

## Bodyguard 8711

### Chapter 8711

As time passed, Fei daqiang still didn't get any advice from Lin Yi, but he didn't panic. He was even calmer than before.

Because he had thought it through, he could not break the array, and the array set up by his thigh definitely could not be broken by that Jia junren. At most, it would be a draw!

Fei daqiang had no achievements in array Dao, so it was not embarrassing to draw with Jia junren!

On the other hand, if Jia junren couldn't even beat Lin Yi's follower, that would be a real embarrassment!

Jia junren hit a wall everywhere in Lin Yi's complex formation and was sweating profusely, a stark contrast to the calm Fei daqiang.

Seeing that more than half the time had passed, he still had no clue about this formation.

Lin Yi didn't know what to do with the shameless Fei daqiang. It was such a good opportunity for him to try, but he'd rather sit still than touch the formation.

If this continued, the winner would still not be decided. Lin Yi didn't want to drag it out, so he could only use Wu Linghai to guide Fei daqiang to break the formation!

Fei daqiang's spirit sense was connected to Lin Yi 's, so he could guide it directly.

Inside the formation, Fei daqiang's eyes brightened. After waiting for so long, he finally got Lin Yi's leg!

She knew that the thigh would not give up any leg hair!

Fei daqiang, who had been silent for a long time, suddenly jumped up and began to move around in the array, cracking Jia junren's array step by step.

If it was Lin Yi himself, he could've stopped the formation with just one kick if he saw the right point, but Fei daqiang couldn't do that!

Even with Lin Yi's spiritual sense, the time to break the formation was fleeting. They could change positions at any time, and Fei daqiang's reaction speed couldn't catch up with this change.

Lin Yi could give them a head start, but any mistake between the two would cause the formation to fail.

So Lin Yi didn't take the risk and used a slow and steady method, guiding Fei daqiang to break the formation step by step in a normal order.

There was still plenty of time left. It was enough for Fei daqiang to break the array two or three times. There was no hurry!

The faces of the Jia family members watching the battle on the platform were a bit ugly. They had thought that this additional round would be a sure win, but Jia junren was trapped in the array without any hope of breaking it.

Originally, when Fei daqiang sat still and there was no possibility of breaking the formation, the Jia family didn't care too much. At most, it would be a draw.

However, Fei daqiang didn't move at all. Once he moved, he flew up!

Jia junren's array was about to be broken by Fei daqiang. If this continued, wouldn't the Jia family lose?

It wasn't easy to get house su and Lin Yi to come to Sangzi Dazhou, and the Jia family wanted to avenge their humiliation, not to make things worse!

Failure was absolutely not allowed!

The head of the Jia family gave the president of the array formation Association a subtle look, and the president nodded his head, indicating that he understood.

Lin Yi used his spirit sense to monitor the scene and naturally noticed the small movements between the two, but he didn't know what they were trying to do.

When Lin Yi found out, it was too late to stop him!

Actually, it was quite simple. The array formation Association's President was the host and judge of the exchange. The sandalwood incense used to keep time was by his hand, and he was also in charge of lighting and extinguishing it.

The look that the Jia family head gave him was to speed up the burning of the sandalwood!

Perhaps there was some mechanism set up in the incense, but after the array formation Association's President received the signal, the remaining quarter of the incense stick instantly became like a fuse, burning out with two sizzles!

Everyone's attention was focused on the formations on both sides. Other than Lin Yi, no one else noticed that the incense stick was burning abnormally!

Lin Yi knew about it, but he didn't stop them in time. It was probably useless to say it out loud since the Jia family and the president of the array Association must have already prepared an excuse!

"Time's Up! Both sides failed to break the formation, so this round is a draw. In total, the Jia and su families each have two wins, two draws, and two losses, still a draw!"

The president of the array formation Association acted as if nothing had happened as he stood out and announced the results in all seriousness.

Many people who didn't know the situation didn't doubt it. Even if some people felt that this round's time seemed to be slightly shorter, they thought that it was because they were too focused that time passed quickly.

Under Lin Yi's guidance, Fei daqiang could break out of the formation in two or three minutes, but when the time was up, no matter how close he was to completion, he was still judged to have failed, no different from Jia junren.

"Aiya! What a pity! In the beginning, I wanted to give in to Jia junren, so I rested for a while. In the end, I was a little careless and didn't calculate the time well. I almost broke out of the array!"

As soon as Fei daqiang came out, he started to talk nonsense with regret. It also explained why he sat at the edge of the array for a long time at the beginning.

He deliberately let Jia junren win! Are you convinced?

Jia junren's face was gloomy. Of course he was not convinced, but he had no choice!

The array he had set up was indeed almost broken by Fei daqiang, but he had no clue how to break the array that Fei daqiang had set up!

In other words, this Fei daqiang also had a similar array Dao strength to Shi Yucai? Was this a hidden diamond-grade array master?

Fei daqiang didn't know that Jia junren had already regarded him as a diamond-grade array Grandmaster, but this didn't prevent him from happily acting tough!

Even if Jia junren didn't think that way, he would have made him think in that direction.

To put it simply, Fei daqiang was now full of acting. Even his hair was showing that he was not pretending anymore and had laid his cards on the table! 'I'm the most handsome guy on this Street ... No, the most powerful diamond-grade array master ... Not even the most powerful diamond-grade array master under the boss!'

Shi tiancai is just my little brother! Are you guys afraid?

Lin Yi coughed lightly and signaled for Fei daqiang to come back. "That's enough, don't let yourself go too far."

Fei daqiang immediately ran back and smiled obediently, ""Boss, I'm really sorry that I didn't win. I was too careless. How about I challenge Jia junren again? This time, I'll definitely complete the mission and obtain an easy and happy victory!"

Lin Yi's mouth twitched-did this guy really think he was a master of formations? Wasn't he a little too arrogant?

"I'm sorry, but the rules don't allow the same contestant to go on stage continuously. If you're interested in sparring, you can do it in private!"

The president of the array formation Association was shocked as he listened. He was really frightened by Fei daqiang and felt that Fei daqiang's strength far exceeded Jia junren 's!

If it happened again, it would be useless to cheat and burn incense, right?

Chapter 8712

Fei daqiang continued to look regretful-it was true this time. After all, he had Lin Yi as a golden leg backing him up. He was undefeatable as soon as he appeared. It was just a journey of acting tough!

Unfortunately, he couldn't play anymore!

The array formation Association's President and the Jia family's head were exchanging glances. The current situation had exceeded their expectations, but it wasn't completely out of control.

Although he had previously felt that the possibility was very low, the Jia family head had more or less made preparations for this. Right now, he was going to let the array formation Association's President execute that backup plan.

"The sixth round is over. Both sides are still tied. There won't be a seventh round!"

Originally, the array path Grandmaster that the Jia family had replaced was to gain the confidence to win the tiebreaker match, but the ability that Fei daqiang had displayed was shocking!

If Lin Yi had someone like this hidden around him, like the other Zhang Yiming, would he have a similar strength in formations? Would he continue to fail miserably in an easy task?

After considering all this, the Jia family head decided to end the tiebreaker match and use the backup plan.

After the president announced that there would be no more seventh round, he continued, ""The array Dao exchange meet doesn't necessarily have to have a winner, but if it can be decided, it's better to have a winner."

"How about this, we can add a new meaning to the trial array that was originally planned to be used as a friendly match. The party that wins in the trial array will become the winner of this array Dao exchange!"

It was the same rules as the last time at Fengqi great continent, but Sangzi great continent's trial formation was completely different from Fengqi great continent 's. In terms of difficulty, it might be higher.

And this formation was what house Jia used to deal with Lin Yi. The reason why they tried so hard to invite Lin Yi to the great land of Sangzi was so that after they got back their face at the array Dao exchange, they could use the formation to kill Lin Yi as their final revenge!

In the end, the gathering ended in a draw, and the test formation was used as the new method of victory. Fortunately, there wasn't much of a difference to house Jia's plan-everything would be over as long as Lin Yi entered the formation!

"Grandmaster Sima, do you have any questions about this decision? If not, we can start the final round of the competition!"

The president asked hypocritically. Lin Yi was the Vice President of the continent's array path Guild, so he couldn't act too arrogantly on the surface. Otherwise, he would've announced the start of the battle!

"No problem," Lin Yi nodded, "we'll do as you say!"

Lin Yi knew about the relationship between the head of the Jia family and the president, and he knew that there was something fishy going on with the formation. However, Lin Yi was confident that he wouldn't miss anything when it came to formations!

"That's good! Then let's start!"

The president smiled and nodded at Lin Yi, looking very happy. "Every time one person enters the trial array, the final result will be based on the average of both parties."

"Grandmaster Sima, you're all guests from afar. Why don't you go first and try? It's also good to give a warning to the people behind us, so that they don't say that our Sangzi continent is taking advantage of us!"

When the formation was used to test, only one person could enter at a time. However, when it was used for friendly matches, it could be adjusted, just like last time at Fengqi Dazhou.

The reason house Jia allowed people to enter alone was to target Lin Yi!

After all, if the trial formation was fully activated, the Jia family was not confident that they could survive inside.

Moreover, the SU clan's reputation was extraordinary, so the Jia clan could not brazenly kill all the SU clan members who came to participate in the formation path exchange meeting.

That wouldn't make sense, and they would definitely be attacked by everyone!

With Lin Yi alone, the pressure on house Jia was greatly reduced!

"Sure, I'll go in and take a look!" Lin Yi smiled faintly.

The group moved to the entrance of the formation, and Lin Yi walked in with his hands behind his back, his face as calm as ever.

As soon as he entered, the scene before him changed. Lightning flashed and Thunder rumbled. Countless attacks swarmed toward him. Wind, Thunder, water, fire, earth, and other attacks took turns. An ordinary array master would probably be defeated on the spot when faced with such attacks!

Lin Yi, on the other hand, didn't even bat an eye. He activated his butterfly microstep and slipped through the gaps between the attacks, always missing by a hair's breadth.

After dodging the first wave of attacks, Lin Yi reached his position and easily kicked out. The entire formation made cracking sounds and stopped working just like that!

It was nothing more than this!

Lin Yi curled his lips in disdain. It was new and mysterious, but it still didn't go beyond the island's formation system.

Lin Yi's skill in formations was even higher than that thing 's. The Jia family was underestimating Lin Yi too much if they thought they could use this method against him.

Or perhaps they were too blindly confident in the formation-Lin Yi's strength was right in front of them, and they still believed that the formation could handle him? where did they get their confidence from?

So, when Lin Yi walked out of the array after two minutes, everyone from the Jia family to the array Association President and the other higher-ups of the martial Union looked at Lin Yi in disbelief as if they had just seen a ghost.

"I'm sorry, your trial array seems to have some problems. Do you want to fix it first?"

Lin Yi shrugged innocently, indicating that it had nothing to do with him. "Speaking of which, I should be considered to have passed the trial, right? If there's a problem with the formation, it has nothing to do with me. You should acknowledge that I've passed the trial, right?"

Lin Yi's words echoed with the cracking of the training formation behind him!

Lin Yi didn't stop the entire formation-strictly speaking, it was the outer area that was stopped. The rest was still running, and that's why this happened.

There were many array Masters present, but none of them were as accomplished as Lin Yi. They thought that something had really gone wrong with the array-to be exact, it was Sima Yi who had broken it!

The head of the Jia family was the most depressed one-he was hoping that the formation would kill Lin Yi, but Lin Yi just went in and destroyed it ...

What a trap! This wasn't how the script was supposed to be!

"Sima Yi! You're too much! Just because your array Dao is profound, you dare to act so recklessly and destroy our Sangzi great continent's trial array! Or do you think that you can do whatever you want in our Sangzi continent with your identity as the Vice President of the array Dao Guild?"

The president's face was full of rage as he pointed at Lin Yi, stomping his feet, not even caring about Lin Yi's status as the Vice President!

Chapter 8713

Perhaps 30% of it was real, and the remaining 70% was all an act, so that he could have a suitable excuse to go against Lin Yi!

"Men! Capture Sima Yi. Before the damage to the trial array is confirmed, we can not let him leave our line of sight!"

The president was determined to help house Jia deal with Lin Yi, and he wanted to use this excuse.

As long as they found an excuse to target Lin Yi, they wouldn't be able to blame anything that happened after that.

Who told Lin Yi to destroy the formation? It was normal to accidentally injure or even kill the other party in a dispute!

The group of guards knew that the president was one of their own, so they followed his orders without any resistance. All of a sudden, the lights of the weapons were aimed at Lin Yi.

Lin Yi's face darkened. They were still a little apprehensive before, but now that they had a lame excuse, they had to fall out?

Unfortunately, Lin Yi's strength was no longer the same as before. Without a few true heaven breaking Masters working together, it was impossible to catch or even kill Lin Yi.

House Jia's guards weren't weak, but they were nothing in front of Lin Yi. No matter how many of them there were, they were just a bunch of chickens and dogs!

Lin Yi's butterfly steps allowed him to Dodge all the attacks with ease, appearing beside the president in an instant!

He reached out his hand and grabbed the array Dao Association president's neck as easily as if he was plucking a leaf from a small tree.

"If you don't want him to die, stop!"

Lin Yi turned around and looked at the guards coldly. Under his sharp gaze, the guards stopped in their tracks and looked at the head of the Jia family hesitantly.

After all, the array formation Association's President was a member of the Jia family. It didn't seem right for him to continue attacking without a care for his life.

What they didn't know was that this moment of hesitation saved their lives. If they continued to attack Lin Yi, Lin Yi would definitely kill them!

The eyes of the head of the Jia family flickered, and after a moment of silence, he raised his hand to stop the guards "actions."Grandmaster Sima, you destroyed our Sangzi great continent's trial array. Not only do you not admit your mistake, but you also held our array Association's President hostage. This is completely disrespecting us Sangzi great continent's people!"

"Do you really think that we, the Jia family, have no one that you can humiliate as you please? This old man is telling you, you'd better let him go, otherwise, you will be determined as our Sangzi continent's enemies and suffer our revenge without exception!"

The old man's attitude was tough. Although he had to worry about the hostage's safety, he actually felt that it was better for the hostage to die. He would have more reasons to attack Lin Yi and could even affect the other people from Fengqi Dazhou.

They had a good reason to do so, and the martial Alliance of the starsource continent could not find fault with them!

Lin Yi's lips curled up into a mocking smile."Jia family head, don't you know that I am one of the Vice Presidents of the martial Alliance's array formation Association in the starsource continent? No matter how your Sangzi great continent's array is damaged, if you can't fix it, you'll report it to the array Dao Guild!"

"In other words, I have the right to take over the arrangement, repairs, and other matters of your Sangzi great continent's trial array. This brother ..."

Lin Yi lifted the president up by his neck and shook him in the air as if he was a chicken waiting to be slaughtered."As this Lord's subordinate, not only did you not show the slightest respect for this Lord, you even publicly clamored to take this Lord down!"

"What's wrong? Is your Sangzi great continent too arrogant? Or do you think that just because I'm in your territory, you're so afraid that you can't even lift your saber? Offending one's superior is equivalent to rebelling ... Jia family head, how do you think I should handle this?"

Offending one's superior was equivalent to rebelling!

Just these eight words were enough for Lin Yi to kill the president of the array formation Association without any burden. The martial Alliance of the starsource continent would pursue this matter to the Sangzi continent.

The head's face froze-they'd intentionally ignored Lin Yi's status on the starsource continent level, but it wasn't complete disregard. Otherwise, they wouldn't have to come up with such an excuse to attack him.

But after Lin Yi revealed his identity, it'd be troublesome to make a move-unless house Jia made up their mind to wipe out everyone Lin Yi brought with him!

This also meant an all-out war with the SU family of Fengqi continent ...

"Grandmaster Sima, you are now the leader of the Feng Qi continent's Su clan in the array Dao exchange, not the Vice President of the star source continent's array Dao Association!"

The head of the Jia family composed himself and retorted with a fake smile, ""Since you are representing the SU family, the SU family will have to bear the crime of damaging the trial array. We can't use our power to oppress others just because you have other identities. Although our Jia family is weak, we are not a family that can be bullied!"

He was really shameless. Jia zhetian was a weak family, but was there any other family that was not weak on the starsource continent? Plus, it was a great move to avoid the important things and avoid Lin Yi's status as a member of the continent, using his status as the leader of the SU family's team to make a move!

"Ha ... Jia family head is indeed Jia zhetian. Fine, whatever you say!"

Lin Yi shrugged nonchalantly and shook the president a few more times."However, don't mention the crime of damaging the trial array. I only said that there seemed to be a problem with your trial array, not that it was broken!"

"As the president of the array Dao Association, it shouldn't be a problem for me to personally see where the problem is, right? Maybe after you go and take a look, the problem will no longer be a problem?"

These words were directed at the array Dao Association's President, whose face was flushed red and he felt like he was better off dead.

He wanted to say yes so he could get out of Lin Yi's control, but he couldn't even do that.

Fortunately, Lin Yi was very considerate and threw him into the formation after speaking, escaping from Lin Yi's demonic claws!

"What are you doing?"

The head of the Jia family made a shocked and angry expression at the right time, but he was thinking about whether he should order a group attack while Lin Yi didn't have a hostage.

But before he could finish his words, the trial array started operating again!

Lin Yi didn't just throw them into the formation randomly-he'd calculated the angle so that he could reactivate the formation.

The array Association's president's shrill cry was immediately covered up by the array. The people outside fell into a terrible silence, no one knew what kind of inhumane scene was happening inside.

It was Lin Yi's soft laughter that broke the awkward silence, "Ha ... Jia family head, as you can see, I asked your President to inspect and fix the array. As expected of the president of the array Association. He immediately found the problem and fixed it!"

Chapter 8714 The End

Everyone from the Jia family looked at Lin Yi with dead fish eyes-was that what he meant by lying through his teeth? I thought that our Jia family was shameless enough, but I didn't expect this guy to be even more shameless!

It seemed a little strange ... No, he crossed out the second sentence just now!

"Grandmaster Sima ..."

The head of the Jia family wanted to ask Lin Yi to get the person out of the formation, but couldn't say it.

He shouldn't ... Die in there, right? He's still the president of the array Association! Then let him stay inside for now!

"What does the Jia family head want to say? Just speak frankly!"

Lin Yi said with a gesture, as if he'd like to watch the show.

The corners of the Jia family head's mouth twitched, and his eyes flickered as he weighed the pros and cons in his heart.

He was hesitating if he should go all out and kill Lin Yi and Fengqi Dazhou's people.

After that, they destroyed the corpses and threw them into the trial array, announcing to the public that it was an accident caused by failure.

Anyway, this had happened in Fengqi Dazhou before. A few of their Jia family's array Masters died just like that!

At this moment, Sangzi Dazhou's original first hall Master rushed over and temporarily interrupted the Jia family's head's thoughts.

This first hall master's name was Zhen yingsun, a distant relative of the Jia family. He was also the same clan brother of Zhen Yingxian, the source of formation Dao, who died in Lin Yi's hands.

Although they were brothers, Zhen yingsun was much older than Zhen Yingxian, with a 15 - 16 year gap between them. From their appearance, some people would believe that they were Zhen Yingxian's uncle.

In large clans, it was normal for there to be a large gap in age and seniority. It was not common for an old man in his sixties or seventies to call a two or three-year-old brat uncle.

Chu yingsun was not only a relative of the Jia family, but also related to the sky array sect. Therefore, if the martial Alliance of the starsource continent wanted to touch the Sangzi continent, they could not let such a person continue to stay in the position of the Great Hall Master.

The order was to transfer Zhen yingxi as an inspector of the martial Alliance's inspection department in the starsource continent. He would travel to all the continents to monitor whether there were any problems with the inspectors.

It was a relatively noble position, half a rank higher than the Great Hall Master of the continent, but it had no actual power.

Because the inspector only had the right to supervise and report, but no right to punish. His power was not just a little bit worse than the Great Hall Master of the great continent.

A rise in power but a fall in power!

This method was very common, so Zhen yingsun was angry, but she had nowhere to vent it.

Originally, he was not willing to appear at this array path exchange meet, but he received a report that the Jia clan was in trouble, so he rushed over to take a look.

Before the new first hall Master came to hand over the position, Zhen Yingshan was still the first hall Master of the great land of Sangzi. He didn't mind using this identity and power to help the Jia family deal with some trouble.

"Jia family head!"

"First hall Master!"

When Zhen yingsun came over, she greeted the head of the Jia family pretentiously before looking at Lin Yi and the others coldly.

"I heard that there's some trouble here, so I came to take a look. What happened?"

Even if she knew the situation in advance, she still had to pretend to ask first. Zhen yingsun's position as an official was quite good.

Naturally, someone from the Jia family quickly explained the whole situation to him, and Zhen yingxi listened expressionlessly before turning to Lin Yi coldly.

"Sima Yi, don't use your status in the star source continent to fool people. Since you're representing the SU clan to participate in the array Dao exchange, you should obediently appear as a member of the SU clan."

"Let's take a step back. So what if you use your identity on the starsource continent? Who can you suppress? You have to follow the rules of our Sangzi great continent!"

Zhen yingsun took a step in Lin Yi's direction, a faint pressure rising from her body, ""If you don't follow the rules, this seat, this first hall Master, won't be polite to you!"

"First hall Master?" Lin Yi chuckled and shook his head. If I'm not mistaken, you've already stepped down from your position as the first hall Master, right? There's already news from the martial Alliance of the starsource continent. You're just a retired first hall Master, yet you're talking about the rules of the Sangzi continent in front of me? are you serious?"

Zhen yingtong's face darkened. This guy was really rubbing it in!

"You're just a retired first hall Master, and you're telling me not to use my status in the cinema industry to fool people? Do you think that I'm trying to fool people by being the Vice President of the array formation Guild and the pill formation Guild? Why don't we go to the martial Alliance of the starsource continent and reason with them? let's see if my identity is deceiving them or if your identity as the retired first hall Master is more deceiving!"

Lin Yi continued to stab the knife into Zhen yingxi's heart, letting him experience what it was like to be stabbed in the heart!

At the same time, Lin Yi also sent out the signal they agreed on, asking the messenger from the martial Alliance to come over. It was time for him to reveal his identity!

You said that the double vice-presidents of the two major guilds in the starsource continent were deceiving people, but the identity of the Great Hall Master of the Sangzi continent should not be deceiving people, right?

Zhen yingluan's expression became more and more gloomy, and then she sneered, "Before I handed over my position, I was still the first hall Master of the Sangzi continent. You caused trouble in the Sangzi continent, so what if you're the Vice President of the starsource continent Guild? If I want to punish you, I can still punish you!"

As he spoke, Zhen yingluan waved his hand, and the guards he brought along with the elite guards of the Jia family pointed their weapons at Lin Yi!

This was the rhythm of starting a fight at the slightest disagreement!

Lin Yi didn't panic at all and smiled at Zhen yingsun, ""This has-been first hall Master, are you sure you want to do this? Are you sure you want to risk universal condemnation and punish me? I advise you to think twice before you act, so you won't be embarrassed in the end!"

"Hehe, are you afraid? If you're afraid, then obediently surrender. For the sake of your special identity, this Lord can consider the appropriate circumstances and loosen your punishment!"

Zhen yingtong was very stubborn, saying that he was sure that he would punish him, but what could he do?

"If you cooperate, you will suffer less. If you continue to resist, then don't blame me for being ruthless! Not to mention that this Lord hasn't stepped down, even if I have, I can still kill you in the Sangzi continent, do you believe me?"

Zhen yingluan had made up her mind to mess with Lin Yi, so naturally, she wasn't afraid to go all out. Why did she care so much?

Lin Yi blinked, not sure where this guy got his confidence from. Did his face look that easy to bully?

Seeing that the surrounding guards were getting closer and closer, the battle was about to start. The emissaries from the martial Alliance of the starsource continent had finally appeared!

Lin Yi had only sent out the signal a minute or two ago, and the messenger was already coming at a very fast speed.

He'd probably been hiding nearby, waiting for Lin Yi's signal!

Chapter 8715

Lin Yi was like his boss, and he'd be screwed if he messed things up.

This time, the emissary didn't come alone. He was accompanied by eight guards. They were all people that the martial Alliance of the starsource continent had arranged to hide in the Sangzi continent.

In addition to them, there were even more people hiding in the dark, such as secret agents, to ensure that everything that happened in the Sangzi continent could be transmitted in time.

"Here's the messenger token of the martial Alliance from the starsource continent! I'm here to pass on the new hall master's orders!"

The emissary held the token high above his head in one hand and the letter of appointment in the other. With a solemn expression, he walked in step by step from the crowd.

The guards who were about to attack Lin Yi automatically moved to the side and made a path for the messenger to walk in.

Unless Sangzi Dazhou wanted to rebel, no one would dare to stop this envoy token!

Stopping them meant rebelling!

Zhen yingsun and the Jia family were all a little stunned. They were here to pass on the new hall master's orders at this time? Isn't this too much of a coincidence?

He felt that something was not right!

At this time, they had not thought that the new first hall Master would be one of the people present, so they did not think too much about it.

Seeing the messenger slowly walking over, they all retreated to the side first, leaving the middle seat for the messenger.

After the messenger stood still, he didn't look at Lin Yi, completely avoiding eye contact as if they'd never met.

"The martial Alliance of the starsource continent ..."

The messenger opened the letter of appointment and read out a bunch of official rhetoric in a calm tone before moving on to the main topic,""...I hereby appoint the former Fengqi great continent's acting inspector Sima Yi to take over the position of Sangzi great continent's Hall Master. The former Sangzi great continent's Hall Master Chu yingsun will be transferred to the starsource continent's inspector

Department to patrol and supervise the inspectors of all the great continents under the starsource continent!"

Zhen Yingshan's appointment had already been discussed with him and the letter of appointment had been given, but it was not announced in public.

The situation was similar to Lin Yi 's, but he didn't keep it a secret. This time, he announced it in front of everyone, just for show.

However, everyone from the Jia family was dumbfounded and speechless. What the hell was going on?

How did Sima Yi become the Great Hall Master of Sangzi continent?

That feeling was as if someone had thrown a handful of sand into his eyes and pricked his heart with a thorn. It was extremely uncomfortable, and he couldn't get rid of it in a short time.

Disgusting!

Especially Zhen yingsun, whose face was red and he could feel the burning pain on his face, as if he had been slapped countless times.

He was just saying that he'd be able to punish Lin Yi even if he stepped down as the first hall Master-what a Lord!

Who would have thought that in the blink of an eye, he would really step down from his position, and the person he wanted to punish, Sima Yi, would suddenly become the new Great Hall Master!

This was ... A F \* cking scam!

Damn Messenger, couldn't you have come earlier?

He could have avoided such an awkward situation if he had come earlier!

If earlier didn't work, later would be good!

If there was more time to buffer, he might have directly killed Sima Yi just now, and there wouldn't be any awkwardness. After all, Sima Yi wasn't the new hall Master of the great land of Sangzi at that time!

He couldn't be blamed for not knowing!

How should this matter be resolved?

Questioning the authenticity of the messenger and the letter of appointment? That was being tired of living!

The starsource continent's martial Alliance's control over the Sangzi continent was indeed not strong, but it did not mean that their monitoring ability was not strong!

Right now, it was broad daylight, and everyone was watching. Any slight movement could be immediately transmitted back to the martial Alliance on the starsource continent.

No matter if it was Zhen Yingshan or the Jia family, they couldn't do anything to the messenger, so they naturally couldn't continue to call Lin Yi the new first hall Master!

Not only was Zhen yingsun conflicted and embarrassed, but the Jia family head was also dumbfounded.

He originally thought that Lin Yi wouldn't be able to leave the continent alive since Zhen yingsun wasn't the last resort of house Jia.

If Zhen yingsun failed, the Jia family had prepared a lot of traps for Lin Yi, the kind that would definitely bury him.

But now, it was all over!

"If Sima Yi comes to the Sangzi continent, don't even think about escaping from Jia zhetian's hands ..."

He had directly pierced through the heavens and really wouldn't leave in the future. He would stay and be the biggest one in the Sangzi continent!

"This should be Sima Yi, Hall Master Sima, right? Congratulations, this is your appointment letter for becoming the Great Hall Master!"

The messenger acted like it was the first time he saw Lin Yi, but he seemed to know what Lin Yi looked like. He handed the letter to Lin Yi with a smile.

Jin botian had already given Lin Yi a letter of appointment before, and this one was just for show.

"Congratulations, Great Hall Master Sima. You'll have to take care of our Jia family in the future!"

The head of the Jia family suppressed his disgust and put on a fake smile to congratulate Lin Yi.

The others also came forward to congratulate her. Only Zhen yingsun's expression was ugly, and she stood to the side in silence.

The status of the inspectors in the inspection Institute was noble, and their rank was half a rank higher than the Great Hall Master of the continent. It was considered a promotion, but everyone knew that this kind of promotion was bullsh \* t.

Normally, it would be fine, but today, he had been specially compared to Sima Yi!

This was really infuriating!

The SU family's Exchange team was surprised as well-Lin Yi never told them about this before, so they were overjoyed.

It was impossible for them not to be nervous when they saw that Sangzi Dazhou was about to make a move!

After all, this was the Jia family's territory, and they had many experts under them. With only twenty of them, if they really wanted to fight, they wouldn't even be enough to fill the gaps between people's teeth!

It was all good now. The Jia family's aura was clearly plummeting like a broken cliff. It looked like they had put away their thoughts of forcefully making a move!

The messenger stood on the side with a smile as he watched the circle of people congratulate Lin Yi. It didn't matter if they were sincere or not, as long as it was lively enough!

When it was about time, he took out another appointment letter."Everyone, please be quiet. We can talk about congratulating Great Hall Master Sima later, because there is still an appointment for Great Hall Master Sima!"

The scene fell into absolute silence in an instant, and 99% of the People's eyes subconsciously turned to the envoy!

What the hell? And the appointment of Sima Yi? Then why didn't they read it out together just now and had to wait until later? This was a joke!

However, the emissary couldn't be blamed for this matter, because martial league's great Hall Master and the patrol envoy of the patrol Department were in two different systems. The letter of appointment was naturally issued separately. It didn't matter if it was in private, as it would be over after they mentioned it together.

For this kind of public announcement, it was only in accordance with the rules to be read out by everyone!

The messenger opened the letter of appointment, and it was another bunch of formal words, followed by the main point: ..."I hereby appoint the former Feng Qi great continent's acting patrol envoy Sima Yi to take over the position of sang Zi great continent's patrol envoy!"

Chapter 8716

"Congratulations, Great Hall Master Sima, for being the patrol envoy of the Sangzi continent. This is an extremely rare honor! Congratulations!"

After the messenger finished, he congratulated Lin Yi again and presented the appointment letter to Lin Yi with both hands. Lin Yi received it with both hands as a sign of respect and smiled, "Many thanks!"

The Jia family had just recovered from their state of confusion, but they were once again in a state of confusion!

What was going on?

Wasn't it enough for Sima Yi to be the hall Master? he even had to hold the position of patrol?

Wouldn't he be in control of the military and government? What was the martial Alliance of the starsource continent trying to do? To cultivate a local tyrant?

No matter how Jia zhetian was, the Jia family had never been able to control both the position of Hall Master and patrol at the same time. Their relationship with the sky array sect was more of a cooperative relationship.

Compared to the martial Alliance of the starsource continent, the Jia family could only be confined to the Sangzi continent. Thus, they did not dare to raise their flag and rebel.

Unless the other continents joined forces, it would be difficult for the martial Alliance of the starsource continent to take care of both the head and the tail!

"Congrat...Congratulations ..."

The head of the Jia family's face was frozen, and the fake smile he'd put up earlier was getting hard to maintain. At the same time, his mind was spinning quickly, thinking about how to deal with the problem between him and Lin Yi!

What kind of attitude should she use to face Lin Yi in the future?

It was impossible to make a move now. The Jia family didn't have the guts to deal with a state's great Hall Master and patrol envoy. Or rather, even if they had the guts, they had to have a complete plan!

Let's wait and see for now!

On the other hand, Zhen yingsun was overjoyed when she heard that Lin Yi had become Sangzi continent's patrol!

He's a patrol, the one who monitors and investigates the various continents 'patrol!

You F \* cking bumped into my hands! Noble without authority? Hehe, it was better to be in charge Now than to be an official now!

"Congratulations, inspector Sima. We can be considered colleagues from now on!"

Zhen yingluan put on a fake smile and cupped her hands at Lin Yi, "Of course, this Lord's duty is to supervise you as a patrol, so in the future, you have to follow the rules when you do things. Don't make any mistakes and let me have a handle on you. Then I'll be sorry!"

Lin Yi looked at Zhen yingsun with a strange expression. Did water get into this guy's brain? What's the point of being smug at this time?

He couldn't even see the situation clearly, so how did he become the first hall Master in the past? He really didn't deserve his domineering name!

There was nothing to say to this kind of idiot. Lin Yi's body flashed and he went up to grab Zhen yingsun. He used spiritual quick strike on the spot and gave her a good beating.

The people at the side were dumbfounded and didn't know whether to stop the fight or not.

Even if Yingluo reacted, it didn't seem too good to stop the fight!

After all, it was the new first hall Master cum patrol who was beating up the previous first hall Master cum current patrol. Mortals didn't want to be involved in a fight between Immortals, so it was better to stay far away!

After Lin Yi beat Zhen yingsun up, he was in a good mood and his mind was clear. He threw the bruised Zhen yingsun on the ground and smiled, "Zhen yingsun, if you have a bad memory, I can give you a reminder!"

"Just now, it seemed that someone wanted to make a move. He said that even if he stepped down from his position as the first hall Master, he could still punish me! I've thought about it, are you abusing your power?"

"You're still able to use the power of the martial Alliance here to punish the current higher-ups of the martial Alliance after stepping down from the position of first hall Master? who gave you the guts? If it wasn't for the fact that you're an inspector of the inspection Institute, even beating you to death today wouldn't be considered heavy! It's already very easy on you to just give a light punishment!"

Zhen yingsun almost vomited blood. He really did forget about this just now. He almost had a fight with Lin Yi first, but now that he was beaten up by Lin Yi, he didn't feel so wronged!

"Sima Yi! Don't forget that I'm a patrol now, and you're a patrol envoy! You're under my supervision, yet you dare to hit me. Don't you understand that my job is to make trouble for you? I will definitely report this matter and impeach you!"

Of course, Zhen yingsun didn't want to admit defeat and wanted to get back at Lin Yi, but when Lin Yi raised his hand, he instinctively used his hand to block his face and dodged.

Was Qianqian scared of Lin Yi now?!

The surrounding audience almost laughed out loud. Well, it should be said that the people from Sangzi continent almost laughed out loud. However, considering that Zhen yingsun was an ally, they had to give him some face, so they held their breaths and their faces almost turned red!

Meanwhile, Lin Yi's men from Fengqi Dazhou, as well as the messengers and guards from the martial Alliance from the starsource continent, all laughed out loud without a care!

Zhen yingsun immediately reacted, her old face red with embarrassment, ""Sima Yi, don't be too pleased with yourself. I will definitely impeach you! Don't think that you can sit in this position safely, that's impossible!"

"Whatever!" Lin Yi shrugged nonchalantly. Anyway, I'm not interested in holding two positions simultaneously. It's too tiring! If you can help me get rid of one, it would be a good thing!"

"Of course, I'll report to the martial Alliance of the starsource continent about the things you've done to me. It just so happens that the emissary is still here, so he can see everything and be a witness!"

Zhen yingxi was suddenly speechless. If this matter was really reported, it was hard to say who would be the unlucky one in the end!

Especially since the inspection department had just appointed a new inspector. Even if there was a problem, they wouldn't admit it. In the end, they probably wouldn't touch Lin Yi and would only fire Zhen yingsun, this noble-looking but useless inspector!

More importantly, Lin Yi had just become Sangzi continent's patrol, he didn't have any leverage to impeach!

Impeach Lin Yi for hitting yingsun? After investigating the ins and outs of that matter, the inspection Institute might even give him a good beating ...

That would be awkward!

Zhen yingsun thought about it and understood that he could only scare Lin Yi with words, he couldn't do anything at all!

Lin Yi wasn't scared at all, and even looked forward to it ... What was the point of scaring him then?

"Alright! Sima Yi, you're good! Just wait! I will definitely find a way to deal with you!"

Zhen yingsun felt aggrieved and had no other choice. She could only leave while cursing and swore to herself that she would come back a year and a half later to pick a fight!

During this period of time, she didn't believe that Sima Yi would not leave behind any flaws and evidence!

Even if there was nothing wrong with Lin Yi himself, he had to create some problems for him!

As Zhen yingsun left, the messenger also took his men and left, returning to the martial Alliance in the starsource continent to report.

After all these disturbances were over, it was time to return to the formation path exchange meeting.

Then, everyone remembered that they seemed to have forgotten someone in the trial array ...

Chapter 8717

After Lin Yi threw the president in, he let out a blood-curdling screech that was immediately blocked by the formation.

What followed was a series of unforeseen events. The pace was fast, the atmosphere was tense, and the plot was full of ups and downs. As a result, everyone naturally forgot about the pitiful array formation Association President ... Forgot ... Forgot ...

Only when the formation path exchange meet was mentioned did he remember this pitiful person!

"Great Hall Master Sima, the people in this trial array ..."

The head of the Jia family found it hard to speak-he'd planned to beat Lin Yi up so hard by inviting him to the great land of Sangzi, but he didn't expect him to be a father!

And now, he had to ask Lin Yi to get the president out-this was so embarrassing!

After all, this trial array was their home ground, okay?

Lin Yi looked at the head of the Jia family and nodded,"The president of the array formation Association doesn't seem to have enough ability! Why does it take so long to enter the trial formation to fix a small problem?"

"Or did he fix a small problem and get trapped in the trial array? In my opinion, the difficulty of this trial array is very ordinary. He is not capable enough!"

"Well, he might not be in his best condition today!"

The head of the Jia family appeared slightly embarrassed, but he quickly concealed it.

After all, the president of the array formation Association was someone arranged by the Jia family. It would be difficult for him to pretend that nothing had happened when he was being mocked in front of others.

"Shi Yucai, go to the trial array and bring the person out!"

Lin Yi didn't continue mocking him, turning to Shi Yucai to make a move.

The people from the Jia family were a little shocked again. It was said before that it was best for one person to enter the trial array alone, so what did he mean by letting Shi Yucai enter?

Did she not like Shi chengcai and deliberately framed him? If it was true, then it would be fun!

As a result, the Jia family entered into a drama-like state again. The pitiful President of the array formation Association was once again forgotten by everyone!

Shi Yucai agreed and walked toward the trial array with a calm expression. Since his master had asked him to go, he must have made a sufficient assessment and knew that he would be able to successfully bring the person out!

Shi Yucai had no doubt about this. He trusted Lin Yi's judgment more than he trusted himself when it came to formations!

Sure enough, after entering the trial array, Shi wancai didn't encounter any difficult situations. In the past, it might have been a little troublesome, but now, it was really easy!

Very quickly, Shi wucaï found the battered and exhausted President of the array Dao Association on the ground. This guy was indeed very unlucky. With his strength, he shouldn't have been in such a sorry state.

But Lin Yi grabbed her neck and threw her in, and she didn't even have time to react before she triggered the activation point of the formation. It was hard to describe what happened after that!

He was lucky to be alive today!

Seeing Shi chengcai come in, this guy's dazed eyes burst with excitement. Unfortunately, he wanted to stand up, but he was unable to do so!

Shi longcai frowned slightly as she looked at the array formation Association's President, who was lying limply on the ground like a dead dog. She stood at her original spot and fell into deep thought.

What should they do when facing someone who couldn't stand up and walk while waiting for help?

Carried? Hug?

At the thought of these two words, Shi shengcai's brows furrowed even more. What right did a dead dog have for him to carry him? Don't joke around!

So in the end, Shi Yucai chose to drag it out!

He grabbed the ankle of the president of the array Dao association with one hand and turned around to walk out expressionlessly. The president of the array Dao Association was on the verge of tears as he was being dragged along the ground.

How could they survive if they were seen by others? How could he explain this to clear his name?

There was even a moment when he wanted to say, "leave me here and go!"

Unfortunately, Mr. Dog didn't even have the strength to speak now, so he could only let Shi longcai drag him away.

His legs twitched slightly. That was his last bit of stubbornness, indicating that he did not agree with this escape method!

Shi shengcai didn't care about this. "Whether you approve of it or not, I'll do it anyway. Do whatever you want!"

The two of them walked out of the trial array. The people from the Jia family were all speechless. Wanwan was too embarrassing, and they really couldn't say anything!

Shi shengcai dragged the dead dog ... Whoops, the array formation Association's President, and casually threw it in front of the Jia family head.

Then, Shi shengcai took out a water bottle he carried with him, poured some water on his hands, and washed them very carefully.

Although Shi shengcai didn't look disgusted, it was obvious that he was disdainful that the president of the array Dao Association had dirtied his hands!

"Jia family head, master ordered me to bring the person out. I am fortunate to have accomplished my mission. Now, shall we continue the competition?"

The array Dao exchange meeting wasn't over yet, and Shi longcai, who was being entrusted with a task of loyalty, turned to look at the trial array and prepared to continue challenging it.

Just now, he had only brought someone out of the outer area and couldn't really be considered to have broken through the barrier, so he was really eager to try and see the Sangzi great continent's trial array.

The corner of the Jia family head's mouth twitched. What's there to compete for!

Sima Yi and Shi longcai were both easily and happily moving about in the trial array. Continuing the competition would only be asking for a snub!

Plus, his initial plan was to use the formation to kill Lin Yi, but that goal couldn't be continued anymore.

After all, Lin Yi's identity had changed drastically, and house Jia didn't dare to kill him anymore.

"No need! Let's just treat this formation path exchange meeting as the SU clan's victory!"

The head of the Jia family stabilized his emotions and decisively admitted his failure.

He didn't care about the results of the exchange at all. The only purpose of this exchange was to draw Lin Yi to the Sangzi continent.

Now was the time to retreat even if they had not achieved anything!

"I'm afraid that the next array Dao exchange will not be so simple. After all, first hall leader Sima will be the face of our great land of Sangzi from now on. If there are similar exchange meetings again, first hall leader Sima will definitely use the name of our great land of Sangzi to fight, right?"

It didn't matter who won or lost, but the head of the Jia family still changed the topic to Lin Yi, trying to reduce the impact of losing!

Lin Yi only chuckled, not agreeing or disagreeing with the statement. The important thing was that they won this time as well. House Su had won against house Jia twice in a row, and they could be considered to have their heads held high!

As for the future, Lin Yi didn't have that much free time-he still had to attend that array Dao exchange meeting or something ...

After the Jia clan head admitted his defeat, the formation path exchange meet was officially settled, and what followed was the banquet.

This was all just a formality. Perhaps the Jia family would feel a little uncomfortable. After all, they still had to entertain their opponent after losing. Just thinking about it made them feel a little sullen.

Everyone pretended to entertain each other for a while, and the dinner ended quickly. Lin Yi led the group back to the inn.

## Chapter 8718

After Lin Yi and his group left, the head of the Jia family put away his fake smile and grabbed a wine glass beside him, smashing it on the ground with force, making a clear and loud cracking sound!

The surrounding Jia family juniors and servants immediately knelt on the ground, afraid that their anger would be poured on their heads.

"Get up! It's none of your business!"

The Jia clan head's face was dark, and he waved his hand to get those who were kneeling to stand up. He also wanted to scold them and say that they were all trash, that they couldn't even deal with Sima Yi and so on.

However, he was very clear that those words were meaningless other than venting his anger. It would also lower the morale of his Army. There was really no need to!

Turning back to his seat of honor, the head of the Jia family said in a deep voice, ""Those who come with bad intentions will not come! Sima Yi is also the Great Hall Master and patrol envoy of the continent. He has transferred us and the sky array sect's people away. It's obvious that he's coming for our Jia family!"

"The other party's goal is already very clear. Will our Jia family be afraid? Of course not! The great Jia zhetian, how could he be thrown into chaos because of a mere Sima Yi?"

Some people muttered in their hearts, "the family head looks calm now, but he already sounds like he's panicking ..." But they definitely couldn't say this out loud.

"Clan leader, Sima Yi is only one person. Although he is indeed a genius in alchemy and array, but these aspects of genius does not mean that he is also a genius in politics! We can find a chance to dig a hole and bury him! He might not even know how he died!"

The Jia family naturally had a think tank-like figure like a military counselor. He immediately began to make suggestions, and several people suggested seven or eight different methods.

In the end, they were all rejected by the head of the Jia family: "Don't underestimate Sima Yi! I've heard of this person's great achievements. Fengqi Dazhou was almost completely controlled by the darkness demon beast clan. What happened? In less than a year, Sima Yi completely uprooted the darkness demon beast clan's power in the Phoenix Qi continent!"

"Not only the high-level darkness magical beasts in the underground Devil's Den, but even the spies hiding among the humans were all caught by him. Do you think this kind of person has no political wisdom? This old man doesn't believe it!"

The faces of the surrounding house Jia's turned dark as Lin Yi's words came out, as if they thought that Lin Yi was a tough nut to crack. Would the house Jia be finished just like that?

After all, no matter how much the Jia family was known as Jia zhetian, their true strength was far from being comparable to all the darkness demon beasts on the continent!

Sima Yi was able to eliminate the darkness demon beast clan in the great Fengqi continent. Now that his status and power had risen to another level, if he really wanted to target the Jia family, would the Jia family be able to avoid it?

The head of the Jia family saw that the atmosphere below was a bit heavy, and his heart thumped. He secretly knew that things were not good. How could he boost other people's morale and diminish his own prestige at this time?

As his thoughts turned like lightning, he immediately revealed a sharp look and said ruthlessly, "So what if Sima Yi is powerful? He wants to compete with our Jia family, but he is still far from it. Just the accumulation of Foundation alone can not be compared to our Jia family!"

He intentionally ignored Lin Yi's relationship with house su-if he were to calculate house SU's background, the two weren't that far apart!

However, the SU family was far away in Fengqi continent and couldn't help much, so it was reasonable that the Jia family head didn't count them in. At least it could raise the confidence of the other family members!

"Since Sima Yi wants to make a move against our Jia family, then we definitely can't be afraid. We must fight him to the death, so that he can't stand in the Sangzi continent and finally roll back to the Feng Qi continent!"

The Jia family head spoke in high spirits, and quite a few people were moved by him. For a moment, their blood boiled, and they all shouted in response.

However, there was a small group of people who didn't look too good. When Qianqian invited Sima Yi to the great land of Sangzi, she was prepared to kill Sima Yi so that he couldn't leave the great land of Sangzi alive!

What had it become now? Chase away Sima Yi? When did the target shrink so much?

Therefore, no matter how passionate the Jia family head was, his words had already revealed his fear!

Of course, with Lin Yi's current status, it wasn't appropriate to kill him in public, but there was no need to be so obvious when it came to boosting morale!

Morale can be boosted but not released!

The head of the Jia family didn't notice this as he was busy thinking of a way to get Lin Yi out of the house.

His gaze inadvertently swept across the dejected expression of the array formation Association's President, and his eyes instantly lit up.

"Lu Renyi, President Lu!"

The president of the array formation Association was called Lu Renyi. Because he was the younger brother of the Jia family, it had become a habit for the head of the Jia family to call him by his name directly. This was an expression of intimacy, but calling him President Lu was a form of dissatisfaction.

It was obvious that Lu Renyi's performance before wasn't good, especially when Lin Yi threw him into the formation by the neck. In the end, the head of the Jia family had to say something before Lin Yi could send Shi chengcai to get him out.

It was so embarrassing!

"Yes, please instruct me, patriarch!"

Lu Renyi quickly stood up and bowed respectfully to receive the order. He had long regarded himself as a dog of the Jia family, so he naturally had the awareness of being a dog.

"Sima Yi is a new official, so he'll definitely look to perform well. In the following days, there'll be the underground Devil's Den and the abandoned forest's node reinforcement in spring. Isn't he a genius in array Dao? Go and do it for him!"

The head of the Jia family sneered and continued, ""The array formation Association has sent people out on other missions to isolate Sima Yi. No matter how much of a genius he is, how much can he do by himself?"

Lu Renyi clapped his hands and laughed, "good plan, master!" Even if Sima Yi's entire body was made of iron, how many catties of nails could one person hit? This time, he's going to obediently admit defeat?"

"No matter if it's the underground Devil's Den or the abandoned forest, it's not easy to reinforce them. There will be unpredictable dangers in either one of them, and if the darkness demon beasts attack the node ... Hehe ..."

The last "hehe" was really meaningful!

As the new hall Master and inspector, Lin Yi had gathered all the power and responsibilities.

If the dark beasts broke through the node because they didn't strengthen it properly, Lin Yi would be held responsible!

"You understand what to do, right? Do you still need me to tell you the details?"

The head of the Jia family glanced at Lu Renyi coldly, still not letting go.

"I understand, I understand. Please rest assured, master. I will make the necessary arrangements!"

Lu Renyi quickly nodded in agreement. What a joke! He had already made it so clear, but he still insisted that he did not know what to do. If he did, he should just go find a piece of tofu and knock himself to death!

Chapter 8719

"Very good, then this old master will depend on your performance! If this goes well, we might be able to get rid of Sima Yi in one go and make him obediently roll back to Feng Qi continent!"

The head of the Jia family smiled as he stroked his beard, as if he could already see the beautiful scene that was about to come.

As for what would happen if the plan failed ... What was the point of thinking so much? If he failed, he would have to find another opportunity to come up with another plan!

The next morning, Lin Yi sent the Masters back to Fengqi continent, leaving six guards behind. It wasn't that Lin Yi wanted them to stay, but they had to.

This was probably su yongcang's intention to leave a few people for Lin Yi.

Fei daqiang and Zhang Yiming followed Lin Yi, but they were Lin Yi's confidants. Naturally, they couldn't protect him or run errands for him.

Lin Yi really did need these capable people, so he didn't reject them in the end. He left the six guards behind and arranged for Fei daqiang, Zhang Yiming, and Shi Yucai to take two each.

As for Lin Yi himself, he really didn't need any guards-he didn't know who would be protecting who, but if they were in danger, these guards wouldn't be able to fight back-he'd still need Lin Yi to save them!

"Shi Yucai, are you sure you don't want to go back to Feng Qi continent? Are you really going to stay and follow boss?"

Zhang Yiming watched as the SU family's array Masters teleported away. He turned around and bumped Shi longcai with his shoulder with a smile. "You're the Dean of Tianxia College's array Dao sub-school, and you came to Sangzi continent with boss just like that. I'm sure Dean Yan Su will go crazy!"

Everyone knew that Yan Su really valued Shi Yucai, and so did Lin Yi.

But now, Lin Yi kidnapped Shi shengcai and went to Sangzi continent, completely abandoning Feng Qi continent's Tianxia college.

When he left Feng Qi continent, he didn't have a good time to say goodbye. Only now did he ask the SU family's array master to send a letter to explain.

Shi tiancai was still not used to Zhang Yiming's intimate actions, so she moved half a step away from the point of impact on her shoulder, then said indifferently, "Director Yan will understand me. Since I've acknowledged my master, I naturally have to follow him. I will only consider leaving after I've completed my apprenticeship."

"If master needs me, I'll always follow in master's footsteps. Now that master has just taken over the power of the Sangzi continent, he's busy with many things, so I must stay and share master's worries!"

"Not bad, not bad, well said!"

Fei daqiang clapped and said with a smile, ""We're short of people right now, so more people means more power! But Shi shengcai, your choice this time is not wrong at all. Only by following boss will you have the opportunity to advance by leaps and bounds. What's the point of going back to Feng Qi continent's worldly Academy to be a branch Dean?"

This guy's conviction was firm, and he wouldn't let up. This was the best choice. Shi Yucai had clearly inherited this and was well aware of three of these things!

"Alright, let's go back! "Today, I'm going to take over the work of martial league's great Hall Master, followed by the patrol. These matters are complicated, so we should be able to sort them out in a short time before we talk about the rest!"

Lin Yi left first, followed by the other three and six guards, heading towards the hall master's office.

A few days later, Lu Renyi found Lin Yi and handed him a document. "First hall Master, the list of nodes that need to be reinforced and maintained every spring is here. Including the underground Devil's Cave and the abandoned forest, there are a total of 379 nodes in the entire Sangzi continent. Please take a look!"

It looked like a normal report, and Lin Yi didn't think much of it. He flipped through it and put it on the table in front of him. "I know. Let's deal with it as usual. If there are any problems, report to me!"

Lin Yi really did have a lot of things on his hands-taking over the position of Hall Master and patrol all of a sudden seemed like a glorious thing, but there were also a lot of things he had to deal with.

On top of that, most of Sangzi Dazhou's people were either left behind by the previous owner or people from the Jia family. Lin Yi had to handle everything by himself, big and small, and it was really troublesome!

So Lin Yi threw the annual task of reinforcing the node back to Lu Renyi.

However, Lu Renyi had no intention of leaving. Instead, he smiled and bowed. "First hall Master, I'm afraid it won't work according to the previous years' practice! Our Sangzi great continent has lost many powerful formation path grandmasters in a row. They were the ones who led the reinforcement of the nodes in the past and led people to various places. "

"Only in this way can we complete the reinforcement of the many nodes within the deadline. After losing them, we definitely won't be able to complete the task this year. So, we need first hall Master to think of a way!"

"I've already sent out the remaining array Masters from the array Association. However, this amount of manpower is like a cup of water on a burning cart of firewood. I'm afraid that they won't even be able to complete one-tenth of the array. First hall Master, please understand!"

Lu Renyi came here today to push the blame away and let Lin Yi know that he had done his best!

Lu Renyi had indeed sent the remaining members of the array formation Association to reinforce the nodes, but they had been told not to work too hard and to take care of their health so that they wouldn't tire themselves out!

They were all smart people, and they knew what he meant. They didn't need to say it out loud to know what to do.

Lu Renyi's men would probably reinforce one node at a time.

Lin Yi's eyes narrowed, a sharp glint in his eyes. It was obvious that they were here to cause trouble!

"President Lu, are you saying that the array formation Association shouldn't be responsible for the reinforcement of the node, but that it should be my responsibility as the first hall Master?"

Lu Renyi's heart skipped a beat-he started panicking under Lin Yi's intense gaze, remembering the tragic memory of him being thrown into the formation by the neck ...

However, thinking of the instructions of the head of the Jia family, Lu Renyi had to bite the bullet and say, "First hall Master, please forgive us. Reinforcing the node is the responsibility of the array formation Association, but when we are unable to do so, we can only seek help from first hall Master. Is there anything wrong with that?"

As the saying goes, even a clever housewife can not cook without rice. Lu Renyi spread his hands to show that he was also very helpless. However, this was the truth, so what could he do?

Lin Yi nodded slightly and immediately told him what to do!

"What I need is a President of the array Dao Association who can share my burden, not a President who would come to me whenever something happens. From this perspective, President Lu, you're really a useless President!"

Lin Yi said coldly with a mocking smile. "Since you're of no use and only know how to sit on a dead body without eating anything, then it's better to abdicate and let a capable person take over. This Lord will find someone who can solve the problem to take over!"

Chapter 8720

Lu Renyi's expression changed and he asked in shock, ""Great Hall Master Sima, what do you mean by this?"

"You don't understand? What I mean is that you can go home and farm and sell sweet potatoes! From now on, you're no longer the president of the array Dao Association, and you're no longer holding any positions in the martial Alliance!"

Lin Yi didn't hold back as he gave Lu Renyi another critical hit, causing his body to feel like it was about to collapse!

Directly fired? This must be a joke!

Because he was too shocked and surprised, Lu Renyi only came back to his senses after a long while. Something seemed wrong!

"Sima Yi! Don't joke around, the appointment and removal of the President of the array Dao Association must be carried out by the higher-ups in the Association. Even if you're the head Hall Master or patrol, you don't have the authority to remove me from my position!"

Lu Renyi's eyes lit up as if he had found a life-saving straw. "That's right! You don't have the right! "And what I said is the truth. Is it my fault that I didn't have enough manpower to complete the task of reinforcing the nodes? What does it have to do with me?"

Lin Yi's eyes were filled with pity as he looked at Lu Renyi with a half-smile, "President Lu, I'm afraid you've forgotten that I'm not only the Great Hall Master and patrol envoy of the Sangzi continent. I'm also the Vice President of the Xingyuan continent's array Dao Guild!"

Lu Renyi's face paled instantly. He really didn't think that one of Lin Yi's other identities was his boss!

Damn it! Why would someone take on so many roles at the same time? And all of them held positions with real power! He would forget it if he wasn't careful!

Lin Yi had wanted to kick Lu Renyi out a long time ago. After all, the array Association was an important Department, and he needed to have full control of it.

Lin Yi was just too busy to deal with it now, and the fact that Lu Renyi had been disobeying Lin Yi's orders these past few days only made him want to kick him away even more.

Now that he was using the node to piss Lin Yi off, what was there to be polite about? 'Pounce on him!'

Lu Renyi's mouth was trembling, but he still refused to give up. "Even a Vice President of a higher rank array Dao Association doesn't have the right to punish the president of an entire continent's array Dao Association. This is against the rules!"

It was up to Lin Yi to decide whether it was up to the rules, not Lu Renyi. Back at Fengqi Dazhou, Jin botian gave Lin Yi the power to appoint and dismiss managers at all levels of Sangzi Dazhou, but Lin Yi just didn't show it.

He didn't need to use this power to deal with Lu Renyi!

"President Lu, oh no, you're no longer the president! Lu Renyi, if I'm not good enough as the Vice President, is it good enough to have the Executive Vice President?" You should know that I saved Vice President Zhu from the array Dao origin ..."

Lu Renyi's already pale face turned pale before he could finish his sentence.

He was the president of the Sangzi continent's array Dao Association. Of course, he knew the changes in leadership in the higher-ups like the back of his hand!

The Vice-President Lin Yi was talking about had been promoted to Vice President after the formation Dao origin came back!

He heard that Vice President Zhu was extremely grateful to Sima Yi for saving his life and often mentioned Sima Yi, making it seem like they had a very close relationship. It was obvious that they were on the same side!

It was indeed not difficult for these two powerful figures to remove the president of a mere array Dao Association. It could even be described as a decision made with a single word!

So ... Was he really going home to farm and sell sweet potatoes?

By the way, what did it mean to farm and sell sweet potatoes? Bah! This was not the main point!

"Great Hall Master Sima, you ... You really can't blame me for this! This subordinate is innocent! Please give this subordinate another chance!"

Lu Renyi was not willing to be fired just like that. He lowered his stance and forced a smile as he pleaded, ""After all, I've been leading the array Association for so many years. Even if I don't have any merits, I've put in a lot of hard work. In terms of familiarity with the array Association's Affairs, no one in the entire Sangzi continent is better than me!"

"First hall Master, please believe me! Give me another chance, I will definitely do my best and find a way to reinforce the nodes perfectly!"

Although he said that, he was thinking that as long as he could successfully stay, he could slowly grind it out in the future!

He'd throw the responsibility on Lin Yi when the node failed!

Lin Yi waved his hand impatiently with a cold face, "that was the final decision. Don't doubt the person you use, don't doubt the person you use. I no longer trust you!" So now, you can go wherever you want and do whatever you want!"

Lu Renyi knew that he had lost the battle. He immediately put away his pleading face and revealed a ferocious expression. "Sima Yi, don't you regret it! Without me, Lu Renyi, let's see how you're going to fix all the nodes that need to be reinforced within the deadline! If there's a slight mishap and the darkness demon beast clan breaks through the spatial node, you'll be a sinner of humanity!"

As he spoke, he even gritted his teeth in a fierce manner.

Lin Yi frowned, stood up and clenched his fists. Lu Renyi's face changed and he ran away, not daring to stay and talk anymore.

It couldn't be helped-he'd said the same thing-the experience of being thrown into the formation had left a deep shadow in his heart, and the moment Lin Yi wanted to make a move, his first reaction was to run!

Lin Yi chuckled, too lazy to chase after this cowardly rat. He called for Shi chengcai.

"Master, do you have any orders for this disciple?"

Shi tiancai greeted him respectfully as soon as he entered.

He didn't have anything specific to do yet, and keeping him by his side to clean up the mess was quite effective.

"Come and sit. There's something I need you to take a look at this list!"

Lin Yi passed the list of nodes to Shi shengcai, "These are the nodes that need to be reinforced in the abandoned forest and the underground Devil's Den. There are 379 of them in total!"

"Within a month, I need to fix and reinforce all these nodes. This is quite a heavy task, but the focus is on the people from the array formation Association. They probably won't cooperate, and it's normal for them to do things on the surface while secretly going against it. Their goal is to make me the scapegoat!"

Shi tiancai had always been cold and expressionless, but at this time, he also showed a slight anger. "This is related to the safety of mankind. Do they dare to play tricks?"

"There's nothing to be afraid of. They'll probably hope that something will happen, and the bigger the trouble, the better. Anyway, it'll be suppressed in the end. But I'll have a great responsibility!"

Lin Yi shrugged, thinking back to the many dynasties in the history of the secular world. They all had similar situations before they were destroyed.

The officials who held power ignored the already rotten state affairs. In order to protect the wealth and power in their hands, they obstructed and opposed the implementation of the new law. They even colluded with foreign enemies, ceded land, paid indemnities, and sold the country for glory.

He wanted to protect what he had in his hands, just like the Jia family now!
