

Bodyguard 8441

Chapter 8441

Lin Yi's mouth twitched. He didn't know if he should laugh or cry. It was hard to erase the first impression!

Lin Yi's nonsense from before left a deep impression on him, and he didn't want to believe Lin Yi's words anymore.

"Why would I? If I didn't want to take you with me, how could I have told you my plan in the first place?"

Lin Yi didn't know what to say, but luckily he was clear-headed and logical enough to convince the man with one sentence. "If you still don't believe me, you can just follow me when I run!"

"Oh, right! There won't be a problem if I keep an eye on you! I don't think you're lying to me! I'm behind you, your escape route definitely can't escape my eyes!"

Ka Lan's friend thought that he was smart and immediately became happy.

Lin Yi almost cried from the stupidity of the other party. When running, it was a competition of who was faster. There was no need to be faster than the enemy, as long as you were faster than your companion, you would have a chance to save your life.

If you F * cking run with me, that means you're giving up the advantage of running first. If you don't die, who will?

Forget it! Lin Yi didn't care about the dark Demon beast's life or death anyway-it was up to him!

"Yes, yes, yes, you're right! Hurry back to your post and don't let anyone find fault with you. I've wandered around for a while, so I'm going back to my post!"

Lin Yi didn't even bother to say anything else and turned to leave!

Fortunately, this friend of his had already gotten the answer he wanted and let Lin Yi go.

At the entrance of the tunnel, Lin Yi's Shaman Spirit body left karuji's body, leaving behind an empty shell to put on an act. Lin Yi went through the tunnel and returned to the underground cave.

After passing through the ruins, Lin Yi saw the main force led by the language of monsters.

the monsters were only stationed here for a short time, so they did not set up any camps, but they maintained a tight formation.

after all, they were in an area controlled by the darkness magical beasts, and they had to be vigilant!

especially the yu lin army, which was made up of the combat association's original battle generals. they were even more majestic and strict, with the aura of a strong army.

lin yi released his body and possessed it as he walked towards the language of living things.

the nearby generals naturally made way for lin yi when they saw him. he found the language of monsters without even reporting to the generals.

luo caidie had stayed with monster language after delivering the news. gui shen, wang ba, and gao zi, who lin yi had met earlier, were also in the team, but they were at the alliance academy and weren't with luo caidie.

"Brother Sima, you're finally back! How was the investigation? was it the darkness magical Beast's Lair? How strong is the other party?"

The beast's face lit up with joy as it saw Lin Yi walking over. It stood up and asked Lin Yi immediately.

"Brother Hua, I've sneaked in and scouted the area. There really is a huge spatial transfer hub here, many times larger than the one we destroyed before."

Lin Yi replied casually and nodded to the people around him.

Other than Luo caidie, Lin Yi's two most trusted men, Zhang Yiming and Fei daqiang, were also there. There were also a few of his trusted followers from the language of monsters.

"In that spatial zone, there are thousands of human cultivators who have been captured and enslaved by the darkness demon beasts. They've been ordered to build a huge teleportation formation, which is probably used to connect to the spatial node of the darkness demon beast clan."

"If they succeed in building it, many darkness magical beasts will be teleported over from the unknown tribe of darkness, and that transit space is enough to accommodate a terrifyingly large number of darkness magical beasts! Not to mention the nado conferred Empire, even the Wutong continent wouldn't be able to defend against such a large Army of Darkness magical beasts!"

Lin Yi didn't exaggerate or hide anything-he was just telling the truth.

"What!"

Hua Yu's expression became extremely grave and she lowered her head in thought,"In that case, we must destroy this giant teleportation formation! If possible, I want to destroy this transit space as well!"

"Brother Sima, how many darkness magical beasts are there? Such an important place must be heavily guarded, right? Do we have enough people?"

There was one more thing that the artifact language didn't ask. Luo caidie had already sent a message saying that this operation was a trap set up by the dark Demon beasts. Even if the other party had an open plan, they had to stop it even if they weren't confident.

What the artifact language wanted to ask was whether their next move was still within the darkness demon beast's plan.

To the language of the living things, life and death were not scary. What was scary was this meaningless sacrifice!

If everything was going according to the darkness magical beasts 'plan, it meant that no matter what kind of bait was set, they wouldn't be able to eat it.

"There aren't many darkness magical beasts in that transit space, far fewer than the human captives. There's only about one-tenth of the number of human captives,"

It was the truth, and Lin Yi didn't need to hide it.

However, Lin Yi didn't mention the self-destruction formation or the powerful explosive ore under the teleportation formation.

There was no need to say this, as it would only cause panic.

Hua Yu nodded. She knew that this was the darkness demon beast's bait!

The giant teleportation formation and the thousands of human captives were temptations that he could not refuse!

If Luo caidie hadn't told him about the possibility of a trap when she met him alone, the language of the living things would have attacked the transit space immediately.

"Boss, it seems that the darkness demon beast didn't send enough people to such an important place! Apart from the darkness magical beasts, are there any other defensive teams?"

Zhang Yiming subconsciously asked, "the transit space we destroyed last time was obviously an experimental space. The space was small, so there were not many Dark Demon beasts. After all, it was human territory. It's normal to be cautious."

"But this time, we're in the territory controlled by the darkness magical beasts, and there's a giant teleportation formation being built. There shouldn't be only a few hundred darkness magical beasts, right? Was it because this was their territory that they were acting unscrupulously? This isn't right, is it?"

Lin Yi looked at Zhang Yiming with a meaningful look and smiled, "Yiming, you're right. Maybe the darkness magical beasts really feel that this is their territory, so these hundreds of them are enough to guard this place."

"After all, thousands of human cultivators have been shackled and shackled, and the material of those shackles is very special. They seem to be able to suppress the use of elemental Qi, so the darkness demon beast isn't afraid of the human captives rebelling."

Lin Yi's explanation made the beast's eyes flash with surprise.

Chapter 8442

Before, when Luo caidie asked to see him alone and took out Lin Yi's note, transformation language believed every word Luo caidie said, including the fact that there was a human spy brainwashed by the dark Demon beasts.

The artifact language had been trying to guess who the traitor was, and from Lin Yi's reaction, it seemed like he was suspecting ... Zhang Yiming?

Lin Yi's words were perfectly normal, but the first impression of the language was already strong enough to make it feel like he was digging a hole.

"Yiming, let's assume that's the reason. There are only a few hundred dark magical beasts guarding the large transit space. How do you think we should act?"

Lin Yi's next question was normal.

Zhang Yiming was Lin Yi's head of intelligence, and he was considered a think tank or advisor-it was normal for him to ask for advice.

The beast language, however, was even more certain that Lin Yi was digging a hole!

Although the artifact language still didn't know where the pit was, it was still a trap.

If Lin Yi had explained the self-destruction formation as well, he'd probably understand the meaning of the transformation language.

Zhang Yiming didn't doubt him even though he didn't understand the language of the living things. He said decisively, ""Boss, if that's the case, we can't delay any longer! We have to attack immediately and sweep through the area with the force of a Thunderbolt to annihilate those darkness magical beasts, save our fellow humans, and destroy the giant teleportation formation!"

"We can't delay any longer, a long night is fraught with dreams! It's impossible that the other party didn't receive any news when our main force advanced into the darkness magical beast's territory. Perhaps the darkness magical beasts have already gathered their forces to launch a counterattack against us while we were discussing this! Therefore, we must act as soon as possible!"

There was nothing wrong with her clear logic and consideration of Zhou Xiang!

If Zhang Yiming didn't know that this was a trap set by the dark Demon beasts, his response would be remarkable. But now, it was completely different.

Thinking back to the series of actions and decisions he'd made, the beast heaved a sigh. He understood that Zhang Yiming, Lin Yi's die-hard fan, had really become a spy for the dark Demon beasts.

This time, before the language of monsters and Lin Yi arrived, Zhang Yiming used the excuse of time constraint to act first and report later. He sent out many scouting teams and divided the targets into many groups.

The language of monsters and Lin Yi didn't have much to do after they arrived, and they left after telling each other that time was tight.

It was only after Luo caidie arrived that the artifact language knew that there were ambushes in several other directions. Although it had sent its confidants to inform everyone, it could only do its best and leave it to fate!

Now that he thought about it, it was indeed Zhang Yiming who had a problem!

The key was that Zhang Yiming's arrangement was perfect without knowing anything. There was no way to pick a fault with it!

Lin Yi's heart was a little sour, a little sad, and a little glad. Since he was sure that Zhang Yiming was brainwashed, he could naturally calculate the time period of Zhang Yiming's brainwashing!

It should be what happened in the five days when Zhang Yiming led the team to the underground Devil's Den to collect information.

At that time, Zhang Yiming's team was completely annihilated, and he was the only one who escaped with serious injuries. He said that his brothers had risked their lives to protect him so that he could escape, but the truth was that he had been captured by the dark Demon beast and brainwashed!

It was no wonder. Zhang Yiming's strength was not high to begin with. There was no reason that he could escape alive after all the Masters died.

Lin Yi's heart was sad because of Zhang Yiming's suffering, but he was glad that Zhang xiaopang was still alive!

Although he had been brainwashed, as long as he was alive, he would have a chance to recover.

"Yiming, you're right. It's been hard on you recently! You should rest for a while!"

Lin Yi said softly and knocked Zhang Yiming out. His spirit sense entered his sea of consciousness and wrapped around the instant death Seed that the dark Demon beast had planted!

Under normal circumstances, doing so would definitely damage Zhang Yiming's sea of consciousness, and that was why Lin Yi only acted after he was sure that something was wrong with him.

But he didn't have the patience for other people. Who cared if they had a problem or not? Just suspicion was enough!

After dealing with Zhang Yiming, Lin Yi just said "excuse me" and knocked out everyone except for the language of manifestations, Luo caidie, and Fei daqiang. He entered their sea of consciousness and searched for any signs of brainwashing.

"Boss, what are you doing?" Fei daqiang was a little surprised.

"Yiming was brainwashed by the dark Demon beast. I'm saving him. I can't be sure about the others, so I have to check it out. Our next plan is very important. We can't let the mole know!"

Beast language could only smile bitterly. Lin Yi needed to confirm with his own brothers before he made his move, but he didn't have the patience for his trusted men.

Of course, transformation language didn't mind. For the sake of humanity, it didn't matter if Lin Yi didn't say anything.

Those who do great things don't bother with trifles!

Not to mention, Lin Yi's real identity was a Diamond Grade secret agent!

Did a Diamond Grade assassin need a reason to attack? Did he even need to inform the subordinate of a dark gold ranked secret envoy in advance?

With this thought in mind, the language of the living beings did not find anything wrong with it! Hence, he asked, "brother Sima, how is it?" Did you notice anything wrong with them?"

Lin Yi frowned as he checked the area, but he relaxed and smiled. "Fortunately, the people around brother Hua are all fine!"

"Boss, boss, why don't I check it out too?"

Fei daqiang blinked, secretly happy that Lin Yi trusted him, but he felt that he shouldn't be special!

As a veteran leg hair, of course, he had to focus on his thigh's will and solve the small problems for his thigh!

Lin Yi glared at him, "What are you doing! You don't have the chance to meet a darkness magical beast alone, and you don't even leave my sight for long. How can a darkness magical beast brainwash you so easily? Besides, with the strength of your divine sense, at this level, who else but me can wash you? Go to the side and take good care of Zhang xiaopang!"

"Alright!"

Fei daqiang was scolded, but he didn't take it to heart. On the contrary, he was very happy. This big brother is praising the strength of my spiritual awareness! So, she smiled and went to look after Zhang Yiming.

Lin Yi woke up a few of his henchmen and cupped his fists to them. "I've offended you just now, because once a person who has been brainwashed by the darkness demon beast is discovered in a clear state of mind, the restriction hidden in the spiritual sea will be activated and immediately kill the person!"

"In order to make sure that you guys aren't being controlled by the darkness magical beast, I can only use this method. I'm sorry!"

Lin Yi's attitude was very sincere, and these people weren't unreasonable people. They didn't have any complaints after hearing that Lin Yi was thinking about their lives.

Chapter 8443

besides, their boss, the monster language, had not said anything. what else could they say?

after a few polite words and expressing their understanding, everyone put an end to this matter.

"next, we'll talk about serious business! what i said just now was the truth, but not everything. "

lin yi's expression turned serious,"under that huge teleportation array, the darkness demon beasts have set up a large self-destructing array. the array is covered with unknown ores. these ores contain violent and unstable energy, and if you're not careful, you'll trigger an explosion."

"With the two combined, the power of the explosion will be even more powerful. I estimate that it will directly destroy that spatial transition! Of course, this is the worst-case scenario. If we make a conservative estimate, that transit space should be able to withstand this wave of explosion, and only some spatial collapses and spatial cracks will appear. "

"The spatial collapse and cracks will repair themselves after the power is released, so it won't have much of an impact on the use of the transit space in the future. Thus, I added some things to the formation. When I gained control of the detonation, it also increased its power by quite a bit. I reckon that it should be able to completely blow up the spatial transition zone. "

The artifact language and the others were all speechless. After all that trouble, the traps and ambushes that the darkness demonic beasts had set up were all for you?

But what if Lin Yi wasn't around? Everyone was very afraid!

Even if the space did not completely collapse and be destroyed, just a part of it collapsing and cracks appearing would be enough to kill all the human ancient martial art practitioners who entered!

None of them were good at spatial abilities, so they couldn't resist the spatial collapse and cracks.

"In addition to this bait, the darkness demon beasts have also opened up a passage in another direction, which is connected to another area of the underground Devil's Den! Over there, the darkness magical beasts have built a Stone City, and have gathered a powerful Army of over a million darkness magical beasts!"

The faces of the artifact language members changed at Lin Yi's words.

An Army of a million darkness magical beasts? Was it that awesome? Were they preparing for the final battle?

"Dean Sima, forgive me for being blunt! If the darkness magical beasts really have such a powerful Army, we won't be their match at all!"

A warrior next to the artifact language said with a frown, ""Since the control of those self-exploding arrays is in Dean Sima's hands, then we might as well just detonate the arrays and destroy that large transit space."

"Our goal shouldn't be to fight the darkness demon beasts, but to destroy their plan to open the spatial node. As long as we blow up the transit space, our goal will be accomplished. The darkness demon beast's city ... There's no need to provoke it at this stage, right?"

This was the mainstream thinking of the conservative faction. Since it was impossible to completely exterminate the dark magical beasts in the underground Devil's Den, it was best for everyone to stay out of each other's way and live in peace.

That was why there was a stalemate in the underground Devil's Den, and there were the so-called human-controlled areas and the dark magical beasts-controlled areas.

Lin Yi nodded. "You're right. Under normal circumstances, the people here aren't a match for the dark Demon beast Army."

"But the darkness magical beasts have set up a trap for us, and we can turn it around and deal with them! It's not like there's no chance. This is what I'm going to say next!"

At this point, Lin Yi revealed a confident smile. He paused for a moment before continuing, "The darkness demon beasts" plan is to use the giant teleportation formation and the human captives as bait to lure us over and then detonate the formation. "

"If we didn't know about it, we might have been fooled, but now that we've seen through the darkness demon beasts' plan, we'll be finished if we don't go along with their rhythm. "

"Brother Hua, after we enter the spatial zone, you can lead the main force to chase down the darkness magical beast guards. Their plan is that after we enter, they will first rescue the hostages, so they will have time to retreat when they see our Army enter. They will leave through another passage."

"In their plan, we will at most send a small group of elites to chase them down. Their main focus will be on destroying the giant teleportation formation and rescuing the captives! However, if we do the opposite, we will definitely be able to exceed their expectations. "

"While the main force is pursuing them, send a small team to rescue the captives and return as fast as possible to leave the transit space. The main force that is pursuing them must not enter the other party's passage."

"Stop at the entrance and pretend to be afraid of an ambush. The darkness magical beasts will hesitate for a moment because our main force isn't near the teleportation formation. If they detonate the formation, they can't guarantee that they can kill us."

"In my calculations, the space near the entrance of the passage will definitely not be affected, because the darkness magical beasts will not blow up their own exit! Therefore, our people are safe here!"

"But for the darkness magical beasts, it's like chicken ribs, tasteless, and a pity to throw it away, so they won't immediately detonate the formation. This also won us precious time to transport the captives out!"

"By the time they felt that they would lose the chance if they didn't make a move and wanted to take a gamble, we had already transferred almost all the captives out! And right now, the main force at the entrance of the passage is the final victory that the darkness magical beasts can grasp. Since they're not confident in killing us, I guess they can only send out a large number of darkness magical beasts to enter the transit space to kill us. "

Lin Yi's speed was neither fast nor slow, his words clear and organized as he explained his plan. The group broke out in cold sweat.

What a good trick for a trick, what a good tooth for a tooth!

Lin Yi didn't finish his sentence, but everyone understood what he meant.

When the darkness magical beasts were deployed, the team led by the artifact language would become the bait to lure the darkness magical beasts!

Lin Yi already said that the dark Demon beasts "self-destruction formation could only destroy the transition space. It was more likely that the space around the explosion would collapse and cause cracks in the space, but it would repair itself very quickly.

And when Lin Yi took control of the formation, he did something to double the power of the self-destruction!

Therefore, everyone present understood the key point!

Luring the darkness magical beast Army to chase after them, and then letting the team led by the oblivion language escape, it would be enough to lure a large number of darkness magical beasts from the opposite tunnel!

At this time, Lin Yi directly detonated the self-explosion formation!

Chapter 8444

The entire transit space was finished, and the darkness magical beasts that entered the transit space were naturally finished as well!

It was perfect!

And it was ruthless!

The darkness demon beast had shot itself in the foot!

"Since brother Sima has already considered this so thoroughly, then let's act according to the plan!"

The artifact language supported Lin Yi's decision after he finished, "I'll personally carry out the mission of leading the main force in pursuit. Brother Sima, it's more suitable for you to go and rescue the human ancient martial art practitioners. "

The giant teleportation formation was a formation, after all, and there were so many self-destructing formations below. Although Lin Yi had the control of the self-destructing formations, it was still safer for him to go!

It was to prevent people who didn't understand from mistakenly activating the self-explosion array, which would be a big joke!

Lin Yi nodded. "No problem. Brother Hua, you just need to put on a good show of chasing. When you reach the exit of the tunnel that the dark Demon beast escaped from, put on a hesitant look. When the dark Demon beast realizes something is wrong and starts to attack from the tunnel, you'll run."

"In terms of timing, I'll also give you a signal. When I'm almost done with the rescue, even if the darkness magical beasts don't attack, you can slowly retreat and lure the darkness magical beasts to chase you."

Lin Yi continued.

Hearing this, Hua Yu nodded and made an understanding gesture. She asked, ""Brother Sima, you said that the other side of the passage is a city built by the darkness magical beasts. Although our plan has the chance to kill a large number of darkness magical beasts, the city will not be damaged at all. Is there no way to destroy the other side?"

Leaving behind such a large rock City was equivalent to giving the darkness magical beasts a base to regather. The artifact language could not be at ease.

In fact, Lin Yi had the same idea. After all, there was a teleportation formation still being built in the stone city!

If he just let it be, he might really be able to let the darkness demon beast clan open the spatial node!

More importantly, Lin Yi felt that destroying the city and the teleportation formation was only a temporary solution. As long as the dark beasts wanted to, they could start all over again!

So, if possible, he had to find and kill the darkness magical beast that was in charge of this plan, opening up the spatial transition area, and building the teleportation formation!

"Brother Hua can rest assured, this little brother already has an idea in mind, but it's not too mature yet, so I won't bring it up for discussion. We'll talk about other things after the first part of the plan is successfully completed!"

Lin Yi didn't want to go into details, and the monster language didn't ask further out of trust.

"Alright, let's not delay any further. Let's get moving!"

Monster language clapped his hands and immediately ordered the Army to prepare for war. His confidants immediately went out to organize the troops.

Boss, what about Zhang xiaopang?"

Fei daqiang asked Lin Yi. He didn't want to look after Zhang Yiming all the time. It wasn't easy for him to get a chance to show off his skills, so he had to stay by his side.

In the past, he had been working in the logistics department. Now, the Imperial Guards could be said to be a strong Army that he had raised. It was a waste of talent to stay in the rear and serve Zhang xiaopang!

"Find two reliable brothers to take care of Yiming. Then, you will lead the Imperial Guards and follow brother Hua!"

Lin Yi made the arrangements casually. Other than himself, Fei daqiang was indeed the most suitable person to lead the Imperial Guards!

Since the monster was going to chase after the dark Demon beast, the people under it must have a certain level of resistance and combat ability. It was safer to have the elite Yulin royal guards follow the monster.

However, the Yulin royal guards were not the bodyguards of the language of monsters. Although they would not disobey orders, it was better for Fei daqiang to lead them for a transition.

As for rescuing the captives, they didn't need any elite martial artists at all. Just a portion of the weakest people would be enough!

Fei daqiang wanted to follow Lin Yi, but he was sent to the language of living things instead. He was a little disappointed.

However, after thinking about it, he realized that the language of the living things would have to fight against the darkness magical beasts. He could finally display the combat power of the feathered forest guards, and Fei daqiang felt a little better.

The team that was stationed there quickly took action. It did not take long for them to pass through the ruins and arrive at the entrance of the tunnel under the leadership of the monster language.

Lin Yi was the first to enter, putting kaluge's body into the Jade space.

Lin Yi scanned the teleportation formation with his spirit sense and made sure that he was able to control the self-destruct formation. He then sent a signal for the monster language to bring the main force into the transition space.

If they weren't sure, and everyone rushed into the transfer space, only to find that the control of the self-exploding formation had been taken back by the darkness demon beast, that would be a joke.

Fortunately, there were no such accidents, and everyone successfully entered the transit space.

They hadn't attacked yet, and Lin Yi had taken away kaluge, who was supposed to be an observation post, but their movements still caught the attention of the dark Demon beasts.

There was no need to pretend. Facing the most elite main force of the humans, those darkness magical beasts didn't say anything and immediately started to run like wolves and run like rabbits, flying towards the other passage in unison.

It was as Lin Yi had investigated-these dark beasts all had a unified plan.

"Brother Hua, let's act according to the plan!"

Lin Yi waved his hand and led a group of the weakest martial artists to the teleportation formation to save the human laborers.

On the other hand, the artifact language led all the main forces, including the Yulin royal guards and the combat Association, to chase after the hundreds of dark magical beasts.

For a time, the transit space was filled with deafening battle cries and murderous auras!

The darkness magical beasts were a little dumbfounded. They had originally followed their plan and retreated step by step, but in the end, they found that the human warriors didn't put their main targets on the giant teleportation array and the human captives as they had expected, and they immediately panicked.

The dark magical beasts that were running away were probably screaming in their hearts, "big bosses, the humans are crazy! If they don't act according to the script-we're going to die!"

"Kill! Don't hold back!"

The artifact language took the lead and quickly caught up to the darkness demon beast's tail. It shouted coldly and killed the last darkness demon beast.

Coincidentally, the first Dark Beast that Lin Yi killed was the long-faced Dark Beast, ka banran!

As ka banran was the closest to the entrance and his strength was relatively low, he could not outrun the elite human martial artists led by the language of the living beings. He became the first victim.

However, he was still lamenting when he died. That guy, karouge, didn't even have time to send a signal. He probably died the moment the humans entered!

What a waste of that kid kaluge's efforts to investigate the escape route, it was all for nothing ...

he was right-kaluji did die the moment lin yi came in, but the timing was different.

Chapter 8445

The elite human warriors followed closely behind Hua Yu, killing the darkness demon beasts as if they were cutting vegetables.

One side was the strongest elite, while the other side was the bait and cannon fodder. They were not on the same level at all.

Even though the darkness demon beast had tried to run away, it could not escape the pursuit of the artifact language and the others due to its speed.

By the time they ran back to the exit of the other passage, the hundreds of darkness magical beasts had been killed, and only the fastest 30 to 40 were left.

The survivors didn't even dare to look back as they rushed into the tunnel!

"Stop!"

The artifact language ordered the team to stop near the tunnel as Lin Yi instructed.

Then, the monster language pretended to be serious and suspicious, looking at the entrance of the passage.

The last darkness beast that entered the tunnel suddenly realized that the monster had stopped chasing, and it had the courage to look back.

However, when he saw the monster language's hesitation, he felt a little relieved.

If the artifact language continued to pursue them, the last few darkness magical beasts would probably not have the chance to escape through the tunnel.

At the same time, Lin Yi was already at the teleportation formation, rescuing the captives. Thousands of captives might seem like a lot, but as long as he unlocked their shackles, he'd be able to restore some of their bodily functions and combat power.

With their mutual help, their speed was also very fast.

These captives had obviously not been brainwashed, and it seemed that not everyone could be brainwashed.

Perhaps brainwashing wasn't easy, so the high priest of the wilderness would choose valuable and powerful humans to brainwash.

As for the ordinary human ancient martial art practitioners, they would be chained up and become slave laborers.

Lin Yi's rescue mission was completed when the language of the living things stopped at the exit for about a minute. Everyone started retreating in an orderly manner.

Lin Yi didn't leave with them-he decided to set up some illusionary formations on top of the formation.

Although it wasn't a very high level, from a distance, one would think that there were many human cultivators gathered here, about the same number as the main force and captives.

After settling all these, Lin Yi quickly made his way to the language of monsters, sending out the retreat signal before he even arrived.

When the monster saw the signal, it immediately turned around and left with its main team without any hesitation.

When they left the tunnel, Lin Yi came from the other direction, turning into karuji and entering the tunnel.

At the other end of the tunnel, the dark demonic beast Army had already gathered and was ready to give chase when they saw Lin Yi in disguise. The dark demonic beast at the front was surprised.

"You should be the Sentry closest to the humans, right? Why are you still alive?"

The leader of the dark magical beasts obviously didn't know the name of Carouge, but he knew where he was!

So out of the hundreds of dark magical beasts that were acting as bait or cannon fodder, kaluge should have been the first to die, but now he was still alive. How could it not be strange?

Lin Yi had intentionally made some wounds on his body before coming in-they weren't too big or too small, and looked like they were bleeding, but they wouldn't affect his movements or kill him.

"My Lord, when I discovered the tracks of the humans entering in large numbers, I ran to the teleportation array because I was in a panic. I didn't expect that the main force of the humans would keep chasing in this direction, and only a few people went to the teleportation array to rescue the slaves!"

Lin Yi started bullshitting with a serious face,"I didn't dare to go in the direction of the human forces, so I took a big detour. That's why I've come back now,"

"When I arrived here, I just happened to see the main forces of the humans moving to the teleportation portal. They probably don't dare to enter the passageway and only want to destroy the teleportation portal and take the human captives away."

The leader of the dark beasts was still suspicious, but he couldn't find anything suspicious. He could only ask Lin Yi,"All the human warriors are gathering near the teleport formation? What are they doing?"

"Milord, there seems to be a problem with the teleportation formation. Before I came in, I saw that the main force of the human race had gone to the teleportation formation! I don't know what he's doing!"

Lin Yi's original plan was to let the monster language lead the team to retreat and lure the dark beasts to chase after them, but he thought of something else and set up some illusions around the teleportation formation, trying to lure the dark beasts to surround it.

There were a lot of things that didn't need to be said-the information Lin Yi brought back was enough for the dark Demon beast to make its judgment.

"Alright, activate the self-destruction array now!"

The leader of the darkness magical beasts waved its hand, and another darkness magical beast handed over the control array flags to it.

However, after the leader of the darkness magical beasts took the array flags, he felt that something was wrong. He turned around and asked, "Is it this formation flag? Did you take the wrong one?"

The leader of the darkness magical beasts had previously simulated the use of array flags. There was a connection between the array flag and the array, and as long as one held the array flag, they would be able to feel it.

But now, there was no connection at all on the array flag, which made the leader of the darkness magical beasts feel that something was wrong. He subconsciously asked, but felt that it was impossible to have taken the wrong one!

"That's right!"

As expected, the subordinate said with certainty, ""It's this array flag!"

The leading Dark Beast frowned and suddenly panicked. It turned to Lin Yi, ""You're saying that those human ancient martial art practitioners from before all gathered near the transmission array, right?"

"Yes, my Lord!"

Lin Yi, naturally, knew what was going on, but he pretended not to know anything. "My Lord, is there a problem with the formation?"

"There are experts among these human warriors! Perhaps he has destroyed the formation!"

After the leading darkness magical beast said this, it immediately interrupted, "I don't know what method they used to break the formation! He did have some ability to destroy the array but not detonate it. This person must be an array Grandmaster! We can't let such a human expert Live!"

Since the self-destruction spell formation had failed, the initial explosion plan was definitely not feasible. However, the darkness demon beast clan had been scheming for so long, and they were not willing to let the tongue of the monsters and this group of elite human warriors go!

In particular, there were one or even more formation Masters among them!

Therefore, exterminating these human warriors was the only option for the darkness demon beast clan!

"All troops, pursue! Surround and kill the human warriors!"

The leader of the darkness magical beasts no longer hesitated and immediately gave the order!

Thus, the darkness magical beast Army instantly surged into the passageway like a tide.

Chapter 8446

Lin Yi, on the other hand, was covered in injuries, so no one paid him any attention. He was kicked to the side as long as he wasn't in the way.

Lin Yi hid on the side pitifully, but he was very happy as he watched the dark Demon beast Army enter the transition space.

After a little calculation, a conservative estimate would be that there were about 900000 darkness magical beasts that went in, which made up 90% of the total forces in the stone city!

The remaining ten percent was left in the city just in case. At the same time, it was also to ensure the construction of the teleportation array!

Luring the Tiger away from the mountain was half successful-there were simply too many dark beasts gathered here, and it was impossible for Lin Yi to get all of them to come out. He was already super lucky to be able to go 90% of the time.

The self-destruction of the giant teleportation array was controlled by the array flags. The array must have failed first, then the array flags!

As such, the darkness magical beast clan thought that the self-destructing formation had lost its effect, and the darkness magical beast Army that had entered the transit space did not hesitate to rush over and surround the huge teleportation formation!

At this time, the main force led by the monster language and the rescued captives had already returned and left the transit space.

When these darkness magical beasts got close, Bang Bang!

Lin Yi's lips curled into a smile-the formation had exploded!

But Lin Yi wasn't in a hurry. He waited at the entrance for a while, only showing a satisfied expression when he saw some spatial collapses and obvious spatial cracks.

"It's bad! For some unknown reason, the space outside had collapsed! Did the formation lose control and explode?"

After Lin Yi laughed, he immediately put on a panicked look and screamed as he stumbled into the stone city.

"what's going on? what happened?"

the dark demon beast guards at the gate felt the strong spatial fluctuation as well, and they stopped lin yi with an ugly expression.

lin yi covered his face and head in blood, panting,"this is bad ... not long after our army entered the realm, the realm exploded! i didn't go in because i was injured. i just waited at the entrance of the passage ..."

"the explosion in space was too powerful. the entire tunnel entrance collapsed! a spatial rift has even appeared ... our army ... is finished ... finished! hurry up ... hurry up and report it ... hurry ..."

Lin Yi felt like his acting was exploding-it was a Dark Demon beast's body, but it didn't affect his acting at all!

Lin Yi was being a bit deliberate, and he didn't know if that was what he was like before, but who would care about details in a crisis like this?

Plus, Lin Yi was still a heavily injured Dark Demon beast, so there would naturally be someone to report to him.

As expected, one of the dark Demon beasts left in a hurry, and Lin Yi was settled on the side. He quickly bandaged his wound and no one cared about him.

More than 90% of the darkness magical beasts had died along with the transit space. If the commander behind the scenes didn't leave with the Army, he should still be in the city!

If something big happened, these darkness magical beasts would definitely inform this commander at the first possible moment!

So even though Lin Yi was "recuperating" at the gate, his spirit was already following the demon beast, ready to see who was the commander here.

The dark Demon beast was fast, but it couldn't get rid of Lin Yi's spirit sense!

It rushed straight to the half-completed teleportation circle in the middle of the city, found a human-shaped supervisor, and began to report!

This supervisor looked like a very ordinary middle-aged man. He was dressed in a scholar's robe and had a slightly refined temperament. He did not have a fierce and ruthless temperament at all.

He didn't know if this elegant middle-aged man was a darkness magical beast in human form, or if he had been brainwashed by a human, or if he was a human traitor who had taken the initiative to join the darkness magical beast!

"The space exploded and collapsed. The team that went in was completely annihilated?"

When the elegant middle-aged man heard this news, he only frowned. He seemed to be very good at maintaining his composure. "Idiot, you've fallen into the other party's trap! Not only did our secret plan

fail to work, but it was also used by the opponent to deal with us. Ka tu Fei, that bastard, he even foolishly took away 90% of his combat power to chase after us!"

This should be referring to the leading Dark Beast at the entrance of the passage, it was called ka tufei.

And at this moment, Lin Yi was 70% sure that this middle-aged man was the one who designed and directed the dark Demon beast's plan!

as expected, his brain worked faster than the other darkness magical beasts!

the middle-aged man's brain didn't let lin yi down. he suddenly frowned. "you said just now, who brought the news of the complete annihilation of the army? no matter who it is, go back and control this guy! there aren't that many coincidences in this world, but it just so happened to be at the entrance of the passage and witnessed the entire process. it seems that this fellow is very likely a spy for the humans!"

"take it down and interrogate it! there might be some unexpected gains ... also, immediately enter a level one alert state. all the surplus people guard the main roads according to the planned positions. the reason why the humans haven't entered the passages is that they have probably discovered our city!"

"Although the transit space has been destroyed, we still have to prevent humans from finding out the exact location of this city in the Devil's Den. What if humans come from other directions and cause destruction? The most important thing right now was to ensure the smooth construction of the teleportation formation. No suspicious people were allowed to approach this place! Do you understand?"

The elegant middle-aged man didn't speak very quickly. Although his words had a strong sense of command, it didn't give people the feeling that he was oppressing them. The darkness demon beast expressed its understanding and immediately began to make arrangements.

There were still about 100000 darkness creatures left in the stone city.

In a human city, after a million people went to war, the remaining 100000 might be old, weak, sick, and disabled, without any combat ability.

However, this was the base of the darkness demonic beasts, and they were all elites. The remaining 100000 darkness demonic beasts were still a terrifying force!

Lin Yi alone was no match for them. No matter how many cards he had up his sleeve, and how his spirit sense could attack in a large area, he couldn't kill these beasts alone.

He couldn't use force, he could only use his wits!

Lin Yi had found the target he was looking for-the brain of the dark beasts!

As long as he could get rid of this elegant middle-aged man, the darkness magical beast's strategic ability would be reduced by several levels!

It was a pity that he couldn't be sure if this scholarly middle-aged man was also a formation master who had opened up a transit space and set up a teleportation formation.

Chapter 8447

If he was, that would be great. Killing this guy would directly cut off the darkness magical beasts' thoughts of continuing this plan!

Although the success rate of the dark Demon beast's teleportation plan wasn't too high, there was still a chance!

The darkness demon beasts were probably just trying it out, and didn't have much expectations. Otherwise, they wouldn't have used this plan as bait.

The construction of a transportation formation required a very profound space theory, especially for this kind of transportation formation that could cross space and have two-way fixed point transportation. A slight difference could lead to a thousand miles of difference.

Even Lin Yi didn't dare to say that he could set up a space-crossing teleportation formation like this!

If Lin Yi had this ability, he would've teleported to the common world, Sky Class Island, sub-Island, and the ancient martial world already.

The demon beast that reported the news brought a group of demon beasts that were here to capture Lin Yi, but Lin Yi had already left kaluge's body, leaving a body without a soul for the demon beasts.

When they tried to capture the corpses, they could only Capture One corpse.

In this way, the middle-aged man's suspicion had no foundation.

The brother who reported the news was already seriously injured and could not be treated, and you still say that this is a spy? that's too much!

Lin Yi was setting up a diversion-he took out calinus "body from the Jade space when no one was looking and quickly approached the middle-aged man.

The alert order had just been given, and the city was still a little chaotic. Lin Yi's calinus even brushed past the dark Demon beasts that were going to capture kaluge.

As Lin Yi got closer and closer to the teleportation formation, the area behind him started to be restricted. It wasn't easy to pass through again.

The elegant middle-aged man had already gathered eight powerful darkness magical beasts around him, protecting him in the middle. As a wise man, he naturally understood his importance.

Since he suspected that Carouge was a spy for the humans, he would definitely think that the dark magical beast that came to report to him earlier, could it be that he was with Carouge?

At that time, he didn't say that he didn't want to alert the enemy. After the incident, the elegant middle-aged man would definitely strengthen his defenses, so after he issued the order, he immediately mobilized these eight personal guards.

These darkness demonic beasts were all experts at the sea Rift stage. They were powerful, but their brains were relatively ordinary. Therefore, they were very loyal to the middle-aged man and would protect him from harm even if it meant death.

From a distance, Lin Yi could already sense the elegant middle-aged man surrounded by the eight Dark Demon beasts, but at the same time, he felt a faint resistance.

This was a spirit sense defense formation activated by the elegant middle-aged man. Fortunately, Lin Yi was in the form of calinus. If he used his Witcher spirit body directly, he might've been blocked already.

"Stop! What do you want?"

One of the eight sea shattering realm dark beasts noticed Lin Yi and shouted at him to stop ten steps away.

The middle-aged man in the middle turned his head slightly and looked at Lin Yi with cold eyes. There was a faint killing intent in his eyes. He also felt that it was suspicious to approach the dark Demon beasts at this time.

However, the middle-aged man didn't order them to kill Lin Yi.

After all, this was a critical time, and information was extremely important to a wise man. The elegant middle-aged man hesitated, wanting to hear what Lin Yi, in disguise, had to say.

What if calinus was really here to deliver a message?

in any case, in the eyes of the scholarly middle-aged man, there shouldn't be any accidents with the eight sea splitting stage magical beast experts around.

however, accidents often happened inadvertently, and it was precisely because of this that they were called accidents!

lin yi only gave an innocent smile as he sent his spirit sense into the air!

the smiling lin yi didn't have any intention to reply and just sent out his strongest spirit sense vibration, covering the middle-aged man and the eight dark demon beasts.

the spirit sense defense formation wasn't aimed at the inside, and lin yi was already deep inside. he didn't need to worry about breaking the formation at all-his spirit sense landed in the opponent's sea of consciousness without any reduction!

lin yi took advantage of the time when the beasts were feeling dizzy and used his soul-hooking hand to pull the spirits of the middle-aged man and the eight dark beasts into the jade space.

because he forced himself to speed it up, lin yi's witcher spirit body also suffered a bit of backlash, but it wasn't a big problem. he could recover in a flash.

however, this also meant that it was impossible for lin yi to use this method against a large group of powerful enemies.

lin yi didn't let go of the dark demon beasts that had lost their souls, either. they were strong dark demon beasts, after all, and their bodies were full of treasures. he could use them as disguises to sneak into the dark demon beast clan in the future, so he put them all in the jade space.

The refined middle-aged man's body was also successfully stored into the Jade space. This also proved that this guy was indeed a dark magical beast in human form and not a real human.

Otherwise, Lin Yi wouldn't be able to store undead bodies like this.

"There's a spy! Kill him!"

The dark Demon beasts nearby noticed the change and roared as they rushed over from all directions, wanting to surround Lin Yi and capture him.

The elegant middle-aged man was the most important person in this Stone City. The disappearance of the eight sea Rift stage dark demonic beasts and his guardians had driven the surrounding dark demonic beasts crazy!

Lin Yi grinned again and left calinus "body, floating in the air as a Witcher spirit and looking down at the stone city.

"i can't kill so many darkness magical beasts by myself, but i won't hold back on your rock city and teleportation portal!"

lin yi's voice reverberated in the air, along with his carefree laughter, pressing down heavily on the darkness demon beast's heart.

there were quite a few dark beasts that could fly, but they couldn't track lin yi down.

before the laughter in the air stopped, many black dots suddenly descended from the sky, quickly landing on the teleportation circle and various buildings and walls of the stone city.

particle disintegrating bomb!

han jingjing's little trinket was definitely a natural disaster for destroying buildings!

lin yi had gotten used to replenishing his equipment every time he went to han jing jing's place, like these particle bomb disposal. the space in the jade was shockingly big anyway, and he could store as many as he wanted.

killing the middle-aged man alone was already Lin Yi's limit. Without pure qi, it was almost impossible to destroy the stone city. At most, he could only destroy a small part of the teleportation formation.

Chapter 8448

Things were completely different now. Lin Yi could easily and happily be a bomber in the air.

Lin Yi's laughter didn't stop as he watched the teleportation formation and the stone city being destroyed by the particle disintegrating bomb. He couldn't describe the satisfaction he felt.

The dark beasts in the rock city were running like wolves and rabbits, and the dark beasts that had never seen a weapon like the particle disintegrating bomb were in a panic!

Seeing the entire city turn into particles and nothing could stop them, the dark beasts all started wailing and wailing, not even paying attention to Lin Yi in the sky.

Lin Yi didn't bother with the dark beasts anymore. After taking care of the rock city, he left.

"Did you find anything?"

Lin Yi finally had the time to ask about the Jade space.

"The situation isn't too good!"

The ghastly voice came.

The nine infants and Starlight Magus in the Jade space had already interrogated the dark beasts that Lin Yi had captured with his soul-taking hand.

In the end, it was confirmed that the middle-aged man was only the one who made and executed the plan. The construction of the transfer space and the teleportation formation was done by someone else.

And the genius array master who could use the spatial Rift to open up a transit space and then propose to use the transit space to form a new node passage was not in this Rock City!

"Lin Yi kid, you have to catch that array master! No matter the price, we must take him down!"

The ghastly thing gave a decisive order.

It wasn't that the ghostly thing felt that he had to get rid of this person, but because he was obsessed with Space Research, how could he let this space power go?

Otherwise, why would he extort a confession with the nine infants Grand Wizard and the Starlight Grand Wizard?

"Senior ghost, don't worry. I will definitely not let that guy off! I promise to complete the mission!"

Lin Yi patted his chest and promised without hesitation. He didn't have any news on the formation master yet, but he'd found out where the guy usually went.

Lin Yi needed to get rid of a threat like this as soon as possible.

Lin Yi promised to complete the mission, but it wasn't an easy one.

The underground Devil's Den was very vast. Although they had already interrogated the specific location, without a map, it was still difficult to find it.

After all, the architectural style here was very similar.

Fortunately, Lin Yi could use his spirit sense to scan the area, and his Witcher spirit body allowed him to travel quickly.

Not long after, Lin Yi stopped his "footsteps" and circled above a house.

This was the territory of the darkness magical beasts, so there were many residences here.

However, it was very suspicious and abrupt that there was a residence protected by an array in this place.

He compared it to his memories of where formation Masters hid themselves, and he was sure that this was the place.

At first glance, there was nothing special about this residence, but upon closer inspection, it was actually protected by a very advanced formation!

If it wasn't for Lin Yi's deep understanding of the sub island's formations, no one would be able to notice this formation!

The most brilliant thing about formations was to make others unable to see the existence of formations!

In this way, they would either be confused by the formation or killed by it.

In other words, they wouldn't even know how they died.

"An array master who can open up a transit space, set up a teleportation array, and create a new node passage is indeed quite capable! Senior ghost, even I'm interested in meeting this formation master!"

Lin Yi praised the formation in front of him.

The stealth and attack formations here were the best Lin Yi had seen so far.

But that was all.

Lin Yi's current formation skills were a true Grandmaster-he couldn't compare to this formation master in terms of space, but he was above him in all other aspects.

This could be seen from how Lin Yi saw through the two formations with one look.

Lin Yi didn't try to break the invisibility formation or the killing formation. He just walked in easily and passed through a few hidden, defensive, trap, and killing formations.

The news of the destruction of the rock City had yet to reach them. Because their leader had been killed, the remaining darkness magical beasts didn't know where the array master was hiding, so it was impossible for them to send a message.

Lin Yi strolled through a few formations and arrived in front of the dormitory-there was no one there!

"Senior ghost ... He's not here!"

Lin Yi was a little surprised-he didn't think that this would be the result of his pursuit."There are spatial fluctuations in the building. It seems that our array master has just left this place through spatial teleportation!"

The ghostly thing came out of the space in the jade pendant. After checking, he could only sigh."He really ran away! It seems that this formation master was well prepared. Although no one came to inform us, there must be other channels to obtain information. What a pity ..."

This was not hard to understand. If this array master had some special means to monitor the array he set up in the rock City, once he found that the array was destroyed, he would naturally know that an expert had come and escape in a hurry.

Clearly, this array master had just run away not long ago. There were still traces of the teleportation array being used just now, but the spatial fluctuations within had already dissipated.

If Lin Yi had come here earlier, the thing might have been able to find some clues from the spatial fluctuations.

Unfortunately, even if they had studied spatial arrays for a long time, they couldn't find the whereabouts of the array master!

Lin Yi's formation skills were already better than this thing 's, but his space formation skills were far from his opponent.

Lin Yi naturally couldn't do something that even a ghost couldn't do. The two could only look at the dissipating spatial fluctuations and sigh at each other!

He hadn't done his best!

If they didn't capture this array master, there would be more trouble in the future.

"Senior ghost, do you have any other useful information?"

Lin Yi was asking about the spirits of the middle-aged man and the demonic beasts. He wanted to know if he could get more information from them.

"No, this teleportation array is clearly the escape route prepared by the array master. No one knows where he will escape to."

The ghastly thing shook its head and sighed.

"Forget it! The objective of this operation has been more or less accomplished, so it can't be considered a wasted trip. Let's go back!"

Lin Yi said, quickly tossing away the regret.

If the array master ran away, then so be it. In the future, if he wanted to come out and stir up trouble again, there would be a day when they would meet again. At that time, it would not be too late to deal with him!

The demonic thing didn't say anything else and went back to the Jade space. Lin Yi didn't care if it wanted to continue the interrogation or go back to study space formations.

Chapter 8449

After Lin Yi was done, he went back to meet up with the language of monsters.

The portal collapsed not long after they left the transition space. The language was worried when Lin Yi didn't follow them out.

Hence, manifestation of language sent a small team to send the rescued captives back to the ground, while he himself led the main force to continue stationed in the original place.

On one hand, they were waiting at the same place, while on the other hand, they sent many people to search around the collapsed space tunnel.

Unfortunately, these people didn't understand the mysteries of space, so even if they walked around it a hundred times, it would be useless.

Fortunately, Lin Yi came back by himself not long after. Everyone sighed when they saw each other.

"Brother Sima, you're finally back. I was worried to death! Although I know you'll be fine, I'm still worried without seeing you!"

Seeing Lin Yi safe and sound, the monster's entire body relaxed. The smile on his face couldn't be hidden, and he didn't have any of the dignity of a new first hall Master, ""This time, we've really achieved brilliant results! Under brother Sima's strategic planning, the darkness demon beast's plan completely failed, and hundreds of thousands of their troops were killed. Amazing!"

When they were retreating in the spatial transition zone, manifestation Yu had seen the power of the dark magical beast Army before leaving. The sheer number of them ... To be honest, he felt a chill in his heart.

Lin Yi, on the other hand, killed so many dark beasts so easily, and saved thousands of captives without any casualties on their side. This was a huge victory!

There was no such record in the history of the nado conferred Empire, right?

"Boss is mighty! I knew that nothing would happen to boss, but they didn't believe me when I told them! Now, do you believe me?"

Fei daqiang bragged proudly for Lin Yi as if he was the one who did the unbelievable thing, "There's nothing in this world that boss can't do. Not only will the darkness magical beasts that entered the spatial zone be completely annihilated, I bet that the darkness magical beasts on the other side of the passage will definitely not be able to escape!"

"Boss is able to fight against an Army of a million darkness magical beasts by himself. The darkness magical beast city on the other side of the tunnel should have been reduced to ruins by now, right?"

This guy sounded like he was bragging, but Fei daqiang really did think that Lin Yi was amazing!

These things would be unbelievable if it was someone else, but it was only natural if it was Lin Yi!

Lin Yi's mouth twitched as he waved his hand under everyone's respectful and expectant eyes. "No, no, there are more than 100000 elite soldiers in the stone city that the darkness magical beasts built. I can't kill that many of them by myself."

"After all, the darkness demon beast race wouldn't be so stupid as to set up a large number of self-destructing formations and bomb ores under their own city. So, I only found the person who made this plan and instructed the commander of the darkness demon beast race to kill him. Then, I used some methods to destroy the teleportation formation in the city and the city ..."

"As for the remaining 100000 darkness magical beasts, I can't kill them all, so I can only let them escape ..."

The artifact language members were speechless. Fei daqiang's words were already unbelievable, but Lin Yi's words sounded even more unbelievable than Fei daqiang's.

In such a short period of time, he had killed the commander of the darkness magical beasts and destroyed the city and the teleportation formation. Was it only because there were too many darkness magical beasts that he couldn't kill them all?

Heavens! Even a super expert of the heaven breaking stage couldn't do this, right?

Lin Yi didn't want to explain in detail. He used a lot of secret methods, and although everyone here was his own, Lin Yi didn't need to let them know.

"Alright, enough chit-chat, let's leave this place first!"

Lin Yi looked around. "This is the territory of the dark beasts. We may have killed a large group of their elites, but it doesn't mean that this place is safe. We can talk about it when we get back."

The language of monsters didn't have any objections and retreated with the team. While they were waiting for Lin Yi to return, other news came in.

The dark Beast clan had ambushed several other routes, and they were very targeted. After all, it was arranged by Zhang Yiming, the brainwashed traitor, so the losses were not small.

The only thing that was worth rejoicing was that the human cultivators were all very tenacious. Even when they were ambushed, they gritted their teeth and persevered, using a spirit that was beyond the imagination of the darkness demon beasts to forcibly cut out a bloody path.

Although they had suffered heavy losses, they were not completely annihilated. Compared to the victory of the main force of the language of the living things, the losses of the other routes were not a big deal.

However, numbers were just numbers. No matter how good the ratio of losses between the two sides was, it couldn't cover up the cruel fact that so many people had died. And the one who started all of this was Lin Yi's loyal follower, Zhang Yiming!

Zhang Yiming had to take the blame!

After returning to the human-controlled underground Devil's Den, Lin Yi looked at the unconscious Zhang Yiming with a headache. He thought about how to solve the problem of him being brainwashed.

As for Zhang Yiming being the scapegoat, it wasn't a big deal to Lin Yi.

It was tragic that so many generals had died, but Zhang Yiming didn't do it willingly, so Lin Yi wouldn't look into it.

At worst, he'd just use his own contribution to compensate for Zhang Yiming's crimes.

If it wasn't for Lin Yi, the annihilation of the human elites would be a small matter-the dark Demon beasts would be the real problem.

Compared to this, solving Zhang Yiming's brainwashing problem was a bigger problem.

Perhaps, he should help Zhang Yiming's deified soul sea to become a Witcher spirit sea first?

This was also a method, but he would meet more brainwashed humans in the future. Lin Yi couldn't help them all convert Wu Linghai and then deal with them.

That way, Lin Yi wouldn't have to do anything and just focus on Wu Linghai.

"Is Zhang Yiming hard to recover? Do you need my help?"

Caidie Luo was beside Lin Yi and saw him frowning.

After all, she was also someone who had been deeply affected by brainwashing, so perhaps she could be of some help.

Lin Yi waved his hand, "Zhang Yiming's problem is fine. It can be solved with a little effort, but this method can't be applied to a large group of people. It's fine if it's one or two people, but I can't do anything if there are more. I have to think of a better way."

Lin Yi sighed as he looked at Zhang Yiming, "Forget it. We can't care about others now. We have to cure Yiming first! I hope there won't be any problems!"

Chapter 8450

He turned to the people beside him and ordered, "Brother Hua, you should go and disband the team. The original defensive forces here are already enough to deal with the remaining darkness demon beasts."

This was a house in a human-controlled area, and it was already close to the exit of the underground devil cave. The darkness demon beast clan had just experienced a bitter defeat and huge losses, so they probably wouldn't be able to organize any forces to counterattack in a short time.

The human ancient martial art practitioners that had been temporarily gathered this time also had their own matters to attend to, so there was no need to continue wasting time here.

"Alright!" The artifact language replied. Your older brother will take care of the rest of the team, you don't have to worry!"

Lin Yi nodded and turned to Fei daqiang, "Take some men and stand guard outside. Don't let anyone come near. I can't be disturbed while I'm treating Yiming!"

"Boss, don't worry. I'll take people to guard it. Not even a fly can dream of flying in!"

Fei daqiang patted his chest and promised, and he followed the monster language out.

Soon, the house was surrounded by the elites of the Imperial Guards, leaving no gaps to ensure that no one could get close.

In the end, only Lin Yi, caidie Luo, and the unconscious Zhang Yiming were left in the room.

"Do I have to go out?"

Luo caidie didn't know whether she should leave or stay. After hesitating for a while, she asked, ""Will it affect you?"

"No, you stay. You have Wu Linghai too. Maybe you can help!"

Lin Yi said casually, thinking that he might use Wu Linghai as a reference.

As for helping, Luo caidie most likely wouldn't be able to help.

"Oh," caidie Luo replied with a smile on her face. She was happy that she could stay and help Lin Yi.

But before he started, he communicated with the Starlight Magus in the Jade space.

Although Lin Yi had used all of Starshine's methods, such as creating a controllable witchsea for someone, it was still his first time, and his target was Zhang xiaopang. He had to be careful.

After confirming with the Starlight Magus, Lin Yi felt more confident and started to work on it.

The Starshine Magus wanted to make the process a lot smoother if they built an altar, but they didn't have that right now, and an altar wasn't a necessity, so Lin Yi ignored his suggestion.

If he wanted to form a Wu Linghai for others, his own Wu Linghai had to be extremely powerful, and Lin Yi fulfilled this requirement.

Then, the greater the difference in the strength of the two spiritual awareness, the better. If the level was similar, the success rate would be lower.

It just so happened that Zhang Yiming's spirit sense was a lot weaker than Lin Yi's, so it wasn't that difficult.

This was why Lin Yi didn't dare to use the altar-if he wasn't confident, he'd do everything he could to increase the success rate.

Lin Yi's spirit sense slowly and steadily entered Zhang Yiming's sea of consciousness. Zhang Yiming was unconscious and his sea of consciousness was silent, so Lin Yi's almost invasive action didn't cause any resistance.

After the two came into contact, Lin Yi's spirit sense split a little and formed a seed of the Wu Linghai in Zhang Yiming's sea of consciousness. This was the most important step in transforming Zhang Yiming's sea of consciousness into the Wu Linghai, and it was also the source of the suppression between the two.

After Wu Linghai's seed entered Zhang Yiming's sea of consciousness, it was like a drop of ink in clear water, extremely clear.

Under normal circumstances, when a drop of ink fell into clear water that was a million times more than one's own, it would definitely melt and disappear immediately, completely assimilated by the clear water. However, this seed of the Wu Linghai was condensed and did not dissipate, ignoring the constant washing of Zhang Yiming's sea of consciousness.

Although Lin Yi had split off a trace of his consciousness, Wu Linghai didn't feel any discomfort, so he immediately started to inject his consciousness into Wu Linghai's seed as nutrients.

Soon, the small seed turned into a small Whirlpool, growing slowly under the nourishment of Lin Yi's spirit.

As the small Whirlpool grew, Zhang Yiming's sea of consciousness was assimilated.

As the vortex grew bigger, the speed of the vortex also increased. As the cycle continued, the transformation of his deific consciousness into a sorcerer spirit sea became faster and faster!

Lin Yi only realized the difference in difficulty between the Wu Linghai and the spiritual sea without the altar after doing it himself.

At that time, in the Starlight wizard's tomb in the Forest of Illusions, he had completed the transformation of the Wu Linghai on the altar, so he didn't have to keep an eye on the progress all the time.

But now, without an altar, Lin Yi needed to do a lot of things to replace it, like helping the modified people gather the vortexes and elements.

These were all things the altar could help with-it'd be a lot easier if he had one.

In the future, if he were to convert a large number of Wu Linghai, he could consider building an altar.

However, this was the witch tribe's method, after all, and it involved Lin Yi's own trump card, so he decided to let it go.

at this time, almost half of zhang yiming's sea of consciousness had turned into a witcher spirit sea. looking down from above, one could see two distinct sides, but on one side was a rapidly rotating vortex, and on the other side were waves being pulled and assimilated by the vortex.

lin yi could finally relax now.

the whirlpool had the ability to assimilate and change the sea of consciousness, and it no longer needed lin yi's consciousness as nutrients.

all lin yi had to do was watch the entire process and make sure there were no problems.

the moment his wu linghai was completed, the instant-death seed that was planted in zhang yiming's deified soul sea became the nutrients for the new wu linghai, causing it to expand by one size!

then, the traces of being brainwashed by the wilderness high priest in zhang yiming's mind were naturally erased.

lin yi was surprised and confused at the same time. was this instant-death seed a great tonic?

lin yi didn't pay much attention to it when he was helping caidie. after all, he first removed the brainwashing traces and then refined the instant-death seed, so the effect might not be as good. it seemed that the order was wrong.

while lin yi was still thinking, zhang yiming slowly woke up.

"Boss, I'm sorry ... I've caused you trouble again!"

Zhang Yiming came back to his senses and immediately apologized to Lin Yi with a face full of shame,""I was too careless this time, and was brainwashed and controlled by the darkness demon beast ... This matter ..."

"It's all in the past, and it didn't cause too serious of a consequence. I've already thwarted the darkness demon beast's plan!"

Lin Yi waved his hand and interrupted Zhang Yiming, "Don't take it to heart. First, tell me how you feel. In order to get rid of the darkness demonic beast's brainwashing, I've changed your sea of consciousness into The Witcher spirit sea!"
