

## Bodyguard 8621

### Chapter 8621

After all, every Grandmaster of arrays was an extremely noble person in the outside world. Who would have thought that one day, they would become nutrients to break the seal?

Especially since this matter was actually done by the sky array sect, which was passed down by sun sikong, the array Emperor!

The darkness demon beast clan was evil to begin with, and it was natural for them to do anything bad, but the sky array sect had actually colluded with them!

It was not an exaggeration to say that all the array Masters present respected the sky array sect as a Holy Land.

In fact, they had always felt that there was a bond between the array Masters and the sky array sect.

However, they did not expect that the high and mighty sky array sect would betray them without any hesitation!

Lin Yi paused for a moment, giving the formation Masters some time to digest this shocking news.

In the midst of the buzz of discussion, someone suddenly raised his voice and asked, ""Grandmaster Sima, if that's the case, the murderer is the heaven's array sect and the darkness demon beast clan? Now that we're all gathered together, do we have the confidence to resist the two of them?"

Lin Yi looked at the person who spoke, "That's a good question. I can say for sure that the heaven's array sect and the darkness demon beast clan are the masterminds behind this whole incident, but they shouldn't have made a move directly!"

"The mummies are caused by a rare movement formation. It comes and goes without a trace, is extremely fast, and its attacks are as fast as Thunder, killing in one blow!"

"Everyone is gathered together. If we don't know what's going on, we'll most likely be caught in one fell swoop. But now that we're on guard, it'll be much more difficult to succeed!"

Lin Yi gave Shi chengcai a look, and the latter nodded, raising the formation plate above her head and activating the formation.

Everyone was shocked!

They had observed the place before they arrived and did not find any traces of a formation, which was why they had come over boldly.

After all, they were afraid that Lin Yi was trying to trick them into coming here!

It wasn't until Shi wucui revealed the formation that they realized they had always been in an extremely powerful formation.

Immediately, the grandmasters' faces turned red. They didn't even have the ability to detect it, let alone break it and resist!

It wasn't surprising-even Zhen Yingxian could easily capture Shi Yucai, a diamond-grade Grandmaster, with this formation plate. After Lin Yi's modifications, it was naturally more than ten times stronger than it was in Zhen Yingxian's hands!

It wasn't that Lin Yi was looking down on anyone, but all the formation Masters here were nothing in front of this formation plate!

"Grandmaster Sima, what are you doing? Could it be that they want to kill us all?"

Someone was so nervous that he directly blurted out the worry in his heart.

However, the moment he opened his mouth, he regretted it.

Fortunately, there were people who understood the situation and immediately looked at the person who spoke with disdain.

"Idiot, if Grandmaster Sima wanted to deal with us, he would have done so already. Do you think you can resist when we are completely unprepared?"

"It is! Grandmaster Sima's display of his array was to let us know his strength and trump cards. An idiot like you would actually doubt Grandmaster Sima, this is simply too laughable!"

They were a little nervous when they said that, but they hoped that their words would move Lin Yi so that he wouldn't want to kill them.

After all, if he wanted to foil the darkness demon beast clan and the sky array sect's plot, other than protecting them, killing them would be much easier and more pleasant!

Now that he was dead, the darkness demon beast clan and the heaven array sect had no way of collecting elemental Qi.

The world never lacked smart people, but even if there was such a possibility, they did not dare to mention it now.

The guy who suspected Lin Yi's intentions blushed, realizing what a stupid mistake he'd made.

The way he spoke-Lin Yi didn't have any thoughts at first, but now he had the idea to kill him!

"Don't worry, everyone. We're on the same boat now. This formation disk is extremely powerful. It might be able to protect us from that strange movement formation!"

Lin Yi couldn't be bothered with what they were thinking and continued explaining, "Our priority now is to protect everyone's lives. Then, we'll destroy that movement formation and completely destroy the heaven's array sect and the darkness demon beast clan's plot!"

Hearing Lin Yi's words, the people who were worried let out a breath of relief. They all cheered Lin Yi on loudly, even shouting slogans.

"In order to deal with the movement array, I suggest we develop a set of countermeasures! My idea is to form a battle formation and increase our overall strength!"

Lin Yi's skill in formations was also exceptional-there were so many grandmasters here, and their retainers all had some understanding of formations as well. There was no problem in understanding and executing a battle formation.

At that time, he could attack and retreat, and flexibly respond to unexpected situations. He would be in an invincible position!

The people didn't have any objections, naturally-they'd all agreed that Lin Yi was the temporary leader. They'd do whatever he said.

Even some grandmasters who were very confident in battle formations did not step forward to command the battle formation.

When it was Lin Yi's turn to design battle formations, these confident people started to rejoice. Compared to Lin Yi's battle formations, the ones they knew weren't worth mentioning!

Under Lin Yi's command, everyone joined in and formed a huge battle formation.

And in a large battle formation, it could be further divided into many small battle formations, they were very flexible.

Soon, everyone had a basic grasp of the battle formation. Just as they were rejoicing and their confidence was rising, the formation plate under Shi Yucai's control suddenly began to shake violently.

A series of crunching sounds that made one's teeth ache resounded continuously outside the formation!

At the edge of the array, circles of distorted ripples could be seen spreading with the naked eye.

This was a phenomenon that would only occur when the defensive layer of the formation was in a deadlock with something.

However, no one here could tell what was wrestling with the defensive layer of the formation!

"They're here! It's that moving formation! As expected, it can come and go without a trace. Even when it attacked, it didn't show itself!"

Lin Yi's face was serious as he looked at the edge. He couldn't see it, but he could feel that it was definitely a formation's power that was clashing with the formation disk!

With such a deduction, there was no doubt that it was a movement formation!

"Sima Yi! The formation plate is a little tight and won't be able to hold on much longer!"

Shi Yucai's expression changed slightly. He had originally thought that he could hold on for a little longer, but he hadn't expected that the array disc would be destroyed in just a few minutes!

This was the enhanced disk array. If it was the original disk array in Zhen Yingxian's hands, it would probably only last for ten seconds before being scrapped.

Chapter 8622

"Everyone, get ready!"

Lin Yi nodded slightly and immediately ordered the formation to get into a defensive position!

Even though the training time was too short, it was a good thing that the formation Dao level of the members in the battle formation was very high, which was enough to make up for the lack in this aspect.

Just as he was about to have Shi longcai remove the formation plate, the power of the attack outside suddenly doubled. The defensive layer of the formation couldn't withstand it and instantly shattered.

Shi shengcai's face turned pale, and she felt a slight sweetness in her throat, almost spurting blood!

The array disc shattered under this attack. As the person controlling the array disc, Shi wangcai also suffered a certain backlash.

"Change the formation! Attack with all your might!"

Lin Yi gave a new order after seeing that Shi Yucai was fine.

There was no problem with the operation of the battle formation. The benefits of a formation path Grandmaster as the backbone had already shown itself, switching between attack and defense was almost an instant thing.

An incomparably powerful force bombarded the invisible movement array, and in an instant, the space seemed to distort and shake!

"Advance!"

Lin Yi took the lead, and as the head of the formation, he went straight into the movement formation. The demonic devour sword broke through the invisible barrier, revealing a gap.

The people in the battle formation followed Lin Yi's attack, easily widening the gap and following him into the interior of the formation.

A seven-colored illusion appeared before everyone's eyes.

The originally shapeless and colorless movement array actually had array patterns and veins flashing within it. However, they were not fixed and would always be in a state of constant change.

"Keep attacking, don't stop!"

Lin Yi started to focus his attacks on the patterns, and his face changed!

Because Lin Yi could clearly feel that the movement formation was starting to extract these people's elemental Qi!

If they couldn't block it effectively, these people would be sucked dry in an instant.

However, it was a good thing that they had the support of the battle formation. They used attack as defense to deal with the lines of the formation, and the power of the mobile formation was instantly reduced by a thousand times.

"One, twenty-seven, thirty-three, attack Qian position!"

"16,29, retreat three, advance two!"

"Rank 48 and rank 62 tremor position!"

A series of commands came out of Lin Yi's mouth, without a single mistake.

The numbers in front were the smallest battle formation units, with a maximum of five people and a minimum of three people in a group.

After that was the direction. Not only was Lin Yi fighting at the front line, but he also had to give out countless clear and accurate orders every second.

Anyone else would've crumbled long ago, and only Lin Yi, who knew how to multitask, could do this.

After all, a large-scale battle formation was completely different from a small-scale battle formation. The difficulty of commanding the battle formation was multiplied.

"Break!"

Lin Yi shouted as the demonic sword stabbed into one of the rainbow formation patterns. The movement formation shook, and the force of attraction disappeared.

However, this was not the end. The situation in the movement array suddenly changed. The extraction of attribute Qi stopped, and it turned into an attack form.

Countless ice crystals appeared out of thin air, densely covering the entire space!

There were almost no gaps outside the battle formation. The ice crystal array was almost turning into an ice wall!

After the ice crystals appeared, they began to shoot, attacking the entire battle formation indiscriminately.

Lin Yi didn't panic and immediately changed the formation to a defensive form, temporarily blocking the wave of ice crystals. He then took some time to observe the changes in the movement formation.

The seven-colored array pattern was hidden in the ice crystal and was still swimming around. The part that was cut off by the demonic devouring sword seemed to be starting to reconnect.

If this continued, it would become a protracted war.

Battle formations were strong, but these formation path grandmasters were not battle generals. They could fight for a short period of time, but if they fought for a long time, it would be troublesome!

So Lin Yi had no choice but to take the risk!

"Continue to defend. Don't relax!"

Lin Yi shot out like a bolt of lightning after saying that.

The demonic devouring sword shone with a beautiful black light, enveloping Lin Yi within. Like a black ball of lightning, it broke through the ice array and rushed to the side of another rainbow pattern.

Even though he couldn't defeat the illusionary night demonic Dragon, he still had some advantage against a moving formation!

"Break!"

Another of the seven-colored array patterns was broken. The ice crystals in the sky suddenly stopped, then shattered into snow and drifted down, no longer having any offensive power.

The movement formation suddenly changed again. Before the snowflakes had even fallen, a sky full of thunder and lightning descended!

The momentum and appearance did resemble Lin Yi's lightning explosion.

The battle formation still maintained its defensive formation. Under his command, they managed to block the wave of Thunderbolts with ease.

Lin Yi had a rough idea of what was going on after the previous attacks, and he had some guesses about the movement formation.

In a flash, Lin Yi dodged dozens of lightning bolts and accurately appeared next to another rainbow pattern.

In the eyes of the others, Lin Yi seemed to be dancing in the midst of the lightning, looking indescribably gorgeous and elegant. Then, he easily cut through another rainbow pattern.

The movement formation continued to change. This time, it was a strong wind that could tear apart metal and stone. However, it did not attack the battle formation. Instead, it turned around and fled!

This thing seemed to have its own consciousness. When it realized that the situation was not right and was certain that it could not win, it decisively chose to leave the battlefield.

"Catch up!"

Lin Yi, of course, wouldn't give up. He commanded the battle formation to chase after them.

If the formation was in perfect condition, it would be impossible for these people to keep up with it.

But the formation was broken now, and Lin Yi had destroyed a few of the formation patterns-it wasn't as fast as before.

After he was caught, he was beaten up.

As a result, the movement formation was even more damaged.

On the other side, the Golden-robed middle-aged man, who had luckily escaped, finally broke free from his weakened state. Although his strength had decreased by more than half, it no longer affected his ability to speak normally.

At this moment, the Golden-robed middle-aged man and the black-robed man were looking at the image sent back by the source of array Dao.

"The situation is not good. If this continues, I'm afraid the movement array will be scrapped!"

The Golden-robed middle-aged man's face turned pale, "do you have any ideas?" We can't just stand by and watch, can we?"

As the emissary of the darkness demon beast clan, the black-robed man's goal was to save the fantasy night demonic Dragon. He would definitely not sit by and do nothing.

He was also extremely anxious at this moment!

If the elemental Qi was cut off, the illusionary night demonic Dragon would not be able to break free from the seal. This was a once-in-a-lifetime opportunity for the source of the array Dao to merge with the illusionary night demonic Dragon's seal. If he missed it, he would have to wait for many more years!

The fantasy night demonic Dragon was the most powerful being in the darkness demon beast clan, and only the dark Princess could defeat it if she was resurrected!

If such a super expert were to appear, the darkness demon beast clan's revival would be unstoppable.

Or rather, this operation was the most important part of the plan to revive the darkness demon beast clan. How could the black-robed man tolerate failure?

Chapter 8623 The End

His identity was also very noble. He was the general Commander of the darkness demon beast clan in Fengqi continent. His name was Kuai ya.

Unless it was a darkness magical beast with a higher status that came out of the spatial node, he had the final say in the actions of the entire continent in the outside world.

It could be said that the plan this time was all planned by kaoya.

If he succeeded, his status would skyrocket.

Let alone Fengqi continent, the entire starsource continent would be under his command.

Even if a high-level darkness magical beast came out of the node, it would not be able to shake his position!

However, for such an important matter, who would have thought that the situation would suddenly change when it was about to succeed?

"There's no other way. It seems that I can only personally deal with those humans! Arrange for me to be sent to somewhere near them!"

Caro ya was also a ruthless person. His eyes flickered with a fierce light.

His heart was boiling with killing intent, and he wanted to kill Lin Yi and the others right now!

The Golden-robed man was overjoyed-he was now disabled, and he could only count on the dark Demon beast to deal with Lin Yi.

"No problem! I'll make the arrangements!"

Lin Yi didn't know that he'd alerted the dark Demon beast leader, Kuaya, and was still using his formation to chase after him.

It was indeed a little strange to say that it was a killing formation, but this was the truth!

The movement formation was getting weaker and weaker under Lin Yi's attacks. The rainbow patterns inside were getting destroyed, and the movement speed was getting slower and slower.

Under this situation, it was destined to collapse!

Finally, with the last strike of Lin Yi's demonic devour sword, the movement formation broke into pieces. It let out a soft cracking sound and completely fell apart, leaving a faint black gas in the air.

"Success! Everyone did a good job!"

Lin Yi smiled as he put away the demonic blade and congratulated the people who formed the battle formation.

Now that the teleportation formation had been broken, it did not matter if the illusionary night demonic Dragon had a backup channel or not. The elemental Qi could no longer be sent over!

Pulling firewood from the bottom of the cauldron!

The formation path Grandmaster and his retinue all cheered.

If it weren't for Lin Yi, they'd be dead for sure if they ran into a movement formation themselves. They were all excited to have just escaped death.

However, before they could vent their excitement, they were attracted by the strange phenomenon in the sky!

Countless golden runes appeared out of thin air and filled the entire sky!

Each golden rune was like a cloud, floating slowly as if they were going to be blown away by the wind.

For a moment, the entire world was filled with golden light, but it was not blinding. Instead, it was as if one was bathing in a hot spring, and his entire body was warm and comfortable.

"The source of the Dao of formations! The true source of the array Dao has been activated!"

A few formation Masters exclaimed in shock.

Lin Yi was surprised. This was the source of formation Dao?

Wasn't the source of the array Dao supposed to go to the source? why had it appeared here?

Shi Yucai was equally astonished. "That's great! The array Dao origin has been activated!" It turns out that mobile formations are the ultimate test of the trial of the source of formation Dao. Only after breaking it can the source of the source of formation Dao be opened!"

Lin Yi finally understood.

The source of the array Dao might not appear anywhere, but it would definitely appear after the most powerful array was broken.

"So this is the source of the array Dao?"

"It's a Grand scene, and the symbols are gorgeous!" Lin Yi exclaimed.

Shi wancai frowned and reminded him, "There's no time to waste! Sima Yi, quickly calm your mind and focus on comprehending the profound meaning of the array Dao in The Fountainhead!"

"Once the source appears, there will be the inheritance of the profound meaning of arrays. How much you can comprehend depends on your talent! You see, the others have already begun to comprehend it. This is a great opportunity. There has never been so many people who have received the array Dao origin at the same time!"

With that, Shi Yucai sat down cross-legged and began his journey of enlightenment.

These grandmasters of array Dao had crossed thousands of miles to come here in search of such an opportunity!

By the time Shi longcai sat down cross-legged, most of the grandmasters had already sat down and begun to comprehend. The remaining people standing were almost all the grandmasters' retinue.

Even many of the retinue sat down cross-legged, imitating him.

After all, this was the source of the array Dao. Since these people had followed him here, it meant that they had some understanding of the array Dao. They definitely couldn't miss this opportunity.

What if, they accidentally broke through to Grandmaster as well?

Wouldn't he no longer have to be someone else's retinue?

Lin Yi raised his head and looked at the dense golden symbols in the sky. He did feel a mysterious energy in them, and it gave him endless inspiration in the field of formations.

It shouldn't be fake!

With that in mind, Lin Yi sat down cross-legged as well and began to study the Golden Rune's potential. There were still some questions in his mind that remained unsolved.

The mobile formation was clearly a tool used by the illusionary night demonic Dragon to collect elemental Qi, but it was actually the ultimate trial formation that opened the source of the array Dao?

From the looks of it, this spell formation didn't have the ability to absorb elemental Qi. It must have been tampered with by the heaven array sect or the darkness demon beast clan!

But then again, the sky array sect could actually modify the array from the source of the array Dao. It seemed that the inheritance left by sun sikong was no small matter!

If he could get his hands on all of them, Lin Yi's future in the path of arrays would be a huge leap in growth.

It seemed that after leaving the source of array Dao, he had to raise the priority of settling scores with the sky array sect and snatch all the good things.

These thoughts flashed through Lin Yi's mind as he sat down cross-legged and started meditating.

The profound knowledge of array Dao was simply fascinating, but every comprehension seemed to be a drop in the ocean. There was still a vast unknown realm waiting to be explored.

Those who were truly obsessed with array Dao would definitely be deeply immersed in it at the first moment, and they would have no other thoughts other than to comprehend.

It was at this time that kaoya was sent to Lin Yi's location, at most twenty miles away.

To an expert, this distance could be covered in the blink of an eye. It was not a problem at all.

When Caro ya raised his head and saw the Golden runes in the sky, his devilish face instantly revealed a sinister smile.

"Now is the time! You should feel honored that I've personally come to harvest you lambs waiting to be slaughtered, right? I'll let you comprehend the profound meaning of the array Dao before you die. I think you can die in peace!"

As he spoke, he licked his lips with his long and thin tongue, leaving some traces of saliva. It was as if he was hungry and thirsty and was ready to eat.

"The great Guardian can't wait any longer. This Lord can only personally collect the elemental Qi. For the great Guardian, this Lord coming here personally can't be considered a waste of talent. It's a good thing for trash humans like you. If this Lord can kill you with my own hands, you'll have the capital to show off even as ghosts!"

The narcissist kaoya muttered a few words to herself before flying towards Lin Yi.

Chapter 8624 The End

At this time, Lin Yi was immersed in studying the source of the Dao of formations. He didn't know that a huge threat was coming, but the Jade space did its job and sent out the alarm!

Lin Yi didn't realize what was going on at first, and it took him a while to understand what was going on.

Such a strong sense of danger was almost the same as the attack of the fantasy night demonic Dragon!

Could it be that the fantasy night demonic Dragon had escaped?

Could it be that by breaking the movement array, not only would it open the source of the array Dao, but it would also open the seal on the illusionary night demonic Dragon?

That would be F \* cked up!

At this critical moment, Lin Yi didn't even open his eyes. He directly left his body and entered the Jade space!

As long as his physical body was not damaged, he still had a chance!

The switch between physical body and Shaman Spirit body was completed in an instant. No one could notice it, and even if they stared at Lin Yi, they wouldn't be able to see any flaws.

To be more precise, this kind of switch was like the physical body entering the space of the jade pendant, but the exact same Shaman Spirit body remained in the original position, as if it had not moved at all.

"Ah, Yingluo!"

"Wuuu ..."

"Pa da, pa da ..."

"Zhenzhen ..."

When Lin Yi switched to The Witcher spirit body, there were all sorts of low-pitched screams, wails, body tearing, falling to the ground, blood spurting, and all sorts of other sounds.

In the blink of an eye, hundreds of people's auras had disappeared.

Using his spirit sense, Lin Yi found a ghostly black shadow killing around the area. His target was the servants who weren't in a meditative state.

And that black shadow was naturally the dark Demon beast clan's Fengqi Dazhou's chief commander, Kuai ya!

All of this happened in the time it took for a spark to fly off a Flint.

Lin Yi finished switching and used his Witcher spirit body to move at full speed, catching up to karluya's speed in no time.

He threw a punch at karluya's elbow joint.

He'd already cleared out the followers standing around, and was about to attack the rest of them when Lin Yi jumped in to stop him.

"Eh? There's even a slightly better trash human! Unfortunately, trash will always be trash, and those who are slightly better will still be trash!"

Kaoya glanced at Lin Yi, amused. She turned her arm and aimed her fist at Lin Yi, throwing a punch!

To be able to change his move so easily, it meant that the attack just now was just a casual move. It could be seen that his strength was tyrannical.

However, Lin Yi had used his full strength, and it was too late to change his move. He could only meet the blow head on.

The scene that Calaya had anticipated did not happen. According to his calculations, this exchange would be enough to blow away the two meditating humans!

In the end, he felt like he had punched cotton!

"Interesting! This was ... The Sorcerer spirit body, right? Are you a descendant of the Sorcerer tribe? I didn't expect to see someone from the Sorcerer tribe here!"

Kaoya guessed Lin Yi's condition right away, pulling back his fist and backing off. He didn't continue his attack, but looked at Lin Yi with interest. "Since you are a descendant of the wizard tribe, why do you want to protect humans? Could it be that the Sorcerer tribe has started to join forces with the humans again?"

As one of the higher-ups of the darkness magical beast clan, Caro ya naturally knew some of the secrets and characteristics of the wizard clan.

So with one try, he saw through Lin Yi's identity as a witch spirit body.

"A half-step heaven breaking stage Witcher spirit body is already very good! I'm quite fond of you, so I'll give you a chance to become a guest of our darkness demon beast clan. "

Caro ya was the commander of the darkness demon beast clan in Fengqi continent, but he didn't care much about the specific Affairs of the clan.

For example, how many people had been brainwashed and how many human spies had been developed.

Otherwise, kaoya would've found out by now that Lin Yi was a brainwashed high-ranked traitor of the dark beasts.

Of course, if he knew that Lin Yi was brainwashed, he'd know that Lin Yi was pretending to be brainwashed after seeing The Witcher spirit.

A sorcerer spiritual body that was half a step to the heaven breaking stage was brainwashed by the Sorcerer tribe's methods? What a joke!

A darkness demon beast that said such words would definitely be killed by a slap from Calaya!

"I'm sorry, but I'm a human, not a member of the Sorcerer clan!"

Lin Yi smiled faintly, looking relaxed and at ease, but he was actually very nervous.

He had the Sorcerer spirit body and was immune to physical attacks. If he couldn't win, he could still escape, but others couldn't!

Putting aside the fact that these people were unable to extricate themselves from their comprehension and didn't know what was happening around them, even if they woke up, they wouldn't be able to deal with the darkness magical beast expert in front of them!

That was because Karluya's true level was the great circle of the Suan ni heaven-crushing!

It was on the same level as the fantasy night demonic Dragon!

Lin Yi couldn't beat him at all!

He hadn't tested if a divine sense attack worked on him yet, but he could tell from how easily he'd reacted after knowing that Lin Yi had The Witcher spirit body that he probably wasn't afraid of divine sense attacks!

Everyone knew how powerful the wizard tribe's divine sense attacks were. However, Caro ya wasn't afraid at all when he saw the wizard apparition. It was obvious that he had a way to defend against divine sense attacks!

"Human? Hehe! What an unexpected surprise! It doesn't matter, this Lord's promise is still valid. If you're willing to join our darkness demon beast clan, this Lord will definitely not mistreat you!"

On the other hand, Caro ya really had the intention to recruit them. After all, the revival of the darkness demon beast race required talents.

Lin Yi's mind spun as he thought of a way to deal with the situation.

If he ran, he would definitely be able to escape.

But these array path grandmasters on the side, no matter what, they were his comrades who had gathered together and fought side by side to destroy the mobile array!

Lin Yi couldn't just ignore their lives and leave like an outsider.

Especially when Zhang Yiming, Shi tiancai, and the others were his companions who could not be lost!

So, if kaoya wanted to chat, then so be it!

"Is that so? By the way, I still don't know who you are. Do you have the authority to recruit me? Don't tell me you're just bluffing?"

Lin Yi started to ask around-he had to at least figure out who this complete heaven-breaker Dark Beast was.

"Hehehe, there's no harm in telling you. This King is the Supreme Commander of the darkness demon beast clan of the Phoenix Qi continent, caruwa. My promise to you is naturally true and valid. You can consider it!"

There was a prideful look on caruwa's face."Of course, I'm very busy and can't wait too long. Give me your answer within ten!"

Recruiting Lin Yi wasn't necessary, it was just a casual move on the side of the sect.

The most important thing now was to collect attribute Qi to help the great Guardian recover his strength and break the seal.

Hence, kaoya gave Lin Yi a time limit.

Chapter 8625

Those who were willing to surrender were on their side!

Of course, there was nothing to say if he was unwilling. He could just kill him directly!

"Oh, it's commander kaoya. It's my honor to meet you. Since you've said so, let me think about it!"

Lin Yi didn't mind that the countdown to ten was too short-he'd try to buy as much time as he could, no matter what!

So he agreed with a smile, and continued to think about how to deal with the current predicament.

Karluya was too strong-Lin Yi wouldn't be able to stop him if he wanted to kill these people, unless he could trap him with a formation!

But setting up a formation that could trap a master at the peak of heaven-cleaving in such a short time ... Lin Yi felt that it was too difficult for him!

Even if you add in the ghostly stuff, it can't be done!

Plus, kaoya wasn't dead-there was no way he'd let Lin Yi set up a formation against him.

The other party was not a fool!

If his intelligence was so touching, then as the commander, the darkness demon beast clan of the Phoenix habitat continent would have been exterminated long ago!

That's thinking too far ... Lin Yi's thoughts drifted for a moment before he pulled them back. Formations were his only chance, so he could only think about it!

Lin Yi blinked at the thought-he'd been too focused on Kuai ya to notice it ...

Fighting and moving wouldn't affect his comprehension of the profound meaning of the source of the array Dao!

The mysterious aura was always there, resonating deep into the soul. Lin Yi felt it even more clearly when he appeared in his Witcher spirit body.

However, he had been so busy dealing with kaoya that he had neglected it!

Other people might not be able to do this, but Lin Yi liked to do multiple things at once. As long as he split a bit of his attention, learning formations in battle was no problem at all!

He'd just absorbed quite a bit of formation skills, but he didn't have the time to digest them all. Now that he'd combined it with his experience with movement formations, Lin Yi had some ideas and ideas.

"Time's Up! Have you considered it?"

The count of ten passed quickly, and she looked at Lin Yi, unruffled. "I'll be waiting for your wise answer. Don't Let Me Down!"

Lin Yi raised his head and smiled, shrugging. "I'm sorry, but it seems like I'll have to disappoint Lord Kayako! I still can't become a traitor like the sky array sect, I'll be criticized by others!"

Kaoya wasn't surprised. He just shook his head and laughed. "What a stupid idea. Forget it, everyone has their own ambitions. I won't waste my time on a small fry like you! I've given you a chance, so don't take it for your own loss!"

"I'll give you a kind reminder. If you think that you'll be invincible just because your sorcerer spirit body is immune to physical damage, I'm afraid you've got the wrong idea! I have my own ways to deal with the Sorcerer spirit body! And your strength, hehe ..."

He chuckled, his disdain clear!

Half-step heaven crushing, in the eyes of a complete heaven crushing cultivator, was actually not much different from an ordinary person!

Lin Yi's heart skipped a beat. As expected, if Caro ya had a way to counter The Witcher spirit body, then he naturally had the confidence to block a divine sense attack!

It seemed that he had made the right choice not to place his hopes on the attack of the divine sense!

"If I want to survive in the hands of cabinet caruteya, I can't just rely on the physical immunity of the Sorcerer spirit body! I'll be embarrassing myself!"

Lin Yi smiled as he activated his Witcher spirit body and activated the skill, thousand changes of wood and forest!

In an instant, Lin Yi's original body and Kuai ya were surrounded by hundreds of Lin Yi's clones.

Originally, true energy martial arts techniques could not be used on the sub-Island, but because the Sorcerer spiritual body was in the source of array Dao, the restrictions seemed to be weakened.

A skill like the thousand changes of wood and forest didn't require much Qi, and even a golden class master could use it without a hitch.

It was just that he couldn't use it to its maximum-the number of clones he had was already his limit.

"Hehe, is this your trump card? A piece of trash summoning a bunch of trash? What's the point? Do you think you can use numbers to deal with me? What a joke!"

With his hands behind his back, the disdain on his face grew.

He didn't even care about Lin Yi's half-step to sky-breaking strength, and the thousand changes of wood forest's clone was a whole level weaker-he was no threat at all!

From what he could see, crushing an ant with one foot was no different from crushing a bunch of ants with one foot. He did not need to use any more strength!

"Of course it's meaningful! You'll know soon enough!"

Lin Yi grinned, revealing eight neat teeth, looking extremely brilliant!

The hundreds of doppelgangers also smiled and formed a smiling battle formation, taking the initiative to attack kaoya.

The strength of a formation went without saying. Lin Yi's clones were connected to each other and could operate as they wished, but they were limited by their strength and couldn't pose much of a threat to Caro ya all at once.

With a mocking smile, Caro ya's eyes showed that he had expected this. "The battle formation is not bad. Do you have any other methods? I'll give you a chance to play all the tricks you know, or you won't be satisfied even if you die!"

Lin Yi didn't say anything more this time and continued to attack in silence. At the same time, he threw out some formation flags secretly.

The battle formation slowly moved around caruwa, gradually distancing itself from the grandmasters.

Lin Yi didn't want the aftershocks to hit the grandmasters-they were completely defenseless right now, after all, and there was no way they'd be able to defend against the aftershocks of the attack.

He hadn't even made a move yet-Lin Yi's formation wouldn't be able to withstand his destructive power if he did!

At this moment, kaoya was watching Lin Yi as if he was watching a show.

He understood what Lin Yi meant, but he moved to the side.

As for Lin Yi's formation flag, he didn't care.

The formation flags were in a mess, and the battle formation was moving away from the formation flags.

So she wasn't worried at all-Lin Yi wouldn't have the chance to turn back.

Before they could make a turn back, kaoya would have finished the battle.

Lin Yi's focus wasn't on Caro ya, but on studying the profoundness of formations and movement formations.

The array flags that were thrown out were to set up a mobile array!

Whether or not he would succeed, it was still hard to say.

The array flags might lose their effect, or they might achieve the effect Lin Yi wanted. It all depended on the result of Lin Yi's enlightenment.

After moving for some distance, kaoya started to get impatient."Kid, is this all you can do? Then don't waste my time!"

As soon as he finished speaking, he casually swung his palm.

The three closest Lin Yi clones couldn't Dodge in time and exploded!

Chapter 8626

Lin Yi's formation was strong, but it couldn't do anything to the stronger Kuai ya.

Lin Yi couldn't do anything to the opponent's miracle.

Lin Yi didn't mind, however, and smiled.

It was just a clone, and once it was destroyed, it would be over if it was replaced.

If kaoya wanted to kill him, then let him!

The destroyed clone quickly reappeared and continued to shine in the battle formation.

Kaoya frowned. They couldn't continue fighting like this. They had to be serious and get rid of these annoying trash in one go!

Just as he was about to use his skill, Lin Yi's mind suddenly lit up. He'd been studying the profoundness of formations and movement formations for a long time, and he suddenly felt enlightened!

The speed at which he waved the array flags increased by several times, but the array flags that flew out did not fall. They directly disappeared in the air as if they had entered a different dimensional space, appearing quite mysterious and unpredictable.

With a single move, he'd destroyed dozens of Lin Yi's clones-and he felt something was wrong!

These clones were dead, but the pressure around him had increased by several times!

Even a super expert like Kuai ya, who was at the great circle of heaven breaking, could feel the danger!

This was definitely not a good sign!

Lin Yi's smile widened again, revealing his eight teeth, making him look like a Sunshine Boy. "Don't worry, Your Excellency. Let's continue! Take your time!"

The clones that had been destroyed reappeared and surrounded kaoya, bombarding him with attacks.

This time, the doppelganger's attack power had increased by a large margin. Even Caro ya found it difficult to deal with it.

Inwardly, kaoya was in awe. He didn't understand what had happened.

Why was it that in the blink of an eye, the combat power of these pieces of trash had undergone an earth-shattering change?

Could it be the array flags that the kid threw out?

The experienced and sharp-eyed caraya immediately found the key to the problem!

He'd underestimated Lin Yi too much before, and it was too late for him to react!

The pressure around him grew stronger and stronger. Sensing that something was wrong, caruya started to move in other directions.

In his mind, even if Lin Yi set up a formation, he would be fine as long as he left the range of the formation!

Normally, this was the correct way of thinking.

Especially since karluya's combat power was still at an advantage, it would not be difficult for him to escape from the battle formation formed by his clones.

What he didn't know was that Lin Yi never wanted to use a fixed formation from the start!

A fixed formation during battle would definitely not be able to trap Caro ya. Only a mobile formation that worked with a battle formation to trap the enemy would be able to catch this big fish!

Lin Yi's brain was getting more and more inspired, and his understanding of movement formations was getting deeper and deeper. He set up the formation smoothly and quickly perfected it!

As the last array flag was thrown into the air, a series of light cracking sounds rang out around the battle array, and the sky suddenly changed!

The wind, rain, lightning, ice, frost, and snow turned into countless swords, Spears, and halberds that shot toward Caro ya.

The frequency and density made Lin Yi's heart feel heavy.

If he met someone with trypophobia, he would die from chest tightness without even having to hit the person.

Kaoya's expression changed. What if? Hurry up and break through!

At this moment, kaoya still believed that as long as he could break out of the encirclement, it wouldn't be difficult to kill Lin Yi!

However, Lin Yi's lips curled up into a cold smile.

Want to run? Then I'll let you run!

The clones in the battle formation did not risk their lives to stop caruaya. Instead, they allowed him to escape. However, they continued to chase after him!

In a situation like this, it seemed like kaoya still had a chance to escape. Naturally, he wouldn't stay and fight Lin Yi to the death, but he'd entered a state of energy consumption without even realizing.

That was Lin Yi's goal!

Instead of avoiding a desperate fight, he could continuously drain the opponent's strength and test the effect of the movement formation and the battle formation.

Hence, by the time kaoya realized that something was wrong, it was already too late!

"A moving formation! You actually set up a movement array! How is this possible?"

Kaoya was going crazy.

He did some research on formations, but his level couldn't compare to Lin Yi 'S. He was at most a gold-level formation master.

Originally, with karluya's level, he would not be able to see through the mobile formation. However, when he had worked with the heaven array sect, the Golden-robed middle-aged man had explained to him in detail about the mobile formation.

That was why kaoya was able to react now-he wouldn't even know what Lin Yi had set up if he died!

"Nothing is impossible. You can use a mobile array to kill array Masters and extract their elemental Qi. Of course, you can also die in a mobile array. Isn't that fair?"

Lin Yi smiled coldly, his eyes indifferent. "Those who kill will be killed! Your Excellency kaoya, have a safe journey!"

He'd given Lin Yi a chance to counterattack after all the bullshit he'd said to her-he wasn't going to repeat the same mistake!

When they realized that the time was right, they activated their movement and battle formations to attack and kill off Caro ya.

As the saying goes, villains die because they talk too much. Kaoya perfectly interpreted the meaning of this saying!

He thought that with the strength of the great circle of heaven crushing, he could ignore the various divine sense methods of the Sorcerer spirit body and crush everything. In the end, he was completely screwed.

Under Lin Yi's control, the movement formation was becoming more and more perfect, and its power was increasing as well. With the addition of the undying clones, the storm-like attacks knocked Kuai ya out of his sight!

Caro ya let out an indignant roar and madly attacked everywhere. However, the rebound was getting stronger and stronger.

In the end, Caro ya was covered in wounds and blood flowed all over the ground. His powerful strength gradually dissipated, and he staggered a few times before falling to the ground.

The pupils that were originally hidden in the divine light were now empty and dazed. He probably never thought that he would actually have such an ending!

Lin Yi didn't let his guard down. Kaoya seemed to be at his wit's end, but anything was possible as long as he wasn't dead!

There were too many cases of smooth-sailing situations being turned around, and Lin Yi didn't want to be one of them.

Hence, not only did the attacks not stop, they became even more powerful. They rumbled as they bombarded on Caro ya's body until he was completely killed. He no longer had a single breath left!

Lin Yi used his spirit sense to confirm that karluya was really dead. He let out a breath of relief and maintained his movement and battle formations. He sent a clone to extract karluya's inner core. That was the end.

The complete heaven-Sundering Dark beast's core was a super precious item. It was Lin Yi's first time getting it, and he was very excited!

As for karluya's corpse, well ... It was a complete heaven crushing Dark Demon beast, after all, so it might be useful. He would put it in the Jade space first!

Chapter 8627

At the same time, the Golden-robed middle-aged man, who was hiding in the dark and observing the situation, saw all this and was instantly scared to the point that his whole body trembled. He quickly slipped away quietly.

He really didn't expect Sima Yi to be so brutal. He was definitely a werewolf, even more brutal than a ruthless person!

The Golden-robed middle-aged man thought about how he'd managed to escape from Lin Yi's hands. He'd paid a huge price, but it was worth it!

At the very least, he managed to keep his life. It was much better than having a meal!

Not only did this brother die, but his inner core was also extracted, and even his corpse was to be recycled ...

It was too tragic!

At this moment, the Golden-robed middle-aged man only had one thought in his mind-run!

The further he ran, the better! I'll never see Sima Yi again!

Lin Yi, on the other hand, didn't notice the Golden-robed man's spying-the formation Dao's origin was too restrictive on one's spirit sense, and with the pressure from Caro' ya, it was normal.

Lin Yi didn't have the time to care about the Golden-robed man, even if he knew that he was right beside him.

After getting karluya's inner pellet, Lin Yi suddenly had a sudden enlightenment-he'd completely understood all the profoundness of movement formations.

From now on, this would become Lin Yi's new trump card and method, and when used with a battle formation, it would be extremely powerful!

Even a complete heaven crushing expert had been killed, so what was there to be afraid of?

Lin Yi even had the thought of fighting the fantasy night demonic dragon again.

Stop, stop! Floating, floating!

The fantasy night demonic Dragon was at the same level as Caro ya, but the pressure it gave Lin Yi was completely different.

Lin Yi still didn't have much confidence in facing the illusionary night demonic Dragon. It was better to continue hiding and develop slowly!

Who knew how many hidden cards this old monster from ancient times had?

No one would know if he was wrong!

Suddenly.

The Golden runes in the distant sky quickly dimmed and dissipated, disappearing without a trace in the blink of an eye.

The grandmasters who were in the midst of their comprehension opened their eyes one after another. Their eyes were filled with regret, and they were clearly not satisfied!

Lin Yi and kaoya's fight was intense, but it didn't last long.

To the grandmasters who were in the midst of their comprehension, it was simply too short a time!

"What's happening? I had just entered the state of comprehension when I was suddenly interrupted!"

"Me too! He felt that he was standing at the entrance of the treasure vault, and the door was open. He could reach out for the treasure, but when he was about to touch it, the treasure vault was gone! I'm so angry!"

"I'm the same! There's too little time, I can't comprehend anything ..."

"I ... I'm holding a blade of grass! What happened here? Why did so many people die? Don't you see this?"

Finally, a formation path Grandmaster realized something was wrong.

They were surrounded by Dead Skeletons, and there were traces of battle extending out. Something terrible had obviously happened!

"Where's Grandmaster Sima? Why isn't he here? Do we have to ask Grandmaster Sima to know?"

Someone suddenly noticed Lin Yi's disappearance, and everyone noticed it.

Then, they saw Lin Yi slowly walk back!

"Grandmaster Sima! What happened here just now?"

Immediately, a Grandmaster came forward and asked.

After all, all the retainers were dead, and there were still traces of battle and some useless array flags around. It was obvious that something had happened without their knowledge.

Especially those dead retainers, almost none of them had time to react before they were brutally killed. Each one of them left uneasily, causing the grandmasters to be very afraid.

They had almost become one of the corpses.

"It was one of the masterminds just now. An expert from the darkness demon beast clan came to ambush us and wanted to kill us all. In the end, I used some of my trump cards and barely killed him!"

Lin Yi had already thought of an explanation when he came over.

Of course, he wouldn't mention the thousand forest illusionary transformations or the movement formation.

The people present were now comrades in arms. After they went their separate ways and returned to their respective continents, it was difficult to say whether they were friends or enemies.

There was no need to reveal all his trump cards to everyone. It was better to keep a low profile.

Lin Yi didn't want to show off for no reason.

"This is his corpse. After we deal with this guy, we should be safe for the time being."

He'd already moved Karluya's body from the Jade space into a normal storage bag, all for the sake of proving it.

He was dead, and Lin Yi had taken out his inner core, but there was still some of his heaven-Sundering power left.

The array Masters present were all weaklings. They couldn't see the level of the living caruya, but they could clearly feel the terrifying strength of this expert of the darkness demon beast clan.

What was even more terrifying was that such a terrifying expert was actually covered in wounds. Just what had he experienced?

Yet Lin Yi, who was said to have used his trump card to barely kill this Dark Demon beast, was completely fine?

Some people began to criticize him. This was called barely killing him. If he killed him normally, wouldn't he be directly reduced to ashes without even leaving a corpse?

I heard that Feng Qi Dazhou's Shi wangcai is a King of acting tough, but now it seems that Grandmaster Sima is not inferior to Shi wangcai!

He was simply the head of posturing!

Was this a tradition of Fengqi Dazhou?

Lin Yi, on the other hand, didn't think too much about it-he'd only shown them the body to make them believe what had happened, and he'd just tell them about what happened, and that was it.

Those who survived were naturally full of gratitude and compliments.

They understood Lin Yi's strength quite well-it didn't matter if they were grateful or not, they had to get on his good side.

"Boss, I didn't help with anything this time ..."

Zhang Yiming smiled as he moved closer to Lin Yi. "I'm really sorry, boss, you're the one who took on everything!"

Lin Yi couldn't help but roll his eyes. He slapped the guy away. Who the hell did he learn this from? I even took on everything on my own ... I'm not a resentful girl!

Zhang xiaopang's luck was pretty good. As he was slightly interested in the array Dao, he had also sat down cross-legged to comprehend it and thus managed to escape the calamity.

If he was standing, he wouldn't be able to Dodge karluya's attack-Lin Yi wouldn't be able to save him even if he wanted to!

Of course, student Zhang xiaopang's talent points were not in the aspect of array formation. There was no difference between sitting down and meditating and dozing off. It was more reliable to expect money to fall from the sky than to expect him to gain anything.

Lin Yi didn't even bother to ask him. He turned to Shi Yucai."Did you gain any enlightenment from this comprehension?"

Shi chengcai's face carried a faint joy-Lin Yi must've gained something.

Chapter 8628

"I've indeed made some gains. I've glimpsed the profoundness of the layering formation from the source of formation Dao and can be considered to have gained a basic understanding of it. It's a pity that I haven't had enough time, and there are still too many profound meanings that I haven't grasped ... However, I'm satisfied. From now on, I'll study the layering formation properly, and my formation Dao's strength will definitely increase greatly!"

Lin Yi blinked. Stacking formation?

He had already learned this a long time ago ... Was that why he had comprehended a movement array?

There were countless profound mysteries of the formation Dao in The Fountainhead, and it seemed that everyone's comprehension was different. What they had already grasped would not appear again. It was very intelligent.

The array Masters were also discussing, and many of them said that they didn't learn much because of the short time.

There were also some people who had grasped some inspiration and comprehended a little bit of things. It was more or less a harvest.

Lin Yi listened carefully-even if they'd gained something, the level of the profoundness was relatively low.

It seemed like the matching was based on the individual's level as well-if it were all movement formations, no one would be able to learn anything apart from Lin Yi himself.

In other words, Lin Yi was the biggest winner this time, obtaining the most from the source of formation Dao.

All the others added together couldn't even compare to Lin Yi.

In addition, he had destroyed the plan of the fantasy night demonic Dragon and killed Caro ya, a high-ranking member of the darkness demon beast clan who had achieved heaven-breaking perfection. He had definitely returned with a full load!

After the Golden rune in the sky disappeared, about two to three minutes later, it lit up with white light again.

Then, the clouds gathered and descended, forming layers of stairs that led to a door in the clouds.

It was a similar scene when he entered the formation path, so Lin Yi didn't need to be reminded that this was the exit.

"Everyone, let's leave this place first. We'll talk after we get out!"

The formation Dao origin was already over, so Lin Yi's request to leave was naturally met with a hundred responses.

When they left, there was no need to separate into different continents. All the living people collected the bones of their retinue and climbed up the ladder together, leaving the source of formation Dao.

After exiting, the first thing that everyone saw was the Vice President of the starsource continent's array Dao Guild.

Since the sky array sect had joined forces with the darkness demon beast clan, the array formation Guild would naturally take them down first.

The reason why he did not kill the Vice President was not because the Golden-robed middle-aged man or Kuai ya was being kind. It was purely because Kuai ya had taken a fancy to his identity.

After all, he was one of the higher-ups of the starsource continent. If he could successfully brainwash him, he would be an excellent nail.

If not for that, the vice president's elemental Qi would have been extracted and sent to the fantasy night demonic Dragon to recover his strength!

"Vice President, are you alright? Are you hurt?"

Lin Yi opened the restriction and saved the Vice President.

The Vice President waved his hand and laughed bitterly. "I'm really ashamed. I was caught off guard and was almost killed by a villain. It's all thanks to Grandmaster Sima that I was able to escape."

Naturally, the Vice President had also seen the scene that was transmitted from the source of formation Dao earlier.

"Vice President, you're too kind. It's just something I did in passing. It's not a big deal!"

Lin Yi did think that saving the Vice President was a small matter, but the Vice President didn't think so.

"Grandmaster Sima, you may not know, but I roughly know what you did in the source of array Dao. When this old man first felt that something was amiss, that darkness demon beast Kuai ya immediately subdued this old man. "

"They probably think that I still have some value, so they temporarily let me go and only imprisoned me here. It's because of this that I can see these things."

"What a pity, if only we could catch them all in one fell swoop! But it's good enough to kill kaoya. He should be a high-ranking member of the dark Beast clan. Killing such a guy can save us a lot of trouble. "

The Vice President looked at Lin Yi with regret, "Grandmaster Sima's contribution this time is extremely great, and I am deeply impressed! In the future, if there is a chance, I must get closer to Grandmaster Sima. As for the sky array sect's punishment, I will report it to the continent's martial Alliance and let the higher-ups of the martial Alliance decide how to punish the sky array sect. "

"I will also report the achievements of Grandmaster Sima and the rest of you. You are all heroes of mankind and must accept the reward!"

In fact, other than Lin Yi, the other grandmasters were only trying to protect themselves. They didn't contribute much after that, and it was Lin Yi who saved their lives.

However, the Vice President knew how to conduct himself well and counted them as heroes.

After all, these were the elites of their respective continents. Many array Masters had already died, and the remaining ones were all treasures!

Lin Yi didn't really care about the rewards or merits-he was more concerned about the sky array sect's punishment.

"Vice President, how should the alchemy Union of the StarWish continent deal with the sky array sect? If there's any action, I'm willing to contribute my strength!"

The sky array sect had sun sikong's legacy, and Lin Yi was very interested in it, so he wanted to go there himself.

However, the Vice President muttered to himself, and his expression darkened. ""This matter ... It's hard to say for now! "The sky array sect is a super sect on the sub Island. To put it bluntly, our sky array sect on the star source continent is just a branch of the entire sky array sect on the sub Island! So, if we want to deal with the sky array sect's branch, will the main sect have any objections?"

"In summary, it's not easy to make the final decision. Just wait for a while. I'll inform you as soon as I have news!"

Lin Yi was dumbfounded-he didn't think there'd be so many twists and turns.

Could it be that if the sky array sect did not agree, they would not punish the sky array sect's branch for their evil deeds?

We can't just say that those array Masters died in vain, right?

"The matter here has already come to an end. I'm going to return to the star source continent's array Dao Association to report on my mission. You guys should return to your own places as well. Farewell, we'll meet again!"

The Vice President didn't say anything more and bade his farewell. He then used the teleportation talisman to return to the continent's array formation Guild.

Lin Yi noticed that the Vice President was using a fixed point teleportation formation, and it could only teleport to a predetermined location.

This thing was slightly inferior to the free teleportation talisman, but it was not something that could be easily made.

Lin Yi decided to ask the guy where he got this thing the next time they met.

Lin Yi didn't say much in front of so many people.

After the Vice President left, the rest of the people prepared to leave as well.

The grandmasters all picked their representatives to talk to Lin Yi.

"Grandmaster Sima, let's leave the Wutong continent together. There's still a long way to go back to martial League. Why don't we set off now?"

Lin Yi shook his head and cupped his fist before turning to the other grandmasters. "Everyone, I still have some matters to attend to in the sword spring sect. It will probably take some time, so I won't be going with you."

Chapter 8629

"The plan of the sky array sect and the darkness demon beast clan has failed. One of their leaders is dead, and the other is injured. For the time being, there will be no action against you. So, your return journey should be very safe. We will part ways here!"

Everyone knew that Lin Yi came from the sword spring sect, and it wasn't easy for him to come back. It wasn't a big deal to go back and hang around for a few more days.

"Boss, I'm also going back to the sword spring sect!"

Zhang Yiming said, obviously following Lin Yi wherever he went.

On the other hand, Lin Yi didn't expect Shi chengcai to bring up the idea of leaving the sword spring sect.

Zhang Yiming was still a disciple of the sword spring sect, so it was only right for him to return.

Shi shengcai could only be a guest!

As for swordsman Pi, he first returned to Feng Qi continent. He was still the president of an array branch, so he must have a lot of things piled up and had to go back as soon as possible.

Thus, the group of people bid each other farewell on the main road back and parted ways!

He didn't know when they would meet again!

When they were far away, Zhang Yiming suddenly said, ""Boss, there are still a few people left in the great land of Sangzi. They didn't follow Zhen Yingxian's group before. Will they leak some information to the Jia family when they go back this time?"

Shi shengcai agreed, which was rare for him. "It's very likely. Before those people from the great land of Sangzi left, they looked at you with evasive eyes. You did save them, but the situation will be completely different if you return to the great land of Sangzi!"

"The Jia family's power in the great land of Sangzi is so great that even the martial League is suppressed by them. It's not wrong to say that they can cover the sky with one hand in the great land of Sangzi. That's why the Jia family has the name Jia zhetian!"

"this family is narrow-minded and vengeful. jia junjie was the most outstanding young talent in the jia family. now that he died in wutong, they will definitely find out the truth. those array masters who returned might be grateful to you and won't betray you."

"it's a pity that there are more than one or two people going back this time. even if someone wants to keep it a secret, they'll consider the consequences first. "

the meaning behind shi chengcai's words was clear-if it was just one or two people going back, she might help lin yi hide it.

however, if more people returned, he couldn't guarantee that the others wouldn't keep it a secret. at that time, those who kept it a secret would instead get into trouble.

hence, shi tiancai believed that the jia family would find out about lin yi killing jia junjie, and their revenge would come as expected.

he and jia junjie were rivals to begin with, so he had naturally spent some time to understand the jia family. he had a lot of say in this.

"Is the Jia family that powerful in the great land of Sangzi? He's actually nicknamed Jia zhetian, isn't he stronger than our Feng Qi continent's Su banzhou?"

Lin Yi said, surprised.

Fengqi continent had been heavily infiltrated by the darkness demon beast clan. If it wasn't completely rotten, it was at least half rotten. The SU family had the name of su banzhou, so perhaps the shadow of the darkness demon beast clan was behind it.

He didn't expect the Jia family to be so powerful in the great land of Sangzi that they could even cover the sky!

Could it be that Sangzi Dazhou was rotten to the roots?

"It's hard to say how strong the Jia and su families are, but the two families do have some similarities in some aspects. They are both aristocratic families of arrays! If such a powerful family were to find out that Jia Junjie's death was caused by you, they would definitely take cruel revenge. "

Shi shengcai stated the facts with a calm expression. "Your combat power and strength in all aspects are indeed very strong, but in front of a behemoth like the Jia family, you may not be enough!"

"Ha ..."

Lin Yi shrugged nonchalantly, "So what? Do you mean for me to go and kill those grandmasters in the Sangzi continent to prevent the news from leaking?"

Shi shengcai pursed his lips and didn't say anything. He might have meant that, but he couldn't say it out loud!

However, Zhang Yiming shook his head and said, ""It's no use. If everyone in Sangzi continent is dead, the Jia family will also pursue the truth. After all, there are still many people alive in other continents. According to Shi shengcai's description of the Jia family's power, it won't be difficult to go to other continents to ask. "

Zhang xiaopang was a genius in intelligence. His opinions were naturally important and accurate.

"It's meaningless even if we kill all the survivors on all continents. As long as the three of us are still alive, the Jia family will target us! Since they're so vengeful, they'd rather kill the wrong person than let him go. "

Lin Yi nodded. "Yiming's analysis is on point, so if they want to report me, then go. I'm not a murderer. I can't just kill everyone who knows about it just because they might leak it, right?"

"As for that Jia family called Jia zhetian, if they really want to deal with me, then come! That idiot Jia Junjie is seeking his own death. As the saying goes, if you don't seek death, you won't die. The Jia family is the same. If they want to seek death, I'm naturally willing to fulfill their wish!"

Shi shengcai was speechless. This wave of acting tough almost gave her full marks!

And the Jia family was courting death?

Did you just ignore what I said?

That was a force that could almost suppress an entire continent!

How can you say it so easily?

[You're making it seem like you, Sima Yi, can suppress all the array Masters in the entire starsource continent? you're so F \* cking awesome!]

However, Shi shengcai naturally didn't say anything more. With his personality, he said so much only because Lin Yi's previous performance convinced him. He was really thinking for Lin Yi!

Since the reminder was in place, Lin Yi didn't care what choice he made next!

The topic of Sangzi continent was over, and the three of them returned to the sword spring sect.

Before he could enter, he was stopped by black wildflowers outside the mountain Gate.

"Lord ... Sima! I've been waiting for you all day, and you've finally come back!"

Black wildflower's eyes flickered. Because he saw Zhang Yiming and Shi chengcai beside him, he didn't want to call Lin Yi too intimately, so he came up with a way to call him Lord Sima.

"Sir, you are busy and don't know what you promised me. Do you still remember?"

After greeting them one by one, black wildflower continued to look at Lin Yi pitifully, clearly wanting Lin Yi to fulfill his promise of reviving the heiye family.

Lin Yi smiled helplessly, "aren't you a little too impatient?" You won't even let me enter the mountain Gate?"

"The mountain Gate is right here, it won't run away. But Lord Sima, you're so busy, this little girl is afraid you'll run away! Where can I find you?"

Black wildflower said confidently.

She thought back to that night when she was rejected ... It was so embarrassing! She couldn't let Lin Yi go! He had to pull her along to solve this matter!

"Boss, what did you promise her? If it's not difficult, then quickly honor it?"

Zhang Yiming looked at Lin Yi and smiled, blinking his right eye as if he understood.

Lin Yi almost flipped out-what the hell Did you know?!

Chapter 8630

"Alright, I know you're worried about the heiye clan's revival. In that case, I'll go with you and take a look at your heiye clan!"

Lin Yi agreed to black wildflower's request, which answered Zhang Yiming's question.

Then, he turned around and asked Shi shengcai and Zhang Yiming, "What are you going to do? Do you want to go back to the sword spring sect and wait for me, or do you want to go with me?"

"Boss, wherever you go, I'll definitely follow. Of course, I'll go with you!"

Zhang Yiming didn't have many good memories back in the sword spring sect. Before Lin Yi came, he was just a human ATM.

So if Lin Yi wasn't in the sect, he had no interest in staying.

All the good memories here were related to Lin Yi and his group-they'd just end with Lin Yi.

Shi chengcai shrugged as well. He'd never done this before, but after being with Lin Yi for a long time, he'd changed a little, and he didn't even know it.

"I don't have any relationship with the sword spring sect, so it's strange for me to stay here alone. If you don't mind, I'll go with you,"

With that, no one had any more objections. The four of them turned around in front of the mountain Gate, and black wildflower led them to the heiye clan.

The heiye clan was a famous family in the former Hongshang Commandery. Later on, it declined, and its situation became much more difficult.

Among them, most of them also involved some political struggles in the court. Not only did they lose the title of one of the four great general families of Hongshang Commandery, but they also had to hide here and there to avoid being hunted.

Lin Yi didn't know much about the heiye family, and black wildflower didn't ask him for anything before, so he didn't pay much attention.

After leaving the sword spring sect, he went on conquests to establish the Hong Shang Empire. Then, he went to the naduo martial Alliance branch ...

The more he did, the higher his status would be, and he wouldn't even turn his attention back to the heiye clan.

If it wasn't for black wildflower's suggestion, Lin Yi wouldn't even think about the heiye family.

In Lin Yi's mind, black wildflower was his companion and he could take care of him, but he didn't know the heiye family ...

"Sister heiye, where is your heiye clan now? Is it close to here?"

Lin Yi still used his old name, warming black wildflower's heart.

After all, Lin Yi was now like a dragon soaring through the nine Heavens, while black wildflower was still a little bug struggling to crawl in the soil. The difference between the two was immeasurable.

To be able to call her "sister" in front of everyone else, black wildflower suddenly felt very touched.

However, even though he was touched, he still had to answer the question. ""Yes, my clansmen don't have a fixed residence. Wherever we go, it's our home. Because I'm in the sword spring sect, they've recently moved to the vicinity of the sword spring sect."

His words were very plain, but the heiye clan's dejection could be seen from this.

They didn't even have a decent family dwelling, they were really miserable!

Lin Yi understood now-no wonder black wildflower was bringing them on foot.

If the distance was far, not to mention an aerial spirit beast, the Black Spirit Ferghana horse would still be a necessity. However, if it was close, it did not matter.

The four of them were all martial artists, and their short-distance movement speed was not much slower than the Black Spirit Ferghana horse. After walking for more than ten minutes, black wildflower pointed to a Mountain Valley not far away and said that it was the temporary base of the heiye clan.

Lin Yi's expression turned weird-his spirit sense could easily cover the distance.

Black wildflower was right, the hill was indeed where the heiye clan lived, but it was not just the heiye clan that was there.

At that time, Lin Yi and the other two had just arrived at the gate of the sword spring sect and were stopped by the black wildflower.

The hiroye clan's habitat welcomed a wave of uninvited guests!

The entire heiye clan, including the old, the weak, the sick, and the disabled, only had a total of a hundred people. However, the number of people who came was more than ten times their number, more than a thousand.

Moreover, these people were all elite soldiers, and their combat strength was much stronger than the heiye clan.

The one leading them was Sima Yunki's third brother, Sima yunsan, and the Nangong clan, one of the four great protector clans of Hongshang Commandery.

Now that Hongshang Commandery had changed its name to Sima Commandery, the Sima clan had become an eternal royal family.

Although they were rejected by Lin Yi because they had usurped the throne in the Hong Shang Empire, they were still Sima Yunki's family.

they were still blood-related relatives, blood was thicker than water!

the two sides might not have any contact from now on, but sima yunqi and liu ziyu could not do something like killing each other. therefore, they let them continue to live in the prefecture.

sima yun yun was an idle prince born of a concubine. above him were sima yun fei and sima yun qi, two direct brothers.

in the end, sima yunfei offended lin yi, and sima yunfei stayed in the hong shang empire as the emperor. as a result, his status in the sima family rose a lot.

this time, he was representing the royal family of the sima commandery. he had come with the nangong clan to kill the rebellious heiye clan. they were prepared to completely exterminate the heiye clan!

after all was said and done, it was still a political matter.

out of the original four big families, the heiye family had fallen, and the feng family had been crippled when the hong shang empire was established because of lin yi. now, they had fallen into a very ordinary small family in the commandery, only a little stronger than the heiye family.

although the sima clan had become the true royal family of the commandery, because of the imperial usurping incident, the clan was divided. the most outstanding sima yunqi, sima yi, and liu ziyu had all abandoned the sima clan, so their strength had decreased greatly.

the nangong clan took the opportunity to absorb the power of the feng clan and became the strongest clan in the sima prefecture.

If it wasn't for the fact that the Sima Junwang was the territory that the Emperor had personally granted to the Sima clan, the Nangong clan would have long become the Junwang.

The Nangong clan was wary of the Empire, and the Sima clan knew that they could not count on Liu Ziyu and the others, so they put in a lot of effort to win the Nangong clan over.

This operation against the heiye clan was originally the Nangong clan's idea, and Sima Yun San still represented the royal family to participate, this was a way to win them over!

"Nangong jueye! Do you really want to kill me? Our heiye clan has already fallen to such a state, why are you still unwilling to let us go?"

The heiye clan's current clan leader's face was filled with grief and indignation.

The heiye clan's decline had its own reasons, but it was also because of the Nangong clan's Secret instigation.

If not for that, it would not have collapsed so quickly.

The two families could be said to be mortal enemies, so it was normal for the Nangong family to want to exterminate them.

Nangong jueye was a direct descendant of the Nangong family and had a high chance of becoming the next patriarch. After hearing patriarch hei ye's words, he burst into laughter.

"You also know that my name is Nangong jueye. Don't you understand that I'm the one who exterminated your heiye clan? Right now, the situation between our two families is already irreconcilable. If we let you continue to develop, who knows when you will come back to plot against our family?"

"It's convenient for everyone to kill all of you. You old, weak, sick, and disabled people should obediently stick your necks out to be killed, so as to avoid unnecessary pain! Today, I've brought the elites trained by our Nangong family. We've completely surrounded this place, and you guys should fly south even if you have wings!"

The majority of these one thousand people were the Nangong family's private soldiers, while Sima Yun San only brought fifty personal guards. The difference in strength between the two was similar to the difference in strength between the two families.

If it wasn't for Liu Ziyu, the Nangong clan could pull the Sima clan down at any time.
