

Bodyguard 8351

Chapter 8351

If he was in the front row and was stared at by those big shots, he would not be so comfortable. Therefore, it was not necessarily a bad thing to hide in the corner.

Lu sanjian was more at ease-Lin Yi was far away from the front row, so he wouldn't have the chance to offend Wei zhentian.

"Brother Ouyang! You're also here to take part in the assessment? What a coincidence!"

As soon as everyone sat down, a young man at the side glanced over and came over to greet them with a smile.

And the target of his greeting was Ouyang Fantong, who no one was paying attention to.

Ouyang Fantong, who had long been used to being invisible, didn't react at first. She looked up at him in a daze, and only after seeing the other party's face did she understand that he was calling her.

"Hahaha! So it was brother Zhang! Long time no see, I almost couldn't recognize you!"

Ouyang Fantong jumped up and happily cupped her fists at the young man: "I'm here to take part in the assessment. Brother Zhang should be the same, right? What a coincidence!"

"Al! Brother Ouyang actually couldn't recognize this little brother, did he forget about this little brother? This is really too much. This little brother has been thinking about brother Ouyang for a long time, so I recognized you at first sight!"

The young man surnamed Zhang pretended to be displeased, but then he smiled and shook his head. His demeanor was not bad.

This Zhang brother looked at Lin Yi and the others. Although he was a little suspicious of Lin Yi's young age, he still greeted them seriously,"

"These people should be senior brother Ouyang's seniors and fellow disciples, right? Student Zhang Ling's mansion is a close friend of senior brother Ouyang. It is my honor to meet you!"

Lin Yi didn't know who this person was, but he was polite, so he smiled and nodded in response.

One shouldn't hit a smiling person. Zhang Lingfu was Ouyang Fantong's friend, but he wasn't Ouyang Fantong. Lin Yi didn't think that he needed to change his attitude towards Ouyang Fantong to Zhang Lingfu.

Tang Yungui and the others had been looking at Lin Yi and saw that he was acting friendly, so they also greeted Zhang Lingfu.

"Brother Ouyang, there are a few other brothers who have also come to participate in this assessment. Let's go and say hello together! We might become rivals later on. We're all on the same side, so let's communicate first so that we don't hurt our relationship later. "

After the ceremony, Zhang Ling turned his attention to Ouyang Fantong, wanting to take her to talk to someone else.

Lin Yi didn't care about what Ouyang Fantong did. If he wanted to go, then he would go. No one would care.

"Alright! It's been a long time since I've seen my brothers. Let's take this opportunity to catch up ..."

Ouyang Fantong had a smile on her face. She finally found a sense of existence. She glanced at Lin Yi and the others with a bit of pride, but no one cared about her.

In the group from the Fuyao Alchemy School, Ouyang Fantong had no sense of existence at all. If he told Lin Yi that he was going to talk to a friend, he would definitely not get a reply.

Since that was the case, Ouyang Fantong didn't say anything more and went with Zhang Lingfu to find his friends.

At this time, there were many people walking around to say hello, so Ouyang Fantong's departure did not attract any attention.

Lu sanjian waited for them to walk further away before approaching Lin Yi, "Dean Sima, you don't know that Zhang Ling Fu?"

"I don't know him. Why?"

Lin Yi shook his head naturally.

There were already thousands of people gathered in this place. Besides the few people beside him, he didn't recognize anyone else. What was so strange about that?

"It's nothing. That zhangling mansion should be a disciple of the Zhang family, an alchemy family. The Zhang family and the Ouyang family have a good relationship, so Ouyang Fantong knows the zhangling mansion ... In addition, there should be disciples from a few other alchemy families coming to participate in the assessment. The zhangling mansion brought Ouyang Fantong to greet those people. "

What Lu sanjian meant was that the Ouyang family's influence was quite big, and since Lin Yi was still bringing Ouyang Fantong along, he shouldn't give him the cold shoulder.

In the previous Huang family incident, Ouyang Fantong's performance was indeed very bad. Lu sanjian also looked down on this kind of villain!

However, when he thought about the Ouyang family, Lu sanjian felt that he should just punish them. There was no need to treat Ouyang Fantong like that.

"Oh, let him be. Someone who can be on good terms with Ouyang Fantong isn't worth our attention!"

Lin Yi didn't want to say anything bad, but people who didn't get along really didn't stick together.

Poor Ouyang Fantong's friends-they hadn't even met Lin Yi yet, and they were already labeled as bad people.

That's why it's really important to make friends!

Lu sanjian was just reminding Lin Yi subtly-it didn't really matter to him what Lin Yi chose.

Plus, Lin Yi did it with house Huang just like that-he didn't really care about house Ouyang or house Zhang.

He didn't know about the grudges between Lin Yi, Ouyang Changqing, and Ouyang Changhong, or he wouldn't have said those words just now. They were already enemies, and it was really too kind of them not to kill Ouyang Fantong!

Not long after, someone went up to the high platform, and those people who were wandering around and exchanging pleasantries returned to their respective places.

There was no need to urge him, the originally chaotic Hall quickly quieted down.

The middle-aged man on the stage looked very powerful. He stood there without saying a word, but he naturally exuded a kind of dignified aura.

"Dean Sima, that's the Dean of Tianxia college and the Executive Vice President of the alchemy Association of the martial Alliance, Wei zhentian!"

Lu sanjian introduced in a low voice, his voice as soft as a mosquito 's. Other than Lin Yi, no one else could hear him,"Dean Wei is a strict ... Serious person, so don't make any mistakes and get caught by him!"

He wanted to say that he was strict, but when he looked at Wei zhentian on the stage, the words that reached his mouth became serious.

"Dean Lu, you're really cautious. What's the big deal? Besides, I'm such a low-key person, how could I make a mistake and be caught by Dean Wei?"

Lin Yi didn't seem to mind at all, and Lu sanjian didn't want to say anything more. He only shrugged and stopped.

I hope you're really keeping a low profile ...

On the stage, Wei zhentian began his speech. He started off with a bunch of boring and conventional words, which could be considered as an opening speech. After that, he began to talk about the matters of the assessment.

"...The official assessment will begin tomorrow. Tomorrow is the first round. As there are more people, we might not be able to complete it in a day. Try your best!"

"The first round of assessment is relatively simple. Those who can come here are all outstanding talents who have been selected. Passing the first round shouldn't be a problem. The purpose of the first round of assessment is only to verify your success."

"If you can't even pass the first round, it means that you're just here to make up the numbers. The academies or martial Alliance branches that send people who are here to make up the numbers will lose their spot next year! If it is found that the person who made up the numbers used some shady means to obtain the quota, then he will lose the qualification to take the assessment for life!"

Chapter 8352

"I would like to advise everyone here that if you are aware of your own level and feel that you can't pass the first round tomorrow, you'd better quickly leave world city! There's still a chance to salvage the situation, but once you participate in the assessment, you can only see the results!"

"Of course, if there are any special circumstances in the first round that lead to poor results and failure to pass, after this Lord's verification, I can grant you a place for the make-up test after autumn. Listen carefully, you must go through this Lord's verification. Don't think of trying to get away with it!"

"After passing the first round, the second round will begin the day after tomorrow, followed by the final round. Those who pass will be awarded the title of silver rank apprentice Alchemist!"

"After this, the gold apprentice alchemy test will be held. Every Academy has one quota for the gold apprentice alchemy test. If there are any special circumstances, we will increase the quota by one or two. As for what special circumstances there are, it will still be up to this seat to judge!"

These words basically meant that I, Wei zhentian, have the final right of interpretation.

Wei zhentian spoke for a long time before he finally came to a temporary end.

After a slight pause, Wei zhentian's gaze swept across the entire place, ""This is the general process of the assessment. Go back and prepare well. I look forward to your performance!"

"I'll remind you one last time, you must follow the rules. If you break the rules, don't blame me for not warning you in advance! When the time comes for punishment, I will definitely not show any mercy ..."

After that, there was a lot of nonsense that Lin Yi thought was a waste of time and life!

After a long time, Wei zhentian finally finished speaking. It was unknown whether he was satisfied or his mouth was too dry to continue, but he waved his hand and announced the dismissal.

Lin Yi and the others were in the back corner, so it was easy to leave. They could just sneak out.

"Dean Lu, the assessment will start tomorrow. I didn't expect us to come in time. If we were two days late, we would have forfeited automatically, right?"

Lin Yi picked up a random topic on the way back to kill time, "Speaking of which, what's the purpose of this meeting today? I can't understand it at all!"

"Why can't I understand? Isn't it just to announce some details and rules of the assessment, and then warn the students not to resort to fraud and the like!"

Lu sanjian grabbed the beard on his chin and said, ""Actually, I don't think there's any purpose to this. You can just treat it as getting to know Dean Wei zhentian. It's been like this in the past, so you don't have to worry too much."

The two of them chatted for a while, but there was no result, so they went their separate ways!

After Lin Yi returned to the school, he thought that it was a good idea to be impatient. He called Tang Yungui and the others over and trained them.

No matter how much he could improve, at least he could perform better in the assessment.

Ouyang Fantong had become invisible again after she came back, and Lin Yi and the others didn't pay much attention to her. So, this guy also joined in and listened to Lin Yi's class.

Lin Yi didn't mind-the guy had never listened to Lin Yi's teachings before, and it'd be hard to make up for it.

There were many terms that people who heard for the first time would feel as if they had fallen into the clouds and would not be able to understand what they meant.

However, Ouyang Fantong was from the Ouyang family of alchemy, so she could more or less understand!

However, the more she understood, the more shocked she was!

At this moment, Ouyang Fantong had to admit that Lin Yi deserved the title of honorary Dean!

Lin Yi's alchemy skills were so profound that Ouyang Fantong was shocked. She envied Tang Yungui even more now!

Moreover, he was also a little regretful. If he had been like Diao mang Tian, taking the opportunity to admit defeat, it would have been good to be an in-name disciple.

However, it was too late to say anything now. Ouyang Fantong's heart was filled with jealousy and resentment!

Tang Yungui, I must surpass you and be stronger than you to prove that I, Ouyang Fantong, am the best student!

On the second day, people from all the colleges once again gathered in Tianxia College's alchemy sub-college and began to prepare for the first round of assessment.

Wei zhentian didn't explain clearly what the first test was yesterday, but since he said it wasn't difficult for the current candidates, Lin Yi didn't have to worry anymore!

Lin Yi knew the standards of these students, and even the unassuming Ouyang Fantong wouldn't be a problem.

According to the rules, only the students participating in the apprentice assessment could enter the examination field. The leading Academy higher-ups and teachers were not allowed to enter.

These people had no choice but to wait in their assigned spots. Lu sanjian had nothing to do, so he naturally pulled Lin Yi over to chat.

"Dean Sima, according to previous years, this first round definitely wouldn't have any difficulty. I think everyone will be able to pass! The key is tomorrow's second round. Yesterday, Dean Wei didn't say what the second and third round will test, so why don't Dean Sima make a guess?"

As Lu sanjian spoke, he picked up the kettle on the small stove and poured boiling water into the teapot. Then, he skillfully made tea.

The four mentors from the Fuyao and Qingshan apothecaries were seated at a table on the other side. They had their own topics to talk about and didn't disturb Lu sanjian and Lin Yi.

The people from the other Academies also had their own areas, and their topics were mostly about this.

The so-called guessing was actually similar to guessing the question.

After the first round, they could make more preparations tonight. If they won, they would naturally have more time and benefits in the assessment.

Lu sanjian didn't ask Lin Yi to guess because he thought that Lin Yi's background was strong-he just wanted to start a conversation.

Lin Yi thanked Lu sanjian for the tea before smiling."What kind of guess can I make? The apprentice apothecary test, even if you turn it over and over again, will only have those few tests. "

"Silver apprentice apothecaries are not involved in alchemy yet, so the possibility of taking the test to refine medicine and distinguish medicinal materials is higher. Dean Lu, you have led teams to participate many times, so you should have more experience. Why don't you tell me!"

It was Lin Yi's first time leading a team for an exam, and although Lu sanjian respected him and let him say it first, he couldn't just say it blindly. If he said something wrong, he'd be slapped in the face the next day.

Lin Yi might as well just let old Lu do it, so he made a gesture of listening.

Sure enough, Lu sanjian laughed. "I do have some experience, but the assessment changes every year. The two things that Dean Sima said are more common, but sometimes there are some less popular things."

"For example, during the examination two years ago, there was an examination regarding pill furnaces. Most of the time, an apprentice Alchemist would first become an assistant to an Alchemist. Therefore, taking care of a pill furnace is a very important step."

Chapter 8353

"The test that time required the candidates to clean up a pill furnace that had just failed in refining pills and complete the preparation for a new round of refining pills within a limited time."

"A lot of candidates clean their pill furnaces, then prepare the ingredients according to the pill formula. Those who do this, no matter how perfect they do it, will only get a pass. If they make a mistake in the middle, the result will be a failure."

Lin Yi nodded slightly, "it's indeed not enough!" Since it's a test regarding the pill furnace, the so-called pill formula and medicinal herbs are most likely just a cover. Not doing it might not deduct any points, but the pill furnace itself must be done well!"

"Before refining pills, the maintenance and warm-up of the pill furnace are very important steps. Many alchemists have neglected this point, causing the success rate and quality of the pills to never improve. They just don't understand the importance of these preparations!"

When Lin Yi was teaching Tang Yungui, he had once seriously mentioned this area of knowledge. Tang Yungui had a solid foundation, so his success rate and quality of the pills were very high!

This wasn't just because Tang Yungui was talented and had a strong pill fire. Many basic details were also one of the factors that determined success or failure!

"Dean Sima really hit the nail on the head, what he said was really too good! Nowadays, many alchemists are very conceited and look down on the preparation in advance, thinking that they can still refine pills without any preparation, but they don't know that after making preparations, the quality of the pills they refine will be better, and the success rate will also be higher!"

Lu Sanjian nodded his head and praised, "Only we, the alchemists who teach students, would teach others in such detail. It seems that with Dean Sima's guidance, Tang Yungui and the other little guys will be able to deal with this kind of problem with ease ..."

The two of them sipped tea as they chatted about things that might or might not be useful.

After half an hour, there were students who had completed their assessment and left the examination hall.

The first round of assessment was announced to the public for an entire day, but someone came out after less than an hour. It should be that the assessment was done in batches. After asking, it was indeed the case.

The first to come out from the fu Yao pill refining school were Diao Mantian and Ouyang Fantong.

Diao Mantian jogged to Lin Yi, leaving Ouyang Fantong far behind.

"Master, I've passed the first round of the assessment!"

Seeing Lin Yi, Diao mang Tian smiled happily as he reported the good news, "I didn't lose face for master. The assessment evaluation is excellent! However, it's not senior martial brother Tang and the other two's turn yet. They might have to wait for some time. "

At this point, Diao mang Tian turned his head and looked behind him. He said with slight disdain, ""Ouyang Fantong, that villain, also passed the test. He and I were in the same group ..."

Although Diao Mantian hated Ouyang Fantong, she was still a representative of the Fuyao Alchemy School. He still had to report to Lin Yi.

"Mm, well done! But don't be too proud. Dean Wei said that the first round is easier and not too difficult. The real difficulty should be in the second and third round tomorrow or the day after!"

Lin Yi nodded slightly and patted Diao mang Tian's back. "However, don't be happy too early just because you've gotten an outstanding result in the first round. Your talent is not bad, and there's a good chance that you'll pass the test and obtain the title of a silver rank Alchemist apprentice. If you fail because of your carelessness, don't tell anyone that you're my, Sima Yi 's, disciple."

A registered disciple was still a disciple-Lin Yi was the one who'd be embarrassed if he lost.

"Yes, this disciple will remember it! I will definitely follow master's teachings!"

Diao Long Tian solemnly bowed. After two seconds of being serious, he laughed and said, ""Master, the first round was indeed easy. We basically passed everything. However, there were still two unlucky fellows who seemed to be not acclimatized to the environment. They actually vomited during the assessment!"

"They definitely failed this time's test, but Dean Wei said that the situation is special and allowed them to take the make-up test after autumn. Although there's a chance to take a make-up test, it's a waste of time and effort this time. I'm really unlucky!"

Diao Mantian patted his chest with a look of relief on his face. It was as if he felt that his body was in great shape, and that he was not acclimatized to the environment at all.

What was this? This was a sign that the heavens were destined to pass the assessment!

There was indeed no one else with such a brain hole!

Ouyang Fantong returned to her seat and continued to be invisible, not telling Lin Yi about the test.

"Ouyang Fantong, what did you get? You've always been too embarrassed to report to me. Is it because you're not outstanding? Good?"

Ouyang Fantong didn't say anything, but Lin Yi couldn't just ignore her. As a teacher, he had to record the students' results in detail.

"I ..."

Ouyang Fantong almost vomited blood. Why can't I just keep quiet?

It's such a simple test. Even if I'm not as good as Tang Yungui, I can't not get any excellence.

"The proud sons of heaven in the past, after this blow, it's not bad if they can pass. Those who are outstanding and good are just so-so!"

Diao Mantian didn't know Ouyang Fantong's results, he only knew that the other party had passed. At this moment, seeing Ouyang Fantong's Red face, he couldn't help but sneer.

"I'm f * cking outstanding! Excellent! Excellent!"

Ouyang Fantong stood up and glared at Diao Mantian, screaming hysterically.

"Oh, I know. Please sit down, Xiu 'er!"

Lin Yi nodded, amused. He didn't want to stoop to a student's level.

Ouyang Fantong sat down and was very angry.

However, the atmosphere became a little quiet, and even Lu sanjian lost his interest in chatting.

Fortunately, Tang Yungui and the other two had come out quickly. They had passed the test after Diao Hantian 's.

However, Lu sanjian's team was not there yet, so they waited for a while.

"Dean Sima, after we go back today, should we get them to prepare something? Why don't we go together?"

Lu sanjian wanted to study with Lin Yi and see what the test was tomorrow. He chatted with Lin Yi along the way, and Lu sanjian was deeply impressed by Lin Yi's skills in alchemy.

He was indeed a genius!

No wonder Hua Yao let Lin Yi lead the team. Lu sanjian felt that if he had Lin Yi as his assistant, he would be able to lie down in the Academy and let Lin Yi lead the team to fight.

"Dean Lu, you're thinking too much. Although it's not a good thing to be slow, we should know when to stop. We've already made enough preparations yesterday, and we've just gone through the first round of assessment today. Everyone is tired, so it's better to let them relax."

Lin Yi smiled and shook his head, "let's go shopping later. Let the children relax a little. It's the way of the civil and military. I believe they'll perform better tomorrow."

Chapter 8354

Lu sanjian couldn't agree with Lin Yi's statement, but he couldn't refute him either. He smiled and agreed, "Dean Sima is indeed a genius. Then this old man will accompany you for a walk!"

In any case, he might not be able to make an accurate guess. Not only would it be a waste of effort to prepare if he went in the wrong direction, but it might also affect his state of mind.

"I'd rather go and relax with Lin Yi then ..."Lu sanjian consoled himself, and after a while, he felt that it was time to do so!

Therefore, after the students of the Green Mountain Alchemy School had all come out and confirmed that they had all passed the test, the group of them went shopping happily.

On the second day, the second round of the assessment was not about the preparation of potions as expected. Instead, it was an original assessment of the students' endurance!

An apprentice apothecary was the assistant of an apothecary. Most of the time, they were just assistants who did hard work. Hence, the requirement for endurance was very high.

For example, to help an Alchemist use the alchemy fire to process the medicinal ingredients in the early stages, one would need to continuously output the alchemy fire.

Although it was not as useful as alchemy, it was still very important to have a continuous supply of energy.

As everyone knew, the physical condition of alchemists was much worse than that of pure martial artists. Under the circumstances of the same level, they would basically be instantly killed by martial artists.

Therefore, not only was this assessment unexpected, but it also indeed screened out many students.

On the first day, only a few students who were not feeling well withdrew from the assessment. On the second day, there were hundreds of people who failed the assessment, accounting for about a third of the total number of people!

However, even if these students were eliminated, they would not come in vain. They would still receive the bronze rank apprentice Alchemist title, which was a guarantee.

The third day's assessment returned to the right path, with the topic of refining potions.

This time, it was relatively smooth. Most people passed the test, and only a few unlucky ones fell at the final finish line!

Both the Fuyao and Qingshan apothecary school had qualified, which was considered a good result.

The other Academies would more or less have people eliminated. After all, with one-third of the people going, there were not many who could pass.

Therefore, there were benefits to having fewer spots. Those who could come here to take part in the assessment were the elites among the elites.

As for those schools with more slots, it might seem like they had more slots, but it was likely that a few of them were just there to accompany them.

After the third round, the qualified people were once again gathered in the hall of the alchemy sub-school.

Because hundreds of people had suddenly disappeared, it seemed a lot more spacious.

Similarly, the president of Tianxia college, Wei zhentian, went up the stage again. His expression was cold as he swept his gaze around without any emotion. "This year's Silver apprentice Alchemist test has already ended. The results are barely satisfactory! In my heart, I personally hope to see the Grand occasion of everyone passing! It's a pity that one-third of the people were eliminated in the end!"

"If they're eliminated, it means that they have some flaws. I hope that all the team leaders will teach them strictly when they go back. These are all good seedlings. Don't let them go to waste!"

The people in the audience were all listening, but it was hard to say if they would listen.

After all, who wouldn't want their students to pass the test? But his strength didn't allow him to!

Since there was an assessment every year, cultivators had a long life. An Alchemist could study in the Academy for ten to twenty years.

Even if there were only a few spots every year, they would still pass the assessment smoothly in the end.

Unless it was a fake coward like Tang Yungui, who couldn't even form a pill fire.

Wei zhentian continued to blabber on and on, concluding the assessment.

Lin Yi wasn't interested at all-he was getting sleepy.

However, Wei zhentian still brought up an important matter at the end of his speech, and it was also something that everyone wanted to know about.

"Tomorrow, the gold apprentice Alchemist test will begin! According to the rules of previous years, each Academy had one promotion quota for gold apprentice Alchemist! Of course, if the candidate's performance doesn't meet the standard, he can't be promoted!"

"In view of this year's elimination of one-third of the students, in order to not waste this gold rank apprentice alchemy quota, I hereby announce that every Academy will not limit the number of alchemy apprentices Huang Zexin can register for!"

"However, no matter how many students sign up in an Academy, there will only be one promotion quota for each Academy! This would also increase the passing rate of each Academy! There's a candidate who didn't perform well and there's another substitute!"

"As long as the students are willing, they can take part in the assessment. The leading instructors are not allowed to stop them! Of course, in order to ensure the competition's efficiency, not just any Tom, Dick, or Harry can participate. The students must first have confidence!"

"The registered students who fail to pass this test will not be able to take the gold rank apprentice Alchemist test for two years! Of course, if you feel that you are powerful, you can skip the apprentice apothecary rank and directly go to The Alchemist Association to take The Alchemist examination!"

"So, it's up to the students themselves to decide if they want to sign up or not! That's all for today. I'm looking forward to your performance tomorrow! The silver apprentice Alchemist badge will be issued now. Those who are qualified, please line up and wait!"

After Wei zhentian finished speaking, he waved his hand casually and turned to leave.

As everyone knows, apprentice apothecaries can only take the examination through the Academy and can not take the examination directly from society.

However, alchemists didn't need to.

An Alchemist could either pass the College's unified assessment or apply for the assessment from The Alchemist Association of the martial Alliance.

However, in comparison, not being able to take the test to become a gold apprentice Alchemist within two years, this punishment also made those students who wanted to join in the fun to stop.

Lin Yi and Lu sanjian looked at each other, surprised.

Lin Yi was an unexpected trouble, but Lu sanjian was an unexpected surprise!

Lu sanjian was afraid that if a candidate made a mistake, there would be another person to cover for him.

What Lin Yi found troublesome was that Ouyang Fantong would definitely be involved, and he couldn't stop her from signing up.

He was not afraid that Tang Yungui could not do it, but that the test questions were too simple!

If it was a test with no difficulty, then Tang Yungui would have no problem, but Ouyang Fantong would also pass smoothly!

However, there was only one quota for each Academy. When the time came for the two to be placed side by side, it would be a headache to decide who would be promoted!

According to the interpretation of the current rules, even if your Academy has two outstanding candidates, only one can be admitted to the promotion!

Even if the results of the candidates from the other Academies are not as good as the two of you, it's still because they have a 100% chance of accepting the candidates for promotion, and you can only choose one of the two.

There were probably other schools that had Lin Yi's trouble and Lu sanjian's surprise as well, and they started discussing.

Chapter 8355

"Silence! Those who are qualified, line up. Leaders and teachers, step back. Those who don't want to receive the emblem can continue to make noise!"

At this time, the manager of the alchemy Association came out and shouted.

Wei zhentian, this Big Shot, only cared about giving his speech. After he finished, he left, leaving the rest of the matters to the manager. This was originally a rather solemn matter, but because he left so irresponsibly, it seemed a little sloppy.

Of course, the apprentice apothecaries didn't care if they were sloppy or not. After all, it wasn't easy for them to pass the examination. How could they give up on the emblem that represented their status?

Hence, after the manager spoke, the hall quickly quieted down. The alchemy apprentices spontaneously lined up in an orderly manner, waiting for the alchemy Association to present them with the badges.

"Dean Sima, who from your Academy is going to register? Tang Yungui was definitely one of them, but was Diao Longtian the last one? He's not bad, but he's not as interesting as Tang Yungui!"

Lu sanjian wasn't interested in the badges at all-he'd watched it every year, and he'd get sick of it already. He'd rather gossip about Lin Yi's decision."I don't recommend him to go. After all, if he fails this time, he won't be able to take the exam again within two years!"

"Yes, although Diao Mantian is not bad, he is still lacking. Ouyang Fantong should have signed up. He is currently second only to Tang Yungui in our Academy's group!"

Lin Yi was representing the entire Fuyao apothecary school, so he spoke in a friendly manner,"Diao mang Tian's overall ability is still a little lacking. I reckon that he himself might not have the confidence to take the test. After all, a gold apprentice Alchemist should be able to take the pill refining test. He's really pushing it."

"That's good too. To be honest, although Ouyang Fantong's character isn't good, her ability in alchemy is indeed above Diao Zhitian! Although Tang Yungui is very powerful, there are always accidents. With Ouyang Fantong helping you, this gold rank quota is in the bag!"

Lu sanjian looked at Lin Yi and comforted him.

He knew that Lin Yi didn't like Ouyang Fantong, but like what Wei zhentian said, he only accepted the outstanding one.

If Tang Yungui was really outstanding, then Ouyang Fantong would just be a burden. But if Tang Yungui really did not perform well, it would be good to have Ouyang Fantong take over.

Lin Yi nodded noncommittally, keeping his worries to himself.

From Lin Yi's point of view, Tang Yungui couldn't possibly have any accidents. Whether it was basic skills or anything else, Tang Yungui was very strong.

If an accident were to happen, it would be Ouyang Fantong!

Lu sanjian noticed that Lin Yi wasn't too interested in the topic and changed the subject naturally. He smiled and discussed with Lin Yi where they should go to celebrate.

After all, it was indeed very rare for all the silver apprentices to pass. Moreover, it would also add a lot of points to the overall examination of the Academy. It was indeed worth celebrating.

After a short while, the badges were all distributed, and the newly emerged silver grade alchemy apprentices returned to their respective homes. One after another, they found their respective leaders and began to leave the hall in an orderly manner.

Naturally, they talked about the matter of registering for the gold apprentice examination. Many of the students were tempted.

Previously, everyone had competed in the Academy, and it was confirmed that a gold-rank candidate had been selected.

Now that Wei zhentian had changed the rules at the last minute, allowing multiple students to take part in the assessment, those who were slightly weaker in the Academy's competition were all eager to try!

It had to be known that many other schools had Tang Yungui and Ouyang Fantong as a team.

One side felt that they were not inferior to the other, but they had lost in the Academy competition, so they had to register this time.

However, the only candidate from before was in a difficult position.

Originally, as long as one participated in the gold rank examination step by step, as long as one's results were evaluated to be outstanding, then one would be able to pass smoothly.

Now, with the addition of other competitors, what if they were also outstanding, or even slightly more outstanding than him, then wouldn't he have missed the chance to get the gold apprentice badge?

Ouyang fan's words had this intention.

He was standing in front of Lin Yi, looking at him silently. It was obvious that he wanted to sign up.

Wei zhentian had said on stage that the instructors weren't allowed to stop students from registering, but Ouyang Fantong was afraid that a "tyrant" like Lin Yi would try to stop them.

Ouyang Fantong had seen Lin Yi's strength before. He didn't even give face to the Huang family and the spirit bow Empire's Hall Masters, so Wei zhentian's face didn't necessarily have to be good.

Diao mang Tian stepped forward and pushed Ouyang Fantong away, cursing, ""Ouyang Fantong, you despicable person, why are you looking at my master like that? Hehe, you want to take part in the gold apprentice Alchemist test? I'm telling you, stop dreaming!"

"For trash like you, being able to wear a silver apprentice Alchemist's badge is already an insult to the badge. You still want to take the gold apprentice Alchemist test? Do you have that ability? Don't go and embarrass yourself!"

Because of his dissatisfaction with Ouyang Fantong, Diao Mantian's words were a bit harsh.

In the end, Ouyang Fantong wasn't in a hurry and calmly retorted, "If I don't go, you'll go? Wouldn't it be embarrassing if you went? Can you?"

Diao Mantian choked for a moment. He felt that what Ouyang Fantong said was indeed correct!

Even if he went, he wouldn't be able to pass. Wasn't this the pot calling the kettle black?

He didn't expect Ouyang Fantong to be so accurate!

"Dean Sima, Dean Wei zhentian just said that students can decide on their own to sign up for the gold apprentice test, right?"

Ouyang Fantong didn't continue mocking Diao Mantian, but turned to Lin Yi and asked seriously, "In that case, can I register?"

Previously, he had already shed all pretenses of cordiality, and Ouyang Fantong knew that he would no longer be able to survive in the fu Yao pill refining school. Thus, he had to fight for a place this time!

As long as he could pass the examination and become a gold apprentice Alchemist, he would be a great help to the Ouyang clan in the future!

He had already prepared himself-if Lin Yi still refused to let him sign up, he would blow the matter up to Wei zhentian's ears, to the point where the entire Fuyao apothecary school would lose face! Anyway, who was afraid of who?

Ouyang Fantong had even simulated countless scenarios and excuses for Lin Yi to reject her in her mind, waiting for Lin Yi to reject her and then explode!

Lin Yi only nodded, ""Yes! Go ahead!"

As expected, it can 't. What?

Ouyang Fantong was still immersed in the illusion of being rejected by Lin Yi, so she was a little confused by Lin Yi's words!

When Ouyang Fantong carefully thought back to Lin Yi's words, she finally understood that Lin Yi agreed!

He actually agreed? Did I hear wrong? [I'm ready to fall out with you, why did you agree?]

Chapter 8356

"Master! Why did she agree to let him sign up? A person like him simply doesn't have the qualifications to represent our Fuyao apothecary school in the gold apprentice apothecary examination! Going up is also a failure!"

Diao mang Tian wasn't too happy about it-he was worried about the same thing as Lin Yi, afraid that they'd end up in the same situation as before!

Lin Yi could still interfere in the school, but he couldn't interfere in the martial Alliance's exam!

If the two were placed side by side and Ouyang Fantong passed, wouldn't that be shooting herself in the foot?

Seeing Diao Mantian's reaction, Ouyang Fantong was convinced that he didn't hear wrong. Lin Yi really agreed so easily!

"You ... You're telling the truth? Can I really sign up?"

Ouyang Fantong subconsciously wanted to confirm it again. As for Diao Mantian, he had directly ignored him!

Lin Yi ignored him and patted Diao mang Tian on the shoulder. "It's just a gold apprentice Alchemist test. If he wants to sign up, then so be it. You and Tang Yungui are both my disciples. If you follow me and learn, it will be easy for you to take the gold apprentice Alchemist test in the future. "

"Maybe even a gold rank alchemy Grandmaster has a chance. You need to look at the long term. You don't have the ability to sign up yet, so it's not a big deal. Besides, even if Ouyang fan signs up, he won't be able to pass the exam."

Ouyang Fantong was speechless. Why couldn't I pass?

Why can't I pass?

According to the assessment content of previous years, I will definitely pass!

This was also the reason why Ouyang Fantong insisted on signing up. He believed that he would definitely pass!

And so, Ouyang Fantong endured Lin Yi's mockery and disregard, as long as he signed up.

Lu sanjian, who was listening at the side, was also very speechless. A gold-grade alchemy Grandmaster?

How many were there on the entire sub-Island? He, Lu sanjian, was only a bronze rank alchemy Grandmaster, but he already had the standard of an ordinary silver rank alchemy Grandmaster!

But even so, if they participated in the assessment, they might only have a 50% chance of passing.

And now, Lin Yi just said that Diao Mantian had the potential to become a gold Grandmaster ... Please, this kid was only a silver apprentice now!

What a braggart!

Diao Mantian didn't think that Lin Yi was just bragging. He thought that his master had a good eye, seeing that he was the real deal!

Thinking about it this way, a mere gold apprentice Alchemist test really wasn't a big deal.

If Ouyang Fantong wanted to go, then so be it. In any case, senior brother Tang would definitely be able to beat him!

At the thought of this, Diao mang Tian's lips curled into a smile, and his mood instantly brightened!

"Alright, let's go. Let's find a place to celebrate. Everyone's done well today. It's worth celebrating!"

Lin Yi greeted.

Diao Longtian was the first to respond. He happily pulled the smiling Tang Yungui and followed behind Lin Yi.

He no longer cared about Ouyang Fantong.

As for Ouyang Fantong, who had registered for the gold apprentice Alchemist test as she had wished, she wasn't as happy as she had imagined. On the contrary, she felt a little uncomfortable ...

He didn't know if he should follow Lin Yi and the others.

If he followed them, he would just be asking for a snub, but if he didn 't, he didn't know where to go.

Ouyang Fantong was stunned for a long time before finally realizing that he was the only one left in the hall.

Lin Yi had already left with the people from Fuyao and Qingshan, and no one would care about Ouyang Fantong!

Ouyang Fantong shook her head, trying to get rid of the disappointment in her heart.

In any case, this time, he had already obtained the title of silver apprentice Alchemist, and he had also unexpectedly obtained the quota for the gold apprentice Alchemist test. This was already a harvest that exceeded his expectations.

Regardless of whether he passed the examination tomorrow, he would not be able to stay in the Fuyao apothecary school.

Ouyang Fantong had already begun to think. Which school should she transfer to?

I wonder if the college will accept people?

If they could enter Tianxia college, it would be a thousand times better than the Fuyao apothecary school!

Unfortunately, the difficulty was too high. It was not easy for the direct descendants of the Ouyang family to enter Tianxia Academy, let alone a branch family descendant like him.

Ouyang Fantong thought about it as she walked out. She was still considering whether to ask Zhang Ling Fu and the others if there was any way to transfer.

Unknowingly, Ouyang Fantong had left Tianxia Academy. Since she had already decided to change schools, she naturally wouldn't go looking for Lin Yi and the others.

Ouyang fan was aimlessly walking on the street when a passerby in a hurry passed by him.

The two's shoulders lightly bumped. Ouyang Fantong was about to get angry when she suddenly found a folded piece of paper in her palm!

"This is a letter from the family. Burn it after reading it!"

The passerby lowered his head and whispered to Ouyang Fantong in a voice as soft as a mosquito 's.

Immediately after, this person pretended to be sorry and apologized to Ouyang Fantong, then quickly left like a real passerby.

Ouyang Fantong's hand suddenly tightened, and the piece of paper was tightly clenched in her hand.

A message from the family? Why was he so mysterious? Is there some secret information?

During the Huang family's incident, the Ouyang family had almost given up on him, Ouyang Fantong!

Although he said he would think of a way, in the end, he left him to his own devices.

Therefore, Ouyang Fantong really didn't know why her family would suddenly send him a letter.

After looking left and right and making sure that no one was paying attention, Ouyang Fantong quickened her pace and quickly returned to her room in the station.

Lin Yi and the others were still celebrating outside, so there was no one else around. Ouyang Fantong relaxed her slightly sweaty palms.

The folded piece of paper was a little wet, because Ouyang Fantong had held it too tightly, causing the sweat on her hand to wet the paper.

However, this was not a big problem. It did not affect his reading.

Ouyang Fantong took a deep breath and calmed her breathing.

He didn't know if his family had brought him good news or bad news, and he felt even more uneasy.

The paper wasn't big, and the number of words on it wasn't too many. Ouyang Fantong anxiously glanced through it.

Instantly, he became a little excited, and his breathing became rapid.

Subconsciously, Ouyang Fantong started from the beginning again, carefully reading each word.

After reading it, Ouyang Fantong was so excited that she couldn't control herself, and then she laughed out loud!

Then, a pill fire burned in his palm, turning the paper into ashes.

The content of the paper was that the Ouyang family had never given up on him, Ouyang Fantong. In the previous Huang family incident, many parties had tried to save him, but before they could do it, the Huang family had been destroyed!

Chapter 8357

Then, he would say that his family would help him, Ouyang Fantong, to stand out again, so that he could regain his face and confidence in the Academy!

After Ouyang Fantong read it, how could she not be ecstatic?

His biggest backing had always been the Ouyang family!

He thought that he had been abandoned by his family, but now he received news that his family valued him more!

For a moment, Ouyang Fantong felt that his back was straight!

If this matter really succeeded, then he, Ouyang Fantong, didn't need to transfer to another school at all. It would only take a matter of minutes for him to regain his self-esteem and face!

At that time, those people who had looked down on him, Ouyang Fantong, would start to flatter him again!

It didn't matter if these people were sincere or not, the current situation of him, Ouyang Fantong, being an invisible person would be reversed.

In any case, there was no one in the courtyard, so Ouyang Fantong was laughing wildly in her room. She laughed so hard that she almost died!

Even Ouyang Fantong, who had not eaten at night, had forgotten her hunger and was just giggling there.

After Lin Yi returned with Tang Yungui and the others, Ouyang Fantong didn't dare to indulge anymore. She pretended to be sleepy and went to bed early. She hid under the blanket and laughed secretly. Even if she laughed, she would think that it smelled good ...

He was so excited that he couldn't sleep that night!

After a Night of Silence, the next morning, the people participating in the gold rank alchemy apprentice test came to Tianxia College's alchemy sub-school again.

This time, the number of people was much smaller, only a hundred or so.

"Haha, brother Zhang, Good Morning!"

As soon as they arrived at the exam hall, Ouyang Fantong saw Zhang Ling's mansion from afar and immediately greeted them with a smile.

Ouyang Fantong's high-profile actions made Tang Yungui, Diao Mantian, and the others a little uncomfortable!

After all, before this, Ouyang Fantong had always kept a low profile, but today, she seemed to be a little too excited?

Even Lin Yi felt that there was something wrong with Ouyang Fantong. She was hopping and jumping around Zhang Lingfu, putting her arms around his shoulder and laughing.

"Brother Ouyang, it looks like you're very confident!"

Zhang Lingfu was also puzzled by Ouyang Fantong's excitement, but he still politely replied, "In that case, the gold rank apprentice Alchemist's badge will definitely belong to you!"

"Haha, I do have some confidence!"

Ouyang Fantong proudly nodded her head, "As you know, as a disciple of an alchemy family, we usually come into contact with and study more complicated things. The gold rank exam is not easy at all, and there will always be some unfamiliar things appearing, so we still have a great advantage!"

"You're right ..."

Zhang Lingfu replied perfunctorily. He didn't think so, at least he himself didn't have much confidence.

Lin Yi frowned, thinking, "what advantage? did you take stimulants?"

Just as the various Academies were bustling with noise and excitement, a "silence" resounded through the entire venue!

It turned out that Wei zhentian had arrived!

Wei zhentian still had that poker face on, and after saying a few polite words, he indifferently reminded, ""The difficulty of this assessment is much higher than yesterday 's. Don't take it lightly!"

"Those who are not particularly outstanding can not obtain the title of gold rank apprentice Alchemist. So, even if each of your Academies has a promotion quota, it's not a hundred percent sure that you'll be promoted! In that case, let's begin today's assessment! All leaders and teachers, please leave the hall and wait for the results at the designated location. "

Lin Yi raised a brow, not very interested in Wei zhentian.

He felt that this person liked to put on airs too much. He should be the kind of person who liked to seek an official career and not a scholar from an Academy!

Unlike Hua Yu and Lu sanjian, who were Deans of Academies, Wei zhentian's thoughts were perhaps on the higher positions in the Imperial court.

Lin Yi couldn't say that this person was wrong, but at least they weren't the same type of people as Lin Yi.

The people from the alchemy Association started clearing the area, and Lin Yi walked out of the hall with the other leaders. Lu sanjian came over naturally.

"Dean Sima, this old man saw that Ouyang Fantong seemed to be full of confidence. This kid seems to be very confident!"

Lu sanjian was an experienced man, so he pointed out the problem as soon as he opened his mouth. "Did this kid use his connections to get the exam questions?"

Lin Yi had the same suspicion, but it didn't seem possible!

There was a very high chance that the gold apprentice Alchemist test was for alchemy!

For something like pill refinement, even if one knew what to refine in advance, it was impossible to say that it would be a hundred percent successful!

If you succeed, others can succeed too.

Even if you don't have the ability, it's useless for you to know the questions.

It was just like back at the fu Yao pill refining Academy. Even though Ouyang Changhong had set the pill refining question, Tang Yungui had still won.

"Maybe, but it doesn't matter! The questions were difficult, so even if he knew in advance, it would still be a good idea! The difficulty of the questions is low, so others can easily complete them!"

Lin Yi shook his head, not planning on saying anything more.

"That's true. "

Lu sanjian thought for a while and agreed. He smiled and shook his head, thinking that he was overthinking.

While they were talking, the first round of assessment had already begun.

There was nothing new about it. It was just a written examination to test the proficiency of these apprentice apothecaries in pill forging.

Of course, this was the knowledge that a gold apprentice Alchemist should have. It was incomparable to the previous examination.

It was as if the bronze rank was the first grade, the silver rank was the second grade, and now they were testing the knowledge of the third grade.

Those who could come to participate in the assessment were naturally people who were prepared for this.

Even those who had obtained an extra slot yesterday were those who had failed to compete for a slot. They had all these basic skills.

Therefore, the first round of the written exam went smoothly. Everyone handed in their papers before the time limit was up. No one was late.

Because there weren't many people taking part in the assessment, the results came out as soon as they handed in the papers.

"Very good, your grasp of the basic knowledge is not bad. However, if you think that today's assessment will be so simple, then you are greatly mistaken!"

Wei zhentian expressed his satisfaction with the process and results of the written test, but he didn't let go of the opportunity to knock some sense into these pill apprentices."The second round of

identification will be slightly more difficult! Although I hope that all of you will pass the test, I'm sorry to tell you that the second round of the test will probably eliminate one-third of you!"

"I wonder if you will disappoint me? Alright, let's cut to the chase. The second round will now begin. Anyone who can't distinguish more than 70% of the medicinal pill's composition will be eliminated! It's useless no matter how good your written test results are!"

Hearing this, everyone's hearts trembled!

Distinguishing different components was a common question, so it was nothing special.

Chapter 8358

However, most apprentice apothecaries would only be able to distinguish the composition of potions. It was rare for them to be able to distinguish medicinal pills!

This was because it was easier to distinguish the components of a potion. On the other hand, after a pill had been refined and fused with a pill fire, many of the characteristics of the medicinal ingredients had completely disappeared. Even an Alchemist would find it difficult to distinguish them, so how could an apprentice Alchemist be able to distinguish the ingredients?

If it was a familiar medicinal pill, it would be fine. He could say a lot of it even if he blurted it out. Even if there were some changes, the general ingredients should not be too different.

However, if he were to encounter an unfamiliar medicinal pill, then he would really be at a loss.

A gold apprentice Alchemist ... Could he really do it?

Wei zhentian obviously didn't care if they could do it or not. The question was given. If they could do it, then continue. If they couldn't, then get lost. Simple and direct!

A small Jade bottle appeared in front of each participant, and there was a similar-looking pill inside.

From the outside, it was impossible to tell what it was. It should have been processed, and no one could determine what kind of pill it was with the naked eye.

"In the time it takes for half an incense stick to burn, I don't care what method you use. It doesn't matter if you see it, smell it, or eat it. As long as you can write down more than 70% of the ingredients in the pill within the time it takes for half an incense stick to burn, you'll pass!"

Wei zhentian clapped his hands and said expressionlessly, "Only those who pass will be able to enter the third round. Those who fail will be able to leave immediately. This seat would like to congratulate him. At the very least, he still has the silver rank apprentice Alchemist badge in his hands! However, for the next two years, you will no longer be able to take the gold apprentice Alchemist test!"

It was the truth, but it sounded extremely mean.

Those who came to take part in the assessment, who didn't want to take a gold rank badge back?

Do silver-level players need your congratulations? You can get it just by not attending? you're mocking me!

Tang Yungui let out a long breath. He picked up the small Jade bottle and poured the elixir into his palm.

He first brought it to his nose and sniffed it. There was no special smell. It was indeed a processed pill.

Although everyone's pills looked the same, Tang Yungui doubted that the pills inside were the same.

It was possible that everyone's work was different. If anyone wanted to cheat and plagiarize, that would be a big joke!

At this time, eyes and nose were not reliable. He had to use his mouth to distinguish.

Therefore, Tang Yungui threw the pill into his mouth without hesitation. He closed his eyes and savored it.

After him, most of the people made the same choice.

Only a small number of people didn't consume it. Instead, they broke it apart and crushed it to observe and try.

After the elixir dissolved, a faint fragrance filled his mouth. Tang Yungui did not hurry to swallow it. He carefully identified every possible medicinal herb.

After a while, the pill melted into his mouth and could no longer stay in his mouth. Tang Yungui immediately began to feel the effects of the pill.

The names, effects, shapes, and so on of many herbs were gradually taking shape. Tang Yungui had an answer in his mind.

Calmly opening his eyes, he picked up his brush and a list of medicinal herbs quickly appeared.

In fact, Tang Yungui couldn't distinguish a small part of it at all, but he guessed that these should exist through the reverse calculation of the medicinal effects of the pills, so he wrote them all down.

Anyway, it didn't matter if he wrote it wrong, as long as he got it right, he would earn a lot!

After he finished writing, Tang Yungui indicated that he had to hand in his paper.

No one could be faster than him at this time, so in the second round, Tang Yungui took the lead in speed.

Wei zhentian took Tang Yungui's answer scroll and glanced at it. His face was still expressionless. He only glanced at Tang Yungui indifferently and then nodded slightly, ""Qualified!"

Tang Yungui relaxed. Although he was confident in himself, he was still worried and nervous.

Now that he had received confirmation, he immediately relaxed a lot.

After a few minutes, the second person to hand in his paper finally appeared. Then, the second and third people couldn't stop at all. Because of this, they were eliminated, and more and more people were asked to leave the hall.

Ouyang Fantong had also passed the second round. She bared her teeth at Tang Yungui proudly.

Tang Yungui pretended not to see him and ignored him.

After half an incense's time, it was just as Wei zhentian had said-one-third of the people had been eliminated.

Tang Yungui knew that this was already good enough.

Identifying the ingredients of a pill shouldn't have been part of the scope of the gold apprentice apothecary examination. Wei zhentian had lowered the difficulty, allowing two-thirds of the people to pass.

"I don't want to comment on your performance in the second round. You've all passed, and no one is outstanding. As a gold rank apprentice Alchemist, it's time for you to be able to refine pills. Therefore, the third round of the examination is to refine a pill!"

With a wave of Wei zhentian's hand, the members of the alchemy Association moved quickly and separated the remaining people with cloth curtains.

An alchemy furnace, a pill formula, and two sets of medicinal herbs were prepared in front of everyone.

"As you can see, everyone has two sets of medicinal herbs, but this is not to give you two chances to refine pills. The second set is just a backup for you. If there is any mistake in the process that causes the medicinal herbs to be damaged, you can have a chance to make up for it."

"To make it more clear, you only have one chance to refine pills. If you fail, you will be eliminated! Go back and cultivate properly, and come back in two years! We'll start now!"

After Wei zhentian announced the start of the competition, Tang Yungui quickly picked up the pill recipe and examined it carefully.

By now, he had already formed a habit of carefully examining the pill formula before refining the pill. Only after he was certain that there were no problems did he start refining the pill.

Tang Yungui's expression was a little ugly after he deliberated it as usual.

This pill formula's difficulty was clearly out of the ordinary. It simply wasn't a pill that a gold rank alchemy apprentice could refine!

If he used the spiritual fire of heaven and earth in his body, Tang Yungui was confident that he could succeed, but he did not dare to use it in such a place. He didn't even dare to disguise himself!

Tang Yungui was sure that he wasn't confident if he only relied on his own alchemy fire without using the heaven and earth Spirit Fire.

Why was the gold apprentice Alchemist test so difficult?

Lin Yi didn't know that his disciple was in trouble. He didn't think that a gold apprentice test would be a problem for Tang Yungui.

"Dean Sima, the second round of assessment has already ended. Look, so many people have been eliminated at once! It's a good thing that the boys from our two families are very capable, and none of them came out. Not bad, not bad!"

Lu sanjian was happy to see that there were no disciples from the Green Mountain Alchemy School among those who had been eliminated. "I don't think Tang Yungui will have any problems. This young man is a rare genius. Many of the students of our Qingshan alchemy college can't even compare to him!"

"The third round is the key. Don't get too cocky!"

Lin Yi wanted to be more humble, but he couldn't hide the smile on his face. "But Tang Yungui is indeed a good seedling for an Alchemist. He is talented and will definitely become a famous alchemy Grandmaster in the future!"

Chapter 8359

The two of them talked and laughed, and time flew by.

Before he knew it, all the tests inside had ended, and the door slowly opened.

Many apprentice apothecaries walked out from the room, each of them wearing a different expression.

Some were happy, some were sad, some were expressionless, and some wanted to act reserved but couldn't hold back their smiles ...

Tang Yungui came out from the back. Lin Yi saw the confusion on his face and his heart sank.

Things didn't seem to be developing in the right direction!

Could it be that something unexpected happened?

The two students from the Qingshan apothecary school walked over first. One of them was in a good mood, while the other was a little dejected.

Lu sanjian had an idea of what was going on, but he still asked about the situation.

"This student is ashamed ... I failed to form a pill in the third round of the apothecary examination, so failure means elimination ... I'm sorry, principal!"

There was indeed a reason for him to be depressed. He had already come to the last step, but he had failed at the last step for the mountain!

A pill refinement failure was a complete failure. There was not even a trace of room for imagination.

The other student, who was in a good mood, restrained his happy smile and forced himself to be calm. "Your student's pill refinement is a success. I just don't know how the score will be. Whether I pass or not, your student can't say for sure!"

This was to take care of the mood of the person next to him. Looking at him, he should have done well and had a high chance of passing.

Tang Yungui walked over and bowed deeply to Lin Yi in shame.

"What's wrong? The pill refinement failed?"

Lin Yi didn't blame him, but spoke gently, "It doesn't matter if we fail. At most, we can directly take the higher ranked Alchemist examination! Failure is the mother of success. The important thing is to have this experience and learn from it ..."

"Master, this disciple's pill refining was not considered a failure ... In the end, I barely managed to form a pill, but the quality was very low. This disciple has let down master's teachings. This kind of quality is actually not much different from a failure!"

Tang Yungui was truly ashamed.

He felt that Lin Yi's methods and insights were all top-tier, and it was a failure if the quality wasn't high enough.

But this time, it did not even reach medium quality. It was indeed no different from a failed pill refinement!

"This disciple feels that it's very difficult to pass with such a grade ... I've let down master's teachings!"

Lin Yi couldn't help but curl his lips. What was wrong with this kid? So what if the grade was low, it was enough to form the pill!

I thought he had failed and wanted to comfort him ...

But then again, Lin Yi felt that Tang Yungui's standards were too high. He actually felt that a low-grade pill was a failure?

It was normal to have a low-grade pill on his first try with an unfamiliar pill recipe!

Lin Yi was about to say something to comfort him when Ouyang Fantong appeared behind Tang Yungui and sneered, "You're just a piece of rotten mud that can't be helped. However, at least you have some self-awareness. You're not completely hopeless!"

Lin Yi frowned, resisting the urge to slap the kid.

No matter what, Ouyang Fantong was still a person with the name of the Fuyao Alchemy School hanging on her back. If she were to really make a move, the reputation of the entire Fuyao Alchemy School would be completely ruined.

Jian Jia was shocked!

The Honorary President was jealous of the talented and beat up the genius student!

Was this the loss of morality or the distortion of human nature?

Headlines like this would probably become a joke for many people.

"Dean Sima, many thanks for your guidance. This student's test went very smoothly, and the final pill refining also went very smoothly. I estimate that it won't be a problem for me to pass the test and obtain the title of gold rank apprentice Alchemist!"

Ouyang Fantong didn't know that he'd just walked past the gates of hell, and yet she was still showing off in front of Lin Yi. She really didn't know how the word "death" was written!

Lin Yi's brows furrowed even deeper-something was really off!

Ouyang Fantong's alchemy skills were not as good as Tang Yungui 's. Even without the spirit fire of heaven and earth, Tang Yungui's alchemy fire was purer than Ouyang Fantong' s!

Putting aside the alchemy fire, Tang Yungui's alchemy technique was far better than Ouyang Fantong 's!

That was Lin Yi's top-tier method from the experience of countless predecessors, how could Ouyang Fantong's be compared to it?

Since Tang Yungui had beaten Ouyang Fantong in all aspects, why did this kid dare to say that he had been more successful than Tang Yungui?

"Everyone, please return first! The list of qualified candidates will be announced tomorrow!"

A steward of the alchemy Association came out of the entrance of the hall and announced loudly. Then, he turned around and went in.

As a result, the people from the various Academies outside began to disperse.

Ouyang Fantong didn't bother with Lin Yi and walked away without even saying goodbye. It was clear that she had no more concerns.

"Let's go, we'll talk when we return!"

Lin Yi looked at Ouyang Fantong, who was walking away, and nodded to Lu sanjian before walking out slowly.

Lu sanjian sighed. It seemed that the thing he was most worried about had happened!

Since Ouyang Fantong had passed the test so smoothly, Tang Yungui should have failed!

Ouyang Fantong wasn't back yet, and Lin Yi didn't care where she went. He treated her like a wild dog.

After inviting Lu sanjian and the two students from Qingshan Alchemy School into the living room, Lin Yi got straight to the point, "The three of you, tell me your pill recipes!"

Lin Yi wanted to see if all the recipes were different.

If it was the same pill recipe, there was no reason for Tang Yungui to lose to Ouyang Fantong and the people from the other Academies.

Lu sanjian nodded slightly. He also had this suspicion, so he signaled the two students to talk it out.

When the three finished, the recipe was the same-Lin Yi frowned.

This pill formula was indeed a little difficult. An ordinary gold rank Alchemist apprentice would not be able to refine it!

It was not easy for Tang Yungui to barely form a pill. How did the others do it?

Were there really so many people whose alchemy skills were far better than Tang Yungui 's?

Ouyang Fantong did have some strength. Even if she could barely refine it, it wouldn't be so smooth, right?

And that student from Qingshan Academy who had passed, how could he have also succeeded in refining it so easily?

This didn't seem logical.

"How do you two refine pills? Can you tell me?"

Lin Yi asked the two students from Qingshan apothecary school.

Lin Yi didn't know how strong they were, so he wanted to compare them with Tang Yungui.

I'll talk about the one who failed first. He used a very ordinary technique, nothing special. In the end, a problem occurred midway, causing the pill refinement to fail.

Lin Yi nodded-it was normal to fail. He turned to the successful student.

Could he also be a genius?

The student who succeeded spoke up. "The student was about the same at the beginning. But in the middle, I felt like I couldn't control the fire. In my panic, I couldn't care less about adding new medicinal ingredients according to the procedure and put all my effort into controlling the pill fire."

Chapter 8360

"It wasn't easy to stabilize the alchemy fire, but one herb was missing ... If I'm not mistaken, it's the Tianqing fruit. I wanted to add it again, but I missed the opportunity. If I add another Tianqing fruit, the furnace might explode."

"I had no choice but to give up and try my best. I continued to refine it and finally successfully formed a pill. The medicinal effects are very similar to the description in the pill formula, and the quality is above average, very close to high-tier quality ..."

Lin Yi was a little speechless after hearing the student's story.

Lin Yi had just seen the recipe-if the original difficulty was a fifth-year question, then without the Azure fruit, the difficulty dropped to the level of a third-year, or even a second-year!

The medicinal effects of the two were indeed very similar, but the difference in their effects was like heaven and earth!

For example, if you were going to dig up ginseng, but what you dug out was a radish, that was probably what happened!

To think that this guy was so happy and proud that he thought he had successfully formed the pill!

These were basically two types of pills!

It was like the difference between a small recovery pill and a large recovery pill. If Lin Yi was the examiner, he would've just failed the test.

"Yungui, how did you make it?"

Lin Yi knew what was going on, but he still asked Tang Yungui about the operation, "You didn't get rid of any herbs, did you?"

If one or two herbs were missing, the difficulty level would drop sharply. With Tang Yungui's alchemy skills, it was not impossible to refine high-quality or even special-quality pills.

So Lin Yi believed that Tang Yungui wasn't playing any tricks. He nodded seriously, "Master, I didn't lack any medicinal herbs. I refined them step by step. In the end, I really didn't have enough strength, so I refined a low-grade pill!"

Lin Yi understood immediately-so that was what happened!

Tang Yungui's alchemy skills were indeed better than the two students beside him.

If one wanted to successfully refine this pill recipe, even if they didn't become an official Alchemist, they would at least need the strength of a senior dark gold rank Alchemist apprentice.

Thus, this simply shouldn't be something that should appear in the gold apprentice Alchemist test!

The reason why the alchemy Association used this as a topic was probably to see if the apprentice alchemists participating in the assessment had the ability to react in an emergency!

It didn't matter if he lacked medicinal herbs. As long as he could form the pill, even if it was a castrated version, it was still considered a success!

Then, according to the grade of the completed pill, this was the most reasonable explanation!

Those apprentice alchemists with poor adaptability basically ended up in failure, completely losing the title of gold apprentice Alchemist.

Only a student like Tang Yungui, who had excellent alchemy skills, could barely make the correct elixir!

"Dean Sima, Tang Yungui is very powerful! It seems that he will definitely become a gold rank apprentice Alchemist. This old man will first congratulate you on having such a good disciple! His future is bound to be limitless!"

Lu sanjian smiled as he cupped his hands in praise, envious of Lin Yi.

Great teachers produced great disciples. They complemented each other. He also wanted to have a talented disciple like Tang Yungui!

After all, every Master Teacher hoped to have a successor.

Unfortunately, geniuses were hard to come by. They couldn't be accepted just because they wanted to.

The two men beside Lu sanjian were already outstanding students of the Green Mountain Alchemy School, but they were still students and hadn't been accepted as disciples by Lu sanjian.

It was because, although they were outstanding, they were not considered true geniuses!

Lu sanjian did not know that Tang Yungui was previously known as a good-for-nothing in the Fuyao apothecary school. If he knew about this, when he returned to the Qingshan apothecary school, he would probably look around the school to see if there were any good-for-nothings or neglected geniuses.

"I'll count on your words! If the judging standard is based on the pill formula, then it's indeed more stable!"

Lin Yi smiled and nodded. After all, Tang Yungui's strength was right in front of him.

Ouyang Fantong had probably also refined pills with her own shortcomings. Even if the quality was higher, she was not Tang Yungui's match.

With that, he could only wait for the list to be announced tomorrow!

The next day, Lin Yi brought Tang Yungui and the others to meet up with the group from Qingshan alchemy college and arrived at Tianxia college on time.

It was just in time for the announcement of the name list. At this moment, the alchemy Association's people were putting up the name list.

Tang Yungui was a little nervous, Diao Longtian was a little excited, and Ouyang Fantong had a proud attitude as if victory was already in her grasp.

Lin Yi's heart sank when he saw Ouyang Fantong's condition.

He couldn't be bothered with the names anymore and scanned with his spirit sense, his face darkening.

The name of the Fuyao pill refining school was on the list, but the person who had been promoted to a gold apprentice was Ouyang Fantong?

It wasn't tang Yungui, but Ouyang Fantong, that good-for-nothing!

How was that possible?

How could good-for-nothing's alchemy skills be compared to Tang Yungui 's? It was simply laughable!

It wasn't that Lin Yi was biased towards Tang Yungui, but the truth.

Of course, if their strengths were similar and Tang Yungui lost to Ouyang Fantong ... Lin Yi wouldn't say anything. There was nothing to say if Tang Yungui's skills were inferior.

However, the key was that he had lost when he was a little more skilled!

Lin Yi couldn't just let it go like that, since when was he the type to lose?

Usually, he was a bastard who didn't take advantage of others. Now that he had been taken advantage of, he definitely couldn't tolerate it.

"Senior brother Tang, I'll help you find the name. You'll definitely win. Let's go celebrate after we find the name. The Tianfeng restaurant we went to that day was pretty good. The dishes were excellent. Let's go there ..."

Diao Longtian could see that Tang Yungui was a little nervous, so he enthusiastically helped Tang Yungui find a name.

He had even thought of the venue for the celebration. He felt that Tang Yungui would definitely pass!

It wasn't that Diao mang Tian had confidence in Tang Yungui, but he had confidence in Lin Yi!

Lin Yi personally taught his disciple, how strong was that?

Diao Longtian felt that he had made great progress during this period of time, but he realized that the gap between him and Tang Yungui had widened.

Therefore, even if he could participate in the gold apprentice alchemy apprentice test, he had no interest in competing with Tang Yungui for the crown. He was destined to lose!

They didn't use their divine sense and didn't know that Tang Yungui didn't get the title of gold alchemy apprentice. Instead, it was Ouyang Fantong who succeeded. So, they were still looking for names and didn't notice that Lin Yi's face had turned as dark as water.

Tang Yungui had wanted to be humble, but his eyes happened to fall on Ouyang Fantong's name. His words froze on the tip of his tongue. He could no longer say it. Even his smile froze.

Tang Yungui thought that he made a mistake yesterday, but after Lin Yi's analysis, he realized that it wasn't a mistake. It was someone else who cut corners.

As a result, Tang Yungui looked forward to becoming a gold apprentice Alchemist.

In the end, today, he found out that his rival, Ouyang Fantong, had directly taken the position!
