

Bodyguard 8611

Chapter 8611 The Sky Array Sect

"Senior ghost, don't worry. I'm not in a hurry. I'll just take it as playing a secret room escape game. I don't usually have a place to play such a complicated maze game, so it's a rare chance for me to relax!"

As depressed as Lin Yi was, he still pretended to be relaxed as he joked with the thing-there was joy in suffering, and he'd laugh when he could!

"Your mentality is not bad. You're not in a hurry. In that case, I won't disturb your fun. You can continue and have fun!"

The damn thing was only joking, and didn't say anything else after seeing that Lin Yi was in a good state.

After a while, Lin Yi didn't know how many times he pushed the metal door open, but the familiar stone room finally changed. There was a square stone platform covered in moss in the middle.

There was a rusty black iron handle on the platform, and Lin Yi stepped forward and pulled it casually. The space around him started to collapse and reform, and he passed through the second layer of the natural formation!

Lin Yi did some calculations-the entire second floor took around an hour and a half, and that was with all the choices he made being correct!

If he made a wrong choice and walked through another iron door, God knew how much time he would waste.

If it was someone else, it would probably take at least three to five days, right?

While he was thinking, the scene changed. The third level of the natural array was ready!

This time, Lin Yi was above the abyss, and under his feet was a three-fingers-thick iron chain. The two ends were hidden in the clouds, and no one knew where it led.

The second level was to go around in circles to find the right route, while the third level was the opposite. It was just a metal chain, and there was no third way to go forward or backward.

Well ... That's not right. If jumping into the abyss could be considered a path, there was indeed a third path!

Lin Yi's lips twitched as he scanned the bottomless chasm beneath him.

There was no doubt that the killing formation was the strongest below. Whoever wanted to jump down had to be mentally prepared to be killed instantly.

But to Lin Yi's Witcher spirit body, there was no such danger. The Witcher spirit body couldn't go through the formation, but it was immune to all physical attacks.

If the formation didn't have any essence spirit attacks, then Lin Yi's sorcerer spirit body would be like a cheat-he'd be invincible!

"You're not bad! You actually entered the third floor so quickly. This old man has underestimated you!"

This wasn't said by the ghostly thing, but from the other end of the iron chain.

A figure slowly walked out from the clouds and mist. The iron chain under his feet was shaking greatly. It was unknown whether it was because of the strong wind in the air or the figure walking over from the opposite side.

Lin Yi didn't mind-The Witcher spirit body could dance in the wind, so why would he be afraid of the chains?

Please use more force, even swinging on the swing is more exciting than this!

But in order to hide his Witcher spirit body, Lin Yi pretended to stand on the chain, trying to stabilize his body, adjusting himself to the ups and downs of the chain.

To be honest, this kind of disguise might be more tiring ...

The person who spoke quickly revealed his appearance and figure. Unsurprisingly, it was indeed the sky array sect!

It was an old man wearing the sky array sect's Silver robe. His hair and beard were grey and white, but he had a very strong body.

Lin Yi hadn't seen him before, so it was obvious that the sky array sect had sent a lot of people this time. They weren't the ones who opened the source of array Dao!

"Sky array sect? How did you all enter the source of formation Dao as well? I don't know if you'll also have to collect entrance fees if you come in by yourselves? Are there any internal discounts?"

Lin Yi's lips curled into a mocking smile as he pretended that this was the first time he saw the sky array sect.

The old man was the sky array sect elder who had received the order to deal with Lin Yi. He thought that he would only be able to collect Lin Yi's body, and that he wouldn't even see it.

As far as he was concerned, Lin Yi was probably devoured in the black Swamp at the first level of the formation, with no bones left. Where would he get the bodies?

He didn't expect that the young man in front of him not only didn't die in the first level of the array, but also reached the third level in such a short time!

It was simply amazing!

"This old man is long taonan, an elder of the sky array sect. This is the forbidden area of my sky array sect. Originally, you would not be able to escape death if you were to barge in by mistake. However, this old man sees that you are a talent with excellent talent in array Dao, so I have some thoughts of cherishing this talent."

The old man, long taonan, didn't care about Lin Yi's gossip and immediately expressed his intention to recruit him, "If you are willing to join the sky array sect and become a disciple of our sect, this old man can make the decision to let you live and let you shine for the sky array sect!"

"Such an opportunity is very rare. If it was anyone else who wanted to join the sky array sect, I would not have agreed. What do you think?"

Long taonan stroked his beard and smiled at Lin Yi, imagining Lin Yi's ecstatic face.

After all, the sky array sect was famous, and even the star source continent's array Dao Association had to show some respect to them. Sometimes, they would even beg the sky array sect.

With such a transcendent position, which array master in the starsource continent would not want to join the heavenly array sect?

Even if one was a Diamond Grade array master, becoming a disciple of the sky array sect was also an honor!

After all, this was the sect left behind by sun sikong, the so-called array Emperor!

Lin Yi's mocking and disdainful look only got more obvious-even a blind man could feel it!

Long taonan was suspicious, not understanding what Lin Yi meant. Looking down on the sky array sect?

Could there be a sect with a greater background than the sky array sect?

However, his doubts were immediately cleared up. Lin Yi's lips curled into a mocking smile as he asked coldly, "Elder long, you're in such a good mood. I can't believe you're so fond of talents. I wonder which of the array Masters who were turned into mummies didn't meet the standards of the sky array sect? why did you turn them into mummies?"

Long taonan's face changed slightly, obviously not expecting Lin Yi to say that.

He was puzzled-how did Lin Yi know that the corpse incident was related to the sky array sect? was it just because of the sudden appearance of an elder?

Lin Yi then gave him another heavy blow. "I can understand why the sky array sect wants to kill them. I heard that the sky array sect and the darkness demon beast clan are working very well together. In order to get rid of the darkness demon beast clan, it is necessary to kill this group of array Masters, right?"

But Lin Yi was only half right.

There was a deeper reason that even the sky array sect's elder, long taonan, might not know.

Long taonan's expression changed drastically this time. He was truly flustered!

The kid in front of him even knew about the cooperation between the heaven array sect and the darkness demon beast clan?

This person must not be allowed to live!

He had to kill him, or else he would cause endless trouble!

Chapter 8612 Nobody Can Save You

Long taonan had already made up his mind. He was just thinking of recruiting Lin Yi for the sky array sect, but now he was determined to kill him!

"Kid, you know quite a lot! Unfortunately, the more one knew, the faster one would die! If you still want to keep your life, then obediently join the sky array sect. Otherwise, no one can save you!"

Long taonan smiled sinisterly, secretly preparing to attack. On the surface, he was still trying to numb Lin Yi, "How is it? Do you want to consider whether to submit or to die?"

"In this formation, you have no way out. If I want to kill you, I only need to move my fingers. It's as easy as blowing off dust, so don't even think about resisting. It's useless!"

Lin Yi didn't believe long taonan's words, not even a single punctuation mark!

How could a natural formation be so easy to control?

Moreover, he had the Sorcerer spirit body now. Even if long taonan could control this natural array, he would definitely not be able to hurt a single hair on his head!

"Elder long, your sky array sect is willing to be a traitor, but it doesn't mean that others also like to be traitors! Death can be as heavy as Mount Tai, or as light as a feather. Therefore, I will never surrender to your sky array sect and become a dog of the darkness demon beast clan!"

Lin Yi said with a strong sense of righteousness before suddenly grinning. "Since I've chosen to die, before you kill me, can you satisfy my last wish before I die? tell me about the shady business between your heaven array sect and the dark Demon beast clan, so that I won't die out of curiosity and not be able to rest in peace after I die!"

Long taonan's eyes gleamed as he laughed, ""Do you want to know? If you're really that curious, then throw away your ridiculous sense of justice and shame and join our sky array sect for a great cause!"

He took out a disciple's robe of the sky array sect and shook it open, letting it flutter in the strong wind. "Come on, put on this robe that represents the glory of the sky array sect and become one of us. Whatever you want to know, this old man can tell you. I will definitely tell you everything I know!"

"I've always been a man of my word. As long as you agree, I'll keep my promise. What do you think?"

Lin Yi's lips twitched. You're trying to trick me!

You even betrayed the entire human race and chose to collude with the darkness demon beast clan, betraying so many of our top array Masters, and now you're talking to me about moral integrity?

You actually have the face to say that your words are worth nine tripods and your promises are worth a thousand taels of gold.

"I'm sorry, elder long, but I'm a person with a bottom line. The robe in your hand represents the identity of a Lackey of the darkness demon beast clan. That's dog skin obtained after abandoning the glory of being a human. Forgive me for not being interested. "

Lin Yi shrugged and spread his hands, "It seems that there is no way for us to reach a consensus. In that case, let's see who is stronger!"

As soon as he finished speaking, the sword was drawn!

The demonic devouring sword pierced through the wind with a black light, carrying Lin Yi as it charged towards long taonan.

The iron chain under Lin Yi's feet made a soft clatter as it shook more violently in the wind, but it didn't affect Lin Yi's charging figure at all.

Long taonan's pupils contracted as he was shocked by Lin Yi's aura. He couldn't help but retreat.

The sky array sect's inheritance allowed him to ignore the effects of arrays and had an innate advantage in battle.

But if they really fought, it would still depend on the combat power of both sides.

If it was any other Diamond Grade array master, they would have been at an absolute disadvantage from the start.

On top of that, long taonan's combat strength was one of the stronger ones among the grandmasters, which was why he was sent to deal with Lin Yi alone.

Unfortunately, the Golden-robed middle-aged man from the sky array sect and long taonan had no idea who they were facing ...

Lin Yi could also ignore most of the effects of the formation when he moved in the form of the Sorcerer's spirit body. Long taonan's biggest advantage was thus offset!

And Lin Yi's strength now was not something those formation Masters could compare to!

long taonan could only be considered a strong master in the same realm, but against lin yi, he was still a piece of cake!

at most, he would be considered trash at sixth or seventh combat level. in any case, he was still trash, so there was not much difference.

lin yi's sword pressed forward, and long taonan's forehead was covered in sweat. he retreated faster and faster, but he still couldn't avoid the black light!

when his pupils were completely covered by the black light, he knew that he was finished!

in the face of this incomparably stunning sword, long taonan didn't even have the thought to resist.

he only wanted to escape, but he couldn 't!

he hated the middle-aged man, so why did he send him to deal with lin yi?

why didn't they send more people over?

at this time, long taonan had long forgotten the contempt he had for lin yi when he came. at that time, he was still thinking about collecting lin yi's corpse. he didn't consider who would do it after he came.

"Ah Yingluo!!!"

Long taonan screamed madly, but he didn't want to fight Lin Yi, nor did he want to retreat. Instead, he jumped off the iron chain and into the abyss!

If an outsider entered and fell into the abyss, they would die without a doubt. However, as an elder of the sky array sect, long taonan had the ability to be immune to the damage of the array!

Therefore, jumping into the abyss had become the only chance to escape from death!

As expected, a life and death situation could stimulate one's potential.

Long taonan's thoughts were rather clear at the moment. He leaped into the air against the strong wind and looked down at the endless abyss. He could feel his heart beating rapidly!

It was thrilling and exciting!

Excitement and joy!

He thought that he had finally gotten rid of the soul-stirring black light that was like a ghost chasing after souls!

He thought that Lin Yi would stop chasing him if he jumped into the abyss!

He thought that the formation would be enough to stop Lin Yi's killing intent and let him escape easily!

Long taonan opened his arms and felt the pleasure of flying freely. His heart and face were filled with pride. Then, he saw the black brilliance!

It was a black light that was like gangrene attached to the bone!

Long taonan truly experienced the feeling of falling from heaven to hell. He was dumbstruck as he watched the black Radiance fall like black Lightning, filling his pupils and his world!

His world instantly fell into endless darkness, and his consciousness sank!

Lin Yi didn't have as many feelings as long taonan. After he decided to make a move, he only drew his sword!

Lin Yi didn't even bother using his spirit sense to attack since the opponent wasn't as strong as him. He just attacked directly from the front.

He didn't expect long taonan to be so cowardly that he didn't even dare to receive a single sword strike from him and could only retreat with all his might.

Seeing that it was too late to retreat, they wanted to jump into the abyss to escape!

But what the old man didn't know was that Lin Yi's Shaman Spirit body was like flat ground to him!

In terms of flying, long taonan couldn't even compare to Lin Yi!

The result was without any suspense!

Chapter 8613 Killing Elder Long

Lin Yi's demonic devour sword had only used one move to kill long taonan.

Long taonan's corpse had inherited his will when he was alive and continued to free-fall!

Lin Yi didn't pay attention to him and searched his body, but didn't find anything good.

This Grand Elder of the sky array sect was actually poor and didn't even have a storage bag.

Other than a teleportation talisman, he only had a few worthless trinkets on him.

And then there was the sky array sect's uniform he was holding in his hand, the one he wanted Lin Yi to wear!

Lin Yi floated above the chain and looked at it casually. There was indeed something wrong with the robe-there was an array pattern on it, and it was an exquisite trap array with the ability to restrain.

If he wore it on his body, he could control it at any time, which was similar to wearing a golden circlet.

If Lin Yi had agreed to join the sky array sect and put on this robe, it would be the same as falling into long taonan's trap!

Although it didn't matter if this robe would work on Lin Yi, it was clear from this robe that long taonan didn't have good intentions towards Lin Yi from the start.

The recruitment was just to numb Lin Yi-this kind of sinister guy deserved to die!

Lin Yi hmped at the abyss and picked up the loot.

It might not be useful now, but it might come in handy in the future!

Without this bug blocking his way, Lin Yi's speed was quite fast.

The metal chains might be a natural chasm to others, but it was a smooth path to Lin Yi!

The formation's attacks landed on Lin Yi's body, but they couldn't even make a splash. It was immune to all damage, and in the end, even the natural formation seemed to have given up on attacking Lin Yi.

A few minutes later, Lin Yi successfully broke through the third layer and entered the fourth layer.

The scene changed. This time, it was the peak of the snow Mountain. There was still no attack on the primordial spirit, so there was naturally no threat.

It only took Lin Yi some time and effort to enter the fifth level of formations!

The fifth floor was the same as before-Lin Yi walked around the lava for a bit and entered the sixth floor, satisfied with the rare sight!

The Golden-robed middle-aged man outside the formation Dao origin frowned.

He didn't know the details, but every time Lin Yi broke through a formation, he was able to monitor it. He was shocked by Lin Yi's speed.

The Golden-robed man subconsciously assumed that Lin Yi also had the sky array sect's Secret technique, which was why he could break through the forbidden area's formations so easily!

Those array techniques were not common. Without relying on the secret techniques of the sky array sect, the Golden-robed middle-aged man did not dare to say that he could break through two or three levels in a short time.

"What's wrong with you? From just now, his expression had not been too good. Could it be that there was a problem with the forbidden area? You haven't dealt with that little bug?"

The black-robed man noticed that the Golden-robed middle-aged man's expression was off.

The middle-aged man in the Golden robe waved his hand and nodded. "It's indeed that little bug. He's quite annoying. He's gone quite deep into the forbidden area. The elder I sent seems to have not found him yet!"

"After I find him, I'll definitely be able to get rid of him easily ... But looking at the time, elder long taonan should have already arrived. Why hasn't he taken action yet?"

He had never thought that long taonan was really a cameo. He had only shown his face at the place and immediately received his lunch box!

Therefore, the Golden-robed middle-aged man passed down an order for the sky array sect disciple closest to the forbidden area to go and take a look. After finding long taonan, he would urge him to act as soon as possible!

The disciples of the sky array sect all had secret techniques, so the natural array of the forbidden area could be completely unimpeded.

Neither the illusory array nor the trapping array would cause any hindrance, so the sky array sect disciples who received the order quickly found long taonan, who had died a tragic death.

"W-what?"

The middle-aged man in the Golden robe was shocked. He could not believe what he had just heard. "Long taonan is dead? He died in the third level of the array? This useless thing!"

He thought that he could easily deal with the people who entered the forbidden area. Who knew that he would actually be sending himself to death!

The Golden-robed middle-aged man didn't think that long taonan was killed by Lin Yi's strength. He subconsciously thought that long taonan had fallen into some trap, which was why he was killed so easily!

"It seems that there is some trouble in your forbidden area! Do you need my help?"

The black-robed man from the darkness demon beast clan looked at the Golden-robed man with an evil smile. "We're all on the same side, I don't mind going to loosen my bones!"

The middle-aged man in the Golden robe suppressed his anger and laughed, "I don't dare to trouble you, envoy. We, the sky array sect, will take care of these small matters. Don't worry, we will not delay the official business!"

The forbidden grounds of the array Dao were one of the sky array sect's trump cards. Even if they were to cooperate with the darkness demon beast clan, the Golden-robed middle-aged man was not willing to reveal everything about the sky array sect to the darkness demon beast clan.

Little did he know that the black-robed man had already known some of the things in the source of array Dao, which was why he had cooperated with the Golden-robed middle-aged man's sky array sect!

The Golden-robed man rejected the black-robed man's suggestion and entered the formation Dao origin himself to deal with Lin Yi!

Lin Yi was already in the tenth level when the Golden-robed man found him.

The scene here was similar to the ruins of the ancient Greek architectural style in the secular world, with only a few broken stone pillars remaining.

The seemingly simple scene of the array actually concealed a spiritual sense attack.

If it was an ordinary primordial spirit body in this array, there was the danger of being strangled to death at any time. At that time, their soul would be completely destroyed and they would die completely!

However, Lin Yi's Shaman Spirit body was still immune to this level of consciousness attacks. Lin Yi wasn't too worried about the danger. The only thing he needed to worry about was finding a way out!

That's right, this scene had the same effect as the stone room maze on the second floor.

Walking through the ruins, it looked almost the same everywhere. The only difference was that he didn't need to open the door here-it wasn't like the second floor, where he couldn't even count the number of metal doors he had opened!

The Golden-robed man appeared in front of Lin Yi.

When he reappeared, his entire body was shimmering with golden light, and he looked extremely majestic and impressive.

Lin Yi stopped and raised his head, his face full of disdain."Another person from the sky array sect? What a troublesome sect, why are they like dogskin plaster that can't be shaken off once they've touched it?"

"Impudent! I am the sect master of the sky array sect. Why don't you kneel down and talk to me? Are you not afraid of death?"

The Golden-robed man glared at Lin Yi coldly. "Forget it, you're just a village man, I don't need to lower myself to your level!"

"answer my question honestly. did you kill long taonan? what despicable means did you use to plot against long taonan?"

Chapter 8614 The End

"Don't think that you can lie and hide the truth. I'm giving you a chance. Don't make a mistake. This may be your only chance of survival!"

Of course, the Golden-robed man wouldn't let Lin Yi go.

In that case, he was completely from the same line as long taonan, and they were both so despicable, shameless, and hypocritical!

"Your sky array sect's mouth is not bad! I'm too lazy to argue with you. Since we're going to fight in the end, let's do it now!"

Lin Yi did as he said. He took out the demonic sword, turned into a black light, and charged at the Golden-robed man!

"You still have a few moves left!"

The middle-aged man in the Golden robe snorted and threw out a small shield.

The small shield grew in the wind and instantly turned into a thick and heavy shield, blocking in front of him!

A magic treasure?

Lin Yi frowned, feeling that something wasn't right.

The demonic devouring sword hit the big shield, but it moved away as soon as it touched it, making a slight muffled sound.

When Lin Yi's figure drifted to the side, he suddenly realized what was wrong!

The small shield thrown by the Golden-robed middle-aged man might be a magic treasure, but its true form was not the big shield that they had seen!

This was the shield itself, combined with the tenth layer's illusionary formation, to mislead and confuse Lin Yi's senses!

After all, this was a level 10 formation that could attack with spirit sense. Lin Yi was immune to the damage, but he would still be affected before he could break the formation!

"Hahaha! Weren't they going to make a move? Come on! I don't mind playing with you for a while! How about I let you have three moves first? Let's see if you can get close to me!"

The Golden-robed man laughed gleefully as he pointed his right index finger at Lin Yi!

"Come over here!"

The shield was floating beside the man, ready to face Lin Yi at any time without any flaws!

"You're so polite, aren't you?" Lin Yi smiled. Then I won't be polite!"

As soon as he finished speaking, the sword was drawn!

He used his butterfly micro-steps, and without exposing his sorcerer spirit body, his speed was extremely fast!

Lin Yi turned into a shadow and appeared beside the man in a second.

The black light bloomed and slashed down at the other party's neck!

The Golden-robed man put his hands behind his back and raised his head casually, completely ignoring Lin Yi's sword light. He even had a faint smile on his face.

"That was the first move. Now, it's the second move!"

At the same time, the shield teleported under Lin Yi's demonic sword and blocked the fatal attack!

"Dang!"

This time, the noise was louder, and Lin Yi used the force to move and appeared on the other side!

Lin Yi's speed was as fast as lightning. Ordinary sea split cultivators could only wait for death if they encountered him. They had no time to react.

But the Golden-robed man's shield was still following Lin Yi like a shadow, blocking the demonic sword just in time.

"Three moves, it's my turn to attack! Do you want to consider surrendering again? It's such a pity to die like this!"

The Golden-robed man was like a cat toying with a mouse-he wasn't in a hurry to make a move. He only looked at Lin Yi teasingly, his expression relaxed.

In fact, he was extremely shocked inside-Lin Yi's speed and attack were completely beyond his imagination!

If it weren't for the tenth level of the formation, the Golden-robed man wouldn't have been able to block Lin Yi's attack.

Especially when the formation seemed to have little effect on Lin Yi, which made him even more surprised!

No wonder long taonan died on the third level ...

This kid must not be allowed to live!

The Golden-robed man had already made up his mind. In order to kill Lin Yi in one hit, he intentionally used his words to interrupt Lin Yi and find an opportunity to attack!

Lin Yi's lips curled up as he looked at the Golden-robed man, "Don't say these boring things. You and I both know that it's meaningless. I hope your strength will not disappoint me! If you're similar to that cameo guy, you should run for your life!"

"Hahahaha, what a boastful brat. I'd like to see how capable you are! Don't just say that you're strong, you'll be a complete coward when you get serious!"

The middle-aged man in the Golden robe raised his hand and threw out a small sword the size of a palm, which automatically circled in the air.

Then, the small sword began to split into two, two into four, four into eight ...

In the blink of an eye, several thousand flying swords appeared in the air around the Golden-robed middle-aged man!

Such means, such a scene, it could be called shocking!

However, Lin Yi didn't mind.

No matter how many flying swords there were, they were not the legendary means of Immortals, but an illusion created by the formation!

The real killing move was hidden in it. If it was not checked, it was easy to be taken advantage of and killed in one blow.

However, Lin Yi's spirit sense was very strong. After getting used to the tenth level, he couldn't completely break it, but it wasn't a problem to distinguish the reality from the illusion!

"Kid, tremble! Under my million ancestral swords, you won't even have the chance to beg for mercy. You're about to experience the feeling of being riddled with thousands of holes!"

The middle-aged man in the Golden robe laughed wildly and waved his arm forward.

Thousands of flying swords were like a school of fish in the water, flying towards Lin Yi's position!

Lin Yi snorted, his eyes mocking, "Myriad returning swords? You think you're worthy of being called the myriad returning swords? Do you really think that you're invincible with just a little trick formed by a smokescreen and an illusory formation? Let me show you what the true return of ten thousand swords is!"

The Sorcerer spirit body combined with the butterfly steps made Lin Yi's movements extremely graceful. Lin Yi shuttled through the thousands of flying swords with ease. If the flying swords were flowers instead, it would be very suitable for passing through thousands of flowers without a single leaf touching him!

In a short amount of time, Lin Yi wasn't just testing the waters with the Golden-robed man. He split his attention and finished analyzing the tenth level of the formation.

Lin Yi didn't mind teaching the Golden-robed man a lesson if he wanted to use illusions to get the upper hand!

In the gaps between Lin Yi's dodging, a few array flags passed through the flying swords and silently entered the ruins!

A natural formation was formed naturally, but it was not impossible to change it.

When a person's array Dao attainments surpassed the level of the natural array, other than breaking the array, he would definitely have the ability to change the natural array!

Lin Yi and the damn thing were such existences!

"You're saying it with your mouth, but you're really returning to your roots with ten thousand swords. What can you do other than running around like a stray dog? What about the true myriad returning swords? Could it be that you want me to turn around and deal with myself?"

The Golden-robed man was starting to get nervous-he was worried that Lin Yi had some sort of hidden card up his sleeve.

But seeing that Lin Yi was just dodging and not fighting back at all, he relaxed and was in the mood to show off!

"Hehe ... You don't have to do it yourself, I will help you turn the sword! Since you're so eager, I'll fulfill your wish!"

Lin Yi said as he flew into the sky, temporarily breaking away from all the flying swords.

Chapter 8615

Then, he hovered in the air and raised the demonic devour sword high above his head. "Take a good look, Xuanji, the return of the thousand swords!"

The demonic devouring sword's Black light suddenly bloomed, like a small black Sun. It was clearly as black as ink, but there was a light that burned people's eyes!

The group of flying swords suddenly stopped for a moment, and then rushed up with an even crazier speed, but their target was no longer Lin Yi, but the demonic devour sword above Lin Yi's head!

One after another, the flying swords collided with the demon devouring sword, but they didn't make any sound. The flying swords that came into contact with the demon devouring sword seemed to merge into the black light as if they were nothingness. With each sword that came into contact with the black light, the demon devouring sword's Black light grew stronger.

In the blink of an eye, the tens of thousands of flying swords had all become a part of the demonic devouring sword!

The demonic blade above Lin Yi's head had already turned into a blade that was hundreds of meters long!

Lin Yi was like an ant holding a giant tree-it was a bit funny!

However, the Golden-robed middle-aged man could not laugh at all.

He looked at this scene with a dumbfounded expression, unable to come back to his senses for a moment.

Return of ten thousand swords!

It really was the return of ten thousand swords!

It was wrong!

Was this an illusion? It must be an illusion!

The Golden-robed middle-aged man consoled himself in his heart. However, he immediately thought of something, and his expression became even uglier.

This was the natural array of the forbidden area. He had the secret technique of the heaven array sect, so how could he have an illusion?

If it was really an illusion, it could only mean that this natural array was already under the control of that kid!

could there be such an unbelievable thing?

that was impossible!

the golden-robed man would rather believe that lin yi really knew the technique ...

before he could sort out his thoughts, lin yi's hands had already come down!

the huge demonic devouring sword, which was several thousand feet tall, was like a black thunderbolt that descended from the sky. it tore through the space and let out a terrifying sonic boom as it slashed toward the golden-robed middle-aged man!

the middle-aged man in the golden robe was scared out of his wits. even if he thought that this was an illusion, he did not dare to take this destructive sword head-on.

with a thought, the golden-robed middle-aged man directed the big shield beside him to meet the attack.

the shield continued to expand, but it was only a few hundred feet tall. in the face of the black sword that was more than ten times larger, it looked like a child's toy and collapsed with a touch!

it didn't even cause the slightest obstruction to the black greatsword!

Was it an illusion? It wasn't an illusion?

The Golden-robed man's heart turned cold. He still couldn't confirm whether what he saw was real or not.

However, he knew that the small shield he used for defense and the small sword he used for attack had lost contact. It didn't matter if it was an illusion!

The most important thing now was to stay alive!

Where there is life, there is hope!

The Golden-robed middle-aged man decisively admitted defeat in the face of the huge black sword that continued to slash down.

At this moment, he used all his strength to Dodge and escape. At the same time, he threw out the magic weapons on him, hoping to slow down the speed of the falling Sword for a while.

However, if he wanted to leave this natural formation, he would need to activate the transfer talisman for a short time.

Normally, there would be no problem. But now, even if it was only for a short period of time, the Golden-robed middle-aged man would have died several times!

Lin Yi was still floating in the air, and the black sword didn't slow down at all.

When the talismans thrown out by the Golden-robed middle-aged man met the huge black sword, they were like eggs thrown at a high-speed earth carriage, shattering one after another.

Actually, the Golden-robed middle-aged man had not guessed wrong. This was really just an illusion!

Lin Yi used the formation flags to change some of the natural formation's operating rules, and the sky formation sect's Secret technique immediately lost its effect.

The Golden-robed man's advantage was gone, and he fell into Lin Yi's illusion!

Of course, the black greatsword was an illusion, but the demonic devouring sword that killed people was real!

Coupled with the killing array in the array, if the Golden-robed middle-aged man did not react, he would definitely be killed by the sword!

On the surface, the magic weapons that the Golden-robed middle-aged man threw out didn't seem to affect the falling of the giant sword at all, but in fact, it was better than nothing ...

Lin Yi had to split his attention to block the treasures and send them into the Jade space!

The middle-aged man in the Golden robe did not know the truth. Of course, even if he knew, he could not do anything about it.

Right now, he only wanted to activate the transfer talisman and leave this damn place. He had almost succeeded with great difficulty, but a sharp killing intent had already completely enveloped him!

Would the teleportation talisman send him out first, or would the killing intent kill him first?

The teleportation talisman had already started to activate. At most, it would take about a tenth of a second to take him out of the array!

Would he make it in time?

Maybe he could make it, maybe he couldn't ...

Countless thoughts flashed through the Golden-robed middle-aged man's mind. He did not want to die, so he did not dare to take the risk!

The stakes were his own life, and he could not afford to lose it no matter what!

The Golden-robed middle-aged man made a decision in an instant. His body suddenly trembled, and more than half of the blood in his body instantly left his body, forming a blood-red human figure that was exactly the same as his body in front of him!

Blood puppet technique!

This was a forbidden technique that he had obtained by chance. The price he had to pay was huge. He had to use most of his blood to form a blood puppet that could only last for three seconds.

While the blood puppet was still alive, it was in an invincible state and had the attribute of being indestructible.

What was even more overpowered was that it could ignore all rules and absorb all attacks directed at the main body. At the same time, it gave the main body a three-second state of nothingness, which also made the main body immune to all physical damage.

It was an absolute life-saving skill at a critical moment!

But the price was so great that it was obvious.

First of all, it was more than half of his blood. If an ordinary person lost that much blood, they would have died long ago. What was the use of invincibility?

After that, there would be a period of weakness, as well as a permanent decline in strength, etc., Which was enough to crush the fragile heart of a person!

The Golden-robed middle-aged man had not only lost more than half of his blood, but his heart was also bleeding!

However, compared to his life, this price was worth it!

"Eh, this is an interesting move! However, even if you don't use this move, it seems like you can still use the transfer talisman to escape. Did you deliberately show it to me?"

Lin Yi had somehow reached the man's side, and the blood puppet was still absorbing the black sword's energy.

The Golden-robed middle-aged man almost vomited blood upon hearing this. Did this mean that he was using the blood puppet for free? Why didn't you say so earlier?

What was even more infuriating was that his main body's three seconds of void-ification had lasted longer than the activation time of the teleportation talisman. However, because of the void-ification, the teleportation talisman had lost its target and could not bring him away!

The Golden-robed man didn't have Lin Yi's ability to turn his essence spirit into a physical essence spirit.

The Golden-robed middle-aged man was speechless at the fact that he had used a forbidden life-saving technique like this!

Chapter 8616

Lin Yi reached out his hand and took the storage bag off the man's body. The man's body turned invisible, but the storage bag wasn't there. It fell into Lin Yi's hand.

The middle-aged man in the Golden robe almost spat out a mouthful of blood. He didn't have much blood left in his body, so he couldn't afford to spit it out!

"Take it as your parting gift! I'll look for you later!"

Lin Yi smiled and waved at the man.

After all, the teleportation talisman had already been activated. Once the Golden-robed middle-aged man's void-ification process was over, the teleportation talisman would immediately teleport him away once it found the target.

Lin Yi didn't know much about the principles behind the formation, so he couldn't stop it.

Therefore, before letting the Golden-robed middle-aged man go, he grabbed the storage bag and got some benefits.

In any case, the monk can run but the temple can 't. After exploring this Valley, I'll go back to the sky array sect to settle the score with him!

The Golden-robed man's eyes were filled with hatred as he glared at Lin Yi.

However, even after he was successfully teleported away, he did not say anything.

He was afraid that he would vomit blood the moment he opened his mouth!

Lin Yi watched calmly as the Golden-robed man teleported away. He then opened his storage bag to take a look-it was quite a harvest!

The first was the gold certificates. There was no need to count them carefully. There were at least one billion or more!

Most likely, a large portion of the entrance fee this time had been pocketed by this guy.

Zhang Yiming had spent thirty million to get the three of them into the source of formation Dao, and Lin Yi had earned a billion in one go.

This business was worth it!

Other than the gold certificates, there were a few other things that Lin Yi didn't need, but they could probably be sold for a lot of money.

Including the treasures he'd thrown out and put into the Jade space, the total value might've exceeded the value of the gold certificates.

Unfortunately, Lin Yi didn't care whether it was the gold notes or the treasures.

After all, Lin Yi didn't lack money, and those treasures were useless to him.

The only thing he could use was an exquisite set of formation flags.

The sky array sect's higher-ups must have the best array flags, much stronger than the ones Lin Yi usually used!

This could be considered an unexpected gain.

After putting away the loot, Lin Yi easily broke through the tenth level and entered the next level.

The natural formations in the valley weren't endless, and there were only twelve layers.

With no one interfering, the difficulty of the last two levels doubled again, but it didn't stop Lin Yi. He quickly broke out of the formation and came to the depths of the valley!

Looking from the outside, the valley could be said to have beautiful mountains, clear waters, and green trees.

However, when he reached the depths, he realized that those were just appearances!

After breaking through the twelfth formation, Lin Yi realized that there was only a bare rock wall in front of him, and a dark cave entrance at the bottom.

It was precisely because the mountain rock wall was too bare that the entrance to the cave was very eye-catching and abrupt.

Lin Yi's first reaction was to wonder if this was the thirteenth level of the formation.

However, after careful inspection, he confirmed that this was not the case.

The cave was a real thing, so he strode in.

After entering the cave, the ceiling was illuminated by a soft Night Pearl, which looked completely different from the outside.

When he stood at the entrance of the cave, he couldn't even see his fingers in front of him. He was only one step away from the luminous pearl.

And it wasn't just one, there was one every three steps!

Under the illumination of the night pearls, he could see some words and totems carved on the walls of the tunnel.

Lin Yi paid attention to it, but didn't understand what it meant.

Even with Lin Yi's vast collection of books, he had no clue at all. The words and totems on the walls were either long-lost ancient records or left behind by outsiders from the sub Island.

As they went deeper, complicated patterns began to appear on the ground. They could vaguely feel the faint flow of elemental Qi, and the deeper they went, the clearer and thicker it became.

Lin Yi knew that he couldn't be wrong.

The truth of the mummified corpse incident and the main body of the mobile formation were most likely in the deepest part of the cave.

It was just that his spiritual sense was blocked by an invisible force, so he couldn't see what was going on for the time being!

No matter how long the tunnel was, it would end eventually, so Lin Yi wasn't disturbed at all as he strolled to the end.

At the end was a broken cliff!

It was dark red lava several hundred feet below.

Even at such a height, he could feel the astonishing heat rising!

The complex patterns in the passage extended out and wriggled slowly in the void as if they were alive. The Qi of attributes contained in them became clearer and thicker, giving off an extremely strange feeling.

What was even stranger was that these patterns were connected to the top of a towering stone pillar in the center of the lava. The stone pillar was about fifteen to sixteen feet higher than the entrance of the cave, and the distance between them was also about fifteen to sixteen feet.

Lin Yi's spirit sense couldn't reach over, and he couldn't see what was up there.

Even so, Lin Yi could clearly feel the extremely dense elemental Qi on the stone pillar!

The top of the cave was in the shape of a circular arc, like an upside-down bowl. There were also dense black patterns on the top. The top of the stone pillar was like the center of the vortex, invisibly pulling the black patterns on the top.

He couldn't see it clearly with his naked eyes, but he had this feeling!

The truth of everything was at the top of the stone pillar!

Lin Yi sized it up for a bit before flying to the top of the pillar without hesitation.

After going up, he realized that the top was a platform with an area of more than 400 square meters!

There was a rock protruding from the middle of the platform, and it was carved with countless mysterious and complicated patterns. From the shape, it looked like an altar.

Lin Yi was sure that this pattern was a type of formation pattern, but neither he nor the thing had ever heard of it before!

Sure enough, there were still many things that were unknown in the field of formations. The current level of the two was far from being unparalleled in the world!

The stone altar that was engraved with formation patterns was not the main point. The main point was that on the stone altar, there was an ancient-looking black stone coffin that was also engraved with formation patterns!

The lines that extended from the cave wriggled in the air and finally connected to the black stone coffin.

The black patterns at the top also formed an invisible vortex with the stone coffin as the center.

The main body of the vortex was the purest elemental Qi!

That's right, the top of the stone coffin was filled with a huge amount of pure elemental Qi-even Lin Yi couldn't help but change his expression at such a close distance.

If he was not wrong, the elemental Qi came from the array Masters and Squires who had turned into mummies!

This was because there was a faint Dao rhythm of an array in the elemental Qi. This would not change the elemental Qi, but it could make the black array patterns extremely active!

Chapter 8617

Lin Yi finally understood why they let so many people in this time.

The sky array sect's accumulation of wealth was most likely done in passing. More importantly, it was to collect a huge amount of elemental Qi!

The elemental Qi of an ordinary warrior could not meet the needs of the black stone coffin. Only the elemental Qi of an array master with a trace of array Dao could activate the black lines.

However, there weren't many grandmasters, and their strength was limited. Thus, the retinue of ordinary cultivators was allowed in as an ordinary number.

Their elemental Qi could be used to make up for the lack of quantity.

If their elemental Qi was water, then the elemental Qi of an array master was high concentration alcohol. After mixing with water, it would still be alcohol, but the concentration would be reduced, but it would not affect its use.

"This thing feels very dangerous, but such a huge ownerless Qi is an opportunity that can only be encountered by luck. What are you waiting for? Quickly absorb it and leave this place!"

The damn thing couldn't help but remind Lin Yi.

The stone coffin made the ghostly thing feel a little uneasy, but it could not ignore the huge elemental Qi.

If Lin Yi could absorb all of this Qi, his strength would increase beyond imagination.

Lin Yi had always disdained to absorb other people's strength to improve himself. The energy he got from that was impure, and his upper limit would be lowered in the future. There were also other hidden dangers.

If it wasn't for that, Lin Yi would've been able to use the hand to capture spirits and devour them to strengthen his essence spirit. His essence spirit would've broken through the sky long ago!

However, the elemental Qi in front of him was completely ownerless-it was no different from the elemental Qi in the air. It might even be purer and stronger, and there would be no side effects from absorbing it. That was why the damn thing couldn't help but remind Lin Yi.

"Understood!"

Lin Yi didn't stand on ceremony and immediately released his body from the Jade space. His Wu spirit body quickly returned and he started absorbing the elemental Qi from the stone coffin!

This should be considered a dog-eat-dog situation, right?

But Lin Yi didn't feel any burden at all-getting the Qi back should make the people who died a wrongful death happy. They wouldn't like their element Qi being used by their enemies.

Lin Yi didn't have the heart to know what was in the coffin and what would happen inside.

After all, snatching the elemental Qi was also destroying the plan of the black stone coffin!

Lin Yi was more than happy to do this kind of thing-he just needed to suck it!

Lin Yi's reconstructed body was extremely talented, and he was surrounded by the purest elemental Qi. He was like a whale sucking in water, sucking in a large area!

The inside of the stone coffin seemed to feel that something was wrong. A faint roar came from inside, and the lid of the coffin began to shake. It was almost impossible to suppress it.

Lin Yi didn't say anything and sat cross-legged on top of the coffin, pressing the lid back down.

The thing inside was probably at a critical moment and couldn't get away-it settled down a little after Lin Yi held it down, but the speed at which it absorbed the elemental Qi was clearly two times faster.

No matter if it was inside or outside the coffin, they were serious about snatching elemental Qi!

Lin Yi felt the danger as well, and even the Jade space had a warning signal, but it wasn't urgent.

It was probably because the thing inside the stone coffin was threatening, but it wouldn't come out for the time being.

Since that was the case, Lin Yi had to make full use of his time and crazily plunder the elemental Qi.

A huge amount of elemental Qi gushed into Lin Yi's body like a tidal wave, washing and refining his already strong body.

He didn't know if it was because of the array Dao in the Qi, or if it was processed by the black sarcophagus, but Lin Yi was able to absorb it smoothly.

His body was like a huge sponge, absorbing all the water without leaving any residue.

At this moment, his body refinement level shot up like a rocket, and he couldn't stop it!

Lin Yi's body was making cracking sounds as the aura around him grew stronger and stronger.

The Great Perfection of the sea-splitting realm!

Only a small portion of the huge amount of elemental Qi above the coffin was consumed, and Lin Yi's body was already at the peak of the sea-splitting realm, entering the half-step sky-breaking realm!

He was about to break through the shackles and start advancing!

Lin Yi was shocked, feeling like his body was about to explode.

This breakthrough came too quickly, and he almost couldn't react in time.

After barely suppressing it, Lin Yi quickly took out the Black Star Crystal and started refining it. With the huge amount of elemental Qi, the shackles of the heaven breaking stage were on the verge of collapsing.

At that moment, Lin Yi felt as if his body was free from all the restraints, and he flew up easily and happily, soaring all the way up to ninety thousand miles. Looking down, the mountains and rivers were like ants!

When the wind and clouds met, he soared to the sky in one go!

Just as he was enjoying himself, he suddenly felt a sense of grievance and resentment. He looked down at the sky, the heavens were too low!

The sky should not have an end, and the sky should not be a cage!

If the world is a cage, I will break it!

Lin Yi's chest was filled with pride, and he seemed to have turned into a giant in an instant, punching towards the sky like fate!

BOOM!

The sky was filled with thousands of Thunderbolts, and countless cracks appeared.

The empty sky began to shatter, and every fragment turned into twinkling Starlight!

The giant, Lin Yi, grew a lot bigger without the restraints.

At this moment, there was no limit to the sky, and what entered his sight was an endless sea of stars!

The illusion ended here, and Lin Yi's consciousness returned to normal. The huge power in his body was far beyond what it was before, and the slight bit of power that escaped from him seemed to have the power to destroy the world!

Early heaven breaking realm!

The perfect heaven-breaking stage!

There was still a lot of elemental Qi outside, and if Lin Yi wanted to level it up, he could continue.

But just because his body could withstand it didn't mean he could control it!

Lin Yi was already starting to find it difficult to control the early heaven-breaking energy. It'd only bring him harm if he increased it before he familiarized himself with it!

Especially since there was unknown danger under his butt. Looking at the increasingly intense movement inside, the coffin lid was probably going to break!

Blindly increasing his strength and not being able to control it in the end was simply playing with his own life!

Lin Yi wasn't stupid-he knew that he was at his limit, and he had to remember that going too far was as bad as not going too far!

At this point, Lin Yi's new body had far surpassed his original body's strength, and it had also surpassed the level of his spirit!

The harvest was incomparably huge!

The original intention of coming to the source of array Dao was to increase his array Dao strength. He did not expect that his array Dao strength was nothing, but his body cultivation strength had soared to the sky!

There was really no way to talk about this!

After sighing a little, Lin Yi immediately opened the Jade space and started putting the rest of the Qi into it.

Chapter 8618

What a joke, he couldn't absorb it now, but he couldn't keep it to help the enemy!

It's a good habit to take away if you can't finish it!

As for whether or not the elemental Qi would be retained after entering the Jade space, Lin Yi didn't care. He just needed to hurt others, and it didn't matter if it benefited him or not!

If it could be stored in the Jade space, it could be used slowly in the future, but it didn't matter if it couldn't be stored. It was better to rot in one's own land than to fall into the enemy's mouth!

The black stone coffin finally couldn't take it anymore and began to make a violent cracking sound!

Lin Yi guessed that the unknown thing inside was roaring, "It's fine if you're fighting to eat at the table, at least we can eat together, but you're too much to flip the table when you're full!"

Then, he really heard a low and angry roar coming from the coffin, "Little B * stard! You dare to ruin my big plan! Not only did he snatch the attribute Qi just now, he even dared to take all of it away! You've ruined my good fortune, watch how I'll deal with you!"

The coffin couldn't be pressed down anymore-even with Lin Yi's early heaven breaking strength, he couldn't withstand the force from below.

The Jade space's warning signal was getting stronger, and Lin Yi didn't dare to fight back anymore. He quickly flew out of the black stone coffin.

The moment he left, the coffin lid exploded and a black shadow flew out of the coffin!

Lin Yi landed at the edge of the platform, and with the demonic blade in his hand, he sent out Two Spirit senses.

In the end, like a clay ox entering the sea, it disappeared without a trace without a single splash!

Only then did Lin Yi see that it was a black skeleton that came out of the black coffin!

The size of the skeleton was relatively large. It was not human-shaped but a type of beast. It was about the size of three or four adult men.

The black skeleton was as smooth as Jade, emitting a Deep crystal-like light, which was somewhat similar to the demonic devour sword.

There seemed to be some cuticles on the bones of its head, and it was not a pure skeleton. In the position of its eyes, there were two balls of dark green fire, temporarily replacing them.

Lin Yi's heart skipped a beat-was this thing using elemental energy to revive itself?

Then, he had interrupted the progress of its rebirth, and there was indeed an irreconcilable hatred between them!

In comparison, the deep hatred of killing his father and taking his wife seemed to be slightly inferior!

Looking at the cuticles on its forehead, it should be something that had just grown. If he had not stepped in, it might have been able to regain its life very quickly.

"Damn you, little B * stard! Do you think that just because you know some basic spiritual sense attack skills, you can run amuck and steal my elemental Qi? I'm telling you, you're finished! Today, I'm going to beat the sh * t out of you!"

The black skeleton growled in a low and hoarse voice. It was unknown how it could make such a sound without flesh and blood.

Lin Yi was shocked, knowing that the spirit attack was completely useless. The black skeleton didn't have a sea of consciousness at all, and he didn't know where the spirit was attached to.

There was only one skeleton that completely ignored the divine sense attack!

Lin Yi's strongest move before was completely destroyed before the battle even started. Now, all that was left was a physical fight to see who was stronger!

"What do you mean by your elemental Qi? You clearly snatched it and even killed many people for it. I'm just snatching it back!"

Lin Yi retorted casually. He used butterfly steps and floated around the black skeleton, looking for an opportunity to attack.

The black skeleton's body creaked, but its movements were as fast as lightning.

No matter how Lin Yi moved, he could always appear beside Lin Yi in time and attack from all kinds of tricky angles.

Lin Yi's heart shivered as he continued to attack with the demonic blade, but it was useless.

All kinds of sword moves landed on the black skeleton, but they only made a series of clanking sounds and did not even leave a mark!

"Just this little bit of ability? I can't believe my good fortune was ruined by a bug like you! I'm so angry! I must kill you today!"

The black skeleton was very angry, and its strength was about the middle stage of heaven breaking. It was invulnerable and immune to divine sense attacks!

This time, Lin Yi was completely suppressed-he couldn't even get angry!

In the blink of an eye, the two had exchanged dozens of blows. Lin Yi was at a complete disadvantage, and he was forced to go on the defensive.

It had been a long time since he had been in such a passive situation!

Not only that, but the black skeleton also had some skills. For example, it could attract the lava from below with its roar, forming a dark red fire Dragon to attack Lin Yi from behind.

If Lin Yi didn't have the Jade space to alert him, he'd probably be flustered if he only used his suppressed spirit sense to probe.

Lin Yi was already at a disadvantage, and it'd be even worse if his rhythm was disrupted-he might even be killed by the black skeleton.

This was not the worst. What was even more terrifying was the black lines that extended from the cave. From time to time, some elemental Qi would also be transmitted in.

The black skeleton was most likely prepared for this-when the elemental Qi was sent in, Lin Yi didn't even have time to react before the black skeleton devoured half of it.

After repeating this for two to three times, its aura actually soared again!

Peak of the middle heaven crushing stage!

Late-stage heaven breaking realm!

Peak of the late heaven crushing stage!

he was about to reach the great circle of heaven-sundering.

the pressure on lin yi was getting heavier and heavier. if it wasn't for the fact that the black skeleton was busy devouring the elemental qi to increase its strength, lin yi probably wouldn't be able to hold on anymore!

no, i have to change!

lin yi knew that although his strength had increased by a huge margin, there was still an insurmountable gap between him and the black skeleton in front of him!

once the black skeleton's level stabilized, he might not even be able to take one hit!

the only thing he could do now was ... escape?

lin yi's body flickered and he suddenly changed direction. the demonic sword exploded with its strongest light and slashed at the black pattern that was extending in the air!

this thing could continuously transmit elemental qi, and it had unknown connection with the black skeleton. since it could not move the black skeleton, it could only deal with the black patterns!

lin yi wasn't stupid enough to just run away-that was suicide!

Only by attacking the enemy's critical point could he create a chance to escape!

Sure enough, when the demonic devouring sword slashed down on the black patterns, the wriggling black patterns suddenly began to twist and writhe, letting out a sharp screeching sound.

The black skeleton immediately rushed over to block the sword and counterattacked, forcing Lin Yi to retreat!

Lin Yi gritted his teeth, but he didn't retreat. He took the hit with all his might!

He then used the momentum to increase his speed, bypassing the black skeleton's interception, and slashed down with the demonic devouring sword.

Chapter 8619

Another wave of elemental Qi came from the other end of the cave, and the black lines started to writhe as the load increased. They still couldn't Dodge Lin Yi's demonic sword.

With a huge tremor, the black patterns that extended from the cave broke apart inch by inch, and the elemental Qi within them exploded.

This time, the black skeleton did not manage to absorb it.

Lin Yi opened his mouth and spat out a mouthful of blood, mixed with some small pieces of meat.

Lin Yi paid a heavy price to block this attack. He took a heavy blow from the black skeleton at the peak of late-stage heaven breaking, and suffered quite a lot of internal injuries.

The only thing worth rejoicing about was that the black lines were cut off!

At the very least, he had cut off the possibility of the black skeleton continuing to improve!

"Dammit! Damn it! You damn little B * stard! I'll cut you into a thousand pieces, skin you alive, and chop you into pieces! Everyone related to you must die! I'm going to kill all of you despicable humans! I'll exterminate you all!"

The black skeleton had gone mad.

It seemed that Lin Yi's sword really did pierce into its heart, and the loss was obviously above Lin Yi's internal injury!

The elemental Qi that exploded wasn't restrained and was dissipating. The black skeleton cursed Lin Yi but didn't want to waste the elemental Qi.

Taking advantage of the fact that the attribute Qi had not dissipated, it desperately absorbed it, and the aura on its body broke through the obstacles and advanced again.

The great circle of heaven crushing!

"Now! Escape! Otherwise, you won't have the chance!"

Just as Lin Yi was hesitating, the ghostly thing suddenly spoke.

"You're not its match," he said anxiously. "Even if you can use your true Qi, you won't be able to defeat it. Run!"

Lin Yi had been planning to run away from the start-he'd created the chance to distract the black skeleton so he could get away.

Now that the ghostly thing had solemnly reminded him, what was there to hesitate about?

Lin Yi had wanted to use the Jade space to collect some of the scattered elemental Qi, but he gave up on that idea completely.

If this continued, the black skeleton would definitely go all out on Lin Yi!

Stuffing a Mystic class recover pill into his mouth, Lin Yi suppressed his boiling blood and injuries. He used all his strength and flew from the stone pillar platform to the entrance of the cave!

The distance of 150 to 160 feet was a scene of life and death!

The black skeleton panicked when it realized that Lin Yi was about to run. It couldn't care about the remaining elemental Qi anymore. After all, it was already at the peak of heaven-Sundering, and it didn't have enough to continue breaking through!

The black skeleton turned into Black Lightning and chased after Lin Yi!

In an instant, the distance between the skeleton and Lin Yi was shortened to the maximum, and the sharp claws were almost touching Lin Yi's clothes.

Lin Yi didn't panic in the face of danger. With a thought, he separated his body from the body and put it into the Jade space!

At this point of life and death, Lin Yi didn't care if he would expose the Jade space anymore. It wasn't easy for him to level up his body to the early stage of heaven breaking-where would he find another body this strong if it was destroyed by the black skeleton?

The black skeleton's claws grazed Lin Yi's Witcher spirit body, but it didn't cause any damage.

Pure physical attacks were ineffective against the Sorcerer spirit body!

The black skeleton didn't expect Lin Yi to be in this state either-it was stunned for a moment when its claws missed.

At the same time, the black skeleton was filled with anger and regret!

If it had known that Lin Yi had a sorcerer spirit body, it would have used an attack that targeted the body directly!

But in that short instant, Lin Yi's Shaman Spirit body sped up again, quickly widening the distance between him and the black skeleton, and entered the cave in a flash!

"No! You little B * stard, come back here! I'm going to kill you!"

The black skeleton let out a furious roar, and the lava at the bottom of the valley boiled and splashed up. However, it was too late!

Lin Yi had already entered the cave and was flying away.

as he ran, he didn't forget to destroy the totem patterns on the ground and walls ... wait a minute.

when the black skeleton reached the entrance of the cave, it was blocked by an invisible force and could not move an inch.

the black patterns on the dome suddenly turned into countless chains and shot down, wrapping around its skeleton and pulling it back to the top of the stone pillar.

then, it was placed back into the black stone coffin!

the lid of the coffin, which had already been broken, closed up again and fell down with a loud bang. it grabbed the black stone coffin tightly, leaving only the black skeleton struggling in vain!

"No, no, no! Damn bastard! That damned little bastard! Don't make me go out! Don't let me see you again! I'm going to kill you ..."

The unwilling roars spread into the cave and gradually became inaudible!

Lin Yi ran out of the cave in fear, begging for help.

After coming out, Lin Yi even collapsed the entrance of the cave and set up the strongest formation he could with the damn thing. Only then did he let out a breath of relief.

"Senior ghost, do you know what that black skeleton is?"

After relaxing, Lin Yi's Witcher spirit body returned to his body, and he asked the thing as he healed himself.

He didn't have time to think when the thing told Lin Yi to escape, but now that he thought about it, it didn't seem right.

From the tone of the ghastly thing, it seemed to be very afraid of the black skeleton.

As expected, the ghastly thing was silent for a moment, then sighed softly. "I can more or less confirm what that black skeleton is ..."

"If I'm not wrong, it should be one of the Guardians of the ancient spirit beast clan. You can think about the big Frog in the illusion fog space. At that time, they were basically at the same level."

Lin Yi was shocked. The frog's strength was unfathomable. Even though it was sealed in the illusion fog space by the void chains, Lin Yi couldn't guess its strength.

Lin Yi wasn't strong enough back then, so he couldn't tell, but now that he was in the early heaven-breaking stage, he still felt a little scared when he recalled the frog's power.

The black skeleton was actually on the same level as the big Frog?

As expected, he was not a simple person!

The ghastly thing did not stop and continued,""In ancient times, it was the clan leader of the illusionary night demonic dragon clan. Because it chose to support Princess an, it abandoned the spirit beast clan and followed Princess an to a foreign land! In terms of strength, he's definitely one of the top experts even in the darkness magical beast clan!"

"I didn't expect it to still have a breath of life. It's still trying to absorb a large amount of elemental Qi to revive! It's a good thing that you accidentally destroyed its plan this time. If not for that, once it successfully resurrected, the entire sub-Island would probably fall into a bloody storm!"

"It's hard to say if there's anyone on this sub Island who can resist it. At least in this old master's opinion, it's quite uncertain! When that time comes, the darkness demon beast clan's revival ... Will be unstoppable!"

Lin Yi couldn't help but gasp.

Chapter 8620

Thinking of the terrible consequences and then thinking of this operation, he was really glad!

Fate was still on the side of the humans!

Otherwise, the darkness demon beast clan's plan would have already succeeded!

"Senior ghost, do we have a way to ... Call that ancient elder? Can you think of a way to completely destroy him?"

Hearing Lin Yi's question, the ghost sighed and shook his head, "Impossible. At least, you can't do it with your current strength! Its name ... It's too long ago, I can't remember. You can just call it the fantasy night demonic Dragon. By now, the fantasy night demonic dragon clan should be almost extinct, right?"

The fertility rate of the dragon clan was extremely low, and the fantasy night demonic dragon clan was one of the best.

In ancient times, there were only a few.

Later on, the confrontation between the two princesses led to the division of the spirit beast clan, and the fantasy night demonic dragon clan was even more desolate. The black skeleton might really be the last Fantasy night demonic Dragon.

"Oh," Lin Yi replied. The title wasn't important-what was important was how to deal with the Dragon.

"I'm not strong enough. Can't I think of other ways? If the fantasy night demonic Dragon is allowed to be revived, who can stop him?"

Divine sense was ineffective, and weapons couldn't penetrate it. Lin Yi didn't even have the confidence to face this kind of enemy, so who else could he send?

"The most important thing is that the illusionary night demonic Dragon's strength has increased or recovered too quickly. When we escaped, it should have already reached the great circle of heaven crushing! If I make another breakthrough, I'll really be invincible!"

The ghastly thing chuckled and said,"you don't have to worry about that!" There's a restriction in that cave, and the fantasy night demonic Dragon was sealed in the first place. I don't know how it did it, but it deceived the seal and collected a large amount of elemental Qi from the outside world. "

"Fortunately, you accidentally ruined its plan. Otherwise, when its strength reaches the expected level, it will be able to break the seal by force! As for now, even the great circle of heaven crushing isn't enough to free it from the seal of the restriction!"

"You've also cut off the channel through which the illusionary night demonic Dragon obtains elemental Qi from the outside world. It's almost impossible for him to repeat the same trick in a short period of time!"

Lin Yi let out a long breath of relief. The situation wasn't too bad after all!

"I understand! For the time being, I can't do anything to the fantasy night demonic Dragon, so stopping it from escaping is the best result for now!"

His injuries had already recovered rapidly under the effects of the pill. Lin Yi stood up and patted the dust off his body, a confident smile on his face.

"If that's the case, we'll have to implement a drastic plan! Although I've destroyed the passage, I can't guarantee that the fantasy night demonic Dragon doesn't have a backup passage! Only by cutting off the source of the elemental Qi can it continue to be trapped in the seal!"

What was the source of attribute Qi?

It was the array Dao grandmasters and their Squires who had paid a high price to enter the array Dao origin!

By protecting these people, the fantasy night demonic Dragon would lose its elemental energy.

As for the sky array sect, which had colluded with the darkness demon beast clan and sold out their array Masters, they would be attacked and hunted down by the entire star source continent. They would probably never be able to rise again!

Lin Yi already had a plan in mind. He flew up in his Witcher spirit body form again and started looking for the surviving grandmasters.

Although many had died, there were still many left.

After some effort, Lin Yi finally managed to gather most of the people in a similar area and returned to the grass where Shi Yucai and the others were.

"Everyone, listen up. You are all in danger. Please speed up and head to the grass by the lake. Don't waste time. I've already broken the array that you will have to pass through. You don't need to break it. Just pass through!"

Lin Yi returned to his body and shouted with his early heaven breaking strength. His voice could cover a radius of dozens of miles, and the surviving teams could hear it.

The remaining grandmasters had all sensed the abnormality in the source of formation Dao by now, and many of them were already hiding in their hiding places, shivering even before Lin Yi's shout.

They had all seen mummies before and had even seen others turn into mummies with their own eyes, so they were very afraid!

What was even more terrifying was that they couldn't get out this time!

Once they entered the formation Dao origin, they would be cut off from the outside world.

Therefore, the grandmasters were worried that they would become one of the mummies.

In this situation, Lin Yi's words were their only hope.

Hearing Lin Yi's call, they all perked up and started running, wanting to meet up with Lin Yi as soon as possible.

Not long after, the teams of formation path grandmasters who were closest to them ran over one after another.

She was overjoyed to see Lin Yi, and quickened her steps to greet him.

Before entering the source of formation Dao, they were more afraid of Lin Yi because the strength and methods he displayed along the way were beyond their expectations. He was obviously the strongest opponent.

But not long after, they found danger in the source of formation Dao, and Lin Yi's strength gave them a strong sense of security!

With such an expert coming forward to organize it, it was definitely the best choice.

If someone else stood out, they might not be convinced, and there would be internal strife.

Only Lin Yi had already established enough prestige in their hearts, so they didn't object to Lin Yi's words. In fact, they were more than happy to hear it.

Very quickly, almost all of the surviving grandmasters had arrived. There were even a few grandmasters from the Sangzi continent, but they were obviously not with Jia Junjie. They had previously acted separately.

The last to arrive was actually the grandmasters from Fengqi Dazhou. They were also lucky enough to survive here.

They'd intentionally cut themselves off from Lin Yi before, even pushing hero Pi out of the group. Now that they had to come back for Lin Yi's protection, they were in an awkward position and could only hide in a corner and keep a low profile.

Lin Yi didn't care about them and jumped onto a big rock, clapping his hands at the people below.

"Everyone, please be quiet and listen to me! I'm sure everyone has made some discoveries. The situation in the source of formation Dao is a little complicated, and there are great dangers hidden within!"

"A Supreme expert of the darkness demon beast clan is sealed somewhere in the source of the array Dao. It needs a huge amount of pure elemental Qi to break through the seal. Most importantly, this elemental Qi must contain the unique array Dao runes of the array Dao Grandmaster!"

"So, the darkness demon beast clan secretly contacted the sky array sect and formed an alliance with them, using all of us as nutrients to break the seal! These people who died were sucked dry of their elemental Qi and turned into nutrients!"

Lin Yi's words caused an uproar among the formation Masters.

This news was too sensational!
