

## Bodyguard 8491

### Chapter 8491

"What was the result? Once principal Sima makes his move, not only will Ling lingjiu be able to live for a day, as long as nothing unexpected happens, he can live for another thousand years without a problem!"

"This is power, enough to instantly kill a useless alchemy Grandmaster like you! You're f \* cking jealous of Dean Sima's ability, so you want to push him aside, right?"

Yan SU's breath was fragrant, but no one dared to argue with him.

Ouyang cuantian felt extremely sullen in his heart. He also wanted to curse back ... But he was just thinking about it.

"Director Yan, you're the director of Tianxia college. You should be careful of your words and the influence you have!"

Ouyang cuantian could only use these words to give a small reminder. He could only keep the more intense words in his heart. "Also, talent is talent. It has nothing to do with ability. The Vice President of the alchemy Association can not be someone without talent. This is also a rule!"

"After all, we're the alchemy Association on the continent's level. We're not a small place where we can unscrupulously appoint nepotism. I hope director Yan can understand!"

Ouyang cuantian waved his hand and said with a strong sense of righteousness.

Lin Yi frowned. He really didn't want to continue this.

It was a dispensable title that he didn't care about at all, so why make trouble for it?

Lin Yi didn't come to Fengqi continent to fight for the title of The Alchemist Association's Vice-President. He wanted to investigate the dark Demon beast clan's infiltration in secret.

Keeping a low profile was the way to go!

Yan Su had good intentions, but this didn't fit in with Lin Yi's plans!

"Director Yan, let's forget about it. I don't care about this Vice President at all. There's no need to make a big fuss over this!"

Lin Yi said softly.

"Don't worry, Dean Sima. You don't have to worry about this matter anymore. This old man will handle it to the end!"

However, Yan Su waved her hand and said with a sullen face, ""It's no longer a matter of a mere Vice President. They're looking down on our Tianxia Academy. This old man will definitely not let this matter rest!"

After hearing this, Ouyang cuantian felt his scalp go numb, but he still refused to give in. "Director Yan, even if you tear down the alchemy Association, you can't break this rule. If you want to be the Vice President, you must have the qualifications of an alchemy Grandmaster!"

Yan Su stared at Ouyang cuantian with an unkind look in her eyes. She seemed to be in deep thought, and it seemed like she would attack him at any moment.

Ouyang cuantian's heart was really empty, and he was struggling to decide if he should just let it go like this.

In the end, Yan Su actually nodded. "Sure. It's just the aptitude of a Grandmaster Alchemist. It's not a big deal to Dean Sima. Let's just have an assessment!"

"Special circumstances require special measures. With Dean Sima's strength, this old man believes that passing the assessment will not be a problem. Ouyang cuantian, what do you think? It can't be that you don't even dare to give Dean Sima an assessment, right?"

The alchemy Association of the continental martial Alliance could organize the alchemy Grandmaster examination.

As long as Lin Yi passed the test, he'd officially become the Vice-President of the alchemy Association.

Ouyang kuantian felt relieved and laughed, "Of course, no problem. Isn't this good? as long as he can prove his strength, everything can be discussed!"

He was quite happy with this suggestion, because the test questions were all set by him, Ouyang kuantian!

At that time, as long as he made things difficult for her, Yan Su wouldn't be able to say anything.

After all, this was the alchemy Association's responsibility. Even the Dean of the Tianxia college couldn't interfere!

"How about this, Dean Sima, for the sake of Dean Yan, I'll be lenient and agree to let you take an additional assessment! Which rank of alchemy Grandmaster are you going to take the test for?"

With that thought, Ouyang kuantian's heart settled down, and he started thinking about how to make things difficult for Lin Yi.

As for the test level, Ouyang kuantian was just asking casually, not expecting Lin Yi to have any other options.

Because, as long as it was a normal alchemy Grandmaster examination, the examination would start from the bronze rank. There were very few exceptions.

After all, if one were to take the test step by step, one could take the test continuously.

For example, if one passed the bronze rank alchemy Grandmaster examination, they would be able to register for the silver rank alchemy Grandmaster examination.

There was no time interval between the two assessments.

However, if one directly took the silver rank alchemy Grandmaster test, once they failed, then there would be a restriction of not being able to take the alchemy Grandmaster test for two years.

This was the same rule as the previous apprentice apothecary examination.

When Tang Yungui failed the test, there was a restriction, but he allowed it for Lin Yi's sake.

In this way, no one would cross-level assessment.

Once a silver rank Alchemist failed the test, they would not even be considered a bronze rank Alchemist.

"Grand Elder Ouyang is really polite. I'll thank you in advance!"

Lin Yi's lips curled up in a mocking smile as he cupped his hands."May I ask what rank of alchemy Grandmaster Title I can take?"

"Although Dean Sima doesn't have a title, you should have heard of the ranks of titles, right? It doesn't matter if you don't know, I can explain it to you. "

Ouyang cuantian didn't mind Lin Yi's mocking at all-it didn't matter what level you chose, you idiot!

On the surface, however, he smiled like an old fox and introduced,""Grandmaster apothecaries are the same as apothecaries and apprentice apothecaries. They are divided into five ranks, from low to high, they are bronze rank, silver rank, gold rank, dark gold rank, and diamond rank!"

"Normally speaking, the assessment is taken one step at a time from low to high, but you can also cross ranks. Dean Sima, you can take any rank you want!"

With that, Ouyang cuantian waited for Lin Yi to make his choice.

In his heart, he still hoped that Lin Yi would choose the higher level test.

The higher the level, the tougher the test questions would be, and they'd be able to kick Lin Yi out of the test with a legitimate reason.

"Oh, I see. I'll take it then-I'll just go with the highest diamond test!" Lin Yi said faintly.

"Oh, you still chose the bronze-grade ... What? You chose the diamond Grade directly? You're really a newborn calf that's not afraid of Tigers, your spirit is commendable! Do you think that this assessment is very simple and you can pass it easily? Is this blind confidence, or is he not aware of his own strength?"

Ouyang chuantian thought that Lin Yi would at most choose a gold rank master to take the test, or at most a dark gold one!

After all, every small rank of diamond rank was almost equivalent to the big threshold of the next rank.

For example, diamond-grade cultivation was equivalent to perfection.

So, if Lin Yi really did choose the bronze Grandmaster test, then Ouyang kuantian would have to waste a lot of time and energy on how to come up with the questions.

Chapter 8492

After all, his level was there, so he couldn't make it too difficult. He could only try to get it from the side door.

Now that he was a Diamond Grade Alchemist, no matter how difficult the test was, it wouldn't be out of his scope.

It'd be easier to kill this annoying Lin Yi now!

He didn't bother hiding the mockery on his face as he changed his tone, "It's a good thing for young people to have courage. We should encourage them instead of suppressing them. I support you!"

Yan SU's face darkened. That was really serious enough!

He glared at Ouyang cuantian before trying to persuade Lin Yi.

"Dean Sima, please consider it again. You can't take the test lightly! To be their Vice President, one only needed to have the qualifications of a Grandmaster Alchemist, and not necessarily have to be at a high level! You're just a temporary Vice President, not the president, so it's enough for you to take the bronze rank Grandmaster title. "

Yan Su explained with good intentions, worried that Lin Yi didn't understand the stakes. "You haven't taken the test before, so you might not be clear. If you fail the test, you can't take the test for the same title for two years! You can't possibly take the second-best examination to become an ordinary apothecary, right? I know you're confident, which is a good thing, but we don't need to take the risk!"

With Yan SU's personality, it was really not easy for her to say so much.

It couldn't be helped-since he'd suggested letting Lin Yi take the test, it meant that he agreed that Ouyang kuantian couldn't be the Vice-President of the alchemy Association without talent.

If Lin Yi couldn't pass the test, he wouldn't be able to become the Vice President, and Tianxia Academy's face would be lost as well!

However, Lin Yi didn't seem to notice Yan SU's worry at all. He smiled faintly, "Don't worry, director Yan, I'm really confident! I know the rules too. If I take the test step by step, not only will I have to take the test four more times, but I will also waste many years, so it's better to do it in one step!"

Yan Su blew at her beard and widened her eyes. She thought to herself, "did you not understand what I said because I was too vague?"

However, if he were to say it again, it would be too direct and everyone would lose face!

Sima Yi looked like a smart young man, how could he not understand the meaning behind it?

"Hahahaha, well said, Dean Sima! I think that Dean Sima is usually very busy and doesn't have much time to take part in the assessment. Therefore, it's the right choice to take it all in one go!"

Ouyang cuantian was afraid that Lin Yi would go back on his word and choose the easiest test, so he didn't hold back on flattering Lin Yi, "Actually, the moment I saw Dean Sima, I knew that you were a genius in alchemy. You're an absolute master. Even if it's a Diamond Grade test, you definitely wouldn't have a problem!"

"This kind of spirit is very compatible with the essence of our alchemy Association. I'm already looking forward to it. After Dean Sima passes the assessment, he will come to the alchemy Association as a diamond alchemy Grandmaster. That will be the Supreme glory of our alchemy Association!"

"And for Dean Sima to have such achievements at such a young age is truly unprecedented. Only the title of Diamond Grade alchemy Grandmaster can match Dean Sima's talent!"

This was a blatant flattery, and anyone with a discerning eye could understand.

But it didn't matter-if Lin Yi denied it now, he'd lose all his momentum!

So, normally speaking, Lin Yi was in a state where he couldn't go up or down, and couldn't be demoted.

Even if he could still become the alchemy Association's Vice President after the demotion, he would still be looked down upon by others.

Although, Lin Yi didn't care about what others thought.

At the side, Yan Su couldn't take it anymore and directly shouted, ""Ouyang cuantian, shut up! Don't talk about those useless things! Dean Sima, you should make your own decision on this matter. Don't be affected by others! Remember this old man's words, to be the Vice-President of the alchemy Association, you only need to have the title of bronze rank alchemy Grandmaster ..."

"Director Yan is right. The Vice President only needs a bronze rank alchemy Grandmaster. However, director Sima is a talented young man with a limitless future. How can a mere Vice President limit his future?"

However, Ouyang cuantian did not give in an inch and continued to increase the bid."In the future, Dean Sima might become the president of the alchemy Association. He might even be able to take up a position in the alchemy Association of the mainland! How could a mere bronze rank alchemy Grandmaster be worthy of that title? This will become a restriction on Dean Sima's progress!"

"Dean Sima, let this Lord put it this way, the title of Diamond Grade alchemy Grandmaster, this Lord has not been able to obtain it himself, this Lord is only a dark gold grade! If you can get it, I can also give you my position as the Grand Elder. What do you think?"

Lin Yi's lips curled up as he listened to Ouyang cuantian's words. He felt that this was possible.

Lin Yi only wanted to save some time and get to the diamond Grandmaster level in one go.

It was really just that!

After rebuilding his body, Lin Yi didn't have to worry about the refinement fire anymore.

As his body's refinement level increased, Lin Yi was now fully capable of taking the diamond Grandmaster test.

Lin Yi had learned about this level from the alchemy Association in the martial Union of Wutong.

To put it bluntly, a Diamond Grade master refiner was equivalent to a Mystic third level refiner on Sky Class Island.

Although the names were different, the division of levels was actually the same.

The common world and the sky Class Island divided the alchemists into four levels: heaven, earth, black, and yellow.

And under each major level, there were seven minor levels.

However, the common world and the sky Class Island didn't have the title of an apprentice Alchemist.

Before they could concoct pills, they were all called students or disciples.

Therefore, according to the corresponding level, Mystic rank third grade plus the previous yellow rank seventh grade, it was exactly ten.

This was equivalent to a diamond-grade alchemy Grandmaster.

Lin Yi was already a Mystic class level three refiner when he first started his mountain, and although he was using the automatic refining tool, the Shennong medicine cauldron, he knew what kind of elixirs he could make at that time.

Now, even without the help of an automatic pill refining divine weapon, he could refine Mystic third grade pills.

Therefore, not only could he take the diamond Grade alchemy Grandmaster examination, but he could also get rid of this old fellow, Ouyang kuantian. It was really killing two birds with one stone!

"Alright! Since Grand Elder Ouyang has said so, of course I'm happy to do so. It's also a merit to let Grand Elder return home early to enjoy the joy of family!"

Lin Yi said with a smile.

Ouyang cuantian's old face turned black. Was he F \* cking saying that he should have gone home long ago because he was too old? This little brat's mouth was really sharp!

However, as long as you agree to take the diamond Grade assessment, it's fine! I can't kill you!

Guild leader Liu, who had been pretending to be invisible all this while, suddenly had a thought.

For a long time, he had been suppressed by Ouyang kuantian, that old thing. He didn't even have the slightest authority as the alchemy Association's President. He had long been unwilling to accept this.

Chapter 8493

Now that she heard that Lin Yi could replace her-the chances were small, but there was still a sliver of hope. She started to relax.

Even if Lin Yi became a Grand Elder and was still stronger than President Liu, he still wouldn't be as strong as Ouyang kuantian!

Lin Yi's position in the alchemy Association was a part-time one. His main job was still in the school, and he was still in the school most of the time.

So, the alchemy Association would definitely give up their power. Even if President Liu had to report something big to Lin Yi, it would be better than now.

In order to give Lin Yi some advantages, President Liu suddenly opened his mouth,"Grand Elder, according to the rules, in order to start the Grandmaster apothecary examination, at least two people are required to participate!"

"Although Dean Sima's situation is special this time, this rule can not be broken. Should we go and find another person who is participating in the assessment to come together?"

In such a hurry, how could an Alchemist of sufficient standard participate in the alchemy Grandmaster examination? It wasn't like they were cabbages on the side of the road that one could casually pick up.

He didn't know how long it would take to find the right person.

This way, Lin Yi would have enough time to prepare, and his success rate would be higher!

Naturally, Ouyang cuantian understood this as well. Why would he prepare anything for Lin Yi?

Instantly, he glared at guild leader Liu in displeasure. Clearly, he was blaming guild leader Liu for being a busybody.

The assessment this time was a special case, so it was not a problem for it to be a little special!

Why did he have to bring it up?

If he didn't say it, he could just muddle through, but if he said it and didn't do it, that was wrong!

On the other hand, Yan Su was quite happy to hear that. She felt that this was good. She could use this time to persuade Lin Yi and make him change his mind!

"Ouyang cuantian, since this is also a rule, we can't break it. When you find a suitable person, you can take the assessment with Dean Sima. We'll go back first today!"

Yan Su struck while the iron was hot and was about to leave with Lin Yi.

Ouyang cuantian was anxious. How could he agree to this!

It wasn't easy for him to set up a trap for Lin Yi, and he was just waiting for him to jump in-what was this old Yan doing pulling him away?

What if Lin Yi changed his mind and chose the bronze Grandmaster test instead? wouldn't that be a waste of effort?

"Don't be impatient, director Yan. I've already considered this matter. Coincidentally, I happen to have a suitable candidate!"

When Ouyang cuantian said that he had already considered it, he was obviously bragging.

He was quick-witted and suddenly had a flash of inspiration. He thought of such a person: "Principal Yan also knows this person. He's also a young talent, and he's also the principal of Tianxia College's bi array Dao branch, Shi wangcai!"

Yan Su was slightly stunned after hearing this, "President Shi chengcai?" He's a genius in the Dao of formations, and also a rare formation Grandmaster, but what does he have to do with alchemy?"

"It seems that director Yan doesn't know much about the geniuses under his command. You actually don't know that director Shi also has a deep knowledge of alchemy?"

Ouyang cuantian's old face scrunched up as he chuckled and sarcastically mocked Yan Su, "That's true. Dean Shi's brilliance in array Dao is too dazzling, so it overshadowed his excellence in other aspects!"

"Actually, he's not really interested in alchemy. He just wants to get the title of Grandmaster and give his family an explanation."

"Dean Shi is naturally aware that there aren't many alchemists who can take the alchemy Grandmaster examination. They either have succeeded or have failed and have to wait two years! Even Dean Sima has to abide by the rule of at least two people in a group assessment, so this Lord definitely can't make an exception for Dean Shi! That's why he hasn't come to take part in the assessment all this time!"

Yan Su was stunned. Could this be true? He had never heard of it before!

As if he could see Yan SU's confusion, Ouyang cuantian explained, ""It's normal that you don't know, because Shi longcai has never taken the apprentice or Alchemist test before! After all, he has long become an array Grandmaster. If he were to take the apprentice apothecary examination, he would not be able to bring himself to do so. "

"That's why Dean Shi told me to inform him if anyone came to participate in the Grandmaster Alchemist examination."

After he finished speaking, Ouyang cuantian looked at Yan Su with a look of devotion to the public.

What he meant was, I'm not deliberately targeting Dean Sima. It's the same if Dean Shi comes, and he has to follow the rules.

However, guild leader Liu was displeased when he heard this. He had finally found a way to stall for time, but it was useless now? Could he still be saved?

Hence, guild leader Liu gave it a try. "Grand Elder, principal Shi Shucai is an array Grandmaster, after all. Wouldn't it be inappropriate if he were to pass the test? It's not good for our alchemy Association if this gets out! The array formation Association's Vice President casually obtained the alchemy Association's Grandmaster title, making us alchemy grandmasters seem worthless!"

He even wanted to say that the alchemy Association would be suppressed by the array formation Association in the long run.

"Why do you have so many things to do? Just now, you were the one who said that you wanted two people to test. I have already found candidates for you, but you are still so picky. What do you want? You're deliberately causing trouble, right?"

In the end, Ouyang cuantian didn't give him a chance and directly interrupted him, "Don't talk nonsense, hurry up and invite Shi longcai over. Remember, go personally and tell him that it's not easy for someone to come to take the alchemy Grandmaster test. If he's interested, he can come immediately! If we miss this opportunity, we don't know when we'll get another one!"

Guild leader Liu couldn't help but smile bitterly. Under Ouyang kuantian's pressure, he had no way to resist at all. He could only bow respectfully and acknowledge the order before personally making a trip to the Tianxia Academy.

He was the president, after all, and now he was just an errand boy-it would be weird if he didn't feel angry. He hoped that Lin Yi could pass the test and knock that old bastard down!

Once Lin Yi took over, President Liu felt that the authority of the Association would return to his hands.

Lin Yi would become a true Grand Elder, with a noble status, but he wouldn't be involved in the Association's Affairs often!

A short while later, Shi longcai arrived with guild leader Liu. He really came at the invitation without any hesitation. Yan SU's face darkened and his mood soured.

This kid, why did he really come to join in the fun?

"Dean Shi, why did you really come to participate in the alchemy Grandmaster examination? I've never heard you mention it before!"

Yan Su sighed, thinking that if Shi shengcai had only come with the mentality of playing around, then she should quickly persuade him to leave.

"Director Yan!"

In the end, Shi longcai gracefully cupped his hands. His white robe fluttered as he smiled and said, "I'm indeed not very interested in alchemy. However, when I was young, I learned about alchemy as well while studying array Dao. I treated it as a form of entertainment in my free time."

"After that, I kept this habit. Although it was just playing during my free time, it seemed that his standard was not bad. I thought that if there was an opportunity, I would test him to see what kind of standard he was at. It could also be considered as an explanation to the family."

Chapter 8494

At this point, Shi chengcai turned to Lin Yi and smiled elegantly. "Moreover, I've told Dean Sima before that I would get a title if I had the chance. I didn't expect it to come true so soon, congratulations! Dean Sima, after we pass the alchemy Grandmaster test, why don't we go and take the array Grandmaster test together?"

There was a sense of pride in Shi longcai's words. This was the pride of a genius, but it didn't make people feel disgusted.

Even Lin Yi thought that the guy was being reasonable. He nodded in agreement, "Not bad, then let's take the exam together. I don't have time to make another trip! Director Shi is right, I also want to see what level my array Dao is at!"

Yan Su was completely dumbfounded this time.

What the hell?

Dean Sima also knew array Dao?

Was this sub-Island so crazy now?

Had the younger generation gone from a genius to an all-rounded genius?

As for Ling Yingying, she and Shi shengcai had actually arrived at the same time. However, she wasn't the main character, so she automatically stood to the side.

Now that he heard the conversation between Shi longcai and Sima Yi, he suddenly doubted life.

Previously, she had thought that Shi longcai was the king of acting tough.

But today, it was a Battle of Kings!

Sima Yi had even surpassed a King tier. He was simply the head of posturing, the number one in the world.

Ling Yingying touched her forehead. She didn't know what to say.

Even Shi Yucai didn't expect Lin Yi to accept it so easily.

This left him, the king of posturing, at a loss for words.

Shi Yucai even felt like he had met a confidant in life.

Previously, when he was telling the truth, although it was a little exaggerated, it was also the truth.

However, others who heard this would think that he, Shi Yucai, was just acting tough. He had even privately given himself the nickname "King of acting tough."

Only Sima Yi, not only did he believe his words, he even gave an even more pretentious answer!

Ouyang cuantian's lips twitched, thinking that Lin Yi was just bullshitting.

Guild leader Liu didn't mind. He only wanted to see Ouyang cuantian give up his position.

"Dean Shi is a superior genius. Even if he learns it, it will surpass many people's lifelong research. It's really admirable! Therefore, in this assessment, the first person I thought of was Dean Shi!"

Ouyang cuantian wanted Shi tiancai to take the test with Lin Yi, so he had to praise Shi tiancai as much as he could. "With principal Shi's talent, I believe it won't be a problem for him to pass the assessment! I'll wait and see!"

Shi shengcai waved his hand and put on a reserved smile. "Grand Elder Ouyang, you're too kind. I just feel that if I encounter any situation where my colleagues or family members are sick in the future, I can at least have the status to help them in case they don't believe me! Anyway, it's not a difficult thing. It's easy and simple, so I'll just take the title test while I'm at it. "

He was referring to Ling Yingying's father, Ling lingjiu's illness.

It was most likely that Shi Yucai was unconvinced that Lin Yi had cured Ling lingjiu and wanted to do it on his own.

At this moment, Lin Yi couldn't help but nod in agreement!

It's really rare to have a confidant!

In other people's eyes, this guy was so pretentious that he was about to break through the sky!

After all, there were many alchemists who could not even touch the realm of alchemy Grandmaster in their entire lives.

But Shi longcai actually said that he could reach the Grandmaster level by doing some casual work in his spare time. Wasn't he underestimating grandmasters too much?

Only Lin Yi didn't think so, because he was the same.

Sometimes, what he said was the truth, but others would think that he was just pretending.

From Lin Yi's point of view, it wasn't shi Yucai's first time seeing someone who didn't know anything about a Grandmaster.

The other party was a Grandmaster of formations, so he definitely didn't lack judgment. Thus, for him to be so confident, he must have some degree of confidence.

This person was indeed an amazing genius, or perhaps an all-rounder!

In all this time, Shi jincai was the most worthy of being called a braggart Lin Yi had ever seen. This kind of person had the right to be proud!

Although this person was better at showing off than him and often took the initiative to act cool, at least he was telling the truth.

It was much better than the kind of mouth that was full of nonsense.

Yan Su was secretly angry at the side, but she could not stop him.

There was nothing wrong with Shi shengcai participating in the alchemy Grandmaster examination. Even if Yan Su was the Dean of Tianxia college, he couldn't force Shi shengcai to give up on the examination. This was unrealistic.

Lin Yi was someone that Yan Su admired, but so was Shi Yucai.

They were all branch Deans of Tianxia college and were all young elites, so it was not good for Yan Su to side with anyone!

Both the palm and the back of his hand were meat!

"Excellent! Since director Shi has no objections, let's not waste time and start the assessment now! Please follow me!"

Ouyang cuantian was overjoyed. He felt that things were set in stone now, and he could dig a hole to bury Lin Yi.

A Diamond Grade alchemy Grandmaster ... A Diamond Grade idiot!

Did he really think that the diamond Grade assessment was so easy to pass?

When the group of them arrived at the alchemy Association's assessment venue, a group of young girls suddenly appeared.

There were no less than 60 of them, and they were holding banners and slogans in their hands.

Lin Yi felt as if he'd returned to the common world and met a bunch of fangirls. It was like time and space were in a mess.

Especially when they raised the banner in support of Shi longcai, they looked exactly like a fan club in the secular world.

"Dean Shi will definitely win!"

"Shi longcai is a genius!"

"Invincible in the Dao of formations, unparalleled in the Dao of alchemy! Director Shi is mighty!"

"Director Shi, director Shi! He's so handsome!"

.....

Lin Yi asked, confused.

So Shi shengcai, this pretentious prick, was so popular here?

From the time Shi longcai had arrived, he had already gathered a fan club of 50 to 60 young girls.

If it was the next day or the day after, wouldn't the alchemy Association be surrounded by his fans?

With such high popularity, why are you a mentor? you should just become a celebrity and be a popular young star!

Lin Yi took a closer look-some of the girls were students of Tianxia school, and they were wearing school uniforms.

Some of them were outsiders, and there were even relatively young teachers. This guy really did work for everyone!

"Hey, I heard that Dean Shi took the alchemy Grandmaster examination with someone else. Is it that person? he seems to be quite good-looking!"

"Hmm ... He's not bad, but he's still not as good as our genius Dean Shi! What a pity!"

"That's right, that's right. It's always sad when a good-looking person fails. However, it's only natural that he lost to director Shi. You don't have to take it to heart."

Lin Yi didn't know what to say-was that pretty guy talking about him?

Wasn't the Grandmaster apothecary examination supposed to test one's pill forging ability, but one's appearance?

Chapter 8495

If she wasn't good-looking, did that mean that she didn't even have the qualifications to be Shi tiancai's opponent?

Speaking of which ... The two of them weren't even a match for each other, so how could they still be defeated?

It only required two people to participate in the assessment together, not that only one person could pass out of two.

"Hey, that pretty boy, you should just give up! Taking the test together with director Shi will hurt your confidence! Let me tell you, in the past, there was a person who thought he was very outstanding and participated in the assessment with director Shi. In the end, he was beaten to a pulp and never recovered from it!"

"That's right, that's right. We're kindly advising you not to take the assessment with Dean Shi. You can't beat him at all!"

.....

Lin Yi couldn't be bothered to listen to these seemingly kind words that were actually praising Shi tiancai with closed eyes.

A group of silly girls, only knowing how to fart!

Didn't he know that Shi longcai was only pulled here to make up the numbers?

If I don't take part in the assessment, what's the point of Shi wancai?

"Grand Elder Ouyang, are outsiders allowed to observe the examination? With so many people chattering and making so much noise, won't it affect the candidate's performance?"

Lin Yi didn't think it would affect him at all, just that it was an eyesore.

"Hehe, Dean Sima, you might not know, but the Grandmaster level assessment is extremely hard to come by, so it doesn't prohibit bystanders from watching. Usually, when one reaches the Grandmaster level, the surrounding noise will be automatically filtered out, and they will definitely not be affected."

Ouyang cuantian was overjoyed to see Lin Yi's reaction, explaining proudly, "Of course, if Dean Sima feels that he will be affected, I can also have people clear the place and create a quiet environment for Dean Sima. However, these are all people who are here to Support Director Shi, so it's somewhat inappropriate for me to clear them out. "

"Grand Elder Ouyang, Dean Sima, please wait a moment. Let me try to persuade them!"

Shi chengcai spoke up to stop them. After getting approval, he smiled gently at the girls who had come to support him. "Everyone, I'm very grateful for everyone's support, but our next assessment will require a quiet environment. Please remain silent. Thank you!"

"Waa! Director Shi was so handsome and gentle! This smile ... Ah, no, my legs are going soft, help me!"

"Me too, so handsome! Help me, help me!"

After Shi shengcai received a new round of cheers, he turned around elegantly, raised his hand, and waved, which attracted even more cheers.

However, these little fangirls still listened to him and slowly quieted down. He wanted to give his idol a good assessment environment.

Lin Yi's mouth twitched, not knowing what to say.

This guy was really looking for an opportunity to show off anytime and anywhere!

As expected of the king of acting tough in Tianxia college!

"Alright, let's talk about the rules! Dean Shi, which level do you want to take the exam for?"

Ouyang chuantian did not forget to ask for Shi tiancai's opinion.

Shi qiaocai had been called here to make up the numbers, so Ouyang cuantian didn't care if he could pass the assessment.

If Shi shengcai was willing to take the diamond exam with Lin Yi, he wouldn't mind.

It would be best if none of them could win!

"Like this? However, I'm just here to take the test for fun, I don't really want anything. I'll just casually take the test for a bronze rank alchemy Grandmaster title!"

Shi longcai casually shrugged his shoulders with an indifferent look on his face. In fact, he knew in his heart that the limit he could challenge was a bronze-grade alchemy Grandmaster.

He probably wouldn't be able to reach it if he went any higher!

It was embarrassing to fail the assessment, especially in front of so many fans. It was better to play safe!

Ouyang cuantian didn't mind-so be it if Lin Yi was bronze, as long as he was diamond!

"Alright, then Dean Shi will be taking the test for the bronze rank alchemy Grandmaster title, and Dean Sima will be taking the test for the diamond rank alchemy Grandmaster title. It's confirmed and can not be changed!"

Ouyang cuantian didn't even ask for Lin Yi's opinion and made the decision!

Shi chengcai was surprised-he'd come a bit late, so he didn't know about Lin Yi's Diamond test. He thought that Lin Yi would at most take the gold Grandmaster test.

After all, at the Grandmaster level, every step was as difficult as ascending to the heavens.

He was a Grandmaster of arrays, so he knew how difficult it was to advance one level.

Lin Yi wanted to take the diamond test? Even if he was the vice principal of the alchemy sub-school, there was no need to do so, right?

He, Shi longcai, was only a dark-gold rank array master.

Ouyang cuantian didn't care what Shi Yucai was thinking. He only hoped that Lin Yi wouldn't think too much, so he started announcing the rules.

"Both of you will take part in the assessment at the same time, and the topic will be the same. The final score will determine whether you can pass the assessment. There are three rounds of assessment, and each round will score ten points. The full score will be thirty points."

"A bronze rank Alchemist only needs six points to pass, and a diamond rank Alchemist needs more than twenty-four points to pass! What needs to be specifically mentioned is that if you get zero points in any of the three rounds, it doesn't matter how high your score is in the other two rounds. You'll be cleared and you won't pass the assessment. "

"Of course, Dean Sima needs a higher score. Not to mention zero points in one round, as long as there's one round with less than four points, it will be declared a failure!"

Ouyang chuantian laughed like a weasel that had just eaten an old hen.

He was the one who set the questions for all three rounds, and Lin Yi needed an average of eight points or more to pass.

As long as the questions were a little harder, Lin Yi would be done!

"If you fail the test, you can't apply for a second test within two years. You should all be clear on this. Also, the test levels were set before the start of the test. Once the results are out, it can't be changed."

"For example, if Dean Shi applied for the bronze rank Grandmaster Alchemist test, but his results reached the silver rank, he would still only get the bronze rank Grandmaster Alchemist title."

"It's the same for Dean Sima. He applied for the diamond rank Grandmaster Alchemist examination, and his final result was dark gold rank. If he didn't reach diamond rank, he would have failed the examination completely and wouldn't have any title!"

Such a rule was to let the applicants have some self-awareness.

You should know what your standard is. Don't make choices that are beyond your ability!

If you choose a target that is lower than your own ability, that is also your own choice. Just continue to improve slowly!

However, it didn't restrict them from continuing to the next level.

This was also the reason why Yan Su wanted Lin Yi to take the bronze test.

The dark group's application for the imperial examination was the safest way.

"I understand! Was there anything else? If not, let's start now!"

Lin Yi nodded, indicating that it was no problem. He urged Ouyang kuantian to start the first round immediately, as if he wasn't worried at all about not getting enough points.

Chapter 8496

Ouyang cuantian laughed coldly in his heart, thinking that Lin Yi was just putting on an act and bluffing. Who knew how much regret he was feeling!

"Dean Sima is really impatient! Alright, let's begin! The first round is purification. The most basic and most important step in pill concoction is purification. "

"Whether or not you can extract the essence of the medicinal herbs to the greatest extent, it can be said to be an important step that affects the success rate and quality of the pill. And different medicinal herbs naturally have different difficulty in refining."

"Congo herb you need to refine today is King Kong fruit! It's known as one of the most difficult herbs to refine. The time limit is half an hour and you can only use your own pill fire to refine it. "

With that, Ouyang cuantian took out two fist-sized fruits that glowed with a green-gold light. He gave one to Lin Yi and Shi tiancai each.

This was the king Kong fruit, which was known as one of the most difficult ingredients to extract. Because of Congo extremely hard characteristics, many alchemists may not be able to extract much of it even if they used their alchemy fire to temper it for a day.

Even alchemy grandmasters didn't like to purify this herb by themselves.

If there was a need, he would also use some external objects to simplify the difficulty of purification.

The reason why Ouyang cuantian said that he had to use his own alchemy fire was to put an end to the possibility of using external objects.

"Vajra fruit? It's indeed a bit difficult, and an hour is a little less. I wonder how far I can go!"

Shi tiancai took Congo King Kong fruit with a smile. He didn't seem too worried. He even showed off the king Kong fruit to his support team in a leisurely manner, which attracted a low cheer.

They still remembered that Shi longcai said they wanted a quiet environment, so they restrained themselves from cheering too loudly.

Lin Yi's lips twitched as he took Congo fruit and tossed it around.

This thing was called a fruit, but no one could eat it raw. No matter how good one's teeth were, it was possible to break them.

"The time has begun. The two deans can begin the purification!"

Ouyang cuantian kindly reminded him.

He wasn't confident that he could purify it to more than 80% in an hour. No, to be exact, he wasn't even confident that he could purify it to more than 50%!

This was just a way to make things difficult for Lin Yi.

In any case, the topic and rules were all up to him, Ouyang cuantian. Who had any objections? He had to hold it in!

Moreover, Shi wancai, who was taking the test at the same time, didn't object.

As soon as Ouyang cuantian announced the start of the competition, Shi tiancai immediately entered the zone and began to go all out in purifying Congo King Kong fruit.

Lin Yi, on the other hand, didn't seem to be in a hurry-he even Congo the mood to smell the king Kong fruit ...

King Kong fruit Congo a very light fragrance. If one didn't pay attention, one might even directly ignore it.

But this had nothing to do with Congo King Kong fruit's effects-Lin Yi was just doing it because he had nothing to do.

Shi tiancai had already begun to extract Congo essence of the king Kong fruit. Although he was serious about this matter, he had a carefree temperament when he did it.

His every movement was elegant and calm, and even his alchemy fire was almost fantasized by him. There was no doubt about his appreciation.

If it weren't for Shi longcai's prior request, the group of fangirls would've inevitably screamed.

Lin Yi paid a little attention to Shi chengcai's refinement fire and found that it was condensed from normal elemental Qi, nothing special.

In terms of the quality of his alchemy fire, he had indeed stepped into the standard of a Grandmaster.

In terms of technique, there were some unnecessary fantasizing things. There were a lot of fancy things, but it was still above the standard.

To sum it up, Yingluo was just like that!

Lin Yi let out an imperceptible sigh. He'd thought of Shi wucai as a good friend, but now it seemed like that wasn't the case.

However, compared to the others, Shi Yucai was indeed a genius, but not to the point where he could stun Lin Yi.

After seeing his opponent's performance, Lin Yi started his own test.

There were no fancy techniques. He simply opened his palm and a hot elixir fire rose from the center of his palm. Then, he began to refine Congo King Kong fruit.

Lin Yi's elemental Qi and pill fire were much stronger than Shi shengcai 's, and Congo King Kong fruit was hard to get, Lin Yi added in his consciousness pill fire.

The two types of alchemy flames fused together perfectly, and outsiders couldn't see any clues at all, but the power within it increased by several times.

Plus, this type of fire was even more effective on Congo King Kong fruit, and so the fruit was melting at a visible speed!

Ouyang cuantian was a little surprised. Lin Yi didn't seem to have done anything, he just opened his palm and used the fire to refine Congo King Kong fruit. Why did the king Kong fruit change so quickly?

He was sure that Lin Yi's refinement fire wasn't some spiritual fire of the universe-it was a refinement fire he made himself.

Why?

Could it be that this kid's alchemy fire had some hidden secret?

Ouyang cuantian was still thinking about the secret of Lin Yi's refinement fire, while Lin Yi continued his simple and brutal refining performance.

Shi chengcai and Lin Yi had completely different styles. If Shi chengcai was a brilliant firework, Lin Yi was at most a second kick!

He didn't need to ask to know how much these fangirls admired Shi Yucai, but how much they despised Lin Yi.

They felt that Lin Yi was blaspheming their idol by standing next to Shi chengcai!

"That person's technique is really ugly. It's really far from director Shi's ..."

"That's right, the difference between the two of them is like the difference between the bright moon and the fireflies. How can our Dean Shi's brilliance be compared to this kind of vulgar person!"

"Don't talk, you're getting in the way of me admiring director Shi's technique. It's really as smooth and natural as the floating clouds and flowing water, so carefree and unrestrained!"

.....

Although they didn't cheer loudly, these little fangirls still couldn't stop whispering and exchanging some of their thoughts.

They were mostly praising Shi Yucai and disparaging Lin Yi. As for the results, it wasn't within their scope of concern.

Lin Yi didn't think that his technique was crude at all, despite all the girls looking down on him.

Alchemy had always been about how simple it was. The more unnecessary steps were added, the easier it was to cause the final alchemy to fail!

This simple and practical method was the most original method of alchemy. Only a Grandmaster with a certain level of strength could use it.

As the saying goes, laymen watch the show, while professionals watch the tricks. The little fangirls were all laymen, so what they saw was the show.

Shi shengcai was just right for their level of appreciation.

Lin Yi, on the other hand, was the one who caught the attention of all the big bosses in The Alchemist Association, including Ouyang kuantian!

The test time was only half over, and Lin Yi Congo already successfully purified the king Kong fruit, which was said to be one of the most difficult ingredients to purify.

When the fire was extinguished, all that was left was a pigeon-egg-sized golden liquid, glowing faintly with a strange fragrance.

Chapter 8497

The original Scent of the fruit was almost impossible to smell, but after purification, just smelling it would make one feel relaxed and happy.

Shi Yucai also noticed that Lin Yi had finished, and couldn't help but be surprised.

However, he was not in a hurry.

Shi tiancai's mentality was pretty good-she was just playing around and putting on a show, and it didn't matter who won or lost against Lin Yi.

Moreover, it was hard to say who would get the Grandmaster title in the end.

After all, the two of them declared different levels, and the difficulty was like heaven and earth. Even if Lin Yi's results were better, he might not get the title.

Hence, Shi Yucai wasn't in a rush and continued to refine it step by step. When the time was up, Congo King Kong fruit in his hand was only a size smaller, incomparable to Lin Yi 's.

Looking at the liquid in Lin Yi's hand and then at the king Kong fruit in her hand Congo Shi shengcai could feel her face burning. The difference was too big!

"Dean Sima, you're really good. You've really broadened my horizons. I didn't expect that you could refine medicinal ingredients to such an extent. It's really beyond my imagination!"

Shi chengcai cupped his hands at Lin Yi in a gentlemanly manner, admitting defeat. He then explained,"If I want to purify the effects of Dean Sima, I'll probably need at least six to six hours. I'm impressed!"

It's not that I can't produce this effect, but I need more time!

That was what it meant.

However, Ouyang cuantian and the other experts secretly scoffed at this.

We're all experts here, so who wouldn't know if you could achieve such an effect in six to six hours?

Lin Yi smiled and cupped his hands at Shi shengcai to thank him for the compliment, only to be met with the dissatisfaction of his fangirls.

"That person is really too much. Director Shi is so gentlemanly, but he doesn't even know how to say a word of courtesy. Simply too much!"

"He really thinks he's all that. It's not like Dean Shi can't do it, it's just that he doesn't have enough time. Slow work produces fine work. What's the use of speed alone? quality is the king!"

.....

They said all kinds of things, but none of them said anything good about Lin Yi!

Lin Yi didn't really mind as he turned to Ouyang kuantian, "Grand Elder Ouyang, are you the one to give the score?"

"Of course, I am fair and just. Are you trying to question my character?"

Ouyang cuantian tried to shut Lin Yi up first, but didn't he think that it would make him look guilty?

Lin Yi shrugged. "What are you saying, Grand Elder? I just wanted to say that if you want to give your score, you can start now. What are you waiting for?"

Ouyang cuantian was a little embarrassed. He hmped coldly and started checking the medicine that Lin Yi had purified.

When he was watching from afar, Ouyang chuantian did not get a good look. Now that he was close, he realized that the purity was beyond his imagination!

It was close to 90% purity!

They had seen a ghost!

Ouyang cuantian exclaimed in his heart, but his expression did not change. He nodded his head very normally, "Not bad, over 80% purity, you've barely reached your target. For the first round of assessment, Sima Yi got eight points!"

Lin Yi chuckled, not bothering to argue.

In fact, with a purity that was close to 90%, normally, giving nine points would not be too much. If it was more lenient, it was possible to give 9.5 points.

After all, Congo King Kong fruit was known as one of the most difficult medicinal ingredients to purify. It was impossible to completely purify it, and 90% was the limit.

Lin Yi was able to achieve such purity in such a short time-giving him eight points was really a huge loss!

Ouyang chuantian coughed dryly and didn't give Lin Yi a chance to refute. He immediately went over to Shi Yucai's side to check and announced the results, "Over 30% purity. Shi wancai scored three points in the first round!"

As soon as the results were out, the little fangirls who were watching the show immediately made a wave of unfair objections.

How could Shi shengcai only get three points with such a gorgeous technique?

At the very least, he should be given five points for appreciation. Why was it less than that crude brat?

However, these layman's opinions were directly ignored. No one had nothing better to do than to shut their eyes and care about their rainbow farts!

The Alchemist Association's President Liu didn't say anything, but his expression was strange. He thought that it was unfair, but the one who was being unfair was Lin Yi!

On the surface, Ouyang cuantian's judgment didn't seem to have any problems. If one exceeded 30%, he would get three points. If one exceeded 80%, he would get eight points. It seemed very fair.

But the difficulty of both sides was not on the same level at all!

Lin Yi's purity was close to 90%, but Shi Yucai's was only just over 30%!

Just Congo difficulty of purifying King Kong fruit alone was great. Even experts knew that no matter what medicinal ingredient it was, it was the easiest to purify at the beginning. Because there were many impurities, a simple touch could make a lot of progress in the purification.

If the difficulty of purifying Congo King Kong fruit at 30% was one, the difficulty of 40% to 60% was ten, and when it reached 70%, the difficulty soared to 100. After that, every increase in difficulty multiplied the difficulty!

For an ordinary alchemy Grandmaster, if he wanted to use Congo King Kong fruit, he would only need to purify it to about 70%. It was not impossible to continue purifying it, but it was time-consuming and laborious, and the cost-performance ratio was too low.

So Lin Yi's purity was close to 90%, and giving him nine points was already considered conservative, but that shameless old man only gave him eight points, while Shi Yucai got three points.

It was indeed fair and just ...

"Grand Elder Ouyang is indeed very fair and reasonable! I have no problem with that!"

Lin Yi said with a smile. He didn't object at all.

It was just that he felt like Lin Yi was mocking him, or maybe it was just an illusion ... But it didn't feel right!

Forget it, so be it if it's ironic, I'll just pretend I didn't hear it!

Ouyang cuantian comforted himself, thinking that since he'd tricked Lin Yi, he'd just have to continue. He wouldn't be able to trick Lin Yi to death!

"I don't have any problems with that either!"

No matter what, Shi shengcai was a person with extraordinary alchemy skills. Of course, he knew that he had taken advantage of her. It would be strange if there was a problem!

He wasn't as good as Lin Yi in the first round, but he felt that he was an array master, and making pills was just something he did for fun. It was normal for him to be worse than Lin Yi!

Moreover, quenching medicinal herbs was only the foundation. He could achieve sufficient results by spending more time. This little difference could not be eaten, so what was the big deal?

"Very good. Since the two of you have no questions, then we will proceed with the second round of assessment!"

Ouyang cuantian immediately made a decision and began to talk about the second round's assessment topic. "Next, I will take out a pill. You can only look at it and smell it. You are not allowed to touch it or taste it. Then, you can identify what kind of pill it is!"

"After identifying the pill, you must reverse-deduce the medicinal effects and uses of this pill. In the end, you will be given a score based on the accuracy of your answers!"

The rules were simple, but the content of the test was difficult.

Chapter 8498

It was almost an instinct for an Alchemist to identify a pill, but instinct was not the ability to identify all pills. It was more of an ability to identify the pills that had been refined.

If it was an unfamiliar pill, it would be difficult to tell what kind of pill it was just by looking and smelling it.

If he could taste it, he might be able to distinguish the medicinal herbs used in the pill and make some inferences from it.

Not being able to taste it ... It was too difficult!

If he couldn't even identify it, there was no way he could deduce the effects of the medicine. He might as well go back to wash up and sleep. Perhaps he could dream of something more useful!

Shi wancai wasn't very confident, but he couldn't show his fear on his face. He smiled and nodded. "Grand elder's question is really interesting, very interesting! Then I'll try!"

Lin Yi didn't mind as he gestured for Ouyang cuantian to take out the pill.

Ouyang cuantian's eyes flashed with pride as he casually took out a Jade box and opened it.

Inside the jade box was a pill the size of a longan. It was red in color and gave off a burning fragrance.

This elixir wasn't refined by Ouyang kuantian, but was a precious elixir obtained by chance. Whether it was the Wutong continent or the Fengqi continent, there was almost no such elixir circulating.

To put it bluntly, this pill was not refined on the starsource continent, but by an Alchemist from another continent!

Be it in terms of materials or techniques, they were different from those in the starsource continent.

Just by looking at it with the eyes and smelling it with the nose, most alchemists would think that it was a fire-attribute medicinal pill.

But it was not!

Ouyang cuantian was clearly trying to scam Lin Yi by using this pill as the topic.

He didn't care if he'd also conveniently taken advantage of Shi shengcai!

"Deans, did you see it clearly? This is a precious pill that I have obtained by chance. Please observe it carefully and explain to us what kind of pill it is and what use it has. The time limit is 15 minutes. It starts now!"

Shi shengcai wasn't in a hurry to make a move this time, and made a gesture of invitation to Lin Yi with great grace. "Principal Sima, first?"

"No need, we can do it together. We can't lift it with our hands anyway."

Lin Yi smiled and waved his hand, inviting Shi chengcai to watch it together.

Shi shengcai thought the same, so the two stood side by side in front of the jade box like friends and carefully observed the pill inside.

The pill exuded a very confusing fragrance, and the two of them sniffed it a few times at the same time.

The identification process wasn't very interesting, and Lin Yi and Shi Yucai didn't spend too much time on it.

After about four or five minutes, they finished their observation and fell into deep thought.

It didn't take long before Shi Yucai took the lead to get a pen and paper and began to write down the answer.

Lin Yi, on the other hand, waited a little longer before he picked up his pen and quickly replied.

It was indeed difficult to identify a pill in such a way.

But Lin Yi's theoretical knowledge was unparalleled, and with the help of his spirit sense, the Super difficult questions that Ouyang kuantian thought would be difficult for Lin Yi weren't actually that difficult.

Shi shengcai felt a little proud after completing the task. He felt that he would definitely be able to turn the tables this time.

He'd lost to Lin Yi in both time and points in the first round, and he didn't know what the results of the second round were, but he was much faster than Lin Yi.

After Lin Yi answered, Ouyang kuantian smiled coldly in his heart, but he still kept a smile on his face, "Are the two of you done? You can put the answers you wrote down first, then state them verbally. Finally, you can compare them with the text to determine the score. "

"Since principal Shi has finished first, how about you make a statement first? Seeing that director Shi seems to be very confident, this Lord has Great Expectations for director Shi's answer!"

After hearing this, Shi shengcai immediately gave a gentle and elegant nod. She said with a faint smile, "Grand Elder Ouyang, you're too kind. I'll start with some of the conclusions I've come up with after my identification. I might make a fool of myself, so please don't laugh at me!"

His words were very humble, but there was an unconcealed pride in his tone. It seemed that Shi longcai was indeed very confident in the results of the identification.

"I've never seen Grand elder's pill before. If I only look at its color and smell, it's easy to mistake it for a fire attributed pill. "

"In the beginning, I also had such a guess! However, after careful analysis, he realized that this was a deduction that was completely contrary to the facts! If I say that this is a fire attribute pill, then I really don't have the qualifications to become a pill refining Grandmaster!"

After hearing Shi tiancai's answer, Ouyang cuantian smiled and nodded in satisfaction, as if he approved of Shi tiancai's answer.

This point that Shi longcai had seen was a difficult point. Even many alchemy grandmasters could be misled by such a short period of observation.

Thus, in terms of standard, Shi Yucai was indeed superior to most alchemy grandmasters who had just entered the sect.

Shi shengcai lived up to his name as a genius!

Moreover, this guy was a Grandmaster of arrays, not an expert in alchemy.

This further proved that Shi tiancai was extraordinary.

"According to my observations, the true attribute of this pill is ice! And it was Extreme Ice! In this world, the majority of things are reversed when they reach an extreme. For example, steel that has been tempered a hundred times will become soft, but it is even more difficult to destroy!"

"This is the principle behind this pill. It's extremely cold, but it looks like it has a fire attribute. I'm afraid this is also the reason why the Grand Elder didn't allow us to touch and try it?"

No matter how it looked like a fire attribute on the outside, it was definitely an ice attribute on the inside. So once he touched and tasted it, he would discover the problem.

Only by simply observing and smelling could it form the greatest misleading.

"Dean Shi is indeed amazing. You've correctly identified the properties of this medicinal pill! Just from this point alone, you can get a three point evaluation!"

Ouyang cuantian didn't hold back his praise and nodded in admiration. He then continued to look at Shi Yucai with anticipation in his eyes. "Next is the medicinal effect and use of the medicinal pill. I wonder how much Dean Shi can say?"

Shi shengcai laughed proudly."I really can't make an effective judgment just by observing and smelling it. I can only make a slight guess. If there's anything wrong, please correct me, Grand Elder Ouyang!"

"Extreme Ice pills are very rare in our Fengqi great continent, but we can basically make a deduction from similar pills! I think that this pill is most likely used to refine the body, right? It uses the extreme Ice attribute to refine the body. If the user doesn't have the same Extreme Ice attribute, then the user must use the extreme Ice attribute to neutralize the extreme fire attribute. "

"In addition to these two special physiques, an ice-attribute pill is not suitable for ordinary people. It may cause damage to the body, so this pill is extremely precious in the eyes of those who need it. It is a priceless treasure. In the eyes of those who don't need it, I'm afraid it is almost the same as poison!"

After saying that, Shi longcai cupped his hands with a smile and said confidently,"This is just my immature inference. Grand Elder, please excuse me!"

Chapter 8499

"Very exciting! It was really not easy for director Shi to make such a wonderful deduction based on observation and smell! I'm impressed!"

However, Ouyang chuantian didn't say that he was right or wrong. He turned to Lin Yi after a few words of praise."I wonder if director Sima has any different opinions on director Shi's conclusion? If it's similar, then there's no need to waste time to repeat it. "

Ouyang cuantian said this on purpose.

If Lin Yi's conclusion was similar to Shi Yucai 's, he wouldn't have the chance to speak at all, and he'd lose face.

Not only that, Shi tiancai's answer was enough for her to pass the bronze Grandmaster test, but for Lin Yi, this was enough for him to just announce his failure without even having to go to the third round!

And so, he really hoped that Lin Yi wouldn't add on.

"There are indeed some different inferences. I'll waste everyone's time!"

Lin Yi ignored Ouyang cuantian and nodded at Shi Yucai faintly, "Dean Shi is indeed worthy of the name of a genius. It's not easy to see the true nature of this medicinal pill! If Dean Shi had devoted himself to alchemy instead of playing around in his free time, his achievements today would probably have shocked the world. "

It was normal for Lin Yi to praise Shi tiancai before he came to a conclusion, since he had a good impression of her.

"On the point of the extreme Ice attribute, I have the same judgment as Dean Shi, so I won't go into detail. But in terms of medicinal effects, my view is slightly different from Dean Shi 's."

"This pill is not used to refine the body. It's not impossible to use it this way, but the effect won't be too good. Moreover, it's an act of wasting natural resources, so I don't support it."

"After my analysis, I think that the value of this pill lies in its ability to save one's life! If Grand Elder Ouyang is heavily injured and on the verge of death, with his life on the line, and without any miraculous medicine to heal him, this pill will be able to come into play. "

Lin Yi purposely used Ouyang cuantian as an example, and old Deng's face instantly darkened!

Ouyang cuantian felt that Lin Yi was cursing him on purpose, but he couldn't say anything.

Who asked him to take out this pill?

He was definitely the one who had to use him to talk about his medicinal pill!

And so, Ouyang cuantian could only continue to glare at Lin Yi with a dark face.

"As long as this pill is taken, the user's body will enter a state of ice, and it will be able to maintain its original state for a long time, ensuring that the injury will not worsen."

"I'm not too sure about the exact length of time, but I estimate that this pill should be able to last for about twelve to fifteen days. During this period, if we can find a way to heal the injury, it can be successfully treated and healed. "

Ouyang cuantian's face was getting darker and darker-only he knew that Lin Yi was telling the truth!

Under normal circumstances, even if an Alchemist could see the true nature of the pill, it would be difficult for them to deduce its medicinal effects.

Shi tiancai's judgment was the conventional explanation!

And what the hell was this Sima Yi? how could he be so accurate!

Could it be that Sima Yi had seen this kind of pill before?

That's impossible!

Clearly, this pill came from another continent and was extremely rare in the star source continent!

Ouyang cuantian got it by chance and didn't mention it to anyone, let alone Lin Yi who was far away in Wutong!

"Grand Elder Ouyang, I wonder if my deduction is correct? If it's correct, how many points will I get?"

Lin Yi said with a smile.

Although Lin Yi didn't just write down this much, he could still see how Ouyang kuantian would react before deciding if he should continue.

"Hehe, Dean Sima's reasoning is also very wonderful, making people sigh in admiration! It was just that she didn't know how Dean Sima had made such a judgment. Do you have any evidence?"

Ouyang cuantian still didn't give a direct answer. Instead, he asked a rhetorical question.

If Lin Yi didn't have any proof, then Ouyang cuantian was planning to make a false claim, saying that Shi tiancai's deduction was the correct one.

As long as Lin Yi didn't get six points in this round, it didn't matter if he got ten points in the last round- he'd fail the test!

"To be honest, my sense of smell is very sensitive. I can distinguish the medicinal ingredients in the pill just by smelling it. Then, I can deduce the medicinal effects of the pill based on the medicinal ingredients!"

With that, Lin Yi opened up the paper he'd just written on, letting Ouyang cuantian and the others see clearly. "Here are the medicinal ingredients that I've identified. If Grand Elder Ouyang has the pill formula, you can compare them to see if there are any discrepancies."

The sensitive smell was obviously just a lie-he was able to tell the ingredients in the pill mostly because of his powerful spirit sense and his vast knowledge of alchemy.

The two complemented each other and were indispensable. If it were anyone else, it would be impossible to achieve this.

Ouyang Quantian's face was frighteningly gloomy. He originally wanted to call a deer a horse, but now he completely gave up on that thought.

It wasn't like they couldn't argue with Lin Yi, but Lin Yi had his reasons. It'd be a mess if they really argued.

To put it bluntly, Ouyang Quantian could suppress Lin Yi, but he had to do it within a reasonable range so that Lin Yi couldn't refute him.

"Dean Sima's knowledge is truly astonishing and his ability is outstanding! I saw that among the medicinal ingredients you wrote down, there were a few that were extremely rare even in the Star Source Continent. I wonder how Dean Sima identified them?"

Ouyang Quantian couldn't deny Lin Yi's conclusion. He could only try to prove that Lin Yi had seen the pill before and had some understanding of it, so that he could take the opportunity to deduct points.

But Lin Yi wasn't going to satisfy his curiosity at all. He just shrugged, "There's no need for Grand Elder Ouyang to know how I did it. I just want to ask if there's a problem with my answer. "

Of course, no problem!

If there was a problem, then it was Lin Yi's perfect answer-it was beyond the scope!

It's just identifying a medicinal pill, and you almost deduced the other party's pill formula. Do you have to be so awesome?

How are the others going to survive?

"There's no big problem. It's just average, very good!"

Ouyang cuantian gritted his teeth and barely made a judgment. "Sima Yi's score in the second round is a brilliant eight points! Shi chengcai got three points!"

Since Lin Yi was right, Shi shengcai's deductions were wrong as well, so they only got three points, the same as the first round.

It was obvious that Lin Yi was being targeted again.

If they really wanted to be fair, it wouldn't be a problem to get ten points in the second round!

However, Ouyang chuantian had the right to make the judgment. He could do whatever he wanted.

Ouyang cuantian was smart, too-he knew that eight was a critical value. Anything lower than eight meant that Lin Yi wouldn't agree to it, and Yan Su might even start a fight.

Chapter 8500

Lin Yi's side could accept eight points, and they didn't have to fight. Everyone went to the third round in peace.

Yan Su was not very satisfied with this score, but she could not say anything.

Firstly, he wasn't a master in the field of elixir making, so he didn't question Ouyang cuantian's seemingly fair judgment. Secondly, Shi Yucai was a young man he had high hopes for, and it wouldn't be friendly for him to argue over Lin Yi.

"First, I would like to congratulate the two of you. You have obtained ideal scores in the first two rounds of assessment, especially Dean Shi. As long as you can achieve something in the last round, you will be able to successfully obtain the title of bronze rank alchemy Grandmaster."

Ouyang cuantian pinched his nose and gave a few fake praises,""Dean Sima is also not bad. He has currently obtained sixteen points. According to this trend, the chances of him obtaining the title of Diamond Grade alchemy Grandmaster are very high! You're indeed a genius. I can't deny that I'm old!"

If Lin Yi had only applied for the silver Grandmaster exam, he would've already exceeded the required points, and was very close to the dark gold title. Ouyang kuantian smiled, but his heart was numb!

And this was the result of Ouyang kuantian's deliberate suppression. If they were to give him points normally, Lin Yi would already be a dark gold Grandmaster.

What a terrifying kid!

Therefore, they could not give Sima Yi the chance to make a comeback. They had to suppress him to the end in the third round!

"That Sima Yi is very powerful, he's actually so much stronger than Dean Shi ..."

"That's right. If you look closely, Sima Yi is actually very handsome too ... He's also a genius alchemy Grandmaster. Of course, he's still a little lacking compared to our Dean Shi."

"Principal Shi is a Grandmaster of arrays, alchemy is just for fun. To be able to do it to this extent is already very strong. Sima Yi is very strong, but can he compete with principal Shi in terms of arrays? It definitely can 't!"

On the other side, Shi tiancai's fangirls began to waver.

Who said that you can't be a fan of a second person just because you've been a fan of one?

Lin Yi's outstanding performance slowly made the fangirls fall in love with him.

However, the first ones who came to support Shi tiancai were definitely his die-hard fans. Even if they were moved by Lin Yi, they would still support Shi tiancai first and unswervingly.

Shi shengcai, who loved to show off, might not care too much on the surface, but in fact, he had been secretly paying attention to the comments of his little fangirls.

Now, hearing all these different noises, Shi wancai was naturally displeased.

Even though he was unhappy, he did not show it on his face. He still had a gentle smile on his face, without any flaws.

"The third and final round will be more difficult. I have an incomplete pill formula here. It has a name, but the contents are severely damaged. You will need to complete it."

Ouyang cuantian took out a tattered piece of parchment and carefully unfolded it. There were many holes on it, and the contents were really unsightly. "You need to complete the pill formula so that it can be refined normally. If you only complete a small part of the formula, I will give you some points if it is reasonable. If it is not, you will not get a single point. The two deans must pay attention to this."

He was giving Lin Yi a heads up-he'd already decided that he wouldn't give Lin Yi a single point in the third round.

"The time limit for the third round is two hours. We can begin now. Please feel free to do as you please!"

Ouyang cuantian carefully placed the torn parchment on a table for Lin Yi and Shi Yucai to examine.

The name of the incomplete pill formula was actually a complete and flawless dark shadow Devil Heart pill!

The name didn't seem to be anything serious, and it seemed to be related to the dark Demon beast clan. Lin Yi's vast knowledge of alchemy didn't have anything related to it.

In other words, this was a recipe that Lin Yi had never heard of before.

He didn't know where Ouyang cuantian had found this broken thing.

The pill's effects were described in the recipe, but it was hard to connect the dots. Lin Yi guessed a bit, but he didn't know if it was correct.

Then, there were the ingredients needed for the dark shadow Devil Heart pill. The main ingredient was still quite clear. It was the inner core of a dark shadow magical beast from the darkness magical beast clan. It was not easy to find, but it was not impossible to find.

Other than the main ingredient, there were more than 20 types of herbs that were used together, but none of them were complete.

There were holes everywhere on the parchment, and it was already good enough that there were one or two words on each medicinal herb.

There were five or six that weren't even written down, and Lin Yi could only guess from their positions that the hole was the name of a herb ...

Shi shengcai frowned and kept thinking.

He only needed one point to ensure that he didn't get a zero in the third round to get the title, so his focus was to fill in two or three medicinal herb names.

He wanted to complete the pill recipe and show his face, but after seeing the recipe, Shi Yucai wisely dispelled this idea!

He had never heard of a pill formula before, so forcefully considering the entire pill formula was simply courting death. It was wiser to focus his energy to ensure the minimum harvest!

As long as he could obtain the bronze rank alchemy Grandmaster title, Shi Yucai would be the youngest array Dao and alchemy Grandmaster!

Of course, Shi chengcai didn't believe in Lin Yi's array skills. Otherwise, he wouldn't have thought like this.

"Director Yan, both of them are the elites of your Tianxia college. Do you think they will be able to score smoothly in the last round?"

Ouyang cuantian could already foresee Lin Yi's fate, so he came over to Yan Su in a good mood,"In my opinion, your Dean Shi's chances are still very high. He only needs to get one point to guarantee the title of bronze-grade alchemy Grandmaster."

"Although the pill formula is incomplete, I can still deduce a few of the names of the medicinal herbs that have one or two words left behind. It's just a pity for Dean Sima. It's really a little difficult to complete the pill formula and get eight points!"

Yan Su hmped, completely ignoring Ouyang cuantian. She was extremely cold, but she was still a little worried about whether Lin Yi could pass this test.

Looking at Ouyang cuantian's smug look, he was probably 100% confident!

Would he really fail?

Shi longcai glanced at his opponent, a complicated look flashing through his eyes.

There was some admiration, but also some pity.

He didn't think that Lin Yi could get more than eight points, and three to five points was already scary enough.

Although I didn't score as high as you, in the end, I, Shi shengcai, am a Grandmaster, and you are still not!

Shi shengcai sighed in his heart. He raised his pen and began to write down the medicinal herbs he thought of on the paper.

This was just a draft. He would list out the possible ones and then slowly pick out the one that was most likely.

Although the description of the medicinal effects was incomplete, some of it could still be derived.

It was like an outline for an essay, and the medicinal herbs were the details to fill in.
