

Bodyguard 8301

Chapter 8301

ouyang fantong was already prepared. the moment the shield was broken, her spiritual sense scanned tang yungui's desk and saw the formula written on it.

the reporting student was blocked by his divine sense and was tracked back, which immediately attracted everyone's attention.

then, a new spiritual awareness shield was generated on tang yungui's desk. the others did not react in time, so they naturally did not use their spiritual awareness to spy on him.

only ouyang fantong was able to investigate because she was prepared.

"how audacious! in front of this old man, not only did you falsely accuse a classmate, but you also publicly destroyed the other person's divine sense shield. this is simply preposterous! do you still have any regard for the academy's rules?"

Hua Yao flew into a rage and shouted, "get out!" You have been disqualified from the apprentice apothecary examination. You will not be able to take the examination for the next ten years! As for the follow-up, we'll discuss it after the assessment!"

The young man's face paled instantly. To be unable to take the apprentice apothecary examination for ten years ... This was simply too harsh!

Moreover, there was still a follow-up punishment that had not been decided yet. This time, he had really made a big loss!

Could Ouyang Fantong compensate him?

"Dean, I just want to prove that Tang Yungui cheated. He finished writing the answers and the questions were released. Everyone was still thinking, but he started writing after taking a look. Mr. Director, please investigate!"

This fellow was unwilling to give up and wanted to put up a last-ditch struggle. In the end, two guards summoned by Hua Yao dragged him out!

The reason for this thunderous punishment was to warn the others not to play such tricks again, as the consequences were not something they could afford!

"Tang Yungui didn't cheat. I just happened to notice his behavior. There's no possibility of him cheating! Or you can suspect that I'm protecting Tang Yungui!"

Hua Yao looked around and said sternly, ""You want to report me? However, there must be real evidence. If you want to frame others, you must be prepared to bear the consequences!"

After the warning, Hua Yao looked at Tang Yungui. ""Tang Yungui, have you completed the formula?"

"Yes, I have completed it!"

Tang Yungui wasn't affected by the incident at all. He nodded calmly. "I'm handing in my paper now!"

The answer on the desk was hidden by the tool that blocked the divine sense and sent to Hua Yao. Hua Yao only glanced at it casually and showed a satisfied smile.

He had expected Tang Yungui to perform well, but he did not expect him to be so outstanding! It was indeed rare!

This formula seemed to be even better than the original! If there were bonus points, Hua Yao really didn't mind giving Tang Yungui more!

Then, Hua Yao thought about how powerful Sima Yi was. His methods of training disciples were simply unpredictable. In a short time, he had turned Tang Yungui from a useless Alchemist to a super genius. This was a shocking method of turning the rotten into the magical!

"Dean, I'm also going to hand in my paper!"

Just as Hua Yao was marveling, Ouyang Fantong had finished copying Tang Yungui's answers. His attainments in Pharmaceuticals were not low. He might not be able to think it through, but the answers were in front of him and he could easily distinguish the good from the bad.

Tang Yungui's talent had truly shocked Ouyang Fantong. He was very glad that he had arranged for someone to help him. Otherwise, he might have lost this round!

Losing to Tang Yungui was not only a disgusting bet, but it was also enough to make Ouyang fan lose all hope in life!

Hua Yao took a glance at Ouyang Fantong's answer, and his expression froze slightly. Then, he stared at Ouyang Fantong for a few seconds with a deep meaning.

Ouyang Fantong forced herself to calm down and acted as if nothing had happened. At the same time, she put on a respectful and humble attitude, smiling and bowing to Hua Yao.

He wasn't a fool. Of course, he wouldn't copy Tang Yungui's formula. Instead, he made some slight changes.

After all, he had good attainments in the field of Pharmaceuticals. Tang Yungui's formula was so perfect that even Hua Yao wanted to give him extra marks. Ouyang Fantong had made some slight modifications, but it was still within the range of full marks.

It was a pity that this small change did not mean much to Hua Yao. He could still clearly sense that Ouyang Fantong's formula was derived from Tang Yungui 's!

He was cheating!

However, just as Hua Yao had said, Wanwan had no evidence!

Since there was no evidence, it was just a few empty words. Even the Dean couldn't convict Ouyang Fantong in this situation.

"Director, is there a problem with this student's formula?"

Ouyang Fantong was a little uncomfortable with Hua Yao's stare, so she took the initiative to ask.

"No problem, good! Very outstanding! As expected of a descendant of the Ouyang family, an elite student of our Academy!"

Hua Yao smiled meaningfully, but it was unknown if he was complimenting her or mocking her.

In short, Ouyang Fantong was very clear that he would be noticed by Hua Yao next, and it would be more difficult for him to make any small moves!

"Just you wait! You have to work hard on the practical operations!"

Hua Yao's words had a double meaning, and Ouyang Fantong felt a bit nervous. After bowing, she returned to her seat.

Other than him and Tang Yungui, the others were still thinking. No one could compare to their speed.

He and Tang Yungui were probably the only ones who could get full marks for this round. Even if the others had the correct formula, they would most likely have their points deducted.

After the small interlude, the hall of rites fell into silence, leaving only the frowning students who were deep in thought and furiously scribbling away to fight for points.

The time limit was up very quickly, and there were many who didn't complete the formula. Each and every one of them had a long face as they stood up and left the hall of rites.

Since he had not even completed the formula, there was no need to talk about the next step of brewing the potion. Naturally, there was no need to keep it.

If they didn't score in the second round, they would definitely be eliminated.

In the blink of an eye, a quarter of the students in the hall of rites had disappeared. Hua Yao nodded expressionlessly after looking through all the formulas.

"Next, it will be the official test for brewing potions. You will receive a set of medicinal materials from your formulas, and then use these medicinal materials to brew your potions."

"The amount of medicinal materials given to you will be 10% more than normal. This is the normal loss prepared for you, and it is not enough for you to refine another batch of medicine if you fail. So, you must be extra careful because you only have one chance to refine the medicine!"

"If there are any problems during the process that lead to a failure in the refining process, your practical score will be completely reduced to zero. Even if the previous formula is correct, you will not get any points!"

Hua Yao spoke very seriously, as a warning to the students.

Chapter 8302

Only by successfully preparing the potion would he be able to obtain points for both parts. If he could not even complete the potion, the points for the formula would naturally not be counted!

"Do you all understand? If you understand, then prepare to start the second part of the practical assessment!"

"Understood!"

All the students shouted in unison, full of momentum.

However, only they themselves knew how many people were uncertain.

Hua Yao nodded slightly, and with a wave of his right hand, the medicinal herbs prepared according to each person's formula were sent to each corresponding student's study table.

Before the start of the match was announced, no one dared to move a finger, for fear of being treated as cheating and being dealt with seriously.

When the medicinal herbs were placed on everyone's desks, Hua Yao personally lit an incense stick and inserted it into the incense burner. All the students then stretched out their hands in unison and began to prepare the potion.

Time was still the same, which was more than enough to concoct the medicine.

Ouyang Fantong was a little uneasy. She grabbed a set of medicinal herbs on the table, and her eyes and mind involuntarily drifted to Tang Yungui.

Tang Yungui, on the other hand, had no other thoughts. He looked calm and began his performance leisurely.

There was no need to keep the potion-making process a secret because there was nothing to copy. Therefore, everyone's desk was not equipped with a divine sense block. This way, it would be easier to observe each person's technique and progress.

When Ouyang Fantong saw Tang Yungui's actions, her heart skipped a beat. She had a bad feeling.

Tang Yungui picked up a medicinal herb. Without using any tools, he ignited a layer of alchemy fire on the surface of his palm. The alchemy fire was very weak, but it was enough to process this medicinal herb.

Tang Yungui only needed to rub his hands to turn the medicinal herbs into suitable powder that could only be obtained by grinding tools. The powder fell into the metal jar that he had prepared.

Tang Yungui didn't stop after processing the first herb. His hand, which was still covered in the pill fire, picked up the second herb smoothly.

The intensity of the alchemy fire changed slightly, and according to the characteristics of this medicinal material, it carried out a perfect purification, and very quickly, he obtained the desired effect!

This kind of control over the alchemy fire required at least ten years of hard cultivation. Not long ago, Tang Yungui was just a piece of trash who could not condense the alchemy fire!

How could this be?

Ouyang Fantong panicked, and in her daze, the herbs in her hands were almost destroyed!

Fortunately, he reacted in time and did not cause an irreparable mistake.

Although there was some loss, it was still within an acceptable range!

"Ouyang Fantong, you really are a good-for-nothing! You can't even handle a single medicinal herb, so what right do you have to compete with me?"

On the side, Tang Yungui's hands didn't stop moving. He was still able to pay attention to Ouyang Fantong's situation. He sneered and mocked, "Are you so excited about calling me daddy that you can't control your emotions?"

"Bah! Tang Yungui, what are you so proud of? Do you think you can definitely beat me? What a joke! This young master is an elite disciple of the Ouyang clan, and also an elite student of the fu Yao apothecary school. Who the hell do you think you are?"

Ouyang Fantong was embarrassed and angry, but she naturally didn't want to show weakness and directly retorted, "Don't think that just because you've learned a few unorthodox things, you can definitely win against this young master! This young master just wasn't serious, we'll see!"

"Hehe, you're good at talking. I just don't know if you have any real skills!"

Tang Yungui's mouth twitched and he suddenly said seriously, "Ouyang Fantong, show me your strength. I won't beat a piece of trash who is in a trance! Show me what you've got and let me see how good the Ouyang family's elite disciples are!"

Mocking Ouyang Fantong was not Tang Yungui's goal. He just wanted Ouyang Fantong to adjust her condition so that he could defeat her at her peak State fair and square to prove himself and his master's strength!

Ouyang Fantong, whose essence, Qi, and spirit had fallen to the bottom, was only a true good-for-nothing. Tang Yungui did not feel that there was anything to be proud of for defeating a good-for-nothing!

"Hahaha! Good! Very good! I didn't expect that this young master would actually be looked down upon by a piece of trash! Alright! This young master is going to get serious, and you'll regret it!"

Ouyang Fantong was furious. However, Tang Yungui's goading had worked. He no longer considered using small tricks to deal with Tang Yungui. The main reason was that Hua Yao had been paying attention to this place. He could not use small tricks even if he wanted to.

Since she couldn't hinder Tang Yungui's performance, Ouyang Fantong could only rely on her own ability to recover from the disadvantage!

He was indeed a talented person. This time, the test was only about pharmaceuticals and not pills. After clearing his mind and concentrating, he was only slightly slower than Tang Yungui, although he was not as fast.

In the end, Tang Yungui was the first person to complete the potion. He used less than a quarter of an incense stick.

Ouyang Fantong followed closely behind, not exceeding a third of an incense stick's time.

After he finished, Ouyang Fantong's expression was not very good. In this kind of direct confrontation, he was still behind Tang Yungui!

"I'll now announce the scores!"

After the time it took for an incense stick to burn was up, Hua Yao began to announce the scores. "Tang Yungui was the fastest to finish. The medicine he concocted was also the most perfect one. The effect of the medicine completely matched the questions and was even better. It's a pity that we didn't get any extra points. Otherwise, I would have given him six or seven points."

"Unfortunately, the rules don't allow it! Therefore, he could only get a full five points! Congratulations, Tang Yungui!"

Hua Yao took the lead in clapping, and the students below, whether sincere or not, also followed suit. Even Ouyang Fantong gave a perfunctory applause with a sour face.

Tang Yungui stood up and bowed to Hua Yao to express his gratitude. He then bowed deeply to Lin Yi. His meaning was clear. Without this master, he wouldn't have the glory he had today.

Ouyang Fantong's heart couldn't help but be filled with envy, jealousy, and hatred. She secretly complained about why she couldn't meet such a good master.

Why did Tang Yungui, that trash, have such an opportunity?

"After Tang Yungui, the second one to complete it was Ouyang Fantong. Whether it was the completion of the formula or the configuration of the medicine, Ouyang Fantong followed closely behind Tang Yungui. She also completed it quite well. If Tang Yungui was not so outstanding, Ouyang Fantong's performance would have been perfect!"

Hua Yao knew that Ouyang Fantong had cheated. He had copied the formula from Tang Yungui. Although he had made some changes, the perfect formula had some flaws.

Therefore, Hua Yao's words had some meaning of belittling Ouyang Fantong.

However, as the principal of the Fuyao apothecary school, without any evidence, he could only uphold the principle of fairness.

Chapter 8303

"Considering all aspects, Ouyang Fantong can also get five points. This is a judgment made according to the rules. But I have to say that Tang Yungui's five points are not equal to Ouyang Fantong's five points. Tang Yungui did not have more points to give, but Ouyang Fantong's five points are almost the normal five!"

Everyone understood what Hua Yao meant. Ouyang Fantong was far inferior to Tang Yungui. They had only tied because of the rules!

If there was a bonus point system, Tang Yungui's score would exceed the five-point limit, and Ouyang Fantong's limit would be five points!

There was no comparison between the two!

Ouyang Fantong's face turned ashen. These words were like a slap to his face in front of everyone, and it was the kind of slap that used both hands!

However, he had no way of refuting that. The person up there was the headmaster of the Fuyao apothecary school, and the words of the other party were the law of the school. Who could reason with him?

"In any case, everyone should also congratulate Ouyang Fantong. After all, he is the only student to get five points other than Tang Yungui. The others did not get five points. The overall ranking will be announced later. At the same time, the overall ranking of the first and second round will be announced."

"The top ten students will enter the third round of the debate. Those who are not in the top ten can leave the hall and go back to rest! If there are any students who are tied for the top ten, there will be an additional round of competition after the break to determine the top ten to participate in the third round. So, please be prepared. "

After Hua Yao finished speaking, the instructors began to announce the new overall ranking. The second round of practical assessment's scoring was very simple. Every student who completed the assessment would receive a score on the spot and fill it in behind the first round's score. The real-time ranking would then begin.

After the first round, Tang Yungui was at the top of the list, and Ouyang Fantong was second. It was still the same. The first two places had not changed, but the changes after them were greater.

The few people who had gotten five points in the previous theory assessment did not perform too well this time. Only one student who was originally ranked ninth got 4.5 points and rose to third place.

The rest of them had only gotten four points, and those who had gotten 4.5 points in the second round had caught up, forming a large tie.

There was even one who only got 3.5 points and disappeared into the crowd. Not to mention the top 10, he directly ran out of the top 50!

"The ranking has been announced. This time, everyone's scores are very close. Other than two 10 points and one 9.5 points in the top three, there is no doubt that many students with nine points are tied."

"So, we'll have an extra match next. Those who have less than nine points can leave. Those who have more than nine points can go to the side to rest and wait for the extra match to end before entering the third round of the assessment!"

"The extra points won't be counted into the total points. The extra points will start in three minutes. Do you understand what I just said?"

The students with less than nine points left one after another. Those with nine points stayed where they were. Tang Yungui and the other three students in the top three walked to a corner and watched from the side.

"Ouyang Fantong, you've lost!"

Tang Yungui stood in the corner and said proudly, ""You've used all your strength, haven't you? That's all! Good son, quickly call me daddy!"

After so many years, Tang Yungui could finally hold his head high in the air!

Tang Yungui had not allowed his three senior sisters and brothers to stand up for him when he had been beaten and bullied previously because he wanted to amaze the world with a single brilliant feat.

Now, Tang Yungui could finally rely on his own abilities to look down on everyone!

"Bah! Which eye of yours saw this young master lose? Right now, the total score was ten for each other, how did they lose? This is a tie for the first place, not something like you monopolizing the first place. Can you have some shame?"

Of course, Ouyang Fantong refused to admit defeat. She put up a strong front and said, ""If you say that this is your win, then this young master will say that this is my win!"

He had scolded Tang Yungui for being shameless, but he himself was completely shameless. It would be more embarrassing to admit defeat anyway, so he might as well be shameless!

"Hehe, the Dean already said that you're not as good as me! Do you think that the director's words were not clear enough? Or do you want to question the Dean's judgment?"

Tang Yungui was just teasing Ouyang Fantong and making him feel uncomfortable.

Anyway, this guy had bullied Tang Yungui a lot in the past. Now, he would take it as interest.

"I'm not questioning the Dean. I'm just stating a fact, and that is you and I are equally divided!"

Ouyang Fantong didn't dare to say anything bad about Hua Yao, so she could only insist on the fact that everyone had the same share: "You got ten points and I got ten points too, so why do you think you can beat me? Tang Yungui, open your eyes and take a look. If you have eleven points now, I'm willing to accept my loss and have nothing more to say!"

"Forget it, it's meaningless to argue with you about this. I can't argue with you about this nonsense! If you want to go back on your word, I can only admit that you're better than me in this aspect!"

Tang Yungui gave Ouyang Fantong a thumbs up, indicating that he was willing to admit defeat in the aspect of shamelessness.

Although it wasn't anything good, Ouyang Fantong was actually a bit proud!

No matter what it was, it was a good thing that it could beat Tang Yungui!

moreover, on second thought, the third round was a debate!

in a debate, one had to be eloquent. tang yungui used to be a good-for-nothing who was bullied and could not even speak properly. although he had improved a lot and knew how to mock and provoke people, he was still not good at talking!

otherwise, he wouldn't have admitted defeat!

ouyang fantong's heart suddenly brightened up, feeling that there was hope in life again!

"tang yungui, don't say that i'm bullying you. how about this, i'll give you another chance. there will be a winner in the third round of debate!"

ouyang fantong thought that she was definitely going to win in this aspect, so she said to tang yungui with certainty, ""we'll directly decide the winner in the debate. at that time, there will definitely be no more draws!"

"Everyone has five chances to fight each other. There's a high chance that we'll meet each other once. If not, we can apply for a duel. That's no big deal. I believe the Dean won't refuse!"

"How is it? This is the last chance to determine the winner. Do you dare to accept it? Don't try to hide, just say it!"

Ouyang Fantong was afraid that Tang Yungui would not agree. She urged him impatiently, not even giving him time to think.

"What's there to be afraid of? No problem! I'm just afraid that you'll go back on your word when you lose!"

Tang Yungui didn't refuse. He was confident in himself and in Lin Yi's teaching!

Chapter 8304

Moreover, after two rounds of ranking first, his confidence had already exploded!

"Who's cheating? I told you that it's a draw now, but as long as there's a winner, who would go back on their word? Do I look like that kind of person? There were so many witnesses! Can you be shameless?"

The student in third place was completely invisible and couldn't even be considered as a background. He wanted to say that he could be a witness, but Ouyang Fantong clearly didn't want to pay him any attention.

If he went up to her, he would probably suffer. So, after hesitating for a while, he didn't say anything in the end.

At this time, the tiebreaker match began. Ouyang Fantong had the result she wanted, so she no longer paid attention to Tang Yungui and began to pretend to watch the tiebreaker match.

The tiebreaker match had just begun when a person suddenly entered the hall.

Lin Yi looked up-it was his old friend, Ouyang Changhong!

After Ouyang Changqing became the acting Hall Master, Ouyang Changhong became the acting president of the alchemy Association. As long as Ouyang Changqing held his position as the Great Hall Master, he would also become the acting president!

In theory, the apprentice apothecary examination this time around was also managed by the apothecary Association. Thus, as the acting president, there was nothing wrong with him coming over to take a look.

Moreover, Ouyang Fantong was a disciple of the Ouyang family. As a Clansman, it was normal for Ouyang Changhong to show some concern.

"Guild leader Ouyang!"

Hua Yao didn't like this fellow, but he had no choice but to come out and welcome him. He held the illusionary title of the alchemy Association's Vice-President. After all, he was still half a rank lower than Ouyang Changhong.

"Principal Hua! I'm here to see the progress of the apprentice apothecary examination. The higher-ups are waiting for us to submit the name list. Is everything going well here?"

Ouyang Changhong put on airs and had the air of a leader. "Oh, two rounds have already ended! Our Fu Yao apothecary school is indeed filled with talented students, but we've only allocated five slots. That's a little too little!"

"I'm flattered. President Ouyang, you're flattering me. Since you're here, why don't you be a guest judge? It just so happens that we're having an additional competition to compete for the top ten places. Is President Ouyang willing to give the children a chance?"

Hua Yao did not really want to invite Ouyang Changhong to be a judge. It was just a customary rule!

If the president of the alchemy association were to participate in the apprentice alchemy test, he would automatically become one of the judges!

Since there was such a rule, instead of letting Ouyang Changhong bring it up himself, Hua Yao naturally mentioned it first to avoid Ouyang Changhong finding trouble with him.

"Since it's principal Hua's invitation, I can't refuse it!"

Ouyang Changhong laughed and turned to Lin Yi. "Dean Sima is also a judge? We are really fated! Tang Yungui, who was at the top of the list, was said to be the disciple of Dean Sima, right? As expected of Dean Sima's disciple, you're amazing!"

The others were basically complimenting Tang Yungui and Lin Yi, but Ouyang Changhong's words were completely different.

Even a fool would know what that sarcastic tone and mocking smile meant.

"Ha ... President Ouyang is really polite. I heard that Ouyang Fantong, who is ranked second, is also a disciple of your Ouyang family. The Ouyang family is indeed worthy of being an old family with a deep foundation. Any disciple of yours has amazing talent!"

"His abilities in certain aspects are even more amazing. If not, he wouldn't have been qualified to share ten points with Tang Yungui!"

Lin Yi was talking about Ouyang Fantong's cheating. If Hua Yao could see it, Lin Yi could see it even more clearly, but he didn't expose her.

Now that Ouyang Changhong was here, Lin Yi didn't mind telling him that he was cheating in front of him. It was the style of the Ouyang family!

Poor Ouyang Changhong didn't even know what was going on-he didn't even know that Lin Yi was mocking him! He even thought that Lin Yi's words were quite pleasant to the ear!

"This nephew greets uncle Chang Hong!"

When Ouyang Fantong saw her family come in, her eyes immediately lit up, as if she had been injected with chicken blood. She immediately ran over to greet them.

Although Ouyang Changhong wasn't his uncle by blood, and there was a bloodline between them, he could be considered his uncle. However, since they were both disciples of the branch bloodline, they were naturally closer to each other. They were relatives who visited each other more often.

Otherwise, Ouyang Fantong would not have come to Ouyang Changqing and Ouyang Changhong's territory to study.

He had come here to obtain the care and protection of Ouyang Changqing and Ouyang Changhong!

This was also why he wasn't afraid of Lin Yi in the library-he had someone backing him up!

Especially now that Ouyang Changqing had come, Ouyang Fantong felt that her chances of winning were even greater, and she was even more confident!

"Fan Tong, your results aren't bad. It's just that you didn't rank first, which is a bit of an embarrassment to our Ouyang family! You have to continue to work hard and make people willingly place you as their top priority, understand?"

Ouyang Changhong patted his nephew's shoulder and spoke with a sincere expression.

In fact, he was implying that Hua Yao was deliberately targeting the Ouyang family!

otherwise! why would ouyang fantong be placed second when she and tang yungui had the same points?

the two of them were either tied for first place, or ouyang fantong was first!

this was simply a slap to the ouyang family's face!

however, after hearing this, ouyang fantong felt a bit embarrassed.

he was too embarrassed to say that he was ranked second because his skills were not as good as his opponent 's. he was already considered lucky to have the same points now ...

if he really wanted to argue over this matter, he probably wouldn't be treated equally. hua yao was in a hurry. if he insisted on picking a fault with him, he would be screwed!

"hehe, the elites of the ouyang family are indeed extraordinary! however, if you want to become the well-deserved number one, you do need to work harder!"

Hua Yao pursed his lips and put on a fake smile. "Fortunately, the test isn't over yet. There's still the third round, which is enough for Ouyang Fantong to prove herself! Guild leader Ouyang, let's not talk about this for now. Let's settle the tiebreaker match!"

After he finished speaking, Hua Yao turned his body to the side and made a gesture of invitation. Then, he did not care whether Ouyang Changhong left or not. In any case, he left first.

Lin Yi walked over to the other participants as well, not bothering with Ouyang Changhong.

Ouyang Changhong was secretly embarrassed and angry. Just as he was about to flare up, he felt his sleeve being lightly pulled a few times.

He turned his head in puzzlement and saw Ouyang Fantong's head lowered, her hand secretly pulling on his sleeve.

"What's going on?"

ouyang changhong's brows slightly furrowed. he knew that something was wrong and asked in a low voice, ""what's wrong? is hua yao being biased?"

"uncle, please come here to talk ..."

ouyang fantong was a little embarrassed and tried to keep her voice as low as possible. she secretly pointed at a corner of the hall.

Chapter 8305

There weren't many people there, and it was more secluded, suitable for whispering.

Ouyang Changhong nodded and followed him to the corner without making a sound. He also secretly swept his gaze around to see if anyone was paying attention to them.

He felt that as the president of the alchemy Association, he should be the focus of everyone's attention, and his every move would be magnified.

In the end ... He didn 't!

In the hall of ceremony, most of the students were participating in the competition, and the eliminated ones had already left. For the sake of the quota, these students who participated in the additional competition had no other thoughts. How could they have the mood to pay attention to others?

Other than the students, there were Hua Yao, Lin Yi, and the teachers.

With Lin Yi and Hua Yao paying attention to the participants, the other instructors naturally followed their lead as well. Ouyang Changhong was thinking too much that he'd be the center of attention!

Originally, he didn't want to attract attention, but if no one really cared, Ouyang Changhong suddenly felt a bit more lost and resentful!

I'm the president of the alchemy Association. Even if I'm just an agent, I'm still the president! No one actually noticed?

Are you all F * cking blind?

Ouyang Fantong didn't know about her uncle's complicated thoughts. After she reached the corner, she vigilantly observed the surroundings and then lowered her voice, "Uncle, you came at the right time! Uncle, please help your nephew!"

"What's going on?"

Ouyang Changhong suppressed the frustration in his heart and asked in a deep voice, ""But I guessed right. Hua Yao and the others are being unfair to you? Don't worry, uncle will make the decision for you! How can we, the Sima clan's people, be so easily bullied by them?"

"No, uncle, please listen to me ..."

Ouyang Fantong felt even more embarrassed. She no longer cared about her face and directly told him about the bet with Tang Yungui and the assessment process. Then, she carefully said, "I did my best to tie with Tang Yungui in the first two rounds. The third round will be the time to decide the winner!"

Ouyang Changhong cursed in his heart. This was a disappointing thing!

Why did he praise others and belittle his own prestige? he said he would use all his strength when it was a draw. He clearly felt that he was no match for Tang Yungui!

However, now was not the time to talk about this. The most important thing now was to protect the face of the Ouyang family!

If Ouyang Fantong lost, would she really have to call Tang Yungui "father"?

Then wouldn't tang Yungui be of the same generation as him, Ouyang Changhong?

Tang Yungui's master, that annoying fellow Sima Yi, was a generation older than him for no reason?

This was absolutely intolerable!

"Tell me, how do you want uncle to help you? There doesn't seem to be much room for manipulation in a debate ..."

Ouyang Changhong calculated for a moment. Even if he could become the judge for the third round, it wouldn't be of much use.

In a debate, if you can make others speechless, you win. If you can't win, you lose!

As for alchemy, there really wasn't much to quibble about.

If you say that refining pills this way is wrong, if you want to refine pills that way, when you can't get over it, just try it and you'll know who's right and who's wrong!

Such a situation where it was difficult to determine who was better in a debate basically didn't exist among junior alchemists, let alone apprentice alchemists!

"Uncle, I have some confidence in the debate. If I meet Tang Yungui, I'm also confident that I can defeat him. But just in case, it's best to restrict him ..."

Ouyang Fantong thought that she had the ability to beat Tang Yungui, but the first two rounds had left a deep psychological shadow in her heart. Thus, she had a crooked idea. "For example, is there a way to make him stammer ... Or make him suddenly feel unwell and unable to participate in the third round of the assessment?"

When he heard this, Ouyang Changhong was instantly stunned!

What the f * ck do you think I am? Is he your hired thug or your hanger-on? you actually want me to do this kind of dirty work for you?

Is this kid out of his mind? You actually know so much about what I like to do!

"How can it be that easy? Since you're so confident, then don't play any tricks. It's not good for our Ouyang family's reputation!"

Ouyang Changhong had already agreed in his heart, but on the surface, he still had to preach righteously, ""However, that kid is Sima Yi's disciple. This has nothing to do with the competition. I, your uncle, was looking for an opportunity to teach him a lesson. You're lucky this time!"

"yes, yes, yes, it's always your nephew's luck to be able to receive uncle's care and support! i wonder how uncle is going to do it?"

after listening to the first half of the sentence, ouyang fantong was still a little nervous, but after listening to the second half, she was suddenly very happy and repeatedly echoed!

he didn't care what the reason was. as long as ouyang changhong agreed to deal with tang yungui, it was enough!

"uncle, principal hua and sima yi are both here. we can't let them find out anything when we attack ... otherwise, it's a small matter if we lose face, but it'll be a sin if we bring shame to the clan ..."

such a fake appearance ... ouyang changhong thought to himself, "as expected of a clansman of our ouyang clan. we do have the same bloodline!"

at this moment, he felt a sense of intimacy as if they were connected by blood!

"Then let's just forget about it. It's not worth it to affect the reputation of our Ouyang family!"

Ouyang Changhong had deliberately said this to tease Ouyang Fantong. Who asked this kid to actually dare to use him as a gun!

"Uncle must be joking. With uncle's strength, there won't be a problem if you make a move. Not to mention Sima Yi, even principal Hua won't be able to find anything amiss!"

Sure enough, Ouyang Fantong fell into the trap and tried to save herself with an awkward smile.

"Alright, take me to Tang Yungui first. Tell him that I, the president of the alchemy Association, am concerned about the younger generation!"

Ouyang Changhong did not continue to tease Ouyang Fantong. He waved his hand and motioned for him to take him to see Tang Yungui.

the two of them walked to another corner. tang yungui and the third-ranked student were still waiting for the results.

seeing ouyang changhong and ouyang fantong come over, the student in third place immediately became a bit nervous. he quickly stood up with his hands down and slightly bowed to welcome ouyang changhong.

he wasn't even an apprentice alchemist yet, and ouyang changhong was the president of the alchemy association, the head who was in charge of managing alchemists. it would be a lie to say that he wasn't nervous!

"we pay our respects to guild leader ouyang!"

tang yungui and the student saluted together. this was a proper etiquette. they would not deliberately skip it just because they were on different sides.

"You're welcome! You must be Tang Yungui? As expected, he was a talented young man! This seat has heard from Fan Tong that your talent in alchemy is top notch. Currently, our sub island's true alchemy talents are extremely scarce and are only here to make up the numbers. "

Ouyang Changhong smiled warmly as if he had really come to comfort Tang Yungui. "That's why this Lord specially asked Fan Tong to bring this Lord to get to know a genius like you. If there's anything presumptuous, please forgive me!"

Chapter 8306

As for the student in third place, Ouyang Changhong did not even bother to greet him. He was a completely invisible existence.

Tang Yungui was suspicious. He didn't believe a word or a punctuation mark of Ouyang Changhong's words, but he couldn't guess what the old fox meant.

"Guild leader Ouyang, you're too kind. I was just lucky. I don't deserve such high praise from you!"

Tang Yungui had no choice but to respond with empty words. Then, he continued to think quickly in his mind, trying to figure out what Ouyang Changhong meant.

Ouyang Changhong patted Tang Yungui's shoulder like a senior encouraging his junior or a superior praising his subordinate. ""You're very good and very humble. You're indeed a good child. You must keep up the good work and continue to achieve more brilliant achievements! I have high hopes for you!"

"Thank you, guild leader Ouyang ..."

Tang Yungui thanked him with a dumbfounded expression.

What did this mean? You think highly of me? You just think I can beat Ouyang Fantong?

So Ouyang Changhong supports Ouyang Fantong calling me dad? So, Ouyang Changhong wants to recognize me as a brother? And then he would call his master uncle?

Was he trying to make his master look older because he couldn't defeat him in a direct battle? What a vicious intention!

Tang Yungui's thoughts ran wild. Before he could come back to his senses, Ouyang Changhong had already turned and left with Ouyang Fantong. It was as if they had come just to say these words.

This time, Tang Yungui was even more confused!

The people of the Ouyang family were so weird!

What kind of magical operation was this? Come over to encourage the opponent?

Returning to the original corner, Ouyang Fantong also had the same thoughts and asked with a confused face, "Uncle, what were we doing there? Why did he have to encourage his opponent? Are you trying to let him win so that he can throw the face of our Ouyang family?"

"Impudent! What are you saying? Is this the tone and attitude you should have when talking to your uncle? Are you trying to teach me a lesson?"

Ouyang Changhong's face sank. He immediately put on the airs of the alchemy Association's President. ""You must always remember that you can't overstep your boundaries, or you'll go too far! Be clear about your identity and think before you speak or do anything. Don't go beyond your duty!"

"Yes, yes, yes! Uncle is right! Your nephew has offended you ... I'm sorry uncle! I know I was wrong. I'll be more careful next time ... No, no, no, there won't be a next time!"

Ouyang Fantong's forehead suddenly broke out in cold sweat after being scolded so lightly.

Whether it was in the Ouyang clan or the naduo conferred Empire, his status was far from being comparable to Ouyang Changhong 's!

If it was anyone else, they would have deserved to be beaten to death by that questioning tone just now!

If this was in the family, a simple act of disrespecting the elders would be punished by the family laws and forced to kneel in the ancestral hall.

"It's good that you remember! Don't let there be a next time!"

Ouyang Changhong was quite satisfied with Ouyang Fantong's attitude. He indifferently said this, then lowered his voice and said,"You don't have to worry too much about Tang Yungui. According to my observation, that kid's body seems to be a little unwell! Therefore, they might not be able to speak properly during the debate! Don't even talk about competing with you, it's hard to say if you can even play in a game! Perhaps the quota this time will have nothing to do with him!"

As expected, uncle had secretly taken action!

Ouyang fanxuan immediately understood and was overjoyed,""Uncle's eyes are like torches, I'm sure he's not mistaken! It seemed that Tang Yungui's luck was really bad! It's such a pity that there's a problem with your body in such an important match!"

"I was thinking of having a showdown with him in the arena! From the looks of it now, he was afraid that he did not have any chance! What a pity! It's rare to find an opponent!"

He didn't ask Tang Yungui why he was feeling unwell. It was obvious that Ouyang Changhong had done something behind his back. Although he didn't know how he did it ... It didn't matter anyway!

The important thing was that Tang Yungui was finished!

Thinking of this, Ouyang Fantong felt as refreshed as if she had drunk a glass of ice water in summer!

"That's right, it's indeed a pity! He was a good seedling. If he missed it this time, he could only wait for the next time! What a pity!"

Ouyang Changhong also shook his head and sighed hypocritically. Then, he exchanged a look with Ouyang Fantong.

Everyone knew what was going on. It was quite interesting to see the other party act like this!

The two of them once again had a feeling of blood connection. This feeling was really good!

Ouyang Fantong didn't know how Ouyang Changhong had done it. In fact, Ouyang Changhong himself didn't think that he would be able to accomplish his goal so smoothly and easily.

This Tang Yungui was still a bit of a coward. If it was his Master Lin Yi, Ouyang Changhong wouldn't have any confidence and wouldn't even dare to make a move!

He didn't want to go for wool and come home shorn-he'd be the one to suffer before Lin Yi.

Tang Yungui hadn't spent much time with Lin Yi, so he didn't learn to be as cunning as he was.

However, the reason why Ouyang Changhong had been able to get it so easily this time was that he happened to have such a small thing in his hands. It was one of the formulas he had obtained from the Ouyang family last time. It was in the same batch as the health pill, so he had made some together with it.

This thing took effect quickly, but it didn't kill anyone. It only made people uncomfortable and speechless, unable to even speak. It couldn't be used to frame Lin Yi's "Alchemy 2."

Now, it was perfect for Tang Yungui!

Just now, Ouyang Changhong had used the action of patting Tang Yungui's shoulder to put this colorless and odorless medicine on Tang Yungui's body. As long as he inhaled a little, it would take effect soon.

At that time, not to mention debating with others, he wouldn't even be able to speak. The best choice would be to quickly admit defeat.

Unfortunately, Ouyang Changhong thought that his plan was flawless. He didn't know that Lin Yi's spirit sense was already monitoring the entire scene.

Every action, every word, and every action of the old man and Ouyang Fantong never left Lin Yi's spirit sense.

With the strength of Lin Yi's spirit sense, even Ouyang Changqing wouldn't be able to detect it, let alone Ouyang Changhong!

So the little things they thought were hidden, as well as the things they thought they were whispering to each other, Lin Yi knew everything!

Tang Yungui had fallen into a trap, so how could Lin Yi be indifferent? When Ouyang Changhong made his move, Lin Yi's spirit sense had already protected Tang Yungui and swept away the medicine.

It was colorless and odorless, and not easy to be discovered by the target. Naturally, it was also not easy to be discovered by the person who did it.

Ouyang Changhong thought he had succeeded, but he didn't know that his potion didn't even touch Tang Yungui's body!

Chapter 8307

Lin Yi had wanted to use the potion on Ouyang Fantong, but after thinking about it, Tang Yungui lost Ouyang Fantong as an opponent. It was like losing a Whetstone, and it might not be a good thing ...

So, he decided not to. It was good to keep this little bad guy to train Tang Yungui.

Moreover, the potion was used by Ouyang Changhong, so he would most likely have the antidote. Even if Ouyang Fantong fell for it, there might not be any major consequences. Instead, it would alert the enemy!

Lin Yi decided to observe the situation first. When Ouyang Fantong found out that Tang Yungui was fine, would the kid panic?

Lin Yi rubbed his chin and smiled. He was suddenly looking forward to seeing Ouyang Fantong's expression!

"Guild leader Ouyang, principal Hua has invited you over. The tiebreaker match is about to end and we need guild leader Ouyang to make a judgment!"

An instructor was sent to look for Ouyang Changhong and ask him to come over to participate in the judging.

Although it was the same whether he was there or not, since Ouyang Changhong was here, he had to show enough face!

There was nothing much to say about the tiebreaker match. A group of students with nine points competed again and finally decided on seven people who ranked higher. They joined Tang Yungui's group of three and made up the top ten contestants.

"I've thought about it. There's no need to draw lots for the third round of the debate. Let's just have the debate between the top five and the bottom five! Because there are five spots this time, if there wasn't a third round, then the top five students would've already naturally obtained a spot!"

Hua Yao suddenly spoke up from the stage, wanting to change the rules.

Of course, this was only a small change, and no one would refute him. "So, the third round of the debate is actually an opportunity for the last five to challenge the top five to obtain a spot!"

"The last five students will have to debate with the first five students in turn. The winner gets one point, and the loser gets one point. After five rounds, the total score will be calculated and the final five students will be determined!"

Everyone had to debate for five rounds, and the top five and the bottom five were divided into two groups. It sounded very fair, but the only person who was dissatisfied was Ouyang Fantong!

He wanted to clear his name by defeating Tang Yungui. If he did not have the chance to fight, wouldn't all his previous arrangements have been in vain?

He, Ouyang Fantong, wasn't so generous to mess with Tang Yungui and let the bottom five take advantage of him!

He and his uncle, Ouyang Changhong, had taken the risk while others had taken the benefit. In the future, people would say that Ouyang Fantong had lost to Tang Yungui, and Tang Yungui had lost to the five people behind him ... Then what reputation would he have left?

"Headmaster! I have a question to ask!"

Ouyang Fantong, who was not willing to be someone else's wedding dress, stood up at this time and cupped her fists with a humble face: "I have a bet with Tang Yungui. They agreed to fight him in the debate. If I follow the Dean's arrangement, I will not have the chance to meet him. It is such a pity ..."

"So I have a presumptuous request. I hope you can grant it ... Let me and Tang Yungui have a debate!"

"Oh, so you know that it's a presumptuous request!"

Hua Yao squinted his eyes and looked deeply at Ouyang Fantong. He then said with a faint smile, "It's good for young people to be hot-blooded, but since the rules have been set, they can't be changed easily!"

"Uh ..."

Ouyang Fantong was a little embarrassed. Was he directly rejected? Then he wouldn't have the chance to say all the words he had prepared later!

Originally, Ouyang Fantong had wanted to put up facts and reason to argue!

"Cough, cough, I think I can consider it!"

At this time, Ouyang Changhong knew that it was his turn. This Hua Yao changing the rules was clearly aimed at Ouyang Fantong! "Principal Hua," he said hurriedly, "since it's a bet between two students, it means that it's the will of both parties. Can you consider it?"

"En, guild leader Ouyang's words make sense, so this old man hasn't finished speaking!"

Hua Yao squinted his small eyes again and looked at Ouyang Changhong with a smile that was not a smile. He then continued, "Don't worry, you still have a chance to fight later! That's because there's a prize after the final five spots are decided, and you can fight for it!"

"As everyone knows, those who obtain this quota can apply for the silver apprentice Alchemist test. Even if they fail the test, they will still be able to obtain the title of bronze apprentice."

"However, this old man still held back some of my strength. Actually, this time, among the five slots given to us by the higher-ups, one of them can directly apply for the gold apprentice Alchemist test!"

"Even if you fail the test, you will still receive the silver rank apprentice Alchemist title. This is the only one of the five slots! Don't think that you can rest in peace after getting five places. As long as you have some ambition and ambition, you should prepare well and strive to get the only place!"

Hua Yao threw out such a great temptation. His eyes swept over Ouyang Fantong and Tang Yungui. "The two of you are the most outstanding students this time. This old man believes that you will definitely enter the five-person list! As for who will get the one and only silver rank slot, it will depend on your own performance! That's when the two of you will be at your peak, so there's no need to rush now!"

Ouyang Changhong, on the other hand, was dumbfounded when he heard this. He immediately felt some resentment in his heart!

Especially when he thought of Hua Yao's meaningful squint just now, Ouyang Changhong felt that Hua Yao had definitely done it on purpose!

he had only said half of what he wanted to say and had deliberately left it out. he was trying to take advantage of the fact that he, the acting president of the alchemy association, was not familiar with the business!

in reality, ouyang changhong was thinking too much. he had just taken over the alchemy association, and he had not had the time to sort out these insignificant matters.

he was already too busy with the big matters of selling pills that the blue-robed manager had instructed him to do, how could he have the time to research anything else?

hua yao squinted his eyes. that was just a habit of his.

ouyang changhong was dumbfounded, but ouyang fantong was anxious. tang yungui would have been eliminated by then, so what was the point of the duel?

at the end of the day, it would still benefit others! this won't do!

thinking of this, ouyang fantong quickly gave ouyang changhong a look, indicating that he should continue to interfere.

"Ahem, principal Hua, these two students have tied for two rounds in a row, which means that their strength is similar. It's not impossible for them to fight at the end, but young people are impatient. After all, this concerns the reputation of our Ouyang clan and principal Sima. We deliberately suppressed it, as if we were afraid of who!"

Ouyang Changhong had spent a lot of effort to use underhanded methods, so of course, he couldn't just watch Ouyang Fantong miss the opportunity. So, he could only brace himself and continue: "It's a bit too long to wait until the end. It'll also affect the mentality of the two students. So, in my opinion, it's better to arrange for them to have a duel first!"

Chapter 8308

"this battle is considered as an additional battle, which means that the other five battles won't be affected. the outcome of the battle won't have much of an impact on the others. after all, they now have one more point than the others. even if they lose, they'll only be the same as most people. it's more advantageous to the others, isn't it?"

the guy in third place was speechless when he heard this. he thought to himself, "the two of them only scored 0.5 points higher than me!" how could losing one point not affect him? if i lose one point, i'll be second!

although this was a good thing, there should be a limit to how much you can ignore people, right?

"president sima, do you want them to fight first?"

Hua Yao was expressionless. He looked at Ouyang Changhong coldly and indifferently. "It doesn't seem necessary!"

"It's necessary! The battle between the two people who are tied at the top of the list will definitely be very exciting. It can also liven up the atmosphere and give a demonstration to the others. It can also settle the bet between the two of them. "

Ouyang Changhong smiled indifferently. "Besides, this is their wish. We'll just fulfill their request. Isn't that good?"

Hua Yao looked at Lin Yi hesitantly, hoping to see something from his face.

Lin Yi needed an explanation as to whether he supported or opposed the idea.

Lin Yi, on the other hand, didn't seem to care at all, making it clear that he didn't want to get involved and was letting Hua Yao do as he pleased.

"Tang Yungui, what do you say? Do you want to have a duel with Ouyang Fantong first?"

Hua Yao had no choice but to ask Tang Yungui for his opinion. If Tang Yungui did not agree, the duel would naturally be over.

Tang Yungui cupped his fists and nodded. "I have no problem with that. Please make the arrangements, director!"

Just as Ouyang Fantong was eager to defeat Tang Yungui to regain his original dignity and confidence, Tang Yungui was also eager to deal with Ouyang Fantong and say goodbye to the weak and bullied Tang Yungui!

From today on, Tang Yungui, who had won over Ouyang Fantong in all aspects, was no longer the Tang Yungui who could be stepped on by any Tom, Dick, or Harry.

The newborn Tang Yungui would set sail from here and follow in his master's footsteps. His name would eventually shake the world!

Hua Yao was speechless. He thought to himself, I wanted you to refuse! What the hell do you mean by no problem? You're making this old man have a problem!

He looked at Lin Yi again-he was still as calm as ever. Hua Yao's lips twitched. Fine, since the person in question wasn't in a hurry, then so be it!

He also understood that Lin Yi was most likely confident in Tang Yungui and thought that he could completely defeat Ouyang Fantong. Naturally, he didn't mind adding another round.

"Alright, since both of you have agreed, I'll let you have a duel first! It's also a good example for others!"

Hua Yao motioned for Tang Yungui and Ouyang Fantong to go up the stage. Then, he placed a table and a futon on each side and let the two of them sit. "The topic of your debate is this pill recipe!"

Bone-forging pill!

This was a low-level body-tempering elixir. It wasn't a precious elixir recipe, but it was very controversial!

All along, there had been several different types of pill recipes circulating.

If there was a big difference, you could say that it was two kinds of medicinal pills, but they were both called bone-forging pills!

This kind of low-grade pill formula was taught in the entire Fu Yao apothecary school. There were also some on the first floor of the library, but the number was relatively small. On the second floor, there were more!

Therefore, when she saw this pill recipe, Ouyang Fantong's heart immediately settled down.

No matter how hard Tang Yungui tried, he only started learning from Lin Yi recently. He couldn't even go up to the second floor before.

Even if her uncle's Black Hand had not taken effect, Ouyang Fantong was confident that she could beat Tang Yungui.

"As we all know, the bone-forging pill has been in dispute for a long time, and this elixir recipe is one of them. The iron bone grass in it is the biggest point of debate. Most people think that the iron bone grass is the essence of this bone-forging pill, even more so than the core of the dark spirit beast as the main material!"

"However, there are also some people who think that the iron bone grass can be replaced with the tendon softening leaf. This is because the iron bone grass is too strong and violent, suppressing the effects of the bone-forging pill, while the tendon softening leaf can increase the effects."

"In reality, both of them have their own merits, and it's difficult to determine which one is better. What you two need to debate about is this pill formula, which one is more suitable, or perhaps you can come up with a more perfect pill formula!"

There were many versions of the bone-forging pill's recipe, but the two recipes that Hua Yu had brought up were the ones that were the closest to perfection. Hence, the others were not worth mentioning.

It was basically impossible to come up with a more perfect pill recipe. Otherwise, with so many advanced alchemists researching it, there wouldn't be such a debate now!

"Let's start the debate! The time limit is one joss stick's worth of time. If there's no conclusion after one joss stick's worth of time, the judge will be the judge. If there's a conclusion, you can also refine the pill on the spot to verify it!"

Hua Yao waved his hand, turned around, and sat back in his chair, waiting to see the two of them debate.

Ouyang Fantong was afraid that Tang Yungui would take away the favorable argument, so she spoke impatiently, ""I think that the bone-forging pill's recipe should be made with the tendon-softening leaf. There's nothing much to say about this, because the bone-forging pill made from iron bone grass has a major flaw!"

The moment he opened his mouth, he would say something shocking. At the very least, he had to scare his opponent first.

It was hard to tell if Tang Yungui had been intimidated. Since Ouyang Fantong wanted to make the first move, he would do it first. So Tang Yungui just sat on the futon calmly and watched Ouyang Fantong's performance.

Ouyang Fantong's heart settled. She felt that she had won more than half of the battle and had seized the upper hand. After explaining her point of view, perhaps Tang Yungui's plot would flare up. At that time, he would not be able to speak and would be rendered speechless. Just thinking about it made him excited!

"Why do you say that there is a major flaw in the bone-forging pill made from iron bone grass? "First of all, everyone knows that the iron bone grass is very strong, which leads to the bone-forging pill's strong medicinal properties. When forging the bones, any martial artist with a weaker body will not be able to withstand the bone-forging pill's medicinal properties."

"Many times, the bone-forging pill has become the bone-breaking pill. It's just that no one has thought about it in this way. They think that the iron bone grass, which has a strong medicinal effect, has a better bone-forging effect! I don't know how many cultivators have been cut off from their path of advancement by this bone-forging pill. It's simply a poison that has caused great harm to people!"

He didn't say a single word about the advantages of the bone-forging pill made from the tender tendon leaf. He only mentioned the flaws of the iron bone grass, which directly made the tender tendon leaf seem much better!

This was just a test, and there was no need to show all his cards, so it was enough to say this much!

Ouyang Fantong looked at Tang Yungui smugly and raised her hand to signal that the other party could start. At this moment, Ouyang Fantong was wondering if Tang Yungui could still speak.

Chapter 8309

She looked at Ouyang Changhong and got the same vague nod. Only then did Ouyang Fantong feel more relieved.

A nod meant that there was no problem. It meant that it was almost time for Tang Yungui to act up!

Just wait for a good show!

"I can't agree with Ouyang Fantong's point of view! It was ridiculous to say that the bone-forging pill made from iron bone grass was a poison! I even suspect that these words came from someone who doesn't understand medicine!"

Tang Yungui chose to confront Ouyang Fantong directly. As expected, a good show was about to start. "Using the iron bone grass for the bone-forging pill is the best choice. Although the tendon softening leaf also has the effect of forging bones and won't easily damage the bones, it's called the tendon softening leaf. It's easy to imagine the impact it will have on the bones and muscles."

"Perhaps in the eyes of a mediocre person, this impact is nothing. After all, between the positive effects of bone forging and the negative effects of tendon softening, as long as the positive effects are stronger, the flaws of the negative effects can be suppressed. It's like doing a business, earning 10 points, losing 50 points, and finally earning 50 points, you will feel that you have earned it!"

"In theory, earning five points is indeed earning, but there is clearly a possibility of earning ten points, so why only five points? The bone-forging pill made from iron bone grass could achieve the goal of earning ten points! And the danger of breaking bones that Ouyang Fantong mentioned before was only because she didn't control the fire well when she was refining the pill, and didn't completely stimulate the medicinal properties of the iron bone grass!"

"everyone thinks that the iron bone grass is extremely strong, so the bone-forging pill made from it is the same. the iron bone grass is refined normally, and its medicinal properties are indeed extremely strong. only by tempering it with an extreme alchemy fire and removing all impurities can the true essence of the iron bone grass be obtained!"

"my master once told me, 'a hundred times tempered steel becomes soft around the fingers'. this is the so-called 'yang is extreme and yin is born'. when the iron bone grass is tempered to the extreme, it will have the characteristics of being softer than the tendon-softening leaf, but it will also raise the strong medicinal effect of the bone-forging to a new level!"

"in this way, the bone-forging pill can be considered a true bone-forging pill. not only will it not damage the bones and bones, but its effects will also be greatly improved!"

what?

ouyang fantong was dumbfounded. she had been prepared to see tang yungui's embarrassment of being speechless, but what was the situation now? this kid's mouth is even better than before, okay?

the one who was left speechless became him, ouyang fantong!

it was because what tang yungui said did make some sense!

ouyang fantong subconsciously looked at ouyang changhong, thinking, "uncle, didn't you say the medicine would take effect?" what's the situation now? don't tell me you've helped him become more eloquent?

ouyang changhong was also frowning. no one knew what he was thinking.

According to his calculations, Tang Yungui should have acted up by now! Could it be that the medicine had expired?

If Ouyang Changhong had not calculated that the time for the attack was about to arrive, he would not have tried so hard to let them debate first! Now, it was a little awkward!

As an Alchemist, he had to admit that Tang Yungui's words made sense. However, it was difficult to refine the iron bone grass to the extreme and make it so that it had been tempered a hundred times. Not everyone could do it!

"Tang Yungui, do you think it's true just because you say so? For so many years, no one has been able to refine the bone-forging pill you speak of. No matter how good the theory is, if it can't be realized, then it's all nonsense!"

Ouyang Fantong didn't get a response, but she couldn't just sit around and wait for death. She could only use this kind of powerless counterattack to delay time, but thinking about it, it seemed like a good excuse.

it's useless to say good things about things you can't do. that's just sophistry! only when the feasibility was proven could it be brought up for discussion!

"you said that the iron bone grass can be tempered to the extreme, and then the bones will not be hurt, and the effect will be better. did someone make it before, or can you make such a bone-forging pill?"

"unless you can prove this point, your argument is not valid and you can't refute my argument. so, i will win this debate!"

as she said this, ouyang fantong began to feel proud again. she felt that she was really a clever little ghost, even such a counterattack could be done so easily!

as long as tang yungui could not prove it, he could easily win!

Tang Yungui frowned slightly. He could refine the iron bone grass to the limit and turn it from hard to soft, but he would have to use the heaven and earth spiritual fire in his body!

Lin Yi had warned him seriously not to reveal the fire in front of people ... This was no joke!

"I can prove that Tang Yungui is telling the truth! When the iron bone grass is refined to the extreme, its medicinal properties will still be strong, but it will turn from strong to soft. Not only will it not harm the body, but it will also have a better effect!"

Lin Yi said faintly, helping Tang Yungui out.

Under such circumstances, he could not let Tang Yungui use the heaven and earth spiritual fire to refine the iron bone grass. That would be a stupid mistake!

"Hehe, Dean Sima, it's not that we don't believe your proof, but we've never heard of this before. Just your empty words alone won't be able to make anyone believe you!"

ouyang changhong chuckled as he shot back at lin yi.

at this time, he had to stand on ouyang fantong's side, not to mention that his opponent was lin yi. even if he didn't have ouyang fantong's relationship, he still had to stand up against lin yi!

this was going against each other for the sake of going against each other. this was the highest realm of going against each other!

"besides, who doesn't know that tang yungui is principal sima's favorite student? as a master, it is reasonable for you to be biased towards your disciple. unfortunately, we can't just listen to you! don't you think so, dean sima?"

ouyang changhong himself could not refine the iron bone grass to the extreme, so he naturally thought that tang yungui could not do it either.

the reason why the iron bone grass was called iron bone grass was because this grass had iron bones, and it was very difficult to temper them.

when the bone-forging pill was made with iron bone grass, it was very difficult for the alchemist to integrate it into the pill, which led to the problem of broken bones.

"We don't have the habit of talking nonsense. We're very different from some aristocratic families. Since we've said so, we naturally have the ability to do it!"

Lin Yi smiled faintly and took out a metal bone grass.

This wasn't a precious herb, and there weren't many in the Jade space, but finding one or two wasn't a problem.

Fortunately, the Jade space had just recovered when Lin Yi was escaping from the illusion forest, and he'd put in a lot of useless herbs to test it out for fear of losing it again.

Chapter 8310

Otherwise, the herbs needed for alchemy on this Island would be different from the ones on Sky Class Island!

It wasn't that the Sky Class Island didn't have any iron bone grass, but because the island was filled with Qi practitioners, and no one trained their bones, the iron bone grass was useless.

"Didn't you want to see the evidence? Then open your eyes wide and watch!"

Lin Yi opened his palm, and a stable refinement fire rose from it, wrapping the iron bone grass in it.

This was not an ordinary alchemy fire, but a combination of elemental Qi and the consciousness alchemy fire. Although it was not as good as the spirit fire of heaven and earth, it was more than enough to temper the iron bone grass.

Tang Yungui didn't have the ability to use his consciousness pill fire. If he wanted to temper the iron bone grass, ordinary pill fire wouldn't work. He could only use the heaven and earth Spirit Fire.

So under the condition that the heaven and earth Spirit Fire couldn't be exposed, Lin Yi was the best choice!

Although Tang Yungui was already very familiar with using ordinary alchemy fire to envelop the heaven and earth spiritual fire, he was not 100% confident that he could do it well.

Lin Yi didn't dare to let him take the risk in front of so many people. If he made a mistake, Tang Yungui would be targeted by all parties in the future!

When you're weak, it's better to keep a low profile and develop in a sneaky way!

Having said that, the iron bone grass quickly changed under the tempering of the compound alchemy fire.

The impurities were removed, and only the purest greenish-black medicinal liquid was left.

Under normal circumstances, this was already the limit of the iron bone grass, but Lin Yi didn't stop. He continued to use his compound refinement fire at a steady rate and continued to refine the medicine.

Slowly, the greenish-black medicinal liquid ball shrank a circle and gradually turned emerald green. Moreover, it was no longer in that stiff posture in the alchemy fire, but began to have a kind of spiritual feeling.

It was as if the pill fire was water, and the ball of emerald green medicinal liquid was a fish, and the fish was swimming leisurely in the water.

Everyone was in an uproar.

Hua Yao's breathing quickened. He'd heard about Lin Yi's lectures before, but this was the first time he'd seen Lin Yi make a pill himself!

This one move stunned everyone.

The students present were even more so. Their eyes were wide open and filled with envy.

They were even a little jealous of Tang Yungui. With such an awesome master, they hoped that their father would die for the Academy and get a great teacher to guide them.

Ouyang Changhong's eyes were about to pop out of their sockets. He knew that Lin Yi's skills were extraordinary, but this was the first time he'd seen Lin Yi refine herbs.

As the saying goes, once an expert makes a move, one will know if he has it or not!

An expert could tell with one look-Ouyang Changhong admitted that he had some ability in refining herbs, but he was far from Lin Yi's level!

At the very least, he would not be able to easily and happily temper the iron bone grass to the point where it exceeded its limits.

So this was what it was like to be tempered into something soft?

Ouyang Changhong looked at the tiny emerald-green medicinal liquid ball and actually had a moment of absent-mindedness.

As for Ouyang Fantong, at this moment, there was only grey in her eyes. He felt that he was going to lose, and there was no chance to reverse the situation.

Soon, Lin Yi finished the refinement and put away the fire. He put the liquid into a small Jade bottle and threw it to Ouyang Changhong.

"President Ouyang, you can check if the iron bone grass's medicinal liquid has reached Tang Yungui's standard."

Ouyang Changhong subconsciously caught the small Jade bottle, but he didn't open the cap.

After watching the entire process and the changes, was there still a need to check the medicine?

If he really opened the bottle to check, he, Ouyang Changhong, would become a laughing stock! A piece of trash with no vision at all!

"No need! I've seen it just now. It has indeed reached the standards Tang Yungui mentioned ..."

Ouyang Changhong forced himself to calm down and forced out a stiff smile."Although there is no problem with the medicinal liquid, we still need to verify if it can be refined into a pill with the effect Tang Yungui said. But let's forget about it today ... I announce that Tang Yungui has won this debate!"

"Uncle! No... Guild leader Ouyang ..."

When Ouyang Fantong heard this, she immediately became anxious. Although she felt that she had already lost, she still hoped that Ouyang Changhong could turn the situation around.

But how could he announce Tang Yungui's victory so easily? Even Tang Yungui could refine pills on the spot to prove it!

If he admitted defeat, what about the bet? Wouldn't he lose too?

Ouyang Changhong angrily glared at his insensible nephew. He was also very dissatisfied.

Didn't you say that you could win Tang Yungui in a normal debate? What was the situation now? It had been settled in a single move!

If he continued to pester her, he would only embarrass himself even more!

It had already come to this point, what else could be reversed?

Get someone to refine the medicinal pill? Wouldn't that be a bigger slap to the face?

Ouyang Changhong was a smart man-if Lin Yi could refine the liquid to this extent, then making elixirs was a piece of cake. There was no need to test it at all.

"Shut up! A loss is a loss. As one of the judges, I still have the basic ability to judge!"

If Ouyang Changhong was the only judge, he might have lied through his teeth and said that Tang Yungui would lose no matter what he did.

However, he was only one of the judges. Although his words were useful, they could not play a decisive role. It was better to admit defeat. At least he could show some magnanimity!

Ouyang Fantong was stopped, and her face was full of confusion. In her heart, she resented Ouyang Changhong even more!

You said that Tang Yungui would fall for it and not be able to speak. What was going on?

This kid's mouth was really sharp, he couldn't speak? I'm the one who can't f * cking speak now, okay?

"Guild leader Ouyang, you're really open and honest. Fine, since you said that Tang Yungui won, then it's Tang Yungui's victory!"

Lin Yi was surprised as well. He thought that with Ouyang Changhong's personality, he would at least struggle!

I didn't expect this guy to be so single this time. Could it be that after becoming the acting president, he's starting to cherish his feathers and has become enlightened?

"The outcome has been decided. Ouyang Fantong, your bet with Tang Yungui ends here, right? What should you do? you don't need me to teach you anymore, do you?"

Lin Yi gave Ouyang Changhong a big thumbs up before turning to Ouyang Fantong. "Don't waste everyone's time, hurry up and do what you have to do!"

Ouyang Fantong's face turned pale. How could he be willing to kowtow to Tang Yungui in front of everyone and call him father?

It would be better to just kill him!

If he kneeled and shouted, he would probably be unable to raise his head in the Academy in the future. He might even be despised by the people of the Ouyang family when he returned!
