

## **Bodyguard 8791**

### Chapter 8791

Lin Yi smiled faintly as he started a fire in his left palm and sent the Jade in.

This time was obviously a lot easier than the first time, and Lin Yi decided to split his attention and explain the technique and thought process to Lu Guichen in the name of research.

In reality, he was using this opportunity to teach them the basics of talisman refinement!

Lu GUI Chen knew this, but he couldn't reject Lin Yi's good intentions.

He didn't expect Lin Yi to fulfill his request so easily, something he couldn't even bring himself to do.

From this moment on, Lu GUI Chen didn't just have respect for Lin Yi, he was also grateful from the bottom of his heart!

Under Lin Yi's hands-on teaching, Lu GUI Chen quickly understood the basics of making talismans.

After all, he was a Grandmaster of arrays, and there was no doubt that he was talented in this area. It was not difficult for him to understand these relatively simple introductory basic knowledge.

The only thing that he was unable to immediately create a talisman was the flame.

He was a Grandmaster in array Dao, but not in alchemy. Although he had dabbled in alchemy, it was a pity that he could not be compared to Shi Yucai's monstrous talent.

Therefore, the alchemy fire that Lu GUI Chen was able to condense was not suitable for refining talismans, unless he spent more time to improve his alchemy fire.

Or, he could obtain a heaven and earth spiritual fire. That would be the best choice.

Although the heaven and earth Spirit Fire was extremely rare, this was the star source continent, the most prosperous Center of the entire continent. With Lu GUI Chen's status, he might have a chance to obtain it.

Lin Yi didn't think much about these situations, so he taught them how to make formation talismans as a way of repaying Lu Guichen's favor.

Everyone's karma was settled, so the other matters should be considered by Lu GUI Chen.

After making a few low-level talismans in a row, Lu Guichen had basically grasped the trick. Lin Yi was no longer satisfied with these low-level talismans and tried to make higher level and more profound ones.

This involved even more of the knowledge from the incomplete records of the library. During the refining process, Lu GUI Chen also discovered many familiar places.

However, he had never seen or even imagined such a combination. It was too magical!

After spending two to three times the amount of time, Lin Yi successfully made his first intermediate level talisman!

"Mr Lu, let's go with the old rules. Let's try the talisman. I'll activate the talisman, and you attack me with the power of the earth opening stage!"

This was a defensive talisman, and the maximum it could withstand was an attack from a cultivator at the peak of earth creation stage. Lin Yi was ready to experience it for himself.

In fact, an earth formation level attack was of no threat to Lin Yi, so this level of formation was useless to him.

Lu GUI Chen already understood Lin Yi's personality and style, so he didn't hold back and reached out his hand, "I'll activate the talisman while you attack. This way, you'll be able to more accurately test the talisman's power."

Lu Guichen wanted to activate the first intermediate level talisman that Lin Yi had made, as it would be more memorable to him.

"Alright, Mr Lu. Please activate the defense talisman!"

Lin Yi didn't mind and threw the talisman to Lu GUI Chen. After Lu GUI Chen took it, he touched it for a while before activating the talisman.

A layer of translucent light film was emitted from the talisman, wrapping Lu GUI Chen's entire body in a 360 degree defense.

This defensive talisman could block a total of ten attacks from a normal cultivator at the peak of the earth opening stage. Lin Yi suppressed his strength and threw a punch at Lu Guichen with the power of a normal cultivator at the peak of the earth opening stage.

The light barrier lit up for a second, blocking Lin Yi's fist outside. The light barrier didn't move at all, and Lu GUI Chen was also unharmed.

Only the number of times the defensive talisman could be used had increased from ten to nine.

"No problem! The defensive talisman has perfectly blocked your attack!"

Lu GUI Chen was a little excited. Although the earth formation talisman was also useless to him, he held the talisman in his hand as if it was a precious heaven breaking defensive talisman.

"Very good! Let's continue!"

Lin Yi didn't stop. He maintained his strength at the peak of earth creation realm and used some of his attack skills to double the power of an ordinary peak of earth creation realm!

With a loud explosion, the light membrane on Lu GUI Chen's body finally produced a continuous fluctuation, but in the end, it still managed to nullify the attack.

Lu GUI Chen, who was in the middle of it, didn't suffer any impact.

"This attack has exhausted two of my defenses. I only have seven more talismans left!"

Lu GUI Chen glanced at the talisman, his face revealing an extremely satisfied expression.

Normally, this kind of earth-splitting defensive talisman could only defend against the attack of an ordinary cultivator at the great circle of earth-splitting.

Lin Yi's strength this time had exceeded the formation's defensive limit. In theory, the light film would be broken, and the formation wouldn't increase its defense even if it had extra times.

However, the talisman in his hand increased the defensive power of the light film by increasing the number of times it was used. This was undoubtedly a true life-saving treasure for the user!

"Not bad! Continue!"

Lin Yi nodded slightly. He didn't look surprised at all, as if he'd expected this. He threw out another punch as he spoke. This time, the power was increased to the level of a half-step sea splitting cultivator.

Lin Yi's fist landed on the light membrane, and it started to shake violently. It was clear that the power of Lin Yi's attack this time had exceeded the light membrane's theoretical limit.

The powerful force and the light membrane were locked in a stalemate for three seconds. In the end, the light membrane couldn't block Lin Yi's attack. There was a crisp cracking sound in the air, and the entire light membrane shattered into pieces and disappeared.

However, Lu GUI Chen, who was protected by the light membrane, was not hit by the aftershock. He stood on the spot without moving at all, and the talisman in his hand shattered along with the light membrane.

The seven times of defense were used up, and it was a perfect block for Lin Yi's attack.

It was said to be an attack of a half-step sea shattering realm, but in fact, Lin Yi's half-step sea shattering realm could be compared to a normal sea shattering realm martial artist, or even stronger.

"I more or less understand. The performance of this defensive talisman is not bad. It's even slightly better than expected."

Lin Yi nodded, satisfied with the process.

Lu GUI Chen was dumbfounded, "this is only slightly better than expected?" I think it's already perfect!"

The demonic thing also spoke up. "You're quite talented in making array talismans. The array talismans this time are indeed quite perfect. Although the defensive array talismans on the sub-Island can't defend against the attacks of the initial stage of the land creation realm on the heaven-class Island, they're still quite rare and high-quality."

Chapter 8792

The sub-Island mainly relied on the strength of the physical body. The Qi of attributes only assisted the physical body to obtain more powerful strength.

On Sky Class Island, however, Qi was converted from spirit Qi to battle, and the destructive power was stronger.

Even so, the mainstream defensive formation that the Wang siblings used back then was only at Lin Yi's level!

It wasn't that there weren't any higher-grade ones, but that they basically didn't need them.

"Many thanks for senior ghost's praise. Then, can I now refine higher grade talismans? Senior ghost, do you want to come and give me some pointers?"

Lin Yi's words hit the damn thing's weak spot-it only knew the basics of talismans, and didn't know what to do after that.

"Ahem, don't aim too high. You need to consolidate your strength and study the other techniques. But you have a lot of things to do now, so you don't need to spend too much time on talismans."

The ghastly thing coughed twice and immediately changed the topic."First settle the matters here, then properly go into seclusion to research and refine talismans. With your current level of strength, those low to mid level talismans are completely meaningless."

"If you want to refine high-level talismans, you can't do it in a place like this. Alright, that's all I have to say. I'll go back and continue studying the laws of space. You can do the rest yourself!"

After saying this, the damn thing really went back to the Jade space to study the space Array ...

The two only communicated for an instant, and Lu Guichen didn't even notice that Lin Yi was talking to someone else. His face was still full of respect,""Grandmaster Sima, you're really too strong. You can actually refine such a powerful talisman, I'm impressed!"

Lu GUI Chen really wanted to prostrate himself on the ground. Making talismans was already extremely rare, but Lin Yi was able to make a talisman of the same level far stronger than normal ones. He couldn't help but be impressed.

Hence, Lu GUI Chen called Lin Yi "master" directly. If Lin Yi could make a higher level talisman, even if it wasn't a high level one, he would be able to call him "Grandmaster" if it was an intermediate level talisman that leaned towards a higher level.

"You're too kind, Mr Lu. There's nothing special about it. I'm just following the steps. I believe you'll be able to make the same talisman in the future."

Lin Yi was very humble, and decided to listen to the ghost's words and not study high-level talismans for the time being.

An intermediate-level talisman had already stunned Lu GUI Chen. If a high-level talisman were to appear, wouldn't he be completely knocked out?

"Grandmaster Sima, is this really your first time refining talismans? You've learned it before, right?"

Lu GUI Chen complimented her again, then changed the topic and raised the question in his heart.

He didn't think that Lin Yi was a newbie at all-he was probably a disciple of some formation or talisman inheritance.

Lin Yi waved his hand and smiled,"no, if I didn't see the incomplete text in your library, I wouldn't know how to make talismans at all. I just happened to have some basic rudiments books with me. I combined the two and found the way to make talismans."

"So, this is really my first time making talismans. I'm learning and putting it into practice at the same time. It's a good thing that you've provided me with all kinds of materials, Mr Lu. Otherwise, I'd have to spend a lot of time collecting them, which would have wasted a lot of my time. Well, I should thank you, Mr Lu!"

This was not unreasonable. Most of the time, when a person's inspiration came, it would be successful. Once it was delayed, the inspiration would disappear, which was equivalent to missing the opportunity.

Lu GUI Chen understood this very well, but he still couldn't believe that Lin Yi could complete the formation while learning!

Even the word 'genius' was insufficient to describe him! This was simply a F \* cking demon!

"You flatter me, you flatter me. Those materials of mine are simply insignificant things, let's not mention them!"

Lu GUI Chen said as he thought about it. He wanted to continue watching Lin Yi make more talismans, but he had already used up a few of the materials he took out.

Middle-grade talismans used a lot more than low-grade talismans. He didn't know if Lin Yi could use the materials he had to make more, but it was obviously too late to gather them now.

If he had known earlier, he would have prepared more ... Or if only he had not wasted so many materials in the past ...

For Today's Plan, it was better to change the path!

"Grandmaster Sima, I have a presumptuous request. Although our talisman Academy has fewer students, they really love the Dao of talismans. I wonder if you would be willing to give them a lesson?"

Lu GUI Chen was confident that he had grasped the method to make low-grade talismans, but he wasn't confident that he would be able to teach it to those students.

After all, the quality of his classes had dropped significantly during this period of time, and he still hadn't found the reason for it. It was rare to have a master level talisman genius like Lin Yi here, and Lu GUI Chen had to grab this opportunity to give the students a way to learn.

"Are you in class? It's not impossible, as long as you don't mind my low standards, Mr Lu!"

Lin Yi agreed to the invitation without hesitation. It was one of his plans to give the students points, and he was just going with the flow.

"Grandmaster Sima is too modest. If your standard was too low, then I, as the principal of the talisman division, could only be considered a layman! It is the honor of our entire Academy to have you teach!"

Lu GUI Chen was overjoyed, he started to rub his hands to hide his emotional fluctuations, ""Let's not delay any further. Why don't we go to the classroom now? Grandmaster Sima, you're a noble and busy person, I can't take up too much of your time. "

He didn't want Lin Yi to have to leave, and he had no reason to keep him.

"Don't worry, I'll definitely be staying at the school today. We still have a lot of time. Speaking of classes, I just remembered something. Before I go to class, can I ask Mr Lu for advice?"

Lu GUI Chen was slightly startled, and then he said seriously, ""Grandmaster Sima, if you have anything to say, please say it. I will definitely tell you everything I know. If you say that you want to ask me something, you are treating me as an outsider!"

Lin Yi nodded, "then I won't be polite!" Actually, before I came to the Academy, I paid a visit to Dean Shui. I heard from him that there have been some problems with Dean Lu's teaching recently. Is that true?"

Collecting information on the drop in teaching quality and finding the problem was Lin Yi and Yan SU's most important plan and goal.

In comparison, accumulating points in class was just a matter of convenience.

Lu GUI Chen froze for a second, he didn't expect Lin Yi to ask about this!

To be asked about this matter in person, he would definitely feel very embarrassed. However, Lu GUI Chen was a free and easy person. If not for this, he wouldn't have been the vice principal and principal of the Academy, and he wouldn't have been so unkempt all day.

With his respect for Lin Yi, he didn't feel offended at all. He nodded naturally, "That's true. I didn't think that Dean Shui would mention it to Grandmaster Sima. Could it be that Grandmaster Sima has a solution?"

Chapter 8793

Lin Yi quickly shook his head, "there's nothing we can do for now, but if we can find the cause, we might be able to find a way to deal with it!" Mr Lu, can you tell me more about this?"

"There's no harm in saying it, but I don't know what to say either!"

Lu GUI Chen scratched the messy beard on his chin, a distressed look on his face, ""Because I couldn't find the reason, I thought everything was normal, but everything just didn't seem normal ... I really don't know how to describe it.

"During the class, it was the same as before. There was no change at all. The students' talent and wisdom were not bad, but after I taught, everyone seemed to be a little confused, as if they could not understand what I was saying. It's too strange!"

It could be seen that Lu GUI Chen was really distressed. This problem had obviously troubled him for a long time, but he had yet to find the reason.

Lin Yi frowned-it seemed that talking to the people involved wasn't the best way to gather information. He'd have to look at their classes first.

When he first came to the school, Lu Guichen was in class, but Lin Yi didn't know much about talismans at the time. Lu Guichen's lectures were also full of ideas, including the students' thesis content. Lin Yi couldn't understand at all.

If he was teaching in the array path sub-school, he might be able to find the problem!

Well, if Lu Guichen were to give another class, Lin Yi might be able to see something ... He could get Lu Guichen to teach him later when he went to class.

"So that's how it is. This is really strange ... Forget it, let's not talk about this for now. Let's go to class first!"

In the entire talisman division, Lu GUI Chen was the only teacher. If he said he would teach, then he would. If he didn't, then those students could only manage themselves.

So when Lin Yi said he was going to class, Lu Guichen made the arrangements immediately.

Soon, all the students gathered in the classroom, quietly waiting for Lu GUI Chen to start his class.

They might be the bad students who were abandoned by the array path sub-school, but they did have a deep love for array talisman Xin, otherwise, they wouldn't have stayed here.

After all, Tianxia college had other sub-schools to choose from, and any one of them looked more promising than the array and talisman sub-school.

"Today, we are very honored to have invited sang Zi great continent's patrol envoy, Sima Yi, Grandmaster Sima to give us a lesson. You may not know, but Grandmaster Sima is a Double Diamond Grade Grandmaster in the array Dao and alchemy Dao. He has also done a lot of research on talismans and is a true-blue talisman Grandmaster!"

Lu Guichen introduced Lin Yi first. He didn't know what Lin Yi's limit was in the field of talismans, so he didn't want to exaggerate too much and only said that he was a talisman master.

but those students were somewhat disapproving. a third-grade continent's patrol envoy ... what's so great about it?

a double diamond grandmaster was pretty impressive, but it had nothing to do with them.

as for talisman grandmaster Bi An's method of refining talismans, it had been lost in the outside world for a long time. any Tom, Dick, or Harry would dare to call themselves a talisman grandmaster, but in reality, they simply couldn't refine talismans.

they didn't care about a talisman master like this!

"Mr Lu, we don't need a talisman master to teach us. you're more than enough!"

some of the more courageous students protested. they were all abandoned by the academy, only lu gui chen didn't look down on them, and always brought them along, so they were only convinced by lu gui chen!

in any case, this was how the talismans and formations course was. they didn't expect to be able to produce any results from their research and just treated it as a hobby.

"That's right, Mr Lu. We don't study arrays or alchemy. This Grandmaster Sima is not a suitable teacher for us, so it seems like a waste of time for us to attend his class!"

No matter how much they were abandoned, they were still a part of the Tianxia Academy of the starsource continent. They had a sense of superiority in their hearts.

Naturally, they felt that Lin Yi, who came from a third tier continent, wasn't qualified to give them a lesson.

Coupled with the respect they had for Lu Guichen, it was why Lin Yi was mocked even before the class started.

Lu GUI Chen had not expected such a thing to happen.

Lin Yi was a true-blue talisman master, and even he himself admired Lin Yi to the point of prostrating himself in front of him. He felt like he had more face than the sky to be able to get Lin Yi to teach him.

If he was ruined by these ignorant kids, Lu GUI Chen didn't know what to do.

"all of you shut up! what have i taught you? how can all of you be so unruly!"

lu gui chen's face turned serious, bringing out his dignity as a teacher. for a moment, the students below no longer made a sound, as if they were all intimidated by him.

after a few seconds, someone whispered, "mr lu, you're always like this ..."

lin yi's lips twitched a little, but he held back his laughter. if he laughed out loud, it'd be disrespectful to lu gui chen.

looking at his unkempt appearance, it was indeed easy to imagine that he had an extremely close relationship with these students. it was normal for him to be rude to them.

lu gui chen coughed twice to hide the awkwardness in his heart. he secretly glared at the student who was mumbling to himself, pretending that nothing had happened.

"That's enough. Grandmaster Sima is a powerful talisman master. To be able to come and give you a lesson in his busy schedule is a blessing that you have cultivated in your previous life. Be serious and stop embarrassing yourselves!"

Lu Guichen scolded and invited Lin Yi to the podium, ""Grandmaster Sima, please begin the class. I'll sit down and listen to the class with them."

Lin Yi didn't stand on ceremony and went on stage to do a simple handover with Lu Guichen before turning to face the students below. He only started talking after Lu Guichen sat down.

"I'm Sima Yi. Mr Lu has already introduced me, so I won't say anything more. Actually, I haven't been in contact with talismans for long. I'm just learning and practicing. It's my honor to be invited to teach you all."

It was a very ordinary and humble opening speech. Although the students below were still somewhat disapproving, because Lu GUI Chen was sitting in the middle of them, no one came out to pick a fight.

".....Now, the class will officially begin. I will explain to everyone the basic theory and simple techniques of refining talismans, as well as the various key points and tricks that you need to pay attention to during the refining process. I hope that everyone will be able to gain something ....."

When Lin Yi said that the class had officially started, Wu Linghai felt a faint divine sense fluctuation in her sea, and she immediately raised her attention.

He continued to talk about the basic knowledge of refining talismans while his spiritual sense silently locked onto this fluctuation and began to entangle it without a trace, slowly analyzing it.

Chapter 8794 The End

This thing posed no threat to Lin Yi, and he didn't even notice it when Lin Yi turned it around. The difference in strength between the two was too big.

In an instant, Lin Yi analyzed the use of this spirit sense. It could affect people's thoughts, but it was extremely hidden and hard to be discovered.

Those who were affected would never know that their thoughts had been affected. Instead, they would feel that everything was normal.

The way it affected one's thinking was similar to messing up the order of words. On the surface, it seemed like there was no question, but in reality, there was a fundamental difference, just like the text above.

This was a silent method that would unconsciously confuse a person's thoughts. The most terrifying thing was that you didn't feel that there was a problem at all and instead thought that everything was normal.

However, when the lesson ended, there would be many mistakes in the content that you wanted to review. The final result would naturally be that the teaching quality of the tutor was very poor!

Lin Yi understood now-the root of the problem lay in this trace of consciousness.

Now, he only needed to find the source of the spiritual fluctuations and he could find a solution to the problem, right?

"... Refining talismans requires a high-quality flame, and an alchemy fire is a pretty good choice. If everyone can condense an alchemy fire, you'll be able to do twice the work with half the effort in refining talismans. Of course, it'll be even better if you can find a heaven and earth Spirit Fire ..."

Lin Yi continued explaining about formations, splitting his attention and extending his spirit sense out to follow the ripple, trying to find its source.

All the students sat up straight and listened to Lin Yi's class seriously, no longer looking down on him!

Although Lin Yi only explained the beginning, they could tell that it was the real deal, the extremely precious secrets of talismans and formations!

It was shocking to hear about it in class today.

Although they had the pride of a young man, they also had a fanatical love for talismans, so they quickly got into the mood and began to indulge in it.

It was just that when they focused on the class, they felt like they didn't really understand what Lin Yi was talking about ...

He was clearly enlightened and enlightened, so why couldn't he understand?

Could it be that they were really too lacking in talent?

Lin Yi didn't know that some of the students were starting to doubt his talent, but he found the source of the Spirit's fluctuation very smoothly!

This discovery surprised Lin Yi-could it be that Lu Guichen was messing things up on purpose?

It shouldn't be, right? If that was the case, there was no need for Lu Guichen to invite Lin Yi to his class!

In order to verify his guess, Lin Yi paused the class and smiled at Lu GUI Chen, "Mr Lu, I'm so sorry. Can I trouble you with something?"

Lu GUI Chen was stunned for a moment, he quickly stood up and said, "If there's anything you need, just say it. I'll definitely do it!"

"It's not a big deal. We left some materials in your office just now. Could you please go and get them for me?"

Lin Yi didn't take away some of the scraps earlier, and now he was using it as an excuse to send Lu Guichen away.

After all, this was Lu GUI Chen's classroom. If he didn't have any reason, it would be too outrageous to let Lu GUI Chen leave the classroom.

It was easy now. Although the excuse was a little bad, it was better than nothing.

Lu GUI Chen didn't understand why Lin Yi wanted the scraps, but he didn't ask.

It wasn't troublesome at all, and he was happy to run errands for Lin Yi.

"Alright, wait a moment. I'll go get it immediately!"

He could've sent one of the students to get the stuff, but he didn't want the students to miss a single part of Lin Yi's lecture. He didn't say anything and ran back to his office himself.

The moment Lu GUI Chen left the classroom, the fluctuations of his chaotic thoughts quietly disappeared, no longer affecting anyone.

As expected!

The problem was with Lu GUI Chen, but Lu GUI Chen himself didn't seem to have made a move, and he didn't even know that there were strange spiritual sense fluctuations coming from his body!

After Lu GUI Chen left, the students suddenly felt their thoughts clear up and their minds became sharp, absorbing the content of Lin Yi's class instantly!

Lin Yi's teaching style was very unique-he always went straight to the source, using the simplest method to explain the most fundamental Dao, so it wasn't hard at all.

When Lu GUI Chen came back, the students went from disdaining Lin Yi's class to cheering for him. The change was obvious.

When Lu GUI Chen re-entered the classroom, that trace of spiritual awareness fluctuation quietly appeared again!

Lin Yi had been paying attention the whole time and naturally noticed its existence immediately. At the same time, he also found the location of the spirit sense!

It wasn't Lu GUI Chen's spiritual sea!

Instead, it was the teacher's badge on Lu GUI Chen's chest!

That shiny and delicate thing could actually emit such a strange spiritual sense fluctuation on its own. What was this thing?

The badge only attracted Lin Yi's attention when it first started emitting its spirit sense, but it quickly spread to Lu GUI Chen's entire body.

With that, the badge was well hidden on Lu Guichen's body, and Lin Yi didn't notice it at first.

Interesting!

Lin Yi took the material from Lu Guichen's hands without a sound and attached his spirit sense to the badge on Lu Guichen's chest, covering the spirit sense it was emitting.

The difference in levels between the two was huge, and the badge couldn't fight back at all. Lin Yi easily cut off the chaotic thoughts.

After all, Lin Yi's class wasn't over yet, and he couldn't let this affect the quality of his class.

It was a rare opportunity for them to come here, and it would be too embarrassing if someone said that Sima Yi's teaching standards were poor!

"Thank you, Mr Lu. You've worked hard!"

Lin Yi thanked him and showed the material to the students. "Everyone should be familiar with these materials, right? They're the items needed to make formation talismans, but the timing, quantity, position, and so on are also very particular during the process of making them. We've already briefly talked about them just now, so now I'll go into detail ..."

Lin Yi spent the rest of his time explaining the basics of making talismans in simple terms.

Those students could basically grasp the key points. As for whether they could successfully refine low-level talismans, that would depend on their own talent!

Lin Yi saw that it was getting dark-he couldn't go any deeper into the making of higher level formations, so he ended the class.

Chapter 8795

..."That's all for today! After everyone goes back, you can properly organize the contents of today's class and use your heart to comprehend it. If you can find a suitable flame, you should be able to refine a low level talisman!"

Lin Yi started to summarize,"after everyone has mastered the basics of making talismans, you can learn the higher level ones. It'll be much more efficient, so don't aim too high. You have to take it one step at a time and build a solid foundation!"

"As for the techniques and methods after the basics, I'll sort them out and give them to Mr Lu. He'll continue to teach you about talismans and formations! I'm looking forward to seeing all of you grow into incredible talisman Masters in the future!"

"I've finished my class. Thank you, everyone! Class Dismissed!"

After Lin Yi finished speaking, everyone including Lu GUI Chen applauded and cheered for Lin Yi. They were all convinced by Lin Yi and admired him greatly.

Especially the students-their understanding of talismans was like a desert, and Lin Yi's class was like rain, turning their desert into an oasis!

Even if it hadn't become an oasis yet, at least it had the trend of becoming one.

The next step would depend on their own efforts.

As long as one's talent was passable and they worked hard enough, becoming a qualified talisman master would definitely not be a problem!

Lin Yi bowed slightly to thank the crowd for cheering him on before leaving the classroom with Lu Guichen under the students "respectful gazes.

"Grandmaster Sima, it would be great if you could become a teacher in our Academy! I believe that under your guidance, these little fellows will definitely grow rapidly and regain the glory of talismans and formations!"

Lu GUI Chen's heart was filled with emotions. He had never thought that there would be a day where the formation talisman sub-school would live up to its name, but now it seemed that day was not far away.

But he knew that Lin Yi couldn't be a teacher here.

Not to mention anything else, just the position of Sangzi great continent's patrol was enough to explain the problem!

Moreover, Lu GUI Chen had heard that Lin Yi was the double Vice President of the array and pill Dao guilds.

These statuses were high enough-not to mention being a teacher, even his position as the Dean of the School couldn't be compared to Lin Yi!

"You're too kind, Mr. Lu. You're an excellent teacher. As long as you have a complete knowledge system, you'll be able to help your students grow."

Lin Yi praised each other before casually mentioning his target."By the way, the teacher's badge Mr Lu is wearing is very exquisitely made! I saw some of the instructors wearing different badges. "

Lu GUI Chen lowered his head to look at the badge on his chest and shamefully waved his hand,""Speaking of this badge, I'm a little embarrassed. This is a teacher's badge that was specially made last year. Because there aren't many of them, they were given to the teachers who performed well in all the branches of Tianxia college as a kind of reward."

"It's most likely because I have sufficient experience and am more diligent. In addition, I'm the only teacher in the talisman division, so I managed to get an outstanding evaluation and obtain this specially made badge. Thinking about it, I really don't deserve it!"

"This year, the quality of my lessons has been plummeting. Most of the students are saying that they don't understand what I'm saying. I can't find the reason why either. So, Grandmaster Sima, you said that I can also help the students grow. I don't think I can do it ..."

Lu GUI Chen's personality was indeed not bad. This kind of thing was usually a taboo to others and was even afraid to hide it. How would he expose his own weakness in front of others?

Yet, he was able to say it so frankly, and this forthright attitude of his was able to win people's favor. At least, Lin Yi's impression of Lu GUI Chen was very good.

"Sigh ... If it wasn't for the Academy's rule that I have to wear a badge, I would've kept this thing away long ago! Because I don't live up to my name! But this is also good, as the saying goes, "after knowing shame, one will be brave." I'll just treat it as a spur to spur me on ..."

Lu Guichen was still rambling on, but Lin Yi seemed to have understood something!

No wonder!

This badge was specially made and was awarded to all the outstanding teachers in the branches as a reward. Therefore, the scope of the decline in teaching quality included all the branches of the entire Tianxia college.

As for the instructors whose teaching quality had declined, if there were no accidents, they should be those who were wearing new badges!

Shui Yuntian had discovered a problem, and when he wanted to verify it, the teachers he had sent over should be those who had not received the badge from their respective Academies.

They were still wearing the old badges from before, and they would not release fluctuations of consciousness that could confuse the mind.

Therefore, when they were in class, whether it was the instructor or the students, their minds were in a normal state. Naturally, there would be no abnormal phenomena.

The chaotic thoughts in the badge was very well hidden. Other than Lin Yi, only the witch race's Masters would be able to detect it!

There weren't any witch race experts in the Tianxia Academy. No wonder Shui Yuntian couldn't find the reason no matter how hard he tried!

Now, all he had to do was to follow the clues and find out who had arranged for the creation of these special badges, who was supervising the creation, and who had personally created them. All his problems would be solved!

Lin Yi nodded to himself. He didn't think that he would find the answer to the most important question so easily. He was about to get more information from Lu Guichen when the students from the school chased after him.

"Grandmaster Sima, please wait a moment ..."

A total of three students had caught up to them. Their young and inexperienced faces were slightly uneasy and nervous.

Lin Yi stopped and turned around, his eyes landing on them, making them even more nervous.

It was obvious that it took a lot of courage for them to make the decision to chase after Lin Yi. They didn't know where to start under Lin Yi's gaze.

Lin Yi smiled and spoke kindly, "Is there anything the three of you need? Or is there something you're not clear about, so you want to ask?"

After the class, if there was something they didn't understand, there would indeed be people asking the tutor for advice.

Under normal circumstances, these were all top students. The bad students were either still sleeping or had already run out and started to mess around.

These three students were indeed the more talented ones in the school.

They might not have opened their apertures in the array Dao, but they did have some talent in talismans. It was a pity that there was nothing for them to learn in the past.

Lin Yi's class had opened the door to a whole new world for them-they'd learned a lot in class, and even had the urge to make low-level talismans directly.

Chapter 8796

The three of them were encouraging each other-they wouldn't have the courage to chase Lin Yi if they were alone.

After all, the three of them were the more active ones among the people who looked down on Lin Yi before.

Lu GUI Chen's heart moved, but he didn't say anything. He was happy to see his students maintain a good relationship with Lin Yi.

If he asked for help now, Lin Yi would give him face, but it wouldn't be good for the relationship between Lin Yi and the three students.

The leader of the three hesitated for a moment. This was a rare opportunity and he didn't want to miss it, so he braced himself and bowed.

"We would like to apologize for our rudeness to Grandmaster Sima before the class! Please forgive us for being young and ignorant, Grandmaster Sima! Other than that, we would also like to ask Grandmaster Sima to guide us on how to make talismans!"

It was a sincere apology, but the more important thing was to ask Lin Yi for help in making formations.

Lin Yi smiled and shook his head, "you guys weren't being rude. I didn't take it to heart, so you don't have to mind. Of course, it's fine to give me pointers on making talismans. The problem is, do you guys think you can start making talismans now?"

"I've already said it just now. You'd better go back and properly comprehend the contents of the class, improve yourself steadily, and build a solid foundation. Don't aim too high! So do you still think that we can start making talismans now?"

The student who had just spoken hesitated for a moment, but immediately showed a firm expression and bowed, "We don't know if we can succeed, but under Grandmaster Sima's guidance, we feel that we have the foundation to try!"

"If we can get Grandmaster Sima's personal guidance, the success rate will increase greatly. That's why we shamelessly came here to ask Grandmaster Sima to help us check!"

Lin Yi raised an eyebrow, interested. "You already have some confidence? In that case, you already have the flame needed to make the talisman?"

On the side, Lu GUI Chen suddenly laughed and interrupted, ""Grandmaster Sima, I can testify to this. These three little guys are also interested in alchemy. The alchemy fire they have condensed has already reached the standard of an Alchemist. Using it to refine array talismans should not be a problem!"

"As you know, our talisman division is actually very idle. In the past, we said that we were studying talismans, but it was completely like building a castle in the air. We have no foundation at all. Thus, when they have free time, they will learn some other aspects of knowledge."

Lin Yi suddenly understood. The students from the talismans and formations were said to have been eliminated, but how many of them were actually trash when they could get into Tianxia Academy?

This was the top heavenly Academy among the 39 continents of the entire starsource continent. The difficulty of entering it was self-evident!

Not to mention a good-for-nothing, even a local genius with a slightly lower aptitude might not be able to enter the gates of the Academy.

Therefore, it was not strange for a few of the useless students of the talisman and array division to become alchemists ...

"Since that's the case, then you can try to refine it. I'll watch from the side. If there are any problems, I'll point them out immediately!"

After thinking it through, Lin Yi agreed to the three students "requests.

In any case, refining low-level talismans wouldn't take much time. He would have a good chat with Lu GUI Chen after killing them.

"Many thanks, Grandmaster Sima! It's our honor to be able to receive your personal guidance!"

The leading student was so excited that his face turned red. He quickly took out a half-finished jade talisman and other materials."Then I'll start trying to make array talismans first!"

This could be considered an epoch-making attempt for him and even for the entire Academy. In the future, his name would definitely be left in the history of the Academy.

The other two students did not have any objections to this. It was obvious that they had already reached an agreement. Since he was the leader, the first opportunity to refine talismans naturally had to be given to him.

Just as he tried to calm himself down and was about to start, Lin Yi waved his hand."Are you alone? The other two aren't going to try?"

The other two were slightly stunned. They quickly bowed and cupped their fists."Grandmaster Sima, I'll give it a try after he's done ..."

"How troublesome would it be to come one by one? The three of you can start together! It's just refining low-level talismans, there's no need to put too much mental pressure on it, just relax a little!"

Lin Yi didn't have the time to wait for them to make the talismans one by one-he decided to do it together.

The three of them were stunned. Start refining talismans together? Wouldn't this affect each other?

Besides, you're keeping an eye on three newbies who are making talismans for the first time. If something goes wrong, you might not be able to take care of it, right?

They didn't dare to go against Lin Yi's decision, and could only subconsciously look at Lu GUI Chen, hoping that the Dean they respected would say something.

They wanted Lin Yi to be more serious ... They thought that Lin Yi was just brushing them off a little!

How could Lu GUI Chen not understand the students' thoughts? He believed in Lin Yi's strength, but he didn't believe in these three students!

If they could succeed on their first try, it would undoubtedly help them build up their confidence and greatly boost their future development.

It was a rare opportunity for them to have Lin Yi watch over them the first time they made something! Lu GUI Chen also hoped to see them successfully refine the talismans.

"Cough ... Grandmaster Sima, the little ones are a little nervous. If the three of them come together, they might affect each other. Why don't we let them come one by one?"

Lu GUI Chen coughed and tactfully suggested, but Lin Yi rejected it.

"Mr Lu, you're wrong. If they were to make talismans by themselves, they would be more nervous under the eyes of the crowd. If the three of them were to start at the same time, with someone by their side, their nervousness would be released to a certain extent, which would increase their success rate."

Lin Yi just didn't want to waste time, but to give Lu Guichen face, he still came up with some psychological reasons, which made Lu Guichen speechless, even thinking that it made sense.

"Mr Lu, you don't have to worry. I know how to make talismans. It's just three people. I can take care of them!"

With Lin Yi's words, Lu Guichen really had nothing to say. If he continued, it would become that he didn't trust Lin Yi's abilities!

"Grandmaster Sima is right. The three of you can start immediately!"

Lu GUI Chen immediately changed his position and stood beside Lin Yi without any burden.

Chapter 8797

The three students had no choice but to bow and accept the order. They each spread out a little, maintaining a distance of about three meters, and began to condense the alchemy fire, preparing to refine the talisman.

The other students had followed them secretly and were watching the situation from afar.

When they saw that the three of them were really about to start refining talismans, they immediately ran over noisily and got close to watch the first ever talisman refining in the history of the talisman division!

Lu GUI Chen made a hand gesture, indicating that they should keep their distance and stop making noise, so as not to disturb the three people refining.

The fire in their palms burned steadily, and Lin Yi nodded to himself as he looked at it. These three students were pretty talented in alchemy.

If he really couldn't make it in terms of talismans and arrays, he could transfer to the alchemy division to learn alchemy and become a real Alchemist!

Lin Yi's mind was spinning as he continued to watch them make the talismans. The first step was to purify the Jade talismans, and the three of them did pretty well.

At least it was more stable, and he followed Lin Yi's instructions without a single mistake.

Because their refinement fires were weaker, they couldn't be compared to Lin Yi. The three of them spent around fifteen minutes on the first step, and the result ... Couldn't be compared to Lin Yi either.

Lin Yi could make a 3mm half-finished jade talisman to half a mm, but the three of them could only make it to 1.5mm.

This thickness was the basic threshold for refining talismans. If it was any thicker, the refinement would have failed!

Fortunately, the three of them had crossed this threshold and barely passed the first step. They began to enter the second step of the refining process!

The next step was to put all kinds of auxiliary materials into the alchemy fire and refine them into the Jade talismans to carry out the basic structure of the talisman array.

They had the foundation of alchemy, so they were very skilled in this aspect. The timing of the deployment was perfect.

Lin Yi only moved his fingers occasionally, controlling the rhythm for one of them.

After the fusion of the materials, the key step was to carve the formation patterns. The three of them looked more and more serious, and had long forgotten that their companions were doing the same thing beside them. In their eyes and heart, there was only the thin needle between their fingertips!

"Don't be nervous. Calm down. I'm here. There won't be any problems!"

Lin Yi said softly, his consciousness wrapping around the three's hands. His gentle voice quickly calmed their nerves.

With Grandmaster Sima around, I will definitely succeed!

The same thought appeared in their minds at the same time. They let out a breath of turbid air and began to place the needles with determined eyes.

Lin Yi split his attention into three-he used his spirit to pay close attention to the strength and angle of the needles, the elemental Qi, the refinement fire, and so on.

This was a crucial step, but Lin Yi didn't plan on controlling them step by step. He only wanted to save them with his consciousness the moment something went wrong.

At the same time, the correct feeling would be deeply reflected in the other party's heart. The next time they came, they would instinctively pay attention not to repeat their mistakes.

Their Jade talismans were thicker and had a higher margin for error, so the whole process was quite smooth under Lin Yi's surveillance.

When the final hand seals were completed, the three of them had successfully refined the first low-level talisman in their lives!

As for the quality ... Let's not talk about it!

A high margin for error meant that the completion was crude, and it also meant a decrease in power!

Lin Yi's low-level talismans were a lot stronger than normal ones, but the three of them didn't care!

The first time he personally refined a talisman, he had already succeeded. Who would care how much the power had decreased! Just cheer and it's over!

"Thank you for your guidance, Grandmaster Sima! We will never forget your kindness!"

After the excitement, the three didn't forget to thank Lin Yi together, and at the same time, they all bowed to Lin Yi as disciples!

Lin Yi didn't take them as disciples, and they didn't think they were qualified to be his disciples, but that didn't stop them from treating Lin Yi as a teacher.

"You're welcome. This is all due to your own hard work. With your talent, you do have the potential to become outstanding talisman Masters. However, you've been limited by the lack of methods."

Lin Yi accepted the bow and smiled at them, "In the future, you must practice hard and not slack off! The three of you have made a good start in the Dao of talismans and formations, so don't take the wrong path!"

"Yes! I will follow Grandmaster Sima's teachings!"

The three of them accepted the order, and the students not far away also bowed.

Lin Yi said a few more words of encouragement. The sky was already dark, so he didn't waste any more time. He waved goodbye to them and pulled Lu Guichen out of the Academy.

Mr Lu, let's continue our previous topic!"

Lin Yi's straightforwardness stunned Lu GUI Chen for a moment, he couldn't recall what they were talking about.

He was just about to thank Lin Yi for his guidance when he was stunned by what Lin Yi said.

"We were talking about the badge ..."

Lin Yi pointed at the mentor's badge on his chest.

If he didn't remind her, she would probably think about it for a while. It seemed that she was indeed getting old, and her memory had become bad!

"Oh, right, right, right! We were talking about the badge ... What's wrong with the badge? Grandmaster Sima, do you like this kind of emblem? With your contribution to the talisman division, you are definitely worthy of a special badge from our Academy!"

Lu GUI Chen patted his forehead and immediately became interested. He didn't feel that what they were talking about was unrelated to the previous topic, ""Leave this to me. I'll definitely give Grandmaster Sima a special instructor Badge as a memento!"

Getting Lin Yi on his side as a mentor was something Lu Guichen only dared to think about in his head-giving him a badge to deepen their relationship was the most practical way.

Lin Yi's mouth twitched. Who would like something like this?

"No, Mr Lu, you don't have to trouble yourself. I don't like this kind of badge. I just thought it was a little special, so I just asked ... Did the school make these?"

If he could find the source of the badge, he should be able to solve this problem!

Lu GUI Chen didn't doubt him, he scratched the beard on his chin and muttered, ""It's not something that our Academy made. It seems like it was commissioned by someone outside, and we paid for it."

"You want to get them to order different styles of badges to bring back to Sangzi continent? In that case, who should I ask ... Oh right! He seems to be someone introduced by our Xingyuan great continent's patrol envoy. Since you're all patrol envoys, there shouldn't be any problem in asking him. "

Lu GUI Chen gave Lin Yi a good reason, but the person he mentioned made Lin Yi pause. Starsource continent's inspector?

Chapter 8798

Was he the mastermind behind the scenes? Why did he do that?

However, this person's words made sense. Although Jin botian was directly in charge of Tianxia Academy in the starsource continent, this inspector still had the nominal right to supervise.

If he wanted to interfere in the small matter of customizing an emblem, Shui Yuntian wouldn't not give him face!

"Ah, so it's the inspector of the starsource continent! Alright, I'll go ask him later!"

Lin Yi was thinking about something, so he didn't really care. Now that he'd gotten the information he wanted, there was no need to waste any more time. The two exchanged a few more words before parting ways.

In the time that followed, Lin Yi secretly gathered some information about the people with the badge and didn't continue looking for Lu Guichen at the array division.

On the other hand, Yan Su was doing well in the combat college. Her combat formation course was quite successful, so she should be able to get quite a lot of points.

Because Lin Yi spent too much time in the sub-school, the two didn't get to meet and talk that night, and Lin Yi didn't tell Yan Su about the badge.

The two didn't meet again until the time limit was up. Lin Yi only greeted Yan Su briefly and didn't mention anything about the badge.

It wasn't that Lin Yi wanted to monopolize the points, but the badge already involved the inspector of the starsource continent!

He didn't know if there were other people involved, but for Yan SU's safety, Lin Yi decided that it was better for him to do it himself.

Today, all the investigators were gathered together, ready to welcome the judgment of the results of the first task. The person in charge was no longer Zuo Si, but the director of the inspection department, Jin botian.

It was clear how much importance Jin botian placed on Tianxia college!

Apart from them, Tianxia College's Shui Yuntian, Lu Guichen, and the other Deans and branch Deans had basically all arrived. They sat at the side as guests, and when the time came, they would verify the answers of the investigators.

After the cliché opening remarks, it was time to answer the questions.

Although the identity of the Xingyuan continent's inspector was a little awkward because the headquarters of the inspection department was here, he was still the first candidate in this segment.

"Reporting to principal Jin, this subordinate has discovered a number of small problems in the Academy over the past two days, as well as a relatively serious big problem!"

With a smile on his face, the inspector of the starsource continent appeared to have a well-thought-out plan. He first explained the small problems he mentioned, and attached the solutions.

He was the supervisor of the Tianxia Academy in the starsource continent in name, and he had the advantage of time, place, and people. He almost didn't need to investigate to casually point out some problems.

After hearing these small questions, Jin botian gave a noncommittal "en.""What are the more serious problems? Is there a solution?"

These words were just for show. Jin botian could basically confirm what major problem he was going to talk about.

After all, the outside world might not be aware of the decline in the quality of education in Tianxia college, but the inspector of the starsource continent definitely knew. He had even followed Jin botian to deal with it before, but it hadn't been settled.

Sure enough, the inspector felt a little guilty and embarrassed after being questioned by Jin botian. He forced out a smile and said, ""The big problem I'm going to talk about is that the quality of the instructors 'teaching has declined in all the branches of Tianxia college!"

"This isn't an accidental case. It's a phenomenon that exists in every Academy. Even the teachers who have declined in teaching quality are the more outstanding ones in the past!"

"According to my investigation, almost all of the students did very badly in the instructors 'classes. From this, we can rule out the possibility of the students having problems!"

"In my opinion, these instructors might think that they are excellent enough, so they are slacking psychologically, which led to a significant decline in the quality of their lessons!"

"To solve this problem, the only way is to change the instructors who have problems and have them temporarily stop teaching. After they reflect on their performance, we'll decide whether to let them resume lessons or not!"

Jin potian frowned slightly and raised his hand to interrupt his narration. ""Alright! Since you said that the same situation occurred on a large scale in every Academy, and the problem was all caused by excellent teachers and not an isolated case, then what are the chances of them slacking off at the same time?"

"There should be more to this than meets the eye. Changing instructors is only a temporary solution. If the same problem occurs to the new instructor after the change, do we have to continue changing? How many instructors in the entire Tianxia college can withstand such a change?"

Jin botian's tone was relatively calm, but everyone could hear that he was dissatisfied with the inspector of the starsource continent, or rather, dissatisfied with this so-called solution.

If he had not given the other party some face, Jin botian would probably have reproached him!

The patrol envoy of the starsource continent was slightly embarrassed. He lowered his head and admitted his mistake. "This subordinate was thoughtless, thank you for pointing it out, Dean Jin!"

Lin Yi observed the inspector quietly from the side. The problematic emblems were introduced to Tianxia by this guy, causing the outstanding instructors from last year to drop their teaching quality.

What role did this person play in this?

Did he raise this question to prove his innocence? Or was he trying to set up a formation to mislead them and lead them into a detour?

Other than Lin Yi, most of the other investigators were surprised.

It didn't matter whether Jin botian was satisfied with the solution or not. What was important was that the quality of the excellent teachers' lessons had dropped on a large scale in Tianxia college?

They actually didn't notice such a big thing in Tianxia Academy for two days!

As expected, the home-court advantage was quite obvious!

This matter must have been known by the inspector of the Xingyuan continent, and not something that was found out in the past two days!

That was the truth, but they had no choice ...

Although there were some investigators who knew Shui Yuntian and went to ask around, for some reason, other than Lin Yi and Yan Su, Shui Yuntian didn't mention anything about the drop in teaching quality to the other investigators.

After being surprised, these investigators thought about it carefully and didn't take it to heart. The investigators of the Xingyuan continent had the first right to answer the questions. It was useless for them to know that the quality of the answers had been reduced, as they would definitely be robbed of their chance to answer.

And if he couldn't find a solution, he naturally wouldn't gain any points, so there was no loss.

It was just like the inspector of the starsource continent. So what if he had the right time, place, and people? in the end, he only got an average score, which couldn't be considered outstanding at all.

The following investigators all had their own gains, and their scores were relatively average. They weren't particularly outstanding or too bad, and the entire process could be said to be calm.

Soon, it was Yan SU's turn!

Lin Yi wasn't worried about Yan SU's score-she should be able to get above average with the help of the formation. Jin-Shixiong knew their relationship, and he wouldn't make things difficult for her.

Chapter 8799

Yan Su was also very confident. After first talking about some mistakes and improvements in the battle formation teaching, she also casually mentioned, "Dean Jin, I've discovered that sometimes the students are not focused enough in class, or it's more appropriate to say that their attention is scattered!"

"A battle formation is a battle method that requires close cooperation. If one part makes a mistake, then the whole part will make a mistake. So, once the students are not focused enough, it is easy to cause the operation of the battle formation to stop."

"However, this phenomenon doesn't always exist. When I'm substituting for the students alone, this basically has never happened. However, when the Academy's teachers are watching the class, there will be a lot of problems ... I don't want to say that the teachers are affecting the students, but there is indeed such a possibility!"

"If it's just that observing the instructors has an impact on the students' mentality, making them nervous and stressed, it's still understandable. But the truth is that the students don't have any negative psychological state when they see their familiar instructors observing them. On the contrary, they feel relaxed!"

"This is the conclusion I came to after personally asking many students, so the problem is indeed caused by teacher's spectating, but the specific root cause ... Please forgive this subordinate's incompetence, and I have yet to find out the reason!"

Lin Yi was quite surprised-he didn't expect Yan Su to be at this level!

The other mentor was probably one of the top ones who'd gotten a special badge as well, but Yan SU's spirit wasn't as strong as Lin Yi 's, so she couldn't find out the secret.

After all, that kind of consciousness wave could be hidden from big shots like Jin botian and Shui Yuntian, so its concealment was self-evident.

A smile appeared on Jin botian's face. He knew that Yan Su and Lin Yi had a close relationship and wanted to take care of her in secret, but he didn't expect Yan Su to perform so well that she didn't need him to take care of her anymore!

"Very good! Investigator Yan's observation is extremely detailed, and the problems he discovered are even more specific. He deserves even higher praise!"

Jin botian generously gave Yan Su a high score. Although he did not come up with a specific solution in the end, half of the score was enough for Yan Su to be among the top!

"It's obvious that investigator Yan is really putting his heart into his work. This seat is very happy about this. I hope that the next colleagues can also put in the same effort as investigator Yan!"

Jin botian's evaluation of Yan Su was very high, and he almost set her as a benchmark!

The patrol envoy of the starsource continent felt uncomfortable. He thought that what Yan Su said was nothing special. Was there a big difference between what he said and what he said?

In the end, didn't they still point their fingers at the instructors?

If there were instructors to watch, one's focus would be affected. If there were no instructors, one's performance would be normal or even outstanding. Then wouldn't it be fine if one directly won over the instructors?

The other investigators had similar thoughts as him. They were basically all feeling envious, jealous, and hateful, so there was no need to mention it.

Fang Gezi wanted to find fault with Yan Su, but she did not have the chance. After Jin botian's praise, he did not dare to say anything. Doing so would be equivalent to directly going against Jin botian. He did not have the guts to do so!

After Yan Su, it was Lin Yi's turn. Fang Gezi wanted to find an opportunity from Lin Yi's side. She couldn't force it, so she'd only step up when there was a chance.

Lin Yi cupped his fists at Jin botian with a faint smile on his face. "Dean Jin, this subordinate and investigator Yan have discovered the problem of the Academy's education quality dropping, and we've split up to look for the cause."

"Just now, investigator Yan mentioned the problem of not being able to concentrate during class. This isn't just in the field of battle formations, it's a common phenomenon in the other divisions! And it's all related to the mentor!"

This was like expanding the scope of the discussion on Yan SU's behalf. Fang Gezi was just waiting to find trouble with Lin Yi, and she subconsciously felt that this was a good opportunity. She immediately opened her mouth.

"Patrol envoy Sima, you're wrong! We know that you have a close relationship with patrol envoy Yan Su, but it shouldn't be close enough for the two of you to share the same answer, right?"

Fang Gezi sneered and cupped her hands at Jin botian. ""Dean Jin, the rules have clearly stated that the same answer can only be used by the person who proposed it first. By doing this, could it be that investigator Sima is defying the rules?"

Jin botian frowned slightly and looked at Fang Gezi unhappily. ""Investigator Fang, are you questioning my judgment? Or are you here to teach me how to do things? Why don't you come and sit here?"

Fang Gezi's heart skipped a beat. She realized that she had been too hasty. Jin botian must have known the rules better than she did. The big boss had not even said anything yet, and he had jumped out to point his fingers. He had indeed violated a taboo!

At the thought of this, Fang Gezi broke out in a cold sweat and hurriedly bowed to apologize. ""This subordinate is wrong! Please forgive me, director! This subordinate was also in a moment of anxiety and

was afraid that patrol Sima would mess up the rules. That's why I was at a loss and offended the principal ..."

"Forget it! In the future, pay more attention to your words and actions. No matter what, you're still the patrol envoy of a great continent, so you have to be steady in your work!"

Jin botian lectured her indifferently before waving his hand for Fang Gezi to leave. He then turned to Lin Yi with a pleasant expression, "Please continue, patrol envoy Sima. Whether it can be used or not, this Lord will judge on his own!"

Lin Yi smiled and didn't even look at Fang Gezi, completely ignoring the loser.

This made Fang Gezi feel resentful. She felt like she was a clown who didn't even have the right to attract the attention of her opponent!

Fire!

"Then I'll continue. The reason the students aren't paying attention is because teacher is beside them. This is a problem that investigator Yan has already mentioned. In fact, we've already found the root of the problem. It's just that investigator Yan wanted me to show off, so he didn't tell us everything that we've discovered."

Jin botian had already set Yan Su as a benchmark, and Lin Yi didn't mind pushing her up a little more. He wanted to push her to the peak.

He had already attracted everyone's attention anyway, so a little more wouldn't matter.

"It's not right to say that the problem lies with the teacher. It's right because the root is indeed the teacher, but it's not the teacher's problem!"

Lin Yi said something that was a bit of a tongue-twister before walking to the side of the audience and reaching out his hand to Lu Guichen, smiling, ""Mr Lu, please lend me your teacher's badge!"

Lu Guichen was listening intently-he was one of the people involved in what Lin Yi said!

He didn't expect Lin Yi to come over and ask for a badge, and after a slight pause, he quickly took off the badge on his chest and gave it to Lin Yi.

"Good! However, Grandmaster Sima wants my badge. Could it be that there's a problem with this badge?"

Lu GUI Chen wasn't stupid and linked it to Lin Yi's words. Naturally, he would suspect Lin Yi's intention for the badge.

The others were the same, but they didn't understand what was wrong with this small badge.

Lin Yi didn't look at the inspector, but he used his spirit sense to monitor the inspector's movements.

Chapter 8800

Did this person really not know the problem with the badge, or was he an excellent actor and a scheming person?

The opponent didn't reveal anything when he saw Lin Yi take the badge, only acting suspicious.

"Mr Lu is right. There's something wrong with the badge!"

Lin Yi nodded firmly and raised the badge in his hand, showing it to everyone. "As you can see, the badge in my hand is a teacher's badge that was specially made by the worldly Academy last year."

"As far as I know, there aren't many of these special badges. They're specially made to honor the teachers who performed well last year, so not everyone has a share."

"However, it is distributed throughout all the branches of the entire Tianxia college. Every branch will have a few dozen outstanding teachers who will receive this badge because this is an honor. In addition, the Academy's rules state that every teacher must wear a teacher badge to indicate their identity. So, those who receive the badge will basically wear the new badge in the Academy."

Lin Yi suddenly turned to Shui Yuntian, "Dean Shui, if I'm not wrong, all the teachers whose teaching quality has dropped should be the outstanding teachers from last year, right? Perhaps you can compare the list of people who have received the special badge with the list of people who have suffered a drop in the quality of this large-scale lecture. Do you see any similarities?"

Shui Yuntian was stunned. He had never considered this aspect before. However, as the president of the Tianxia Academy, the list of honors and problems were all in his mind!

Now that Lin Yi mentioned it, he realized that the two names were highly similar!

Why hadn't he noticed it before?

Everything was so clear, and before Lin Yi said anything, Shui Yuntian never would've thought that there would be a connection between the two lists!

He was just curious. Why did the instructors who performed well last year's performance decline this year?

It turned out that the answer to the question was on the badge that was issued!

"That's indeed the case. If it wasn't for the fact that patrol envoy Sima mentioned it, this old man wouldn't have noticed the coincidence at all! Dean Jin, this old man has failed in his duty! I didn't even notice such an obvious flaw!"

Shui Yuntian stood up and confirmed Lin Yi's suspicions before bowing to Jin botian, ""If we had discovered it earlier, the problem might have been solved. Please punish us, Dean Jin!"

"Principal Shui, there is no need to blame yourself. This seat was unable to find any clues in this matter, so I can't completely blame you. You should sit down first. We will continue to listen to what patrol Sima has to say. We will discuss other things at the end."

Jin botian couldn't be any more satisfied with this Lin Yi who popped out of nowhere!

He didn't have much hope at first, but Lin Yi really did find out the truth behind the drop in quality in two days!

It was really too awesome!

Shui Yuntian thought about it and agreed. He was also very curious about the secret of the badge, and looking at Lin Yi's face, it seemed like he already had a plan for it.

Let's hear it first and see how this insignificant badge is the mastermind behind the decline in teaching quality!

Lin Yi waited for Shui Yuntian to return to his seat before continuing, "Dean Shui has confirmed that the two lists overlap on a large scale, so we can be sure that there is a problem with the badge."

"Because the only similarity between the two lists is this small badge! Everyone will definitely find it strange. What is so special about this little badge? it's actually very simple, and everyone will understand once I explain it!"

Lin Yi said as he pulled out a needle and poked the badge a few times. A lid popped out, revealing the inside.

Everyone present was an expert. With their sharp eyes, they could clearly see that the interior of the badge was filled with intricate array patterns!

At the core of the badge was a black crystal the size of a grain of rice. He had no idea what it was.

After the cover shot up, everyone could vaguely feel a weak spiritual consciousness fluctuation that was silently affecting their thoughts.

It was obvious that the lid had the function of concealing fluctuations. Before it was opened, they would not feel it at all, so there was no way to take precautions. Even if their thoughts were affected, they might not know.

Now that they were on guard, each of them was guarding their sea of consciousness, so the influence of this kind of spiritual fluctuation was reduced to the minimum!

Lin Yi smiled as he pointed at the intricate patterns on the badge. "Everyone knows that I'm a pretty good array master, so I can tell everyone with great responsibility that this badge is actually a miniature array disc!"

"He must be a high-level array Mystic master to be able to make such an exquisite array disc. I don't know how many array Mystic Masters there are in the entire star source continent, but it's obvious that there shouldn't be too many."

"Moreover, this miniature formation plate is a spiritual sense formation technique, which is even rarer. If we can infer from this, we might be able to narrow down the scope even more."

"Dean Jin, Dean Shui, I wonder if you have any suspects in this area? If the other party happens to be in the starsource continent, we can pay him a visit. "

Jin botian and Shui Yuntian's expressions turned grave. An array Mystic cultivator who could refine a miniature array disc naturally had an extremely noble status. Furthermore, the array was a high-grade spiritual sense item. Even if they had a suspect, they couldn't act rashly!

If it was just this, it would be fine. Jin botian was not afraid of offending people, but the damn thing was that he and Shui Yuntian could not think of any array Mystic master that had such ability!

He didn't even have a target, so what was there to offend?

"In my memory, there isn't any array Dao Mystic master that meets the requirements ... Perhaps this badge can't be considered an array disc? After all, although the formations on it are spiritual sense-based, they're not that powerful ..."

Jin botian shook his head as he spoke, then said angrily, ""I can't just let this matter go like this. I must investigate this thoroughly! I don't believe that this thing can come to Tianxia Academy by itself!"

"Investigate! Step by step, he walked forward. Who gave the badges to the teachers? Who had given him the badge? Whoever or where did they receive the badge from, we can't miss out on any related person!"

Jin botian was really angry now-he'd been focusing on the other continents, otherwise he wouldn't have let Lin Yi run around.

However, he didn't expect that such a thing would happen under his nose. It was simply a slap to the face of the new head of the inspection department. It was really intolerable!

The inspector's face turned pale. If they investigated according to Jin botian's instructions, he would definitely be involved!

Unless he could kill everyone who knew about it, but that was obviously impossible!
