

Bodyguard 8751

Chapter 8751

It was a formation he put his heart and soul into, and yet Lin Yi made it look like it was worth nothing-how could he be happy? Therefore, he could only endure the ridicule to avoid suffering greater humiliation.

"Grandmaster Sima really lives up to his reputation, you've really opened my eyes! Amazing! I'm impressed!"

Luo xingliu laughed as he tried to smooth things over, not hiding his admiration for Lin Yi at all.

"Thank you first hall Master for your praise, I'm ashamed!"

Lin Yi cupped his hands politely, "it's all thanks to sect leader Chang. If not, I wouldn't have been able to break the formation so easily. It's impossible!"

The corner of sect leader Chang's mouth twitched. You're not done yet, are you? What's the big deal about winning one round? We still won one game first!

The sky array sect elder knew that sect leader Chang was embarrassed, so he stepped forward and said coldly, ""We'll be attacking again in the next round. Please hurry up and set up the formation!"

Shi chengcai's eyes met Lin Yi 's, and he nodded solemnly. He went to prepare the formation without a word. This time, he didn't let his guard down and thought about it again.

After changing his way of thinking, there should be a different result, right?

Shi longcai encouraged himself in his heart, then set up the array with a "ka ka" sound. He returned and made an inviting gesture, indicating that the sky array sect elder could go.

As usual, Luo xingliu lit a new incense stick and announced the start of the battle. The elder of the sky array sect instantly disappeared into the array.

He didn't have Lin Yi's abilities-he wouldn't be able to break a formation with a single kick, even if he were to be beaten to death. He could only enter the formation and study it step by step.

Shi Yucai's formation this time was still using the knowledge Lin Yi had imparted to him. On the sub-Island, ordinary formation Masters would be at a loss for what to do, but the sky array sect was not included!

After all, what Shi chengcai was learning from Lin Yi wasn't profound or core enough. The sky array sect's heritage also touched on it, so the sky array sect elder was both surprised and happy!

In less than an incense's time, the sky array sect elder broke out of the array again, but this time, he took more time than the last time!

Shi shengcai's face darkened a little-Lin Yi's chicken soup was already delivered."Well done. This time, you've persevered longer than last time. If this continues, that fellow will definitely not be able to break the formation within the time it takes for an incense stick to burn! Try to kill him next time!"

"Yes! Master!"

Shi shengcai finished the bowl of chicken soup happily. He felt that Lin Yi's words made sense. Next time, he would win it back!

Lin Yi comforted Shi Yucai before turning to sect leader Chang. "It's time for us to attack again, has sect master Chang thought of what kind of array to arrange? You must put in more effort!"

"If you still use that kind of trash to fool me, I will suspect that you deliberately want to lose the Grandmaster battle ... Sect leader mo Chang is tired of being a Grandmaster, so he deliberately put on an act to deceive your sky array sect's higher-ups?"

Lin Yi's imagination started running wild-he was serious about ridiculing sect leader Chang!

Psychological battle, it was still a psychological battle!

The effect was quite good!

Sect leader Chang was a little flustered as he hmphed and went to set up the formation. As for Lin Yi, he decided to ignore him!

After the decorations were completed, it was as if time had turned back, and the plot was re-enacted.

Lin Yi walked to the formation leisurely, and when Luo xingliu announced the start, he lifted his leg casually and kicked out again!

The invisible barrier of the array began to fluctuate, and the entire array began to creak. Everything seemed to be a replica of what had happened earlier. The crowd did not need to watch any further to know the outcome!

Big feet had once again made a great achievement in breaking the formation, easily and happily breaking the second formation!

"Sect leader Chang, are you serious? We don't seem to have any friendship, so you don't have to go easy on me. I won't be happy if I win like this! It's simply an unfair victory!"

Lin Yi walked back, displeased. "I can obviously use my strength to win against you, but now you're making it seem like I can't win if you don't give me a chance. What's the point?"

"If sect leader Chang continues with this attitude, there's no need for the Grandmaster battle to continue. Isn't it easier for you to just admit defeat?"

Sect leader Chang's face turned green. I'm being very serious!

Actually, anyone with a discerning eye could tell that sect leader Chang definitely did not go easy on them. For example, those famous grandmasters who were invited to witness the battle were starting to doubt their lives!

From their point of view, they had no idea how to make heads or tails of the formation that sect leader Chang had set up. The danger that the formation itself exuded made them think that they might not be able to come out after entering.

In other words, this was definitely a profound and unfathomable high-level array formation. It was enough to trap most array Masters below the diamond Grade. Even a Diamond Grade array master would not be able to break it easily.

What did they see in the end? Sima Yi destroyed the array with a single kick!

This famous young genius was already heaven-defying to such an extent? It was simply terrifying!

"Clan leader Luo, I think Sima Yi broke the rules!"

Sect leader Chang had nothing to say and could only try to find a topic,""He didn't even enter the formation, so how could he experience the power of the formation from outside? This is completely opportunistic!"

The well-known grandmasters who were watching the battle secretly curled their lips. Those words were a little shameless!

It was much more difficult to break the formation from outside than inside!

This was because all the weaknesses of an array would only exist within the array. However, Sima Yi had broken the rules and easily broken the array from the outside. Although they could not understand this, they were deeply impressed!

Now that sect leader Chang was actually bringing this up, it could only be said that he was a bit of a sore loser!

Luo xingliu was also stunned. If he didn't enter the array, he wouldn't be able to experience the power of the array. That seemed to make sense ...

As a witness or judge, Luo xingliu wanted to be as fair as possible!

"It was never said that we can't break the array from outside, so there's nothing wrong with Grandmaster Sima's method of breaking the array in theory!"

Luo xingliu pondered for a while and gave his judgment. ""Since sect head Chang has suggested it, then from the next round onwards, we can't break the formation from outside. It will only count if we enter the formation. Sect head Chang, do you agree?"

"Sure!"

Naturally, sect leader Chang had to give up now, and Lin Yi didn't mind-it didn't matter if he entered the formation or not.

Thus, the third round of the competition continued. Shi shengcai's formation was broken again, but the time was extended a little. It was already very close to the time limit of an incense stick.

She didn't need Lin Yi's chicken soup this time. Shi Yucai's eyes were firm and full of confidence. She believed that she would win smoothly next.

Lin Yi wasn't surprised at all and continued to break the formation with a kick. The only difference was that he entered the formation a little bit and broke it out immediately without delay.

Then, he ridiculed sect leader Chang for going easy on them out of habit, causing the sky array sect to lose all their face.

Chapter 8752

The result of the fourth round had not changed, but the sky array sect elder had almost lost. The next second after he broke out of the array, the incense used to time the time had burned out, and the flame had been extinguished by the wind.

If he had been late by just a second, the sky array sect elder would have lost!

Shi tiancai's method of setting up the formation had obviously improved, and she was improving every time! As expected of a genius of arrays, the speed of his growth in the midst of setbacks was quite astonishing.

Lin Yi's performance was the same as before, and the audience lost all hope-some even pitied sect leader Chang.

They spent so much time and effort setting up this formation, and it didn't even last a second under Lin Yi's feet ... What was the point of wasting so much time and effort?

It would save him a lot of trouble if he just gave up!

The first four matches were four to four, but the spectators all understood that if it had not suddenly become a two-on-two team mode, the sky array sect would have lost.

Without Shi tiancai dragging him down, it shouldn't be difficult for Sima Yi to win against sect leader Chang!

In the crucial fifth round of attack and defense, Shi tiancai finally completed the reversal. The array he had set up had not been broken after the time it took for an incense stick to burn. The sky array sect elder trapped in the array had an ugly expression on his face, and when he faced Shi tiancai, he no longer had the arrogance he had before.

Five to four, Lin Yi's side was in the lead, and the sky array sect's sect leader Chang was the last to set up a defensive formation. If he could trap Lin Yi, the first round would end in a draw.

However, no one thought that sect leader Chang could beat Lin Yi. The four formations he set up only took Lin Yi four seconds to break.

For the fifth formation, no matter how many people were looking forward to it, they would at most hope to last two seconds before breaking the record, right?

"We give up on defense in the fifth round!"

Sect leader Chang's face was gloomy. He didn't want to admit defeat, but he would only be humiliating himself if he continued. There was no need to do so.

Lin Yi's ability to break formations was too strong, and sect leader Chang didn't even realize that he was starting to fear Lin Yi.

The psychological battle between the two of them did not disappear, but continued. With the battle results of both sides, sect leader Chang's confidence was shaken.

The situation was not looking good!

Sect leader Chang was even thinking that starting the Grandmaster battle this time was a little too rushed. He should have more information on Sima Yi's strength before making a decision!

"The sky array sect gives up their chance to defend in the fifth round. The first round of the Grandmaster battle, Sima Yi and Shi longcai wins!"

Luo xingliu announced the results with a smile on his face, as if he was happy for Lin Yi's victory. "Next up is the second round of the competition to modify the formation."

"Because the sky array sect lost the first round, so they have the priority to choose in the second round. Sect leader Chang, do you choose to attack or defend first?"

The second round of attack meant that the opponent would modify the formation and then the opponent would break the modified formation. The second round of defense was the opposite, and the opponent would modify the formation.

After seeing Lin Yi's terrifying ability, the sky array sect's two didn't dare to let Lin Yi break their formation. Of course, he would choose to attack first!

The second round was divided into three matches. As long as they had the advantage of being the first to attack, they might be able to win!

The first attack was the sky array sect's last chance to gain the upper hand.

No matter how they modified their own formations, there would always be flaws. It shouldn't be too difficult to crack these flaws.

"We choose to attack first!"

Sect leader Chang didn't feel that there was anything humiliating about this. They had already lost the first round of the competition. If they couldn't turn the situation around, the Grandmaster battle would end in the second round. This was not the result they wanted to see!

The two worked together, taking all the details into account. They thought it was perfect, and any changes would only reduce the power of the formation. They then confidently signaled for Lin Yi to change the formation.

Lin Yi only took a few casual glances before turning to Shi shengcai with a smile. "You'll be the one to modify the formation in the first round. Don't worry and show them your power!"

Shi chengcai smiled and cupped his fists. "As you command! This disciple is more than enough to deal with such a small matter!"

After the first round of growth, Shi wancai had made great progress in both strength and will. He was full of confidence this time and did not decline in the slightest.

The sky array sect's array techniques were profound, but the system they used was within the range of what Lin Yi had taught Shi tiancai, so it wasn't too difficult to understand.

Lin Yi's skill in modifying formations was even more impressive, and the technique he taught Shi tiancai was also extremely high, as if he was lifting heavy things as if they were light!

Usually, a small change might seem to have no effect, but after connecting with other places, unexpected changes would occur.

For example, the dark Demon beast's teleportation formation in the underground cave was perfectly modified by Lin Yi, and in the end, all the elites of the dark Demon beast were killed.

Shi tiancai wasn't as strong as Lin Yi yet, but he had a rough idea of what he was doing. One would think that he didn't do anything to the formation if they didn't pay attention.

The sky array sect's elder had lost to Shi longcai in the last round of the first round, so he was still a little unconvinced. When he returned to the array, he had a disdainful look.

"Sect master, it looks like Shi wangcai knows very well that our formation is perfect, so he didn't make any changes. He's giving up, right? What kind of genius is he? he's just so-so!"

Sect head Chang didn't agree with the elder's words. Shi wancai had used a sufficient amount of time to modify the array formation. You could say that he was at his wits "end and had no way to start, but it wasn't impossible that he had gone all out to make major changes.

After careful observation, sect leader Chang confirmed that Shi longcai was the latter!

"Don't be careless. Shi shengcai truly lives up to his name as a genius. The changes he made almost fooled me. Come and take a look!"

"Hiss hiss hiss hiss, there's really a change!"

The sky array sect elder gasped, his face full of shock. He no longer dared to underestimate Shi Yucai!

All the changes had been hidden. On the surface, there seemed to be no changes, but if they followed the previous method to break the array, not only would they suffer a loss, but they would also make a big fool of themselves!

Failure was even more certain!

"Shi Yucai ... Isn't simple!"

Sect head Chang sighed and immediately focused his attention to study how to break the array. If they hadn't discovered it, they would have definitely lost. But since they had already discovered the hidden technique, the result was completely different.

The two of them working together were indeed very efficient. However, they had never thought that if they had to deal with a change made by Shi longcai alone, they would be at a disadvantage.

In the end, within the time limit, sect leader Chang and the elder successfully broke the array and obtained the first point of the second round!

Chapter 8753

They were also a lot more relaxed and felt that this line of thought was extremely correct. It didn't matter if they couldn't defend in the second round. They just had to win again in the third round of attack!

"The sky array faction has won the first round. The second round will begin now. Sima Yi will set up the array first!"

After Luo xingliu's announcement, Lin Yi casually set up a formation and let sect leader Chang and the others change it. After that, he stopped it with a kick, simple and brutal.

The audience didn't want to see Lin Yi fight anymore-what was the fun in this? Did we come all the way here just to see you kick around? Can I refund the votes?

Sect leader Chang and the other two didn't mind at all. The second round's loss was within their expectations, it wasn't a big deal. The third round was the highlight!

The two racked their brains and exploded with their strongest strength, finally setting up a formation that they were both super satisfied with. This time, Lin Yi didn't let Shi Yucai go in alone, but went in with her.

"Tell us your thoughts on modifying this formation first. We'll study it."

Lin Yi didn't make a move yet, but decided to listen to Shi tiancai's thoughts.

The result of the competition had already been decided, so it was more important to guide Shi Yucai.

Shi Yucai understood what Lin Yi meant and immediately started analyzing the formation."...Add an array flag here to slightly guide the flow of the array patterns, forming a new semi-independent circuit. After activation, it will be linked to the other side ..."

Lin Yi nodded repeatedly, acknowledging Shi tiancai's idea. Her train of thought was clear and reasonable-she was indeed a genius.

It was just that it was still a little immature and had a lot of room for improvement.

After Shi Yucai was done, Lin Yi started guiding him."Your idea is good. The transformation here will be very successful, but if you make some slight changes here and radiate it to that place, what do you think?"

Shi Yucai's eyes lit up. 'The power will increase by ten percent, and the concealment will also increase by a little. Master is indeed brilliant!' However, if we do so, it seems that it will affect the other side!"

"That's true. That's why we have to make the corresponding changes here. This way, we can weaken the impact ..."

Lin Yi and Shi chengcai began to modify the formation as they talked. To modify a perfect formation, they had to think through it thoroughly-a slight mistake would ruin everything.

This was because a perfect formation was closely linked to each other. One wrong step would lead to more mistakes. Under the circumstances of time constraint, there was no chance to start over.

With Lin Yi around, there was no chance of making any mistakes. With his guidance, Shi Yucai successfully completed the deep modification of the formation. It was still the original formation, but the actual power and effect were completely different.

Rebirth!

When it was about time, Lin Yi and Shi Yucai walked out of the formation, chatting happily and in soft voices. They didn't seem nervous at all, as if they didn't care about the outcome of this battle.

On the contrary, Luo xingliu specifically mentioned, "The third match of the second round is also the match point of the Grandmaster battle this time. If Grandmaster Sima's side continues to win, there is no need to proceed with the third round of the competition."

"Sect leader Chang of the sky array sect, please pay special attention to this point. Only by winning will you have a chance to enter the third round. If sect leader Chang is ready, please begin!"

Sect leader Chang and the elder looked at each other and saw the seriousness in each other's eyes.

Even without Luo xingliu's reminder, they all understood the importance of this battle, but Lin Yi's appearance made them a little uncertain.

This time, would it still be as smooth as the first round?

The sandalwood incense was lit, and the time began!

The two of them quickly entered the formation. They were the ones who had laid down the foundation, and after entering the formation, the first thing they did was to habitually look for the familiar nodes of the formation. As a result, the situation in the formation changed.

Lightning flashed and Thunder rumbled. A strong sense of danger made sect leader Chang and the elder flee in panic. In an instant, they were separated. However, this was not the main point. The main point was that they could not find a trace of familiar array formation!

A modified formation? This was clearly a new formation!

Sect leader Chang was furious-he felt like he'd been scammed by Lin Yi again, but he didn't have the time to argue right now. He couldn't afford to be distracted.

As for the elder who was separated from him, he couldn't care about it for the time being. He could only pray in his heart that he wouldn't die in the formation!

Study formations and crack them? He could only think about it!

Sect leader Chang was exhausted from dealing with all kinds of tricky and strange attacks in the formation, and he sadly found himself lost in the formation, unable to determine where he was.

All of a sudden, the formation stopped working and everything returned to normal. The elder also appeared not far away. He looked extremely miserable and could not hide the shock on his face.

This is ...?

He was defeated!

Sect head Chang's body trembled as he finally came back to his senses. The fact that they didn't break the formation and it had stopped could only mean that the time limit was up.

Therefore, they had lost this competition!

They had lost the Grandmaster battle!

"The time it takes for an incense stick to burn has ended. Sect leader Chang, I'm very sorry, you did not break out of the array within the time limit. For the third round of the second round, Grandmaster Sima's side has won one point, winning the second round with a score of two to one!"

"Because the total score is 2 - 0, there's no point in continuing the third round! I hereby announce that Grandmaster Sima's side has won the Grandmaster battle!"

"According to the rules, the two grandmasters on sect leader Chang's side will lose their Grandmaster titles and their qualification to take the test!"

Sect leader Chang's face twisted. This was not the result he wanted!

He challenged Lin Yi because he was confident that he could win the master's battle and knock Lin Yi down to the ground!

What was going on now? What was the problem? The plot should not have developed like this!

"I'm not convinced! Sima Yi and Shi longcai cheated!"

Sect leader Chang roared in rage, no longer caring about his dignity, "This formation is no longer the one we set up before! They've simply relaid a new formation!"

"What they're doing has gone beyond the scope of the competition. How can a newly arranged formation be considered a modified formation? Hall Master Luo, as the witness, are you going to watch this injustice happen?"

Luo xingliu's expression did not change. He smiled faintly and said, ""Sect leader Chang, you're wrong! Grandmaster Sima's modification of the array was carried out in front of everyone, and you didn't raise any objections. Now that you've failed and you're saying this, how do you want me to judge?"

"I can understand your feelings, but since things have already come to this, I hope sect leader Chang will not be unreasonable. Everyone is watching, if you lose both people and array, that would be too ugly!"

If Luo xingliu had berated him with a stern voice and expression, sect leader Chang might have retorted. However, Luo xingliu was so calm and reasonable that the people around him began to show looks of disdain.

Chapter 8754 The End

Sect leader Chang's face turned red and he couldn't say anything more to avoid being despised by the others!

However, he couldn't just admit defeat like that!

"Sima Yi! You won without honor! So what if you won the Grandmaster battle? Now, I'm going to challenge you to a life-and-death battle! If you really have the ability, do you dare to accept this life-and-death duel?"

Sect leader Chang gritted his teeth and pointed at Lin Yi with a menacing face, "If you want to prove that you didn't play any tricks in the Grandmaster battle, then agree to this life-and-death battle. If you don't dare, then it's equivalent to admitting that you cheated!"

The life-and-death duel between grandmasters was of great importance. Therefore, after the parties involved issued a challenge, they had to submit it to the martial Alliance of the higher starsource continent and get approval before it could be carried out.

Generally speaking, a rare resource like grandmasters would not easily have a life-and-death battle. People from all sides would come forward to mediate.

If they really came to this point, they would have a life-and-death feud, the kind that would not rest until one of them was dead!

Sect leader Chang had already gone crazy. With his attitude of not caring about anything, even a timid person would be frightened by him.

Some people wanted to say that there was no point in a life-and-death battle. Since they were irreconcilable, they could have just pulled out their stance and done it. Why did they need to do something unnecessary and seek the consent of the martial Alliance?

Going back and forth like this, all of his anger had disappeared, and the effect of his Fury to the crown had also disappeared. What's the point of a life-and-death battle!

"I have to say, perhaps martial League has this intention. They'll give you a buffer period to calm down, and perhaps you'll be able to resolve a life-and-death battle.

However, this was definitely not the main point that required martial league's approval. The main point was the life-and-death battle approved by martial League. Life and death did not matter, and it was only limited to both parties participating in the battle!

After the event, no matter if they won or lost, the winner could not pursue the matter of the loser's friends and family and implicate the innocent! It was equivalent to removing the worries of both sides.

With martial League keeping an eye on them, this would definitely be effective!

Lin Yi had heard of the rules before, and so he immediately understood what was going on when sect leader Chang suggested a life-and-death battle.

"I have no interest in your life. Although I can easily defeat you, I really don't have the energy to play with you. You're a loser who doesn't even have the title of Grandmaster. What qualifications do you have to have a life-and-death battle with me?"

Lin Yi said with disdain. "If you want to take my life, you have to at least show me the corresponding qualifications! Why don't you tell me why I should accept your challenge?"

What do you mean by admitting to cheating if you don't dare to accept the challenge? what a joke!

Sect leader Chang was nothing after losing his Grandmaster status-if Lin Yi accepted his challenge, wouldn't that mean he'd have to accept any Tom, Dick, or Harry that jumped out to challenge him?

The grandmasters all nodded, agreeing with Lin Yi's words. Sect leader Chang didn't have the right to challenge Lin Yi to a Deathmatch!

Sect leader Chang was at a loss for words-he still had a trump card he hadn't used yet, a trump card that'd play a huge role in a life-and-death battle. How could he just let Lin Yi go like that?

"Sima Yi, don't talk about those useless things! If you don't dare, just say it! If you dare to accept the challenge and think that I'm not qualified, then state your conditions! What do I have to do for you to agree?"

In order to have a Deathmatch with Lin Yi and counterattack, sect leader Chang gritted his teeth and lowered his stance, only hoping that Lin Yi would agree to fight!

Lin Yi muttered to himself before smiling faintly, "Although you have lost your Grandmaster title, you are still the sky array sect's sub-sect leader for the time being. Since you are determined to have a life-and-death battle with me, I can accept your challenge, but the conditions will be more demanding!"

"Listen to me first. If you agree with my conditions and have no objections, I will agree to your challenge. What do you think?"

With that, Lin Yi waited for sect leader Chang's reply.

Sect head Chang's eyes narrowed as he laughed, ""Sima Yi, state your conditions. I will definitely have a life and death battle with you today!"

"Alright, then listen up. Since it's a life-and-death battle, life and death will definitely be decided. I won, so you'll definitely die, but your life is worthless. I want you to sign a contract first!"

"Once you lose in the life and death battle, everything in this sky array sect sub-school will be mine! It just so happened that Great Hall Master Luo was also here, so he could be the witness! If I lose, I'll have to pay with my life. "

"In other words, everything in the sky array sect sub-school is your qualification to challenge me to a life-and-death battle!"

The audience was dumbfounded-they didn't think Lin Yi's appetite would be this big. He wanted to swallow the sky array sect in one go!

But thinking about it, other than the sky array sect, what else could sect leader Chang take out to make up for the lack of challenging qualifications?

"No problem! It's decided!"

Sect leader Chang didn't care what Lin Yi's conditions were-he just wanted Lin Yi to agree to the Deathmatch, and nothing else mattered!

Moreover, he was confident that he had a trump card on him. No matter what, he would not fail. So, it would not be a problem to agree to any conditions now!

"Great clan master Luo, I'm applying for a life-and-death battle with Sima Yi. Please approve it and notarize my failure conditions!"

Sect leader Chang explained the terms and conditions clearly, stamping it with the sect leader's seal and thumbprint before handing it over to Luo xingliu for notarization.

If he lost in the battle, this document would be Lin Yi's legal way to take over the sky array sect.

Luo xingliu hesitated. Since it was a Deathmatch that both sides agreed on, he had no reason to reject it. He nodded and agreed to be the witness for Lin Yi and sect leader Chang's bet.

"I approve of your life-and-death duel. Since you'll be using formations to fight, you're not allowed to use any means other than formations. Anyone who violates this rule will be punished and the life-and-death duel will be declared invalid!"

Once the Deathmatch was nullified, the martial Union's protection treaty naturally wouldn't take effect. Lin Yi wasn't alone on the sub Island anymore, and he had a lot of things to do.

If the sky array sect went crazy and decided to take revenge on Lin Yi's people, it would be a problem.

Luckily, Lin Yi was confident in his skills in formations-he didn't need to break the rules.

A mere sect leader Chang is a piece of cake!

Luo xingliu didn't finish and continued unhurriedly, ""Methods related to array Dao are not prohibited. You can use them as you wish. Other than that, there are no other restrictions."

"The life-and-death battle only determines life and death, not victory or defeat, so there are no rules like best of three. Once it begins, it will be a fight to the death. I'll ask you one last time, have you all thought about it?"

"I've thought it through! Let's start!"

Sect head Chang's face was still ferocious, but his eyes were filled with madness and excitement. The twisted smile on his face was also filled with bloodlust.

Lin Yi shrugged nonchalantly-the guy was in a hurry to die, so he could just fulfill his wish!

The two of them flew to the square used for setting up the formation. Without a word, they began to wave the formation flags.

Chapter 8755

The life and death battle between array Masters was a competition of who could set up the array more smoothly. The place was like this, and everyone fought for the space to set up the array.

Not only that, but the array flags that the other party had set up were also in the competition!

How to make use of the enemy's formation flags to complete one's own formation was the key to victory and death!

It was like a game of Go. The ultimate goal was to fight for territory on the board, and the process was to kill the opponent's chess momentum and eat the opponent's big dragon!

However, the degree of danger was naturally not something that chess could compare to!

"Sima Yi! You're dead for sure today!"

Sect leader Chang laughed crazily as he took out his trump card-he realized that he'd be crushed to pieces if he tried to set up the flags with his own strength!

Since that was the case, he might as well reveal his trump card!

One of them was black in color, and its surface glowed with a golden light. It was a ball-shaped object the size of a soccer ball, and it was raised high above sect head Chang's head before floating in the air.

The sphere's surface was filled with dense, honeycomb-like holes. Under sect head Chang's control, countless formation flags shot out from the holes.

This was the heaven array sect's Secret treasure, the misty heaven array Divine Secrets ball!

After activation, it could activate thousands of array flags in a short time, forming an array according to the user's will.

Before sect leader Chang could finish his sentence, countless formation flags had already formed a few killing formations, surrounding Lin Yi!

Lin Yi's eyes narrowed-the black ball was activating the formation flags way faster than he was, like the difference in firing speed between a Gatling gun and a gun!

If it was anyone else, they would've been shot into a sieve in an instant, but Lin Yi was Lin Yi after all. He was a heaven breaking expert, and the speed and strength he brought with him were extraordinary!

So what if it was a small pistol? A precise burst shot was better than a meaningless sweep without aiming at the target!

A formation flag flew out of Lin Yi's hand like lightning, piercing into one of the formation's weak points and taking control of the formation in an instant.

The killing aura that had already condensed suddenly changed direction, attacking the other killing formation at the side instead of Lin Yi. The two formations clashed with each other, and finally both exploded!

Lin Yi didn't just fire one array flag, he threw out another six, all of them hitting their targets and gaining temporary control of the formation. He then used sect leader Chang's formation to fight against his.

Not only that, Lin Yi didn't forget to set up his own formation while he was taking control of the formation!

The formation flags that sect leader Chang had scattered were all within Lin Yi's calculations. For now, Lin Yi didn't fight for those formation flags, and his own formation flags had all disappeared and were hidden-there was no way to find them.

Sect leader Chang's face changed. Lin Yi's speed couldn't be compared to the God's secrets ball, but his ability to move a thousand catties with little strength was amazing!

One array flag could control one of his killing arrays and break a wave of attacks. How could he play?

No matter how fast the heaven formation God's secrets ball was shooting out array flags, it couldn't withstand Lin Yi's counterattack!

However, sect leader Chang was already riding a Tiger and could not back down. He could only use it with all his might, hoping that the heaven's array God's secrets ball would shoot faster. If it slowed down a little, Sima Yi would gain the upper hand, and it would be over for him!

He had thought that it was a trump card to take his life, but in the end, it had become a weapon used by the other party to take his life. If he could do it all over again, sect leader Chang would only want to tell the heaven formation God secrets ball to scram!

Without this thing, he wouldn't have stepped onto the life-and-death battle path of no return!

"So strong! The heaven array sect's Foundation was indeed extraordinary. Was that the legendary heaven array God secrets ball? I didn't expect it to be in sect head Chang's hands!"

The well-known grandmasters who were watching by the side were all shocked and could not help but whisper to each other.

"If the sky array sect wins in the second round, the sky array God secret ball will appear in the third round, right? Sect leader Chang is able to control the heaven array God's secrets ball, most likely to deal with Grandmaster Sima. Otherwise, with his position in the heaven array sect, he would not be qualified to control a secret treasure at the level of the heaven array God's secrets ball!"

"That's right. It was supposed to be a trump card for the third round, but now it has no place to be used. Sect leader Chang is unwilling to lose, so he proposed a life-and-death battle!"

"This old man was still wondering, where did sect leader Chang get the confidence to fight a life and death battle with Grandmaster Sima? If he didn't have the heaven array God's secrets ball, he wouldn't even be able to take one hit from Grandmaster Sima! The first two rounds of the competition have already made it clear!"

"I didn't expect that sect leader Chang would still not be a match for Grandmaster Sima even after taking out the heaven array God secret ball. He could only maintain his position ..."

"Grandmaster Sima is too powerful ... He has already surpassed the limits of a Diamond Grade Grandmaster! Such a genius, other than the formation Emperor's grandson, Si Kong, there has never been one in the entire sub Island, right?"

In the arena, all kinds of formations were quickly formed and then self-destructed because of each other's attacks.

If it were not for these famous grandmasters who had joined hands to set up a defensive array to restrict the movement, the entire sky array sect sub-school might have been destroyed.

They were shocked by the power of the God's Legacy Ball, and even more shocked by Lin Yi's own strength!

Any array Grandmaster would be defeated by the endless lightning of the heaven array God secret ball.

Only Lin Yi was able to counterattack so easily!

It was simply appalling!

They had thought that this was the limit. Now that both sides were in a deadlock, one side would be unable to hold on and would be instantly defeated!

However, they soon realized their mistake!

"Heavens! What was that? Grandmaster Sima's scattered array flags have already formed an array!"

"Unbelievable! How did he do it? I still can't believe it even after seeing it with my own eyes!"

"Sect master Chang is finished! Not even the heaven formation God's Legacy Ball can save him ..."

.....

Lin Yi threw out the last controlling formation flag, connecting all the formation flags he had set up before, including the ones his opponent threw out!

A huge spell formation began to operate, and layer after layer of spell formations stacked on top of it, fusing into it without any hindrance!

The God's secrets ball was still shooting out array flags to form the array, but Lin Yi didn't need to fight for them anymore. They were absorbed by Lin Yi's array the moment they formed!

Watching the battle, Shi longcai's eyes were filled with fanaticism. He was so excited that he couldn't control himself. His hands and feet were shaking violently!

"Strong! He was too strong! Master's array Dao was simply heaven-defying! To be able to set up such a heaven-shaking, earth-shattering, and God-weeping super formation in such a short time!"

Before Lin Yi, no one had ever laid down a formation like this, and no one had thought that it could be done this way!

Chapter 8756

To be more precise, what Lin Yi set up was the framework of a formation. If he had to name it, it would be more appropriate to call it a super fusion formation base!

It was only a framework and did not have any power. It was like a piece of white paper.

However, with the framework of this super array base, he could stack the array formations on it at will, just like writing and drawing on a piece of white paper!

In the blink of an eye, the array that sect leader Chang created with the heaven formation God's Legacy Ball had yet to be destroyed, and it became a picture on a piece of white paper, a component in the array base!

One layer after another, one layer after another!

Countless formations were stacked on top of each other, and the power they gathered was also increasing by several times!

Lin Yi pointed his finger like a sword at the nearby sect leader Chang and smiled, "You've lost!"

In a life-and-death battle, defeat meant death!

Sect leader Chang's face turned as pale as a sheet of paper, and his eyes were filled with madness!

"No! I'm not convinced! I didn't lose!"

He had the secret treasure of the sky array sect, the sky array God's secrets ball, so how could he lose?
How could he lose?

Sect head Chang opened his mouth and spat out a mouthful of blood onto the ball, ""Hahaha! What secret treasure of the sky array sect! It's just a useless thing, so let's use it for the last time!"

The golden light on the surface of the God's Legacy Ball turned red, and just as Lin Yi was controlling all the formations to launch the final attack, it suddenly exploded!

Sect leader Chang's maniacal laughter came to an abrupt end. His entire body had melted away in the explosion of the heaven formation God secrets ball, leaving behind only a lump of bright-colored flesh and blood that fused into it, triggering an even more intense explosion!

He knew he was going to lose for sure, so he decided to self-destruct the sky array sect's Secret treasure, the sky array God's secrets ball. Who knew if it was because he didn't want the treasure to fall into Lin Yi's hands, or if he really wanted to drag Lin Yi down with him.

All in all, this move had brought Lin Yi a huge problem.

The power of the heaven formation God secrets ball's self-destruction was beyond imagination, and those stacked arrays couldn't stop it at all. In an instant, more than half of them were destroyed.

Lin Yi had to do it himself, continuing to set up defensive formations and controlling the remaining killing formations to fight back and wear down the self-destruction of the God's secrets ball.

Only Lin Yi, on the other hand, was at his peak in terms of both speed and technique. Any other Grandmaster with less skill would've been dead before they could even throw out a bunch of formation flags-what the hell was this formation supposed to be?!

The rumbling explosions continued. The defensive array that the grandmasters had set up together could only hold on for a little longer before it began to shatter. Everyone retreated in panic!

The power of an artifact's self-destruction was beyond imagination, and with so many killing formations destroyed and fully activated, the two sides really had the power to destroy the world.

If it wasn't for the defensive array that they had set up together to resist the strongest shock wave, the entire sky array sect sub-school should have been razed to the ground!

Luo xingliu's expression was grave. He flew up at the same time as the defensive array was destroyed. He hovered above the explosion for a short time and mobilized all his elemental Qi to suppress the aftermath of the explosion!

After a huge explosion, all the explosions began to die down. When all the dust settled, the square where the battle formation had been set up had long been reduced to dust.

But in the middle, Lin Yi's figure was slowly appearing!

Even such a powerful explosion didn't hurt Lin Yi at all.

Lin Yi didn't even use his Yuan spirit body to avoid the damage. He took the explosion with his body.

In addition to the defensive array he had set up at the last moment, he was now at the heaven breaking stage, so he was indeed qualified to be willful!

Lin Yi estimated the power of the explosion in the later stage and decided to use it to test his body's resistance.

The result was naturally very satisfactory. His unscathed state was enough to explain everything.

"Master! Are you alright?"

Shi chengcai was the first to rush over and nervously checked on Lin Yi's condition. He let out a breath of relief after making sure that Lin Yi wasn't injured.

"Of course I'm fine. Such a small scene can't hurt me at all. What are you so nervous about?"

Compared to the darkness magical beast hordes, bee swarms, and sea beast hordes that he had encountered before, the self-destruction of a mere heaven formation God's Legacy Ball was indeed nothing!

The explosion was powerful, but Lin Yi wasn't the same as before. He was strong enough to look down on everyone, and it wasn't hard for him to deal with it.

"Grandmaster Sima is indeed powerful. I've really broadened my horizons today!"

Luo xingliu landed from the sky and talked to Lin Yi with a smile. As for the dead sect leader, he didn't care about it anymore.

What was there to say about a loser who didn't even have a corpse left, or a loser who took the initiative to provoke and was killed in return? He deserved to die!

"First hall Master, you're too kind. It's just that my opponent is too weak, which makes me seem like I'm very powerful. In fact, that's not the case!"

Lin Yi waved his hand humbly, stabbing the sect leader again. Did this count as whipping the corpse?

The famous grandmasters who'd just run away came back and congratulated Lin Yi-the formation skills he'd just displayed were heaven-defying.

They were all practitioners, and they knew what this meant-even if they worked together, they might not be able to fight Lin Yi. In that case, they should at least get to know him!

Such an expert would definitely rise above the nine Heavens in the future and become the object of their admiration. At that time, they wouldn't even have the qualifications to say a word!

The people of the sky array sect sub-school stood silently in the distance, not knowing what they were feeling now.

Their newly appointed sub-sect leader had just arrived a few days ago and he had already died. He had also self-destructed the sky array sect's Secret treasure, the sky array God secrets ball!

If this was not the sky array sect's sub-school, they would definitely hide their faces and run away. They had no face to stay and look for trouble.

They couldn't go anywhere, and could only vent their anger with their eyes as they watched Lin Yi being surrounded like a star.

There was an old saying-if looks could kill, Lin Yi would've been cut into a thousand pieces by now!

Lin Yi took the bet that sect leader Chang had signed and slowly walked to the sky array sect people, showing it to them,""Did you all see that? From now on, everything in this sky array sect's sub-school is mine! That includes all of you!"

"I'm sorry, but we don't admit it! That was only sect leader Chang's personal action, he could not represent the sky array sect! He also has no right to use the sky array sect as a bet!"

The one who spoke was the Vice sect master of the sub-school. Originally, he could have been promoted to the position of sect master of the sub-school, but sect master Chang was suddenly appointed from above, so he was very dissatisfied with sect master Chang.

Now that he saw sect leader Chang's end, to be honest, he was a little happy in his heart. He felt that he had a chance to become a sub-school's sect leader again!

Hence, he naturally wanted to protect the sky array sect's sub-school and couldn't just give it to Lin Yi.

Chapter 8757

"Heh...When he signed this, why didn't you say that he had no right to use the sky array sect's sub-sect as a bet, but let him submit it to Hall Master Luo for notarization?"

Lin Yi smiled faintly, "don't tell me you think that the fairness of the Luo clan is bullshit, that my Deathmatch is something you can play around with?"

"If he wins, I will have to pay with my life. If I win, I won't even get the bet. Do you think this is appropriate?"

The Vice sect leader was stunned for a moment, then he said with a cold face, ""That's sect leader Chang's personal behavior, it has nothing to do with us! If you want the bet, go to him, don't come to our sky array sect!"

He felt that his current tough performance could give him a lot of points, when the time came, he would definitely be promoted to a sub-school master!

Since sect leader Chang is already dead, there's no witness. What can you do to me, Sima Yi? Even Luo xingliu couldn't do anything about it!

If the martial Alliance dared to forcefully take over the sky array sect's sub-school, it would be the same as completely falling out with the sky array sect! He didn't believe that Luo xingliu would do that!

Lin Yi looked at the Vice-leader, amused. "Cheating? Alright! It seems like you're not convinced by the previous sect leader, and you're also not convinced that I won the bet, right?"

"Yes! I just can't accept it, you ..."

This vice sect leader still wanted to continue to be stubborn and take this opportunity to gain his political capital.

With Luo xingliu around, Sima Yi probably wouldn't have the guts to make a move.

The funny thing was, before he could finish his sentence, a black light flashed in his eyes, as fast as lightning and as quiet as a ghost!

He felt a chill on his neck, and then he saw the whole world leaving him!

Lin Yi pulled the sword back indifferently, and a drop of blood slid off the blade without any resistance.

The Vice sect leader then fell limply to the ground. Even until his death, he could not believe that he had been killed so easily!

Why? How would Sima Yi dare to ...

With the last question, the sky array sect's sub-sect leader died!

Lin Yi looked coldly at the remaining sky array sect people. "Who else is unconvinced? Who else would think that the bet sect leader Chang signed before his death was not valid? Who still doubts the outcome of the Deathmatch?"

Return! There was! Who was it?

No more, no more!

The remaining members of the sky array sect were roaring in their hearts, but they didn't dare to make a sound. They all stood with their heads lowered in silence.

The sky array sect's strongest skill was their array techniques, but Lin Yi had already used sect head Chang's life to prove that the sky array sect's array techniques were worthless in front of him!

Even the heirloom, the heaven formation God Legacy Ball, could only self-destruct.

Without the array to rely on, what else could he take out?

Martial strength? Don't joke around, didn't you see that the Vice sect leader couldn't even block one sword and directly died under the sword?

"Very good, since you have no objections now, the sky array sect's sub-school belongs to me from now on, including all of you, without my orders, no one is allowed to make any move!"

Lin Yi gave his first order coldly, and no one from the sky array sect dared to resist. Fortunately, he told them not to move, so they could follow the order in peace.

Before the Deathmatch began, Lin Yi had already asked Shi Yucai to send a message back, telling Fei daqiang to bring people over to take over the sky array sect.

When sect leader Chang signed the bet, Lin Yi had already thought of the sky array sect as his own. It wasn't strange that they'd already prepared for the next move.

Fei daqiang would probably arrive with his men in a while!

Luo xingliu looked at Lin Yi speechlessly, his mouth twitching.

He thought to himself, "even if you're here to suppress the sky array sect and the Jia family, you can't kill people in front of me, right?" He was too Savage!

No matter what, it was still within the constraints of a life-and-death battle. Even if there were some disputes, couldn't they just be reasonable?

Why did he have to kill me ...? Isn't this making things difficult for me?

However, Luo xingliu couldn't say anything. After all, the Deputy sect master had a death wish and couldn't blame anyone else.

Lin Yi's status in Xingyuan continent wasn't low, either-he was only slightly lower than the first hall Master, at most. It wasn't good for him to put on a straight face and argue with Lin Yi.

He had no choice ... He could only pretend that he didn't see anything!

As for forcefully taking over the sky array sect's sub-school, it didn't matter. With the bet that sect leader Chang had signed, there wouldn't be any problems for the time being.

Lin Yi didn't know what Luo xingliu was thinking, but it didn't matter if he did. He gambled his life for the sky array sect, so it was natural to take it down. What was the problem?

First, he had Shi shengcai sort out the data and information of the sky array sect's sub-school, and it would be more convenient to wait for Fei daqiang to come. In the end, Shi shengcai had just started when Fei daqiang came with a group of subordinates.

"Boss, I heard that the sky array sect's sub-school is boss"? As expected, boss is the mightiest. His first move is extraordinary!"

Fei daqiang was familiar with the operation of hugging someone's thigh, but his eyes would occasionally glance at the various buildings of the sky array sect, his eyes shining with golden light!

He was just short of carving the three words 'I'm rich' on his forehead!

"Alright, enough nonsense. I called you over to help. Help Shi longcai tidy up this sky array sect sub-school!"

Lin Yi waved his hand and drew a circle around the sky array sect's buildings. "For the time being, this is our territory! Don't have any scruples, just do it!"

Fei daqiang laughed so hard that his eyes couldn't be seen. He nodded and agreed, "I understand, I understand! Boss, don't worry. Leave it to me, Fei daqiang. It's definitely right! Brothers, it's time to work! Everyone, hurry up!"

The people who followed Fei daqiang all agreed and happily followed Fei daqiang to the various buildings of the sky array sect.

In an instant, the onlookers seemed to see a scene of locusts crossing the border.

Fei daqiang and the others entered a house and quickly moved out all the valuable things inside. Even the spiritual pearls and beautiful jades inlaid on the door had been removed ...

Lin Yi said it very clearly just now ... This is our territory for now, but not in the long run!

Since that was the case, of course, they had to take all the good things!

Fei daqiang had the potential to run a moving company, and his talent in this area was even greater than his business talent. Lin Yi couldn't be more at ease when he called him over!

The people of the sky array sect looked at this scene, each of them felt as if their hearts were being cut by a knife, but they dared not speak out.

They could only stand aside and watch as Fei daqiang and the others emptied the sky array sect's sub-school like bandits!

If it wasn't for the fact that the house was difficult to move, he might have even torn it down and packed it up to take away!

Luo xingliu stood beside Lin Yi and whispered, "Sima, the sky array sect will definitely not let this go! Sect leader Chang's bet can be considered as his personal act, and the sky array sect is not his personal property. "

Chapter 8758

"You took some benefits and didn't ask.

The questions had better not be too overboard! Otherwise, the sky array sect will use this as an excuse to find you.

How troublesome! Because it involves the sky array sect's internal affairs, it's not very convenient for the martial League to step out. "

He was giving Lin Yi a reminder, as well as a warning, in case Lin Yi got carried away!

Lin Yi smiled and nodded, "don't worry, head Luo, I know what I'm doing!" If the sky array sect wants to find trouble with me, it's just what I want! If they continue to remain silent, it will be difficult to deal with them!"

Luo xingliu was slightly stunned, then he smiled and said, ""Beating the grass and alerting the snake? It's indeed a good method, I was overthinking it!"

They were all smart people, and they knew what they meant.

Lin Yi didn't mean to take the sky array sect branch-this place was completely meaningless to him!

It wasn't like he was going into real estate, so he couldn't develop a tourist resort or something like that.

His ultimate goal was to seize the opportunity to sweep through the area, collect some information, and find some evidence!

Otherwise, he wouldn't have used such a powerful killing weapon like Fei daqiang!

Lin Yi believed that the sky array sect branch would be able to hide nothing from this guy!

The sky array sect couldn't just let Lin Yi Do this to them!

What Lin Yi wanted was for them to be unable to tolerate it. The sky array sect that was hiding in the dark and waiting for an opportunity to make a move was many times more threatening than the sky array sect that jumped out to cause trouble on the surface!

As long as they couldn't help but fight Lin Yi on the surface, Lin Yi would have plenty of chances to cut off more of the sky array sect's hands!

Luo xingliu understood Lin Yi's intention and didn't interfere. He only respected Lin Yi for using himself as bait.

"Boss, it's almost done! What about the remaining people? Are you going to bring it back with you?"

Fei daqiang's efficiency was high. In less than an hour, he had packed up all the valuable things in the sky array sect sub-school.

Fortunately, most of them were kept in the storage bag, so they were not so conspicuous.

"Forget about these people. It's useless to bring them back. Let them stay here by themselves. I guess the people from the sky array sect will be here soon!"

Just as Lin Yi was mumbling, the sky array sect really did come!

Speak of the Devil and the devil will come!

"Hall Master Luo, what happened? Our sky array sect's sub-school has been defiled to such a state right under your nose. You, the Great Hall Master of the martial Alliance of the starsource continent, are actually not going to interfere?"

The leading elder from the sky array sect was furious. He had criticized Luo xingliu as soon as he arrived, not caring about his identity as the hall Master at all!

"Hall Master Luo, elder Wang has been appointed as the new sub-sect master of the Sangzi continent. You are all old acquaintances. Shouldn't you answer his question properly?"

Luo xingliu smiled and said, ""So elder Wang has become sect leader Wang! Congratulations! Let this Lord explain first, the situation here was the bet that the former sect leader Chang took on himself!"

"He was not satisfied after losing the Grandmaster battle and issued a life and death battle to Grandmaster Sima! Because he has lost the title of Grandmaster, he does not have the qualifications to challenge a Grandmaster, so he used the sky array sect as a bet to make up for the lack of qualifications!"

"The result is known to everyone. Sect leader Chang also lost in the life and death battle. Not only did he lose his life, but even the sky array sect branch here lost to Grandmaster Sima!"

"According to the document signed by sect leader Chang, every blade of grass, every tree, every mountain, and every rock here can be handled by Grandmaster Sima as he wishes. This Lord has no right to interfere. Does everyone understand now?"

Luo xingliu smiled and took out the document of life and death.

The newly appointed sect leader Wang was obviously not prepared to understand, or rather, he was pretending to be confused. "Hall Master Luo! This old man will repeat again, this is our sky array sect's sub-school, no one has the right to seize it!"

"Unless they want to go to war with our sky array sect! Does the martial Alliance of the starsource continent have such a plan? are they prepared to completely fall out with the sky array sect? Recently, you've been pressing us step by step. It turns out that this was all premeditated!"

Luo xingliu smiled faintly. "Sect leader Wang, you're going too far. The sky array sect is an important cornerstone of the sub-Island, and our martial Alliance has always been on the same side as the sky array sect. We're in the same boat. How can you say that we're going to start a war?"

"As for what you said about the martial Alliance's constant pressure, that's even more true. On the contrary, it's your sky array sect that has been doing things that endanger the martial Alliance and the sub-island's humans from time to time."

"In the end, you said that it was the personal action of some of your sky array sect's subordinates. Just like this time, sect leader Chang initiated a life-and-death battle, and used the sky array sect's sub-sect as a bet to challenge the qualifications. If you win, it's fine, but if you lose, it's a personal action!"

"Hehe ... The sky array sect is really good at scheming! The martial Alliance has never thought of starting a war with the sky array sect. After all, that would shake the foundation of humanity. But if the sky array sect insists on doing things their way, the martial Alliance has never been afraid of anyone!"

Luo xingliu's words were soft but firm, neither servile nor overbearing. It showed that the martial Alliance could give up pursuing some matters of the sky array sect for the sake of the overall situation, but they would also resolutely take action for the sake of the overall situation!

He even memorized what happened today to a certain extent, keeping the sky array sect from falling out with him on the spot. But they were still unhappy, and would probably find another chance to target Lin Yi if they missed today.

Sect leader Wang was silent for a moment. He couldn't bear the responsibility of starting a full-scale war with martial League. If Luo xingliu was a little tougher, he could only soften his stance.

"Hall Master Luo, you're too serious! The sky array sect can ignore everything else, resources, property, and so on. However, we must hand over all the sky array sect's ancient books and information that Sima Yi has stolen from our sub-sect!"

Sect leader Wang said these words through gritted teeth!

Damn Fei daqiang, he's like a swarm of locusts. Even the better doors have been torn down and taken away!

Sect Master Wang did not need to look to know that all the ancient records and information of the sky array sect, including some other secrets, had fallen into the hands of Fei daqiang!

The sky array sect was a big sect. They didn't care about the resources, but they had to get them back!

Fei daqiang spread his hands with a blank face, ""What ancient books? what information? I have never seen it before! Brothers, have you seen him before?"

"No, I didn 't!"

"I've never seen him before!"

The workers of the moving company had a tacit understanding and denied three times in unison, saying, "we don't know, don't talk nonsense, you're accusing us!"

In fact, the sky array sect's books and materials were the most important things. Fei daqiang had already put them away in his storage bag and secretly transferred them to Lin Yi.

Who would be able to find it after Lin Yi put it away in his space?

Chapter 8759

"Wang, don't spout nonsense and slander me! Your Grandpa Fei only likes money and valuables, what ancient books and records, even giving them to your Grandpa Fei to wipe his ass would be too hard!"

Fei daqiang was full of confidence and began to curse, ""Your sky array sect didn't keep it well, you can't find it, so you want to frame your master Fei? Bah! Besides, everything here was lost by your sky array sect to boss!"

"Not to mention that I didn't take any of your ancient books and materials, so what if I did? Those are all ours, ours! That's why I didn't take your things. Don't you think that's the logic?"

His tongue-twister-like words made sect leader Wang a little dizzy. He actually felt that it made sense!

When he came back to his senses, he immediately flew into a rage in order to cover up his guilty conscience!

"Impudent! This is our sky array sect's territory, how can you act so atrociously here! I've already said that I'll give you the books and materials and the rest. Consider it as cleaning up the mess for sect leader Chang!"

"If you don't know what's good for you, don't even think about leaving our sky array sect today! Do you really think that our sky array sect is an existence that you can casually provoke? Activate the sect-protecting formation!"

Sect leader Wang didn't dare to fall out with Luo xingliu, but he wanted to use this opportunity to target Lin Yi and the others. If he could kill Lin Yi, his previous failure wouldn't be a problem!

In the end, the people around him were looking at him with strange eyes, which made him feel a little uncomfortable. He didn't know what was wrong.

It was Luo xingliu who kindly reminded him, ""Sect leader Wang, are you sure you want to use an array to deal with Grandmaster Sima? Although you didn't personally witness the life and death battle between Grandmaster Sima and sect leader Chang, you should have received the report, right? Could it be that your report was too simple, only the final result without the process?"

Anyone who saw Lin Yi and sect leader Chang's final life-and-death battle using a formation wouldn't be stupid enough to use a formation against Lin Yi-that would be humiliating!

In a battle of arrays, even the heirloom, the heaven array God's secrets ball, could only self-destruct, so how could the heaven array sect's sub-school's sect protecting array trap Sima Yi?

That was impossible!

This was the truest thought in everyone's heart. Most of them even felt that once the sky array sect's protective array was activated, it would most likely be controlled by Sima Yi to deal with the people of the sky array sect!

The possibility of that was extremely high!

Sect leader Wang's heart skipped a beat. The report was indeed very simple. It only said that sect leader Chang had lost in the life-and-death battle and his heirloom, the heaven formation God secrets ball, had self-destructed.

He always thought that the explosion was because sect leader Chang didn't want to leave the treasure to his opponent, and that Lin Yi was able to win the life-and-death battle and survive the explosion was also because of some treasure.

Now, it seemed that this was not the case!

The atmosphere was a little awkward, and sect leader Wang was in a difficult position. He didn't know if he should take back what he said and wait to think about it first.

It turned out that the sky array sect branch elder couldn't stand it and came out to give him a way out,""Sect leader Wang, we can't activate the sect-protecting array because the array base and array flags have been removed!"

Fei daqiang wasn't that talented in formations, but he'd learned a lot from Lin Yi. He might not be good at formations, but he was good at moving houses!

Therefore, it was not strange that Fei daqiang and his people had uprooted the sect protecting array of the sky array sect's sub-school without activating it!

Sect leader Wang's vision turned black. Was there still any justice in this world?

You even want to dig out the array Foundation and array flags of the sect-protecting array, are you all F
* cking poor?

However, no matter what, this was still a way out. He did not need to use his array to deal with Sima Yi anymore. At least he had managed to get through one round.

It was just that the twisted and sullen feeling in his heart was really indescribable!

"The sky array sect has such a great reputation, but the result is that the sub-sect is poor and has nothing good at all, it is really disappointing! Not only that, but you're also trying to make a countercharge. Are you trying to extort something from us?"

Lin Yi laughed coldly as he put on a show of "hitting back at the wrong person" which almost made sect leader Wang puke blood, "I don't care what you guys think, but since sect leader Chang's actions are personal and can't represent the sky array sect, then I don't want this sub-sect anymore, I'll give it back to you!"

Sect leader Wang took a few deep breaths to prevent himself from suffocating to death!

The sky array sect branch was just an empty shell now, with nothing but buildings. It didn't matter if they wanted it or not, and from Lin Yi's actions, it seemed like he'd planned to abandon it long ago.

Now, he said he would return it to the sky array sect. Who was he trying to fool? If he didn't take out the most important things, what was the use of having these broken houses!

"Sky array sect, that's all you got!" Lin Yi smirked. If you're not convinced, why don't we have another Grandmaster battle while Hall Master Luo is here? Or you can directly engage in a life-and-death battle!"

Anyway, a new sect master had already died, so it didn't matter if another new sect master died. At most, they could just send another one over!

Sect leader Wang was completely terrified. Although the situation was unclear, it was obvious that this Sima Yi was a little strange!

Whether it was the Grandmaster battle or the life and death battle, he didn't want to become the second new sub-school's master to be killed!

Lin Yi was only tough with his words, but he wouldn't really push it too far. The sky array sect was deeply rooted, and an all-out war would affect the overall situation.

Therefore, he couldn't be impatient. He had to slowly wear them down!

Everyone had their concerns, so naturally, the matter was left unsettled. Lin Yi brought Shi chengcai and Fei daqiang back with a full load, while Luo xingliu brought the grandmasters back to the starsource continent.

All that was left was an empty shell of the sky array sect's sub-school, to be cleaned up by the newly appointed sky array sect's sub-school leader!

When the head of the Jia family received the news, he immediately smashed the teacup in his hand, then the tea table beside him, and destroyed two chairs in passing ...

"Trash! What a bunch of useless desserts! What the hell is this!"

The head of the Jia family was burning with anger as he panted heavily, "I thought the sky array sect was amazing. I was hoping that they would be able to attack Sima Yi. In the end, the sky array sect suffered a double loss!"

Originally, the Jia family and sky array sect had a tacit agreement to work together to deal with Lin Yi. If sky array sect could win the Grandmaster battle, the Jia family would make their move on martial League!

Taking advantage of Lin Yi and Shi Yucai's loss of their Grandmaster titles, the Jia family could take back their position as the president of the array formation Association!

He could even go one step further and control the array path sub-school of Tianxia college.

With this as a Foundation, they would continue to seize control of the alchemy Association, forming a Prairie Fire and completely starting the battle for the power of the martial Alliance!

The plan was perfect, and the preparations were perfect. Everything was ready except for the crucial wind!

Chapter 8760

Unfortunately, the east wind was powerless and the hundred Flowers were ruined ... The plan could not keep up with the changes. The sky array sect not only lost the master battle, but also the life-and-death battle, and even the entire sub-school!

Even the Jia family head felt embarrassed for the sky array sect!

"Master, what about our arrangements ...?"

A confidant of the Jia family's head asked in a low voice, only to be scolded by him!

"Arrangement, my ass! Sima Yi has returned with a great victory and is in the limelight. Do you want to go and get in trouble? They all retreated! Get lost!"

The confidant ran out in fear and withdrew all the preparations he had made.

Those could only be activated when Sima Yi lost his Grandmaster title. Now that he was exposed, he would definitely be courting death.

His brain must have been flooded with water, to actually ask such a brainless question when the master was angry. He deserved to be beaten to death!

The patriarch of the Jia family threw, smashed, and kicked down many of the furnishings in the room, but the anger in his heart still did not subside in the slightest!

"Sima Yi ... Where the hell did this devil incarnate pop out from! I thought that the sky array sect could kill him, and even if they can't kill him, they can at least severely injure him. In the end, the sky array sect's trash was killed by Sima Yi!"

"Since that's the case, why are you in a hurry to challenge Sima Yi? What an idiot, he deserved to die! "And you want to drag this old man down with you. This is simply preposterous. It's better if your entire family is exterminated ..."

The head of the Jia family ruthlessly cursed at the heaven array sect's pig-like teammates. In the end, he sat down dejectedly, his mood extremely low.

After this attack, he estimated that the sky array sect sub-school would be in a dormant period for a long time. If they wanted to make a move on Sima Yi, they could only rely on the strength of the Jia family.

The problem was that Sima Yi was getting better and better in the Sangzi continent, and the power in his hands was getting stronger by the day. With the support of the martial Alliance of the starsource continent, Jia zhetian had already been stabbed through the sky!

As the current head of the Jia family, he needed to think carefully about how he should proceed.

If they were not careful, they would lose the entire game. If Sima Yi seized the opportunity to kill them, the Jia family would really be finished!

The head of the Jia family was having a headache, and Luo xingliu turned around before Lin Yi could count his gains.

"Great Hall Master Luo, didn't you return to the martial Alliance in the starsource continent? Do you have any orders for this subordinate?"

Lin Yi led him to the seat of honor politely and asked curiously, "Is it about the sky array sect? Or is it related to the Jia family?"

Jin botian sent Lin Yi to the Sangzi continent to deal with the Jia family and sky array sect. He must have discussed this with Luo xingliu.

Otherwise, Lin Yi would only be Sangzi continent's patrol, not the first hall Master.

So Lin Yi guessed that Luo xingliu's return had something to do with the Jia family or sky array sect, but he was wrong this time!

"No, no matter if it's the sky array sect or the Jia family, you have handled it very well. Continue to follow your own pace and pace, I believe you will complete it very well!"

Luo xingliu smiled and waved his hand, denying Lin Yi's guess before continuing, "I came here this time because I forgot to tell you something. You're now the Great Hall Master and patrol of the martial Alliance in the Sangzi continent, so you need to handle everything in the Sangzi continent."

"The greater the power, the greater the pressure and responsibility. For example, the upcoming five-year continental martial arts competition will need you to lead the preparations!"

"In the past, the Jia family was the one who overstepped their authority to take charge of the Sangzi continent. Since you're here this year, you have to prepare for the continental tournament and don't let the Jia family interfere!"

"The martial League and the inspection department have their own assessments for the continental tournament. You have two roles, so you have to go through two assessments. Fortunately, it's the same thing, so it won't be a problem for you to pass both assessments at once."

"I came to talk to you about this. After all, you haven't been the Great Hall Master and patrol for long, so you might not know much about the continental tournament. That's why I came to remind you,"

"From now on, you have to be prepared, especially pay attention to the Jia family's movements. Don't let them have the chance to destroy it!"

Some people would think that if he couldn't get them, he couldn't get them either. Luo xingliu was worried that house Jia would retaliate, so he came to warn Lin Yi.

Lin Yi was a little confused. Prepare what? You just told me the name of the tournament and what to do next!

If you don't know anything, what are you even prepared for!

"Hall Master Luo, what's the main form of the continental tournament? What should I prepare?"

Lin Yi decided to take the initiative and ask if he didn't know anything-he didn't want to waste his time pretending!

"You can check the previous years" continental championships and you'll understand. I can't explain it in a short time, but there will be an official notice later. Please take it. "

Luo xingliu didn't intend to explain in detail. He stood up and said,""I still have things to do, so I won't delay any longer. Pay more attention to your side in the Sangzi continent. Seek stability in everything, seek victory in stability! Don't be greedy and advance rashly to avoid falling short of success!"

"This subordinate understands! Thank you for your advice, first hall Master!"

Lin Yi stood up and made a fist salute.

It didn't matter if Luo xingliu's words were useful or not, at least he was really thinking for Lin Yi. Lin Yi appreciated his kindness!

Luo xingliu patted Lin Yi's shoulder and didn't say anything else. He left the continent in a hurry.

Lin Yi sent him off and told Zhang Yiming to get some information about the tournament. It was time to prepare for this tournament.

The sky array sect had spread the news of the Grandmaster battle before it even started, and it became the focus of the public's attention. Now that Lin Yi had returned with a big victory, the news was already known even before Luo xingliu left.

So Lin Yi's reputation in the great land of Sangzi went up another level. His fame was unparalleled and his reputation was like the sun in the sky!

The Jia family had to back off for a while, too, and things in martial Union went much smoother. Lin Yi had an easier time dealing with them, and he quickly finished all the documents.

After coming to Sangzi continent for so many days, he finally had a rare leisure time!

The Jia family was temporarily giving way, the sky array sect was also temporarily dormant, and the martial Alliance had entered the right path. Such days were truly peaceful!

However, Lin Yi didn't idle around. When he had time, he would sort out the spoils of war from the sky array sect's sub-school and leave the resources and wealth to Fei daqiang.

He believed that in Fei daqiang's hands, these things would be able to increase in value and would definitely not lie in the storage bag and become moldy.

Lin Yi, on the other hand, was sorting out the books and materials. He didn't find any useful Secrets of the Sky array sect, but there were some books about carving formation discs.
