

Bodyguard 8381

Chapter 8381

Actually, he BI's identity as an inspector was enough to deal with Lin Yi.

However, everyone had seen what had happened, and Wei zhentian was also there. If he bi na wasn't crazy, he naturally wouldn't punish him directly, and had to put on an act to seek Wei zhentian's opinion.

The gold rank patrol envoy was in charge of all the academies other than Tianxia Academy. If not for this, he buna could have ordered Wei zhentian to directly execute the sentence.

Wei zhentian wished he could kill he Shuna. 'It's fine if you get involved in such a troublesome matter, but why did you have to drag me down?'

He, just you wait, I'll remember this!

He didn't want to offend Lin Yi, but it wasn't a good time to fall out with he bi-that bastard and Dean Qi Feng were both Mad Dogs, biting whoever they could!

Left with no choice, Wei zhentian could only shift the blame to his superior, Hong zhizhu, ""This seat's opinion ... President Hong, what do you think of patrol envoy he's opinion?"

Hong zhizhu's mouth twitched. He couldn't avoid this. It was the school system, but he knew Lin Yi's identity. If he didn't pick a side now, he'd be screwed later.

"What do I think? What else could they do about such a ridiculous thing? Of course, it won't work!"

Hong zhizhu said firmly, ""An alchemy furnace is a tool for alchemy. It's the alchemist's freedom to use any tool to refine pills. You can't say that it's cheating just because the alchemy furnace is different. Absolutely not!"

He BI's expression was extremely unsightly. He had lost face in public!

However, as a gold rank patrol envoy, he couldn't control Hong zhizhu. He couldn't even play any small tricks!

"President Hong, give me some face. He's just an honorary Dean of a school that's ranked at the bottom. There won't be any future trouble if you get rid of him. I'll owe you a favor."

He sina suppressed the dissatisfaction in his heart and whispered to Hong zhizhu, ""As long as President Hong is willing to give this he face, we'll naturally be on good terms in the future. As long as there's any request, as long as it's within this he's ability, I will definitely not shirk it!"

This was considered a promise. Who wouldn't have friends and family?

In the future, if Hong zhizhu had any requests from the Academy, he bi would naturally do his best to help.

Although Hong zhizhu's identity was quite influential, it was still not comparable to he Shuna. After all, an Academy like the Alliance Academy, which did not have any alchemy genes, was not something Hong zhizhu could afford to have.

He Shinan was very confident. This was how human connections were formed.

Hong zhizhu was also in the circle, so he naturally understood the rules. As long as he took the initiative to extend an olive branch, he would not reject it.

Unfortunately, he bi na had miscalculated-Hong zhizhu was very clear about Lin Yi's identity and strength, how could he help he bi na deal with Lin Yi? only an idiot would do that!

And there was no future trouble? Targeting a dark gold level Dark Envoy, he would really die without a burial place!

"I'm sorry, rules are rules, there's no face to speak of! There's no problem with the Fuyao apothecary school, and there's no problem with the scores as well!"

Hong zhizhu glanced at he bi with a pitiful look, shaking his head slightly,""Don't be unconvinced. If I can't stick to my bottom line, how can I stand in the world?"

The so-called bottom line referred to the boss, Lin Yi. If they couldn't hold onto the boss's bottom line, they wouldn't be able to stand in the world!

"Hong zhizhu, don't be so shameless. I'm only asking for your opinion out of respect for you. Do you really think you're that important?" he busi was furious.

Hong zhizhu chuckled. "It's not up to you to judge whether I'm someone important or not. You're just a gold-rank patrol. How dare you shout in front of me!" Don't forget that you're just a dog released by the Great Hall Master. I'm the Vice Hall Master of the martial Alliance of this continent! Do you have the right to control me?"

To put it bluntly, a vice Hall Master is also one of the Masters. You old dog, you'd better be obedient, or I'll beat you up!

"hahaha, fine fine fine!" he bruna laughed in anger. he really didn't want face! since you're all in cahoots, then this lord will directly exercise the authority of the patrol!"

"sima yi! you have a guilty conscience and have been suspected of cheating during the assessment. i have caught you on the spot and now, i hereby declare that your assessment results are invalid and you will be removed from your position as the honorary dean of the fuyao pill refining school! get out immediately!"

he bi flicked his hand, his index finger pointing at the door as he glared at lin yi, waiting for him to get out.

Lin Yi chuckled and shrugged casually, ignoring he Pena as if he was some self-entertaining idiot.

The feeling of being ignored completely ignited he Shinan's anger,""Impudent! How dare you look down on me! Chase him out. If he resists, kill him without mercy!"

They had a strong momentum and looked a bit intimidating. If there were dozens of big men rushing out to cooperate, it would be even more powerful.

Unfortunately, the people present were Hong zhizhu and Wei zhentian's trusted aides. They were also the alchemy Association's security force. Unless the two of them personally gave the order, they would not listen to it even if knives were to fall from the sky.

He bi na didn't know this and valiantly shouted out the order, but everyone pretended not to hear it, making the scene extremely awkward!

The people he had brought with him were all three-legged cats and soft-legged shrimps. He might as well go out and be more reliable if he counted on them!

He BI's followers wanted to follow the order, but Hong zhizhu, Wei zhentian, and the others were staring at them coldly. They knew their own strength, so they simply lowered their heads and hid like tortoises.

Lin Yi curled his lips, shrugged, and spread his hands. His mocking actions were as natural as flowing water. He bi was already pissed off, but now he was even angrier!

"Traitor! How dare you look down on me! I'll personally kill you today and report it later!"

He bi shouted as he charged at Lin Yi himself!

He even took out his weapon, clearly intent on killing Lin Yi!

Even his ally, Dean Qi Feng, was amazed by his enthusiasm. He secretly praised this man for being honest and carrying out his promise!

What a good man!

He buna didn't know that he had been given the good guy card. As a gold rank patrol envoy, he still had some strength under him!

Moreover, he was not an Alchemist. Body refinement placed more emphasis on combat power, so his followers were all functional talents and not powerful guards.

It had been a long time since he last fought, but he was still confident in Lin Yi.

He bi felt that it would be easy to capture him if he attacked personally, and it would be best if he could kill him in one blow!

This way, he could re-establish his prestige as a golden patrol envoy and intimidate those academy leaders who were ready to make trouble!

Chapter 8382

The confident he bi didn't notice the flash of pity in Hong zhizhu's eyes.

He thought that he would be able to capture it easily, but the cruel reality told him that he would not have the chance to do so at all!

He bi was still in mid-air, and Lin Yi activated a powerful spirit sense attack!

How could a person like Wu Linghai resist the spiritual sense attack of a half-step heaven breaking realm cultivator?

That's right, as a gold rank patrol envoy, he bi had an item that could defend against spiritual sense attacks.

Unfortunately, in the face of Lin Yi's spirit sense, this kind of defensive item was like a piece of paper. It didn't even have the slightest ability to slow down.

He bi pounced out, and his body trembled in the air. His ferocious face instantly stiffened, and his fierce eyes became blank and unfocused.

His weapon was raised high, but he no longer had the chance to drop it.

Lin Yi's body flashed and he got close to he bi.

A black light bloomed in his hand, and the demonic devouring sword slashed across he Shinan's neck like a bloodthirsty evil spirit, causing blood to splatter.

As the blood spurted out, Lin Yi had already retreated, his posture relaxed and at ease.

It was as if he had not gone to kill someone, but had accidentally broken a petal while strolling among the flowers.

He bi fell heavily from the sky. He wasn't dead yet, but he couldn't speak. He could only make "shua shua" sounds.

As blood gushed out from the wound on his neck, he BI's pupils slowly dilated.

"What's the point of this? Is it worth it to sacrifice your life to help someone cheat?"

Lin Yi walked up to him and looked down at him, shaking his head. "Since you dared to attack me, you should have realized that I would counterattack and kill you. So, your death is not unjust!"

He bi wanted to laugh, but he couldn't. His consciousness was also quickly dissipating.

Before he died, he was also thinking, was it worth it? It's not worth it!

If he knew that Lin Yi was such a strong master, he wouldn't have made a move!

If he knew how bold Lin Yi was to kill a gold rank inspector, he wouldn't have done it either!

So ... He felt that he had died an unjust death!

The he family wasn't a wealthy and influential family to begin with. It was his, he buna 's, rise that allowed the he family to prosper. Unfortunately, they still lacked a Foundation.

Now that he had been killed, would the he family ... Still exist?

This is really ... Why ... He bi sighed silently. He BI's eyes were wide open as he unwillingly took his last breath, dying with his eyes wide open!

Because Lin Yi's consciousness was too strong, he bi NA's spirit couldn't leave his body and could only dissipate with the death of his body!

All of this takes a long time to describe, but in fact, it was all over in an extremely short period of time.

Lin Yi and he Shinan's fight was like a rabbit jumping up and down, instantly deciding the victor and life and death!

The whole place was silent-most of them were still sighing that Lin Yi was done for, but it turned out that he Penna was the one who was done for in the blink of an eye.

This change happened too quickly, and they couldn't accept this fact for a while.

Especially Dean Qi Feng, who stared at the spreading blood circle on the ground with his eyes wide open. He felt as if Thunder was rumbling in his head, and he couldn't believe that this was the truth!

He bi na was killed?

Sima Yi really dared to kill a gold rank patrol envoy!

Hong zhizhu was probably the only one who wasn't surprised.

He was the only one who knew who Lin Yi was, but he didn't expect Lin Yi to be so decisive. A gold rank patrol!

Hong zhizhu was a little scared thinking about it-if he'd been a little more stubborn and went against Lin Yi, the grass would've probably been growing on his grave by now.

He bi NA's Lackey was scared witless, but his reaction was quick. He immediately sneaked out, wanting to go somewhere to report.

No one had the time to care about a small fry like him-they were all still in shock from Lin Yi's killing.

Lu sanjian could not help but cover his face.

He was one of the more accepting ones-not as good as Hong zhizhu, but he could guess a thing or two. After all, Lin Yi had a history back in spirit bow Empire.

Huang He 'an, a gold-level spy, also died in Lin Yi's hands.

Now, there's another gold rank inspector ...

To be honest, Lu sanjian was shocked, but why didn't he feel surprised?

This master was really not a person who could be easily worried. Either he didn't cause trouble, or he would cause big trouble!

They didn't know how to end this!

Lu sanjian was worried that Lin Yi wouldn't be able to clean up the mess, while the other schools were watching coldly from the side.

Lin Yi's performance was too amazing, and all the schools couldn't ignore the threat that Lin Yi and the Fuyao Alchemy School posed.

Therefore, it would not be a bad thing to have one less competitor!

"Today's assessment will be suspended for now. We will continue after we deal with this sudden incident. All of you may leave first!"

Hong zhizhu had a headache. As the president of the alchemy Association, he had to say something at this time. "Before this matter is settled, I hope that everyone will not run around, let alone leave world city. Wait for the order to gather at any time!"

Those who wanted to see Lin Yi make a fool of himself were dumbfounded-what the hell? Disband just like that?

Lin Yi dusted his hands as if nothing had happened, and called for Lu sanjian and the instructors to leave.

Lu sanjian was somewhat mentally prepared.

Although he was also surprised, he was able to hide his emotions very well.

The people from the other schools, on the other hand, watched the six walk away, dumbfounded.

He really left? What kind of situation was this!

Could it be that killing a gold rank patrol envoy now could be treated as if nothing had happened?

If I'm not dreaming ... Please give me a dozen gold rank patrols so that I can kill them to my heart's content!

"Why are you all in a daze? Quickly disperse!"

Hong zhizhu shouted from the stage with a frown. The people from the Academy seemed to have woken up from a dream and quickly dispersed with their own people.

"Clean up the place. Don't get blood everywhere. It's too ugly!"

After the people from the Academy had left, Hong zhizhu ordered his men to clean up the bodies and the ground, as if he wanted to destroy the evidence.

Wei zhentian couldn't help but ask, "President Hong, what are you doing?" Now that there are no outsiders, can you tell me why you want to protect Sima Yi?"

He was sure that Hong zhizhu and Sima Yi did not know each other before. It was the first time they met because of Tang Yungui!

Even if Hong Zhi Zhu had gained some benefits, he would not be so crazy as to protect Sima Yi, right?

This incident happened in front of everyone's eyes, and it couldn't be covered up even if they wanted to. No matter what, the dead he Pena was still a gold-rank patrol envoy, so it was impossible for him to let it go!

"Vice President Wei, don't bother about this matter. It won't do you any good! The first hall Master should be here soon, let's wait until he's here!"

Hong zhizhu did not explain further, but coldly dismissed Wei zhentian.

Chapter 8383 No Problem!

Wei zhentian was secretly angry. He felt that Hong zhizhu was definitely hiding something from him.

"Well, since vice Hall Master Hong has said so, then I won't get involved in this matter. You do as you see fit!"

Wei zhentian revealed a cold smile. This matter was quite troublesome, so it would be best if he didn't get involved.

No matter what Hong zhizhu would do in the end, Wei zhentian first had to ensure that he would not be dragged into this.

Hong zhizhu grunted and nodded casually, his face calm.

He knew Lin Yi's identity as a dark gold level dark gold Messenger, so he wasn't worried at all.

Although the patrol and the dark Envoy were two separate systems that didn't manage each other, but for a gold rank patrol to take the initiative to attack and kill a dark gold rank dark emissary ... How could he say it? He deserved to die!

After a short while, the Great Hall Master of the martial Alliance, who had received the news, flew over like a whirlwind. When he saw Hong zhizhu and Wei zhentian, he could no longer suppress the anger in his heart.

"What's going on? Can one of you tell this Lord what's going on? This was world city! The headquarters of the continental martial Alliance! If a gold rank patrol was killed on the spot, would the martial Alliance still have any face?"

As soon as the first hall Master arrived, he vented his anger on Hong zhizhu and Wei zhentian, pointing at them and cursing them.

After he had calmed down a little, he snorted, ""Why are you pretending to be dead? Hurry up and speak, what's going on?"

Wei zhentian took a step back and let Hong zhizhu out, indicating that he would be the one explaining the situation.

"First hall Master, what happened is actually very simple. He bi is a gold rank patrol envoy, but he colluded with the Dean of the Qifeng Alchemy School and used cheating methods to control the assessment results."

Hong zhizhu bowed slightly, and said unhurriedly, ""Sima Yi from the Fuyao apothecary school used the automatic alchemy furnace produced by the central alchemy Center and managed to produce a large number of pills in a short period of time. However, he Binan and the others are not willing to lose."

"He bi na tried to use his status to suppress Sima Yi, but it was completely ineffective. In his anger and embarrassment, he wanted to kill Sima Yi directly. Who knew that Sima Yi's strength was superior, and he killed he bi na in one move. Sima Yi can not be blamed for this, he was just defending himself."

It was the truth, but everyone could tell that Hong zhizhu was biased towards Lin Yi.

The first hall Master narrowed his eyes. He was very clear about he Shinan's strength. He couldn't even take one move?

And then he was killed by Lin Yi? It sounded a little unbelievable!

"He Shuna might have made some mistakes, but not everyone can kill him. If he made a mistake, I will punish him myself. When did it become anyone else's turn to do so?"

The gold rank patrol envoy was the first hall master's personally appointed trusted aide. If he was killed under someone's eyes, that would definitely be an act of slapping his face.

Even if it was to maintain his own dignity, the first hall Master had to come forward!

Furthermore, Hong zhizhu and Wei zhentian were present at the scene, yet they did not even try to stop it, allowing the situation to develop into such a terrible situation.

Was there someone secretly adding fuel to the fire?

The first hall Master glanced coldly at Hong zhizhu and Wei zhentian. He felt that these two must have some selfish motives, and might even want to replace him!

"Vice head Hong, where is the murderer? You should have already taken him down, right?"

In order to punish someone, someone had to be present first. In fact, the first hall Master already knew that Hong zhizhu did not arrest anyone, and he was expressing his dissatisfaction by asking this.

"What murderer?" Hong zhizhu calmly shook his head. Sima Yi was only defending himself and retaliating. He was killed because he was not capable enough. It was not Sima Yi's fault, so Sima Yi was not the murderer!"

"Hahahaha! Deputy Hall Master Hong, you've really done a good thing!"

The first hall Master was so angry that he laughed, "are you dissatisfied with me?" Even if you're dissatisfied with me, that's an internal conflict, and we can solve it internally. Now you're allowing an outsider to commit a crime, what are your intentions?"

"First hall Master is too serious! This subordinate is not dissatisfied with first hall Master, nor do we have any conflicts. As for condoning outsiders to commit murder, that's even more out of question! Please forgive this subordinate for not being able to agree with the first hall master's accusation!"

Hong zhizhu lowered his head and cupped his fists. His attitude was very proper, but he did not admit to any of the accusations.

"Hehe, you still say that you didn't condone the murderer! Then why didn't you detain that Sima Yi? No matter who's right or wrong, Sima Yi killed he Pena. You let him go, and you say you're not condoning the murderer!"

The first hall Master sneered and decided to take this opportunity to knock some sense into Hong zhizhu.

Otherwise, if I really become a tiger and don't show my might, do you think I'm a sick cat?

"First hall Master, I do not dare to detain Sima Yi!"

Hong zhizhu did not seem to feel the hall master's anger, and continued to say indifferently, ""Sima Yi was not at fault in this matter. Who was the one who made a mistake? if this subordinate wants to detain Sima Yi, then it will be this subordinate's fault!"

What was the price of he BI's mistake? He was killed in one strike!

Hong zhizhu did not want to repeat the same mistake. It was not worth the risk.

On the contrary, he wanted to get closer to Lin Yi even more now that he was dead.

The first hall Master was so angry that he laughed. What kind of disgraceful words were these? it was simply ridiculous!

"The Vice Hall Master of the martial Alliance doesn't dare to detain a murderer? Hong zhizhu, you're regressing the more you live! Could it be that this Sima Yi was a super expert of the heaven breaking stage? Or is it because he has a heaven breaking expert backing him up, and you don't dare to do anything because he'll kill you if you do anything?"

The first hall Master was mocking Hong zhizhu, but he didn't think that Lin Yi had that much strength.

Heaven breaking experts were at the top level of the sub-Island and could be described as rare.

Every single heaven breaking expert was recorded by the martial Alliance. There was no one named Sima Yi, nor was there anyone related to Sima Yi!

Hong zhizhu nodded expressionlessly, ""He's not a heaven breaking expert, but he can definitely kill me!"

Lin Yi's strength level was very low, and Hong zhizhu could see through it with one look.

At first, he thought that Lin Yi was too strong, so he disguised himself well, like the type of person who pretended to be a pig to eat Tigers.

But when he was killed, Hong zhizhu clearly felt that Lin Yi's physique wasn't strong at all!

His footwork was indeed exquisite, and his swordsmanship was also extremely profound, but these were still not enough to kill he Pena!

Yet, he Pena just died like that-Hong zhizhu couldn't tell how he died from that kind of attack, and his fear of Lin Yi only grew.

"Hehe, you're the Vice Hall Master of the martial Alliance, yet you're afraid of the honorary Dean of a small Academy. If this gets out, you can quit your job. You can just go home and farm. It'll be very safe."

The first hall Master couldn't help but sneer, and then said decisively, ""Since that's the case, I can only go and meet that Sima Yi personally! I'd like to see just how amazing he is to be able to scare our vice Hall Master Hong!"

Chapter 8384

"Go! Since first hall Master has taken action, he must be very confident. This subordinate wishes first hall Master a Swift victory and a successful trip!"

Hong zhizhu cupped his hands together without any sincerity, and added, ""However, this subordinate still has to give first hall Master a piece of advice. Be careful and don't die!"

"Don't worry, I know what I'm doing. I won't kill that Sima Yi. I'll keep him alive and bring him back for interrogation!"

The first hall Master didn't understand what Hong zhizhu meant. He thought that Hong zhizhu was pleading for Lin Yi to let him live.

In the end, Hong zhizhu corrected his misunderstanding, ""No, I mean, first hall Master, you should be careful and don't die. Don't follow in his footsteps. That road is deserted, but there is no need to accompany him!"

What the hell?

The first hall Master was so angry that he almost fainted!

Bastard, is he cursing me? Do you want me to die so that I can inherit the martial Alliance? Bah!

"First hall Master, don't say that I didn't warn you. I'm not cursing you or trying to scare you. Although your death will do me some good, it will do more harm than good."

The honest man, Hong zhizhu, continued to act out his remonstrations. "Our martial Alliance is in a troubled time. First hall Master is the leader, and only you can suppress everything. I don't have the ability to plan the overall situation, so I sincerely hope that first hall Master can take care and not die!"

The first hall Master had already flicked his sleeves and left, ready to get Lin Yi back first, but something didn't feel right after hearing this ...

He thought about it carefully. Fuyao apothecary school ... Sima Yi ... Suddenly, a light flashed in his mind. It was like a bolt of lightning in the night sky, lighting up the entire world!

The first hall Master suddenly stopped in his tracks and turned around stiffly.

However, he pretended to be expressionless and looked at Hong zhizhu, asking, ""This Sima Yi, did he come all the way here from the spirit bow Empire? Are you travelling together with the people from the Qingshan apothecary school?"

The first hall Master already had an answer in his heart, but he could not help but ask.

Hong zhizhu smiled and without thinking, he immediately nodded to confirm, ""That's right. The Fuyao apothecary school is located in the naduo conferred Empire. If you want to get to world city, you have to pass through the Spirit bow conferred Empire. If you go around the spirit bow conferred Empire, the distance will be several times longer!"

"Lyu sanjian of the Qingshan Alchemy School is on good terms with Sima Yi. After coming to Tianxia city, they often go in and out together. I think they must have been travelling together since the spirit bow conferred Empire. First hall Master, have you thought of something?"

The first hall Master nodded silently. He had not only thought of something, but he had thought of everything!

Hong zhizhu's eyes flashed with understanding.

He had heard about the spirit bow conferred Empire incident before. When Huang He 'an was killed, the news had reached him through a secret channel.

However, this had little to do with Hong zhizhu. They were not in the same system. He was usually more in charge of the alchemy Association's Affairs.

Therefore, the head Hall Master knew the most about this matter. As the Vice Hall Master, he didn't know much.

At that time, they had only heard that Huang He 'an had been killed, but the first hall Master had suppressed the news.

Because the spirit bow Empire was too far away and Huang He 'an wasn't familiar with him, Hong zhizhu didn't have the intention to investigate further.

He didn't connect Lin Yi to him at the time.

However, after the incident with Tang Yungui, Hong zhizhu understood that the person who killed Huang He 'an in spirit bow conferred Empire was probably Lin Yi!

If he didn't know Lin Yi's identity as a secret agent, Hong zhizhu wouldn't have guessed.

For example, Wei zhentian probably did not understand what Hong zhizhu and the first hall Master were talking about.

It wasn't because he was stupid, but because he didn't know Lin Yi's identity and couldn't make an accurate judgment.

The head found himself in a difficult position after knowing Lin Yi's identity.

He just said that he was going to arrest Lin Yi himself, what should he do now? He was a little embarrassed!

"First hall Master, why don't you reconsider this matter?"

Hong zhizhu held back his laughter and deliberately asked. "Don't worry about it, it's a way out."

The first hall Master took the opportunity and coughed dryly. "There's nothing to consider. He bi cheated and wanted to kill. He's too arrogant. He deserved to be killed. Forget it, I'm also ashamed to stand up for this kind of subordinate. I'll leave this matter to you!"

Even he felt embarrassed to say this.

Wei zhentian was dumbstruck as he listened from the side. He was completely unable to understand the situation. Why did this suddenly happen?

The first hall Master, who said he wanted to catch Lin Yi himself, suddenly threw the blame to Hong zhizhu. What could Hong zhizhu do?

If Hong zhizhu wanted to arrest him, he would have done so earlier!

The first hall Master also felt bitter in his heart. A dark gold level secret agent was someone appointed by the previous first hall Master. It had been many years since he had last seen this person. He had never seen this person before, and even doubted whether such a person existed!

But now, he had suddenly appeared. What was he trying to do?

They didn't come with good intentions!

The first hall Master sighed to himself, hoping that Lin Yi wouldn't cause him any trouble in these troubled times!

As for the death of one or two gold-rank investigators, secret agents, and the like, it didn't matter!

This level might seem impressive to the outside world, but in the eyes of the first hall Master, they were just consumables that could be removed at any time. If one died, he would support another one. It did not matter!

"Cough, cough, that's it! We'll rest for today and continue the assessment tomorrow. I'll select another reliable person to supervise. "

The first hall Master waved his hand, turned around and left as if nothing had happened.

"Yes, sir!"

Hong zhizhu bowed slightly, a sneer on his face.

If the first hall Master still dared to cause trouble for Lin Yi, Hong zhizhu would have some respect for him, but unfortunately, the first hall Master still gave in!

Of course, the main reason was that the first hall Master was not in the right.

Lin Yi's killing was reasonable, and he bi was a gold rank patrol under the Great Hall master's orders. The Great Hall Master had to take responsibility if there was something wrong with him.

It was just that no one could hold the first hall Master accountable before, but now that it was Lin Yi, a dark gold level dark gold spy, the first hall Master would be furious even if he had a reason.

Not to mention that he was in the wrong, so it was inevitable for him to admit defeat.

Wei zhentian also bowed and sent the first hall Master off, his eyes revealing a thoughtful look.

He didn't understand the conversation between the head Master and Hong zhizhu, but he was sure that Lin Yi was unfathomable!

Not only was Hong zhizhu afraid, even the first hall Master had to avoid him ... What the hell was this? It was really terrifying!

"Inform the various Academies to continue the examination tomorrow!"

Once the first hall Master left, Hong zhizhu became the highest authority again. He began to issue orders in an orderly manner, ""Also, no discussion is allowed about today's matter. Later, issue a gag order. Those who speak rashly will be punished!"

Chapter 8385 No Problem!

"Today's examination results have been calculated. Fuyao apothecary school will register according to the actual number. As for Green Mountain apothecary school ... It will still be counted as 68 pills. However, Qifeng apothecary school will be punished!"

"If it wasn't for the Dean of the Qifeng Alchemy School looking for trouble, so many things wouldn't have happened. Let's just count their number of pills as twenty!"

Hong zhizhu was extremely dissatisfied with the Qifeng Dean. In addition, he Penna was already done for, and the Qifeng Alchemy school's backer had also collapsed. He didn't feel any psychological burden when he punished him.

If it wasn't for the fact that it would attract too much attention if they were disqualified directly, Hong zhizhu would have wanted to remove Qi Feng Alchemy School from the school.

However, this was fine now. They only gave twenty pills to Qi Feng Alchemy School, but they fell from second place to the bottom.

Dean Qi Feng, who wanted to rely on cheating to monopolize the top position, went for wool and came home shorn. After suffering a double loss, would he cry and regret his actions?

"Vice President Wei, do you have anything to add?"

Hong zhizhu asked Wei zhentian casually after making the arrangements.

This wasn't asking if he agreed, but if he had any additional information. What he meant was that these things had already been decided and couldn't be changed!

Wei zhentian smiled and shook his head. "No, there's nothing else. President Hong's arrangements were very appropriate."

"Then let's do this ..."

Soon, all the team leaders received the notice that the assessment would continue the next day. At the same time, they were also informed of Hong zhizhu's order to keep their mouths shut.

Many people were looking forward to Lin Yi's misfortune, but nothing happened. They were disappointed, but they also started to make wild guesses.

Of course, no matter how they guessed, they wouldn't be able to guess the truth, and it wouldn't affect Lin Yi at all.

The next day, the sun rose as usual, and everyone gathered as usual. Lin Yi kept a low profile and stood where he'd been.

Hong zhizhu and Wei zhentian brought a new supervisor to the stage as usual.

Nothing seemed to have changed. If the supervisor had not been replaced, the leaders of the academies would have suspected that what had happened yesterday was just a dream.

Looking at Lin Yi, Hong zhizhu, and Wei zhentian, who were acting as if nothing had happened, the people who were hoping for Lin Yi's misfortune kept their mouths shut, not daring to reveal any of their thoughts.

"First, let me announce the results of the first round. The first place is the fu Yao apothecary school with a score of 680 points! The second place goes to the Qingshan Alchemy School with 68 points. The third place ..."

As Hong zhizhu announced the ranking, the Dean of the Qifeng Alchemy School turned pale, as if he had lost his parents.

Their academy only had twenty points left. Although they were not at the bottom, they were not much better than those at the bottom!

He could clearly be at the top, but now he had fallen into the mud. Who could he blame? It's all because that idiot, he bi, is too useless!

The Qi Feng Dean resented the dead he buna. He didn't know if he buna could still hold his anger after sensing this resentment!

If this had happened yesterday before he Pena's death, the Dean of Qi Feng would have definitely caused a scene. However, he silently endured it now and didn't even dare to let out a fart.

Without a backer, provoking Hong zhizhu and Wei zhentian for no reason would be courting death!

Therefore, he had to wait for a reasonable opportunity, an opportunity when he was in the right.

"This is the situation for the first round. Everyone's performance is high and low. The outstanding ones, such as the Fuyao apothecary school, have already left the dust behind. There is a huge gap between them and the second place. I hope that the other schools behind will also be able to catch up!"

Hong zhizhu praised Lin Yi's side and went back to the main topic, "We will continue with the second round of assessment today. As for the specific situation, Vice President Wei will explain it to everyone."

Wei zhentian took a step forward and scanned the crowd with a blank face. His eyes stopped for a moment when they passed Lin Yi. He still had some doubts in his heart, and he couldn't ignore Lin Yi.

But he also knew that Lin Yi was unfathomable, so he didn't look at him for too long. He only looked away after a short pause. If it weren't for Lin Yi's sharp senses, he wouldn't have noticed the pause in Wei zhentian's eyes.

"Today's test is to go to the Forest of Illusions in the herb field and collect specific herbs. The rules remain the same. The more you collect, the more points you'll get. "

Wei zhentian began to announce the rules of the second round of assessment, ""Earlier, President Hong had mentioned about the Fuyao apothecary school. After the first round, the score of the Fuyao apothecary school is indeed far higher than the rest. But actually, there's no need to be discouraged. "

"There's also no limit to the amount of medicinal herbs you can collect. The time span is three days. Within three days, as long as you can collect more medicinal herbs than the Fuyao apothecary school, wouldn't you be able to turn the tables?"

"Of course, the Fuyao apothecary school can't just sit around and wait for you guys to catch up. Everyone must give it their all! I'll add a rule. When you enter the Forest of Illusions, you can bring your storage equipment, but you must check and register the items in your storage equipment. When you come out, the items in your storage equipment can only be less and not more! Those who can not be inspected are not allowed to carry storage equipment. "

"During the assessment, those who carry storage equipment are not allowed to store the collected medicinal herbs into their storage equipment. They must be placed in the medicine bags distributed by the alchemy Association."

"Only the medicinal herbs in the medicine bag will be counted as points. You must take note of this! Because the medicine bag is relatively large, in addition to the leader and the two teachers, you are allowed to bring two porters to carry the medicine bag and other miscellaneous items into the forest of Illusions. There are porters in world city that you can hire, so you can go and look for them. "

"After we gather in the afternoon, we'll set off for the Forest of Illusions in the herb field. Now, everyone is free to do whatever they want, so go make some preparations. We haven't decided what herbs we need to collect yet, so we'll announce it when we get there!"

The last sentence meant that no one could cheat. They had to prepare a large number of task items in advance, but it also reminded the various Academies that they could purchase all kinds of medicinal materials. Perhaps they might be able to get it right.

The medicinal herbs purchased in advance had to be put into the medicine bag after entering.

Although he didn't know how the surveillance was completed, this rule was quite interesting!

Lin Yi touched his chin and thought about it. Lu sanjian had mentioned that the herb gathering competition was considered a traditional event.

The use of storage equipment was not allowed. They had to use the distributed medicine bags and had to be carried by people. This was also very interesting.

It was almost the same as saying that everyone's collection work was not only to collect, but also from the opponent!

After all, if he put it in his storage equipment, without a clear target, he would be able to see it at a glance when he carried it on his back, and he would definitely not make a mistake.

Chapter 8386

All in all, this assessment would not be a friendly one. It might even be very tragic.

"Dean Sima, this time, we can finally show the meaning of our team!"

Lu sanjian was quite happy. He could finally show the use of being an ally.

Not only did he fail to help Lin Yi in the first round, but he even got Lin Yi to help him out. He felt embarrassed just thinking about it.

"If this old man's guess is not wrong, there will be many Academies forming an alliance this time. There have been similar situations in the past, and there's no need to mention this year. Dean Sima scored too much yesterday, and they feel threatened. They will definitely group up and target us!"

Lu sanjian's thoughts were clear. He looked around vigilantly and said in a low voice, ""Dean Sima, after we enter the Forest of Illusions, we should try our best not to split up. After they join forces, they might get rid of us first ..."

Not to mention killing Lin Yi, as long as they restricted Lin Yi's movements and made it so that the Fuyao apothecary school wouldn't be able to harvest anything for three days, they would naturally be able to easily overtake the Fuyao apothecary school.

This was just the basics-there was nothing special about it, and Lin Yi didn't really mind. The forest was his home ground, and having more people didn't mean anything.

"Alright, I understand!"

Lin Yi smiled and nodded, not rejecting Lu sanjian's kindness.

Lu sanjian was overjoyed and continued, ""Dean Sima, should we go and hire a few porters now?"

"There's no need for that. Just bring the two students into the backpacks. They can also gain some experience and broaden their horizons."

Lin Yi shook his head. It would be better to bring Tang Yungui and Diao Longtian in to see the world than to hire porters. It would be easier to order his disciples around.

Lu Sanjian hesitated for a moment and reminded him, ""dean Sima's idea is good, but it's more dangerous to enter the forest of illusions. If the students follow, they'll only be a burden, right? The hired porters will be stronger ..."

There were some things that Lu Sanjian couldn't say out loud for Lin Yi's sake.

In fact, the so-called porters were more like bodyguards. At critical moments, they also had to go into battle to face the enemy!

Lu Sanjian knew that Lin Yi was very strong, and the fact that he was able to kill Huang He 'an and Wubian was enough to explain everything.

He couldn't just suggest Lin Yi to get a bodyguard, it'd look like he was looking down on Lin Yi's strength.

It was just that Lin Yi didn't seem to understand the hidden meaning behind her words ...

"It's fine. The young will face these dangers sooner or later. With us guiding them, they will grow faster. So, I have decided to give these two spots to my students."

Lu sanjian had nothing else to say after Lin Yi's words. He could only go against his heart and praise, "Dean Sima truly has the demeanor of a great teacher. He's always thinking for his students! If this old man had met a teacher like Dean Sima back then, I think I would have achieved more than I have now. "

"You're too kind, Dean Lu!"

Lin Yi cupped his hands humbly and changed the topic.

After leaving Tianxia, Lin Yi went back to the station to call for help. Lu sanjian, on the other hand, still needed to hire two porters. He didn't have Lin Yi's confidence and didn't want the students to risk their lives.

Hence, the two of them set a time and went their separate ways.

Lin Yi went back to the station and called Tang Yungui and the other students over. "The second round of the Academy assessment will begin in the afternoon. We'll be going to the Forest of Illusions to collect medicinal herbs, so we need two porters to carry the bags."

"Master, I'm willing to go!"

Tang Yungui immediately volunteered. It was just a backpack. Did he need a footman? He alone could take on two!

"Master, I'm also willing to go!"

Diao mang Tian was not willing to fall behind, and immediately raised his hand as well. He was still an in-name disciple, and in order to become a full-time disciple as soon as possible, he was eager to have more opportunities for him to perform.

"Well, you two follow me!"

Lin Yi nodded slightly. He wanted to bring them to see the world anyway, and it was good that they were willing to go. "This assessment will last for three days. We've all gone to the medicinal field. You two must be careful."

This was referring to the two remaining students. Ouyang Fantong had already been expelled, so during the second round of assessment, only the two of them had nothing to do and stayed at the relay station for three days.

"Don't worry, principal. We'll know our place and stay at the courier station for the next three days. We won't cause any trouble for you!"

The two students looked at each other and cupped their hands together. "There's food and drinks at the relay station. We'll wait for you to come out!"

They weren't there to witness Lin Yi killing he bi, but they'd heard about it.

In addition to that, Lin Yi had killed Huang He 'an in spirit bow conferred Empire, subverting the Huang family's battle record without even making a sound. His prestige was about to break through the sky.

The two students were as obedient as kittens in front of Lin Yi.

"That's good too. Now that our college is ranked first in points, we are the biggest imaginary enemy of all the other colleges. If you don't have to go out, then don't go out, in case someone targets you."

Lin Yi smiled, "we're not afraid of anything, but it's easy to Dodge an attack in the open but hard to defend against an arrow in the dark. We're not here, and no one will help you two even if you get hurt. So, you can just take it as a few days of closed door training at the station."

"yes! as you command, principal!"

the two of them bowed again without any dissatisfaction, and the matter was settled.

lin yi gave them a few instructions and met up with lu sanjian.

the other schools might need to go buy stuff, but lin yi didn't need to.

since he had nothing to do, he decided to give them a theory lesson on alchemy to pass the time.

in the end, not to mention the students, even the two instructors were mesmerized by what they heard, as if they had been enlightened.

half a day passed by in a flash. the class was still not over, but the appointed time was almost up.

Lin Yi finished his class and brought his two mentors and two students to meet up with Lu sanjian.

After regrouping, Lin Yi noticed that the two porters Lu sanjian hired were both mid-stage earth creation, not bad for combat. However, Lu sanjian still seemed dissatisfied.

Lin Yi finally understood why Lu sanjian wasn't satisfied when they reached the meeting point-mid-stage earth-creation really wasn't much ...

The majority of the Academy's hired porters were at the late stage of earth-splitting, and a small number of them were sea-shattering realm Warriors!

Lin Yi didn't understand. A sea Rift master as a Porter?

Was it really because they were so poor that they couldn't even fill a pot, or were they so idle that their bodies itched?

Tang Yungui and Diao Longtian, the two rookies, trembled when they saw this.

They had thought that they could at least take on two men as porters, but now it seemed that the two of them together couldn't even take on half of the others!

Why were the requirements for being a Porter so high now? He didn't even have the qualifications to be a Porter, so he could only go back and become an alchemy apprentice?

Chapter 8387

"dean sima, pay attention to the qi feng alchemy school ..."

lǎo sanjian moved closer to lin yi and whispered, "that short and fat man hired an expert at the sea splitting stage and an expert at the consummate level of earth splitting realm. moreover, he has the leaders of several academies around him. it's obvious that he's forming an alliance."

even without lu sanjian's reminder, lin yi had already noticed it. the dean's eyes were filled with hatred as they looked at lin yi from time to time. if he couldn't even notice this, lin yi would have died!

with a few academies working together, and the practitioners they hired, it would be a powerful force, but lin yi didn't think much of it.

a group attack was never something lin yi was afraid of. he had faced the dark demon beasts before, so why would he be afraid of a small group of people?

"it doesn't matter, let them be. we just need to do our own things!"

Lin Yi smiled nonchalantly."Once we enter the herb field, don't get separated. It's best to move together."

Lu sanjian nodded in agreement. There were too many enemies, and he wasn't sure if he'd win. Following Lin Yi was the only way he could feel at ease.

Hong zhizhu and Wei zhentian had already arrived. Seeing that most of the people had already arrived, it was still Wei zhentian who came out to speak.

"We'll set off to the forest of Illusions in a while. After we enter, killing is strictly forbidden! All of you are precious talents under the jurisdiction of the martial Alliance of this continent, and you can't be lost because of an assessment. Anyone who intentionally harms someone's life will be severely punished by the martial Alliance!"

Wei zhentian spoke seriously, but he wasn't very confident. After all, Lin Yi just killed a gold rank inspector yesterday, and nothing happened to him.

Even the first hall Master had changed her mind about capturing Lin Yi-this meant that there was more to this than met the eye!

What if Lin Yi killed someone in the test again? Wei zhentian was very suspicious of what the results would be.

Many people from the other Academies nodded silently. It was just that they couldn't kill people, but it wasn't as if they couldn't hurt people and take their things. It didn't matter!

"If you want to bring your storage equipment in, first register the items in your storage equipment to prevent you from bringing precious herbs out of the herb field. Anyone who is unwilling to be checked and registered can not bring in their storage equipment!"

Lin Yi didn't mind-the good stuff was all in the Jade space, and his storage bag was just a decoration. He could check it however he wanted.

However, this rule was really meaningless. Since they had brought a storage equipment in, the collected herbs would be stored in the storage equipment first, and when they came out, they would be put into the distributed medicine bag. If others wanted to snatch it, wouldn't they be unable to see the amount?

Lin Yi was still thinking when Lu sanjian whispered,"Dean Sima, after this storage equipment has been checked and registered, it's equivalent to everyone knowing that you have a storage equipment on you. When they target you, they will definitely not let this go."

"Therefore, it's more dangerous for those who bring storage equipment in, because people will guess that you're cheating by bringing storage equipment in. There must be a lot of supplies inside, and they might come to snatch your storage equipment before they even start collecting herbs!"

Lin Yi understood immediately after hearing that.

The registration would not reveal what you had in your storage equipment, but others would know that you had brought your storage equipment and would naturally target your storage equipment.

Even so, those who had the strength and confidence would still bring it with them, not afraid of being robbed.

"If that's the case, then we should pay attention to who'll bring their storage equipment in-we won't miss them when we meet them!" Lin Yi smiled.

Lu sanjian was speechless. The big boss was indeed the big boss! I'm worried about being robbed, but you're thinking about snatching from others ... There's no way to talk about this!

They were on completely different channels!

At this time, the registration of storage equipment had already begun. Everyone who wanted to bring a storage equipment would be checked individually. Only the people in charge of the inspection of the alchemy Association knew what was inside and would be recorded later.

As for the participants, they would only know who had a storage equipment.

Lu sanjian gritted his teeth and went to register as well. He was already a Public Enemy following Lin Yi anyway, so this wasn't a big deal!

Lin Yi, naturally, wasn't worried at all. He took the storage bag and walked around, teasing the Dean's people, hoping that they'd deliver the ingredients to his door after they were done.

After the registration was completed, Hong zhizhu and Wei zhentian led the team to the entrance of the herb field. Only after they arrived did Wei zhentian announce the target they were looking for.

"For this assessment, you will need to collect a total of three types of medicinal herbs: the misty pine feather flower, the poison Heart grass, and the multicolored fruit! There are a lot of these three herbs, and there are many areas in the Forest of Illusions that have these three herbs. "

"but you need to pay attention to the areas where there are a lot of medicinal ingredients, there may be powerful darkness magical beasts guarding it. if you can kill them, kill them. if you can 't, don't force it. staying alive is more important!"

the forest of illusions wasn't a safe area without any threats. although there were all kinds of medicinal herbs everywhere, there was no lack of darkness demon beasts, so ordinary warriors wouldn't easily set foot in it.

although the participants of this assessment mission were all quite strong, the majority of them were alchemists. they did not have particularly strong combat strength, and they were also very precious. they could not afford to lose them, which was why wei zhentian had solemnly reminded them.

the original intention of those hired porters was to protect these alchemists.

it was just that they were more willing to use the hired martial artists as thugs to snatch other people's gains.

pine feather flower, poison heart grass, multicolored fruit!

lin yi didn't pay much attention to the rest of the conversation-he was trying to recall the information on these three herbs.

these were all specialties of the sub island, and lin yi had never seen or used them before, but he did read about them in the books.

So Lin Yi only needed to think for a moment before he had a clear idea.

These three herbs all had the same characteristics. They could be used to refine profound level pills. They were widely applicable and could be considered precious, but there were many of them.

However, in terms of consumption, there was still a slight shortage of supply.

It was very suitable to be used as an assessment target!

Wei zhentian continued,"in the herb field, precious herbs are everywhere. Private possession is not allowed. However, if you pick precious herbs, you can exchange them for benefits at the alchemy Association. If you want to keep them for yourself, you have to pay a corresponding fee. I'm sure everyone is clear about this, so I won't say much."

These were the rules, and the old Niao knew them all. Only a newbie like Lin Yi needed to be reminded.

Wei zhentian glanced at Lin Yi as he spoke, probably saying this specifically for Lin Yi to hear.

Lin Yi couldn't help but roll his eyes. He didn't care about the herbs and fruits that Wei zhentian was hiding, but why did he want to put them into the Jade space so much now? he wanted to see how Wei zhentian would find them.

Chapter 8388

Wei zhentian didn't know that Lin Yi was thinking about something else, but if he did, he'd probably be laughing and crying.

But even if he knew, he didn't dare do anything to Lin Yi.

"You can only stay in the herbal field for three days at most. After three days, everyone inside will be automatically teleported out, so you don't have to worry about how to come back. Just remember not to leave your medicine bags behind."

He had more or less finished explaining the rules, so he didn't waste any more time. After he announced the start of the assessment, he let the participants enter in order according to their Academies.

Lu sanjian suddenly smacked his head and quickly pulled out a folded parchment, handing it to Lin Yi."Dean Sima, I've become muddle-headed. I almost forgot about this important matter."

"This is the sketch of the Forest of Illusions in the herb field. Take it with you. When you enter the Forest of Illusions in the herb field, each Academy will be transported to a different location."

"It's very difficult for us to gather together from the start, so once we enter the medicinal field, we'll gather at the agreed upon place. I've already marked a red gathering point on the map and a black backup point. However, the medicinal field is vast, so we might not be able to gather quickly. Dean Sima, be careful!"

"Dean Lu is so thoughtful! We'll definitely be able to meet up soon ..."

Lin Yi smiled as he opened the scroll, his face darkening as he looked at it.

This sketch ... Was indeed very rough!

How could he describe it? it was like a map of the world city. There was a large frame on it with the words 'world city' written on the side. There was a circle inside the frame with the words 'martial League headquarters' written on it. There was another circle not far away with the words 'World College' written on it.

There were definitely no streets, and you would have to figure out how to get to the circles yourself ...

It was a sketch in Lin Yi's hands-there was a circle with some peaks and a cross with some valleys, and he'd marked a red dot on an empty space as a meeting point. Not far away was a black dot as a backup point.

looking at the sketch, lin yi's forehead had a bunch of dots ... he didn't know if he could take back what he just said.

even a ghost wouldn't be able to understand this kind of ghostly map, right? it would be strange if they could find the place!

i'll ask for senior ghost's opinion later and see if he can appreciate it?

lin yi really wanted to ask lu sanjian if he was the one who drew this. the dean of the qingshan apothecary school, a grandmaster of teaching and education, was he shameless enough to make something like this?

"dean sima, is there anything you don't understand? i'll explain it to you while i can. "

lu sanjian obviously didn't think there was anything wrong with the sketch. he even approached it with a smile.

Lin Yi really wanted to slap the sketch in the guy's face and make him use it as toilet paper.

If it weren't for old Lu's face, Lin Yi might've just done it!

The map's only use was to let Lin Yi know that the herb field was huge, but he didn't know how big it was exactly. He needed to go in and investigate it.

"No need, this sketch is simple and clear, I can understand it at a glance!"

Lin Yi's face was expressionless as he pointed at the entrance, "Dean Lu, it's time to go in. It's just us!"

Lu sanjian looked back and saw that it was true. In such a short time, the other colleges had already entered the passageway and left. This race against time made people feel a sense of urgency!

"Alright then, Dean Sima, I'll go in first. Remember to meet up at the gathering point!"

Lu sanjian cupped his hands at Lin Yi as he spoke and quickly entered the tunnel with his men, disappearing in the light of the teleportation.

"Dean Sima, I wish you all the best!"

Hong zhizhu saw that only the Fuyao Alchemy School was left, so he came over to greet Lin Yi with a smile.

There were obviously benefits to befriending this hidden Big Shot!

"Many thanks, vice head Hong! I'll take my leave!"

Lin Yi smiled and cupped his hands, too. Hong zhizhu was more cooperative, so Lin Yi naturally didn't shy away from smiling back.

"Dean Sima, please wait a moment. This is your first time taking part in the assessment, right? The Forest of Illusions is very big, and it's easy for people who enter for the first time to get lost. I have a topographic map of the medicine field here, so I'll give it to Dean Sima. It's not something amazing, and other Academies have similar maps. "

Hong zhizhu saw Lu sanjian giving Lin Yi the blueprint and thought of giving Lin Yi the map-it was a small favor.

Lin Yi remembered Lu sanjian's drawing-it wouldn't make much of a difference if the other schools had a similar style ...

However, Hong zhizhu's map should be different. After all, he was the president of The Alchemist Association, and his exploration of the Forest of Illusions was definitely not comparable to that of the other schools. Lin Yi took the map after thanking him.

He opened it and took a look. It really didn't disappoint. This was a real map. The mountains, rivers, valleys, and forests were all extremely clear!

Lin Yi compared it to Lu sanjian's sketch in his head and roughly determined the assembly point and backup point.

"Thank you, vice head Hong. This map is very useful to us. When the test is over, we must treat you to a meal. Please do us the honor."

Lin Yi thanked him again, and Hong zhizhu's face was full of joy.

"It's just a small matter, not worthy of Dean Sima's thanks. However, since it's Dean Sima's treat, I must definitely extend my hospitality. Then it's a deal!"

Hong zhizhu wanted to say that he should be the one treating, but he was afraid that Lin Yi would reject him and lose this rare chance to eat, so he decided to be thick-skinned and accept ...

Perhaps he was just saying it out of courtesy, and Hong zhizhu took it as an invitation.

"It's a deal! Then we'll go in first!"

Lin Yi cupped his hands and entered the tunnel with the others. The light flashed and the five of them disappeared.

Wei zhentian squinted his eyes as he looked on coldly. He felt that Lin Yi wasn't as simple as he thought!

Hong zhizhu didn't seem to have known Lin Yi for a long time and only helped him because he owed him a favor. Instead, he seemed to be ... Currying favor? It seemed to be a little too late, and they were deliberately befriending each other?

Just what kind of background did Sima Yi have?

putting wei zhentian's doubts aside, after lin yi led tang yungui and the others into the teleportation channel, they went through the familiar teleportation process and finally appeared on top of a hill.

although it was a hill, it was still a forest. the tall trees covered the sky, and the naked eye could not see far before being blocked by the trees.

lin yi released his spirit sense and got a rough idea of the terrain.

"master, which way should we go now? where is the meeting point that dean lu mentioned?"

diao mang tian seemed to be a little excited. like a child with adhd, he didn't stop for a moment. he even climbed up to the top of the giant tree to take a look.

Chapter 8389

the view on the hill was wider, but all he could see was a sea of trees. he could only judge the terrain from the height of the trees. it was impossible to see anyone!

lin yi ignored him and flipped through the map hong zhizhu gave him. the forest of illusions still suppressed divine sense as usual.

with lin yi's essence spirit strength, he couldn't explore it normally. the range was reduced by 70% to 80%, but it wasn't hard to cover the hill.

after comparing it to the map, he couldn't find the location. this small hill was too ordinary and couldn't be used as a reference.

so the priority now was to find an obvious landmark to confirm his location.

"let's go this way!"

lin yi put the map away and chose a direction to walk in calmly, looking very confident. anyone who saw him would think that he had a plan in mind.

only lin yi himself knew that he was walking blindly. it didn't matter where he went, it was the same anyway.

The Forest of Illusions was indeed a herb field-they'd found some good herbs just by walking around. Lin Yi didn't like some of the old ones, but the mentors nearby were happy to pick them.

Although it was not a mission item, he could at least exchange it for some benefits!

Lin Yi didn't care about them and kept his spirit sense at its maximum range. He did find some pine feather flowers and picked them on the way.

He had obtained a total of twenty-seven flowers, which was a small harvest. It was a good start.

"As expected of the Forest of Illusions in the medicine field! You've only just arrived and you've already gotten 27 Pine plume flowers. This mission is really simple!"

One of the teachers had a smile on his face and seemed very relaxed.

The other teacher laughed and echoed. It felt like they were on a field trip, and they would be able to complete the mission as they played.

The first round's result advantage was too big, so both of them were very relaxed. They felt that if they did something casual in the second round, even if they couldn't expand their advantage, they definitely wouldn't narrow the gap.

Especially when they were with Lin Yi-they were confident, thinking that winning was a given.

She'd never felt this way in her previous tests-this time, following Lin Yi really was a huge difference!

Lin Yi didn't say anything-the mission was simple indeed. As long as he wanted to, collecting herbs was a piece of cake.

While collecting medicinal herbs, he could also take care of those clowns who wanted to find trouble. Coincidentally, he just happened to meet a group of them.

Lin Yi's spirit sense had noticed them, but they didn't notice him.

These were people from two different schools. They had been close to Dean Qi Feng earlier, and they happened to be in the vicinity after the teleportation, so they had gathered together so quickly.

"We don't know where the people from Qi Feng apothecary school have been teleported to. We should meet up with them first and collect some medicinal herbs for the mission."

After the two academy leaders met, they were discussing what to do next. After one of them spoke, the other said,""We also have to pay attention to those from the fu Yao apothecary school. We don't know where they will appear."

"It doesn't matter. If we stick together and work together, it's impossible for the people from the Fuyao apothecary school to stand a chance against us. If we don't meet them, they'll be considered lucky. If we do, we'll take them down immediately!"

"You're right! "I wanted to raise them and let them collect more medicinal herbs so that they could take it away at the last moment. Only then would they feel despair. Now that they've encountered it, they're just unlucky ..."

Lin Yi laughed coldly to himself. He really didn't know what was good for him!

Lin Yi was planning to ignore them after seeing them.

But now, trouble came from the mouth-Lin Yi went straight in their direction after hearing what they said.

Tang Yungui and the others followed Lin Yi and didn't notice anything wrong. Lin Yi was leading the way anyway, so it was normal to go anywhere.

It was only when Lin Yi told them to stop that Tang Yungui and the others noticed something unusual.

"Master, is there something wrong?"

Tang Yungui's expression was solemn. He looked around vigilantly and whispered, ""Is there an enemy or a darkness magical beast?"

"There are some people who Harbor ill intentions towards us. You guys wait here first. I'll go over and take a look."

Lin Yi smiled and patted Tang Yungui's shoulder. He then moved quickly and disappeared.

Diao Mantian was itching to try and persuade Tang Yungui, "Senior brother Tang, why don't we follow master and take a look? we can't say if we can help, but we can at least see how master shows his power!"

Tang Yungui shook his head decisively. "Master told us to wait here. We can't walk around. Do you want to disobey master's order?"

Diao mang Tian shrunk his neck and mumbled something in a low voice. He didn't mention going with them anymore.

He was only an in-name disciple, and disobeying his master's orders was a great taboo. He would be expelled from the sect at any moment!

It's better to know your place!

The two mentors smiled but didn't say anything. They had complete faith in Lin Yi's decision, so they would do whatever Lin Yi said without a doubt!

Lin Yi, on the other hand, quickly made his way to the two groups.

There were a total of ten people in this group. Four of the instructors did not have strong combat abilities and could be ignored. The leaders of the two academies were all Warriors in the sea shattering stage. However, because they were alchemists, their actual combat abilities were limited.

Their levels were mostly accumulated through the use of medicinal pills. Their true combat power was probably not even as good as an ordinary peak late stage earth creation realm warrior.

Among the four porters or bodyguards they hired, none of them were at the sea splitting stage. However, the weakest one was at the peak of the late stage of earth splitting realm.

The remaining three were at the consummate level of earth splitting realm, and their actual combat strength was stronger than the two sea splitting stage alchemists!

But it wasn't that big of a deal to Lin Yi.

And so, this was the combination that had been boasting about taking down Lin Yi and bringing bad luck to the people of the Fuyao apothecary school.

"there are some poisonous heart grass here! we're quite lucky, there are about thirty of them. let's split them equally between our two families!"

when lin yi got closer, they found a small patch of poison heart grass, and were happily discussing how to split it.

it wasn't a lot, but like lin yi and the others, it was a good sign to get a good start!

"be careful. the poison heart grass is highly toxic. you must be especially careful when picking it. if you are poisoned, there will be trouble!"

lin yi had already appeared behind them silently as they were carefully ordering people to pick the fruits.

"hey, i found this poison heart grass first. i've just lured away the darkness demon beast guarding the poison heart grass, and now you're here to snatch it. isn't this a little against the rules?"

lin yi's sudden words startled the people from the two schools!

as for the content of their conversation, no one paid much attention to it.

Chapter 8390

"Sima Yi! Why are you here?"

One of the team leaders was shocked and angry at the same time. After realizing that it was Lin Yi, he immediately looked around vigilantly and asked suspiciously, "You're alone? Where are the people from your Fu Yao apothecary school?"

"I don't have to tell you. I found this Poison Heart grass first. My people are luring away the darkness magical beasts guarding the poison Heart grass. Are you trying to steal my things?"

Lin Yi said with a straight face.

It was not a problem to start a fight, but it would be less fun. It was more interesting to make up a reason.

"Nonsense, how could such a small amount of Poison Heart grass be protected by a darkness magical beast? you're clearly lying through your teeth!"

The person who spoke just now firmly denied it. Alchemists all knew that only a few hundred stalks of Poison Heart grass would attract the attention of the darkness demon beast, and it would wait nearby for it to mature.

A mere 30 stalks ... Those darkness magical beasts probably didn't have the time to wait for them. At most, they would think of it one day and see if it had matured.

The poisonous heart grass here had already matured for a period of time, and since it hadn't been eaten by the darkness demon beasts, it was obvious that they didn't take it to heart.

"You're the one who's talking nonsense, right? If you want to snatch it, just say it, why are you hiding it?"

Lin Yi curled his lips in disdain as he continued to provoke the man's anger.

Another Academy's leader shouted in a low voice, "Why are you wasting your breath on him? He's alone right now, so let's take him down first!"

"That's right! You brat, you're alone, and you still dare to come out and cause trouble. You really don't take the road to heaven, but you barge into hell! Do it!"

The person who had just spoken also reacted, so he no longer spoke nonsense and directly waved his hand to signal his men to work.

The four hired thugs had a tacit understanding. They had been hanging out with each other all year round, and the people hired by the various Academies were basically acquaintances, so their cooperation was extremely familiar.

The four of them moved and surrounded Lin Yi, forming a simple battle formation.

Of course, even though it was a simple battle formation in Lin Yi's eyes, it was extremely powerful in their eyes.

Under normal circumstances, under their joint attack, even an ordinary mid-stage sea shattering expert might not be able to break out of the encirclement quickly.

"Sima Yi, don't struggle anymore. It's better for you to obediently surrender and avoid suffering!"

The leaders of the two academies didn't rashly join in the siege. Instead, they wandered around the periphery, ready to pick up scraps.

The four of them had a tacit understanding of their formation, and their participation would only destroy that understanding. It was better to increase Lin Yi's psychological pressure from the outside.

They were naturally on their guard when Lin Yi killed He Shunan with one move, but they didn't think that Lin Yi's strength was that high!

They thought that with so many of them working together, taking Lin Yi down would be easy!

A weird smile appeared on Lin Yi's face as he spread his arms wide open in a defenseless stance. "I didn't struggle. As for whether you can capture me or not, that will depend on your abilities!"

He'd come alone to make them lower their guard and attack first, and now that his goal was achieved, these people were all focused on Lin Yi, not paying attention to their surroundings at all.

At most, they were trying to figure out where Lin Yi's friends were, but they didn't realize that the ground, tree trunks, branches, and other places had vines growing and moving silently, like countless silent poisonous snakes, quickly surrounding them!

They thought that they were bullying Lin Yi with numbers, but they didn't know that the forest was Lin Yi's home ground. They were the ones who were being bullied!

"What the hell is this?"

One of the footmen was the first to notice it because his ankle was wrapped in vines.

Lin Yi's lips twitched, thinking that the thing was still in the Jade space. You called the wrong person, no, you called the wrong ghost!

Their battle formation wasn't complicated, but it was full of flaws in Lin Yi's eyes-a single vine was enough to mess them up!

Although they reacted quickly and used their weapons to cut off one, the problem was that they were in the forest!

How could a forest only have one vine?

Countless vines began to whip and entangle them as if they had gone crazy. These people were caught off guard and simply had no time to make effective defensive measures!

The poison Heart grass that he didn't have time to pick turned into vicious killers as well. The leaves shot out, and under the control of Lin Yi's spirit sense, they cut open the skin of those who were restrained by the vines.

Poison Heart grass was extremely poisonous before it was picked!

Only after they were picked and processed and dried could they be used as medicine. Fresh Poison Heart grass could only be used to make poison!

Although the people from these two academies had only been scratched a little by the poisonous heart grass, they quickly showed signs of being poisoned. Each and every one of them was so frightened that their faces turned pale and their bodies trembled.

As alchemists, they did not need to be afraid of the poison of the poison Heart grass. The problem was that they could not free up their hands to detoxify themselves and could only watch as they died from the poison!

That kind of terrifying feeling of waiting for death was absolutely impossible to understand unless one had experienced it personally.

"I surrender! Don't kill me!"

Some of the teachers couldn't hold on any longer and began to cry and beg for mercy. Some people took the lead, and the rest didn't hesitate to hold on for long, expressing their willingness to surrender.

The hired porters could last longer than them, but seeing that their employers had surrendered, they naturally had no need to risk their lives!

"Don't worry, none of you will die!"

"Come to think of it, I didn't even do anything, and you're asking me not to kill you? that's a bit unreasonable!" Lin Yi clapped his hands with a smile.

"If word got out, people would think that I, Sima Yi, did something to you! But this matter was clearly you guys who snatched the poison Heart grass first, then angered this forest and was punished. It has nothing to do with me!"

The people from the two academies were already dizzy and felt that it was a sign of the poison. They were extremely anxious. Regardless of whether it made sense or not, the right thing to do was to quickly detoxify us!

Lin Yi didn't want to kill them. The rules didn't allow killing, but if they really wanted to, then so be it.

Lin Yi really didn't plan on taking their lives, and so he took out the antidote as he teased them.

"you wanted to scheme against me, so i should have killed you to avoid future trouble. however, the heavens are kind and we don't have any deep hatred between us, so i'll let you go. if you dare to scheme against me again in the future, it won't be so easy anymore!"

lin yi said as he stuffed the pills into their mouths. these people didn't have any grounds to refuse in order to live, and they opened their mouths to swallow the pills. it was only when the pills entered their mouths that they realized something was wrong.

it seemed like ... there were two?

"sima yi, what pill did you give us?"

"why are there two? the poison of the poisonous heart grass can be resolved with an antidote pill!"

Lin Yi shrugged with a smile.
