

Bodyguard 8501

Chapter 8501

Many medicinal herbs had similar names, but their medicinal effects were completely different. Shi wancai could narrow down the scope by combining the remaining one or two words with the description of the medicinal effects.

In this case, it was indeed not difficult to get a point within the time limit.

Lin Yi, on the other hand, was different. With the countless alchemy books in his mind, it wasn't impossible to deduce the recipe, but it would take a lot of time.

It was the assessment now, so he didn't have the leisure time to slowly ponder over it.

And so, Lin Yi took out the device-the tablet that Jingjing had modified.

Then, he entered the incomplete pill recipe into the tablet computer step by step.

No one here had seen this thing before, and they didn't know what Lin Yi was doing.

After the input, the automatic pill refining device would automatically analyze and optimize the incomplete pill formula according to the existing conditions.

Some medicinal ingredients were not recorded in the system, so they were simply replaced with similar medicinal effects, or even combined into a similar medicinal effect with two or three kinds.

These changes would be clearly displayed, and Lin Yi would combine the effects of the incomplete recipe with the correct ingredients and input them into the system, changing the changes back.

With that, the efficiency became very high.

While Shi tiancai was still picking and tweaking, trying to come up with two or three ingredients, Lin Yi had already completed the recipe, and the automatic refining device had already generated the refining curve.

If the alchemy curve was established, it meant that the elixir formula was established. If there were medicinal materials, he could directly throw them into the automatic alchemy furnace and start the alchemy process.

Lin Yi glanced at Shi tiancai. He hadn't achieved his goal yet, and if he said he'd completed the recipe now, it might put pressure on her.

So Lin Yi continued to pretend to modify it, waiting for Shi shengcai to say it was done before the time was up.

It was the last round, so he had to give his confidant, Shi shengcai, some face!

"Grand Elder Ouyang, I've added three missing medicinal ingredients. Do you think they're correct?"

Shi shengcai was in a good mood. He had proven and derived these three medicinal herbs many times and was very confident.

He didn't dare to say more, but one point was definitely guaranteed.

Therefore, the title of bronze-grade alchemy Grandmaster was without a doubt!

At the thought that he was about to become the youngest array and alchemy Grandmaster, Shi Yucai was secretly excited.

In the future, he would have more means and trump cards to show off!

A King would always be a King, and Yu Zi could only look up to him!

"That's right. Although there is no final conclusion on the pill formula, Dean Shi's three medicinal herbs are indeed very reasonable. This Lord is a little stricter and will only give you one point. Do you have any objections?"

Ouyang cuantian didn't mind giving Shi Yucai face, so he spoke rather politely, "Congratulations President Shi, you are now a respected bronze grade alchemy Grandmaster! Of course, principal Shi is a revered Grandmaster of arrays, and now the respect has only doubled, I think principal Shi is used to it. "

"Many thanks for Grand elder's praise!"

Shi shengcai smiled and cupped his hands, calmly accepting the praise. He then turned around and cupped his fists to express his thanks to his little fangirls, which attracted a wave of enthusiastic cheers.

At the end of the assessment, the fangirls naturally no longer had any scruples and loudly vented the excitement in their hearts.

What could be happier than seeing one's idol rise to the next level?

Well ... It should be two levels higher!

While the cheers were still going on, Ouyang kuantian looked at the complete recipe of the dark shadow Demon Heart pill!

Ouyang cuantian's face instantly turned ashen. How many years had it been since he obtained the incomplete pill formula of the dark shadow Devil Heart pill? He had never been able to complete the pill formula!

It wasn't that he didn't have a chance to study it, but he didn't have the time.

But Lin Yi only used less than two hours to complete the recipe?

What kind of monster was this!

Ouyang cuantian himself was a powerful alchemy Grandmaster. He couldn't complete the pill formula for the time being, but he had the ability to distinguish the pill formula.

After carefully looking at the recipe Lin Yi gave him and doing some mental calculations, Ouyang kuantian knew that the recipe was very likely to be real!

Even if it was not the original pill formula of the dark shadow Devil Heart pill, it was still a pill formula that could be used to successfully refine pills.

It was hard to say if the effects were the same as the original, but he could guarantee that it was the same as what Lin Yi described.

To hell with it!

Ouyang cuantian roared angrily in his heart. This pill recipe was another answer that could be awarded 10 points!

Could she give Lin Yi a 10?

Even if Ouyang cuantian was beaten to death, he would not be able to get such a score!

"Mm, Sima Yi's answer isn't bad, but it's not the pill formula for the dark shadow Devil Heart pill. You've changed the pill formula directly!"

Ouyang cuantian suppressed the shock in his heart and said with a light smile, "However, you've filled in quite a lot of medicinal herbs. Although you've made a lot of mistakes in those completely blank medicinal herbs because of your random guesses, I'm a reasonable person. You can get five points in the third round!"

"Out of the total points for the three rounds, Dean Sima got twenty-one points. What a pity! If Dean Sima had taken the dark gold rank alchemy Grandmaster test, you would have already passed, but you just had to take the diamond rank alchemy Grandmaster test. I'm really sorry, you didn't pass the test!"

"Young man, don't be too ambitious! After failing this test, you will not be able to apply for the title of alchemy Grandmaster for the next two years. This seat hopes that you can learn from this lesson and improve yourself step by step. After two years, this seat is optimistic that you will be able to pass the diamond Grade alchemy Grandmaster test!"

Ouyang cuantian assumed the attitude of a superior as he lectured Lin Yi, rambling on and on.

At the side, Yan Su, who had been holding back for a long time, finally exploded.

"Ouyang cuantian, you old man! Do you think that the diamond Grade alchemy Grandmaster examination is something you can do with one hand? Even if I'm not an alchemy Grandmaster, I can still tell that the pill formula Sima Yi gave me is a complete pill formula. Don't you understand?"

While Yan Su was scolding, she had already rolled up her sleeves and was ready to fight. "If you have the complete pill formula, then take it out and see what the difference is between Sima Yi's and your pill formula. You don't have the complete pill formula, so what right do you have to say that Sima Yi's pill formula is wrong? Why are you only given five points?"

"If you can't give me a suitable reason today, do you believe that this old man will directly tear down your alchemy Association?!"

He couldn't care less about Shi tiancai's feelings right now-he wanted to fight for Lin Yi's justice. The final score was just too ridiculous.

Yan Su wasn't stupid-she could tell that Ouyang cuantian was trying to beat Lin Yi down on purpose.

Ouyang chuantian's scalp went numb. He was really afraid that Yan Su would go crazy.

Under the premise that he could not defeat her, he was not willing to fight with Yan Su no matter what.

If he could beat them, why would he have to waste so much time?

Wouldn't it be over if he just killed Yan Su directly?

Chapter 8502

"Director Yan, please conduct yourself with dignity. I have the right to make a judgment. In this assessment, my words represent fairness and justice. If you continue to pester us and look down on the alchemy Association, do you believe that the martial Alliance will hunt you down for being a traitor?"

Ouyang cuantian brought up the name of justice and used martial Alliance to suppress Yan Su.

No matter how fearless Yan Su was, she wouldn't want to completely fall out with martial League, right? that would only benefit the darkness demon beast clan!

Yan Su had a sense of justice in her heart, and the darkness demon beast clan was her mortal enemy.

The internal conflicts of the human race could not affect the overall situation, so Ouyang cuantian could be considered to have grasped his weakness, and made Yan Su calm down a lot.

At the very least, he would not tear down the alchemy Association!

Grand Elder Ouyang, director Yan's words are straightforward, but they're not without reason. I also want to know why you only gave me five points."

Lin Yi expected this, and so he wasn't surprised. He was grateful for Yan SU's help, but at the same time, he questioned, "This is a complete elixir recipe, and all the missing medicinal herbs have been filled in. Grand Elder Ouyang said that there were only five points, but where is the basis?"

What damnable right of judgment was that? if he could say whatever he wanted, then what was the point of the assessment? wouldn't it be over if he just directly said whether he passed or not?

Ouyang cuantian's face sank and he casually said, "Dean Sima, are you not convinced by this seat's judgment? Let's put it this way, the pill recipe you gave has very special requirements for the medicinal materials, and also for the refining technique. "

"Whether these special ingredients and techniques really exist or not, it's still a question mark. Among the alchemists present, who would dare to say that there are no problems with the things in your pill recipe?"

"I'm giving you five points to save your face. In fact, with your trickery, it's not a problem to give you zero points!"

Lin Yi couldn't help but chuckle, thinking that Ouyang cuantian was shameless to the extreme. "Heh ... Grand Elder Ouyang, do you think that you're the most knowledgeable Alchemist in the world? You know all the ingredients and techniques like the back of your hand, and you don't allow any new techniques to appear?"

"As long as you don't know the ingredients and techniques, you think it's fake, right? Since you said that I'm wrong, doesn't that mean that the complete version of this pill formula is in the hands of the Grand Elder? Then let's just take it out and compare!"

Lin Yi didn't even try to hide the mockery in his voice.

But Ouyang cuantian's skin was thicker than he imagined, and he completely ignored Lin Yi's sneer.

"Dean Sima, if you're not convinced, it's fine. Since you said that there's no problem with your pill formula, then you can refine a furnace of pills. As long as you can successfully refine it on the spot, this Lord will treat your pill formula as real and effective. So what if I give you ten points?"

Ouyang cuantian was certain that Lin Yi couldn't make it, so he was very confident!

Let's not talk about the technique, just the medicinal herbs required by the pill recipe alone in the Fengqi continent, even in the entire starsource continent, there were several things that could not be produced.

Guild leader Liu looked at Lin Yi and felt some sympathy for him. This old man was really cunning!

This request was quite reasonable, and there was nothing wrong with it.

"Since you insist that the pill formula is correct, then refine a pill to prove it. If you can't prove it, what's the point of saying it!

Lin Yi chuckled. "Grand Elder Ouyang, you're really good at calculating. There's no problem with the recipe, and I can make it if you want me to, but you know that you can't make it without the ingredients, and yet you still make this request. If I can make it like this, why would I take the diamond Grandmaster test? I'd be an alchemy God!" You've calculated that I can't complete it and can only swallow my anger, right?"

"Don't talk about those useless things, just say that you can't refine it! As for medicinal herbs, I admit that I'm ignorant. There are a few that I've never heard of, and whether they exist or not still needs to be verified. "

Ouyang chuantian had a proud smile on his face and said, ""That is, you are unable to prove that the pill formula is correct. This is a fact that can not be refuted. Therefore, there is no problem with this Lord's judgment, and the result will not change!"

Yan Su couldn't take it anymore and sneered again, ""Very good! Ouyang laodeng, do you really think you can hide the truth from the world? The alchemy Grandmaster examination isn't a simple matter. Even the continental martial Alliance needs to be reported. "

"In this assessment, I suspect that you have cheated on your privacy and deliberately suppressed Sima Yi. Therefore, I will apply for the mainland alchemy Union to review this assessment to see if you are really that fair and just! The final result will be decided by the mainland alchemy Union!"

Ouyang cuantian was instantly shocked. He never thought that Yan Su would have the intention to blow this matter up to the mainland's alchemy Union!

He had thought that the old man would at most beat him up to vent his anger.

Yan Su, who attacked, was indeed a headache, but Yan Su, who didn't attack, was even more of a headache!

Guild leader Liu had been acting as an invisible figure all this while. Upon hearing Yan SU's words, he was completely dumbfounded. His lips trembled a few times, but he was unable to say anything.

Shi shengcai was also a little surprised. He clearly didn't expect Yan Su to do this.

However, he wasn't too worried. After all, he had already passed the test and become a bronze-grade alchemy Grandmaster.

Even if the alchemy Union did a review, it would only be for Lin Yi's failure. They wouldn't go against his results, so this review shouldn't have much to do with him.

"Yan Su, don't go too far. Do you really think I'm made of mud and don't have any anger? Do you believe that this Lord will fight you to the death?"

Ouyang cuantian gritted his teeth and threatened Yan Su.

It seemed that he was extremely opposed to the mainland alchemy Guild's review.

When Yan Su wanted to make a move just now, she didn't even see Ouyang cuantian have such an expression.

Lin Yi didn't know what was going on-why was Ouyang cuantian reacting this way?

Wasn't it just a review by the mainland's alchemy Union?

It was still unknown if there would be any problems, but it was possible that someone who had a good relationship with Ouyang cuantian would directly fool him.

So what if he found out that Ouyang cuantian had his own motives and suppressed Lin Yi?

Ouyang cuantian was very thorough in his work. The first and second rounds were at most a little harsh, but there weren't any major problems.

Lin Yi's points were a bit low in the third round, but Ouyang kuantian had his reasons!

At most, they'd give Lin Yi a few more points after the review and get him the title of a diamond-grade master.

What was there to be excited about after such a re-examination?

"A life and death struggle? Do you think this old man is afraid of you fighting to the death? He he he!"

Yan Su smiled coldly, flicked her sleeves and said, ""I'm going to apply for arbitration from the continent martial Alliance, and the continent alchemy Union will review the assessment! Didn't you want to fight to the death? This old man will be waiting for you!"

Chapter 8503

After she finished speaking, Yan Su turned around and left with her head held high and her chest puffed out. She completely ignored Ouyang cuantian's reaction.

Ouyang cuantian immediately felt like he was in a difficult position. "He won't throw you off, but if he really wants to turn against you, he doesn't dare to do it. How can he stop this stubborn old man, Yan Su?"

He had no choice but to follow them!

"The examination is over. Unrelated people, please leave The Alchemist Association!"

Ouyang cuantian quickened his pace to catch up with Yan Su, while ordering Shi tiancai's support group to be driven away.

What happened next wasn't glorious, and the fewer people who knew about it, the better. Ouyang kuantian was already starting to regret chasing these onlookers away!

No, no, no, I shouldn't have let them in to watch from the beginning. What a mistake!

The little fangirls were watching the show and were naturally unwilling to be driven away, so they quarreled again.

Yan SU's speed was very fast. She arrived at the teleportation formation that connected the martial League to the martial League of the starsource continent. She took out a recording Jade token used for communication, placed it by her mouth, and began to shout loudly.

"This old man is Yan Su. As the Dean of the Phoenix land's all under heaven Academy, I report the Grand Elder of the alchemy Association under the jurisdiction of the martial Alliance of the Phoenix land, Ouyang cuantian, for abusing his power for personal gain in today's alchemy Grandmaster assessment and suppressing dissidents!"

"Ouyang chuantian deliberately targeted the diamond Grade Alchemist, Sima Yi, causing Sima Yi to fail the test even though he could have passed it. In the name of fairness, I request the continental martial Alliance's alchemy Union to review and judge the results of this test!"

"If there are no problems with the re-examination, I am willing to bear the corresponding punishment for failure and head to the frontlines of the underground Devil's Den to guard the node for ten years. I hope that the martial Alliance of the continent will agree to my application!"

Lin Yi, who had just arrived, was shocked. He instantly understood why Ouyang kuantian and the others were so excited!

It turned out that this application for review could not be carried out casually, and a huge price had to be paid.

The price of failure was to guard the frontline node of the underground Devil's Den for ten years!

Ten years. There would be a few rebellions every year at this point, and the fights would be extremely fierce. After going down, he probably wouldn't be able to come back!

After all, every time there was a riot, the people at the front line would suffer heavy casualties. The price Yan Su paid was too great!

Correspondingly, if Ouyang cuantian was found to have a problem, would he also pay the same price?

Yan Su didn't say anything, but Lin Yi thought it was probably the case.

This rule should be targeted at both sides.

After Yan Su finished speaking, she held the Jade tablet and pointed it at Ouyang cuantian. She then shouted sternly, "Ouyang cuantian, do you dare to accept this old man's challenge?"

Once the Jade token was sent to the continent's martial Alliance, it was equivalent to Yan Su declaring war on Ouyang kuantian.

In the end, even if it wasn't a life-and-death battle, it wouldn't be too far off.

Ouyang cuantian's heart had already cowered in the face of Yan SU's imposing manner. His eyes wandered around twice before he stammered, ""What does your application for a review have to do with me? even if the alchemy Union agrees, they will have to speak to President Liu of the alchemy Association. As a Grand Elder, I should not be involved in the review."

Old lamp wanted to push the blame onto someone else, so he pulled guild leader Liu over, ""Come and accept director Yan's challenge. I will support you from behind. Our alchemy Association will definitely win!"

After guild leader Liu heard Ouyang cuantian's words, he was so angry that his lungs were about to explode. He wanted nothing more than to change his surname to "chop" so that he could directly chop this shameless old man to death.

You've taken all the power, and you've done all the things. I'm not even considered a bystander, so why should I help you take the blame?

People even said that I'll be the scapegoat and you'll be sent to your death. You're too unruly, you don't even take the blame and you don't even want to be sent to your death. You only care about tyrannical abuse, what right do you have?

Even a man made of mud would have some dirt in him. Guild leader Liu couldn't take it anymore and immediately retorted, ""I won't accept the challenge! Grand Elder, I don't think this matter is appropriate. In my opinion, principal Sima Yi's pill formula is worth at least eight points, or even higher. He should be someone who passed the assessment to become a diamond rank Alchemist Grandmaster, so there is no need for the alchemy Union to review it!"

"Grand Elder, if you insist that Dean Sima is unqualified, then it's more appropriate for you to accept Dean Yan's challenge. This time, I'll have to stand on Dean Sima's side!"

Guild leader Liu's expression was firm. He would rather die than become Ouyang cuantian's puppet.

If he didn't resist, he would be killed by Ouyang cuantian!

Ouyang cuantian was instantly stunned. Guild leader Liu's sudden and unyielding resistance was truly beyond his expectations.

In the past, he was always the obedient guild leader who did not dare to go back on his words. What was going on today?

Then, his face gradually turned ferocious, and his chest heaved up and down as he constantly weighed the pros and cons in his heart.

Since guild leader Liu didn't dare to accept the challenge, Ouyang cuantian would have to personally take the challenge!

The problem now was, what were the chances of winning if they accepted the challenge?

This was a gamble, whether Lin Yi's recipe could pass the martial Union's review.

From Ouyang cuantian's point of view, Lin Yi's recipe was complete, but it was too difficult to make, including the special requirements of the ingredients and techniques.

On the surface, the pill formula seemed to be valid, but only the heavens knew if it could really be refined!

He could take a gamble, but the price of losing was too high.

Everyone's price was the same. Whoever lost would have to guard the frontmost node of the underground Devil's Cave for ten years.

A span of ten years was basically equivalent to a trip to death. Whoever went would die!

Ouyang cuantian's expression was uncertain and unpredictable. He couldn't make a decision in his heart. What should he choose?

Lin Yi suddenly walked to Yan Su's side and took the Jade from the old man's hand,"Director Yan, it's better for me to apply for a review. It's more convincing!"

"Thank you very much for standing up for me, director Yan, but I'll take responsibility for what I've done. I'll solve my own problems. If it really doesn't work out, how about you come back and cover for me?"

Yan Su was stunned for a moment before he laughed out loud."Fine, I've indeed meddled a little too much. It's best if you can handle it well. We have reason and evidence for this matter. I believe that we will definitely win. You will settle this personally and make Ouyang laodeng convinced!"

"Director Yan is right, let him be convinced! Next, I will issue this challenge!"

Lin Yi smiled as he wiped the words from the Jade tablet and repeated what Yan Su said,"Grand Elder Ouyang, I'll personally apply for a review. Do you dare to accept this letter of challenge?"

Ouyang cuantian had already thought of many things in an instant.

He wouldn't dare to accept a challenge from Yan Su, but Lin Yi gave him a lot more confidence.

Why did Sima Yi take the initiative to replace Yan Su? He even said that he would take responsibility for his own actions. It was obvious that he had no confidence in himself!

Chapter 8504

This was a person of affection and righteousness. He didn't want Yan Su to suffer. Haha, what a fool!

In order not to implicate her superior who admired her, she stood up?

In Ouyang kuantian, if this was a situation where Lin Yi was sure to win, then he would definitely go with the flow and let old man Yan win this round. Everyone would be happy!

But Lin Yi stood up for him-he wasn't taking credit for it, he wasn't confident!

The corners of Ouyang cuantian's mouth curled up, revealing a smile of wisdom. He felt that he had already seen through everything.

Hence, he nodded his head."No problem. You and I are both involved. Since that's the case, let's settle it once and for all!" I'll accept your challenge! Whoever loses will go to the frontmost node of the underground Devil's Den and guard it for ten years!"

"Alright!"

Lin Yi didn't waste any time and sent the Jade card over.

Very quickly, the continent's martial Alliance replied that Youyou agreed to review and arbitration. The contents of the arbitration were immediately sent over.

"Diamond Grade alchemy Grandmaster examination third round, Feng Qi continent alchemy Association Grand Elder Ouyang cuantian used an incomplete pill formula as the question. Tianxia Academy alchemy branch head Sima Yi answered and completed the pill formula, but only received five points, missing the title of Diamond Grade alchemy Grandmaster. The continental martial Alliance alchemy Union will review the pill formula and judge the score."

Lin Yi described it briefly and sent the incomplete recipe along with the one he completed.

The next step was to wait for the continental martial Alliance to come up with an answer for arbitration after they had studied the matter.

Normally, the reply would be quick, because when the other side agreed to review, they would gather people to make preparations.

As long as the incomplete pill formula and the completed pill formula were sent over, it would be clear how much they could get after a little comparison.

In the end, the group of people waited and waited by the teleportation array. Seeing that half a day had passed, there was actually no reaction at all.

"What's going on? why isn't the result out yet? is there something wrong with the teleportation array?"

Ouyang cuantian was getting more and more flustered as he paced back and forth, unable to hide the anxiety on his face. "Guild leader Liu, why don't you ask them if there's a result? Did you forget to teleport?"

"Grand Elder, the continental martial League is over there. They won't make such a low-level mistake. We'll just continue waiting!"

Guild leader Liu had just rejected him once, so he was very familiar with how to reject him.

He'd placed all his bets on Lin Yi-if Lin Yi failed, he'd probably be punished by Ouyang cuantian.

Lin Yi didn't mind as he smiled, "Grand Elder Ouyang, please calm down. I think the continent's martial Alliance thinks that this matter is of great importance and is unable to make a decision. There might be some arguments, but we can't rush them!"

Naturally, Ouyang cuantian knew that it wasn't good to rush him. That was why he wanted guild leader Liu to go and ask.

If he personally went to ask and caused the higher-ups to be disgusted, the ruling that was originally in his favor would be changed!

After hearing Lin Yi's words, Ouyang kuantian felt that if he continued to act flustered, it would affect his aura. He hmphed and didn't say anything else.

Just wait!

The martial Alliance from the starsource continent was just as Lin Yi had described.

The person in charge of reviewing Lin Yi's arbitration request was the Vice President of the alchemy Union, qu nuanqi.

He had enough authority to handle this kind of review arbitration.

He didn't expect Lin Yi to send him the incomplete and complete recipe of the shadow Devil Heart pill. These two special recipes made him feel a little troubled!

Qu nuanqi couldn't handle it, so he went to Sha chongji, the Guild Master of the Alchemy Guild.

The two of them were discussing whether Lin Yi's recipe was reasonable or not!

"Chairman sand, we've already studied it for half a day. Judging from the medicinal properties of the medicinal herbs listed, the probability of this pill formula being correct is quite high. In terms of points alone, five points is definitely being suppressed!"

Qu nuanqi held Lin Yi's recipe in his hands and exclaimed, "This Sima Yi, to be able to complete the shadow Devil Heart pill to such an extent in such a short time, he is indeed a genius! A Diamond Grade alchemy Grandmaster, you deserve it!"

He didn't say how much the recipe was worth, but he did say that Lin Yi deserved the title of a Diamond Grade master.

The meaning was clear-the points aside, just this recipe alone was enough to give Lin Yi the title of a diamond Grandmaster!

"Vice President Qu is right, this Grandmaster Sima Yi is indeed talented, but this pill recipe ... How should I put it, it's only a theoretical possibility, and lacks practical proof. Although Ouyang Cuntian is suspected of suppressing it, it's not completely unreasonable!"

Sha Chongji frowned and looked conflicted, "It's fine if we can refine and verify it. The problem is that the two of us can't refine this shadow Devil's heart pill. What can we do?"

Even the alchemy Union of the martial Alliance of the star source continent didn't have all the ingredients in the recipe that Lin Yi gave them. They were missing a few very rare spiritual herbs.

Apart from that, the two guild leaders weren't confident that they could successfully use the special technique required in the pill recipe.

If the herbs for the dark shadow Devil Heart pill could not be gathered, how could they have the opportunity to practice these special techniques?

It was not embarrassing for Sha chongji to admit that he was unable to refine it. After all, this was a consensus between the two of them. It was normal for no one to be able to do it.

"President Sha, regardless of whether the pill formula can be refined or not, the theory that Sima Yi proposed is still advanced enough. It will be an opportunity for the existing alchemy system to improve!"

Qu nuanqi thought highly of Lin Yi and was willing to defend him, "He is a rare talent. President sand, you have also admitted this, so there is nothing wrong with ruling him as a Diamond Grade alchemy Grandmaster!"

Sha chongji nodded slightly. "I didn't say that Sima Yi shouldn't become a Diamond Grade alchemy Grandmaster. He does have the qualifications. The problem now is that even though Ouyang cuantian's reason is a little far-fetched, it's not good to reject it."

"The result of us overthrowing Ouyang kuantian is the same as sending him to the frontlines of the devil's Cave to guard it for ten years. Wouldn't that greatly damage the Ouyang family's vitality?"

Sha chongji subconsciously rubbed his forehead and looked a little distressed. "We can't touch the Ouyang family yet! His family is on that line, and with someone protecting him, it will be very troublesome to touch Ouyang cuantian. "

Qu nuanqi had a headache too, but they had no choice but to continue their discussion.

He couldn't touch Ouyang kuantian, but Lin Yi couldn't give up, either. It was rare for such a genius to appear in the starsource continent. If he sent him to guard the demon cave for ten years, he would be useless!

On the other side, when even Yan Su was getting impatient, the reply from the continental martial League finally arrived.

The two guild leaders discussed for a long time and finally came up with a solution that would kill the best of both worlds.

Lin Yi took the Jade token and released the voice recorded inside in front of everyone, "I am the president of the alchemy Union, Sha chongji. Regarding Phoenix nest Grand continent's Tianxia College's alchemy sub-school president Sima Yi's application review reply is as follows."

Chapter 8505

"Sima Yi has a unique understanding of the dark shadow Devil Heart pill's pill formula, and can be awarded the title of diamond rank Alchemist Grandmaster. However, the pill formula can not be verified, and Ouyang cuantian's judgment can not be said to be wrong. Therefore, Sima Yi has obtained the title, and Ouyang cuantian's crime of suppressing an opposing party is not established!"

"In addition, Sima Yi's research on the completion of the pill formula of the shadow Devil Heart pill is of great significance. Therefore, Sima Yi was granted the position of Vice President of the alchemy Association of the starsource continent. He will no longer hold any specific positions in the alchemy Association of the Phoenix Nest continent."

This result could be said to be painstaking, and he did not offend either side.

Giving Lin Yi the title of a diamond Alchemist and exempting Ouyang kuantian from his crimes meant that the letter of challenge from before had lost its meaning. The Alchemist Guild wanted both sides to shake hands and make peace.

Then, he appointed Lin Yi as the Vice President of the alchemy Union of the starsource continent. This way, the issue of the Dean of the alchemy sub-school and the Vice President of the alchemy Union of the continent was solved.

Sha chongji and qu nuanqi were probably worried that Lin Yi and Ouyang kuantian would get into a conflict if they were together, so they decided to pull this off!

What a far-sighted plan!

However, they didn't consider Ouyang cuantian's feelings.

Although he didn't have to take the punishment of guarding the underground cave for ten years if he failed the arbitration, making Lin Yi the Vice President of the alchemy Union was still enough to disgust Ouyang cuantian.

Lin Yi was only the Vice President of the alchemy Association, after all, and Ouyang kuantian was his absolute superior. He could do whatever he wanted to Lin Yi.

But now, Lin Yi was the Vice President of the alchemy Union. He was above the entire alchemy Union and was now his superior.

The point was that the Vice President of the alchemy Association would still be staying at Tianxia Academy in Fengqi continent. Who would the alchemy Association listen to in the future?

Guild leader Liu's face turned ashen. He did not care who the alchemy Association would listen to in the future. After all, it would not be over just by listening to him!

The most important thing was that Ouyang chuantian was fine. What kind of revenge would he get for his rebellious behavior just now?

Damn the Alchemy Guild, why didn't they let Ouyang cuantian, that old thing, guard the node of the underground Devil's Cave?

"Hahahaha, Ouyang kuantian, what else do you have to say? Even the alchemy Union of the continental martial Alliance has acknowledged the value of Dean Sima's pill formula. Are you still not going to admit that you're suppressing him?"

Yan Su laughed out loud and pointed at Ouyang cuantian with her finger, ""You're lucky that the president of the alchemy Union is kind enough not to let you guard the underground Devil's Cave for ten years. However, if you still want to save your face, you should have fulfilled your promise and gone to the underground Devil's Cave by yourself!"

Ouyang cuantian's skin was very thick. Of course, he wouldn't really go to the underground Devil's Cave just because of a few words from Yan Su. "Director Yan, you've heard it as well. President Sha said that my judgment was not wrong. It was only because I love talent that I gave Sima Yi a chance. How can this be considered my loss?"

Even if he was being unreasonable, Ouyang cuantian still said it as if it was a matter of course, not showing any fear.

"Forget it, forget it, this old master already knew that you, old lamp, have a black face and a thick heart. You definitely wouldn't keep your promise, so I didn't have any expectations of you."

Yan Su shook her head in disdain and said, ""As for the other bet, I reckon that you old thing will also go back on your word, right? The bet between you and Dean Sima states that as long as Dean Sima obtains the title of Diamond Grade alchemy Grandmaster, your position as Grand Elder will be replaced by Dean Sima. "

Ouyang cuantian's old face turned black. 'This damn old Yan Su, will you die if I don't mention this?' Will I? will I?

He wanted to ignore it on purpose, hoping that Lin Yi would forget about it after the review with the martial Alliance!

Lin Yi didn't mention it, but Yan Su did!

Old man!

Ouyang cuantian was scolding Yan Su in his heart, but he put on a calm expression on the surface, "Ah, that bet. There was indeed such a thing. However, the president of the alchemy Union of the continental martial Alliance said that Sima Yi will be the Vice President of the alchemy Union. The alchemy Union of the continent will not hold any other positions."

"Even the position of the alchemy Association's Vice-President that he had originally planned to hold has been canceled. The position of Grand Elder that was wagered in this bet is naturally impossible to hold."

"Don't you agree? Vice President Sima? After all, you're already the leader of the alchemy Association's upper department. How can you take on a position in a lower Department? This doesn't match the orders of the alchemy Union!"

Ouyang cuantian obviously already had an excuse and a plan. What he said made some sense.

President Liu looked at Lin Yi, hoping that Lin Yi would agree to the bet and let him take on the position of Grand Elder!

He'd rather be Lin Yi's slave than be bullied by Ouyang cuantian!

"Forget it, a mere Grand Elder is indeed beneath my notice!"

Lin Yi shrugged nonchalantly, "I won the bet. It doesn't matter if I keep the bet or not. I'll leave the Grand elder's title to the old man as his last honor!"

Ouyang cuantian's eyes clearly relaxed a little. On the other hand, guild leader Liu's expression was filled with despair. His face was becoming increasingly ashen.

Lin Yi thought for a moment before changing the topic. "Since I'm the Vice President of the alchemy Union, I naturally have to take up the responsibility. Grand Elder Ouyang said that I'm the leader of the higher-ups, so from now on, all the orders that the alchemy Association has to carry out must be approved by me!"

Ouyang cuantian, who had just relaxed a little, suddenly had a black face. This was a F * cking power-snatching!

However, in theory, it seemed that he could stand firm. This was very uncomfortable!

"Dean Sima, the alchemy Association under the jurisdiction of the continental martial Alliance will only be responsible for the martial Alliance. Although the alchemy Association of the continental martial Alliance is the superior Department, they will not interfere with the daily affairs of the alchemy Association ..."

Ouyang kuantian tried to salvage the situation. At least, he couldn't let Lin Yi control the alchemy Association.

Lin Yi, on the other hand, wasn't interested in taking control of The Alchemist Association. Who would have the time to get involved in such trivial matters?

Lin Yi's purpose in saying this was to take power from Ouyang chuantian, not to take control of the alchemy Association.

"Grand Elder Ouyang's words make sense. However, since I'm here, I naturally have to take care of the alchemy Association. President Liu, in the future, you'll be fully in charge of the alchemy Association's daily operations. However, you must report to me every day."

Lin Yi revealed his true goal. "Grand Elder is old, and this is a noble title. He doesn't need to worry about the daily trifles of the Association."

"That's why guild leader Liu has to be more forgiving in the future. Don't trouble the Supreme elder anymore. If there's any problem, you can look for me. I'm young, and I'm not afraid of getting tired!"

Ouyang cuantian's old face was as dark as water, irritated by Lin Yi's mocking words.

Chapter 8506

On the other side, guild leader Liu was overjoyed. He had never thought that happiness would come so suddenly!

Was he finally going to be controlled by Ouyang cuantian?

Thinking about the hard times they had to live under Ouyang cuantian's shadow all these years, they really had tears in their eyes!

"Grand Elder Ouyang, do you have any objections? Was there no such precedent? Did it mean that the Grand Elder had to control the president? Is it only natural that I shouldn't interfere?"

Lin Yi smiled as he looked at Ouyang kuantian, waiting for him to nod.

To be honest, Ouyang cuantian wanted to say this, but Lin Yi's words put him on guard. He didn't say anything.

"It seems that Grand Elder Ouyang has learned his lesson! Fine, I was going to say that if you really think that way, then the bet between us will be transferred to guild leader Liu!"

"In any case, even if I don't want to take up the position of Grand Elder, I can still appoint someone else. Since you're so tactful now, I'll let you go a step and let you continue to be a noble Grand Elder, alright?"

The flesh on Ouyang cuantian's cheeks trembled. He had already said this much, so how could he say that it was not good?

So what if the power of the alchemy Association had been taken away? as long as he retained the title of Grand Elder, there would always be a chance to take it back!

Ouyang cuantian looked at guild leader Liu sinisterly. Let's let this traitor be happy for a few days!

When the storm passed, with his status as the Ouyang family's patriarch and his title as the Grand Elder, would he still be afraid of not being able to control this rebellious fellow?

At that time, the alchemy Association would still be in Ouyang kuantian's pocket!

"Whatever Vice President Sima says goes. This Lord has nothing to say!"

Ouyang chuantian coldly snorted and turned his head away without saying anything more. This matter was settled!

Lin Yi was really happy, and only then did he have time to think about how things ended up like this.

Why would the alchemy Union of the continental martial Alliance make such a decision?

Strange!

Could it be that Jin botian had exerted force behind him?

The patrol Department could influence the Alchemy Guild's decisions and could even appoint and dismiss the Alchemy Guild's Vice President?

Was it because of these hidden struggles that they were delayed for so long?

If that was the case, wasn't Jin botian's performance too high-profile?

How was Lin Yi supposed to keep a low profile if he exposed their relationship?

Lin Yi really was overthinking this time!

The inspection department was very powerful. They were in charge of all the academies on the continent, as well as the secret agents and patrols of the various continents.

However, they could not manage the other departments of the continental martial Alliance, such as the alchemy Union and the combat Union.

Strictly speaking, the inspection Institute should be on the same level as these departments, but on the surface, the inspection Institute seemed to be half a level higher.

This was because the patrol institution wasn't under the martial league's jurisdiction. It was directly under the inter-island patrol institution of The Burning Sky Star region's continent Island.

The position of the head of the continental martial Alliance's inspection department was second only to the main hall Master of the continental martial Alliance. Therefore, the inspection department was half a rank higher than the alchemy Union.

This half a level was only out of respect, but the inspection Institute could not interfere with the specific Affairs of these departments.

Lin Yi's imagination of Jin botian helping out was something that would never happen!

"I am the president of the alchemy Association, willow leaf Dao. Greetings, Vice President Sima!"

President Liu was a smart person-he knew that Lin Yi's help would mark him with Lin Yi's brand, and so he rushed here to hug Lin Yi's leg!

Ouyang kuantian's power in the Association was gone, but the Ouyang family's influence was still there.

If Liu yedao wanted to secure his position as the president, he had to have a closer relationship with Lin Yi.

"Don't worry, Vice President. I will report to you every day and assist you in managing the alchemy Association. I believe that under your leadership, our Association will develop by leaps and bounds!"

The Vice President that willow leaf rice addressed was, of course, the Vice President of the mainland alchemy Union.

It was just that those who didn't know would inevitably be confused and wonder why a President would ask the Vice President for instructions and report.

"Guild leader Liu, you're too kind. In the future, we'll cooperate well and work together to do things well. I believe in guild leader Liu's ability. You'll definitely be able to make our alchemy Association grow stronger!"

Lin Yi smiled and said a few polite words. Pushing Liu yedao to the top was, of course, a little selfish. He wanted to take this opportunity to take in a follower to manage the alchemy Association, and Liu yedao was obviously the most suitable candidate.

It just so happened that willow leaf rice was on Lin Yi's side, and letting him take the position was a way of returning the favor.

As for whether the Willow leaf rice was related to the darkness demon beast clan, he would have to investigate it slowly in the future!

"Many thanks for Vice President Sima's praise. This subordinate will definitely do my best and not let Vice President down!"

Liu yedao was overjoyed, thinking that it was the wisest decision today to get on Lin Yi's good side.

The first hall Master came over as well, smiling as he congratulated Lin Yi. "Vice President Sima is indeed an outstanding young man! Yesterday, you were the Vice President of the alchemy Association of the martial Alliance. Today, you're the Vice President of the alchemy Association of the continental martial Alliance!"

"I don't need to change the way I address you, I'll just continue to call you Vice President! That's right, there's also the matter of the diamond Grade alchemy Grandmaster, which I have to congratulate you on. Vice President Sima is so young, but he's already a Diamond Grade alchemy Grandmaster!"

The first hall Master was indeed very polite and respectful towards Lin Yi.

However, Yan Su was a little dissatisfied.

"First hall Master, our Dean Sima is the highest authority in your martial Alliance. Although you're the first hall Master, shouldn't you show some respect and take the initiative to come and greet him?"

Yan SU's tone wasn't very good, as if she didn't like the first hall Master.

"Director Yan is right. I've been rude!"

The first hall Master didn't argue back, acknowledging the fact immediately and greeting Lin Yi again.

Lin Yi quickly held her up, and the two exchanged a few more pleasantries before returning to normal.

"Hahaha, Vice President Sima, you've really soared to the heavens this time! I think you should be called Sima chuantian, and Grand Elder should be given another name!"

The first hall Master laughed as he made fun of Ouyang cuantian.

Ouyang cuantian gritted his teeth and endured it. He was the one at a disadvantage right now, so he could only swallow his anger in order to avoid suffering more ridicule.

Lin Yi raised an eyebrow as he looked at the head and Ouyang cuantian.

Under such circumstances, the first hall master's seemingly joking words had become a blatant mockery!

Did the Great Hall Master and Ouyang cuantian really not get along?

Or perhaps this was just what they were doing on the surface. What was the actual situation?

Without more information, Lin Yi couldn't make an accurate analysis.

Only by slowly looking for more clues would he be able to find out who was truly related to the darkness demon beast clan.

Chapter 8507

"Alright, if there's nothing else, we'll be returning to the Academy. There should still be some internal matters that you have to deal with in martial League, so we won't disturb you any further."

Yan Su didn't want to waste time watching the head Master and Ouyang cuantian. She called Lin Yi, Shi tiancai, and Ling Yingying to leave together.

"Why don't you all return to the Academy with me? Could it be that you're going to stay here for dinner?"

The little old man didn't seem to be very fond of the first hall Master and Ouyang kuantian.

Lin Yi, naturally, wouldn't go against the old man's wishes. He bade the first hall Master farewell.

Willow leaf rice quickly came out to make his presence known,""Vice President Sima, this subordinate will send you, director Yan, and director Shi off. I'll also present you both your Grandmaster alchemy badges."

"There should have been a Grand Award ceremony, but it's getting late today. In a hurry, we could only simplify it. I hope Vice President Sima and Dean Shi don't take it to heart!"

Under normal circumstances, it was indeed a joyous occasion for the alchemy Association under the jurisdiction of the continental martial Alliance to have a diamond-grade alchemy Grandmaster.

It could not be too Grand.

But now that the alchemy Association had just gone through a change of power, and because of Lin Yi's status as the Vice-President, the ceremony was a little awkward.

Liu yedao wanted to suck up to Lin Yi, but he couldn't let Lin Yi feel embarrassed at all. He found an excuse and brushed it off.

"Alright, I'll have to trouble guild leader Liu then!"

Lin Yi smiled and nodded in agreement.

What award ceremony? just the sound of it was already troublesome. It couldn't be any better if everything could be simplified. This guild leader Liu really understood the human heart!

And so, the group went back to the alchemy Association. Lin Yi received the diamond Grandmaster badge, while Shi Yucai received the bronze Grandmaster badge.

It could be said that everyone was happy.

Well ... Shi chengcai wasn't too happy about it either. After all, he'd taken the test with Lin Yi, but he was a few levels lower than Lin Yi.

It wasn't a big deal, but he felt embarrassed in front of Ling Yingying.

"Dean Sima, we've already agreed to take the array master examination together. When do you think it's convenient?"

"I'm taking the diamond-grade array Grandmaster assessment this time!" Shi wancai wanted to regain his face.

"Oh, I'm also taking the diamond rank formation Master exam. Why don't we do it today?"

Lin Yi agreed without hesitation.

Shi shengcai, on the other hand, was in a difficult position. He wanted to act tough, but Lin Yi was even better at it!

To become a diamond-grade array Grandmaster, one had to be well-prepared before they could take the assessment!

Today's pill Grandmaster examination had already exhausted him to this extent, where would he find the energy to participate in the array Grandmaster examination?

However, Shi Yucai didn't think that Lin Yi could pass the diamond Grandmaster test.

He guessed that Lin Yi was just saying it casually, and that he'd change it to a bronze-level Grandmaster.

"It's already late today. Let's make an appointment next time!"

Shi shengcai made up an excuse and left in a hurry.

However, Shi longcai also secretly swore to himself that he would definitely win a round in the array master assessment in the future!

"Dean Sima, your talent has really exceeded this old man's expectations. To be honest, this old man didn't think that you would be able to pass the diamond Grade alchemy Grandmaster assessment at the beginning. I only thought that it would be good if you could win the gold grade title step by step!"

Without anyone else around, Yan Su finally revealed a happy smile. "Today's really amazing! I just watched you become a Diamond Grade alchemy Grandmaster! I didn't expect that our alchemy sub-school would soon have a Diamond Grade alchemy Grandmaster as the Dean, it's really a blessing from the heavens!"

"Director Yan, you're too kind. I was just lucky."

Lin Yi said humbly out of habit before changing the topic. "It's getting late, director Yan. Why don't I go to you tomorrow?"

He was supposed to report to Tianxia school early in the morning, but with Yan SU's bad temper, she came to the martial Union immediately after hearing that Lin Yi couldn't be the Vice President of the alchemy Association.

After that was the Grandmaster alchemy assessment, and then he went to the alchemy Union of the continent's martial Alliance to review the arbitration. He had been delayed until now, and the sky had turned dark.

Lin Yi didn't think it'd be appropriate to go back to school now-he'd wait until tomorrow.

Yan Su looked up at the sky-it was getting dark, and she couldn't arrange for Lin Yi to go to the school.

"Fine, then we'll talk about it tomorrow. This old master doesn't like to do those superficial things, so I won't specially prepare a welcome ceremony for you. You should know that in your heart!"

Yan Su laughed and said, "the position of the Dean of the alchemy sub-school has been vacant for some time. I won't say anything today. I will give them a surprise tomorrow!" The only person who knows that you're already a Diamond Grade Alchemist is Shi longcai, the Dean. He's not someone who likes to publicize others, so you don't have to worry about leaking the secret. "

Lin Yi smiled. Shi Yucai was the king of acting tough, of course, she wouldn't help Lin Yi.

He only knew how to act cool, he definitely wouldn't do something like helping others!

"Oh right, you're temporarily staying in the Ling residence right? Tomorrow, after you start work, the alchemy division will prepare a courtyard for you. From now on, you can live in the school. It will be more convenient. "

When Yan Su said this, she suddenly looked at Ling Yingying and blinked."Oh, if you like the Ling ... Mansion, it's not a problem if you want to stay for a few more days. This old man won't interfere!"

Ling Yingying's face turned red from Yan SU's stare.

President Yan Su, what do you want to say? Can't you be more serious?

As the president of Tianxia college, do you want to destroy your own image?

Really!

Lin Yi blinked as well, pretending not to understand the meaning behind the word "Ling residence" and nodded seriously, "It's good to stay in the Academy. Thank you for the arrangements, principal. I'll take my leave today!"

"I'll see you tomorrow, director Yan!"

Ling Yingying's face was still a little red. She bowed to Yan Su and left, following Lin Yi back to the Ling residence.

Without Yan Su, the two of them returned to the state they were in when they first traveled together in the morning.

He couldn't find any topic to talk about, and this made Ling Yingying extremely anxious.

After a long while, Ling Yingying gathered her courage and casually raised her head. "Big brother Sima, you're really amazing today. I haven't even properly congratulated you for becoming the youngest Diamond Grade Alchemist in the history of Feng Qi Dazhou!"

In fact, Ling Yingying wasn't sure if he was the youngest person in history.

She just thought that an old man like Ouyang cuantian wasn't even a Diamond Grade master yet, and Lin Yi was so young, he must be someone who's never been seen before and will never be seen again!

"Thank you, but I still have a lot of shortcomings and need to learn more. Please don't praise me anymore!"

Lin Yi was still very humble. Since Ling Yingying started the conversation, they weren't strangers anymore. Lin Yi went along with it, "I don't think I've asked you. Which Academy are you from? If you're in the alchemy School, then you'll be my subordinate from now on. "

Chapter 8508

Ling Yingying tried her best to maintain her usual cold appearance. She smiled faintly and said, "I'm sorry to disappoint big brother Sima. I'm not a teacher in the alchemy School. In the path of alchemy, I probably don't have any talent. What a pity!"

If he had some talent in alchemy, with such a Diamond Grade alchemy Grandmaster by his side, it would definitely be easy to improve his alchemy skills!

"I'm actually a teacher from the talismans and arrays division. I wonder if big brother Sima has heard of it? There are no longer any talismans circulating around this sub-Island, so many people probably don't even know the term talisman. "

Lin Yi blinked. Other people might not know about formations, but how could he not?

Who knew how many talismans and formations he had used!

Speaking of formations, Lin Yi couldn't help but think of the two-faced loli, Wang shiqing. He wondered how the girl was doing.

He thought of Wang shiqing and Wang Shiyang, who was trapped in the illusionary mist space, waiting for him to rescue her.

This poor child should still be alive, right?

Just thinking about him, she had to bask in her sister's glory. How sad ...

Lin Yi himself was stuck in the sub-Island and couldn't leave-it was all up to fate when he could save Wang Shiyang!

"I know about talismans, but I really didn't know that Tianxia college had a talisman Academy. Do you know how to make talismans? To be a teacher, you must be very powerful, right?"

Wang shiqing's family was considered powerful in the East continent's Mystic-class Sea area because they knew how to make array talismans.

If Ling Yingying knew how to make talismans, the Ling family wouldn't need Ling lingjiu. She would be able to support the Ling family.

In the end, Ling Yingying lowered her head in embarrassment."Big brother Sima, you might not know, but the talisman division only studies talismans and doesn't really know how to make them! Although I'm a teacher, I don't know how to use talismans ..."

Lin Yi blinked. The instructor didn't know how to do it himself, and yet he was teaching students? Were the formations and talismans sub-schools all so casual?

"Big brother Sima, let me tell you about the talisman branch. Strictly speaking, the talisman branch is not an independent branch, but a branch under the array path branch. The Dean is also Shi longcai, Dean Shi."

"In terms of nature, the talisman division is more focused on research. The students who enter the talisman division are all interested. It can be considered a smaller division, so the number of students is smaller."

"In the ancient times, the wizard clan, the darkness demon beast clan, and the human clan were like three legs. That was the most glorious period of each clan, and each of them had many powerful techniques."

"Back then, our human race had a mysterious sect that specialized in forging weapons and creating talismans. They were called the mo sect. Because they were too mysterious, there was a problem with their inheritance."

"In terms of forging, a part of it has been passed down, but in terms of talismans, it has been completely cut off in the long river of time. It's just like how many powerful inheritances of the Sorcerer tribe have disappeared. Now, there are people who want to restore those inheritances."

"Our talisman Academy is an Academy that studies the Dao of talismans and is trying to restore this legacy. Everyone knows that the chances are slim, but as long as there is a glimmer of hope, we will persist. This is the legacy of our civilization. Someone has to do this."

It was rare for Ling Yingying to say so much in one breath.

Lin Yi got the gist of it now-the formation and talisman division was actually a small specialization similar to archeology.

They wanted to find and restore the inheritance of the talismans through the traces left behind in the long river of history.

If the Black-bellied Wang shiqing was here, she could easily become the Head of the School.

With her around, the talisman formation sub-academy would be able to be independent and not be controlled by the array path sub-academy.

"I'm sorry, big brother Sima. Did I say too many boring things?"

Ling Yingying only realized that she was talking too much after finishing her sentence in one breath-she was afraid that Lin Yi would get impatient.

Lin Yi smiled and waved his hand,"no, it's quite interesting. It's praiseworthy that you guys are so persistent in doing something meaningful like this!" Then, after all this time, have you guys found anything? Are you able to make simple talismans?"

Ling Yingying sadly shook her head."No. Although everyone is working hard, they still can't successfully make a talisman, not even the simplest talisman. That's why our school's status in the school is relatively low."

Lin Yi could imagine that normally, talismans and formations should be on the same level as alchemy and formations.

But now, the talisman school had no achievements, and their theories weren't even complete. How could they compare to others?

Therefore, it was normal to be looked down upon. It would be strange if he wasn't.

"It doesn't matter. As long as we persevere, we will succeed one day. I believe you will do it!"

Lin Yi thought that if he had the chance in the future, he could go to the talisman division to study it with them.

With his participation, their progress should have a qualitative leap.

But he was busy right now, and he didn't want to get involved in this.

After the two of them started to chat, they became more harmonious and slowly returned to the Ling residence, no longer the same as when they left in the morning.

Fei daqiang and the others came back after a day of walking around, and they were overjoyed to hear that Lin Yi had become a diamond rank Grandmaster and Vice President of the alchemy Union.

They found Ling Binbin to celebrate with them and then went to bed.

The next morning, Ling Yingying accompanied Lin Yi to the school.

Yan Su had been waiting for Lin Yi to come over and personally take him to the branch.

The teachers of the alchemy sub-school had all been informed that the new dean would be coming today, so they had all gathered together.

When they saw Lin Yi beside Yan Su, they started whispering to each other.

Most of them were exclaiming at Lin Yi's youth.

At this age, he could barely be a teacher, but he was already a Dean?

As everyone knew, the sub-Island tempered the body, so it was very difficult to maintain one's appearance forever. Few people would waste their energy to do so.

It was still acceptable if it was a female cultivator, but male cultivators all paid attention to strength, so who would spend the effort to maintain their appearance?

As long as his cultivation lifespan was not affected, so what if he looked older on the surface?

"Everyone, you should all know who this old man has brought! That's right, he is the new dean of the alchemy division, Sima Yi. I hope that all the teachers will do your best to assist Dean Sima in the future, and make our alchemy division strong!"

Yan Su gave a simple opening and signaled for Lin Yi to come over.

A middle-aged man spoke up before Lin Yi could. "Director Yan, I heard that this Dean Sima came from the Wutong continent. The alchemy skills there aren't any better than our Fengqi continent. I wonder which Grandmaster's disciple or disciple is Dean Sima?"

Chapter 8509

They were using their seniority to question Lin Yi, and it also showed how unconvinced they were of the young Dean!

Perhaps he even thought that he should be the Dean of the alchemy sub-school.

Yan Su didn't throw her signature tantrum-she only smiled at Lin Yi.

He was ready to let Lin Yi handle the situation.

In order to secure his position as Dean, Lin Yi needed to establish his authority. He was more than happy to have someone deliver themselves to him.

After the middle-aged man, there were a few other experienced instructors who spoke up as well. Most of them weren't convinced by Lin Yi's abilities and questioned him.

If Yan Su told them about Lin Yi winning the diamond Grade title yesterday, these people wouldn't jump out and question her, but it would become a hidden danger in the future.

He didn't mention it on purpose so that Lin Yi could understand the situation in the school.

"Director Yan, director Sima, shouldn't you two give us an explanation? You can't just keep quiet, can you?"

The middle-aged man thought that Lin Yi was feeling guilty, so he smiled coldly and closed in on him.

Lin Yi shrugged nonchalantly and tossed the badge he got yesterday to the man. "I can't be bothered to answer this nonsense. If you think you're more qualified than me, just say it!"

The middle-aged man caught the badge and casually glanced at it. His eyes immediately widened to the limit. He felt a breath stuck in his throat and almost choked to death.

Diamond Grade alchemy Grandmaster badge!

This was the first time he had seen such a thing. He had only heard of it before!

This young boy in front of him was actually a Diamond Grade alchemy Grandmaster?

'What the hell!'

"This subordinate is presumptuous! Dean Sima, please take back your badge!"

The man lowered his head and handed the badge back to Lin Yi with both hands.

The badge in his hand that was emitting the brilliant light of a diamond really blinded the eyes of those who were not convinced.

On the sub-Island, the strong were respected, and this was even more so for a profession like alchemy.

A Diamond Grade alchemy Grandmaster was basically a King that 99% of alchemists had to look up to. No one would take the initiative to offend a Diamond Grade alchemy Grandmaster, unless they were tired of living.

No one suspected that Lin Yi's badge was fake-it couldn't be faked. The martial Alliance wouldn't just give it out like that, and every diamond Grandmaster had to be recorded in the Alliance. Anyone who tried to fake it would be asking for death!

And so, Lin Yi's badge shut everyone up instantly-it was more effective than anything else!

"Nice to meet you, I am Sima Yi. In the future, I will be the head of the alchemy division. We are all colleagues, and I hope that we can get along well and work together."

Lin Yi said as he kept the badge. "I'm just getting to know everyone today. Instructors, you can go back to your work. If I have any questions in the future, I'll find you all out in private. "

The meet-and-greet ended hastily, and Yan Su stayed for a while longer. After everyone had left, she smiled and asked, ""How do you feel? Are the teachers from the alchemy sub-school okay?"

"Director Yan, you must be joking. How can you feel anything in such a short time? I'm not in a hurry, so I'll take my time!"

Lin Yi asked, "Where's the small courtyard that you've arranged for me? Director Yan, if you're not busy, why don't you come with me to take a look?"

Lin Yi was probably the only person in the entire Tianxia Academy who would dare to ask Yan Su to lead the way.

Yan Su laughed and didn't reject him. She really brought Lin Yi to see where they were staying.

The instructors who left first had already spread the news, and soon the whole Tianxia Academy knew that a young Diamond Grade Grandmaster had become the Dean.

Young and talented!

These keywords were quickly memorized by everyone.

The men cheered on one side, thinking that Shi shengcai's dominance would be broken, while on the other hand, they sighed secretly.

With the addition of a young genius, the little fangirls probably wouldn't cast their eyes on them after they had a new choice!

Shi tiancai's fangirls, on the other hand, didn't think that Lin Yi was a threat to their beloved Shi tiancai.

No matter how outstanding Lin Yi was, they didn't think he was as good as Shi Yucai. He was a complete black-brain.

The entire Tianxia school was in a state of chaos because of Lin Yi's arrival.

However, Lin Yi didn't seem to feel anything at all.

After looking around the yard, Lin Yi went to the dean's office, and Yan Su went back to his own office.

"Dean Sima, I am Ma Shenxiang, the Vice Dean of the pill refining section. I didn't have the time to introduce myself earlier!"

A handsome middle-aged man was standing at the door when Lin Yi returned.

He saluted Lin Yi with respect. "Before Dean Sima came, the affairs of the branch were temporarily handled by me. Now that the Dean has taken office, I need to report to the Dean and hand over the affairs of the branch."

"So it's Deputy Dean MA, thank you for your hard work! Come in and talk!"

Lin Yi smiled and gestured for MA Shenlong to enter the office.

"I was just saying hi to everyone, I didn't get to know them one by one. I was thinking of having a private chat with everyone after we've settled down and getting to know them better. You came at the right time, Deputy Dean MA." Lin Yi said after they were seated.

MA Shenxiang wasn't one of the people who'd been against Lin Yi before, but Lin Yi didn't think he was trustworthy just because of that.

If he had not appeared out of nowhere, MA shenxiang would have been the most likely candidate to become the head of the pill refining section.

He had been in charge of all the affairs in the Academy before, so he was like a king without a crown.

Now that Lin Yi was the Dean, how could he not have any complaints?

Maybe he was the one behind all those people who didn't want to accept Lin Yi!

"This is this subordinate's duty! It was not hard work! I won't mention other matters for now, but there's a big matter that our alchemy sub-school has to let you know. "

MA shengkai sat upright in his chair and said, ""It's almost the end of autumn. Many of our Academy's students will be taking part in The Alchemist assessment after autumn. This is the most important matter in the near future. I hope that Dean Sima will take it seriously."

"The Alchemist test? This is indeed a major event in a student's life, and our alchemy sub-school can not ignore it. "

"Deputy Dean MA, how are the students and teachers in the pill refining section?" Lin Yi asked. Can you give us a brief introduction?"

"No problem, Dean Sima! Let's first talk about the students of our alchemy sub-academy, whether they are new or old students, all of the students in our sub-academy have the title of alchemy apprentice. "

MA shengkai had a proud look on his face.

This was all thanks to him being the temporary Dean. If it weren't for Lin Yi, he really felt like he was the only one qualified to be the Dean.

Chapter 8510

"About 40% of the students have obtained the titles of dark gold and diamond apprentice alchemists. This standard is quite good. They all have the chance to become alchemists, and are strong candidates for alchemy!"

"There are also some students who have successfully obtained the title of Alchemist and have graduated early. The graduation criteria of our Academy is to become a qualified Alchemist. Even if you are only a bronze Alchemist, you are still qualified to graduate early!"

After saying that, MA Shenlong paused for a moment, ""As for the teachers, most of them are dark gold and diamond level alchemists, and some of them are Bronze level and above alchemy grandmasters. So in terms of teaching strength, our sub-school is quite strong."

"So that's how it is. The teachers in our Academy are all very powerful! What level of alchemy Grandmaster is Deputy Dean MA?"

Lin Yi sighed.

Dark gold and diamond level alchemists were considered to be high level figures in the continent.

A bronze-grade alchemy Grandmaster was already qualified to be the Dean of an Alchemy School.

For example, when he was in the Wutong continent, the Presidents of the Fuyao apothecary school, Green Mountain apothecary school, and so on were only bronze grade grandmasters.

In the end, Tianxia College's alchemy sub-school actually had many Grandmaster-level teachers. It was indeed extraordinary!

"I'm only a gold rank alchemy Grandmaster. I'm far from being comparable to Dean Sima. Dean Sima is the youngest diamond rank alchemy Grandmaster in our Feng Qi continent!" MA Shenlong smiled reservedly.

"In fact, in the entire Feng Qi continent, there are only a few Diamond Grade alchemy grandmasters. It is all our good fortune that Dean Sima can come to our alchemy sub-school! Please give me your guidance in the future, Dean Sima!"

MA shenxiang said as he cupped his fists and bowed to Lin Yi, looking very respectful.

Lin Yi raised a hand to support her, ending the conversation with a small compliment.

Back to the matter of the apothecary examination,""Deputy Dean MA, are all the alchemy schools in the continent participating in this year's alchemy master examination? Is the scale very big?"

"No, this is the student Assessment for our alchemy division. It doesn't involve other divisions, so there is no competition ... Because on the Phoenix Nest continent, other alchemy divisions can't compete with our division. Whether it is the talent of our students or the strength of our teachers, we are second to none."

When MA Shenlong mentioned this, he was filled with pride.

Obviously, he really had feelings for the alchemy sub-school: "That's why every time the Academy organizes an Alchemist title examination, our branch will have one, while the other Academies in the continent will have one. "

Lin Yi said, understanding-this was the power of the Highest school.

Just like in the secular world, the top universities had the best students and the strongest teaching team, creating famous brands that everyone yearned for, forming a virtuous cycle.

If there were schools of similar grades, they could still compete with each other, but Tianxia College's alchemy sub-school was completely strong. The other schools were not on the same level at all.

It was better for everyone to take the test separately and play on their own so that they wouldn't be too discouraged.

Apart from The Alchemist assessment, there was nothing too important to do in the alchemy division.

MA Shenlong said his goodbyes and left after a few trivial matters.

He wasn't here to work for Lin Yi, and he couldn't just leave him be.

Lin Yi sat in his office alone, thinking about the test.

Only the students from the alchemy sub-school participated, so they didn't have to worry about competition with the outside world. It was just a final exam within the school.

The only thing he needed to worry about was whether Ouyang cuantian, this old lamp, would secretly plot against him.

Willow leaf rice had indeed seized the power of the alchemy Association, but Ouyang cuantian had managed it for many years. He could not be completely stripped of power with just one word.

As the saying goes, a centipede dies but never falls down.

If Ouyang chuantian was determined to mess with Lin Yi, the new dean of the pill refining section, the students would be in trouble.

Lin Yi's fingers tapped on the table lightly before he shook his head.

Ouyang cuantian probably wouldn't do something useless, right?

For an assessment of this level and scale, the patrol envoy and the first hall Master would definitely be present.

Under their supervision, it would be more difficult to tamper with anything, and Ouyang cuantian would be courting death if he tried to do anything.

Moreover, Lin Yi was the Vice President of the alchemy Union, so he had the right to review the results.

If Ouyang chuantian acted recklessly, he might give Lin Yi something to use against him. It wasn't a wise move!

Lin Yi was thinking that Ouyang kuantian shouldn't have lost his mind, but it turned out that he had lost his mind. He was thinking about how to make things difficult for Lin Yi and give him some eye drops.

The test was the most important thing in the school, and if they wanted to deal a blow to the new dean, they'd have to do something about it.

But Ouyang cuantian wasn't stupid-he'd thought of all the things Lin Yi had thought of as well, and had deep concerns.

It wasn't going to be easy to use the test to make Lin Yi public enemy number one!

How could he achieve the desired effect without making it obvious?

It really took a lot of thought!

Just as Ouyang cuantian was feeling vexed, a servant reported that the patrol envoy had come to visit.

"Patrol envoy? What was he doing here? Please go to the living room!"

When Ouyang chuantian received the report, he frowned slightly and was somewhat puzzled.

In the past, he didn't have much of a relationship with the patrol, and it was rare for him to visit.

After waiting for a while, Ouyang chuantian went to the living room.

As soon as he entered, the patrol envoy was already sitting and waiting. When he saw Ouyang cuantian enter, he immediately stood up and cupped his hands in greeting.

Ouyang chuantian took two quick steps forward, cupped his hands, and said with a smile, ""I didn't know Lord patrol envoy was visiting. This old man didn't welcome you. I'm sorry, I'm sorry!"

"Grand Elder Ouyang is too polite. It was me who came to visit presumptuously. I'm sorry for disturbing!"

The investigator was also smiling brightly.

The two of them had always had an ordinary relationship, but they acted as if they were old friends.

"What are you saying, Lord patrol envoy? you're an honored guest that this old man can't even invite. It's this old man's honor to have you here today! Please take a seat, let's sit down and talk!"

Ouyang cuantian asked the guests to sit down while ordering the servants to quickly serve the guests good tea.

The two of them talked nonsense for a while and drank two cups of tea. Ouyang cuantian couldn't hold it in anymore.

We're not even true friends, and you're really here to drink tea and chat?

Can't you just tell me what it is?

It's not like I'm idle!

Just as Ouyang cuantian was starting to get impatient, the patrol envoy put down his empty teacup and casually said,""Speaking of which, the new head of Tianxia College's alchemy division, Sima Yi, is a little arrogant! I heard that Grand Elder Ouyang was also defeated by him?"
