

## Bodyguard 8431

### Chapter 8431

Only those who truly cared about you would take the trouble to remind you. Why would those who didn't care about you care about your life?

"Don't worry, brother Hua. I know what to do. You have to be careful on your side as well. It's not easy to enter the darkness demon beast's territory!"

The two exchanged a few words of advice, and Lin Yi said a few more words to Zhang Yiming and Fei daqiang. He then left the group and chased after the traces left behind by the dark Demon beasts.

Lin Yi's direction was slightly different from the main force led by the beast transformation language. The traces left by the five dark beasts weren't clear, and if Lin Yi didn't scan with his spirit sense, he wouldn't have been discovered so easily.

Lin Yi followed the faint trail for a while, and suddenly found other human footprints!

At this time, the traces of darkness beasts and humans began to mix together and become clearer, and there were even some traces of battle.

Had the Scout teams from both sides already met and fought?

Lin Yi's heart felt heavy. The area controlled by the dark beasts in the underground cave was a bit blurry with his spirit sense, as if there was a strong interference.

This was the effect of Wu Linghai's blessing. If it was his previous deific consciousness, it might not even be as useful as his naked eyes.

It was because of this that Lin Yi couldn't figure out the situation of the battle, but from the traces, it was likely that the human scout team was at a disadvantage and was fighting while escaping.

Lin Yi followed the trail and found six broken human bodies.

And not far away, there were five darkness magical beasts that were barely injured!

"Hehehe, brothers, another human has come to die! I'm in luck today!"

One of the dark beasts noticed Lin Yi and chuckled, "I haven't had enough fun killing him. Although there's only one, it's still enough to fill the gaps between my teeth!"

"humans are all weaklings. if they don't have an advantage in numbers, they're no match for us at all! with just one person, we'll be bullied by the others. you can play however you want, we'll just watch. "

the other dark demon beast shook its head and told the other three to stay put and let the one who spoke earlier deal with lin yi.

lin yi's eyes were as cold as ice.

although the dead human martial artists had nothing to do with lin yi, these dark beasts treated humans like toys, and it still crossed lin yi's bottom line.

"it's just five beasts, what are you blabbering about? let's not waste any more time!"

Lin Yi raised his right index finger and pointed at the five beasts. "You guys, come here!"

"Do we need all of us to deal with you? Your grandfather alone is enough! Accept your death!"

The dark Demon beast that spoke earlier jumped into the air and pounced at Lin Yi, as if it wanted to kill him with a simple slap.

Lin Yi's lips curled up into a cold smile. Wu Linghai was pushed to the limit and sent out the strongest collision of consciousness.

The darkness demon beast in the air felt as if its head had hit an iron wall, and it instantly fell into a miserable state.

Before the monster could react, a long sword shone with a black light and gently swept across its neck, bringing up a huge head. Then, blood rained down.

The four darkness magical beasts that were waiting to watch a good show of torturing and killing humans were all dumbfounded. They simply didn't react to how their companion had been killed without even exchanging a single move.

"Since you guys don't want to come at me together, in order to save time, I can only ask you guys to come at me personally!"

Lin Yi shouted in a low voice as the demonic blade in his hand glowed with a black light, surging towards the four Dark Demon beasts who were still doubting their lives.

The four of them had strong battle instincts, and Lin Yi's sneak attack didn't work. They dodged instinctively and avoided the sharp edge of the demonic devour sword!

After killing the first Dark Demon beast, Lin Yi realized that the five of them weren't too strong-they were only earth formation stage!

Ever since he had met a heaven breaking stage cultivator in Wutong, the earth splitting stage darkness demon beast really wasn't much!

And so, Lin Yi didn't use his spirit sense to attack anymore, and just relied on his body's strength to fight. He could use his opponent to test his own strength.

The demonic devouring sword's Black light flickered and enveloped the four darkness magical beasts.

Lin Yi was fighting one against four, but he was still doing it with ease.

If it was before he ate the Scarlet Flame hundred-refined fruit, Lin Yi would have no other way to deal with these four dark beasts other than using his spirit to attack. But now, it was completely different. He could easily crush these four dark beasts with just his physique.

If it wasn't for the time constraint, Lin Yi would definitely use these four to train his combat skills.

However, he had no choice but to part with it now. After understanding his own strength, Lin Yi took down four of them easily.

"Hehe ... I thought you guys were very powerful, but it turns out you're just bragging! With this level of skill, you have the cheek to call humans weak chickens?"

Lin Yi laughed disdainfully and put the sword back into its sheath. "You are all Scouts, so you should know some valuable information, right? How about I obediently confess? Or should I extort a confession from you before you speak? Or perhaps we can be more straightforward and act like you have the backbone to directly commit suicide?"

The dark Demon beast in the transition space just killed itself without giving a word, and Lin Yi didn't even have the chance to search its soul. He didn't know if these people would be better off.

Of course, Lin Yi was prepared this time. The opponent could kill himself, but he couldn't destroy his essence spirit!

At that time, Lin Yi would only need to spend some effort to search her soul.

"I surrender. Ask me whatever you want!"

Lin Yi was secretly preparing his soul-snatching hand and soul-searching, but one of the dark beasts surrendered before he could even torture it!

The other three didn't want to be left behind-they all called out to surrender as well, leaving Lin Yi a little dumbfounded.

Where was the unyielding spirit? Where did the darkness demon beast that would rather die than submit go? Could these be fake darkness magical beasts?

"It's true, we sincerely surrender! I'm definitely not being perfunctory!"

The dark Demon beast that surrendered first seemed to be afraid that Lin Yi wouldn't believe it, "If you have anything to ask, just ask. As long as I know, I will tell you everything I know!"

Lin Yi couldn't help but laugh-this was a pretty cultured Dark Beast!

"Fine, then tell me, why did you surrender so easily? Are you afraid of death? I don't think you can be a Scout if you're afraid of death, right?"

Lin Yi didn't ask for any information first, only testing the waters with a suspicious attitude.

Chapter 8432

"Don't you humans have a saying? it's better to live than to die! We're just small characters struggling to survive in this underground Devil's Den. Why do we have to risk our lives?"

The Beast of Darkness laughed evilly."You should know that we darkness magical beasts are the prey of the strong, and we worship the strong. You're so powerful, so you're the one we worship!"

"It's normal for us to surrender to the strong, and we don't feel humiliated. The most important thing is ... We are only Scouts on the outside. We don't know any secrets!"

"We probably won't know the answer to your question, so we're willing to cooperate with you. Perhaps we can learn something interesting from your question."

Lin Yi's mouth twitched-what an honest Dark Beast!

However, Lin Yi believed the other party's words. A Dark Demon beast that surrendered so easily wouldn't know any top-secret information. If they were sent out as Scouts, even if they were caught or killed, their boss wouldn't feel bad.

He asked a few random questions, and as expected, the four dark beasts didn't know much about the area. They were only familiar with the area, so Lin Yi knew more about it.

"You guys really don't know anything!"

Lin Yi couldn't get any valuable information from the interrogation, and he pulled out his demonic devour sword. "Since that's the case, you have no value. You can die now!"

"hey! we surrender, we will cooperate with you! you can't kill the prisoners!"

the darkness demon beasts started panicking-lin yi's killing intent was so strong that it felt like it was real. he wasn't joking, he really was going to kill them!

"i'm sorry, but it's not convenient for me to bring prisoners alone. besides, you can't provide any useful information. what's the use of you?"

lin yi smiled faintly before his eyes turned cold. "there are human corpses over there. do you think you can escape punishment?"

"Run!"

The dark Demon beasts that were talking knew that they couldn't just let things be, so they yelled and ran to the side. Lin Yi didn't imprison them, and they were almost all recovered by the time he finished talking.

If you can't beat them, then admit defeat. If you can 't, then run. What else can you do?

The other darkness magical beasts all had a tacit understanding, and with a single command, they scattered at almost the same time, fleeing in four different directions!

They were betting that Lin Yi wouldn't be able to catch up to all of them. At most, one or two of them would be sacrificed, and there would be some who would survive.

Of course, as they ran, they would pray in their hearts, hoping that the one being chased by Lin Yi wasn't them!

Lin Yi smiled faintly. The reason why he didn't restrict the four dark beasts was because he was confident that they wouldn't be able to escape!

Lin Yi didn't even need to use his spirit to attack-he just pushed his super butterfly microsteps to the max, leaving a trail of afterimages behind him as he caught up to the first Dark Demon beast.

The black light flashed and the darkness beast's huge head rolled in the air and flew two steps forward before falling heavily to the ground!

The headless corpse continued to run wildly under the influence of inertia. It only fell to the ground after running for about 30 meters.

Lin Yi didn't stop at all. The first Dark demon's head was still rolling in the air, but he had already appeared on the left of the second Dark Demon beast with his super butterfly steps.

The darkness demon beast had only escaped for a short time, so there wasn't much distance between them.

When the first victim's head reached its peak and started to drop, the second victim's head flew up as well, and Lin Yi was already on his third target.

The first head fell to the ground and continued to roll. The third head also flew up!

The dark Beast that had been observing the situation and running away was glad that it was the furthest away from Lin Yi. What kind of demonic speed was this?

Killing darkness magical beasts was no different from killing chickens!

Seeing that its third companion had died, the last darkness magical beast knew that it couldn't escape, so it simply stopped running. Instead, it turned around and roared, putting on a posture of fighting to the death!

But when Lin Yi really did appear in front of it like a ghost, it seized the last chance and knelt down on the ground, kowtowing with its head and butt sticking out.

"My Lord! Please spare my life! I'm willing to offer my primordial spirit and recognize you as my master from now on. I'll be your slave without hesitation! I can even be a spy and infiltrate the enemy's base ..."

It was useless to simply surrender. He had tried it just now, but the other party still wanted to kill him. Therefore, this guy was more thorough this time. As long as he could live, he didn't mind being a slave!

Unfortunately, Lin Yi didn't have the intention to do so. This kind of soft bones could surrender and beg for their lives today, but they could betray tomorrow. Before he could finish, the black light swept across his neck and cut off his head.

"I've killed the darkness demon beast that killed you. Consider it revenge, you can rest in peace now!"

Lin Yi threw the four huge Dark Beast heads beside the bodies of the human Scouts as a tribute to their bravery.

Time was of the essence, and they couldn't stay for too long. Lin Yi could only casually blast a hole and bury their bodies in a place so they wouldn't be exposed in the wilderness. He then quickly left.

The dark Demon beast Scouts didn't give him any useful information, so Lin Yi didn't waste his energy searching for other Scouts and headed straight to the target location.

They'd taken a detour, and there'd been a small battle, but Lin Yi was still extremely fast. When they arrived, the main force was still on their way.

The target was a building made of rocks. It looked like a ruin, with a bit of the architectural style of ancient Rome in the secular world, which was more rough.

One of the doors had been destroyed. From the marks, it seemed that it had just happened. The place where it was broken was very fresh.

Lin Yi blinked, not knowing what had happened. He sneaked in after some thought.

Before the main force arrived, it would be more beneficial for the next operation to figure out the enemy's situation as much as possible!

Lin Yi was confident and skilled-sneaking in by himself was a familiar thing to do, and he didn't feel any danger at all.

After entering the broken door, Lin Yi's senses became clearer. It should be that the interference in the building was less, but the detection distance was still not far. He could only clearly understand the situation nearby. It couldn't be done if it was further away. He had to get closer first.

Lin Yi saw two familiar faces as soon as he entered-the mentors from the Alliance Academy, Wang Ba, Gao Zi, and GUI sun!

This pair of male and female partners were really inseparable. They were together everywhere they went, just like conjoined twins.

The two of them hid behind a stone wall and tried their best to restrain their aura. Looking at their pale faces, they seemed to have suffered some internal injuries. On the surface, there were no visible injuries.

Lin Yi got closer to the stone wall quietly and whispered to the two,"Why are you guys hiding here?"

The two, who didn't feel anything, jumped up in surprise at the sudden voice, turning to face Lin Yi and getting into a defensive stance.

Fortunately, the two of them restrained themselves and didn't let out any shrieks or other noises. They were most likely afraid of attracting the darkness magical beasts.

"F \* ck! Sima Yi! It's not ... Dean Sima!"

The frightened GUI sun couldn't help but curse after seeing that it was Lin Yi behind her!

Then, he immediately realized that Lin Yi's current status wasn't someone they could call him as they pleased, and so he changed to Dean Sima.

"What are you doing! You'll scare people to death, alright!"

Wang Ba Gaozi's tense combat state instantly relaxed, and her whole body went limp. After complaining in a low voice, she didn't say anything else.

Judging from her aura, her injuries should be more serious.

"I wasn't trying to scare you! I'm just wondering why you're hiding here. Is it exciting to play hide-and-seek in the dark Demon beast's stronghold?"

Lin Yi's lips twitched as he took out two great recovery pills to heal them.

The two's eyes lit up-Lin Yi's reputation as a Grandmaster in the imperial capital was quite high now, so the pills he'd be giving out must be something good!

Wang Ba was reluctant to use it, wanting to save it for life-saving use, but she was embarrassed to ask others to use it to heal her injuries. It would be a little unsightly for him to keep it.

Wang Ba Gaozi still had some face and couldn't do such a thing, so she could only raise her head and swallow the pill unwillingly.

GUI sun didn't think so much. In the territory of the darkness demon beasts, maintaining peak condition was more important than anything else. Thus, he didn't feel that it was a waste and immediately consumed it.

The great cyclic pellet's effect didn't need to be mentioned. The two of them immediately became much more energetic, and the previous sense of weakness was no longer visible. Their faces also had a bit more color.

"Many Thanks, Dean Sima!"

GUI Xun cupped his fists in thanks and asked, ""Has our main force arrived?"

"Not yet. I came here alone. What are you two doing here?"

Lin Yi said, shaking his head.

Wang Ba hesitated for a moment and said, ""We had a small team of Scouts, but they encountered the darkness demon beasts and were scattered ..."

At this point, Wang Ba Gaozi seemed to have thought of something, and her expression changed as she said hurriedly, "Dean Sima, Luo caidie came with us. She lured away two darkness magical beasts by herself, so I'm afraid that she's in a bad situation now. You have to hurry and help her!"

Although it was more likely that he was going to collect Luo caidie's body, Wangba Gaozi knew that Lin Yi and Luo caidie had a close relationship, so she still had to tell him.

As for whether Lin Yi went or not, and whether he could save caidie, she didn't care.

Lin Yi raised his eyebrows. He didn't expect to hear about Luo caidie here!

However, Lin Yi didn't have to worry about caidie's safety. She was a spy who was brainwashed by the dark Demon beast. She led the dark Demon beast away most likely to pass on a message, and she would definitely come back safely.

Since he'd met her, Lin Yi didn't want to waste any more time. He had to think of a way to save caidie, not his body, but his brain!

"Okay, tell me which direction Luo caidie went. I'll catch up with them now!"

Lin Yi's mind was spinning with thoughts, but his expression was one of concern and worry.

Lin Yi only needed to know that Luo caidie was brainwashed and became a spy for the dark Demon beasts. He didn't need to let others know, in case Luo caidie was pushed aside in the future.

"This direction ... Dean Sima, it's a little dangerous for you to go alone ... Why don't you wait for reinforcements to arrive before going?"

GUI sun hesitated. On one hand, she knew that Lin Yi cared about Luo caidie, but on the other hand, she was worried about Lin Yi's safety.

When facing the darkness demon beast clan, they would only think about the bigger picture.

lin yi was an alchemy grandmaster, and an array grandmaster at that! humanity couldn't afford to lose a genius like him!

to put it cruelly, they would rather have ten Luo caidies die than let lin yi get hurt!

"no need, saving people is like putting out a fire. when the reinforcements come, Luo caidie doesn't know what will happen to her!"

lin yi's expression was serious-what could have happened to caidie? it was easier to get into trouble when there were too many people around. it was much more convenient for him to go alone.

"since dean sima insists on saving Luo caidie, then we'll go with you. at least we have a helper! no matter what, she's still a teacher at our alliance academy, and she's our companion!"

GUI sun knew that it was dangerous, but in order to give Lin Yi some strength, she still wanted to go with him. This made Lin Yi look at her in a new light.

Unfortunately, Lin Yi couldn't bring anyone along, so he declined the offer.

"No need, I'll go by myself. Although the two of you have taken some pills to recover, you're still not at your peak. Leave here and wait outside."

"Hall Master Hua has arrived with the main force. They should be here soon. After you have gathered the main force, it will be more helpful to break in with them!"

Lin Yi said quickly and used the excuse that he didn't have much time. He left and flew in the direction they pointed.

GUI Shan and Wang Ba were also sighing inside, thinking that Lin Yi was a really righteous person, returning evil with good!

I hope good people will have a peaceful life!

Lin Yi, who didn't even know that he had been hit with a nice guy card, didn't get far before he found Luo caidie's traces in his spirit sense.

Luo caidie was indeed rushing back, and there were many wounds on her body. She looked a bit miserable, but in fact, they were all superficial wounds and nothing serious.

Lin Yi let out a smile and quickly walked over. The two soon met.

"Luo caidie, are you okay? Are you injured?"

Lin Yi acted normal, showing a concerned and worried expression at the right time.

The original plan was to find Luo caidie and find a way to solve the problem of her being brainwashed.

But now that he'd actually met one, he realized that it wasn't a big deal at all!

this was because Luo caidie's wu linghai was born from Lin Yi's wu linghai. it was like a branch of Lin Yi's wu linghai, and it was naturally suppressed by Lin Yi's wu linghai.

the voodoo race's primordial spirit was far superior to the darkness demon beast. it was even possible that the darkness demon beast's brainwashing techniques were inherited from the voodoo race!

so as soon as the two met, Lin Yi knew that Luo caidie's brainwashing problem could be solved with a flip of his hand!

Chapter 8434

Don't ask how he knew. He just knew that it was a strange connection between the two Wu Linghai.

Lin Yi could even restore caidie's consciousness with a single thought.

It was because it was so simple that Lin Yi wasn't in a rush. He wanted to see what this spy Luo caidie was up to. He could even deduce some of the darkness magical beasts 'plans from this.

If Luo caidie was restored now, who knew if she would still retain her memory after being brainwashed?

"Sima Yi, why have you come? I haven't seen you in a long time! I heard that you went to the martial Alliance of the continent and came back with honors. I was going to look for you, but I was afraid that you would forget your old friend because of your noble status!"

caidie luu naturally didn't know what lin yi was thinking about. she pretended to be surprised, like an old friend who had just reunited. she didn't care about her injuries at all.

"i met wang ba, gao zi, and the others. i heard that you were being chased by two darkness magical beasts, so i came over to help. i'm relieved to see that you're fine! are you seriously injured? take a pill first!"

lin yi said as he handed over a pill.

the elixir was indeed a healing elixir. Luo Caidie's eyes flashed, and she took it and swallowed it.

"Actually, I didn't suffer any serious injuries. It's just a flesh wound. I'll be fine. You don't have to worry!"

Luo Caidie smiled, "I'm very happy that you can come and help me!" But I found out that many human warriors have been captured by the darkness demon beasts. Their defenses aren't that strong, why don't we go and save them?"

Lin Yi's heart moved, and he understood what Caidie meant.

Caidie Luo knew Lin Yi's identity and abilities very well. Although she was brainwashed, she would never forget it!

If he was right, Luo Caidie, who was only thinking about the darkness demon beast, wanted to lure Lin Yi to a place where they had help and kill him!

Losing an alchemy Grandmaster wasn't a big deal, but to the darkness magical beast, losing an array Grandmaster who could seal the nodes was too valuable!

If they could capture Lin Yi alive and brainwash him, he'd become one of them, and they'd be rich!

"Alright! Then let's go and save them! Are you sure the two of us are enough? Should we find more people to help us? We'll have a higher chance!"

Lin Yi said, assuming that it wouldn't be too dangerous for him to go.

As long as there weren't any heaven breaking dark beasts, it wouldn't be hard for Lin Yi to escape.

Thinking about it, it was impossible for there to be a heaven breaking stage darkness demon beast here. If there were, the underground Devil's Den would have long been unified by the darkness demon beast and even started to attack the surface. Why would there be a transit space like this?

"we don't need anyone else. the two of us are enough! it's mainly because the formations there are troublesome, and it's useless to have too many people there. with a formation grandmaster like you there, it's the most suitable!"

luo caidie was just brainwashed, not stupid, so she could come up with a reason.

if lin yi didn't know that caidie lu was with the dark demon beasts, he would think that she was right.

"then i'll listen to you! let's not delay any further and set off quickly!"

lin yi pretended to fall into the trap and asked caidie to take him to the place she said had human captives.

Luo caidie thought that she had succeeded and was naturally happy. She turned around and walked back the way she came from with Lin Yi. She was thinking about whether she should attack Lin Yi from behind when they surrounded him.

What she didn't know was that Lin Yi was playing her at her own game. She was playing Lin Yi, but Lin Yi was also playing her at the same time. Or rather, he was playing with the dark Demon beasts behind her.

In order to fish out the people behind Luo caidie, Lin Yi intentionally didn't use Wu Linghai to solve Luo caidie's brainwashing problem.

The two of them were traveling at a high speed, and after seven to eight minutes, they arrived at a Stone Forest.

The Stone Forest did have a formation, and it was a pretty good trap formation. With Lin Yi's formation skills, he could see the situation inside from the outside.

"Sima Yi, this is the place I was talking about. There were dark demonic beasts guarding the perimeter, but it doesn't seem like they're there now. It's a good chance to save them!"

Luo caidie pretended to be serious and vigilantly observed the surroundings, "There are about twenty to thirty human warriors trapped inside. They are all elite masters from our side. We can't leave them alone. We must save them!"

Lin Yi nodded in agreement. There were indeed about thirty human martial artists in the trap formation, most of whom were in the earth-opening and sea-splitting stages. They could indeed be called elite human masters.

The problem was that Luo caidie was being brainwashed and controlled by the dark Demon beast, so how could she really bring Lin Yi here to save people?

It was obvious that there was something wrong with the people in this trap array!

He was probably brainwashed or a traitor who had betrayed humanity.

"You're right, these are the elites of our human race, how can we let them be trapped in the territory of the darkness demon beasts? Don't worry, this trap formation won't break anything to me. I can break it with a snap of my fingers!"

Lin Yi pretended to be righteous, making sure that there were no dark beasts around before quickly getting close to the formation and breaking it.

However, this act was obviously a little fake!

Back then, Lin Yi didn't even care when caidie Luo was in trouble, so why would he care about someone who had nothing to do with it?

But caidie didn't think that much and just wanted to lead Lin Yi into the trap.

The trap formation was good, but Lin Yi was a Grandmaster in the field of formations. He opened the trap formation quickly, and nearly thirty people rushed out.

"That's great, I thought I would die Here! I didn't expect to see the light of day again!"

One of the people who rushed out was excited and thanked Lin Yi immediately, "It must be you who saved us, right? I can't repay your great kindness, please accept our bow!"

Lin Yi laughed coldly in his heart, but kept a warm smile on his face as he waved his hand. "You're too kind. We're all on the same side. It's nothing. Don't mention it. Don't be so polite."

The person was waiting for Lin Yi to help him up so that he could lock Lin Yi's arm and his companions could attack him.

Lin Yi was only speaking politely, but his hands weren't holding back at all. He just watched as they bowed.

These people cursed in their hearts, why didn't this kid follow the routine?

We should thank you, but you should at least help me up!

Caidie couldn't stand it anymore and whispered to Lin Yi, "Sima Yi, there are a few seniors here. It's not good to let them bow. Why don't you go and help them?"

Chapter 8435

"I can't! Especially those old ... Seniors, I'm afraid that I'll fall to the ground if I hold on to them!"

"Anyone else?" Lin Yi smiled faintly. If not, then let's start!"

Luo caidie was slightly surprised and said, ""Start what?"

She felt that something was wrong, so she didn't wait for Lin Yi's reply. "Do it!"

The people who were still in a grateful state instantly exploded, activating their martial skills and attacking Lin Yi.

As soon as Luo caidie said that, she realized that Lin Yi meant for them to start?

So Lin Yi was prepared!

Luo caidie felt that something was wrong, but she couldn't understand what was wrong. How did Sima Yi guard against it?

However, all of this was not important. With so many experts surrounding him, even if Sima Yi had three heads and six arms, he would not be able to withstand it. At most, he would only be able to contribute two more pairs of broken limbs.

Then, Lin Yi showed her that numbers weren't scary. With just one strong spirit sense vibration, all the people who were attacking Lin Yi were knocked out.

These were all brainwashed human martial artists, and there were huge flaws in their primordial spirits. Lin Yi used Wu Linghai as the foundation to activate the consciousness vibration, and the power of the attack was doubled.

A normal human martial artist would only be stunned for a moment by a soul shock attack, but a brainwashed martial artist would directly fall unconscious!

"How could it be like this? You ... You ..."

Luo caidie, who was the only one not attacked by the shock of divine sense, was dumbfounded!

Although Luo caidie knew that Lin Yi's spirit sense was strong, she didn't expect it to be this strong.

A simple spiritual sense attack had taken down nearly thirty brainwashing players!

Among these brainwashing experts, the weakest was at the middle stage of earth splitting realm, while the strongest was at the middle stage of sea splitting realm!

How the F \* ck can we play with this? He could fight against an Army of a million? I don't have a million helpers here!

"Is it very unexpected? If you were in your normal state, you wouldn't be so surprised. So, although brainwashing won't erase your memory, it will still cause some problems in your memory and judgment, right?"

Lin Yi pinched his chin and frowned, "is it because the Aragami high priest's skills aren't good?" Or was there a flaw in brainwashing itself? Speaking of which, I didn't expect so many brainwashed experts to be gathered here. This is an unexpected harvest. "

These people were all elites and experts outside, and they would definitely be able to take on important tasks. If they were scattered among the human teams, let's not talk about what kind of destructive effect they would have. At the very least, human action plans would not be able to escape their reconnaissance.

Lin Yi's mind spun, and he suddenly felt uneasy.

Since there were so many Scouts here, could there be more in other directions? So this operation had changed from a sneak attack to an open attack?

It would be fine if that was all, but he was afraid that the darkness magical beasts would set up an ambush after receiving the information. The consequences would be too serious!

"So you knew everything and pretended to fall for it so that you could use me to lure out more spies!"

Luo caidie's expression was extremely cold.

If she still didn't understand now, it wouldn't be brainwashing, but completely brainwashing her.

"Do you call yourselves spies? Fine, they were all people who had no choice, so they couldn't be considered traitors to humanity. Luo caidie, why don't you tell me how many more people like you are out there?"

Lin Yi's spirit sense was locked on caidie Luo, not to attack her or to prevent her from running away, but to prevent her from killing herself.

The scene of the dark Demon beast's suicide was still vivid in his mind, and Lin Yi had experience. He wouldn't let Luo caidie repeat the same mistake.

As expected, as soon as Lin Yi asked, Luo caidie's Wu Linghai started to surge violently!

It seemed that there was a mysterious destructive force emerging, and Luo caidie's face also showed a painful expression.

Lin Yi maintained his position, ready to intervene at any time. He didn't rush to help but used Wu Linghai's special ability to carefully observe Luo caidie's situation.

Now, Lin Yi was sure that the Aragami high priest had planted a seed of instant death in the brainwashed people.

Once the brainwashed person was in danger of being captured or interrogated, this seed would take effect and kill the brainwashed person in an instant.

However, Luo caidie was different from the normal victims. Because of Wu Linghai's help, she was not killed by the seed due to Wu Linghai's instinctive resistance.

However, if no one intervened and helped, Luo caidie would just instinctively hold on a little longer, and she would soon die.

The reason why Lin Yi wanted to observe was to help those who didn't have Wu Linghai deal with the threat of this instant-Death Seed. After all, Wu Linghai was only a small number. Most martial artists would die the moment the seed exploded.

Fortunately, this wasn't hard to understand. Lin Yi's Wu Linghai had a way to counter it, and after understanding the principle, Lin Yi attacked!

Actually, it wasn't really outrageous.

It was just a light spiritual sense.

Then, he easily and happily solved the problem of Luo caidie's instant death Seed, and also wiped out the problem of her brainwashing.

The high priest of the wilderness seemed to be a simple-minded person.

Lin Yi thought this way because of Wu Linghai. Even a master with spiritual sense like Feng Shan wouldn't be able to solve it.

The moment Lin Yi took back his spirit sense, caidie Luo's expression relaxed and her body fell to the ground. She looked around blankly and finally focused on Lin Yi.

"Sima Yi ... I ... My head hurts!"

After recognizing Lin Yi, Luo caidie's expression seemed to relax a lot, and she held her head with both hands, crying out in pain.

This was the side effect of removing the brainwashing, and Lin Yi couldn't do anything about it.

In this case, it would be more effective to give her a common herb, firmament, or a dose of aminylbulin coffee.

But Lin Yi didn't have any of these things-practitioners were more pain resistant, so he didn't need them.

"Are you alright?"

Lin Yi squatted down and asked softly, "Can you still maintain your consciousness? Just tell me if there's anything wrong with your body!"

"I'm very clear-headed, but my head hurts. I'm sorry, I almost got you into trouble!"

Luo caidie clearly still had the memories from when she was brainwashed. Although she didn't know if it was all of it, she still remembered the recent events, like luring Lin Yi to the ambush.

"It's fine, I won't be harmed!"

Lin Yi waved his hand with a smile. "You know that I followed you here on purpose. Don't try to flatter yourself. It's still too early to try to harm me."

Chapter 8436

Luo caidie suddenly smiled, "I hate it!" I'll kick you to death, my head is still hurting, and you're still making fun of me!"

"Hahaha, looking at you, you should be fine. It's okay to have a headache. You'll get used to the pain!"

Lin Yi's mood was a lot more relaxed now that he'd solved the brainwashing problem of caidie Luo, "Alright, I won't joke anymore. How much do you still remember when you were controlled by the darkness magical beast?"

He was originally a spy for the darkness demon beast, and he was a spy who had been brainwashed and had the means to control the seeds of instant death, so many secret plans shouldn't have been deliberately avoided from Luo caidie.

After all, Luo caidie's life and death were in the hands of the wilderness high priest.

Lin Yi was looking forward to getting some useful information about the darkness demon beast from Luo caidie.

"I ... I remember ..."

Luo caidie's hands fell down weakly, and her face turned pale, ""This is a trap! There's indeed a transit space built by the darkness demon beasts here, but they've already made preparations and are just waiting for our human army to attack!"

"It's the same for the other directions. There are Dark Demon beasts in ambush. The news about the Devil's Den was leaked by the dark Demon beasts on purpose. The replicated spatial node near the entrance of the underground Devil's Den was also a bait they threw out!"

"If we don't fall for it, they'll be able to boldly and confidently carry out the plan to connect the spatial nodes to the transit space. If we fall for it, they'll attack our team with all their might and annihilate our forces!"

"After losing the main fighting force of the humans, it will be very easy for the dark Demon beasts to restart the node connection plan or directly open the original node!"

Luo caidie said in one breath.

Lin Yi's face darkened-she was indeed aiming for the worst!

"Then do you know where the darkness magical beasts are hiding? What are the specific details?"

The Stone Forest trap formation was one of them, but it was only a small trick used to trick human experts. It was definitely not the main ambush.

Luo caidie shook her head."I don't know. It hasn't been long since I came to the underground Devil's Den. I didn't receive many orders and news. I was mainly responsible for luring familiar Masters here to die!"

"Therefore, I only know the General Plan, but I don't know the details. These people are almost the same as me, so they won't know more!"

Speaking of this, Luo caidie sighed with some self-pity.

Lin Yi felt his head hurt.

The teams in the other directions would definitely not be able to inform them in time.

But the problem was that even though the darkness magical beasts said that there was a scheme, it was actually an open scheme. The bait they threw out was real!

The transition space had shown Lin Yi and the artifact language that the dark Demon beast's plan was feasible. After understanding this, neither Lin Yi nor the artifact language could just sit back and watch the dark Demon beast carry out its plan.

regardless of whether it was a trap or not, they had to jump in. even if they knew it was a trap, they had to fill it with their heads!

this was an open scheme!

at this point, lin yi had a very bad guess in his heart, but he didn't have time to confirm it.

"we must destroy the darkness demon beast's plan! this matter had to be done no matter what. he knew it was a trap, but he still had to step on it! Luo Caidie, go out and inform the language of the living beings to take the main force to camp temporarily. don't underestimate the enemy!"

Lin Yi pondered for a moment before making a decision. "I'll temporarily seal these people in the stone forest's trapping array and add another array. you can bring some people back later to take them out and keep an eye on them. "

Because none of them had Wu Linghai, Lin Yi couldn't deal with the brainwashing problem as easily as he dealt with Luo Caidie. He could only use his Wu Linghai to temporarily seal the seed of instant death.

When he had free time in the future, he would study how to solve the brainwashing problem of the Warriors without Wu Linghai.

Lin Yi said as he moved her into the trap formation, added another trap formation, and taught Caidie how to get in and out.

"Don't tell me you want to go in and investigate alone? It's too dangerous!"

Caidie wanted to say that she would go with him, but Lin Yi interrupted her before she could.

"It's safe for me to go alone. It'll be troublesome if I bring others with me. Listen to me and find the language of the living things. Tell him not to come in and wait for my news!"

Lin Yi said quickly, but he suddenly remembered that the language of manifestations didn't necessarily believe Luo caidie!

The artifact language also knew that Luo caidie had been brainwashed, so he had to find a way to let the artifact language understand the fact that Luo caidie had recovered.

However, there was a secret-only Lin Yi and the language of living things knew about the secret agent token!

So he took out a piece of paper and wrote "dark" on it, drawing the pattern on the token.

This kind of obscure thing, ordinary people couldn't understand it at all, let alone fake it!

Only those who paid close attention to the token would understand where these patterns came from.

"When you find the artifact language, give this to him. He will believe everything you say! Remember, wait for my news! There's one more thing. Although we might not be able to make it in time, you should tell the language of the monsters that the other routes are all traps and ask him to send someone to contact them. "

Lin Yi gave the note to caidie and urged her to leave as he walked in the direction she pointed.

Very quickly, Lin Yi found the entrance to one of the dark Demon beast's spatial portals.

Surprisingly, there weren't any defenses here, and Lin Yi went in without a hitch!

Perhaps the darkness magical beasts didn't set up any obstacles at the entrance to lure the enemy in.

After entering the transition space, Lin Yi used his spirit sense to extend out and found that the space was indeed huge. If the last transition space was a small town, this one was a big city.

If the darkness magical beasts really managed to open up the spatial node, this place would be able to hold an Army of millions of darkness magical beasts!

And in the center of this space, there were thousands of shackled human cultivators working hard to build a huge teleportation array. There were only a few dozen darkness magical beasts guarding these humans.

"Who's there?!"

The dark Demon beast on duty nearby immediately noticed Lin Yi coming in from the entrance and rushed over, "Password!"

Password?

The darkness creatures were still playing this trick!

Lin Yi didn't panic at all. He cursed in his heart and used his spirit sense to collide with the darkness demon beast, stunning it.

Lin Yi took the chance to dash to the beast's side and asked in a deep voice, "Password!"

"Dark revival!"

The darkness demon beast subconsciously replied to Lin Yi's words.

Chapter 8437

lin yi's mouth twitched. dark revival? he's quite ambitious!

he didn't know if the dark goddess that the dark priests had predicted was really about to awaken!

if such a dark goddess really appeared, it would not be a good thing for the human warriors on the sub-island.

after getting the password, lin yi used the same trick again-he used the soul-hooking hand to pull out the dark demon beast's soul and lock it in the jade space. he then entered the dark demon beast's body in his witcher form and put his own body into the jade space.

this way, not only could lin yi disguise himself as a dark demon beast, he could also use the opportunity to get closer and scout, and he could also save his life in critical moments!

the sorcerer spirit body was much more convenient to escape than a physical body.

fortunately, there were no other dark beasts nearby, and lin yi was fast. he finished his disguise almost instantly and turned into a dark beast.

A few steps later, a Dark Demon beast ran over and yelled at Lin Yi,"What were you shouting about, karouge? Did you find something? Are there humans coming?"

"No, I accidentally saw it wrong!"

Lin Yi didn't see any other dark beasts around, so his name was probably karuji!

He didn't know what the name of the darkness magical beast was, could it be a tree stump? One was stuck on the road, one was stuck on the tree stump, and the other was stuck on the road. Three good Brothers!

Of course, if he searched the soul of the real karouge and obtained his memory, it would be more secure for him to disguise himself.

However, Lin Yi didn't have the time, and he didn't really want to break into the enemy's base. This was just a temporary identity, and he'd change it if he couldn't.

After all, soul-searching was a burden on the primordial spirit itself, so it was not necessary to not use it.

"I'm mistaken, you just like to make a fuss all day long! But then again, those humans should be arriving soon, right?"

The dark Beast bared its teeth. "A small group of humans will be wiped out by those brainwashed humans. Those who can come here must be the main force of the human race. I'm really looking forward to it. I wonder how many people will come to die this time!"

Lin Yi curled his lips inwardly, but laughed out loud on the surface. He continued, "That won't be a small amount! Maybe they're coming out in full force, and we're just a few cats, we definitely can't stop them!"

"Hahaha, no one expected us to be able to stop them! We're just bait, we'll be finished once we lure them over!"

The dark Demon beast didn't seem very smart, either, but it didn't suspect Lin Yi's identity at all. It treated it as a casual conversation, and since everyone knew about it, there was no need to keep it a secret.

"Do you think the main force of the human race will not take action when they see so many slaves building a huge teleportation formation? I reckon that we don't even need to provoke them. They're going to charge at us while howling. "

"I've heard that there are many experts in the human world. When the time comes, you'll be the first to bear the brunt. If you fall behind and get killed by the humans, don't blame us for not saving you!"

Lin Yi's heart skipped a beat as he laughed, "I'm not slow. Don't fall behind me. I won't stop and wait for you. "

The other party also laughed out loud, then greeted them and turned back in the direction they came from.

Then, Lin Yi's spirit sense went deep into the huge teleportation formation.

On the surface, this huge teleportation formation didn't have any major flaws other than being a little crude.

Sometimes, a larger formation wasn't necessarily better. However, there were also times when it couldn't be refined and could only be built in a larger size. The teleportation formation here was such a case.

To make an analogy, it was like when the computer was first introduced in the secular world, its size was incomparable to that of the portable one later.

However, the darkness demon beast's current construction conditions were limited, so it couldn't make the formation too small. In order to have all its functions, it could only make it bigger.

In fact, when Lin Yi first came in, he used his spirit sense to scan the formation and had a basic judgment. It wasn't anything profound, so he didn't study it further!

But after hearing the dark Demon beast's words, Lin Yi felt that something wasn't right. There seemed to be something wrong with the formation.

As expected, Lin Yi found something when he sent his spirit sense into the ground!

Under this teleportation array, there was already a series of self-explosion arrays!

This self-exploding array didn't have any other complicated functions. It could only gather power to complete an instant explosion. It was a one-time thing, similar to the explosives in the secular world.

However, the power of this formation could not be underestimated. The self-destruction of a single formation was estimated to be able to kill a martial artist at the great circle of the mountain split stage.

Although there were many members of the main team led by the language of monsters, most of whom had passed the mountain-opening stage, they could not withstand the number of self-explosion formations here!

Under the huge teleportation formation, there were at least hundreds of self-destructing formations that were closely connected to each other. A quantitative change would lead to a qualitative change. If these formations were to explode at the same time, even a warrior at the sea splitting stage would be dead.

What was even more terrifying was that there were layers of unknown ores on top of these self-destructing formations!

He'd never seen this before, and he'd never read about it in any books!

It seemed that these ores contained some kind of violent and unstable energy, and they could be used as grenades.

Lin Yi was even wondering how the dark Demon beasts got their hands on the ore. If they were not careful, they might cause an explosion in the mine, right?

Alright, that wasn't the main point. The main point was that once the self-detonation array and these bomb ores were detonated, the huge teleportation array above, along with the humans working there, would probably be turned into fine powder in an instant!

Lin Yi finally understood the dark Demon beast's evil intentions!

They would use the teleportation circle and human laborers as bait to lure the main human force led by the language of the living things over and then detonate it!

Bang!

Everyone had turned into ashes!

Even if there were still some experts who could withstand this kind of explosion, it would not matter. After all, this transit space was a fourth-dimensional space that had been temporarily opened up, and its stability could be imagined.

The power of the huge explosion might even cause the collapse of this space. Once a large number of spatial cracks appeared, no one could survive in such an environment under the heaven breaking stage!

What a ruthless plan! What a vicious plan!

Lin Yi's back was covered in cold sweat after thinking it through.

If it wasn't for the fact that they already knew that Luo caidie had been brainwashed, which led them to beat her at her own game, the darkness demon beast's plan might have really succeeded.

The high-end combat forces within the nado conferred Empire had been annihilated, and the situation in the underground Devil's Den had been completely reversed. The continental martial Alliance simply didn't have the time to mobilize their experts to help and suppress the situation.

#### Chapter 8438

When the nado martial Alliance's forces were depleted, the darkness demonic beasts would take the opportunity to set up the teleportation formation. When a large number of darkness demonic beasts were teleported over, they would be completely finished!

"Karouge, what are you doing here?"

Lin Yi was shocked by the dark Demon beast's plan, and he walked towards the teleportation formation before he knew it. One of the dark Demon beasts asked, "Leaving your post? what are you thinking?"

The darkness demon beast didn't suspect that the current kaluge was a fake, and it was just doing its job to ask.

Lin Yi came back to his senses and smiled, "Oh, haha, I'm just a little nervous. I heard that the main force of the human race is approaching and will be here soon. I was thinking about how to escape when the time comes, so I subconsciously walked to familiarize myself with the route."

The dark beast's head was long, and Lin Yi thought that its name was probably ka banran or something. Otherwise, its head wouldn't be sticking out like this.

Of course, Lin Yi didn't dare to ask if it was the name or not, or else he'd use the railing against him ...

"Hahaha, coward, you're already nervous?"

The guy called ka banran laughed loudly, as if he was looking down on Lin Yi's weakness. "If you're nervous, then be nervous. Don't be stupid. The direction you escaped in is that way. If you come here, aren't you looking for death?"

The guy generously pointed Lin Yi in the right direction, saving him some trouble.

"Hehe, you don't know this, but I'm not stupid!"

Lin Yi chuckled on purpose before getting closer to the dark Beast. "I'm just telling you, don't tell anyone!"

Ka guannuan's curiosity was piqued, and he went along with it by moving closer. He even nodded his head in a serious manner, "Don't worry, my mouth is the most tight. I definitely won't tell anyone!"

"That's good. I won't hide it from you. I'm thinking that after the humans come in, their first target might not be the bait we set, but us guards!"

Lin Yi started spouting nonsense with a serious face, trying to get his friend to believe him.

Seeing how his brain was stuck like this, his brain was probably a little blank.

"Although we will run away at the first moment, there are many humans. It's normal for them to send some experts to chase us, right?"

Ka banran nodded his head in agreement.

Ka banran didn't think about it this much before, or perhaps he didn't think much about it at all. Now that Lin Yi pointed it out, he started to have some vague thoughts.

"Think about it, if the human experts wanted to hunt us down, would they hunt down a small shrimp that ran away alone? Or a bunch of targets without a formation? If you were a human expert, what would you choose?"

"Of course we're going after the ones with the numbers!" Ka banran replied without hesitation. What's the big deal with one or two fish that slipped through the net ..."

As soon as the words came out of his mouth, he showed an expression of sudden realization. "That makes sense! We're the closest to the humans. If we run with everyone and the humans chase us, we'll definitely be the first to die!"

"That's why we have to do the opposite. We'll choose a route that no one will run to. That way, our chances of survival will be greater!"

Not bad!

Lin Yi nodded as he listened, thinking that this guy was quite cultured, saying things that went the opposite way. It was a pity that his brain was too square, and he couldn't think straight.

how could they believe this kind of kid-talk? didn't they know that the route Lin Yi was taking now was a route that human martial artists would have to take when they got close to the teleportation formation?

if you really ran in a strange place, everyone would be busy, and they wouldn't specifically chase after one or two fish that escaped the net.

but you're standing in the path that they must pass through, so how can I not kill you along the way? do you want me to keep you fat for the new year?

"smart! this is the logic!"

Lin Yi laughed in his heart, but he didn't stop complimenting, "That's why I'm going to walk around and see how to run the most reasonable and safest way! I'll tell you what I've learned later, and we'll run together. Remember, don't tell anyone! Two people is just right. Any more and it will attract the attention of the humans!"

"I understand! You're really a good brother! Hurry up and go!"

Ka banran was very happy, grateful to Lin Yi from the bottom of his heart. But when Lin Yi was about to leave, he still said, "Kalouge, the rules can't be broken. If you want to go over, let's go through the process. Password!"

"Haha, you're really loyal to your duty. You're following me to this, Dark Renaissance!"

Lin Yi said the password with a smile. He was afraid that he'd need to do something with the password, so he made it sound like a joke. Even if he missed something, it wouldn't raise any suspicion.

As expected, ka banran didn't suspect anything. He smiled as he sent Lin Yi off.

As Lin Yi got closer to the teleportation formation, he avoided the guards on purpose and didn't face them directly. At most, he would nod and greet them from a distance.

After a while, Lin Yi got close to the teleportation formation.

The shackled human warriors were expressionless and numb, not caring about the darkness demon beast at all.

At most, they would subconsciously avoid Lin Yi when he got close to them, so that they wouldn't bump into the dark Demon beast guard and get beaten up for nothing.

Lin Yi didn't have time to care about them now. He carried kaluge's body all the way to the teleportation formation and let out a breath of relief. Finally, there were no other dark beasts coming to cause trouble for him.

The dark Demon beasts weren't on the same team as Carouge, and they weren't interested in Lin Yi.

After all, there were thousands of human laborers to look after here, and these dark beasts didn't have the time to care about what their companion was doing.

Although it didn't seem like it was dangerous, Lin Yi still found a corner and stood with his back against a pillar.

It was a dead end, and the dark beasts wouldn't notice Lin Yi unless they were on purpose.

The human workers could see Lin Yi, but they didn't dare to look at him. This was the best location, however.

Lin Yi leaned his body against the pillar, making sure he wouldn't fall. He put on a serious face and pulled his spirit out of his body, entering the ground of the teleportation formation.

Lin Yi didn't take the risk to come in here just to destroy the self-destructing formation.

This was a good thing, what a pity it would be to destroy it?

As long as he controlled the timing of the explosion, it would be fine!

And so, Lin Yi decided to do it himself, making some small changes to the self-destruct formation.

One-time use formations like this were powerful, but changing them was as easy as flipping his hand.

#### Chapter 8439

He didn't even need to remove the original settings-he just had to change it a little, and the control of these self-destructing formations would be transferred to Lin Yi.

With this, even if the language of the living things led people to rush in and rescue the human laborers, there would not be any accidents.

The Sorcerer spirit body moved quickly, and the hundreds of overlapping formations were changed in just a dozen seconds.

With that done, Lin Yi left the area and returned to his body.

Blinking his eyes, he put away his stern face and walked out of the teleportation formation area as if nothing had happened.

The darkness creatures didn't know that in just a few seconds, the spell formation had become the enemy's weapon.

Even if the dark Demon beast noticed Lin Yi's disguise, it wouldn't be suspicious. After all, Lin Yi only leaned against the pillar for a short while, what was the big deal?

Lin Yi didn't go back the way he came from after leaving the teleportation formation. He followed the direction the guard pointed in.

They did bump into other dark beasts along the way, but Lin Yi did the same thing-he avoided them if he could, and greeted them from a distance if he couldn't.

If it really doesn't work, just give the password, it's no big deal!

These darkness magical beasts would never have thought that after so much scheming to send spies to the humans, a human would actually be a spy in their darkness magical beast skin.

And he even swaggered around, he was really too arrogant!

The arrogant spy Lin Yi wasn't nervous at all-he looked around as he walked, and what surprised him was that other than the giant teleportation formation, there weren't any other ambushes in the area!

It was probably because the darkness magical beast felt that the power of the self-destruction under the giant teleportation formation was already strong enough, and there was no need to arrange anything else.

This was probably the limit of the darkness demon beast race, and they couldn't come up with any more complicated formations!

From what he could see, the spell formations that the darkness magical beasts were good at were all big and rough spell formations. The small and delicate spell formations that were hidden might not be their cup of tea.

"What are you doing? Why are you here?"

In the end, Lin Yi was still stopped!

One of the dark beasts didn't seem to know Lin Yi, so it jumped out to block him seriously, "Go back to your post and carry out your mission! Who gave you the authority to go around?"

"I'm here to report that the main force of the human army is about to arrive ..."

Lin Yi came up with a random excuse, not caring if the other party believed him or not.

But then again, this was the truth. He shouldn't not believe it.

"There's no need for you to report, just execute the plan! Hurry up and go back to your post! If you dare to delay any longer, be careful and punish them!"

The dark Demon beast interrupted Lin Yi's words with an iron face and drove him away again.

Lin Yi's mouth twitched-he knew that he might've run into a small leader, and this was his limit for someone of his status. If he wanted to continue ... He'd have to change his body!

What's the big deal!

Soul snatching hand!

The darkness demon beast's expression instantly turned dull, and its body also stiffened, turning into a lifeless shell.

Lin Yi's Witcher spirit body came out of karluge's body and went back into the dark Demon beast's body, putting him back into the Jade space.

The entire process took less than a second, and karouge disappeared, leaving only the darkness demon beast with its primordial spirit.

Lin Yi only dared to do something like this because he didn't see any dark beasts around with his spirit sense. If there were other dark beasts, what was the point of pretending?

He felt the control of his new body and found that it was similar to that of karouge.

Anyway, it was not the first time he had possessed a body, so he was familiar with it. After getting used to it, he continued to stroll forward.

In fact, Lin Yi's target wasn't far away. It was the exit of a space tunnel, similar to the entrance Lin Yi came in from, but he didn't know where it led to.

It probably wasn't a spatial node that connected to the darkness demon beast tribe. If that was the case, the darkness demon beast tribe wouldn't need to use this as bait, and would just directly send out their Army to counterattack.

As such, this tunnel was most likely another part of the underground Devil's Den, and it was used as bait for the darkness magical beasts to retreat.

Lin Yi walked quickly to the exit and walked in without hesitation.

"Why did you come in, calinus? Have the humans arrived? Did the plan go smoothly?"

The moment they passed through the tunnel, Lin Yi heard the dark Demon beast's voice before he could even observe his surroundings.

From the sound of it, the magical Beast of Darkness that had possessed him this time was actually called calinus. As expected, it had the surname 'ka'!

He just didn't know what Linus was. It didn't sound as good as using tree stumps or railings!

lin yi maintained his composure as he thought about all these things,"the humans haven't arrived yet. i'm only here to see if there's any problem with the passage. if there's a problem, it'll be troublesome if we can't pass through."

as he spoke, he quickly extended his powerful divine sense and was immediately stunned by what he saw!

this should be an area of the underground devil's den, but he didn't know the exact location!

this place was much larger than the previous transit space, and it had already been built into a stone city by the darkness demon beasts!

there were all kinds of dark demon beasts from different races gathered in this stone city. lin yi scanned with his spirit sense and found that there were at least a million people!

this number of millions did not include the small races such as rats and ants!

the total number of human elites gathered by the language of the living things was less than 10000. although they were all very powerful, it was impossible for them to fight against such a large number of darkness magical beasts!

in this rock city, there was also a teleportation array under construction. this teleportation array was not as large as the transit space outside, but it was more sophisticated.

This made Lin Yi a little worried. It seemed that the dark Demon beasts didn't only know how to build rough formations, but they also knew how to build precise formations. They were doing a bigger job in this city.

There was a huge formation in front of them, and after it finished trapping the human warriors, there was a teleportation formation behind that could teleport the darkness magical beast Army to counterattack on the ground!

It was really a good plan, one link after another!

Lin Yi felt that the mastermind behind this was a genius, and he had to be killed!

Even on the human side, there were very few people who could match this kind of strategic ability, especially when the darkness magical beast was the one in the dark and had the initiative!

Chapter 8440

In addition, the other side also had many transformed magical beasts and brainwashed human spies working with them. Even if they had an equal master, it would be difficult to make an effective response.

For example, if Lin Yi didn't discover the dark Demon beasts 'real plan by accident, the human elites gathered by the language of transformation would've been wiped out!

By the time the artifact language's Army was annihilated, the dark Demon beasts 'teleportation portal was almost completed!

Even though he wasn't sure if the teleportation formation had any flaws or restrictions, and what level of darkness magical beasts it could teleport, even if they were only earth creation stage darkness magical beasts, as long as there were enough of them, it would be enough to overturn the nado martial Alliance.

Lin Yi's mind whirled, and he understood many of the problems. The dark Demon beast, on the other hand, was very unhappy with Lin Yi's words.

"Calinus, what do you mean? Is being a small team leader too arrogant or what? Are you trying to say that we will close the passageway and sacrifice all of you? Even though you guys are bait, I've already made it clear that I'll give you guys an escape route. There won't be any danger at all, so what's the meaning of you coming over now?"

Lin Yi calculated in his mind-this person should be a lower ranking official than calinus, or someone of the same rank but not in the same Department. But no matter what, it didn't matter!

Lin Yi laughed it off, "it's nothing. It's not that I don't believe anything. I just wanted to confirm it to be safe. Why are you so nervous?"

"Forget it, I'll go back to my post! I won't waste my breath on you!"

Lin Yi knew that the more he said, the more he would lose. There were dozens of dark beasts guarding the entrance, unlike "it" on the other side of the tunnel, so he decided to go back.

In any case, the situation of this place was already clear, so there was no need to go in to investigate anything. It would be the same no matter how much he looked!

"Wait! Calinus, you don't seem to be right!"

The darkness magical beast that had just spoken suddenly spoke, and even asked the darkness magical beast beside it, "Don't you guys feel the same way? Isn't calinus a little strange? Although I can't put it into words, it's a little strange!"

Lin Yi's heart skipped a beat. After all, he didn't search Carinus's soul and didn't know his memories. The tone of his voice and body movements would definitely be different.

The unfamiliar darkness demon beast definitely wouldn't notice this. After all, with the aura of the darkness demon beast here, who would suspect that it was actually a human's primordial spirit?

However, if he encountered a familiar darkness magical beast, it would be hard to say, as he would be exposed sooner or later.

But Lin Yi didn't expect the dark Demon beast to be so sharp. It had only said two sentences and it already noticed something was wrong?

The surrounding darkness magical beasts might have recognized calinus, but they were not very familiar with him, so they all shook their heads. "No, what's so strange about it?"

"I don't think it's strange! The smell on calinus' body is very unique. I like it so much that I can smell it even if it's burned to ashes ..."

.....

Lin Yi's face darkened. It was stinky, but it was unique ... This stinky habit of yours was quite unique too!

"Is that so? Am I the only one who feels strange? Although it's calinus, it's really a little strange ..."

The darkness demon beast was still a little confused, not knowing whether to believe its own judgment or everyone's eyes.

Lin Yi was panicking-this wasn't a good time to reveal his identity!

A single person facing a million darkness magical beasts ... Although the Sorcerer spirit body should not die, it was still very terrifying!

In particular, the language of manifestations had not received any news about him yet. Without any preparation, he would probably be killed by the attack of a million darkness magical beasts!

As for the thousands of human captives in the transit space, they were also dead!

"Dark revival!"

Lin Yi's face turned serious as he shouted the command, and the surrounding dark beasts followed subconsciously, "Dark revival!"

Rather than a password, it was more appropriate to call it a slogan!

Lin Yi laughed to himself as he put on a serious face, "Please continue to hold your posts. I'll go back first!"

With that, Lin Yi turned and entered the tunnel, not giving the sensitive beast any more chances to suspect him.

The dark beasts stopped suspecting Lin Yi after shouting their slogan for a while.

Lin Yi's improvisational performance at the end fit his personality perfectly, and the weird part disappeared.

After exiting the tunnel, Lin Yi spread out his spirit sense to make sure there were no dark beasts nearby. He turned around and put karinus back into the Jade space.

Carrying karouge's body on his way back, there was no more trouble!

Even if they were seen by other darkness magical beasts, they wouldn't say anything. After all, they had to guard against humans who came in from the outside, not their own kind who was wandering around.

As they were about to reach the entrance, the long-faced guy Lin Yi suspected to be ka banran stopped him again.

"Karouge, have you found the route? How was it? There's no problem, right?"

This thing was obviously not a qualified darkness magical beast. It was extremely afraid of death. As expected, there were always people who were afraid of death and looked at death calmly!

Lin Yi had only been joking around before, and he'd forgotten about it if this friend hadn't mentioned it.

"There's a problem! I was wrong just now!"

Lin Yi continued with his bullshit, "Our route of retreat is a straight line. It is the fastest and most convenient choice. The route I thought of earlier, however, would take a long detour. In the end, we would still have to return to that line."

"Think about it, we dodged the first wave of pursuit. If we want to escape, we still have to face the group of people who are chasing us, right? That's why the idea of taking a detour is not reliable at all!"

Lin Yi sighed in disappointment.

Ka banran, on the other hand, was dumbfounded. Damn, this makes so much sense! But that didn't seem to be what he said before!

So, which one was right? It all seemed to make sense!

Lin Yi sighed, "so don't think too much about it, just run as planned!" As long as you run fast enough, the enemy won't be able to catch up with you. This is better than anything else! If I didn't go and confirm it, I wouldn't have been able to figure this out!"

Ka banran nodded in agreement, but then he felt that something was wrong. He looked at Lin Yi suspiciously. "Karouge, you're not trying to fool me, are you?"

Lin Yi blinked. Was this guy's brain working? He actually knew that I was fooling him?

But the square-headed card instantly showed its true colors, proving that Lin Yi was overthinking things. "Karouge, you don't want to take me with you, do you? do you want to run alone? Is that why you're lying to me?"
