

Bodyguard 8661

Chapter 8661

However, the mysterious man wasn't a fool. At that time, it would be strange if he still wanted to stay here and wait for death!

Zhen shuaqi's face was a little pale. It was a huge burden for him to interfere with an expert like the mysterious man. If he used it continuously in a short time, it might cause some irreversible damage to himself.

But he had no other choice-if Lin Yi failed, he would die with him!

Hence, he had to create an opportunity for Lin Yi to save his own life.

Zhen shuaqi gritted his teeth and attacked again, successfully stopping the mysterious man for a second, allowing Lin Yi's palm to grab the inspector's neck first!

Lin Yi pulled the inspector back quickly, and Zhen shuaqi almost spat out blood.

In order to avoid being seen through by the mysterious person, he forcefully swallowed the mouthful of blood back, but it increased the burden on his body.

The mysterious man's expression was extremely gloomy. His plans had been affected three times in a row, causing all of them to fail.

But because he didn't know what was going on, he didn't continue attacking. He stood there and confronted Lin Yi.

Lin Yi quickly stopped the patrol. He should've killed him right away, but in this situation, he could use him as a hostage to threaten the mysterious man.

"Sima Yi, don't think that you can threaten me just because you've caught him. I'm not the person in charge of Feng Qi Dazhou. I'm only here to take a look at the situation. It doesn't matter to me whether you kill him or not!"

The mysterious man cut off Lin Yi's idea of using the investigator as a hostage and laughed coldly, "Your little tricks are not bad, but after this King has taken precautions, it's not quite possible for you to succeed. If you don't want to die too painfully, then quickly surrender!"

Lin Yi didn't care about the mysterious man's words and used his spirit sense to create a sound barrier before asking Zhen shuaqi.

"What method did you use to interrupt that Idiot's movements? Quick, tell me in simple terms!"

Zhen shuaqi didn't dare to hesitate and immediately replied, "This is a small technique passed down by the Sorcerer tribe. It's specially used against the experts of the darkness demon beast tribe who have achieved the Wu Linghai realm."

When the Sorcerer tribe and the darkness demon beast tribe formed an alliance, they seemed to be very close, but the Sorcerer tribe had never let down their guard against the darkness demon beast tribe.

For example, the brainwashing technique that was passed down to the darkness demon beast clan was a castrated version of the technique, and it was ineffective on people with the witch clan's bloodline.

Zhen shuaqi used this loophole to be a spy in the darkness demon beast clan.

Although Zhen Shuai Qi's witch race bloodline was very thin, he could still use some witch race techniques.

"Tell me how to use it!"

Lin Yi quickly asked.

Zhen shuaqi's condition was like an arrow at the end of its flight. Lin Yi knew that Zhen shuaqi wouldn't be able to provide much help in the following battle, so he had to master this technique himself.

Zhen shuaqi didn't hesitate and recited a chant.

He knew that this was an emergency, and it wasn't the time to keep it to himself. The only thing he needed to worry about was whether Lin Yi could master the chant quickly.

This was a technique of the wizard clan, and it had a lot of limitations. Firstly, the darkness magical beast clan would definitely not be able to use this technique that was specifically targeted at the darkness magical beast clan.

Zhen shuaqi didn't know if humans could use it but he had no other choice.

What he didn't know was that Lin Yi's Wu Linghai was inherited from the true Wu clan's great Starlight witch, and his Wu Linghai body was also extremely pure. If Lin Yi was from the Wu clan ... It didn't seem like there was anything wrong with that!

Lin Yi immediately understood the technique.

This mantra was specially used to suppress and deal with experts who possessed the Wu Linghai, including the darkness demon beasts who had the Wu Linghai!

However, if it was an ordinary darkness magical beast, it would not be of any use unless Wu Linghai had been formed.

The reason why Lin Yi was immune to it was because Lin Yi's Wu Linghai was different from other humans '.

Lin Yi was the real Wu Linghai, a Wu clan's Wu Linghai like Starlight Magus, not the fake Wu Linghai that humans had.

The mysterious man also felt that Lin Yi had blocked his voice and was discussing something with Zhen shuaqi. Since they didn't dare to let him hear, it must be something bad!

So the mysterious man didn't hesitate and attacked Lin Yi again!

Unfortunately, Lin Yi and Zhen shuaqi's conversation was very fast, and the chant was very short. When the mysterious man attacked, Lin Yi had already mastered the little technique!

Lin Yi's lips curled into a confident smile as he watched the mysterious man charge at him.

This time, it was completely different!

It was time to show his true skills!

The Sorcerer spirit sea of the Sorcerer tribe could make some of the darkness demon beasts stronger, but it also gave them hidden dangers that they could not ignore!

"Face the wind!"

Lin Yi's Wuling ocean started vibrating rapidly, creating an invisible vortex that enveloped the entire area!

Zhen Shuai was dumbfounded. He felt like a Wanderer who had finally returned to his family and was surrounded by the aura of blood.

Not only did he not feel any discomfort, but he also felt that every cell in his body was cheering for joy, as if he was soaking in a comfortable hot spring.

However, the mysterious man's feeling was completely different. He only felt that his primordial spirit had been inexplicably shaken, as if it had been imprisoned by something.

Although there was no damage for the time being, all the strength in his body was blown away as if it had been blown away by a strong wind.

For a moment, the mysterious man couldn't even control his own footsteps as he staggered and fell to the side.

As for the attack on Lin Yi, it naturally disappeared!

Lin Yi's strength was also different from Zhen shuaqi 's, and the same move would have different power in different people's hands.

Zhen shuaqi could at most interrupt the mysterious person for a moment, but Lin Yi was different.

If Zhen shuaqi's effect time was one-hundredth of a second, Lin Yi could at least last two seconds!

It was just that awesome!

The mysterious man's heart was in a state of panic. It was a familiar feeling, but it was different!

In a battle between experts, a slight difference could lead to a huge difference!

A full two seconds was enough for him to kill a person dozens of times with new tricks!

He was afraid, he wanted to escape!

Unfortunately, he could not escape!

Lin Yi, of course, wouldn't let go of such a good opportunity. He went up and cracked it.

There was nothing much to say. The mysterious brother who came from thousands of miles away to deliver his head died just like that!

His spirit disappeared on its own, and Lin Yi couldn't catch it, just like kaoya.

Lin Yi didn't pay much attention to it when it died-he thought it was the after-effect of the formation and movement technique!

Now that the same situation had occurred again, he was certain that there was something wrong!

Chapter 8662

Perhaps ... It was because they all had the inheritance of Wu Linghai? The primordial spirit would dissipate at the same time of death?

Wu Linghai of the Sorcerer tribe was definitely not like this, but Wu Linghai of the Beast of Darkness was.

Had he been tricked by the Sorcerer tribe again?

Or did the darkness demon beast clan do this on purpose to prevent the defeated high-level primordial spirit from falling into the hands of the Sorcerer tribe?

Lin Yi's mind was in a mess, and he couldn't figure out the truth.

Even if there was a truth, it would have long disappeared in the long river of history!

Zhen shuaqi had been holding his breath since the mysterious man attacked, but in the blink of an eye, the mysterious man was killed by Lin Yi.

He didn't know whether to let out the breath he had just held in or not ...

He was so nervous that he was about to die, and in the end, you killed such an awesome darkness magical beast!

Zhen shuaqi looked at Lin Yi and felt really awkward!

Especially Zhen shuaqi-he was worried that Lin Yi wouldn't be able to remember this trick in such a short time, but Lin Yi used it to win!

The effect was obvious and Zhen shuaqi started to doubt if he knew how to use that trick!

Compared to Lin Yi, he felt like he'd learned a fake thing ...

Lin Yi didn't pay attention to Zhen shuaqi's thoughts as he looked at the mysterious man's broken body.

What a good disguise!

Unfortunately, he had ruined it!

This guy was too strong, and Lin Yi didn't dare to hold back, causing the mysterious man to leave in a very bad way. The crime scene was extremely cruel!

He turned to look at the inspector and couldn't help but sigh. No wonder jinbotian bro couldn't find out the exact problem with Fengqi Dazhou all these years!

It would be a wonder if they could find out!

It was all dark under the spotlight. Jin botian probably never thought that the biggest problem was that the trusted subordinate he sent was actually a spy from the darkness demon beast clan!

It's good enough that they didn't find anything after all these years. If the patrol envoy deliberately lied about the military and misled the starsource continent's inspection Institute, things would be bad!

It seemed like Jin botian's men weren't reliable either. Luckily, Lin Yi didn't use the power of the patrol to do anything after he came to Fengqi Dazhou.

Otherwise, it wouldn't be the dark beasts that would be in trouble, but Lin Yi himself!

"Lord Sima, what should we do now?"

Zhen shuaqi was completely convinced by Lin Yi now.

By right, he should have immediately reported this to the first hall Master. He had not reported it in advance and not reported it after the incident. It was definitely a serious dereliction of duty!

However, Zhen shuaqi subconsciously respected Lin Yi and forgot that the first hall Master was his real boss. He actually asked Lin Yi what to do.

Lin Yi muttered to himself, "I'll report this to the first hall Master, you stay here and look after the inspector!" To avoid any accidents!"

"In order to prevent other darkness demon beasts from coming, I'll change the way we enter and exit this place, and set up a few formations!"

The inspector was much stronger than Zhen Shuai, but he should be fine after being restricted by Lin Yi.

38 shuidun road was the territory of the darkness magical beasts. If the mysterious man could come, the other darkness magical beasts could naturally come as well.

Lin Yi decided to set up all the formations first and make some changes to the way in and out.

Even if another mysterious-level Dark Demon beast came, with the help of these formations, Lin Yi would have enough strength to face it head on!

Naturally, Zhen shuaqi didn't have any objections. He would do whatever Lin Yi said.

After giving the formation flags to Zhen shuaqi, Lin Yi left 38 shuidun road and went to find the first hall Master of martial League and send a message to Jin botian.

Before Jin botian arrived, Lin Yi briefly explained the situation to the first hall Master, who broke out in cold sweat!

"Brother Sima, you're taking too much of a risk. What should I do if something unexpected happens?"

The first hall Master was shocked and patted his chest with lingering fear,""How could you dare to face an expert from the darkness demon beast clan alone? Moreover, there's a high-level mole inspector here!"

As for Zhen shuaqi, he was directly ignored by the first hall Master. It wasn't that he didn't value Zhen shuaqi, but he was completely useless in a battle of strength!

Of course, in the end, Zhen shuaqi still played a crucial role and this was a surprise.

Under normal circumstances, no one would consider Zhen Shuai a combat force!

"I was also thinking if another Zhen shuaqi would appear. If that's the case, I'll be able to easily take down the Masters of the darkness demon beast clan! If there were too many people, we might have alerted the enemy, so we didn't report in advance. Please forgive us, first hall Master!"

Lin Yi cupped his hands in apology, his attitude very sincere!

Since he had already done it, it didn't matter how sincere he was.

The first hall Master smiled bitterly and waved his hand, "there's no need to be so polite between us!" I can't even thank you enough for helping me solve this problem, so what's there to talk about forgiveness!"

"I'm just worried about your safety. You were lucky this time, but don't take such a risk next time! We'd rather take it easy and let the darkness demon beast clan's experts off. We must ensure your own safety!"

"Understood, I won't take such risks again!" Lin Yi nodded with a smile.

Well, let's talk about the future in the future. It doesn't matter now!

"By the way, regarding the matter of the patrol, as it involves the Xingyuan continent's Patrol Department, first hall Master, you should not interfere. So, I did not bring him here. He is still at 38 shuidun road!"

The first hall Master and the inspector were in two different systems, and Lin Yi did this to avoid trouble for the first hall Master. He could talk things out with Jin botian.

As the saying goes, dirty laundry shouldn't be aired in public. If the first hall Master was involved, Jin botian might think that he was deliberately embarrassing him, but there was really no need to do so.

The first hall Master nodded. He understood what Lin Yi meant and was touched. He felt that Lin Yi was really honest, willing to take on the responsibility himself and get him out.

My good brother!

What he didn't know was that Lin Yi and Jin botian were on the same side, and it wasn't a big deal for Lin Yi to get wind of this.

Jin botian would probably only be happy, he wouldn't hate Lin Yi.

The two of them talked for a while, and someone said that Vice Principal Jin botian of the continent's inspection department had personally teleported over.

Out of courtesy, the hall Master and Lin Yi went to welcome Jin botian.

After some small talk, the first hall Master excused himself, saying that he had something on. Lin Yi led Jin botian to 38 shuidun road to take over the patrol.

When he was only accompanied by his trusted guards, Jin botian sighed. "Junior Brother, it's all thanks to you this time! If that traitor were to commit an evil deed that harms the interests of mankind, it would be too late to discover his misdeeds!"

Chapter 8663

Lin Yi had helped Jin botian a great deal by bringing out the investigator-this Dark Demon beast hadn't done anything harmful yet.

Caro ya wouldn't use a spy of this level easily. Once he did, it would be an earth-shattering event!

The patrol envoy was Jin botian's direct subordinate. If something were to happen, Jin botian would definitely be implicated. At the very least, he would be jointly responsible for not being strict with his supervision and not checking his subordinates!

"There's no need to be so polite, senior apprentice-brother, I was just lucky. If it wasn't for the fact that a higher-up from the darkness demon beast clan contacted him, I would have been fooled by him! It's just luck!"

Lin Yi didn't take the credit and mentioned Zhen shuaqi, "There's a Zhen shuaqi who performed quite well in this incident. It's all thanks to him that we were able to find all the spies of the darkness demon beast clan!"

Jin botian nodded slightly. "Don't worry, I won't forget his contributions. However, you don't have to be humble, Junior Brother. If it weren't for you, how could this matter have ended so easily?"

"Before you came to Fengqi continent, this place was almost secretly controlled by the darkness demon beast clan. The situation was so bad that I didn't have high expectations when I threw you here!"

"I didn't expect you to open up the situation in such a short time and even reverse the situation in one fell swoop. Now, you've even caught the traitor. You've definitely made a great contribution!"

Jin botian couldn't hide the joy on his face when he mentioned this, and even the anger of the patrol envoy's betrayal dissipated.

He raised Lin Yi up and sent him to Fengqi Dazhou as a spy. Now that Lin Yi had achieved such a glorious achievement, Jin botian was also proud!

Back in Wutong, Jin botian saw that Lin Yi was still lacking in strength, but now, he realized that Lin Yi was already in the early stage of heaven-breaking!

A genius!

A true genius!

Furthermore, he was a Double diamond-grade Grandmaster in both array and alchemy!

To be honest, when Jin botian was at the Wutong continent, he only wanted to help his little brother and take good care of Lin Yi for the sake of his teacher.

Now, his thinking had completely changed. He wanted to strengthen the relationship with his Junior Brother and join hands to create a great cause!

To put it simply, Jin botian used to have a superior mentality, but now, he had placed Lin Yi on the same level. There was no difference between the two of them!

"Junior Brother, at this time, there are many things to be done in Fengqi great continent. You can't leave for the time being, so you can share my worries!"

Jin botian smiled at Lin Yi, "The position of patrol is empty and I can't find a suitable person to replace it in a short time. Senior brother wants you to temporarily take over the position of patrol. After we settle down in Feng Qi continent, we can consider other things. What do you think?"

Lin Yi blinked. Temporary patrol? Wasn't this a little too much?

He thought about his current status as the Dean of the Tianxia College's pill refining section, the Vice President of the continent's pill refining Guild, the Vice President of the continent's array formation Guild, and the Grand Elder of the martial Alliance.

Most importantly, there were diamond-grade secret agents from the continent!

There were too many things going on!

"Senior brother, you know that I have another identity. Isn't it a bit inappropriate to temporarily act as the patrol?"

Lin Yi thought that Jin botian might have forgotten his identity as a spy, so he reminded him. The other identity he mentioned wasn't the Vice Presidents, but the diamond spy!

The secret envoy and the patrol envoy were two independent branches, not subordinate to each other and had nothing to do with each other. There had never been a precedent of a person holding two positions.

To put it bluntly, it was against the rules!

However, Jin botian did not want to stick to the rules. He immediately smiled and waved his hand. "Of course senior brother knows, but you're the most suitable person to temporarily act as the patrol envoy. Right now, no one is more suitable than you!"

"The situation in Fengqi great continent can be said to have been stirred up by your power alone. Senior brother also knows that you haven't done your best yet. After you temporarily take over as the patrol, your identity is more justified!"

"This way, it'll be much more convenient for you to do things, and you'll be able to use more power! Plus, you're on good terms with the Great Hall Master of martial Alliance here. I believe that we can completely stabilize the situation in Fengqi continent soon. "

"At that time, senior brother will naturally choose a suitable person to take over the position of patrol because you have more important tasks to do. You definitely can't stay in Feng Qi great continent."

Lin Yi didn't know what to say-she was already thinking about his next stop?

Why did it feel like he was about to become this senior brother's contract worker?

However, Jin potian's words made sense. The identity of the secret agent could not be exposed at will. Although the Vice President of the starsource continent was very expensive, it was not very convenient to do things in the Fengqi continent.

After all, these two positions only had direct jurisdiction over the alchemy Association and the array formation Association. But with the title of temporary patrol, it was different and indeed much more convenient!

"Alright! Since it was his senior brother's order, his Junior Brother naturally had to do his best to complete it! Then I can only reluctantly accept the appointment of temporary patrol envoy!"

Lin Yi's expression made Jin botian laugh.

"Other people can't ask for more, but you're feeling so wronged! You really don't know how blessed you are!"

Jin botian laughed and scolded him. The relationship between the two of them would naturally improve rapidly in such an atmosphere.

Behind them, Jin botian's trusted personal guards were secretly amazed. Jin botian was usually very serious and would not smile like this unless he was an extremely close relative.

It was obvious that this Sima Yi had already become one of Jin botian's closest companions!

With that, they'd know how to act appropriately when they faced Lin Yi in the future, and wouldn't treat him the same way as other people.

Lin Yi and Jin botian laughed and talked all the way, and no one could hear what they were saying.

Even with Lin Yi's methods, the passersby could only see a blurry figure, not even a clear face.

When they arrived at 38 shuidun road, the two were basically done with their conversation. Lin Yi even gave a simple account of what happened in Fengqi continent, including the destruction of the dark Demon beast stronghold in the underground Devil's Cave.

Jin botian had received the report before, but hearing it from Lin Yi's mouth again still filled him with shock!

The handover of the patrol went smoothly, and no dark Demon beast Masters entered 38 shuidun road again. Zhen shuaqi naturally let out a breath of relief when he saw Lin Yi.

"This must be the Zhen Shuai Qi that inspector Sima mentioned? He's a good man!"

Jin botian didn't want to reveal his relationship with Lin Yi in front of others, and he used the temporary inspector position to address Lin Yi.

Zhen shuaqi didn't expect Lin Yi to mention him in front of Jin botian and quickly bowed to thank him. It was a rare honor to be praised by Jin botian.

Chapter 8664 Power

Jin botian continued, "Zhen Shuai Qi, patrol Sima praised you a lot in front of me, saying that you're the hero of this operation!" Therefore, you should have a share in the reward. "

"Now that Sima Yi is temporarily acting as the patrol envoy, it's a reward for him. Do you have any thoughts? If you're interested, I can transfer you to the starsource continent's patrol institution. After some training, you can become a patrol inspector of a region!"

There was a huge difference between an inspector and Lin Yi's inspector. They were basically only working in a titled Empire under the martial Alliance.

However, with Zhen shuaqi's identity and strength, it was already a huge step.

"Of course, if you don't want to go to the starsource continent's inspection Institute, you can also make a request. For example, you can take up a position under inspector Sima. You can also ask for some resources you need."

Jin botian gave Zhen shuaqi the chance to name his price and request for Lin Yi's sake.

Otherwise, someone of Zhen shuaqi's status would naturally be rewarded by his superior, so why would Jin potian need to worry?

Zhen shuaqi was very tempted but he didn't lose his mind. He just thought about it and bowed respectfully, "Many thanks for Vice President Jin's favor. Actually, this lowly one didn't contribute much, so I really don't deserve Vice President Jin's favor!"

"This lowly one doesn't have too much ambition. I'll listen to Vice Principal Jin and patrol Sima's arrangements! If there's a need, this lowly one will go through water and tread on fire without hesitation!"

He wanted to follow Lin Yi, The Miracle Worker, but he remembered that he was still the first hall master's subordinate. No matter what, he wouldn't ask to leave the first hall Master and join Lin Yi.

If Lin Yi needed him, he could go to the first hall Master and mediate. Zhen shuaqi would be happy to see that happen, so he could only say this much.

Lin Yi nodded and understood Zhen shuaqi's concerns. He smiled and said, "Don't worry Deputy Dean Jin, Zhen shuaqi's contribution and reward will be reported later. We won't mention it today!"

This was to give Zhen Shuai some buffer time so that he wouldn't regret making a decision in the future.

Jin botian wanted to give Zhen shuaqi some benefits and since Lin Yi said so, he naturally wouldn't force it.

So after chatting for a bit more, he left Feng Qi continent with the still unconscious patrol!

Lin Yi watched them leave and was about to go home when the first hall Master came.

"Brother Sima, this time you've made a great contribution and even helped me a lot. Don't be in a hurry to leave today, we must hold a celebration party to celebrate!"

The first hall Master was in a good mood-there were too many things worth celebrating recently, and he'd always wanted to throw a grand party for Lin Yi, but never had the chance to.

It was a rare opportunity today, so he had to get this done no matter what!

Lin Yi couldn't refuse, and so the first hall Master started making preparations, sending people to deliver invitations.

With Lin Yi's current popularity in Fengqi Dazhou, he was already the target of invitations from all the families. The first hall Master held a celebration party in Lin Yi's name, naturally, there would be a lot of people who would attend. Anyone who received the invitation would immediately go to the banquet.

Those who didn't receive the invitation but heard the news were anxiously waiting for the invitation. They were also considering if the first hall Master had forgotten to invite him. Should he go to the banquet on his own?

When the banquet started in the evening, all the major families and forces in Fengqi continent basically had heavyweight representatives attending. For a time, it could be said that the top gathered, the elites gathered!

The first hall Master was all smiles. After all the forces had greeted him, he personally went up to the support platform.

"Everyone knows the theme of today's celebration. It's to celebrate our Grandmaster Sima Yi's successful discovery of the darkness demon beast clan's high-level spy, the original patrol of our Phoenix nest continent!"

"I don't think anyone would believe that the patrol envoy was a spy arranged by the darkness demon beast clan. He's definitely one of the top figures in our Phoenix nest continent, and I'm only on the same level as him. I really don't understand why he would betray humanity and join the darkness demon beast clan!"

"But it doesn't matter anymore. He has already been arrested, and Grandmaster Sima has been appointed by the star source continent's inspection department as the temporary inspector of our Phoenix nest continent! From today onwards, Grandmaster Sima is patrol Sima!"

"I believe that with patrol Sima around, the darkness demon beast clan will never be able to stage a comeback! Our Fengqi Dazhou will forever ..."

The first hall Master spoke in high spirits, and the people below were also very excited. They were waiting for him to finish speaking to give a wave of warm applause and cheers!

Unexpectedly, when the first hall Master said this, he suddenly fainted. His body tilted and he fell on the stage.

There was an uproar on and off the stage!

The first hall master's personal guards quickly surrounded him for protection. Anyone who wanted to approach him was temporarily isolated.

Other than Lin Yi, there was also Zhang Yiming and Fei daqiang.

The hall master's personal guards all knew about Lin Yi's relationship with the hall Master. At this stage, the two of them were in a solid Alliance.

Lin Yi wouldn't harm the first hall Master, so he let the three of them in immediately.

After all, Lin Yi was a Diamond Grade Grandmaster, and his medical skills were well-known. The first hall Master was in trouble, and they had to find a doctor to take a look. There didn't seem to be any doctor better than Lin Yi, right?

Lin Yi squatted down beside the first hall Master and observed him, his face expressionless. After a while, he stood up and announced,

"Everyone, I'm really sorry. First hall Master suddenly fell ill and needs to rest. I'm afraid that tonight's banquet can not continue. Please go home for the time being and allow us to visit you again in the future to apologize!"

The audience burst into an uproar again.

From Lin Yi's words, it wasn't hard to tell that the first hall master's sudden fainting wasn't simple, and he wouldn't be able to wake up anytime soon.

This matter could be big or small!

"Patrol envoy Sima! What illness did the first hall Master have? When will he wake up?"

Someone asked the question that was on everyone's mind, hoping to get an answer from Lin Yi.

Lin Yi maintained his expressionless face, "For now ... We can't determine the reason for first hall master's unconsciousness. Naturally, we can't predict when he will wake up!"

"Everyone, please go back and wait patiently. I believe that we will soon have accurate news! The first hall master's life is related to our entire Feng Qi great continent. I understand everyone's concern for the first hall Master, but you can't do anything here. Please go back!"

Under Lin Yi's constant persuasion, the guests could only disperse.

However, when they left, they were all in small groups of three to five, forming small circles to discuss the first hall master's coma!

Chapter 8665

The main point of the discussion was not the reason why the first hall Master was unconscious, but how long it would take for the first hall Master to wake up. If he did not wake up, what changes would happen to the structure of martial League, and so on.

After everyone had left, Lin Yi ordered the guards to send the first hall Master back to her room to rest. He was about to leave martial League when he was stopped by the first hall master's guards.

"Patrol envoy Sima, what's the situation with our first hall Master? Will it be dangerous?"

The personal guards who could follow the first hall Master were naturally the most loyal group of people, so they were completely sincere to the first hall master's nervousness: "Patrol Sima's medical skills and pill Dao are second to none in the great land of Feng Qi. First hall Master can only count on you!"

Lin Yi shook his head decisively, "I didn't hide anything. For now, I can't see the cause of the head master's illness. I can't help him. I need time to think about it!" Take good care of the first hall Master. I'll go back and read the ancient books to find similar diseases for research!"

The guard was disappointed. If even Lin Yi said that, then there really was no one in Fengqi Dazhou who could wake up the first hall Master!

Lin Yi said his goodbyes and left. Zhang Yiming and Fei daqiang followed him without a word. Zhang Yiming couldn't hold it in anymore after they returned to his house.

"Boss, the first hall master's symptoms should be the effect of the seed that was planted in his spiritual sea! We can save him, why are you hiding it?"

Zhang Yiming and Fei daqiang had previously removed hundreds of people who had been brainwashed and obtained a large amount of spiritual power transformed from the instant-Death Seed. Their primordial spirit had improved greatly.

After doing it so many times, he immediately understood what was going on when he saw the first hall master's symptoms.

Of course, the first hall Master wasn't implanted with the seed of instant death. Instead, it was the parasite-like seed in Ling lingjiu's sea of consciousness when she first came to the Phoenix Qi continent.

Using the host's consciousness as nutrients, it would continuously absorb the host's consciousness, and finally cause the host's primordial spirit to collapse. It would then return to the host's hands after eating and drinking to its full to feed the host.

This seed was by no means the same as the instant-Death Seed, but there were some similarities, so Zhang Yiming and Fei daqiang could see it.

However, Lin Yi said he didn't know. Even if they were suspicious, they wouldn't expose him in front of everyone.

It was only when they returned to their own territory that they could not help but ask for the reason.

"No rush," Lin Yi smiled faintly, "let's wait and see. The first hall Master is not in danger for the time being. It's more appropriate for him to be in a coma now. "

Zhang Yiming thought for a moment and suddenly understood.

Zhang xiaopang was a genius in information gathering and analysis. Although Lin Yi didn't explain the reason, Zhang xiaopang could still deduce Lin Yi's purpose from this sentence.

Fei daqiang was a little dumbfounded, but since his big brother said to wait and see, then he would just wait and see. As a senior leg hair, he had to obey his big brother unconditionally!

Anyway, Fei daqiang didn't care about the first hall master's death!

Even if Lin Yi didn't care, the people of martial Union couldn't. In the past few days, famous doctors and pill Masters of Fengqi Dazhou had seen first hall Master, but no one could save him!

Although the martial Alliance of the entire Fengqi continent hadn't reached a standstill, there were still many obstacles!

The hearts of the various tribes in the martial Alliance wavered. For a moment, the darkness demon beast clan's victory seemed to be covered in a layer of lingering haze!

Lin Yi was still observing everything in the dark, not making a move to save the head.

This seed was extremely sinister. After the incident with Ling lingjiu, it never appeared again. Now that it finally appeared, Lin Yi had to grab this opportunity to find the mastermind!

It was still the same sentence. If he treated the first hall Master too early, he would only alert the enemy.

The head master's condition was under Lin Yi's control, and there was no way he'd be in danger. He'd just leave him unconscious as bait!

Two days later, the continental martial Alliance sent a new order.

The general idea was that because the Great Hall Master couldn't manage things in Fengqi great continent, it caused a pile of Affairs and political orders to be difficult, so Ouyang kuantian was appointed as the acting Great Hall Master to temporarily deal with all matters of the martial Alliance in Fengqi great continent!

If the first hall Master didn't wake up ... Then Ouyang kuantian would probably take the opportunity to become an official!

Of course, this would only be possible after two to three years.

During this period of time, as long as the first hall Master recovered, Ouyang kuantian could only go back to where he came from and obediently return the power in his hands to the first hall Master!

Those who were on good terms with the Ouyang family had already come to congratulate them, completely ignoring the fact that the first hall Master was still unconscious.

As for those people or forces that were not on good terms with Ouyang cuantian, they also began to try to ease their relationship, intentionally or unintentionally.

Only those who had deep grudges would be dissatisfied with this and secretly want to destroy Ouyang kuantian's appointment as the acting Hall Master.

Lin Yi didn't really care about the undercurrents, but what surprised him was why it was Ouyang kuantian.

According to the principle that the person with vested interests was the biggest suspect, didn't that mean that Ouyang cuantian was the most likely suspect to have made a move on the first hall Master?

Did he really do this?

Lin Yi's guess didn't include Ouyang kuantian's name-could he have guessed wrong? Could it really be Ouyang chuantian's doing?

The situation wasn't clear yet, so Lin Yi had to be patient and wait!

The first thing Ouyang cuantian did after taking over the position was to start selling the various elixirs made by the Ouyang family in large quantities. The price was 10% to 20% lower than the market price of the same type of elixirs, and the sales were extremely hot.

The outside world said that Ouyang kuantian was buying people's hearts and using pills to win over martial artists from all walks of life in Fengqi continent. The number of people who supported him increased day by day, but there were naturally people with different opinions.

For example, the pill stores that had their market share squeezed out ...

However, Ouyang cuantian did not care and continued to do things his own way. Not only that, but he also started to give pills to the battle Association's battle generals for free!

The combat Association had always been the territory of the Great Hall Master, and outsiders could not interfere at all. By giving away the pills as an entry point, Ouyang kuantian seemed to have the intention of opening up a gap!

It wasn't that the battle generals of the combat Association wanted to give them away for free, but Ouyang kuantian, as the acting Hall Master, had given the order that all the battle generals had to consume these pills!

Otherwise, they would be betraying the martial League and humanity! The ones who didn't eat them were definitely the darkness demon beast clan's traitors who hadn't been caught!

How long had it been since the operation to clean up the spies? The aftershock still existed. After Ouyang cuantian had put this label on them, some battle generals started to hesitate.

After some discussion, the battle generals selected a daring member who took the first pill that Ouyang cuantian had given him.

No one had seen this new pill before, but the first battle general to use it had his strength increase dramatically after a day. It was like he had eaten a divine pill!

As a result, the other battle generals could no longer hold back. The desire for strength was the lifelong dream of every martial artist.

Chapter 8666

With this kind of opportunity to improve their strength, who would still care about who gave them the medicinal pill? Let's increase our combat strength first!

Lin Yi, on the other hand, didn't pay much attention to this. His attention was focused on the first hall master's surroundings and Ouyang kuantian's daily life. He wasn't too interested in what Ouyang kuantian did.

It wasn't until Yan Su came running over in anger that Lin Yi realized what Ouyang kuantian had done!

"Director Yan, why are you here?"

Lin Yi welcomed Yan Su in and invited her to the seat of honor while he sat beside her.

It didn't mean that he could disrespect Yan Su just because he was a patrol envoy. Lin Yi still treated Yan Su as his elder, and he would respect her to the end.

Yan Su said angrily, "Sima Yi, you're the patrol now. Are you going to take care of this?" If you don't care, I'll personally go find Ouyang chuantian and fight him!"

"Director Yan, what happened? why are you so angry?" Lin Yi smiled. Tell me first, if there's anything you need my help with, I'll definitely do my best and not back down!"

"Your words are enough! But what kind of patrol are you? You don't even know about such a big thing?"

Yan Su used to favor Lin Yi, protecting him both in the open and in the dark, but now that he'd made a name for himself, the old man wasn't as polite as he used to be, speaking to him as he pleased.

Lin Yi knew that this was a sign of Yan SU's acknowledgment of him, so he didn't mind.

Yan Su didn't wait for Lin Yi's reply and continued, "Ouyang cuantian, that traitor. Didn't he recently give free pills to the battle Association's battle generals? they still have to eat them. If they don't eat them, they'll be considered traitors."

"Can you guess what happened? That bastard was really not human! What kind of pill was this? There are some people whose strength increased greatly after eating it, but there are some battle generals who not only did not increase their strength, but their muscles became stiff and their movements became slow!"

"These are all good men who have risked their lives to fight against the darkness demon beast clan! The darkness demon beast clan couldn't kill them, but Ouyang kuantian used this damn pill to cripple them! What does he want to do?"

Lin Yi was stunned as he looked at the enraged Yan Su. Was Ouyang cuantian crazy?

"Don't worry, director Yan. I won't just stand by and watch. Let me understand some things first!"

Lin Yi consoled him before calling for Zhang Yiming.

In terms of intelligence, Zhang xiaopang was absolutely reassuring. He would collect records of everything, no matter how big or small.

In fact, Zhang Yiming had previously mentioned that Ouyang cuantian was selling pills at low prices and giving out battle general pills for free.

It was just that Lin Yi's attention wasn't on this recently, so he didn't pay much attention to it.

"Boss, this is the information about the Ouyang family's alchemy. There are also various data about these pills."

Zhang Yiming always had a small information booklet with him, and he flipped through the pages to show Lin Yi the information he needed. "The pills that the Ouyang family is selling this time are very different from the ones they've refined before. The medicinal effects are also a little strange."

"There's a small chance that a person's strength will be greatly improved after taking the medicinal pill. There's also a portion of people who have no use for it, as if they didn't eat it at all."

"The last group of people will be uncomfortable with the medicinal properties of the pill, causing their muscles to stiffen and their mobility to be affected, resulting in a substantial decline in their strength. In conclusion, this pill is not universal!"

"Or to put it another way, this pill should still be in the research stage and not mature yet! Ouyang cuantian is being released more like he's testing the medicinal properties of the pill. The battle generals that took the pill are his test subjects!"

"I'm sorry, boss!" Zhang Yiming looked a little ashamed. "I was also negligent. These inferences were just sorted out and I didn't warn you in advance!"

Lin Yi waved his hand. It wasn't the time to think about that. He felt a sense of familiarity from Zhang Yiming's words.

This method ... Wasn't this the trick that central was used to?

Central had always liked to experiment with all kinds of medicinal pills and elixirs on human bodies to increase the human body's potential, and they had many achievements!

Whether it was the common world or the Sky Class Island, Lin Yi could be said to run into the test subjects at the center of the world wherever he went!

Because true energy couldn't be used on the sub-Island, the research direction of the center was slightly different. Although they could learn from the past experience, they definitely needed to explore a new path.

Without a doubt, what happened this time was one of Central's attempts!

"Director Yan, from the evidence we have, Ouyang cuantian is indeed strange. Leave this matter to me, don't worry!"

Lin Yi finished reading the report and turned to Yan Su, making a solemn promise, "The combat Association's combat generals are all heroes of mankind. I'll definitely do my best to treat the combat generals who have problems. I won't let them have any future problems!"

Yan Su was naturally anxious when a battle general was in trouble. As the Vice President of the combat Association, she was also worried about the future of mankind.

The battle generals were the city walls that protected the safety of the humans. If anything happened to them, the darkness demon beast clan would return with an unrivaled force!

Yan SU's expression relaxed slightly as she smiled and nodded, "With your words, this old master can rest assured! Although you've done a lot for Fengqi Dazhou, you can even say that you saved Fengqi Dazhou from fire and water! But the capable do more work, don't blame this old man for looking for you!"

"Director Yan, what are you saying! These things are my duty, and I'm obliged to do so! I'll handle it right away. You can go back and rest first and wait for my news!"

After Lin Yi sent Yan Su off, he told Zhang Yiming to continue gathering information while he went to the clinic to find Zhen shuaqi.

Zhen Shuai didn't get a promotion or reward immediately after he made a big contribution.

Lin Yi wanted the first hall Master to make the decision since Zhen shuaqi had always been the first hall master's man.

In the end, before he could deal with it, the first hall Master fell unconscious at the celebration banquet.

In this situation, it wasn't convenient for Lin Yi to deal with Zhen shuaqi's promotion reward as he had the intention to poach first hall master's disciple. He could only put it on hold. Zhen shuaqi understood and didn't complain.

However, the situation was a little special. Lin Yi needed help and Zhen shuaqi was the most trustworthy person so Lin Yi entrusted him with this important task.

All the pill houses and medical houses under martial Union were in one place, and Lin Yi gathered all the managers and higher-ups.

"As the Vice President of the alchemy Union of the starsource continent, I will temporarily take over the medical center and pill shop under the martial Alliance of the Fengqi continent. Is there any objection?"

Chapter 8667

His tone was calm, but the strength in it couldn't be hidden. Lin Yi was in the limelight in Fengqi Dazhou now. Although the first hall Master seemed to have been in hiding for a few days after she fell unconscious, no one dared to question him.

Especially since Lin Yi was the Vice President of the alchemy Union. He could even take over the alchemy Association, let alone the medical center!

"Vice President Sima is willing to personally take over our Medical Hall and pill shop. This is naturally a good thing! Now, who in Fengqi great continent doesn't know that Lord Sima is the strongest Diamond Grade alchemy Grandmaster and also a Divine Doctor. With Lord Sima leading us, we're all dancing and overjoyed!"

The person in charge of the medicine shop smiled happily and immediately welcomed Lin Yi.

Lin Yi looked at him and said, "Since no one has any objections, I'll announce a new appointment. From today onwards, Zhen Shuai will be promoted to the Vice President of the alchemy Association and will temporarily be in charge of all the specific Affairs of the medical center and pill shop! This appointment will be maintained until the first hall Master awakens and will be arranged according to the situation!"

The original person-in-charge's face stiffened, and he immediately lowered his head to accept the order.

Although he didn't understand why Zhen shuaqi would suddenly take his place, he didn't even have the courage to question Sima Yi.

The only consolation was that Zhen shuaqi was only temporarily in charge of the medicine shop and there might be a chance to recover in the future.

"Your subordinate obeys! Many thanks to Vice President Sima for your guidance!"

Zhen shuaqi was also a little surprised but he immediately showed an appropriate expression of surprise. This was the cultivation a double agent should have.

He understood that Lin Yi wouldn't raise his status for no reason-there must be something for him to do, and he got into the zone immediately.

As expected, Lin Yi said,"Zhen shuaqi, take down all the pills from Ouyang kuantian and stop the clinic from using the Ouyang family's pills!" At the same time, lead a team to crack down on the Ouyang family's private channel of pill sales!"

After Ouyang cuantian had taken over as the first hall Master, he had started to abuse his power for personal gain, using the Ouyang family's private channels to sell the pills they made.

After feeling that the sales volume was not yet widespread, he forced the pill stores to sell and the medical halls to use medicinal pills. In a short time, the situation was unfolded.

It was also perfectly justifiable for Zhen shuaqi to take the people from the medical center and pill shop to crack down on the Ouyang family's channels.

If the Ouyang family dared to resist, Lin Yi would have a reason to suppress them!

"Your subordinate obeys! Execute it immediately!"

Zhen shuaqi was used to following orders and immediately started to move without any questions!

With a God like Lin Yi on top of them, the people from the medical Hall and pill shop didn't dare to delay. They immediately went into action and quickly carried out Lin Yi's orders.

With Zhen shuaqi keeping an eye on them, Lin Yi didn't have to worry anymore. He went to the alchemy Association to look for willow leaf rice.

Ever since Lin Yi helped Liu yedao take back the power of the alchemy Association, he was considered a member of Lin Yi's faction.

It was just that Lin Yi spent more time on formations and didn't give willow leaf rice any room to display its skills, which made him feel a little bitter.

After Ouyang cuantian took over, Lin Yi didn't give any orders or say anything, and willow leaf rice was in a bit of a predicament.

The first hall Master could not forcefully interfere with the alchemy Association's Affairs, but Ouyang cuantian still had the title of the alchemy Association's Grand Elder!

In the past, Ouyang cuantian had used his position as the Grand Elder to secretly control the alchemy Association. Now that he had the power of the temporary Hall Master, he could forcefully order willow leaf Dao, and willow leaf Dao could not refuse to obey.

It was just like how Ouyang kuantian had extended his hand to the combat Association after the first hall Master had fallen unconscious. This was the general trend, and the people under him did not have much power to refuse.

Lin Yi found the Willow leaf rice and opened his mouth, "From now on, you are not to listen to any of Ouyang kuantian's orders!"

Willow leaf rice was overjoyed-he was waiting for Lin Yi to say that!

After Ouyang cuantian had taken over, he had been extremely frightened. After all, he had betrayed Ouyang cuantian in the past. Who knew how this old thing would deal with him?

Without Lin Yi's support, his future would be dark.

But he didn't dare to go to Lin Yi and tell him about fighting against Ouyang kuantian. If he pissed Lin Yi off and lost his last support, he'd be dead for sure.

Now that Lin Yi had personally come to reject Ouyang kuantian's orders, it was clear that he was targeting Ouyang kuantian!

Then what else is there to say? just do it!

It would be best if he could kill Ouyang cuantian directly, then he would have no more worries!

"As you command! Lord Sima, is there anything else that I can do? This subordinate will follow your orders and will not hesitate to go through fire and water!"

Liu Ye quickly expressed his loyalty and also tested Lin Yi's attitude towards Ouyang kuantian. Would he start fighting immediately?

Although the combat power of the alchemy Association was very weak, it was definitely not a problem for them to follow the big boss and boost their morale by waving their flags and shouting.

Lin Yi didn't think much of it and nodded, "There's indeed something you can do. You have the pills that Ouyang kuantian is selling, right?"

If a new elixir appeared on the market, and the alchemy Association did not get it to study and analyze it, then Willow leaf rice would have failed his job as the president of the alchemy Association. Basically, it would be the end of his career!

Lin Yi didn't hate people who didn't do anything, but he didn't like them either. After this incident, there might be a change in the president of the alchemy Association. After all, the Vice President of the alchemy Association did have that power!

Fortunately, the Willow leaf rice was quite reliable in this aspect. He immediately bowed and said, "I do have it, and I also have the data after the research and analysis. You can use it as a reference, Sir!"

The pill and data were all in the storage bag he carried with him-he'd already taken it out with both hands as he spoke.

Lin Yi nodded with a smile, complimenting him. "Well done!"

The Willow leaf rice was instantly overjoyed, and he smiled so brightly that his eyes could not be seen. His eight teeth displayed what was called brilliant!

In fact, Lin Yi was just saying it casually. He started to study the sample in his hand as well as the data from the alchemy Association.

There was no doubt that this kind of elixir had a strong central style, so there were many places that could not be explained by the alchemy Dao of the sub-Island.

The research done by The Alchemist Association was only useful as a reference. It didn't have much practical use, and Lin Yi had to do the research himself.

Fortunately, Lin Yi's pill Dao was a combination of Sky Class Island, ancient Jianghu, sub-Island, and many other systems. In terms of knowledge, he was a Grandmaster!

Furthermore, after dealing with central for so long, he had a deep understanding of Central's character.

Chapter 8668

Even though the pill this time was different from the ones he had seen in the past, the meridians still existed, so it was naturally easier to analyze it.

Very quickly, Lin Yi understood the theory behind these elixirs. He could even replicate and perfect the recipes, but Lin Yi wouldn't do that!

The Center's research direction was not to stimulate and enhance human potential, but to use foreign objects to change the human body and produce new power.

To put it simply, a normal elixir was like making a thin and weak person stronger through training. The source of power was in the human body itself.

The pills in the center were similar to transplanting the organs and limbs of a weak person to a powerful beast. They might be able to become powerful in a short period of time, but could they still be called human after they became powerful?

Of course, the Center's methods were more advanced. They used the gene fragments of the dark Demon beast race to fuse with the human body. If the fusion went smoothly, one could indeed obtain great power.

If the fusion did not go smoothly, there was a high chance that the person would be crippled. This was the case for the combat Association's combat generals!

Even if Lin Yi could make something like this perfect, he wouldn't want to do it!

"Guild leader Liu, immediately arrange for our men to focus on producing this potion!"

After understanding the situation, Lin Yi was able to make a specific antidote. He wrote down a prescription as he spoke.

It was a formula, not a pill formula. The alchemists of the alchemy Association might take a longer time to refine elixirs, but refining potions was a piece of cake.

Even an apprentice apothecary could help him with the forging.

What Lin Yi wanted was to mass produce it in a short time to solve the chaos caused by Ouyang kuantian!

The Willow leaf rice was secretly shocked. How long had it been?

The alchemy Association had been researching for a few days and had not been able to figure out all the ingredients of this elixir. Lord Sima Yi actually had an antidote formula in the blink of an eye?

He didn't suspect that Lin Yi had the recipe beforehand, because from Lin Yi's expression when he was studying the pill, it was obvious that it was his first time seeing this kind of pill.

Awesome!

As expected, geniuses can't be measured with common sense!

"As you command! Don't worry, Your Excellency. This subordinate will immediately make the arrangements!"

As the president of the alchemy Association, he had to have some skill in alchemy. One look at Lin Yi's prescription and he knew that it was a medicine for this type of pill.

Furthermore, the various materials were very common, and the refining process was not very difficult. It was very easy to complete the task.

It was rare for Lin Yi to ask him for work, so willow leaf rice had to perform well. Now that he got such a simple task, he immediately ran out to arrange people to start refining.

For a time, everyone in the alchemy Association was gathered together in a panic. Those who were refining pills were also forcibly interrupted. Everyone was busy with one thing.

Lin Yi was pretty satisfied with the efficiency. An hour later, the first batch of potions was ready, and Lin Yi took them to the combat Association.

The combat Association was currently in a state of distress. There were about 100 or so battle generals who had been strengthened without any side effects.

As for those whose muscles had turned rigid and their movements had become slow, causing their strength to drop greatly or even directly turning them into cripples, there were more than 200 people!

In the middle were the battle generals who did not react or only had slight reactions.

From Lin Yi's judgment, as time passed, the fusion of the gene fragments in the pill would cause an even stronger reaction!

The first batch of potions was about 270 to 280 portions, which were just enough to treat those who were so serious that they were almost disabled!

The battle generals were all very happy that Lin Yi went to the combat Association. In Fengqi Dazhou, other than the first hall Master, the battle generals were most convinced by Lin Yi!

Just the fact that he'd wiped out 99% of the earth creation stage dark beasts in the underground cave was enough to make the combat Association's generals bow down to him in admiration!

After all, if the powerhouses of the darkness magical beast clan did not die, most of the combat Association's combat generals would die in the future!

Lin Yi's war achievements had saved most of their lives!

"Greetings, Lord Sima!"

The generals who saw Lin Yi on the way all moved to the side and bowed respectfully.

Lin Yi smiled and returned the greeting before following the general to the patient's room.

Lin Yi's medical and alchemy skills were well known across the continent, and the combat Association's general had wanted to ask Lin Yi for help a long time ago. However, Lin Yi had been locked up in his room, so everyone thought that he was studying how to save the head.

In a situation like this, the combat Association's battle generals still prioritized the first hall Master, so no one disturbed Lin Yi 's' closed door cultivation '!

Now that Lin Yi had come to visit, the battle generals were naturally overjoyed. They were even more respectful and grateful to Lin Yi.

More than two hundred battle generals were gathered in a large courtyard. This was originally the dormitory of the combat Association. It was just that very few battle generals would stay here.

There were thirty rooms in the yard, and ten battle generals slept in each room. There was still a lot of room left.

However, if the situation continued to worsen, he reckoned that this courtyard would not be enough, and he would need another courtyard to help him settle down.

Lin Yi randomly picked a room and walked in, and the accompanying generals looked at him with wide eyes.

He imagined Lin Yi to choose a general first, then examine and diagnose before giving him a prescription. Then, he'd change to another general and repeat the process.

The result was not the same!

After Lin Yi went in, he didn't even look at the general who was lying down. Instead, he found a kettle and a tea bowl in the room, poured a bowl of water, and sat on the side of the bed closest to him.

He then took out a bag of medicine and said to the battle general on the bed, ""Open your mouth!"

The general was a little scared, but he knew Lin Yi and subconsciously opened his mouth as he was told.

Why was it slowly opening?

It wasn't that he wanted to dawdle, but the stiffness of his muscles was so serious that it was difficult for him to control his mouth!

It was already a good performance to be able to slowly open its mouth, but there were even more unlucky fellows who couldn't control the opening and closing of their mouths at all.

Lin Yi frowned. He didn't think that the effect of the pill would be this strong. If it was a few days later, there might be a general who died.

Seeing that the opening was almost done, Lin Yi poured the medicine into the man's mouth, along with some water.

The medicine dissolved upon contact with the water, and went down his throat into his stomach. Lin Yi didn't have to worry about choking him since there wasn't much water.

The battle General's eyes quickly lit up. He could already feel the changes in his body!

It turned out that he was tied up and couldn't move. He looked like a mummy, with no room for muscle movement.

Chapter 8669

After the drug entered his stomach, the feeling of his muscles being bound loosened up a lot, and his cells that were almost dead began to cheer.

Lin Yi observed from the side for a dozen seconds, using his spirit to scan the changes in the muscles.

After making sure that the potion was effective, and very effective, he heaved a sigh of relief.

After all, the prescription he came up with was only effective in theory. It was best to wait for the clinical results to make a final conclusion!

"Alright, he's fine now. He should be able to recover after two days of rest!"

Lin Yi stood up and passed the tea bowl to the general who was leading the way. He was dumbfounded as he took the tea bowl, not knowing what to say.

The imagined treatment scene didn't happen. Lin Yi just came over, made the patient open his mouth, and fed him medicine and water, and that was it?

"Take these potions and feed them one by one like what I did just now. There shouldn't be any more problems, but remember one thing, the pills sent by Ouyang kuantian must never be taken again."

Lin Yi took out over two hundred potions and placed them on the table as he ordered the general, who was still in a daze, "This is very important. If you take that pill after you're cured, the chances of problems occurring will increase by several times, and the difficulty of the treatment again will increase by more than ten times. I'm not joking, You Must Remember This!"

The battle general came back to his senses and immediately bowed, "Yes! I'll remember this! Many thanks to Lord Sima for the grace of rebirth you have shown to our brothers!"

He didn't understand the logic behind Lin Yi's words, but he firmly believed that Lin Yi was right!

It was the truth-Lin Yi wasn't lying.

If they took pills again, these battle generals "bodies would develop a strong resistance to the medicine!

If the original elixir was a virus, then the elixir that was taken after the treatment would become a mutated virus. The current antidote, as the first generation of vaccines, would definitely lose most of its effectiveness!

"You should've also taken the pill that Ouyang cuantian sent, right? I'll take a potion first! Although you don't seem to have any problems now, the effects of the pill won't disappear. When it takes effect, it will add a lot of pain!"

Lin Yi reminded.

The battle general in front of him was one of the people who didn't have any reaction after taking the pill. There was no increase or decrease in strength, as if he hadn't taken Ouyang kuantian's pill.

But eating it was eating it-no effect now didn't mean that it wouldn't be effective in the future. When the subsequent potions came out, Lin Yi would make everyone who took the medicine take the antidote!

The general's expression turned solemn and he quickly bowed in agreement. He was also rejoicing in his heart.

Thinking about the miserable state of his companions in this courtyard, it would be really difficult for him to accept if he were to become one of them!

"I'll leave this place to you. I'll go take a look at the other places!"

With that, Lin Yi turned and left the room.

The battle general sent him to the door and quickly went back to take a medicine. Then, he began to treat the others.

After taking care of the battle generals with severe symptoms, Lin Yi went to find the Vice President of the combat Association, Yan Su, and asked him to gather all the battle generals who had become stronger after taking the pill.

Not all of the hundred or so battle generals were in the Association. Some of them were out on missions and wouldn't be able to return in a short time, so Lin Yi didn't bother.

There were about seventy people who could come, and Lin Yi cut to the chase. "All of you are battle generals who have taken Ouyang chuantian's pill to increase your strength. I have come today to tell you that the pill has a very powerful hidden danger."

"The two hundred battle general brothers who are bedridden are the best proof of the outbreak of the hidden danger. Your bodies are not different. Right now, it seems like your strength has increased smoothly, but in the near future, it is very likely that the same symptoms will appear."

"Since you guys had a smooth start in the early stages, it will be extremely difficult to save you in the later stages if something happens. So, I'll let you guys make your own choices today!"

Lin Yi took out the rest of the potions and placed them on the table. "These potions can solve the problems caused by the pills. At the same time, they will also eliminate the effects of the pills on your strength!"

"Now, do you want to decide whether to keep the strength you have obtained or to keep your body without any hidden dangers? I'm here in the hope that you can give up on this rootless method of increasing your strength, but I won't force you to accept it!"

"The decision is in your own hands. If you choose to give up your strength to preserve your health, you can come up and take a potion! If you choose to keep your increased strength, then you can leave now!"

A martial artist's cultivation was all for strength!

It wasn't easy for them to raise their strength so much. If they were to give up just like that, there would definitely be people who were unwilling!

Lin Yi wouldn't force them, he'd let them decide their own fate.

But for those who didn't want to give up on their strength, Lin Yi would suggest to the hall Master that they shouldn't be put in important positions.

This kind of person who could give up everything for strength might not be able to resist the temptation in the future and do something against justice and axioms. It was not suitable to be entrusted with important tasks!

The battle generals below looked at each other. They had always felt that they had been lucky and had not suffered any hardships, and had easily and happily increased their strength.

And now, Lin Yi came to tell them that this increase in strength might harm them in the future-this was hard for them to accept!

If it was someone else, they would definitely ignore him. However, this person was Sima Yi!

Sima Yi, who was second to none in both alchemy and medicine, then they had no choice but to seriously think about it!

Soon, a general went up to get the medicine and consumed it in front of Lin Yi.

Because of Lin Yi's prestige, they could choose not to believe other people, but not Lin Yi's words!

They firmly believed that Lin Yi wouldn't harm them, and since that was the case, there was no need to hesitate!

After the first one, the second and third followed, and soon, Lin Yi had finished giving out the potions. There were still twenty or so generals who hadn't received their potions yet.

Out of these twenty battle generals, half of them had come to claim it, but in the end, they did not have any reserves. The remaining half were still hesitating and had not made a decision.

However, there were a few of them who didn't want to give up the strength that they had already obtained!

They might believe Lin Yi, but they still wouldn't let him go.

It was just like when a fire broke out, some people would run for their lives at the first moment, even if they were naked.

Some people thought they were lucky and had already run out of the fire field, but when they remembered that there was still money inside, they turned around and rushed back.

They would think that they were lucky and that nothing would happen to them. They would think that they could escape after getting the money.

Chapter 8670

Regardless of the outcome, the probability of such people dying young was relatively high.

"Brothers who have not received it, don't worry. The alchemy Association is already doing their best to refine this potion. They will send it over very soon. By then, everyone will have it."

Lin Yi turned to Yan Su, "Director Yan, anyone who has taken the Ouyang family's elixir will need to take the elixir to remove the hidden danger. You will be in charge of distributing it. Those who don't have any reaction now may have problems in the future."

"If it happens to be in the middle of a mission and suddenly erupts, it will be disastrous! You don't have to force those who don't want to take the potion, but you must record all of them and report to me at any time. If there is an important mission, I suggest you exclude them from the list. This is safer!"

Seeing Lin Yi's seriousness, Yan Su quickly nodded seriously and remembered it in her heart. She was going to give it to all the generals when they had enough.

"There's one more thing. From now on, the combat Association is not to listen to Ouyang kuantian's orders. I have some ideas about the first hall master's illness. I believe that it won't take too long for him to recover. "

"The combat Association can completely ignore Ouyang cuantian's chaotic orders. If it's a normal matter, you can listen to it at your discretion. You can control the appropriate behavior. If you encounter any difficulties, you can come to me at any time."

Lin Yi's request was a bit over the line-the combat Association really didn't have any direct relationship with him.

In the alchemy Association, Lin Yi would at least have the title of Vice-President of the alchemy Union on the continent, a proper superior. He didn't have a suitable identity here.

However, Lin Yi was worried that the Association would be in a mess when the first hall Master woke up after Ouyang kuantian's mess. He had no choice but to overstep his authority.

But Yan Su was happy to listen to Lin Yi's instructions.

In comparison, Lin Yi was definitely one of their own, while Ouyang kuantian, the acting Hall Master, was an outsider!

At the same time, Ouyang kuantian received the news that Lin Yi had intervened. The Ouyang family's medicine shop was forcefully taken down from the shelves, and their channels on the market were being targeted!

The alchemy Association had clearly announced that they would no longer accept Ouyang kuantian's orders and that they were already producing the antidote for the Ouyang family's elixir ... And so on!

This series of changes was like a perfect combination of punches, directly beating Ouyang cuantian into a daze.

When he heard that Lin Yi went to the combat Association, Ouyang chuantian exploded!

This was too much bullying!

'The alchemy Association, medical halls, and pill shops can all be considered as your subordinates. What does the combat Association have to do with you? I haven't even completely controlled it yet, so why are you interfering?'

"Bastard! Bastard! Sima Yi, that bastard! What was he trying to do? I've already tolerated him time and time again, but he's still pressing on. Does he really think I'm afraid of him?"

Ouyang cuantian roared in anger in his own territory. The teacup in his hand had been smashed to pieces!

The guards outside the door looked down and pretended not to see anything, but they inevitably cursed in their hearts.

If you're really not afraid, then go find Sima Yi! What was the point of getting angry here? It was just a useless bark!

Of course, he wouldn't dare to say such words even if he was beaten to death. Otherwise, he would really be beaten to death by Ouyang kuantian!

When he found out that Lin Yi was healing the wargeneral in the combat Association, it could be said that everything he did was for naught. Ouyang tuantian wanted to vomit blood!

F * ck! This is too much! This is too much!

"Men! Gather our men!"

Ouyang cuantian smashed the coffee table beside him as he shouted with a red face!

The personal Guard's heart trembled. This was the end of his patience, and he was going to fight Sima Yi to the death?

Can you beat him?

Sima Yi was the one who single-handedly killed a large group of Dark Demon beasts!

Right now, there was even a battle general from the combat Association standing on his side. If he were to go against them head-on ... It would be very difficult for him to win, right?

The guard came out with a nervous heart and bowed. "Yes! Should we head to the combat Association after gathering our men?"

They had no choice. If their master said they were going to fight, then they could only fight.

He hoped that Sima Yi would not be too crazy and would show mercy without killing anyone. Everyone should just stop at the right place ...

"To hell with the array formation Association! Gather our men and quickly go to our Ouyang family's market channels! Was he really going to be crushed by that group of trash from the pill house Medical Center? You're all F * cking useless!"

Ouyang cuantian continued to roar, but the Guard's heart relaxed. So he wasn't going to the combat Association? Then why are you shouting so loudly?

He thought he would have to risk his life, but he was still as cowardly as ever!

To be honest, Ouyang cuantian didn't dare to fight Lin Yi head on.

Lin Yi's name was the number one in Feng Qi continent!

Ouyang cuantian didn't have any good points with Lin Yi before, and he didn't dare to act rashly.

Gather people to fight? Don't joke around!

Putting aside Lin Yi's strength, just their current status was enough. Ouyang kuantian was the acting Hall Master, a leading figure in Fengqi Dazhou.

But Lin Yi was also an acting inspector, and just this status alone wasn't inferior to Ouyang kuantian 's.

On Fengqi Dazhou's level, the two's acting positions were about the same, they were equal and no one could do anything to the other.

But the problem was that Lin Yi still had two identities on the continent!

How could Ouyang cuantian be compared to the double vice presidents of the array formation Guild and the pill formation Guild? What could he use to compete?

Aggrieved, he could only suppress his grievances!

Ouyang cuantian had no choice but to contact the blue-robed man in the backstage, ""Boss Blue robe, I'm very sorry. The mission that was originally going smoothly, because of Sima Yi's sudden interference, caused an instant collapse!"

"What's going on? Tell me in detail!"

The blue-robed man's expression didn't fluctuate much, as if he had already anticipated this result.

Ouyang cuantian felt strange in his heart. This plan was only carried out because the central Chamber of Commerce needed it. Why was the blue-robed man not in a hurry?

Of course, the blue-robed man's attitude wasn't a bad thing for Ouyang cuantian. At least the responsibility of failing the mission didn't seem as heavy as he had imagined.

And so, Ouyang kuantian told the blue-robed man everything about Lin Yi's sudden actions, his control of the medical Hall, The Alchemist Association, and the combat Association, as well as his research on the antidote and his treatment.

The blue-robed man was silent for a while. After a while, he said, ""I understand. I can't blame you for this! Sima Yi was too powerful! With him in Fengqi Dazhou, it'll be hard for you to display your full strength. "

"How about this, for the time being, you should avoid Sima Yi's limelight, don't have a direct conflict with him. I will think of a way to move Sima Yi away from Feng Qi continent, and not let him continue to cause trouble at your side."

"After Sima Yi leaves, you can seize the opportunity to develop! At that time, I hope you can do your best and not let me down again!"
