

Bodyguard 8761

Chapter 8761

These books couldn't be found on the market at all-they were priceless treasures! Lin Yi was overjoyed when he found them. With these books, he'd make a killing in a life-and-death battle!

After scanning it with his spirit sense, Lin Yi started to study how to make formation disks on the sub Island. He believed that it wouldn't be long before the star source continent had another formation master!

The sub Island and the sky Island had two different systems of formation plate carving, but they still had some similarities.

Lin Yi had this Foundation, and it wasn't difficult for him to understand the sky array sect's books.

Most of the time, when you felt that something was incomprehensible, it was only because you did not understand it.

Once he broke through that layer of window paper, he would immediately have a feeling of enlightenment!

It was like watching a magic show, with all kinds of magic and exclamations. After cracking the magic, you would immediately have the illusion that you could do it!

Of course, after most people understood it, it was just an illusion that they could do it. When the brain thought it could do it, the hand would stand out and tell the brain that they could not do it!

Lin Yi was already an excellent magician when it came to inscribing formation plates, so he wouldn't have any problems with it.

When Lin Yi felt like he could do it himself, he could do it!

The materials needed for the formation plate were all in the Jade space. Because he liked to collect and store useful things in the space when he was free, it was very convenient when he wanted to use them.

It was his first time, and Lin Yi chose the high difficulty.

This was because those basic array discs were of no value and carving them would only be a waste of time. Fortunately, he had a target to refer to this time, so it wasn't that difficult!

The reference point was the formation disk he'd gotten from Chu Yingxian and given to Shi tiancai. Lin Yi had modified it before, so he naturally knew the patterns on it.

After learning how to inscribe formation plates, it wasn't hard to duplicate a formation plate of this level, but Lin Yi's goal wasn't just to duplicate it.

There was no other way to modify the formation plate. He couldn't modify the entire formation plate and could only tamper with some minor parts.

Now that he was using the formation plate's design and layout as a Foundation, he could draw as much as he wanted on the empty plate. The space he could use was completely different.

After spending an entire day and night working on it, Lin Yi's first formation disk on the sub Island was finally completed!

"Not bad! The first time he made a move, the formation plate he carved was already so powerful. A great teacher produces a great disciple! You're indeed a disciple that I've taught myself!"

The ghost was interested in the formation disk as well, and so he'd been paying attention to Lin Yi's progress. The moment he finished, he couldn't help but laugh.

It was a bit shameless to just take all the credit ... Lin Yi's formation skills and disks on the sub Island were all from his own research, and the damn thing didn't help at all.

Lin Yi even had the right to teach the hell out of the sub island's array Dao. It was hard to say who would be the one teaching who.

"Haha, senior ghost is mighty! It's indeed senior ghost's credit that I'm so outstanding!"

Lin Yi didn't expose him, but complimented him.

After all, in terms of formations, it was indeed something that led Lin Yi into a whole new realm.

If it wasn't for that thing, Lin Yi's talent in formations would've been wasted.

The ghastly thing laughed and said a few words before turning his attention to the formation plate. "This formation plate that you've just inscribed looks quite extraordinary. It's much stronger than the one you gave Shi tiancai. Tell me, how powerful is it?"

Without actually activating the formation plate, the thing could only tell that it was extraordinary, but not exactly how extraordinary it was. Only Lin Yi, the creator, knew.

Lin Yi raised the formation plate in his hand and looked at it, satisfied, "Its power has indeed increased a lot. After this disk array is activated, even a complete heaven crushing cultivator will find it difficult to escape."

"Below the great circle of heaven crushing, unless there's someone who has the same level of array Dao as me or even exceeds my level, their life and death can only depend on my mood. If I want them to die, it's basically impossible for them to survive."

He was just so confident and domineering!

"Alright!"

The ghastly thing praised loudly and clapped his hands as he laughed. "Everyone says that array Masters are terrible at combat. But once you reach your level, who says that using an array disc to fight an enemy isn't your own combat power?"

No one could estimate how much destructive power a super expert at the great circle of heaven-cleaving could form, but how many people in the world could cultivate to the great circle of heaven-cleaving?

Super experts of this level could not be mass-produced, but the formation disks that could trap them could!

It wasn't without reason that array Masters had a high status-it was just that normal array Masters didn't have Lin Yi's efficiency. It was common for them to finish a formation disk in a few months or even a few years.

It wasn't as powerful as Lin Yi's formation disks, but overall, it was still much more practical than a practitioner's hard work!

"What senior ghost said is true! Thus, I'm preparing to give these books to Shi longcai and place them in the array Dao Association for them to learn. It just so happens that after the mission of reinforcing the node, all the participants have a chance to take the array Dao Mystic master assessment. "

Lin Yi wasn't just thinking about his own strength now, he also needed to train his subordinates. The more talents he had, the easier it was for him.

The young people of the Association respected Lin Yi and Shi Yucai from the bottom of their hearts, and they were only promoted by a small amount-there was no problem with their loyalty.

If they were trained, they would become a loyal and invincible iron army!

"They won't be able to learn it for the time being. They won't be able to reach the level requirement. At most, they'll be able to familiarize themselves with the basic knowledge."

The damn thing felt that Lin Yi was overthinking things. There were geniuses on the sub-Island, but it was still rare to reach Lin Yi or Shi Yucai's level.

The young people who had entered the array Association from the array Academy didn't have a high chance of becoming diamond-grade array grandmasters in a short time. They could only do so in the future!

The only one who could be trained to form an immediate combat force now was Shi Yucai!

"Teach Shi longcai well. He has the talent and ability to become a Xuan master. When he can inscribe array disks, he'll be able to go out and truly take charge!"

There was not much of a difference between a diamond-grade array Grandmaster and an array Mystic master in terms of their ability to set up arrays, but a Mystic master's combat power was much stronger than a diamond-grade array Grandmaster's.

After all, setting up a formation required time and space, while activating the formation plate only required an instant!

"I understand! I believe Shi longcai will definitely learn how to inscribe a formation plate very quickly and become a true formation Mystic master!"

Lin Yi completely agreed with the ghost's words and immediately sent the sky array sect's books to Shi Yucai, explaining that they were open to the array Association and the students of the array Academy to read for free.

Chapter 8762

However, there was a prerequisite. He had to reach a level where he could learn it!

After this news was released, the young people of the array Dao Association and the array Dao college were instantly jubilant. Even if they couldn't use it now, it was the same. At least they would have such an opportunity in the future.

One had to know that records on formation disks were really too precious. Even the most common basic rudiments were priceless, and there was no place to buy them even if one wanted to.

And these that came from the sky array sect were undoubtedly extremely rare treasures!

After the Jia family learned of this, they felt even more disgusted. In the past, they had roped in talented array Dao grandmasters by relying on the Jia family's array disc manuals, which could give array Dao grandmasters the opportunity to advance to array Dao Mystic Masters.

Now, he didn't need to think about anything. He was done for!

This was because the Jia family's array disc manuals were very basic and shallow things, and could not be compared to the sky array sect's manuals.

If not for that, the Jia family's diamond-grade Grandmaster wouldn't have failed the array Dao Xuan master assessment!

The newly replaced furniture in the master's room had been smashed again. He was really angry!

How precious were records on formation disks? The Jia family's broken things were regarded as treasures and would not be easily spread out. Without enough merits, the family members could not even think about getting a glimpse of it.

Lin Yi's actions were breaking the rules!

How was the Jia family going to play in the future?

"Clan leader, Sima Yi has used the sky array sect's array disc records to win over the hearts of the people. The sky array sect will definitely not stand by and watch. It might be a good thing!"

Jia junren trembled as he consoled, ""Originally, after the sky array sect was attacked by Sima Yi, they would definitely lay low for a long time. Now that Sima Yi has done this, they most likely can't bear it anymore! Let's just sit on the mountain and watch the Tigers fight, and take advantage of the situation!"

The head of the Jia family was stunned. Although he was completely disappointed with this pig teammate of the sky array sect, he had to be convinced of the foundation of the sky array sect!

Perhaps he could still look forward to it?

"What you said makes sense. What other thoughts do you have? let's hear them!"

The head of the Jia family sat down on an intact chair and calmed himself down, indicating for Jia junren to continue.

Now, he knew when to stop smashing things. He would at least leave a seat for himself, so that he wouldn't have to stand when he wanted to sit.

Jia junren sorted out his thoughts and tried to say, ""Clan leader, actually Sima Yi has placed the sky array sect's ancient books in the array Association for semi-public reading. Why don't we send someone to take a look?"

Without a doubt, the sky array sect's ancient books were of a much higher grade than the Jia family's collection, which was regarded as a treasure. In comparison, the Jia family's books might be trash.

Not to mention taking the original for themselves, if they could make a copy, it would be a great benefit for the Jia family!

After all, the Jia family had an existence close to that of an array Dao Mystic master. They only needed such an opportunity to successfully advance!

In fact, Jia junren privately felt that he should be someone who could become an array Mystic master. Although his current level was not enough, he would eventually be qualified to take the assessment.

If the Jia family was still as lousy as they were now, it would be extremely difficult to pass the assessment.

If he could get the sky array sect's ancient books, the success rate would increase a lot!

The head of the Jia family furrowed his brows in deep thought. After a long while, he nodded slightly, "It makes sense, but the problem is that we don't have the manpower to do this! It's impossible for Sima Yi to agree to our clan's entry into the array Association. "

He was a little regretful now-he should've asked some people to help Lin Yi reinforce the node, at least he could've had some people by Lin Yi's side, and the Jia family would have a chance to get the sky array sect's array disc manual!

Unfortunately, it was too late to regret it now. From now on, whether it was the array Association or the array Academy, everyone would see Sima Yi and Shi longcai as idols and people they wanted to follow. The Jia family would no longer have the ability to compete!

Or was he looking forward to those pig teammates of the sky array sect, to see if they could give him a surprise?

The sky array sect didn't let the head of the Jia down-just as Jia junren expected, they couldn't sit still after hearing that Lin Yi had put the formation disc manual in the array Association!

The part Lin Yi took wasn't the most precious part of the sky array sect, but it was still a secret of the sect!

With these secrets, the sky array sect had been able to stand on the sub Island for countless years and develop into a super sect on par with the martial Alliance, a behemoth that even the martial Alliance did not dare to easily turn hostile!

Once the sky array sect's advantage was no longer a secret, how could they stand on the sub-Island?

One day, Lin Yi was in his office, idling his time away when three people arrived at the martial Union headquarters.

Each of them was an old man with an ancient appearance and extraordinary aura. No one could stop them as they barged in.

Lin Yi didn't stop them with his spirit sense, allowing them to break into his office.

"It's great to have friends from afar! It's a pleasure to have an evil guest from afar!"

Lin Yi smiled as he sat still, looking at the three old men. "Who are you three? Are you trying to bully our Sangzi great continent's martial Alliance by barging in like this?"

The old man at the back of the three sneered, "You are Sima Yi? Was he scared silly? An evil guest from afar, aren't you still happy? An evil guest has arrived, I'm afraid you're in trouble!"

Lin Yi shrugged, not minding at all. "No, no, isn't it fun to have friends from afar because we can chat and drink with them! And when an evil guest comes from afar, it's a joy because he can beat the evil guest up and vent the pent-up anger in his heart. Naturally, he's also very happy. "

The old man paused-he thought that Lin Yi was just spouting nonsense, but it seemed like he made sense!

The old man in the lead waved his hand, indicating that they should stop talking nonsense and wasting time. Then he said arrogantly, "This old man is the sky array sect's array Dao Mystic master, Ji bufan! These two are this old man's guards. I'm sure you know the purpose of their visit!"

"So you're from the sky array sect. I know why you're here, you want to apologize to me right? No problem. You don't have to prepare anything, just start!"

Lin Yi played dumb and started taunting, "Actually, if you want to apologize, you can just make a statement. There's really no need to send you old people all the way here. It's so tiring!"

Ji bufan was stunned. What the hell was this? Who said he was here to apologize? Don't you have any fucking idea what you're here for?

If it wasn't for the fact that he was old and could keep his mind steady, Ji bufan would have started cursing!

After slightly recollecting his breath, Ji bufan sneered, "Sima Yi, don't be so unreasonable, you really don't know what I'm doing here? Then I'll be direct!"

Chapter 8763

"You took away our sky array sect's ancient books and records, which are our sky array sect's secrets. You shouldn't even look at them! It's just that the people below are disappointing, and this old man can't do anything about it. "

"This old master will no longer haggle over the previous matter. If you take out all the ancient books and return them to our sky array sect, this matter will be written off. Our sky array sect guarantees that we will not pursue your mistakes. Of course, you must guarantee that there are no copies left and swear that you will never leak the contents of these ancient books!"

"If not, I will be responsible for recycling it. I believe you absolutely don't want to experience the specific process! Alright, that's all I have to say. Hurry up and hand over those ancient books!"

Lin Yi raised an eyebrow, thinking that the old man probably didn't know that he'd given the books to Shi shengcai and put them in the array Association.

If they had known, they would have gone directly to Shi shengcai to ask for it. Judging from their style of doing things, they definitely didn't want to greet him first!

"Are you done? Go back to where you came from after you're done! The ancient books you speak of are indeed in my hands, but they are all my spoils of war, and now the right to them is in my hands!"

"No." Lin Yi rejected without batting an eyelid, "it's my stuff, why should I give it to you?" The sky array sect could come to the martial Union to snatch it? If you really want to snatch it, the three of you don't seem to be enough!"

Ji bufan's face was filled with anger as he snorted coldly, ""Sima Yi, while I'm still talking to you, don't play the fool! The things of the sky array sect will always be the things of the sky array sect. If you want to take them for yourself, have you ever thought of the consequences?"

"This old man didn't explain clearly just now. Listen carefully, this old man is Ji bufan. I'm here to look for you on behalf of the headquarters of the sky array sect in The Burning Sky Star region!"

"Even the Great Hall Master of the martial Alliance from the starsource continent is not qualified for me to speak on equal footing with him. You're just the Great Hall Master of the martial Alliance from the Sangzi continent. Who Do You Think You Are?"

"If you really anger our sky array sect, the entire Sangzi continent can be destroyed with a flick of the finger. Do you want to drag the entire Sangzi continent down with you just for a few ancient books?"

Lin Yi laughed, "funny!" The sky array sect wants to destroy the Sangzi continent? Do you think our martial League is fake? Or does the sky array sect think that under the premise of an all-out war, they can steadily suppress and even destroy the martial Alliance?"

Talk big to scare people? I'm sorry, brother si grew up being scared. This little trick really doesn't work!

Ji bufan gritted his teeth. An all-out war was definitely out of the question. If the sky array sect had the confidence to do so, they would have already overturned the martial League. Why would they wait until now?

"Hehe, you're really a tough bone! With this old man's status, I personally came to ask for something from our sky array sect, and now it's unreasonable? I'd like to ask Luo xingliu if he, the Great Hall Master of the martial Alliance of the starsource continent, knew that his men were so brutal!"

"It's none of your business whether you know or not! Even if Hall Master Luo gives you face, I won't. Who Do You Think You Are? Who are you trying to act like in front of by barging in?"

Lin Yi wasn't scared at all-things that were in his hands were spoils of war, and if he wanted them back, he'd have to trade for them with something of equal value!

To be honest, these books were no longer of any use to Lin Yi. He'd already understood them, and if the sky array sect really wanted to exchange them for something of equal value, he'd give it to them without a second thought!

After they left, Lin Yi would write a manual he comprehended himself, better than the sky array sect 's!

Unfortunately, Ji bufan did not want to exchange it at all. His purpose was clear, he came here to ask for it, so he had to give it to her no matter what!

Being rejected by Lin Yi so decisively, Ji bufan felt a little embarrassed. He thought that Lin Yi would be afraid since even Luo xingliu had to be a little scared when facing him.

But Lin Yi was a pain in the ass, he wasn't scared at all-it seemed like he had to use force!

"Sima Yi, you're refusing a toast only to drink a forfeit! This old man would like to see where you get your confidence from!"

As Ji bufan spoke, he and the two old men behind him released their auras. In an instant, three incomparably huge auras spread out. Even though they didn't make any movements, they gave off a feeling of destruction and trembling!

One was at the peak of the early heaven crushing stage, and the other two were at the middle heaven crushing stage!

Ji bufan was the weakest among the three of them. There was only a difference of one level between the peak of the early stage and the middle stage, but the gap was like a chasm that could not be crossed.

Moreover, he was an array Mystic master, and his physical combat strength was trash among those of the same level. He definitely couldn't compare to the two guards behind him, but it was a pity that neither Ji bufan nor the two guards behind him made any difference to Lin Yi!

He was already in the middle stage of the heaven breaking realm, but he was still someone's guard. It was obvious what kind of trash he was ...

"This old master will give you one last chance. Hand over the ancient records now and this old master will let you live. If you don 't, don't blame this old master for being impolite! At that time, life and death will be determined by fate ..."

Ji bufan directly used his strength to scare Lin Yi. He felt that on the continent level, his peak of the early stage of heaven breaking was enough to crush everything. He didn't even need the two guards behind him to help.

It was obvious that he didn't have enough information on Lin Yi ...

Before he could finish his words, Lin Yi's body flashed, leaving an afterimage on the spot as he appeared in front of Ji bufan.

Lin Yi's image was still in Ji bufan's eyes when he saw a huge fist landing on his face.

Without any suspense, Ji bufan, who was at the peak of the initial stage of heaven breaking, was sent flying with a single punch.

If Lin Yi didn't control his strength, he would've been sent flying out of the room. He only hit the chair at the side and sat down on it awkwardly.

Lin Yi's control of his strength was extremely precise, and the injuries on Ji bufan's face were all real. Those that should be swollen were swollen, and those that should be lost teeth were all gone!

As he vomited blood, Ji bufan was still unable to react. He had been beaten?

Why would a super expert at the peak of the initial heaven crushing stage be beaten up in such a crushing way in a small place like the Sangzi continent?

Not only Ji bufan, even the two heaven crushing middle stage guards beside him could not react in time!

Lin Yi treated them equally without any bias. So, when he sent Ji bufan flying, he also gave the two guards a slap each, sending them to the ground.

After all, it was an office, and it wasn't good to fly around randomly. If he damaged the tables, chairs, and walls, he would have to spend his own money to repair and renovate it. It wasn't worth it!

"What do you want? You're using force in my office? Don't you know that the decorations here are very expensive? Can you afford to pay if you break it?"

Lin Yi patted his hands as if he'd just slapped away three annoying flies instead of taking down three heaven breaking Masters.

Chapter 8764

Although Lin Yi's body refinement level was not as high as Ji bufan and the two guards, in terms of actual combat strength, these three sky array sect trash together were no match for Lin Yi. There was no pressure at all.

So Lin Yi didn't take any further action and only looked at Ji bufan with a smile, "Of course, if you're rich and willing to pay, I don't mind you destroying something. Just don't regret it. I don't want you to be like this time's ancient book, shamelessly asking for it back when it's clearly mine!"

The taunt came at the right time. Ji bufan had just regained his senses when he was enraged by Lin Yi. He took out a formation plate and activated it, "Sima Yi, don't be so smug! We array Dao Mystic cultivators have never been people who determine the winner with our body-tempering strength! Receive my attack!"

The formation plate instantly formed a formation that was enough to trap a middle stage heaven crushing expert, and a faint killing intent was rapidly condensing.

In comparison, it was about the same power as the formation disk Lin Yi had modified in Shi shengcai's hands.

Lin Yi's lips curled up. Was this all the formation disks he had? The sky array sect of The Burning Sky Star region's continent Island seemed to be nothing more than this!

"Do you have any other formation disks? Don't embarrass yourself with this kind of child's play!"

Lin Yi said as he lifted his leg and kicked, breaking the formation plate into pieces!

The speed and speed of a formation plate was indeed a great advantage, but it had its advantages and disadvantages.

The requirements for an array Dao Mystic cultivator to inscribe a powerful array within a square inch were too high, so the power of an array disc was definitely weaker than the array that was set up at the same level.

Not only that, but it was also easier for array Masters to break the formation of a formation plate than the ones that were set up, especially for Lin Yi.

Ji bufan was dumbfounded. Although this formation plate wasn't his strongest one, it could be ranked in the top five.

After all, Lin Yi had just beaten up three heaven breaking Masters at once-he didn't dare to be careless. The formation disk he took out must be of a higher quality.

In the end, such an excellent formation plate was actually broken by a single kick ... Was he dreaming?

His mind was a little overwhelmed, but his hands didn't stop. He instinctively took out a new formation plate and activated the formation inside again.

Array Mystic cultivators were just so willful!

Array disks that were hard to find outside and could be considered a treasure were merely a type of weapon in the eyes of array Mystic cultivators!

This time, Lin Yi was even more direct. He kicked the formation back before it was even fully activated. He probably wouldn't be able to fix it in a short time.

"How is that possible? Is your array Dao already so strong?"

Ji bufan finally reacted. Although he was unwilling, he didn't dare to take out the formation disk anymore. Lin Yi's destructive methods were too scary!

"Heh ... You seem to have misunderstood something. It's not that my array Dao is strong, but your array disc is too weak. It looks good, but it can only scare people who don't know anything."

Lin Yi shrugged, his face nonchalant. "In my eyes, your array disc is full of flaws and flaws. It's too easy to break it. So, it's not that I'm too strong, but your array disc is too weak!"

Ji bufan almost went crazy. How could such a thing happen? No one had ever said that his array disks were weak! You didn't even give the array a chance to run!

"You're talking nonsense! You're not an array Mystic master, so what right do you have to point fingers at this old man's array disc? Wait until you become an array Mystic master and have your own work, then come and talk to this old man!"

Ji bufan knew that Lin Yi was only a Diamond Grade array master, but he didn't expect Lin Yi to become an array master in such a short time.

There were plenty of people who took part in the quinquennial Xuan master examination, and Lin Yi had only gotten the sky array sect's manual a few days ago-how could he have learned it? You can't even joke like this!

Lin Yi then pulled out the formation disk under his suspicious gaze, ""You have the nerve to call those trash formation disks? Open your eyes wide and take a good look at what a real formation plate is!"

Activate!

The brand new formation disk opened with a "ka ka" sound. Lin Yi controlled the range of the formation to a small area on purpose, covering Ji bufan and the other two within!

Ji bufan was shocked at first as he didn't expect Lin Yi to take out a formation disk. But after observing the formation, he relaxed a lot.

"Hahaha, I thought it was some amazing formation disk. It turns out it's nothing more than this!"

It was rather eye-catching when the formation plate was activated and it had indeed made Ji bufan nervous for a moment. However, he now had a sense of confidence, ""Sima Yi, you bragged so much that I really thought you had a rare array disc. What happened in the end?"

"He looks so familiar! If this old man doesn't remember wrongly, when this old man was still young, I had just become an array Mystic master. I traveled to the Sangzi continent and gave a practice array disc to the Jia family's head!"

"Although your formation plate isn't the one I drew when I was young, your train of thought is clearly derived from my formation plate. What a joke! You want to use a copied formation plate to deal with the original creator?"

Lin Yi was a little taken aback-so the formation disk in Shi chengcai's hands was made by this old man?

If it wasn't modified, the standard was indeed very ordinary.

It was ridiculous that he thought Lin Yi's formation plate was his.

Lin Yi's idea of carving formation plates was useful, but the power was way beyond that!

"Ha ... Since you're so confident, then try cracking it! I'll give the three of you a chance, in case you don't even have the chance to break the killing formation. After all, you're guests from afar, and evil guests are also guests!"

Lin Yi smiled and curled his finger at Ji bufan before his body disappeared into the formation.

Ji bufan snorted coldly, "This old man can break a formation of this level with his eyes closed! Do you really think that a pirated version can beat this old man's original? What a joke!"

He confidently raised his hand and pressed down on the position he expected to be a node of the array!

In the end, his hand passed through the air and pressed down on loneliness ...

The node of the formation still existed in his imagination, but in fact, there was nothing there!

Well ... It couldn't be said that there was nothing at all. At least, Ji bufan had successfully triggered the attack of the formation and had beaten him up badly!

Chapter 8765

Ji bufan was caught off guard and instinctively dodged all sorts of attacks. In the end, he did not manage to Dodge many of them and even implicated the other two guards.

As the guards of the sky array sect, they knew a little about arrays, but they could not compare to Ji bufan. When Ji bufan charged at them, they were even more flustered.

If it weren't for the fact that they were strong, and that Lin Yi wasn't planning on killing them, they would've been seriously injured if not dead. They wouldn't be able to move around like this.

Lin Yi was hidden in the formation, deep in thought as he looked at the three people who were in no danger of dying but couldn't escape.

Ji bufan had said that he was from the headquarters of the sky array sect in the continent Island of The Burning Sky Star region. Obviously, he was the superior in charge of the sky array sect in the star source continent.

He just didn't know if there was a higher level sky array sect?

Also, was it the sky array sect from the lower continents or the star source continent that was colluding with the dark Demon beasts?

Was the sky array sect of The Burning Sky continent that Ji bufan represented involved?

It was because Lin Yi wasn't sure if Ji bufan and the others were in cahoots with the dark Demon beast clan that he didn't kill them. At least he left them a way out.

Ji bufan and the other two struggled in Lin Yi's formation for an hour but still couldn't break out.

Although Lin Yi had gone easy on them, it was only right for them to suffer a little, so they already looked like they were in a sorry state!

If this continued, the three of them would probably die from exhaustion!

Lin Yi didn't mind and put away the formation plate, reappearing in front of Ji bufan and the others.

"How is it? You still think that this is a copy of your formation plate? You can't even deal with a formation plate that's been copied from your previous formation plate. It looks like you've been living like a dog all these years!"

Lin Yi's expression was calm, "other people get stronger and stronger as time goes on, but you're regressing!" Sky array sect, are you blind to come out and work for us?"

Ji bufan's face turned red and he couldn't find any words to refute Lin Yi. After all, Lin Yi's words seemed to make sense!

His hair was messy and his clothes were torn. He looked like an old beggar on the street. If he squatted in the corner of the street and placed a bowl in front of him, he would probably earn a lot of money in a day.

Facing Lin Yi's mockery, Ji bufan couldn't refute and he didn't have the face to ask Lin Yi for the book. He flicked his sleeves and left with his two guards!

Since they couldn't beat him, they had to take out the array disc that they were most proud of. If they couldn't even beat Sima Yi in array disc, what was the point of staying?

Hurry up and leave, don't continue to embarrass yourself!

Ji bufan himself felt that he had lost face, so he did not even say a word and left hurriedly with his men.

He had originally thought that the three heaven breaking experts had come to the Sangzi continent to suppress the continent, crush everyone, and easily take back the sky array sect's ancient records.

The result was completely beyond his imagination!

The three heaven breaking experts ran away like stray dogs ...

After the head of the Jia family received the news, his room would probably need to be renovated!

Lin Yi walked out with a smile and waved at the three. "Take care! Come and play again when you're free! It doesn't matter if an evil guest is here, I'm a hospitable host!"

Seeing that the sky array sect was left behind by sun sikong, Lin Yi didn't have enough evidence to prove that the entire sky array sect was rotten, so he still had some feelings for the sky array sect.

Therefore, as long as he didn't cross the line, he could show mercy like today.

But others didn't know that Lin Yi had some relationship with sun sikong. Hearing Lin Yi's voice, Ji bufan and the other two sped up again, wanting to get as far away from Lin Yi as possible!

Again? He must be too free! Was it not enough to be abused once, and he still wanted to be abused?

Unless he had the confidence to win, Ji bufan would never come to the great land of Sangzi to find Lin Yi again!

After the sky array sect returned in defeat, they probably realized that Lin Yi wasn't someone to mess with. For some unknown reason, they didn't send anyone to ask for the books!

The sky array sect shouldn't be afraid of Lin Yi, and Lin Yi didn't think much of it-he was happy to be free, anyway.

After the Jia family received the news, they also began to behave themselves and lay low. For a time, the Sangzi continent had sunny weather and clear skies, entering a rare period of stability.

Lin Yi had gained a firm foothold, and so did Shi shengcai, Tang Yungui, and the others. Everyone was busy accumulating more power in an orderly way.

Time flew by, and it was the middle of the year. In this half a year, Lin Yi used his past experience and started a few operations to clear the dark Demon beasts.

However, the operation did not yield much.

Sangzi continent had a lot of array Masters, and the various nodes had been maintained quite well in the past. The heaven array sect and the darkness demon beast clan's cooperation might really only be on a small scale, so they didn't release many darkness demon beasts.

It was also possible that the Sangzi continent's sky array sect had collapsed, and the dark Demon beast clan, as an ally, had also entered a dormant period, which was why Lin Yi's operation didn't have much harvest.

In any case, the great land of Sangzi was considered stable. If the Jia family could be eliminated, it would really be complete peace in the world!

Lin Yi was leaning against the fence in a Pavilion next to a pond in martial league's garden. He was so bored that he threw some fish food into the pond, watching the koi fighting over it.

The Jia family didn't show up, and there was no excuse to deal with them. The sky array sect had disappeared without a trace, too, so Lin Yi felt that he was too idle these days. He could only helplessly be a salted fish feeding the fish.

"Master, our Academy is about to open a public class. If master has the time, why don't you go and teach those children? They are all master's admirers!"

Shi shengcai and Tang Yungui came together. Seeing Lin Yi's bored face, Shi shengcai immediately smiled and extended an invitation, "The talents of the youngsters these days are pretty good. With master's guidance, we might be able to send another batch of talents to the array formation Association!"

Tang Yungui did not want to be outdone. He was now the president of the alchemy Association and the Dean of the alchemy School. The good-for-nothing he used to be had soared to the sky. "Master, it's the same for our Academy. You can't favor one over the other!"

"Since you are going to the public lecture in the array Formation School, you can also give a lecture in our apothecary school. I have always thought that master's alchemy skills are greater than the array formation!"

He even used the word "great"-he really did respect Lin Yi's pill Dao!

Speaking of which, how could he have imagined that a good-for-nothing who couldn't even form a refinement fire would become a Grandmaster after meeting Lin Yi? he even became the president of the alchemy Association and the Dean of the alchemy School in Sangzi continent!

Chapter 8766

When he was a good-for-nothing, Tianxia College's alchemy sub-college was a Supreme school that was beyond the nine Heavens. He didn't even dare to dream of studying at Tianxia college, but now he was the Dean!

It was like a dream!

Lin Yi poured all the fish food into the pond and clapped his hands, "I didn't agree to go to the array school for public classes, where's the favoritism? Are you two talking to yourselves? do you understand what you've arranged for me?"

Shi chengcai and Tang Yungui looked at each other and laughed. They respected Lin Yi, but he didn't put on too much airs as a master.

Therefore, when they interacted with each other, they would be more casual and not as serious as the other master and disciple.

"I don't dare to arrange anything for you, master. It's just that I feel that martial League has been peaceful recently, and we're far from having enough manpower, so I'd like to ask you to train some new blood to join us."

Shi shengcai was speaking from the bottom of his heart-Lin Yi had free time, so going to open a public class was a sure win!

He was a Master Teacher himself. Back then, a single lecture from him had nurtured the vast majority of the elites in the array formation Association. He had already become a legend in the array formation Academy.

But Shi tiancai didn't think that Lin Yi's teaching level would be any lower than his.

And Lin Yi's style was a little different-in the past half a year, Shi shengcai had been attending a lot of classes in the school, but the best seedlings had broken through in the first batch. It was as if they had an antibody now, and although the effect was good, it wasn't as amazing as it was at first.

If it was Lin Yi who went to class, it might have a miraculous effect. Shi chengcai had been planning this for a long time, and it wasn't a sudden idea today!

Tang Yungui didn't think too much about it, but he was impressed by Lin Yi's teaching ability and tried to sound him out, hoping that he would agree.

Lin Yi didn't reject the offer-he had nothing to do anyway, and it wasn't a bad idea to go to class.

"Fine, then I'll go and teach a lesson! Just let me know after you've made the arrangements!"

Shi shengcai immediately smiled and said,"master, I've already made the necessary arrangements. I'm just waiting for you!" The students are looking forward to it and are ready to fight for the seats in master's public class at any time. Why don't we go now?"

"You're planning this all along, aren't you?"Lin Yi chuckled." You were sure I'd go with you, weren't you?" Alright, alright, alright, then let's go over now! Tang Yungui, don't tell me you've already made arrangements?"

Tang Yungui laughed and said, "master, I'm obviously late. I haven't made any arrangements yet!" But it doesn't matter, once the public lecture is over, our pill refining school will be ready!"

With Shi longcai acting as a buffer, Tang Yungui was not in a hurry.

And so, the schedule was set. Lin Yi would go to the array school first, and then the alchemy School, each having a public class that would last for four hours.

Treat everyone equally ...

The news of Lin Yi's public class had already spread, and as Shi Yucai had said, all the students and even the instructors were fighting for seats!

Shi tiancai's public class had been too amazing, so they were full of anticipation for Sima Yi, who was rumored to be stronger than Shi tiancai.

After all, this was the master of Shi tiancai, who had created a miracle!

The array path College's largest public classroom was packed with people. A seat was squeezed with two people because these two people were too fat. The normal operation was to squeeze in at least three people!

Seeing this scene, Shi shengcai broke out in a sweat. He thought to himself, I didn't know there were so many people in the array Dao college!

There seemed to be quite a few students from other Academies who had sneaked in ...

What are these guys doing here? If he wasn't from the array Dao college, why was he here for an array Dao public class!

Lin Yi was a little surprised at the scene-he didn't think he'd be so popular!

"Master, there are quite a few students from other Academies here. For the sake of class order and environment, can this disciple first ask these people to leave?"

Shi shengcai was worried that the class would be less effective, so she asked Lin Yi in a low voice.

Lin Yi smiled and waved his hand, "there's no need. If they want to learn, then just listen. You're a mentor too. You should understand that there's no difference in teaching."

"Yes, this disciple will accept your teachings!"

Shi shengcai bowed slightly and didn't mention chasing him away again.

"Hello everyone, I'm Sima Yi. I've been invited by your Dean Shi to come over and give a public lecture to everyone. I'm very happy to see that everyone is full of enthusiasm for learning ..."

Lin Yi went up the stage and started off with a few words, immediately drawing a tsunami of cheers!

Counting from Fengqi Dazhou, Lin Yi felt like this was the first time he surpassed Shi Yucai in terms of numbers.

After a bit of small talk, Lin Yi got to the point. "The Dao of heaven takes away what's more than enough. The Dao of formation imbues a little to give birth to all things!"

Enlightening the sect's principles and going straight to the main topic, starting from the Tai Chi giving birth to the two elements, the two elements giving birth to the four images, and the four images turning into all things. It was related to the arrangement of the formation, explaining in depth and in simple terms, and pointing directly to the great Dao.

Lin Yi's theory could be applied to anyone who studied formations, be it an apprentice or a Grandmaster.

Everyone's comprehension was different, and there were higher and lower levels, but it was undeniable that Lin Yi really did teach everyone without discrimination. It was rare for both elementary and university students to learn and understand something from a single class!

Two hours passed in the blink of an eye, and Lin Yi's class came to an end. Everyone was intoxicated, feeling that they'd learned a lot.

If he were to take the assessment now, he would probably be able to advance a few small levels. As expected of Dean Shi longcai's master, he was too awesome!

"There's still an hour left for everyone to ask their own questions. If you have any questions, you can ask them and we'll discuss them together!"

Lin Yi's class wasn't just about filling in the knowledge to the students-interaction was also an important part!

As soon as he finished speaking, countless arms rose up from below, as if a forest of arms had suddenly grown out.

Lin Yi scanned the room and pointed at a young mentor in the front row."The first question will be given to this mentor. Let's listen and see if this is the same question that you have in your heart."

The questions from the mentors were usually more representative-it didn't matter if they were difficult or not, Lin Yi was confident that he'd be able to answer them easily, and the other students would be able to learn from them.

The young mentor stood up excitedly and bowed to Lin Yi."Thank you, Grandmaster Sima, for giving me such an opportunity! This student has just advanced to bronze rank master, and would like to consult master Sima on the knowledge of compound arrays!"

"Every time I try to combine the array, I can't continue at all. It always causes the array to collapse at the very beginning. I wonder if Grandmaster Sima has any way to guide me?"

Chapter 8767

After becoming a Grandmaster, one would begin to research compound arrays. This was a necessary process.

However, many people were unable to enter and were stuck at the bronze Grandmaster level for life.

Lin Yi smiled and nodded, "it's not that hard, but it's not that simple either!" We all know that our bodies have yin and yang and five elements. Only when yin and yang are balanced and the five elements are balanced can the body be healthy and strong. Once there is a problem with one of the links, the body will immediately fall sick. "

"A formation has a perfect balance of Yin Yang and five elements. A complex formation is to combine at least two different systems of Yin Yang and five elements together and achieve a balance!"

"Many grandmasters who have just come into contact with compound formations will often misunderstand and think that only by combining two formations together can a compound formation be formed. However, doing so is like trying to combine two different people into one, making it as difficult as that."

"The correct way is to use one formation as the main body and use it as the foundation of the five elements of yin and yang, just like a human's trunk. Then, you can use the other formations as your limbs and attach them to the trunk, transforming them into the other elements of the five elements of yin and yang."

"In this way, the complex formation can naturally become one, and its power will be multiplied! To put it simply, compound formations must be divided into primary and secondary formations. Not all formations have the same status. "

"With one main formation, the rest of the formations can be integrated into it to form a balance. Naturally, a compound formation can be formed. After you understand this, it will be much easier to set up a compound formation."

"It's not just a compound array, it's the same for ordinary arrays. The more balanced an array is, the more perfect it is, and the more power it can exert. Two people set up the same array, so why is there a situation where one is stronger and one is weaker? It's because of balance!"

.....

Lin Yi expanded on the topic and explained it in simple terms, using some of the most basic formation principles to explain. Everyone felt like they were enlightened.

After the lecture, the mentor and the others all bowed deeply to Lin Yi.

It was a gesture of gratitude from a student to their teacher, and it was clear that Lin Yi had completely won them over.

There were also some Jia family members mixed in, and they entered the school through the proper channels. Even if Lin Yi wanted to target the Jia family, he wouldn't kick them out.

As much as they admired Lin Yi, they still wanted to make things difficult for Lin Yi because of their family's benefits.

However, there was a limit to the Jia's young men's skill level-not even their best grandmasters could do anything to Lin Yi, and they knew what they were capable of.

Therefore ... Fighting for the clan's benefits was the most cost-effective choice!

A student from the Jia family stood up and cupped his hands in obeisance. He asked respectfully, "Grandmaster Sima, I've heard that you have a way to stack arrays. It's very different from compound arrays, and its power is also extraordinary. I wonder if you can teach me a thing or two?"

The layering formation wasn't unique to Lin Yi. Shi Yucai had learned a bit from the source of formations, which proved that the sub-Island had the same layering formation inheritance, but the depth couldn't be compared to Lin Yi or the damn thing.

He didn't know where the kid got the news from, but he wanted Lin Yi to teach him some of the layering formation's secrets so he could at least give the Jia family some benefits.

Lin Yi didn't mind-he'd never keep anything to himself when it came to formations.

Stacking formations weren't a secret, after all-it was something Lin Yi and the damn thing had learned during their adventures, and it might be a good thing to spread it around.

"Of course, no problem! "It's just that the layering formation has a high requirement for the method of setting up the formation, even higher than that of compound formations. Everyone can understand it. As for cultivation, it's still decided by individual strength. Don't force yourself. "

"Layering formation, as the name implies, is to layer one or more layers of formation on top of the original formation. It sounds similar to compound formation, but it's actually not the same."

"As I said earlier, compound formations are a body formed after the main body and the four limbs achieve balance. The final goal is the perfect one, while overlapping formations are to continue to overlap more bodies on top of a single body. The final goal is to activate countless bodies at the same time."

"For example, the layering formation is like a person wearing leather armor, armor, helmet, wrist guards, knee guards, and other protective equipment. He also has to hold a bow, arrows, knives, Spears, and other weapons and equipment in his hands."

"The amount of equipment you can bring depends on how capable the person is. In other words, it depends on how many layers of formations the most basic formation can withstand!"

"If you want to stack the spell formations, you must first set up the spell formations with precision. Speed is also the key. You must reach a balance in the shortest amount of time possible. If you are too slow, the spell formations will collapse directly!"

"In terms of power, the layering formation might not be stronger than the compound formation, but its difficulty is not any weaker than the compound formation. Of course, if you can get used to it quickly, you can set up the layering formation faster than the compound formation in a battle. This can be considered an advantage."

Lin Yi explained the layering formation casually, and then started teaching some basic techniques and tips in detail.

The person who asked the question couldn't help but admire Lin Yi. This precious knowledge was a secret that only the core disciples of the sky array sect could learn, and Lin Yi just revealed it like that. He was a man with a big heart.

Another Jia student wasn't satisfied with the benefits, and stood up to speak after Lin Yi said the basics. "Great Hall Master Sima, this student is a member of the Jia clan. I heard that the martial Alliance is currently targeting the Jia clan, so it's impossible for our Jia clan members to enter the array Association again. Is this true?"

In the school of arrays, everyone was very conscious of calling Lin Yi Grandmaster Sima, but this kid started off with Hall Master Sima. It was obvious that he was up to something.

Shi longcai's expression darkened. It seemed that letting the Jia family's students continue to stay in the Academy was a little too merciful. After today, would it be better to get rid of all the Jia family members?

In any case, the two sides were already close to falling out, so why should he care about these details?

The kid who stood out to cause trouble wasn't grateful at all. Not only did he think it was natural to stay in the school, but he even thought that Lin Yi and Shi chengcai owed him!

"Master ..."

Shi chengcai was about to say something but was interrupted by Lin Yi.

Lin Yi looked at the young man from house Jia and smiled, "Who told you that? I have never given such an order!"

Chapter 8768

Since he wanted to talk to the hall Master as a member of the Jia family, Lin Yi didn't mind using his status as the hall Master.

"Everyone in the Sangzi continent knows that the formation Masters and formation Masters of the Jia family collectively went on strike during the task of reinforcing the node. They ignored the safety of the continent and tried to use this to force me to retreat!"

"Under this premise, I had no choice but to send President Shi longcai to serve as the Academy's Dean and select suitable candidates from the students to join the association. In the end, they managed to complete the reinforcement and maintenance of the node within the deadline.

"At that time, the array Masters and array Masters of the Jia family all stood by and watched, even withdrawing from the array Association. Can I still use such people?"

Lin Yi's tone was calm, without a trace of aggression.

There was no need to be so aggressive to a young man, but even such a plain question made the young man sweat profusely.

At the end of the day, it was indeed the Jia family's fault!

Ordinary people might not know much, but the array Dao college was different. Hundreds of students had joined the array Dao Association after advancing, so they knew the ins and outs of this matter.

The question he raised was really asking to be humiliated!

Lin Yi didn't care about the others "mockery and disdain towards the Jia family students. He paused for a moment before continuing, "I have never minded the wise men of the Jia family continuing to serve the humans!"

"Our common enemy is the darkness demon beast clan. If we still have internal strife while facing this human's great enemy, then what future does the Sangzi continent have?"

"Those array Masters who have no humanity in their hearts, the stronger they are, the more dangerous they are. If they leave, this Lord will not let them return! But you guys are different, as long as you have the determination to fight for humanity, the array Dao Association will always welcome you! I'll also have high hopes for you!"

Lin Yi showed the magnanimity of a first hall Master, and the students were embarrassed, but their blood was boiling-they felt that the elders of the family were old-fashioned!

As a human, the first thing he had to deal with was the darkness demon beast clan. What kind of ability was it to engage in internal strife?

"Don't worry, Grandmaster Sima! We're willing to fight for humanity, to protect the Sangzi continent! Grandmaster Sima, please have high hopes for us!"

Another Jia family student waved his fist in excitement. No matter what, as long as he could enter the array formation Association, it would be a great thing!

At the very least, when one's strength reached the threshold, they would have the opportunity to borrow the array disc manuals of the sky array sect! This was a secret technique that even the higher-ups of the Jia family were coveting!

Lin Yi smiled and nodded at him-since the Jia family wasn't going to come out, it wasn't a bad idea to try and pull in all of the outstanding members of the Jia family!

After they were nurtured, it was hard to say who they would be loyal to. However, as long as there were people willing to fight for humanity and run around for the martial Alliance, cracks would definitely appear within the Jia family, and turmoil would follow!

He didn't even care if the Jia family got their hands on the formation disks or anything!

It was placed in the array school for people to learn. If they had the ability to learn, then they should learn!

It wasn't like reading the books meant that one could engrave a formation on a formation plate. Even a genius like Shi Yucai, with Lin Yi's personal guidance, spent two to three months to get started and engrave a formation plate that could only trap mid-stage sea shattering realm Warriors.

In terms of formation disks, Lin Yi's talent was unparalleled!

Perhaps it had something to do with the fact that he'd studied the sky-class island system's formation plate inscribing before, so he could draw inferences from it. But compared to Shi Yucai ... There was indeed a world of difference in their level of excellence!

Who in the Sangzi continent had more talent than Shi shengcai? No!

Lin Yi was very sure of this, so he didn't need to worry. Even if someone in the Jia family learned the sky array sect's books and made a few array discs, they wouldn't be enough for Lin Yi to kick!

The students of the Jia family didn't know what Lin Yi was thinking, but they all thanked him.

The others were even more in awe of Lin Yi's magnanimity, treating him as their idol and almost prostrating themselves in worship!

So when Lin Yi's public class ended, everyone sent him off on their own accord, and when Lin Yi said that they didn't need to, and that they had to go to the public class, they all ran to the alchemy School!

His idol had classes? Hurry up and grab a seat! Who said that array path students couldn't attend pill refining classes? So what if I'm happy!

Lin Yi was dumbfounded as he watched the dust cloud disappear into the distance.

Shouldn't you go back and do closed-door training to consolidate your knowledge? Why the hell did they all run to the alchemy School?

Do you still have any ambition?

Shi shengcai was a little embarrassed and laughed dryly. "Master's reputation is too great, and these kids are very motivated, so it's normal for them to want to listen. After all, I'm also considered a double cultivator of array Dao and alchemy, and master is even better in array Dao and alchemy Dao. Under their worship, they also want to advance on both paths, right?"

Lin Yi's mouth twitched at the explanation-he was just wondering if they had any motivation, and here they were ... Unfilial disciples, were they trying to piss him off?

"Forget it, let them be! If they want to listen, then let them. But if they go over now, I guess they can only squeeze in outside the window ..."

Lin Yi felt that the array path school's Grand occasion would most likely reappear at the alchemy School- these guys were dreaming if they thought they could fight for a spot with the home field advantage!

It was indeed the case-Lin Yi and Shi chengcai were blocked outside the biggest public classroom in the school ...

This head count, it felt like all the students and instructors of the entire Tianxia college were here? Just now, the array path school didn't make it in time, but now they all rushed to the alchemy School.

Tang Yungui had not expected his master to be so popular. He had no choice but to move the venue from the classroom to the public square of the alchemy School.

This time, the students who were snatching seats in the classroom were dumbfounded. One by one, they wanted to rush out, wailing like ghosts and howling like wolves ... They couldn't enter, so why could they come out?

How proud he was just now was how sad he was now!

Fortunately, Tang Yungui had forcefully carved out the best space in the square for the students of the alchemy School. He had invited his master over to teach the students of the alchemy School. If others wanted to listen, they could just sit aside obediently.

A dove occupying The Magpie's Nest? I'll even break your legs!

The students of the apothecary school who had finally left their classrooms and arrived at the public square were so excited that they nearly burst into tears. One by one, they began to shout out words like 'the Dean is wise' and began a new round of seat-snatching!

Tang Yungui did not care about the internal competition in the alchemy School. The meat was still his. They could play with it however they wanted.

Chapter 8769

After some friendly and unfriendly fighting, everyone finally got a seat and sat down cross-legged, waiting for Lin Yi's class.

Lin Yi went up to the simple stage and looked at the heads on the square. He couldn't help but sigh-this was the concert of a popular singer in the secular world.

"Hello everyone, I'm Sima Yi ..."

As usual, he gave a simple opening speech, which caused a cheer from the audience.

Lin Yi gestured with both hands, and after the cheers died down, he got to the point.

"The Dao of heaven damages the surplus to make up for the deficiency ..."

Those who had just attended the array path school's class couldn't help but blink their eyes. They felt that it was quite familiar, thinking that Grandmaster Sima was going to talk about array path again?

Lin Yi, of course, wouldn't talk about formations anymore-he was her master, but he wasn't that old.

"...The Dao of alchemy, gather a hundred spirits into a furnace, and fuse the essence spirit to form the pill ..."

"... The foundation of elixir refinement lies in the elixir fire. The quality of the elixir fire is enough to determine the success or failure of an elixir refinement. No matter how good the ingredients are, without a good enough elixir fire to melt them, they will only turn into residue in the elixir furnace!"

"So, how to condense the best pill fire is a very important thing for an Alchemist. Today, let's talk about the knowledge in this area."

Lin Yi started off by talking about how to form the refinement fire, which was the most basic thing. Anyone who studied elixir refinement and wanted to become an apprentice Alchemist had to be able to form the refinement fire.

But no one thought that Lin Yi's explanation of the refinement fire was too simple.

The simpler the foundation, the more important the factor.

Everyone in the audience, regardless of whether they were students from the alchemy division or not, paid close attention to Lin Yi's class.

As expected, Lin Yi didn't let them down. Even the most basic refinement fire was explained clearly and directly!

In particular, the techniques and skills he displayed moved everyone.

The instructors and students of the alchemy division followed Lin Yi's explanation subconsciously, trying to form the refinement fire. Those who weren't from the alchemy division but were interested in alchemy also tried.

For a moment, alchemic flames appeared everywhere in the square, accompanied by all kinds of surprised and shocked exclamations.

"Heavens! Grandmaster Sima was too awesome! The purity, temperature, and power of my alchemic fire have all increased by at least one grade. No, no, it should be more than two grades!"

"Me too! I've always thought that my alchemy fire technique had reached the peak, and the quality of my alchemy fire had reached the limit at my current stage. I didn't expect that after listening to Grandmaster Sima's words, I'd realize that I'm just a frog at the bottom of the well!"

"Hahaha! I can also condense a pill fire! Can I also become an Alchemist? I ..."

The cheers were getting louder and louder, and Lin Yi had to stop the class for a while to let the students vent their joy!

The majority of the people here had nothing to do with alchemy-they were here because of Lin Yi's status and name, just like normal people chasing after their idols.

He wasn't a fan of celebrities, but it was normal for him to go over to see what was going on when a celebrity was doing an event.

In the end, many of those who didn't have the talent to become an elixir refiner subconsciously tried to do it after listening to Lin Yi's method of refining the refinement fire, and more than half of them actually succeeded!

It was simply unimaginable!

It wasn't an exaggeration to call it a miracle!

Although being able to form the fire didn't mean that he could make elixirs, just like the old Lin Yi ... At least he had the qualifications to enter the door!

"It seems that everyone's comprehension ability is quite outstanding, and your understanding of alchemy fire is extremely deep. Next, I will continue to talk about the techniques and methods of using alchemy fire ..."

Lin Yi waited for the cheers to die down a little before continuing with the class. This time, many people realized that they had the potential to become a refiner.

Tang Yungui even received hundreds of applications on the spot. They did not care if they were qualified to enter the alchemy School. They just wanted to try.

If they couldn't get into Tianxia college, they would try to go to other alchemy colleges. In the past, they felt that they didn't have the talent, but now that they had the chance, they had to try no matter what!

The news of Lin Yi's public class at Tianxia had already spread, and the people of Sangzi Dazhou were very curious about Lin Yi.

This double Grandmaster, who was both the Great Hall Master and the patrol envoy of the Sangzi continent's martial Alliance at such a young age, was simply a legend.

Especially after Lin Yi came to the great land of Sangzi for only half a year, he suppressed the sky array sect and Jia zhetian, becoming the strongest force in the great land of Sangzi. He made the sky array sect hide from the world and the Jia family hide.

It was just that the people of Sangzi continent didn't have the chance to see Lin Yi usually, and no matter how curious they were, no one dared to go to martial Union's headquarters to peek. Now that they heard that Lin Yi was having a public class at Tianxia college, some people immediately called their friends over to watch the show.

After all, the world College was different from the headquarters of the martial Alliance. Their control over outsiders was much more relaxed. It was a rare opportunity to watch a legend. In addition, people

had the mentality of following the crowd. In an instant, the world College welcomed wave after wave of people.

When they found out that Lin Yi's lectures could help people who didn't have any talent in alchemy to condense and even control the refinement fire, and step into the threshold of alchemy, the crowd went crazy!

Everyone hastened their pace and gathered at the public square of the alchemy School.

No matter how big the square was, it couldn't hold so many people. The people at the back couldn't hear what Lin Yi was teaching, and they started clamoring.

It was unforgivable to miss such a good opportunity!

In order to get closer to Lin Yi, small scale riots started.

A storm was about to start, and Lin Yi noticed it in time. He set up a sound amplification formation and used his elemental Qi to increase the volume, and the sound traveled far and wide.

It wasn't just the alchemy School, the entire Tianxia school could hear Lin Yi's voice.

The sunrise Sub-Island version of the campus broadcast was officially online!

"Friends outside, please don't be restless. If you want to listen to the class, please listen quietly and don't affect others! If there's anything you don't understand, you can come to the alchemy School and apply to Dean Tang Yungui. Dean Tang will assign someone to answer your questions!"

Lin Yi left the trouble to Tang Yungui while he was comforting the crowd.

There was no way Lin Yi would be answering the questions of the public himself-he couldn't stand days like this!

Tang Yungui would arrange for people to answer questions and also cultivate the students' ability to guide. It was killing two birds with one stone. Why not?

Lin Yi's voice silenced the crowd-it was a pity that they couldn't see him clearly from so far away, but they were satisfied with just hearing him!

Chapter 8770

They didn't hear the theory of the refinement fire at the start, but Lin Yi's lecture at the end still made them feel like they were already good at it!

... He was only missing a pill fire! This was not a problem!

No matter if they were professionals or not, they all knew how precious the skill was!

In a sect, it was a secret that couldn't be passed on, but Lin Yi was telling it to everyone here!

This kind of breadth of mind and bearing deeply impressed the people of the Sangzi continent, and they were proud of having such an outstanding and benevolent first hall Master and patrol!

"Thank you for your lesson, Grandmaster Sima! Your student is extremely grateful!"

When Lin Yi finished, the students from the alchemy School led the way as they all bowed to the platform in the square.

It didn't matter how many refinement Masters Lin Yi could create in this class, everyone who received Lin Yi's class would willingly treat him as a mentor and treat him with respect as a student.

Of course, the students in the alchemy division were Tang Yungui's students, which meant that they were Lin Yi's Grand-disciples, so it wasn't a bad thing to be polite ...

After receiving the news, the head of the Jia family fell silent. His entire person fell into a strange silence, and he no longer had the anger he usually had when smashing things.

Jia junren, who came to inform them, was puzzled. After a while, he asked carefully, ""Clan leader, do we need to do anything about Sima Yi's actions? He's obviously trying to win over people's hearts. In the long run, the Sangzi continent will really fall into his control!"

"Once Sima Yi completely controls the great land of Sangzi, our Jia family's situation will be even more difficult! No matter what, we have to think of something!"

The head of the Jia family coldly glanced at Jia junren, ""You tell me, what's the solution?"

Jia junren was suddenly at a loss for words. If he had a way, he would have said it out loud! Would he have waited until now?

He'd suffered so much before, and now he had some trauma towards Lin Yi-he didn't dare give suggestions easily, and had to be safe!

"Sima Yi used the public lecture this time to win over the hearts of the people, and he used precious secrets that are not to be passed on. He spent so much money to win over the hearts of the people in an open and aboveboard manner, what can we do?"

The head of the Jia family was expressionless, and no one could tell what he was feeling. "Don't tell me you want our Jia family to take out our own secret and go out and spread it out, to go against Sima Yi?"

Damn it, even if the Jia family was willing to go all out, the people outside probably wouldn't appreciate it!

This was because the things that Sima Yi had casually thrown out were of a higher level than the Jia family's Secret techniques ...

This was no fun! If it weren't for his status, the head of the Jia family would've gone to Lin Yi's class himself!

Aggrieved!

Jia junren was speechless. He also understood where the problem was, so he wanted to take back what he had just said. In short, from the current situation, he could not do anything to Sima Yi ...

He had no choice but to continue to lie low. The Jia zhetian from back then had already been stabbed through the sky by Sima Yi. What happened next was not something that he, Jia junren, could worry about!

If the sky collapsed, there would be someone tall to hold it up. If the Jia family was going to collapse, there would also be the family head to think of a way!

Lin Yi, on the other hand, didn't know that the two public classes he'd attended had unexpectedly hit house Jia's confidence hard.

If he had known earlier, he would have gone to the Academy earlier to give a few more lessons!

"Master, the results of yesterday's public class were very good. There were quite a number of people who broke through to the next level. I feel that if there is a chance in the future, I can come to the Academy to attend more classes!"

Shi yungcai and Tang Yungui came to Lin Yi the next day. Shi yungcai was the first to speak, "According to our array Formation school's statistics, basically everyone's array formation strength has increased by at least one level. There are also many with high comprehension that have directly increased by two to three levels. It's just that they haven't taken the assessment yet."

"Once the assessment starts, our array path school will have a sudden surge of talents. The only pity is that their original levels are too low. For now, there aren't many people who have broken through to Grandmaster. Most grandmasters are still part of the mentor community."

"Even so, the harvest is still huge. In the future, if there's a need for Grandmaster manpower, the teachers of the Academy will definitely follow master's lead!"

On the other side, Tang Yungui also nodded in agreement. "That's right. The situation with the disciples is similar. Many of the students in the Academy have broken through. The outstanding ones have been absorbed into the alchemy Association as new blood."

"In addition, there are many people outside of the Academy who have discovered that they have the potential to learn alchemy and become alchemists. They want to apply for admission. It just so happens that a group of people from our Academy has joined the Association, so I would like to discuss with Dean Zhan Xiongfei and take in a group of people as new students."

Tianxia college was the best college in the entire continent. Not just anyone could enter. Although Tang Yungui was the Dean of the alchemy sub-college, he could not take in too many people at once.

It would be fine if it was just a few, but if it was more than two digits, he would need Zhan Xiongfei's permission. Tang Yungui had to ask Lin Yi's opinion before going to Zhan Xiongfei.

Lin Yi thought about it and replied noncommittally, "You can discuss this matter with principal Zhan. As long as your identity is clear, it doesn't matter if you accept some."

"But you'd better be mentally prepared. These people have not shown their talent before. Even if they have the qualifications to learn alchemy now, they may not really become successful. After all, there is only one Tang Yungui in the world. You can't expect more people like you to appear."

Lin Yi understood Tang Yungui's thoughts. Tang Yungui used to be a good-for-nothing who couldn't even form an alchemy fire in the Fuyao alchemy college. How similar was he to the person who applied to enter the college this time?

He wanted to push these people into the Academy not only to attract new blood, but also to help these people who had similar experiences as him.

It could be considered a kind of feeling!

Lin Yi understood and didn't stop him, but he reminded Tang Yungui that he was different from the others.

After all, it was not that Tang Yungui could not refine an elixir fire. It was because he was born with the spiritual fire of heaven and earth. All the refined elixir fire became nutrients for the spiritual fire of heaven and earth at the most original time.

The people outside could not form the elixir fire either because of their talent or because they lacked guidance. They were completely different from Tang Yungui.

In theory, even if they were to enter the academy, they would only end up as some apprentice alchemists or low-to mid-grade alchemists.

If he wanted to go higher, he'd have to have a master like Lin Yi to personally guide him. Only then would he have a chance!
