

Bodyguard 8671

Chapter 8671

Ouyang chuantian was overjoyed. If Lin Yi could leave Feng Qi continent, it would be the best news for him.

As long as the first hall Master didn't wake up, the entire Feng Qi continent could be said to be his, Ouyang kuantian's world!

After a few days, when Ouyang kuantian completely controlled the power of Fengqi great continent, even if the first hall Master woke up, he would be powerless to reverse the situation!

At that time, the Ouyang family could at least have the name of Ouyang banzhou, right?

"Don't worry, Mr. Blue robe, I won't let you down. As long as Sima Yi can leave Feng Qi continent, there won't be any problems here!"

Ouyang cuantian patted his chest as he imagined the future!

In the next few days, the Ouyang family's power was completely suppressed and retreated.

The elixirs sold by the Ouyang family on the market were basically extinct. Not only the new elixirs, but the original ones were also taken back by Ouyang chuantian's men.

Under the alchemy Association's full operation, the antidote was continuously refined and sold at the base price. The storm caused by the new elixir quickly subsided.

The combat Association's battle generals were back to normal as well. Yan Su was very happy about this and asked Lin Yi over for a drink.

Everything seemed to have returned to the right track. The only one who had not changed was the first hall Master, who was still in a coma.

None of them could save the head Master without Lin Yi's help.

The person who planted the seeds was also very patient-he didn't give himself away, and Lin Yi couldn't do anything but wait.

One day, su Zixin suddenly came to visit Lin Yi. After greeting everyone and taking their seats, they chatted for a bit before getting to the main topic.

"Vice President Sima, this subordinate has come this time because I have some matters that I would like to request of you!"

Su Zixin smiled and lowered his posture."Our su family has the tradition of organizing an exchange with the top families of other continents. It's basically once a year, but we don't know which continent it will be."

"This year's array Dao exchange is about to start. This time, the Jia clan from the Sangzi continent contacted us to hold this year's array Dao exchange at our Phoenix Qi continent!"

"Although the two clans are leading the way, the array Dao Association of the martial Alliance will not be left out. They will also participate in this. Even the array Dao Association of the starsource continent will send someone to preside over this."

"Vice President Sima is now the undeniable number one array master of our Feng Qi great continent. This kind of exchange meeting representing the continent must not be without Vice President Sima, right? So this subordinate has come this time to specially invite Vice President Sima to take the time to participate in this year's array Dao exchange with the Sangzi continent!"

Lin Yi raised an eyebrow. The Jia family from Sangzi continent?

Jia Junjie's family?

What were they planning to do by bringing up Fengqi Dazhou?

Lin Yi wouldn't believe it even if he was beaten to death if they said that they just wanted to come to the exchange just by coincidence!

How could there be so many coincidences in the world?

Jia Junjie died in his hands, and the Jia family took the initiative to mention Feng Qi Dazhou. No one would believe it, let alone not on purpose!

Of course, Lin Yi didn't think that the Jia family was here for revenge. Feng Qi Dazhou was his territory, a strong Dragon couldn't beat a snake in its own territory!

The Jia family would have no chance to take revenge on Lin Yi even if they were Dragons.

The biggest possibility was that the Jia family wanted to take the opportunity to investigate something, right?

Su Zixin looked at Lin Yi nervously. He was worried when Lin Yi didn't say anything.

After all, strictly speaking, Lin Yi could be considered a member of the Xingyuan continent's array Dao Guild, and not someone from the Fengqi continent's alchemy Association.

His relationship with the SU family ... Could only be considered not bad, so it would be completely reasonable for him to reject it.

"I understand. Since it's an exchange competition between the two continents, as a member of Fengqi great continent, I have the obligation to contribute to Fengqi great continent. Count me in!"

Luckily, Lin Yi nodded and agreed to Su Zixin's invitation after a while, which made him heave a sigh of relief.

Su Zixin didn't even know how high Lin Yi's skill level was, so with a God like him joining them, House Su's chances of winning this competition were much higher!

"When will the championship begin? Inform me in advance. Do you need to make any preparations?"

Lin Yi agreed to join the gathering because he wanted to go to the Jia family.

Since the Jia family wanted to come to Fengqi Dazhou to find out who he was, of course Lin Yi couldn't be a coward. He had to face them directly!

"No problem, no problem. Vice President Sima, it's great that you're willing to participate. You've helped me a lot! As for the other matters, leave them to this subordinate to handle!"

Su Zixin patted his chest, declaring that he only needed Lin Yi to be present at the gathering. Why would he need this God to do anything else?

Lin Yi shrugged. Since that was the case, then he was happy to be free. He'd go check out the Jia family's background and attend this gathering too.

"By the way, Shi wancai will be participating too, right? His array Dao is quite strong and not inferior to mine at all. With him joining us, victory should be much easier. "

Su Zixin hurriedly nodded. "Vice President Shi is also on this subordinate's invitation list. As an array Dao genius second only to Vice President Sima, of course we'll invite him to join us. It's just that we're not sure if he has the time to join us."

He came to Lin Yi first because Lin Yi was the first on the list. Shi shengcai was after Lin Yi.

If they failed to invite Lin Yi, Shi shengcai would be the most important external helper for house su.

Fortunately, Lin Yi agreed to join, and su Zixin was very satisfied.

As for Shi shengcai, he felt that he'd be in the bag as well. As long as Lin Yi said he'd be attending, Shi shengcai would follow. The difficulty of this invitation was instantly lowered by a few levels!

In fact, it was just as su Zixin expected-when he went to invite Shi tiancai, he mentioned that Lin Yi had already accepted house SU's invitation to participate in the array gathering, and Shi tiancai accepted it without a second thought.

It was perfect!

Two days later, people from the Sangzi continent teleported to the Fengqi continent, accompanied by the Vice President of the Xingyuan continent's array Dao Association.

However, it wasn't the one who went to the source of array Dao, but someone Lin Yi didn't know. Her name was Wei Mian.

Lin Yi received su Zixin's notice and brought Fei daqiang and Zhang Yiming to meet with the other side. It was a welcome party for Fengqi Dazhou and also a way for the two sides to get to know each other.

Chapter 8672

"Are you Grandmaster Sima, Sima Yi?"

After the two sides met, the normal greetings ended. The young man leading the team walked in front of Lin Yi and looked at him calmly, "I'm Jia junren, the leader of the Jia clan from the great land of Sangzi. I've long heard of Grandmaster Sima's great name, and now that I've seen you, you're indeed worthy of your reputation. You're really a young hero!"

Lin Yi raised a brow. Jia junren? He even specifically pointed out the young hero. It seems that he is Jia Junjie's brother?

"Nice to meet you, I've heard of the Jia clan's reputation, brother Jia is a true young talent, being able to be entrusted with such a heavy responsibility at such a young age, to be the leader of the formation path exchange meet, your formation path strength must be extraordinary!"

"Grandmaster Sima, you flatter me. I was only lucky enough to be the leader of this exchange because of the favor of my family's elders. In terms of actual ability, I'm far from Grandmaster Sima!"

Jia junren maintained a fake smile, and a cold light flashed in his eyes. "Actually, I have a younger brother named Jia Junjie. He is the Qilin son of our Jia family! It's a pity that the heavens are jealous of the talented, and my younger brother actually died young. As a last resort, I, this good-for-nothing elder brother, have to step in!"

"Jia Junjie? So he's your brother? Is it the Jia Junjie who died at the source of the array Dao?"

Lin Yi wasn't afraid at all, since the guy was pretty clear about it. He sneered, "In my opinion, your brother is far from being comparable to you, brother Jia! If he had half of brother Jia's shrewdness, he wouldn't have fallen in the source of formation Dao!"

Jia junren squinted his eyes slightly, and a trace of embarrassment flashed in his pupils, but it disappeared in a flash!

His control over his emotions was excellent, and he immediately chuckled. "Maybe! My younger brother is young and doesn't know the evil of the human heart! His death was also due to his lack of experience! Many thanks for Grandmaster Sima's guidance. I will take my leave first. At the exchange, we will properly exchange pointers on array Dao!"

After he finished speaking, Jia junren nodded slightly and left with grace.

Lin Yi fell into deep thought as he watched the man leave.

As he had said earlier, this Jia junren was not simple. His shrewdness and shrewdness were extremely outstanding. If Jia Junjie had half of his brother's shrewdness, he could indeed avoid being killed in the source of array Dao.

A barking dog didn't bite, but a dog that didn't bark secretly came up to bite!

After Jia junren left, Wei Mian came over to say hi to Lin Yi.

In name, the two were both vice presidents of the array formation Guild, and were colleagues in the same organization, so it was only right for them to chat.

"Vice President Sima, I've long heard of your great name! I'm really lucky to have seen it today!"

Wei Mian was very polite, and her smile was warm, but the more polite she was, the more distant she seemed.

It was obvious that Vice President Wei didn't really want to make friends with Lin Yi-he'd only come to greet him out of respect.

Lin Yi could sense what the other was thinking, and so he started his business mode as well.

From an outsider's point of view, the two vice guild leaders seemed to be conversing very well.

Only Lin Yi and Wei Mian themselves knew that there wasn't any meaning to their conversation-it was all bullshit!

No matter what, when the two sides of Fengqi great continent and Sangzi great continent met, they at least displayed a friendly and harmonious atmosphere.

The next day, the formation path exchange meet officially started.

The venue was at a place the SU family had arranged in advance. The SU family was called su banzhou and naturally had a lot of real estate. The venue arranged this time was a mountain range.

This place was perfect for setting up an array, and there was no need to worry about destroying the surrounding buildings or hurting innocent people.

As a direct descendant of the SU family and the president of the array Dao Association of Feng Qi continent, su Zixin naturally became the host of this exchange meeting.

After bowing once, su Zixin did not say anything else and directly announced the start of the exchange. He then read out the rules of the first round of exchange!

"First of all, each of us will take out five new formations and compete in five rounds. The formations must be newly researched for there to be any meaning to the exchange!"

"In every round, both sides will send people to break the other side's formation. The time limit is one hour. The side that breaks the other side's formation first wins, and the final result will be based on three wins out of five rounds!"

"If there is an Unbreakable Formation in every round, it can not be used for the next round. It must be a new formation in every round to ensure that the purpose of the exchange meeting will not change!"

"If both sides can't break the formation within the time limit, this round is a draw! After five rounds, if the total number from the general Administration is also tied, then there will be an additional round!"

"Does everyone understand? If you understand, please start the first round of formation now. Sangzi Dazhou is on this side and Fengqi Dazhou is on the other side!"

Su Zixin divided the area for both sides.

In any case, this place was large enough, so the distance between the two sides was quite far. As long as they were on guard, they would not be able to see the situation of the other side setting up the array, and they could avoid cheating.

After a short while, both sides finished setting up their arrays. The first to go up was a silver-level array master from the SU family.

Sangzi Dazhou was similar, he was a silver rank array master of the Jia family.

The rules restricted those who had gone on stage and the formations they had used to be unable to go on stage again, so the first round was just a test.

Therefore, the formations they set up and the people they sent out were not considered strong, and they appeared to be quite harmonious.

In the end, the speed at which the grandmasters of the two clans broke the array was about the same.

The SU family's people were slightly faster by three to five seconds, and the Jia family's grandmasters followed closely behind, but they were still a step too slow!

The SU family was the first to take the lead and was very happy for a while. They felt that this competition was very stable.

After all, Fengqi Dazhou still had Lin Yi and Shi Yucai, two Diamond Grade formation Masters!

He was definitely one of the best in the entire starsource continent, and it would not be a problem for him to win two rounds!

So in the second round, the SU clan still used their formation path Grandmaster to fight, and the situation was similar to the first round.

But the result was the opposite. This time, the SU family was three to five seconds slower. The strength of both sides was about the same, and it seemed that winning or losing was normal!

It was a draw 1:1!

House su didn't mind-they had Lin Yi and Shi shengcai as their trump cards, so they had nothing to fear!

Su Zixin was the third to go up.

As the president of Fengqi continent's array Dao Association and a direct descendant of the SU family, although his array Dao strength wasn't the strongest, because he had two hidden cards to hold the line, the SU family easily decided to let him show his face.

The SU family was already prepared to lose two rounds.

After all, the Jia family was a guest and the other party's power in the Sangzi great continent was stronger than the SU family in the Feng Qi great continent, so he had to give them some face.

Su Zixin also knew that he was the one who was deemed to be the one who could fail, but he was not willing to accept the arrangement.

No matter what, he's still the president of the array Dao Association. Do I not want my face?

Chapter 8673

Su Zixin, who had been slightly provoked, exploded in the third round and performed beyond his usual level. He was ahead of the Jia family by a full seven to eight minutes and was in the limelight!

The SU family erupted in cheers when su Zixin broke out of the formation first!

After all, su Zixin represented the SU family. If he could win beautifully, he would definitely be praised!

"The SU family is indeed the strongest family in the Feng Qi continent. President su Zixin is also worthy of his reputation. His array skills are extraordinary. I'm impressed!"

Jia junren smiled and cupped his hands, congratulating su yongchang, who was watching the battle beside him. His demeanor was indeed quite outstanding, and this person was really a character that people couldn't hate.

Su yongchang stroked his white beard and laughed, ""You've flattered me too much. We exchanged friendly pointers at the exchange meeting. It's just that your family didn't take it seriously. The Jia family of the great land of Sangzi is a well-known family in the entire starsource continent. In terms of Foundation, our su family is still inferior to your family!"

The old man was just being polite, but he didn't really think that the SU family was worse than the Jia family.

If the two sides were enemies and really went all out to fight, it was still unknown who would win!

"Hehe, master su, you're too humble. I have always been serious! However, it seems that I'll have to be more serious next! Otherwise, we'll be letting down the SU family's master's expectations!"

Jia junren smiled faintly and immediately sent someone to set up the formation for the fourth round.

On the SU family's side, su yongcang was very certain that the next one to appear would be Feng Qi Dazhou's original genius, Shi Yucai.

Su Zixin's victory might even cause Sima Yi to lose his chance to fight, and the outcome of the fourth round would be decided!

After Shi shengcai returned from the source of array Dao, he focused on digesting the insights he had gained, and his array Dao abilities had improved significantly!

He came to the exchange because Lin Yi was here as well, and also because he wanted to verify the array Dao he had learned during this time.

The SU family's array formation was personally set up by Shi longcai, who used the layering array formation technique he had comprehended from the source of array Dao.

This might not be much in Lin Yi's eyes, but to those who didn't understand stacking formations, it was like heaven and earth!

Not to mention an hour, it was normal for people who didn't know about layering formations to be stuck in the formation for a few days!

"Shi Yucai! You can do it! You will definitely win!"

Zhang Yiming waited for Shi tiancai to go to the Jia family's array and waved his fists to cheer her on.

After all, they had gone through life and death together in the source of formation Dao, so they were familiar with each other.

Originally, when Shi wancai participated in any assessment, exchange, or other activities, there would definitely be a large number of fangirls who would crazily support him.

It was a pity that today was an exchange organized by the SU family and the venue was private property of the SU family, so the little fangirls couldn't come even if they wanted to. Zhang Yiming made a guest appearance, thinking that at least Shi shengcai would have some feelings.

In the end, Shi longcai did not appreciate his kindness. He rolled his eyes at Zhang xiaopang and ignored him. He walked towards the array area set up by the Jia family.

"Master su, you actually sent Feng Qi continent's genius array Grandmaster Shi Yucai. You want to finish the job in one stroke and not give us any chance!"

Jia junren chuckled as he spoke to su yongcang. His words were praising Shi tiancai, but there was no sign of worry in his expression at all. Instead, there was a kind of calmness with confidence.

"No, no, Dean Shi is indeed an extremely outstanding genius, but the one you've sent out isn't weak at all!"

Su yongcang was not familiar with the array master that the Jia family sent, but he knew that this was a veteran Grandmaster, he should have advanced to the diamond Grade, right?

For Jia junren to be able to ask this person to help, in addition to paying a great price, the favor he owed must be not small!

To be honest, after seeing this old Grandmaster make a move, su yongcang's confidence in Shi tiancai was not as full.

She thought that this guy would be the last to fight Lin Yi, but he came out early!

Could it be that there was an even more powerful array master hidden in the Jia family's team?

Or was it simply because they would be able to determine the winner by losing one more match, and the Jia family couldn't afford to lose, so they sent their strongest?

No matter what, the fourth Lane had finally begun. Su yongcang was puzzled for a while and no longer thought about it. Anyway, there was still Sima Yi holding the fort behind them, so they would not lose no matter what!

"Grandmaster Sima, you're a top-tier Diamond Grade array Grandmaster. I wonder if you have any thoughts on this match?"

Jia junren suddenly turned to Lin Yi with a sincere smile on his face, "Why don't we make a bet and see who will win?"

The corner of Lin Yi's lips curved up slightly as he looked at Jia junren with a faint smile, "What does young master Jia want to bet on?"

Was he looking for trouble?

Jia junren knew that Lin Yi and Shi Yucai had a close relationship and he couldn't bet on Shi Yucai's loss. If he said that on purpose, did that mean he was sure he could beat Shi Yucai?

"Our kind of bet is an elegant matter and naturally we can't bet on such vulgar things. How about this, whoever loses will agree to one thing of the other party? Of course, this matter definitely won't be something like suicide or something like that, nor will it be something that goes against the heavens and morality. In fact, it must be something that the loser can do. How about it?"

Jia junren replied with a smile, as if he was sure that Lin Yi wouldn't reject him.

This kind of loose bet wasn't difficult at all. Lin Yi shrugged, "No problem, as you wish! If I bet on Shi tiancai winning, then you're naturally betting on Shi tiancai losing, right?"

"That's right! It seemed like Grandmaster Sima was very confident in director Shi! Then let's wait and see!"

Jia junren turned his head to look at the array in satisfaction. He was very confident that Shi longcai would not be able to break out of the array within the time limit!

This was because the array he was going to set up this time was not the same as the previous three rounds. The difficulty of setting up this array had almost exceeded the limits of a diamond-grade array Grandmaster.

No matter how outstanding a Diamond Grade array master was, it would take at least half a day to break out of the array. It was normal for the weaker ones to be trapped for two to three days!

Just like how Fengqi Dazhou had the confidence to treat Shi shengcai and Lin Yi as his last trump cards, Jia junren's trump cards were the last two formations!

It was enough to win one of the first three rounds. Success or failure would depend on the last two rounds.

So far, everything was going according to Jia junren's plan. The bet with Lin Yi was just an idle chess piece he placed in his excitement. He didn't even think about what he wanted Lin Yi to do!

Well, now was the time to remember!

How about we let this Sima Yi follow us to the Sangzi continent?

Once they reached the great land of Sangzi, it would be the Jia family's world, and they could do whatever they wanted to Sima Yi!

Chapter 8674 The End

At this moment, Shi longcai, who was in the formation, had already sensed that something was wrong, and his expression was extremely grave.

He knew that there was a huge gap between him and Lin Yi, so he worked even harder to close the gap.

If they could win this competition, there would be no need for Sima Yi to appear, and it would be considered a small victory, so Shi Yucai attached great importance to this.

He hadn't expected that after entering the array formation, Shi wancai actually couldn't understand the situation of this array formation and could only walk around in circles!

All his attempts ended in failure.

Fortunately, the array at the exchange wouldn't put the participants' lives in danger, so Shi wancai didn't have to worry about safety.

Lin Yi used his spirit sense to scan the formation—he didn't show it on his face, but he was actually quite surprised!

He didn't expect the Jia family's formation to be so unique. There were many misleading traps in its setup, and Shi longcai had suffered many losses from this.

On the whole, the Jia family's formation was different from Fengqi Dazhou's.

Shi Yucai had never done any research before, so it wasn't easy for him to find the right way of thinking.

Only if Shi tiancai could use his spirit sense to cover the entire formation like Lin Yi did, taking every inch of the formation into his thoughts would he be able to find the flaw in the formation.

Unfortunately, Shi chengcai wasn't Lin Yi. Even if his spirit sense was okay, he couldn't operate it as godly as Lin Yi.

He could only continue to scurry around like a headless fly in the formation, turning back and forth until the competition time was up. Finally, he walked out after the formation stopped.

Shi shengcai's face was slightly pale. He had come with the conviction that he would win, but in the end, he had lost!

A complete defeat!

So far, this was the only battle where they had not been able to break out of the array. Regardless of the outcome of the previous three battles, at least they had been able to come out!

For the proud Shi Yucai, this was a rather serious blow!

"Shi Yucai, don't mind it. You didn't lose!"

Zhang xiaopang could see Shi tiancai's disappointment. He quickly comforted her loudly, ""The formation that you set up was also not broken by the other party, so this round you only fought to a draw!"

Shi tiancai raised his head in shock. He was so lost in his thoughts that he didn't pay attention to the situation on the other side. It was only then that he remembered that the array he had set up wasn't a simple thing either!

That was a formation that he had comprehended from the source of formation Dao!

Coupled with Shi longcai's own understanding, it would be extremely difficult for an ordinary array Grandmaster to break out of it in a short time!

Although he did not win, he did not lose either!

"Grandmaster Sima, what a pity! I didn't expect this to end in a draw. No one won the bet between us ..."

Jia junren didn't seem to mind, but Lin Yi's sharp senses caught the flash of annoyance in his eyes.

She didn't know if it was because he didn't win the competition, or because he didn't win the bet with Lin Yi.

"Yes, it's indeed a pity ... Young master Jia, in the next fifth round, you have no way out. You can only add a sixth round if you defeat us."

Lin Yi smiled faintly and reminded Jia junren kindly, ""If a draw happens again, you'll be considered to have lost!"

At the moment, Fengqi Dazhou's record against Sangzi Dazhou was two wins, one draw, and one loss, leading.

The last game could be won by a draw, and Sangzi Dazhou could only continue his life by winning. The pressure on both sides couldn't be compared.

Lin Yi said that, but he wouldn't allow a draw to happen.

The last round was Lin Yi's own doing-it'd be really embarrassing if they tied again!

"Hehe, don't worry Grandmaster Sima, I believe we won't lose!"

Jia junren was still stubborn and refused to admit defeat. He laughed and waved his hand.

An ordinary-looking middle-aged man in their group lowered his head and stepped out of the ranks to prepare for the fifth round's formation.

Su yongcang's pupils contracted. This middle-aged man had never had much of a presence. When he was first introduced, he was not specifically mentioned. The SU family only treated him as a guard or attendant of the Jia family.

He didn't expect it to be Jia junren's hidden trump card?

Could it be that this ordinary-looking middle-aged man's true array Dao strength was even stronger than the old Grandmaster in the fourth round?

Lin Yi didn't really mind-he only took a quick glance and went back to setting up formations.

In the entire sub Island, Lin Yi didn't dare to say that he was the number one formation master. After all, there were many people hiding in the dark.

However, there probably wouldn't be one or two people in this sub-Island who could break the array he had set up!

The current Lin Yi had merged all kinds of inheritances in the array path, many of which were not available on the sub Island. The sub island's array Masters really weren't enough to break it!

After a short while, both sides finished setting up their formations. They exchanged venues and prepared to start the fifth round of the competition!

"Grandmaster Sima, why don't we have another bet? Let's make it more practical this time. 100 million in gold certificates. It doesn't matter if we win or lose. Let's add a little more to the stakes and have some fun. "

When Lin Yi passed by the platform, Jia junren opened his mouth to make a bet again, but this time it was money. He was trying to belittle Lin Yi.

To put it bluntly, he respected Shi chengcai, so the bet was a requirement. He looked down on Lin Yi and felt that Lin Yi only deserved to gamble for a small amount of money!

Although it wasn't explicitly said, the humiliation in it was obvious!

Su yongcang's face didn't look too good, but he couldn't interrupt.

Lin Yi smiled, not minding Jia junren's intentions at all. It was a sure-win bet, and the guy was just giving money to spend-how was that humiliating?

Humiliating someone with 100 million gold certificates? Then, he wouldn't mind humiliating her a few more times!

Lin Yi wasn't short of money, but he'd feel bad if he didn't accept free money!

"Young master Jia only bet 100 million in gold certificates? Isn't the bet a little too small?"

Lin Yi blinked, thinking that it was rare for a spendthrift to come to his door and get stabbed. He had to seize the opportunity to sharpen the knife and cut more meat with one strike!

Jia junren's eyebrows raised slightly and he said in surprise,""Grandmaster Sima, you're so bold. How much do you want to bet? This young master doesn't mind playing with Grandmaster Sima!"

On the Sangzi continent, the Jia family was known as Jia zhetian, and their wealth was immeasurable. Jia junren's personal assets were not small, and although he would not bring everything with him, he would at least have several hundred million gold certificates with him.

"The bet is one billion gold certificates, and the time taken to win will be doubled. For example, if you break the formation in a moment, you will get two billion gold certificates. If you break the formation in ten minutes, you will get three billion gold certificates. Young master Jia, do you dare to take this?"

Lin Yi had made up his mind this time-the stakes were shocking, and even Jia junren was dumbfounded.

The concept of minutes was becoming common on the sub-Island with the sales of the clock in the center.

Chapter 8675

"As for the calculation method of the bet, for example, if I can break the formation in one minute, the bet will be one billion gold certificates, plus five billion gold certificates for time, for a total of six billion gold certificates!"

"And so on! If I break the formation in fifteen minutes, I'll give you five billion in gold certificates! In the end, if I succeed in breaking the formation, I'll lose four billion to you after deducting the one billion bet. If I fail in breaking the formation, I'll still lose six billion in gold certificates to you, five billion plus one billion. Is that fair?"

Jia Junjie secretly pinched his own thigh to make sure he didn't hear it wrong ... The highest bet was 6 billion, what if he lost and couldn't afford to pay?

It was wrong! How could he lose this? No!

The array in the fifth round was more difficult than the fourth round. Shi wancai was helpless in the fourth round, but Sima Yi could easily break the array in the fifth round? It was unrealistic!

Especially within 15 minutes! I'll definitely win, alright!

"Grandmaster Sima, this young master doesn't mind playing with you. Are you sure you want to bet this big?"

Jia junren, of course, wouldn't say that he didn't have that much, nor would he ask Lin Yi if he did. He'd already thought of a few ways to deal with Lin Yi if he didn't have enough!

"Of course I'm sure. The plan I put forward must have been carefully thought out!"

Lin Yi smiled confidently, as if victory was already in his grasp.

Jia junren thought that Lin Yi was bluffing and was actually trying to scare him away from the bet.

Setting up a huge bet was also for the purpose of humiliation, right?

If Jia junren were to reject the bet, the one who would lose face in the end would not be Sima Yi!

Jia junren, who thought he had seen through the truth, smiled proudly and immediately made a decision. ""Then it's settled! This young master will bet with you, Grandmaster Sima!"

"Ah!" Lin Yi exclaimed, panicking as his eyes lit up. He controlled his expressions perfectly-he was truly possessed by the Best Actor!

Lin Yi was giving it his all just to scam people!

Jia junren was even more certain of his guess, so he began to think about such a large amount of money. What if Sima Yi went back on his word?

He'd already thought that Lin Yi wouldn't be able to afford the 100 million in gold certificates, let alone a bet of up to six billion!

100 million was just for fun. Even Jia junren had to take six billion gold certificates seriously.

This was Feng Qi great continent, Sima Yi's home ground. If he were to go back on his word, su yongcang, this old thing, might help Sima Yi!

"Grandmaster Sima, since the bet has been confirmed, let's write a written agreement! After all, the amount of money at stake is relatively large, and the calculation method is also somewhat cumbersome. En, the main thing is that the calculation method is cumbersome, so it's better to write it down!"

Jia junren thought that he had succeeded in cutting off Lin Yi's escape route, "The notary will naturally be the highly respected master su. I don't think master su will object, right?"

Su yongcang, of course, had to object-if Lin Yi lost six billion, who knew if he'd take his anger out on house su? after all, it was house su who invited Lin Yi to the exchange!

Lin Yi probably wouldn't be happy even if the SU family were to pay for the bet-how could su yongcang agree to something like this?

"This ... Array Dao exchange, isn't it inappropriate to bet so much?"

Su yongcang smiled awkwardly and tried to smooth things over, and Lin Yi continued to play along.

That kind of slightly flustered but forced himself to stay calm so that no one could see it was really F * cking amazing!

Fei daqiang and Zhang Yiming, who understood Lin Yi well, were trying to hold back their laughter. Their boss was clearly trying to scam them!

And it was the kind of pit where the other party would dig a hole, jump in, and then bury themselves in the soil!

Poor Jia junren, that idiot, thought he was smart, but he was really helping others count the money after being sold!

Lin Yi didn't look down on Jia junren. This man was a schemer, but sometimes, smart people may be blinded by their own intelligence. After being guided, Jia junren was in the middle of the game without knowing it-this didn't mean that there was a problem with his intelligence.

Zhuge Liang's Empty Fort Strategy had scared Sima Yi away just because Sima Yi was too smart. If it was someone like the Tiger addict, Xu Chu, and the like, if they dared to empty their Fort strategy, they would dare to go up and hack them to death!

Tsk, this example is too inappropriate. Sima Yi, Sima Yi, this is a bad start.

"Young master Jia, there's no need for an agreement, right? We're all people who keep our promises. Who do you think you're not trusting?"

Lin Yi's forced calmness was so real that Fei daqiang and Zhang Yiming could only pinch each other's soft flesh to stop their laughter ...

Jia junren had really fallen into Lin Yi's trap!

The more Lin Yi acted like this, the more he was sure that Lin Yi was guilty.

Without another word, Jia junren had someone prepare ink, paper, and an inkstone. He wrote down two agreements and signed them for Lin Yi to look over, urging Lin Yi to sign as well.

"Grandmaster Sima, this young master has already agreed to the bet you proposed. It's outrageous for you to still refuse! Are you looking down on the Jia family of Sangzi Dazhou?"

Lin Yi could only sign his name unwillingly after hearing Jia junren's words. He then let su yongcang, who was also unwillingly, sign his name as well.

The only difference was that Lin Yi was completely acting, su yongcang was real!

Lin Yi was still mumbling, ""Really, he clearly doesn't trust people! I already believe that the Jia family won't go back on their word, so what's the point?"

"Boss is mighty! A Swift victory in the beginning, immediate success!"

Fei da held back his laughter for a long time, and seeing that the dust had settled, he could finally cheer for his thigh.

Zhang Yiming also shouted, and the two of them made it seem like Shi Yucai was a fan girl group.

Lin Yi's lips curled up as he gave the two a knowing look. He then walked into the formation with his hands behind his back.

The formation activated after they entered, but Lin Yi's figure didn't disappear. Everyone could clearly see what he was doing.

"I grabbed a blade of grass! Boss's big feet are about to reappear in the martial world!"

Fei daqiang couldn't help but exclaim when he saw Lin Yi raising his right leg, his face full of surprise, "Ah, ah, ah, I haven't seen boss use this ultimate move for a long time. I really miss it!"

Jia junren couldn't help but roll his eyes. What big feet to break the array? Are you crazy?

However, what happened next completely subverted his imagination!

Lin Yi really did just casually kick out, and the formation that was just starting to move stopped instantly, making a cracking sound.

In the blink of an eye, the entire array began to collapse. The array that Jia junren had placed high hopes on and tried to make a comeback was completely destroyed just like that!

Jia junren was completely dumbfounded. His mouth was wide open, and he almost couldn't hold back his saliva.

Chapter 8676

How the hell did he even have a minute?

From the moment he entered to the moment the formation collapsed, it had only been ten seconds or so. If he were to talk about breaking the formation, the only thing he could do was break it with his Big Foot ...

To hell with it!

Lin Yi strolled back with his hands behind his back, as if he had just finished eating and taken a stroll outside the door. He went to Jia junren and shook the agreement he had just written.

The ink on it had yet to dry, and the vigorous and powerful words turned into slaps that ruthlessly smacked Jia junren's face!

Damn it, these words were written by Jia junren himself! He really wouldn't die if he didn't seek death!

"Young master Jia, six billion in gold certificates, thank you!"

Lin Yi smiled as he reached out to collect the debt. He wasn't short on money, but it was still a pleasure to see someone dig a hole and jump in to bury him!

Jia junren wanted to cry but had no tears. He almost vomited a mouthful of blood!

F * ck!

The plot should not have developed like this!

What was the problem?

Could it be that there was a problem with the formation? How could it be broken by a single kick?

It didn't make sense!

Su yongcang was instantly revived. He was still worried about Lin Yi's losses, wondering if he should prepare six billion gold notes to pay the bill.

In the blink of an eye, the formation was actually broken? I didn't even have time to see how it was broken!

It was like a live football fan who was looking for a seat when he entered the stadium and then heard that the ball had gone in. He was very confused!

"Hahahaha, Grandmaster Sima is indeed the number one array master of our Feng Qi continent! This method really makes this old man gasp in amazement! That's amazing!"

Su yongcang laughed out loud, complimenting Lin Yi from the bottom of his heart, "With Grandmaster Sima's strength, who knows, he might become the next generation's array Emperor. This old man is extremely fortunate to have met Grandmaster Sima in my lifetime!"

Jia junren scolded su yongcang in his heart for being shameless. He was the head of the SU family, but his words were almost flattering!

But he couldn't deny that Lin Yi's array skills were beyond his imagination!

To think that such a difficult formation could be broken with a single kick ...

What was the point of that kick? Was it really some kind of formation-breaking secret technique?

"Master su, you're too kind. I can't afford such praise. I was just lucky!"

Lin Yi waved his hand humbly and turned to Jia junren, showing him the agreement. "Young master Jia, you've let me win, you've let me win. Six billion gold certificates!"

Jia junren's throat was filled with hot blood. Are you F * cking done?

Who would be so free to bring six billion gold certificates with them? Is he just counting for fun?

Su yongcang added insult to injury and chuckled, ""Grandmaster Sima, you don't have to be anxious. If you agree to a bet, you must accept your loss. Young master Jia will definitely honor the bet. You're asking for a debt like this. You can't be afraid that he'll go back on his word, right?"

Jia junren gritted his teeth so hard that they almost broke. This old thing is not a good person!

The words were all directed at him. He really wanted to go back on his word, but if he did so, the Jia family's reputation would be completely destroyed!

Who would believe the words of the Jia family in the future? If word of this got out, the Jia family would become the laughing stock of the entire continent!

"Don't worry, I, Jia junren, will never go back on my words. Moreover, I took the initiative to sign the agreement, so I will definitely not go back on my word!"

Jia junren suppressed the emotions in his heart and put on a calm look. He smiled and said, ""It's just that I didn't expect to use so much money on this trip. I didn't prepare anything for it and I'm afraid I'll have to move it for a few days. "

He finally understood that Lin Yi was trying to dig a hole to bury him, but he just had to jump in himself like an idiot! He wanted to vomit blood just thinking about it!

But what could he do now?

Jia junren was afraid that Lin Yi would go back on his word and push things to the end, but now that it was his own head, it was also a dead end that couldn't be solved-he could only admit defeat!

"It doesn't matter, I believe that young master Jia is not the kind of person who reneges on a debt! There's no problem with redeeming the wagers later, but the wagers this time are truly rather large. I've never seen so many gold certificates in my entire life, so I can't help but feel nervous. "

Lin Yi started talking nonsense again as he spread out a new piece of paper, dipped the brush in ink, and passed it to Jia junren."So, please, young master Jia, write me an IOU! He said that he would spend a long time to pay my six billion gold certificates as a bet!"

"If it's within ten days, I won't charge you any interest. If it's more than ten days, I'll charge you a thousandth of interest every day. For the sake of young master Jia's forthright attitude, I will only charge you single interest every day for a year, not compound interest. If you exceed a year, you will have to start with compound interest!"

Jia junren felt like he could no longer suppress The Old Blood in his throat!

A thousandth of a day's interest didn't seem like much, but the base number was high! How much was one-thousandth of six billion? Six million!

Six million gold certificates a day, no matter how rich Jia junren was, he could not afford such a consumption. After all, he was only a direct descendant of the Jia family, not a behemoth like the Jia family!

Su yongcang tried to sound him out, saying that Lin Yi's suggestion was very reasonable. Unless Jia junren could immediately honor the bet, he shouldn't have rejected the IOU, or was he planning to go back on his word?

Jia junren's heart felt like it was being cut by a knife, and blood was dripping out of it. He had to force a smile and act as if nothing happened, and he wrote the IOU according to Lin Yi's instructions!

If he didn't write it down, he definitely wouldn't be able to pass the day. He had no choice but to think of a way to repay this debt as soon as possible ... Or directly kill the debtor, and then everything would be over!

Killing intent emerged in Jia junren's heart, but his face remained unchanged. He laughed and said, ""Grandmaster Sima really lives up to his reputation. I'm impressed! If there's a chance in the future, I'd like to ask Grandmaster Sima for advice on array knowledge!"

"You're welcome, you're welcome. When young master Jia has honored the bet, we can have a drink and talk in the candlelight!"

Lin Yi smiled as he put away the IOU, stabbing another knife into Jia junren's heart!

Jia junren's smile froze and he quickly covered it up as he cursed Lin Yi's ancestors in his heart!

The interlude ended just like that. On the other side of the formation that Lin Yi had set up, the SU family's formation master couldn't break out at all. He only came out after the time limit was up.

Comparing the two ... There was no way to compare!

There were some other arrangements for the exchange, but after Lin Yi's performance, the Sangzi continent's morale dropped and they lost interest in continuing the competition.

They were not even willing to go through the motions and could only end the official event of this exchange competition hastily!

Finally, it was a friendly match. Each side would send a few people to enter the formation for the Grandmaster assessment. It had nothing to do with victory or defeat. It was just a discussion. It was a real exchange!

During the assessment, the rule of one person per round was fixed. If there was more than one person, the restriction of the formation would be lifted, and its power would be released.

Chapter 8677

The number of people who went in for the friendly match would definitely exceed the limit, so the power of the formation would be completely activated. Grandmasters who were not up to standard would know their own limits and would not go in to get killed.

"Everyone, although the final round is a friendly match, there should be some stakes. Whoever passes first will be rewarded with a treasure. We will definitely not let you down. I'll keep you in suspense first."

Su yongcang coming out to announce such a decision made the others a little interested.

Su Zixin also came out and said, "originally, this trial array is used to test for diamond-grade grandmasters. Those below diamond-grade are not qualified to enter. But today is different. Although the power of the array is fully released after the number of people exceeds the limit, the difficulty of passing the trial will be reduced after the power is increased."

This sounded like a paradox, but it was not difficult to understand. For example, if the original lethality was sealed, but there were iron walls everywhere, it would naturally be more difficult to pass through!

After the damage output was released, the iron walls would reveal flaws. As long as one could avoid the attacks, the difficulty of passing through would naturally be reduced.

"In order to ensure everyone's safety after entering the array, we will issue a one-time special teleportation talisman that can be used to teleport out of the array in the event of danger. However, you must take note that this special teleportation talisman will have at least a second of activation time. Please come out as soon as you feel danger, otherwise it will be difficult to guarantee a smooth activation!"

This kind of special teleportation talisman was actually a part of the array. It could only be used in this trial array. After leaving the array, it would be useless.

During the assessment, because those powerful killing arrays had been sealed, there would be no danger to their lives, so there was no need to use teleportation talismans. This time, there were more people going in, so it was completely different.

Everyone had some understanding of this, and those who were preparing to enter the trial array each received a teleportation talisman.

Fengqi Dazhou had Lin Yi, Shi tiancai, su Zixin, and three other formation Masters from the SU family, a total of six people.

The great land of Sangzi was led by Jia junren, and with the other five grandmasters, it was a total of six people. In addition, the Vice President of the continent's array Association, Wei Mian, would also be entering the array to participate in this friendly match.

The 13 of them entered the trial array together. The array started to operate, and the 13 of them were randomly divided into a few parts.

Lin Yi and Shi chengcai were together, and Sangzi Dazhou's people were lucky to be gathered together.

The three grandmasters of the SU family were not separated, but su Zixin and Wei Mian were separated.

Lin Yi didn't need to come in-after all, he was the one who rebuilt the formation after it was destroyed ...

Competing with others in one's own array, no matter how one looked at it, it was a serious case of cheating!

But for some reason, Lin Yi still followed them in. The people at the great land of Sangzi didn't know about Lin Yi's relationship with the formation. If they did, they would probably protest, right?

Speaking of the people from Sangzi continent, Jia junren was currently expressing his opinion on the trial array: "Is this the training array that Fengqi Dazhou uses to test for Diamond Grade array Masters? It didn't look like much! No wonder the diamond level formation Masters in Fengqi Dazhou are getting younger and younger!"

His tone was full of disdain, hinting that Lin Yi and Shi Yucai, the two young diamond grandmasters, only passed because the test was too easy.

The grandmasters around Jia junren all laughed in agreement, but they were cursing in their hearts.

Sima Yi and Shi tiancai were young, but they were genuine diamond-ranked array Masters!

If not for that, how could you, Jia junren, have lost six billion gold certificates? And he was forced to write an IOU?

Now that he's not here, you're really losing your demeanor by saying such sarcastic words!

However, Jia junren really felt that the trial array was very simple. Although it scattered people as soon as they entered, the distribution was not even. It was obvious that there was a problem with the array.

"Let's go! Let's hurry up and get through this trial array. Although we're slightly inferior in the exchange, winning this friendly match will prove that we're stronger than them!"

Jia junren boosted their morale and led the team to break through the pass.

Their advantage was that they had more people and more strength. The six people from the Sangzi continent were all together, so their cooperation must be very tacit. At first, it was indeed very smooth, but soon Jia junren found that something was wrong!

The power of the trial array became stronger and stronger. With practically every step forward, he would feel the pressure increasing!

All kinds of attacks emerged one after another. The Sangzi continent's six people cooperated with each other but still found it difficult to move.

However, this level of difficulty was not enough to make them give up. They continued to advance.

On the other side, Wei Mian was moving alone, but she seemed to be at ease as she advanced through the training formation.

However, the deeper he went, the uglier his expression became, as if something was out of his expectations.

As time passed, everyone in the trial array, whether it was difficult or easy, was advancing towards the final checkpoint. For the time being, no one had left, and there were no casualties.

Lin Yi and Shi chengcai were together, but they didn't make a move. Instead, Lin Yi strolled around with Shi chengcai, leaving the latter to deal with the attacks from the formation.

After all, this was Lin Yi's own formation, and it would be boring to cheat with Shi Yucai. It just so happened that Shi Yucai couldn't enter the formation because Lin Yi destroyed it during the diamond Grandmaster exam. This time, one of his wishes was fulfilled.

"Sima Yi, the array you repaired, is it the same as before? It's a little different from what I studied before the assessment!"

Shi chengcai chatted with Lin Yi while working. "If I had entered this trial formation during the assessment, I really don't dare to say that I would have passed the assessment ... It's all thanks to my comprehension in the source of formation Dao that I'm able to deal with it easily now."

During this period of time, Shi shengcai's array path had indeed made great progress. He was actually quite grateful to Lin Yi, because when he talked to Lin Yi about arrays, he always gained a lot of inspiration and gains.

His growth wasn't purely from the source of formation Dao-he also had Lin Yi's intentional or unintentional pointers, but he was too embarrassed to say these details out loud and kept them in mind.

"It's basically using the original formation as a Foundation with some slight changes. If you study the original formation, you'll find some differences, but it's not a big problem."

Lin Yi shrugged,"it's about the same in terms of difficulty, maybe a little harder ... But it should be okay for you now."

Chapter 8678

Shi tiancai's advancement speed could be considered to be the fastest among all the formations, even if it wasn't an irresistible force.

The SU family's three grandmasters and su Zixin were at the back. Their progress was about twice as slow as Shi longcai 's.

Sangzi Dazhou's team of six was the closest to Shi wancai, with Wei Mian behind them, not far away.

Lin Yi would occasionally use his spirit sense to check on the people behind him, especially Wei Mian, who was extremely relaxed but not faster than Jia junren and the others. Lin Yi was very concerned.

Lin Yi's expression changed as he was about to pass the trial formation. He suddenly moved in front of Shi chengcai!

Under Lin Yi's spiritual sense, he could see that Wei Mian had started to tamper with the formation!

The formation's attack, which was originally within a normal range, suddenly increased in power by several times. If Lin Yi hadn't blocked it, Shi chengcai would've died!

As for Sangzi Dazhou's Jia junren and the others, they weren't far from Shi Yucai and Lin Yi, so they were also in the attack range when the formation exploded.

In the blink of an eye, four of the six people from the Sangzi continent died on the spot!

Of the remaining two, besides Jia junren, the other one was also a disciple of the Jia family.

When they attacked, there was a flash of light on their bodies, blocking the fatal blow for them!

This was the life-saving trump card that the Jia family gave to their direct descendants! Without this item, the Sangzi continent would have been completely annihilated!

As for su Zixin and the few array Masters from the SU family, because they were still quite far away, they had a little more time to prepare for their attacks.

Those who could reach this level were all smart people. After realizing that something was wrong, the SU family, including su Zixin, immediately activated the teleportation talisman and escaped at the last moment!

This was also thanks to the fact that the trial formation belonged to Fengqi Dazhou. Although they didn't have the ability to successfully pass the trial alone, they more or less knew some information about the formation.

The sudden burst of power was definitely abnormal, so they all instinctively took the best choice to escape!

If he hesitated even a little bit, he would probably end up like the people of the Sangzi continent and wouldn't even have time to activate the teleportation talisman!

Lin Yi's face darkened-he'd been prepared, but he still almost fell for it!

"What's going on? Did this formation suddenly change?"

Shi longcai cried out involuntarily, feeling a lingering fear in his heart!

If it wasn't for Lin Yi blocking in front of him, he wouldn't have been able to withstand this attack.

But Shi longcai's first concern wasn't his own life, but rather what kind of change had occurred in the trial array.

"Someone is up to no good! I want to play some tricks!"

"Too bad," Lin Yi sneered, "he doesn't know that this formation isn't the same as before!"

Through the surveillance of his spiritual sense, he could see that Wei Mian was moving in the same way as before.

It was clear that he was familiar with the formation from before-Lin Yi didn't make too many changes to the framework, so his operation was still very smooth for the time being!

However, this smooth process would end here!

After blocking the first wave of attacks, Lin Yi lifted his right leg and kicked towards an empty space.

What should have been an empty place suddenly rang with a dull roar.

Then, the entire trial array began to emit cracking sounds. The attacks that were getting more and more violent suddenly disappeared!

The trial array had stopped working!

Shi Yucai was dumbfounded. He was even more dumbfounded than when he had been suddenly attacked!

The trial array was stopped just like that? Was it that casual?

Was there really such a thing as breaking the formation with big feet? Awesome!

Although Lin Yi was the one who rebuilt the array, Shi Yucai didn't think that Lin Yi could stop the array just because of that!

After all, this formation had been tampered with. They should have found the core of the formation and spent some time on it, right?

A casual kick ... Did the trial array not care about its reputation?

It was actually quite a coincidence-when Lin Yi was rebuilding the formation, he'd already set up hidden agents everywhere to make sure he could take action as soon as possible, and the place he'd just kicked was one of those hidden agents!

He had no choice. He wanted to keep a low profile, but he still accidentally showed off!

"Sima Yi ... No, no, no, Grandmaster Sima, your array skills have really exceeded my imagination! He was too strong! I wonder if you can take me in as your disciple and teach me knowledge about arrays?"

Shi chengcai was completely stunned by Lin Yi's words, and even thought of taking him as his master.

Lin Yi's mouth twitched-he didn't expect this at all!

To be honest, Lin Yi never thought of taking Shi chengcai as a disciple. It was more like making friends.

After all, Shi tiancai was a rare genius. If Lin Yi didn't have his own fortune, he might not be as talented as Shi tiancai in terms of formations.

But after Shi chengcai said this, he felt much more relaxed!

Lin Yi had already given him a lot of advice on formations, and their relationship was like a teacher and a friend-he didn't even want to admit that he respected and appreciated Lin Yi.

Now that he said he wanted to acknowledge a master, his heart suddenly became clear!

"There's no order in learning, the one who has it is the teacher! On the path of arrays, Grandmaster Sima's understanding far surpasses those of the same rank. I, Shi longcai, am willing to acknowledge you as my master, please accept me!"

Shi chengcai kneeled down in front of Lin Yi,"Since master doesn't object, then disciple thanks master for your kindness in taking in the sect. From now on, I will put the sect as the most important thing ..."

"Stop, stop, stop! Are you trying to force a duck onto the rack? You didn't even give me a chance to object, and you just went all out?"

Lin Yi quickly interrupted Shi shengcai, finding it a little funny.

There was really no way to explain this!

"This disciple has already gone through the ceremony to acknowledge you as my master. This matter has already been concluded. I hope that master will not repeat it again!"

Shi shengcai's neck stiffened. So what if he wanted to push a duck onto a perch?

What else could Lin Yi say? This wasn't the time to be discussing the matter of acknowledging a master!

"Alright, alright, alright. Hurry up and get up. There are still things to do now!"

Lin Yi helplessly gave in and pulled Shi chengcai up.

Shi tiancai was overjoyed. His obsession with array Dao was enough to make him put down all his face.

Not to mention, Lin Yi was a real talent, and he was more than qualified to be Shi tiancai's master.

After getting up, Shi Yucai began to recall Fei daqiang and Zhang Yiming's usual behavior, and then gave Lin Yi a bunch of compliments ... The great array genius was actually becoming a bootlicker!

Lin Yi smacked his forehead. This was all Fei daqiang's fault!

Whoever stayed with him would be led astray by him without too much time!

This was a rather impressive ability!

Chapter 8679

"Alright, don't bother with da Qiang and the others. It's good to maintain your original style!"

Lin Yi rubbed his brows, looking like he was having a headache. If Shi tiancai's fangirls saw him like this, would they have the thought of cutting him into pieces?

"Let's leave first! This matter won't end so easily! Let's go out and see what kind of performance the mastermind behind the scenes has!"

By the time Lin Yi and Shi chengcai left the formation, Wei Mian, Jia junren, and the remaining Sangzi Dazhou had also come out. A group of people surrounded su yongcang, demanding an explanation.

"Master su, you're doing this on purpose, right? You want to trap our Sangzi great continent's array Dao Grandmaster! Are you still trying to catch us all in one fell swoop? Come, come, come, let's do it! Let's see if we're afraid!"

Jia junren was extremely angry, his face flushed red and the veins on his neck popped out. He stomped in front of su yongcang, completely losing his previous calm and composed appearance of a noble young master.

He couldn't be blamed for being angry, Sangzi continent lost four array Masters this time, two of them were invited outside help, and the other two were Jia family elites!

Array path grandmasters were not some cabbages on the side of the road, four of them dying at once was definitely a huge loss!

In addition, a group of them had died in the source of array Dao. Now, the Sangzi continent's array Dao grandmasters were already lacking in talent. This time, another four had died. Jia junren would definitely go crazy!

Wei Mian, as the Vice President of the array formation Guild, also said with a dark face, "Master su, you have to give a reasonable explanation this time! Why did such a thing happen? could it be that he really wanted to kill all the formation Masters of the Jia family?"

"What good does it do for your su family? There's a shortage of formation Masters in the Sangzi continent, and if the darkness demon beast clan attacks, the node will be in danger. Could it be that you're colluding with the darkness demon beast clan and trying to overthrow us humans?"

If they couldn't explain this, the SU clan's reputation would be ruined and they would become The Public Enemy of the entire star source continent!

Su yongcang smiled bitterly and waved his hands repeatedly, ""It's a misunderstanding! It's all a misunderstanding! How could our su family target a friend who came from afar? It's even more impossible for them to be in cahoots with the darkness demon beast clan!"

"There must be a deeper reason for this incident. Please be patient and wait for this old man to investigate before making a decision!"

Su Zixin explained with a bitter face.

How could Jia junren and Wei Mian agree to this? He continued to force su yongcang to explain!

Actually, anyone with a discerning eye could tell that this matter most likely had nothing to do with the SU family. Otherwise, how could su yongcang let them point at his nose and scold him?

If he really wanted to kill someone, now was a good opportunity to silence them. In the territory of the SU family of Feng Qi continent, was there a need to be afraid of not being able to deal with these outsiders?

Su yongcang didn't do this kind of thing, so he definitely couldn't make a move on them. Once he made a move, that would be confirming the crime, and once it spread out, the SU family would be finished.

At this time, su yongcang really hoped that one or two of the SU family's array Masters would die ... It was inevitable that he would feel heartache, but it would not arouse suspicion!

Jia junren and Wei Mian just wouldn't let go of this point. Why did Sangzi Dazhou lose four grandmasters, but not a single member of the SU family died?

Not only was he not dead, he wasn't even injured. This was too fake!

Even if it's a performance, you should at least act more realistically!

"Su family head, you say it's a misunderstanding, then explain to me why none of your su family's people died, but all of our Jia family's array Dao grandmasters? Are you trying to say that our Jia family's array master was not skilled enough and that he died in vain?"

Jia junren brought up this topic again. Su yongcang's head was buzzing, and he really didn't know how to continue.

At this moment, Lin Yi walked over and looked at Wei Mian with cold eyes, "Young master Jia, you've found the wrong person. If you want to know the reason, you should ask Vice President Wei!"

"I'm afraid that only Vice President Wei knows what happened in the trial array. As for why this happened, only Vice President Wei can explain it! Don't you think I'm right? Vice President Wei!"

Wei Mian was dumbfounded as she looked at Lin Yi in confusion. "Vice President Sima, what do you mean? I don't understand what you're saying at all!"

"No matter how I look at it, this matter is your Fengqi great continent or su family's doing. You want to destroy the array Grandmaster of Sangzi great continent in one fell swoop, but now you're asking me what do you mean? Are you trying to push the blame to me?"

Wei Mian's acting was very good, and what she said made sense. The people of Sangzi Dazhou supported him brainlessly. For a moment, they were clamoring and the crowd was agitated. If this continued, they would probably take action.

"Hehe ... Throw the blame to you? Was there a need for this? It was you who did it. How could you have the guts to do it but not the guts to admit it? As the dignified Vice President of the array path Guild, why is there a need to be so secretive, can't you just admit it generously?"

Lin Yi's face was full of mockery and disdain as he shook his head, "If you had admitted it, I would have looked at you in a higher light. Now that things have come to this, you still want to deny it. I really look down on you!"

"Actually, I've been paying attention to you for a long time. If I'm not wrong, you've done something to this trial array a long time ago, right? What do you want to do with this trial array?"

Wei Mian snorted, her face full of righteousness, "There's no such thing! If you want to slander this Lord, you should at least show some reliable evidence. Who would believe you if you were to spout nonsense?"

Although he said that, he was secretly shocked. He didn't think that Lin Yi was this smart, to be able to guess some of the truth. This was troublesome!

Lin Yi nodded, "if that's the case, then I'll make sure you're convinced!" Actually, there's something I forgot to tell you. This training array was destroyed by me when I was taking the Diamond Master exam. I was the one who repaired it!"

"So, this array is no longer that familiar to you. When you were in the array just now, did you feel a little unaccustomed to it? That's right! It would be strange if you could still move like before!"

Wei Mian's face changed-he was starting to believe that Lin Yi could come up with some evidence, but he had to continue holding on!

"Just now, you activated the array's hidden super strong attack and instantly killed the Sangzi great continent's four array Masters. My reaction was a bit slow and I couldn't save them, but after they died, I stopped the array in time!"

Lin Yi walked over to where the formation had stopped, "Let me restart the array and show everyone the evidence. I'll let everyone see what you, Vice President Wei Mian, have done in the great array of the trial!"

With that, Lin Yi sent a kick out-there was a hidden mechanism here, of course, so the kick worked again, and the formation started running again.

Chapter 8680

Wei Mian's expression changed slightly, but she didn't take it to heart. "You can get evidence just by restarting the formation?"

What a joke! I'd like to see what kind of tricks you can play!

He thought that Lin Yi was just trying to trick him, and he had to keep his composure!

He didn't expect Lin Yi's simple operation to cause the clouds above the formation to roll, and light was projected onto the clouds, forming a clear image!

It was exactly what Wei Mian had done in the training formation!

Wei Mian's expression changed drastically as she panicked, "Fake! It was all fake! Sima Yi, you're trying to frame me! It's too shameful!"

"Fake? Ah ... When I was repairing the formation, I discovered that someone had tampered with it, so when I was repairing it, I set up a surveillance formation. "

Lin Yi said with a mocking smile. "There are quite a few grandmasters present, and everyone here is an expert. I don't need to say anything, and I can tell if the projection of the surveillance array is real or fake! Vice President Wei, do you still want to deny it?"

Wei Mian was tongue-tied, not knowing what to say for a moment.

He wanted to continue to deny it, but now that there was irrefutable evidence, what was the point of denying?

As Lin Yi said, not everyone could set up or break the formation, but everyone could tell if the images recorded by the formation were real or not!

"Wei Mian! You actually dare to harm us!"

Jia junren was furious. If he did not have a life-saving trump card on him, he would already be a corpse by now! This matter couldn't be tolerated, "thief! Our Jia family has no enmity with you, why do you want to harm us!"

Wei Mian had nothing to say, so she simply flung her sleeves and snorted, "If you want to punish someone, you can't find a good excuse! Your words can melt gold, and whatever I say is useless!"

If he couldn't deny it, then he would! What can you do to me if I don't reason with you?

"You know clearly in your heart whether you are trying to frame someone or not. Men, take down Vice President Wei and await your punishment!"

Lin Yi waved his hand and gave the order naturally. The guards subconsciously followed Lin Yi's orders and were ready to attack Wei Mian.

Su yongcang didn't object-if it wasn't for Lin Yi, the SU family would've been wronged to death! This damn Wei Mian, he couldn't let her off so easily!

"Stop! This Lord is the Vice President of the continent's array formation Guild. Sima Yi, you are at most at the same rank as me, what qualifications do you have to arrest this Lord?"

Strictly speaking, Wei Mian and Lin Yi were both vice presidents of the Union, but Wei Mian was way more experienced than Lin Yi.

There was a ranking for vice presidents as well, and Lin Yi was still inexperienced, so he was definitely at the bottom. Wei Mian was his senior, so Lin Yi's words made sense.

"Sima Yi, don't be too extreme! You don't have the right to deal with me! If you really want to arrest them, the higher-ups will charge you with the crime of overstepping your authority, and you won't be able to bear the consequences!"

Wei Mian was still holding on, threatening Lin Yi, "If you insist on doing things your own way, I will definitely report this to the higher-ups, and we'll see the real deal then!"

Lin Yi frowned and curled his lips in disdain. "Is this all you've got? It doesn't matter, you can Sue me wherever you want. I'll be there anytime! Before that, I advise you to surrender without a fight. Otherwise, if I take you down, you won't have time to regret it in the future!"

The SU family's guards, after receiving Lin Yi's signal, were all pumped up and ready to take down Wei Mian with all their might!

"Who dares to make a move? Are you trying to rebel?"

Wei Mian's shout was quite imposing, "I'm the Vice President of the star source continent's array formation Association, and I'm here to preside over the array formation exchange between the two continents. You actually want to capture me! Su yongcang, what does the SU family want to do? Do you still have any respect for the starsource continent's array formation Guild?"

A Tiger would not lose its might even if it was dead. This guy forcefully held on and exploded with the aura of a superior, which indeed had some intimidating effect. The guards who were in high spirits just now fell into hesitation again.

If the SU family was accused of rebellion because of this, they couldn't afford to bear it!

Su banzhou sounded impressive, but when it came to the starsource continent, it was really not enough!

"There's irrefutable evidence, you still haven't given up?"

Lin Yi laughed coldly as he strolled forward. Every step was slow, but it gave Wei Mian immense psychological pressure. "Since you want me to do it myself, I'll fulfill your wish!"

"But I've already said it just now, it's best for you to surrender. If I deal with you, you won't even have time to regret it!"

Wei Mian's heart was filled with fear. Lin Yi's threat was like countless needles stabbing into every inch of his skin.

The huge difference in strength made him not even dare to have the thought of resisting.

He was only the Vice President of the array Dao Guild, and his battle strength was similar to other array Dao grandmasters. He could deal with ordinary battles, but he was nothing against experts.

"Sima Yi, don't you go too far. Do you really think that I'm afraid of you?"

Wei Mian screamed, "guards!" Someone come quickly!"

As he spoke, he threw a signal into the sky.

This time, Wei Mian didn't come to Fengqi Dazhou alone. She had four fake heaven breaking guards with her!

It was just that the people at the gathering were all array grandmasters, and no one brought any guards with them. They all stayed outside, so it was not good for him to go alone. Now that he needed protection, he thought of summoning guards to help.

Lin Yi's lips curled into a mocking smile as he continued to walk towards Wei Mian, "I know you won't give up. Let your men try to save you from my hands!"

Wei Mian's eyes flickered, her heart filled with both joy and worry.

He was happy because Lin Yi's attitude gave his guards time to come and help, but he was worried because Lin Yi was so calm. Did he really have the confidence to take down his four pseudo heaven breaking guards?

It shouldn't be that bad, right?

The four pseudo-heaven breaking guards had been working together for a long time, and when they joined forces, even a true heaven breaking expert would find it difficult to resist, unless it was a powerhouse above the middle heaven breaking stage ...

No! Even if she was in the middle stage of the heaven breaking realm, the four of them would still have a chance of protecting her and leaving!

The people on the side all fell into silence. Sangzi Dazhou, led by Jia junren, all entered into a drama-watching mode.

Fengqi Dazhou, su yongcang, and the others had complicated feelings, not knowing if they should help Lin Yi.

Lin Yi's status was the same as Wei Mian 's, maybe even higher. Lin Yi wouldn't be at a disadvantage if the two of them were to fight.

However, if the SU family wasn't completely confident and offended Wei Mian, they would be in deep trouble!

Only Fei daqiang and Zhang Yiming didn't realize that and cheered for Lin Yi loudly.

Especially Fei daqiang, who shouted especially loudly, "Boss, why are you talking so much nonsense with him? He went up and did it! Use your big feet and make him kneel on the ground and sing "conquered" obediently!"
