

Bodyguard 8421

Chapter 8421

zhang yiming was the only survivor of the discovery of the stronghold. even though he was seriously injured, he had to follow them into the underground devil's cave.

speed was the most important thing in war. if zhang yiming didn't lead the way, god knew how many detours they would have taken.

so zhang yiming couldn't go back to lie down and recuperate. he could only find a place to rest and wait for lin yi to bring people over.

lin yi was quick as well, and it didn't take long for him to reach the martial union branch and find the language of manifestations.

after a brief explanation of the situation, the language of monsters did not dare to delay. it immediately gathered the members of the assault team and prepared to head to the underground devil's den in a hurry.

ouyang changqing was the first to receive the news of lin yi's arrival in martial union, and he'd arranged for people to keep an eye on lin yi and report to him as soon as they found anything.

ouyang changqing was just thinking of a reason to make things difficult for lin yi and the language of the living things, and here came his chance.

so as soon as he got the news, ouyang changqing and a few of his trusted followers stopped lin yi and the language of monsters at the gate of martial league.

"vice hall leader hua, what are you doing? "although you are in charge of the combat association, don't you need to report to me, the first hall master, for you to mobilize a battle general so casually?"

to be honest, ouyang changqing was very angry about this matter!

lin yi ignored him, and ouyang changqing couldn't do anything about it. after all, lin yi was the direct supervisor of the martial alliance's central communication department!

but what is the language of the living things? you're just a vice hall master, how dare you ignore me, the first hall master?

previously, ouyang changqing had kept the intensive training and the gathering of information about the underground devil's den from him, the first hall master, so he didn't have the chance to flare up. this time, he still had to carry out the operation secretly, so he directly exploded at the main gate!

He didn't treat Ouyang Changqing as the first hall Master at all!

Before the first hall Master died, the monster language did not dare to do this. Everything had to be asked for instructions and reported!

"Could it be that you're treating the people from the combat Association as your servants?"

"I'm standing right here. If you don't explain yourself, don't even think about taking a single step out of the martial Alliance branch!"

Ouyang Changqing turned into a Tiger that blocked his way and directly attacked madly.

Lin Yi and the Beast transformation language could ignore him, but the normal generals were from the martial Alliance. They would hesitate when facing the first hall Master.

But Lin Yi didn't want to put the monster language in a difficult position, so he walked up to them with a cold face. "Ouyang Changqing, this is a war between humans and dark magical beasts! Time is of the essence. Don't get in our way!"

"When this matter is over, I will tell you the details if you want to know. Now, please go away! Otherwise, I have reason to suspect that you're in cahoots with the darkness demon beast, or that you're a spy that the darkness demon beast has planted in the human world!"

This was a serious accusation. Regardless of whether it was true or not, once this rumor spread, Ouyang Changqing's reputation would be ruined!

Therefore, Ouyang Changqing immediately flew into a rage. "Sima Yi, don't think that just because you're an insignificant manager, you can speak so arrogantly here. I'm the first hall Master of the naduo martial Alliance branch. How can you slander me like this?"

"Also! It's true that dealing with the darkness magical beasts is a big deal, but I'm not dead yet! It was not up to the language of the living things and Sima Yi to point fingers. Any action must be approved by this Lord before it can be carried out!"

"artifact language, i order you to disband your people immediately! and report everything truthfully to this lord. if there is anything that needs to be done, this lord will naturally consider it! do you understand?"

ouyang changqing issued an order without distinguishing between right and wrong.

although this guy didn't say what the consequences would be if he didn't obey him, his slightly sinister face was enough to explain everything.

if the monster language dared to refuse, it would not end well.

the artifact language was also furious. zhang yiming almost died in the underground devil's cave because of this information, and the warriors of the intelligence team who protected zhang yiming had really died in the underground devil's cave and could never come back!

it was this precious information that had been poured with blood that required a race against time to plan a response, but it had been delayed by that idiot ouyang changqing!

"get lost! who do you think you are! do you know how many of our brothers died in the underground devil cave while fighting against the darkness magical beasts? a piece of trash like you has the nerve to call yourself the first hall master of the martial alliance's branch? even a pig in this position would do better than you!"

the artifact language suddenly exploded.

he had never been a good-tempered person. it was just that he usually had enough reason to suppress his temper, but now that ouyang changqing had ignited it, he completely didn't care anymore!

Gah?

Ouyang Changqing was a little dumbfounded by the scolding. He was even wondering if the language of the living things said that a pig was better than a father.

Yes! This was basically saying that I'm not as good as a pig! This was really F * cking intolerable!

"Impudent! Are you trying to rebel? Disrespecting your superior and cursing at will, you must be tired of living!"

Ouyang Changqing came to his senses, and his face instantly turned livid.

This was the main entrance of the martial Alliance's branch!

In broad daylight, under the watchful eyes of the public, if he didn't have any reaction, he, Ouyang Changqing, wouldn't be able to be the first hall Master in the future!

"Men, take down the monster language! Throw him into jail for strict investigation! This person is plotting rebellion and must be severely punished!"

His initial anger was real, but as soon as he said that, Ouyang Changqing suddenly felt a little happy!

This was a ready-made excuse!

taking the opportunity to get rid of the language of monsters would be of great benefit to him in ruling the martial alliance branch in the future!

if sima yi couldn't help but jump out to stop them, then ouyang changqing wouldn't mind killing the two of them. that would be an even bigger surprise!

as for the darkness magical beasts, they were not within ouyang changqing's consideration.

the nodes in the forest of illusions were stable, and there were no major abnormalities in the underground devil's den. this was a good opportunity to clean up the internal affairs of the martial league branch!

the artifact language was furious. why were there always such despicable people in the world?

others were fighting for their country in front of him, but he was behind them!

this was the highest-ranking leader of the martial alliance branch. this was a first hall master!

"Get lost! Who dares to come up!"

Hua Yu's eyes were red with anger. She couldn't help but roar.

A few of Ouyang Changqing's trusted aides were about to step forward, but they were frightened by this thunderous shout.

Although the combat generals of the assault team were afraid of the Great Hall master's authority, they were all from the language of objects. No one would be afraid at this critical moment. They rushed in front of the language of objects like a tide and blocked their own President behind them.

The atmosphere at the entrance of the martial Alliance's branch instantly became tense.

The first hall Master Ouyang Changqing and the second hall Master, the language of the living things, were in a confrontation. Everyone who saw this was shocked. If they really started fighting, the nado conferred Empire would be in for a huge change!

Chapter 8422

Seeing this scene, Ouyang Changqing's face turned livid with anger. He laughed savagely. "Good, good, good! As expected, they were going to rebel! This Lord doesn't even need evidence anymore! Come, come, come, if you have the guts, then attack this Lord!"

Ouyang Changqing was sure that even if these battle generals defended the language of the living things, they would not dare to attack him, a Great Hall Master!

Otherwise, if the martial Alliance pursued this matter, both the beast language and Lin Yi would be dead!

Therefore, Ouyang Changqing stepped out of the crowd and firmly pressed forward step by step toward the combat generals of the assault team!

As expected, these battle generals were terrified. They did not dare to attack Ouyang Changqing. Every time Ouyang Changqing took a step closer, they would take a step back.

The veins on the beast's forehead were throbbing violently. Thinking of the Warriors who had been sacrificed in the underground Devil's Cave and the dark Demon beast's conspiracy being discovered, the beast couldn't take it anymore!

For the sake of humanity, and also for the sake of our dead brothers!

At this moment, the artifact language could not care less.

He pushed away the battle general in front of him and shouted, "Ouyang Changqing, you shameless villain! Since you want to obstruct our actions for the darkness magical beast, then I won't be polite today!"

"Artifact language, you've already dared to rebel. What's there to be polite about? Come, come, come, let this Lord see if you really dare to make a move on this Lord!"

To be honest, Ouyang Changqing was a little scared.

Seeing Hua Yu walk out of the battle generals aggressively, Ouyang Changqing had already stopped and forced himself not to retreat.

In terms of actual combat ability, the president of the combat Association, the monster language, was definitely much stronger than him, who was the first hall Master of the alchemy Association!

This was also what Ouyang Changqing was most criticized for after he became the first hall Master.

The Great Hall Master was not even as strong as the Vice Hall Master. What right did he have to lead the group of heroes?

"Brother Hua, don't complicate things. We have to take action as soon as possible!"

Lin Yi didn't really care about Ouyang Changqing's life, he just didn't want to waste time, "These few people can't stop us at all. Just ignore them and we'll be finished!"

Lin Yi was probably the only one who could calm down an enraged beast.

Although it was just two simple sentences, the language of the living things agreed.

That's right. Ouyang Changqing, this villain, can't stop so many of us. Why should we bother with him?

She could have just ignored him!

With that in mind, the artifact language let out a breath of turbid air, waved his hand, and said, ""Brother Sima is right, let's go!"

Ouyang Changqing relaxed. He didn't think that Lin Yi was the one who stopped the monster language. He thought that the monster language was still worried and used Lin Yi's words to get out of the situation.

That's good!

If you cower, I'll be tough. If you take a step back, I'll take a step forward!

it had to be said that there were such people in the world. your tolerance would be seen as a weakness by them!

after ouyang changqing confirmed his thoughts, his confidence immediately rose!

"do you think my words are nonsense? you're only a vice hall master! you must always remember your identity, you are only a vice hall master!"

ouyang changqing suddenly exploded.

the artifact language had just passed by him and wanted to ignore ouyang changqing and leave, but ouyang changqing seized the opportunity.

this guy didn't want to kill the language of the living things, and ouyang changqing didn't have the guts to do so. however, he had to vent his anger!

therefore, while the two of them were getting closer, ouyang changqing slapped the language of the living things several times!

the artifact language was in a hurry to leave and didn't care about ouyang changqing at all. as a result, it was caught off guard!

this was also because ouyang changqing did not have any killing intent, so the language of living things directly ignored him and was hit.

lin yi was dumbfounded-this was unexpected!

how could this dignified first hall master act like a local ruffian?

what kind of fighting style is this?

ouyang changqing didn't think too much about it. after a few slaps, he felt extremely comfortable. he felt that his dignity as the head hall master had returned!

although ouyang changqing's combat power was far inferior to the monster 's, they were at the same level. even the monster was a little stunned by his sudden attack!

the monster language was caught off guard and could not react for a moment. it just stood there, dumbfounded!

Ouyang Changqing had been a little nervous after beating up the man, afraid that the language of the living things would resist. But when he saw the cowardice of the language of the living things, he immediately felt at ease!

As expected, he was a wimp, too wimp! This was the kind where he would go soft if you were hard, and the more he fought, the more submissive he became!

Ouyang Changqing's mind was suddenly floating. He even felt that he hadn't had enough fun just now!

Therefore, while the monster language was in a daze, Ouyang Changqing actually swung his arm and hit it three times in a row.

This idiot was so happy that he was about to go crazy, and he was even muttering in his heart that this feeling was so F * cking good!

Slapping his old rival was the best pastime. He could slap the language of the living things more often in the future!

Anyway, he was a coward, the kind that became more cowardly the more he smoked!

"What's wrong? Do you know you're wrong? You know you're guilty now, right? A little B * stard like you actually learned to rebel like others? what a joke! You must always remember that you're a coward!"

While Ouyang Changqing was laughing arrogantly, he didn't forget to point and comment. As he spoke, he even spat on the monster language's face.

The artifact language's face turned green. He didn't like to spit on his own face!

Just now, the monster language had not expected Ouyang Changqing to make a move, especially a non-threatening attack without any killing intent. That was why Ouyang Changqing had succeeded.

Therefore, the artifact language was just dazed for a moment, but it was not really afraid of Ouyang Changqing!

If it weren't for Lin Yi's advice, the monster language would've attacked already!

However, the monster language had already gone crazy and had forgotten what it had said. Now, even the gods couldn't stop him!

"Ouyang Changqing, you're courting death!"

The monster's eyes were red, and he was so angry that he could set himself on fire!

With a low growl, the monster language raised its hand and grabbed Ouyang Changqing's right wrist, squeezing and twisting it!

Ouyang Changqing's right wrist was completely shattered!

All the joints in his arm were dislocated by the monster language's shaking. The sharp pain made Ouyang Changqing scream.

although ouyang changqing's combat power was not as good as the language of the living things, he would not have lost an arm so easily.

however, ouyang changqing was too relaxed. he thought that the language of the living things was a coward who would not fight back no matter what he did, so he was not on guard.

if they were prepared, they could still deal with it, but without any preparation, two ouyang changqing's could not withstand the full-powered attack of the language of living things.

as soon as the first scream came out, the monster language rushed forward like lightning and passed by ouyang changqing. it grabbed ouyang changqing's chin with one hand and pressed his head with the other, using its body's momentum to drive its hands.

with a crisp crack, the shrill scream was suddenly cut off!

Chapter 8423 The End

ouyang changqing's eyes were wide open, filled with fear, and his pupils gradually lost their light.

the second first hall master of the naduo martial alliance branch in a year had died!

lin yi let go of his clenched fist. the language of living things was a master of the sea-shattering realm, after all. its attacks were as fast as lightning, accurate, and fatal.

lin yi would've had to do it if they were late.

in fact, it would save ouyang changqing a lot of trouble if he died in lin yi's hands. after all, lin yi was a secret agent, and killing the first hall master of the martial union branch wasn't a big deal.

however, it would be a little troublesome if it was the language of assimilation.

no matter what, the language of monsters was a deputy hall master. killing the first hall master was an offense to his superior.

of course, with lin yi around, this wasn't a big deal.

however, the monster didn't know this. after killing ouyang changqing in a fit of anger, the monster quickly regained its calm.

"Younger brother Sima, this older brother has made a huge mistake. I'm afraid I can't continue to fight alongside you!"

The artifact language heaved a long sigh. "Although Ouyang Changqing, that B * tch, deserved to die, I shouldn't have killed him on my own. It's my fault!" I have to stay and accept my judgment!"

"Brother Hua, what are you talking about?"

Lin Yi smacked his forehead, "What time is it?!" Do you want to see the darkness demon beast's scheme succeed? A B * tch like Ouyang Changqing, if he died, so be it. What's the big deal? We can't let this kind of scum delay our important matters!"

Looking at Ouyang Changqing's miserable death on the ground, Lin Yi really felt that this idiot deserved it. This was a classic case of asking for death, "Brother Hua, it's true. It's no big deal if you've been killed. From today onwards, you're the hall Master of the naduo martial Alliance branch."

The artifact language could not help but smile bitterly.

If he killed Ouyang Changqing, he would become the first hall Master? Wasn't that rebelling?

However, he thought that Lin Yi was just trying to comfort him and didn't think much of it.

However, Lin Yi's words did trigger the transformation language. Waiting for the trial now was too good for the dark Demon beasts.

"Younger brother Sima, you're right. This elder brother can't put private interests over Public Affairs. There's no hurry to accept the trial. Right now, the most important thing is to go to the underground Devil's Cave and do great things! We've been delayed by this bastard, let's hurry up!"

The monster language was thinking about the big picture. It even thought that it would be a good thing to die in the underground Devil's Cave. It would save them a lot of trouble and humiliation!

Lin Yi only smiled, not explaining further.

it wouldn't be too late to talk about it later after this mission was over.

killing ouyang changqing was something lin yi had enough power to settle, and changing the hall master was something he could do with a single word.

the artifact language already had enough ability and prestige to take over the position of the first hall master. if it made another contribution this time, it would be even more natural!

at this time, gu shi and ouyang changhong had received the news of the confrontation between ouyang changqing and lin yi.

in the end, they didn't see the confrontation. they only saw the scene of the language of the living things killing ouyang changqing.

the sky had collapsed!

ouyang changhong felt that he would also be killed by the language of the living things. anyway, he had already killed the first hall master, ouyang changqing, so why would he care about killing another ouyang changhong?

however, ouyang changhong would not dare to take revenge on the monster language.

ouyang changhong even prayed in his heart that the language of artifacts did not see him. at the same time, he blamed himself for running too fast and getting involved in this mess!

Meanwhile, Gu Shi was secretly delighted. Ouyang Changqing was dead, and the position of the Great Hall Master was now empty. The most amazing thing was that the murderer was the language of the living things, his strongest competitor!

In this way, the two obstacles were all eliminated. Who else could take the position of the Great Hall Master?

He, Gu Shi, would be the one.

"You two also want to stop us?"

The monster language's eyes turned cold and murderous when it saw the two of them.

Ouyang Changhong was right. The monster language did have the thought that killing one or two more would make no difference.

As long as Ouyang Changhong and Gu Shi dared to step forward to stop them, the language of the living things would dare to kill them!

For the sake of the overall situation, the artifact language had already gone all out. These two were not good people anyway, so it was good to send them to accompany Ouyang Changqing.

"No, I'm very supportive of the action against the darkness magical beast. Vice Hall Master Hua, please do as you wish. However, the matter of killing the first hall Master is not over yet. I hope that vice Hall Master Hua will take the initiative to surrender after this!"

Gu Lihi immediately tried to distance himself from the matter and checkmated her.

He understood the monster's character. He knew that it would not run away after saying that.

It's settled!

Gu Shi could still communicate calmly with the language of monsters, but Ouyang Changhong turned around and ran away. He did not even dare to say a word, for fear of provoking the killing intent of the language of monsters. At that time, he and Ouyang Changhong would really be a pair of brothers in a difficult situation!

"At least you guys are tactful!"

The artifact language snorted and ignored them. It waved its hand and left with the warrior.

after the beast and lin yi left, ouyang changhong finally had the courage to come out and collect ouyang changqing's body. he then made arrangements for his funeral.

"vice hall master ouyang, you're not going to let this matter go just like that, are you?"

gu shi also busied himself for a while, and then found an opportunity to have a small talk with ouyang changhong.

after ouyang changqing became an official, ouyang changhong naturally followed suit and became a vice hall master.

"of course we can't just let it go like this. the monster language killed my big brother in public! that's his superior, and also the first hall master of our martial alliance branch! i've never heard of such a brutal act!"

ouyang changhong was extremely angry. he gritted his teeth and looked as if he wanted to tear the language of the living things apart. it was as if he was not the one who had turned around and ran away from the language of the living things!

"Deputy Hall Master Gu, the monster language is so arrogant and brutal. Do you have any solutions?"

Ouyang Changhong only knew how to talk big. In fact, he was extremely flustered and did not have any thoughts to speak of.

In the past, his backer was Ouyang Changqing, but now that Ouyang Changqing was dead and his Foundation was not strong enough, he had no intention of coveting the position of the Great Hall Master. He only wanted to change his sect and rely on Gu Shi.

"What can we do? Of course, he was going to impeach him! What else could he do? The combat Association is in the hands of the manifestation of language. How are we supposed to fight against the martial Alliance's strongest team?"

Gu Shi was overjoyed and began to work with Ouyang Changhong to deal with the language of living things. "The fact that the language of the living things killed your brother is still there. Let's jointly impeach him and kill him while he's in the underground Devil's Cave!"

"As long as the continental martial Alliance gives the order, we can take over the combat Association's personnel with a legitimate reason. The only variable is Sima Yi!"

A trace of ruthlessness flashed in Gu Shi's eyes as he revealed a cunning smile, ""I understand the monster language. He can be very stubborn sometimes. When he comes back, he will definitely surrender!"

Chapter 8424 The End

"However, with Sima Yi by our side, we might not be able to do anything. He's the best at instigating. If he instigates the entire combat Association, we'll be in a very passive position."

It had to be said that Gu Shi was still quite smart.

Ouyang Changhong nodded as he listened. He wanted to kill Lin Yi more than the beast language, and an idea came to him. "We'll impeach Sima Yi as well! Anyway, killing my big brother is a big deal. It doesn't make a difference if we get the language of the living things or if we get Sima Yi!"

"It's a pity that too many people saw what happened. Otherwise, they would say that the language of the living things and Sima Yi joined forces to kill my big brother ... Right! Just say that it was Sima Yi who incited trouble and secretly instructed Hua Yu to make a move!"

ouyang changhong fiercely clapped his hands, appearing to be quite excited. it was as if he had thought of a brilliant idea.

gu shi sneered in his heart. 'you only thought of such a simple thing now?' he had thought so from the beginning, but he had deliberately led ouyang changhong to say it.

in the future, if there was anything inappropriate, gu shi could also push the blame and say that he did not know anything!

ouyang changhong was really a piece of trash!

however, it would be good to keep such a person by his side and order him around like a dog in the future. he was not a threat anyway.

"vice hall master ouyang is really smart. this idea is great! then let's do it this way. you quickly draft an impeachment and we'll sign it together. we'll take advantage of this time to get justice in our hands. "

this way, when lin yi and the monster language came out of the underground cave, they could go and question them openly!

ouyang changhong hurriedly nodded and agreed. he then hurriedly went to prepare the impeachment, not even caring about his big brother's funeral.

world city, martial alliance.

ouyang changhong and gu shi's joint impeachment was sent to the great hall master of the martial alliance through an urgent message.

the person in charge of the initial screening and reviewing of the documents was naturally the first hall master's confidant. when he saw the contents, he was suddenly shocked.

the confidant didn't dare to delay and quickly took the document to report the situation to the great hall's hall master.

"first hall master, the new first hall master of the nado martial alliance branch, ouyang changqing, was killed by the vice hall master, artifact language, in public ..."

as soon as the confidant said this, the great hall master was furious. he slammed the table in front of him and smashed it into pieces.

"What? Insubordinate offending superior? This was simply preposterous! This kind of person should die a thousand times ... What? Na duo martial Alliance branch?"

The great Zhou Hall Master was still in the midst of his rage when he suddenly felt that na duo's name was a little familiar. His heart skipped a beat. Wasn't that where the Fuyao pill refining school was located?

calculating the time, sima yi should have already returned to the fu yao alchemy school. did this matter have anything to do with him? could it really be?

but thinking about how lin yi killed so easily, that was a criminal record!

therefore, the great hall master wasn't too sure. he narrowed his eyes, waved his hand, and said seriously, ""continue, what happened?"

"yes! according to the naduo martial alliance branch's executive vice hall master, gu lishi, and vice hall master, ouyang changhong, the one who killed ouyang changhong was the language of the living things. however, the one who ordered the language of the living things to kill ouyang changhong was actually the manager of the martial alliance's central liaison office, sima yi. he was the mastermind! both of them must be severely punished, and sima yi's crime is even worse!"

What the f * ck?

The first hall master's expression was one of 'I knew it'. It was only when he heard the name 'Sima Yi' that he felt normal!

If Lin Yi were here, he'd be dumbfounded-he really had nothing to do with this! How can you F * cking arrange this for me?

"First hall Master, this matter is serious and has a bad influence. It should indeed be dealt with strictly! Gu Shi and Ouyang Changhong hope that our martial Alliance can come up with a punishment as soon as possible!"

Seeing the Great Hall master's stunned expression, this confidant misunderstood and thought that the Great Hall Master was so angry that he couldn't speak!

However, facing this loyal subordinate, the Great Hall Master felt annoyed for no reason. He even wanted to kill this blind guy.

Severe punishment? what punishment?!

Didn't you hear that the big boss was secretly commanding them?

Then Ouyang Changqing definitely deserved it. Even if he wasn't guilty, he had to be guilty!

The great continent's Hall Master coughed twice and said righteously, "Good! It should have been like this long ago!"

A good death?

What's a good death?

The confidant was dumbfounded at first, but he was even more dumbfounded after he understood what was going on!

What was going on?

"First hall Master ... How should I reply to the nado martial Alliance branch? Do you need to discuss the punishment?"

Since he didn't understand, this trusted subordinate could only probe.

"What punishment? Didn't you hear me say that it's good to die? Do you have any opinions about me? Are you trying to twist my words?"

The Grand Hall master's might was something no one could handle except Lin Yi.

"No, no! The first hall Master had misunderstood! This subordinate only wants to know how to reply!"

The confidant's heart trembled, and he complained incessantly. He couldn't figure out this matter at all!

"How do I reply? What I just said was a reply! Just tell them that it's better for them to die!"

The great continent Hall Master waved his hand.

Two naduo martial Alliance branch vice Hall Masters weren't a big deal to him-only Lin Yi could make him do them a favor.

On the other hand, the language of the living things didn't know the attitude of the martial Alliance of the great continent, which was far away in the world city. He had already regarded himself as a dead man!

The monster language only wanted to show off as much as possible before it died, so that it could extract all the remaining value from itself.

As for Lin Yi's claim that he'd be the hall Master of the naduo martial Alliance branch after he killed Ouyang Changqing, the artifact language didn't take it to heart at all. It just took it as Lin Yi's nonsense to comfort him.

They gathered Zhang Yiming, who had recovered by half, Fei daqiang, and Lin Yi's elite warriors. A hundred-man assault team appeared.

Without any nonsense, the assault team entered the underground Devil's Den in silence.

However, not far from the entrance, Zhang Yiming started to call for a stop.

"boss, according to our calculations, the darkness demon beast's spy has set up a stronghold in a rather conspicuous place near the entrance. it should be three miles ahead."

zhang yiming waved his hand and reminded him cautiously.

lin yi was taken aback at first, but his eyes turned cold as he sneered, "is it dark under the light? they think that the more dangerous the place, the safer it is, right?"

with their human identity as a cover, it was indeed unexpected to build a stronghold in an area controlled by humans!

if zhang yiming didn't have a talent for spying, it would be hard to find this place!

"Brother Sima, let's just kill our way over! As long as we confirm the location, don't let a single one go!"

The monster's expression was serious and murderous. He treated this mission as the last battle of his life, and he was afraid that there were too few dark magical beasts to kill!

Chapter 8425

Lin Yi's head started to hurt-the transformation language would naturally increase his combat strength, but it was also easy for him to go down the path of mutual destruction. It was a headache.

It wasn't a good time for Lin Yi to explain his identity to the monster, telling him that killing Ouyang Changqing wasn't a big deal. He could only watch over the monster in secret to prevent it from really dying.

Lin Yi had to think about whether or not to tell him the identity of the secret agent, even if it was the language of living things.

Lin Yi wasn't Huang He 'an. He didn't want people to know that he was a spy.

"Yiming, can you confirm the location?"

Lin Yi asked Zhang Yiming, putting down his worries about the beast language.

The area near the entrance of the underground Devil's Den was an area controlled by humans, so there were many human buildings here.

If they couldn't confirm the exact location and continued with such a large-scale search, it would only alert the enemy and the end result would be empty.

"i'm sure! don't worry, boss, the clues i got before have a direction. as long as i see the place, i will be able to distinguish it!"

a confident smile appeared on zhang yiming's chubby face. he had never been weak in this aspect!

lin yi's heart settled-this was for the best!

"then let's go!"

more than 100 people were like a whole, moving quickly in an orderly and quiet manner.

to these experts, a distance of three li was just a blink of an eye.

zhang yiming wasn't bragging. as he walked, he accurately found an ordinary house among the buildings.

from the outside, this was just an ordinary house. it was no different from the surroundings, did not seem out of place, and did not have any eye-catching places.

in human terms, he was like an ordinary man with an ordinary face. no one would look at him even if he walked alone on the road, and he would disappear immediately if he was in a crowd.

lin yi wanted to surround the house first to prevent any of them from escaping, but the artifact language kicked the door open and went in without a word.

there was nothing else, they just went up and did it!

"fei daqiang, take some people and stand guard outside. don't let anyone get close, and don't let a single one go!"

lin yi smiled bitterly as he made the arrangements. he then led the rest of the group into the room.

there was indeed something wrong with this house. as soon as he entered, he could clearly sense the existence of a formation, but it was not too high-end.

This was only an ordinary formation, and even if others found out, they wouldn't probe too deeply. This was the brilliance of the darkness magical beasts.

This was all a scheme!

If the formation was too high-end, it would attract the attention of outsiders. Ordinary formations could not only monitor the situation but also not attract attention.

However, since they were being attacked directly, these ordinary formations were of no use. They were broken by the language of assimilation with brute force, so they could not give any warning at all.

Lin Yi saw the monster language beating up three strangers when he came in.

The three of them were all at least at the mid-stage of earth creation. Unfortunately, they were not even qualified to resist the monster language and were soon defeated.

The artifact language didn't lose its mind and kill them immediately. Instead, the three of them were left alive in order to get more clues about the darkness demon beast.

"Brother Sima, these three shouldn't be darkness magical beasts in human form, but pure human spies. I don't understand what they're thinking, to actually rely on darkness magical beasts to betray humans!"

After the fight, the artifact language had figured out the identity of the three people.

After all, he had sneaked into the dark magical beast tribe before, and the artifact language was very sensitive in this aspect.

"Boss, let me interrogate them!"

Zhang Yiming volunteered.

Lin Yi only nodded-there were only a couple of them here? Lin Yi didn't believe that it wasn't a shapeshifted beast either!

"What are you guys doing? Why did you break into our territory and attack us? This is simply too much, is there still any law in this world!"

The three people who were subdued began to clamor.

They were all pure humans, and they had the right to refute the monster language's claim that they were spies of the darkness demon beasts.

The artifact language was affected by the three's clamoring, and it was a little hesitant.

Was there a possibility of a mistake?

Although the language of the living beings had the courage to die together with the darkness magical beasts, they were not prepared to attack their human compatriots.

It was the first impression that the artifact language had made. It thought that this was the dark Demon beasts' stronghold, so the people inside were naturally the dark Demon beasts' spies.

But now that he thought about it carefully, this place was no different from an ordinary human building. The people inside were also human. Zhang Yiming's words alone could not convict them of a crime!

Lin Yi seemed to have read the monster language's mind and said faintly, "Brother Hua, they're definitely the darkness demon beasts' spies! Don't be fooled by their clever words!"

As he spoke, he walked to the middle of the room and stomped his foot lightly on the floor. The floor cracked like a piece of glass, and a metal door with a pull ring appeared.

"This concealment array is pretty good. If it was an array master with low array Dao, they might not be able to see through it! You're humans, but you've hidden so well!"

Lin Yi looked at the three with a smile.

The formation was destroyed, and the three people who were originally clamoring immediately became mute, no longer able to speak.

"Brother Sima, it's all thanks to you, the Grandmaster of arrays, that I was able to escape today!" The artifact language finally smiled.

When the three heard that Lin Yi was a Grandmaster, their faces turned even uglier, and cold sweat started dripping down their foreheads.

Lin Yi frowned as he stared at the three, only to see their heads tilt to one side-they were all dead!

"Death warrior!"

The artifact language was shocked,'what the hell is this? He didn't want to be a human, but he went to the darkness demon beast and became a death warrior of the darkness demon beast! Why would a person who isn't even afraid of death want to be a traitor?"

Lin Yi was still frowning, deep in thought.

When the three of them died, their primordial spirits had fluctuated slightly. The cause of their deaths was also related to their primordial spirits.

Perhaps ... This was the brainwashed human?

He came back in a hurry this time, and Lin Yi was focused on the dark Demon beast, but he forgot about Luo caidie!

He'd only heard that caidie had returned to the Alliance Academy, and that she wasn't in any danger for the time being, so Lin Yi didn't go find her.

Now it seemed that he had been too careless!

After being brainwashed by the Aragami high priest, he still had such a fatal control method. He had to find a way to solve it as soon as possible. Otherwise, Luo caidie would also die in front of him. That would be too terrifying!

Lin Yi couldn't even accept it.

Chapter 8426

"let's not care about them for now. let's go in and see what they're hiding!"

lin yi didn't bring up the subject of brainwashing. the transformation language knew about it, but many of the generals here hadn't heard of it before. it would only increase the panic and panic.

the artifact language immediately stepped forward, grabbed the ring, and gently lifted the iron cover.

other than the concealment array just now, there were no other mechanisms here, and there was no sound when it was activated.

below the cover was a dark staircases. it was not long, with only 18 steps.

lin yi even had a boring thought, wondering if they were using these eighteen steps to represent the eighteen levels of hell.

the beast language was ready to die in battle, and so it dove in without waiting for lin yi to say anything.

fortunately, lin yi scanned the area with his spirit sense first and didn't find any traps.

at the end of the 18 steps, there were no ghosts or hell, but there was a spatial barrier!

therefore, after hua yumong descended the 18th step, he could only stand still obediently.

the space barrier ... he couldn't do it!

"brother sima, come and take a look! what the hell is this?"

the artifact language moved aside and let lin yi take a closer look.

lin yi didn't think that it was a ghost-the ghost was still in the jade space ...

lin yi didn't need the transformation language to give way-he'd already used his spirit sense. the spatial barrier wasn't very stable, but it wouldn't collapse easily!

This place was a bit like a node that connected to the darkness demon beast clan, but it was much simpler.

It didn't seem accurate to put it that way. To put it more clearly, the nodes here were like the prototype of a complete node, or rather, it was a counterfeit!

The problem was that this wasn't a simple counterfeit. This was a node!

This thing can be made by relying on a knockoff? Were all darkness magical beasts born in the Year of the Ox? This was really awesome!

Or did they go to Huaqiang North for an internship?

"Brother Hua, we've really discovered something big this time! It's a good thing we made it in time. Otherwise, the nado conferred Empire would be finished!"

Lin Yi sighed and didn't explain further. He started to open the node.

The spatial barrier wasn't stable enough yet, so it wasn't a big problem for Lin Yi. He opened up a passage with a little bit of effort.

The artifact language also saw the trick. They were all people who had been in contact with this kind of thing for a long time. They didn't realize it at first, but now they immediately understood the key!

If the darkness magical beasts succeeded in setting up the spatial node in an area controlled by humans, the darkness magical beasts would come running out, and the nado conferred Empire would be done for!

So, the monster language only nodded seriously and rushed into the tunnel, not giving Lin Yi a chance to go first.

Lin Yi's spirit sense had already scanned the tunnel when it was formed, making sure that there wasn't too much danger inside. He let beast language go in.

If it was really dangerous, Lin Yi would help her.

The passage led to an empty space of about three to four square kilometers, with unstable spatial barriers at the edge.

And in this desolate space, there were only three darkness magical beasts, from the peak of the late stage of earth creation to the great circle of earth creation, patrolling.

"Brother Hua, restrain them. You must leave them alive!"

As soon as Lin Yi finished his warning, the three Dark Demon beasts noticed the language of transformation entering the realm, and they were all at the sea Rift stage. They didn't hesitate to charge in one direction and self-destruct!

Neither the language of manifestations nor Lin Yi were able to stop it in time.

The main thing was that they were too shocked. These darkness magical beasts were too strong. They saw that the other party was too strong and couldn't win, so they didn't even fight and self-destructed?

The only good thing was that when the three dark beasts self-destructed, they wanted to destroy something at the same time, but Lin Yi stopped them in time. Only a little more than half of it was destroyed, but there was still a little more left.

"Brother Sima, this time the darkness demon beast clan is really serious. Not to mention the strength of the spies they sent, their hearts are extremely firm! The moment he found something wrong, he didn't even struggle and ended his life immediately!"

"From this, we can see that their plan is very important, so important that they can't even leave a single clue for us! It's a good thing that you acted quickly, brother Sima, and managed to keep some of the things they wanted to destroy. "

Monster language sighed with lingering fear. If Lin Yi didn't bring the news about the Devil's Den, the humans would be in real danger.

Lin Yi waved his hand and didn't say anything. He walked up and observed the remains carefully.

However, the more Lin Yi looked at it, the more shocked he was. His brows started to furrow.

Artifact language's heart skipped a beat. He could not help but ask, ""What's wrong? Brother Sima, what did you see?"

"Brother Hua, things are really bad!"

Lin Yi's expression was extremely serious, "this is the prototype of a teleportation formation. Although only a small part is left, I can still deduce the whole picture. It's called a teleportation formation, but to be more precise, it's a formation to open a path. It's simpler than a teleportation formation."

"Although this prototype is very simple and may not succeed, there is still a small chance of success. If they really complete it and set up an accurate spatial coordinate ... They can really open a channel and teleport from that side to here ..."

Lin Yi didn't finish his sentence-as for what it was, Hua Yu knew.

the unstable spatial node from before had already shocked lin yi-opening up a spatial node like this wasn't something a normal person could do!

and the darkness magical beast could actually do it? he could even set up a simple teleportation array?

what kind of god-like operation was this!

"opening a passageway ... are we opening a passageway to the territory of the darkness demon beast clan?"

the artifact language was silent for a while before it spoke.

lin yi nodded,"that's right. strictly speaking, this space is a transfer station. these dark beasts may not have the ability to directly connect to the nodes of the underground cave, but they can replicate a node and teleportation formation to connect the underground cave to the dark beasts. it has a similar effect!"

"As long as they can complete this teleportation formation, they will be able to open a teleportation channel in this spatial transition area and transport the darkness magical beast Army over!"

"And the new node was copied by them. There is no array on it that is enhanced by us human array Masters, so they can easily open the node and come out."

Chapter 8427

although this transit space was only three to four square kilometers, it was enough to station an elite team. if the humans were not prepared, the underground devil's den would be completely occupied by the darkness demon beasts in a very short time.

at that time, those normal nodes would be destroyed on a large scale from the outside, allowing even more darkness magical beast armies to enter the underground devil's den. it would only be a matter of time before they attacked the surface.

that would be the end of mankind!

monster language's face went pale. lin yi didn't say it out loud, but he wasn't an idiot. he could easily figure out the rest of the story, and even more ...

"brother sima, i'm afraid that this small stronghold isn't their main focus. there's a limit to the number of teams that can be stationed in this transit space. it's okay to launch a surprise attack, but it can't be a decisive blow."

"so they should have at least one more space like this, and there are more possibilities. there's a high chance that it's a bigger transit space than this one!"

"That's the main camp of the darkness demon beast spies! We have to find that place as soon as possible and destroy it in one fell swoop!"

Lin Yi nodded at the words.

This really didn't look like the base camp of the darkness magical beasts. It was more like an outpost or a workstation behind the enemy.

In addition to the experimental construction of the teleportation portal, it was more likely to be used to communicate with the spies on the ground to transmit messages and gather intelligence.

"Boss, according to the previous clues, I feel that there is a target that fits the characteristics of a base camp. That location is more hidden, and it has already exceeded the scope of human control, which is suitable for the gathering of darkness magical beasts."

Zhang Yiming's mind never stopped thinking as he followed Lin Yi. He had a target in mind the moment the language of the living things mentioned the base."If we want to go to that place, I'm afraid that our assault team of just over a hundred won't be able to do it! We need to gather more people. "

The underground Devil's Den was also vast, and humans and darkness magical beasts each had their own areas of control. It was just like the Forest of Illusions, where there were areas where darkness magical beasts were active, but they weren't organized.

It wasn't that he didn't want to control the underground Devil's Den, but that he didn't have enough power. He could only control the nodes that connected to the darkness magical beast tribe and drive the existing darkness magical beasts to the areas without the nodes, forming a confrontation.

In other words, the darkness demonic beasts in the underground Devil's Den were actually just a bunch of scattered soldiers. Even if they gathered together, they were just a motley crew. But even so, the humans couldn't completely destroy them!

Therefore, once the main force of the darkness demon beast clan broke through the seal of the node, it would be the end of humanity!

"It's not just us who don't have enough people to enter the dark magical beasts' territory. Even if all the battle generals of the combat Association were to gather, we still wouldn't be able to use enough people!"

The artifact Whisperer shook his head with a wry smile. He was not afraid, and he even looked forward to exchanging a life for a life with the darkness magical beast!

But the problem was that the monster didn't want to send them to their deaths!

It didn't matter if he died, but if a group of elite battle generals died, no one would be able to stop the scattered troops of the darkness demon beast if they gathered together!

"Brother Sima, if we decide to enter the territory of the darkness magical beasts, it would mean that we are going to launch an all-out attack. The combat Association alone is definitely not enough. We must issue a mobilization order and gather more people. For example, the teachers and elite students in the Academy are all powerful and have enough people."

"The problem is that only the hall Master of martial League can issue a mobilization order of this level. I don't have the qualifications, and neither does Gu Lishi, the executive Vice Hall Master! Even if we force it out, no one will approve of it!"

The language of living things regretted killing Ouyang Changqing.

of course, it wasn't fear or regret, but this was a matter of great importance. after ouyang changqing's death, many things had become very restrictive!

"first hall master? brother hua, you're the first hall master of the naduo martial alliance branch! didn't i say that you killed ouyang changqing? if you killed him, then so be it. it's no big deal. you can just take his place!"

lin yi was about to say something else when he was interrupted by the language.

"that's enough. brother sima, you don't have to comfort your elder brother. the martial alliance of the continent will definitely look into my crime of killing. how could they admit that i'm the hall master?"

without the approval of the martial alliance, a person like the language of the living things would never claim to be the great hall master.

If the self-sealing was effective, there would be no need for the language of the living things to seal themselves, Gu Shi would have been promoted long ago.

"Alright, let's not talk about this for now. Let's go back first. It's better to ask the martial Alliance for advice than to waste time, right?"

Lin Yi rolled his eyes. This wasn't the time to reveal his identity-he had to go back and give the order.

The artifact language didn't object to this, so they returned shortly after entering the underground Devil's Cave.

The monster language was a little embarrassed. He had wanted to make a glorious sacrifice in the battle, but he had not gotten the chance!

When Lin Yi and the Beast language returned to the martial Alliance branch, Gu Shiyi and Ouyang Changhong just received a reply from the martial Alliance regarding Ouyang Changqing's death.

They heard that Lin Yi and the language of beast transformation were back before they even had the chance to see the news, and they were overjoyed!

The two thought that Lin Yi and transformation language must've run into a Dark Demon beast and come out of the underground cave so quickly!

At this moment, he would definitely go and watch the show and beat the dog while it was down. Finally, he would throw out the martial Alliance's letter of condemnation to completely secure the victory!

Gu Shi and Ouyang Changhong looked at each other and understood the meaning in each other's eyes. Without saying anything, they rushed out with the reply of the great continent martial Alliance.

In order to make it more dramatic, they decided to open the document in front of Lin Yi and the language of the monsters so that they could see the despair on the monster's face!

Soon, the two sides met in the martial Alliance branch.

Ouyang Changhong had wanted to continue showing off outside martial league's main gate to expand his influence, but he was still a step too slow. He could only make do with it from within.

"You're quite bold, aren't you, monster language? how dare you come back to the martial Alliance branch? I thought you would die in the underground Devil's Den, but since you've returned in defeat, I'll combine the two crimes and deal with you together!"

Ouyang Changhong jumped out and pointed at Lin Yi and the language of the living things arrogantly.

Lin Yi was furious!

The dark Demon beasts have already opened up a spatial relay point and teleportation formation in the underground Devil's Cave, preparing to invade the sub-Island on a large scale, and you two idiots are still here having an internal strife!

Do you all want to die?

If Gu Shi didn't show him the martial Alliance's document, Lin Yi would've killed them!

Let's see how the martial Alliance deals with this. If they're not satisfied, we'll change the first hall Master when we go to world city!

Chapter 8428

"monster language, you've come back just in time. i can hear how the martial alliance of the continent deals with you. i guess you're going to be executed ..."

gu shi laughed as he opened the document and read it out loud, ""the naduo martial alliance branch's first hall master ouyang changqing was killed. the main responsibility lies with ouyang changqing. he died a good death, he deserved it ..."

good death, he deserved it ... good ... death ...

gu shi was dumbfounded. he did not pay attention when he was reading it, but after he read it out loud, he realized that something was wrong!

what did he mean by "deserved to die"?

what's the situation with the martial alliance?

did he encounter a fake martial alliance of a continent?

lin yi chuckled, thinking that the guy from world city wasn't stupid. he probably knew that lin yi was here and was on good terms with the language of living things.

it was just that saying it so bluntly without any concealment was a little lacking in literary talent!

The language of the monsters, who had been ready to die, was shocked!

The martial Alliance actually said that Ouyang Changqing deserved to die? Doesn't that mean I'm fine?

They all deserved to die, and the murderer was definitely not in the wrong!

Ouyang Changhong could not believe what he had just heard. His face was still frozen with a smug smile. He no longer cared that Gu Shi was his new backer. He reached out and snatched the document from Gu Shi, and began to read it quickly.

Originally, Ouyang Changhong still held the thought of luck in his heart. He hoped that Gu Shi had made a mistake, or that Gu Shi was just joking. He wanted to make the language of monsters happy first before stepping into the mud.

Of course, if it was Ouyang Changhong who was reading out the words, he would definitely not make such a joke with his elder brother, Ouyang Changqing. However, Gu Shi did not have such concerns, so there was really the possibility of this being a joke.

Unfortunately, Gu Shi did not read it wrong, nor was he joking. It was written as such: 'it's good that Tao Wu died, he deserved it!'

With one sentence, Ouyang Changqing's character was fixed, and he would never be able to turn over a new leaf!

"How can this be? Why did it turn out like this? How dare he? Aren't you afraid that our Ouyang family will criticize you?"

Ouyang Changhong couldn't believe it and shouted crazily, but no one paid him any attention!

Lin Yi said impatiently as he snatched the document away.

"...The Deputy Hall Master of the naduo martial Alliance branch, the language of the living things, has made a great contribution in eliminating traitors. He is specially appointed to take over as the hall Master of the naduo martial Alliance branch. Due to the recent turmoil and troubled times everywhere,

he is exempted from the transition period of the acting Hall Master of the language of the living things and directly assumed the official position of the hall Master!"

Lin Yi was a little surprised after reading it out-the guy from world city really did it thoroughly! Did he know that I'm on good terms with the language of the living things, so he didn't even need to be the acting Hall Master?

Although Lin Yi had the right to do so, it was more natural for him to do so from world city. Lin Yi had to accept the favor.

Far away in Tianxia city, the Great Hall Master of the martial Alliance was also feeling smug. He thought that since Lin Yi ordered the language of transformation to kill Ouyang Changqing, he must be trying to help the language of transformation to get to the top. In that case, he had to go with the flow and do him a favor.

Once Lin Yi spoke, it wasn't a favor anymore, it was an order!

This move was beautiful!

On the nado martial Alliance branch's side, the artifact language was completely dumbfounded when it heard this appointment. It had originally thought that it was a great fortune that they would not pursue this matter, but it did not expect that there would be something even better!

The transformation language remembered how Lin Yi said that he would be the new hall Master after killing Ouyang Changqing, and suddenly realized that there was something strange about Wufu. It had to be related to his brother Sima.

But he couldn't figure out what Lin Yi did-he'd been with Ouyang Changqing ever since he'd killed him, and they'd never been apart for even a second. How did he do it?

It was simply magical!

The demon didn't believe that it had nothing to do with Lin Yi. The hall Master wasn't his father, so there was no need for him to take care of him!

Lin Yi cupped his fists and congratulated him."Brother Hua, the Great Hall Master of the great continent's martial Alliance is indeed observant. He knows the ins and outs of the whole matter and hasn't been deceived! Now that brother Hua has managed to protect the clouds and see the moon, it's worth celebrating! Congratulations to brother Hua for being promoted to the hall Master!"

"Brother Sima, that ... This matter ..."

The artifact language returned the bow mechanically, not knowing how to start the conversation.

He was clearly the first hall Master, but he looked so helpless like a fool!

"Brother Hua, let's not talk about anything else. Since you are already the legitimate first hall Master, quickly issue the mobilization order! This matter can not be delayed!"

Gu Shiyi and Ouyang Changhong had already sneaked away, most likely afraid of being caught by the language of living things, so they didn't hear Lin Yi's order to move.

The artifact language seemed to wake up from a dream, and its expression became serious. "That's right. This is an urgent matter. Since I've gained the trust of the higher-ups, I'll naturally protect the safety of mankind with my life!"

Remembering the dangerous situation in the underground Devil's Cave, the language of the living things couldn't be bothered to find the answer. It immediately got into character and began to issue an emergency mobilization order as the hall Master.

All the cultivators in the nado conferred Empire's territory who were at least at the groundbreaking stage were on the list of emergency mobilization.

This scale basically meant that a Great War was about to begin, and the outcome was enough to affect the life and death of mankind!

it was only after finishing the most urgent things that the language of living things finally had time to spend alone with lin yi.

the question that he had been holding back for a long time was directly asked, ""brother sima, after i killed ouyang changqing, the martial alliance's reaction was very strange. not only did they not punish me, but they also promoted me to the new hall master."

"the reason for this is really puzzling. this old brother wants to ask you, is this matter related to you? is it because of you that the higher-ups of the continental martial alliance look at me in a different light?"

he didn't quite believe lin yi-after all, he knew lin yi the best. he was just a small fry from the hong shang empire, so he couldn't have a strong background.

Lin Yi smiled and asked back,"Why does brother Hua have such a thought? You should know very well that ever since you killed Ouyang Changqing, this little brother has had no chance to contact anyone else. I've always been by your side!"

Lin Yi had no problem influencing the martial Alliance, but he didn't have the chance to do it yet!

"That being said, other than you, I really can't think of any other reason! After all, you've just returned from the continental martial Union with a great reputation. The people there think highly of your potential, brother Sima. It's normal for them to be willing to give you face and let me bask in your glory."
"

Before Lin Yi came to the martial Alliance branch in the Hong Shang Empire, the beast transformation language was the Vice Hall Master of the martial Alliance branch. For the same reason, it was optimistic about Lin Yi's future, and so it was willing to go to the Hong Shang Empire to do him a favor.

Chapter 8429

With such an experience, it was reasonable for the monster language to think so.

Lin Yi smiled and shook his head. He hesitated for a moment before deciding to tell the truth,"Brother Hua, your guess is basically correct. The only mistake is that the Great Hall Master of the martial Alliance doesn't think highly of my future, but my present!"

Potential represented the future, while strength represented the present!

No matter how high one's potential was, it would be useless if one could not convert it into strength.

As the Great Hall Master of the martial Alliance, he had seen many young geniuses. How many of them could he remember and express goodwill to?

The sub-Island never lacked geniuses, but the ones who died the most were also geniuses!

The beast's whisper startled him. He understood the logic, but Lin Yi's current strength ...

The Great Hall Master of the continental martial Alliance wouldn't take it to heart unless the Grandmaster of array Dao and alchemy Dao had been found out.

"Brother Hua, do you know what this is?"

Lin Yi didn't waste any more time-he pulled out the diamond token and showed it to the artifact.

The artifact language's eyes were fixed, and he could not help but exclaim,""Secret agent! A diamond-grade dark emissary token!"

Only the martial Alliance of the starsource continent could appoint a secret agent of this level. The martial Alliance of every continent was not qualified to do so!

Lin Yi actually had a Diamond Grade dark Messenger token, it was simply unbelievable!

Lin Yi was glad that she knew-he didn't have to explain what the token meant."Brother Hua, I became the world patrol secret agent by chance. The Great Hall Master of the martial Alliance knows a little about my identity, but he's not very clear about it."

"Regarding the matter of Ouyang Changqing, the martial Alliance of the great continent might be slightly biased toward brother Hua because of me. In fact, it doesn't matter whether they favor you or not. With me around, no one can make things difficult for you!"

This was loyalty!

The artifact language was touched, but it didn't thank him.

Lin Yi took out the dark gold level dark gold level Messenger's token and gave it to the monster's language, who was shocked ... He was shocked too much today, and he was going to explode sooner or later!

"Younger brother Sima, why do you still have a dark gold ranked secret envoy's token?"

this younger brother sima had really hidden himself well!

although the diamond and dark gold ranked dark emissaries seemed to be only one rank apart, they were actually two different levels!

a dark gold grade secret envoy was the top secret envoy in the continent, but a diamond grade secret envoy was beyond the continent and had risen to the level of the continent.

"it's still the same saying, by chance ..."

lin yi didn't bother explaining. he just made up a story, "brother hua, from today onwards, this dark gold ranked dark emissary token is yours! you will become the hall master of the nado martial alliance branch, and also the dark gold level dark gold level dark envoy of the wutong continent!"

the secret agent's status was much higher than the hall master of the nado martial alliance branch. the artifact language didn't know what to say with the token in hand.

"brother sima, you ..."

"Don't say that. Brother Hua, do you think it's too hasty? It's fine, let's do it formally. "

Lin Yi clenched his right hand into a fist and coughed lightly before putting on a serious face, "I am the diamond Grade Dark Envoy of the starsource continent, Sima Yi. I have appointed the language of living things as the dark gold grade Dark Envoy of the Wutong continent. At the same time, I am also the hall Master of the naduo martial Alliance branch. I hope that in the future ..."

The rest of the story was all fake, and Lin Yi was tired of making it up-he just brushed it off with a few sentences.

The artifact language's mouth twitched. He wanted to say that he didn't think it was too hasty, and that there was no need to do it formally!

"Forget it. This is a good thing." When the monster language came back to its senses, it could not help but feel surprised and excited.

After all, he was the Vice Hall Master of the martial Alliance's branch, so he was quite clear what an agent meant.

Not to mention Diamond Grade secret agents, just a dark gold grade secret agent was enough to suppress all the members of the martial Alliance in the entire Wutong continent, including the Great Hall Master of the martial Alliance!

after the artifact language became the first hall master of the naduo martial alliance branch, he was a subordinate of the worldly city on the surface. however, if he took out the secret agent token, he would immediately be above the martial alliance of the continent!

no wonder the martial alliance said that ouyang changqing deserved to die after receiving the news of his death!

"brother hua, at least give a reaction. can you do it or not?"

lin yi couldn't help but tease him when he saw that the language of the living things was in a daze.

"haha!" artifact language laughed as he came back to his senses. he put away his smile and bowed to lin yi seriously. "your subordinate, artifact language, will do as you say!"

a dark gold level dark gold level dark emissary could be considered lin yi's direct subordinate, but lin yi felt a little weird that the language of the living things called itself a subordinate.

"Alright, alright. Brother Hua, I'm not used to you being like this. You'll still be like this in the future. Don't make us brothers distant because of these small things!"

Lin Yi was very happy-the language of monsters was a good candidate to inherit the dark gold level's identity and token. Jin botian's teacher would be happy, right?

"Hahaha, then it would be impolite for this elder brother to refuse. I didn't expect that younger brother Sima, you've only come to the naduo martial Alliance's branch from the Hong Shang Empire for a short time, and this elder brother has already become your subordinate! From the very beginning, I had high hopes for you, but I never thought that your growth would be so astonishing!"

The artifact language sighed and said, ""Younger brother Sima, you're not kind enough. Your older brother was so worried just now, but you didn't say anything! If I had told brother earlier that you were a spy, I wouldn't have to worry so much!"

"So, from that time on, you already had the idea of using me as a spy, so you deliberately didn't say anything and wanted to observe me?"

Lin Yi nodded with a smile. "Yes, yes. You predicted it, brother Hua. Don't you blame me for it?"

It wasn't entirely true-Lin Yi might've thought of testing him, but it was just a passing thought. He knew the language of monsters, so what was there to test?

"I'm just joking, I'm just joking. It's all thanks to you that I'm able to turn over a new leaf and rise to the top. If I blame you for this, then I'd be an ungrateful and cruel person!"

Beast transformation language was truly grateful to Lin Yi, but they were already at a level where they didn't have to thank him all the time.

The two of them talked for a while, and someone outside reported that the response to the emergency mobilization order was outstanding. More than 80% of the registered experts had begun to gather in the underground Devil's Cave!

It was up to the language of living things and Lin Yi to take charge of the situation.

"Brother Sima, let's go over! Let's destroy the darkness demon beasts "scheme together!"

The artifact language waved its hand and said heroically.

Monster language was very excited. His new identity not only brought him power, but also the joy of being able to fulfill his ambitions!

moreover, it was a pleasure that no one could hold back!

for example, now that they had discovered something strange in the underground devil's den, the language of assimilation could immediately send out the mobilization order, and countless responses would be sent back immediately. how efficient was this?

if ouyang changqing hadn't died and still occupied the position of the hall master, a series of useless actions such as reports, discussions, and even being made difficult by the language of the living things would probably last for a long time!

forget about gathering manpower in time, it wasn't impossible for this matter to go down the drain in the end!

and now, the artifact language believed that the dark demon beasts 'plot would be resolved without any mishaps!

without further ado, lin yi and the language of living things rushed into the underground cave.

on the other hand, zhang yiming had already made full preparations. in addition to a few areas where dark beasts were suspected to be active, there were still a few other places that could not be easily missed.

therefore, zhang yiming divided the troops according to the important order and set a plan to divide the troops. when all the people were in place, they were ready to launch a general attack at the same time!

in order to save time, zhang yiming had sent out a small team of scouts to the target locations before lin yi and the monster language arrived.

"boss, hall master hua, i acted on my own initiative. please punish me!"

zhang yiming lowered his head and apologized immediately after seeing lin yi's dark expression.

the artifact language waved his hand and said, "it's okay. yiming's arrangements are very appropriate. there's nothing wrong with it. brother sima, do you think something is wrong?"

lin yi nodded slightly, "i'm not saying that there's anything wrong. if it were any other time, yiming's plan would be fine, but this is an emergency. once we start moving, we can't hide it for long, but we have to hide it as much as possible before we launch the general attack."

"Yiming sent out a small team of scouts. Let's not talk about whether there are spies from the darkness demonic beasts among them. If we're discovered by the darkness demonic beasts, it's very likely that our plan will be exposed."

"This arrangement is good, but it lacks some consideration. In order to avoid any problems, we have to set off as soon as possible and catch up with the previous scout team."

Both Zhang Yiming and the language of manifestations nodded at Lin Yi's words.

Zhang Yiming lowered his head in shame, "Boss is right, I didn't think it through!"

Although the artifact language also felt that there was something wrong with the plan, it still waved its hand and said, "Now is not the time to talk about this. Just as brother Sima said, we have to set off immediately!"

Looking at the Warriors who had gathered, the language of the living things wanted to talk about the crisis and boost morale, but now that time was tight, it decided not to.

"All warlord teams, each team will lead a group of fighters. Follow Zhang Yiming's instructions and launch a general attack at the same time!"

The artifact language issued an order.

The targets were already set, and Zhang Yiming was quite reliable in this regard. It saved Lin Yi and the language of monsters a lot of time-they just had to announce the attack.

The people who gathered quickly dispersed, and Lin Yi and transformation language took the largest group to the target point under the dark Demon beast's control.

He sprinted all the way to the border between humans and dark beasts, and found quite a few traces of dark beasts.

There was no doubt that the other side had also sent a scout team. He didn't know if Zhang Yiming's previous scout team had encountered the dark Demon beasts 'Scouts.

"Everyone, be careful. The darkness demon beasts are already on guard, and there might be Scouts of the darkness demon beasts nearby. If they discover anything, kill them on the spot, and don't let a single one go!"

lin yi ordered.

the artifact spirit nodded in agreement. after all, the newly-promoted hall master of the nado martial alliance branch was the overall commander of this operation. all the orders should be given by him.

the warrior in charge of the language of beast transformation quickly passed lin yi's words out, one by one, spreading to the entire team in an instant.

the already vigilant cultivators immediately strengthened their defenses.

"brother sima, did you discover anything?"

the monster's heart sank. the dark creatures in the underground cave were originally a group of unorganized and undisciplined stragglers. now, a small scout team had appeared!

this meant that a powerful leader had appeared among the darkness magical beasts in the underground devil cave.

Lin Yi's eyes flashed as he lowered his voice, "Brother Hua, I did find something, but I'm not sure. There are traces of darkness demon beasts over there, and they were left behind by five different races of darkness demon beasts. Our guess should be right, it should be a small scouting team from the other side."

"I'm going to chase after them to investigate. If we can capture them, we might be able to get some useful information from them. You continue to lead the team forward and follow the plan!"

Lin Yi's words startled the beast. "Brother Sima, you want to go alone? It's too dangerous, it's better to ... Bring a few more experts!"

Monster language wanted to go with Lin Yi, but he remembered that he was the leader of the team. If Lin Yi left with him, the team would lose its leader. He had to ask Lin Yi to bring more people.

Lin Yi shook his head with a smile, "Brother Hua, don't you know how capable this little brother is? Believe me, it's more convenient and safer for me to go alone. It's not good to have more people! Just follow the plan. If you have any problems, ask Zhang Yiming. Fei daqiang is also trustworthy. "

"If there are no accidents, this little brother will meet up with brother Hua at the target location. But when you arrive, don't wait for me, just do what you need to do. I may be late, or I may find an opportunity to sneak in first. Brother Hua, don't worry about me."

After a long silence, Hua Yu nodded.

He remembered the diamond level dark servant token Lin Yi had and was convinced. This little brother's strength was indeed unfathomable. He used to think that his body was trash, but now it seemed like he was quite strong.

Whether he had hidden it well in the past or had a fortuitous encounter that improved his strength, in short, a man who could obtain a Diamond Grade dark agent token couldn't be a weakling, right?

After thinking it through, the artifact language put aside its unnecessary worries and nodded. "Alright, since brother Sima has said so, this older brother will naturally listen to you! However, since you're acting alone, you must be careful and not be careless! If there's any danger, I don't want any merits, but I want no mistakes. Make sure you're safe!"

Lin Yi patted beast's shoulder, touched by his naggle.
