

Bodyguard 8721

Chapter 8721

In order for the Jia family to continue to be their Jia zhetian in the Sangzi continent, what was the point of sacrificing the human forces?

He had a conscience not to collude with the darkness demon beast clan!

"Truly damnable!"

Shi chengcai scolded in a low voice before turning to Lin Yi. "Master, what are you going to do? He couldn't just watch all this happen, could he? No matter what, the various nodes must be repaired and reinforced without delay!"

Lin Yi nodded, "that's right, so I've removed Lu Renyi from his position. From now on, you'll be the president of the Association. With your strength and experience, I don't think anyone will say anything!"

"Yes! This disciple will obey!"

Shi Yucai cupped his fists and accepted the order. As the president, he could help Lin Yi better and display his own abilities-it was indeed suitable.

Shi shengcai also knew that Lin Yi had the power to appoint the president directly, so it was all legitimate.

"After you go to the array formation Association, see how many people are available ... The Jia family and Lu Renyi have been running the business for many years. Even if they aren't as united as a steel plate, there shouldn't be many left!"

Lin Yi didn't have high hopes for the members of the Association-he'd let Shi chengcai take a look first and figure out what to do.

"Alright, I'll go and take a look then."

Shi longcai knew that this was an urgent matter, so he didn't delay and immediately went to the array Dao Association. As the newly-appointed President, he issued a summoning order to gather all the array Dao Association's subordinates.

But it was just as Lin Yi thought-how could house Jia and Lu Renyi be willing to give up their authority in the Association? The remaining array Masters and array Masters did not care about Shi tiancai at all.

The one outside used the excuse of a mission to ignore Shi tiancai's summoning order.

The people who stayed at the Association were lucky to have dragged their way here, but many of them left immediately after receiving the call, not giving Shi chengcai and Lin Yi any face at all!

These people were naturally the Jia family's die-hard supporters. Shi wancai had already noted down their names in his little notebook. They would be the first batch of people to be dealt with in the clean-up operation!

The first gathering order from the newly appointed array formation Association's President was indeed a bunch of people. Perhaps they were just spies sent by the Jia family to gather information.

Shi longcai expressionlessly explained that he would take over as the chairman, then dismissed the small-time meeting. He then went to the nearest node in the underground Devil's Den to take a look.

As this node was the closest, Lu Renyi had arranged for people to repair and reinforce it.

When Shi chengcai went over, there were indeed people at the node. An array Grandmaster was leading the team, and an array master was assisting. The number of people was well matched.

The only unreasonable thing was that this group of people did not even start to make a move. They had been here for a long time, but it was as if they were on an outing, eating, drinking, playing, and playing, not doing any work!

Shi chengcai took all of this in and didn't say anything. He turned around and went to Lin Yi.

"Master, as expected, the array formation Association is basically made up of the Jia family's people. There's no way to command them!"

Shi Yucai's head ached. His array Dao strength had indeed improved greatly, but there were so many nodes that he couldn't do so many things by himself!

A clever housewife can not cook a meal without rice, this saying was really not nonsense!

"Master, how about we borrow some people from Fengqi Dazhou? If master asks, I think there will be no problem!"

Shi shengcai made a suggestion. If they really didn't have enough manpower, this seemed to be the only way.

With Lin Yi's status in Fengqi Dazhou, it was only a matter of one word if he wanted to borrow people.

No matter if it was the array Association or the SU family's grandmasters, they wouldn't reject Lin Yi's call.

But this wasn't a good idea, and Lin Yi rejected it. "The maintenance and reinforcement of the node is not only in Sangzi great continent, but also in Fengqi great continent. We can't delay the progress of Fengqi great continent for Sangzi great continent!"

The darkness demon beast clan in Fengqi great continent was finished, but that was outside the node.

No one knew how many darkness magical beasts were inside the spatial node, so the stability of the spatial node had always been the most important thing!

Shi longcai thought the same and could only shake his head in silence.

Lin Yi suddenly smiled, "it's actually not a bad thing that the Association doesn't have anyone, we can do a complete cleansing and blood-changing!" As for the additional manpower, we'll recruit from the Academy!"

"Before you came back, master had already contacted Sangzi great continent's all under the heavens Academy, asking you to take up the position of array path sub-academy's Dean. This is your old profession, so I think you'll be more successful!"

Shi shengcai was taken aback. Become the Dean of the array Dao division? It was indeed his old profession, and he didn't reject it. However, what did becoming the Dean at this time have to do with the recruitment of students into the array Dao Association? There wouldn't be enough time, right?

"Master, it's not a problem to be the Dean of the array path sub-academy, but the strength of the Academy's students in array path ... They're not very useful! I don't think there's any use in recruiting them into the array Dao Association?"

Sangzi great continent and Fengqi great continent's formation path branches were definitely different, but it wasn't like Shi shengcai didn't know.

After all, when he was the Dean of Fengqi great continent, he would also have some exchange activities with Sangzi great continent or other great continents.

There was not much difference in the standards of the students, and they were all around that standard. Most of them were at the stage of just entering the array master stage. There were some who were especially outstanding and would become array Masters of gold rank and above, but those were only a minority!

Gold-rank array Masters were considered outstanding among the students, but it was a joke to ask them to repair and strengthen the nodes!

Lin Yi smiled mysteriously. "You're the array path sub-school's Dean, so of course you have to train them well! Even though you haven't been with me for long, your talent is really strong!"

"Shi Yucai, you still haven't realized that compared to your own array Dao cultivation, your ability to impart array Dao knowledge is actually much stronger!"

This wasn't just a casual statement-Lin Yi had been pretending to be controlled by the dark beasts in Fengqi Dazhou, and when he was ordered to get close to Shi tiancai and find a way to abduct her, he'd go to the school of formations to find him from time to time.

At that time, Shi chengcai's impression of Lin Yi was still very average, but he wouldn't reject Lin Yi's presence, so he would often see Shi chengcai personally attend public classes.

It was at that time that Lin Yi understood Shi Yucai's ability to pass on knowledge and dispel doubts. She was definitely a natural-born teacher!

It was just that at that time, Shi tiancai's understanding of array Dao was still very superficial, or rather, it was limited to the scope of Fengqi great continent's array Dao, and he couldn't display the ability he had to teach array Dao.

But it was different now. Even if she hadn't been with Lin Yi for long, Shi tiancai's talent and comprehension ability allowed her to understand the formations Lin Yi was teaching!

If he were to teach it to others, the effect would definitely be amazing!

Chapter 8722

Shi longcai was taken aback again, 'master, do you mean for me to go to the array Dao Academy to teach knowledge of array Dao? However, the time to reinforce the node has come. Will it be useful to do this now?'

The key was that they didn't have enough time!

"Haha, you really don't know anything about your ability! Let's try it out first! You'll know what your lessons can bring to those children!"

Lin Yi didn't go into the details, only waving his hand for Shi Yucai to go to the array path section first. Shi Yucai left in confusion and reported to Tianxia college as told.

The array path division had already made arrangements for the public lecture. Several hundred students were gathered in one place, waiting for Shi longcai to come to class.

The Jia family was indeed powerful in the Sangzi continent, but the Tianxia Academy could still be considered a Pure Land.

The students who had gathered from all over still had hot blood and ideals in their hearts. The Jia family didn't pay much attention to the young fellows in the Academy. At most, the batch who were about to graduate would be noticed.

As long as a student graduated from Tianxia college, the Jia family would either rope them in, suppress them, or rope them in after suppressing them. In short, they would not let a single one escape the Jia family's control.

Therefore, before graduation, the students of Tianxia college wouldn't be disturbed too much. After all, this would allow them to grow better. When the Jia family harvested, they would also be able to obtain more outstanding talents.

Shi shengcai understood this point and knew that Lin Yi wanted to build a team from these students who weren't contaminated, but the time was too short. It might be better to do it after the nodes were strengthened.

Shi longcai, who had some doubts, entered the open class and was immediately welcomed by the students. Even he himself didn't expect this!

"He really is the genius Grandmaster Shi Shucai! I still can't believe that Grandmaster Shi would come to our Academy to be the Dean and even open a public class!"

"Me too, I feel like I'm in a dream! Grandmaster Shi is so handsome ..."

Alright, this was a new fangirl of Shi tiancai! It seemed that the fan support group would be expanded again!

"I heard that during the array Dao exchange, Grandmaster Shi went into the trial array alone and easily rescued Lu Renyi. His array Dao is terrifying!"

This person was obviously a boy. The girls' first concern was Shi tiancai's appearance, and only the boys would be concerned about Shi tiancai's array Dao strength!

"Lu Renyi is really useless! He actually needed Grandmaster Shi to save him? how embarrassing! How could he still have the face to be the president of the array Association? I think he should have given up his position to Grandmaster Shi!"

Obviously, the news of Lu Renyi's abdication and Shi shengcai's Ascension had not yet spread, and there were still people fighting for Shi shengcai's injustice. He would be very satisfied when he heard the news, right?

Shi shengcai went on stage amidst the warm applause. He could still hear the soft discussions below, and it felt a little wonderful!

In the past, he had always been the center of attention and the focus of discussion, but he had never paid attention to it. This time, it was clearly different.

Throwing away those thoughts in his mind, Shi wancai went up to the stage very calmly and greeted with great grace, "Hello everyone, I'm the newly-appointed array path branch Dean, Shi Yucai. In the future, when I have time, I'll often come to give lessons to everyone. I hope everyone will like my public lessons!"

"I like it!"

"We like you, director Shi!"

"Director Shi is so handsome!"

These were the little fangirls of Sangzi Dazhou's postcelestial support group ...

The faces of the boys who had originally admired Shi longcai suddenly darkened!

No matter how much she admired him, she couldn't tolerate the existence of The Public Enemy of all men!

Sensing the gradually hostile gazes, Shi wancai felt a little helpless. Can you blame me for this? Is it my fault that I'm handsome?

Even if it's my fault ... Then I'll be wrong to the end!

Shi shengcai coughed lightly and cast away the shameless thoughts in her mind. She had been hanging out with Fei daqiang for a long time recently, so she was like this, right?

He used to be a gentleman ... That must be the case!

"Alright, we'll start the class now. If any of you have any questions about array Dao, you can raise them first, and we'll focus on explaining them!"

Lin Yi's assignment to take over the formation path division was rather sudden, and Shi chengcai wasn't prepared at all. He didn't know what the students' standards were, so he could only use this question and answer method to get a feel for them before proceeding with the class.

"Me, me, me! I have a question, director Shi!"

"I, I, I, I'll go first!"

"I'll go first, I'll ..."

Needless to say, the fan club was online again, and everyone was fighting to get the honor of being the first to ask a question.

Occasionally, a boy wanted to raise his hand to fight for it, but the girl behind him pressed his head down and stuffed it under the desk. The sisters-in-law couldn't even snatch it, so what were you doing?

Shi longcai was very used to this situation. It was similar in Fengqi great continent, so she had experience!

Hence, Shi shengcai picked a boy who didn't raise his hand for him to ask questions.

Most girls would not have any serious questions, such as whether they had a girlfriend, what their ideal type was, what they liked, etc ...

They could talk nonsense when they had nothing to do, but now that time was tight, Shi shengcai didn't have the time to talk nonsense with little girls!

"Did you have any doubts in your study of arrays?"

Shi shengcai ignored the people with their hands raised high and directly asked the boy who had been called.

The boy felt a chill run down his back, as if countless gentle little swords were poking his spine. He couldn't help but swallow his saliva, thinking that he might not have a good life in the future!

However, Shi shengcai had personally called out his name, which still made him a little excited!

After all, Shi tiancai's reputation as a genius had spread throughout the entire starsource continent. She was considered the idol and goal of these young people!

Other than the fact that she was popular with girls, which was a very bad shortcoming, he admired Shi tiancai in all other aspects!

"Director Shi, I do have some doubts and would like to seek your guidance!"

The boy didn't want to miss the opportunity, so he stood up and began to explain his doubts in a slightly reserved manner.

Everyone knew that those who could take the initiative to sit in the first row were basically straight-a students. Even if they weren't straight-a students, they were good students who loved to study.

It wasn't without reason that Shi shengcai had chosen him. At least, if he looked for the person in the front row, the probability of him asking questions would be slightly higher than the person in the last row.

As expected, the question raised by this male student was very representative. Furthermore, it belonged to the category of array Masters of gold rank and above. This showed that his array Dao strength was also among the top among the students.

Shi longcai thought for a moment. If these questions were answered directly, the students with lower strength might not understand, so he decided to explain it from shallow to deep.

With the most basic knowledge and Lin Yi's array path system as a reference, all the students were dumbfounded in just a few minutes!

Chapter 8723 The End

Everyone felt that they could fully understand the content of Shi Yucai's words and draw parallels from analogies. Many things that they usually didn't understand were suddenly cleared up. It was simply amazing!

Even those fangirls who only paid attention to Shi Chen's caiyan were involuntarily brought into the learning atmosphere, and clearly felt that their understanding of the array Dao was rapidly deepening.

After Shi shengcai finished talking about the first boy's question, there were obviously more people asking questions after that. Even the little fangirls in the support group no longer had their previous playful expressions, but became serious and serious.

In this way, Shi longcai could choose people to ask questions at will and take care of all directions.

Everyone's questions were different, but they were all representative questions. Shi tiancai couldn't help but sigh inwardly. The quality of the students in the Sangzi continent's array Dao faculty seemed to be very high!

However, he never thought that perhaps it was because of his explanation that these students' potential was stimulated?

This went on for nearly four hours. Slowly, Shi longcai realized that the questions the students asked were getting deeper and deeper. They had already exceeded the scope of the first gold-level array master, and were beginning to enter the scope of dark gold and diamond-level array Masters!

And the first person to raise the level of the question was still the first boy named by Shi wancai!

After discovering this, Shi longcai couldn't help but be secretly shocked. What did this mean?

It meant that this boy's array Dao skills had advanced from gold array master to dark gold array master in less than four hours, and had entered the level of diamond array master!

As long as he consolidated his strength for a while, he would be able to stabilize his rank as a diamond-grade array master!

Only then did Shi chengcai understand what Lin Yi meant. His teaching ability was indeed unparalleled!

It wasn't this obvious before, but after combining it with Lin Yi's array path system, it had the ability to turn something rotten into something magical!

This way ... He might really be able to train up qualified array formation Association subordinates in time and lead them to complete the task of maintaining and reinforcing the nodes.

At the thought of this, Shi Yucai was secretly excited. As expected, his master's eyes were like torches, and his plans were flawless!

Everything was under control!

Originally, a public lecture of four hours was already the limit, but now Shi longcai was teaching to his heart's content and was extremely happy.

The students could also clearly feel that their array Dao strength was increasing by a large margin.

No one wanted to end it!

Then let's continue!

It was as if he had eaten a panacea and his body tempering level was increasing. He was cheating!

In fact, it was much easier to improve his array Dao than his body tempering.

If you didn't fully understand a difficult point, you would be stuck for a long time. But if you solved those difficult points, you would be able to increase your level without any obstacles, especially for those below the Grandmaster level.

When one reached the level of Grandmaster, the range of knowledge involved would be wider and the difficulty would be higher, so the speed of improvement would be slower, and there would also be a ceiling phenomenon!

For example, su Zixin ... No matter how much Lin Yi guided him, his limit was just at the threshold of diamond-class, and he wouldn't be able to improve no matter how hard he tried!

The students of Tianxia College's alchemy sub-school, no matter how bad their talent was, it couldn't be too bad. They were all the best in their respective regions and had the opportunity to enter Tianxia college.

Thus, under Shi tiancai's careful guidance, it was a very normal phenomenon for everyone to improve on a large scale.

It was dark, and the sky was bright again!

No one had expected that Shi tiancai's public lecture would last for an entire afternoon and night!

In the end, all the teachers and students of the school of array Dao were alarmed, and they all gathered outside the public lecture hall, listening attentively to Shi tiancai's class.

Tired? What a joke. Even if an array master was a weakling, he was still a true body-tempering martial artist. How could one or two days of lessons be considered tiring?

On the sub-Island, strength was everything!

Array Dao was also a type of strength. To be able to increase one's strength so easily, who would be stupid enough to say that they were tired and wanted to go back and rest?

"Alright, that's all for today's public lecture! I'm sorry to have delayed your time!"

Shi chengcai stopped the lesson, satisfied.

Today's gains were simply too great. Among the students attending the public lecture, at least twenty of them had already touched the scope of knowledge of bronze and even silver rank array Masters.

The rest of them were basically at the level of dark gold and diamond rank array Masters. After digesting the knowledge they had learned today, they might be able to break through again next time!

With such a group of backbones, they could completely support the entire array Dao Association!

"Teacher Shi, you've worked hard!"

All the students stood up and solemnly bowed with cupped fists to express their gratitude to Shi longcai.

A teacher's dignity. At this moment, every student recognized Shi longcai as their teacher and expressed their gratitude with Supreme respect.

Although Shi tiancai didn't take them in as disciples, from today onwards, they would treat themselves as Shi tiancai's disciples, because Shi tiancai's guidance to them was truly too astonishing.

This could really be called a miracle!

Shi chengcai was stunned for a moment. Looking at the neat bowing line below, he couldn't help but feel a little proud!

These were all his students!

They were also Lin Yi's first batch of people in the Sangzi continent!

"Students, you've worked hard! Finally, I'll say a few more words. Today, I'll share a lot of array knowledge with everyone, and I'll pass it on to my master, Sima Yi!"

Shi shengcai revealed a proud expression and said with a smile, "As everyone knows, my master is now the Great Hall Master of the Sangzi continent, a patrol! His array Dao is far superior to mine, and it can be said to be unfathomable!"

"If master wasn't so busy, the effect would have been better if he had been the one to teach! If there is an opportunity in the future, I will make such a request. If master can agree, that would naturally be the best!"

"Today, I saw that many students have made great progress in their understanding of arrays. Some have even broken through their own limits and entered a whole new field."

"It just so happens that I became the new president of the array Dao Association yesterday. Since I didn't have any notable achievements, why don't we organize a level assessment!"

"Students who are confident can apply to take part in the assessment. After you pass, I hope that you can join my array Association and help my master, Hall Master Sima, and me to create more possibilities for the future of the Sangzi continent!"

Thunderous applause!

The students' pure and hot-blooded hearts were easily stirred by Shi chengcai!

Adding on their respect for Lin Yi and Shi tiancai, almost everyone had decided to take the formation path test!

Chapter 8724 The End

After working hard to pass the assessment, they could join the array formation Association and contribute their meager strength to their idols!

Due to time constraints and the importance of the task, Shi shengcai didn't dare to waste any time. Hence, after leaving Tianxia Academy, he immediately returned to the array Dao Association to arrange the assessment.

He was the president of the array formation Association, and Lin Yi was in charge of the higher-ups, so he had full control of the martial Union and the school. All the procedures and preparations were done in one day, and the large-scale assessment started on the second day.

The results were gratifying!

All the students who applied passed the assessment without exception!

On one hand, it showed that they had a clear understanding of their own strength level. On the other hand, it also showed that this batch of students was indeed extremely talented. It could be said that their potential was infinite!

If they were properly trained, they would all have greater room for improvement!

The most important thing was that the results of the assessment had also exceeded his expectations!

Shi longcai had originally thought that it would be very good if there were more than twenty grandmasters, but in the end, there were as many as thirty!

The number of diamond-grade formation Masters had also exceeded their expectations, and the situation was looking good!

Lin Yi's knowledge of arrays and Shi tiancai's gift in teaching was so effective that even Lin Yi was surprised!

To be honest, even if Lin Yi went to the public class himself, the effect wouldn't be better than Shi Yucai!

With the addition of so much new blood, Shi shengcai immediately began a purge operation. Anyone in the array Dao Association who had any relationship with the Jia family or the sky array sect was expelled!

Those who disobeyed Shi tiancai were all dismissed. Only those who did not have an obvious stand and were easily swayed could still be used, and they were temporarily left behind to see what would happen next.

However, they would definitely not be put in an important position, and they would not be given any important tasks. They would only be re-used after they passed the observation.

The head of the Jia clan was shocked when he heard the news. In such a short time, the array formation Association had completely changed and had become Sima Yi's most loyal fan!

Previously, Sangzi continent's array Masters were basically all from the Jia family or the sky array sect. Unaffiliated grandmasters didn't have a chance to stand out.

Who would have thought that in a single night, Sima Yi and Shi Longcai would create thirty array Masters? Furthermore, these array Masters were extremely young, their futures were limitless!

With the addition of a large number of diamond-grade array Masters behind them, they could already be considered an extremely powerful force!

However, this force had nothing to do with the Jia family or the sky array sect. They were Sima Yi's Grand-disciples!

It was almost impossible for the Jia family to win over these young array Masters!

To tell the truth, the head of the Jia family was somewhat regretful at this moment. He regretted not pulling in the young students of the Academy earlier!

Now, it was impossible to even mix sand in! It was too late for regrets!

On the other side, the new array formation Association finally had a framework, and the task of maintaining and reinforcing the nodes could also begin.

Shi shengcai found Lin Yi and handed in the plan. "Master, the task of reinforcing the nodes is actually not complicated. With the help of a Grandmaster and a few assistants, one node can be solved. I have already assigned the tasks here. Please take a look, master."

The thirty newly advanced array Dao grandmasters each formed a small team, with Shi longcai personally leading one. In total, there were thirty-one small teams that went to reinforce the nodes separately.

If he followed the plan, he could complete the mission within the deadline. There was still more than enough time.

Lin Yi looked at it and nodded, "Not bad. We can basically guarantee the completion of the mission. The only thing we need to worry about is their experience. After all, they were just students a few days ago!"

Although they were all grandmasters and diamond-grade array Masters, these young people had very little experience in the past. It was indeed a little difficult for them to be entrusted with the important task of maintaining and strengthening the node array!

Shi tiancai's plan was very good. If it was executed perfectly, there would be no problems at all, and there would be a lot of time to increase the fault tolerance rate.

However, there would definitely be a lot of problems during the operation of these rookies. It was hard to say if the increased fault tolerance rate could really bear their mistakes!

"Master, I have confidence in them! Although they're young, they're not rash. It's not difficult for them to reinforce the nodes step by step!"

Shi shengcai trusted his students, so she was willing to vouch for them. After a slight pause, she said, "The only thing we need to worry about is the Jia family and the sky array sect!"

After Lin Yi and Shi chengcai took over the array formation Association, would they just give up?

Judging from their previous behavior of delaying the reinforcement of the nodes, it was obvious that they had never considered the safety of mankind and only thought about their own interests.

Shi shengcai had reason to believe that these people would play some dishonorable roles in the operation to strengthen the nodes!

Lin Yi nodded in agreement, "I understand your concerns. We really can't be careless! "Fortunately, the combat Association isn't controlled by the Jia family. They've always maintained a neutral stance. The operation to reinforce the node will require the combat Association's assistance. You can go and ask them to send someone to protect it."

Every team was equipped with a team of battle generals as guards. Even if the Jia family and the sky array sect wanted to do something, they had to consider the consequences.

If they made a move against the battle general but could not silence him, the Jia family would be in even greater trouble.

Shi shengcai immediately heaved a sigh of relief. This way, the success rate of the plan would greatly increase.

Speaking of which, they should really thank the president of the combat Association for being able to remain in the opposite direction despite the Jia family's overwhelming power!

The reason why the Jia family didn't touch the president of the combat Association was probably because of his other identity, which disdained the president of the Sangzi continent's all-heaven Academy!

With these two identities, the Jia family would not go to great lengths to deal with him unless there was a particularly major conflict of interest.

In the end, he left Lin Yi with the most powerful ally and support!

"After communicating with the combat Association, I'll begin the task of reinforcing the nodes immediately!"

"Announce to the world that I'll be a part of it, but I won't reveal who I'm in charge of ..." Lin Yi said after some thought.

"Master, we've dealt with it enough. There's no need for you to follow us to reinforce the nodes, is there?" Shi Yucai was slightly taken aback. There are a lot of things here in martial League, and all of them require master to handle. If you leave for too long, there will be an impact!"

Lin Yi chuckled, "of course I know that you guys are enough. But the Jia family is still the Jia family. Their reputation of being able to cover the sky with one hand is not fake. Especially those people from the sky array sect. They're even crazier and more unscrupulous than the Jia family!"

Realization dawned on Shi longcai. Even with the protection of a battle general, the strength of either the Jia family or the sky array sect could not be underestimated.

Chapter 8725 No Problem!

Even if all the combat Association's combat generals were added together, they might not be able to compete with one of them. This was also one of the reasons why the Jia family and the sky array sect did not force the combat Association.

The threat level was not high enough!

However, the combat Association itself had a certain degree of hardness. If one ate it forcefully, one would hurt their teeth. It was tasteless, but it would be a pity to throw it away.

In addition, the Jia family and the sky array sect needed to maintain a balance, so both sides tacitly used the combat Association as a buffer.

In other words, even if the combat Association sent all its members and split them into 31 teams, each team's strength would only be so-so.

If the Jia family or the sky array sect wanted to target one or two teams, it would not be difficult to completely annihilate them.

This was still the concern that Shi Yucai had raised. Lin Yi said that cooperating with the combat Association was only a temporary solution. For safety's sake, Lin Yi asked Shi Yucai to spread the word that he'd be participating.

Who did the Jia family and the sky array sect want to deal with the most? Of course, it was Lin Yi!

Without a doubt!

After receiving the news, the Jia family and sky array sect would definitely gather their elite forces to ambush Lin Yi.

It wasn't easy to kill Lin Yi in the Sangzi continent, but there was nothing to worry about in the underground demon cave and the abandoned forest.

These two places were extremely dangerous, and the number of people who died every year was huge, so what was one more Sima Yi?

Lin Yi's unclear target location would attract the attention of the Jia family and sky array sect, which would lower the danger of the other teams.

In other words, Lin Yi was using himself as bait to attract the enemy's attention and create a safe environment for the others.

"Master, what you're doing is very dangerous!"

Shi tiancai's intelligence wasn't low, and she understood Lin Yi's intentions in an instant. She immediately turned serious. "This matter is still not appropriate ..."

"You don't have to say anything, I know what to do!"

Lin Yi raised a hand to interrupt her. "Instead of worrying about me, you should worry about yourself. Other than me, you will be their second target! So in this operation, you will also become a fragrant bait!"

"Your original plan was to go to the underground Devil's Den, but change it and go to the abandoned forest! I'll also go to the abandoned forest. We can look out for each other if we're too far apart!"

That's right, Lin Yi was going to the abandoned forest. Since it was fishing, he had to find a suitable body of water!

The abandoned forest was The Hunting Ground that Lin Yi had prepared for the Jia family and sky array sect!

As long as they dared to come, they would not be able to leave the abandoned forest alive!

This was a game of hunting and counter-hunting!

Shi shengcai didn't have any objections. Exchanging mission targets with another team was a small matter that could be arranged and dealt with casually.

Since Lin Yi insisted, Shi shengcai could only comply and stay as close to each other as possible to look after each other!

And so, the plan was set, and the news that the array formation Association and Hall Master Sima Yi were going to start the spring node maintenance and reinforcement mission quickly spread. Before everyone set off, those who should have received the news had already received it.

"Sima Yi is going to personally reinforce the nodes? Hahaha, the heavens are really helping me! If he continues to stay in martial League as his head Hall Master and patrol, we really can't do anything to him! Since you're going to the node, don't blame us if you die!"

After the head of the Jia family heard the news, he couldn't help but burst into laughter and quickly issued an order. "Immediately arrange for people to keep a close eye on Sima Yi and find out the exact location of the node he's going to!"

"There's also Shi Yucai. He's also a problem. Keep a close eye on him. When the time comes, we'll split into two groups and take care of him at the same time. We can't leave a single one of those following them behind. Kill them all!"

In order to do this, the martial artists sent out not only had to be strong enough, but the number of people absolutely could not be small.

Otherwise, a hole would appear in the encirclement, and any fish that escaped would bring great trouble to the Jia family.

"Yes! Master!"

The messenger was Jia junren, and after receiving the order, he asked, ""Aside from Sima Yi and Shi wancai, do you want to kill a group of the others? After all, in the great land of Sangzi, they dared to side with the enemies of our Jia family. They're quite bold, so we have to kill the chicken to warn the monkeys!"

He was referring to the new grandmasters and formation Masters in the school. If they were to join Lin Yi and Shi chengcai, it would be a blow to the Jia family's prestige.

If this trend was not suppressed, there would be more such people in the future!

The head of the Jia family pondered for a moment before shaking his head, "Don't worry about them for now. If Sima Yi and Shi longcai weren't involved this time, killing a group of them would be a matter of course. But with these two here, they're the only two we can target!"

"As long as Sima Yi and Shi tiancai fall, wouldn't it be easy to take care of these little guys in the future? Our Jia family has suffered a lot of losses recently, and it's just in time to absorb a batch of people from these people to replenish our strength. "

"Clan head is far-sighted, I understand. This time, we'll only target Sima Yi and Shi chengcai!"

Jia junren showed an expression of admiration and immediately assigned the tasks. He had people keep an eye on Lin Yi and Shi longcai and collect information on their mission while gathering the elite masters of the Jia family to prepare for an ambush and pursuit after receiving the information!

In addition to the Jia family, the sky array sect was not idle either. They had also secretly made similar arrangements.

Lin Yi had gotten some vague information from Zhang Yiming, and it was all within his expectations.

Therefore, he left martial League in public and headed towards the abandoned forest as planned.

The enemies hiding in the dark received the news almost immediately, and the people they'd arranged rushed to find a suitable place to set up an ambush before Lin Yi.

Lin Yi didn't bother to hide his tracks. He wanted to attract the attention of the people following him, so before entering the abandoned forest, Lin Yi always exposed himself to the people following him.

However, this situation only lasted until the abandoned forest. Once they entered the forest, the people chasing Lin Yi would no longer be able to find him!

With the plant element, Lin Yi's presence in the forest was like rain entering the river, a Dragon swimming in the ocean-the vast abandoned forest was his home ground!

The people in charge of following Lin Yi were stunned. Their companion was still waiting for accurate information so that they could find a suitable place to ambush Lin Yi, but now he was gone!

The only thing worth rejoicing was that Shi longcai was leading a group of people and was still advancing step by step.

Since Lin Yi, their number one target, was gone, they'd deal with Shi chengcai, their number two target, first!

The people in charge of gathering information and tracking continued to look for Lin Yi, while the people who were planning to ambush Lin Yi turned to Shi chengcai, planning to deal with him before looking for Lin Yi.

Chapter 8726

Lin Yi wasn't far from Shi shengcai's team, about a hundred meters away at most.

Hiding on the branch of a big tree with the plant attribute, the aura all over his body was one with the big tree, as if he was a part of the big tree. Whether it was with the divine sense or the naked eye, no one could see the slightest bit of disharmony.

At first, Lin Yi had set himself up as a target for the Jia family, attracting most of their attention and leading them to the abandoned forest.

After entering the abandoned forest, Lin Yi hid his whereabouts. The enemy forces, led by the Jia family, lost their biggest target and naturally turned their attention to the second target, Shi Yucai!

Lin Yi's plan was to change targets or bait-he'd let the enemies gather around Shi Yucai, and then he'd hide in the dark and launch a sneak attack!

If they were still targeting Lin Yi, they'd be alerted after a few assassinations because they couldn't find any trace of him. They might even split up and run for their lives.

Now that the target was Shi Yucai, his team was exposed to the enemy's eyes. Lin Yi's sneak attack would start from the periphery, and the scattered enemies wouldn't notice the Oriole behind them and kill them accurately!

For example, there were two masked killers in black quietly passing by the tree where Lin Yi was hiding, ready to circle around to the side and surround Shi tiancai's team.

In order to be absolutely safe and not let any possible survivors escape, these people had opened up a very large and dense net.

Shi chengcai's team was the prey in the net, and the two assassins in black who just passed by Lin Yi were the two threads that weaved the net!

The two strings were focused on moving stealthily, but they didn't notice that two vines had quietly wrapped themselves around their necks. Before they could react, they had tightened their grip!

The two men in Black subconsciously raised their hands to grab the vines around their necks. Their mission was still in their minds, so they didn't dare to make a sound for fear of alerting Shi shengcai's team and causing their target to escape through the loophole before the net was set up.

Lin Yi's lips curled up, revealing a silent sneer. These two were still thinking about unrealistic things when death was at their doorstep!

He casually threw his divine sense over, and it was impossible for the two black-clothed assassins to make any sound!

After losing consciousness, their bodies went limp and were completely torn apart by all kinds of plants everywhere, turning into new nutrients for the abandoned forest!

The two elite warriors disappeared without a trace. Even though they had many companions around them, no one noticed the abnormality here.

This was the effect Lin Yi wanted. After taking care of the two, he left the tree and changed to a position twenty meters away. He only waited for a few seconds and used the same trick again, killing two black shirt assassins!

Shi tiancai's small team, including the battle generals from the combat Association, had a total of thirty-six people. The assassins in black surrounding them were more than ten times more than Shi tiancai's team-a total of four hundred people!

More than half of them were originally targeting Lin Yi, but because they lost track of Lin Yi, they came to help Shi tiancai first.

To be honest, with such a huge advantage, they had a great chance of capturing Shi tiancai's small team in one fell swoop if they surrounded them directly.

The reason why he was so serious was not only to prevent anyone from escaping.

More importantly, they wanted to set up a trap and try to use Shi chengcai to lure Lin Yi out!

It would be perfect if Lin Yi, who had disappeared, ran into their encirclement to save Shi tiancai!

They weren't wrong-Lin Yi was nearby, and he couldn't just sit by and watch Shi Yucai's group get surrounded.

The only thing they were wrong about was that they weren't the ones who led this to happen, but Lin Yi!

Hunter? Prey? She was an idiot who couldn't tell!

Lin Yi was coldly killing the surrounding assassins. They were all elites of the Jia family, and even the weakest one was earth formation stage. There were a few pseudo heaven breaking and half-step heaven breaking Masters leading them.

It was obvious that the Jia family had sent their true elites into the abandoned forest to kill Lin Yi, and the four hundred people here were just a small portion.

There were even more people scattered in other areas, looking for Lin Yi's traces and finding a suitable ambush spot, setting up some elaborate traps and so on.

Of course, there were no labels on them, and they were not members of the Jia family who often showed their faces in the outside world. They were most likely assassins raised in secret.

Even if they were killed, they could forget about being dragged out of the Jia family with their identities!

Lin Yi had noticed this during the assassination, but he didn't care.

In any case, it was only to attract their attention this time, to prevent those students who had advanced to become array grandmasters and array Masters from being intercepted and killed.

While at it, he would kill some of the Jia family's experts and weaken the Jia family's strength. That would be a huge profit!

In just a few minutes, Lin Yi had used the plant element to hide himself and control the plants to bind and kill more than two hundred Men in Black.

More than half of the black-shirted assassins died without even knowing how they died. The remaining assassins had basically reached their designated positions!

The leading killer didn't notice anything unusual and issued the order to attack. The seventy to eighty people in the inner circle moved at the same time and flew toward Shi longcai's team, who seemed to be unaware of it!

In their opinion, these people were enough to deal with Shi Shucui's team.

The main task of the remaining people was to prevent Shi Shucui's team from breaking out of the encirclement and escape, as well as to prevent Lin Yi, who might come to help!

As a result, Shi Shucui's team, which should have been panicking, didn't panic at all when they saw the sudden attack. Some of them even laughed loudly.

"As teacher expected, some scoundrels really came to ambush us! It's a pity that they've underestimated teacher's strength. They actually think that they can deal with us with just these few people!"

"Hahaha, they might have some misunderstanding about the battle mages and think that our combat power is trash. That's why they sent so many people over. They're already thinking very highly of us!"

The young people in Shi longcai's team, who were originally students, laughed and chatted.

He didn't care about the assassins at all, as if they were holding weeds instead of butcher's knives.

The leader of the assassins felt that something was wrong. This was obviously a precaution!

But these people's strength was obvious, so what if they were on guard? He still couldn't resist it!

Then, he saw Shi Yucai take out an array disc!

This was the formation disk that Zhen Yingxian used to deal with Shi Yucai and Zhang Yiming, but it became Lin Yi's trophy and was modified to be more powerful than before!

Chapter 8727

Lin Yi gave it to Shi Yucai to control as a life-saving card. After all, Shi Yucai was a more Orthodox array master, and his close combat strength was considered weak.

But if one were to use this formation disk, even if the opponent was a heaven breaking master, as long as they weren't a Grandmaster like Lin Yi, they wouldn't be able to break through the restrictions of the formation disk in a short time. They might even be killed by Shi Yucai!

It took a long time to describe, but in fact, it only took a few seconds. The assassins in black rushed out. Shi Xun took out a formation disk and activated it instantly. The formation spread out and enveloped all the assassins in black.

The leader of the assassins was shocked. He was still hiding in the dark, so he could see everything clearly. The assassins in black who were trapped in the formation disk were all silent, and he didn't know if they were Dead or Alive.

Perhaps it wouldn't die so quickly, but it was clear that the formation plate was extraordinary. It was impossible for him to kill a Diamond Grade formation master and a group of formation Masters in the middle of a formation!

"Dammit! Why didn't the information show that Shi longcai had such a powerful array disc for self-defense? The bastards who collected information should all die!"

The leader of the assassins cursed in a low voice. The target's information was severely inconsistent, which had affected the success rate of the mission.

Even if all of them were to enter a powerful array under the control of a diamond-grade array master, they might not be able to kill the target, let alone only one-fifth of them!

What should he do now?

Should they launch a general attack or continue to hide and wait until the moment when the formation disk's formation was retracted before launching a sudden attack?

At that time, the array disc would be in a cooler and would not be able to be activated again quickly. This might be a good opportunity!

He was quickly weighing the pros and cons in his mind to decide on the next step. He did not want to hear someone whisper in his ear, ""Let's not talk about whether the intelligence gatherers deserve to die or not. You're going to die now anyway!"

The Assassin's expression changed and his scalp went numb. He instantly entered the highest state of alert.

He didn't even have time to think about anything as he directly used his instinct to stab a dagger backward!

He was a pseudo-heaven breaking expert, but he didn't even notice someone approaching him from behind. He really should die!

As he turned around to attack, he opened his mouth to shout, but he couldn't make a sound.

His neck had been cut open by a black sword!

The dagger's speed was extremely fast, but it wasn't as fast as Lin Yi's demonic sword. The dagger lost all its power halfway and fell limply to the ground, falling with its master!

Lin Yi calmly put the sword away and shook it off the blood. He then took out an array flag and threw it out.

Lin Yi had already started setting up a formation when he was taking care of the assassins. This was a battle between formation Masters, and using a formation to end it was probably the best way, right?

The assassins in Black Thought that they had surrounded Shi longcai's team without anyone knowing. They had no idea that they were the ones who had been surrounded!

Lin Yi circled around the area, setting up a formation that included all the assassins in the area. After killing the assassin in the lead, he threw out the last controlling formation flag, activating the entire formation!

There was nothing fancy about the formation this time. It was the purest killing formation!

As the formation flags fell, countless killing auras appeared out of thin air. Under Lin Yi's control, they started killing the assassins who didn't notice anything wrong and were still alive!

The assassins in black felt a fatal danger and fought back with their weapons.

However, Lin Yi's killing formation was too strong, and they had too few people. If Lin Yi didn't kill the two hundred people first, they might be able to break out of the formation if they worked together.

Unfortunately, there were only a few of them left. They only managed to hold on for a dozen seconds before they were all killed by the killing formation!

Shi shengcai's formation disk was similar, but not all the assassins had died yet. Lin Yi might as well direct the killing force of the killing formation into the disk, helping Shi shengcai kill the rest of the assassins!

This formation disk was made by Lin Yi anyway, so it wasn't hard to draw in the killing aura of the killing formation.

"Master!"

"First hall Master!"

Shi chengcai picked up the formation plate and led the team out to greet Lin Yi.

"It's okay. You can continue to complete the mission. The people who were chasing you are all dead. It will take some time for the next wave to come. For the time being, there will be no safety issues!"

Lin Yi gave a gentle smile. "Actually, I don't think anyone will come after this. I'll continue to wander around behind you guys. If anyone dares to come and try something funny, they'll be dead for sure!"

"Thank you for your hard work, master!"

Shi chengcai cupped his fists respectfully, knowing that Lin Yi was being cautious for his safety.

"It's not hard at all. It's just the right time to clean up the enemy's strength. You can complete your mission without any worries. Don't delay!"

With that, Lin Yi waved goodbye and left!

There were still a lot of elite fighters from the Jia family in the forest of forsaken, and Lin Yi was ready to kill as many as he could.

Because they were all loyal to the Jia family. For the Jia family's benefit, they would not hesitate to betray the Sangzi continent and the entire mankind!

This kind of person deserved to die!

In addition to the Warriors of the Jia family, there were also some experts of the sky array sect. They were more cautious in their actions and would not attack unless they were completely confident.

In the abandoned forest, the sky array sect's ability to hide was better than the Jia family's, but their opponent was Lin Yi!

Lin Yi, who had both consciousness and plant attributes, was far more terrifying than they could imagine in the abandoned forest!

Ten days later!

Lin Yi stood on a branch of a tree, his arms crossed and his eyes lowered as he looked down at a man in gray being killed by the plants.

Although this person didn't have any obvious identification marks, Lin Yi knew that he was from the sky array sect, so he didn't show any mercy. His eyes even had some coldness and indifference.

Once the humans and the darkness demon beasts started an all-out war, the sky array sect's traitors would be the biggest unstable factor!

Lin Yi really killed everyone he saw, not planning on holding back at all.

For the past ten days, Lin Yi had been like a god of death in the abandoned forest, coming and going like a ghost, taking the lives of the Jia family and sky array sect members.

That was probably the two thousand and thirty-second person to die in Lin Yi's hands!

The Jia family and sky array sect had sent their best masters to deal with Lin Yi, but they didn't expect that they would all become fresh nutrients for the abandoned forest.

Chapter 8728

To the Jia family and the sky array sect, such a loss was not enough to hurt their bones, but it was enough to make them feel the pain.

After all, these elite experts weren't cabbages. It would be a huge blow if so many of them died at once.

After suffering such a heavy loss, the Jia family and the sky array sect finally felt the pain and began to evacuate their people from the abandoned forest.

They didn't know how their people died, because those who met Lin Yi were all killed!

It was precisely because they did not know the cause of the losses that they could only choose to evacuate in order to avoid more casualties.

As for chasing after Lin Yi and Shi tiancai ... They couldn't even find them, so what was the point?

They'd suspect that Lin Yi was the cause of all their losses, but they didn't have any evidence yet. At the same time, they didn't want to believe that Lin Yi could cause such a huge commotion all by himself!

Amidst the conflicting feelings of suspicion and suspicion, the large group of people from the Jia family and the sky array sect withdrew, leaving only a few people who were good at hiding to collect intelligence and inquire about news.

Unless they were attacked first, these people would never take the initiative to attack. They were dressed like ordinary adventurers, and most of the time, they wandered around alone.

Lin Yi met them occasionally, but he didn't do anything because he wasn't sure who they were. There was even one time when a dark spirit beast attacked a spy from the Jia family, and Lin Yi thought it was a normal adventurer, helping him in the dark ...

In any case, these spies did not pose a direct threat. After the main forces of the Jia family and the sky array sect left, the abandoned forest was basically not in danger.

The small teams of the array formation Association that were protected by battle generals could deal with the attacks of dark spirit beasts without any danger.

The task of reinforcing the nodes was carried out in an orderly manner, and the nodes were reinforced one by one. The darkness demon beasts in the nodes didn't attack and tried to break through the nodes.

It was probably because there were no flaws in the node, and it had been reinforced in time, that even if the darkness demon beast clan had plans to attack the node, they would give up when they saw the reinforced node.

In the next few days, Lin Yi continued to wander around the abandoned forest. Without the people from the Jia family and sky array sect around, he decided to explore some of the deserted areas.

He really did find quite a few treasures-they might not be of much use to Lin Yi himself, but the effects were great for the people around him!

After a few days of idle and fulfilling days, Shi longcai successfully completed the scheduled maintenance plan and began to lead the team back.

The other teams were also doing very well. Don't look at how they were all rookies, their missions were all done very well!

After all the teams returned to martial Union, Lin Yi and Shi chengcai threw a celebration party. All the participants, including the combat Association's generals, were invited.

"Everyone, you've done a great job in the node maintenance and reinforcement mission this time. The result can be said to be perfect! Not only did we not lose a single person, but we also strengthened all the nodes. In the next year, we don't have to worry about the darkness demon beast clan coming out of the nodes to attack our Sangzi continent!"

Lin Yi, as the hall Master, held a glass of wine and went on stage to give a speech."I won't say anything else. Everyone has worked hard. First, enjoy the joy of victory. As for your achievements, this Lord and President Shi will remember them. We will naturally reward you later. We will definitely not treat you shabbily!"

There was a wave of cheers from the crowd-the new formation Masters and formation Masters were all Lin Yi's Grand-disciples, and while they liked merits and rewards, they didn't really care.

Getting Lin Yi's praise was already the best reward!

Because Lin Yi and Shi chengcai were the idols of these young people!

Lin Yi said a few simple words and let Shi chengcai do the talking. After all, this was the array formation Association's business, and Shi chengcai was the main person.

Shi wancai declined, but still stood up."Everyone knows that first hall Master Sima is my master. In fact, the one who put in the most effort to successfully complete the mission is first hall Master! Let's not talk about the array path inheritance first, in order to let us successfully complete the mission, the first hall Master has done so many things behind our backs that you can't imagine!"

Killing so many experts from the Jia family and the sky array sect wasn't something that could be discussed in public, so Shi longcai didn't mention it much and just brushed it off with one sentence.

"So, I thought that the success of this mission should be the greatest credit to first hall Master! However, first hall Master didn't claim any credit for it, and even claimed credit for us to the continent's array Dao Guild. The array Dao Guild might possibly commend our Sangzi continent's new array Dao Association at any time!"

As Shi longcai was talking, the starsource continent's array formation Guild had really sent an envoy, just in time for the celebration banquet!

"Greetings to Hall Master Sima and President Shi!"

The array formation Guild's Messenger didn't dare to act arrogantly and greeted Lin Yi and Shi Yucai respectfully.

After all, Lin Yi was the Vice President of the array Guild. As a member of the array Guild, the messenger didn't dare to put on airs in front of Lin Yi.

Plus, he was sent by Vice-President Zhu, and he knew the relationship between Lin Yi and Vice-President Zhu. Even if Lin Yi wasn't the Vice-President, he still had to treat Lin Yi with respect.

"No need to be so polite, Messenger. Do you have any orders to pass on this time?"

Shi chengcai was the president of the array formation Association, so it was natural for him to receive the messenger. Lin Yi, on the other hand, nodded and stepped to the side, not wanting to get involved.

"No orders, it's just that Vice-President Zhu received the victory letter from the Sangzi great continent's array Dao Association and was in a great mood. Because Sangzi great continent was the first great continent to complete the spring's node reinforcement mission this year, and the reinforcement mission was completed perfectly, so he specially asked me to reward you."

The emissary chuckled as he replied and took out a roll of silk.

First, as usual, he recited a bunch of beautiful words that were flamboyant but actually didn't have much meaning. Finally, it was the real reward.

"... I heard that the people participating in this mission to reinforce the node are all youths who have just left the Academy to join the array Dao Association. They have excellent talent and endless potential, so every participant is given a quota to head to the starsource continent to take the array Dao Mystic master examination!"

The people below were in an uproar, especially the young people. Each and every one of them was so excited that their faces turned red, and their eyes revealed a look of disbelief!

It was the assessment quota for array Dao Xuan master!

It was too precious, and it was more meaningful than any other reward!

The so-called array Dao Mystic master was a more honorable title than the diamond Grade Grandmaster. It could be said to be a grade above the Grandmaster!

However, in terms of the ability to set up and break formations, he might not be much stronger than a diamond-grade Grandmaster.

Chapter 8729

To put it bluntly, even though this was a title above Grandmaster, the difference between them was not in their array Dao abilities, but in their ability to create and inscribe array discs!

All diamond-rank grandmasters would naturally study and inscribe array disks before becoming Mystic cultivators.

For example, Vice-President Zhu was a bronze-level array master, but his array skills couldn't be compared to Lin Yi 's.

Even Shi tiancai should be stronger than Vice-President Zhu, so becoming a Xuan master was not difficult, but it was not easy either!

Putting aside the ability to inscribe array disks, the quota for the Xuan master examination was very rare. Due to the scarcity of the quota, it was extremely precious.

Of course, if one wanted to take part in the assessment, one had to be a diamond-level Grandmaster first. The threshold was so high that it blocked most people.

This time, Vice President Zhu's quota was unlimited. One could take the test at any time.

After all, the group of youngsters Lin Yi and Shi Yucai promoted were still young and far from reaching the Xuan master level. It could only be said that they left a path for growth in the future.

The Jia family head, who had been secretly paying attention to the array formation Association, was dumbfounded when he received the news.

Every array Grandmaster and even array master who took part in reinforcing the node received an unlimited quota for the mystic master assessment?

Since when did the Xuan master assessment quota become something that could be wholesale?

For a moment, the regret in the heart of the Jia clan's patriarch was overflowing, and his heart felt as painful as if it had been bitten by a venomous snake!

It was the Xuan master assessment quota!

The Xingyuan continent only had a Xuan master assessment every three years. In the past, each continent would only obtain one spot every three years!

Therefore, in order to participate in the assessment, one must first undergo intense competition and elimination within the continent ...

Unless you're the only one in the entire continent who's qualified to take the test!

However, in reality, there would always be a few Diamond Grade array Masters hidden in every continent. It was not just how many there were on the surface. This was a fact that everyone had a tacit understanding.

The quota for the last Xuan master assessment was obtained by a hidden diamond-grade array Grandmaster in the Jia family. It was a pity that he went to participate in the Xuan master assessment and returned in low spirits, unable to advance to the Xuan master realm.

Although grandmasters and Mystic cultivators seemed to be similar in terms of array Dao, their statuses were completely different, and the authority they had on the starsource continent was also as different as heaven and earth.

Otherwise, how could it attract so many Diamond Grade array Masters to fight for the assessment slots?

The Jia family was known to be able to cover the sky with one hand in the Sangzi continent, but they didn't have much influence on the starsource continent.

If they could produce a Mystic cultivator, their influence would then expand to the entire starsource continent!

However, it was not easy to get a spot!

Therefore, when he heard that everyone participating in the spatial node reinforcement would have an indefinite quota for the mystic master examination, the Jia family's head was filled with envy, jealousy, and hatred!

Of course, there was also endless regret. If he had known earlier, he would have sent the Jia family's array Masters to participate. In any case, Shi longcai had successfully completed the task in the end, so he might as well have cooperated from the beginning!

In the end, not only did he fail to complete his initial plan, he even lost so many elite experts and missed a chance to obtain a spot for the Xuan master examination!

He really regretted it!

On the other side, Lin Yi wasn't too sure about the value of the Xuan Master exam, so he asked after the messenger finished reading.

The messenger was very happy to be able to make a name for himself in front of Lin Yi, and so he explained in detail how rare and precious the Xuan master assessment was, and also praised Vice President Zhu for his generosity.

"So that's how it is. Vice-President Zhu is really thoughtful! When you return, help me thank Vice President Zhu!"

Lin Yi chuckled to himself, understanding that Vice-President Zhu was trying to get on his good side!

To give out hundreds of such precious assessment quotas at once, it was definitely a huge sum of money!

Fortunately, it was impossible for all of these hundreds of people to go to the starsource continent to take the assessment at once. The strength of this group of young people was not enough.

When they slowly grew up and were qualified to take part in the assessment, it would be many years later.

Furthermore, not everyone would really use the several hundred slots. Most people might not have the chance to grow to this stage, and some people had reached the level but were not interested in array disks, so they naturally would not take the Xuan master assessment.

No matter what, Vice-President Zhu's generosity didn't have much of an impact on him, and he was doing Lin Yi a huge favor.

But this favor wasn't too obvious-it was given out as a reward for completing the mission perfectly, so it wouldn't make Lin Yi feel bad. There wasn't anything wrong with it, either, so it was perfect!

He was a smart person!

As expected, someone who could become the array formation Guild's Vice President definitely wasn't an idiot.

Lin Yi thought that he could improve his friendship with Vice-President Zhu in the future, and it would be great if they could help each other!

"Don't worry, Hall Master Sima. I'll definitely pass on the message. Vice-President Zhu will be very happy to hear it. At the same time, he'll express that this is just part of his job and not worth the hall master's thanks!"

The messenger was Vice-President Zhu's confidant, and to a certain extent, he could speak on behalf of Vice-President Zhu. These polite words were fine, and Lin Yi smiled.

"Alright! In any case, I, Sima Yi, will remember Vice-President Zhu's support for our Sangzi continent's array Dao Association! In the future, if Vice-President Zhu comes to the Sangzi continent, I'll be sure to welcome you!"

Lin Yi meant that he'd remember this favor, and that he'd help Vice-President Zhu if he needed help in the future.

It was just a polite greeting on the surface, but the meaning behind it was clear-the messenger naturally understood and treated Lin Yi with even more respect.

"If you're not in a hurry, please stay for a drink and celebrate with us!"

After the official business was over, Shi longcai sent an invitation to the messenger. It was a celebration party, after all, so it was more lively with more people.

The messenger agreed without hesitation, "then I won't be polite!" As the saying goes, it's better to come at the right time than to come early. Today, I'll borrow your wine to congratulate the two of you on completing your task perfectly!"

It was a rare opportunity for them to get closer to each other, and the messenger had to stay and have a few drinks with Lin Yi and Shi tiancai.

As a result, the atmosphere of the celebration party became more and more cheerful and harmonious. The newly formed array formation Association could be said to have become famous in one battle and shone brightly.

In contrast, the Jia family and the sky array sect were overshadowed and fell into an awkward silence.

The sky array sect was still fine, having kept a low profile recently. The Jia family, on the other hand, felt as if they had been ruthlessly slapped in the face by Shi shengcai. Unable to regain their face in a short time, they could only brace themselves and deliberately keep a low profile.

It was also because of the heavy losses in the abandoned forest that he had lost all his face even though the news hadn't spread, and he was too embarrassed to show up in front of Shi longcai again.

He could only keep a low profile and avoid the sharp edge for the time being. He could talk about other things when he had the opportunity in the future!

Chapter 8730

These were all things for another time. The celebration was still going on, and the messenger didn't stay. After having enough interaction with Lin Yi and Shi tiancai, he used the excuse that he had to go back to report and left first.

Lin Yi gave them face and sent the messengers out with Shi chengcai. As they watched them leave, he asked the ghost for information on formation disks.

"Senior ghost, you know a lot about formation disks, right?"

"Of course I do, but the formation disks I know are from the sky Island system. I've told you before that the sky island's formation disks use Qi as a tool to inscribe, and the sub-islands can't use Qi here, so the formation disks system must be different from the sky Island system."

The damn thing knew what Lin Yi wanted to ask and gave a direct answer, "Speaking of this sub Island, you should be more familiar with it than this old master. After you understand the sub island's disk array system, you can exchange some insights with this old master!"

Lin Yi replied casually. He agreed with the damn thing's theory. The problem was that the countless books he scanned with his spirit sense didn't have many records about formation disks. The words that appeared occasionally were really just words!

For example, on a certain day, a certain month, a certain year, a certain someone would use a certain formation disk and fight with someone for 300 rounds ... It would be of little use in understanding formation disks!

Since he couldn't get anything from the damn thing, Lin Yi turned to Shi Yucai, "To take the Xuan master assessment, one needs to know how to inscribe a formation plate. Shi Yucai, have you done any research in this area?"

"Master, I haven't reached the diamond Realm yet, so I didn't have the time to study the inscribing of formation disks ..."

Shi Yucai knew that Lin Yi's formation skills had long since surpassed the diamond Grandmaster level, and it was only natural that he'd be interested in carving formation plates.

She always thought that Lin Yi had done a lot of research on formation plates-after all, the formation plates he took from Zhen Yingxian had been modified by Lin Yi and were much more powerful. It was impossible for someone to do this without understanding formation plates!

"Under master's careful guidance, disciple's array Dao strength has improved by leaps and bounds. If master has any experience in carving array discs, please teach disciple a thing or two!"

Shi tiancai's raw strength had already reached the assessment standard. As long as she had some comprehension of inscribing array discs, she could go to the starsource continent to take the Xuan master assessment at any time!

Lin Yi only smiled. He had some understanding of formation disks, of course, but they were all from the sky-class island system, completely different from the sub-island system!

He could change a formation plate only because he didn't need to change the formation lines. With Lin Yi's understanding of formations, it wasn't too hard.

But Lin Yi didn't have the ability to draw the formation out of thin air!

"I haven't sorted out my knowledge on inscribing formation plates yet. If you want to learn, you'll have to wait for a while."

Lin Yi didn't even understand it himself, so he couldn't teach Shi tiancai. He could only pour a bucket of cold water on Shi tiancai to put out the little flame of truth-seeking in her eyes!

"I didn't seem to have seen any ancient books about formation disks in the Fengqi and Wutong continents. Is it because it's too profound that it's rare? I don't know if there's any in the Sangzi continent ..."

Lin Yi was indeed curious. The two continents' core books didn't have anything about formation disks. No wonder the success rate was so low!

There weren't even any teaching materials, and they were just going to take the exam. It would be a wonder if they could pass! Even geniuses don't play like this!

"Master, I've heard of this. On the continent level, there are generally no ancient books on carving formation disks, not even the most basic ones!"

After all, Shi wangcai was a native array genius on the sub-Island. Even if he hadn't reached this level, he would still pay attention to this. "If you want to read the ancient books on array disks, you can only find them on the star source continent. Furthermore, you can't buy or sell them. You can only rent them!"

"Because the formation disks are powerful, easy to carry, and fast to use, they are considered strategic weapons. Therefore, the knowledge of inscribing formation disks can not be easily spread."

"Those who want to learn how to inscribe array discs must go through an identity verification at the level of the starsource continent. Only after passing the verification can they rent books to read and learn!"

"It's not a problem for master to rent the ancient books for inscribing array discs. As for the verification of identity, you can just let Vice President Zhu know. However, if you want any ancient books, you have to go to the starsource continent to choose them personally."

"I see," Lin Yi nodded, "I'll go to the starsource continent when I have time!"

He would never rent it, he would never rent it!

As long as he found the place, the selection process could be omitted, and he could directly scan and copy it into his spiritual sea!

That was the end of the topic of the formation plate. Lin Yi and Shi Yucai returned to the celebration party and looked at the lively scene, feeling happy.

From the second day onwards, the results and rewards of the Association spread like wildfire. Lu Renyi, who had been fired by Lin Yi, had fallen to the bottom of the dust, never to rise again!

Some of the array Masters who had been hesitating to watch completely gave up and threw themselves under Shi tiancai's command, vowing to be loyal to Shi tiancai!

Shi shengcai didn't reject these fence-sitters and accepted anyone who was willing to join the array Dao Association. However, they definitely wouldn't be able to gain the Association's trust immediately, so they could only start from the bottom.

In the current structure of the array formation Association, the middle to upper echelons and the backbone were all Tianxia College's students, loyal to Lin Yi and Shi Yucai.

There wouldn't be any problems if they were to support the entire array Dao Association.

In just a few days, the new array Dao Association had made great progress, far surpassing the reputation of the array Dao Association during Lu Renyi's time!

Lin Yi didn't care about the Association anymore after the celebration party, leaving it to Shi Yucai to make the decisions!

After all, he had been in the abandoned forest for so long, and there were more and more things to do!

The first hall Master cum patrol envoy sounded very impressive and impressive, but when it came to dealing with the piled up matters at hand, it was not impressive at all, not impressive at all!

Lin Yi finished a document and put down his pen, rubbing his forehead. He felt that he should hire some more assistants who specialized in paperwork.

Otherwise, if he had to make decisions on his own, he would just sit in the office all day and approve documents. He would not have to think about anything else because he had no time!

It was just that even though the Association was on the right track, Lin Yi's Foundation in the Sangzi continent was still shallow, not as deep as the Jia family's.

If they wanted to recruit some aides, who knew if they would be spies planted by the Jia family?

Asking for help from Fengqi or Wutong continent for something like this was a little embarrassing, so Lin Yi could only put it on hold.
