

Bodyguard 8371

Chapter 8371

he had said that he would fully support the fu yao apothecary school, and now was the time for him to take action!

qingshan apothecary school might not get much support from the higher-ups next year, but lu sanjian felt that it was worth it to have lin yi's friendship!

lin yi blinked, but declined with a smile. "there's no need for that. i appreciate dean lu's kind intentions. however, i'm very confident in my pill refining skills. i'm very confident in this assessment. dean lu, you guys should work hard too!"

lu sanjian was taken aback as well-lin yi didn't seem to be joking, so he smiled and took the pill back. "that's right, dean sima's alchemy skills are superb, so he must be confident! this old master was overthinking!"

he felt that lin yi was doing this because he was too proud, and he even reflected on his actions-did he hurt lin yi's pride a little?

But it didn't matter if Lin Yi accepted it or not-their relationship had already deepened.

Lin Yi looked at Lu sanjian's wandering eyes and thought that the guy was eyeing his ten pills because of his confidence!

"Dean Lu, we'll give you these ten pills as well. We wish you good results!"

With that, Lin Yi took the ten pills from the tutor's hands and handed them to Lu sanjian.

"Ah?"

Lu sanjian was stunned. "That's not very good. I don't think there's a need ..." He said.

"You don't have to think too much about it. I really don't care. These ten medicinal pills are nothing compared to the production capacity of the few of us!"

Lin Yi really didn't care about these ten pills. He might as well do him a favor.

The two mentors from the Fuyao apothecary school didn't want to go, but they didn't say anything in the end.

After all, Lin Yi was the leader, and they were just followers.

Lin Yi had shown them his strength and abilities along the way, and they subconsciously thought that he had a reason for doing so.

Lu sanjian saw Lin Yi's determination and nodded, "Alright, since that's the case, this old master will be impolite! I also hope that Dean Sima will be able to come out on top!"

"It's the fork in the road ahead. Dean Lu, everything went smoothly for you!"

Lin Yi smiled as he cupped his hands.

Lu sanjian quickly returned the greeting and said a few words of thanks before the two sides separated.

He found the sign and used it to open the door. Lin Yi found it funny-there was a spirit sense shielding formation set up here, preventing people from seeing what was going on inside.

After closing the door, the inside of the courtyard was equivalent to an enclosed space. You can do whatever you want without any monitoring means. It's obvious that you're cheating!

There were a lot of materials stacked in the yard-the muscle regeneration pill's materials weren't anything rare or precious, so there were a lot of them in the market. Lin Yi took a quick look and saw at least a hundred sets of them!

This is too much!

How many pills could three people make in a day under normal circumstances? At most, a bronze-grade alchemy Grandmaster could refine six or seven pills a day without rest. Any more than that would be fatal.

As for Diamond Grade alchemists, it was even more impressive if they could produce two or three pills. Moreover, the quality could not be guaranteed. Therefore, under normal circumstances, the ten pills prepared by Hua Yao might be the limit of the number of pills that could be refined.

What do you mean by getting 100 sets of materials? Were they worried that they had prepared too many pills in advance and had no excuse to take them out?

"Dean Sima, let's begin immediately! This subordinate has done some research on the muscle regeneration pill. In a day's time, I might be able to make four of them!"

One of the instructors had already rolled up his sleeves and was ready to get to work. There was not much time left, and every second counted! He might even be able to set a new record and try to refine five pills in a day!

Although the other one didn't say anything, he also began to collect the medicinal herbs and was ready to start.

Lin Yi waved his hand, "Don't worry, we'll definitely be the best in this round of assessment! Don't worry!"

As he spoke, he took out some formation flags and set up a stealth formation in the yard.

With Lin Yi's skill in formations, no one in Tianxia college could break this formation!

In fact, there was no need to set up a formation. This was just a precaution.

Outside the house, there was an array that could shield one's divine sense. The alchemy Association had made it clear that the students who wanted to take the test were not worried about cheating, so they did not bother to check.

Lin Yi was just being cautious out of habit-it wasn't a big deal to set up a stealth formation!

The two mentors, on the other hand, were dumbfounded as they watched Lin Yi's smooth formation. They'd heard that this honorary Dean was very skilled in formations, but they didn't believe it.

How could an alchemy Grandmaster have the time to study array Dao?

Not to mention, Lin Yi was a young Grandmaster! Even a genius wouldn't be so exaggerated!

It wasn't until they saw Lin Yi's methods that they realized that geniuses weren't something they could understand ...

Before the two mentors could recover from their shock, Lin Yi had already finished setting up the invisibility formation.

He clapped his hands in a relaxed manner and looked around.

"not bad. with this concealment array, even if someone breaks through the spiritual sense barrier outside, they won't be able to see what we're doing! you can rest assured!"

the teacher at the side finally came back to his senses and subconsciously asked,"dean sima, what can we be assured of?"

"naturally, i'm at ease refining pills!"

lin yi smiled and took out the nine-story pagoda.

with the invisibility formation, no one outside would be able to notice lin yi's cheating.

Didn't you all encourage cheating? then let's see whose cheating method is more brilliant!

"Let's go inside and refine pills!"

Lin Yi opened the door to the nine-level Pagoda and turned to call the two mentors, only to find them staring at the pagoda with their mouths wide open as if they had seen a ghost!

But this is a divine artifact, what the hell are you guys seeing!

"Let's go, we're going in to refine pills!"

Lin Yi couldn't really say that they were new to this-it was only normal for them to be surprised when seeing a nine-story Pagoda for the first time. He raised his voice and called out again.

Only then did the two mentors come back to their senses, but they were still in a daze as they responded with "Oh" and followed him in.

This time, Lin Yi entered the nine level Pagoda purely for the sake of making elixirs, not for them to level up.

And so, Lin Yi chose the most suitable place to do it, and adjusted the time flow.

After Lin Yi had tamed the nine-story Pagoda, he could now adjust the flow of time with the outside world.

"This is ... A heavenly paradise! Dean Sima, what kind of treasure is this? Why do I feel like I'm floating in the air?"

One of the teachers squinted his eyes and spread his arms wide in intoxication.

Chapter 8372

The spiritual Qi here was so abundant that even though they were body cultivators without genuine Qi, they could still feel the great difference.

Lin Yi, on the other hand, retracted his body after entering the pagoda and turned into his Yuan spirit form. His Qi recovered as well, and he could feel the difference.

"That's right, that's just an illusion. Hurry up and start refining the pill!"

Lin Yi said casually as he spread out all the herbs he'd brought in from the yard. "Here are 100 sets of herbs, but I don't think it's enough for us. I'll take out more later!"

The two teachers twitched their lips, thinking that 100 sets of medicinal ingredients were not enough? Dean Sima, you're just bragging!

It's already a miracle that the two of us combined can produce ten or so pills. You can produce ninety pills by yourself? Was he trying to ascend to the heavens?

"Dean Sima, I think these materials are enough. I don't think we'll be able to finish them ..."

One of the mentors suggested, but before he could finish, Lin Yi took out two automatic alchemy furnaces and threw them to the mentors.

"These are the automatic pill furnaces developed by the central Chamber of Commerce. These two are the latest models and can be used to make Mystic first level body regeneration pills. It will be easier and more convenient for you to use the automatic pill furnaces."

Lin Yi already had a plan-not only would he be able to adjust the flow of time inside and outside, but he'd also have plenty of Qi to replenish the two's energy.

Although their alchemy fire was condensed with elemental Qi, when spirit Qi entered their bodies, their recovery ability would naturally double.

"The operation of the automatic alchemy furnace is very simple. It's like this ... Like this ..."

Lin Yi taught them patiently, and it didn't take long for him to teach the two how to operate the automatic furnace.

Sharpening a knife would not delay the work of cutting wood. This little time spent could be made up for immediately later!

"T-t-t-this ... This is the legendary divine tool for alchemy!"

After understanding what an automatic alchemy furnace was, the two mentors were shocked again!

They'd heard about the automatic furnaces of the central Chamber of Commerce before-after all, Lin Yi's pill business was very famous, and he'd even taken away a lot of the alchemists from the alchemy Association.

However, before they had seen the automatic alchemy furnace with their own eyes, they had more or less looked down on it in their hearts. They felt that it was an evil thing and not worth mentioning.

At most, it was used by some apprentice alchemists and low-level alchemists. Most of the pills that could be refined were low-level and mid-tier pills, with no development potential.

It was only now that they realized that it was a complete illusion!

With this divine alchemy tool, they, as diamond-grade alchemists, could go home and farm!

Luckily, it wasn't common-they wouldn't have seen it if Lin Yi didn't show it to them.

It seemed like central didn't want to destroy the sub island's ecosystem. If it wasn't for Lin Yi's request, they wouldn't have mass produced this thing.

If this thing were to be put on the market on a large scale, at least a large number of low-level alchemists would lose their jobs.

"This isn't really a divine tool, it's all low-end stuff. At most, it can be used to make Mystic first level pills. If it's Mystic second level pills, then it's completely useless!"

Lin Yi didn't seem to mind at all, even looking down on the automatic furnace.

The two teachers were speechless. At most, they could only make Mystic first level pills. Low-end stuff? did that mean they were useless?

However, the two of them couldn't even compare to this automatic alchemy furnace, so wouldn't they be even more useless?

Lin Yi didn't mean to attack them, but this invisible attack was the most fatal!

To be honest, Lin Yi wasn't looking down on them at all-it was the automatic alchemy furnace that he was looking down on.

This thing was a product of the sub-Island, and was only suitable for refining the pills of the sub-Island, not the pills of the Sky Class Island.

As such, in Lin Yi's eyes, these were all defective products, and couldn't be compared to his automatic refining divine tool, the Shennong cauldron.

After the two instructors entered their refining States, Lin Yi took out the Shennong cauldron and started inserting the recipe.

The muscle regeneration pill was a pill unique to the sub Island. Even if it wasn't a high grade, it was still unknown recipe to Lin Yi's Shennong medicine cauldron.

After all, this was an elixir that was refined with an elemental elixir fire. If he wanted to transform it into a true Qi elixir, he naturally had to optimize and adjust it.

Although Lin Yi's high-class weapon didn't look the same as the two mentors "automatic refining tools, the people of the sub-Island thought that the high-tech things looked the same.

Just like how Asians looked at foreigners, the two coaches did not find it strange.

he was still excited after getting the automatic furnace-he didn't have the time to look at the one in lin yi's hand.

these two instructors were completely focused on trying to refine pills.

lin yi added the ingredients according to the recipe.

it was an experiment, and there was a chance of failure, so lin yi only put in one set of ingredients.

then, he followed the instructions and started to activate his true qi.

as expected, the final result was a failure.

the materials from before had become a pile of slag!

the two mentors didn't notice what was happening, but when lin yi opened shennong's medicine cauldron, a burnt smell spread ...

as long as one was an alchemist, they would know that this was the taste of failure!

But Lin Yi actually failed?

The two mentors knew Lin Yi's ability and had seen his performance when Tang Yungui took the test. How could he fail?

Yes, it must be that Lin Yi didn't like to use this kind of automatic equipment, so this was his first time using it and he wasn't familiar with it yet, leading to the failure.

Thinking about it this way, the two of them felt that it was reasonable.

One of them even consoled him. "Dean Sima, the things in the center are good, but we've never used them before. We have to get familiar with them. It's normal to fail!"

"Mm ..."

Lin Yi replied casually as he looked at the notification on the screen. After a beep, it indicated that Jing Jing had successfully optimized the recipe.

This time, Lin Yi didn't try anymore and threw in five sets of ingredients at once.

Then, according to the instructions, he began to input genuine Qi.

The two mentors wanted to say something, but they couldn't help but sigh after seeing Lin Yi's actions.

Was this Dean Sima anxious?

But no matter how impatient he was, he couldn't possibly refine five pills at the same time. This didn't make sense!

However, they only said it in their hearts and didn't dare to say it out loud. Then, they continued to release their pill fire to refine pills.

As for Lin Yi, he followed the instructions and continued to channel Qi into the pill. Finally, the pill was formed!

Seven, all of them were upper and special grade muscle regeneration pills!

Lin Yi shook his head, not too satisfied.

There were even high-grade medicinal pills? Could it be that the optimization was not complete?

Chapter 8373

the two instructors were focused on their refinement, but they wanted to see if lin yi would fail this time!

of course, when others were refining pills, they had to be fully focused, for fear that the pill refining would fail or even the furnace would explode!

but that was just how messed up an automatic alchemy furnace was-they had nothing to do while they were refining, as long as the fire was maintained and the output was stable, and so they all paid attention to lin yi's refinement.

what did they see in the end? a furnace of seven pills!

and he only used five sets of ingredients!

if he had not seen it with his own eyes, he would not have believed it!

he even felt like he was dreaming when he saw it with his own eyes!

under the shock of their minds, their alchemy fire became somewhat unstable, almost destroying the medicinal pill that was being refined halfway!

That's right, Lin Yi had already finished making it, while they were only half done!

Fortunately, the automatic alchemy furnace's protection mechanism was very good, and it had a large margin for error. A portion of the continuous and stable output from before had been stored, and it was just right to be used at this time.

"All of you, focus! Don't be distracted!"

Lin Yi frowned and said softly.

The two teachers hurriedly agreed and immediately restrained their thoughts and continued to refine pills.

Looking at their movements and progress, there shouldn't be any problems. As long as they succeeded on the first try, the subsequent ones would be easier and easier.

However, they didn't dare to make too many at once like Lin Yi did. Although the furnace had this function, they didn't know how to use it and didn't dare to use it recklessly.

After all, the warning on the automatic alchemy furnace stated that it might cause the alchemy to fail. They were afraid that all the alchemy would fail.

It seemed that the automatic furnace in central was still a bit different from Lin Yi 's, and there was a high chance of failure.

Lin Yi put away the first batch of muscle regeneration pills and was ready to make the second batch. After repeating the process, the hundred portions of ingredients were used up very quickly.

In the end, the number of pills that were successfully refined was at least 120 to 130. It far exceeded the total amount of 100 portions of medicinal materials. It was truly shocking!

It was still early, so Lin Yi took out another batch of materials from the Jade space to continue making the pill. The materials for the muscle regeneration pill were all common goods, and there were large quantities of them. They were also commonly used pills, so Lin Yi had quite a lot of them in stock.

"Dean Sima, it's almost been a day, right? Shouldn't we go out?"

The two mentors were already numb to Lin Yi's refinement-it seemed like it was about time."If we miss the time, we'll be judged to have failed!"

Most of the muscle regeneration pills that they refined were of medium quality, and a small portion of them were of low quality.

As for the high grade ones, they were even rarer. They were really as rare as Phoenix Feathers and Qilin horns, and only one would appear occasionally if one was lucky.

Even so, they were already very happy. The assessment required quantity, not quality.

And with their results, if they were to refine pills normally, they could already be considered bronze-grade alchemy grandmasters!

"Don't worry, it's still early. You guys continue to refine pills! Don't think that an automatic alchemy furnace can't help your alchemy skills. Carefully observe the changes in the medicinal materials in the alchemy furnace and remember the alchemy process. When you can copy it from your memory, you will be bronze rank alchemy grandmasters!"

Lin Yi casually gave a few pointers, and the two instructors were overjoyed. They felt that Lin Yi's words made sense!

As for the time ... Lin Yi was the leader, and the nine-story Pagoda belonged to him. If he didn't say anything, they wouldn't be able to leave.

since he had come, he would take it! in that case, he would continue to refine pills!

other than believing in lin yi, what else could they do?

lin yi nodded, satisfied. he knew the time well-after lowering the flow of time, one day outside was at least three days in here!

using this method to make elixirs for three days straight, lin yi wanted to see who could compete in quantity.

two more days passed, and the two instructors were exhausted.

although they had taken a break in between, it was really not enough time!

they had squeezed their physical strength and attribute qi to the limit, and now they felt that they were likely to die soon ...

"dean sima ... this subordinate ... this subordinate really needs to rest ... if i don't rest, i'll die!"

"i ... i feel the same way. i really can't hold on any longer ..."

the two instructors fell to the ground, not wanting to get up again.

the two of them combined probably didn't even make a fifth or sixth of lin yi's pills, and yet lin yi was still full of energy. the two mentors were actually quite desperate.

how could there be such an unattainable person!

when they saw lin yi, they didn't even have the thought to chase after him!

lin yi didn't force the two, seeing that they really couldn't make it.

After all, Lin Yi could replenish his pure Qi at any time, but these two couldn't. It was about time, so he nodded and smiled, "Alright, the time is just right. We'll get ready to leave now!"

After packing his things, Lin Yi did a rough calculation of the number of body regeneration pills he'd made, and even he was shocked!

In just two to three days, he had actually refined nearly a thousand muscle regeneration pills!

Awesome!

Lin Yi couldn't help but give himself a like-who would dare to outbid the pill with this number?

The two mentors rested for a while before they managed to recover some energy.

No matter how they calculated, they felt that more than a day had passed!

Although there was no sun or moon in the nine-story glazed Pagoda, which would give people the illusion that it was always daytime, the workload of refining pills could not be faked!

It felt like it had been two or three days, right? Could it be that Dean Sima had miscalculated?

Lin Yi, of course, wouldn't make a mistake. He opened the nine-story Pagoda after packing up and called for the two mentors to leave.

Outside, the two of them subconsciously looked at the sky. It seemed to be about the same time as when they entered, or perhaps even earlier.

For example, it was eight in the morning when he entered, but it looked like it was around seven-thirty in the morning now. He didn't know how many days later it would be seven-thirty in the morning ...

"Hmm, it's about time. I can still rest for a while and leave."

Lin Yi took note of the time and felt that he had left enough space for himself. He put away the nine-story Pagoda and the invisibility formation.

"If the two of you are tired, you can go to the room to rest. When it's time to go out, I'll naturally call you."

The two mentors looked at each other and cupped their hands at Lin Yi, "Then we'll go rest for a while. Dean Sima, you have to take care of your health too."

Three consecutive days of high-intensity alchemy was really not something that ordinary people could withstand. The two of them wanted to be stronger, but they really could not hold on any longer.

Chapter 8374

As for whether the time was really not up yet, they didn't care anymore. Anyway, it had already come to this. Whether it succeeded or not, it didn't matter. They just had to break the broken pot!

After that, the two of them slipped into the room, lay down on the bed, and fell asleep.

Lin Yi, on the other hand, didn't feel tired at all-he had pure Qi to replenish him, after all, and making elixirs for two to three days would only make him feel a little tired mentally.

The two mentors went to rest, and Lin Yi used his spirit sense to check the situation outside.

For the time being, no one had gone over to the hall of rites. It was obvious that none of the academies were willing to stop until the last moment.

This first round of assessment was most likely the easiest to score. As long as the number of medicinal pills was sufficient, one would be able to obtain the corresponding points, and there was no cap!

Therefore, he had to make full use of his time. Even one more pill was a good thing.

After a while, when it was almost time, people began to come out of the courtyards and gather in the direction of the hall of rites.

"You can get up now. It's almost time. We should set off!"

Lin Yi stood in the yard and called for the two mentors.

The two of them walked out in a daze, still feeling a little dizzy. They followed Lin Yi like walking corpses.

After walking out of the courtyard for a while, the two gradually woke up and found that there were people around them who had just come out of other courtyards. They were a little surprised.

"Dean Sima, did we really not miss the time? Has it really only been a day?"

It was simply unbelievable!

One day and he'd be dog tired? This isn't right!

In the past, they wouldn't feel so tired even if they refined pills for an entire day!

And the automatic alchemy furnace was even more worry-free and energy-saving, so there was no reason for it to be more tiring!

"Indeed, it's only one day. Something must have gone wrong. It's the first time you've used this kind of alchemy furnace, so it's a bit of an illusion!"

Lin Yi was lying through his teeth-you guys can believe it or not, but I do!

The two mentors' lips twitched.

Dean Sima, do you think we're stupid? 1

If one's feelings were wrong, how could two people be wrong at the same time? Can't I be a little more sincere?

Lu sanjian was already waiting at the intersection with two mentors from the Qingshan Alchemy School. He smiled when he saw Lin Yi and the other two.

"Dean Sima, this old man thought that you might not have gone over yet, so I was waiting to go together. I've only been waiting for a while, and I really did run into you."

Lin Yi chuckled to himself-old Lu wasn't being sincere at all! He'd been waiting here for ten minutes already, what did he mean by just a while?!

Did he think that his divine sense was fake?

Lin Yi didn't expect Lu sanjian to be waiting for him at first, but it took him a few minutes to figure out why he was wandering around the intersection.

But Lin Yi didn't want the two to sleep for a few more minutes, so he didn't come immediately.

"Thank you, Dean Lu. It's the same if you go first. You don't have to wait for us."

Lin Yi cupped his hands in thanks before asking casually, "How's your pill refining results? Did the refining go smoothly?"

There were too many items in the nine story Pagoda-was there a need to take them all out? Seeing Lu sanjian, he thought about giving a small portion to the Green Mountain Alchemy School. After all, they were allies, and he could give them a hand.

"the three of us gave our all in alchemy and refined a total of twelve muscle body regeneration pills. dean sima, how many did you guys refine?"

lu sanjian looked around and saw no one around, so he lowered his voice and said,""i overheard the people from qi feng alchemy school saying that they've prepared mystic first level body regeneration pills this time. there are dozens of them, so they didn't make much today. but it's enough to guarantee that they'll be able to beat everyone in the first round!"

"oh," lin yi replied, surprised."is there still an academy that would place all their hopes on a single pill? aren't you afraid of making mistakes? if i'm wrong, wouldn't i immediately be at the bottom?"

to bet everything on a single pill before knowing the test's question wasn't courage, but gambling spirit!

A normal Academy shouldn't have such a huge gamble!

Lu sanjian sneered and continued in a low voice, ""As long as they can guarantee that the test questions are correct, they will naturally dare to place all their hopes on it! Although this old man doesn't have any evidence, the Dean of the Qifeng Alchemy School and the Golden patrol inspector are very close. If there's nothing fishy about this, this old man won't believe it even if you beat me to death!"

Lin Yi suddenly understood-so they had to be in cahoots with the outside world to be prepared?

Lin Yi had gotten used to the dirty tricks in the test.

If Lin Yi wanted to, he could've gotten today's topic from Hong zhizhu or Wei zhentian yesterday and prepared himself for it.

The Qi Feng Alchemy School must have received the news not long ago, so they only had time to prepare a few dozen muscle regeneration pills.

If he had more time, it was possible to prepare hundreds of them.

however, compared to the other schools that had placed their bets, qi peak apothecary school had a huge advantage!

it was no wonder that the people from qi feng alchemy school could rest during the assessment period.

"it doesn't matter. we just need to do our own thing. as for the others, let them be!"

lin yi waved his hand casually. it was only a few dozen pills. it was nothing in front of the pill in his hand. they were all brothers!

lu sanjian didn't know where lin yi's confidence came from. he hesitated for a bit before opening his mouth,"dean sima, in order to get a good result, why don't i transfer all my pills to you? even if we can't beat qi feng apothecary school, we shouldn't be too far off!"

"If not for that, the gap between our two schools and the Qi Feng Alchemy School would have been huge, and it would have been difficult to catch up in the future ... I currently have a total of thirty-seven muscle body regeneration pills. I'll keep two to complete my task and give the rest to you. What do you think, Dean Sima?"

Lu sanjian felt that now was not the time to pursue self-esteem. He had to look at the problem from a practical perspective.

He truly wanted to help Lin Yi, and as long as he could get good grades in the school, Lin Yi would remember this favor.

For the sake of Lin Yi's favor, Lu sanjian was willing to give up the future and benefits of Qingshan Alchemy School next year.

Lin Yi looked at Lu sanjian, surprised. Old Lu was quite loyal!

He was actually willing to take out 25 medicinal pills. The remaining two pills were the last embarrassment of the Green Mountain Alchemy School. If they didn't have any left, their reputation would be completely destroyed.

Of course, the remaining two were not much better.

Lin Yi was still thinking about whether he should help Lu sanjian, but now he was sure that old Lu was a good person and should be helped!

Chapter 8375 No Problem!

Lin Yi took out a bulging cloth bag and threw it to Lu sanjian. "We've refined enough medicinal pills, so you can keep them for yourself. There are still some leftover pills here, so they'll be yours. Um ... We don't have any more bottles, so we'll just pack them in cloth bags. Don't mind it!"

Lu sanjian was dumbfounded. The moment he touched the cloth bag, he could already feel the medicinal pills. There were at least a hundred of them, right?

Then, it was the pill fragrance. The cloth bag couldn't block out the pill fragrance of so many pills!

Lu sanjian was also an alchemy Grandmaster. He could confirm that it was the body regeneration pill just by smelling it!

There were actually so many muscle regeneration pills?

This was made in a day? Or was it the kind that was left behind? Don't f * cking fool me, okay?

Lu sanjian's first reaction was that Lin Yi was hiding the information from him. In fact, Lin Yi was the same as Qifeng Alchemy School-he'd received the information beforehand!

However, even if he had received the news in advance, he couldn't have prepared so much, right?

The muscle regeneration pill was a Mystic first level pill, not some cabbage you could find on the side of the road. The ingredients weren't precious, but it wasn't easy to make. It wasn't something that just anyone could make. There was no way to buy such a large amount even if you wanted to.

If not for this, Qi Feng apothecary school would not have only prepared a few dozen pills after receiving the news.

"No... Dean Sima ... This ... This old man ..."

Lu sanjian held the cloth bag in his hand. His thoughts were a little incoherent. He looked around like a thief. Fortunately, they were the last batch of people to come, so no one noticed the situation here.

Lu sanjian's heart still ached for the muscle regeneration pills-they were Mystic class level one pills, and they just put them in a normal cloth bag?

If this thing was put on the market, even the martial artists of the mountain opening stage and the earth opening stage would fight for it!

"Alright, that's enough. Hurry up and go in, or we'll really be late!"

Lin Yi waved his hand, not minding it at all. They were almost at the hall of rites, and it was already starting to verify the number of schools. "Hurry up and put it away. Don't make it conspicuous in your hands. Don't worry, I have more than you!"

To be honest, Lu sanjian didn't really believe Lin Yi's words. This was already a lot, how could Lin Yi have more?

He felt that Lin Yi had at most twenty to thirty more pills than this, so he was very grateful and felt that Lin Yi was an honest person.

Alright, I won't say anything else, I'll remember this favor!

Lu sanjian was a little dumbfounded when he entered the door. This was not right!

He wanted to do Lin Yi a favor, but why did it become Lin Yi doing him a favor?

'Damn, this isn't right! How could he correct it?

Lu sanjian scratched his head in distress. It seemed that he could only wait for the next time!

She had to return the favor to Lin Yi next time ... No, the next time could only be considered as returning the favor, so she had to do it next time?

He was dumbfounded!

Lin Yi didn't know about Lu sanjian's troubles. He found a place to stand and looked up at the board.

There were the names of the various Academies on it, and the numbers behind were the academies that had submitted their numbers for verification.

Most of them were between 20 to 30, which was a relatively normal number. For example, the muscle regeneration pills prepared by the Qingshan and Fuyao apothecary schools, together with the ones they had painstakingly refined for a day, were between 20 to 30.

It seemed that everyone's thinking and skill level were similar.

There weren't many that exceeded 30. It was probably because he had prepared a few more, which could be considered as a reward.

There weren't many who were below 20 either, probably betting on other medicinal pills, and the ones in their hands were all just refined.

Lin Yi was interested in the Qi Feng Alchemy School.

And so he looked at the name of the school-he wanted to see how much they'd prepared.

However, the number at the back of Qi Feng apothecary school had not been filled in yet, probably because they had not had the time to verify it.

There weren't many schools left that hadn't been verified yet-there were only five, including Lu sanjian and Lin Yi 's. It wasn't long before the Dean of Qifeng Alchemy School went up.

This was the third last place, and naturally, Lin Yi and Lu sanjian were the last two to enter.

The Dean of Qifeng Alchemy School was a short fat man, round like a big ball. After he went on stage, he smiled proudly and bowed to Hong zhizhu and the others.

Lin Yi's spirit sense saw him exchanging a look with that inspector he pen-they were indeed in cahoots!

"president hong, vice president wei and patrol he, our qi feng apothecary school has performed very well this time. the pill refining has been very successful, so the number of pills we have refined is quite good. please have a look!"

as he spoke, dean qi feng took out a large jade box and pulled it from the middle to the sides. it looked a little like a cosmetic box in the secular world. when it extended out, it pulled out layers of partition, and each layer was neatly arranged with pills.

hong zhizhu only glanced at it and nodded expressionlessly. he had seen it.

wei zhentian was the person in charge, so he couldn't be so perfunctory. he could only go forward and inspect it carefully, then turned back and gestured for he bi to take a look.

he bi na also pretended to look at it, then nodded and sighed, ""qi feng apothecary school is really amazing. they managed to produce so many muscle regeneration pills in one day. it's worthy of a reward!"

the people below the stage were secretly disdainful. whether it was refined or not, don't you have any idea in your heart? what's the point of saying that?

seeing that he pena had no objections, wei zhentian announced the results on the spot, ""qi feng apothecary school has produced a total of 68 muscle regeneration pills and is currently ranked first!"

if there were no accidents, qi peak alchemy school would also be first in the first round today!

the principal of the qi feng alchemy school smiled brightly and bowed with his hands folded in front of his chest, ""many thanks, vice president wei!"

seeing the number ' 68' filled in behind the qifeng apothecary school, the qifeng dean puffed out his chest and proudly glanced at all the school representatives.

If it wasn't for Hong zhizhu and the other bosses standing beside him, he would probably have shouted, ""Who else is there?"了。

The number of 68 pills was almost double that of the second place Academy!

Although there were still two more colleges that had not been checked, Dean Qi Feng felt that this wave was definitely in the bag!

It was so convenient to have a close gold rank patrol envoy!

Not to mention the benefits of giving it away, he could even enjoy the feeling of cheating during an assessment!

"You can leave now!"

Hong zhizhu said coldly, looking down on the Dean of Qi Feng.

The big boss is still waiting behind you, so why are you smiling like an idiot on stage!

Chapter 8376

The first round of assessment was actually a round of encouraging you to cheat openly, it was just that it was not exposed.

As the Vice Hall Master of the martial Alliance of the continent, Hong zhizhu naturally knew about the secret between Dean Qi Feng and he Pena.

What was there to be proud of?

Dean Qi Feng was feeling smug, but after being chased away by Hong zhizhu, he immediately looked embarrassed and quickly cupped his hands and left.

Lu sanjian asked for Lin Yi's opinion before stepping onto the stage.

Lin Yi, this Big Boss, was supposed to be the last to appear!

Before he went on stage, Lu sanjian had already replaced all the elixirs in the cloth bag with Jade boxes. After all, the Green Mountain Alchemy School was a prestigious school, and they couldn't go on stage with a cloth bag. They couldn't afford to lose that much face!

"Qingshan Alchemy school's alchemy is also very successful. I would like to ask the three lords to check."

Lu sanjian didn't say anything unnecessary on the stage. After a normal bow, he opened the jade box. The neatly arranged elixirs instantly formed a huge impact. Even Hong zhizhu couldn't help but be slightly moved.

Wei zhentian sternly went up to check, while he Shinan's expression was a little unsightly.

The Dean of Qi Feng was his friend, and he had informed them of the examination's topic in advance. He had only prepared 68 pills, so how could the Green Mountain Alchemy School have prepared so many pills in advance?

Who was the backer of the Green Mountain Alchemy School?

He BI's gloomy eyes darted between Hong zhizhu and Wei zhentian. Normally, only the President and Vice President of the alchemy Association were suspicious, right?

"Qingshan alchemy college ... Has a total of 121 pills! Currently ranked first!"

After checking, Wei zhentian's expression was a little complicated as he looked deeply at Lu sanjian.

wei zhentian was probably also guessing who had given the other party the information in advance.

it was one thing for him to obtain information in advance, but to be able to gather so much information ... that was truly impressive!

mystic first level pills weren't cabbages. the topic was just decided a day ago. it was already difficult for qifeng alchemy school to prepare more than sixty pills, but lu sanjian's methods were even more shocking!

"wait! the quality of these pills isn't very good!"

he bunai frowned and stood out. as a gold rank patrol envoy, he had absolute control over the academy.

therefore, he felt that no matter who lu sanjian used, it was lu sanjian's fault for not reporting to him.

moreover, why would he support the qifeng alchemy school? how could he tolerate lu sanjian's interference?

One had to know that in the first round of assessment, if one could get first place, not only would they get points for the number of medicinal pills, but they would also get additional points as a reward.

Therefore, he bi would never allow Lu sanjian to defeat Qifeng Alchemy School!

"Vice President Wei, come and take a look. These are said to be low-grade quality pills, but in fact, they've only just reached the threshold. They're basically defective products, so how can the efficacy be guaranteed!"

He BI's face was full of disdain as he picked and picked from the jade box, picking out all the low quality pills, ""There are so many of them, but none of them are qualified! It can't be counted as points at all!"

The two instructors beside Lin Yi blushed, their eyes filled with embarrassment!

This was because the low-grade pills that he bi had picked out were their masterpieces.

The automatic furnace worked well, but they couldn't keep up with Lin Yi's steady refinement process.

Hence, many of the pills they refined were of low quality.

Lin Yi didn't have any extra containers when he was cleaning up, so he put their pills into his bag and gave it to Lu sanjian.

Now that the pills they gave out were said to be defective and unqualified, they would naturally be angry and embarrassed!

They weren't the only ones who were embarrassed-even Lin Yi, the one who gave them the pill, was embarrassed.

"Investigator he, even though the quality of the low grade pill is a little bad, but as long as the pill is formed, it's considered to have passed the test. If you say that all these pills are not counted, isn't that a little too much? Do you want to reconsider?"

Hong zhizhu knew that Lin Yi and Lin Yi were on good terms, so he spoke up for Lin Yi.

Unfortunately, he Shinan didn't buy it. "President Hong, although you're in charge of the assessment this time, I'm the one in charge of supervising it. If these are ordinary low-quality items, I'll turn a blind eye."

"The problem is that the quality of these pills is too poor! You see, it's not even a normal low-grade item, it's a defective product! This kind of pill might even be poisonous!"

He bi was a patrol envoy, and did not belong to the same system as Hong zhizhu, so he did not need to care about Hong zhizhu's mood.

Hence, even if he suspected that Hong zhizhu was the person behind Lu sanjian, he would not back down.

Everyone sold information to cheat, and your people got so much. Where do you think I'm going to put my face?

Hong zhizhu's face sank. He was very unhappy that he had been directly rejected by he bi!

However, the right of supervision was in he bi NA's hands, and as the person in charge of the situation, he couldn't refute it.

Otherwise, the supervision would be a joke. Actually, this assessment was already a joke, so there was no need for supervision.

He bi laughed coldly and forcefully threw dozens of low-grade pills on the ground, crushing them with his foot. "This kind of trash shouldn't be shown off! It's simply ridiculous!"

Instantly, Lu sanjian's face turned red with anger, and the veins on his forehead bulged!

However, he didn't dare to get angry. He had no choice. A higher rank could crush a person to death. He Penna just happened to be in charge of him, so he couldn't be unconvinced.

He had no choice but to lower his head!

"Alright, there's no problem with the rest. Vice President Wei, see how many more there are!"

He bi wanted to destroy more, but the rest were all medium-grade and above medicinal pills. If these were all considered defective products, the schools below might even rebel.

Everyone could understand if he played some tricks within the rules.

However, if he were to be unreasonable openly, he would really anger the public.

Wei zhentian was also a little unhappy. So what if it was of low quality? Even if the pill's rating was lowered, it was still a golden seventh rank flesh regeneration pill, even if it wasn't Mystic first rank!

Dozens of them were wasted just like that! Don't you F * cking know that these medicinal pills can save a lot of people's lives! Scum!

Although he was unhappy, Wei zhentian would not offend anyone for Lu sanjian's sake, so he only snorted coldly and counted again before saying, ""There are still 68 pills left. It's the same number as the Qifeng apothecary school. Both schools are tied for first place!"

Dean Qi Feng's expression had been extremely ugly just now, as if his parents had suddenly died. When he heard that they were tied for first place, he finally smiled.

As long as he was first, there would be an extra reward. It was much better than being second ...

However, Dean Qi Feng was only satisfied for a moment before he began to wonder why he couldn't take the first place all by himself.

He had to share the honor of being the top student with the Green Mountain Alchemy School. It was really too much of a grievance!

Chapter 8377

With this thought in mind, Dean Qi Feng subconsciously looked towards the stage. Coincidentally, he buna's gaze also drifted over, and their gazes met in the air. Dean Qi Feng hurriedly gave he buna a look, hoping that he buna would think of a way to get the Green Mountain Alchemy School off the stage.

He BI's face turned black. Did he really think that the patrol envoy could do whatever he wanted?

Just now, the quality of the low-tier medicinal pills was indeed a little poor. What was there to say about that? it wasn't easy for them to split the pills evenly, and you still want to claim the top spot?

I want to help you, but you have to consider my way out first, right?

It was true that the alchemy Association and the patrol were two different systems. However, to offend the President and Vice President of the alchemy Association over such a small matter, was there a hole in their brains?

"Lu sanjian, you can leave now. A tie for first place is a good result!"

He bi definitely wouldn't mess with Lu sanjian again, so he ignored the Dean of Qifeng and waved Lu sanjian away.

Lu sanjian's face turned ashen. He was angry, but he didn't dare to say anything. The consequences of offending he Shinan were too serious. This B * stard might come back and cause trouble for the Qingshan Alchemy School. He could only endure it for now.

Tied for first place? Hehe ...

Lu sanjian glanced at Lin Yi as he got off the stage, his mood suddenly lifted.

This man had created many incredible battle records along the way. What kind of surprise would he give when he went on stage?

First place shouldn't be a problem. Let's just see how shameless he bi can be!

Lin Yi nodded at Lu sanjian, not saying anything to comfort him. He walked up the stage slowly, "The Fuyao apothecary school has produced a little too many pills this time, and it looks like they're in a difficult position to tie for first place. As such, we, the Fuyao apothecary school, have taken the responsibility to resolve this matter!"

With that, Lin Yi threw out a big bag with a "pa" sound.

For Speed's sake, Lin Yi didn't care too much about the quality after the first batch. He only made high quality pills, keeping the special quality ones in the Jade bottles. The rest of the high quality ones went straight into his pocket.

"Vice President Wei, please count it. It's not too much, so we should be able to calculate the exact amount very quickly!"

Wei zhentian's eyes had long since widened like copper bells. Such a large bag ... Are you storing pills or rice?

Hong zhizhu, on the other hand, showed an expression of understanding. No wonder this Lord did not need special care. He had indeed come prepared!

However, with so many muscle regeneration pills, even if he had prepared them in advance, it was still very difficult!

Amazing!

He bi smiled coldly, thinking that Lin Yi was just bluffing. He didn't believe that the bag was full of muscle regeneration pills!

Dean Qi Feng naturally didn't believe that Lin Yi could take out a big bag of pills!

Lu sanjian's was already ridiculous enough, and there was an even more ridiculous one?

Stop fooling around!

He had the same thoughts as he bi-they were both waiting to see Lin Yi make a fool of himself.

Then, when the bag was opened, they would find other medicinal pills mixed in or things that were not medicinal pills at all, and they would have something to say.

Wei zhentian looked at Lin Yi deeply. That day, Lin Yi dared to rush up to him and reason with him, then talk to Hong zhizhu, and finally break the rules to become a dark gold apprentice. He knew that Lin Yi wasn't simple.

Now, this thought was confirmed!

Thus, Wei zhentian very solemnly stepped forward to open the large bag, extremely careful.

Even though he was mentally prepared, when he saw the pile of muscle regeneration pills in his pocket, Wei zhentian still couldn't help but gasp!

What the hell! Was he seeing things?

Most of them were actually high-quality muscle regeneration pills!

Only a small portion of them were of medium quality, and none of them were of low quality!

Pills of this grade and quality, if calculated by quantity, were really too disgraceful of these pills!

A high-quality muscle regeneration pill could be exchanged for three or four mid-quality muscle regeneration pills outside, and they were the kind that had a high price but no supply.

In terms of value, just taking out 20 of these pills would be enough to beat those pills from the Qifeng Alchemy School!

Of course, this assessment did not require quality, so no matter how good the quality was, it was still dependent on the quantity.

However, when he saw the number of items in the big bag, Wei zhentian was completely speechless!

The quality was enough to defeat them in seconds, and the quantity was enough to turn the Qi Feng Alchemy School into dregs!

"... a total of 680 muscle regeneration pills ... first place!"

wei zhentian didn't even know how he had managed to say it.

six hundred and eighty pills, that's exactly ten times the number of pills that qifeng alchemy school had. if you said that lin yi didn't do it on purpose, wei zhentian would beat you to death!

this kid was doing it on purpose! this meant that he still had the muscle regeneration pill in his hands, but he just didn't want to take it out!

wei zhentian had never been so eager to see qi feng alchemy school produce more pills. even a low-grade piece of trash would do!

it was a one to ten ratio, and he wanted to get some for the qi feng alchemy school so that lin yi would have the urge to take out another ten times the amount.

in that case, it would be enough for a year's expenses of the martial alliance!

" 680! That was impossible! He's cheating!"

Dean Qi Feng was going crazy. They had only managed to tie for first place after much difficulty, so what the hell was 680?

"Is it a shoddy product? All of them are trash, right? Vice President Wei, patrol he, you can't be deceived by this kid!"

Dean Qi Feng was going crazy at the side, but he Shuna had already seen the pill in his pocket, and his face turned extremely ugly!

Just now, he could still use the quality as an excuse to deal with Lu sanjian, but now?

As far as he could see, almost all of them were high-quality pills. Occasionally, there were a few medium-quality pills that were much better than the ones from the Qi Feng alchemy college.

What could he say? He said that these were trash?

Then wouldn't the things in Qi Feng Alchemy School be worse than trash?

"The quality of the pills from the Fuyao apothecary school is far better than those from the Qi peak apothecary school. Are you sure that these are all trash?"

Wei zhentian wouldn't give face to Dean Qi Feng, and his cold words made the old man choke on his words.

Qi Feng's old face turned red as he looked at he una, hoping that this ally would say something.

In the end, he bi turned his head and didn't look at him. He was speechless.

"Heh ... Our Fuyao apothecary school can only produce such trash. It must have been hard on your Qifeng apothecary school to be able to produce something that's even worse than trash. I'm truly in awe of your pill refining skills!"

Lin Yi's sarcastic words and fake bow to Dean Qi Feng below the stage were full of mockery!

Dean Qi Feng flew into a rage out of humiliation, and hot blood rushed to his head. He immediately shouted, ""You're cheating! It was simply impossible to refine so many medicinal pills in a day's time! Do you dare to say that these pills were refined by you?"

Chapter 8378

everyone was shocked by his words!

everyone was well aware of the matter of cheating. no one ran away from it. it was just that there were differences in the means of cheating.

if you flip the table, what about everyone's face?

this kind of thing could only be done without being said!

he bi na's face was as dark as water, he really wanted to go down and tear the qi feng dean's mouth apart!

this bastard, could it be that he wanted to kill him, a dignified gold rank patrol envoy?

what good would it do to kill him? you bastard, you won't even get to inherit the property!

"Six hundred and eighty, do you think everyone is an idiot? Even the alchemy Association only prepared 100 sets of ingredients. Let's not talk about whether you can refine that many. Do you even have 680 sets of ingredients?"

Dean Qi Feng was already at his wit's end. Once he spoke, there was no more room for negotiation. He could only fight to the death!

Sixty-eight was still acceptable, but six hundred and eighty?

Qi Feng's Dean suddenly felt that victory was already in his grasp!

You want to snatch my first place? If I can't get it, none of you can get it!

Lin Yi smiled and shook his head, "the ignorant are fearless!" Just because trash schools like you can't refine it, do you think other schools can't as well? That's funny!"

"When an ordinary person faces the lowest level darkness magical beast, they will feel that they are no match for it and can only wait for death. But in the eyes of an expert, the lowest level darkness magical beast can be easily killed."

"are these two things comparable? what?"

lin yi's face darkened as he stared at qi feng coldly, causing the old man to break out in cold sweat.

"Don't quibble! Both of them were alchemy grandmasters, how could there be such a huge gap between them? Six hundred and eighty Mystic first level muscle regeneration pills in one day? are you kidding me?! Even a Diamond Grade alchemy Grandmaster wouldn't dare to say such a thing!"

Dean Qi Feng naturally refused to admit defeat and continued to clamor. Even at this moment, he felt that he was right and reasonable. "You're cheating. Stop explaining and trying to cover up. Just admit it!"

Everyone secretly rolled their eyes. Admit my ass!

Everyone knew that he had cheated, but who would admit it? That was something only an idiot would do!

"Vice President Wei, such blatant cheating, are you not going to care? President Hong, you're the president of the alchemy Association who is in charge of the assessment. Under such circumstances, aren't you going to come out and say a few words?"

Dean Qi Feng knew that he had offended he Pena by doing so, so he didn't dare to let he Pena speak. He only grabbed the two presidents to talk!

Hong zhizhu ignored him. As the president of the alchemy Association, how could he be questioned by a mere Dean of a small Academy?

Wei zhentian didn't want to bother with this person.

Lin Yi's situation was a bit mysterious, and Wei zhentian didn't want to offend him. He didn't want to get involved in this mess, but he had to say something when he was being questioned.

Helplessly, he could only put on a straight face and snorted, ""You say this is cheating, but do you have any concrete evidence? Was it considered cheating just by having a large number of them? Then, may I Ask the Dean of the Qifeng Alchemy School, how many do you think they should refine? Sixty-eight?"

Qi Feng's old face immediately turned red, and he was shut up by Wei zhentian's words!

Don't you know how you got these 68 pills? If he had to say it out loud, no one would have any face to show!

He Bi's brows furrowed slightly. If this continued, he would be dragged out. If he didn't say anything, he wouldn't be able to escape!

"Vice President Wei, you are the Vice President of the alchemy Association and the Dean of Tianxia college. I believe you have some understanding of the abilities of alchemy grandmasters. In your eyes, are the 680 pills of Fuyao Alchemy School normal?"

He bi wanted Wei zhentian to use his own reputation as a guarantee.

If Wei zhentian had dared to say that it was normal, he would definitely not have retorted. Instead, he would have directly suppressed Dean Qi Feng and smoothed over the matter.

However, if that was the case, Wei zhentian's reputation would be tarnished in the future!

If this matter were to spread out, it would definitely become a joke!

Wei zhentian was extremely displeased. The feeling of being forced was not a pleasant experience.

"Patrol envoy he, this Lord's knowledge is shallow and can not be called an expert. Refining so many medicinal pills in one day is indeed inconceivable, but the sub-Island is so big that there are all kinds of strange things. Strange people and strange things are emerging one after another. It is unknown if Dean Sima can really do it!"

These words were said in a lively manner. They did not bear any responsibility and would not offend anyone.

He buna, on the other hand, was unforgiving. He and Dean Qi Feng were in the same boat. Since he had appeared, he couldn't show weakness and give up halfway.

"In that case, Vice President Wei also feels that this matter is not normal, right? Since they had doubts, they should investigate it clearly and give everyone the truth to clear their names! Vice President Wei, don't you think this makes sense?"

Wei zhentian gritted his teeth and thought to himself, 'I think killing you, a sanctimonious hypocrite, is the most important thing!'

You're the one who cheated, but you still insist on biting others. I've never seen such a shameless person!

"investigator he, there's no need for this right? ordinary alchemists may not be able to do this, but there are always special circumstances. for example, the number of pills that everyone has refined this time is actually not small. normally, it should not be possible to have so many pills. it can be seen that this lord's experience is actually useless!"

wei zhentian had circled out all the academies, his meaning clear. come, come and check!

no one's butt is clean. are you trying to anger the public?

if it was someone else, they might have some scruples, but who was it?

as a gold rank patrol envoy, he was in charge of these academies. how could he admit defeat in front of the academy's people? what a joke!

"Vice President Wei's words are wrong. Since there are doubts, it's better to clarify it. It's also fair and open. In my opinion, why don't we let them compete again?"

He bi calculated that Lin Yi wouldn't have the ability to make 680 in a day, so he said confidently, "This time, we'll be able to see the speed and efficiency of their pill refinement in public. We'll know what's going on!"

"Patrol inspector he, everyone has just finished a day of high-intensity pill refining, where would you find the energy to compete again? Don't make things difficult for me!"

Wei zhentian was displeased, but as soon as he said that, Dean Qi Feng declared, ""Vice President Wei, this old man isn't tired. Only at times like this can we see the true strength of an Alchemist!"

"When everyone is exhausted, I can only make one pill, but you can make two. That's what skill is! If he's using fatigue as an excuse, it means that there's a problem!"

"Sima Yi, do you dare to accept this challenge?!"

With that, Dean Qi Feng looked at Lin Yi aggressively.

Chapter 8379

Wei zhentian was speechless. He couldn't stop Dean Qi Feng from doing what he said. He could only look at Lin Yi. If Lin Yi refused, he would at least have something to say.

The flames of war had already spread to Lin Yi, and Hong zhizhu couldn't pretend to not see it anymore. If he continued to ignore it, who knew if he would be killed by the dark emissary after this?

"Hehe, I think this is meaningless and just a waste of time ... If the person involved is unwilling, you can't force him! The rules were the rules. The rules of the competition were already set there. What was the point of changing them all of a sudden? Don't you want the reputation of our martial Alliance?"

Hong zhizhu decided that Lin Yi had the right to reject the challenge, an open and aboveboard rejection!

After setting the tone, Hong zhizhu turned to Lin Yi and smiled, "Dean Sima, do you have any thoughts? You're a talent, and I won't mistreat a talent. If you're not willing, just say so!"

Others might think that Hong zhizhu was a gentle and polite person, but only he himself knew that he was trying to suck up to the big boss, hoping to gain the big boss 'favor.

Lin Yi didn't think much of it and nodded. "It doesn't matter. If he wants to have a match, then let him. The reputation of the Fuyao apothecary school can not have such an unclear stain on it. It just so happens that I want to see what kind of tricks the headmaster of the Qifeng apothecary school has up his sleeves!"

Dean Qi Feng sneered in his heart. What tricks did he have? Waiting for the exhausted with ease was the greatest method!

During that day, Dean Qi Feng had been well-prepared and felt that victory was in his hands, so he had not refined any pills at all and had simply taken a day's rest!

Now, he felt itchy all over and wanted to move his muscles and bones.

Now that they were competing in pill refinement, Dean Qi Feng had already rested and built up his energy.

Lin Yi must've worked hard the whole day and was definitely at the end of his rope, so he felt that this was a free point question and he was going to win for sure!

"Hahaha, that's good. You're quite courageous. You're about to be defeated, but you still dare to fight head-on! Come, this old man will teach you how a young man should be more humble!"

Dean Qi Feng laughed heartily as he took out his pill furnace and began to make preparations.

Wei zhentian expressionlessly ordered his men to bring over some materials for the muscle regeneration pill to see how the two would compete.

When the materials arrived, Wei zhentian gave Lin Yi and Qi Feng five portions each,""Each of you will get five sets of ingredients. Let's see who can finish first!"

In fact, according to the ratio of the pills, it would be reasonable for Lin Yi to be ten times faster than Dean Qi Feng.

The old man didn't mention this on purpose, so he could give Lin Yi a heavy blow at the end.

Both sides checked the materials and agreed that there was no problem, so Wei zhentian announced the start of the competition.

The people from the other Academies all retreated to a distance and surrounded to watch the competition.

Everyone was curious-where did Lin Yi get the courage to accept the challenge?

Dean Qi Feng was already prepared, and the moment Wei zhentian announced the start, he entered his state of mind, full of energy. It was only then that Lin Yi slowly took out an automatic alchemy furnace produced by the center.

He couldn't use his pure energy here, and he couldn't use the Shennong medicine cauldron either, so he had to use the automatic furnace in the center.

Fortunately, there wasn't much difference between the two, and their uses were similar.

Although the previous two Fu Yao instructors had not used the mass production function, that was because they did not know how to use it. If they did not master it well, there was a high chance of failure.

Lin Yi was different-he'd gotten used to mass production already, and while he'd gotten himself a less-than-ideal central automatic furnace, he still had his hands and experience.

While Lin Yi was studying the use of the furnace, Qi Feng was busy making elixirs.

Dean Qi Feng had not refined many pills during the previous assessment and had basically been resting. Now, he was full of energy.

In order to win against Lin Yi, he had to use 120% of his energy, and his movements were so smooth that he couldn't believe it!

He was in an explosive state!

This was a sure win!

Dean Qi Feng was in a good mood, and he glanced at Lin Yi.

Seeing that Lin Yi hadn't even started, Dean Qi Feng was even more proud and disdainful. He felt that dealing with Lin Yi was as easy as lifting his hand and taking him down as if he didn't need to waste any energy!

But Lin Yi's furnace looked a little weird-he'd never seen it before ... It wasn't a famous one, anyway, so he didn't need to worry about it!

Dean Qi Feng turned his head back easily, no longer interested in Lin Yi.

The match had only just begun, but he already had a premonition of victory!

Lin Yi could see the Dean's relaxed mood and couldn't help but laugh to himself. He didn't understand where this guy got his confidence from.

Looking at the other party's technique, it was just average. Among the bronze alchemy grandmasters, it was estimated to be in the middle-lower range, much worse than Lu sanjian.

He couldn't understand who gave him the courage to think that he could win easily.

The automatic refining furnace was set up quickly, and Lin Yi threw five sets of ingredients into the furnace casually. He then turned the elemental Qi into the refinement fire and started to output it steadily.

He'd been in the nine story Pagoda for three days straight, but he was still full of energy.

With Wu Linghai around, his slight mental fatigue quickly recovered.

Dean Qi Feng and he bi thought that Lin Yi would be extremely dispirited, but they didn't know that Lin Yi was still at his peak!

In particular, he didn't need to worry about the automatic alchemy furnace. As long as he sent the alchemy fire, the rest would be done automatically. The hard work of alchemy had become an easy and pleasant thing.

If Lin Yi wanted to, he could even take a nap!

Under Lin Yi's full power, the automatic furnace started to work. Before Dean Qi Feng could even finish half of the process, Lin Yi had already finished!

The automatic furnace opened, and seven Mystic first level body regeneration pills were spinning in the furnace, emitting a strong pill fragrance!

Seven!

The lowest grade was medium grade, and most of them were superior grade!

Everyone who had witnessed the entire process was going crazy. They had never thought that refining pills would be so easy!

And Lin Yi's opponent, the Dean of Qifeng Alchemy School ... Strictly speaking, he'd only completed a third of his work!

He still needed more than twice the time he used now before he could refine a pill!

Comparing the two, everyone's eyes were filled with ridicule and pity.

Twenty times!

It wasn't just that!

With simple math, everyone could tell that Lin Yi's refining speed was more than twenty times faster than Dean Qi Feng 's!

Six hundred and eighty? Hehe! Now, everyone was sure that Lin Yi still had a trick up his sleeve!

Chapter 8380

There must be more pills that he hadn't taken out. He was deliberately using ten times the amount to humiliate Dean Qi Feng.

Dean Qi Feng, who was still gloating, felt that the atmosphere wasn't right. He looked around and realized that Lin Yi had finished refining all the ingredients, and there were two extra pills.

Five sets of herbs, seven pills! This was heaven-defying!

At first, everyone did not think of this, but when they came back to their senses, they immediately burst into an uproar!

Pill refining could be played like this? Wouldn't he be able to save a lot of materials in the future?

Dean Qi Feng's mind was in a daze for a moment. His control of the alchemy fire was a little careless, and the alchemy furnace instantly went berserk, burning the materials that were not even considered half-finished pills into ashes!

He had already lost, and this time, he had lost even more!

If he had succeeded in refining the pill, at least he could save some face and have some excuses, but now he had actually failed!

A Grandmaster Alchemist actually failed to refine a pill in front of everyone. Where was his face? Did he still have his face?

"Cheating, he's cheating! This old man is not convinced!"

Dean Qi Feng flew into a rage out of humiliation, and he jumped up while yelling. It was as funny as a big ball bouncing around.

"He's using the wrong pill furnace! This wasn't a proper alchemy, this was cheating, blatant cheating! His results can't even be counted!"

"It's not up to you to decide if it counts! Please show some respect, President of Qi Feng apothecary school!"

Hong zhizhu's brows furrowed as he rebuked unhappily.

This was also a subtle way of expressing his good will to Lin Yi, showing that he was on Lin Yi's side ... Although Lin Yi didn't need it!

Qi Feng's Dean did not argue with Hong zhizhu. Instead, he turned to he bi. "Patrol inspector he, you are in charge of ensuring the fairness of the examination. Are you going to turn a blind eye to such blatant cheating? There's obviously something wrong with his alchemy furnace. Anyone can use it to refine pills, it's not his ability at all!"

He bi nodded reservedly. "The question raised by Qi Feng apothecary school does make sense. I've seen it just now. The pill furnace used by Fuyao apothecary school is a little special. It does not reflect one's own ability to refine pills ..."

He and Dean Qi Feng were Birds of a Feather, and he definitely had to stand up for Dean Qi Feng. "This matter is indeed inexcusable. I think that the theory of cheating is very reasonable ..."

Lin Yi laughed coldly before he could finish.

"Ha ... Investigator he, you mean to say that using this automatic pill furnace is against the rules? So the pills I refine are all considered as cheating?"

Lin Yi's mouth was full of mockery as he shook his head, "You're indeed jackals of the same tribe. In order to help your little friend, you're prepared to throw away your face with him, right?"

"Impudent! You dare to humiliate me! Do you think I can't do anything to you? Or has the Fuyao apothecary school grown strong enough to break away from the martial Alliance and form their own school?"

He Bi's way of putting a big hat on Lin Yi was extremely smooth, putting a huge hat on Lin Yi all of a sudden!

If Lin Yi didn't have any background or tricks up his sleeves, the entire school would be in trouble.

He was clearly the winner, but with a casual sentence from the feudal ruler, the tables could be turned completely.

"Patrol envoy he, are you angry from embarrassment? Calm down, calm down! Let's do it one by one first! Let's talk about this automatic pill furnace. "

Lin Yi smiled casually and picked up the automatic furnace, ""This is the most high-end product of the central Chamber of Commerce. As long as the alchemy fire is continuously injected, you can refine pills stably. Furthermore, you can refine multiple sets of medicinal materials at the same time, which will increase the speed and output!"

"Let's not talk about the significance of such a good thing. I only have one question. Patrol he, do you dare to say that the products of the central Chamber of Commerce are illegal items?"

He BI's expression changed.

Now that martial League was seeking a full cooperation with central, if he dared to say that Central's items were against the rules, the consequences would be hard to predict!

"No, I didn't! I didn't say that Central's products are illegal items, so don't you try to change the concept! I'm only saying that this assessment doesn't allow the use of such auxiliary tools. If everyone is the same, then it's fine, but no one else is using it, and only your family is using it. That's unfair!"

"Since it's an unfair matter, this seat can naturally assume that your Fuyao apothecary school has cheated! Therefore, for the first round of the examination, I have decided that you have broken the rules and are out of the competition! You won't be able to get even a single point!"

He bi was forcefully trying to save his face.

He had to get rid of central and kick Lin Yi and the others away. Even if it wasn't a perfect excuse, he didn't care!

lin yi's face darkened, "investigator he, i respect you and call you investigator. you're nothing if i don't respect you!" was he deliberately looking for trouble to be biased? your table manners are too unsightly!"

"does it mean that since you're on good terms with the qifeng alchemy school, they're the only ones who can win first place and get the points that belong to the first place? any academy that tries to resist will be dealt with by you?"

lin yi's words weren't too loud, but all the team leaders heard it. their expressions changed as they looked at he shinan.

"Nonsense! Sima Yi, you've deluded the masses with your lies and ruined this Lord's reputation. Do you believe that this Lord will not deal with you when we return? even the entire Fuyao apothecary school will suffer because of your insensible words!"

He bi was furious and threatened Lin Yi.

He had to take this tough stance. Otherwise, when the other Academies see his weakness, they might unite to fight against him. Then, his position as a gold rank patrol envoy would be over!

"He bi na! I hope you'll be careful with your words!"

Lin Yi shouted, his face cold as ice as he stared at he bi, a dangerous aura emanating from him. "You really think you're that great? I'm only letting you monitor me because I'm giving you face. If I don't give you face, do you think you have the qualifications to monitor me?"

"Hahahaha! What a joke! I'm a gold rank patrol envoy, do you think I don't have the right to monitor you? Who Do You Think You Are? A mere honorary Dean of the fu Yao apothecary school dares to be so arrogant in front of this seat?"

He bi laughed out of anger, a hint of ruthlessness flashing in his eyes, ""If you're not convinced, you'd better hold it in. If you can't hold it in, then you don't want to work anymore! Unfortunately, do you think you'll be fine if you don't do it? Don't be too naive!"

"Dean Wei, Tianxia Academy is in charge of all the academies in the world. Sima Yi's character is not good, so I propose to dismiss him on the spot and punish him severely. What do you think, Dean Wei?"

When it came to the test, Wei zhentian would deal with it in his capacity as the Vice-President of the alchemy Association. Now that they were dealing with Lin Yi, the honorary Dean of the Fuyao Alchemy School, it was only natural that Wei zhentian's capacity as Tianxia school's Dean would be needed.
