

Bodyguard 8771

Chapter 8771

Tang Yungui understood what Lin Yi meant and agreed respectfully.

He didn't mean that he had to find a few people who were like him. He simply felt that he had the same experience and he had the ability now, so he wanted to help.

If they could really recruit a few geniuses, it would naturally be a pleasant surprise. But even if they didn't, it didn't matter. After all, it was just the apothecary school accepting a few students.

In the future, if the alchemy Association was short of manpower, it would be a good choice to recruit them to use the automatic alchemy furnace to refine low-grade and mid-grade elixirs.

The matter was settled. Lin Yi and Tang Yungui didn't mention much. The Master and Disciples talked about other things. Shi wangcai and Tang Yungui asked Lin Yi some questions and then everyone left.

Another two days passed, and the starsource continent sent a notice, ordering Lin Yi to report to the continent and participate in the competition.

The starsource continent was where the headquarters of the martial Alliance was located. It was named after the starsource continent and was equivalent to the capital of the starsource continent.

When people from the other continents mentioned the martial Alliance of the starsource continent, they were basically talking about the starsource continent.

Since the martial league's headquarters and the inspection department were all located on the Xingyuan continent, its strength and prosperity naturally far surpassed other continents.

Just like how the secular world was divided into first-tier, second-tier, and third-tier cities, the starsource continent was a proper first-tier continent.

In the entire starsource continent, Sangzi continent could only be considered one of the top three-tier continents, and its reputation was not high.

However, Lin Yi's status was different. He was both the martial Alliance's Hall Master and the patrol Department, and the debriefing notice he received was sent out separately by the martial Alliance and the patrol Department. Compared to other continents' Hall Masters or patrols, he was definitely more reputable!

Since there wasn't much going on recently, Lin Yi made some simple arrangements and delegated the tasks to Shi tiancai, Tang Yungui, and the others. He himself took Fei daqiang and headed to the starsource continent.

After being teleported there, he went to the inspection department first because it was closer and he hadn't seen Jin botian in a long time.

The guard didn't know Lin Yi's status as the Vice Dean and thought that he was just a normal inspector. He stopped Lin Yi politely, "I'm sorry, the work report for the inspection department will only start tomorrow. Dean Jin and the other associate deans are not here today. "

"Sangzi Dazhou's ... Patrol envoy Sima, please go to the inn to rest for a night. Tomorrow, someone will come to invite all the patrol envoys over. The relay station is to the left of our patrol house. If you follow this road, you'll reach it after turning right and then turning left. Please forgive me for turning around due to my duty, and I can't bring patrol Sima there. "

"The relay station has already been arranged by our inspection department. Any patrol who comes to report on their work can stay there for free, and the food has also been arranged. If patrol Sima is not used to the food in the relay station, you can also go out for a stroll. Our starsource continent has a wide variety of food, and there will definitely be one that suits your taste."

The guard rambled on and on, and other than not letting Lin Yi in, his attitude was pretty good!

After all, Lin Yi was the patrol of a continent, a true border official. No matter how much he was from the headquarters, he was just a guard, and didn't dare to offend people.

"Alright, thanks for the reminder!"

Lin Yi nodded with a smile and thanked him before taking him to the station.

The inspection department's debriefing was tomorrow, and the notice mentioned that Lin Yi had come early to meet Jin botian, but he wasn't there.

It was the same for martial League-today wasn't the day for a report, and Luo xingliu and Lin Yi were only acquaintances. They weren't close enough for him to visit Lin Yi in advance, so he decided to just leave them be for now.

The inn wasn't far from the patrol house-it only took two turns to get there. Lin Yi had arrived a day earlier, so he wasn't too early or too late. There were already patrols from other continents staying in the inn, but it wasn't too crowded yet.

"I'm Sangzi great continent's patrol envoy, Sima Yi. I'm going to report to the patrol Department tomorrow, and they told me to stay here for the night. "

Lin Yi saw the manager and raised his hand, "Do you need me to do any procedures?"

The manager smiled as he walked up to Lin Yi and bowed. "So it's patrol envoy Sima, Welcome Welcome! There's no need to go through any procedures, just checking the identity token of the patrol envoy will do. "

Lin Yi nodded and took out the Sangzi continent's inspector's token for the manager to see. He was still thinking that the inspection department had arranged everything well.

After the steward confirmed that there was no mistake with the token, he became even more respectful. "This way please, patrol envoy Sima, your room has already been arranged."

Lin Yi kept the token and nodded, not thinking much of it. He assumed that the inspection Institute had arranged rooms for the inspectors of every continent.

Lin Yi only brought Fei daqiang with him on this trip, so he didn't have many requirements for accommodation. Even if it was just a superior room, the two could share it.

In the end, the place the manager brought Lin Yi to was actually a large courtyard. It had an exquisite and beautiful courtyard with pavilions, fake mountains, ponds, and weeping willows. It was as beautiful as a painting!

In addition, the rooms were large enough to accommodate 20 to 30 people. There were also separate study rooms, kitchens...Everything was well-equipped, and the decorations were low-key and luxurious. If they charged money, one night would definitely be a lot.

"Patrol envoy Sima, this is where you will be staying. If you are not satisfied with anything, you can come to our relay station at any time. We will do our best to satisfy your requests."

The manager showed Lin Yi and Fei daqiang around before returning to the door and saying respectfully, ""We will prepare the meal. Just let us know when you need it. We will send someone to deliver it. The two of you can also come out to eat. If you want to make your own food here, give us the list of ingredients, and we will send the freshest ingredients over very soon."

"I understand. Thank you for your trouble!"

Lin Yi expressed his gratitude politely, wondering if he should ask for a change of place.

This courtyard was a bit too big, and there were too many rooms. It was really a waste for only him and Fei daqiang to live in it. It was empty and boring.

There were probably only a few cross-courtyard facilities of this level in the entire relay station. It was definitely the best facility!

Lin Yi understood now-Jin botian must've told him to do this, or someone from the inspection department knew about his identity as the Vice Dean.

He was the Vice Dean of the inspection department, after all, and he had to leave the best place for Lin Yi.

Lin Yi didn't plan on using his Vice Dean's position to talk about this, and he felt that it was a bit too much for him and daqiang to occupy this courtyard alone. Two normal rooms would be enough, since it was only a temporary residence.

In the end, before he could say this thought out loud, a group of people passing by saw the manager and turned around.

Chapter 8772

"Hey, our rooms are too small. We can't live in them. Arrange a bigger yard for us immediately!"

The leader was a middle-aged man of medium build with a serious expression.

The one who spoke was a young man beside him. He seemed a little unruly, and his tone was full of a sense of command.

The manager was extremely respectful towards Lin Yi. He didn't know Lin Yi's identity as the Vice Dean, but he knew that Lin Yi had to be someone with a big background if the noble of the inspection department had to arrange accommodation for him.

The young man's impolite order, however, made him very unhappy. He straightened his back and stopped smiling.

He only left behind a very faint and distant sneer and said indifferently, "I'm sorry. There are rules for the lodgings of the patrol envoys of every continent. It's your problem that you can't fit in. Our relay station is only responsible for receiving the patrol envoys. If anyone else is dissatisfied, they can go to the other inns outside to take a look. "

He really wasn't prepared to give them face. The status of the great continent's patrol was noble, but the relay station didn't rely on the great continent's patrol for food.

This manager probably had a powerful background. Since the young man wasn't polite, he naturally wouldn't give him a good face.

The young man's face stiffened, and he was about to explode in anger, but the middle-aged man in the lead raised his hand to stop him.

"I'm the burning sun continent's patrol envoy, Fang Gezi. How should I address you, brother?"

The middle-aged man ignored the manager and cupped his fist at Lin Yi, introducing himself as if he wanted to get to know Lin Yi.

Lin Yi didn't think much of it-he had to give face to a polite self-introduction, so he cupped his fists and smiled back, "I'm Sangzi great continent's patrol envoy Sima Yi, it's a pleasure to meet you!"

They were all investigators, and getting to know each other wasn't a big deal. Lin Yi might be going to the burning sun continent in the future, and he might meet Fang Gezi.

He didn't expect Fang Gezi's face to change the moment Lin Yi finished speaking. She ignored Lin Yi and turned to the manager, "How audacious! Are you trying to humiliate me? Do you think I'm easy to bully?"

The relay manager was baffled and frowned, ""What do you mean, patrol envoy Fang? Our relay station is doing things according to the rules, how is that humiliating you? We're just a relay station, so we can't bully you. "

Fang Gezi's face was as cold as ice. She sneered and said, ""You still dare to quibble? If you really do things according to the rules, this Lord will not make things difficult for you! But what are you doing now?"

"Our burning sun continent is a second-grade continent. What kind of rooms did you arrange for us? And he's just the patrol of Sangzi continent, what right does he have to live here?"

Fang Gezi didn't even look at Lin Yi, pointing at his nose with a look of disdain. "The Sangzi continent is only a third-grade continent. Could it be that in your relay station's eyes, the status of a third-grade continent's patrol is even higher than that of a second-grade continent's? Aren't you humiliating this Lord?"

Lin Yi finally understood that Fang Gezi wasn't trying to get to know him when she asked for his identity. She was just trying to figure out who was living in this courtyard.

If it was a first-grade continent's patrol, he would probably have nothing to say. However, the Sangzi continent's status was far inferior to the burning sun continent, so Fang Gezi immediately seized the opportunity to flare up.

The manager's expression didn't change at all, and he said indifferently, "We have our own rules, and we don't need to explain anything to you! If investigator Fang feels that our relay station has wronged you, you can choose to stay in another Inn, or you can complain about us to the inspection department!"

"But before that, patrol envoy Fang, please pay attention to your words and actions. Don't disturb the other guests of our courier station!"

This neither servile nor overbearing behavior infuriated Fang Gezi even more. Fortunately, he was the patrol envoy of a continent, after all, so he wouldn't lose his mind and attack the relay manager. At the same time, he stopped the people behind him from causing trouble for the relay manager.

A strong Dragon can't suppress a snake in its own territory. Fang Gezi was the burning sun continent's inspector, so he naturally wasn't a brainless idiot. He gave up on the relay manager and targeted Lin Yi.

"Sima Yi, right? It's our first time meeting, we'll have to take care of each other in the future!"

Fang Gezi looked at Lin Yi with a natural condescending look. She wasn't as tall as Lin Yi, but she had to look up at him.

"There are only two of you, right? As the Sangzi great continent's patrol, you only brought a single follower to the Xingyuan great continent to report on your work. It's a bit shabby!"

"But this is also good. There are advantages to having fewer people. At least we don't have to worry about accommodation. Unlike me, I have only brought 20 to 30 retainers, and there aren't even enough rooms!"

"It seems that your courtyard is quite large and you can't live there with so few people. Give it to us and we'll give you our original room. It's arranged for the second-grade continent's patrol envoy to live in. It will definitely not disgrace the name of your Sangzi continent."

Fang Gezi's intention was clear-she wanted to steal Lin Yi's courtyard, but her tone was so annoying that it made people uncomfortable.

Especially the contempt in his tone towards Sangzi Dazhou, as if exchanging their original rooms with Lin Yi was a big reward. He really treated Lin Yi and Fei daqiang like country bumpkins.

Fei daqiang was furious on the spot, "bah!" Who Do You Think You Are? This is our boss's place, you think you can have it just because you say so? Why don't you take a piss and look at yourself first? Why are you pretending to be a big-tailed Wolf with a three-inch nail?"

Fang Gezi had a medium build and was not a three-inch nail. However, he was very concerned about his height, so his expression changed when Fei daqiang mentioned it.

Fei daqiang didn't stop and continued to curse, "If you want to live comfortably, go back to your so-called sun continent. Who are you putting on airs with here? Your Grandpa Fei doesn't buy this! What the hell! You're dressed like a dog, but you speak like a dog!"

"If I'm not wrong, you usually eat shit, right? It's no wonder that a dog can't change its habit of eating shit. That's why the moment you open your mouth, it's filled with a terrible stench! Please help us and stay away from us, okay? I'm a little disgusted by the smell!"

Fei daqiang's mouth was really smooth. He kept on scolding Fang Gezi until her face turned green and she almost went berserk!

Fang Gezi's servants couldn't take it anymore and rushed forward, ready to attack Fei daqiang and Lin Yi.

Fei daqiang wasn't scared at all-he'd been fighting with Lin Yi all the way from the common world to now, so why would he be scared of fighting? Moreover, with his thigh here, no matter how many of these Rascals there were, they were just food to him!

Chapter 8773

"Yo, yo, yo, what's the matter? You want to make a move now that you can't win? Come, come, come, your uncle Fei will let you guys have a handicap of one hand. Look at your bear-like faces, you're all promising, yo! Do you think you're awesome just because you have more people? I'm telling you, one of you is an idiot, and a group of you is a group of idiots!"

Relying on his thigh to support him, Fei daqiang really scolded to his heart's content and without restraint, as if he was afraid that those people would retreat and not dare to go forward.

In the end, the burning sun continent's people were furious. They cursed and were about to attack, but they were stopped by the manager of the relay.

Although he was only a mere relay station manager, when he stood in front of this group of people, his aura was not weak at all!

"Everyone, if you don't want to stay in our station, you can leave! If you want to cause trouble in our station, you must know that the patrol house is right next to us. I advise you to think twice before you act!"

This was the Xingyuan great continent, and behind the relay station was the inspection Institute. If the patrol envoy who came to make a report dared to cause trouble in the relay station, he probably didn't need to report anymore and could directly pack up and get lost!

Fang Gezi's expression was uncertain. He could ignore a mere relay station manager, but he had to consider the attitude of the patrol Department!

So he waved his hand to stop his retinue's impulse and looked at the courier station manager coldly, "You said that your relay station is doing things according to the rules. Let me ask you, why can the Sangzi continent's patrol stay here, but the people of the burning sun continent can only stay in those guest rooms?"

The difference between the large courtyard and the guest room was like the difference between the Presidential Suite and the standard room of the same hotel. It was no wonder that Fang Gezi was indignant!

If it was a first-tier continent's inspector, Fang Gezi wouldn't have said anything, but now, she wouldn't let it go!

Fang Gezi had planned to use force to suppress him, but since she couldn't use force, she decided to reason with him!

"We have our own rules, and we don't need to explain anything to you! If investigator Fang feels that our relay station has wronged you, you can choose to stay in another Inn, or you can complain about us to the inspection department!"

The relay manager repeated what he had just said word for word. The meaning of the official statement was very obvious. Anyway, it was whether you want to stay or not. If you don't want to stay, then get lost!

Fang Gezi's lips twitched. What else could she say?

He had no choice but to turn to Lin Yi. "Sima Yi, keep an eye on your underlings, don't let them have a mouth full of vulgarities! The name of a patrol must not be sullied. You are also a patrol, so don't make a mistake!"

Fei daqiang was about to start cursing again but was stopped by Lin Yi. He had to follow Lin Yi's orders, so he glared at Fang Gezi and stopped.

In fact, if Fang Gezi hadn't come, Lin Yi would've suggested a change of residence. It was a waste for the two of them to live in such a big yard, empty and unlively.

If Fang Gezi were to negotiate with him nicely, Lin Yi would be happy to trade with them.

These idiots from the burning sun continent didn't know where their sense of superiority came from, but they deserved to have no place to live after showing off in front of Lin Yi!

"You don't have the right to talk about my people! It's not up to you to decide who my place belongs to!"

Lin Yi looked at Fang Gezi, his tone as calm as hers, but it made the people of the burning sun continent tense up for no reason. "If you're not convinced, you can lay out a plan. I, Sima Yi, will accept it!"

"Hehehe, you're really a Toad yawning. What big words! Who Do You Think You Are? You actually dare to shamelessly say that you'll accept everything?"

Fang Gezi sneered. "That's right. We're both patrol envoys of a continent. It might seem like we're of the same status, but you have to understand that just like how people are divided into three, six, and nine grades, continents are also divided into three, six, and nine grades. The difference between a second-grade continent and a third-grade continent is much greater than you think ..."

"Why are you talking so much nonsense? If you're not convinced, just say what you want to do. You don't find it annoying, but I do! Do you want to fight or what? Hurry up!"

Lin Yi pretended to be impatient, signaling for her to stop talking.

Fang Gezi was slightly stunned. She gritted her teeth and sneered, "Alright! Since you're so confident, then let's see who's the real deal! The relay station doesn't allow fighting, do you dare to come out with us?"

"They provoked me, so I'll do it, okay?" Lin Yi turned to the manager.

The relay manager's expression immediately changed, revealing a sincere smile as he bowed and replied, "Of course you can. They provoked our honored guests. If necessary, our relay station can send people to suppress them! Of course, if patrol envoy Sima wanted to defend himself properly, it wouldn't be a problem! We can understand!"

Fang Gezi almost vomited blood!

Can't you ... Be a little more reasonable?

Is Sima Yi your father? You've never been so biased towards your father, have you?

Lin Yi smiled, revealing eight white teeth. "That's good! This way, there's no need to go out, we can just settle it here!"

Before he could finish his sentence, Lin Yi's body flashed and he appeared in front of Fang Gezi!

Fang Gezi didn't even have time to react before Lin Yi disappeared in front of her eyes. All she saw was a fist coming at her like lightning, rapidly expanding in her pupils!

Before he could figure out what was going on, his face seemed to have been hit by a giant magical beast, and he was instantly sent flying to the side.

His neck made a cracking sound. Although he didn't understand what was going on, he actually had the time to wonder if his neck was going to break.

Lin Yi's fist landed on Fang Gezi's face, but he pulled her back before she could fly away. Then, Lin Yi started to punch her.

It didn't take Fang Gezi's life. It didn't even hurt her internal organs. She just felt a little pain on her body and her whole body swelled up.

Fang Gezi's face was so swollen that it looked like a pig's head. Even her parents would not be able to recognize her when she got home!

After beating up Fang Gezi, Lin Yi charged into the group of people from the burning sun continent and launched a series of lightning attacks.

These guys had been following Fang Gezi around and must've done a lot of bad things. Lin Yi was already kind enough to only teach them a lesson and not take their lives!

After all, they had just wanted to use their numbers to bully the few of them!

After being beaten up, they should be honest, right?

"We're done fighting. Do you have any other opinions? You can continue to raise it now. As long as you lay down the rules, I, Sima Yi, will accept it!"

Lin Yi stood in front of Fang Gezi, looking down at the wailing men on the ground. ""What second-class continent? I thought it was very powerful, but it's just this much? What a disappointment!"

"You sneak attacked! A dignified patrol envoy actually used such a despicable method. It's simply unimaginable and really disdainful!"

Fang Gezi stood up with a Pighead on her head and accused Lin Yi. He really did think that Lin Yi had only taken down him and his retinue because of a sneak attack.

Chapter 8774 The End

Although everyone was beaten up quite miserably, they were all just flesh wounds. There was no serious injury to their bones.

This made Fang Gezi misjudge Lin Yi's strength, thinking that Lin Yi was a martial artist who used speed.

When caught off guard, a fast person could indeed catch a person off guard, but if they were on guard, a speed-type martial artist might not pose much of a threat!

"Sneak attack? You actually have the face to say that! You were the ones who suggested to take action, and our boss even asked the manager if he could take action here. He only took action after he got a positive answer!"

Fei daqiang's face was full of disdain as he stood up to support Fang Gezi. "I've already told you guys, but you still can't defend against it ... If you're weak, then don't come out and provoke others! Hurry up and go back to your so-called Japan! The outside world is not suitable for you!"

Fang Gezi was speechless-they were in the wrong here, after all. They were the ones who provoked Lin Yi first, and now Lin Yi was beating them up ...

Although she thought it was because of Lin Yi's sneak attack, Fang Gezi couldn't take revenge on Lin Yi, who was watching them coldly from the side!

Fang Gezi was certain that Lin Yi was the manager's Godfather! His ass was so crooked! I'm the one getting beaten up! What the hell is that look? What did that mean?

"Alright! Sima Yi, you're good! This Lord will remember you! Let's wait and see!"

Fang Gezi was left speechless and did not have the face to continue pestering her about the big yard. She could only leave a harsh sentence and leave with her men.

The relay manager turned around and put on a respectful face. "Patrol Sima is indeed a good man! This lowly one will take his leave first! If you need anything, just tell me!"

"You've worked hard, manager! Please do as you please!"

Lin Yi nodded with a smile and watched the man leave. He'd wanted to move, but after Fang Gezi's incident, he decided not to.

So what if it's a little bigger? after all, the scenery is beautiful and it's comfortable to live in!

He brought Fei daqiang in and each of them chose a room to stay in. Within a few minutes, four young and beautiful maids came to the courtyard, saying that they were arranged by the courier station's manager to do things.

Because this was the residence of the distinguished guests, if the distinguished guests had their own people, the courier station would not make arrangements. If they did not have people to serve them, they would arrange for a few people to serve tea and do odd jobs.

Lin Yi didn't reject the manager's good intentions. The yard was too big, and the two of them didn't have enough space. Having four more maids would make it more lively.

In the evening, the manager came to Lin Yi's door with a gold-stamped invitation. "Patrol envoy Sima, the inspection department just sent a notice saying that they'll be holding a welcome banquet to invite all the other patrol envoys who have arrived today."

"This has happened in previous years as well. It's to let everyone get to know each other and get to know each other. After all, the inspectors of each continent are from the inspection Institute, and they usually don't have many opportunities to meet."

To put it bluntly, it was to hold a banquet so that all the inspectors of the continent would have the opportunity and place to socialize.

Lin Yi wasn't unfamiliar with this, but he didn't think it'd be a rush to inform him at such a critical moment.

"Okay, may I ask if Dean Jin is hosting the dinner this time? Has he returned?"

Lin Yi wanted to see Jin botian when he came, but he couldn't find him. It would be nice if he could see him at the dinner.

The steward smiled and shook his head. "It should have been Dean Jin who hosted the banquet, but he hasn't returned yet. Most of the higher-ups in the inspection department aren't here either. Tonight's banquet should be hosted by a Deacon from one of the departments."

The status of a Deacon in the inspection Institute was one or two ranks lower than that of a patrol envoy of a great continent. However, because they were from the headquarters, their real power was not inferior to that of a patrol envoy of a great continent.

He was barely qualified to host a banquet!

"I see, I know. Thank you for making this trip, steward!"

Lin Yi opened the invitation and saw the time and place of the banquet.

In fact, it was in the banquet hall of the relay station. This relay station was exclusive to the inspection department, so many banquets of the inspection department would be held here.

Lin Yi wasn't interested in the party since Jin botian wasn't around, but he decided to go take a look since it was in the station. It'd be good to get to know some of the investigators.

After all, Lin Yi was the vice-director of the inspection department, and these people were his subordinates. It wouldn't hurt to get to know them first!

When night fell, Lin Yi brought Fei daqiang to the banquet. The invitation was only for the inspector, but it stated that he could bring one or two followers. Lin Yi only had Fei daqiang with him, so he had no one else to bring.

The banquet had started a while ago, and Lin Yi wasn't there on time-there was bound to be some official speech before the start.

It was so boring!

If the deacons knew of Lin Yi's status as the Vice Dean, they might even invite him up to say a few words, and that would be awkward. So Lin Yi decided to go to the banquet later and watch.

There were already over thirty investigators gathered in the hall. There were a total of thirty-nine Continents in the starsource continent, and only four or five investigators were missing.

Just as Lin Yi expected, the deacons had just finished their welcome speech and announced the start of the banquet. It was like a buffet, with many investigators walking around and talking to people, forming small circles.

Fang Gezi was surrounded by six investigators from the other continents. They were all investigators from second-grade continents, so they naturally gathered together.

Although they were all patrol envoys, they really did look down on people from third-grade continents.

"I don't know where that Sima Yi came from, he's really arrogant! He's just a patrol of the Sangzi continent, but it feels like he's the patrol of the Xingyuan continent. This is ridiculous!"

Fang Gezi's injuries had healed. They were all superficial wounds that could be healed with a pill. If not for that, he would not have the face to entertain them.

He gathered all the second tier continents "investigators together in order to spread rumors and hurt Lin Yi. He wanted to use the investigators" strength to deal with Lin Yi.

"You guys didn't see it at that time, but he actually said that our second-class continent's patrol was nothing, not even comparable to his little finger. If he wanted to crush us, he could do it in minutes ..."

"...I was a little indignant, and he would burst out and hurt people. Fortunately, I had some strength and didn't suffer any losses, but Sima Yi was really too arrogant! Brothers, have any of you heard of him? What's his background?"

Fang Gezi was lying through her teeth. Lin Yi wasn't at the banquet, so Fang Gezi's slander was even worse. "Let's not talk about other things first. Just look at him, how big of a deal is he! He didn't come to the welcome banquet of the inspection Institute just because he said so. He doesn't even have any respect for the inspection Institute!"

Chapter 8775

The others all started scolding Lin Yi as well, sharing their hatred.

"The name" Sima Yi "is indeed unfamiliar. I've never heard of it before. There doesn't seem to be any powerful family with the surname" Sima "in the starsource continent."

"This person shouldn't be from the starsource continent, right? I've heard a little about it, I think last year I heard that there was a man called Sima Yi in Feng Qi continent who was very famous, is that him?"

"Fengqi great continent isn't as good as Sangzi great continent. If he was really transferred from Fengqi great continent to Sangzi great continent, it would be considered a high promotion, so he's arrogant?"

.....

These investigators had heard of Lin Yi's name before, but they weren't too sure-it was already hard enough to remember his name.

As they were talking about Lin Yi, Lin Yi brought Fei daqiang into the banquet hall. Fang Gezi was speechless when she saw him.

He was just saying that Lin Yi didn't show up because he looked down on the inspection department, and here he was ...

Did he hear it on purpose to slap her in the face?

The deacons didn't know Lin Yi's status as the Vice Dean, so they weren't pleased to see Lin Yi arrive late.

Lin Yi looked around and his eyes fell on the deacon. He realized that it was a bit embarrassing for him to be late on purpose, so he walked over with Fei daqiang.

"I'm sorry, I'm Sangzi great continent's patrol Sima Yi. I was delayed by some matters, so I'm late. I'm not too late, right?"

Lin Yi smiled and cupped his hands at the warden, giving him an explanation for being late. It was up to him whether to believe it or not-he'd given him face anyway.

Strictly speaking, this Deacon could be considered Lin Yi's subordinate, and it was a great honor for the leader to explain to his subordinate!

The warden didn't want to talk to Lin Yi at first, but he paused after hearing Lin Yi's name.

Sangzi Dazhou's Sima Yi?

He seemed to be the one who had been specially booked at the relay station for a large courtyard, right?

He didn't know Lin Yi's identity as the Vice Dean, but as the host of the welcome party, he knew the investigator's job like the back of his hand. He knew who specifically ordered Lin Yi to stay here.

Can't afford to offend!

With a thought, the deacon immediately revealed a smile, "So it's patrol envoy Sima. It's alright, the banquet has just started, patrol envoy Sima came at the right time."

"This banquet was originally held to welcome all the investigators. Everyone coming here is already giving face. It doesn't matter if you're late or not. This is the meteorite wine, a specialty of our starsource continent. It's a rare and precious wine, why don't you try it?"

He didn't know Lin Yi's true identity, and didn't know if the higher-ups were willing to expose Lin Yi's background. So she acted more magnanimous, sending Lin Yi a bit of kindness and intimacy.

Lin Yi thought that the guy knew about his identity as the Vice Dean, but he didn't say it out loud, thinking that he was a smart guy.

Hence, he took a cup of meteorite brew and had a simple conversation with him and the other investigators.

Fang Gezi could not help but snort as she watched from afar. "Look, that kid is Sima Yi. He's so young, but he already knows how to flatter people. It's a pity that those from third-grade continents have low standards. He thinks that he's awesome just because he's connected with a Deacon in charge of reception."

"What brother Fang said makes sense. However, from this point of view, that Sima Yi doesn't have any impressive background. If not, he wouldn't need to curry favor with a reception Deacon."

In the eyes of inspectors from second-class continents like Fang Gezi, the deacons of the headquarters were just so-so; they had some power, but they weren't worthy of their initiative to curry favor.

Especially for this kind of Deacon in charge of reception, who would care about him if he missed the debriefing period?

In the eyes of Fang Gezi and the others, Lin Yi was lowering his status and talking to a Deacon as soon as he arrived. Even the second-grade inspectors looked down on Lin Yi.

"Brother Fang, this kind of person is indeed a small figure from a third-grade continent. Don't take it to heart, we'll find an opportunity to deal with him later!"

"That's right, this kind of frog at the bottom of the well, holding a high position at a young age and thinking that he's number one in the world, his mentality is too high! Let's teach him a lesson and help the young man correct his mentality so that he can grow up earlier!"

.....

Maybe it was because Lin Yi was too young, but these second grade continents "investigators didn't just look down on Lin Yi, they were also a bit jealous!

When they were at Lin Yi's age, they were still training hard in some corner to make a name for themselves!

Lin Yi was so young, but he'd climbed up to almost the same level as them. Whether they admitted it or not, it didn't make sense, and they'd want to teach him a lesson.

The deacon chatted with Lin Yi for a while, but he didn't try to find out who Lin Yi was. He just wanted to be friendly and leave a good impression before leaving.

After the banquet started, his mission was almost over.

Apart from welcoming and welcoming the patrols of the various continents, the biggest purpose of the inspection Institute's banquet was to provide a platform for the patrols of the various continents to have an opportunity to communicate with each other.

Now that his goal had been achieved, the deacon naturally left with an excuse, retreating after his success!

In case of any conflicts later on, he would be dragged into the whirlpool instead. After all, he was only a Deacon, and he should try to avoid troublesome things.

It wasn't that he had foresight, but that the trouble at the welcome banquet was not an exception.

Not all of the 39 continents of the starsource continent were friends. It was common for some investigators who did not get along to mock and ridicule each other at the welcome banquet, and then fight.

With the principal, Vice Principal, or chief patroller present, they could still suppress them, but the deacons would not even care about them!

Lin Yi saw that after the deacons left, a few of the investigators were looking at each other with unfriendly eyes. They seemed to be getting closer to each other, and Lin Yi understood.

It turned out that the welcome banquet was not only a platform for everyone to communicate, but also an opportunity to resolve old grudges!

The inspection Institute seemed to have the intention of pushing the boat along with the current for this kind of personal grievances. They would let them solve it before reporting their work. As long as no one died, it was a good thing!

"Boss, it looks like we can watch a good show! The two groups of people were obviously going to fight! He didn't know what kind of enmity there was between them that they couldn't wait to fight! Boss, who do you think will win?"

Fei daqiang was a master who loved to see the world in chaos. When he saw that someone was about to fight, he immediately became excited. He couldn't wait to move a small stool and take half a slice of watermelon to watch the show.

As soon as he finished speaking, Fang Gezi came to Lin Yi with the six second-grade continents' investigators.

Chapter 8776

One of them raised his head and laughed coldly. "Sima Yi, I heard that you're very arrogant and look down on us second grade continent's patrol envoys. So, we brothers came to see what you're capable of to actually look down on us!"

Fei daqiang was suddenly speechless. I wanted to be a bystander, but you inexplicably pulled me to the stage and made others a bystander ... This makes me very unhappy!

Lin Yi glanced at the investigators, smelling the alcohol on them. He said expressionlessly, "Did you drink too much? If you're drunk, go back to sleep. Don't be a drunkard here!"

Seeing Fang Gezi, Lin Yi knew that she was the one behind this. Although these second-grade continents' investigators weren't a threat to him, Lin Yi didn't want to make enemies out of no reason.

Doing unnecessary things would only add to the trouble!

"Hehe, you're really arrogant. A mere patrol from the Sangzi continent actually dares to be so arrogant. Who gave you the confidence to look down on me?"

The other inspector laughed coldly. They were giving Fang Gezi face, and they didn't like Lin Yi either, so they all wanted to beat him down.

Lin Yi's lips curled up into a meaningful smile. "I'm not looking down on you!"

The patrol envoy's expression relaxed, and his eyes had a hint of a smile. He gave a look to his companions beside him. Everyone had the same thought, so they urged this kid to run away!

In the face of so many second-grade continents 'patrol envoys, he must have felt tremendous pressure and could only bow his head and admit defeat. It was Understandable, understandable!

Fang Gezi was proud but also a little regretful-if Lin Yi just admitted defeat, she wouldn't have a reason to drag others to suppress him!

Lin Yi changed the topic and continued, ..."I'm looking down on you all! If he wanted to find trouble, he had to use wine to boost his courage? It's said that wine gives people courage, but you're all cowards. Not only do you have to drink, but you also have to come in groups before you dare to come here. Who will look up to you?"

That patrol envoy was furious. What was he saying? Slapping people in the face and embarrassing them, this little B * stard was really rebelling!

"You're indeed arrogant to the extreme, good good good! Looks like I'm really going to have a taste of your true abilities today, or is it just your mouth that's amazing!"

As he spoke, the inspector got into a fighting stance, as if he couldn't wait to fight Lin Yi."Come on! Let this Lord see how much you're worth!"

He wasn't the only one. The other second-tier inspectors, including Fang Gezi, shifted their steps with hostile expressions, preparing to surround Lin Yi.

Fang Gezi couldn't stop laughing in her heart. She was still regretting that she couldn't attack Lin Yi, but Lin Yi was looking for trouble. He offended all six second-grade continents' investigators!

Wonderful!

Lin Yi looked around and smiled coldly, "Why are you in such a hurry to make a fool of yourself? There will be plenty of opportunities in the future. Today is the banquet held by the Academy, and I don't want to ruin the atmosphere. When the competition comes, I'll be waiting for your challenge!"

"Challenge? Aren't you overestimating yourself? I'm just teaching you a lesson, how can that be called a challenge? There's no need to wait for the competition to teach a kid like you who doesn't know the immensity of heaven and earth a lesson. I'll let you know what's called respect and inferiority, and what's called the difference between front and back!"

That inspector was set on Lin Yi-how could he wait until the tournament?

In addition, they had seven investigators on their side, not including the guards.

How could he let go of such a good situation of bullying the few with numbers?

He couldn't wait to embarrass Lin Yi in front of everyone, and immediately launched an attack on Lin Yi!

This patrol's strength was also not bad. He had already broken through to the initial stage of heaven breaking, and it was not that kind of fake heaven breaking, but a true heaven breaking initial stage!

A second-grade continent's inspector was indeed stronger than a third-grade continent 's!

Too bad he met Lin Yi!

On the surface, they were on the same level, but in actual combat strength, Lin Yi was miles ahead of him!

Facing the sudden attack, Lin Yi calmly raised his hand and caught the inspector's fist.

Lin Yi's momentum came to a sudden stop, and the fist seemed to have taken root in his palm. No matter how much strength he used, it wouldn't move.

He couldn't even pull his hand back now, let alone keep attacking. The fist that fell into Lin Yi's palm didn't seem to be a part of him anymore.

"I already said there's no need to rush to make a fool of yourself, so why are you doing this? To embarrass himself in front of everyone, was it a very glorious thing? Or are you a clown and like to make a fool of yourself in front of others?"

Lin Yi's lips curled into a mocking smile as he twisted his wrist and pulled the patrol one step forward.

At the same time, Lin Yi's leg flew up from below, leaving a trail of afterimages as it landed on the inspector's stomach without a trace.

It looked like a light kick, but when it came into contact with the other party, it exploded with a powerful impact, sending the patrol envoy flying.

One of the investigators behind him was caught off guard and couldn't Dodge in time. He could only brace himself and stretch out his hand to catch the approaching investigator, desperately using the method of unloading the force to stabilize that powerful impact.

As a result, the two people who collided with each other simply turned into conjoined twins and flew out together.

As they were only a few steps away from the door, the two of them flew directly to the corridor outside. They staggered a few steps before they finally stabilized themselves.

This time, it was really a shocking move!

The groups that didn't have anything to do with Lin Yi at first, the ones who were planning on causing trouble, all gave up on their original targets and looked at Lin Yi in shock.

One kick to send two second-grade continents "investigators flying? This Sangzi great continent's patrol Sima Yi is very powerful!

No wonder he was so arrogant. He did have the right to be arrogant!

"Sima Yi! You dared to launch a sneak attack on people in public, and even beat up the patrol envoys of two second-grade continents! He was simply lawless! We can't let this matter rest!"

Fang Gezi was surprised and happy at the same time. She was surprised that Lin Yi's strength seemed to be beyond her expectations, but she was happy that the more trouble Lin Yi caused, the more confident she would be in dealing with him!

At Fang Gezi's Secret signal, his retinue, who had been guarding the door, immediately went to find the guards from the inspection department. This was one of the options he had planned long ago.

If things went well, they could gather the strength of the other second tier continents to suppress Lin Yi and humiliate him.

If things didn't go well, like right now, where Lin Yi's strength was beyond their imagination and even a few second tier continent's investigators couldn't suppress him, then they'd use the strength of the patrolling department's guards to deal with him.

Chapter 8777

The relay station was close to the inspection department. In order to show their respect, the inspection department also sent a team of guards to the relay station.

There weren't many of them, only six, but it was a sign of respect to the inspectors of the various continents.

If something happened and this small team of guards couldn't handle it, the inspection department was right next to them, and they could send more guards to help at any time.

Fang Gezi's retinue had deliberately befriended this small team of guards before the banquet and had become familiar with them with a generous amount of money.

If he went to ask them for help now, everything would naturally be fine. Then, he would secretly give them a sum of money for their hard work. It would be even more natural.

The six guards were already on duty outside the banquet hall. After receiving the reward, they immediately rushed into the banquet hall and asked righteously, "What's going on? Why would two investigators be kicked out of the banquet hall during the welcome banquet organized by the inspection department? Who did this? Are you looking down on the guards of our inspection department?"

He was asking who did it, but his eyes were already locked onto Lin Yi!

Lin Yi's mouth twitched. Another person said that they looked down on them, and it was the same. Without a doubt, they were on Fang Gezi's side!

The guard Captain didn't know that he'd exposed his position just like that. Under the guidance of Fang Gezi's retinue, he walked up to Lin Yi as if he'd just confirmed his target. "Someone said that you attacked people without distinguishing right from wrong, right? If you're not mistaken, then come with us!"

He'd already heard of Lin Yi's identity from his retinue-he was a third-grade continent's inspector, Sangzi continent's Sima Yi. It wasn't a big deal!

Let's arrest him and lock him up for a night!

He didn't have the authority to do anything more to Lin Yi, but just one night was enough to make this inspector lose face!

Lin Yi stood tall and proud, a mocking smile on his face. "Someone said? Who said that? Someone said I attacked you and you believed me?"

"If you believe me, then so be it. What qualifications do you have to make me go with you? Are you the law enforcers of the inspection department? You want to take me away without asking anything? are you sure you want to do this?"

The squad leader's forehead immediately broke out in cold sweat.

Lin Yi's questions were getting more and more heart-wrenching, and he didn't know what to say.

As expected, he was not a kind person!

It felt a little troublesome!

If possible, the captain felt that it was best not to mess with Lin Yi ...

However, he had taken advantage of Fang Gezi, so he couldn't eat her up now!

It wasn't a big problem to offend a third-grade continent's patrol envoy, but he couldn't afford to offend a group of second-grade continent's patrol envoys!

"Stop being so long-winded! Although we're not law enforcers, we're still responsible for maintaining the order of the banquet. Now that you've disrupted the normal progress of the banquet, what's the problem with taking you away?"

The captain bit the bullet and insisted, ""It's a fact that you hit someone. Do you want to deny it in front of everyone? Don't make a big deal out of this, just come with us!"

As he spoke, he waved his hand for his team members to take Lin Yi down. Fei daqiang couldn't hold it in anymore when he saw the guards spread out and surround him.

"A bunch of blind things, how much benefits did you guys get from them, and you dare to come and find trouble with our boss? Do you know what consequences your choice will bring to you? I advise you to think twice before you act!"

Fei daqiang really reminded him out of good intentions. If it was in the past, he would have directly gone up and done it!

He felt that his boss, as the Deputy Director of the inspection department, couldn't take these guards too seriously, so he gave them a chance to make a new choice.

He could play the pig to eat the Tiger, but playing the pig to eat the mouse was a different story ... Eh, Fei daqiang swore that he didn't call Lin Yi a pig ...

The guard Captain couldn't back down now. He could only walk this path to the end. He ignored Fei daqiang's words and continued to order his guards to catch Lin Yi.

Lin Yi raised an eyebrow. Since they didn't listen to him, he'd have to teach them a lesson!

As the Vice President of the inspection department, he was actually arrested by the guards on his first visit to the inspection department. If word got out, would he still have the face to stay in the inspection department?

Just as the two sides were about to clash, another team of guards arrived.

The leader was a young man in silver light armor. His appearance was not bad, and under the armor, he seemed to be full of heroic spirit.

"What's going on? What are you doing?"

As soon as the young man entered, he frowned and shouted to the squad leader, "I asked you to protect the investigators outside the banquet hall, what are you doing here? Could it be that you all think that you can drink and chat with the various investigators?"

The imposing manner that the squad leader had been holding up suddenly disappeared, and his whole body became hunched. He quickly dismissed his subordinates and ran to the young man, nodding and bowing.

"Head guard, it's not that this subordinate wants to come in, but there's a rather serious conflict here. Sangzi continent's patrol envoy Sima Yi launched a sneak attack and injured two Lord second grade continent's patrol envoys, so this subordinate wants to bring patrol envoy Sima back to ask about the situation."

The captain was a little nervous when his superior appeared, but when he thought about it carefully, he seemed to be relieved.

She didn't need to target Lin Yi anymore, and the pressure on him disappeared instantly!

It would be easier to talk to Fang Gezi later. It wasn't that he didn't do what he was paid to do, but the situation was out of his control now that his boss was here. He couldn't be blamed!

The silver-armored young man was the guard Captain of the patrolling guards. His status was similar to that of a Deacon, but his authority was slightly higher.

After all, having people under him was considered a more vital position, and ordinary people couldn't take it.

For example, the commander of the emperor's guards might not be as high in rank as the civil and military officials in the court, but even a first-rank official would not dare to treat him lightly, because the commander of the guards must be the emperor's confidant!

The team leader explained the situation with a little apprehension. He also explained a few words to himself, indicating that he had no selfish motives and was completely doing it for work!

The silver-armored young man frowned as he heard this. He raised his hand and slapped the squad leader's face. At the same time, he snorted heavily and said, "Did you see with your own eyes that patrol envoy Sima beat someone up? I don't think so? You dare to be disrespectful to an honorable patrol envoy just by listening to one side of the story!"

"Who gave you the guts? You can even ignore my orders? What did I tell you before you came? He's completely ignoring my orders!"

The welcoming banquet of the inspection Institute was just one of the elements. It was more of a platform for the inspectors of these continents to communicate, and also an opportunity to resolve some disputes in advance.

Apart from protecting, the responsibility of a guard was also to monitor. As long as no one died, there was no need for the guard to intervene.

The team leader had only intervened earlier because Fang Gezi had bribed him, and even shifted his attention to Lin Yi.

Chapter 8778

Now that the silver-armored young man had said that, he immediately broke out in a cold sweat and knelt down on one knee to beg for forgiveness.

As for the slap on his face, he didn't even dare to cover it, let alone Dodge it!

"What an ignorant thing! I'll deal with you later!"

The silver-armored young man cursed in a low voice. He raised his head and smiled, cupping his hands and bowing to Lin Yi and Fang Gezi.

"Several investigators are our distinguished guests. Our starsource continent's meteorite wine has a mellow taste and is a rare wine. It's just that it has a strong aftereffect. After drinking a few more cups, some friction is inevitable."

"These things are not for us guards to care about, but I still hope that everyone can respect peace. We're all family. This is just a small friction. Let's have another drink and let it go!"

The silver-armored young man made his stand clear that he wouldn't let the guards get involved in the conflict between the inspectors. He acted as the peacemaker again and raised a glass of wine to Lin Yi, Fang Gezi, and the others.

"This humble one offers a toast to everyone. Cheers, please!"

After he finished speaking, he raised his head and drank the wine in one gulp. He had a very forthright spirit!

Fang Gezi's expression was a bit ugly-she was just about to deal with Lin Yi when this guy came out.

Not only did this silver-armored young man interrupt the Guard's actions against Lin Yi, but he even said that he wanted to make peace with both sides!

Not giving him face?

It wasn't impossible. After all, Fang Gezi's side was a total of seven second-grade continents 'patrol envoys, and their influence was extraordinary. However, this silver-armored young man was the head guard of the patrol Institute's headquarters.

Who knew who else was backing him? What if he was targeted after returning to the continent? At that time, he would have no allies to accompany him!

To be able to become a patrol envoy, none of them were simple people. In a flash, he had already understood the stakes.

"Hahaha, the captain of the guards is right, it's all because of drinking too much. It wasn't a big deal, just a little friction! Come, come, come, patrol envoy Sima, let's have a drink, and let's forget all our grudges with a smile!"

Fang Gezi took the lead and raised her glass as well, giving a toast to the silver-armored young man before turning to Lin Yi.

A man knows when to yield and when not to yield. Since things can't be done now, I'll wait for the next opportunity!

The inspector who was kicked by Lin Yi wasn't happy about it, but with Fang Gezi in the lead, the others followed suit and toasted to each other as if nothing had happened.

He had no choice but to act as if nothing had happened. With a smile on his face, he picked up a glass of wine and drank it with everyone.

Lin Yi's kick had sent him flying, but he wasn't actually hurt. The only injury he'd suffered was his face.

However, at this moment, he was acting as if nothing had happened. This showed that he had cultivated his skills in keeping up appearances to a high level. The crowd also pretended to have forgotten what had happened just now and left after drinking a glass of wine.

After Fang Gezi and the others left, Lin Yi cupped his fists and smiled at the silver-armored young man. "Captain, thank you for your help. If it wasn't for you, there would have been a little trouble today."

The silver-armored young man waved his hand and asked the guards to stand guard outside the banquet hall. When he turned around, his face was already filled with a warm smile.

There was even a hint of flattery in his eyes, completely different from his previous performance.

"You're too polite, patrol envoy Sima. It's my duty. Just now, my subordinate was insensible and offended patrol envoy Sima. I should be the one apologizing!"

The silver-armored young man cupped his fists and bowed to Lin Yi before continuing, "This subordinate is Zuo Lei, my father is Zuo Si. I often hear my father mention patrol envoy Sima, and he holds him in high regard! Seeing it today, it truly lives up to its reputation. This subordinate is filled with admiration!"

He spoke in a low voice to ensure that no one else could hear him.

Lin Yi was the vice-director of the inspection department, and there was no problem at all for Zuo Lei to call himself his subordinate!

He was Zuo Si's son, after all-it was only natural that he'd know Lin Yi's true identity!

He couldn't let his son suffer the same losses he'd suffered before, and he'd definitely warned Zuo Lei about Lin Yi coming to the starsource continent.

If Lin Yi didn't want to disclose his identity as the Vice Dean, then he'd have Zuo Lei play along and pretend he didn't know. He'd be able to get on his good side when the time came, and get to know him.

Zuo Lei was actually very happy that something like this had happened at the welcome dinner tonight.

He'd only wanted to show his face here, and now that he'd met Lin Yi, he'd gotten to know him and even left a good impression-what a great assist!

Speaking of which, he had to thank that disobedient little Captain. Later, his punishment could be slightly lighter!

"So it's Chief Inspector Zuo's son. He's really young and promising!"

Lin Yi was surprised-he didn't think he'd run into Zuo Si's son.

To be able to become the chief guard of the inspection department at this age, other than Zuo Si's support, Zuo Lei must also have his own strengths!

"I don't dare, I don't dare. In front of patrol Sima, who would dare to say that they are young and promising!"

Zuo Lei was speaking from the bottom of his heart-Lin Yi was even younger than him, and it'd take a long time before he could even get his position.

Just the Vice Dean of the inspection department alone was enough to leave him in the dust. He really didn't dare to say that he was young and promising in front of Lin Yi!

Lin Yi didn't think of this point, either-he'd been in a high position for a long time, and he'd treated Zuo Si as someone of the same generation as him, so it was only natural that he'd treat Zuo Lei as a junior.

Lin Yi couldn't help but laugh at the realization.

"Young master Zuo is too modest! Speaking of which, I haven't seen your father for some time. If there's a chance, we can meet up. For the time being, I'll have to trouble you to say hello to your father on his behalf!"

Lin Yi didn't have any bad feelings towards Zuo Si-he'd been bribed to go against Lin Yi, but he'd decided to join the good after finding out who Lin Yi was. He'd tried his best to salvage the situation.

Zuo Lei had helped Lin Yi solve a small problem this time, and so Lin Yi's attitude towards him was pretty good!

But that was all.

After some small talk, Lin Yi left the banquet.

The conflict was settled, but the other investigators all kept their distance from Lin Yi because of that. No one would risk offending seven second tier investigators just to get on Lin Yi's good side.

There was no point in staying, so it was better to return!

Lin Yi didn't care about the small incident at the dinner at all.

It was just seven second tier continents "investigators, not to mention the fact that Jin botian was Lin Yi's senior brother, just Lin Yi's Vice Dean identity was enough to kill them all.

Fang Gezi wanted to continue causing trouble for Lin Yi, but she didn't dare to act rashly after seeing the captain of the guards, Zuo Lei, talking to Lin Yi.

Chapter 8779

It was better to put the matter of targeting aside for the great tournament.

The night passed uneventfully. On the morning of the second day, someone from the inspection department came to inform them that all the investigators were to go to the inspection department to report on their work. All the guards and attendants were to stay at the station and were not allowed to enter.

Fei daqiang was a little regretful. He had already concluded that only by following boss and hugging his thigh tightly would he have a wonderful Life.

Fortunately, boss was only debriefing and would be back in a day and a half at most. He probably wouldn't miss anything fun.

Lin Yi said goodbye to Fei daqiang and left for the inspection department alone.

The investigators were walking in groups of two or three, but no one came up to greet Lin Yi when they saw him-they all kept their distance.

The ones with the best attitude only smiled faintly when their eyes met from a distance, nodded slightly, and then left.

Lin Yi didn't mind at all. If people ignored him, then they ignored him. If they showed him some kindness, he would return the favor with a smile.

When they arrived at the inspection Office, someone led them to the place where they would report on their work. There were several rows of seats in the spacious room, and three chairs were placed side by side on the main seat in the middle.

The Sangzi continent was a third grade continent, and the seats were arranged at the back. Lin Yi smiled when he saw Yan Su sitting next to him.

"Long time no see, director Yan! I didn't see you at the dinner party yesterday, so I thought you weren't here!"

Lin Yi greeted with a smile, and so did Yan Su.

"You didn't come yesterday. I just came from Fengqi continent and came here directly. I was thinking if I could meet you, and then you appeared in front of me!"

Yan Su pulled Lin Yi's arm and sat down, "Our two continents are next to each other, and our seats are also together. It's quite convenient. Besides you, I'm not familiar with the others here!"

He used to be mainly in charge of the combat Association and the affairs of Tianxia Academy. He didn't have any Foundation as a patrol and basically didn't involve himself in the affairs of other continents, so he had no contact with the patrols of other continents.

Fengqi great continent was only a third grade great continent, and Yan Su had the appearance of a little old man, so other investigators didn't have much interest in taking the initiative to make friends.

Before Lin Yi came in, Yan Su was really bored, and he didn't like to talk to people, so he just sat there and acted cold.

Lin Yi smiled as he sat down and started talking to Yan Su. The two hadn't seen each other for a long time, and they had a lot to talk about.

Unknowingly, the other empty seats were also filled with patrols, and it was time to start reporting.

Jin botian walked in with Zuo Si and another old man that Lin Yi had never seen before. He looked around the room, and his eyes flickered a little when he saw Lin Yi, as if he had a little more warmth in them. He nodded normally, just like he did to the other investigators.

He didn't reveal his relationship with Lin Yi, so he didn't show it.

It was necessary to keep a distance in the presence of outsiders.

"Greetings to Dean Jin, Vice Dean tie, and Chief Inspector Zuo!"

Seeing the three enter, all the investigators, including Lin Yi and Yan Su, stood up and saluted them.

Vice Dean tie's name was tie Shixin, and he was the most Senior Vice Dean in the inspection department.

He was already the Deputy Director when Jin botian was not. Now that Jin botian had become the director, he was still the Deputy Director ...

It was very stable!

Lin Yi didn't know who tie Shixin was, but all the other investigators knew him, so it wasn't hard for them to greet him together.

A strange look flashed across Zuo Si's face as he looked at Lin Yi, who was seated at the back. He quickly put on a smile and returned the salute, not giving Lin Yi any special treatment.

He was smart enough to know that Lin Yi's status as a Vice Dean was still kept a secret, and only a small group of people in the higher-ups knew about it.

So when he saw Lin Yi attending as the Sangzi continent's patrol, he didn't stupidly expose Lin Yi's identity-it'd only do him harm.

Jin botian walked to the seat of honor and raised his hand to signal for the investigators to sit down and talk. Only then did he take a seat in the middle, with tie Shixin and Zuo Si sitting on his left and right.

"First of all, on behalf of the inspection Institute, I would like to thank you for your hard work in the past year, which has guaranteed the stability and stability of every continent in our starsource continent! Although there were many problems in many continents, they were all resolved smoothly in the end. "

"This is all to the credit of everyone! Our inspection Institute will reward those who have made contributions and punish those who have made mistakes. Therefore, you don't have to worry about your achievements being buried! I guarantee that you will receive the rewards you deserve ..."

As the hospital director, Jin botian gave a simple opening speech. He did not give a long speech and only used two to three minutes to get to the end."... I still have some things to deal with. General Inspector Zuo will be hosting the debriefing meeting next. Vice Principal tie will also stay ..."

He'd only been here for five minutes, and didn't have time to talk to Lin Yi.

She thought about how he wasn't in the inspection department yesterday. It seemed like he was really busy with something important.

Lin Yi guessed, but couldn't figure out what Jin botian was busy with.

If Zhang Yiming also came, he might be able to collect some information. He and Fei daqiang did not have any talent in this area, so they did not get any relevant information.

Zuo Si chuckled as he stood up and cupped his fists."Dean Jin has important matters to attend to, but it's the same with Vice Dean tie and this Zuo. Let's get to the main topic and start from here!"

Tie Shixin nodded slightly in agreement with Zuo SI's words. He had stayed behind only to hold the line, and Zuo Si was still the main person in charge.

Zuo Si was the chief Inspector, so it was normal for him to be in charge. After all, this guy toured the various continents all year round, and the inspectors of each continent were the targets of his supervision.

Basically, everyone knew who had done or didn't do anything. Tie Shixin, on the other hand, had been at the headquarters of the inspection department the whole time, so it was most suitable for him to stay as the Deputy Dean to hold the fort.

The first one to start was the patrol envoy of the first-class continent, Xingyuan continent.

This patrol looked impressive, but it was actually quite difficult. The headquarters of the inspection Institute was in the great star source continent, so it really didn't matter whether he was a patrol or not.

The headquarters of the inspection Institute would directly deal with the slightly bigger matters, leaving him, the inspector, with all the trivial matters.

Therefore, he looked like a first-class inspector of the continent with boundless glory, but in the end, he was really just for show!

There was no other way. He could only speak from the perspective of the inspection Institute's leader being well-respected, and it would be over after he flattered the inspection Institute's leader.

The other continents' investigators were well aware of this. While they secretly held back their laughter, they also had to flatter him. It was quite difficult.

Chapter 8780

After that, things became much more normal. According to the ranking of the continents, each continent's inspector had a draft before coming, so they could smoothly report their work.

Basically, they were all bragging about their abilities, achievements, and all kinds of excellence. It sounded like the entire star source continent was in a state of prosperity, and there was nothing bad about it.

Of course, Zuo Si knew how much of it was fake, but he'd had a tacit understanding with these investigators before-he had to act like nothing happened in front of Lin Yi, but he was cursing at these shameless people in his heart. There should be a limit to their bragging!

Lin Yi, on the other hand, was listening with great interest-it didn't matter how exaggerated their stories were, it was still interesting to listen to. After nearly four hours, it was finally Lin Yi's turn.

He'd heard that the book was interesting, but he couldn't help but scratch his head!

What had he done in the past year? Last year, he was at Fengqi great continent and only came to Sangzi great continent in the first half of this year.

Fengqi great continent had a lot of things to say, but that was already within the scope of Yan SU's work report. He was mainly responsible for Sangzi great continent's matters.

But there was nothing to say about Sangzi continent. They couldn't say that they suppressed the Jia family and forced the sky array sect to go into hiding, right?

On one hand, it was not good to disclose it. On the other hand, this was also within the scope of the responsibility of martial Alliance's great Hall Master.

"Patrol envoy Sima, you can start now. If you still haven't decided, it's fine to wait for a while. Let the others speak first?"

Zuo Si was smiling brightly as he made his way to Lin Yi.

If Lin Yi wanted to, he'd do it himself and brag on Lin Yi's behalf. He was definitely more shameless than those shameless people!

Lin Yi stood up and cupped his hands, "Thank you, Chief Inspector Zuo, but there's no need for that. I don't have much to say. After this year's new Year, I was officially transferred to the Sangzi continent. It's only been half a year."

"I've basically been sorting out my Affairs in the past six months, and I didn't do anything worth talking about. Moreover, the Sangzi continent is peaceful now, and the people are living in peace and contentment. The darkness demon beast clan has also been suppressed, so there's really nothing to talk about. "

Zuo Si clapped his hands and laughed, "good, very good!" Nothing is the best result, inspector Sima has worked hard to maintain the stability of the Sangzi continent, you've worked hard!"

No matter how bad Lin Yi's words were, he'd still find a reason to praise him. It was just that his reaction surprised the investigators.

What's wrong with this Zuo guy? Did he take the wrong medicine?

Or was he bribed by Sima Yi? You didn't do anything, and that's considered a good thing? He could even get praise?

Fang Gezi and the others were slightly enlightened. Could it be that Sima Yi's backer was Zuo Si?

The chief Inspector was indeed in charge of these investigators, but they weren't really afraid of Zuo Si.

Because of this guy's improper behavior, they also had many things they could use against him.

To put it bluntly, they were all grasshoppers on the same rope. If they were really shaken out, no one would have a good time!

If Sima Yi's backing was really Zuo Si, then things would be much simpler!

This was because Zuo Si was one of the backers of many other investigators. Everyone was the same, so who was afraid of who?

Seeing Lin Yi sit down with a smile, Fang Gezi couldn't help but stand up. She wanted to test if Lin Yi's hidden card was really Zuo Si.

"Chief Inspector Zuo, that's not very appropriate! For half a year, he had been sorting out his Affairs? He's such a low-efficiency person, and you actually praise him for working hard?"

Fang Gezi cupped her fists in greeting, but the corners of her lips were obviously curled into a mocking smile. ""If that's the case, all of us investigators present would probably die of exhaustion!"

The few second-grade continents 'investigators who were with Fang Gezi the day before burst into laughter and echoed Fang Gezi's words in an enigmatic tone.

Zuo Si was a little embarrassed. He cursed Fang Gezi for being out of her mind. Was she trying to turn against him?

"Patrol envoy Fang's words are wrong. Nothing happened in the great land of Sangzi and it's quite stable. This is all thanks to patrol envoy Sima! If you insist on looking for trouble and making a scene, it's not good for anyone. It's better to avoid some trouble if possible. "

Zuo Si steadied his mind. His expression darkened as he warned Fang Gezi with hidden meanings.

He meant to tell him to calm down. If he were to look for trouble, it would only be trouble for both him and Fang Gezi!

But Fang Gezi was determined to find out. If Lin Yi's only backer was Zuo Si, then they would take revenge without any restraint!

"Chief Inspector Zuo, I can see that Sima Yi doesn't seem to care at all. It's obvious that he doesn't care about the affairs of the great land of Sangzi. The way he spoke just now also shows that he's looking down on the inspection Institute!"

Fang Gezi glanced at Lin Yi indifferently and started to direct her anger at him. "That's why I want to impeach Sima Yi. He's a useless patrol envoy, and he looks down on the patrol Council. This kind of scum should be removed from his position as patrol envoy! General Inspector Zuo, you have the authority to do so. Please make your decision on the spot!"

The corner of Zuo Si's mouth twitched. Decisive your sister!

If I dare to remove Sima Yi from his position as patrol envoy, Sima Yi will also dare to remove me from my position as chief patrol!

Fang Gezi, you B * stard, you're here to kill me, aren't you?

Zuo Si was cursing in his heart, but he still had to maintain a calm expression. He waved his hand and said, "Investigator Fang, this is where you're wrong! Patrol Sima is doing nothing, that's why the great land of Sangzi is so stable. "

"If it's like what you said, the Sangzi continent should be in Flames of War by now! Speaking of which, us patrols are in charge of supervision and inspection. Under the circumstances of world peace, it is indeed more leisurely, so there is nothing wrong with that. You are using this as the basis for impeachment, it is simply ridiculous!"

"If it's really as you say, most of the investigators here should be impeached for being dead! Why don't you sort out the list and impeach them?"

He'd even expanded the area of impact, diverting some of the firepower away from Lin Yi.

Fang Gezi didn't fall for it and continued to cling onto Lin Yi, adding, "Chief Inspector Zuo is so protective of Sima Yi, could it be that he has received some great benefits? Looking at Sima Yi's fearless expression, it really does seem like someone is backing him up!"

Zuo Si's expression changed drastically. He slammed the table and shouted angrily, "Impudent! Fang Gezi, are you going to impeach me as well? Come, come, come, Vice Principal tie is also here. In front of Vice Principal tie, you can also impeach this Lord!"

"They actually said that I received bribes and covered up for others, this is simply preposterous! Vice Principal tie, this subordinate is righteous and has a clear conscience, but since patrol Fang is suspicious of me, I can only avoid suspicion and allow Vice Principal tie to deal with this matter!"

Zuo Si righteously pushed the boat along with the current and threw this hot potato to iron stone heart.
