

Bodyguard 8551

Chapter 8551

They weren't even interested in Lin Yi's formations.

At the same time, there wasn't much movement in Lin Yi's formation, and the grandmasters didn't encounter any danger either. They just walked around in the formation, looking for something.

He seemed to be enjoying it and didn't want to leave for a while.

After a short while, someone noticed that something was wrong and exclaimed in a low voice, "Sima Yi's formation is strange! The people inside seem to be trapped!"

"A trapping array is meant to trap people ... Wait, it's a trapping array. It needs to be modified based on the foundation of a trapping array. If that array only strengthens the effect of the trapping array, then it's a loss!"

"I'm afraid it's not a simple trap array ... Look at the expressions and actions of the people inside, don't they look a little strange?"

Everyone's eyes quickly looked over.

As expected, the array master's eyes were filled with confusion, and his expression was constantly changing.

Occasionally, he would return to his normal state, but at that time, he would reveal some shock.

"Yes! It's indeed quite strange, as if it had experienced some kind of illusion. This trapping array has been added with an illusion array effect, and the effect is quite good!"

No matter what, they were all experts in the field. They only had to concentrate and observe for a while, and they could already see some clues from the details!

"I originally thought that Sima Yi's modified trapping array was ordinary, but now I realize that it's actually a Thunder in the silence! I've underestimated him!"

Several of the array Association's higher-ups revealed expressions of shock and admiration.

They didn't think much of Lin Yi before, thinking that he couldn't beat Shi tiancai in modifying a complex formation.

There were even people who thought that Lin Yi wouldn't be able to complete the transformation before he completed it, and that he'd lose his chance in the second round.

In fact, he might not even be able to take the array master examination for the next two years.

What she didn't expect was that not only was Lin Yi's speed on par with Shi Yucai 's, but the quality of the formation he completed was also beyond her imagination!

The little fangirls in the support group on the periphery were still cheering for Shi Yucai enthusiastically, feeling that Shi Yucai was the strongest, best, and most perfect array Dao Grandmaster.

he would also step on lin yi to highlight shi tiancai.

even if lin yi's performance in the first round wasn't any worse than shi shucai 's, and was even slightly better.

but to fanatical fangirls, it was completely meaningless. in any case, shi yucai was the strongest!

the combat association's middle-and high-ranking members looked at the group of ignorant fangirls with a smile on their faces.

"don't you think shi yucai will feel embarrassed? he must have thought that he could defeat sima yi for sure, but in the end, he could only ride alongside sima yi. his supporters even ignorantly belittled sima yi in order to elevate shi tiancai, how laughable!"

"indeed, the louder those ignorant people cheer, the more it's equivalent to slapping shi tiancai across the face. it's a pity that they can't hear this slapping sound!"

"Shi Yucai is probably feeling awkward right now! Who knows, he might even want to chase him away, but he can't do it for the sake of his reputation. After today, I wonder if he still has the face to face Sima Yi. "

.....

The people who said these words were mostly gloating.

Who asked Shi shengcai to always suppress them with the attitude of a genius?

Everyone was an array master, and being suppressed by a young man to the point where they couldn't lift their heads, anyone would feel unhappy.

However, they forgot that they had also underestimated Lin Yi and concluded that Lin Yi couldn't fight against Shi chengcai!

However, after seeing the formation Lin Yi had modified, they all instinctively forgot what they said before and smoothly changed sides!

The two grandmasters in the formation couldn't hear the discussion outside, but they both felt that the formation they were facing was a bit tricky.

Shi tiancai's trap and kill array was not weak. The array master who was being tested looked relaxed and at ease, but he was actually already on full alert.

If they were not careful and made a mistake in their response, they might get injured and that would be embarrassing!

On the other side, Lin Yi's trap and illusion formation wasn't as dangerous as the trap and kill formation, but the Grandmaster would fall into an illusion from time to time!

If it wasn't for his solid foundation that allowed him to break free from the illusion, he wouldn't have the face to see anyone right now.

After another ten minutes or so, the formations on both sides opened almost at the same time.

The array Grandmaster also left the array one after the other. He looked a little tired, but he was not in a bad state.

"Principal Shi Yucai is qualified!"

"Principal Sima Yi has passed!"

After the two reported the results, they cupped their hands and bowed to Shi shengcai and Lin Yi.

To be able to modify a complex formation of this level in such a short time, he was indeed worthy of the name of a genius. They were all convinced.

If Shi chengcai and Lin Yi had set up a compound formation from the beginning, the two testing grandmasters might not have been able to break out.

No matter which domain it was, the strong would always be respected.

The higher-ups of the array Dao Association also came forward to congratulate him.

No matter how envious and jealous they were, they would choose to show kindness at this time and form a good relationship with the two geniuses.

"Dean Shi and Dean Sima are indeed worthy of their names as geniuses. The array techniques they modified are quite outstanding. Dean Shi added the elements of a killing array on the foundation of the trapping array, making the trapping array have a strong killing power."

Su Zixin was the last to step forward and started to comment on the two's modification of the array, "Dean Sima added the elements of an illusion array on top of the foundation of the trapping array. The trapping array that should have been easy to break suddenly became extremely difficult to break. The effect of trapping people has increased by a lot, and it's also quite excellent!"

"It's clear that the two deans have profound attainments in the study of compound arrays, which really surprises me. It's our great Phoenix continent's good fortune to have two super geniuses in arrays at the same time!"

Su Zixin praised the two of them before announcing, "The two deans have passed! Congratulations on completing the second round of the assessment. Next up is the final round. As long as you can pass it, you will become a Diamond Grade array Grandmaster. This is a grand event for our array formation Association, and I'm looking forward to it!"

The fan girls in the fan club cheered as usual, but at the same time, they couldn't help but feel a little apprehensive.

Lin Yi's performance was on par with Shi Yucai's for two rounds in a row, which made them a little nervous.

Could it be that her Prince Charming was really going to ascend to the diamond-grade Grandmaster's throne with that shameless fellow?

Not to mention those little fangirls, even Shi Yucai was starting to doubt life.

He'd thought that Lin Yi's skill level was at most at the threshold of a bronze-level Grandmaster.

He didn't expect the threshold to directly reach diamond rank, and it was not any weaker than his!

This was a little unbelievable!

Chapter 8552

The stronger the opponent, the better, but that was under the premise that he could win.

If the opponent was so strong that he couldn't win at all, then it would become looking for abuse!

Shi chengcai asked Lin Yi to take the exam with him to show off, not to get beaten up ... This was a little awkward!

Of course, Shi shengcai's pride was still in his bones, so he didn't think he couldn't beat Lin Yi.

However, Lin Yi's strength was beyond their imagination. Maybe ... They really had to go together?

It's still very embarrassing to be in the same field as the opponent!

Regardless of whether Shi shengcai was embarrassed or not, su Zixin continued to push for the final part of the process. "The last round will be a fixed question. Everyone who is taking the diamond Grade array master examination will have to go through it. Within an hour, you have to pass the array formation of our array formation Association. If you pass, you pass. If you fail, you fail!"

It was simple and clear!

The array Association's array formation was a multi-composite array, so it was quite difficult to pass.

In particular, anyone who was not a Diamond Grade Grandmaster would have no hope of passing the test within an hour.

This was also the reason why this trial array was set as the fixed question for the diamond Grade array master assessment.

The first and second round's questions had always been changing, but the third round had never changed.

Su Zixin led the two of them to the entrance of the trial formation with a smile on his face. "Vice-Principal Shi, Vice-Principal Sima, who's first?"

Only one person could enter the trial array at a time. If more than two people entered, the killing array would be activated.

The degree of danger would directly increase by tens of times. That would not be a trial array, but a killing array.

Those who could take the test were all array path grandmasters, and the human ancient martial art practitioners could not afford to lose them.

Therefore, the rules of the assessment were extremely strict. Only one person was allowed to enter the array. Whoever let the second person in would be directly waiting for death!

Shi chengcai hesitated. He was already a little afraid of Lin Yi, so he wanted to see Lin Yi's performance in the trial formation first.

So, he deliberately put on a gentlemanly look and smiled faintly.

"Dean Sima, you can go first. I want to be the first to celebrate your passing of the assessment!"

He said it beautifully, but only he knew what he was thinking.

Lin Yi didn't mind and nodded, "Then I'll go first!"

He'd wanted to see Shi chengcai's reaction, but since she wasn't going up, he could only rely on himself.

how long would he take to come out so that he wouldn't make Shi shengcai look too bad?

"dean sima, please! i wish you all the best!"

su zixin smiled and made an inviting gesture as he watched lin yi enter the formation.

after entering the array, the scenery in front of him changed. it was obvious that the first thing he triggered was an illusory array.

lin yi took two steps casually, and the scene changed again. the illusion disappeared.

an illusion formation of this level wasn't enough to affect lin yi.

what appeared before lin yi's eyes was an empty hall, with many huge square stone pillars.

Each stone pillar was actually a formation core of a region.

Under normal circumstances, these stone pillars would be hidden by an illusion array and a concealment array, followed by a trapping array, a killing array, and a defensive array.

Ordinary people couldn't see it at all, nor could they approach it.

But with just a sweep of his spirit sense, the holes in the formation were clearly displayed.

After taking two steps, the effects of the illusionary array and the concealment array would disappear.

That was why these stone pillars appeared.

Of course, Lin Yi could only see it with his eyes. If he wanted to get close to the stone pillar, he had to go through a trap formation, a killing formation, and a defensive formation.

Lin Yi smiled slightly-he'd seen the core, but there was no need for him to destroy it.

The only requirement of the assessment was to pass through the array. It would be over once they went around it.

Next, he only needed to muddle around for half an hour and then leave the array. Then, he would pass the test. It was extremely easy and pleasant!

"Do you guys think Sima Yi has a chance of passing the trial array? It's said to have originated from the source of the formation Dao and was set up by a senior Almighty of the continent's formation Dao Union. Not just anyone can pass through it, right?"

"Of course, the array is meant to be used to select a diamond-grade Grandmaster. It's the fairest array. Anyone who has not reached the diamond-grade Grandmaster level will not be able to pass."

"Tsk, you're talking as if you can pass as long as you have the strength of a diamond-grade array master. The difficulty of the trial array is beyond imagination. Some experts with such strength may miss the time limit if they make any mistakes, no matter how big or small!"

"That's right ... The time limit of one hour is too strict. If it was extended to four hours, I think Sima Yi's chances of passing would be much higher!"

"Sima Yi has never seen the trial array before. It's his first time entering. Let alone an hour, I think even if he was given four hours, he would definitely not be able to pass ..."

These people had already acknowledged Lin Yi's talent and strength in the field of arrays, but they still one-sidedly believed that Lin Yi had a higher chance of failure.

In fact, there was no possibility of success at all.

Shi Shengcai stood to the side with an expressionless face, turning a deaf ear to these people's discussions.

He had never tested a trial array before. However, as a dark-gold rank array master and the array Association's Vice President, he had the authority to examine it.

Hence, Shi Shengcai had a bigger advantage than Lin Yi in this round.

The higher-ups of the array Dao Association also knew this. Although they didn't say it explicitly, they were certain that Shi shengcai would win.

Lin Yi didn't care about the discussions outside. After making sure that there weren't any surveillance cameras in the formation, he started slacking in the open. He wasn't afraid of being discovered.

He wandered around, exchanging thoughts with the ghostly thing as he moved forward.

"Senior ghost, look at the formation here. It's pretty good. Do you have any inspiration?"

"Get lost! What inspiration! It's just a complex formation, what's so great about it?"

The demonic thing was disdainful. "Apart from the relatively new methods of setting up these formations, the principles are just like that. There's nothing much to say about them. If I were to set them up, I'd definitely be much more brilliant than him!"

Lin Yi wasn't afraid of this-the ghost's layered formation was indeed perfect.

If it wasn't for the fact that he wasn't familiar enough with the island's formations, he would've surpassed Lin Yi sooner or later.

"Eh, there seems to be something in this array!"

The ghostly thing seemed to have discovered something.

Lin Yi didn't say anything, but he realized the abnormality even earlier than the thing!

Lin Yi had wanted to keep paddling until the end, but the formation didn't want him to.

Chapter 8553

A hidden consciousness attack suddenly appeared and quickly pierced into Lin Yi's Witcher spirit sea.

Wu Linghai's automatic counterattack instantly destroyed the attack. Although it didn't affect Lin Yi, it still made his expression change.

This formation also had the ability to attack with spiritual sense?

"It's not an array, it's a spiritual sense attack tool hidden in an array!"

Lin Yi immediately noticed the difference.

At first, he thought it was some kind of formation that could use spiritual sense attacks, but that was new!

It turned out that this was not the case.

He didn't know if this tool was originally placed in the formation or if someone had secretly placed it in later on.

Although Lin Yi easily blocked the attack, that was only because he was the one who was attacked. It was hard to say if it was someone else!

This kind of spiritual sense attack was very well hidden and extremely insidious. Once hit, the primordial spirit would continue to weaken unknowingly.

If it was coupled with some follow-up means, it could very likely become a means to control people!

Who did this?

If such a method had always existed in this trial array, then the person who set it up was very suspicious.

If they were added later on, then the only suspicious ones would be the people from the entire array Dao Association who had the qualifications to enter the array!

No matter who it was, their intentions were extremely sinister!

Lin Yi shuddered.

Those who could enter this array were all diamond array grandmasters. Was he trying to control the top array grandmasters?

Or did he want to destroy these top array Masters?

It was terrifying!

"What are you going to do? Let it be, whether we fish out the mastermind or destroy the prop to prevent it from harming people?"

The demonic thing didn't really mind little tricks like that wouldn't work on Lin Yi, anyway. "This old master can see that the tool has already fused with the formation. If we destroy the tool, it might have some impact on the formation. Needless to say, the person who set this up had a rather deep understanding of formations. At the very least, he had a deep understanding of this formation. "

"Of course I destroyed it! The masterminds behind the scenes must be those few people. We'll just slowly drag them out! Since it's fused with the formation, then we might as well destroy the formation as well. "

Lin Yi squinted his eyes and snorted coldly. His body flashed and he broke through the killing and trapping formations, arriving at the stone pillar.

The attack tool that affected the divine sense was in the core control hub.

To destroy this item, one had to destroy the core control hub.

Lin Yi didn't hesitate after finding his target-he destroyed the core control hub.

The entire trial array suddenly made a loud rumbling sound and began to collapse from all directions.

Outside the formation, su Zixin and the rest looked at the smoke-filled trial formation with a dumbfounded expression.

What was going on?

After a long while, these people finally understood. It seemed like ... The formation was done for?

Lin Yi had only been in there for a few minutes, why did the formation collapse?

Could it be that the one who went in was not Sima Yi, but Sima Bengbeng?

Then, a figure rushed out of the smoke-it was Lin Yi, covered in dust.

"Guild leader su, what's going on? I almost died in there. Why did the formation suddenly collapse? Are you trying to kill me? If it wasn't for my quick reaction and my familiarity with the formation, I probably wouldn't have been able to get out! Look at that power, I'm definitely going to die inside!"

Lin Yi spat out a few mouthfuls of dust-covered saliva, trying to be the tattletale.

His skill of making bogus accusations was at the peak-who would've guessed that the main culprit of the formation's collapse would be Lin Yi himself?

Su Zixin was dumbfounded. He didn't know if he should say it!

"No... Principal Sima, what exactly did you do inside? Why did the trial array suddenly collapse? This formation has existed for so many years, and there has never been a problem with it. There's no reason for it to be destroyed after you entered!"

He didn't have any proof, but his instincts told him that Lin Yi had something to do with the collapse of the formation!

"I don't like what you're saying, President su," Lin Yi raised an eyebrow, displeased. "What, are you saying that I broke your formation?" I almost died in there. I brought it on myself, didn't I? So I should take responsibility and compensate for your losses, right?"

"Ha ... Good job! I'm also convinced that you've distorted black and white to this extent! No problem, it's all my fault. Tell me, how much compensation do you want, I'll get my Butler to send it to the array Dao Association!"

What?

Su Zixin was about to explode from anger. Was this what he meant? Is that so?

"Dean Sima, this isn't a matter of money. It's the array that's broken. How are we going to take the assessment in the future? I'm not saying that it's your fault, I just want to know what happened. After all, it was after you went in that the problem occurred ..."

Su Zixin felt aggrieved.

No matter what, he couldn't blame Lin Yi too much. After all, he didn't have any evidence. Maybe the quality of the formation wasn't good?

So ... What should he do?

Lin Yi's eyes flashed as he wondered.

From the looks of it, that prop did not seem to be set by su Zixin.

Even though he was a gold-rank array master, he shouldn't be able to change the control hub of the trial array, right?

But if it wasn't su Zixin, who could it be?

"Eh, Guild Master su, let's not talk about the collapse of the array. I've passed the third round of the assessment, right?"

"The formation's problem has nothing to do with me," Lin Yi suddenly changed the topic, "I came out successfully, so I should be able to break out of the formation, right?" So, am I qualified now?"

"The activation of the array Dao origin is imminent. You can't refuse to give me the title of array Dao Grandmaster just because there's a problem with your family's array! This doesn't make sense no matter what you say!"

Su Zixin was secretly bitter. He had to endure it again and again to not let out a fragrant breath!

You F * cking destroyed the trial array, and you still have the face to say that I'm stuck and not giving you a title?

"Guild leader su, what do you mean by not saying anything? What's the story?"

Lin Yi urged.

Su Zixin gritted his teeth and held his breath for a long time.

In the end, he could only nod. "I ... I passed!"

It wasn't impossible to say that Lin Yi didn't pass, but it still didn't make sense.

No matter how the formation broke, Lin Yi did "break out" of it!

Most importantly, su Zixin knew that Lin Yi was a tough guy!

Without any grudges, su Zixin was not willing to provoke them.

Who would dare to provoke such a ruthless person who would report to the continent's martial Alliance for arbitration at the drop of a hat?

"Guild Master su, what about my assessment? Can the formation be fixed?"

Shi shengcai frowned in displeasure.

Lin Yi, who he saw as his opponent, had already become a diamond Grandmaster, but he couldn't continue with the test!

What was going on?

The corner of su Zixin's mouth twitched slightly, then he smiled helplessly."Dean Shi, as you can see, the extent of the damage to the array is quite serious. It should not be able to be repaired in a short time."

When Lin Yi came out earlier, the entire formation had collapsed-he didn't even need to check to know that it was completely broken!

It was easier said than done to repair it.

"When will you guys be able to fix it?"

Shi wancai was very anxious.

Chapter 8554

Me?

Although su Zixin didn't want to admit it, he had to admit that he didn't know how to fix it!

Even if the damage wasn't as severe as it was now, he, su Zixin, didn't have the ability to repair the trial formation!

If he had that capability, he, su Zixin, would not be a gold grade array master but a Diamond Grade array master!

"I can't do anything for now!"

"If I can't repair it, what about my assessment? You can't make me wait forever, right? Even if you have to wait, you have to give me a clear time!"

Shi shengcai maintained her usual gentle expression, but she was a little anxious inside.

They were both diamond grandmasters, and even if they couldn't suppress Lin Yi, they didn't pull him down.

It would be too embarrassing if Lin Yi was still dark gold despite being a diamond rank.

If he lost to Lin Yi in alchemy and formations, which Shi Yucai was best at, how could he face Lin Yi in the future?

No, there's no need for the future.

In her current state, Shi Yucai didn't even have the face to explore the source of formation Dao with Lin Yi.

That would be a slap to his own face.

Su Zixin was also very unhappy. My trial formation has been destroyed and I have no place to reason with. What the hell are you talking about?

If he were a diamond Grandmaster, he would've fallen out with Lin Yi and Shi Yucai by now.

Unfortunately, he was only a gold rank array Grandmaster. Even if he had the SU family's backing, he couldn't do anything to the two.

After all, the sub-island's strength was respected, not only in combat power, but also in other fields, where there was a level suppression.

"Haha, of course I won't let you wait for long. I already have a countermeasure!"

Su Zixin gritted his teeth and laughed. "Since the trial array has been destroyed, it's also heaven's will. Dean Shi's third round will be over."

"From the results of the first and second round of assessment, Dean Shi is definitely an outstanding array master. It's not easy for an ordinary diamond rank array master to achieve the results of Dean Shi and Dean Sima!"

"In the first two rounds of the assessment, the results of the two deans were about the same. It's hard to tell who's better, which means that the strength of the two deans is about the same. Since Dean Sima can pass through the third round smoothly, Dean Shi will definitely have no problem."

"In view of this, I believe that under the premise that the trial array is destroyed, Dean Shi will be exempted from the third round of assessment and will be directly regarded as a pass! So from now on, the two deans are both Diamond Grade array Masters. After I report to the continental array formation Guild, I will officially award them with the title of Diamond Grade righteous Grandmaster. "

It was true that su Zixin was in charge of the assessment, but this time, it was a little special. He had no right to directly grant the two Diamond Grade grandmasters of array Dao.

He could only give her this identity temporarily, and the official badge had to be granted by the continent's array path Guild.

This way, he could avoid responsibility without offending Lin Yi and Shi chengcai. It was the best of both worlds.

If the continent's array formation Guild didn't agree, then it would have nothing to do with su Zixin.

When the fangirls outside heard this decision, they started cheering.

As long as Shi longcai could become a diamond-grade array Grandmaster, they didn't care about the other details.

"That's great! Dean Shi has become a diamond-grade array Grandmaster! Although this is only natural, I'm still extremely excited!"

"Me too, me too! In particular, waiving the assessment was the right choice. Our Dean Shi doesn't need an assessment to prove that he was born to be the most outstanding array Grandmaster! He's not like that trash Sima Yi, who needs to be tested to prove it!"

"That's right, that's right ... But principal Sima Yi is also very strong ... But he definitely can't win against principal Shi ..."

Those who started supporting Lin Yi started wavering again.

However, this argument was immediately suppressed by others.

Even if they thought that Lin Yi was a big Shot, this was a matter of perspective-they couldn't waver!

Shi Yucai's expression was extremely unsightly. Exempting himself from the test made him feel like he had been given the diamond-grade array Grandmaster title out of charity.

He was a proud person, so it was inevitable that he would have a grudge in his heart.

However, Lin Yi had already obtained the title of a diamond Grandmaster. Shi chengcai couldn't accept it if he rejected Lin Yi because of his pride, and then he had to bow down to Lin Yi as a dark gold Grandmaster!

Just as Shi longcai was feeling embarrassed, the Great Hall Master had received the news of the formation's collapse and rushed over.

Other than the first hall Master, there were also many higher-ups of martial League.

Even if they weren't array Masters, they all knew the significance of the trial array.

Seeing that the trial array had completely collapsed, everyone had a strange expression on their faces.

"Guild leader su, what's going on? Why did the array Association's array collapse?"

The first hall Master looked around expressionlessly and finally fixed his eyes on su Zixin,""The array formation Association is also a part of the martial Union. I have to find out the whole story of such a big incident. I don't want to interfere with President SU's authority."

Behind su Zixin was the SU family, also known as su banzhou. Especially since he was a direct descendant of the SU family, the first hall Master couldn't be too harsh.

After the question, he had to add an explanation.

Su Zixin shook his head with a bitter smile."First hall Master, I would have reported this to you even if you didn't come. I don't know why the trial formation suddenly collapsed. Perhaps there's something wrong with its operation!"

"However, when the array broke down, principal Sima Yi was in the middle of the third round of the diamond rank Grandmaster array assessment. As for the details, I think I should ask principal Sima Yi. He should know better."

Su Zixin didn't say that it was Lin Yi who broke the formation, only telling the first hall Master to ask Lin Yi.

In fact, he was implying that Lin Yi had broken the formation.

At the very least, those who heard it would think that the destruction of the formation had something to do with Lin Yi.

Of course, this was the truth!

But Lin Yi wouldn't admit it!

"First hall Master, Guild Master su, I don't like what you're saying! What do I know? I'm still confused! I was just taking the test, but I almost died in this trial array. Shouldn't you give me an explanation?"

Lin Yi put on an angry face, acting like a wronged person, "What do you all mean by this? You're basically saying that I broke your precious formation!"

"Alright, it doesn't matter. Just tell me how much compensation you want. I've already said it just now. Give me a number, and I'll get the Butler to send the martial League and the array Dao Association, alright?!"

"Dean Sima, don't be agitated. This Lord didn't say that you broke the trial array. It's just that first hall Master asked, so I felt that you would be clearer!"

Su Zixin was also acting at this moment.

If the ferocious evil roared on the spot, everyone would probably point their Spears at him.

Chapter 8555

Therefore, he also treated himself as a victim and asked the first hall Master to make a decision.

The first hall Master felt the veins on his forehead throbbing. His head was really hurting!

"Alright, now isn't the time to pursue responsibility! Let's first think about how to deal with the aftermath!"

The first hall Master didn't want to get involved in this mess, so he decisively changed the topic. "This array is the array Dao Association's treasure. It can't be destroyed like this. It must be repaired!"

"Dean Sima, you said that you would have to compensate us with money, but that's completely unnecessary. I'd better ask you to help me repair the array!"

The first hall Master caught on to Lin Yi's words and had an idea, "To be able to enter the third round of the diamond array formation Grandmaster assessment and escape from the collapse of the array, you must have the strength of a diamond array Grandmaster."

"It shouldn't be a problem to repair this formation, right? And Dean Shi, you're our Phoenix Qi great continent's publicly acknowledged array path genius. Before Dean Sima appeared, you were undeniably the number one genius of the younger generation, and you've also studied the trial array, so I invite you to join us in repairing the array, is that okay?"

Shi shengcai was secretly displeased.

He said that it would be over on the first day, so why did he add the prefix before Sima Yi appeared?

Could it be that I'm no longer the number one genius after Sima Yi appeared?

It was really unbearable!

hence, shi yucai instinctively refused. "i'm sorry, but i can't fulfill the first hall master's request. although i've studied the trial array, the extent of damage has already exceeded the scope of my strength."

"this array is made up of multiple composite arrays. it will take a long time to repair it. hall master, you should know that the array dao's origin is about to open. sima yi and i will enter the array dao's origin, so we don't have time to waste on the trial array."

after he came out of the array dao, whether he would come back to repair it was another matter!

if they had the time, martial league might as well ask for help from the continent's array formation guild.

lin yi didn't say anything-it didn't really matter if he fixed the formation or not. the spirit attack tool that was integrated into the control hub was destroyed, and the repaired formation wouldn't have any hidden dangers anymore.

if he could get the mastermind to set up another spiritual attack, lin yi might be able to find some clues.

The first hall Master laughed."I'm well aware of Dean Shi's concerns. I've also heard that the source of array Dao will open soon. But there should still be some time left, right?"

"If the two deans were to repair the formation out of thin air, it would indeed take more time to study it. However, the formation diagram of this formation is with us, and it's in my possession! If you guys follow the map, the difficulty of repairing it should be much lower, and the speed should be faster, right?"

Lin Yi was curious-there was a blueprint for this formation?

Then why wasn't it in the hands of su Zixin, the president of the array Dao Association, but with the first hall Master?

"First hall Master, why do you have the diagram of the trial array? Could it be that this trial formation has something to do with the first hall Master?"

The first hall Master smiled and waved his hand at Lin Yi's question."I don't have the ability to do so. This array was set up by the previous array Association's President. He's a Diamond Grade array Grandmaster and has already been promoted to the continent's array Association."

"Before he left, he gave the diagram of the trial array to me for safekeeping. The reason why he didn't give it to guild leader su was because the trial array is a little difficult for guild leader su."

"Before he left, he said that the formation map can only be given to Diamond Grade grandmasters. Anyone below Diamond Grade is not allowed to see it. That's why I've been keeping it."

"Now that the two deans have the strength of a diamond-grade array Grandmaster, I can naturally take out the array diagram for the two deans to study and use it as a Foundation to repair the damaged trial array!"

The first hall Master wasn't a Grandmaster of arrays, but he had studied arrays before.

Therefore, he knew very well that there was a huge difference in repairing an array with or without an array diagram.

Shi shengcai's eyelids twitched. From the bottom of his heart, he didn't want to take over the repair work.

Not only was it a waste of time, but it would also delay the journey to the source of formation Dao, and there was no benefit to it at all.

If it was fixed, then it was a matter of course.

I've already shown you the formation diagram, isn't it normal to fix it?

It was precisely because of this that if he couldn't cultivate it, he would be guilty of great evil!

I've already shown you the formation diagram, and you still can't fix it?

Everyone was a diamond-grade array grandmaster. If someone else could set it up and leave the array diagram to you, you wouldn't be able to fix it even if you tried. What kind of diamond-grade array grandmaster could you be?

Shi Shengcai had already studied the trial array in depth, so he didn't think much of the array map.

In his opinion, it was unrealistic to repair the array in a short time. Taking on this mission would definitely waste time and invite humiliation on himself!

"I'm sorry, First Hall Master. I still insist on my decision. I can't repair this trial array. Even with the array diagram, it will take a lot of time. It will definitely delay my exploration of the source of array dao."

Shi Shengcai made up her mind and rejected him decisively. "This matter should be handled by President Su. After all, it's a big matter for the array dao association. President Su should be more worried!"

Su Zixin's mouth twitched. If he could worry about fixing it, he didn't mind.

However! He was only a gold rank array master! Even if he had the blueprint, he wouldn't be able to repair the array. What was there to worry about?

"First hall Master, I think it's better to report this to the continent's array Association and have them send people to repair the array! After all, Dean Shi is right, the array Dao origin is about to open. He and Dean Sima are both Feng Qi continent's array Dao geniuses. If they miss the opening time of the array Dao origin, it would be a pity!"

The way he spoke showed the importance and care that the president of the array formation Association had for the genius array master.

As for what the truth was, only he knew.

The first hall Master frowned and thought for a while before saying, ""There's no need to report this to the continental array formation Guild. After all, we already have two Diamond Grade array Masters and the array diagram in our hands. What reason do we have to seek help from the array formation Guild?"

"Feng Qi Dazhou has the ability, but he's not willing to repair it himself and wants to trouble the array Guild, do you think the array Guild will be happy? By then, we'll have to question whether the two deans are actually Diamond Grade grandmasters in the field of formations. Wouldn't that be even more troublesome?"

"Rather than causing more trouble, isn't it better to settle it yourself? Director Shi, director Sima, do you two want to reconsider? Do my words make sense?"

Shi shengcai didn't say anything. He had already made up his mind not to take on this mission.

Although the first hall Master had warned him that the continent's array formation Guild might question their titles, it wouldn't be a bad thing for Shi longcai if they canceled their titles and re-assessed.

at the very least, it was a good opportunity to clear his name!

Chapter 8556

lin yi thought about it as well-he wasn't worried about the test going wrong, but who knew how long it'd take?

the source of formation dao was related to sun sikong, and lin yi didn't want to miss the opening time.

therefore, he absolutely couldn't agree to re-examine.

"first hall master, leave the matter of repairing the array to me. i alone am enough. i don't need dean shi's help!"

to avoid trouble, lin yi took on the task."just give me the formation map. go do what you need to do. i'll come back tomorrow to see how it goes."

"That's great! Dean Sima, it's great that you're confident! As long as you can repair the array, I won't mistreat you ... How about this, I'll appoint you as the Grand Elder of the array Dao Association!"

The first hall Master was very happy and immediately made a promise, ""I'll report this appointment to the continent's martial Alliance. It won't conflict with your previous position, so don't worry!"

Lin Yi raised an eyebrow, suspicious.

The Great Hall master's behavior seemed a little strange!

The other party seemed to be very resistant to reporting this to the continent's martial Alliance, or rather, was very resistant to asking the array formation Guild to repair the array.

This matter shouldn't have had much to do with him, so why was he resisting?

The array Dao Association was indeed a Department under the martial Alliance, but at the same time, it was also a lower-level organization directly led by the array Dao Association.

It was reasonable for the array formation Guild to repair the damaged array. Why would the first hall Master resist it?

Was there any hidden story behind it?

Lin Yi thought to himself but didn't ask.

Because he knew that it was useless to ask, it was impossible for the first hall Master to tell the truth. On the contrary, he would be more careful, and it would be more troublesome to find out in the future.

"Thank you, first hall Master. However, I don't care if I have the title of Grand Supreme. Being able to repair this trial array is the best reward for me!"

Lin Yi looked like he understood what was going on as he picked up the formation. "I'll study it first. You guys can go back first. There's no need to wait here."

The first hall Master smiled and nodded. He then turned around and waved his hand. "Did you all hear that? Everyone, disperse and don't hinder Dean Sima from studying the array diagram!"

Even without his orders, his men had already started to expel the unrelated people.

Su Zixin and the others left as well. They didn't think that Lin Yi could fix the formation, so they walked quickly.

They didn't want Lin Yi to blame them if he failed.

For example, they could say that they didn't leave in time and that they had affected the study of the formation diagram, causing it to fail. They had to block them now!

"Is Sima Yi a little too arrogant? You actually dare to boast that you can repair the array by yourself? do you really think you're a diamond-grade array master?"

After the crowd left, the higher-ups of the Association started discussing in low voices. It was still the same-no one had high hopes for Lin Yi!

"Strictly speaking, Sima Yi's third round shouldn't even be considered a pass. President su only acknowledged him for passing the third round because he cherishes talent and was pressured by Sima Yi. Does he really think that he's a true diamond rank array Grandmaster?"

"What a joke! Young people are really impetuous! Did he think that the trial array was a simple low-level complex array like the one in the second round? And you said that we'll see how it goes tomorrow ... Hehe!"

"I'll definitely come back tomorrow to see how Sima Yi is doing. Haha, he probably doesn't even understand the array diagram, right?"

"I don't know what kind of excuse he will use tomorrow to get rid of the embarrassment. Or maybe he doesn't know what embarrassment is at all. If he's thick-skinned, he can bear it."

When the first hall Master heard these comments, he was a little unhappy. He frowned and scolded in a low voice.

"All of you, shut up! He didn't have the ability to repair the trial array, but he couldn't bear to see others repair it? With all of you like this, I don't think there's a need for the array Dao Association to exist anymore!"

The few higher-ups of the array formation Association who had spoken immediately fell silent.

They all lowered their heads and pretended to be quails, not daring to look at the first hall Master.

Su Zixin hurriedly tried to smooth things over, "first hall Master, please calm down. They didn't mean it that way. It's not that Dean Sima can't repair the array. They just feel that Dean Sima has underestimated the difficulty of the array. I'm afraid the time required will exceed his expectations."

The first hall Master snorted. As he had to give su Zixin face, he didn't say anything more and left with a flick of his sleeves!

Lin Yi, naturally, wouldn't miss this. He looked at the first hall master's back and fell into deep thought. It seemed that the first hall Master really wanted to fix the array himself, so that he wouldn't attract the attention of the array formation Guild!

Did he have a grudge against the array formation Guild? Or would the people from the array formation Guild do something to him?

The first hall master's behavior seemed a little too obvious, and even Shi Yucai felt a little strange.

Hence, after the first hall Master left, Shi shengcai hesitated for a moment before asking su Zixin, who he looked down on.

"President su, first hall Master seems to believe in Sima Yi and my abilities too much, right? Why must it be us ... And even Sima Yi alone who has to repair the array?"

"The first hall Master might not be too clear, but President su, you should understand how complicated the refinement array is. Do you think Sima Yi can complete the repairs on his own? Unless he was the one who had set up the array, it was impossible to repair it before the array Dao origin was activated! It's the same with me!"

Shi shengcai was a little upset, thinking that Lin Yi was just trying to act cool and that he didn't have any confidence in succeeding.

The final result would be to delay their journey to the source of array Dao!

If not for this, Shi longcai would not have taken the initiative to speak to su Zixin, who he had always looked down on.

"I'm not too sure about the reason for the head Hall master's actions, perhaps he has some conflicts with the array formation Guild. "

Su Zixin laughed, "however, I don't believe that Dean Sima has any chance of success either. But it doesn't matter. Anyway, he's just trying. He already said that he only asked us to come tomorrow to see the situation. He must have already thought of a way out and prepared a way out."

"He definitely can't do anything today. After tomorrow's research, he can tell us that he can't do anything or that he needs time. There's not enough time now. He can wait for the array Dao origin to come back and fix it. It won't be too embarrassing."

"And the purpose of his doing this is nothing more than to show off his strength in array Dao, and then covet the array diagram of the trial array. He wants to take the opportunity to study it or even make a copy. One night should be more than enough, right?"

Su Zixin revealed a look of "I've already seen through the truth" and started to explain his speculations.

Shi Yucai actually felt that this kind of nonsense made sense ...

The two thought that Lin Yi was just forcing himself to act cool, so they left happily.

They were just waiting to see what would happen to Lin Yi after he forced himself to act like an idiot.

Chapter 8557

Lin Yi wasn't interested in what other people were thinking, not even in studying the diagram he had in his hands.

He had brought it over just for show to avoid suspicion.

He entered the damaged formation and called out for help.

"Senior ghost, you've seen this trial array. Come out and give me a hand. Otherwise, I might not be able to repair it perfectly before tomorrow morning."

As soon as the thing came out, it laughed,"perfect my ass!" This trial array has its flaws to begin with, and your perfect restoration also means that the original flaws have been restored. What's the point of that?"

"I didn't say that I wanted it to be perfectly restored. I said that it could be repaired. Senior ghost, you've misunderstood me!"

Lin Yi smiled,"it's either we don't do it or we do it. Since we've done it, we'll do it beautifully. I want to double the strength of this test formation. When that time comes, the person behind the scenes who set up the spiritual attack items will be in trouble if they want to do it again!"

"Haha, so that's how it is-you're really two-faced now, Lin Yi! But I like it!"

"Senior ghost, haven't you heard that one is marked by the company one keeps? I've been with you for a long time, you know, I used to be such a pure and kind young man ..."

Lin Yi laughed at himself.

It was indeed the best way to relax when joking around with a ghostly thing.

For a long time, if it wasn't for the ghost beside him, Lin Yi wouldn't have been able to reach this point in the path of formations!

And so, even if Lin Yi knew how to make fun of these things, the respect and gratitude he had for the man would never decrease.

"Hahahaha, you're clearly lying to a ghost! I don't believe you!"

The ghostly thing didn't take it to heart. The two of them chatted for a while before getting back to the main topic.

"Senior ghost, you should have noticed it before, right? There are a lot of Sky island's array elements in this array, and they've been combined with the sub-island's array to form the original array. "

Lin Yi said seriously as he talked about formations. "It's precisely because of this that Shi shengcai repeatedly shirked and refused to take on the task of repairing it! It looks like he's done some research, but he doesn't have the foundations of Sky Class island's formations. After studying it, he'll only be able to move through formations, but not fix them. "

As for su Zixin, Lin Yi didn't even mention him.

A gold Grandmaster was a big Shot outside, but in the eyes of Lin Yi and Shi Yucai, it was nothing!

At the Grandmaster level, the gap between each title was like the difference between heaven and earth, and it was impossible to easily cross over.

If a diamond-level Grandmaster was looking down from the top of a mountain, a dark gold-level Grandmaster would at most be looking down from the middle of the mountain.

Gold rank ... It's higher than the foot of the mountain, and it can only look up to the peak.

"That's right, I've found the traces of the Sky Class island's array path a long time ago-you asked me for help because you wanted me to take care of this part, right? After that, you'll deal with the sub-island's array formation, right?"

The ghost understood, so he snorted and continued,""Do you think this old master still has no way to deal with the sub island's array? I'm telling you, kid, I've done a lot of research on the sub island's array Dao, and I'm definitely not inferior to you. How about you take care of the sky-class Island and I take care of the sub Island?"

Lin Yi chuckled to himself-what did I say?

he didn't say anything, right?

senior ghost, you're the only one talking, how can you be so confident?

"senior ghost, you're really what's in my stomach, you know my thoughts like the back of your hand! however, i don't think that senior ghost is helpless against the sub-island's array. senior ghost is a wise man, how can a mere sub-island's array dao pose a problem to you? it's because i'm not confident in the array dao on sky class island, so i thought it'd be safer for you to handle it!"

lin yi said, half-joking.

the entire formation wasn't that difficult for lin yi.

it was just that he needed to fix it and make sure no one could see through it, and the formation itself was extremely complicated. it was impossible for lin yi to finish it by tomorrow.

With the help of the ghost, it would be much easier.

The two of them were of the same line of formations, and Lin Yi could be said to be the disciple of that damn thing. The formations that the damn thing set up were no different from Lin Yi's own, and there was no difficulty in combining them.

"So it's like this! What you said is very reasonable, this old man will help you for the time being! The Sky Class Island doesn't take up too much, but they're all very important and can't be ignored. "

The ghost was in a good mood, evidently satisfied with Lin Yi's answer. He smiled, "Look, what did that guy set up? it's too rough! If it wasn't for the flaws, the control hub wouldn't have been destroyed, and the entire trial array wouldn't have fallen apart. "

"The person who set up this trial array, to be honest, is very ordinary in array Dao. He's obviously a dabbler, but he still wants to act cool and do some fusion. He doesn't consider how strong he is at all. He can only fool those children who don't understand!"

The demonic thing wantonly attacked the original formation and fiercely despised the person who set it up.

He wasn't trying to act cool, but the thing did have the ability to do so.

This feeling was similar to a teacher holding a student's exam paper that was full of mistakes and spitting them out.

What could Lin Yi say? Of course, they agreed!

Then, he suppressed his laughter and began to repair the array.

In the process of repairing, he had to add in his own ideas and carry out some modifications.

After this transformation was completed, ordinary people would not be able to see the difference at all. Only after personally experiencing the power of the array would one understand the difference.

The demonic thing didn't stay idle either-it ranted at the formation and the person who set it up while quickly sorting out the formations of Sky Class Island.

Unknowingly, time flew by, and before the next day's dawn, the two of them had finally completed the restoration and modification of all the arrays!

"Senior ghost, you've worked hard! The next step is to merge the two parts!"

Lin Yi didn't give up and threw out the most important formation flag.

The two different styles of formations started to merge under Lin Yi's control, and the entire formation started to change.

However, Lin Yi still had the last activation flag left unused, so only the interior of the new students' formation was perfected. The outer appearance was still the same as before.

It wasn't that Lin Yi wanted to give them a surprise, nor was it because he wanted to show off at the end. The reason he didn't activate it was because it was still dark ...

Once the formation was activated, the commotion would be comparable to yesterday's collapse!

Chapter 8558

Everyone was sleeping soundly, and Lin Yi didn't want to be the bad guy who disturbed their dreams.

The entire martial League had been alarmed yesterday. If it happened again today, the entire martial League would probably curse together!

The scene was too beautiful for Lin Yi to even think about-he'd better just be a good person!

"Not bad! The restoration of this formation was still alright! It's so much more powerful than before. This is what a formation should be like. What the hell are those things?"

This thing was addicted to complaining, but Lin Yi was already immune to it, and he didn't want to be the guy's sidekick. "Alright, I'll go back and continue my research. You can do as you see fit!"

With a casual greeting, the ghostly thing returned to the Jade space.

Lin Yi, on the other hand, re-examined the entire formation, making sure that he didn't miss out on anything or have any problems. He also didn't want anyone to see any flaws in the formation.

After they were done, the sky finally brightened.

The first hall Master, su Zixin, Shi tiancai, and the other members of the Association all rushed over to see if Lin Yi was okay.

Then, they saw the damaged formation that was no different from yesterday ...

"It still doesn't work! Although Dean Sima is an unparalleled genius in the array Dao, it's still too much for him to repair the trial array in one night!"

Su Zixin smiled."But this is normal. Don't worry about it."

It seemed like he was trying to help Lin Yi, but in other people's ears, he was obviously mocking Lin Yi for overestimating himself.

Shi shengcai was displeased. He didn't pay attention to whether Lin Yi had successfully repaired the formation or not, but was provoked by su Zixin's words.

You said that Sima Yi was an unparalleled genius, then what am I, Shi chengcai?

Shi shengcai didn't care if it was sarcasm or not. These words clearly meant that he, Shi shengcai, didn't even have a heaven-bestowed talent!

Could it be that in the eyes of a useless guild leader like you, su Zixin, I, Shi longcai, can no longer be compared to Sima Yi?

"First hall Master, Dean Sima has not been able to repair the training array. It looks like we need to report this as soon as possible and let the higher level array Dao Association immediately arrange for people to come down and repair the array, so as not to affect its future use."

Su Zixin brought up the past again and brought up the necessity of reporting.

The first hall master's face darkened and he said in a deep voice, ""Guild leader su, do you really think that you can repair the trial array in one night? It's still early in the morning, and Dean Sima hasn't come out yet. What's the rush?"

"First hall Master misunderstands, I'm not in a hurry, I'm just saying! Dean Sima's strength is naturally unquestionable, but the problem is that the trial array is really too difficult. It's not something that can be completed with strength!"

Su Zixin explained with a smile and pulled Shi shengcai into the group. "If you don't believe me, you can ask Dean Shi. He has studied the trial array, so he can definitely understand the differences."

Shi shengcai's brows furrowed slightly, and he didn't really want to respond to su Zixin.

However, the head Hall master's eyes turned over. His own pride did not allow him to say that he did not understand the formation. He could only nod his head unwillingly.

"President su is right. The difficulty of this array is extremely high. There are some parts that I don't understand. If it's an assessment, I have full confidence that I can bypass those parts that I don't understand and successfully pass the array."

Shi wancai disdained to lie.

Acting tough was based on one's own strength, not on lies. "Those areas that I don't understand are very important to the trial array. I can bypass them during the assessment, but I can't bypass them when I repair the array."

"That's why I didn't agree to first hall master's request to repair the array yesterday. Other than the lack of time, it was because I wasn't confident!"

"Of course, with the formation map in hand, if we spend enough time, we can definitely fully understand those things. However, I really don't have that much time right now, and neither does Sima Yi!"

"So first hall Master, you don't have to have high hopes for Sima Yi. I admit that Sima Yi's talent in the array Dao is not inferior to mine, but he shouldn't be more outstanding than me either. That's why he has just come into contact with the array diagram, so it's impossible for him to repair the array in a short night."

"my level is about the same as his. what i can't do, he can't do either!"

"i can confirm and confirm this point. if first hall master doesn't want the continent's array dao association to repair the array, then please wait for the array dao origin to close, and sima yi and i will repair it together. i wonder what first hall master's opinion is?"

after all that, shi shengcai and su zixin had the same opinion-lin yi wouldn't succeed.

among the people present, the two of them were the array experts with the most right to speak. the words of others could be ignored, but their opinions had to be taken seriously.

although the first hall master was not willing to admit it, at this moment, he also believed that sima yi really could not complete it!

for a moment, he actually felt quite disappointed and lost.

"Forget it. If time is too tight and we can't complete it, we'll wait for the two deans to return from the source of array Dao. At that time, the two deans 'strength in array Dao will definitely take a new leap, and it will be easier to repair the array."

The first hall Master had already accepted the fact that Lin Yi wouldn't succeed.

Although he was disappointed, he was helpless.

Moreover, at this point, the first hall Master still didn't report to the martial Alliance and ask for help from the array Arts Guild. He only said that he was waiting for Lin Yi and Shi tiancai to return.

This made su Zixin and Shi shengcai a little suspicious. What kind of enmity was this?

"Look, someone's coming out!"

Suddenly, someone from the crowd took the lead and shouted.

Everyone looked in the direction of the voice.

Lin Yi's figure slowly walked out of the formation!

The first hall Master and the others quickly went up to him.

"Dean Sima, it doesn't matter even if you don't repair the array. Time is indeed too tight. This seat was just talking to Dean Shi that after you return from the source of array Dao, we will study and repair the trial array together."

The first hall Master spoke first, not blaming Lin Yi, but comforting him instead.

Now, the first hall Master also felt that it would be abnormal if it was repaired, and it was reasonable if it wasn't.

Su Zixin continued with a smile, "that's right. Don't take it to heart, Dean Sima. There's too little time. We don't even have enough time to study the array diagram. How can we repair the array?!" We all understand that when you and Dean Shi return from the source of the array Dao, it will be as easy as stretching out your hands!"

Su Zixin's words were fair, but there were some people in the Association who were envious of Lin Yi's achievements and were mocking him now.

He mocked Lin Yi in a weird tone.

However, with so many people around, it became chaotic and chaotic, so it was hard to hear what was being said.

Chapter 8559

"Enough, all of you shut up!"

The first hall Master shouted.

He glanced around with a dark expression, and those who were saying strange things lowered their heads in fear.

Then, the first hall Master said coldly, ""All you know is to say," if you can do it, then go!""

This time, it was completely quiet.

Even a new diamond Grandmaster like Lin Yi couldn't do anything about it, let alone Shi Yucai-who were they?

Continuing to speak would only invite humiliation, so it was better to obediently shut up!

The first hall Master vented some of his dissatisfaction before turning to Lin Yi with a gentle expression. "Dean Sima, you don't have to worry about it. I didn't expect you to repair the trial array today ..."

However, before the first hall Master could finish, Lin Yi smiled and cupped his hands, "I'm glad that I've completed the array!"

"This kind of thing can't be rushed, so wait ... What?"

The first hall Master didn't know how to react after hearing Lin Yi's words!

After reminiscing about it in his heart, he was instantly surprised and happy, and even a little disbelieving. "Dean Sima, what did you just say? It's been repaired?"

"Yes, first hall Master, you didn't hear wrong. The trial array has been repaired as planned! The formation diagram given by first hall Master is really a great help. It's really easy to follow the formation diagram, and it has also given me a great understanding. "

Lin Yi said with a straight face as he cupped his fists and bowed to the first hall Master as a form of gratitude!

"That's impossible, Dean Sima. The trial array was clearly as broken as yesterday, how could there be any signs of it being repaired? I'm still the president of the array Association, don't bully me because I don't know anything about arrays!"

Su Zixin expressed her disbelief!

It's clearly still a pile of junk. It's not even an exaggeration to call it a ruin, and you're telling me that the restoration is complete?

Who are you trying to fool?

I'm a person who has learned array Dao, don't try to lie to me!

The first hall Master forcefully suppressed the excitement in his heart and looked at the ruins of the trial array with some suspicion. ""Dean Sima, is this the great array that was completely restored? It does seem a little different from before ..."

this was a more tactful question.

the people who were intimidated by the first hall master just now started to whisper and mock lin yi again!

lin yi smiled and took out the last formation flag.

this was the key to activating the freshmen trial array!

"first hall master, don't be anxious. because it's still early, i'm worried that the commotion would alarm the brothers of martial league, so i didn't activate the formation immediately. since everyone's already here, it doesn't matter! first hall master, please take a look!"

lin yi raised his hand before he finished.

the array flag turned into a stream of light and instantly shot into the center of the trial array, turning into a spot of light and disappearing.

With the disappearance of the array flags, the trial array that was in ruins began to shake rhythmically, and at the same time, it let out loud cracking sounds.

The damaged array patterns and array base flashed with light again. The fog that covered the array reappeared and quickly enveloped the entire trial array.

The deafening noise lasted for a few minutes, and the entire martial League was alarmed. However, the rules of martial League were not bad. Other than the array Masters from the array formation Association who came to watch the commotion, the other departments were all on duty.

No one ran around randomly to avoid causing chaos.

The first hall Master was overjoyed. The trial array had really been repaired!

This is like a dream. I've already given up hope, and you've given me a huge surprise!

As for su Zixin, Shi tiancai, and the others, they were all dumbfounded, their mouths agape.

Everything that was happening in front of them was beyond their imagination.

They were just saying that Lin Yi had failed and couldn't repair the formation in one night!

And the result?

The face smacking came in such a storm that he was caught off guard. With a series of crackling and crackling, he felt that his face could swell up three times!

Especially Shi Yucai-he'd asked Lin Yi to go to the source of formations to take the Grandmaster exam with him, but he'd thought that Lin Yi had some skills in formations, but that he couldn't compare to him at all.

And during the test, he realized that Lin Yi's strength wasn't inferior to his, and he was even slightly better in some aspects ...

Perhaps it wasn't even half a level, but just a little bit. If he performed better, he could reverse the situation.

Only now did Shi shengcai realize that she couldn't see through Lin Yi anymore.

Or rather, Lin Yi's strength might even be above his ... By a lot!

"Dean Sima, how did you do it? I don't understand many parts of this array. Did you?"

Shi longcai was puzzled."Could it be that you've come into contact with a similar trial array before, so you have the foundation?"

Shi Yucai's words were acknowledging Lin Yi's strength, but it didn't make him feel inferior or bitter. Instead, it strengthened his confidence that he had to defeat this strong opponent.

For this reason, Shi Yucai didn't hesitate to put down his pride and ask his opponent questions. Even if he learned from his opponent, he wouldn't feel any burden.

He would learn his opponent's skills and then defeat his opponent!

It had to be said that although Shi longcai liked to show off, he was indeed a guy with a very strong personality. He lived up to his name as a genius.

lin yi couldn't tell her the truth, so he just smiled. "it's just as vice principal shi said. i've come into contact with a similar formation before, but i can't reveal where it is. "

"as for the part you don't understand, it's not difficult for me because i've come into contact with it before and i have the array diagram as a reference."

shi chengcai looked at lin yi thoughtfully and nodded slightly,"i see. i understand. i hope i can discuss those formations with you when i'm free!"

"of course you can!"

lin yi didn't reject.

although shi longcai was a little annoying, he was still an upright person.

lin yi didn't mind giving him a tip if he had the chance.

the first hall master was overjoyed and laughed,""dean sima is really of noble character and outstanding strength. he really has the bearing and demeanor of a grandmaster of a generation. this seat is full of admiration!"

"previously, this lord had promised that as long as dean sima had successfully repaired the array, this lord would appoint you as the array dao association's grand elder! it's time to fulfill the promise!"

lin yi didn't have much interest in the grand elder, but he wouldn't reject the first hall master's offer.

However, su Zixin didn't want to have a Grand Supreme elder above him, so he immediately objected."First hall Master, isn't this a little inappropriate? The array looks like it's been repaired, but who knows if it's really repaired without testing it?"

"Moreover, headmaster Sima already holds multiple positions. If he were to take on the position of Grand Elder ... It's still not quite in line with the rules. Shouldn't this matter be reported to the array formation Guild?"

The first hall Master snorted coldly,"what?" I don't even have the power to appoint a Grand Elder? So what if Dean Sima held several positions? The array Association's Grand Elder wouldn't interfere with his

other matters! Could it be that President su is worried that headmaster Sima will give you a share of your power?"

Chapter 8560

To be honest, the first hall Master did have the intention to use Lin Yi to change the structure of the association.

The SU family was known as su banzhou, and the array formation Association was about to become their property.

When martial league's orders reached the array formation Association, most of them had to take into account su Zixin's attitude, and the first hall Master had no control over it.

However, su Zixin had always known his limits and would give first hall Master some face. That was why both sides were at peace until now.

But the first hall Master wouldn't tolerate the existence of an uncontrollable force like this forever, and so he decided to use this opportunity to put Lin Yi in.

It didn't matter if Lin Yi was useful to him or not, as long as he could break the SU family's control over the Association, he'd be rich.

In any case, this was just an idle move. It would be best if he got something, but it didn't matter if he didn't.

It just so happened that the Grand Supreme elder was an honorary and idle position, and it was a position that the hall Master could directly appoint. It was unlike a powerful position like the Vice-Master, which required the approval or appointment of the continental martial Alliance.

The most amazing thing was that the honorary position of Grand Elder had a different temperament in the Fengqi continent because of the Grand Elder of the alchemy Association, Ouyang kuantian ...

"First hall Master, what are you talking about? do I, su Zixin, look like a petty person? What I mean is that we should at least check if the trial array has really been repaired!"

Su Zixin, of course, couldn't admit that he was afraid of Lin Yi's power-he could only put his focus on the formation.

At this time, su Zixin was seriously hoping that Lin Yi didn't really fix the formation.

Otherwise, the array formation Association's internal department would really have problems.

Lin Yi was so young, but he was already a diamond-tier master in both alchemy and formation.

Once he used the power of repairing the array to enter the array Dao Association, he would definitely gain the support of a portion of the people and take away the power that belonged to him.

Even if su Zixin could make Lin Yi his subordinate, he wouldn't be able to stop the division of power.

So, the best way was to start from the source and stop Lin Yi from entering the Association as a Grand Elder.

"Your request is very reasonable. Let's do the inspection!"

The first hall Master didn't argue on this point. This was something that had to be verified.

Otherwise, even if Lin Yi was appointed as a Grand Elder, he'd still have to step down.

The head turned to Lin Yi. "Dean Sima, please stop the array and let President Su check it. After confirming that there are no problems, he will then be willing to accept my appointment as Dean Sima."

"Good! The formation is already in a deactivated state. Anyone who wants to see it can go in, and there won't be any danger. "

Lin Yi stopped the formation and signaled for everyone to go in.

The activated trial array could only allow one person to enter. If the limit was exceeded, it would trigger all kinds of killing arrays in the array that would kill the person who entered.

However, there were no restrictions on the silent trial array, and anyone could go in and take a look.

Lin Yi wasn't afraid to look at it-they wouldn't understand anyway.

Su Zixin cupped his hands at Lin Yi and was the first to enter the formation.

Shi Yucai followed closely behind. He didn't want to check anything, but he was just interested in the array Lin Yi had repaired.

He definitely couldn't miss this opportunity to observe the research up close.

The result was no different. Those who understood would naturally understand, and those who didn't would still not understand.

Especially when the formation was stopped, without any change, how could one understand the profoundness within?

Su Zixin walked around the trial formation, wanting to find some flaws, but he was powerless.

There was a huge difference in their array skills-it was easy for Lin Yi to pick on him, and he'd better go back and wash up.

After a short while, the group of people came out of the trial array. Su Zixin's expressionless face made the first hall Master sneer in his heart.

"Guild leader su, is there any problem? If you have something to say, please say it. This seat believes that Dean Sima will explain it to you. "

"There's no problem. Dean Sima is indeed a genius blessed by the heavens. The trial array has been restored to perfection!"

No matter how unwilling su Zixin was to admit it, he had no way to deny it. "In the future, Dean Sima will be the Grand Elder of our array Dao Association. Everyone, please welcome him!"

Since he couldn't stop him, su Zixin changed his stance and took the lead to congratulate and welcome Lin Yi.

This way, she wouldn't be too tense with Lin Yi.

If he fell out with Lin Yi right now, the Association would probably fall apart internally.

Hence, su Zixin thought it through very clearly and decided to play along with Lin Yi first to calm the people within the Association.

At that time, if Lin Yi were to die in the formation Dao origin, then everything would be fine!

The first hall Master was stunned for a moment, but he immediately understood su Zixin's thoughts.

But he didn't care-as long as Lin Yi could break the formation Association's iron wall, it'd be his win.

"Since guild leader su also agrees, then this matter is settled! From now on, Dean Sima will be the array Dao Association's Grand Elder, effective immediately. Congratulations, Grand Elder Sima!"

The first hall Master went with the flow and announced again.

Lin Yi nodded, accepting the new title.

The surrounding people all came up to congratulate her, and after a while, Shi chengcai grabbed the gleeful Lin Yi and left the Association.

When they reached a place where no one was around, Shi shengcai snorted with an indifferent expression, "The day of the array Dao origin is about to arrive. We don't have much time to waste. We'll set off tomorrow morning. Are you okay with that?"

"There's a problem. Since time is tight, why don't we set off today? Wouldn't we have more time a day earlier?"

Lin Yi glanced at Shi Yucai.

"Because we need to make some preparations before we set off. The origin of formations is not an ordinary place. All kinds of situations can happen inside, and any change is no small matter. Although it can't be done perfectly, we can't be short of necessary preparations."

Shi shengcai's face was expressionless as he explained indifferently, "Go back and prepare as many supplies and equipment as possible, in case you don't have any trump cards to use when the time comes! I'll only prepare for myself. Don't expect me to help you if you encounter any problems. "

"Leaving tomorrow morning is just the latest we've scheduled to leave. If you feel that there's nothing else to prepare, you can come to me at any time. It's fine for us to leave a little earlier."

Lin Yi didn't mind, "let's do that then. But don't worry, I'll save you if you're not prepared!"

This was called repaying evil with good!

Shi shengcai pouted, clearly uninterested in Lin Yi's "returning good for evil."

He didn't even bother to say hello and just turned around to leave.

Lin Yi didn't really have much to prepare-he'd store everything he had in the Jade space, ready to use it whenever he wanted.

Why would he need to sharpen his spear at the last moment?
