

## Bodyguard 8801

### Chapter 8801

It was certain that he would be found out. By then, the punishment would be extremely severe!

Therefore, the inspector of the starsource continent thought about it and made the decision to turn himself in!

"Dean Jin! This subordinate is guilty! Please punish me, President!"

The patrol envoy of the starsource continent was rather uncouth. He walked out and knelt down in front of Jin botian, "I was the one who introduced these badges to the Tianxia Academy, but I never expected that they would actually tamper with the badges! I really, really don't know anything about this. Please, principal, you must believe me!"

"I'm guilty ... But I really didn't want to cause any trouble. I just wanted to get some kickbacks from this deal! This subordinate deserves to die! This subordinate's heart of corruption did not die, and in the end, I harmed others and myself. Principal, please punish me!"

Compared to the crime of using the badge to frame many teachers of the under heaven college, getting some kickbacks from introducing business was really a small matter.

The patrol envoy of the starsource continent had thought it through very clearly. Right now, he was choosing the lesser of two evils. If he blindly cried out for injustice and didn't want to bear any charges, he would definitely be in big trouble in the end.

It was better to confess some of his crimes and fight for a lenient sentence!

Jin botian's face turned ashen. He had just said that he wanted to investigate, but the dignified inspector of the starsource continent jumped out and admitted that he had set up this deal because he was greedy for money, which caused serious problems in the teaching of Tianxia college!

Damn it!

"Capture him! Throw him into prison, interrogate him strictly, and await his punishment!"

Jin botian didn't say a word and immediately sent the starsource great continent's patrol envoy to prison!

The Xingyuan great continent's patrol envoy's face was ashen. He didn't resist at all and allowed the people from the patrol Department to take him away.

Jin botian's anger had not subsided. He turned around to look for someone. "Zuo Si, principal Shui Yuntian, you two immediately go and carry out this matter. The people who make and sell the badges must be controlled. Not a single one of them can escape!"

"Yes! Your subordinate obeys!"

"Yes, sir!"

Zuo Si and Shui Yuntian stood up and cupped their hands in a bow. They then quickly left to make the arrangements.

This matter would temporarily end here. The follow-up would have to depend on whether Zuo Si and Shui Yuntian would discover more before they could decide what to do next.

Jin botian's anger disappeared and he smiled at Lin Yi, "This time, patrol envoy Sima has really made a great contribution! If not for you, we wouldn't have been able to find the reason for the decline in teaching quality!"

Needless to say, Lin Yi's performance was perfect.

No matter how Jin botian acted, it didn't matter to Lin Yi. He had to give Lin Yi a perfect score to match his performance.

However, Fang Gezi had forgotten about the pain and jumped out again to make her presence known. "Dean Jin! This subordinate doesn't want to question anything, but there's something I don't understand and would like to ask. "

"If I remember correctly, one of the rules this time states that whoever raises a question but is unable to solve it will be given an appropriate score according to the circumstances. The score can not exceed half at most!"

"If someone can solve the question with a qualified answer, the person who raised the question before him will lose all the points he has obtained. The person who solved the question will obtain all the points. Is there a mistake in my understanding?"

The guy had learned his lesson-he didn't point his spear at Lin Yi or Yan Su, but used the excuse of asking for advice to state the rule out loud.

From Fang Gezi's point of view, Lin Yi's high score was already set in stone. Taking away half of Yan SU's points and dropping her from the top to the dust was the best blow to Lin Yi.

Maybe Yan Su would hate Lin Yi because of this and create a crack between the two of them-that would be even better!

Jin potian was silent. Fang Gezi was right, so he couldn't reprimand her. After all, the patrol Department didn't have a one-man rule. As the director, he had to follow the rules.

Lin Yi raised an eyebrow and asked Jin botian with his eyes.

Jin botian nodded slightly, indicating that it was indeed true. Within the scope of the rules, he could favor and help Yan Su, but if it went beyond the rules, he could not do anything.

Fang Gezi was extremely pleased with herself, as if she could already see Lin Yi and Yan Su turning against each other. The higher Lin Yi's score, the more displeased Yan Su would be!

This move of pushing the boat along with the current was truly wondrous to the peak! Fang Gezi was in awe of her own intelligence!

Unfortunately, he didn't understand the relationship between Yan Su and Lin Yi. Yan SU's inspector position was recommended by Lin Yi, and the two of them had gone through life and death together. This was no small matter.

She had no problem blocking a knife for Lin Yi, so why would she turn against him over some points?

Besides, Lin Yi had planned to give the credit to Yan Su from the start, and now that the person who solved the problem would get the points, it was even more justified.

"Dean Jin, this subordinate has already said that this matter was the result of an investigation conducted by both this subordinate and investigator Yan. However, investigator Yan wanted to give this subordinate a chance to show his face, so he let me do the second half of the explanation."

Lin Yi smiled faintly and said casually, "So, the credit for this is mostly on patrol Yan. If it wasn't for his discovery, we wouldn't have been able to find the root of the problem."

"This subordinate can be said to be answering on behalf of investigator Yan. I don't deserve the final score, and it should be given to investigator Yan!"

Jin botian was stunned. He knew about Lin Yi and Yan SU's friendship, but he didn't expect Lin Yi to do this for his friend!

Even though he felt a little sorry for his Little Junior Brother, it was more of a sense of pride and recognition.

With a Junior Brother like this, he could leave things to Lin Yi without worry!

Unlike Jin botian, Fang Gezi was overjoyed when she heard Lin Yi's words!

Pulling down Yan SU's points was just an act of helplessness, indirectly hurting Lin Yi. It was better to directly take Lin Yi's points down.

Although it was a pity that she couldn't see Yan Su and Lin Yi turn against each other, Fang Gezi felt that it was better this way and added fuel to the fire, secretly delighted.

"Hehe, patrol Sima is truly selfless. He's actually willing to hand over the points he's obtained. It was really admirable! Investigator Yan is truly lucky to have a friend like you!"

Fang Gezi praised Lin Yi hypocritically, but in fact, she was trying to elevate him in case he went back on his words."However, I advise you to think about it more, investigator Sima. Don't disregard yourself for your friends."

"You're giving all the credit to investigator Yan, but you won't get any points yourself! If I'm not wrong, the patrol who ranks last in the tournament will be dismissed and replaced by a new patrol!"

"This refers to the total score. Those who do not get a single point in the individual competition will be immediately dismissed, because this means that the person is incompetent! If you can't even get a single point, you're not qualified to participate in the other competitions!"

Chapter 8802

"Of course, since patrol envoy Sima is willing to risk his life for his friend, I don't think he would care about the position of a mere patrol envoy. However, as a colleague, I would like to remind you that I hope that patrol envoy Sima can consider it carefully."

Fang Gezi's smile was like a weasel that had just eaten a chicken. He seemed to be thinking for Lin Yi's sake, but he was trying to kidnap Lin Yi with his morals so that he couldn't go back on his words.

If Lin Yi really did go back on his word, he'd be labeled as a liar, and so what if he kept his position? His reputation had been completely ruined!

Yan Su didn't like the smell and stood up to speak up for Lin Yi, but Lin Yi stopped her with a look!

Out of her trust and understanding of Lin Yi, Yan Su sat back down quietly. She believed that Lin Yi already had a solution and didn't need him to say anything!

Keeping quiet was their greatest support for Lin Yi!

Jin botian frowned slightly, but immediately relaxed. Sangzi great continent's patrol ... If he doesn't want to be the patrol, then so be it!

He'd pretty much settled the Sangzi continent's issue anyway-be it Jia zhetian or the sky array sect, they'd all been suppressed by Lin Yi.

The martial Union's power was under their control in the Sangzi continent, and Lin Yi's departure wouldn't affect the overall situation. As long as the people they sent over were capable, they wouldn't waste this good situation.

If it was Lin Yi, he could just come back and be the Vice Dean-he might be able to help more!

If there was a situation in the other continents, he would deal with it as the Vice President.

In the short time that Fang Gezi had finished speaking, everyone present had their own thoughts and thoughts. Most of the investigators were just watching the show.

Lin Yi was a strong opponent in their eyes, and it would be a good thing if they could get eliminated right away!

Now, it was up to Lin Yi to decide. Would he continue to give points to Yan Su? Or did he change his mind and control the score?

Before Lin Yi could say anything, Lu Guichen, the Dean of the formation and talisman sub-school, stood up!

"Dean Jin, this old man has to come out and say something. In fact, patrol envoy Fang is overthinking it! Patrol Sima doesn't need the points from the badge incident at all, because he has an even greater contribution!"

Lu GUI Chen's face was filled with reverence, his usually frivolous face showing a rare look of solemnity, ""The decline in teaching quality is indeed a serious matter, but it's not even worth mentioning when compared to the other matter!"

"The problem solved by patrol Sima is enough to leave his name in the history of the entire star source continent, not to mention the patrol competition!"

Fang Gezi didn't believe him at all. She was waiting to see Lin Yi make a fool of himself, so how could she endure Lu Guichen's flattery?

He laughed out loud and said, "Mr Lu, you're so funny. What can patrol Sima do in just two days? what can he do that will leave his name in history?" It's already amazing enough that he managed to solve the badge incident!"

The audience nodded and felt that this was very reasonable.

Finding out the truth behind the decline in teaching quality in two days was already shocking enough. To do something even bigger was indeed a little outrageous!

Fang Gezi laughed at him without restraint, but Lu Guichen only looked at her with pity, as if he was watching a clown's performance.

That kind of clumsy acting couldn't make the audience laugh. It could only make the audience feel pity.

Jin botian couldn't stand it anymore. He asked Fang Gezi to keep quiet before asking Lu Guichen curiously, "Mr Lu, why don't you tell us in detail what earth-shattering thing did inspector Sima do to leave his name in the history of the entire continent? To be honest, I'm also very curious!"

Lu Guichen cupped his fists at Jin botian and said with a smile, "Reporting to Dean Jin, investigator Sima has compiled all the incomplete records in our talisman and array section's library and recreated the method of refining talismans and arrays!"

"Not only did patrol Sima successfully refine the talisman himself, he also taught the students of our talisman formation branch how to refine the talisman and successfully refined it. This is definitely an epoch-making achievement!"

"As we all know, the Dao of talismans and arrays has almost been lost on the sub Island. The only sect that can possibly retain its inheritance is the sky array sect, and the sky array sect will definitely not spread the method of refining talismans."

"This has directly led to no one being able to refine talismans in the sub-Island area. Countless people who have high aspirations and are passionate about the Dao of talismans have studied it day and night, forgetting to eat or sleep, but they have not been able to reproduce the glory of the Dao of talismans!"

"However, patrol Sima inherited this almost lost inheritance and allowed the method of refining talismans to reappear in the world. This old man said that he would leave his name in the history of the Star source continent, but that's still a humble statement. In fact, in the history of this sub-Island, patrol Sima would also leave a heavy stroke!"

"How can such an achievement be compared to a mere badge incident? Dean Jin, investigator Fang, how many points do you think investigator Sima will be able to get from this?"

Everyone was silent!

Both Jin botian and Fang Gezi were shocked by Lu Guichen's words!

The talisman division had always been a small, transparent place. This was because the talisman division couldn't teach people how to make talismans. They could only research some incomplete volumes of the Dao of talismans.

To put it simply, the talisman array school was a nursing home. It stood aloof from the world and had no desires. No one expected the talisman array school to make any contributions. That was why it was placed under the name of the array Dao school and used to accommodate those students who did not have talent in array Dao.

And now you're telling me that the talisman and array division can make talismans?

This was ... Earth-shattering!

A talisman array sub-school that could refine talismans was enough to be mentioned in the same breath as the array path sub-school. In the entire Tianxia college, it would also become an important existence!

And the person who single-handedly brought about this change was Sima Yi!

How many achievements would he have made?

"Mr Lu, are you telling the truth? Can the talisman and array division really make talismans?"

Jin botian still couldn't believe it. If this was true, then humanity would have another way of fighting in the future!

He would have a greater chance of winning against the darkness demon beast clan!

Lu GUI Chen proudly puffed out his chest and casually took out a few low-grade talismans to show everyone, "Of course it's the truth. Dean Jin, please take a look. These are the talismans refined by the students of our talisman formation Academy!"

"Although they are only beginner-level talismans, this is only the beginning. When they grow up, they will definitely be able to make powerful high-level talismans. I have no doubt about this and I am looking forward to it!"

Jin botian suddenly straightened his back and burst into laughter. "Good! Good! Good! This is great!"

Chapter 8803 The End

In the past, if the martial League and the inspection department wanted array talismans, they could only lower their heads and beg the sky array sect. They had to pay a huge price to buy a small number of array talismans to use as their trump cards.

From now on, that kind of situation would never come back! Now that martial League and the inspection department had their own ability to produce talismans, they no longer had to act according to the Sky array sect's wishes. This was of great significance!

Back at the patrolmen's competition, the problem Lin Yi solved was too big!

How high would the evaluation and score be? It would be unreasonable if they didn't get first place!

In other words, if Lin Yi didn't get first place, who would? Do you have the face?

And Lin Yi's points weren't just for the first round-as long as he didn't get zero points for the rest of the rounds, he'd be able to get first place for sure!

The investigator who patted Lin Yi didn't do anything worth mentioning. He just got a few points and the first round was over.

Lin Yi won first place without a doubt, and Yan Su was behind him because of the badge incident. She was far ahead of the others and was second in the first round.

"Everyone's performance was very good. Today, we will return to the relay station to rest and wait for the notice of the second round of the competition! Sima Yi and Lu GUI Chen stay, the rest of you can leave!"

After Jin potian learned that talismans could be refined, he was a little distracted by the inspector tournament.

After a hasty conclusion, he didn't even prepare to start the second round of the competition and directly sent the investigators back to rest.

Leaving Lin Yi and Lu GUI Chen behind was obviously to discuss the talismans. The other investigators couldn't do anything even if they were envious-who asked them to know nothing about talismans?

After everyone had left, Jin botian sent someone to bring Shui Yuntian back. Zuo Si was in charge of tracking down the badge, so Shui Yuntian only needed to provide the process of Tianxia Academy's badge customization and the name list of the relevant personnel. Zuo Si would take care of the rest.

In addition, the talisman formation was more important than the badge, so Jin botian naturally summoned Shui Yuntian back without any hesitation.

When Shui Yuntian came back and heard about the breakthrough of the array division, he was also extremely shocked and happy. Lu GUI Chen did not report this matter to him previously and had secretly made a fortune, hiding in the array division to develop himself.

Shui Yuntian had left earlier to investigate the matter of the school badge with Zuo Si, so this was the first time he had heard of the transformation of the school. He couldn't help but offer his congratulations.

"Alright, let's not talk about anything else for now. I've gathered all of you here to talk about talismans,"

Jin botian placed great importance on talismans, so he directly stated his thoughts, ""Vice school head Shui, vice school head Lu, since the talisman formation sub-school is already able to produce talismans independently, then it's not too appropriate to keep the talisman formation sub-school under the array Dao sub-school!"

"What I mean is that Tianxia Academy wants to make the array formation sub-school an independent sub-school, directly belonging to the Academy and not attached to the array path sub-school."

Shui Yuntian nodded his head decisively, "that's right!" In the past, the array formation sub-school was an independent sub-school, but because of the broken inheritance, it gradually declined, so it was attached to the array formation sub-school. "

"Now that I have the ability to re-refine talismans, it's inevitable that I will leave the array path sub-school and become an independent sub-school! Not only that, we also need to re-select the location of the Academy. We need to expand the scale of the array and talisman Academy, and then start recruiting new students. "

"At the moment, there are too few people in the talisman and array division. The number of new students we recruit ... We'll calculate it based on a hundred times! Only by ensuring that there were enough students would the array seal sub-school be able to advance! What do you think, Mr Lu?"

Shui Yuntian was indeed worthy of being the president of the Tianxia Academy. Jin botian had just started, and he already had a complete plan.

At present, the talisman and array division only had 18 students. Even if they were to recruit a hundred times the number of students, it would only be 1800 people!

For a big sub-school, this number of people was not considered a lot, but it was enough to start!

Jin potian nodded in satisfaction and looked at Lu Guichen.

Lu GUI Chen pondered for a moment, then smiled and nodded,""Dean Shui is right. This way, our array and talisman sub-school will also have rapid development! I agree! However, I hope to invite Grandmaster Sima to come to our Academy as the honorary Dean. When you have time, you can come and teach the children!"

"In the Dao of talismans, I feel that Grandmaster Sima is already ahead of all of us. With his guidance, our talismans and arrays division will develop even faster!"

Jin botian felt that this suggestion wasn't bad, and so he looked at Lin Yi, asking for his opinion. Shui Yuntian and Lu Guichen, on the other hand, looked at Lin Yi with anticipation. The three of them were waiting for Lin Yi's decision.

Lin Yi thought about it, and it didn't seem like there was anything wrong with it. It was just an honorary Dean, and he didn't have to take on a real position. He wouldn't be tied down by the sub-school, so why not?

Anyway, he already had a lot of honorary titles, so it didn't matter if he had one or two more.

"Alright! Then I'll respectfully accept this honorary Dean title!"

Lin Yi readily agreed, and Jin botian and the others were all filled with joy. As such, the matter of the separate talisman division was decided, and Shui Yuntian and Lu Guichen immediately began to make preparations.

There were many empty spaces in Tianxia college. After moving out the talisman division from the talisman division, they completed the relocation on the same day and then announced that the talisman division was independent.

Jin botian and Lin Yi helped out as well, putting the investigator competition to the back of their minds for the time being. Vice-President Zhu of the array formation Guild received the news and came over to congratulate them on behalf of the Guild.

After the small talk, Vice President Zhu went straight to the point. "Actually, there's one more thing I want to talk about today. In the past, the matters of talismans and arrays have been handed over to our array Dao Guild, and we've been in charge of it."

"But now, in the Tianxia Academy, the talisman formation branch has also become independent from the formation path branch. After some research, our formation path Guild feels that we should also separate the matters of talismans from the formation path branch."

"In other words, we feel that we should establish a new guild of talismans! Even though the talisman division is still very weak, we should always plan ahead. It's only a matter of time before we set up the talisman Association, and now is a good time!"

Jin botian nodded and smiled. "That's true. The establishment of the talisman Association will attract more people who like talismans to study in the talisman division. If we want to strengthen the power of this Department, we must support them in all aspects. The talisman Association will do a good job in completing all of this!"

Vice President Zhu clapped his hands and laughed, "that's right!" Martial League already knows of Vice President Sima's contributions to the Dao of talismans, so they intend to invite Vice President Sima to be the first president of the talisman Guild after it's established!"

He really admired Lin Yi from the bottom of his heart, and was even more determined to build a good relationship with Lin Yi.

Chapter 8804 The End

He had thought that a diamond-grade Grandmaster in both formations and alchemy was already a rare super-genius in the world, but he didn't expect that even the Dao of talismans was nothing to him!

Now, not only was he the Vice President of both the Alchemy Guild and the array Guild, he was also the Vice President of the inspection department. He even had the potential to become the first president of the newly established array and talisman Guild.

This was unprecedented!

Jin botian clapped his hands in agreement. "That's a good suggestion! I can consider it!"

Lu GUI Chen also nodded in agreement. "Martial league's eyes are indeed accurate. Other than Grandmaster Sima, who else is qualified to be the new president of the array Guild?"

Lin Yi quickly declined, "no, no!" I'm only a newbie in the Dao of talismans, how can I be the president of the talismans and arrays Guild? I think Mr Lu is the most suitable candidate!"

"The new talisman division will have a steady stream of qualified talisman Masters, all of whom will be Mr Lu's students. It won't be long before Mr Lu has students all over the world, and his reputation in talismans will be at its peak!"

"Having Mr Lu as the president of the talisman formation Guild is the best choice. It'll be enough to convince the masses! I'm more than happy to support Mr Lu as the president of the talisman Association, so I'd like to ask Vice President Zhu to recommend Mr Lu to the martial Alliance, thank you!"

Lin Yi really didn't want to be the president of the formation Guild. He already had a lot of positions, but most of them were just in name. He didn't really need to do anything.

Otherwise, he wouldn't even have enough time to walk around his various positions!

The Guild leader was different-he had to do something, and only someone who could do it could do it. Lin Yi didn't have the time to waste.

Any newly established organization would definitely have a lot of things to do, especially a profession like talismans that had no foundation!

Lin Yi didn't want to get himself involved in this. Spreading the method of making talismans was the best he could do!

Lu GUI Chen heard Lin Yi's recommendation and quickly shook his head,""No, no, I don't have the qualifications to be the president of the talisman Association. What I know is what you taught me, Grandmaster Sima! If we're talking about having students all over the world, you're the ancestor of all formation and talisman Masters!"

"That's why you must not do this! Besides, with my image, I'm still alright with being the head of a branch, but to be the president of the talisman Association, that's a bit embarrassing!"

Lin Yi and the others couldn't help but laugh. Lu GUI Chen's self-mockery made some sense-looking at his unkempt beard, he didn't have the aura of a guild leader.

In particular, his robe was loose and he looked extremely lazy, without a trace of Majesty to speak of!

"That's not important," Lin Yi shook his head as he tried to hold back his laughter, "image or whatever, as long as you're comfortable with it, why care about what others think?" Anyway, I'm not going to be the president anymore. Mr Lu, if you're willing to help me, then don't say anything more and just take over!"

Lu Guichen was speechless-Lin Yi already said he was going to help, it'd be outrageous for him to reject him. Was he not willing to help Lin Yi?

"Sigh ... Never mind. Since Grandmaster Sima wants to be free, I'll reluctantly help you manage the talisman Association. However, I have a condition. Grandmaster Sima, you must become the Grand Elder of the talisman Association!"

Lu GUI Chen said with a serious expression, ""The Grand Elder has the authority to deal with any of the Guild's Affairs, but he can usually not touch any of the Guild's Affairs. When needed, he has the right to veto any of the Guild's Affairs! As long as you agree, I'll be the president!"

Grand Elder was originally an honorary position, but Lu GUI Chen gave all the power to the Grand Elder, so the president was more like a person who did odd jobs!

Usually, the president could handle trivial matters. If the Grand Elder was dissatisfied, he could also directly intervene and veto it, but he did not need to be involved in too many Affairs.

Lin Yi didn't really mind-he didn't plan on getting involved in the Guild's business anyway, and power didn't matter if he didn't use it. It didn't matter if he agreed!

Lin Yi agreed to the Grand Elder position, and the formation Guild was settled.

Vice-President Zhu went back and reported to the martial Union, recommending Lu GUI Chen as the president of the Guild of formations and Lin Yi as the Grand Elder. They would then start preparing for the Guild of formations.

Lu Guichen, on the other hand, went to settle the matters of the formation division. Everyone had their own tasks to do, so only Lin Yi and Jin botian were left in the room.

Ever since Lin Yi came to the starsource continent, this was the first time he had the chance to be alone with Jin botian. It was obvious that Jin botian wanted to talk to Lin Yi alone.

And so, Lin Yi set up a noise isolation barrier and cupped his hands, "Senior brother!"

Jin botian smiled and patted Lin Yi's shoulder, "Junior Brother is really good! He had helped Shixiong a lot! If I Had You here earlier, these problems would have been solved!"

"Senior brother is too kind, it was just a coincidence, it's not a big deal."

Lin Yi waved his hand humbly and said, "Senior brother, regarding the badge, we can not take it lightly. Although the power of the miniature spirit sense formation in the badge is not strong, its level is not low! The other party is an expert!"

"What I'm more concerned about is the rice-sized black crystal in the badge's formation. It doesn't seem to be an ordinary item. We must find clues as soon as possible and follow the clues to find the mastermind!"

"That's true, but this matter isn't simple!" Jin botian nodded slightly. Just now, Zuo Si had already sent someone to deliver the news that all the clues leading to the investigation have been cut off. The people who made and sold these badges have all disappeared, and not a single one can be found. "

"The people who bought the badges in Tianxia Academy have also been killed. The other party is very thorough and didn't leave any flaws. It's ... Difficult to find the mastermind!"

Lin Yi didn't say anything. This was all within his expectations, but he was a little disappointed. It would've been a lot easier if the enemy had left a tail behind.

After a moment of silence, Lin Yi clapped his hands. "If that's the case, then we can only interrogate the Lord patrol envoy of the starsource continent! He's the only clue we have in the badge incident!"

Looking at the mastermind's style of doing things, and how he liked to silence people, Lin Yi was a little more anxious. He was afraid that the inspector of the starsource continent was assassinated.

It didn't matter if he was rescued. He could still catch him if he ran away, but if he was killed, then it would really be irreparable!

Jin botian's face changed slightly as he realized what Lin Yi was worried about. They had only one clue! How could the mastermind not care?

"Hurry up! We'll head over immediately!"

Jin botian stood up abruptly and walked out with Lin Yi, "He's locked up in the prison with Zuo Si's men watching over him. There shouldn't be any problems, right?"

Chapter 8805 The End

He said this because he wasn't too confident. Zuo Si wasn't Jin botian's trusted aide, but after Lin Yi took care of Fengqi Dazhou and went to Sangzi Dazhou to repair his relationship with Lin Yi, he started to get close to Lin Yi.

Lin Yi's position as Vice Dean was secretly promoted by Jin botian, and it wasn't made public yet, so Zuo Si tacitly agreed that Lin Yi was on Jin botian's side, and that was why he'd been subconsciously leaning towards Jin botian after returning to the starsource continent.

Jin botian had been promoted to the director of the inspection department, but he didn't have many capable subordinates to help him. He naturally welcomed Zuo Si's approach, which was why he had given him the task of hosting the competition and the task of tracking down the badge.

Now that he thought about it, it was a little inappropriate!

If there was a problem with Zuo Si, then the inspector of the starsource continent in the prison would probably be in trouble as well!

Lin Yi remained silent as he followed Jin botian to the prison.

At the same time, in the prison cell, the inspector of the starsource continent, bei guoxia, was looking at the prison guard who had just entered with bright eyes.

He didn't know this jailer, but the jailer was holding a tray with a few exquisite dishes on it, all of which were his favorite food.

There was also a small blue and white porcelain wine pot. The faint aroma of wine could be smelled from far away. It was also his favorite meteorite wine!

To be able to send these dishes and wine while in prison, there was no doubt that he was one of their own!

The jailer didn't show any special expression and placed the tray on the ground.

There were no tables or chairs in the cell, only some hay on the ground as a bed.

"Patrol bei, come and eat something! You're the patrol envoy of our star origin great continent, so your status is very high. There must be some misunderstanding this time, which is why you've come to our broken place to suffer for two days. "

As the jailer put down the tray, he spoke casually as if he was having a casual chat. His tone was respectful and fawning. Others would only think that he was trying to curry favor with bei guoxia.

After all, bei guoxia was the patrol envoy of the starsource continent with a prominent status. Although he was now in prison, it was hard to guarantee that he would be able to get out in the next day. If he were to get some food and wine now, he might be able to make a meteoric rise in his career!

In the prison, this kind of opportunistic thing was not uncommon, and the other jailers were used to it.

"I heard that Chief Inspector Zuo didn't find anything. It's obviously a misunderstanding. As long as inspector bei explains it clearly, he'll be reinstated soon. At that time, Please don't forget how I've served you and help me!"

The jailer's words and behavior were very opportunists, but bei guoxia had long recognized that this was one of his own and would naturally be more careful.

Listen to the sound!

The jailer was clearly telling him that Zuo Si had not found any clues, and that he would definitely come back to find an opening from bei guoxia.

However, since there were no clues, Zuo Si could not do anything to bei guoxia as long as he insisted that he did not know anything!

A small matter of corruption and taking kickbacks was neither big nor small. With a little operation, it was not impossible to turn a big matter into a small matter!

This was also a warning to bei guoxia to keep his mouth shut. Only then could they escape unscathed and to everyone's satisfaction!

Bei guoxia understood and smiled. "I'll count on your words! If I can rise again, I will never forget your kindness today! Tell me your name, and when I rise again, I'll repay you!"

The jailer pretended to be overjoyed and quickly reported the name. He chatted with bei guoxia for a while before he bowed slightly and left the cell.

He was just about to lock the door when Lin Yi and Jin botian came in!

Bei guoxia cursed his bad luck. He had been talking nonsense with the prison guard just now. In order to maintain his dignity as a superior, he had not even had a bite of food or wine. Now that Jin botian and Sima Yi were here, how could he have a good meal?

Lin Yi looked at the guard meaningfully before turning to bei guoxia, smiling. "Lord patrol envoy is really a person who is used to being pampered, not even forgetting to enjoy himself while in prison."

"That's right. After all, he's the inspector of the starsource continent. He has quite a lot of influence in the prison. It's not a problem for him to get some food and wine. However, this prison cell is a little shabby. Should I add some furniture? Even the bed needs to be made with the best quality?"

The jailer's mocking tone was emotionless, but the jailer was in trouble. His forehead was covered with cold sweat, and he knelt down immediately.

"Principal, please forgive me! This lowly one acted on his own initiative, thinking that even if the Lord patrol envoy didn't have any credit, he had worked hard. Not to mention what crime he had committed, he should at least have a full meal ... This lowly one is guilty! In fact, I received some benefits from the patrol envoy's family, which is why I bought some food and wine!"

He seemed to be unable to withstand the pressure and knelt down to admit that he had accepted a bribe. Jin botian almost laughed out of anger. Bei guoxia said that he had accepted a bribe to introduce the badge to the deal.

This jailer also said that he had received some benefits, which was why he had given the food and wine to bei guoxia to enjoy. Since when did the star source continent become a place where one could do anything with benefits?

Lin Yi looked down at the jailer coldly and didn't say anything. He knocked the jailer out and grabbed him by the collar. He opened the cell door and threw the jailer in the corner next to bei guoxia.

"There's something wrong with this jailer. Let's arrest him first and deal with him after we've investigated him!"

Lin Yi explained to Jin botian, who nodded in agreement. Bei guoxia was just a small fry, and he didn't care much about him. As long as bei guoxia was here, it was fine.

"Bei guoxia, I came here personally. Other than inspector Sima, I didn't bring anyone else. You should be able to see my sincerity, right?"

Jin botian followed him into the cell and stood in front of bei guoxia." "Tell me the truth, what's the inside story about the badge? Don't even think about hiding it, Zuo Si already has a lot of clues!"

"If you cooperate, I promise to give you a chance to make up for your mistake, and it will be your only chance! If you miss this opportunity, you'll probably fall into a situation beyond redemption!"

Bei guoxia sneered to himself. The unconscious jailer had already informed him of the situation. Zuo Si had not gotten anything out of it, but Jin botian had come to trick him? What a joke!

"Dean Jin, I really don't know! Regarding the badge, this subordinate was only doing what I was paid to do. I never thought that such a small badge would actually hide such a profound secret!"

Bei guoxia thought he had seen through everything and put on an innocent look." "This subordinate has committed a crime and should not have been greedy for money. However, this subordinate really did not know anything about the badge. I hope that Dean Jin can investigate this matter!"

He decided to listen to the jailer's advice and refuse to let go, as he was sure that Jin botian could not do anything to him!

Chapter 8806

If it was only corruption, it was nothing in bei guoxia's eyes. He could easily clear his name.

"Dean Jin, actually, it's not a big deal to take some kickbacks. I'm not the only one in the entire starsource continent who does this. Not to mention others, most of the remaining investigators are the same. Kickbacks are just an unspoken rule!"

Bei guoxia continued to play the role of an innocent man, not forgetting to cry out for his own innocence."If not for that, how would this subordinate and the others have the funds to support their superiors?"

He was insinuating Zuo Si. As the chief Inspector, it was not a secret that Zuo Si had plundered money from all the continents. All the inspectors knew it!

Bei guoxia thought that Zuo Si was Jin botian's trusted aide, so he had tried to plant a nail in Jin botian's heart.

Jin botian fell silent for a moment. Bei guoxia was telling the truth and he couldn't refute him!

Zuo Si's trips to various continents to collect bribes was a half-open secret in the inspection Institute. However, he knew how to conduct himself well and would never take all the bribes alone.

At least one-third of the benefits would be used to bribe everyone, and everyone who saw it would get a share.

In this way, no one would jump out to find trouble. Even if someone did, those who had received benefits would come forward to help solve it.

Aside from Zuo Si, it wasn't a well-known fact that the inspectors of the various continents received kickbacks, but it was indeed an unspoken rule.

If Bei Guoxia insisted that it was only a Commission, it would not be appropriate for him to be punished severely ...

Jin Botian wanted to change this situation, or else the inspection department would be rotten to the core sooner or later.

However, these things could not be solved in a day or two. He had to have a long-term plan.

Lin Yi was actually an important part of Jin Botian's plan. Fengqi Dazhou and Sangzi Dazhou had already been transformed by Lin Yi.

Bei Guoxia continued to cry out for his innocence, sneaking glances at Lin Yi and Jin Botian from time to time. He couldn't help but feel happy when he saw Jin Botian's expression, thinking that he might really be able to get away with it!

Thus, he became even more determined and decided that he would not give up even if he was beaten to death!

Jin Botian looked at Lin Yi helplessly, thinking that he wouldn't get anything out of him. Should he punish him?

Things like extorting a confession through torture didn't sound good if they were to spread out. It would affect his honorable image as the head of the inspection department.

However, the badge incident was extremely serious. If he didn't find out the truth, Jin botian wouldn't be able to sleep at night!

Lin Yi understood the look in Jin botian's eyes and returned a reassuring smile before turning to bei guoxia. "Investigator bei, you don't have to say any more nonsense. Actually, there are some things that everyone is well aware of. Acting pitiful won't make you really become an innocent person."

Bei guoxia was indignant, "Sima Yi, what do you mean?" I'm an innocent person, what are you trying to do by saying that? What good would it do you to attack me? Could it be that you're here to take over my position as the inspector of the starsource continent, so you want to kill me?"

"That's right! This was definitely the case! Sima Yi, you're really vicious! In order to achieve your evil goal, you want to frame me to death! As expected, if you want to frame someone, you won't be able to find a good excuse!"

"Good, good, good! I've finally understood. Headmaster Jin and you, Sima Yi, are on the same side, and now you're complaining that I'm blocking the way, right? You want to kick me away, this stumbling block? No problem, I'll give up my seat, alright? Dean Jin, I'll give up my position. Can you at least give me a way out?"

Jin botian's expression was a little ugly, but bei guoxia was right. He did want Lin Yi to be the Vice Dean, and it would be good if he could take over as the inspector of the starsource continent.

However, he did not target bei guoxia because he wanted to kick away an obstacle. It was because there was something wrong with him!

Lin Yi laughed disdainfully, "alright!" Stop acting! Your acting skills are really bad! Bei guoxia, since there are no other people here, let's get straight to the point!"

"You must have a backer in the inspection Institute, right? Do you think that by insisting that it's just a Commission, you can let the people behind you have the time and opportunity to get you out?"

"Avoiding the important and waiting for help is indeed a good idea. If this were a normal situation, I wouldn't say that your idea was wrong. Unfortunately, this is not a normal situation!"

Lin Yi squinted his eyes, a mocking expression on his face. "If I'm not wrong, the person behind you instructed you to do this for the badge, right? There's no need to be surprised, because it's easy to deduce. "

"I'm not afraid to tell you the truth. All the people that Zuo Si was investigating have either completely disappeared or died in an accident!"

"It's not impossible for you to say that it's a coincidence, but if there are too many coincidences, then it's definitely not a coincidence! There must be something fishy about this matter! I'm not looking down on you, but with your methods and power, you can't clean up the entire mess, because you're part of it!"

"So, I'm guessing that the person behind you should be the mastermind behind this. Then, the problem is, ran ran, you didn't disappear in the right time, and you fell into our hands!"

"Do you think the person behind you will allow such a huge flaw to remain in our hands? Of course, he might send someone to comfort you and give you confidence. He might make you think that he will save you!"

"You might be willing to believe him because he's your last hope. You're willing to keep his secret in exchange for a chance for him to save you ..."

"The problem is, have you ever thought about who in the inspection department has a higher position than Dean Jin? Given that Dean Jin values you as the only clue, who can get you out without him?"

"Since you can't get it out, your flaw will only get bigger and bigger. Think about those who died for very reasonable reasons ... You'll probably be one of them, right?"

"After all, the dead are the safest keepers of secrets. As long as you die reasonably, the person behind you won't have to jump out and fight with Dean Jin. Saving you will easily expose himself."

"Your biggest flaw has completely disappeared. You will no longer affect him. Bei guoxia, if you were him, what do you think you would do?"

Lin Yi rarely spoke so much, but it was clear that these words had a huge impact on bei guoxia!

As Lin Yi continued to narrate, his face became paler and paler.

He couldn't deny that Lin Yi's words made sense, and the possibility was high!

At the very least, the unconscious jailer beside him was a pawn sent by the person behind him to appease him!

Chapter 8807

It was precisely because of the jailer's reminder that bei guoxia was so confident that he would not say anything!

A seed of fear began to sprout in bei guoxia's heart. He subconsciously looked at the tray that the jailer had brought in.

There were a few of his favorite exquisite dishes and a pot of his favorite meteorite wine!

He had been quite happy before, but now it seemed like he was watching his last meal!

Lin Yi's heart moved-he'd noticed the tray when he'd first entered, and that was why he'd gotten suspicious of the guard and taken it without paying much attention to the tray.

He only realized now that this was actually a very useful item!

If the person behind bei guoxia wanted to silence him, the best choice would be to kill him with poison while comforting him!

Therefore, it was very likely that the food and wine on the tray had been poisoned!

Bei guoxia's eyes clearly revealed his thoughts. Regardless of whether the food and wine were poisonous or not, he had probably determined that they were poisonous and did not dare to take another bite.

"Ha ... These dishes and wine look very exquisite. To be able to enjoy such exquisite food in the prison, patrol bei must have no regrets in death, right?"

Lin Yi squatted down with a smile and poured himself a glass of wine. He handed it to guoxia. "Come, patrol bei, please enjoy to your heart's content. Such a good dish will affect its taste if it gets cold. Hurry up and eat!"

Bei guoxia's expression changed. He did not want to die!

Since he suspected that the food and wine were poisoned, there was no way he would touch something so deadly. He subconsciously took a step back when Lin Yi handed him the glass.

Lin Yi pretended to shake his hand, and the wine in the glass spilled on the dishes on the tray. One of bei guoxia's favorite dishes was smoking, and one might even think that it was the heat of the dish itself.

It was indeed poisonous!

The thought crossed both Lin Yi and guoxia's minds at the same time!

Lin Yi was as calm as expected, but guoxia was in disbelief.

Jin botian sneered, "you've put in a lot of thought!" The wine and dishes alone won't poison people. Even if you carefully test them, you may not be able to find the poison. "

"However, when the wine and this dish are mixed together, it will immediately produce a qualitative change, producing a poison that will kill the victim immediately! Bei guoxia, your master has already used this kind of poison to deal with you. Are you still going to cover for him?"

Bei guoxia's face turned pale. Of course, he knew that he had become the target of being killed. It was unrealistic to say that he did not have any resentment.

However, he did not dare to lean towards Jin botian!

If he dared to reveal the truth, even if he didn't die now, he would definitely be hunted down to death in the future. On the contrary, if he clenched his teeth and didn't say anything now, the people behind him would fail to silence him. If things didn't go well, he might have to save him with all his might.

Bei guoxia weighed the pros and cons over and over again. It seemed like he would be able to take a stab if he were to stick his head out. However, it seemed like his chances of survival were slightly higher if he persevered ... For the sake of his own life, he could only grit his teeth and continue to endure!

Even though he was cursing the person behind him for being cold-blooded and heartless, he could only bite the bullet and say, ""Dean Jin, Sima Yi, I don't understand what you're talking about!"

"You want to mess with me? I've accepted my fate. You can poison me to death, but I, bei guoxia, can't go around flirting with other people!"

"Although I, bei guoxia, like to take kickbacks and be greedy for small amounts of money, that's only because the situation forced me to do so. I can't stay out of this alone!"

"But I'm still an upright and upright man. I, bei guoxia, will never do such a shameful thing to save myself by clinging to others! You can do whatever you want to me, I'll take it all!"

Bei guoxia's loud and generous speech showed that he had some integrity. Perhaps he wanted the spy behind the scenes to report it to the higher-ups, although he was not sure if such a spy existed.

Lin Yi smiled and shook his head, "bei guoxia, you really won't give up until you see the coffin!" You clearly know that the person behind you is going to kill you, yet you still want to protect him?"

"Fine, I wanted to give you a way out, but since you don't care, I don't have to worry about you! Do you think we can't do anything to you just because you're clenching your teeth and not saying anything?"

Bei guoxia raised his head, his face full of "what can you do about it"-it was true that Lin Yi and Jin botian couldn't do anything about it if he refused to admit it.

He wouldn't be punished for a small crime of taking a kickback!

"Ha ... The ignorant are truly fearless! You're so naïve, how did you get into the position of inspector of the starsource continent? A person like you, you're being sold and you still have to help count the money, poor thing!"

Lin Yi raised his right index finger and waved it at guoxia."To tell you the truth, I don't really care if you're Dead or Alive. We came early this time and didn't make you eat the poison."

"But even if we came a little later, it doesn't matter if you're already dead from the poison. As long as your primordial spirit hasn't dissipated, I can know everything I want to know!"

Guoxia didn't believe Lin Yi at all."Whatever you say. I don't know anything anyway. I just got some kickbacks. If you want to kill me because of this, I have nothing to say!"

"Investigator bei, you didn't even react to my words. Do you not believe me or do you know nothing about my methods? Have you never heard of a method called soul searching?"

Lin Yi tilted his head and looked at guoxia with a half-smile.

When bei guoxia heard the word "soul search," his expression turned ugly. It was obvious that he had heard of it before, but he had not thought of it.

After all, the soul-searching skill only existed in legends. Bei guoxia had never met anyone who knew how to do it!

"Haha ... Haha ... Who are you trying to scare? You said you know how to search the soul, do I have to believe you? Do you really think I'm stupid! Even if you know how to search the soul, you'll only be hiding it. How could you say it out loud?"

Bei guoxia was a little flustered, but he did not believe it on the surface. After all, soul-searching techniques were not the right thing to do. It could easily cause public anger. If someone really knew how to use soul-searching techniques, they would definitely not tell anyone!

"If you don't believe me, then try it!"

Lin Yi didn't waste any more time and used his consciousness vortex to drain bei guoxia's essence spirit.

Lin Yi did know how to search souls, but using it too often would be a burden on him. He didn't like to use it.

Therefore, he used the spiritual awareness Whirlpool to scare bei guoxia. If he could yield, that would be the best.

Chapter 8808

The deified soul vortex had an outstanding effect on primordial spirit attacks. Bei guoxia did not have any deified soul defense techniques. He felt as if his primordial spirit was being pulled out of his body and was trapped in a violent vortex. It was constantly being worn down. He was scared out of his wits.

He had never tried to search his soul and thought that it would be this kind of terrifying feeling. In just a moment, the thought of holding on to death disappeared!

"Stop, stop, stop! I said it, I said everything! Don't search my soul! I promise to tell you everything!"

Bei guoxia gritted his teeth and did not say it for the sake of a chance of survival in the future. He was on the verge of tears. Who knew that there would be no future if he did not say it? this was his last moment!

Once one's primordial spirit was soul searched, there was almost no possibility of survival!

Bei guoxia was already afraid of death, so he turned around and kneeled in front of Lin Yi and Jin botian.

Lin Yi laughed to himself-he should've just used this method if he knew it was this easy! He had wasted so much saliva for nothing!

"Tell me, I won't ask you any specific questions. Just tell me the truth. If you hide anything from me and make me feel that you're not being honest, I'll immediately use the soul-searching skill again!"

Lin Yi didn't say anything else after the small warning, smiling at guoxia instead.

Bei guoxia was panting heavily, as if he had just escaped death. He looked at Lin Yi with fear in his eyes.

In his mind, a person who knew the soul-searching technique was probably the same as a peak magical beast of the darkness magical beast clan.

"I'll tell you the truth ... I really don't know about the problem with the badge. My backer is the Deputy Vice President of the inspection department. He arranged for me to be the intermediary for Tianxia College's custom badge transaction. "

Bei guoxia decided to be honest and spilled the beans. "... I just followed his arrangements and did a small act of pulling the strings and building the bridge. I also got some kickbacks at the same time ... I thought that this was an opportunity for me to make some benefits. I really didn't expect that there would be so many tricks involved ..."

Lin Yi and Jin botian observed him carefully-the man's expression and tone didn't seem to be fake at all.

In other words, bei guoxia really did not know about the badge. As the only remaining flaw in the whole investigation, he was afraid that the person who knew and arranged the whole thing was the Deputy Director of the inspection Institute.

This managing Vice Dean was called mu beige, and he was a strong contender for the position of the head of the inspection department.

If it weren't for Jin botian's discovery of Lin Yi, who brought him a sea of achievements, he might not have been able to get the Dean's position.

Even though Jin botian had become the president, he did not have much power to restrict mu beige.

After all, this person also had a huge amount of power in his hands and had a huge influence in the inspection department.

Although he was slightly inferior to Jin botian, who had become the director, he had the ability to stand up to him and had formed a powerful force in the inspection department.

Jin botian snorted and said, "it's mu beige indeed!" I already knew you were his, but I didn't expect him to be so crazy that he even wanted to attack the Tianxia Academy!"

Jin botian had suspected mu beige ever since he realized that bei guoxia might be involved in the badge incident, but he had no evidence!

It could not be said that bei guoxia was on mu beige's side, but that mu beige was the leader of the mastermind.

Now, it was confirmed!

"Dean Jin, I really don't know anything. Everything was ordered by mu beige! Please, Dean Jin, show mercy and forgive this subordinate's unintentional mistake!"

Bei guoxia was begging from the bottom of his heart. He didn't want Lin Yi to use the soul-searching skill on him again because he didn't trust him!

"Alright, you can stay here for now! As long as you're fine, I won't pursue you and will naturally give you a lighter punishment!"

Jin botian brushed him off and led Lin Yi out of the cell. He ordered the other guards to look after bei guoxia and the unconscious guard before bringing Lin Yi to the patrol yard.

Jin botian was about to gather his men to capture mu beige when he arrived at the patrol house, but Lin Yi stopped him.

"Senior brother, don't! We don't have any concrete evidence right now, so if we rashly mobilize a large number of troops, we'll only alert the enemy and give them an opening. It's better if we go and find mu beige. "

Lin Yi had absolute confidence that he could take down the Vice Dean, mu beige. He didn't need too many people.

On the contrary, when there were many people, many methods were not convenient to use.

For example, he wouldn't have been able to tell bei guoxia about the soul-searching technique earlier if there were a lot of people around.

"If there are too many people, mu beige will bite back and say that senior brother is targeting him. That won't be good! It would easily cause internal chaos in the inspection department! Right now, we need to stabilize the situation, take down mu beige, and slowly take over his power. Only then can we ensure the stability of the inspection Institute. "

Lin Yi's persuasion was very effective, and Jin botian trusted Lin Yi a lot. He immediately nodded in agreement,"Junior Brother is right, I was a bit anxious! If that's the case, then let us brothers go and meet mu beige!"

Jin botian wasn't a weakling himself, and Lin Yi's combat strength was even more shocking. If it was a small scale battle, the two of them would be enough.

Mu beige had gathered a large number of people to resist, which directly became a rebellion against the Dean. Now that Jin botian had evidence and words to say, it was perfectly justifiable for him to deal with mu beige.

After their discussion, the two of them left together and went to mu beige's door!

"Jin botian and Sima Yi came together? Other than the two of them, is there no one else?"

When mu beige received the report, he seemed to be in disbelief.

He knew that it was a huge flaw for bei guoxia to fall into Jin botian's hands. He had also thought about what Jin botian would do to him if he found out about the clues.

He'd thought of many ways, but he didn't think that Jin botian and Lin Yi would come to him in private!

"Arrange for some people to hide in the surroundings and act only when they hear my orders! You guys stay here!"

Mu beige muttered to himself for a moment, then immediately responded. In addition to leaving four experts to protect him, he also arranged for more than ten trusted experts to surround the room.

He didn't care what Jin botian and Lin Yi's intentions were, but he was sure that with these Masters here, nothing would go wrong!

"That's enough. Go and invite our Vice Principal Jin and the legendary Vice Principal Sima in!"

Mu beige sneered as he sat on the main seat, waiting for the two uninvited guests to enter.

Lin Yi and Jin botian didn't force their way in and had someone notify them first as if it was a normal visit. However, Lin Yi didn't sit around while waiting for the notification.

Chapter 8809

Lin Yi's powerful spirit sense spread out and covered the entire yard.

There were some obstacles blocking his spirit sense, but with Lin Yi's spirit sense, he could easily get rid of them without much effort.

Therefore, mu beige's plan, which he thought was hidden, was exposed to Lin Yi's divine sense.

Lin Yi didn't care about these people at all, because these so-called Masters were no threat to him at all!

The messenger came out and led Lin Yi and Jin botian all the way to the main hall. Mu beige pretended to stand up and take two steps outside.

"Aiyaya, what wind blew today, to actually bring Dean Jin and the legendary Deputy Dean Sima here together. It's really an honor for me, adding light to my humble dwelling!"

Mu beige didn't have the intention of a subordinate meeting with his superior. He casually cupped his hands and treated it as a greeting.

Lin Yi and Jin botian didn't mind and cupped their hands casually as well.

Everyone knew that they were not good friends, so they tried to brush them off.

"Deputy Dean mu, it's an honor to meet you at last ... Well, actually, this is the first time I've heard your name, and I heard it from bei guoxia. I heard that you're his backer, so I thought that I should come over to see what your backer looks like no matter what."

Lin Yi didn't beat around the bush and went straight to the point, "According to bei guoxia, you're the one who's been secretly manipulating him when he introduced the custom badges to Tianxia Academy. Is that true?"

Mu beige didn't expect Lin Yi to be so direct, and he was caught off guard. Of course, he wouldn't admit it, so his face darkened, ""Vice Principal Sima, please mind your words! Don't blame this Lord for some rumors!"

"Although you're also the Vice President of the inspection department, you're the one with the last seat! I'm the managing Vice Dean, and you're far inferior to me in terms of age, experience, and rank. You should at least show some basic respect to a senior, right?"

He didn't answer Lin Yi's question directly, only using it as an excuse to scold Lin Yi for not following the rules. He was obviously hiding something.

"Vice Dean mu," Lin Yi laughed coldly, "of course I respect you, but that's only if you deserve my respect! You know what you ordered bei guoxia to do. Why? Do you dare to explain for me and Dean Jin?"

"If you want to punish someone, you can't find a good excuse! I don't even know what you're talking about. How am I supposed to explain?"

Mu beige glared at Lin Yi unhappily before turning to Jin botian. "Dean Jin, what do you mean by this? Are you trying to suppress me? You're already the director of the inspection department. Are you still worried that I'll fight with you for the position of director, so you want to fabricate some charges to get rid of me?"

His thinking was simple. He would just deny everything and push the blame away. If you have evidence, then show it!

If they wanted to touch him without any evidence, then the experts in ambush would be of use!

"Vice-Principal MU's words are incorrect! I've never targeted you, and everything I do is fair and open. When have I ever tried to get you out of here?"

Jin potian smiled indifferently, "but Vice Dean mu, if you really do anything to harm mankind, I will definitely not let you off easily!" This has nothing to do with the Dean's position!"

Mu beige chuckled and shook his head, "well said, but isn't the result the same?" I don't know anything about the badge you're talking about. It's up to you to believe me or not! What do you want to do next? just say it!"

The four master guards standing at the side were mu beige's trusted aides. After he finished speaking, the four of them took a step forward, their hands on the weapons at their waists as they glared at Jin botian and Lin Yi with fierce expressions.

The rhythm of starting a fight at the slightest disagreement!

Mu beige didn't stop them at all. He smiled at Lin Yi and Jin botian. He wasn't afraid of falling out with them right now because Jin botian only brought Sima Yi here. In his eyes, it meant that he didn't dare to fall out with them.

The more you don't dare to do it, the more I can do it!

It was a very simple backward deduction. Now, he wanted to see how Jin botian would respond!

Jin botian's indifferent gaze swept across the four guards, feeling extremely displeased.

After all, this was the inspection department. To show hostility to the head of the inspection department so openly, did he really want to rebel?

Such an act indeed made Jin botian even more fearful of mu beige!

"Heh ... Vice-Principal MU's fearlessness must mean that you think that the Academy can't do anything to you because you have someone in your hands, right? Even if you've done something wrong, you can still stand up straight and act like you're right?"

Lin Yi looked at the four guards in disdain and shook his head, "If Vice Dean MU's confidence is only based on these few people, then I'm afraid he's mistaken!"

Before he could finish his sentence, he unleashed his heaven breaking aura and activated his butterfly microsteps to the extreme. Lin Yi turned into a shadow and instantly circled the four people!

In the blink of an eye, Lin Yi had returned to his original position, and the four guards fell to the ground, face up, without even a chance to scream.

Mu beige's expression changed. Lin Yi's strength was clearly beyond his imagination, making him feel a little scared!

"Vice Dean mu, why don't you let the dozen or so people outside come in as well? they're not outsiders. If their brothers are lying down, there's no need for them to squat so hard. As a family, the most important thing is to be in good order, don't you think so?"

Lin Yi looked at mu beige with a teasing smile. This guy's face was getting paler and paler. Even the people hiding outside had been discovered?

Since he knew there was an ambush and still dared to come in, he naturally had full confidence and assurance that he could retreat unscathed!

Mu beige gritted his teeth and suddenly laughed coldly. "Vice Principal Sima, what do you mean? Attacking my people in my territory? Do you even have me in your eyes? No matter what, I'm still your superior!"

"Even if you want to frame this Lord, you should at least show some evidence. You want to frame this Lord just by relying on your words? What a joke!"

Mu beige calmed himself down. He could only bet that Lin Yi and Jin botian wouldn't dare to do anything to him here. At least, they wouldn't dare to do anything to him without solid evidence!

Otherwise, his subordinates would definitely cause a ruckus, and the entire inspection department might fall apart because of this. When that time came, it would be unbeneficial for anyone if martial League got involved.

Chapter 8810

"You're right. I do need some evidence to deal with you. So, hurry up and tell me everything you know. I'll use this evidence to deal with you!"

Lin Yi nodded seriously and made a gesture of listening. Mu beige was a little confused. What the hell?

You want me to tell you the evidence, and then you'll use the evidence against me? Is it me or you who has water in your brain?

He looked at Lin Yi as if he was an idiot, looking down on him. He didn't even bother to mock Lin Yi anymore-there was no point in retorting!

Lin Yi shrugged and spread his hands."Alright, I know you won't open your mouth so easily, so I'll have to use some tricks!"

Before he finished speaking, he attacked with the soul-hooking hand!

With Lin Yi's current level of strength, without extremely precious defensive spirit sense items, martial artists of the same level wouldn't be able to withstand any spirit sense attacks.

The sub-island's practitioners, on the other hand, were very weak in terms of essence spirit. Even if their body was one realm higher than Lin Yi's, they would be completely crushed by Lin Yi in terms of spirit sense, let alone the same level as him!

So when Lin Yi used the soul Catcher hand, mu beige didn't even have the time to react. His primordial spirit was pulled into the Jade space by Lin Yi's Soul Catcher hand!

"Senior ghost, please take good care of this Vice Dean mu and dig out everything he knows!"

Lin Yi didn't do it himself, but left mubei Pavilion to the ghost and the others. When the nine infants and Starlight Magus entered the Jade space, they had fun playing with him, and now it had become a routine.

The victims, such as the nine infants Grand Wizard and the Starlight Grand Wizard, had all changed their identities. They were now transferring all the suffering they had experienced to the new primordial spirit!

Mu beige's miserable cries didn't stop, and he quickly explained everything!

The badge incident was indeed his doing, but it was the darkness magical beast clan behind it!

Mu beige was just a brainwashing agent sent by the darkness demon beast clan. He had to do everything according to the orders of the darkness demon beast clan.

The badge was an experimental product that the darkness magical beast clan had created through human array Mystic cultivators. The black crystal at the core of the badge came from the darkness magical beast clan, and without that rice-sized black crystal, the badge's miniature array wouldn't be able to unleash much of its power.

Mu beige held a high position, and he was an excellent spy for the darkness demon beast clan. He was not willing to use it easily. After all, if mu beige was exposed, it would be a huge loss for the darkness demon beast clan.

However, in order to test out the badge, the darkness demon beast clan still used mu beige. It could be seen how important this matter was.

Although mu beige was also hiding behind the scenes, leaving the arrangements to his subordinates and decisively eliminating most of the hidden dangers, he still couldn't escape the end of being exposed when he encountered Lin Yi!

Unfortunately, even though mu beige's status among humans was high, he was only an important chess piece in the darkness demon beast clan.

He would carry out any orders from the darkness demon beast clan. As for the meaning behind the orders, the darkness demon beast clan would not tell him.

So even when Lin Yi sent mu beige into the Jade space with the soul Catcher hand and asked the ghost thing to interrogate him, he only got some preliminary information. He didn't get any deeper information.

The interrogation in the Jade space had ended, and Lin Yi knew the final result, but it didn't take long. Mu beige seemed to be in a daze, and Jin botian didn't notice his abnormality.

"This guy's primordial spirit has collapsed. What are you going to do?"

The demonic thing was a little embarrassed. Lin Yi's original plan was to get the information he wanted, then erase mu beige's memory of this Jade space and stuff it back into his body.

This way, he could deal with mu beige through proper means without arousing anyone's suspicion.

He didn't expect mu beige to be a high-ranking human who had been brainwashed by the darkness demon beast clan. When the soul snatching hand pulled his primordial spirit into the Jade space, the instant death Seed planted in his primordial spirit had already been activated.

The demonic thing realized that something was wrong and temporarily controlled the instant-Death Seed. Then, it used all its means to obtain the information it wanted before mu beige's primordial spirit completely collapsed. It was really not easy ...

"So what if he's dead! Even if he isn't controlled by the darkness demon beast clan, he'll still be an enemy of senior martial brother Jin. It's just the death of an enemy, so there's no need to feel sorry for him. "

Lin Yi said after some thought. "In order to hide it from the others and make mu beige's death a reasonable one, senior ghost, I'll have to trouble you to possess his body and explain it to you with his identity."

Ghosts could, of course, use other bodies like Lin Yi, be it humans or dark beasts.

It could even possess one of them, but that way, the ghost's primordial spirit would not be able to merge with its body completely, and it would not be able to recover its previous Green Dragon bloodline. With the ghost's pride, it would definitely not choose such a method.

He'd only wait for a chance to rebuild his body like Lin Yi did in the future. It didn't matter if he possessed a body without a spirit, but he couldn't do it for too long, because if he did, he'd be forced to take over the body!

"Alright, this old man will reluctantly help you this time!"

The ghostly thing did not refuse and quietly possessed mu beige's body.

Because it had only been a short while, Jin botian did not realize that the primordial spirit in mu beige's body had changed.

"Sima Yi, you don't need to use any tricks. There's no harm in this Lord telling you everything!"

After the ghost possessed him, it immediately entered into a state of mind. It mimicked mu beige's expression and tone, and first gave an order, ""The people outside, come in! Cancel the plan!"

Soon, the experts who were lying in ambush outside came in with puzzled faces. They didn't know what their master was thinking. Was he frightened by a few words?

However, when they saw their four companions lying on the ground, they had no objections to mu beige's order.

The four of them were the strongest among them, but they couldn't even stop the other party in one move. What was the point of fighting then?

If they could have a good talk, they should have a good talk ...

Ghost Dongxi pretended to cough twice and put on a serious expression. ""I'll be honest with you all. I'm actually a spy from the darkness demon beast clan! Everything I've done is for the sake of the darkness demon beast clan!"

"I'm also the mastermind behind the incident with the Tianxia Academy's badge. Bei guoxia was just a chess piece that I arranged to take the blame for me when the time came. I just didn't expect Dean Jin and Deputy Dean Sima to react so quickly and come to my door directly!"
