

Bodyguard 8451

Chapter 8451

"Many Thanks, boss! I feel great! I can't feel any better!"

Zhang Yiming felt the newly born Wu Linghai and felt that it was much stronger than his original deified soul sea. He was overjoyed.

This could be considered a blessing in disguise, right?

"It's good that there's no problem! Since you've recovered, I'll study how to solve the brainwashing control for others!"

Lin Yi had just come up with a new idea. "Originally, I could only think of a way to turn my deific consciousness into a Sorcerer's spirit ocean. But when Yiming achieved the Sorcerer's spirit ocean, I suddenly discovered another possibility."

"The darkness demon beast's brainwashing technique is also derived from the Sorcerer tribe's inheritance. Wu Linghai can be considered the core inheritance of the Sorcerer tribe. Therefore, if I change to Wu Linghai, I will definitely be able to break the darkness demon beast's brainwashing technique."

"It's a pity that I don't have the energy to turn all the brainwashed people into Wu Linghai. Moreover, some people's strength level is on the high side, so it's very difficult to do it."

"However, I just discovered that when little fatty formed the Wu Linghai, he swallowed a seed left behind by the darkness demon beast clan that could instantly kill the person who was brainwashed! It was this seed that had become a powerful nutrient for Wu Linghai! After devouring it, Zhang Yiming's Wu Linghai became stronger, and the brainwashing problem was solved. "

Zhang Yiming and Luo caidie were confused at first, not knowing what Lin Yi was talking about, but they slowly understood.

"Boss, do you mean that we can use the Wu Linghai to devour the instant-Death Seed, weaken the brainwashing effect, and automatically erase the brainwashing imprint?"

Although Zhang Yiming had just become Wu Linghai, his comprehension was very good. He basically understood what Lin Yi meant.

Luo caidie's tightly furrowed brows also gradually relaxed, revealing a look of realization.

If Lin Yi wanted to turn all the brainwashed people into Wu Linghai, it would be a little too much.

However, if it was just devouring the instant-Death Seed in the other party's sea of consciousness, it didn't seem to be a big deal.

After all, he had saved over thirty people from the formation, and the instant death seeds in their sea of consciousness had already been sealed by Lin Yi. What he needed to do now was to use his Wu Linghai to devour the isolated instant death seeds.

The entire process could be said to be simplified many times, and the efficiency of saving people naturally also increased many times.

"Yes, that's what I meant! However, they aren't Wu Linghai, and the instant-Death Seed wasn't devoured by them. Therefore, I predict that the traces of their brainwashing won't be removed by themselves. We need to help them! Of course, without the instant-Death Seed, the process of breaking through would be much easier! However, I won't be the one devouring it. It'll be the two of you!"

lin yi smiled and waved his hand, "you guys might think that i don't care about these nutrients, but that's right, i don't care about them either!" it's useless to me, but i'll control their sea of consciousness and divide the brainwashing imprint and instant-death seed. you guys focus on devouring, absorbing, and expanding your witcher spirit sea!"

zhang yiming and luo caidie looked at each other, speechless at lin yi's cold humor.

however, they knew lin yi's strength, and since it was useless to him, they didn't need to be polite.

half a day later, the martial artists who came out of the stone forest trap formation were all healed. lin yi left the house with luo caidie and zhang yiming, who had benefited a lot.

"boss, you're finally done!"

Fei daqiang saw the three of them come out and quickly greeted them with a smile, ""Hall Master Hua has already gone back. There are many post-war matters that he needs to deal with at the martial League branch. He can't delay any further. Therefore, after knowing that Zhang xiaopang is fine, he asked me to pass a message to boss. He'll be leaving first."

"I know. Brother Hua is now the Great Hall Master of the martial Alliance's branch. There are many things that we can't do without him. Let's go back too!"

Lin Yi nodded in understanding. It was already a miracle that the language of manifestations waited until Zhang Yiming's problem was solved.

After gathering the Yulin royal guards, Lin Yi left the underground cave and went to the martial union branch to find the language of monsters.

The language of monsters only came back half a day earlier than Lin Yi, and was busy dealing with a mountain of work. When he saw Lin Yi, he only raised his head and waved his hand with a bitter smile, ""Brother Sima, you find a place to sit first. I have to deal with the matter on hand first. I'll be done soon!"

"Brother Hua doesn't need to worry, this little brother doesn't have anything urgent to do, I just came to see you!"

Lin Yi nodded and found a chair to sit down on.

The artifact language didn't stand on ceremony and continued to work. A few minutes later, after finishing the official documents, it said, ""Younger brother Sima, this older brother now knows how hard

it is for the head Hall Master! In the past, as a vice Hall Master, although there were a lot of official duties, he was only responsible for one aspect, after all, so he didn't feel the pressure of being a chief at all!"

Hua Yu said. He would only say that in front of Lin Yi. If it was someone else, he would have to maintain his dignity!

"Brother Hua has just taken over, so it's inevitable that you'll feel a little flustered. In fact, there won't be any problems after you straighten things out. Distribute the specific matters and there will naturally be people to deal with it. You only need to control the general direction and start digging. "

Lin Yi didn't think that becoming the first hall Master of the martial union branch would be difficult. The language of monsters was just an adaptation period, and he'd be able to get it in a few days.

"Brother Hua, this little brother didn't come to talk to you about the specific Affairs of the martial Alliance's branch. Instead, I'm here to bid you farewell! I've already mentioned that once the matter of the underground Devil's Den is settled, I'll leave the NA duo conferred Empire!"

Lin Yi put away his smile and said seriously.

"So fast?"

The artifact language frowned slightly.

The language of monsters knew that Lin Yi was a Diamond level dark agent and that he would go to other continents for inspection, but he didn't expect it to be this fast!

They had just dealt with the problem of the underground Devil's Den, and now they had to leave immediately.

"Hmm...Not really fast! It's all going according to plan. From now on, the NA duo conferred Empire and the martial Alliance will all be relying on you, brother Hua. "

As a dark gold level dark gold agent, it was the responsibility of the language of living things.

"don't worry, you know my character. i'm definitely a reliable person and won't embarrass you, younger brother sima! originally, i was thinking of letting you leave after you officially take over as the first hall master, but since you're in such a hurry, you must have some official business to attend to, so i won't stop you. "

with a long sigh, a look of reluctance flashed across the artifact language's face. his heart was filled with regret.

it was all thanks to lin yi that he was able to take over as first hall master, so he really hoped that lin yi could attend his inauguration ceremony.

Chapter 8452

It wasn't easy for them to clear the clouds and see the clear sky-the arrogant Ouyang Changqing had been taken care of, and the language of living things still wanted to show off its grand plan with the Lin brothers.

However, he also knew that Lin Yi was his brother, but he was also a Diamond Grade secret agent of the starsource continent!

If that was the case, Lin Yi must have a more important mission to carry out.

Especially now that the entire starsource continent was in chaos, and the dark Demon beasts had begun their revival plan, they couldn't just drag Lin Yi down because of their own selfish reasons.

But even so, the artifact language was still a little depressed.

This farewell might be an eternal farewell.

The language of beast transformation understood Lin Yi very well, and he knew that Lin Yi wouldn't stop at a Diamond level dark emissary in the future. He would go even higher.

At that time, Lin Yi would go to a bigger world, and he wouldn't come back if there wasn't something important.

"It's not like we're leaving and not coming back. Don't worry, brother Hua, we'll definitely find some time to come back and see you. We definitely won't forget you. "

Lin Yi patted the monster's shoulder and comforted it, as if he could tell that it was worried.

"I know that. In front of a great enemy, righteousness comes first!"

The artifact language took a deep breath and said, ""Fei daqiang and the others will leave with you, right?"

"Yes, Fei daqiang and Zhang Yiming will leave with me, so I'll have to ask brother Hua to take care of the Yulin royal guards, the medical center, and the pill shop."

The Yulin royal guards and the people from the medical Hall and pill shop were the battle generals of the martial union branch's combat Association and The Alchemist and doctors of the alchemy Association. Even if Lin Yi left the naduo conferred Empire, he couldn't bring so many people with him.

Secret agent, secret agent, the most important thing was the word 'secret'.

He directly brought a large elite team with him, what was there to hide!

Beast language was surprised. He thought that Lin Yi would take all the direct line members with him, but it seemed like he only took two leaders?

"Younger brother Sima, are you leaving a helper for your older brother? This isn't asking me to take care of them, it's clearly asking them to support me!"

After the initial shock, the artifact language burst into laughter.

The monster language had been coveting these elites for a long time and had long wanted to recall them back to the martial Alliance branch.

It was just that he wasn't the leader of naduo martial League back then, and these people were already following Lin Yi. There was no reason for him to take them back.

But now that Lin Yi brought it up, it was overjoyed! He was even happier than becoming the hall Master of the martial Alliance branch, or even a dark gold-level secret agent!

With such an elite in their hands, it would be much easier to deal with the darkness demon beast clan!

"It doesn't matter who's taking care of who. In any case, I'm entrusting them to brother Hua!"

With that, Lin Yi stood up and saluted with his fists, "There's nothing else, this little brother still has to bid farewell to principal Hua, so I won't disturb brother Hua any further!"

"Are you in such a hurry to leave? You don't even have time to chat with your elder brother?"

The artifact language's face was filled with regret. "There's no need to rush. Since younger brother Sima is leaving, elder brother should at least prepare a farewell banquet!"

"Brother Hua, we're all brothers, why do you care about this? I'll keep the wine for now and drink it when I come back later!"

Lin Yi rejected the suggestion and walked out, "You and I are not ordinary people, so don't fall into the cliché!"

"This ..."

The artifact language chuckled and shook his head before following Lin Yi out, "Forget it, in order to be extraordinary this time, I can only wait for the next time! Brother Sima, are you going to the martial Alliance's headquarters in the starsource continent this time?"

"Not necessarily. Maybe I'll go to the other continents first."

Lin Yi's identity as a Diamond Grade secret agent was only known to Jin botian and the language of the living beings, so he didn't hide anything. "The first stop should be Fengqi Dazhou! If there are other instructions in the middle, they will probably change directions. "

As they spoke, the two left the room. Lin Yi didn't want to talk about this anymore, in case someone on the other side of the wall leaked some important information.

The artifact language was smart enough to keep quiet and only say some words of farewell.

The two walked out of the martial union branch, and Lin Yi asked the language of manifestations to stop as an official farewell.

After leaving the martial union branch, Lin Yi went straight to the Fuyao apothecary school.

Lin Yi had mentioned to Hua Yao that he wouldn't be staying in the naduo conferred Empire for long when he returned from Wutong.

And so, he'd come to say goodbye to Lin Yi-he was prepared for it. Other than regret, he'd only wished that Lin Yi could shine on a higher stage.

However, Lin Yi didn't go into the details with Hua Yao like he did with the transformation language. He didn't even tell them where he was going, and Hua Yao thought that Lin Yi was only going to the great continent of Wutong!

After all, this was a matter of confidentiality.

He was Lin Yi's underling now, so it didn't matter if he told him more. However, Hua Yao wasn't someone who worked with the system, and it wouldn't do him any good to know too much.

The Fengqi Dazhou Lin Yi wanted to go to was a place that Jin botian specifically asked Lin Yi to go to!

It was said that the martial Alliance of that continent had already been completely infiltrated by the dark Demon beast clan. From the upper level Hall Masters to the lower level Hall Masters of the branches, they were all feigning civility with the martial Alliance of the starsource continent. They listened to orders but did not announce them publicly. They obeyed on the surface but disobeyed on the inside. They were rotten to the core!

After the martial Alliance of the starsource continent discovered the problem, they had also sent people to investigate it openly and secretly.

However, there were no results. Many people who were sent there found nothing, and some even disappeared inexplicably.

In fact, it couldn't be said that they found nothing, because on the surface, the entire Fengqi continent was harmonious and there were no problems!

however, if they were to investigate further, they would find that they had no way to start! fengqi continent's martial alliance was like a piece of iron plate. it was an alliance of attack and defense from top to bottom, inside and outside. it was impossible to go deep.

although jin botian would personally deliver the questions for the apprentice apothecary examination, he would not make too much of a stop-in to avoid alerting the enemy.

hence, jin botian invited lin yi, one of his most trusted men, to investigate in secret and find the root of the problem.

one could say that lin yi was under a lot of pressure. this time, he had to investigate whether feng qi dazhou was completely controlled by the dark demon beast clan, or if it was just a few people in charge who were corrupted by the dark demon beasts and formed a group for their own benefit.

if it was completely controlled by the darkness demon beast clan, jin potian would probably suggest that the starsource continent send their army to the border and completely destroy the fengqi continent!

however, judging from the current situation, it should only be a few people who had been corrupted.

after all, if he really controlled them completely, then the darkness demon beast clan might have already run amuck in fengqi continent.

"Principal Hua, please wait, there's no need to send me off!"

Lin Yi stopped Hua Yao from sending him off at the entrance-he'd be sent out of the capital if he kept on doing that.

Chapter 8453

"Forget it. I've seen you off for a thousand miles, and I'm reluctant to part with you, but I still have to part with you."

Hua Yao sighed and said goodbye to Lin Yi, "If you have the chance in the future, you have to come back more often. Remember that you will always be the honorary Dean of our Fuyao apothecary school."

"Yes, don't worry, principal Hua, I'll remember it!"

Lin Yi nodded and smacked his forehead. "There's one more thing I forgot to mention. Tang Yungui is very talented in alchemy. If he is willing, I would like to take him with me and teach him personally. I hope principal Hua will let him go. "

After all, Tang Yungui was raised in the school. Even if he wasn't by Lin Yi's side, he would still grow up well and become the pillar of the school.

If Lin Yi wanted to take Tang Yungui away, he had to get Hua Yao's permission first.

Actually, it wasn't impossible for Tang Yungui to stay. After all, the Fuyao pill refining school was a good pill refining school, and Hua Yao himself was a Grandmaster ... Regardless of whether he was the lowest-level Grandmaster, he was a Grandmaster.

It wasn't that Lin Yi looked down on Hua Yao's skills, but he wanted to train Tang Yungui to be Zhang Liju's successor. It was better to do it himself.

Lin Yi didn't think that Hua Yao would agree so easily, but the old man nodded happily. "No problem! It's Tang Yungui's good fortune to be able to learn from you! If he stays in the Academy, he will only be held back!"

Even Hua Yao admired Lin Yi's ability to teach his students, so he was willing to let Tang Yungui go with Lin Yi.

Besides, Tang Yungui was Lin Yi's disciple! So it was reasonable for him to follow Lin Yi.

"If you didn't mention it, this old man would have said it! For the sake of this child's growth, following you is the best choice. This old master is looking forward to seeing him become a world-shaking alchemy Grandmaster in the future!"

"If that's the case, thank you principal Hua for giving up your treasure! I will teach Tang Yungui with all my heart and not let him down principal Hua's expectations!"

Lin Yi and Hua Yao exchanged a few more pleasantries before leaving for the medicine shop.

Fei daqiang and Zhang Yiming were waiting for Lin Yi at the medicine shop. Qin mengzhen, MA pijing, tu Gesha, and Tang Yungui were there as well.

They were all Lin Yi's disciples, and while they didn't go with him to the underground cave, their master's victory meant that they had to come and congratulate him.

At the entrance, Lin Yi ran into Luo caidie, who had just come from the Alliance College.

Luo caidie went back to report and subconsciously came to Lin Yi.

"Luo caidie, I was just looking for you!"

Lin Yi greeted them but didn't go in. He stood at the door and talked to caidie Luo, "By the way, I'm almost done with the matters here, and I'm preparing to leave the NA duo conferred Empire. I would like to ask if you're interested in leaving with me?"

It wasn't that Lin Yi had any feelings for Luo caidie, but after she was saved by Lin Yi and devoured the instant-death seeds of other brainwashed martial artists, her Wu Linghai seemed to have changed.

After Lin Yi took care of the last brainwashed warrior, he observed Luo caidie and Zhang Yiming's Wu Linghai and found a trace of it.

although she couldn't break free from lin yi's wu linghai's connection and suppression, Luo caidie was indeed acting strangely.

at the moment, lin yi couldn't be sure if these abnormal changes were good or bad, and Zhang Yiming didn't show any signs of it yet.

that was why lin yi invited caidie to come along and observe.

although zhang yiming didn't show any signs yet, there was still a possibility. lin yi brought him to fengqi dazhou not only because he wanted to borrow zhang xiaopang's intelligence gathering ability, but also because of this.

if it was a bad thing, lin yi would be by her side, giving her time to react and solve the problem. if she just stayed here, no one could solve it.

"leave with you? where are you going?"

luo caidie was slightly startled, and her beautiful eyes flashed with puzzlement.

She'd never heard that Lin Yi was leaving before, so hearing that he wanted to take her with him made her very shocked.

After some serious consideration, caidie realized that she wasn't against going with Lin Yi. The destination didn't seem to be that important!

She didn't know why, but Lin Yi gave caidie a natural feeling of closeness!

It was a very special feeling, as if they had known each other for a long time!

However, they had only met recently.

Luo caidie didn't know why she had this feeling. It was as if she was buried in the depths of her memory.

So, when Lin Yi left, Luo caidie didn't want to be separated.

Now, Luo caidie was completely disappointed in the naduo martial Alliance Academy. As long as she made proper arrangements for a few students, she could leave at any time.

"i'm going to feng qi continent's tian xia academy and become the head of the alchemy division there. don't ask me why i'm there. anyway, the current situation is like this. if you're willing, you can still be a teacher at tian xia academy in feng qi continent. "

luo caidie's own strength was not ordinary, and with wu linghai, her divine sense had also made great progress. there was no pressure for her to enter tianxia college as a teacher, so it was not considered a back door.

"you're going to feng qi continent? he really ran far! why did you invite me to go with you?"

luo caidie was a little surprised. she wanted to agree, but she felt that it was not reserved enough to agree, so she hesitated and asked for the reason.

As a girl, Luo caidie thought that she should at least show some attitude, right? It would be embarrassing if he went right away!

The result was unexpected. After Luo caidie missed the opportunity to agree immediately, it was too late to agree!

It wasn't that Lin Yi took back his invitation, but two uninvited guests had come and messed up her plans!

It was Lin Yi who sensed the two uninvited guests first. He thought they were just passing by, but the two of them suddenly appeared behind Luo caidie!

This sudden feeling made Lin Yi's heart tighten.

These two people were not weaklings. On the contrary, they might be experts!

He didn't know how strong they were, but someone who could pressure Lin Yi had to have some skills.

It was a man and a woman. They didn't look old, about 30 years old, a few years older than Luo caidie.

Luo caidie also noticed that someone was approaching behind her. At first, she turned around nervously. When she saw who it was, her pretty face suddenly showed a bit of surprise,""Fifth brother, Eighth Sister! Why are you guys here?"

Chapter 8454

"Thirteenth sister, of course we're here to find you!"

The man caidie called fifth brother smiled at her before turning back to Lin Yi with an unfriendly look, "Who are you? I just heard that you wanted to take our family's thirteenth sister to Feng Qi great continent?"

Before Lin Yi could say anything, the eighth sister took two steps forward and sneered, ""Fifth brother, who cares who he is! With one look, one could tell that he was a silly kid who was a Toad lusting after swan meat! He doesn't know the immensity of heaven and earth and wants to bring thirteenth sister to Feng Qi Dazhou ... I don't know who gave him the courage!"

Originally, when Lin Yi heard the way caidie called these two and knew their identities, he let down his guard and smiled.

But the two's rude words made Lin Yi's face turn cold, and his smile disappeared.

"Fifth brother, Eighth Sister! What are you guys talking about! This is my friend! I ..."

Caidie Luo was a little embarrassed and subconsciously stomped her foot, wanting to say something for Lin Yi but her Eighth Sister pulled her behind her.

Not only that, but her Eighth Sister also shouted in a low voice, ""You shut up! Listen to fifth brother and Eighth sister's words!"

"that's right, thirteenth sister! you're still young, you don't know how evil the human heart is! not everyone outside is qualified to be your friend! and not just anyone can say that they'll take you out of here!"

fifth brother glared at lin yi coldly and warned arrogantly, "boy, i don't care who you are, and i don't care what relationship you had with my thirteenth sister. from now on, you have nothing to do with her. you can go wherever you want, but don't even think about getting close to thirteenth sister!"

"this is my first and last warning to you. if you don't listen to my advice or repent, and still want to get close to thirteenth sister, don't blame me for being impolite to you. at that time, it will be too late for you to regret!"

Lin Yi frowned. If these two weren't Luo caidie's siblings, he would've lost his temper.

What kind of people are they! He hadn't even said a word, and they had already come up to him and started arguing!

Do you think I'm easy to bully?

The two didn't look weak, but Lin Yi wasn't afraid. If he didn't like it, he'd fight!

"You two, is there a misunderstanding? I ..."

But no matter what, he was still Caidie Luo's brother and sister, so he had to give her some face. Lin Yi suppressed the anger in his heart and was just about to say something when he was interrupted by his Eighth Sister.

"You don't have to say anything. It doesn't matter if we misunderstood you or not. We're not interested in listening to you, and you don't have to explain anything. In short, our thirteenth sister has nothing to do with you from now on. Even if we meet on the road, I hope that you will consciously avoid it and not try to pull any connections or talk about friendship!"

"Eighth Sister!"

Luo Caidie was angry. Lin Yi had saved her life more than once, and she had some special feelings for Lin Yi. Seeing her brother and sister being so rude to Lin Yi, she was both embarrassed and angry!

Unfortunately, her brother and sister were very strong and didn't care about Luo Caidie's mood at all. Her fifth brother directly waved his hand and said, "Thirteenth sister, we're here to take you home! You should understand that the people here and you will be people from two different worlds in the future! Don't drag it out!"

"If you continue to be entangled with this brat, it will not be a good thing for you or him! Fifth brother and eighth sister are doing this for your own good. You should think about it carefully! Do you still want to continue being willful?"

After that, fifth brother quietly waited for Luo Caidie's answer.

luo caidie was speechless. she didn't care about herself, but if lin yi got hurt because of this, she didn't want to see that!

although lin yi had been showing his amazing strength and potential, and his ability to grow, caidie luoknew that her family had enough power to kill a genius like lin yi!

for lin yi's sake, she should listen to him ...

"sima yi ... i'm sorry, i'm going home with my big brother and big sister ... in the future ... take care of yourself!"

after thinking it through, luo caidie's beautiful eyes became hazy. she kept saying in her heart that she was willing to go to feng qi continent with you. she was willing, she was willing ... but she couldn't say it out loud!

in the future ... they would probably have no future!

the pain in her heart was indescribable. luo caidie could only say "take care" and turn around to leave. she didn't even look back, but tears fell from the corners of her eyes!

"wait a minute, luo caidie ..."

Lin Yi also took a deep breath, feeling a little sullen. He raised his hand and was about to talk about Wu Linghai's problem, but he was glared at by Luo caidie's brother and sister.

"Stop shouting. Just pretend that you never knew her!"

Fifth brother also said coldly from the side, and gave Lin Yi a warning look before turning to follow caidie Luo.

Lin Yi let out a long sigh and helplessly retracted his hand. He hoped that Luo caidie and Wu Linghai's problem would develop in a good direction!

He couldn't say anything at this time, and even if he stopped Luo caidie, what could he say?

Luo caidie and Wu Linghai's abnormality was only a faint sign. She probably didn't even notice it herself!

In the future, would it continue to change? how long would it take? in which direction would it change? Lin Yi couldn't even say for sure now, so what else could he say?

"Master, there are plenty of fish in the sea. Why do you have to keep staring at that old woman?!"

Qin mengzhen couldn't stand it anymore. She stopped and stood up, making a face at the back of Luo caidie and the other two.

"Who are you? Who are you calling an old lady?"

Eighth Sister, who was walking in front, was furious!

If Luo caidie was an old woman, then what was she? Old lady?

"master's first disciple, xuanji qin mengzhen!"

how could qin mengzhen be an easy person to talk to? he put his hands on his waist and glared at his eighth sister. "what's the matter, old woman?"

"you! little girl, you're so good with your words that you have no manners. is this how your parents taught you to talk to others?"

at first, eighth sister wanted to beat up qin mengzhen to teach her a lesson. however, she did not do it when she saw her age and realized that she was just a kid.

"that's what my parents taught me. why don't you ask the qin and meng families?"

qin mengzhen looked at her eighth sister with a smile.

"qin family? the meng family?"

eighth sister was a little stunned.

however, fifth brother, who was standing at the side, seemed to have realized something. his face was immediately filled with disbelief.

He quickly tugged at sister eight and fifth brother lowered his voice. ""Forget it, let's go!"

Eighth Sister recovered from her daze and seemed to have thought of something. She looked at Qin mengzhen in surprise, then took Luo caidie's hand and left quickly.

Chapter 8455

qin mengzhen didn't say anything else after they left, and lin yi didn't ask.

lin yi knew that this disciple came from a powerful family, but he didn't know what kind of princess she was, and what level she was at.

from the looks of it, it was definitely not the princess of the nado empire. could it be that she was from a continent?

lin yi shook his head as he watched the three leave. caidie might not be safe with him. the sub-island was huge and had many capable people. maybe someone else could solve it.

and looking at luo caidie and her brother's performance, their family should be a very powerful family. if there were any problems, their family's ability to solve it might be stronger. lin yi really didn't need to worry too much for luo caidie!

after putting this matter aside, lin yi turned around and went into the medical hall and pill shop. there were still many people he needed to worry about inside-caidie luo, he hoped that they would meet again in the future!

after entering with qin mengzhen, other than fei daqiang, zhang yiming, ma pijing, and the other two, there was also lin yi's disciple in name, diao mantian!

lin yi didn't even want to bring an in-name disciple with him, and so he wasn't in the plan. but diao mang tian was quite filial-he came with qin mengzhen and the others to congratulate lin yi on his victory, just in time for lin yi's departure.

"Everyone's here! I'll cut to the chase and tell you my next plan. You can also consider your own future. "

Lin Yi clapped his hands and nodded to everyone as a greeting before getting to the point. "I'll be leaving the NA duo conferred Empire in a while. I'll even be leaving the Wutong continent. When I leave, I'll bring a few people with me. You guys can consider who wants to go with me and who wants to stay!"

"Boss, you don't need to ask me, and you don't need to think about leaving me. Anyway, I'm following you. Wherever you go, I, Fei daqiang, will follow you!"

Fei daqiang immediately jumped out and was the first to express his opinion.

He was someone who'd followed Lin Yi all the way from the common world, and his only principle was to stick to Lin Yi's leg and not let go.

"I know, I know, quickly move aside! I didn't want to ask for your opinion!"

Lin Yi scolded with a smile. He waved his hand for Fei daqiang to step aside and not block the others from talking.

Fei daqiang replied with a smile, "Alright!"

He then quickly stood behind Lin Yi, showing that he was the leg hair on Lin Yi's legs, like a shadow. He couldn't leave anyone behind but him!

Zhang Yiming didn't hesitate and followed Fei daqiang, "Senior brother Sima, I want to follow you too. I'll go wherever you go!"

Even though Zhang xiaopang's family owned a mine, but after following Lin Yi around and seeing the bigger and bigger world, he no longer had the desire to return to his old home and be a small mine owner.

Putting aside the fact that Lin Yi had saved his life a few times, just the fact that he could display his talent by following Lin Yi alone made Zhang xiaopang determined to follow Lin Yi for the rest of his life!

Other than Lin Yi, no one had ever thought so highly of him. Even before Lin Yi's appearance, Zhang xiaopang was just an ATM in the eyes of others.

Besides, Zhang Yiming felt that he had been with Lin Yi even earlier than Fei daqiang.

Lin Yi smiled and nodded, pleased with Zhang Yiming's decision to follow him. Although Zhang xiaopang's Wu Linghai had not noticed anything unusual yet, he could not guarantee that it would not happen in the future.

Therefore, Zhang xiaopang chose to follow Lin Yi. It was a good thing for both him and Lin Yi.

"I'll also follow master. No matter where master goes, please bring your disciple along!"

Qin mengzhen was the first of the four little ones to express her opinion. She was indeed worthy of being the head of the household's eldest Senior Sister. "I'm not some blind person!"

However, Qin mengzhen also mocked Luo caidie with an insinuation.

Lin Yi pretended he didn't understand.

MA pijing, tu Gesha, and Tang Yungui followed closely behind, cupping their fists and bowing to Lin Yi.

"Master, I'll follow master too. No matter where master goes, please take your disciple with you!"

The few of them spoke in unison. Their words were exactly the same as Qin mengzhen 's, and the determined expressions on their faces were exactly the same.

However, they did not understand what Qin mengzhen's last sentence meant.

in fact, it was not difficult to understand the four little ones "firm stand. not to mention the relationship between the two sides as master and disciple, on the sub-island, strength was respected. no matter where one was, only with strength would one have the right to speak.

before they met lin yi, they were all ordinary people. even tang yungui was at the bottom of the barrel. after joining lin yi's sect, they all soared!

even if it was for their own future, following lin yi was the most appropriate.

"alright, since you all are willing to follow master, master is also very happy. then all of you can follow."

lin yi said to tang yungui first,"i've talked to dean hua just now. if you want to go, then go. she has agreed."

"thank you, master!"

Tang Yungui was also worried about this matter. After all, he was a child raised by the Academy. It would not be right for him to just leave.

Tang Yungui was relieved to hear that Lin Yi had solved the problem. He was grateful to Lin Yi.

"It's just a small matter!"

Lin Yi waved his hand and turned to the three."The few of you should also ask for the opinion of your families. If your families don't agree, I can't just abduct you and leave!"

"The place we're going to this time is a little far. It's the Fengqi continent. Not only will we be leaving the NA duo conferred Empire, but we'll also be leaving the borders of the Wutong continent. So, you all have to think carefully!"

Naturally, Lin Yi wouldn't hide his destination from the people who were following him. He needed them to be mentally prepared.

However, Fei daqiang and Zhang Yiming didn't need it. After all, the four little ones were different.

"Master, I'd like to take the liberty to follow you. No matter where you go, please take me with you ... I wonder if master would allow it?"

Diao mang Tian, on the other hand, was starting to panic. He saw that Lin Yi didn't seem to have any intention of putting him on the carry list, and quickly stood up.

Diao mang Tian was still hoping to get rid of his title as an in-name disciple and become Lin Yi's personal disciple!

If Lin Yi didn't even take him with him when he left, then what was he supposed to do?

"You're going too?"

Lin Yi raised an eyebrow, surprised.

Diao mang Tian wasn't on Lin Yi's name list, but since he mentioned it, it didn't seem like it was a problem to bring him along.

"Sure," Lin Yi nodded, "just like them, we'll go back and get permission from the elders, then we'll be able to come!"

"Yes! Shizun, this disciple will definitely be able to convince the elders to agree!"

Diao mang Tian was overjoyed. He had already prepared countless words of plea in his heart. He had already come up with a lot of ideas on how to stir up emotions, and so on. However, he didn't expect that they would all be useless!

Chapter 8456

Lin Yi's quick response made Diao mang Tian overjoyed. He didn't feel any regret at all for not using his prepared speech.

As soon as Diao Mantian finished, Qin mengzhen took over, ""Master, disciple is not an old woman who doesn't need the consent of the elders in the family to make her own decisions! "For example, when I first went to the Alliance Academy, it was the disciple who chose it. My family never opposed my decision."

Lin Yi thought about it and agreed-Qin mengzhen's status was noble, and if she could make decisions on her own, then so be it.

Lin Yi wouldn't put Qin mengzhen in any danger anyway, and it was good to learn from her. The elders in her family should be fine.

MA pijing and tu Gesha followed closely behind their Senior Sister and expressed that they could also make decisions for themselves. This made Diao Mantian, who had just said that he could persuade the elders to agree, feel a little awkward.

Big Brothers and Big Sisters, you've made your own decisions. If I go back to ask the elders And you leave on your own, who can I reason with?

can't we all go back together?

luckily, lin yi didn't say yes. he scolded them with a smile, "are you guys trying to get away with it? don't count on it! it's really too troublesome for qin meng to go back and ask for instructions because the elders in her family aren't here. are you all that troublesome?"

"alright, alright. no matter what you do, hurry up and go back to say goodbye. pack up and we'll set off tomorrow morning! all of you, disperse!"

with that, the disciples all bowed and left the clinic, laughing and laughing. they went back to their homes, asking for instructions or saying goodbye-they had to work for a while, after all.

Lin Yi and Fei daqiang gathered the Imperial Guards, doctors, and alchemists, and asked Fei daqiang to hand over the command to the language of monsters.

Although everyone was sad that Lin Yi was leaving, they didn't feel any regret because they couldn't go with him.

After all, the families of the majority of these physicians and battle generals were all in the nado conferred Empire, and they couldn't leave as they pleased.

It was already late at night by the time they were done with the scattered arrangements. The few of them rested for a while, and the light of dawn appeared in the East.

A few of Lin Yi's disciples had already gathered together.

They did not bid farewell to Hua Yao, the artifact language, and the others. The Group of Eight rode a large flying spirit beast and soared into the sky, quickly leaving the naduo titled Empire's imperial capital.

In fact, what Lin Yi didn't know was that there were other ways to get to Fengqi continent from here, but the language of living things thought that Lin Yi was going to do a secret investigation and had to keep a low profile, so this primitive method was the most secure.

Lin Yi didn't tell the beast transformation language and Hua Yao, but they woke up early today. They stood on the tallest buildings in martial League and the school, watching Lin Yi's flying spirit beast leave. They wished him a safe journey and looked forward to their reunion soon!

Lin Yi's spirit sense had also discovered them, but he didn't go and greet them. All good things must come to an end, and they would meet again if fate allowed it.

The flying spirit beast made its way forward. With the newly promoted first hall Master, it only took one word for the beast to help Lin Yi with the documents, so the journey was quite smooth.

Lin Yi's trip to Fengqi continent this time was a secret investigation and he needed to be low-key.

So along the way, Lin Yi specifically told these people to keep a low profile and not cause any trouble. So they passed through the borders of Wutong calmly.

On this day, Lin Yi and his group entered Feng Qi continent.

As far as the eye could see, it was all white. The entire world was covered in silver. There were snowy mountains and icy peaks everywhere. It was as if they had entered an icy country.

Lin Yi wondered why this continent was called Feng Qi Dazhou. Wouldn't it be more appropriate to call it the ice plains great continent?

Come to think of it, was this the only place in the entire continent that had the ice plains Kingdom, or was it the same for all other places?

Lin Yi didn't have a geographical map, so everything had yet to be discovered!

"master, this place is so cold. our flying spirit beasts are not used to it. it seems like they can't fly anymore!"

qin mengzhen was very concerned about the aerial spirit beast that had accompanied her all the way. therefore, she was the first to notice the abnormality."there seems to be a blizzard in front of us. why don't we find a place to rest?"

lin yi's spirit beast came from the naduo imperial capital-the climate there was hotter, just like in the secular world, where people would find it too hot to wear short-sleeves outdoors in winter.

and this fengqi great continent was like the ice palace or the snow valley of the secular world, with viral flying snow everywhere.

this aerial spirit beast was as if it had suddenly flown from the hot south to the north, where half a leg could be buried under the heavy snow. it would be a wonder if it could adapt to this!

"alright, it's really hard to travel in this blizzard. let's find a place to rest first, and then let it fly back on its own. it probably won't be able to fly for the rest of the journey. after resting, we'll find a city and buy a flying spirit beast that can adapt to the cold weather!"

Lin Yi said as he controlled the flying spirit beast to descend.

There was a mountain not too far away, and there was a cave halfway up. Lin Yi used his spirit sense to check it out and found it to be a good place to rest.

The others didn't mind, of course-Lin Yi was their boss, and he had the final say.

Even if they didn't have any flying spirit beasts, it didn't matter if they walked. Everyone was a body refiner, so they were afraid of eating anything but suffering.

Moreover, the flying spirit beast they were riding was getting slower and slower, and it was trembling all over. Not to mention its speed, everyone was a little worried that it would suddenly fall from the sky. That would be a big joke!

Body-tempering martial artists could not fly either. If they fell from the sky, they would fall to their deaths!

"Alright, you can fly back on your own. It's up to you whether you return to the NA duo conferred Empire or not. If you like, you can find a forest to stay in. There's nothing wrong with being free. Go!"

Once they reached the cave, Lin Yi and the others jumped down and patted the flying spirit beast's neck, signaling for it to leave.

The aerial spirit beast's eyes revealed a trace of gratitude, as if it also felt that its little life would end here if it continued to fly. Therefore, it let out a clear cry and spread its wings to fly higher and higher, flying faster and faster in the direction it came from ...

"Alright, we don't know how long we'll have to walk on our own. Before that, let's have a good rest! This cave is quite big and clean, just enough for a temporary stay. "

Lin Yi waved his hand and led his men in. The blizzard behind them started getting stronger. The blizzard was here!

If the aerial spirit beast were to continue flying, it might just fall from the sky.

The group walked more than ten steps along the entrance of the cave, turned a corner, and walked another seven or eight steps before they saw a cave with a height of four or five meters and an area of more than 300 square meters.

The cave was indeed quite clean. Although the light was dim, everyone present was an expert. With the light from the passage, they could see clearly.

Chapter 8457

Not to mention the dust, there was some dry grass in the corner of the cave, a pile of charcoal ash in the middle, and some dry wood casually piled on the side.

It was obvious that someone had stopped here before, and the unused items were convenient for the people who came later.

Fei daqiang quickly went up and lit a pile of dry firewood. The cave suddenly lit up and soon became warm.

The entrance of the cave was deep and had a bend, so the blizzard outside didn't affect the cave much.

With the heat of the fire, the cold air quickly dissipated. Everyone sat down around the fire and took out some dry food to eat.

"Boss, we don't have enough firewood. Why don't I go and get some? We can also see if there's anything to eat nearby. "

Fei daqiang was idle and had nothing to do, so he found an excuse to go out.

Although it was Blizzard outside, it didn't really affect an expert of his level.

In particular, he was an all-rounded expert in refining his body, Qi, and spiritual sense.

"Alright, you can go now. Be careful!"

Lin Yi didn't mind and waved his hand, agreeing to daqiang's suggestion.

Fei daqiang happily agreed, jumped up, and ran out.

The others were not in the mood to go out. Although the cold outside could not kill them, running around in the blizzard was really boring and meaningless.

not long after fei daqiang went out, he came back with a pile of firewood."there are quite a lot of dead trees around here. it didn't take much effort, but it's a pity i didn't find anything to eat."

it was obvious what could be eaten in a blizzard.

it was definitely impossible to get any fruit, and prey ... probably wouldn't come out in such weather to seek death.

"it doesn't matter. we don't lack food for the time being anyway."

"we should be able to find some prey after the blizzard stops!" lin yi shrugged and smiled.

the jade space had more than enough reserves, so he wouldn't starve anyone. however, these people following lin yi were all body practitioners, and they needed to eat meat from spirit beasts or demon beasts from time to time. it would be best if they could hunt it now.

just as they were talking, a fleet of carriages arrived outside the cave.

he wondered how they managed to get up the mountain on a blizzard day.

lin yi had noticed before that this cave wasn't the only path from the south to the north-there was a path, but it wasn't safe for cars to drive through, especially when it was covered in snow.

"there's a cave here where we can take shelter for a while. secure the carriages outside the cave and keep the animals pulling the carriages inside. we'll see what happens tomorrow. once the snowstorm stops, we'll set off."

someone outside was giving orders loudly-it seemed like they had the same idea as lin yi and the others, and wanted to rest in the cave.

although three hundred square meters was a bit big for lin yi and the others, it was a different story if they counted the cars outside.

there were nearly 50 people in the convoy. if they all entered the cave, it would be a little crowded!

in fact, if only these people came in, it would be fine. if everyone stood in a line, there would be more than enough time to do a set of broadcast exercises.

However, the problem was that these people couldn't all be standing when they came in to rest, and it was impossible for them to not have any items placed.

When the time came, they would have to sleep and rest. With more than 60 people squeezed in the cave, just the smell alone was unbearable.

Fei daqiang didn't want to be disturbed by too many people, so he got up and went to the entrance of the passage, saying loudly, ""There's someone here!"

The sound of weapons being unsheathed suddenly rang out outside the cave. More than 20 people rushed in and vigilantly pointed their weapons at Fei daqiang.

Fei daqiang disdainfully curled his lips. He didn't even move in the face of more than 20 people's weapons. Who was he trying to scare with this small battle?

"What do you mean? Do you want to make a move? Come, come, come, try and see if your Grandpa Fei is afraid!"

Fei daqiang leisurely stretched out his right index finger and beckoned at the twenty-odd people.

"Fei daqiang, don't cause trouble. Did you forget that I said to keep a low profile? It's not easy for everyone to be outside. The cave is very big, so we'll give them half of it!"

Lin Yi waved his hand, signaling for him to come back. "Come and pack up the firewood. We have one-third of the space."

These were small things, and Lin Yi didn't mind relieving himself.

He was not some tyrannical popinjay, and the cave was not his territory. They were just passersby, and it did not matter if they went out to fight for territory.

"We'll do whatever the boss says!"

Fei daqiang was also very straightforward. He nodded and agreed to go and collect the firewood. It was already very kind of him to give them some space. The firewood that he had picked up definitely couldn't be left for them.

"You're lucky to have met my kind boss, who is willing to give you some place to rest. I'm warning you, don't cross the line!"

The twenty men didn't let down their guard just because of Lin Yi's kindness. They still pointed their weapons at Lin Yi's group of eight.

A burly man walked out of the crowd and scanned Lin Yi's group coldly. They were all young people, and the oldest Fei daqiang wasn't over thirty.

There were even five of them who looked to be in their teens. With such a formation, they would not pose much of a threat.

Especially since Lin Yi and the others weren't dressed in the same style, they were most likely from other places. The burly man immediately looked down on them.

"How many of you are there? What did he want a third of the cave for? You can have that corner over there, it's enough!"

The burly man pointed at a low depression at the entrance of the tunnel contemptuously. As it was close to the exit, cold wind would blow in. That was obviously the worst position in the cave.

In particular, the area designated by the burly man was only about ten square meters. Let alone one-third, it was hard to say if there was even one-thirtieth of it.

"Of course, if you don't want to, we won't force you. It's a big place outside, so you can go out and experience the vastness of the world!"

The man laughed, obviously thinking that Lin Yi's group was pushovers and wanted to take the cave by force.

If Lin Yi accepted the position and didn't dare to resist, the man didn't mind letting Lin Yi and his group stay in the cave, but it was hard to say how he would bully them later.

When there wasn't much to do in this cold weather, the man was happy to play around with these young foreigners.

Lin Yi's face darkened-he'd been willing to give them some space before, not because he was afraid of them, but he didn't think that these insensible people would take advantage of him.

It was simply laughable!

Keeping a low profile didn't mean that he'd let people bully him-he didn't care who they were!

It's over!

The experienced leg hair had a deep grasp of the thigh's psychology. At the same time, Fei daqiang wasn't a good person to begin with. His little temper was ignited at the slightest touch, and he immediately straightened his neck and stepped forward.

Chapter 8458

"What are you farting about! Our boss was kind enough to give you more than half of the place to rest, and you're not even giving us face, and you actually want to usurp the host? What, you think your uncle Fei is easy to bully?"

If it wasn't for the fact that Lin Yi hadn't spoken yet, Fei daqiang would've already started beating him up. He was a commander who had led the elite Yu Lin Army before, how could he be scared by twenty guards?

What a joke!

"Who doesn't want face? If you're polite, I'll let you rest in that corner for a night. If you're not, get out of here immediately! Do you think this is your house?"

The burly man wasn't afraid at all. He sneered and crossed his arms in front of his chest with an arrogant look. "I don't know if you're easy to bully, but when I want to bully you, I'll bully you no matter what. Not convinced? If you're not convinced, come and bite me!"

Fei daqiang was furious, but he still remembered to ask for Lin Yi's opinion.

After all, Lin Yi said that he wanted to keep a low profile, and if he really wanted to do something, he had to get the approval of his Big Boss.

"Boss, these bastards are too arrogant, really, I'm not a troublemaker. I can tolerate them looking down on me, Fei daqiang, but I can't tolerate them looking down on you, boss! I don't think you can take it, can you? So, can I beat them up?"

Fei daqiang turned his head and asked Lin Yi with a serious face. His joints were already making cracking sounds and he was ready to fight.

Before Lin Yi could reply, Zhang Yiming and his five disciples had already stood beside Fei daqiang, expressing their attitude without a word.

The other side also got into an attacking stance. The two sides were in a confrontation with swords drawn and bows drawn. The atmosphere suddenly became extremely tense!

Lin Yi was just about to nod and kick these idiots out when a woman with a Black Veil over half of her face walked in.

before he arrived, a clear and melodious voice was heard,""stop! when we're outside, amiability begets wealth. since when did our family have such an overbearing and tyrannical style?"

the woman's voice was soft and pleasant to the ears, but her words were dignified!

the guards who had entered the cave bowed and took a step back. they put away their weapons and revealed the passage behind them.

lin yi lowered his hand, temporarily putting away the thought of chasing her away. he looked up and saw that the woman was slender and well-proportioned, and her figure was exquisite.

although half of her face was covered by a black veil, her beautiful eyes that were revealed were still very eye-catching.

"young lady, these people don't know what's good for them. your subordinate is negotiating with them ... i didn't expect to disturb young lady over such a small matter!"

The burly man bowed respectfully and explained to the woman, ""There are only a few of them, yet they want to occupy such a large cave. This is preposterous ..."

"You're the one who's preposterous! It's simply ridiculous!"

The woman berated the burly man without any trace of politeness, ""Does this cave belong to my family? There's a first come, first served basis for everything. Since it's not our family's business, what right do you have to ask them to give up their place to us?"

Lin Yi nodded to himself, thinking that this girl was quite reasonable, and ... She was pretty too.

She had a Black Veil over her face, but how could it affect Lin Yi's spirit sense?

it was just that lin yi didn't look carefully because he was being polite.

"i'm sorry, miss! this subordinate knows his mistake!"

the burly man was also a bachelor. after being scolded by the woman, he didn't argue and directly lowered his head to admit his mistake.

the woman turned to lin yi, her eyes curved into a smile. "i'm really sorry, my family lacks discipline, and i've made a fool of myself! i'm very grateful that you were willing to give us a place to take shelter from the wind and snow. i wonder if you're still willing to share this cave with us?"

lin yi couldn't just go after her now that she'd lowered her stance and talked nicely.

"Of course we're willing. The cave is an ownerless place. Since we're fated to meet again, there's no need to be polite. We'll rest here, so you can Make yourself at home!"

Lin Yi cupped his hands and drew out a third of the space for him to rest.

To be honest, one-third of the cave was too big for Lin Yi's group. It didn't matter if they split some more.

However, Lin Yi wasn't planning on being a good person. He needed to have enough space to move around, and it was the other party's problem if it was crowded.

If the woman had been the one to negotiate in the beginning, it wouldn't have been impossible to make an exception. But now, it was like this!

"Many thanks!"

The lady didn't ask for more space and thanked him faintly, as if she had no intention of exchanging names with Lin Yi. She started arranging for people to rest.

The two sides were separated by an invisible dividing line, one side was very empty, and the other side was very crowded.

In particular, the woman's identity was different from others. The maidservants under her had deliberately separated a small area and pulled up the curtain.

In order to show respect, no one dared to come within three steps of the tent, so the fifty people were getting more and more crowded.

Because of this, the people looked at Lin Yi and his group with hostility.

Fei daqiang and the others were secretly on guard. Although there was no conflict between the two sides, they were all on guard tonight. No one dared to be careless.

Lin Yi was the only one who continued to eat and sleep, not even caring about the team in front of him.

They had just killed hundreds of thousands of darkness magical beasts, so what were these people worth?

There were a lot of them, but they weren't that strong. If Lin Yi wanted to, he could kill them all in seconds. What was there to be wary of?

Thus, the night passed uneventfully. The next day, the blizzard outside the cave was still the same.

The carriage that the caravan had left at the entrance of the cave was almost buried by the snow. Fortunately, the dark spirit beasts pulling the carriage were cold-resistant creatures here, so even if they stayed outside the cave for a long time, it would not be a big problem.

If not for this, the cave would not have been able to fit in!

"Miss, I'm afraid this Blizzard will continue for a while. Our food reserves are insufficient. We need to go out and hunt for some!"

After checking the supplies, the burly man from yesterday came to the tent to ask for instructions.

The cave wasn't that big, and he didn't make it too loud, but he didn't lower his voice either-Lin Yi heard everything.

Fei daqiang looked at Lin Yi and asked,"Boss, let's go hunt for some prey too?"

He had wanted to go hunting yesterday, but he didn't find anything. He only picked up some dry wood. Therefore, Fei daqiang thought that there was not much prey in the blizzard. If it was hunted by the other side, wouldn't it be more difficult to find anything?

regardless of whether he could fill his stomach now, fei daqiang wanted to get some of feng qi dazhou's local specialties to try, so he was very active in hunting.

Chapter 8459

The women in the tent did not object. They were all body-tempering martial artists and could not resist hunger like true energy martial artists. They needed food to sustain their body's consumption. The food reserves of the trade caravan were insufficient, so they had to go out and hunt.

"You guys go ahead. Take a few more people with you. Be careful. If you really don't have any prey, don't force it. Wait until the blizzard stops."

The woman didn't show her face. After she finished speaking in the tent, she let the burly man make arrangements for the hunting.

Lin Yi looked over and said to Fei daqiang, "It's good to hunt some prey. However, hunting will be a little difficult in the blizzard. Why don't we work together and hunt with them? we can split the prey when we return!"

He didn't hide his words either. Although he was speaking to Fei daqiang, the people on the other side could hear it.

The burly man was instantly enraged. He sneered and mocked, ""You're really shameless, saying it so righteously even when you're taking advantage of me! I don't understand, who the hell are you guys! You actually have the nerve to say such things!"

"Hunting is already difficult in this Blizzard. What right do you have to follow us and share the prey? Is she still sleeping? You're dreaming, it's simply ridiculous!"

The man thought that Lin Yi's side didn't have many people, and they weren't strong enough, so they wouldn't be able to help much.

He wasn't stupid, so how could he agree?

Fei daqiang was also angry when he heard this, "bah!" Who Do You Think You Are? If you don't know anything, then don't talk nonsense! Our boss pitied you, so he wanted you to take advantage of him. You really don't know what's good for you. You deserve to starve to death when you can't get anything!"

"And you still say that we'll follow you for benefits? This is so funny! Don't you have any idea of your own strength? With your puny abilities, you'll be considered a winner if you can survive!"

"Our boss is kind and generous. He said that he wanted to form a team to bring you along. His purpose is to help you in secret, so that no one will collect your bodies when you die! Since you don't appreciate it, then forget it!"

With a wave of his hand, Fei daqiang pouted with a look of disdain.

The burly man was so angry that he almost drew his sword. However, the woman in the tent directly walked out and shouted in a low voice, ""What are you doing? Don't you know how to restrain yourself? Must you offend someone?"

"I'm sorry, miss! This subordinate was too rash!"

The burly man once again admitted his mistake. It seemed like he had a very strong sense of hierarchy.

however, even though he admitted his mistake, the burly man still felt indignant, so he continued, ""miss, we don't need to join hands with them, especially their distribution plan. it's ridiculous. why do they have to get half of the prey? isn't it better for us to hunt on our own?"

"look at them, most of them are just kids without much fighting power. other than that big idiot and little fatty who seem to have some ability, the rest are all trash!"

lin yi was also classified as trash by the man, and only fei daqiang and zhang yiming were still considered to have some fighting strength.

"miss, there's no need for us to join hands with this kind of trash. it's ridiculous that we have to share the prey with them! we're here to look for medicine for old master, not to be babysitters for strangers!"

The burly man seemed to be a little excited and smacked his lips.

They looked like a normal merchant group, but now that Lin Yi knew, what were they looking for ...

"Da Qiang, Yiming, forget it. You two can leave! If they don't appreciate it, there's no need to rush to give them benefits. "

Lin Yi didn't really care if they wanted to go with him or not-it wasn't like he had to rely on them to hunt, so what if they wanted to?

"Yes, boss!"

Fei daqiang and Zhang Yiming bowed and accepted the order. Then, they glanced at the big man with a little disdain and walked into the passage with their heads slightly raised.

"At least you know what's good for you!" The burly man sneered.

The masked woman wanted to say something but stopped. She seemed to sigh softly and waved her hand slightly, ""Forget it! You guys can go! Bring more people and pay attention to your safety!"

The big man seemed to be respectful, but in fact, he smiled proudly. He cupped his hands and took his leave. Then, he led more than ten people out of the cave and followed Fei daqiang and Zhang Yiming into the snowstorm.

Lin Yi looked at the tunnel and wondered if the man would get into a fight with Fei daqiang and Zhang Yiming outside.

He wasn't worried that they would bully him with their numbers, but he was worried that Fei daqiang would take the initiative to find trouble with the big man!

After all, that guy's performance was very arrogant, and Fei daqiang was most likely having a hard time enduring it.

Fei daqiang wasn't a good person. In the secular world, he was a gangster leader in kirrlutz. He was a senior gangster!

It was only after he met Lin Yi that it became leg hair, but that didn't mean that his personality had changed.

A leopard can't change its spots!

Fei daqiang was like a big cat in front of Lin Yi, but when it came to other people, he would step on them mercilessly too!

That burly man didn't know the depth of things and had repeatedly offended Fei daqiang. Perhaps he would really be tricked by Fei daqiang outside!

Fortunately, Lin Yi had Zhang Yiming go with him. With Zhang xiaopang watching over him, Fei daqiang wouldn't go too far even if he messed around.

"I'm free today, so I'll give you some pointers on your homework!"

Lin Yi thought about it for a bit before tossing it away. He turned to the disciples. "If you have any doubts, just voice them out. Before the blizzard stops, we still have a lot of time to slowly clear up our doubts!"

"Many thanks, master! Then this disciple will ask!"

As the eldest Senior Sister, Qin mengzhen spoke on behalf of her junior brothers, ""When I was sparring with my junior brothers, I found some problems ..."

The masked woman didn't return to the tent but sat down by the fire. She heard Qin mengzhen calling Lin Yi "master" and looked over in surprise.

In her eyes, Lin Yi wasn't much older than Qin mengzhen and the others.

Hence, the masked woman thought that Lin Yi was of the same generation as them. These people were all young masters, and Fei daqiang and Zhang Yiming were bodyguards.

She didn't expect Lin Yi to be a master and disciple.

At that moment, she was curious about Lin Yi and listened carefully, wanting to know how Lin Yi taught his disciples.

Qin Meng wasn't stupid. There were so many outsiders at the side, so she wouldn't ask some cultivation questions that she thought were the sect's top secret. Therefore, she only chose the basic things. It wasn't a big deal if others heard it.

This sort of question wasn't difficult for Lin Yi at all-he just explained it in simple, easy-to-understand words, and anyone could understand it.

Chapter 8460

Qin mengzhen's questions would be much simpler with Lin Yi's explanation, but it would be very confusing before he explained everything.

It was just like magic in the secular world. Those who didn't understand it would be amazed by it.

Once they understood the principle behind it, they would come up with the idea that it was so simple, they could do it themselves!

Not only Qin mengzhen and the others, but many of the guards on the opposite side also revealed a thoughtful expression when they heard this.

The masked woman listened to a little but didn't pay much attention.

After all, what Lin Yi said was just the basics, and no matter how detailed it was, it couldn't change that.

Lin Yi didn't care what they thought. It wasn't a secret anyway. After teaching them about martial arts, he prepared to teach Tang Yungui and Diao Longtian about alchemy.

Diao mang Tian was still an in-name disciple, but since he came to Fengqi continent with Lin Yi, Lin Yi naturally treated him the same and taught him as a disciple.

Therefore, Tang Yungui and Diao Longtian received guidance together along the way without any bias.

The only reason Diao Mantian was still an in-name disciple and not officially accepted as a disciple was because of his laziness!

Lin Yi didn't want to go through the formalities again-he'd already taught her as a disciple, after all, and it didn't really matter if she had that identity or not.

Diao mang Tian, on the other hand, had been dreaming of the status of a personal disciple. However, he was already very satisfied with his current situation. He was afraid that if he were to raise such an improper thought, he would not even have the current treatment. Thus, he did not dare to ask, let alone mention this matter.

If Diao mang Tian didn't mention it, Lin Yi wouldn't even bother doing it. He'd have to keep his position as an in-name disciple.

"I've already explained to the two of you all the shortcomings and things you need to pay attention to as an apprentice apothecary. Today, I'll talk about the key points of fire control as an Alchemist ..."

Lin Yi started to talk about some Alchemist-level knowledge. Tang Yungui and Diao Longtian improved a lot with his guidance.

Even if the two of them were to participate in The Alchemist examination now, they would still have a high chance of passing. After they had learned more about The Alchemist Realm and put their knowledge into practice, their chances of passing the examination would be even higher.

Therefore, it was only a matter of time before these two little fellows became true alchemists.

"master, are we going to start learning alchemy knowledge from today?"

diao zhitian asked subconsciously. he was extremely excited. he felt that he had made the right bet this time!

if he hadn't left the school with lin yi, he would've needed at least two to three years of training to become a refiner!

"right! both of your foundations are already very solid, and there are no more problems with the theoretical aspects. now, you only lack some necessary practice, and you will be able to raise your alchemy standards to the limits of an apprentice alchemist. "

lin yi smiled and nodded, speaking patiently, "tang yungui's talent is outstanding, and so is yours. it's not convenient to give you too much practice time on the way, so i have to lay a good foundation for you in theory."

"At the level of apprentice apothecaries, there's nothing more for you to learn. Thus, your master will increase the difficulty and teach you the knowledge of the apothecary level. Of course, for now, it's only the most basic knowledge of alchemy. "

Lin Yi had raised the difficulty level for two reasons. One, he did feel that they were at this stage, and two, he didn't want to keep his students by his side all the time.

The earlier he passed on his knowledge to them, the earlier they would be able to finish their apprenticeship.

If not for this, there was no need to start teaching at The Alchemist level now. As mentioned earlier, the two of them still needed a lot of practice to completely transform the theory into their own alchemy skills. There was no need to come into contact with more difficult knowledge now.

However, Lin Yi had always thought that he was only half-baked in the field of elixir refinement. If it wasn't for Han Jingjing's Shennong cauldron, which had an automatic refining device installed, and his master Zhang Liju's notes, he wouldn't even be a Grandmaster!

After coming to the sub Island, he had collected countless alchemy books. In terms of theoretical knowledge, he could be considered a Grandmaster, but his practical ability was far from enough.

He believed that Tang Yungui and Diao Longtian would definitely surpass their master. One day, they would surpass him in alchemy.

And so Lin Yi had been thinking of making two copies of Zhang Liju's notes for them to study on their own after he'd taught them everything he knew.

Zhang Liju's notes, that was the true legacy of the sect, these two kids would definitely be very interested!

The masked woman didn't think much of Lin Yi's martial arts teaching at first, but she didn't expect Lin Yi to start talking about alchemy again.

Her beautiful eyes were filled with curiosity as she turned to Lin Yi.

This young man was actually an Alchemist? However, he didn't know what level of Alchemist he was.

"The control of fire at The Alchemist level is more than one level higher than that of an apprentice Alchemist. From an apprentice Alchemist to an Alchemist, it is a huge leap. Many people are stuck at this level, unable to advance even an inch for their entire lives."

"The two of you, don't look down on the knowledge of an Alchemist. Just because you have reached the peak of an apprentice Alchemist, you are already a quasi-Alchemist. This is a huge mistake. The gap between you two is so huge that it is enough to make an ordinary person despair!"

Before Lin Yi passed on the knowledge, he gave the two a few words of advice, telling them not to get too full of themselves and to understand the difficulty of becoming a refiner.

"Yes, master! I understand!"

Tang Yungui and Diao Longtian looked solemn. They cupped their fists in agreement.

Lin Yi nodded, satisfied. He then started the class, teaching them the key points of fire control as an Alchemist.

After listening to a few words, the masked woman suddenly lost interest.

Lin Yi was explaining the most basic knowledge of an Alchemist, and even non-alchemists could understand.

What she didn't understand was that Lin Yi's teachings were all about getting rid of the weeds and keeping the fine ones, all about the Dao of origins.

As the saying goes, the great Dao is the simplest. The simpler it looks, the more you can achieve your desired goal. This is what a true expert is!

It was just like two people fighting. One of them would play a fancy trick, while the other would just quietly watch the other party act cool. In the end, he would knock down the other party with a punch and end the battle cleanly. It was clear who was stronger and who was weaker!

The masked woman didn't understand this point, and so her eyes revealed some disappointment. She looked away, no longer paying attention to Lin Yi.

Lin Yi, naturally, didn't care about what others thought. If they wanted to hear it, then so be it.
