

Bodyguard 8401

Chapter 8401

Lin Yi didn't dare to slow down and used his super butterfly microsteps at full force. His body started to move around in a small area, but he couldn't get away from the black-robed young man's attack.

The black-robed young man only threw out a fist, and no matter how Lin Yi dodged, the fist was still aimed at Lin Yi's face, like a shadow, like a bone-deep gangrene!

The dense vines began to dance and lash, blocking the black-robed youth's fists and attacks, but they were crushed by the powerful force.

It was like an ordinary spider web trying to catch a charging rhinoceros. The rhinoceros might not even feel it, and could directly ignore it.

Lin Yi also used his fire Whirlpool, circling around the black-robed young man and harassing him, but it was just like a collision with his spirit sense, and didn't have much of an effect.

At most, it only slightly affected the black-robed youth's actions.

The difference in power was too great, which formed this kind of crushing attitude!

Lin Yi's forehead was covered in cold sweat. This was the strongest opponent he'd ever met on the sub Island!

Although the strength of the fist didn't seem to be at the heaven breaking level yet, it wasn't something that Lin Yi's new body could handle, especially when his spirit sense attacks were ineffective!

Previously, when he could kill people above his level, it actually could not be considered as surpassing his level.

This was because the power of the soul consciousness attack was at the level of a normal half-step heaven breaking expert. The sea splitting realm human warriors didn't have high-level soul consciousness defensive tools, and the level of their primordial spirits was fake. Their real strength was extremely low, so they naturally couldn't withstand a single blow.

The black-robed young man in front of him, on the other hand, was naturally gifted and wasn't afraid of Lin Yi's spirit sense attack. This way, Lin Yi lost his strongest trump card and fell into a passive position.

In fact, the black-robed young man was a little suspicious as well. He looked like he took Lin Yi's spirit sense attack easily, but he still took quite a bit of damage. It was all thanks to his talent that he barely managed to take it.

At this time, the power that was pulling the primordial spirit around him was also quite strange and difficult to deal with!

If it wasn't for the fact that his innate ability could restrain primordial spirit attacks, there was no telling what the consequences would be.

If it was a darkness magical beast of the same level, without his innate ability, it would definitely be in a daze for a while.

In a battle between experts, a slight difference could make a difference of a thousand miles. The black-robed young man's back was already covered in cold sweat. If he had been in a daze for a while, he probably wouldn't have had the chance to wake up!

The black-robed young man held back a little, giving Lin Yi some breathing space.

If he went all out, Lin Yi might not even be able to Dodge!

The chase only lasted for a few seconds, but Lin Yi had already been on the edge of life and death hundreds of times. His back was already drenched in cold sweat.

He was even considering whether he should take out the nine-story glazed Pagoda to block it and then hide in it to save his life.

At this moment, the auras of several darkness magical beasts were rapidly approaching from the distance. They were all powerful existences!

Perhaps, they had sensed the battle that had broken out here, so they had rushed over at full speed!

This was related to the ownership of the Scarlet Flame hundred refined fruit, and no magical Beast of Darkness dared to take it lightly. They all wanted to be the first to get their hands on it, and if they had the chance, they would swallow it all in one bite!

The black-robed young man sighed softly, his attacks slowing down. He no longer looked like he was going to kill Lin Yi.

After all, if Lin Yi was alive and couldn't find the Scarlet Flame hundred refined fruit, then it would be hard to explain!

If he really got the Scarlet Flame hundred-refined fruit, the black-robed young man wouldn't be afraid of becoming enemies with all the darkness magical beasts. The problem was that he hadn't even seen a single strand of the Scarlet Flame hundred-refined fruit, so he didn't want to be the scapegoat!

Lin Yi let out a breath of relief-he didn't need to use the nine-story Pagoda anymore.

The darkness magical beasts that had rushed over were already within the range of their divine sense, so they naturally understood why the black-robed youth had relaxed his attack.

The man was not dead, and he had not been able to take him down. The Scarlet Flame hundred-refined fruit was naturally not with the black-robed young man. There was no need to explain this matter, and the black-robed young man could easily deny it!

Although the black-robed young man said that he was going to kill Lin Yi, it was better for the other dark beasts to encounter him in this state.

Lin Yi was a little more relaxed now, but he still couldn't escape. The black-robed young man was determined to trap Lin Yi here and let the dark beasts see the battle.

If he couldn't handle one black-robed young man, then he'd be dead meat if more dark beasts came ...

How good would it be if his physical body could recover its strength? it was not impossible to kill the black-robed young man in front of him!

He hoped that the risk this time was worth it. How much strength could those nine Scarlet Flame hundred-refined fruits improve his body or recover?

He was in danger, but he still had time to look forward to it!

After the anticipation, it was the real problem. After Yingying was surrounded by the darkness magical beasts, how was she going to escape?

"You've come at the right time. It's this human who escaped from the Scarlet Flame hundred-refined fruit's growth point. The Scarlet Flame hundred-refined fruit must be in his hands. However, this person is a bit difficult to deal with. Let's quickly take him down!"

The black-robed youth saw that the darkness magical beasts had already arrived, and he smiled as he called out to them.

As for whether or not he was feeling wronged, Lin Yi felt that he should be!

The black-robed young man would probably be even more sullen after this!

Lin Yi's lips curled up into a mischievous smile-the three days were up!

He could already feel the signs of teleportation, so the next step was to trap people, no, it was time to trap the darkness magical beasts!

"Hey! Why are you not keeping your word? We've agreed that I'll give you all the Scarlet Flame hundred refined fruits and cooperate with your act to clear my name. If you do that, you'll keep me alive! Why are you getting so many darkness magical beasts to attack me? With my strength, I can't even block a punch from any of them!"

Lin Yi pretended to panic, throwing a bucket of dirty water on the black-robed man's head.

The black-robed young man froze for a moment before realizing what Lin Yi had just said!

"Nonsense! How dare you slander me! I won't kill you today, but I'll make you suffer countless punishments and see if you'll tell the truth!"

He wasn't in a rush-as long as Lin Yi didn't die, there shouldn't be any problems.

After all, he really didn't get the Scarlet Flame hundred-refined fruit. Such a simple trick to sow discord wasn't enough to trouble him!

But Lin Yi smiled immediately, "so you weren't lying to me!" The teleportation device you gave me is really effective. Since that's the case, we'll meet again!"

with that, lin yi disappeared!

the darkness magical beasts that had just arrived were all dumbfounded, and then looked at the black-robed youth with suspicious eyes.

the black-robed young man was so angry that he almost vomited blood. what the hell is this?

Chapter 8402

Damn humans!

How did it teleport away?

You're just going to leave, and you're saying that I'm the one who gave you the teleportation tool ... I've never seen such a shameless person!

"He's talking nonsense! This is clearly the cunning humans framing me. You all believe me, right?"

The black-robed young man forced a smile and tried to prove his innocence, but the darkness magical beasts shook their heads in unison after hearing his words!

I'm sorry, but we don't believe a word you said!

Although the black-robed young man was very angry, it was useless. He knew that he really couldn't explain it this time!

He didn't have the Scarlet Flame hundred-refined fruit on him, but Lin Yi's words meant that he'd become the center of attention of all the dark beasts in this field!

His every move couldn't escape the attention of the other darkness magical beasts, unless one day, his strength could crush all the darkness magical beasts!

However, without the nine Crimson flame hundred-refined fruits, he could only go to bed early and dream if he wanted to do this!

He really wanted to tear that damn human apart! He had been tricked to the point where he had no place to reason ...

Lin Yi was transported out in a good mood. What happened to the black-robed young man after that had nothing to do with him.

When his strength increased, he would have a chance to enter the herb field again. If he could meet this guy again, everyone could settle the score!

All in all, this trip to the Forest of Illusions was a big win. Although there was a little danger in the end, it was only a scare, but no danger. He didn't lose anything!

After the teleportation, Lin Yi looked up and saw Lu sanjian, Tang Yungui, and the others, as well as the people from the college Alliance that he had saved from the dark Demon beast.

However, they still didn't know that they were saved because of Lin Yi. They thought that they were lucky!

Lin Yi didn't want to tell them the truth-he'd already made a killing with the Scarlet Flame hundred-refined fruits, anyway. Saving them was just a passing act, and he didn't need their gratitude.

Other than that, there was Dean Qi Feng's group. They'd been trapped for almost three days, and were all exhausted. They were even more furious when they saw Lin Yi, but didn't dare to come up and argue.

"Very good, most of them came out safely this time, and there weren't too many casualties. This King is very pleased! It shows that you are all very smart. It was expected that more than half of you would be killed or injured. "

Hong zhizhu looked around, his eyes stopping on Lin Yi for a while. He nodded slightly in greeting, ""Now, it's time to check everyone's gains!"

"all the medicine bags of the academy are placed on the ground. naturally, our people will count them. any medicinal herb that is not in the medicine bag will not be counted as points!"

in other words, whoever put the mission medicinal herbs in their storage equipment could only be regarded as items used to exchange for benefits and would not be able to obtain assessment points ...

although there were signs of teleportation, it might not be enough time for people to react!

therefore, it would be a tragedy if anyone placed the mission medicinal herbs in their storage equipment for convenience.

lin yi looked at the people from the alchemy association with a smile that didn't quite reach his eyes.

the use of the bag of medicine made it easier for competitors to snatch it from each other and store it in their storage equipment. it did not prevent the alchemy association from purchasing it later. it was a very smooth operation!

unfortunately, very few people would make this kind of mistake. they were all experienced. when the three days were almost up, they had already prepared what needed to be prepared.

except for those who barely managed to survive, the others would find a safe place to put their materials in place and wait to be teleported before the time came.

As for the number of people who died, it was actually not small, but the ratio was indeed not large, so it was normal for Hong zhizhu to not take it to heart.

"Dean Sima, we've gained too much this time. I've just taken a rough look, and it seems that the other Academies haven't gained much."

Lu sanjian moved to Lin Yi's side, unable to hide the excitement on his face. He lowered his voice, "It looks like Dean Sima is still going to lead to the end!"

Lin Yi smiled-he could tell how much he'd gained with one look.

The degree of the medicine bag's expansion represented the amount of harvest.

The medicine bags of the Fuyao apothecary school and the Green Mountain apothecary school were so full that they looked like they were about to burst. As for the other schools, most of them were very dry.

It was stable!

"Dean Lu, how can you say that you're ahead of us? We're brother Academies, so our gains are all together. Of course we'll work together!"

Lin Yi wouldn't mistreat his allies, and he was determined to give them a hand. "This time, Fuyao and Qingshan will each get half of our harvest! This number is enough to beat the other Academies!"

"Then this old man will respectfully accept it. Although I'm very ashamed, I can't let down Dean Sima's good intentions!"

Lǎo sanjian didn't reject the offer-he'd gained a lot this time, and there was no chance for him to sacrifice himself for Lin Yi's favor.

In that case, she might as well listen to Lin Yi's arrangement and accept his kindness. It could also improve their friendship.

The total number of task items obtained by the two academies had exceeded three thousand. Other than the patch of Poison Heart grass in the medicinal field, they had also collected a lot of scattered items.

In addition, there was also the storage equipment of Dean Qi Feng and his people. There were about 3400 to 3500 in total.

Fuyao and Qingshan split the points equally, each getting more than 1700 points, while the other schools only got less than 400 points. They couldn't even catch up to Lin Yi's points in the first round, and it was even more hopeless with the second round.

With so many medicinal herbs piled on the ground, the outcome was already self-evident. There was no need to calculate. Everyone knew who was first and second.

"Vice clan leader Hong, vice clan leader Wei, this old man wishes to impeach Fuyao apothecary school's Sima Yi! He secretly ambushed us and imprisoned us. He even robbed us of the medicinal herbs we had worked so hard to find. He didn't even let go of our storage equipment!"

Dean Qi Feng didn't want to lose, and he came out to impeach Lin Yi with a hopeful attitude.

He'd already offended Lin Yi, so he had to give it his all now!

The schools that were in an alliance with Dean Qi Feng were traumatized by Lin Yi's beating-they didn't dare impeach Lin Yi directly, and so they just waited for Dean Qi Feng to finish his speech before nodding in agreement.

They didn't dare mention Lin Yi's name directly, making it sound like they wouldn't offend Lin Yi.

Lin Yi only laughed coldly, not taking it to heart.

Snatching from each other was a hidden rule that wasn't explicitly stated, so it wasn't a big deal at all. The impeachment of Dean Qi Feng and the others would only be judged as a loss!

Not to mention that the host was Hong zhizhu, if Dean Qi Feng asked Hong zhizhu to reward Lin Yi, he could easily find hundreds of reasons to reward Lin Yi!

Chapter 8403 The End

Impeachment? He was thinking too much!

Hong zhizhu completely ignored the impeachments from Qi Feng and the others, and announced the results of the second round.

"The second round of the examination has ended. The first place is the Fuyao apothecary school, with a total of 1733 stalks of medicinal herbs. The second place is the Qingshan apothecary school, with only one stalk less than the Fuyao apothecary school. In addition to the results from the first round, the first and second place are still the Fuyao and Qingshan apothecary schools."

As for the third place, her total score was only around 400. Not to mention the Fuyao apothecary school, even the gap between them and the Qingshan apothecary school was like the distance between heaven and earth.

"Vice clan leader Hong, Sima Yi is snatching ..."

Qi Feng's Dean was still not convinced. He wanted to continue pestering Hong zhizhu, but he was forced to back down by Hong zhizhu's cold gaze!

"I know what you're talking about. I know what I'm doing. You can shut up now!"

Hong zhizhu's displeasure was written all over his face, and his words were cold without any warmth.

The unspoken meaning was that if you keep talking, I'll teach you a lesson!

Qi Feng's Dean shut his mouth obediently. Without a backer, he was already very lonely and helpless. If he offended Hong zhizhu as well, Qi Feng alchemy college would really be finished!

"Alright, does anyone else have any objections? If not, the second round of assessment would end here! Everyone can go back and rest for a while. The third round of assessment will begin tomorrow!"

Hong zhizhu glanced around. With the Dean of Qifeng as an example, who would dare to say that they still had an opinion at this time? were they out of their minds?

There was silence!

Hong zhizhu nodded in satisfaction and waved his hand to dismiss the crowd.

Lu sanjian, Tang Yungui, and Diao Longtian surrounded Lin Yi and asked him what he found after he left alone.

Naturally, Lin Yi wouldn't say that he'd just take the Scarlet Flame hundred refined fruits that could cause the dark Demon beasts to go berserk-the kind that could even wipe out the entire pot! He wouldn't even leave a single drop of soup for them!

He was just bullshitting when Hong zhizhu walked over and cupped his fists at Lin Yi, "Dean Sima, you've ranked first again today, and you've even pulled apart such a huge distance. I must congratulate you!"

"As long as there are no major mistakes in the third round of the assessment, it's very easy to maintain the status quo. I'll just wish Dean Sima in advance to continue to advance triumphantly tomorrow!"

Hong zhizhu came over just to get on Lin Yi's good side-he had to make this blessing even better.

Seeing that no one was around, Hong zhizhu pretended that it was a normal conversation and said seriously, ""There's no need to prepare anything for the third round of questions. Dean Sima, you can just go back and have a good rest."

"The third round of the examination is to assess one's actual alchemy standard. For Dean Sima, this is definitely a walk in the park. This year, under the leadership of Dean Sima, the Fuyao Alchemy School has really shocked the world!"

Was this a pill refining competition?

If he were to refine the pill on the spot ... He might not win!

He didn't know if the automatic furnace in the center was working, but he couldn't make anything higher than Mystic first level!

They were all alchemy grandmasters, and if they really wanted to compete, they couldn't just make Mystic first level pills-this had already exceeded the upper limit of the central automatic furnace, so what should they do?

Lin Yi smiled at Hong zhizhu as he thought about whether he'd be able to maintain his top spot if he gave up on the third round.

Right now, the total score of the Fuyao apothecary school was over 2400 points, while the Qingshan apothecary school was over 1800 points. There was a difference of over 600 points.

As for the third place, it was far from it. There was a difference of 2000 points, so it should be impossible to catch up.

As for Lu sanjian ... If he could surpass the Fuyao apothecary school, then so be it. No matter what, they were still allies, so it wouldn't be a problem!

Even if Lu sanjian had the chance to overtake Fuyao, Lin Yi didn't think that he would want it.

Old Lu had been looking for opportunities to do Lin Yi favors, but he'd been ruined by Lin Yi's favors again and again.

If Lin Yi gave up on the third round, he'd give up as well, even if the people behind him caught up!

After exchanging a few more words with Hong zhizhu, Lin Yi cupped his hands and left, ""The past three days have been quite tiring, so we'll go back and rest! If we can successfully finish tomorrow, I'll definitely invite vice head Hong to come and have a drink with us!"

"It's impolite to refuse, and I'm ashamed to accept it! Then it's a deal!"

Hong zhizhu smiled sincerely, ""Tomorrow, this seat will definitely ask headmaster Sima for a cup of wine to drink to celebrate Fuyao pill refining school's victory! If Dean Sima and Dean Lu aren't in a hurry to go back, then I'll be the host the day after tomorrow!"

This was a rare opportunity to get closer to him, so Hong zhizhu agreed without hesitation. He even used this as an excuse to set a date for his return.

As time went by, everyone's relationship would naturally become closer!

Lin Yi didn't reject and left with his men after a smile.

After returning to the station, Lin Yi told the mentors and students to do whatever they wanted, as long as they didn't cause trouble. He set up a concealment and defense complex formation, took out the nine-story Pagoda, and plunged in.

After adjusting the flow of time, Lin Yi took out the Scarlet Flame hundred refined fruit impatiently!

The short exchange with the black-robed young man made Lin Yi realize that he wasn't strong enough!

If he didn't have the help of his divine sense and pill fire vortex, plant attribute, super butterfly micro-step, and other means, he would have died more than a hundred times in that battle!

Fortunately, it was all worth it. With the Scarlet Flame hundred-refined fruit in his hands, Lin Yi couldn't wait to increase his strength!

Originally, this kind of natural treasure would be the best for alchemy, as it could maximize its effects to the extreme. However, the Scarlet Flame hundred-refined fruit was too rare. Not to mention the rarity of the pill formula, the supplementary materials used to make the medicine were also precious items of similar levels.

Where was Lin Yi supposed to find it in such a short time?

These were not things that could be bought with money, they were all things that could only be encountered but not sought!

Helplessly, he could only eat it raw!

"You've really considered it? The Scarlet Flame hundred refined fruit is a good thing. It's a bit of a waste to just swallow it like this!"

The damn thing naturally understood what Lin Yi was thinking, but it still stuck its head out and said, ""Just eating them one by one will form a resistance. The first pill's effect is the strongest, but by the time the ninth pill comes, it might not even have 1% of the effect of the first pill! Unless you want to take a risk!"

If he wanted to use most of the medicinal effects, he couldn't take them one by one, but he had to swallow all nine at once!

The damn thing knew that Lin Yi would choose this, and Lin Yi knew that this was the only choice he had!

If he wanted to greatly increase his body tempering level in a short period of time, he could only take risks!

Chapter 8404

He was risking his body being completely crushed!

"Senior ghost, I know what I'm doing. You should also know that I know what I'm doing!"

Lin Yi's face was serious-it'd be best to only eat one for fear of danger. It'd be a waste to eat a second one.

Only by swallowing all nine at once could he guarantee that the majority of the medicinal effects of the nine pills would erupt!

The black-robed young man wanted to take all nine Scarlet Flame hundred-refined fruits for himself because of this idea.

One or two pills would help him improve, but he would not be able to be reborn.

"You don't have to be so radical. After reconstructing your physical body, your body's potential is endless. If you follow the prescribed order, you can also slowly cultivate!"

The damn thing was still trying to persuade Lin Yi, but he still hoped that Lin Yi could persist on taking the nine Crimson flame hundred refined fruits.

It was just as he said-Lin Yi's new body had endless potential, and he could become a super Master if he trained slowly, but was this training really suitable for Lin Yi?

The fragrance of plum blossoms came from the bitter cold, and the edge of a sword was sharpened!

Perhaps this kind of risk was more worthy of Lin Yi's new body!

However, it was so dangerous ... It was necessary to persuade him!

Lin Yi had already made up his mind, not to mention the thing's dilemma.

When they first arrived at the sub-Island, the surrounding martial strength was very low, so they didn't feel anything wrong, but slowly, something was wrong!

The opponents he encountered were getting stronger and stronger. There were as many sea split stage cultivators as there were dogs, and there was no need to even mention the darkness demon beast.

The black-robed youth did not know what kind of magical beast his original form was, but his strength was truly frightening!

He wasn't in the heaven breaking stage yet, but he wasn't far from it. If he'd wanted to kill Lin Yi back then, Lin Yi might not have been able to escape in one piece.

"Senior ghost, don't worry! You also said that my body's potential is endless, so I think there won't be any problems with the Scarlet Flame hundred-refined fruit's advancement!"

Lin Yi comforted the ghost, but at the same time, he was comforting himself.

His new body was almost perfect, so he could naturally withstand even greater pressure. If he consumed nine Scarlet Flame hundred-refined fruits at the same time, he would have a greater chance of success!

"Alright, then you can try. At most, you can move around in the state of the Sorcerer spirit body and then reconstruct your body again!"

The ghost finally stopped, but Lin Yi couldn't help but roll his eyes ... Master ghost, can't you just hope for the best?

Lin Yi didn't want to waste any more time on this. He took a deep breath and put the nine fruits into his mouth.

Lin Yi's face turned round instantly!

Fortunately, this kind of spirit fruit melted in the mouth and did not need to be chewed. Otherwise, it would not be easy to swallow it.

The nine Crimson flame hundred refined fruits turned into a ball of fire that could burn the heavens and earth, instantly igniting Lin Yi's meridians.

From the outside, Lin Yi looked like a well-cooked shrimp, turning red in the blink of an eye and steaming ...

Lin Yi's face twisted-he couldn't stand the sudden burst of pain!

Lin Yi couldn't help but cry out in pain, his body bent over as he knelt on one knee.

A mouthful of blood spurted out of Lin Yi's mouth, but it evaporated into red mist in the air before it could even touch the ground.

"Hold on! Don't lose consciousness, and don't Dodge!"

The demonic thing grumbled. He'd never seen someone eat nine Scarlet Flame hundred refined fruits at the same time before, and could only rely on his experience to guide Lin Yi.

Normally, the sudden violent pain at the beginning of the consumption would be the first hurdle. Most people would probably be crushed on this first hurdle!

As long as he could get through the first obstacle, he would be halfway to success!

And the other pass was the last wave of medicinal power forging the body, which could be called cleansing the marrow and meridians, shedding one's body and changing one's bones!

The level of pain at this juncture would definitely not be inferior to the beginning, or even be greater.

At that time, the user would basically be exhausted and would have slightly adapted to the slow rhythm. If it suddenly erupted again, it would definitely be a super strong crisis!

Lin Yi grunted as a response to the thing. He adjusted his body and sat on the ground instead of kneeling. He crossed his legs and looked like he was training.

Lin Yi felt like he was in hell, every muscle, every vein, and every bone in his body was being trained.

There was even a moment when Lin Yi felt as if his bones had been crushed into pieces!

As expected of the Scarlet Flame hundred refined fruit!

After swallowing all nine at once, he was no longer undergoing the hundred refinement, but the thousand and ten thousand refinement!

The ghostly thing looked at Lin Yi nervously, but there was nothing it could do to help. It didn't even dare to get close to Lin Yi for fear of affecting him negatively.

"That's too much! It's still too much!"

The ghostly thing looked at Lin Yi's shaking body, his skin all bleeding and evaporating, and couldn't help but Mutter, ""Kid, you must hold on! If I fail, it won't be easy to rebuild my body again ..."

The purple mist sinful Lotus was one of them, and the pill-making process was another!

Even if he could find a new purple mist evil Lotus, where was he going to find Zhang Liju to make the pill?

Lin Yi straightened his body as if he'd heard a ghost's mumble. He still looked like he was in pain, but he gritted his teeth and didn't make a sound.

Time passed by slowly-luckily, time passed even faster in the nine-story Pagoda. Lin Yi would've missed the third Test if he were in the outside world, and he'd have to give up.

The damn thing had been paying close attention to Lin Yi's condition, and the bones and muscles all over his body that were bubbling like boiling water were now slowly calming down.

This was the sign of the absorption of the medicinal effect and the beginning of the soothing period!

But the damn thing still couldn't relax-Lin Yi's body level was skyrocketing, but he still hadn't reached the most dangerous point yet!

Finally, the moment of ending after the period of peace had arrived!

Lin Yi's body suddenly swelled up like a balloon!

His entire body was stretched to the limit, and his skin glowed with a blood-red crystal luster, as if it would explode at the slightest touch.

Just as the ghostly thing thought that Lin Yi would continue to expand, the spherical Lin Yi suddenly sunk in a large part, as if an invisible hammer had slammed into the air. No, it wasn't just once!

After the first dent, the other parts of his body started to sink in as well. It was as if there were invisible hammers hammering every part of his body from all directions.

The demonic thing's expression was grave. This was the first time he had seen the actual effect of the Scarlet Flame hundred-refined fruit. He had never imagined such a strange scene before!

Chapter 8405

If it was said that the internal fine parts had been repeatedly tempered, then now it was a large area of heavy hammer forging on the outside!

Under such a violent blow, it was impossible not to be Reborn!

Fortunately, the whole process didn't last more than twenty seconds, and Lin Yi quickly returned to his human form, exhausted and on the verge of death.

His clothes were in tatters, but his body was covered in a thick layer of blood scabs, like armor.

"Are you still alive? If you're alive, make a squeak!"

The demonic thing relaxed-he could tell if Lin Yi was dead or not, and so he teased him more!

Lin Yi laughed, and the scabs on his face cracked a little, falling off with a "squeak" that wasn't too loud.

The demonic thing immediately smiled. It was very happy to be naughty for a while. Since it could be naughty, it was naturally fine!

"What a troublesome kid! It's really embarrassing to be in such a sorry state, this old man can't be bothered to look! Let's go back!"

A smile appeared on the demonic being's face, and it feigned nonchalance as it returned to the Jade space.

He didn't want Lin Yi to see how worried he was, so he wanted to laugh at Lin Yi before he left.

Lin Yi's heart was warm, but he didn't want to admit defeat."In what way? This was a complete transformation! I'm not even willing to see it even if you want to!"

The ghostly thing had already returned to the Jade space, naturally ignoring Lin Yi's useless roar.

Lin Yi chuckled to himself as he felt a huge amount of energy slowly awakening in his body. His muscles twitched, and he jumped up easily.

The armor-like dried blood scabs instantly fell apart and flew in all directions with a powerful impact. The skin under the blood scabs was crystal clear and glowed with a faint red light, like the most precious ruby.

A new set of clothes quickly covered his body. Lin Yi raised his palm and turned it around in front of his eyes for a while, feeling a strong sense of power.

He didn't need genuine Qi. His physical strength alone was enough to fight against ordinary cultivators at the sea splitting stage!

The demonic blade appeared in Lin Yi's right hand, a black light coming out of its sheath. He slashed his left arm!

The sharp demonic blade couldn't even leave a mark on Lin Yi's skin without any elemental Qi!

Strong!

The Scarlet Flame hundred-refined fruit really lived up to its name. Although Lin Yi's body refining level stopped at the great circle of earth-splitting, his strength and defense were no less than a normal sea-splitting cultivator.

If he were to meet that black-robed young man again, Lin Yi was confident ... It might be a little difficult to win, but it would be impossible for the black-robed young man to win so easily.

With this body combined with the spiritual awareness attack skill, he could at least stand in an undefeatable place!

A black light bloomed, and Lin Yi used his sword skills to his heart's content, familiarizing himself with and testing his new power. After getting used to it, the power multiplied!

Lin Yi had been worried that the nine-in-one explosive effect of the Scarlet Flame hundred-refined fruit would leave some hidden dangers in his body.

However, the facts proved that he was overthinking it!

If one were to look inside with their divine sense, they would be able to see that their entire body had a kind of crystal clear feeling. If one could say that their body was close to perfection before, then it was one step closer to perfection now.

His training potential wasn't used up either-it might not be easy to understand, but for example, Lin Yi's strength was ten, and his potential was a hundred. That was the body's limit, and he couldn't break through after reaching it.

Normally, when one cultivated to 50 points, it would consume the body's potential. The potential that was originally left with 90 points was reduced to 40 points.

The Scarlet Flame hundred-refined fruit raised Lin Yi's strength to fifty, but it didn't consume his potential. It also raised his body's upper limit, bringing his potential to one hundred and forty.

That was the general idea-Lin Yi couldn't use the numbers to understand the upper limit, but he could feel the changes!

Excellent!

Lin Yi put away his sword and couldn't help but let out a long howl.

This time, he had risked his life to snatch the Scarlet Flame hundred-refined fruits, and he had also taken the risk of losing his physical body by consuming nine Scarlet Flame hundred-refined fruits at the same time. At this moment, it was all worth it!

Cultivation was a path that went against the heavens. If one wanted stability, even if one's strength increased, one would only be a weakling!

Why was Lin Yi able to fight people of a higher level? It was because of the countless life and death experiences!

The damn thing smiled in the Jade space as well-he didn't say it out loud, but he was still praising Lin Yi in his heart!

It was only after midnight when they left the nine-story glazed Pagoda.

The flow of time in the nine-story glazed Pagoda was a great help. If he were outside, he would need at least three to five days to digest the nine-in-one Crimson flame hundred refined fruit.

Not to mention the magnitude of the commotion, after three to five days, it was estimated that those Academies who came to participate in the assessment would have already flown thousands of miles on the way back.

Lin Yi's excitement had calmed down, so he put away the nine-story Pagoda and the formation calmly and slept for a while, waiting for Lu sanjian to wake him up.

"Morning ... Eh, Dean Sima, you look very good. You're very different from yesterday!"

Lu sanjian noticed the difference the moment he saw Lin Yi. Fortunately, Lin Yi's new body was still very tender and didn't have the feeling of shedding. It was just a little more transparent and radiant.

"Haha, maybe you slept well last night. After all, you've been working for three days. You're in a completely different state than you were yesterday. I see that you're glowing too, Dean Lu!" The man said.

Lin Yi said with a smile-his strength level wouldn't be revealed before the fight, anyway.

Lu sanjian felt that it made sense, so he didn't probe further. After all, what could have happened in one night?

Even if Lin Yi revealed his strength now, Lu sanjian wouldn't suspect anything. He'd only think that Lin Yi's ability to hide his strength was superb, and that he could reveal whatever level he wanted to.

"It's about time, Dean Sima, shall we go over?"

Lu sanjian wanted to go to the third Test with Lin Yi, so Lin Yi naturally wouldn't object.

There was still nothing for the students to do today. After giving Tang Yungui and the others a few instructions, he left the station with the two instructors and Lu sanjian.

He'd already made up his mind on the way here-if the third round was a competition, he'd either make something if he could, or give up if he couldn't.

He'd already reached the peak of earth split, but Lin Yi still wasn't confident in making Mystic second level and above pills.

No matter how rich his theoretical knowledge was, his practical skills were still too weak.

By the time they arrived, the other Academies had already arrived.

Chapter 8406 Great General

Qi Feng's people all looked at Lin Yi with hostility, and the others didn't look happy either.

The scores of the Fuyao apothecary school and the Qingshan apothecary school were simply too high, and the other schools that were catching up were already starting to despair.

If they knew that it was Lin Yi who saved them from the dark beasts, they might have changed their attitude a little. Unfortunately, they didn't know, so they couldn't help but be jealous.

Lin Yi didn't mind at all-you guys can do whatever you want!

After a while, Hong zhizhu, Wei zhentian, and the new supervisor came on stage.

In addition to these three people, there was a thin old man in front of them. It was obvious that his status was higher than the three of them.

Lin Yi found it strange-other than the first hall Master, was there anyone else with a higher status than Hong zhizhu?

What was the background of this old man?

The four people on the stage stood still. Hong zhizhu took half a step forward and stood beside the old man."Today is the final round of the Academy's assessment. It is also the moment that will decide the fate of all the academies!"

"Before we begin, let me introduce Sir Jin botian, who is standing beside me. Sir Jin is the vice-principal of the starsource continent's inspection department. This time, he has come to our Wutong continent not only to deliver the third round's examination questions, but also for another important matter. This will be announced by Sir Jin personally later. Everyone, please welcome Sir Jin to guide us."

The people below gave him face and welcomed him warmly. Jin potian's face revealed a little smile and he nodded reservedly to the people below.

"Dean Lu, is the Vice Dean of the starsource continent's inspection department very impressive?"

This was the first time Lin Yi had heard of the Wutong continent, let alone the Xingyuan continent!

Lin Yi whispered to Lu sanjian as everyone welcomed him.

Lu sanjian was stunned for a moment, and couldn't help but smile bitterly. Boss, you're a dark gold level secret agent!

Don't you know such basic knowledge?

Since Lin Yi asked, he didn't know. Lu sanjian didn't dare to say it out loud, so he explained it to Lin Yi briefly.

"Dean Sima, the sub-Island we're on is a collective name for an extremely large area. There are several groups of islands that form the entire sub-Island! Each archipelago is divided into a number of islands, and the starsource continent is a continent on one of the islands. "

"And every continent is divided into several continents. Our Wutong continent is one of the continents under the jurisdiction of the starsource continent. The starsource continent's martial Alliance is our immediate superior, and the inspection department is the most powerful Department in the martial Alliance. Although it is placed on the entire sub-Island, the vice-director of the starsource continent's inspection department is not worth mentioning."

"But here, they're the top bosses! In the past years, even if there were people who came, it would only be an ordinary inspector from the inspection department. I've never seen a Big Shot of this level come. I wonder what's the big deal?"

"Dean Lu, is the starsource continent a continent Island? How many continents are there like ours? Why isn't it usually called the Wutong great continent, but directly referred to as a great continent?"

Lu sanjian scratched his head and laughed awkwardly after Lin Yi asked a few questions.

"I'm sorry, Dean Sima. I seem to have missed something. The continent Island where our star source continent is located is called the continent Island of The Burning Sky Star area. I don't think our star source continent is the only one."

"As for the specifics, this old master isn't too sure either. It's really too far away from us, so I only know a little! Similarly, I don't know much about the other continents in our starsource continent. "

"To be honest, this old man may not be able to travel all the way to our Wutong continent in his lifetime. I've never thought of going to other continents! Most of the people here are like that, so they usually say "great continent" because they think that "great continent" is the limit of our knowledge. "

In fact, there was a vast world beyond the continent, but no one was bothered to think about it.

Lin Yi nodded, understanding the situation.

Just like in the secular world, even if they were in the same country, people from different cities might be familiar with their own cities, but for other cities, they would at most have heard of their names. They might not know about the districts and counties that were one grade lower.

On a larger scale, they could only name a few countries in foreign countries, not all of them, let alone the cities in those countries.

In the end, he still didn't care!

This place was called the continent Island of The Burning Sky Star area. Could the mysterious star area also be a continent Island?

Lin Yi suddenly thought of this-the full name of the mysterious Starfield might be The Mysterious Island!

Perhaps the mysterious star area was in the area of the sub Island. However, the sub Island was so vast that they didn't even know how many islands it had. Even if there were islands, it would be hard to find them.

Thinking about it, he was really speechless. When he first came to the sub-Island, he thought that it was a small place in the corner. He didn't expect it to be so huge.

He had spent so much time and effort to get into the martial Alliance, but now he knew that the great continent was just a small place ...

Thinking about the geographical map system of the Nangong family, which was called the geographical map system of the sub Island ... In fact, it only covered the area of a conferred Empire!

Lin Yi felt like a country bumpkin who'd never seen the world ...

However, the geographical map was also a treasure. It had been of great help in the past, but it was useless later on.

These were all just rumors, and Lin Yi tossed them to the back of his mind after thinking about it for a while. He'd think of a way to investigate it later.

On the stage, Hong zhizhu had already started to announce the questions for the third round.

"Here is an incomplete ancient pill formula that Vice Principal Jin brought over from the star source continent. It will also be the topic of your final assessment. As long as you can perfect this pill formula, you will be able to obtain a large number of points!"

Hong zhizhu showed the original recipe, and then a huge piece of cloth rose up. On it was a copy of the incomplete recipe.

"Everyone must do your best to display your alchemy skills! Because of the huge difference in points between the outstanding Academies in the first two rounds, in order to give everyone some hope, the points obtained from this pill formula will have a chance to surpass the current number one!"

"The first Academy to complete the pill recipe correctly will receive a huge reward of 3000 points! The second person to complete the mission would also be rewarded with 2000 points! The third to complete is 1500 points!"

"From the fourth one onwards, all of them only have a fixed 500 points! Therefore, you all have to use all your strength and don't hold back. Whether you can turn the tables will depend on this!"

Hong zhizhu's words were very provocative, especially with the promised large number of points. They really had a chance to surpass the Fuyao apothecary school in one fell swoop!

Chapter 8407

The current third place was about 2000 points behind the Fuyao apothecary school, and the Qi Feng principal and the others had not reaped a single harvest in the second round, so they were only less than 2400 points behind the Fuyao apothecary school!

So as long as they could get first place, they had a good chance of overtaking them!

Of course, the prerequisite was that the Fuyao apothecary school and Qingshan apothecary school couldn't enter the top three!

Even if the Fuyao apothecary school were to obtain third place, it would be enough to make the other schools despair!

Seeing that the atmosphere was getting better, Hong zhizhu nodded in satisfaction and gave Lin Yi a confident look.

What he meant was that such a small matter would definitely not stump the Lord dark emissary. It would give the others a little hope and also maintain the meaning of the last round of assessment!

Otherwise, if the first and second place were already decided, what was the point of the assessment!

Lin Yi's lips twitched. You sure have faith in me!

Fortunately, he was not refining the pill on the spot. He only had to complete the incomplete ancient pill recipe, so this was not difficult!

If he were to concoct the pill on the spot, there was a 99% chance that he'd screw up, and he'd have to think about how to clean up the scene!

"This is the situation for the third round of the assessment. The rules are not complicated at all. Today, when the sun sets in the West, the assessment will end. Whoever can successfully complete the assessment will be able to obtain points. If they exceed the time limit, they will be considered to have failed!"

Hong zhizhu took half a step back and turned around to make it more obvious to Jin botian. ""Next, let's invite Vice Principal Jin to say a few words!"

Jin botian's thin face was expressionless as he coldly swept his gaze across the elites of the various Academies below the stage.

"As the Deputy Director of the inspection department of the starsource continent, I usually don't come to the continent to participate in this level of assessment. In the past, only ordinary inspectors came to take a look."

"Unfortunately, the patrol inspector died in the line of duty this year. I need to choose a suitable person from the academies in the various continents to enter the patrol Institute and take on the position of patrol inspector."

"That's why I'm just sending the exam questions here. The main purpose is to select an inspector. This inspector will represent the starsource continent's inspection Institute and inspect the situation of all the academies on the continents under the continent's jurisdiction!"

"All of you are within the scope of the examination, but the results of this examination have nothing to do with the selection of an inspector! I'm only here to take a look and at most use it as a reference!"

Lin Yi's heart skipped a beat. An inspector from the starsource continent's inspection department?

This was a pretty good position. Not only could he enter the level of the starsource continent, but he could also patrol the other continents. It was simply too awesome!

It seemed that if there was a chance, he would have to fight for it!

"The selection is not only limited to the Wutong continent. I will also go to other continents. When there are suitable candidates, I will inform them to go to the inspection department of the starsource continent. Finally, the decision will be made in the inspection department."

"It's enough for you to know about this first. Let's not mention it for the time being. Next, you should continue with your assessment! This ancient pill recipe is actually not that difficult. I believe that all of you can complete it, so I'll stop here!"

After Jin botian finished speaking, he waved his hand casually and announced the start of the assessment without giving Hong zhizhu or Wei zhentian a chance to speak.

Lin Yi smiled faintly. He'd found the incomplete recipe familiar the moment he'd seen it.

The ancient recipe was actually recorded in a book, and this book was Lin Yi's cheapskate master Zhang Liju's notes that were passed around on the sub Island.

Strictly speaking, this wasn't even a book. It was just a few pages of notes that were mixed in with a book that had nothing to do with pills!

If Lin Yi didn't like to scan the entire library with his spirit sense, he wouldn't be able to find these pages.

In the entire sub-Island, Lin Yi was probably the only one who knew that it was written by Zhang Liju without his name. Other than Lin Yi who had something to compare, no one else would know that it was the notes of the pill God.

It didn't matter if it was Zhang Liju's or if he copied the recipe, the test wasn't difficult at all.

In fact, without the complete recipe, it wouldn't be a problem for Lin Yi to complete it with his abilities. He just needed to spend more time.

"Dean Lu, I know the recipe. Please remember it!"

Lin Yi had already acknowledged Lu sanjian as an ally, and he wouldn't forget to give him a hand if he had the chance. "As long as we get into the top three, we'll be in the top two."

Lin Yi used his spirit sense to set up a barrier as he spoke, so he wasn't afraid of anyone hearing him.

Lu sanjian was overjoyed. He looked around carefully and nodded to Lin Yi after making sure no one was looking.

At the same time. Lu sanjian was still rejoicing in his heart-it was all thanks to Lin Yi's support that he was able to pass the test this time. Otherwise, even if Qingshan Alchemy School wasn't at the bottom, it would only be somewhere in the middle or lower range. How could they have such glory?

Lin Yi started writing the recipe himself, reading it out to Lu sanjian as he wrote. The test had just started, and he wasn't worried that someone would finish it first. Lin Yi was very relaxed and didn't seem to be in a hurry at all.

"I'm done!"

Lin Yi finished the last word and lifted the barrier, signaling that he'd completed the test.

It had only been two minutes since the battle began.

The most shocking thing was that when Lin Yi raised his hand, Qi Feng also raised his hand to say that he finished. From the time point of view, the two were almost at the same time!

Lin Yi blinked-someone knew about this?

It didn't make sense. If other alchemists had seen the notes, they would have regarded them as treasures. How could they have left them in such an ordinary book?

Lu sanjian was a little confused as well-he wrote a bit slower than Lin Yi, so he raised his hand a few seconds later?

He didn't dare fight for first place with Lin Yi-the difference between them wasn't that big, and if he did, he'd lose first place in total.

"Eh, there are actually three Academies that have completed it so quickly? This is really beyond my expectations!"

Jin botian's emotionless face finally revealed a trace of surprise!

He naturally knew what level the pill formulas he had brought were at. Although they were ancient pill formulas, it was not difficult to complete them.

A Grandmaster Alchemist would definitely be able to make it in a day's time, and a diamond Alchemist would also have a chance to do so. However, to make it so fast ... It was really rare, unless the person had known the recipe from the start!

In two to three minutes, only someone who knew the pill recipe could finish writing the complete pill recipe!

"I said it first! I'm the first one!"

Dean Qi Feng's raised hand stretched out again, and with a serious expression, he said, ""Sima Yi is after me. He can only be ranked second!"

Lin Yi's lips twitched. So what if he gave first place to this guy?

The total score was still the Fuyao apothecary school crushing his Qi peak apothecary school.

Even if the Green Mountain apothecary school placed third, it would be more than enough to suppress the Qi peak apothecary school, so there was no difference between first and second place.

Chapter 8408

But that was Lin Yi's opinion, Dean Qi Feng didn't think so.

He'd be first in the last round, and even if he lost in total, he'd still have something to say-at least he'd be able to beat Lin Yi and Lu sanjian in the third round.

"Vice President Wei, what do you think?"

Hong zhizhu was definitely on Lin Yi's side, but now that only Dean Qi Feng was fighting for first place, Lin Yi didn't say anything. He didn't know if it was disdain or something.

And so, Hong zhizhu couldn't just say that Lin Yi was in the lead-he could only leave the problem to Wei zhentian to handle, so that he'd be able to react in time.

For example, if Wei zhentian said that Lin Yi was faster, he could agree. If Wei zhentian said that Lin Yi was a beat slower, he could object. He wasn't afraid of arguing, as it was easier to express his opinion with an argument.

Wei zhentian furrowed his brows.

He knew that Lin Yi wasn't ordinary, and he didn't want to offend him. As for Dean Qi Feng, he was just a stray dog, why should he care?

"President Hong, I feel that Sima Yi isn't slow either. The two of them should have completed it at the same time! Let's see their answer first! If it's exactly the same, we'll be tied for first place!"

Wei zhentian had the responsibility of judging, so he gave a relatively pertinent suggestion.

Lin Yi didn't mind and passed the recipe over.

Dean Qi Feng didn't want to be outdone, either, and followed closely behind Lin Yi.

When the two pill formulas were placed together, he compared them slightly. As expected, the difference was not big, with only one medicinal ingredient different.

However, it was this one ingredient that made the two pill formulas into two pills with different medicinal effects.

"Sima Yi doesn't understand the meaning of this pill formula at all. Mine is the correct one!"

Dean Qi Feng was still in his usual style. He rushed to make it clear that he was not wrong. "Therefore, I'm first in this third round of assessment!"

"Vice President Jin, what do you think?"

Wei zhentian passed the two pill formulas to Jin botian, and at the same time, threw the question to him.

Jin botian frowned slightly and said after looking at it,"It seems like Dean Qi Feng's pill formula is the correct one. I've seen other people complete their pill formulas before, and they should be the same as Dean Qi Feng."

Qi Feng's Dean was secretly overjoyed, feeling that Jin botian was supporting him. Not only would he be first in the third round, but he would also be able to soar even higher in the future.

Lin Yi didn't want to argue, but this recipe was in Liju's notes-he couldn't let Dean Qi Feng slander him like that.

"Deputy Dean Jin, I've seen this pill formula before. I wonder if it's the same for Qi Feng's Dean. However, there's definitely no problem with the origin of this pill formula!"

Lin Yi didn't want to waste time with Dean Qi Feng. He cupped his hands at Jin botian."My pill recipe came from the alchemy God's notes. Although the original is not in my hands, there is absolutely no problem with the verification of the pill recipe! Could it be that you all doubt the alchemy God's attainments in alchemy?"

The title of a pill God was quite intimidating-Lin Yi didn't know how his cheap master did it, but he'd heard legends of pill gods everywhere he'd been.

This was already very awesome!

For example, now that Lin Yi said it was the notes of the alchemy God, even the Dean of Qi Feng was speechless!

Arguing with an alchemy God ... Couldn't argue with him!

However, it seemed like he was unwilling to admit defeat just like that!

"You say it's the alchemy God's notes, so it's the alchemy God's notes? I even said that my pill recipe came from the notes of an alchemy God!"

After Dean Qi Feng calmed down, he began to look for an opportunity to refute. ""Not to mention that you don't have the original by your side. Even if you do have the so-called original, who can prove that it's the original?"

How many had he seen in the alchemy God's notes? If I don't admit it, what can you do to me?

"Ha ... There's no need for proof. The effect of the pill is the proof. Do you think your pill recipe can compare with mine?"

After Lin Yi saw Dean Qi Feng's recipe, he understood the idea behind it. It was only a difference in one ingredient, but the effects were completely different.

In fact, they couldn't even be compared together-it'd be bullying if they did. Lin Yi's recipe was naturally much better than Dean Qi Feng 's.

"There are many alchemy grandmasters here, and there are also many Diamond Grade alchemists. Everyone here has good eyesight and judgment, so when two pill formulas are placed together, there is no need to argue who is better!"

Although Lin Yi said that, other than Lu sanjian who was a die-hard fan, the others didn't really like Lin Yi.

In addition, they sympathized with the weak, so most of them actually hoped that Dean Qi Feng would win.

So when Lin Yi said that, other than Lu sanjian, no one else stood up to support him!

At this crucial moment, it was Hong zhizhu who spoke up to support Lin Yi,""That's true. Sima Yi's pill formula is slightly better. This time, the fu Yao apothecary school has won!"

This was the president of the alchemy Association, the true authority and the person in charge of the assessment this time. His words could not be taken back. The result was already set!

"It's true that the pill formula from the Fuyao apothecary school is superior. There are no objections to the results!"

Wei zhentian nodded in agreement and mentioned Lu sanjian, ""The pill formulas of the Qingshan apothecary school and the Fuyao apothecary school are the same. In terms of effectiveness, they are better than the Qifeng apothecary school, but the speed is slightly slower. As such, the Qingshan apothecary school and the Qifeng apothecary school are tied for second place!"

Lu sanjian didn't mind. It didn't matter whether they were in second or third place. After all, Qifeng Alchemy School was destined to be in third place.

Speaking of which, Lu sanjian was a little unhappy that someone like Dean Qi Feng had gotten third place in the total score. This kind of trash should be at the bottom!

He did not know what kind of dog shit luck this short and round had to know such a pill recipe!

Dean Sima had strength, and the short and round guy had dog shit luck. There was nothing wrong with that!

Dean Qi Feng wasn't happy about that-Lin Yi was just smiling and didn't have any special expression on his face, but in his eyes, Lin Yi looked smug and even disdainful. Dean Qi Feng's ability to imagine things was unparalleled.

In his anger, the shop assistant didn't care about anything anymore. Seeing that Jin botian didn't seem to care about Lin Yi, he made up his mind and went up to complain.

"Vice-Principal Jin, this lowly one wishes to report that Sima Yi of the Fuyao apothecary school has publicly killed the gold rank patrol envoy of the martial Alliance, he Shinan, because of a personal grudge. Everyone here is a witness!"

Dean Qi Feng brought this up again to attack Lin Yi.

Jin botian was the vice-director of the starsource continent's inspection department. He was the direct superior of all the inspectors under him. When he heard about he Shinan's matter, he would definitely not sit by and do nothing.

The martial Alliance's way of handling this matter was very strange, and Dean Qi Feng was a little uncertain, so he held back for the time being.

However, now that Jin botian had come, the Dean of Qi Feng felt that there was a chance to turn things around. It was not entirely because he was angry, but because he had the courage to do so. He still had a certain amount of consideration.

Chapter 8409

Jin botian's brows furrowed. Just as Dean Qi Feng had expected, he was the Deputy Dean of the starsource continent's inspection department. He was especially sensitive to the murder of a patrol.

"What's going on? When did this happen?"

Jin botian's cold eyes swept over Lin Yi, at the same time giving Hong zhizhu and Wei zhentian a meaningful look.

Wei zhentian lowered his head, not daring to meet Jin botian's eyes.

He was a little confused as to why the head Master and Hong zhizhu didn't punish Lin Yi, but he couldn't stand out now that Jin botian asked.

If you don't let me know, you'll have to bear the consequences. It has nothing to do with me!

"Vice Principal Jin, what is wrong with this matter ..."

Hong zhizhu quickly explained, his heart filled with bitterness. 'What does it have to do with me when you Immortals fight? Why must I be unlucky?

Before he could finish his sentence, Jin botian flicked his sleeves and said coldly, ""Don't speak first, you speak!"

Jin botian was referring to Qi Feng's Dean. Since this person was the one who had reported him, he must have listened to him more clearly.

Dean Qi Feng was overjoyed, and he quickly told him everything that had happened.

Of course, they were all speaking from his perspective and speaking to he bi, defaming Lin Yi while they were at it.

This incident had happened a few days ago, and there were witnesses in the audience. Although Dean Qi Feng was suspected of turning black into white, what he said couldn't be considered false. He had only scratched out the beginning and carried out a certain amount of misleading.

It was as if a male and female colleague were on a business trip and were staying in adjacent hotel rooms. Then, someone said that the two of them walked into a hotel together and went up to the same floor together. They fell asleep in the early hours of the morning, and the next morning, the two of them left the hotel together, talking and laughing.

Did I say something wrong?

That's right! It was all the truth!

However, when put together, everyone who heard it would have different thoughts.

Jin botian was the one who had a different opinion!

He'd been misled by Qi Feng's words, and already thought that Lin Yi was detestable!

Regardless of the reason, casually killing a gold rank patrol envoy was a crime!

And this crime had yet to be punished!

"Go, call the Great Hall Master of the martial Alliance of the Wutong continent! This Lord would like to ask, with such a vicious case under his jurisdiction, how can he still sit still!"

Jin botian narrowed his eyes at Lin Yi, his gaze turning sharp.

After the order was given, someone naturally went to find the first hall Master. Hong zhizhu was in a difficult position!

He was just standing there, but Jin botian didn't even ask for his opinion. It was obvious that he didn't trust him!

This is troublesome! If this continued, he, the Vice Hall Master, would be out of luck!

"Vice Principal Jin, that's not the case. That person colluded with he bi that and cheated during the assessment. That's why his words are biased ..."

Hong zhizhu wasn't just defending Lin Yi this time-he wanted to save himself.

However, as soon as he spoke, Jin botian's cold eyes turned to him.

"Shut up!"

Jin botian chided in a low voice, expressing his dissatisfaction.

Alright!

Hong zhizhu was terrified!

He immediately turned into an obedient baby with his head lowered and hands down.

He had no choice. He was the Vice President of the starsource continent's inspection department!

They had too much power. Be it the martial League or the Academy, they were all under the supervision of the inspection department.

This is a big leader. If he tells you to shut up, you'd better shut up immediately. It's a sin to say anything more.

Lin Yi frowned and was about to say something when Jin botian coldly retorted, "You shut up too. When this Lord wants to ask you something, you naturally have the time to speak. For now, you'd better keep quiet!"

This was F * cking arrogant to the extreme!

Lin Yi's lips twitched, but he didn't say anything.

After a short while, the first hall Master rushed over. As soon as he arrived, he lowered his attitude and cupped his hands in greeting, ""Vice Principal Jin, I'm sorry for the delay. I was busy with some official business and couldn't make it. I'm really sorry!"

"Hmph! You're really busy with work! You're so busy that you can even indulge a murderer!"

Jin botian laughed coldly. He had already determined the nature of he Shinan's case!

No matter what the reason was, Lin Yi had killed an inspector, and that was a crime!

He definitely couldn't be let off easily!

When the first hall Master arrived, he already knew why he had to come, so he wasn't surprised. He quickly approached Jin botian and said in a low voice, ""Deputy Dean Jin, you've misunderstood! There's an inside story to this matter, and it's not that simple. Daren, please step aside to talk!"

"There's nothing that can't be said to people! Why was he hiding? This was the cheating of love! This Lord thinks that your first hall Master position is about to come to an end!"

Jin botian did not give face at all. He even raised his voice and berated the hall Master ruthlessly.

The first hall master's face darkened and he cursed in his heart.

F * ck your love!

I would like to deal with him, but he's a dark gold level secret envoy, who's going to deal with him!

Unfortunately, this was his superior, so he had to hold back his anger. He even had to squeeze out a smile and put on an air of self-defense. He went up and said, "Deputy Director Jin, this matter is not a fraud, but it's really special, and it's not convenient to say it in front of others!"

Seeing that Jin botian was still unmoved, the first hall Master went all out and directly leaned into the other party's ear, not caring if Jin botian was happy or not.

"Sima Yi is a secret agent, a dark gold secret agent!"

Just these two sentences made Jin botian's body tremble slightly, and an inexplicable light flashed in his eyes.

A dark gold ranked dark emissary ...

He was indeed qualified to kill a gold-rank patrol envoy, especially when the gold-rank patrol envoy was in the wrong!

Even if they were not of the same system, it was not as big as a reason.

Just like now, Jin botian was the vice-director of the starsource continent's inspection department. If he wanted to deal with a dark gold level agent like Lin Yi, he could do it as long as he had a good reason.

The first hall Master did say it, but he didn't think Lin Yi's situation would get any better. Jin botian was too aggressive just now, and now he wanted the big boss to bow down and admit his mistake?

Absolutely impossible!

How could the vice-director of the Xingyuan continent's inspection department apologize to a young man like Lin Yi?

So what if he was a dark gold level Dark Envoy? he had no control over the starsource continent's inspection Institute!

As expected.

"So what? Even if a gold rank patrol envoy is in the wrong, he can't just kill them. Just this point alone is enough for him to die!"

Jin botian squinted his eyes and sneered. There was an expression on his face, but it gave off a strange feeling. "Men, take down Sima Yi and throw him into the death row!"

Before he could finish his sentence, four guards appeared beside Jin botian like ghosts and cupped their fists in acknowledgment. Only one of them walked towards Lin Yi.

Lin Yi's heart skipped a beat, his hair standing on end.

He didn't expect Jin botian to be so decisive, and even more so, he didn't expect the guards by Jin botian's side to be so powerful!

He thought that after using the Scarlet Flame hundred refined fruit to level up his physique, Lin Yi wouldn't have to fear any threats anymore.

But he didn't think that a mere guard would make Lin Yi feel an explosive sense of danger!

Chapter 8410

This wasn't the F * cking sea splitting stage!

He was a legendary heaven breaking expert!

And it wasn't just one, but four heaven breaking cultivators!

When did heaven breaking cultivators become so common?!

"Brat, you're not my match. Surrender without a fight, or you'll suffer more. There's no need!"

The guard looked at Lin Yi expressionlessly and tried to persuade him, "I'm heavy-handed, if you don't surrender, all your bones might be broken. Consider it yourself!"

Lin Yi seriously considered it-he really hadn't fought against a heaven breaking expert yet, but if there was only one of them, he could give it a try. After his body was trained, he might be able to fight.

However, the other side had four heaven breaking guards, and Lin Yi didn't know Jin botian's strength, so he didn't dare to act rashly.

What's the use of barely killing a guard? it wasn't easy for him to rebuild his physical body, snatch the Scarlet Flame hundred-refined fruit, and raise his body to his current level. How could he be killed just like that?

"Alright, I'll surrender!"

Lin Yi put his hands together and extended them forward. "I didn't do anything wrong in this matter. Right and wrong are in the hearts of the people. I'm willing to cooperate with your investigation, but that doesn't mean that I've really admitted to my crime. You have to be clear about this."

Two fists couldn't fight four hands, and a man couldn't fight too many enemies. It was better to recognize the situation. Besides, Lin Yi surrendering didn't mean that he had accepted his fate.

He might not be as strong as these heaven breaking Masters in terms of combat, but Lin Yi's abilities in other aspects were still beyond their imagination.

For example, there really wasn't any death prison that could stop Lin Yi if he wanted to leave, and the sub island's formations didn't mean anything to him.

Even if the formation was effective, Lin Yi still had the Jade space, the shaman Spirit body, and the nine-story Pagoda. As long as he didn't die, he could go anywhere!

"You're still smart and didn't blindly seek death!"

The guard tried to persuade Lin Yi, but he didn't expect Lin Yi to give up. He froze when he saw Lin Yi's hand.

He was rubbing his fists and getting ready to fight. You told me to surrender ... Can't you be more unyielding?

"Dean Sima!"

Lu sanjian and the two teachers from the Fuyao apothecary school were extremely anxious. They wanted to step forward and plead for mercy, but they were glared at by the unhappy heaven breaking guard.

They were all alchemists with poor combat skills, and their levels were far inferior to the other party, not to mention their combat power.

Just this murderous look alone made them feel as if they had fallen into an ice cave, and their bodies trembled.

"Send Sima Yi to the death row. As for the other people from the Fuyao apothecary school ... We'll let them off for the time being!"

Jin botian glanced around coldly and left after the guards took Lin Yi away, not bothering with the first hall Master and the others.

The first hall Master was stunned. He thought that Jin botian would let the matter slide after he revealed his identity as a dark gold level secret agent!

He didn't expect that things wouldn't be like this, and instead, he directly attacked the secret agent!

What kind of approach was this?

However, on second thought, no matter what method he used, it was a good thing!

In any case, the pressure on him, the first hall Master, had disappeared all of a sudden.

The most important role of a dark gold level secret agent was to supervise him, the hall Master of the martial Alliance of the continent. However, he couldn't abolish it.

Jin botian capturing Lin Yi was definitely a good thing for the first hall Master, and he could be happy in his heart!

In contrast, Hong zhizhu was a little worried.

He wasn't just worried about Lin Yi, he was worried about himself as well!

Hong zhizhu was obviously biased towards Lin Yi in the test, and Jin botian was a fickle-minded person. He might really be dragged into this.

These two Hall Masters were happy and worried, each with their own thoughts. Neither of them could care about the aftermath of the Academy's assessment.

The third round had only just begun. Although three guilds had already completed it, it was still far from over.

The two of them waved their hands at Wei zhentian, indicating that he would be in charge of the assessment. Then, they left the place.

Wei zhentian accepted the mission expressionlessly. It didn't matter what happened, as long as he didn't get dragged into it.

After Hong zhizhu left, he immediately ordered his men to investigate Lin Yi's whereabouts.

After all, this was the Wutong continent. Jin botian's status was noble, but as the local tyrant, Hong zhizhu felt that it was absolutely not a problem for him to find out some information.

Unfortunately, reality was cruel. After he was sent to the death row, all of Lin Yi's information was blocked.

Under Jin botian's dominance, even a Dragon would have to coil up!

The death cell that Lin Yi was in was just a normal stone room. He didn't even know if this counted as a prison!

There were beds, tables, and chairs made of stone inside. If it was a death prison, the conditions were a little too good.

Jin botian's heaven breaking guards were all standing guard outside the stone room, so it would be very difficult for Lin Yi to escape unless he hid his body and used his Witcher spirit body.

As for the trap formations in the room, they weren't worth mentioning at all. Lin Yi could solve them in minutes.

"Hey, brothers, should I be waiting for death? Prisoners on death row should at least have a full meal before they die, right? Why don't you guys get me something to eat?"

Lin Yi wandered around the room a few times and got bored, so he shouted through the door.

It would be good if he could chat with these heaven breaking guards. He could at least get rid of some boring time.

However, the heaven breaking Masters were all very cold. They turned a deaf ear to Lin Yi's shout and left him in the stone room, not saying how to deal with him.

Jin botian hadn't decided what to do with Lin Yi yet, and he needed all the information on Lin Yi before he made a decision, so he asked the first hall Master to look it up.

Fortunately, the naduo martial Alliance had collected Lin Yi's information before and reported it to the martial Alliance, so it didn't take much effort.

The first hall Master sorted out the information and passed it to Jin botian. He also asked about the assessment.

"Vice Principal Jin, for this year's examination, the rankings for the first few places have already been confirmed. As for Sima Yi ... The Fuyao apothecary school that he represents, should we disqualify him?"

If they were to cancel the qualifications or points of the Fuyao apothecary school, the other schools would definitely be happy to see it happen!

The first hall Master didn't know how much Jin botian hated Lin Yi, so he wanted to know Jin botian's attitude.

Jin botian flipped through Lin Yi's information and waved his hand nonchalantly, "I won't interfere with the assessment. You decide for yourself! As long as we do things in the principle of fairness and justice, it's fine!"

"Sima Yi's mistake is his own personal matter, and has nothing to do with the Fuyao Alchemy School. In principle, we should not implicate the Fuyao Alchemy School. Of course, these are all matters that you have to worry about, and this seat will not interfere. Let's leave it at that!"

The corner of the first hall master's mouth twitched. "You've already said it to this point. What do you mean by not interfering or not asking? I don't believe you!"
