

Bodyguard 8541

Chapter 8541

"According to the report, Zhen Shuai's quite popular, but he doesn't have any close friends or close friends!"

"He doesn't have any elders in his family. He married a wife and a concubine, and he has two sons and a daughter. Other than the normal social activities of his colleagues in the medical center, he goes to his family and the medical center. He doesn't have any special hobbies," said the man.

Lin Yi raised a brow.

He was indeed an ordinary person who looked extremely ordinary on the surface.

If Zhen shuaqi didn't jump out today, who would've thought that this was a spy of the darkness demon beast clan?

Zhen shuaqi really did it.

Moreover, he did not have any important identity on the surface, so he would not attract attention, and the risk of being exposed was extremely low.

This kind of person was the most suitable for important liaison work.

"You do have some skills! Yiming, you have to keep a close eye on Zhen shuaqi and make sure you know his every move. At the same time, you have to make sure he doesn't find out, understand?"

Lin Yi reminded Zhang Yiming.

Because if Zhen shuaqi found out that someone was following him, they might self-destruct and destroy all clues.

This was still considered light. If Zhen shuaqi found out the reason why he was exposed through stalking and suspected Lin Yi, then all his efforts would be in vain.

"Don't worry, boss. I know what I'm doing. There won't be any accidents!"

Zhang Yiming's expression turned serious as he cupped his fists and bowed, ""This Zhen Shuai won't be able to escape from our hands!"

Lin Yi was ready to chat with Zhang Yiming for a while.

After all, it was rare for them to see each other. In the end, before they could even start a conversation, Ling Yingying came looking for them.

"Big brother Sima, eh, brother Zhang is here too!"

Ling Yingying greeted Zhang Yiming.

She used to be a cold, high-and-mighty goddess, but she never showed that side in front of Lin Yi and the others.

"Miss Ling!"

Zhang Yiming cupped his fist and said, "Boss, I have something to do, so I'll leave first. You guys chat!"

"Alright, you can go now. Be careful in everything you do. Don't make any mistakes!"

Lin Yi said and waved goodbye.

Ling Yingying hurriedly returned Zhang Yiming's greeting. ""Brother Zhang, are you in such a hurry? Did I disturb you?"

"No, I really have something urgent to deal with. Goodbye, miss Ling!"

Zhang Yiming ran away as soon as he finished speaking. Ling Yingying raised her hand and wanted to say something, but she didn't have time.

"Yingying, what brings you here today? Come, sit down and talk!"

Lin Yi smiled and gestured for Ling Yingying to take a seat.

Ling Yingying didn't stand on ceremony. After she sat down, she said, "Brother Zhang seems to be really in a hurry. I don't even have the time to talk to him. Big brother Sima, I'm really not disturbing you, right?"

"No, we haven't seen each other for a few days. It's just our daily contact. We're done."

"What's the matter?" Lin Yi waved his hand.

"Can't I look for big brother Sima if I'm fine?"

Ling Yingying's palm-sized face revealed a bitter expression. She didn't make Lin Yi laugh, but she did make herself laugh, "Alright, alright, I won't joke around anymore. I don't come here without a reason. I really did come to look for big brother Sima because I have something to do."

"If there's anything you need, just say it. As long as it's within my means, I won't refuse!"

Lin Yi had a good impression of Ling Yingying, so he didn't mind helping her if he could.

Ling Yingying smiled slyly and said, "big brother Sima, you said it yourself!" You will definitely be able to do what you have done today!"

"Tell me!"

Lin Yi declined to comment.

"It's very simple. Today, I'm here on father's orders to invite big brother Sima to a banquet at our house tonight! This shouldn't be too difficult, right? Big brother Sima, don't tell me you can't do it!"

Lin Yi blinked and shook his head with a bitter smile. This ... Was this a problem?

Previously, he had promised Ling lingjiu that he would visit her when he had the time.

"This is something I've already discussed with your father. If I don't go, wouldn't I be breaking my promise? Go back and prepare more things, I'm going to feast tonight and eat until your family is poor!"

Ling Yingying let out a string of bell-like laughter. "I knew that big brother Sima wouldn't reject it. In that case, I'll go back and inform father to prepare a banquet. We'll wait for you to come and eat our family to the ground!"

The two of them chatted and laughed for a while before Ling Yingying bade her farewell and left. She rushed home to report to Ling lingjiu.

Lin Yi came to the Ling residence alone at night.

The Ling residence opened the middle door wide and welcomed Lin Yi in as if he was a guest.

However, the banquet wasn't Grand. It was a family banquet.

This way, it would make it seem like the Lings didn't treat Lin Yi as an outsider.

Ling lingjiu, Ling Yingying, and Ling Binbin sat together. The four of them sat in a circle, and the atmosphere was relaxed.

"Nephew Sima, thank you for saving me last time. Otherwise, I wouldn't have the opportunity to sit here!"

Ling lingjiu still thanked Lin Yi first and used that as an excuse, "From now on, it's the world of the young. This old man's two good-for-nothing children, noble nephew Sima should take care of them."

"Uncle Ling, you're too kind. Binbin and Yingying are the best of the younger generation. They don't need any help!"

Lin Yi smiled politely-it was all just polite talk, and they'd just laugh it off.

After Ling lingjiu finished talking about his life-saving grace, the topic naturally shifted to his previous illness."Nephew Sima, I haven't had a good chat with you before. Is this old man's illness caused by something being planted in my soul?"

"That's true. Uncle Ling, a seed that can absorb primordial spirit as nutrients has been planted in your primordial spirit. Once it's full, it will return to its original owner to nourish the primordial spirit. It's a method that harms others for its own benefit. "

Lin Yi didn't hide anything and spoke frankly about the seed."To be honest, I've never seen such a method before. It should be one of the inheritances passed down by the ancient sorcerer tribe. It's quite troublesome."

"I see. It's all thanks to nephew Sima. If it wasn't for you, who in this world could save this old man?"

Ling lingjiu sighed and asked,""Is it convenient for nephew Sima to tell me how you removed the seed? I'm very curious about this. If I can learn it, I'll also learn how to defend myself so that I won't be ambushed again. "

"Of course, if nephew Sima is willing to teach me, this old man definitely won't take it for free. This kind of secret technique is definitely extremely precious. If nephew Sima needs anything, just say the word. This old man will definitely do his best to get it done!"

Ling lingjiu was very enthusiastic, but it was reasonable. After all, he had suffered a loss once and had a shadow in his heart.

Lin Yi could understand why they wanted a way to protect themselves.

Unfortunately, Lin Yi couldn't teach this method to Ling lingjiu, unless she had a primordial spirit as strong as his.

Chapter 8542

"Uncle Ling, I'm really sorry. I'm afraid I'll have to disappoint you!"

Lin Yi said, embarrassed. "I was able to save uncle Ling because I previously had a magic treasure that could find the problem in the primordial spirit and then let my partner work together to solve the problem."

"Unfortunately, that magic treasure has a limited number of uses. The last time, it disappeared after I used it. If uncle Ling was planted with that kind of seed again, I'm afraid I would be powerless! So, uncle Ling, you must be careful. You must not be plotted against by anyone!"

Lin Yi was just bullshitting, and there were no flaws in his words.

It wasn't that Lin Yi didn't want to explain, but it was too troublesome.

Without Wu Linghai, his divine sense was not as powerful as Fei daqiang and Zhang Yiming, so how could he learn?

"So that's how it is!"

Ling lingjiu immediately revealed a regretful expression and let out a long sigh.

Lin Yi didn't care how regretful Ling lingjiu was.

However, if the other party really did fall into a trap again, and the seed of evil was planted in him, Lin Yi naturally couldn't just stand by and watch.

"Uncle Ling, I heard that you have a brother called Ling lingfa. He's the gray-robed manager of the central Chamber of Commerce in the Wutong continent, right?"

Lin Yi had always wanted to know the answer to this question. Even if he already had an answer in his heart, he still wanted to confirm it with Ling lingjiu.

"Yes, you two know each other. My brother once mentioned you and praised you as a rare young talent. He wanted us to get along well and help each other."

Ling lingjiu didn't try to hide anything and admitted it frankly,""But we don't have much contact with my brother. After all, we're separated by a continent. There are many things that he can't handle even if we tell him. It'll only add to his troubles."

Lin Yi didn't really believe that-if they really didn't keep in contact, why would the first hall Master be so afraid of Ling lingfa?

Come to think of it, Lin Yi himself wasn't honest with Ling lingjiu.

Naturally, there was no reason to ask her to speak without reserve.

"I didn't expect that there would be such a relationship between us. Then we really have to get along well and help each other!"

Lin Yi smiled and added,"house Ouyang and central have a relationship too, so you guys should be good allies with them too, right?"

"Nephew Sima, do you really think so? On the surface, it should be so, but it's not that simple. "

Ling lingjiu smiled and waved her hand."It's true that both our families have a central background. However, the Ouyang family is the partner of the blue robe Alliance of the Phoenix habitat continent. Our Ling family has a relationship with the Wutong continent!" Although we're all the center, we're in the great Fengqi continent, so we should be under the jurisdiction of the blue robe. "

"To put it bluntly, my elder brother is overstepping his boundaries by taking care of our Ling family. If he oversteps his boundaries, blue robe will not say anything on the surface, but he will definitely be unhappy in his heart. He is only taking care of his reputation and did not fall out with my elder brother."

"Under such circumstances, how could the Ouyang family, which represents the blue-robed clan, be as close as brothers with our Ling family? You've overestimated the relationship between our two families. If it weren't for the fact that there are still some interests between the two families, I guess we would have already begun to fight in the open and in the dark?"

Ling lingjiu had a self-deprecating expression on her face as she spoke without any reservations, as if Lin Yi was one of her own.

Ling Binbin was a little embarrassed. He had placed all his hopes on Ouyang cuantian during the most dangerous time.

If it wasn't for Lin Yi, his old man would've been dead by now.

"Big brother Sima, I'll toast you to thank you for saving my father. It's the same as saving our Ling clan."

Ling Binbin raised his cup with both hands to express his gratitude.

"You're welcome. You've already thanked me many times. If you continue to thank me, I'll be too embarrassed to stay!"

Lin Yi drank a glass with him and teased, "Unless you want me to feel uncomfortable all over and quickly finish eating and leave."

"Hahaha, honorable nephew Sima is really funny. However, you're right. Words can't express my gratitude for a great favor. It's meaningless to keep saying thank you in words. We're all on the same side. The friendship between us is in our hearts!"

Ling lingjiu raised her glass to Lin Yi as well and downed it in one go.

Then, he continued the topic, "Other than the Ouyang family, there are other powerful families in Feng Qi continent. Nephew Sima wants to live here, so we must know this."

"For example, the SU family is known as su banzhou in the Feng Qi continent. They have a lot of knowledge in the field of arrays. Many nodes of the underground Devil's Den are maintained by the SU family's array Masters. Therefore, they have a very strong voice in the underground Devil's Den, and even the strength of the family has risen with the tide."

Lin Yi understood.

The SU family was powerful not only because they had a powerful old ancestor, but also because they had the right to speak in the underground Devil's Den.

Although there was no clear evidence, from the information Zhang Yiming had gathered, the SU family must have a certain share in the black market of the underground Devil's Den.

"Nephew Sima, to be honest, the relationship between our Ling family and the SU family is not very good. If you get close to us, the SU family might hate you, so you have to be more careful of the SU family."

Ling lingjiu seemed to be concerned about Lin Yi, but she was actually giving him a heads up in case he went to the SU family.

No matter how one looked at it, Lin Yi, who was the Vice President of the continental alchemy Guild and the Dean of Tianxia College's alchemy division, could be considered an important figure in Fengqi.

Especially since Lin Yi was a diamond-grade Grandmaster, this was even more valuable!

Ling lingjiu had already said that she didn't get along well with the SU family, so naturally, she wouldn't let the SU family win Lin Yi over.

"I understand. Thank you for your reminder, uncle Ling, but I haven't had any contact with the SU family yet. I don't think they would provoke me for no reason."

Lin Yi didn't think much of it.

The SU family was powerful, but they wouldn't make enemies with others for no reason.

Plus, it was someone with a status like Lin Yi-house su had nothing better to do than take things too hard and make a move on Lin Yi.

They were looking for strong reinforcements for their opponents!

"This old man was just casually saying, you don't have to take it to heart. Come, come, come, let's eat, let's eat."

Ling lingjiu stopped there and immediately changed the topic with a smile.

It was really a family dinner next. Everyone talked about some unimportant and interesting things. They talked and laughed, and the atmosphere was quite harmonious.

After the banquet, Lin Yi had two more peaceful days.

During this time, he also went to the array Dao college and chatted with Shi longcai for a while, leaving the brainwashed spies in Tianxia college with the illusion that they were busy with a mission.

Zhen shuaqi didn't rush Lin Yi. It seemed like he had nothing to do with Lin Yi anymore after giving the order.

This guy went back to his normal life as if he wasn't the one who came to find Lin Yi last time.

Chapter 8543

Zhang Yiming watched Zhen Shuai Qi for two days but didn't find any trace of him.

This shop assistant only went to the clinic and his home every day. He almost didn't go anywhere else, and his life was extremely boring.

However, Zhang Yiming was very patient and kept an eye on Zhen Shuai.

With Lin Yi's knowledge of spirit sense, Zhang Yiming didn't need to worry about being found out.

On the afternoon of the third day, a small spirit Beast of Darkness used to send messages flew into a remote corner behind the medical center. It was almost the size of a pigeon in the secular world.

The small spirit Beast of Darkness stopped for a while and quickly flew out from that place.

This type of darkness spirit beast was extremely fast. It was still fine when it first took off, but once it successfully accelerated, it would soar rapidly and disappear like lightning.

If Zhang Yiming's divine sense had not been paying close attention, even if he had noticed it, he would not have been able to stop it in time.

Zhang Yiming directly used his divine sense to attack, knocked him out, and then quietly caught him.

Sure enough, he found a small secret letter on the leg of the small dark spirit beast.

There was only one line of small words on the secret letter: "tomorrow at noon, the cleaners will have a meeting at 38 shuidun road!"

He added two small words in different handwriting at the end, "received!"

This was probably Zhen shuaqi's reply.

Zhang Yiming checked it carefully to make sure there was nothing suspicious, then put the secret letter back.

After that, he woke up the darkness spirit beast and let it go again, so that it wouldn't notice that something was wrong.

After intercepting this information, Zhang Yiming immediately arranged for people to continue to keep an eye on the medical center in secret.

Zhang Yiming himself went to shuidun road.

On the way, Zhang Yiming asked his men along the way for some information about shuidun road.

Ever since he came to Fengqi Dazhou, Zhang Yiming also found some bad spies.

He might not know the imperial capital like the back of his hand, but he was very familiar with the nearby areas, especially the areas with hoodlums and the like. He knew everything!

On shuidun road, there was a well-known poor man with the surname 'Lai'. He was undoubtedly a scoundrel and was called 'Lai Mazi' by the people of Jianghu.

Lai Mazi ate, drank, womaned, gambled, swindled, and had a huge debt. Ordinary people would avoid him if they saw him.

"Boss, Lai Mazi's character isn't good, but he's really familiar with shuidun road. As long as you pay him, he can tell you anything! But then again, as long as he has the money, he'll sell the people who are looking for information again, so why don't you leave the matter of going to shuidun road to us?"

This was the suggestion from Zhang Yiming's subordinate.

But Zhang Yiming didn't have a choice. He had to report to Lin Yi immediately, and he couldn't wait for his men to investigate. He had to do it himself.

Shuidun road wasn't a bustling Street, nor was it considered remote. The conditions of the people living there varied. There were rich and powerful people, and there were also poor people, such as people from poor families like Lai Mazi.

Zhang Yiming had disguised himself to spy on Zhen Shuai Qi, so he didn't need to disguise himself all the way to shuidun road.

This Street was very interesting. The people with odd numbers were basically civilians or poor people, while the people with even numbers were all relatively rich families.

Therefore, the single and even numbers were divided into two sides of the street, clearly divided!

Lai Mazi's house was at 313 shuidun road.

Zhang Yiming entered the street from the small number, so if he wanted to find Lai Mazi, he would have to pass by 38 shuidun road on Zhen Shuai Qi's letter.

Zhang Yiming walked all the way. When the even number reached 36, he skipped 38 and went straight to 40.

Zhang Yiming was stunned. What was going on? Jumping numbers?

There weren't many people on the road, so Zhang Yiming continued to move forward without making a sound. He didn't rashly ask anyone.

However, in this case, it was not appropriate to continue asking Lai Mazi about number 38. As long as he had money, he could sell that kind of thing.

Asking about the missing number 38 was a strange thing, and if Mazi found out that he sold it to someone who needed it, Lin Yi might be involved.

This made Zhang Yiming more vigilant.

After walking for a while, they saw an old man sitting under a big tree on the street. There was a small platform in front of him, on which some small items were placed.

Behind the old man was an old courtyard with its door wide open.

This person should be a resident here. He had nothing to do and set up a stall to earn some money to supplement his family.

Zhang Yiming adjusted his facial expression and put on a fierce look. He walked over, shaking his shoulders.

"Old man, Lai Mazi lives nearby, right? Which company is it?"

His tone was stiff, and he had the air of a villain, ""That son of a B * tch, he owes me money and he doesn't want to pay it back. I'll find him today and let him know my power!"

The old man's body trembled. He was obviously afraid of Zhang Yiming.

If it was another neighbor in trouble, the old man might help to cover it up, but Lai Mazi ... He was a scoundrel!

As the saying goes, the wicked will be tortured by the wicked. The old man was not interested in helping, so he simply pointed in a direction and said, ""Continue down the street and look at the number plate on the door. It's 313!"

After that, the old man kept quiet and lowered his head, not daring to look at Zhang Yiming. He seemed to be very afraid.

Zhang Yiming couldn't bear it. In order to reduce the chance of being exposed, he had to pretend to be a villain.

After all, there were definitely no good people around a person like Lai Mazi.

After thinking for a while, Zhang Yiming took out some money and threw it on the old man's small counter. He also took a small item. "Just take this money as me buying this thing!"

The old man was overjoyed. This old man was really generous. He had earned big this time!

"Thank you for your visit. I like you, so I'll give you a reminder. Lai Mazi is probably not at home right now. There have been a lot of people asking him for debts recently, so he's probably gone into hiding."

The old man had gained some benefits, so he naturally reminded him.

"This bastard actually went out to hide? It's number 313, right?"

Zhang Yiming showed a resentful expression and asked casually, ""Don't you have a lot of room numbers? Did I just see the other side's number jump?"

The old man was stunned for a moment before he casually replied, "you're talking about number 38, right?" There's no such thing in the first place. On the entire block of water, it's the only missing number. The rest are all arranged in order. "

"Is that so?"

Zhang Yiming nodded casually and strode toward Lai Mazi's house with unreserved steps.

Soon, they found Lai Mazi's house. It was indeed a shabby house. Even the gate had been torn down, and there was no one inside.

A wasted trip?

However, at least he had heard some news about 38 shuidun road, although it was almost the same as not hearing anything ...

In order to confirm the old man's words, Zhang Yiming went to look up some more information, but he was confused!

Even on the map of the imperial capital, 38 shuidun road didn't exist.

Chapter 8544

Zhang Yiming had no choice but to look for Lin Yi.

"Boss, I intercepted a secret letter behind the clinic. I think it's from the dark Demon beast clan ..."

Zhang Yiming said simply, "boss, is the brainwashing monitor short for the brainwashing monitor? Is this a secret letter calling for a meeting with people like Zhen shuaqi?"

"It's possible, but without further evidence, it's just a guess. "

Lin Yi nodded, "Yiming, what's this shuidun Road 38?"

"Boss, I've already been to shuidun road, but ..."

Zhang Yiming paused for a moment. "The strange thing is that shuidun road doesn't have number 38. This road is divided into two rows with even numbers. There are 36 and 40 on the even-numbered side, but they only skipped number 38. It's really strange!"

Fengqi Dazhou didn't say that number 38 was a forbidden number. There were all kinds of numbers on other roads, but shuidun road didn't have number 38, which was really strange.

"Don't worry, boss. I'll continue to follow up on this matter and find out why this number isn't on shuidun road. I'll report to you as soon as I get any news ... But I'm thinking, could the intercepted information be fake? Are you deliberately confusing us?"

It was not unreasonable for Zhang Yiming to think this way. After all, it was a bit outdated to use dark spirit beasts to send messages, and the secret letter was not concealed at all?

At the very least, he had to get some invisible ink, which needed to be soaked in water and burned by fire to reveal itself. Then, he had to add a password, and only special deciphering could translate the correct information, etc.

At least in Zhang Yiming's eyes, such methods were basic in intelligence work. To directly send messages ... It was either stupid or fake. Now it seemed that the possibility of it being fake was higher.

Lin Yi frowned, "it's possible. If Zhen shuaqi realized that someone was watching him and used this method to test him, then they might have already seen you going to shuidun road to find number 38."

"Yiming, you have to be careful. You'd rather ignore Zhen shuaqi than let anything happen to you! Let Fei daqiang follow you for the time being. It'll be safer with him around. "

Zhang Yiming was brainwashed by the dark beasts when he went to the underground cave last time. If Lin Yi wasn't smart enough to beat him at his own game, he didn't know how much damage he would've suffered.

I can't repeat the same mistake this time!

"Okay, boss, I'll be careful!" Zhang Yiming was also surprised. However, no one should notice me going to shuidun road. I'm just pretending to go to a scoundrel on shuidun road to collect a debt. It shouldn't arouse any suspicion. "

Zhang Yiming was confident in this.

After all, he was a professional at scouting. It was just his talent before, but after following Lin Yi for so long, from a small place to a new place, he'd grown a lot.

There were no flaws in the short conversation with the old man, and he even searched Lai Mazi's house once. If he was suspected, the other debt collectors would be suspected as well.

"That's good! I'll say it again, your safety is more important than the mission! Be sure to pay attention!"

Lin Yi reminded Zhang Yiming seriously before continuing, "Since you suspect that this is a trap, then don't ask about number 38 for now."

"You just need to keep waiting and keep an eye on Zhen shuaqi. See if he'll attend the meeting tomorrow and you'll know if it's true. If he were to go, it would be the same as him leading the way for us. "

However, if the letter was a trap, Zhen shuaqi might come out.

He had to go all out. He came out and pretended to go to 38 shuidun road. It was just like fishing, and he was the bait.

Zhang Yiming nodded to show that he understood and then left.

The next day, Zhang Yiming and Fei daqiang were waiting outside the clinic.

With Fei daqiang as a bodyguard, Zhang Yiming was full of confidence that even if it was a trap, he would have a chance to escape.

However, Zhen Shuai didn't move after he entered the clinic.

Not to mention noon, he only came out when it was dark.

He didn't go to Shuidun road, but went all the way home. He still had the same pace of life as before, unmoved by anything.

Zhang Yiming's heart sank. He felt that the secret letter was indeed fake, and the possibility of it being used as a bait was very high!

In that case, he might have already been exposed?

He told Fei daqiang to keep an eye on Zhen Shuai's house and Zhang Yiming found Lin Yi.

"Boss, Zhen Shuai didn't do anything. The incident on Shuidun road is probably a trap to lure people to get information!"

Lin Yi sighed, "forget it, we'll just take it as a loss this time. Keep watching him. He can't keep his secret forever. We'll catch his tail eventually!"

Although he said that, Zhen shuaqi's tail wasn't easy to catch.

After a few more days, there were some waves in his unchanging life again.

It was still the same place and the same dark spirit beast. Zhang Yiming was slightly surprised to see the little thing fly into the backyard of the medical center.

Could it be that he was going to test her again?

Or did Zhen shuaqi come here every once in a while to see if anyone would take the bait?

Soon, Zhang Yiming used the same trick again and hit the small dark spirit beast down with his divine sense attack. Then he quickly took out the secret letter and read it.

The handwriting was the same as last time, but the content was slightly different.

Last time, they had a meeting. This time, they wanted Zhen Shuai to report to 38 shuidun road at noon tomorrow.

Zhang Yiming checked it carefully again to make sure that there were no other mechanisms in the secret letter. There were no words that could only be revealed by soaking in water or burning in fire. Then, he put it away and put the dark spirit beast in.

It was 38 Shuidun road again!

It was really like seeing a ghost!

Zhang Yiming scratched his head and quickly reported the news to Lin Yi.

"Boss, what is Zhen Shuai planning? Was it a test on a fixed cycle? Do you come every once in a while?"

Lin Yi pinched his chin and thought for a while. "Not necessarily! Maybe number 38 really does exist, but we haven't found it yet! Just because no one has heard of it doesn't mean it doesn't exist. "

"But we can't rule out the possibility of repeated testing. They didn't find you last time, so strictly speaking, this method can indeed be repeated."

"How about this, you keep an eye on Zhen Shuaqi and see if he comes out at noon tomorrow. If he doesn't come out by the time, you can go to the clinic and find an excuse to see Zhen Shuaqi to see what he's doing."

"I asked Liu yedao two days ago. He has a confidant in the clinic. This is the information of that confidant. If you have any trouble after you go in tomorrow, you can ask him for help."

It wasn't like Lin Yi didn't do anything these past few days-other than his routine of looking for Shi chengcai to pull some strings, he'd also made some secret arrangements.

Chapter 8545

"Understood, boss!"

Zhang Yiming took over the information and glanced at it. He wrote it down and gave it back to Lin Yi, "What should I do when I see Zhen shuaqi? Was she really going to let him treat her? Will he be suspicious?"

Lin Yi thought for a moment before giving two pills to Zhang Yiming. "Eat these two pills. One is a simplified face changing pill that can change your appearance for a short time, and the other one is to make you look sick. It can hide from the skilled doctors, but Zhen shuaqi probably won't see through it."

"After you see him, do what you should say. You should adapt to the situation. I believe in you."

Lin Yi said, letting him do as he pleased.

"Understood!"

Zhang Yiming agreed readily.

The next afternoon, Zhen shuaqi didn't show any intention of leaving the clinic.

Zhang Yiming immediately took two pills. While his appearance changed, his face also became very bad. He looked very sick.

After entering the clinic, Zhang Yiming deliberately stopped to catch his breath for a while. Immediately, a person in charge of reception came to greet him.

"This patient, where are you feeling uncomfortable? Can you describe the symptoms? It'll make it easier for me to find a doctor to treat you. "

The young man in charge of receiving them greeted them warmly.

"I ... I came to find Zhen Shuai Qi for treatment. I heard that he's very skilled, I only want him, I don't need any other doctors!"

Zhang Yiming's acting was very good. He was like a patient who came after hearing the name. He had the confidence in the rumored famous doctor and put on a posture that he didn't want anyone but him.

The receptionist was stunned, looking for Zhen shuaqi?

"But ... Manager Zhen Shuai is our manager, and he doesn't usually do consultations. Did you hear wrong? The other doctors here are all excellent. Why don't I recommend one to you?"

This time, it was Zhang Yiming's turn to be confused.

What the hell? Did a small manager not need to give medical services?

In the past, in the Wutong continent, boss also opened a Medical Center, but there was no such rule!

Any capable doctor or Alchemist had to participate in the consultation when they were free.

The leaders would only be more relaxed if there were enough doctors and too few patients.

"No! I want doctor Zhen Shuai! I don't want anyone else but him!"

He had no choice but to continue being stubborn!

The receptionist was also helpless. He could only smile bitterly and say, "I'm sorry, manager Zhen is not here today. If you don't want to find other doctors, please go back first. You can come back tomorrow and ask for his help!"

This young man's attitude was still considered good. If it was someone impatient, they would have already kicked Zhang Yiming out.

Look at it or not, but talk so much!

Zhang Yiming was shocked, Zhen Shuai Qi wasn't here? Was he really not around or was this little brother making an excuse?

Thinking of this, Zhang Yiming turned to look for willow leaf Rice's confidant.

The Willow leaf rice plant had always been suppressed by Ouyang cuantian, so even in a not-so-important Department like the medical Hall, he didn't have many trusted subordinates.

The confidant he introduced to Lin Yi this time was only a doctor.

Zhang Yiming successfully found the person and used the opportunity to ask him about Zhen shuaqi.

"Manager Zhen? He's not here today. He came in the morning, but he said he had something to do in the afternoon, so he took a leave ... I don't know when he left, but he's not in the clinic. "

His confidant's words shocked Zhang Yiming!

Zhen shuaqi really wasn't in the clinic?

But Zhang Yiming had been monitoring the clinic for a long time and covered the surroundings with his divine sense, but he didn't see Zhen shuaqi leave.

Although there was a divine Sense Screen inside the clinic, and Zhang Yiming couldn't lock onto the people inside, it was impossible to sneak out of the clinic without being monitored by his divine sense!

The confidant in front of him didn't know when Zhen shuaqi left.

Zhang Yiming knew that it was useless to ask, so he didn't say much. He quietly saw the patient and left the clinic.

Then, he quietly returned to the outside and continued to monitor.

When the sky turned dark, a person came out of the clinic!

Zhang Yiming was stunned!

It was Zhen shuaqi, he actually walked out of the clinic normally and went home!

If Zhang Yiming hadn't gone in today to confirm, he would have thought that this guy had stayed in the clinic the whole day.

There must be something strange about this!

Zhang Yiming didn't stay any longer and went to report to Lin Yi.

"Boss, Zhen shuaqi must have some other way to leave the clinic, so 38 shuidun road might really be there, but we just can't find the way."

"It's a pity we can't make a big scene. If Zhen shuaqi suspects boss, all our efforts will be wasted. "

Zhang Yiming analyzed.

Lin Yi nodded thoughtfully, "That's good too. At least we're sure that Zhen shuaqi didn't use 38 shuidun road as a trap to lure us. Since he did it once and twice, there will definitely be a third time. We don't need to worry. "

Lin Yi was speechless. If it wasn't a trap, then Zhen shuaqi really did use a crude method to send messages to his online friends?

Especially when the message was transmitted without any encryption method, the message was written clearly.

Were the darkness demon beasts all idiots?

If it wasn't for the fact that the location they chose and the way they moved were relatively mysterious, they would have been wiped out long ago!

Thinking about it, he felt that something was wrong!

The easiest to expose was actually the safest, and it would not arouse suspicion.

If it wasn't for Zhang Yiming's suspicion and the day and night surveillance, they wouldn't have discovered the secret of the small dark spirit beast.

"Yiming, keep watching Zhen shuaqi. If there's a message from him again, go to the clinic and watch him. As long as you find the way he left, everything else will be easy."

"Understood. Don't worry, boss. I won't let him leave easily next time!" Zhang Yiming nodded. If I make another mistake, I'll take his last name!"

However, Zhang Yiming's oath-like guarantee seemed to have scared the other party?

For a long period of time, Zhen shuaqi didn't do anything, as if he had just fallen silent.

Zhang Yiming's Secret investigation of 38 shuidun road also yielded no results.

It was as if that place had never existed.

Lin Yi guessed that Zhen shuaqi didn't contact 38 shuidun road often. Other than some unexpected situations, he would only report once or twice a month.

If he missed it previously, he might have to wait for ten to twenty days or even more than a month before contacting again.

He had no choice. He couldn't rush things that needed to be waited, so he could only put it on hold.

Fortunately, during this period of time, there were no more incidents of missing teachers and students. Everything seemed to have calmed down.

Chapter 8546

Lin Yi had to do the mission Zhen shuaqi gave him to avoid suspicion.

So during this period of time, Lin Yi would often go to the array path sub-school to find Shi tiancai.

Naturally, there wouldn't be any progress in the mission. The two didn't even talk much and it was just for show. Lin Yi just needed to talk to Zhen shuaqi.

What Lin Yi didn't expect was that his relationship with Shi chengcai seemed to have improved quite a bit. At least they weren't as hostile anymore!

Moreover, one day, Shi longcai had actually taken the initiative to come to the pill refining section to look for him!

"Sima Yi, are you very free?"

Shi shengcai's sudden visit and question confused Lin Yi.

Why did it feel like this guy was here to condemn her?

Was he complaining that he had been to the array path sub-academy too many times recently?

He couldn't care about this. He had to think about it first. He was the Dean of the alchemy sub-school, should he say that he was very free?

"Shi Yucai, if you have something to say, just say it. There's no need to beat around the bush."

In the end, Lin Yi skipped the answer option and ignored Shi tiancai's question.

"Alright, I don't want to talk nonsense with you, so let's get straight to the point. Recently, you've been coming to my array path sub-academy often, so it's obvious that you're also interested in array path, right?"

In fact, Shi longcai felt that he had obtained the title of alchemy Grandmaster. Although it was only bronze-grade, he was still a genuine Grandmaster.

And so Lin Yi's heart felt unbalanced-he wanted to have some achievements in the field of arrays as well, to prove that he was a genius not inferior to Shi tiancai.

there was no other explanation for why lin yi went to the array path section every other day-shi yucai didn't think that lin yi went there because he wanted to make friends.

he'd come to this conclusion after using his own perspective and mentality to guess lin yi's position.

lin yi wanted to shorten the distance between them in terms of formations, but he needed to at least be on the same level as him in terms of alchemy.

from the few conversations they had, shi yucai realized that lin yi did have some skill in formations, though he didn't know the details.

however, in addition to his alchemy skills, he could barely be considered shi tiancai's opponent, which was why he had lowered himself to personally visit and ask such a question.

if lin yi was a newbie in formations, a proud person like shi yucai wouldn't even look lin yi in the eye, let alone come to find him personally.

"i'm interested, so what do you want to do? do you want to discuss with me about the dao of arrays?"

Lin Yi blinked and looked at Shi chengcai curiously. That didn't seem right with this guy's personality!

Sure enough, a trace of disdain flashed in Shi Yucai's eyes. He said indifferently, "There's no need to discuss formation knowledge, we're not that close. "

He was being very polite-what he really meant was that Lin Yi wasn't qualified to discuss formations with him!

In the end, this guy had an arrogant personality, especially in the field of arrays. He was absolutely disdainful among his peers!

Even if he realized that Lin Yi had some knowledge of arrays, it was only a slight change in his opinion of Lin Yi.

He didn't really take Lin Yi seriously.

"i've come to find you today to ask if you're interested in exploring the source of the array dao with me? because in the source of formation dao, there are some places that require the cooperation of two people to pass through, so i came to find you. don't misunderstand. "

lin yi's lips twitched. what could he have misunderstood? this tsundere naivety!

she didn't make it clear, but shi tiancai's meaning was clear-she felt that lin yi was the only one who was qualified to be mentioned in the same breath as him among his peers.

therefore, even though their relationship was very ordinary, he looked down on the others even more.

"what is the origin of the array dao? i've never heard of it, can you tell me about it?"

lin yi had never heard of the origin of formation dao.

although he had countless books and records in his mind, none of them had mentioned the source of formation dao.

perhaps it was because he hadn't collected all the books on array dao?

lin yi decided to find some time to go to the school's library and the martial union's library. knowledge was power, and he couldn't underestimate fengqi dazhou's background!

shi shengcai frowned slightly, seemingly a little impatient.

he probably thought that it was too troublesome to explain to lin yi!

However, seeing that Lin Yi was a worthy opponent, Shi Yucai didn't reject him. He said patiently, "The origin of the array Dao is a historical site. Legend has it that all the array techniques on the sub Island originated from this historical site!"

"As long as I can gain a little from the source of formation Dao, my attainments in formation techniques will advance by leaps and bounds! It's just that you can't always enter the formation Dao origin. It only opens once every five years. "

"And the condition to enter is to reach the level of a Grandmaster. To be honest, if you are not a Grandmaster, you probably can't come out after entering. Only a Grandmaster can barely guarantee your own safety."

"The source of formation Dao hides the opportunity to break through to the Grandmaster level. It's because of this that every time it opens, array Masters from all over the Feng Qi continent will gather here. Everyone wants to be the one who surpasses the Grandmaster realm. "

"The person who discovered the source of the array Dao is said to be the ancestor of the sub island's array Dao. You should have heard that his surname is sun and he respects the four holes. He is the true ancestor of the array Dao!"

It was rare for him to say so much in one breath, so Shi Yucai turned to Lin Yi and asked, "Do you understand? Are you interested in it?"

Lin Yi was interested, of course.

not only the source of array dao, but also the name sun sikong!

the sub island's array dao ancestor?

lin yi had never heard of this name before.

but sun sikong had heard of him more than once!

wasn't this the master of han jingjing and the king of junk?

he had also been to the sub island and had even become the array dao ancestor of the sub island?

how many years had he lived?

or was this just a person with the same name? a complete coincidence?

Lin Yi didn't really believe it was a coincidence.

After all, with the lesson of his cheap master Zhang Liju, it didn't seem impossible that sun sikong of the sub Island was the master of han Jingjing and the king of junk!

If they were really the same person, then it would be interesting!

Lin Yi couldn't help but wonder if he came to the sub Island because of a plan.

Zhang Liju and sun sikong were people who were related to him, and they had been to the sub Island.

Then, could it be that they arranged for me to come to the sub Island?

Forget it, it's useless to guess too much now. I'll figure it out when I have the chance!

Lin Yi brushed away the thoughts in his mind and smiled at Shi Yucai. "I'm interested! It's a pity that I'm not a Grandmaster. Didn't you say that the threshold to enter the origin of array Dao must be a Grandmaster? Doesn't that mean I'm not qualified to enter?"

"Of course, you don't have the right to enter the source of array Dao. However, that shouldn't be a problem. You still have some talent in array Dao. It shouldn't be too difficult for you to take the bronze-level array Dao Grandmaster examination, right?"

Shi shengcai felt that a person who could become his opponent must have this level of skill.

Chapter 8547

If Lin Yi failed the test, then he didn't deserve to be recognized as an opponent. It wasn't a bad thing to mock him!

"The formation Grandmaster examination isn't something that can be taken just because you want to, right? The last time I took the alchemy Grandmaster examination, it was because it involved the qualifications for my position, so I made an exception and opened the examination at the last moment. "

Lin Yi didn't know much about the Grandmaster exam, but he knew that it wasn't something that could be activated just like that.

Shi longcai smiled indifferently. "You're lucky. I've just applied for the diamond-grade array formation Grandmaster assessment. Today is the assessment date. If I include you, I'll also be assessed for the

Grandmaster title. Just treat it as a return gift for my assessment for the Grandmaster alchemy title last time."

This fool had actually set up the stage and was just waiting for him to go up and sing?

Lin Yi couldn't help but chuckle to himself.

He also guessed that Shi longcai was unwilling to accept his failure in acting tough last time and wanted to act tough in his field of expertise to take back what he had done last time with interest.

No wonder he was so enthusiastic to personally invite him today!

In addition to recognizing that he had the qualifications to be his opponent, the main thing was to get back his face and show off!

After thinking it through, Lin Yi didn't hesitate and nodded."Alright, since there's such an opportunity, I naturally can't ask for more. Then I won't be polite!"

The source of formation Dao involved sun sikong, and Lin Yi had to go and see what it was.

The requirement to enter the origin of array Dao was the Grandmaster title. Lin Yi had no other choice but to take the test.

"I knew you would agree!"

Shi shengcai smiled, as if he was a man worthy of being my opponent and not a good-for-nothing.

"After the assessment, we'll have to set off for the source of array Dao. The time for the ancient ruins to open is approaching, so before we go for the assessment, let director Yan know first. After all, the deans of our two major sub-schools are leaving the school at the same time, so we have to let director Yan be prepared. "

Although Shi longcai was usually arrogant, he still respected Yan Su.

Of course, he had informed Yan Su before the assessment. Other than being respectful, he also wanted to show off.

Director Yan, look, I'm going to take the diamond-grade array master examination.

Director Yan, watch carefully. This time, I will use a huge gap to prove that I can completely crush Sima Yi in terms of array Dao ... Wait, wait, wait.

In short, this was an opportunity to show off, and Shi Yucai would never miss it!

The two of them found Yan Su together and told her that they were going to take the assessment at the same time. They also planned to go to the source of array Dao together after the assessment.

Yan Su couldn't help but be filled with emotions, 'the young people nowadays are really amazing. Why are they all all-around?' Dean Sima, this old man didn't think that you would also have the strength of an array Grandmaster! He's really well hidden!"

The test hadn't even started yet, but Lin Yi had already decided to go to the source of formations.

What did it mean?

In Lin Yi's eyes, the Grandmaster formation master test was just a formality. He never thought that he'd fail.

He had great confidence in his own strength!

"I haven't taken the assessment yet. Maybe I won't be able to go to the source of array Dao!"

Lin Yi said humbly.

Yan Su didn't take it seriously at all, but Lin Yi's modesty was obvious.

He was obviously more confident than her, so why was she acting humble?

Young people should be frivolous!

Yan Su thought that she knew Lin Yi's personality very well-since he chose to take the test, he must have the confidence to pass!

"The source of formation Dao only opens once every five years. Every time, a few grandmasters enter and can't come out. From this, it can be seen that the inside of the source of formation Dao is not peaceful. You two must be careful when you enter!"

Yan Su would not stop the two of them from taking risks. In his opinion, young people could only grow through adventures. Flowers in a greenhouse could never withstand the wind and rain.

However, he was also worried that these two geniuses with boundless prospects would encounter some accident.

It was not only a loss for Tianxia college, but also the loss of the entire Fengqi continent and even the entire sub-Island!

"Don't worry, director Yan. I will take good care of Sima Yi. With me around, he will be fine!"

Shi longcai patted her chest as a matter of course, assuming the identity of a formation Dao senior.

In terms of array Dao, he, Shi longcai, was just that outstanding!

Lin Yi's lips twitched-this guy was always showing off when he had the chance-who knew who'd take care of who then?

I'll let him realize this during the zongshi realm examination later!

This time, Shi Yucai was taking the diamond Grandmaster test, and Lin Yi wanted to save himself some trouble by finishing it in one go.

To be honest, Lin Yi was more confident in formations than alchemy, especially the sub island's formations. Even the ghosts had to give him a thumbs up.

A mere Shi chengcai wasn't much of a threat to Lin Yi.

If the other party was able to pass the diamond formation master examination, then there was no way he would be able to do so.

Yan Su gave them a few words of advice and let them leave.

The two of them remained silent throughout the journey. However, as they were on their way, more and more people slowly gathered behind them.

Most of these people were Shi tiancai's fangirls.

They didn't know where they had gotten the news, but they followed in a flurry to support Shi shengcai.

A small portion of them even cheered for Lin Yi-they were clearly fans on both sides.

In the end, this small group of people was denounced by Shi tiancai's die-hard fangirls.

As a result, there would be some quarrels from time to time in the growing group.

If Shi tiancai and Lin Yi hadn't been walking forward, they would've probably stopped and quarreled to their heart's content.

In the chaos, Lin Yi and Shi chengcai arrived at the array formation Association and asked to see the president, su Zixin.

President su Zixin was in charge of the Grandmaster array assessment, and the fangirls in the fan club finally quieted down.

In order not to affect their idol, their self-control was quite good.

But Lin Yi was puzzled-there wasn't a WeChat group here, so how did these people get the news?

And how did they gather here so quickly?

"Shi longcai greets guild leader su!"

When the messenger led the two of them to the assessment venue, su Zixin was already there.

Although Shi wancai cupped his fists first, he didn't show too much respect.

Su Zixin was a direct descendant of the SU family and the president.

However, in Shi longcai's eyes, his array Dao level was not even as good as his, the Vice President 's, so he didn't deserve much respect.

Su Zixin, the president of the array Dao Association, was only a gold rank array Dao Grandmaster. Shi longcai was a dark gold rank array Dao Grandmaster, and he was taking the diamond rank array Dao Grandmaster examination!

After passing, the gap between the two sides would only grow bigger and bigger!

In Shi longcai's eyes, su Zixin was just a good-for-nothing who relied on his family's power to steal a high position.

"Vice Principal Shi, you're finally here. I've been waiting for you. The diamond formation master examination isn't a common one. I hope that you can pass the examination successfully!"

Su Zixin knew that Shi shengcai didn't like him, but he didn't show any dissatisfaction. He smiled warmly and glanced at Lin Yi a few times.

Chapter 8548

Lin Yi felt that there was something in those eyes, but he didn't know what it meant.

She had never met su Zixin before, and she did not know when she had offended this guy or the SU family behind him!

"This must be Dean Sima, right? I've always heard of Dean Sima's great name. He's the youngest Diamond Grade Alchemist Grandmaster. Amazing! I've long wanted to get to know Dean Sima, but unfortunately, I never had the chance. I never thought that I would be able to meet him today, it's my honor!"

Su Zixin quickly turned to Lin Yi and greeted him warmly.

Could it be that the look she gave him was because of her admiration for Lin Yi?

People who didn't know better would think that he was a die-hard fan of Lin Yi if they saw his passionate attitude!

"Guild Master su, you're too kind. I'm the one who's been looking forward to meeting you. It's my honor to meet you today."

Lin Yi replied casually.

"Back to the main topic, Dean Sima and Dean Shi came together. Could it be that they're accompanying Dean Shi for the assessment? It turned out that the two deans had a good personal relationship! I've never heard of this. "

Su Zixin's smiling eyes darted between the two of them.

"President su, you've misunderstood. I'm not friends with Sima Yi. I'm just bringing him here to participate in the assessment. He also wants to take the assessment for the array Grandmaster title. You can treat him as an opponent who is on the same path as me."

Shi chengcai didn't want to be involved with Lin Yi, so he explained immediately, "Guild leader su, let's hurry up and start the examination as soon as possible! As you know, the formation Dao origin is about to open, and we still have to rush over. "

"No problem. As long as you're ready, we'll start immediately."

Su Zixin smiled and turned to Lin Yi. "Dean Sima, are you preparing to take the bronze rank array master examination? I've never heard of Dean Sima's strength in the array Dao, or maybe he's a silver rank?"

Su Zixin already knew that Shi Yucai was taking the diamond Grandmaster exam, but Lin Yi didn't mention it.

He was just joking-as far as he was concerned, Lin Yi being able to take the bronze Grandmaster exam was already very good.

Lin Yi smiled and shook his head, "Bronze or silver rank is too much trouble. I'll have to take the examination in the future and it'll be a waste of time. Therefore, I'm taking the diamond rank formation master examination as well so that I don't have to trouble guild leader su again."

Su Zixin and Shi shengcai were both stunned.

Sima Yi actually skipped so many levels and directly took the diamond rank test?

This is crazy!

To be honest, Shi tiancai's first reaction was that Lin Yi was trying to act cool.

His second reaction was that Lin Yi couldn't even pass the bronze level, so he was using this method to disgust him!

Hehe, how childish. Looks like I've overestimated this person!

You don't deserve to be my opponent!

Su Zixin furrowed his brows and was slightly displeased. ""Dean Sima, this seat feels that the young people have been a little impetuous recently. They don't understand the principle of taking things one step at a time and always want to do things that are beyond their reach. This is really not very appropriate. What do you think, Dean Sima?"

She was tactful with her words, calling him a young man and asking for his opinion, but in reality, she was pointing at Lin Yi's nose and saying that he was aiming too high.

The enthusiasm they had when they first met disappeared immediately, and they were just short of calling out names!

"You're right, Guild Master su, but I feel that this young man Shi longcai must be confident and not overreaching himself!"

Lin Yi smiled, "a senior like me will naturally support them!" The rule of the alchemy Union of the continent's martial Alliance is to make an exception and promote people. "

"Gah!"

Su Zixin's expression froze.

He was hinting that Lin Yi was a young man, but Lin Yi called himself a senior!

However, there was nothing wrong with that. Lin Yi was the Vice President of the alchemy Union, and it wasn't an exaggeration to call him a senior.

In this way, it was as if su Zixin was criticizing Shi shengcai.

As expected, Shi tiancai's expression turned a little ugly.

Even if he knew that Lin Yi did it on purpose, Shi shengcai still felt uncomfortable.

He looked at su Zixin with a little dissatisfaction.

Seeing Shi longcai's dissatisfaction, su Zixin didn't dare to say anything more.

He was merely a gold-rank array formation Grandmaster, and Shi longcai was stronger than him to begin with. If he were to make Shi longcai angry, he would be in deep trouble.

One had to know that Shi longcai also had a powerful background.

Shi longcai didn't fight with su Zixin for the position of the array formation Association's President because he found it troublesome, and he was only interested in academic research and acting cool.

"Alright, Dean Sima, I will conduct the assessment according to your wishes. The rules of the array master assessment are similar to that of the alchemy master assessment. The loser can not apply for another assessment of the same level for two years."

Su Zixin turned to Lin Yi. "If you don't have the Grandmaster title, you won't be able to enter. That's all I have to say. If the deans don't have any other requests, then let's start the test!"

His words were clearly meant for Lin Yi to hear-Shi Yucai was a dark gold Grandmaster himself.

Lin Yi, on the other hand, was a nobody in the field of formations-he didn't even have a title, so he naturally didn't have the right to enter the origin of formations.

The rules of the Grandmaster array formation test were the same as the Grandmaster Alchemist test. If one applied for the diamond Grade test, it didn't matter if one's results reached the dark gold grade, as they would still be considered a complete failure.

The fangirls in the support group who had been watching from the outside couldn't hold it in any longer and were all whispering to each other.

However, most of them were mocking Lin Yi.

"Sima Yi really doesn't know his place. Our Dean Shi has been preparing for a long time before he came to challenge the diamond rank Grandmaster array. He wants to take the same rank as Dean Shi the moment he comes up. I really don't know where he got the courage from!"

"The ignorant are fearless! I think Sima Yi doesn't know anything about arrays. In any case, bronze rank and diamond rank are the same to him, he can't pass either of them, so he just let himself go!"

"That's right, I've never seen such a shameless person before. Why do I feel like the standard of this diamond array Grandmaster assessment has been pulled down by him and principal Shi?"

"It is! Sima Yi's alchemy skills were indeed impressive, and he was an out-and-out genius. However, wasn't he underestimating the array Dao too much? did he think that the array Dao and alchemy were the same? It's laughable and lamentable!"

"I think Sima Yi just wants to act cool and show off how awesome he is. In the end, he'll definitely act cool and become an idiot ..."

.....

The public opinion was basically one-sided, mocking Lin Yi.

No one really thought that Lin Yi could pass the test, and even those who had a good impression of him fell silent.

There were even some who changed sides and joined in the mocking.

The invisible act was fatal, but those who supported Lin Yi all felt that he was acting tough by force, and their favorability was dropping.

If Lin Yi failed the test, they'd become his most loyal anti-fans, the type that would never return.

Chapter 8549

Su Zixin didn't care about the commotion in the fan club. This place didn't prohibit such actions from fans.

"There are three rounds in the assessment. Those who pass will be awarded the title of diamond-grade array master. If one fails, the assessment will be a failure! The first round is the array formation assessment. The array formation Association will provide all the array flags and you will pass if you can

set up the required complete array within an hour. If you exceed the time limit or set up an incomplete array, you will fail!"

Since Lin Yi and Shi Yucai were both diamond grandmasters, su Zixin had set the standard as pass and fail.

If the two of them were of different grades, they would need to be divided into different standards and a point system, just like in the alchemy Grandmaster examination.

The first round of the assessment was relatively simple. The questions given were not difficult. The array that needed to be set up was the kind that even grandmasters could set up. The only thing that needed to be tested was speed and accuracy.

After seeing the question, Shi longcai immediately picked up the array flags provided by the array Dao Association and began to set them up.

His movements were as smooth and elegant as the floating clouds and flowing water, causing the little fangirls in the fan club to cheer.

Rather than saying that he was setting up an array, it would be better to say that he was performing.

That kind of pleasing action and posture could really make people feel happy.

Beside su Zixin, there were a few higher-ups of the array formation Association who were watching. The diamond Grade array formation Grandmaster assessment was a rare event and everyone who had nothing to do would come.

As the saying goes, the layman sees the fun, while the expert sees the skill.

In contrast to the brainless cheers of the fan girls in the support group, their soft discussions at this time appeared very professional.

"Shi Yucai is indeed a genius in arrays. His array-setting skills seem to have reached the point of perfection, especially that corner connection. If he's a little slower, the entire array-setting process will become stagnant, and the overall speed will slow down by a few notches."

"That's right, and the formation flag combination at the key node is really exactly the same. If there's even the slightest mistake, we'll have to overturn this node and set it up again. A slight change will affect the whole formation and the entire formation will be affected."

"Just by looking at Shi tiancai's technique, she does indeed have diamond-level strength. Such a young genius is hard to come by in a hundred years!"

"Sima Yi's side has also started. He's publicly acknowledged as a rare genius in alchemy that only appears once in a hundred years, but I've never heard of him in terms of array Dao. I'm afraid he's only asking for humiliation by taking the same rank title test as Shi Yucai ..."

Lin Yi curled his lips, speechless at the comments.

Shi tiancai's movements in setting up the formation were certainly gorgeous and pleasing to the eye, and at the same time, there was no lack of speed and precision, but there were some useless movements in it that slightly affected the speed of setting up the formation.

If it was a life-and-death battle between two array Masters of the same level, these useless movements could easily send Shi longcai to his death.

The array Masters in the crowd were not bad, and they were indeed experts, but their vision was limited by their own strength, and they could only see Shi tiancai's brilliance, but not his shortcomings ...

Lin Yi took out formation flags ten seconds after Shi chengcai.

Unlike Shi chengcai, Lin Yi's movements were simple and clear, without any unnecessary factors.

If it was a comic, a line of words would most likely float across the side. --Was an emotionless array setting machine!

It was simple, accurate, and practical!

It certainly didn't look as pleasing to the eye as Shi longcai, but it had a simple beauty to it.

It was a pity that none of those fangirls appreciated Lin Yi-they only had Shi tiancai in their eyes, and Lin Yi was completely ignored.

As for the practitioners of the Association, their expressions changed after seeing Lin Yi's formation.

Slowly, everyone started to watch Lin Yi's formation, and no one paid attention to Shi Yucai anymore.

This was the complete opposite of his fangirls.

"Heavens! You can actually set up a formation like this!"

"Unbelievable! What did I just see?"

"Unbelievable! It turns out that this place can be set up in such a way, and the efficiency is more than twice as high as mine!"

.....

The practitioners were all shocked, each and every one of them covering their mouths and letting out a soft cry, afraid of disturbing Lin Yi, but they couldn't hold back the shock in their hearts. They felt like they were going to suffocate if they didn't make a sound!

Su Zixin's expression was also constantly changing. It was hard to tell what he was thinking.

Ten minutes later, the two of them finished setting up the array at the same time and successfully activated it at the same time. Both of them were almost perfect.

Su Zixin had a shocked expression on his face as he and the other experts around him applauded and cheered.

"Amazing, the two deans are really amazing, opening this Lord's eyes. This Lord knows that I can't do what the two deans did, whether it's speed or accuracy, it's hard to compare! I admit defeat!"

This was a display of his demeanor as the president of the combat Association.

if one's strength was inferior to others, one could just admit it graciously. no one would criticize a gentlemanly president even if his strength was slightly inferior.

however, su zi was truly shocked by lin yi's strength!

this person really had the strength of a diamond-grade array master!

even in terms of formation technique, it was already quite terrifying!

at the same time, shi shengcai's shock was no less than before.

he was already super fast, but lin yi was even faster!

the two seemed to have finished setting up the formation at the same time, but shi yucai knew that he'd started ten seconds before lin yi.

so strictly speaking, he lost to lin yi in terms of speed!

he still didn't know that this was the result of lin yi's deliberate control and delay. if he knew the truth, he might feel humiliated and fall out with lin yi.

"Guild Master su, can you announce the results now?"

Lin Yi looked at su Zixin calmly.

It was just a basic operation, what was there to be surprised about?

Su Zixin suppressed the shock in his heart and nodded with a smile. "Of course there's no problem with the results. Such an excellent performance is simply impeccable! It seems that the first round of assessment didn't put any pressure on the two of you. You're indeed worthy of being the peerless duo of Tianxia Academy, I'm impressed. "

After a seemingly sincere but perfunctory compliment, su Zixin kept his smile and announced expressionlessly, ""Next, we'll proceed to the second round of the assessment, which is to modify and strengthen the array!"

"In this round, the two of you will be given the same trapping formation. On the premise that the original function of the formation will not be affected, the formation will be modified and strengthened with the uniformly distributed formation flags, so that the trapping formation will have more functions!"

"After the modification, the original function can not be weakened in the slightest. Once it is weakened, it will be judged as unqualified. Simply strengthening the original function is not enough. Different functions must appear!"

The second round of assessment was a little more difficult. There were not many complex arrays on the sub-Island, and only Grandmaster level experts would be involved in it.

Chapter 8550

If an ordinary Grandmaster were to set up a compound array, it should not be a big problem. However, it would be very difficult to make changes to an already formed array.

"The time is still an hour. The time starts now. Will the two deans please enter the formation and begin the modification assessment!"

While su Zixin was talking, the array Masters from the array formation Association had already set up two identical trapping arrays, waiting for Lin Yi and Shi chengcai to modify them.

The two trap arrays were not difficult, but su Zixin knew that he would not be able to complete the test within an hour.

So he was looking forward to Lin Yi and Shi tiancai's performance.

Shi shengcai looked at Lin Yi deeply. This was the opponent he had set his mind on, and his performance in the first round was unexpected. It was because of this that Shi shengcai's fighting spirit was even more exuberant!

The stronger the opponent, the more valuable the victory would be. Trash simply did not have the joy of victory!

"director shi, i'm going to start. you can do it too!"

lin yi felt shi tiancai's eyes on him, and turned to give her a smile, even giving her a fist to cheer her on. his attitude was quite friendly.

in the end, shi longcai snorted coldly, turned around, and strode into the trapping array. she began to study how to modify it.

are they close to you? don't be so cheeky!

we are opponents! an opponent! can't you be more serious?

Shi Shucai ridiculed him in her heart for a while. She then cleared her mind of all distracting thoughts and began to seriously modify the formation.

In the field of compound formations, his attainments were not bad.

However, when setting up a compound formation, one would normally have to consider all aspects from the beginning and not modify it after setting up an ordinary formation.

For example.

For example, if one wanted to build a villa on an empty plot of land, it would be more convenient to get the blueprint from the start.

If a row of bungalows was built on the open space first, and then transformed into a villa without destroying the original structure of the bungalow and retaining the original layout, it would be much more difficult, and it was easy to build a nondescript thing.

Shi shengcai couldn't allow himself to fail, nor could he tolerate his failure to complete it beautifully, so it wasn't realistic for him to start modifying it immediately. He needed some time to organize his thoughts and carry out comprehensive considerations before he started.

Lin Yi was tapping an array flag on his palm, bored. After entering the trap formation, he frowned and wandered around, as if he was in deep thought. He seemed to be in a difficult position.

In fact, Lin Yi was in a difficult position.

This kind of formation that could be changed at will didn't need to think at all. Just throwing a few formation flags would do.

To Lin Yi, this modification was as simple as one plus one equals something. He could do it with a wave of his hand.

Compound formations and layering formations were things that he had played with a long time ago.

However, Shi wucai was a genius in formations, and Lin Yi couldn't perform too well. It was better to use Shi wucai as a reference for the test!

After all, he couldn't be too high-profile, as it was easy to be targeted!

Speaking of which, what if he passed the diamond array master assessment and the darkness demon beast clan asked him to take charge of the teleportation array's construction?

Lin Yi's thoughts weren't on the formation at all-he was just thinking about random things.

In the eyes of others, however, Lin Yi was in deep thought.

"Modifying an array isn't an easy task. Sima Yi's skill in setting up the array is brilliant, but he's definitely not as good as Shi longcai in modifying the array!"

The array Masters from the array Dao Association started discussing again.

"I think so too. After all, Sima Yi is a genius in alchemy. If he wants to Excel in alchemy, he has to spend a lot of time. There are no shortcuts for geniuses. It's already amazing that he can have such a standard when he diverted his attention to arrays. It's impossible for him to study and modify arrays!"

"Indeed! In this aspect, Shi wangcai definitely has an advantage. Since he's here to take the diamond-grade array Grandmaster examination, he must have made preparations in advance. The second round of the examination is the opportunity for Shi wangcai to display his advantage!"

"So you're all optimistic about Shi shengcai's victory? What a pity, I wanted to place a bet, but everyone had the same idea, so I can't play anymore!"

The insiders were all optimistic about Shi tiancai's chances.

As for the outsiders, they were all fangirls of Shi tiancai, and in their eyes, there was no one else but Shi tiancai.

The people who were on Lin Yi's side had all returned to Shi tiancai's side.

The surrounding discussion didn't affect the two of them in the slightest. In the array, Shi longcai finished his thoughts and began to modify it.

Lin Yi followed closely behind and started.

From su Zixin's point of view, the two of them had almost finished thinking about the modification of the formation at the same time.

If the final result was similar, it meant that the strength of the two in this aspect was similar.

The following process also verified su Zixin's thoughts. The progress of the two of them was basically the same, and the time taken to complete was the same. The difference was within a second.

Of course, this was the result of Lin Yi's careful control.

Lin Yi was probably the only one who had the time to observe Shi tiancai's progress during the test-no one else would be able to do that.

"Guild Master su, please check!"

Shi chengcai was still a little proud after leaving the formation, thinking that he'd be able to suppress Lin Yi this time, but Lin Yi came out from the other side as soon as he finished speaking.

Almost at the same time, the shock in Shi Shucai's heart was indescribable.

"Alright, please take a rest, Deans. I'll have someone examine it!"

Su Zixin was still expressionless, not even willing to pretend to admire him. He was already very unhappy that he was suppressed by Shi Yucai, and now there was Sima Yi stronger than him. There was no way he could continue living!

In the future, who would still take him, the president of the array Association, seriously?

With two young Diamond Grade array Masters in front of him, what was a gold grade array master like him?

He was unhappy!

However, even though he was unhappy, he still had to do what he had to do.

Su Zixin randomly assigned two array Masters from the array Association to check on the transformation.

Both of them were bronze-grade array Masters. It might be difficult for them to set up a compound array, but they were more than capable of examining it.

They entered the formations that Lin Yi and Shi Yucai had modified, activating the core of the formation.

Faint smoke rose from the two formations, completely covering the scene inside.

However, this effect was only effective for those below the Grandmaster level. After reaching the Grandmaster level, these two smokescreens derived from not-so-high-level arrays would not have much effect.

"The array Shi longcai added is a killing array, forming a simple trap and kill array. Its power has doubled! When he attacked while trapping people, those who were not strong enough would be instantly killed! Amazing!"

The inner sect disciples who could see the scene inside the formation began to discuss and comment in low voices.

"Although this trap & kill array isn't of a high level, anyone who doesn't enter is likely to suffer a great loss. To be able to set up such a trap & kill array in such a short time, Shi Yucai is indeed a genius! Sima Yi will definitely lose!"

These people didn't think much of Lin Yi from the start, so after seeing Shi tiancai's trap & kill array, they subconsciously looked down on Lin Yi's array.
