

Bodyguard 8391

Chapter 8391

By the time these people raised their doubts, everyone had already swallowed the pill. The pill melted in their mouths, and they couldn't spit it out even if they wanted to. Moreover, they were still poisoned, so spitting it out was courting death!

"Don't worry, if I want to kill you, why waste medicinal pills? I can just kill you directly! What you guys ate was indeed an antidotal pill, but there's also a bone softening pill with extra ingredients!"

"After taking my bone softening pill, your bones will be soft and your muscles will be weak for three days. You won't have the strength to move. After three days, when you're transported out, you'll return to normal."

Lin Yi didn't want to kill them, and he didn't want them to cause trouble-locking them up was the best choice.

A group of people who didn't even have the strength to walk, where could they find medicinal herbs?

"In order to protect your safety and prevent others or darkness magical beasts from eating you as a snack, I'll set up a defensive and concealment array. You can hide inside for three days."

Lin Yi moved quickly, quickly setting up the formation and throwing the ten men into it. He also took all their storage equipment, taking everything he could find.

As for the storage equipment, Lin Yi didn't take them-there was no point in taking low-end stuff.

After collecting the last thirty stalks, Lin Yi went back to where Tang Yungui and the others were waiting.

"Master, are you alright? Who are they?"

Tang Yungui and Diao mangtian saw Lin Yi and went up to him.

Lin Yi was fast, so the round trip didn't take too long. They weren't sure if Lin Yi had met anyone.

"I'm fine. I met the school that is in an alliance with the Qi Feng Alchemy School, but the people from the Qi Feng Alchemy School are not here. I like to win people over with virtue, so I persuaded them nicely and they realized their mistakes. They agreed not to hang out with the people from the Qi Feng Alchemy School. They should not come to find trouble with us in the next three days!"

Lin Yi didn't even blink as he made the arrangements-they couldn't argue with him anyway, so they'd do whatever he said!

"Master is mighty! It's a pity that I didn't get to witness this Grand occasion with my own eyes! Next time, master, please bring me along to broaden my horizons!"

Diao mang Tian's face was full of yearning, completely convinced of Lin Yi's words!

to win people over with virtue!

lin yi felt that these two words were quite accurate and appropriate when used on himself.

those people from the two academies who were trapped in the array formation should be very agreeable!

"i've also harvested some poisonous heart grass, colorful multicolored fruits, and pine feather flowers. keep them all!"

lin yi gave the spoils to diao mantian, telling him to put them in a bag of medicine and carry them on his back. at least he was acting like a porter.

in addition to the 30 stalks of poisonous heart grass he had picked, there were also about ten stalks he had found in his storage equipment, as well as the pinecone flower and the multicolored fruit.

"master is really amazing. he only went out for a while and he already has so many mission items. these shouldn't be something that can be picked in one place, right? could it be that master convinced people with virtue, and they are grateful, so they offered it automatically?"

diao mang tian laughed so hard that his eyes couldn't be seen anymore, praising lin yi endlessly.

lin yi looked at the guy from the corner of his eyes-he felt that the guy was just trying to flatter him, and wasn't just mocking him. his hand that was about to hit the back of the guy's head stopped mid-way on the guy's shoulder.

lin yi patted diao mang tian's shoulder lightly and smiled,"not bad, you're very perceptive. it'll be even better if you use this perception on alchemy."

diao mantian agreed happily, but he still felt a little scared in his heart. he felt that something was wrong just now, as if he had just survived a disaster?

"Alright, let's continue!"

Lin Yi waved his hand and chose a direction to continue.

After walking for half a day, he finally found a more iconic terrain and matched it with the map.

As for Lu sanjian's sketch ... There was no need to mention it!

If he didn't have Hong zhizhu's map, he'd either have to be extremely lucky to meet up with Lu sanjian, or they'd have to meet outside three days later.

Of course, this half a day's journey wasn't in vain. Along the way, he collected a lot of medicinal herbs.

Regardless of whether they were the mission targets or not, they were all stuffed into medicine bags and brought back.

If he found something really precious ... He'd just send it into the Jade space first, not letting anyone else find it.

Other than herbs, he also encountered two dark beasts that weren't too strong. Lin Yi killed one himself and gave the other one to Tang Yungui and the others to practice on.

The two mentors and the two students formed a simple battle formation, and Lin Yi guided them from the outside. It was easy and enjoyable to train with the dark Demon beasts.

"The meeting point is in this direction. If we speed up, we should be able to reach the place within two hours. I wonder if Dean Lu and the others have arrived yet!"

Lin Yi pointed at the map and confirmed a direction. "Let's go. There aren't many precious herbs on this road. Let's not waste time. We'll talk about it when we meet with Dean Lu and the others."

The two unlucky students from the other two schools had met Lin Yi, but if they were lucky enough to meet Lu sanjian's Qingshan Alchemy School, Lu sanjian would probably be dead.

So Lin Yi was worried about Lu sanjian. After all, Qifeng Alchemy School had more than two allies. If Lu sanjian was found, it would be very dangerous.

"Yes, master!"

"Yes, principal!"

The four replied in unison. In a small group, Lin Yi was the leader who kept his word-no one would question his decision!

Thus, for the next two hours, the five of them maintained their high speed as they moved through the forest.

Even if Lin Yi's spirit sense found some ingredients for the mission, he didn't stop. If he ran into a Dark Demon beast, he'd just go around it if it didn't waste time.

If they couldn't or it would take more time, Lin Yi would just go and kill them.

In the forest, Lin Yi, with his plant element and Wu Linghai, was the king of the forest!

"stop!"

lin yi raised his hand to stop them when they were about to reach. "we'll be there soon. you guys rest up first! i'll go take a look. "

"master, is there something wrong?"

tang yungui's expression changed and he asked in a low voice,"did something happen to dean lu and the others?"

"It's nothing. Take a rest first. You've been exhausted after running all the way here. You should recover first before going over. It's better to be prepared!"

Lin Yi smiled as he waved his hand. He hadn't been running at full speed for the past two hours, but he'd saved up a bit of energy.

The two instructors were fine, but Tang Yungui and Diao Longtian were barely following. If they had not held on in one breath, they would have fallen behind halfway.

In such a state, if something happened, he wouldn't even be able to escape, let alone fight.

Chapter 8392

As for the meeting point, it was indeed a little troublesome. Lin Yi's spirit sense told him that Lu sanjian and the others had arrived!

However, it wasn't just the five people from the Green Mountain Alchemy School. There was also the Alliance formed by the Qifeng Alchemy School and the other three schools. The four schools had surrounded the Green Mountain Alchemy School!

Lu sanjian was an unlucky old man-he'd met even more opponents than Lin Yi!

"Alright, you guys go and rest. I'll be right back!"

Lin Yi didn't say anything else and left the team in a flash.

If Tang Yungui and the others were in good condition, he could bring them over to try out the power of the battle formation in actual combat.

It was a pity that their limbs were a little weak from the rush, and it would be hard for them to fight. Lin Yi would have to take care of them if they went.

It wasn't long before Lin Yi made his way to the assembly point.

Neither Lu sanjian nor the people from Qifeng Alchemy School noticed Lin Yi.

"Old man Lu, what do you think? I've given you enough time. If you still don't know what's good for you, don't blame us for being impolite!"

Qi Feng's proud voice rang out. It seemed that they had surrounded Lu sanjian for some time and were forcing him to make a decision.

Lin Yi wasn't in a hurry to go out, so he hid in the dark and waited.

Lu sanjian laughed and said, "you're welcome then. do you think i'm afraid of you?!" you want this old man to surrender to you and then secretly set up a trap to frame dean sima? that's absolutely impossible! if you want to do it, hurry up and stop talking nonsense!"

lin yi suddenly understood-dean qi feng wanted to use lu sanjian to deal with him!

forcing lu sanjian to cooperate, then setting a trap to lure him in, and then they would attack together. it was indeed a good plan!

unfortunately, the dean didn't know that lin yi was the king of the forest. whether lu sanjian helped them or not, it would only affect the number of people that lin yi killed in the end.

"He's really tough! Can't you spare a thought for your Green Mountain apothecary school? Although we won't kill you, your Green Mountain Alchemy School won't get a single point after you've been subdued and imprisoned. Don't think that you're so great just because you've gotten second place in the first round. The difference of a few dozen points will be easily wiped out in the second round, okay?"

The Dean of Qifeng had not given up yet. He was still trying to persuade Lu sanjian,""Is it necessary for you to sacrifice the benefits of your Qingshan alchemy college for the sake of Sima Yi and the Fuyao alchemy college? Join us! As long as you join forces with us, you'll naturally be able to sweep through all obstacles and continue to be at the top of the list in the second round!"

"bah! a warrior could be killed but not humiliated! this old man isn't a despicable villain like you. faith is what this old man values the most. don't talk nonsense, hurry up and do it! this old man would rather die in glory than live in dishonor!"

lu sanjian's hair and beard were all standing up, and he looked extremely unyielding.

if not for the fact that they were surrounded, and that the difference in strength between the two sides was too great, lu sanjian might have already rushed up to attack!

"Forget it, Lu sanjian, you old man, I gave you face but you don't want it. Since you want to act tough, I'll fulfill your wish! Do it!"

The Dean of Qifeng looked unhappy, feeling that Lu sanjian had disrespected him. He shouted in a low voice, and the people around him immediately began to step forward.

"Be careful, don't kill him! By using them as bargaining chips and waiting for the people from the fu Yao apothecary school to arrive, that Sima Yi should also be afraid of shooting at the rat for fear of breaking the vase, right? If he dares to ignore the life and death of this old man, it'll be even better. Let's see who dares to help him in the future!"

Lin Yi, who was hiding in the dark, smiled coldly. Should he kill this Dean to avenge Lu sanjian?

To be honest, Lin Yi was touched that Lu sanjian was standing on his side so firmly and firmly, not wavering even in the face of a strong enemy!

What a good friend!

He naturally couldn't let such a friend get hurt!

Lin Yi's figure flashed and appeared in the middle of the field in an instant. When the people from the Qifeng Alchemy School and the other three schools realized that there was an extra person in the encirclement, they were shocked!

"Dean Sima! You're here!"

Lu sanjian was the first to see Lin Yi, and his joy quickly turned into worry, "Why did you rush in here alone? This was not good! Dean Sima, if there's a chance later, hurry up and leave, don't worry about us!"

The four Academies that surrounded them had hired eight footmen and fighters. Two of them were Warriors at the sea shattering stage, and their combat strength was amazing!

Although these porters were hired separately, they were usually in a team that went on adventures together. Therefore, when these eight people surrounded him, they formed a simple battle formation, and their combat power doubled!

Lin Yi was strong, but Lu sanjian felt that Lin Yi couldn't handle these enemies in the current situation.

If Lin Yi got caught as well, then the two schools would be done for in the second round!

"Don't worry, Dean Lu. If you won't give up our Alliance under threat, I won't abandon you and escape on my own!"

Lin Yi smiled faintly and waved at Dean Qi Feng. "Come on! I've already appeared, so why don't you guys come up and fight me!"

"Sima Yi, don't be so arrogant! Do you really think you are the Savior of the world? You dare to challenge so many of us alone? I don't know if you're an idiot!"

Dean Qi Feng laughed out loud, thinking that Lin Yi's brain must have short-circuited. He actually dared to come to the rescue of Qingshan alchemy college alone. "Do it! Take this kid down!"

The eight thugs remained silent, but they launched their attacks at the same time!

Under their joint efforts, the power of the battle formation was fully activated!

Even if it was a late-stage sea Rift Warrior, they dared to say that they could trap and fight him for half a day!

"Dean Sima, quickly leave! Don't worry, they won't dare to kill us!"

Lǎn sanjian was panicking as he prepared to lead his men to block the attack and give Lin Yi a chance to escape.

As far as he was concerned, if he and Lin Yi fell into Dean Qi Feng's hands together, the second round of the exam would basically be over!

Although there was still a glimmer of hope that Tang Yungui and the others had not followed him, Lu sanjian did not think that they would be reliable. Whether they did or not, the result would be the same.

"Oh, I've said it. Don't worry, Dean Lu. I don't care about these people at all!"

Lin Yi smiled and activated Wu Linghai's full power. His consciousness, which was infinitely close to the heaven breaking realm, exploded!

The eight practitioners were burning with rage at Lin Yi's arrogance and wanted to teach him a lesson, but their minds went blank. It was like they were floating in the void, without any support.

Although the battle formation still maintained its original posture, its power had disappeared without a trace. The people who formed the battle formation seemed to have turned into clay or wood sculptures, and they suddenly stopped moving forward!

Chapter 8393 No Problem!

The ones with both legs on the ground were better off, barely able to maintain their original position.

Two of them had been pouncing down from the air, but they suddenly lost control in mid-air and fell to the ground.

It was a headache to look at ...

Other than the eight martial artists who had surrounded them, Dean Qi Feng and the others had not escaped either.

Lin Yi's spirit sense was an area-of-effect attack. Within the range, unless the target was intentionally trying to avoid it, everyone would be hit!

Therefore, among the people present, only Lu sanjian's five men were still standing. All the other enemies had been taken down!

After the shock of the divine sense, it was the power of the plant attribute. Countless vines twined up and tied up all the people who were hit.

After that, Lin Yi gave each of them a pill, making them give up on resisting!

"He really can't take a blow! How did he have the face to come out and provoke them? The pills you've taken are poisonous, but they're not fatal. They'll be dispelled in three days, so you'll have to stay here obediently for the next three days!"

After Lin Yi finished a set of moves, he put his hands behind his back and looked down at Dean Qi Feng and the others with a smile.

Lu sanjian was dumbfounded. He was ready to help, but he only raised his hand and made a pose, and the battle was already over!

Old Lu thought, "I know you're awesome, but I didn't expect you to be so awesome!"

You should have said so earlier!

If he had known this would happen, he would have been able to show off earlier and not have acted so terrified ...

"Let us go, you despicable bastard!"

Dean Qi Feng wanted to struggle, but he found that he was powerless.

The originally ordinary vines were now extremely tough as they wrapped around his body. He could not even move at all.

Lin Yi rubbed his chin, deep in thought. "Despicable? Dean Lu, if a Dark Demon beast passes by here and eats them as snacks, do you think it'll be considered as us killing them?"

"Of course not!"

Lu sanjian's stand was firm. "They made the first move and bullied us with their numbers. They wanted to surround and attack us, but they were countered. Dean Sima was kind and didn't hurt them at all. He only temporarily disabled them for self-protection."

"I've never seen such a magnanimous person in my life. It's their fate to be killed by the darkness demon beasts, what does it have to do with us? No matter where we go, we'll always be on the right side!"

Dean Qi Feng's face turned pale with anger. The other people who were bound by the vines also looked as if they had lost their parents!

Thinking about the scene of them being eaten by the darkness magical beasts, they couldn't wait to die right now so that they could have a happy time.

lin yi nodded seriously, "dean lu is right! as the saying goes, "a reasonable person can travel the world." if this matter was spread, no matter who it was, they would have to say that they did not do anything wrong. if that's the case, they can't blame us if they're eaten by the darkness demon beasts!"

"indeed, no wonder!"

lu sanjian nodded solemnly. the two of them sang and sang together, stimulating the dean of qifeng and the others so much that their faces turned from white to green, and then from green to red. it was a unique skill of changing faces!

"Sir Deans, we're just hired porters who took someone's money to help them solve their problems. We didn't mean to go against the two Sir Deans before!"

The strongest of the eight porters suddenly smiled and began to clear his name. "Actually, we're all members of the martial Alliance. Now that things have come to this, the four Academies have lost their ability to take the test. The contract between us has also come to an end, so ..."

He didn't have to say it out loud, and he just wanted to say that they weren't on the same side as them. They didn't care if they were eaten by the darkness demon beasts, as long as they let us go!

Dean Qi Feng almost vomited blood. He thought to himself that the people he hired were just unreliable. Was he thinking of running away with his master?

The two men hired by Lu sanjian also pleaded, ""Dean Sima, Dean Lu, the rules are indeed as such. Once it is confirmed that the employer does not have the ability to continue to participate in the assessment,

we can withdraw from the Forest of Illusions in the medicine field first. They are all our partners. I ask the two deans to be magnanimous and let them go!"

Lin Yi scratched his head. He forgot that Lu sanjian still had two porters!

Even though he did not get along with the school Alliance led by Lu sanjian and the Qifeng Alchemy School, the hired porters were all from the same group.

They could fight without restraint when they were serving their own Masters, but after they were no longer a threat, they would not just watch their companions suffer.

Lin Yi had been alone when he caught the other two schools, so no one had asked for mercy.

Speaking of which, even if there were people following him at that time, no one would have pleaded for mercy. This was because the Fuyao apothecary school was the only school that did not hire a footman.

Tang Yungui and the others were completely following Lin Yi's lead. They would do whatever he said to those people and would never beg for mercy.

Lu sanjian was a little embarrassed. He had just remembered that there were two spies around him. The provocative words just now were enough to be used as evidence of murder!

It was all Lin Yi's fault for bringing his own aura around-it was so dazzling and shocking that Lu sanjian had forgotten about the two hired porters behind him!

He exchanged a look with Lin Yi, signaling that they shouldn't play dirty tricks. These porters were actually spies the martial Alliance had planted around them!

They said that they were afraid of smuggling medicinal herbs out, that they couldn't put them in storage equipment, and that they had to use unified medicine bags and so on. All of that was bullshit!

In fact, it was just an excuse to plant spies and monitor them!

Of course, other than recording what they saw, these spies would fully cooperate with the Academy.

Ambushes, sneak attacks, and imprisoning opponents were all allowed by the rules. They only needed to remember everything with their eyes.

The elites of these Academies should also be aware of this. Everyone understood the unspoken rules, so they were very cooperative in hiring them.

Lin Yi was the only one who didn't care about anything and brought two students in.

Lu sanjian understood that, but he didn't want to remind Lin Yi directly. He hinted that he wanted to hire a Porter, but Lin Yi rejected him.

After all, Lin Yi was strong, and Lu sanjian didn't know what Lin Yi was thinking. It was easy to make mistakes.

Lin Yi didn't think much of it before, but now that he'd heard the song, he understood immediately.

They had found it strange before. Why did they hire so many sea splitting stage and earth splitting stage experts to be porters?

Now, everything was clear, and everything made sense.

Fortunately, Lin Yi was just scaring the idiots like Qi Feng and the others. He didn't really want to lure the dark beasts to eat them.

Chapter 8394

"Don't worry, I was just joking to scare them. Even if I have to imprison them, I won't let them be eaten by the darkness demon beasts. "

"There were two more schools before we came here ... I don't know their names, so I didn't ask, but I did discuss it with this short fatty before we came in." Lin Yi said helplessly.

"They also bullied me with their numbers, wanting to use their numbers to defeat me. I don't need to say what the result was, right?"

The person bound by the vines was embarrassed, angry, and a little happy!

Although they were unlucky now, when they heard that their allies had been unlucky before, they instantly felt that they weren't that unlucky.

the spies from martial league were speechless. did they even need to say what the result was? you're already showing off in front of us, do you still need to say more? do you need it?

you only know how to act cool!

lin yi didn't know that he'd gotten shot for no reason-he wasn't trying to act cool this time, he was just stating a fact. perhaps this was what it meant to be invisible?

"the few of you, since you've been hired, it's better for you to stay with them through thick and thin. there's no danger anyway, so don't be in a hurry to leave! you don't want them to complain that your service is not good enough!"

lin yi smiled at the eight men and started setting up the formation before they could say anything.

Furthermore, it was a layered array formation for defense and concealment. There was no need for a trapping array.

They definitely wouldn't have the strength to break free of the vines 'restraints within three days, and it would be a waste to use the trapping array. They just had to make sure that the darkness magical beast couldn't see them, and that would be it.

Defensive formations were just a precaution, and they weren't very useful.

Everyone was dumbfounded by Lin Yi's smooth and natural formation skills, still wondering what kind of monster Qianqian was!

Not to mention that he was an alchemy Grandmaster, his combat strength was so amazing that he could take down twenty people in one move. He was simply abnormally strong!

Did you think this was the limit? Lin Yi was throwing out formation skills again. No one here was a formation master, and they didn't have any profound knowledge, but they were all grandmasters like Qianqian!

Dean Qi Feng couldn't help but feel regret in his heart. Such a powerful opponent ... How blind must he be to pick such a perverted monster as his opponent?

To be honest, if he could start all over again and choose again, Dean Qi Feng wouldn't dare to offend Lin Yi again!

Unfortunately, there was no medicine for regret in this world, and things that had happened could not be repeated!

Dean Qi Feng was determined in his heart. Since he had already offended them, the more powerful he was, the more he had to get rid of the roots!

If he didn't die this time, when he got out, he would definitely think of a way to kill this terrifying enemy, Sima Yi!

Otherwise, he would not be able to eat or sleep in peace in the future. With such a powerful enemy on his mind, the Dean of Qi Feng felt that if he did not kill the other party, he would go crazy!

"Alright, you can stay here in peace. In three days, no, there won't be three days. We'll meet again in two days!"

Lin Yi finished setting up the formation and searched through their belongings. He then waved at Qi Feng and the others with a smile and closed the formation.

The 20 people who were bound by the vines disappeared in front of Lu sanjian and the others, leaving no trace behind!

"Dean Sima, your attainments in array Dao really astounded this old man!"

Lǚ sanjian was dazed and worried that it'd affect Lin Yi's formation, so he let out a breath of relief and came over with a smile, "In the future, when our Academy needs to set up some arrays, can we ask Dean Sima to help?"

To be able to invite a formation Grandmaster to set up a formation, not only was the formation powerful, it was also an honor!

Moreover, they could only improve their relationship if there was a mutual exchange. This was a good thing that could kill three birds with one stone. Lu sanjian naturally wanted to settle it as soon as possible.

"Of course, no problem. I'm always available for small matters. I'll do my best."

Lin Yi didn't mind-it was just a formation, what was the big deal?

Given Lu sanjian's unyielding attitude just now, he had to give him face.

Naturally, Lu sanjian was overjoyed. He quickly cupped his hands and thanked Lin Yi. With Lin Yi's promise, this matter was settled!

"Let's leave this place first. The few people from our Academy are waiting not far away. "

Lin Yi asked Lu sanjian and the others to follow him and met up with Tang Yungui and the others. After some small talk, Lu sanjian suggested, "Dean Sima, how about we set our next target at the central area of the Forest of Illusions in the medicine farm?"

"I'm fine with it. You're more familiar with this place, director Lu. I'll follow your arrangements."

Lin Yi said casually, but he started feeling nervous again.

Lin Yi was starting to doubt Lu sanjian's reliability as he recalled the unreliable sketch.

"Dean Sima, you're too polite. I'm only providing some suggestions for everyone's reference. The final decision will be made by you, Dean Sima!"

Lu sanjian put himself in the right position, meaning to be Lin Yi's dog-head advisor. "In the middle of the Forest of Illusions, there's a large area of real medicine fields. There are countless spiritual herbs, spiritual grass, and spiritual fruits. As long as we can get to that area, the harvest will definitely be rich."

"The only concern is that there are a lot of darkness type magical beasts in that area, and they're all very powerful. In the past, everyone would at most get close to the medicine fields and secretly pick some on the outskirts. No one dares to go deep in."

"Unless we all work together and form a team to enter the medicinal field, we can rely on our advantage in numbers to go a little deeper. However, if we do that, we'll become a bigger target and easily attract the attention of the darkness magical beasts!"

"the reason why i suggested going to the central area is that i feel that dean sima's strength is extraordinary. he doesn't need to join forces with others to ensure his safety."

"we only have a total of ten people, so our target is relatively small. this old man anticipated that there would be other academies joining hands to enter the medicine farm, and the scale would naturally be much larger than ours. in this way, they can attract quite a bit of attention for us."

"a small number of darkness magical beasts are looking for trouble with us, but with dean sima here, he can naturally ensure our safety. as a result, i'm afraid our harvest will be unimaginable!"

lu sanjian's eyes were shining as he spoke, as if he could see the herbs in lin yi's hands. he understood that lin yi wasn't the kind of person who liked to keep everything to himself. as long as there was a big harvest, the qingshan alchemy school would definitely benefit from it.

just like in the first round, lin yi only gave some pills to qingshan alchemy college, and they got second place!

if it wasn't for dean qi feng and that damn patrol envoy being despicable, the score would have been even higher!

Lu sanjian had wanted to sacrifice Qingshan Alchemy School to help Fuyao Alchemy School as a favor to Lin Yi.

Chapter 8395 No Problem!

But now it seemed that Lin Yi didn't need this favor, so wouldn't it be better if he could bring Qingshan Alchemy School along with him?

"Well, what director Lu said makes sense. Then, shall we ... Go to the herb field in the central region?"

Lin Yi nodded, his tone as if he was asking for their opinion, but no one objected at all. They all agreed.

Thus, the direction of their destination was determined, and the group set out. On the way, they would get some medicinal herbs, fight a darkness demon beast, and so on. There was nothing to say.

It was just that the vastness of the Forest of Illusions was beyond Lin Yi's expectations.

Everyone maintained a sufficient speed and advanced towards the central position without any delay. It took more than a day to reach the outer area of the central medicinal field.

Fortunately, once the three days were up, no matter where they were, they would be directly teleported away. Otherwise, even if they had collected enough herbs here, they would not be able to make it back in time.

"Dean Lu, everyone's tired. Let's take a rest first. Since we're already at the outskirts of the herb field, there's no need to rush."

Lin Yi saw that Tang Yungui and Diao Longtian weren't in a good state. They were a little dispirited and listless, so he suggested to rest.

Naturally, Lu sanjian did not object, so everyone found an empty place to sit down and eat something to replenish their strength.

In fact, everyone was an Alchemist, so they would naturally have some pills to recover their strength. However, no one would take the pills at this time.

It wasn't a waste, but there were no benefits to eating too many pills. As an Alchemist, he naturally knew what pill poison was.

Therefore, if it was not necessary, they would not take pills to recover their physical strength. In any case, everyone's physical fitness was super strong, and they could fully recover after a short rest.

Lin Yi sat on a thick branch and used his spirit sense to scan the surroundings. It was the outer area of the herb field, but he could see that there were more herbs than in other places.

However, there were no traces of darkness magical beasts in the vicinity. Perhaps they were really too far away, so they weren't taken seriously?

As for the people from the other Academies, they didn't appear in the surroundings either. It was unknown if they didn't come or they came but were in other directions.

"Dean Sima, what should we do next? Should we go deeper first, find a large number of medicinal herbs and then pick them, or should we slowly go deeper in from the periphery?"

Lu sanjian sat down beside Lin Yi and analyzed the pros and cons of the two options, "If we go deeper in first, the benefits are obvious. We might be able to obtain enough medicinal ingredients in a short time and complete the mission in the shortest time possible. Then, we can quickly leave the central region!"

"Of course, the disadvantages are also obvious. In the process of going deeper, we might not be able to find the medicinal ingredients we want, and we might be targeted by a large number of darkness magical beasts. At that time, we might be in a dilemma and might not be able to gain anything."

"if we go deeper while gathering at the periphery, the harvest may not be that much, but it's safe. even if we encounter darkness magical beasts later, we can guarantee that we'll have enough harvest, and we won't lose anything when we retreat."

"you're right, dean lu," lin yi nodded with a smile, " which one do you prefer?"

most leaders were like this. they wouldn't make a decision easily and would always listen to all kinds of opinions before considering it.

lin yi was starting to have the mindset of a superior.

lu sanjian had been the head of the dignified green mountain alchemy school, and it was his habit to listen to the opinions of others as a superior.

but now that she was with lin yi, she didn't reject giving suggestions for lin yi's reference at all. she even seemed to be happy to do it.

"ha ha, if the old me were to lead a group by myself, i would definitely choose to be cautious and steady in the outer perimeter to gather and slowly enter deeper. once i discover any traces of a darkness magical beast, i will immediately retreat!"

lu sanjian smiled calmly."this is all i can do. i don't dare to take any risks. i can only do things carefully. however, with dean sima here, i think we can try to go deeper first. after all, the deeper we go into the herbal field, the more herbs there are."

"perhaps a day of hard work in the outer area is not as good as an hour in the deep. the risk and reward are indeed proportional, but this is just this old man's wild guess and may not be accurate. dean sima, what do you think?"

Lin Yi sighed and decided,"Then let's go deeper! It was rare for him to come here, so he had to experience it! The other Academies might have already reaped a bountiful harvest. If we don't hurry and catch up, we might not be able to maintain our advantage!"

Lu sanjian nodded in agreement, but he didn't think so.

It wasn't like he hadn't been here in the past years, and he had never seen any school with such a huge harvest.

Everyone knew that there were many medicinal herbs in the central region, but who dared to mess around?

One or two academies did not have the courage to enter at all. If they pulled in too many people and a large group entered, the danger would be reduced. However, when the gains were divided equally, there was not much left.

It would take one or two days to get to this area, so how many herbs could he get in the remaining time?

So Lu sanjian thought that Lin Yi was overthinking. The herbs they collected along the way weren't a lot, but it was enough.

In addition to their advantage from the first round, Qingshan apothecary school might not be able to claim the top spot, but the Fuyao apothecary school should be able to secure it.

After resting for half an hour, everyone was more or less exhausted and continued on their way. Lin Yi and Lu sanjian led the way and soon entered the herb field area.

The number of medicinal herbs within his field of vision suddenly increased.

However, Lin Yi and the group didn't stop. The outer area was the place with the most people gathering in the past years, and there weren't many herbs that were old enough. Most of them weren't mature yet, and there was no value in them.

Plus, he'd already made the decision to go deeper, so even if he saw some suitable ingredients, Lin Yi didn't care and continued to lead the group quickly.

He was confident that there wouldn't be any danger in the herb field because he wanted to keep a safe distance with his spirit sense. If he found a Dark Demon beast, he'd have no problem retreating.

In addition, with the plant attribute, they were basically invincible. Lu sanjian's proposal was exactly what he wanted!

"There's a patch of Poison Heart grass up ahead. The quantity isn't bad. We can harvest it!"

After walking for ten minutes, they were already more than ten kilometers into the herb field. Lin Yi's spirit sense finally found a suitable target. There weren't any dark beasts nearby, so he could harvest a wave of them safely.

As he spoke, Lin Yi had already brought his men to the side. They turned around a huge tree and saw a lush patch of Poison Heart grass, at least two thousand of them!

Lu sanjian's eyes lit up. He hammered his palm excitedly and chuckled in a low voice. "As expected, wealth comes from danger! Dean Sima, with this patch of Poison Heart grass, our chances of winning will be much greater!"

Chapter 8396

"In previous years, we've only harvested a few hundred stalks at most. Exchanging it for a few hundred points is already very shocking. If there are no accidents this year, the other Academies won't be able to harvest more!"

"This patch of Poison Heart grass is enough for us to win! "After we're done here, we'll retreat safely. While we retreat, we'll collect the herbs we haven't collected along the way, and we'll even get some points!"

Lu sanjian said as he calculated.

There were more than two thousand of them, and Lin Yi would be guaranteed first place with one thousand and five hundred. He should be able to fight for second place with the remaining six or seven hundred!

As expected, following Lin Yi was the right path-he wouldn't have the courage to go ten kilometers into the center if he were alone.

"Is there a lot of Poison Heart grass here? I don't think it's enough, right? We'll go deeper in a while, and we won't even see a darkness magical beast. It's definitely not an important place. "

As Lin Yi spoke, he directed Tang Yungui, Diao Longtian, and the others to collect the poison Heart grass. The people of Qingshan Alchemy School also followed his instructions and worked quickly in silence.

The poison Heart grass was highly toxic when picked, so he had to be careful. More than two thousand stalks of Poison Heart grass could not be collected in a short time.

"Dean Lu, the past is the past, and the present is the present. Our past experience may not be applicable now. We should prepare for a rainy day and collect more medicinal herbs after going deeper. Not only will we be able to stabilize our advantage in the second round, but we can also expand our advantage. We might not even need to hold the third round and win!"

Lin Yi said it casually, mainly because he didn't find any traces of Dark Demon beasts nearby. Since it was still a safe area, why not collect more herbs?

Lu Sanjian didn't have Lin Yi's strong spirit sense. In a place like the forest of illusions where spirit sense was suppressed, the range of his detection was very small.

So Lu Sanjian wasn't confident, but since Lin Yi had decided, he had to risk his life!

After half an incense's time, the poison heart grass was finally cleaned up. Lin Yi led the group deeper in.

This time, he didn't go far before 30 dark beasts appeared at the edge of his spirit sense!

Lin Yi raised a hand to stop the line.

The 30 or so darkness demon beasts were not from the same race, and they were all extremely powerful. Almost all of them were in the early stage of the sea rift realm, and a few of them had not reached the sea rift realm yet, but they were all in the consummate stage of the earth splitting realm.

If it was any other time, these darkness magical beasts would definitely have their own territories, and it was impossible for them to mix together. Thus, something must have happened there, and these darkness magical beasts were organized into a team!

"Dean Sima, what's wrong? What's wrong?"

Lu sanjian was extremely nervous and was on high alert as he asked Lin Yi in a low voice.

Lin Yi wasn't sure what was going on over there-all thirty of them had their backs to him.

He didn't know what the situation was in front of these darkness magical beasts. The distance was too far, and even the plant attribute couldn't play any role.

"I can feel that there are many powerful darkness magical beasts gathering there. We didn't encounter any darkness magical beasts on our way here, so I'm afraid it's not that we were lucky, but that all the darkness magical beasts from those places have gathered there."

Lin Yi explained softly,"the dark beasts are very strong. Our team is definitely no match for them. So I hope you can take them out first, Dean Lu. On the way, collect all the herbs that you haven't collected. I'll go and check it out."

This wasn't that he liked to meddle in other people's business, but that he knew himself and his enemy, and he would never lose a battle!

Only by knowing the reason could he find the right solution!

It was definitely safe to return the way they came, so there was no need to worry about Lu sanjian's team.

Lin Yi, on the other hand, didn't have to worry about himself-he had too many ways to save his life, and he even had to think about which one was better.

"Master, is there any danger? Why don't we go back together? there's no need to take the risk ..."

Diao Mantian had a worried look on his face. "It's not that I don't believe in master's strength. It's just that we've already gained enough. Even if we don't provoke those darkness demonic beasts that have gathered together, it's enough to win!"

"Don't worry, there won't be any danger if I go alone. You may not be able to leave the herb field faster than me if you collect herbs along the way. I might catch up with you soon!"

Lin Yi patted Diao mang Tian's shoulder and nodded to Tang Yungui, "Alright, there's no time to lose. You guys hurry up and leave!"

With that, Lin Yi waved his hand and left, not waiting for their reactions. He quietly made his way to the location he'd just detected.

Lu sanjian shook his head with a bitter smile. He cupped his fists at Lin Yi's back and turned to Tang Yungui and Diao Mantian, "Your master has entrusted you to this old man, so this old man can't let anything happen to you. Let's go, listen to your master, we'll go out first!"

and so, the nine of them turned around and went the opposite direction of lin yi 's, starting a new round of attacks.

back to lin yi, after flying for a while, he was pretty close to the darkness demon beasts, and his spirit sense's range naturally extended out as well.

only now did lin yi realize that the dark beasts were gathering around a group of human martial artists!

other than the darkness magical beasts on this side, there were also a few other darkness magical beasts of similar strength surrounding them in other directions.

in the middle of the circle was a group of about eighty to ninety people. lin yi couldn't remember any of their names, but he knew them all-they were from the same school!

however, the number of people in their alliance far exceeded that of dean qi feng!

there were more than twenty academies here, and they had joined forces to enter the medicinal field, presumably to pick more medicinal herbs. they didn't expect to alarm the darkness magical beasts and be surrounded.

in terms of numbers, they didn't have much of an advantage, because there were more darkness magical beasts.

and the combat power of the two could not be mentioned in the same breath!

If it wasn't for the fact that they had the ability to form battle formations and temporarily maintain a certain amount of deterrence, they would have probably been swallowed by the darkness magical beasts long ago!

Although this Alliance could still hold on, there were already quite a few casualties.

Among the 80 to 90 people who were still alive, there were more than ten bodies. Most of them were hired martial artists.

The apothecaries of the apothecary school were all protected, so not many of them died.

Lin Yi did a quick count of the number of people present-there should've been at least a hundred and twenty people in the team.

There were less than 90 people alive now, and with the ten or so corpses, there were only about 100 people.

The twenty or so people who disappeared were probably torn apart by the darkness magical beasts, and there were no remains left.

Judging from the darkness magical beasts 'encirclement, it was probably a sudden sneak attack. They were caught off guard and directly lost a quarter of their men.

Chapter 8397

These unlucky ones ... Actually fell into the ambush of the darkness magical beasts ... It was a bit embarrassing to say!

Lin Yi was considering if he should go and save them. After all, they were all elites of the human race, and there were more than twenty bronze grandmasters!

There were also those diamond-grade alchemists who were one grade lower. They were all super precious talents.

But he quickly dismissed that thought, because he noticed that there was a Dark Demon beast's aura in the range of his spirit sense. He couldn't lock onto it.

If Wu Linghai wasn't so powerful, he wouldn't have noticed this trace.

A heaven breaking stage darkness demon beast?

Lin Yi was shocked, but he wasn't sure. It was possible that the dark Demon beast was good at hiding, but it wasn't necessarily strong.

But no matter what, Lin Yi wasn't going to take the risk!

If it was his own people, like Tang Yungui, Diao Longtian, or Lu sanjian, Lin Yi wouldn't be afraid to rush up and save them.

But the problem was that the people he surrounded were all strangers. They weren't worth Lin Yi risking his life to save.

Lin Yi felt that all his trump cards would be useless against a heaven breaking Dark Beast, and he might even be killed instantly.

The darkness demonic beasts did not attack because they were waiting for the people behind them to die!

Lin Yi sighed in his heart. If he could save them along the way, it wasn't like he couldn't help, but since it wasn't convenient, then they could only count on themselves!

Or ... He could make some noise to attract the darkness demon beast's attention. If they could seize the opportunity to break out, it could be considered a merit!

If he couldn't seize the opportunity, then he couldn't blame anyone!

Lin Yi's mind moved quickly-he felt that this was already the best he could do while ensuring his safety!

He had to take advantage of the fact that the darkness magical beasts hadn't launched an all-out attack and quickly think of a way to make a big commotion and escape!

After making up his mind, Lin Yi started to move carefully and spread out his spirit sense at full power, trying to find the dark Demon beast's weakness and cause some trouble.

Of course, the most important thing was to pay attention to the mysterious darkness demon beast in the dark. If they accidentally bumped into it, it would be a big problem.

At this time, if he could use the wood escape technique, he would be like a fish in water.

It was a pity that he couldn't use true energy on the sub-Island, so he could only make do with the plant attribute and pretend to be a small grass, making those Dark Demon beasts automatically ignore him.

He'd just moved a little bit when he noticed something strange.

On the other side of the encirclement, there were a few darkness magical beasts that were far away from the encirclement, or rather, they had no intention of joining the encirclement.

It didn't seem right to say that they were on guard against breaking out. If the people who were surrounded could break out, no matter how panicked they were, they would definitely not go to these places with defenses.

Breaking out of the encirclement was to escape, not to throw away one's life!

Moreover, there were no similar arrangements in the other directions, which meant that the darkness magical beasts did not think that the people in the encirclement would be able to escape.

So there's a problem with Wanwan!

Lin Yi could already see a little troublemaker waving at him!

There's nothing to hesitate about. Let's start!

Lin Yi prayed in his heart, hoping that the guys could hold on. Whether or not they could escape was up to their own luck!

After he finished praying, he had already stealthily moved a few dozen meters away, and continued to quickly move towards the wandering darkness magical beasts.

As the distance shortened, the range of his spirit sense started to extend as well. He didn't find anything yet, but Lin Yi was 80% sure that these dark beasts were guarding something.

What was it? The leader of these darkness magical beasts? Or was it a treasure that these darkness magical beasts had hidden?

If it was the leader, Lin Yi decided that he wouldn't stay for long and would run for his life immediately.

If it's a treasure, hehe, then I'm sorry, I'll most likely have to change his surname to Lin today!

Lin Yi had only just gone over for a while, and the dark beasts seemed to be tired of playing with their prey. They started closing in on the humans in the middle.

Naturally, the darkness magical beasts outside the encirclement were also attracted. Although they wouldn't join in, they couldn't help but be curious and want to see the human's sorry state.

Lin Yi took the chance to speed up, passing through the guarding Dark Demon beasts and passing by them silently.

The entire process took less than a second, but Lin Yi's adrenaline shot up. The stimulation was self-evident.

If they were not careful and were noticed, they would definitely end up running away. Whether they could escape or not was another matter.

After all, even Lin Yi wasn't sure about the dark Demon beast that was hiding in the dark.

Less than a hundred steps later, there was an area that blocked off all spiritual senses. Lin Yi had noticed it before, but he couldn't confirm it.

This was because the area that was blocked was really too small, only about the height of one person and the width of two people.

Just like how a person's eyes had an undetectable blind spot, spiritual sense also had such a blind spot.

So Lin Yi couldn't be sure if this small area was really blocked-he only confirmed it after seeing it for himself.

There was indeed something fishy!

Lin Yi was overjoyed. He used the plants as cover and sneaked into the area.

In addition to the darkness magical beasts that had just passed by, there were also darkness magical beasts guarding the other directions. The distance between them was about the same, and it really did look like they were guarding this place.

If it wasn't the leader of the darkness magical beasts, then it must be a treasure!

Lin Yi was overjoyed.

As for the darkness magical beasts nearby, although they were guards, they didn't get too close, and all of them had their backs facing the shielding place!

Obviously, the reason for this was that the darkness magical beasts had come to some kind of agreement. The treasures here were shared, and no one could get too close to them!

Whoever dared to snatch it first would definitely be attacked by the masses!

With such a serious look, it was naturally self-evident what kind of treasure was hidden inside!

In that small area, there was a spiritual awareness shield, as well as a concealment and defense array. However, they were very crude and far less exquisite than the spiritual awareness shield.

These things weren't even worth mentioning in Lin Yi's eyes-they were like children's toys to him.

He didn't even need to break it, and naturally, he wouldn't be touched.

After entering, a short tree as tall as a person appeared in front of Lin Yi. In the forest of illusion, where there were super trees everywhere, these short trees were no different from weeds.

Lin Yi, on the other hand, was overjoyed when he saw the small tree, almost laughing out loud!

Chapter 8398 No Problem!

This was because this small tree bore nine small round fruits that were as red as fire. Each of them was only the size of an egg, but they had an exotic fragrance that could make one's blood boil.

The Scarlet Flame hundred refined fruit!

It was a true Supreme-grade body-tempering spiritual fruit!

Each pill could greatly increase the strength of the user for a short period of time, regardless of grade!

And there were no side effects. The only side effect might be that it would be very painful when taking it!

However, which body-tempering martial artist would be afraid of pain?

What a joke!

For the sake of power, even if they had to break all the bones in their body and regrow them, there would still be a lot of people willing to try.

Therefore, this Scarlet Flame hundred-refined fruit was equivalent to a perfect spirit fruit without any flaws. Any one of them would set off a great uproar!

The most precious thing was that the Scarlet Flame hundred-refined fruit did not have a fixed origin. No one knew where this thing would appear!

By right, this kind of fire-attribute spirit fruit should like places with rich fire-attribute Qi, such as underground fire, lava, or the inside of a volcano.

However, that was not the case!

The Scarlet Flame hundred-refined fruit would always suddenly grow a sapling in a corner. The whole process from germination to blooming, bearing fruit, and maturing did not take more than a hundred days!

After it was fully ripe, if no one picked it for more than three days, it would burn on its own, turning into the purest fire-attribute Qi and dissipating into the world.

And the small trees that grew out would quickly wither and disappear without a trace!

Wherever the Scarlet Flame hundred-refined fruit had grown, it would never grow a second time.

Therefore, if they wanted to wait in place, they would definitely not gain anything and would only waste their time!

It was because it was so special and precious that Lin Yi was so surprised!

This was truly a treasure that could only be found by luck!

No wonder those darkness magical beasts were surrounding them so solemnly!

They were all waiting to split the Scarlet Flame hundred refined fruits!

This treasure was useful to human warriors, but it was even more useful to the darkness magical beasts!

This was especially so for the magical beasts of darkness with fire-attribute physiques. They had the effect of cleansing their marrows and meridians, and being reborn, allowing them to break through the upper limits of their own race!

Although there were only nine Scarlet Flame hundred-refined fruits here, there were one or two hundred darkness demonic beasts outside, and he didn't know how they would distribute them.

But Lin Yi knew that he'd gone too far this time!

He had originally wanted to cause a big commotion, but now, he was going to directly pierce through the darkness magical beasts 'sky!

Lin Yi couldn't help but gulp as he looked at the bright red Scarlet Flame hundred refined fruit, a smirk on his face!

Since he was going to stir up trouble, he naturally had to do something big!

What's there to be afraid of! It's over!

Lin Yi's hands left a trail of afterimages as he plucked the nine Crimson flame hundred refined fruits, putting them into a Jade box he'd prepared beforehand and sending them into the Jade space.

This time, his luck was really heaven-defying. He had entered just when the Scarlet Flame hundred-refined fruit was about to ripen. He couldn't do it any earlier!

It was likely that the darkness magical beasts had gathered here to wait for them to mature, which was why they had previously dealt with the people from the Alliance of Academies like a cat toying with a mouse.

They knew that it was about to mature, so they didn't want to continue playing and started to attack.

The Mantis stalks the cicada, unaware of the Oriole behind-the little thief Lin Yi sneaked in and took all nine Scarlet Flame hundred refined fruits!

After losing the fruit, the short tree immediately began to wither at a visible rate.

If it wasn't for that, Lin Yi might have thought of a way to uproot the tree and plant it in the Jade space.

He naturally wouldn't care about it now. After putting away the Scarlet Flame hundred refined fruit, he immediately ran away.

All of a sudden, all of the darkness magical beasts began to roar, most likely because they had sensed that the aura of the Scarlet Flame hundred refined fruit had disappeared!

Lin Yi had just started running when he realized that he'd stepped into a hornet's nest. All the dark Demon beasts around him were rushing towards him like crazy.

They had seen a ghost!

Lin Yi really wanted to cry!

There was a spirit sense shielding formation and a stealth formation here, but Lin Yi didn't find the fruit when he used his spirit sense to scan the area!

But what kind of tricks did these darkness magical beasts use to know that the Scarlet Flame hundred-refined fruit had been stolen?

Telepathy? Bah! Who cares what he is, it's more important to escape!

Lin Yi used the plant element as a disguise and dashed out through a small gap in the encirclement.

A few seconds after they left, the defensive formation around the Crimson flame hundred-refined fruit was completely torn apart by several enraged darkness-type magical beasts.

As if they felt Lin Yi's aura, the roaring dark beasts started to chase in the direction Lin Yi ran. No matter how far they were, they all went in the same direction.

As for the Academy's people who had been surrounded earlier, not a single darkness magical beast was willing to pay them any attention.

It was fine to tease them when they had nothing to do, but now that the Scarlet Flame hundred refined fruits had been stolen, who had the time to care about these humans?

Lin Yi's soul almost left his body-it wasn't that he'd never been chased by this many dark beasts before, but this was really just a small scene!

The problem was that he had vaguely felt the faint aura of a darkness magical beast earlier, and it was already rapidly chasing after him!

The other darkness magical beasts behind him were probably guided by this mysterious darkness magical beast, which was why they were able to keep chasing in the right direction!

Was it really a heaven breaking Dark Demon beast? I can't be that unlucky, right?

Speaking of which, why wasn't such a powerful darkness magical beast in a node, and instead appeared in the Forest of Illusions?

Even if the Forest of Illusions was a relatively independent area, there shouldn't be a darkness magical beast of this level!

Lin Yi wanted to try, but he didn't have the confidence. It wasn't the time to be at the end of the line yet, and it wasn't a wise move!

If it really was a heaven breaking darkness demon beast, it would probably be killed in an instant ... It was better to continue running!

With so many dark beasts around, Lin Yi really didn't have time to choose an escape route. He ran in a panic, and before he knew it, he was getting deeper and deeper into the core area of the herb field.

Thanks to Lin Yi, the people from the school who were almost certain to die before finally cleverly grabbed this opportunity and ran out without stopping!

Even if there weren't any darkness magical beasts chasing them, they didn't dare to stop.

Even when they saw the medicinal herbs required for the mission, they didn't even take a second look. In order to save their lives, they even used all their strength!

It was only when they ran out of the range of the herb field that they began to rejoice that they had managed to keep their lives and vowed never to enter the herb field again to risk their lives!

Who knew if he would encounter another good thing like the darkness magical beasts going berserk?

That's right, they didn't even know that Lin Yi was the one who drew the beasts away and saved their lives. They thought that the beasts suddenly went crazy and gave them the chance to escape.

Chapter 8399

At this time, Lin Yi, who had done a good deed without leaving his name, was being chased by the dark Demon beasts to the point where he had no way out!

If it wasn't for the fact that they were in the forest and he had the plant element to disguise himself, plus Wu Linghai's sharp senses, Lin Yi would've been caught countless times!

Because of the dark Demon beast's pursuit, Lin Yi didn't even have the chance to use his sorcerer spirit body to escape!

Although the Sorcerer spirit body only needed a short moment to leave the physical body and then store the physical body into the space of the jade pendant, it couldn't be squeezed out even in this short moment!

Lin Yi felt that if he stopped for even a second, he would be caught by the dark Demon beast!

If he had known earlier ... He should have taken the risk with the Sorcerer spirit body earlier!

He was too careless!

Lin Yi was frustrated as he ran, calculating how long it would take for him to get there in three days ...

In fact, the reason why Lin Yi didn't use The Witcher spirit body at the start was because he was worried that the three days were almost up. Who knew if the automatic teleportation would be able to teleport The Witcher spirit body?

Even though the Sorcerer spirit body looked the same as a physical body, it was not a physical body in essence!

If he couldn't teleport the Sorcerer spirit body, then he would be in deep trouble!

Lin Yi's mind was running wild as he used his spirit to keep an eye on the mysterious Dark Demon beast. He didn't know how far he had run, but he suddenly realized that there were no other Dark Demon beasts around him!

No matter if it was a demon beast at the great circle of earth-splitting or sea splitting stage, he had actually thrown them off!

It was simply unbelievable!

Just as Lin Yi was in shock, a black shadow appeared in front of him, blocking his path.

Lin Yi didn't continue running, but stood still and looked at the person in front of him calmly.

That's right, the one who stopped Lin Yi was a young man in a black robe. He had a handsome face, and if it weren't for the small horns on his head, he really would look no different from a human!

A shapeshifted darkness magical beast!

In fact, there were many darkness magical beasts that could transform, and after reaching a certain level of power, they would have the ability to transform. But after transforming, the power they could display would be greatly reduced.

Thus, if it wasn't necessary, darkness magical beasts didn't like to take on human forms!

But the young man in front of him was different-even in his human form, Lin Yi still felt that he was unfathomable, and a sense of danger exploded in his heart the moment he saw him.

"Hehe, you're quite good at running. Interesting!"

The black-robed young man smiled at Lin Yi, his face relaxed."Hand over the Crimson flame hundred refined fruit! You wanted to save those humans, so I gave you face and let them leave alive!"

Lin Yi blinked and smiled."So you deliberately brought your clansmen to chase me, and then deliberately sent them away halfway, leaving you alone so that you could find me alone?"

At this moment, Lin Yi's heart suddenly opened up. No wonder this guy was so tight on him, always in the state of being one inch closer to catching Lin Yi, forcing Lin Yi to keep running with all his might.

It turned out that he was doing it with ease!

His goal was to catch Lin Yi alone and take all the Scarlet Flame hundred refined fruits for himself!

"That's right! Humans are all very smart, and you look even more so! I don't like to beat around the bush, so I've said it out in the open!"

The black-robed young man admitted to Lin Yi's deduction, "I know you want to make some noise to attract our attention so that you can save those people. Now that you've done what you wanted, you should also do what I want, right?"

Lin Yi's original intention was to create some trouble for the people from the school to escape, but he didn't expect the black-robed young man to see through it!

This guy seemed to be smarter than smart people!

A monster!

"Ha ... You're overpraising me! I think you're more intelligent than I am!"

Lin Yi wasn't stingy with the praise-it was the best way to buy time!

Sure enough, the black-robed young man seemed to be very pleased with the compliment, and the smile on his face became gentler.

But Lin Yi's next sentence froze his smile!

"I'm sorry, but I don't know where the Scarlet Flame hundred-refined fruit is. I've heard of such a treasure, but I've never seen it before! If you want me to hand it over, I really don't have it!"

Lin Yi said helplessly as he spread his hands. "I'm sorry, I can't do as you wish! Or do you want to change something? Take a look at me and see if there's anything you want!"

The Scarlet Flame hundred refined fruit was already in the Jade space-it would be a miracle if the black-robed young man found it on Lin Yi!

In order to show that he really didn't have any Scarlet Flame hundred-refined fruits, Lin Yi opened his storage bag and threw it to the black-robed young man,"You see, all my belongings are inside. Take whatever you like, no need to be polite with me!"

The opponent's strength was unfathomable, and Lin Yi could only show weakness. If they couldn't reach an agreement, he might be able to make the opponent suffer a loss because of their underestimation!

The black-robed young man started rummaging through Lin Yi's storage bag. There were quite a few herbs inside, all of which he had collected before. They weren't mission items, so they were all in his storage bag.

They weren't anything precious, but they could be exchanged for some benefits. Lin Yi didn't care about the value of these things, but they were still very suitable for acting!

For example, the black-robed young man's face had turned ashen when he saw the medicinal herbs that could be seen everywhere in the Forest of Illusions!

He'd planned all these little tricks just so he could catch Lin Yi and take all the Scarlet Flame hundred refined fruits for himself!

The black-robed youth's true form was a relatively rare type of darkness magical beast. His bloodline was considered to be of a relatively noble race, but there was a limit to his strength.

Lin Yi thought that it was a heaven breaking Dark Beast, but it wasn't!

However, the black-robed young man's overall strength was very strong, and he didn't have any weaknesses in his essence spirit either. Even Lin Yi's Wu Linghai might not be able to take him down!

It was normal that Lin Yi's spirit couldn't completely track his movements, especially since he had some special abilities.

If he were to obtain the nine Crimson flame hundred-refined fruits, breaking through his limit would be a sure thing!

At that time, they could even evolve their bloodline to a higher level, and become one of the noblest species among the darkness demon beasts!

Although the black-robed young man was the strongest among the darkness magical beasts, he could not suppress all of them.

He had no problem obtaining one Scarlet Flame hundred refined fruit, but he couldn't get more.

The black-robed young man was a scheming man, and he wouldn't act rashly. Lin Yi's appearance gave him the best opportunity, and he saw through Lin Yi's intentions. He took the nine Crimson flame hundred-refined fruits from Lin Yi and forced Lin Yi to keep running.

During the chase, he led the dark beasts in the wrong direction, and when he was the only one left, he stopped Lin Yi easily.

Chapter 8400

Everything was perfect, the only thing that went wrong was that Lin Yi didn't have the Scarlet Flame hundred refined fruit!

"Impossible! You must be the one who took the Scarlet Flame hundred refined fruits! It's impossible!"

The black-robed young man was furious, and his handsome face turned ferocious. The nine Crimson flame hundred-refined fruits were related to the evolution of his bloodline, so he would not let this matter go!

"Human! I don't care what method you used to hide the Scarlet Flame hundred refined fruit, take it out immediately! I can spare your life!"

The black-robed young man suppressed the urge to tear Lin Yi apart and gritted his teeth, "This is your last chance to live. I'm sure that the Scarlet Flame hundred-refined fruits are in your hands. Don't force me to kill you!"

"You should understand that I can still find the Scarlet Flame hundred-refined fruit if I kill you. You won't be able to keep it, so why risk your life for nothing?"

He said that, but the black-robed young man had already confirmed that Lin Yi didn't hide the Scarlet Flame hundred-refined fruit anywhere.

So he was thinking, did Lin Yi just hide it somewhere on the road?

But this didn't seem right!

The black-robed young man was closing in on Lin Yi, and he was sure that Lin Yi didn't have the time to play any tricks!

In order to find out where the Scarlet Flame hundred refined fruit was, he couldn't kill Lin Yi now no matter what.

Lin Yi spread his hands out innocently, "I really don't have any Scarlet Flame hundred refined fruits!" What should I say to make you believe me? I, Sima Yi, swear on the ancestors of the Sima clan that I have never seen the Scarlet Flame hundred refined fruit. If I lie, the ancestors of the Sima clan will not be able to rest in peace!"

The oath was cruel enough, but the problem was that Lin Yi wasn't a member of the Sima clan. What did the ancestors of the Sima clan have to do with Lin Yi?

The coffin wouldn't be able to cause Lin Yi any trouble even if it jumped out!

The black-robed young man did not buy it at all. His face became more and more twisted, ""You are forcing me to kill you! Good, good, good! Then I'll fulfill your wish!"

Leading the other darkness magical beasts in the wrong direction couldn't last for long. The black-robed youth originally thought that it was an easy task, so he was very relaxed. When he found out that things were not as he had imagined, he suddenly became anxious and irritable!

It would be even more troublesome if the other darkness magical beasts caught up, so he couldn't afford to delay!

The black-robed young man growled and was about to attack Lin Yi, but Lin Yi quickly waved his hand, "Wait, wait! I really don't understand why you would think that the Scarlet Flame hundred refined fruit is in my hands. Perhaps there's some misunderstanding?"

"Why don't you tell us the reason in detail, and we can discuss it together. Perhaps we can find some clues and then find the Scarlet Flame hundred-refined fruit you mentioned, right?"

Lin Yi was ready to make a move, but he was still talking nonsense. It was good to delay for a while!

"You still want to lie to me? You escaped from the place where the Scarlet Flame hundred-refined fruit grew, and no one has ever entered it before you. Now that there's no trace of the Scarlet Flame hundred-refined fruit, who else could it be if not you?"

The black-robed young man was still furious, but he was still hoping that he would be lucky, and the attack he was about to launch slowed down.

"Are you talking about the place where the formation is hidden? That's right, I did go in, but there was nothing inside! It's just a few weeds, can you say that it's the Scarlet Flame hundred refined fruit?"

Lin Yi's innocent face and strong body language really made the black-robed man hesitate for a moment.

Could there really be a problem?

The Scarlet Flame hundred refined fruit was already gone?

That was impossible!

The black-robed young man's thoughts had just wavered when he remembered the aura of the Scarlet Flame hundred refined fruit that disappeared before Lin Yi escaped!

This was a F * cking lie!

Who the F * ck are you trying to fool?

"Go to hell! You don't have any value without the Scarlet Flame hundred refined fruit anyway, so it's not wrong to kill you first!"

The black-robed youth felt humiliated. This time, he was really going to attack with all his strength!

She'd just started preparing when Lin Yi interrupted her again, "Wait, wait! If you kill me, how are you going to explain this to the other darkness demon beasts? Do you think they'll believe that you didn't get the Scarlet Flame hundred refined fruit?"

The black-robed young man's body stiffened and he was stunned.

That's right, How do I explain killing this damn human?

Who would believe that he didn't get the Scarlet Flame hundred-refined fruit?

The original plan was to force Lin Yi to take out the Scarlet Flame hundred-refined fruit to buy his life. After he got it, he'd eat it and his bloodline would evolve. Who would dare to come out then?

Lin Yi's life or death wouldn't matter anymore!

the problem was that the plan couldn't keep up with the changes. not only was he unable to eat mutton, but he was also in trouble!

he didn't have the scarlet flame hundred-refined fruit after killing lin yi, so he couldn't really explain himself if he provoked the public ... the black-robed young man felt that he wouldn't be able to take it either ...

'damn it!' how did things come to this? everything was clearly under his control!

lin yi laughed to himself. he thought that this black-robed young man was more intelligent than most humans, but it seemed like he wasn't that smart!

if lin yi was in a strong position, he would've taken him down already-he didn't have the time to waste talking!

the black-robed young man didn't know that lin yi was laughing at him. he was still stuck in a dilemma.

of course, lin yi wouldn't take the chance to run away, so he didn't plan on taking him down immediately.

"i don't think you'll let me go. how about this? you can capture me and explain the situation to the other darkness magical beasts. you can prove that although you captured me, you didn't get the scarlet flame hundred-refined fruit!"

lin yi saw that the black-robed man was almost done with his thoughts and immediately changed his excuse, "the only person who can prove it to you now is me. if you kill me, it'll be the same as confirming the crime of being guilty. why do you have to do this?"

the black-robed young man thought that it made sense, but after thinking about it, lin yi was the one who took the scarlet flame hundred-refined fruits. how could he believe lin yi just by saying a few words?

"cut the crap. i'll kill you, you traitor, even if i have to be misunderstood today!"

the black-robed young man shook his head and decided to kill lin yi with everything he had!

he'd already thought it through-lin yi's claim that he could prove his innocence was complete bullshit!

The Scarlet Flame hundred-refined fruits were in Lin Yi's hands-there was no way they could prove their innocence. If they really threw Lin Yi in front of the dark beasts, he might even bite back and say that the Scarlet Flame hundred-refined fruits were in his hands.

At that time, he would be unable to explain himself!

Lin Yi knew that things weren't looking good-he couldn't fool them anymore, so he ran!

A spiritual awareness collision had already been prepared, and when the black-robed youth attacked, it also blasted out.

As a result, the spiritual sense collision that had always been successful on the sub-island only caused the black-robed youth to frown and be in a daze for a moment before he recovered.

"Divine sense attack skill? Interesting, he's not weak at all!"

The black-robed youth grinned and rushed over without a pause,""That's right! the weak simply have no right to approach the scarlet flame hundred-refined fruit!"
