. He had no idea where he had found this obscure formula.

Because of this, Ouyang Fantong suspected that Tang Yungui had cheated!

No, he could not let Tang Yungui hand in the formula smoothly!

The grading of the practical assessment would be based on the speed of completion. Completing the medicinal formula was also a major focus. For example, the total score was five points, and completing the medicinal formula would account for two points.

These two points weren't guaranteed just by producing the correct formula. It also depended on the speed of completion.

Completing the correct formula within the specified time would only give one point. Those who completed it within one-third of the specified time would only get two points. Those who completed it within two-thirds of the specified time would get 1.5 points!

It was the same for the later stages of refining medicine. Speed was a very important standard of reference. It was not enough to complete it within the time limit. They could only get the most basic score. This way, they could pull apart the gap between the many students!

Ouyang Fantong was anxious. She did not have any clues yet. If Tang Yungui could really write the correct formula, it was certain that he would get a full score in this segment!

If he missed the timing to get full marks, he would fall behind Tang Yungui ...

Ouyang Fantong could already see himself kneeling on the ground and calling Tang Yungui "father!"

It was simply horrifying!

No! It definitely can't be like this!

Ouyang Fantong secretly gritted her teeth and immediately turned to the student behind Tang Yungui. He was one of Ouyang Fantong's underlings. She quickly gave him a look!

This was what they had secretly agreed on before. Ouyang Fantong didn't want to repeat the mistakes of the first round, so before the second round of assessment began, she had secretly made a simple agreement with a few of her confidants!

Qianqian received the order and did everything she could to hinder Tang Yungui!

In any case, their scores in the first round of assessment were not ideal. They were only ranked in the middle. It was not that they did not have a chance to compete for the top ten, it was just that the chances were slim!

Ouyang Fantong promised that as long as they helped, they would make up for all their losses and even give them generous rewards!

In the face of the Ouyang family's friendship, these few disappointing people nodded their heads in agreement without hesitation.

Even if they had to die together, he had to pull Tang Yungui down from his horse!

So when the students behind Tang Yungui received Ouyang Fantong's signal, they immediately stood up and raised their hands!

"Reporting! Mr. Dean, I have discovered that someone has cheated, which is a serious violation of our principle of fairness and justice. This is really intolerable, so I want to report him!"

This guy's acting was quite good. His face was full of righteousness, and it was completely impossible to tell that he was trying to frame others.

Hua Yao was slightly taken aback. He had been monitoring the entire scene and had not found any signs of cheating. Could it be that someone had hidden it from him?

"Who's cheating? Go ahead! The apprentice apothecary examination is a very serious matter. Whoever dares to create a scandal at this time, this old man will not let them off easily!"

Hua Yao's expression darkened. He had already decided that he would punish the cheating students severely as a warning to the others!

"Principal, Tang Yungui cheated! The student had discovered that he was copying the answers, so he must have prepared a copy in advance and hidden it! The results of the first round might have come from this as well!"

That brat's self-righteous look really made people feel that there was such a thing!

Hua Yao's expression darkened.

He knew very well whether Tang Yungui had cheated or not. He was Lin Yi's disciple and a child raised by the Academy. Hua Yao's attention was often on Tang Yungui.

When he saw Tang Yungui start writing the formula, Hua Yao was secretly happy. He didn't expect someone to report him for cheating ...

It was really F * cking ghost!

Is this reporting brat too arrogant, or does he think that I can't lift my saber anymore?

"You said Tang Yungui cheated. Do you have any evidence? Since you found out that he had a cheat sheet, then you should know where he hid it, right?"

Although Hua Yao knew that Tang Yungui was fine, he still had to go through the necessary procedures since someone had reported him.

The student who made the report had already thought of what to say. He smiled and said, "Director, Tang Yungui is very cunning. After he finished copying, he destroyed the cheat sheet and wanted to make it look like the dead can not testify!"

"Since it's already been destroyed, then you have no evidence. As the saying goes, catch the thief and catch the dirty. Without evidence, your report is not a report, but a false accusation!"

Hua Yao's face turned completely cold. He looked at the student indifferently. "This is the apprentice apothecary examination. Do you know what crime it is to falsely accuse someone of disrupting the examination?"

The kid was intimidated by Hua Yao's imposing manner and his heart skipped a beat. He said embarrassedly, "Dean, I'm not framing you. I'm doing this for the sake of the public ... Tang Yungui is too cunning ... Evidence ... He seems to have finished writing. The evidence is what he wrote!"

As he spoke, he saw Ouyang Fantong giving him a look. He immediately made up his mind and activated his consciousness to break the consciousness shield on Tang Yungui's seat.

Tang Yungui had indeed finished writing the formula, but with the divine sense shield, no one could see what he had written.

Now that the paper-like divine sense barrier had been broken, the formula on the desk was revealed.
