

## Bodyguard 8811

### Chapter 8811 The End

"Since you're here, it proves that you have key evidence. I'm too lazy to continue pretending. Let's just lay our cards on the table!"

"I did everything, so I'll take responsibility. The darkness demon beast clan created those badges only for experiments, and their true purpose is still unclear. I'm actually similar to bei guoxia, I'm just a chess piece that was thrown out to take the blame at the critical moment!"

"That's all I can say. If you want to find out more, then work hard! Since I've already been exposed, the darkness demon beast clan definitely won't let me live. In order to feel better, I'll end my own life!"

The demonic thing finished speaking in one breath and really committed suicide in front of everyone!

Of course, it was only mu beige's physical body that had committed suicide. The ghost's primordial spirit had already quietly returned to the Jade space.

There would be a slight space fluctuation when opening the space of the jade pendant, but to detect this kind of subtle fluctuation, one's spiritual sense must be extremely powerful.

With Lin Yi's consciousness and the damn thing's understanding of the rules of space, unless someone's essence spirit was much stronger than Lin Yi's, they wouldn't be able to break through Lin Yi's consciousness and notice the fluctuations of the Jade space opening.

Therefore, Jin botian looked at everything that was happening in front of him with a dumbfounded expression. He simply could not understand why the arrogant and overbearing mu beige had suddenly repented.

Not only did he confess everything, but he even committed suicide to apologize for his sins?

As for the guards of mubei Pavilion, they were even more confused. They had no idea what was going on ...

Their master had committed suicide, so should they also commit suicide to show their loyalty? Or fight to the death and kill the culprit who forced master to death?

I don't think I can win ... Then throw down my weapon and kneel down to beg for mercy?

It would work!

After the first one dropped his weapon, the second and third followed. Soon, the guards all surrendered!

"Very good, you've all found your way back and have some sense now. It's indeed not worth it for you to pay so much for a spy from the darkness demon beast clan!"

Jin botian nodded and made a promise. "Next, you'll have the opportunity to atone for your crimes. You'll spread what you saw today and let the people from mu beige's faction know his true colors. You'll turn over a new leaf and become a new person. This way, not only will you not be guilty, but you'll also be rewarded with a lot of credit!"

"Yes! I'll obey the Dean's orders! This subordinate will definitely be crushed to pieces to repay the Dean's magnanimous grace!"

All the guards knelt down and expressed their loyalty in unison.

Jin botian was overjoyed. He never thought that he would be able to deal with mu beige this time. From now on, although he couldn't say that he had complete control over the inspection department, he was not far from it.

Even if the remaining diehards wanted to stir up trouble, they might not have the ability!

After sending everyone away and cleaning up mu beige's body, Jin botian pulled Lin Yi to sit down and talk.

"Junior Brother, don't you think there's something strange about this? Mu beige wasn't at the end of his rope yet, so why would he commit suicide? If he doesn't tell us the truth, we won't have any evidence, and it'll be hard to deal with him ..."

Jin botian didn't hide his suspicions in front of Lin Yi, "Even if he really wants to give up, there's no need for him to reveal everything, right? Could it be that he's lying to mislead us?"

Jin botian did not believe that mu beige would sacrifice himself to protect his men. It was impossible for him not to touch mu beige's men.

Every Emperor had his own courtiers, let alone the enemy's subordinates.

In the days to come, Jin botian would definitely purge himself slowly and place his confidants in important positions so that he could better control the inspection department.

Lin Yi sweated a bit-that wasn't the real mu beige, so everything he said was true ...

"Senior brother, you worry too much. As the saying goes, when a bird is about to die, its cry is also sorrowful. When a man is about to die, his words are also kind! Mu beige probably felt that there was no point in hiding the truth for the darkness demon beast clan, so he told us everything before he died. "

"Rather than doubting his words, why don't we pay more attention to the fact that the important Yingying insignia he mentioned was just an experiment from the darkness magical beast clan? what is the true goal of the darkness magical beast clan?"

"This matter is extremely important and can not be ignored! Senior brother must find a way to find out the whole story! Otherwise, when it explodes in the future, we'll probably lose the time and space to deal with it, and we'll be caught off guard by the darkness demon beast clan!"

"It's really hard to say what will happen at that time! For the sake of the future, we have to plan ahead and nip everything in the bud!"

Jin botian agreed with him and nodded with a serious expression. "Junior Brother is right. This matter is very important, and I will definitely not ignore it! It just so happens that Mubei Pavilion's matter is very serious and must be reported to Martial Alliance's Great Hall Master. I'll directly look for the Great Hall Master to discuss it!"

"I'm afraid that we might not be able to find the real reason alone. We'll need the full cooperation and support of the Martial Alliance to find out the dark Demon beast clan's conspiracy as soon as possible!"

Jin botian immediately got up and prepared to go to the Martial League to discuss this matter with First Hall Master Luo xingliu.

Lin Yi had a good impression of Luo xingliu, and thought that it would be a good idea for Jin botian to discuss things with him. He didn't say anything more and went back to the inn after sending Jin botian off.

Mu beige knew too few clues, which was equivalent to completely cutting off the possibility of continuing the search. He had only exposed a part of the dark Demon beast clan's plan.

Lin Yi couldn't investigate further, so he left it to Jin botian to handle. He prepared himself for the second round of the inspector tournament.

In fact, Lin Yi had a huge advantage in the first round. He could've gotten first place even if he didn't participate in the later rounds, but if he really didn't participate, he'd be disqualified with zero points. So, he had to go and see if there was a chance to help Yan Su.

Back at the station, Yan Su had been waiting for Lin Yi. He was very concerned about this matter, so he didn't hide anything and pulled Lin Yi to ask for details.

In comparison, the talisman formation sub-school, talisman formation Guild, and so on weren't considered a big deal!

Lin Yi explained the situation briefly, giving Yan Su a rough idea of what happened.

Yan Su frowned and said with a serious expression, "I didn't think that there would be matters regarding the darkness demon beast clan here! These guys were really all-pervasive! Even the Deputy Vice President of the inspection department was under their control! If we hadn't discovered it early, the consequences would have been unimaginable!"

After sighing a little, he focused his attention on the incident itself. "Sima, what do you think the darkness demon beast clan is trying to do? Using the badge to disrupt the attention of the teachers and students of the worldly Academy, causing a break in our human talent reserve?"

Chapter 8812

"After the experiment is successful, we'll promote this badge to the entire sub-Island? It didn't seem very reliable! If they had the time and energy, the darkness demon beast clan would have broken out of the boundary long ago and launched a counterattack on the sub-Island, annihilating the humans!"

It was a little exaggerated, but it made sense. Lin Yi was confused-what was the dark Demon beast's purpose for creating this thing?

It couldn't just be to disgust the teachers and students of Tianxia college, right?

Lin Yi didn't know what to do, so he decided to put it aside for now.

"Forget it, let's not worry about that. With Dean Jin and Hall Master Luo handling it, the results should be out soon. We should pay more attention to the inspector tournament. After all, it's the most important thing for us to come to the starsource continent."

When Yan Su heard this, she laughed and said,"that's true!" We haven't even settled our own matters, what's the point of thinking about other things?"

"But speaking of the great tournament, there's actually no need to pay too much attention! Because of the re-emergence of the talisman division, Sima, your current score is far ahead of the others. Even if you only get the lowest score in the following events, no one can shake your position as the top scorer. "

"Unless you deliberately don't score a single point, causing all the scores to be invalid, then you will be overtaken! You gave me the credit for discovering the problem with the badge, and my current score is also far above the others, just a little less than yours. It's basically impossible for the others to surpass me. "

"So I don't think we need to be too serious about the later part of the competition. The wind will destroy the tree that stands out in the forest. The Phoenix great continent is a third-grade continent. I don't want to change the place. The matter of showing off should be left to others."

Yan SU's thinking was quite clear. If his performance was too good, it was likely that he would be transferred to a second-class continent or even a first-class continent. With his current score, this possibility was still very high.

But he didn't want to leave Fengqi great continent. After all, Fengqi great continent was his root. He was old and didn't have much ambition, so staying in Fengqi great continent was the best choice!

Lin Yi couldn't help but smile, "director Yan, you're overthinking it!" Good performance doesn't mean you'll be transferred to another continent. As long as you don't want to leave Feng Qi, I promise you'll stay there!"

The head of the inspection department was Jin botian, and Lin Yi himself was one of the Vice Deans. If he wanted Yan Su to stay in Fengqi Dazhou, wasn't it just a matter of a word?

"So when it's time to perform, you still have to perform well. Just take it as fighting for Feng Qi continent's face. You have to let those who look down on third-grade continents know that the third-grade continent's inspector can easily and happily crush them all! Let's see if they still have the face to be smug?"

Lin Yi's words hit right into Yan SU's heart.

In the past few days, he had already experienced that the third-grade continent's patrol envoy was nothing in the eyes of the second-grade and first-grade continents "patrol envoys. Indeed, he should work hard and give those snobbish patrol envoys a good slap in the face!

"Hahaha, well said! Then we'll continue to fight for victory with all our strength and trample on those first and second-grade continents "patrols under our feet! Let's see what else they have to say!"

Yan Su laughed out loud, his whole body was like an unsheathed sword, revealing its sharpness. It was obvious that Lin Yi's words had triggered his desire to win!

"Oh right, tomorrow is the second competition. Just now, someone from the inspection department came to inform us that the second competition will be a debate. I'm not very sure, but it should be a competition where the victors and losers are decided by oral debate between the investigators, right?"

The person who informed them did not make it very clear, so Yan Su only knew that there would be a debate tomorrow, but she did not know the specific rules.

"A debate? I can't be sure about this ... We can only wait and see tomorrow!"

Lin Yi shook his head. He'd be able to get the details from the inspection department if he used his Vice Dean's position.

They could even know the topic of the debate in advance, but that would be equivalent to cheating and meaningless.

In any case, it was just talking, so he didn't have to worry too much.

It was estimated that regardless of the outcome of the debate, as long as one spoke, they would get a certain number of points. Unless they didn't say anything, they would be eliminated with zero points.

There was no more information at the moment, so there was nothing to talk about on this topic. After a few more casual words, the two returned to their rooms to rest and wait for the debate the next day.

The next morning, all the investigators gathered at the inspection department. Zuo Si was still looking for clues about the badge incident. Although it was almost useless, he couldn't give up halfway.

Jin botian didn't show up either. He might still be discussing countermeasures with Luo xingliu. The actions of the dark Demon beast clan couldn't be underestimated. They couldn't be too serious.

Therefore, the second task of today's competition was presided over by tie Shixin. With the status of the old Vice President, it was enough to hold the ground.

"Everyone should have been informed that today's second event is a debate. I'll be the host and judge. If you have any questions, you can ask."

Tie Shixin sat at the head of the table with a calm face and said with a smile, ""The rules of the debate are very simple. You can form teams of two to three people and draw lots to decide your opponents."

"Winning a debate gives ten points and losing doesn 't. However, if you make a wonderful speech during the debate, you can get extra points, and it's not limited to the outcome."

"The upper limit of the extra points is 100 points, but all points are counted as team points. After the end, you have to distribute them with your teammates. The distribution ratio can be determined by yourself, as long as you make sure that every member of the team gets points."

The rules of this debate were simple and relaxed. It didn't matter if they lost the debate. As long as they performed well in the process, the points they got wouldn't be less than the winner's.

After all, the difference in points between winning and losing was only ten points, but the upper limit of the performance points in the process could reach one hundred points, which far exceeded the points obtained from winning and losing.

It could be seen that the inspection Institute did not pay attention to the final result. Instead, they encouraged everyone to show their abilities and ideas as much as possible during the debate!

There was also the team point system, which would ensure that everyone had a chance to get points and would not be eliminated with zero points because of poor performance!

It was likely that no team would not perform at all during a normal competition, keeping their mouths shut the entire time, and running towards their goal of not getting a single point!

"... The rules are more or less like this. Now, you can freely form a team, then collect the team number plate and wait for the drawing of lots! Five minutes to form a team, you may begin now!"

Iron Heart didn't mention what would happen if he failed to form a team. Since it was the free-forming mode, it was likely that one person wouldn't be able to form a team. If two or three people were like this, they could form a team.

Chapter 8813

He was most afraid that there would only be one left, and that would be awkward. If things went wrong, he might even be disqualified from the debate, which would indirectly be equivalent to losing his qualification to participate in the inspector tournament.

Iron Heart, who was sitting in his chair, raised his hand slightly, indicating that the five-minute countdown had begun. He leaned back in his chair and closed his eyes slightly, as if he was taking a nap.

Lin Yi and Yan Su, on the other hand, were quite convenient-they'd just form a party and wait five minutes for their number plates. The other investigators were mostly the same-they formed parties with friends they knew, and those who weren't on good terms would look around for people who were in similar situations.

Within five minutes, all the investigators had successfully formed their teams and were not alone. There were also very few teams of three people, basically two people in a team.

This wasn't hard to understand. After all, although the three-man team had the advantage in numbers, when it came to the final distribution of points, the advantage in numbers was a huge disadvantage.

The upper limit of free play was 100 points, and together with the winning points, they only had a total of 110 points. If the two teams agreed to an equal score, each person could get 55 points, and if the three of them split it evenly, they would only have 36 or 37 points!

Unless it was agreed in advance that the two-on-one strategy would be used, where the two of them would only get the lowest points and the remaining points would be concentrated on one of them, it was more secure to form a team with two people.

When the five minutes were up, tie Shixin opened his eyes immediately. He glanced around and nodded slightly. "That's right. Everyone has found their companions. Now, it's time to get a number plate and draw lots."

Lin Yi and Yan SU's team was assigned number seven, and the investigators were split into seventeen teams. The debate was an Elimination System, and they would draw lots to decide their opponents.

However, the points of the teams that were eliminated in the first round would not be locked in. This was because the eliminated teams would still have a debate with each other in the losers 'bracket. In the end, a winner would be decided and obtain a spot in the top four.

Seventeen teams would face each other in pairs, making up a total of eight groups. One team would have a bye, the second round would be won by nine teams, and four teams would face each other in pairs, with one team still having a bye.

In the third round, one of the two teams would not have to fight, and the remaining three teams would have to fight. Together with the winners from the losers 'groups, they would form the Final Four teams.

The top three teams would get extra points, and the last team would definitely have more matches, so they would have more chances to score. This was the best chance to widen the gap between them and the other losing teams.

Of course, with Lin Yi and Yan Su as a team, even if they were eliminated in the first round, they didn't have to worry about the people behind them catching up. The gap was too big, and even if the second champion got enough points in every round, they would still be far behind Lin Yi and Yan Su!

Lin Yi and Yan Su were determined to perform well. They couldn't relax just because they had a big lead in points. They had to shut up those people who looked down on the third-grade continent with indisputable strength.

In the end ...

"First round, number 7 has a free pass!"

One of the deacons from the inspection Hall was in charge of drawing lots, and Lin Yi was sure that he didn't do anything. It was pure luck that Lin Yi and Yan Su got into the second round.

Because they didn't participate in the debate, there were no additional performance points. The two only got ten points for the promotion, which was better than nothing.

The other teams didn't know if they should be envious or snicker.

It was a good thing to be able to enter the second round, but the more important thing about this debate was the extra performance points in the process. Even if they lost the competition, getting 60 or 70 performance points was more profitable than entering the second round like this!

Lin Yi shrugged helplessly and smiled at Yan Su, "We're in luck. We can first observe what's going on with this debate! We'll perform even better in the next round, and we'll definitely make everyone look at us in a new light!"

Yan Su nodded in agreement. "That's right. Luck is also a type of strength. It seems like we have a high chance of winning today!"

The two chatted awkwardly for a while, and couldn't carry on any longer. The other teams were having a discussion about their division, and Lin Yi quickly told Yan Su to observe.

Every debate area was soundproof to ensure that they would not affect each other. Tie Shixin did not personally watch over all the debates. Instead, he arranged for two deacons from the inspection department to calculate and score in all the venues to ensure as much fairness as possible.

If Lin Yi and Yan Su wanted to watch, they had to enter the soundproof area one by one. They were all on the same topic, so the debate was almost the same.

After listening for a while, Lin Yi and Yan Su were more confident-they might not win for sure, but at least they could have a good fight with the other teams!

After about half an hour, the first round of debate ended. The winner's group advanced, and the loser's group entered the brutal battle for the only resurrection spot.

"The drawing of lots for the second round begins now ... Number 7 ... Has an empty round!"

The deacon in charge of drawing lots looked at the number drawn in his hand, and the corner of his mouth couldn't help but twitch slightly. Just now, it was number 7 who got a free pass, and now it was again?

Was this good luck or bad luck?

Lin Yi and Yan Su were a little stunned. Another bye?

They had just gone around to watch the first round, and the two of them were rubbing their fists and preparing to show off the magnificence of a debate. How did they get a bye again?

Fortunately, no one was envious of Lin Yi and Yan Su. Instead, they were gloating over their misfortune.

After the first round, everyone knew that compared to Lin Yi's team, which got ten points, the teams that lost all got at least fifty or sixty points.

Most of the victors had gotten a hundred points for their performance, with the worst getting around ninety points. It couldn't compare to Lin Yi and Yan Su's total points, but it was undeniable that this was a great chance to catch up!

And so, Lin Yi and Yan Su got a free pass again, and the other ambitious teams were all happy to see that happen. After all, the eliminated teams still had a chance to compete, and they could still get extra points-they might as well get a guaranteed pass!

"Patrol Sima, patrol Yan, the two of you are really lucky to be able to enter the third round so easily. It's really enviable! Congratulations!"

Fang Gezi pretended to congratulate him, but she was actually mocking him. At the same time, she was overjoyed and even secretly prayed that Lin Yi and Yan SU's team would miss the third round!

Maybe it was because his wish was too strong, or maybe it was earth-shattering, but when the second round ended and the third round came, Lin Yi and Yan Su really didn't get to draw again!

But this time, it wasn't drawn. Their number 7 didn't appear from the beginning to the end. The empty spot was left until the end. The only person who didn't get drawn was number 7. Naturally, there was no need to draw again ...

The deacon in charge of drawing lots was dumbfounded, and the corner of his mouth twitched. He wondered if others would think that he had done something in secret.

Chapter 8814 The End

He didn't believe that there wasn't any manipulation behind the scenes for three consecutive bye rounds!

He had seen a ghost!

Lin Yi shrugged. "I'm free again. I don't know what you think, but I'm used to it!"

"I'm already used to it ..."

Yan Su replied with a bitter smile. He clearly wanted to have a serious competition!

How could he pass three rounds in a row?

As the saying goes, one's momentum will be exhausted after a while. If he played like this, what momentum would he have left?

Guaranteed to enter the top four!

Lin Yi did suspect that tie Shixin was behind this-he was a Vice Dean, after all, and it was only natural for him to give him face.

But Lin Yi didn't notice anything suspicious, and he didn't know tie Shixin at all-there was no need for him to do something like that.

Lin Yi didn't want to think about it anymore-getting a free pass to the top four wasn't that bad either, he'd save so much saliva!

The winners of the other two groups were decided without a hitch. After a bitter verbal battle, the only resurrection spot was decided, and the defeated group became the Final Four contestants.

There was someone Lin Yi knew in the last group, who was teasing Fang Gezi!

They had thought that he would be eliminated in the first round. They did not expect him to be a cockroach. He could actually tenaciously fight his way out of the tight encirclement and become one of the top four!

"Patrol envoy Sima, your luck is really good. Unfortunately, your good luck ends here!"

Fang Gezi stood beside Lin Yi and said with pride and disdain, ""We are different from people like you who rely on luck to advance. Our three groups all rely on strength to advance step by step! I'll give you a piece of advice out of good will. Give up early so you can save some face. "

"In any case, you two have enough points. If you give up, people will think you're a gentleman, but if you're refuted until you can't fight back, that'll be too embarrassing!"

Lin Yi smiled faintly, "thank you for the trouble, inspector Fang. We really don't care about the points. You guys can perform as much as you want and get more points."

"Although you won't be able to catch up to us even if you get full points, at least you'll still have some gains and won't be too far behind us. For your own good, I don't suggest you give up early and surrender halfway. Remember, you can only get more points if you persist until the end. "

Lin Yi's tone and attitude made him sound like a rich man who was playing a money game. He didn't care about the chips on the table.

This was because these chips were not even a fraction of the wealth of the rich, but to opponents on the same stage, these chips might be the entire net worth.

Fang Gezi felt Lin Yi's contempt and wanted to retaliate, but tie Shixin had just announced a new draw, so he glared at Lin Yi.

Lin Yi drew another group in the top four. Fang Gezi seemed to be a little regretful that she couldn't debate with Lin Yi and Yan Su herself. She didn't have the chance to teach them a lesson.

Of course, in theory, the two teams could still fight.

For example, if both of them won, they would meet in the finals. If both of them lost, they would still have to fight for the third place. Unless one of them won and the other lost, then there would be no chance.

Fang Gezi was sure that he would win and Lin Yi would lose, so she didn't think they would have a chance to meet again.

Although he had lost once in the first round, he still had the confidence that he could walk to the end and win the championship.

After deciding on their opponents, the four groups went to their designated venues. Fang Gezi purposely fell behind to hold one of Lin Yi's opponents. It was one of the investigators he knew, and they were pretty close.

"...Sima Yi and Yan SU's points are extremely high now. Fortunately, they have three free-throws and only obtained thirty points from winning. If we want to overtake them, we must strictly control their points!"

"Don't let them get too many performance points! He crushed them directly without giving them any chance! If he felt that something was wrong, he might as well admit defeat! We'll make up for your losses in the future. For now, we'll work together to deal with them!"

Fang Gezi didn't think Lin Yi could win, but she still had to be on her guard. After all, Lin Yi and Yan Su hadn't revealed anything yet, so she didn't know what they were up to.

The inspector frowned slightly as if he found it hard to accept his defeat. However, he couldn't deny that Fang Gezi's words made sense!

If they wanted to close the gap between Lin Yi and Yan Su, not letting the two of them get any points was the best choice, but that would require them to sacrifice their own interests.

After all, the outcome of the debate was not important. The most important thing was the performance points!

It didn't matter if they lost the match, they would only lose ten points from winning. If they admitted defeat, they wouldn't get a single point from their performance!

"How will you make up for it in the future?"

The inspector only hesitated for a moment before asking Fang Gezi in a deep voice.

Although we're all on the same boat, it's impossible for me to sacrifice myself for you without any price.

Fang Gezi already had an idea and immediately told him the compensation plan she had prepared in a low voice. The inspector's brows relaxed when he heard this. He was obviously very satisfied with the plan!

Even if he got a full score, he wouldn't get so many benefits, right?

"I understand! I will do as you say!"

The inspector nodded with a smile and agreed to Fang Gezi's proposal. The two of them looked at each other knowingly and parted ways.

They thought that they were speaking softly and had set up some measures to prevent eavesdropping, but Lin Yi's spirit sense covered the entire area and they heard everything.

Discussing how to deal with someone in front of them ... Was this a mental illness?

But Lin Yi didn't really care-the points were important to other investigators, but they meant nothing to him and Yan Su!

It would be good enough if they could win and enter the finals.

The two sides entered the debate table and sat opposite each other. In the middle was a Deacon from the inspection department."The topic of this discussion is based on the case of the former inspector of the astral source continent, bei guoxia. We're here to discuss the necessity of human relationships between the inspectors, as well as the costs incurred as a result, and whether we can obtain benefits from certain things."

To put it simply, it was about the investigators collecting kickbacks and so on to curry favor with their superiors, was it reasonable?

Lin Yi naturally got no, but the opponent got a yes!

To be honest, it wasn't a very good topic-Lin Yi was on the side of justice.

Unspoken rules were unspoken rules, and it was only when everyone had a tacit understanding that it was called unspoken rules. You brought it to the table to debate, could it still be called unspoken rules?

Lin Yi's opponent was a patrol who supported the unspoken rules, but he didn't dare to raise flags and shout for the unspoken rules in public, and even make it legal!

The inspector who had been asked by Fang Gezi was in a complicated mood. What was he supposed to do? I don't even need to watch the other side's performance, right?

He might as well surrender. With Fang Gezi's benefits, he would have completed his mission!

Chapter 8815 No Problem!

They might not lose even if they were to debate-there was a 30 - 40% chance of winning, but winning through hard work wasn't as good as losing, and it might even give Lin Yi and Lin Yi full points.

"We admit defeat for this round! This is because we also feel that the patrol must be upright and honest, and can not accept any improper benefits, and should not weave a network of relationships, which will only lose the fair position of the patrol, so we admit defeat for this round!"

That patrol envoy was also very straightforward. After thinking for a moment, he immediately made the decision that he thought was the best.

It was not a loss to admit defeat anyway!

The deacon who was the judge was slightly stunned. Admit defeat? This was the first time he had encountered such a thing!

It seemed like this topic was not chosen well ...

"Sima Yi and Yan Su are victorious and have obtained ten points. Performance points ... None! Congratulations to the two investigators for successfully entering the finals! Please keep up the good work and continue to get good results in the finals!"

The warden announced the results with a smile and congratulated Lin Yi and Yan Su, but no one knew what he was thinking.

Yan Su was extremely speechless. He had missed three rounds in a row and finally reached the top four. He was rubbing his fists and wiping his palms, wanting to perform well, but the other party admitted defeat directly!

What the hell was this?!

Is it that hard to prove that a third grade continent's patrol envoy is stronger than you first and second grade ones? At least give me a chance to speak!

He didn't even have time to say anything before he was won. Why was he so unhappy?

Lin Yi wasn't surprised since he knew about her plan. He cupped his hands politely. "You let me win, you let me win!"

An Army that could subdue others without fighting was also quite good!

To be able to win easily and happily was better than anything.

On the other side, Fang Gezi's team, who had been revived from the losers 'bracket, actually won after an intense debate and also entered the final!

Iron Heart looked at the two winners with interest. This year was indeed dramatic!

Team one had three consecutive empty rounds. They had finally gone on stage, but without saying a word, their opponent had admitted defeat, which was equivalent to them being guaranteed a way into the finals!

The other team suffered a terrible defeat in the first round, but they immediately learned their lesson and became more courageous. They were invincible in the losers 'group and obtained the only right to revive. They also successfully obtained a key victory and entered the final.

Especially since the Vice President of the inspection department was hidden among them. It was really interesting!

"The topic of discussion for the final round will be based on teaching theories. Hmm ... Has it come to the time for a change in the traditional teaching that has been thoroughly tempered?"

Iron Heart picked a topic and announced the start of the final duel. This time, he would be the judge. After all, the top three would get extra points, so it was reasonable to pay more attention to it.

Lin Yi's was in need of change, but Fang Gezi didn't. Sticking to tradition was the best.

"There is no doubt that traditional teaching has been going on for thousands of years, which is enough to prove its correctness! Over the millennia, how many outstanding talents had been taught by traditional teaching methods? Without any problems, rashly making changes will only turn the tables and be completely undesirable!"

Fang Gezi was the first to speak and captured the advantage of tradition. "Traditional teaching is already the closest approach to perfection after countless trials and tribulations. Therefore, we believe that there is no need to carry out any changes at all. That would only be a bad thing!"

Lin Yi smiled faintly, "the traditional education system has been through countless years of change. We can clearly compare how different the education methods now are from a thousand years ago."

"Traditional teaching is the product of countless trials and tribulations, but times have always been advancing. What was suitable in the past doesn't mean that it will be suitable in the future. There's no point in locking ourselves in place. We should learn from our predecessors and continuously improve and improve our teaching methods!"

"Gou Rixin, Ri Ri Xin, and you Ri Xin! It's to tell us that everything in the world should make progress through the constant renewal and replacement of new generations. As the saying goes, the new must retire by the day, and it's the same for traditional teaching. "

"If we stick to traditional teaching and don't think about keeping up with the times, we will definitely be like a boat sailing against the current. Perhaps you didn't retreat, but you're still at the same place. However, the advancement of the era can not be stopped. If you're still at the same place, you'll never be able to keep up with the pace of the era!"

After Lin Yi finished, the other investigator on Fang Gezi's side retorted, followed by Yan Su 's. Both sides went back and forth, and the argument was evenly matched.

However, Fang Gezi did have some ability in debate. Her insistence on traditional teaching had reached a perfect level, and there was no need to make any more changes.

The key was that from the current situation, there were indeed no problems with traditional teaching. Yan Su could not come up with any measures to change it either, which could explain the necessity of change. She could only refute it in theory, and slowly, she was at a disadvantage.

Time was running out, and Fang Gezi's team seemed to be winning. Lin Yi found an ancient book in his sea of consciousness. It recorded the first time the teaching system was established, and the passage was respected as the Enlightenment Saint.

The general idea was that teaching needed to be tailored to the material, to adapt to the time, and to constantly change according to changes. It was absolutely impossible to stick to the rules, as that would only form a rigid education and kill the possibility of many geniuses making a name for themselves.

These words were only recorded in that ancient book. Other books that recorded the words and actions of the Saints did not include them.

As a result, people later on began to think that Saints were people who did not support the change in teaching.

Therefore, the development of traditional teaching was extremely slow, and there were only specious changes every time. No one had ever dared to make drastic changes.

Even so, thousands of years later, traditional teaching had undergone earth-shaking changes. It had a completely different way of expressing itself from the first era.

Lin Yi threw out the record as an argument, only to be laughed at by Fang Gezi.

"Sima Yi, if you lose, then you lose. Why do you have to fake the words of a Saint? On this sub-Island, who didn't know that the sage didn't want the teaching he had created to be changed? You're simply smearing the saint's face by referring to a deer as a horse!"

Fang Gezi's heart was set. She felt that victory was already in her hands. Although the debate between the two sides was quite interesting and Sima Yi and Yan Su were likely to get full marks, there was no other way. He could not just give up the championship!

Lin Yi smiled and shook his head, "investigator Fang, it's not your fault for being ignorant, but you're denying other people's knowledge because of your own lack of knowledge. That's your fault!"

Chapter 8816

"The Sage's words were brought up in private when he was chatting with his good friend, so it was not recorded as an official statement, but included in an essay!"

"This is an unknown article, and most scholars wouldn't read it. However, I've read it before. If you don't believe me, you can take a look!"

Lin Yi asked Tie Shixin to look for the book, and Tie Shixin was willing to give Lin Yi face as a Vice-Dean, so he stopped the debate and waited for the evidence to come!

The StarSource continent was the center of the entire continent, so it naturally had the most comprehensive collection of books.

But even so, it still took a lot of time to find the book Lin Yi was talking about.

Tie Shixin flipped through the book and found the passage Lin Yi used. After making sure it was correct, he sighed, "So that's how it is! Investigator Sima is indeed knowledgeable, even reading such a book! I'm impressed!"

This was a genuine compliment. He then passed the book around, and the others finally understood what Iron Rock Heart meant by such a book.

It turned out that this book recorded a Grandmaster from ancient times. He was indeed friends with the Saint who founded traditional teaching, but the two had different ideas.

During that era, the sub Island had a history similar to that of the secular world. It had overthrown hundreds of schools of thought and only respected Confucianism!

The Saints were the only victors. The other grandmasters with different ideas had all been swept into the dust of history. Their opinions might have been recorded and passed down in books, but the people of later generations would not even take a second look.

It was only Lin Yi's spirit sense that could sweep through everything in one go, and only he'd be able to find these dusty books that no one else would read.

Who would have thought that such a book would contain a passage from a Saint? Or was it something that had never been recorded in any other ancient books?

Fang Gezi's expression was complicated. She had to admit that Lin Yi was much better at memorizing!

A debate required a reserve of knowledge, so that one could use eloquence to come up with all kinds of arguments.

He couldn't even tell if the other party's argument was true or false, so how could he debate with them?

Iron Heart also thought that the outcome was already decided, so he announced on the spot, ""The debate ends here. The winners are Sima Yi and Yan SU's group. Other than the points gained from winning, your performance will be given full points! In addition, the champion will be rewarded with 1000 points!"

The other investigators were all dumbfounded!

Previously, it was said that the top three would receive additional points as a reward, but the specific amount was not announced. So the champion could get as many as a thousand points?

It was laughable that they still thought that Lin Yi and Yan Su had missed three rounds, and that their opponent had admitted defeat once, only getting forty points to enter the finals. Their lead had been greatly reduced!

And you're telling me that the champion will be rewarded with 1000 points? The investigators who had previously worked so hard to earn performance points wanted to cry!

The points he had accumulated from so many matches were not even half of the champion's reward!

The runner-up got five hundred points, and the second runner-up got two hundred. The guy who'd given up on Lin Yi and Yan Su immediately regretted his decision.

What the f \* ck! There was no place to reason with him!

If he had known that he would get at least 500 points in the finals, he would have fought for it even if he had to die!

Fang Gezi's promised reward was only worth about 150 points. It was not worth giving up the final reward!

F \* cking Fang Gezi, how dare you trick me!

Unfortunately, it was too late for him to regret. The ranking of the debate had already been decided, and he could only wrangle with Fang Gezi for more compensation ...

"Alright, the second segment of the great inspector tournament has ended! Everyone can go back to the relay station to rest. Tomorrow, come back to the inspection Institute for the third task ..."

Iron Heart stood up and was about to send everyone away when Jin botian rushed in from outside.

Everyone present quickly bowed and paid their respects to the head of the inspection department.

Jin botian waved his hand casually and ran to tie Shixin's side without paying any attention to the formalities. He then turned around and faced all the investigators.

"Everyone, please wait a moment. The third round of the competition is about to begin, but the topic of the competition has been changed at the last minute."

Jin botian's expression was serious, and he exchanged a look with Lin Yi, but Lin Yi didn't understand what he meant ...

"There are some problems with the node in the underground devil cave and it needs to be repaired as soon as possible. The array formation Guild has already sent people to do this. For the third round of the competition, everyone will lead a team of elite experts to ensure that the node is repaired smoothly."

"At the same time, we have to verify if the nodes have been fully repaired. After each one is completed, we have to reinforce the next one as soon as possible. We have to ensure the stability of all the nodes as soon as possible!"

"When all the nodes have been repaired, new mission orders will be issued. This is the final assessment and will be quite dangerous. You can choose to refuse, but if you refuse, your points in the tournament will definitely drop to the bottom."

"That's all I have to say. I'll talk about the specific matters later! Now, you can all disband and go make your own preparations. We'll use our best equipment before the battle!"

"The investigators who ranked first and second in the first two rounds, stay behind. I still have some matters to settle. The rest of you can leave now. Come back and gather in an hour!"

Jin botian didn't explain much and only gave a simple order before dispersing the patrols, leaving only Lin Yi and Yan Su behind.

He didn't know what the second round would be like, but Lin Yi and Yan Su had already gotten a lot of points in the first round. Even if they didn't get any points in the second round, they would still be strong contenders for first and second place.

So the top two would probably still be Lin Yi and Yan Su. He had full confidence in this little brother of his, so how could he not score in the second round?

It was the truth-Lin Yi and Yan Su were still in the dust in the second round, winning the championship and widening the gap between them and the people chasing after them!

Soon, most of the people had left, leaving only Jin botian, tie Shixin, Lin Yi, and Yan Su. The rest of the people had left.

"Deputy Dean Sima, the situation is a little serious. In the process of Zuo Si's investigation of the badge, he discovered some new clues. These clues point to the array Masters of the array Dao Guild!"

Jin botian rubbed his brows and said with a slight headache,""The node in the underground Devil's Den was only fixed after the badge appeared. It had nothing to do with the badge incident!"

"However, Zuo Si noticed that many of the array Masters from the array formation Guild had small black crystals embedded in their accessories. It's the rice-sized black crystal that's the core of the badge!"

Chapter 8817

"Zuo Si doesn't know much about spirit sense arrays, so he can't say for sure if the accessories of the array Masters have spirit sense arrays similar to the badges. But just the black crystal is enough to make us alert!"

"If the array Masters are in the same state of confusion when repairing the nodes of the Devil's Den, it will definitely leave a huge flaw. The result might even be worse than not repairing it!"

"Therefore, this matter is very serious. We must take it seriously no matter what! You're a Diamond Grade array master, the burden on your shoulders is extremely heavy! You must ensure that there are no problems at any of the nodes!"

"Apart from that, after the node is repaired, I hope that you can lead a team into the node and explore the true plan of the darkness demon beast clan. That black crystal should come from the node, and it would be best if you can find its source and destroy it!"

Jin botian paused for a moment, as if he also felt that this task was very difficult, so he added, ""We must ensure our own safety first! If you feel that you can't do it, just give up on the mission!"

"Perhaps this crystal also exists in the underground Devil's Den, but there will be other people here to search for it. The node is the most important! We can only let you, the most elite patrol, lead the team and form an assault team to carry out this matter!"

Lin Yi understood now. The mission that Jin botian was talking about could be rejected or given up-it was leading a team into the node. Lin Yi had experience entering a node before, and he understood the danger and the considerations Jin botian had in mind.

Every continent's patrol envoy's personal strength was definitely top-notch. With a patrol envoy leading the team, the success rate would be relatively higher.

However, if all the investigators were trapped in the node, the losses would be too great.

Therefore, the final choice was left to the investigators themselves. It would naturally be best if they were willing to take the risk, and those who were unwilling would not be forced.

However, those who were willing to enter the node would definitely receive a lot of rewards.

Even if those who stayed outside would not be punished, there would definitely not be any rewards to speak of. Once the patrol who entered the node retreated in one piece and received a large amount of rewards, the ranking of the patrol would naturally completely crush those who stayed.

"I understand. I'm obliged to do this! Don't worry, Dean Jin!"

Lin Yi cupped his fists and accepted the mission. "What's the origin of the accessories from the array formation Guild? Could it be from the same source as the badge?"

This was also very important. If the source was different, it meant that the darkness demon beast clan had other routes, and he had to seize the time to follow the clues.

"It is indeed from the same source as the badge. If not for that, Zuo Si wouldn't have been able to trace it to the array formation Guild! Not only that, the Alchemy Guild and other departments are more or less involved as well. At the moment, the scope of this matter is rather wide, so the martial Alliance must allocate a large number of people to investigate this matter. "

Jin botian rubbed his forehead again and said in a slightly annoyed tone, ""I really didn't know until I checked. Once I checked, I was shocked. If you didn't find out about the eeriness of the badge, we

wouldn't have known that the important departments of the starsource continent had basically been infiltrated."

Lin Yi didn't know what to say-the dark Beast clan was really planning something big, but he didn't know what their ultimate goal was.

To use such a small thing to disrupt the minds of everyone in the entire starsource continent?

In fact, the darkness magical beast clan didn't need to expand their influence so much. It was enough as long as they could affect the thoughts of the array Masters of the array Dao Guild!

The poor maintenance of the node gave the darkness demon beast clan a chance to break through. This was the most important thing. Why did they have to spend so much effort and increase the chances of being discovered?

For example, if Tianxia college didn't arrange for the badges, Lin Yi wouldn't have found out about the badges, and Zuo Si wouldn't have been able to track them down to the array Guild.

Why? Or was there something else that Lin Yi couldn't see?

"That's the situation. Martial League needs a large number of people to search the various departments, so our inspection department was entrusted with this important task. It just so happens that the inspectors from the various continents have returned to report on their work. With such an outstanding expert leading the team ..."

Jin botian said a few more words and finally reminded Lin Yi and Yan Su that the mission was important, but so was their safety. He only let the two go and prepare after making sure they were safe.

In fact, Lin Yi didn't have much to prepare. The Jade space had everything, and even Yan Su didn't need to go out to buy any supplies. Lin Yi could just give him some.

All the investigators gathered before Jin botian's time limit was up, and aside from Lin Yi and Yan Su, all of them had serious expressions on their faces. It was clear that this wasn't an easy mission.

Although the final mission didn't state it clearly, the more it was like this, the more it explained the problem!

Jin botian did not say anything else. He only assigned the elite combat generals from the combat Association to each patrol with twenty combat generals. Then, he gave the order to set off!

Thirty-eight investigators led seven hundred and sixty elite battle generals to the entrance of the underground Devil's Den.

The array Masters of the array formation Guild had already entered the underground Devil's Cave and scattered to the various nodes that needed to be repaired. However, their speed was not as fast.

Before they reached the destination, they would be caught up by the various patrol teams. This way, they would be protected by these elite battle generals after they reached the node.

Lin Yi and Yan Su split up after entering the underground cave, each leading a twenty-man battle general team to chase after a different formation master team.

After about ten minutes, Lin Yi caught up with the formation master team. There were only three formation Masters and ten generals in charge of guards. They were obviously relieved when they saw Lin Yi leading the team over.

"Greetings, Vice President Sima!"

The three array Masters saluted Lin Yi first, "With Vice President Sima personally leading the team, our mission will definitely not be a problem!"

Because Lin Yi was the Vice President of the array formation Guild, these array Masters naturally felt close to him.

"No need to be so polite. We need to work together now and race against time. Let's not waste any more time and continue on our way!"

Lin Yi didn't waste any time, and the generals on both sides simply greeted each other before gathering and rushing to the target node.

An hour later, the team arrived at their destination. This location was under human control. There were two ancient martial art practitioners guarding it, and they had not found anything unusual yet.

"Vice President Sima, are you here to take a look?"

The Grandmaster didn't dare do anything-it was his mission, but Lin Yi was there, so he had to let Lin Yi look through it first. It was his turn only if Lin Yi didn't want to.

Chapter 8818

Lin Yi didn't decline-he'd done this job many times already, and he was very familiar with it. He nodded and went up to observe.

"As expected! There was a problem with this node! There was a very small flaw left behind during the repair! Although the problem won't occur immediately, it will slowly become serious as time passes!"

"From the current situation, that flaw is about to become a flaw that will shake the node. The most important thing is that outsiders won't be able to see any problems from the outside!"

Lin Yi's expression was serious as he started repairing the nodes."This hole is a passage that can gradually expand on the other side of the node. As long as the time is right, we can destroy it from the other side of the node and quickly open up the node to enter the underground Devil's Den!"

"The scariest thing is the destruction at the other end of the node. Because of the existence of this loophole, it won't cause too much of a commotion, so even if there are people guarding here, they might not be able to detect the darkness magical beasts 'destruction of the node."

In the past, when the darkness demon beasts tried to attack the spatial node, even if there were no guards, the violent tremors would be enough to alarm the humans in other places, let alone someone guarding it!

Lin Yi's words shocked the formation Masters and generals on the side. It was clear that they were imagining the dark Demon beasts breaking through the node silently and taking over the underground cave. Their faces started to turn pale!

If the humans were prepared, they might be able to build a line of defense in the underground Devil's Den.

However, if they were ambushed under such circumstances, the entire underground Devil's Den would fall in the blink of an eye!

Then there was the sub-Island on the ground!

Once the darkness magical beast race gained a firm foothold in the underground Devil's Den, an endless stream of darkness magical beasts would rush in, and their counterattack on the human world on the surface would be an unstoppable massacre!

Terrifying!

"Vice President Sima, has the situation gotten so bad? Then are the other nodes the same?"

The leading array master had a panicked expression. ""We're closer here, so we arrived at the destination first. Now that the flaws and holes here have been fixed, will the dark beasts in the node immediately attack the other nodes after realizing that something is wrong?"

Lin Yi's hands stopped moving-this was a real problem, he didn't even consider it!

Should he continue to fix this node or wait?

Should he send someone to contact all the teams and set a time for them to repair the spatial node together so that the dark Demon beasts in the spatial node wouldn't have time to react?

Lin Yi was deep in thought when he felt a faint spirit sense, the same as the one he felt from the teacher's badge!

He had been too focused on observing the seal of the nodes and repairing the loopholes that he did not notice this weak fluctuation of consciousness at the first moment!

It was only when Lin Yi's hands stopped and he started thinking that he realized how well hidden they were!

Lin Yi's spirit sense started to tangle with the spirit sense, trying to find the source.

He had originally thought that it was an array master or a battle general who was carrying something similar to a teacher's badge, but in the end, it was actually pointing to the node itself!

The fluctuation of consciousness came from the hole in the node that had not been repaired yet!

Lin Yi's face changed-if this was the case for every node, then who else could fix it other than him?

The darkness demon beast clan was really scheming!

The last time the array formation Guild had sent someone to repair the node, they had used accessories to influence the array master's thoughts, causing the node to be deliberately left with a flaw!

Then, he would directly transmit chaotic thoughts through the flaw in the node. Even if someone tried to repair the flaw in the node, they would definitely be affected!

Not to mention repairing it, they might not even be able to find any flaws!

Amazing!

Lin Yi decided to give up on repairing the node and took two steps back before turning to the formation master. "Go and fix the flaw in this node!"

A guess was just a guess, and Lin Yi had to verify it to see if it was true.

The Grandmaster did not doubt him and immediately cupped his fists and bowed, ""Your subordinate obeys!"

Fixing the nodes was a normal job to him, and it wasn't difficult at all. He even wanted to show off in front of Lin Yi.

After all, Lin Yi was the Vice President of the array formation Guild, and he was very close to the Executive Vice President. He wouldn't lose out if he performed well.

As a result, he confidently stepped forward to take a look, but was shocked to find that there were no flaws in the nodes!

He clearly saw the hole in the node when Lin Yi was doing it, how did it disappear all of a sudden?

To hell with it!

The Grandmaster started sweating-Lin Yi didn't finish the repair, he'd seen it all with his own eyes, and there was no way he'd make a fool of himself after Lin Yi finished.

Then what was going on?

Calm down! Calm down!

He took two deep breaths and frantically told himself not to panic. Then, he checked the nodes again and again, trying to find the flaw that definitely existed but had never been found!

Lin Yi, who was watching from the side, already knew what was going on!

As expected, the spiritual awareness fluctuations from the nodes could affect the array Masters repairing the nodes!

If Lin Yi wasn't following him, the Grandmaster would've missed that opening!

He would only think that there was nothing wrong with the node, and then he would lead people to the next node. In the repeated process, he would slowly lose all hope for mankind!

"Did you notice that the flaw just now has disappeared?"

Lin Yi didn't let him continue looking and spoke up, "Looking at this node now, you should think that it's very stable, right?"

"Replying Vice President Sima, this subordinate ... This subordinate is incompetent. This is indeed the case!"

The Grandmaster turned around, cupped his hands, and bowed, admitting his mistake!

Lin Yi waved his hand, indicating that it wasn't his fault. He fell into deep thought.

The people on the sub-Island were relatively weak in the aspect of spiritual awareness. Most people didn't have the concept of cultivating spiritual awareness, so in the face of this kind of chaotic spiritual awareness fluctuation, it could be said that they had no resistance.

Lin Yi had to do it himself if he wanted to fix the node!

The problem was that repairing a node might alert the darkness demon beast clan on the other end of the node, making them wary and attack the other nodes.

If the holes in all the nodes were similar, the darkness demon beasts would still be far from being able to sneak into the underground Devil's Den. However, they might have a chance to break through by force!

Chapter 8819

In the past, this kind of attack could still be dealt with. The key was that the people of the martial Alliance and the patrol Department had all spread out, and it would take time to gather. Would the darkness demon beast clan give the humans that time?

Lin Yi quickly made a decision!

"There's an internal problem with the node. If it's not resolved, it will affect the restoration of the node. I have to go in and take a look!"

Lin Yi turned back to the Grandmaster and said seriously, "After I enter, the flaw in the node should appear again. You must repair it immediately!"

As long as he entered the node, Lin Yi's spirit sense was enough to block the spirit sense temporarily, preventing it from affecting the people in the underground devil cave.

In this way, the flaws in the nodes of the underground Devil's Den would naturally appear again, and repairing them would not be difficult!

"Vice President Sima, you want to enter the node? No! That's too dangerous!"

The Grandmaster was taken aback. He didn't know that Jin botian had arranged for the patrols to lead a team into the node after repairing it, so he was shocked by Lin Yi's suggestion.

The spatial node was the territory of the darkness magical beasts, and humans would be courting death if they entered!

The twenty generals who came with Lin Yi knew about the operation to enter the node, but they didn't think that the mission would be brought forward. They straightened their expressions and puffed out their chests, a determined aura rising from their bodies.

If they entered the spatial node and wandered around the territory of the darkness demon beast clan, they would have a 90% chance of dying!

They were already mentally prepared to never return.

However, they were the most elite combat generals of the combat Association. They would not hesitate to give orders.

Even though they knew that they were going to die, they still had to do their best to complete the mission, so no one would back down at this time.

But Lin Yi only looked at them and waved his hand casually, "You don't need to follow me in. This time, I'll go in alone!"

The strength of these elite battle generals was extremely outstanding. After all, they had the highest combat strength in the entire Xingyuan continent. The weakest one was a martial artist at the middle stage of the shattered Sea realm, and half of them had broken through to the heaven breaking realm. They were indeed very powerful.

However, after entering the node, there would be even more powerful heaven breaking Masters in the dark Demon beast clan. If they followed Lin Yi, the chances of them dying were very high. Even if they didn't die, they would become a burden to Lin Yi.

On the other hand, if Lin Yi was alone, he'd fight if he could and run if he couldn't-his movements were flexible, and his chances of survival were many times higher.

The leading battle general stilled and immediately shook his head,"Patrol envoy Sima, our mission is to assist and protect you. If you want to enter the node ahead of time, we brothers will definitely have to follow! Otherwise, it would be a dereliction of duty!"

"No!" Lin Yi waved his hand. I'm going in alone to make it easier for me to move around, and I'm leaving you here because I have an even more important mission for you!"

"You've all heard what we said just now. This spatial node is definitely not the only one, and the other spatial nodes are all similar. I'm not worried that they'll alert the darkness demon beast clan on the other side of the spatial node when they repair it. "

"Because the others might not even be able to find out what's wrong with the nodes, I need you all to split up. Each of you is responsible for going to a node to inform the other teams of the situation."

"Also, take my order to all the array Masters in the array formation Guild. Only those who have a divine sense defense item or a Witcher spirit sea can approach and find the loopholes in the nodes."

"Once you find anything, don't repair it until the situation is extremely urgent. Just prepare for the repair for now and wait for my next order!"

Lin Yi didn't know what would happen if he entered the node, or how the dark Demon beasts would react. He had to make some arrangements for the other teams.

If he gave orders as a patrol, no one would bother with him except Yan Su, but since he was the Vice President of the array Guild, the array Masters had to follow his orders.

There's nothing wrong with that!

As expected, there were benefits to having more positions. It was much more convenient to do things.

The battle generals looked at each other and could not think of a reason to refute ... It was said that not entering the node was a good thing, but why did they feel so uncomfortable?

"Time is of the essence, and I don't have time for you to hesitate. Everyone, except for the necessary manpower to maintain the nodes, will set off alone to each node to pass on the message! Be careful on the road. "

Lin Yi's face turned serious as he ordered,"Immediately! Let's go!"

Perhaps Lin Yi's body wasn't the strongest among them, but the aura of a superior was enough to suppress all the generals, making them unable to even think about fighting back.

Including the ten combat generals who had followed the array Masters and the two guards who were originally guarding the node, all of them subconsciously bowed and saluted before quickly running to the various nodes.

Only the three array Masters from the array formation Guild were left here. If any danger were to appear, the three of them probably wouldn't be able to deal with it.

Lin Yi waved some formation flags and set up a stacking formation without hesitation, temporarily keeping the three safe.

The three's eyes lit up, their respect for Lin Yi rising.

They were all professionals, and naturally understood how powerful Lin Yi's formation was, especially the way he did it-it was like a cow!

No wonder he could be the Vice President of the array formation Guild! He was indeed amazing!

"Alright, take care of yourselves. After I enter the node, you guys start repairing the node's flaws and seal this place completely! I'll leave through another node, so don't worry about me not being able to come out!"

With that, Lin Yi opened up the spatial node's passage and flashed in without waiting for the three masters to speak.

The discomfort from teleporting quickly disappeared, and Lin Yi's feet touched the ground again. He quickly extended his spirit sense out, scanning the environment with his eyes.

There weren't any powerful darkness magical beasts ... It seemed like the situation wasn't as troublesome as he had expected?

Lin Yi realized that things weren't as simple as he thought. The six fist-sized black beetles around him suddenly flapped their wings, creating an invisible wave.

These six black beetles weren't eye-catching at all. Lin Yi scanned them with his spirit sense and they were all fooled. They were just normal stones.

A darkness magical beast? A darkness beast clan that could block divine sense?

Lin Yi was a bit more alert now. The fist-sized black beetles didn't seem to be able to do much damage, but the corpse demon bees and other dark beasts weren't that big either. Their attack power was terrifying when they gathered together.

Chapter 8820 The End

who knew what special abilities these beetle-like darkness magical beasts had ... i got it! it turned out to be the fluctuations of a divine sense attack!

they made use of the vibration of their wings to form a silent resonance effect, directly attacking the primordial spirit of the human!

lin yi was familiar with the pattern of attack-it was basically the same as the mentalist badge's spirit sense, only tens or even hundreds of times more intense!

needless to say, the fluctuations coming from the nodes 'flaws were also the work of these black beetles!

if it wasn't lin yi who came in, anyone else would've been stunned by this wave of consciousness attack, and no one knew what their fate would be.

luckily, it was lin yi!

wu linghai was as steady as a mountain. this wave of deified soul attack was like a breeze that had no effect on her. instead, it revealed the location of the six black beetles.

Lin Yi didn't hold back and stepped on them one by one, killing them all ...

Perhaps these black beetles were not weak, but it was obvious that they were similar to the corpse demon bees in that they were dark magical beasts that relied on quantity to win!

So it didn't matter if they were strong or not in Lin Yi's eyes-one kick was enough to kill one!

"Senior ghost, what race of darkness magical beast is this? Did you know?"

Lin Yi didn't know what these black beetles were, so he could only ask for help from the freaking Encyclopedia.

The demonic thing didn't let Lin Yi down-he knew a lot about the dark Beast race, but he could tell Lin Yi about most of the dark beasts that he didn't know.

"This is a chaos demonic beetle from the darkness demon beast clan. It's quite rare, and it feeds on Chaos Black crystal ores. Thus, if it wants to grow, it must have this rare ore vein."

The ghastly thing came out to take a look and confirmed The Black Beetle's origin." "Their reproductive ability is not weak. It's just that they are limited by the number of mineral veins, so they don't have the ability to cause a disaster like the sun-swallowing rats."

"The chaos demonic beetle's most special ability is to flap its wings and produce invisible spiritual fluctuations, which form an attack that causes one's mind to become chaotic without being aware of it. Without a strong enough defensive spiritual sense, one wouldn't even know if they had been hit!"

"Now that I think about it, the rice-sized black crystal in the teacher's badge should be the crystal within the chaos demonic beetle's body. After they consume the chaos Black crystal ore, they would digest most of the energy, leaving behind some residue in their bodies."

"After being nurtured for a long period of time, these black crystals that have been formed possess some of the chaos demonic beetle's characteristics! It's like a clam that absorbs sand and finally condenses it into a Pearl!"

Lin Yi came to a sudden realization. He squatted down and wrapped his fingers with elemental Qi, rummaging through the chaos demonic beetle's body. He found a few black crystals.

Unlike the other dark beasts, the chaos demonic beetles didn't have any cores. The only thing he could get from them were the black crystals, but they were items that could mess up a person's thoughts. Lin Yi didn't think they were of much use.

"Keep these black crystals well, they'll be useful to you!" He said.

The ghastly thing seemed to have thought of something, and it spoke a little faster. "I didn't recognize it before, but now that I know what it is, I can't let it go!"

"Senior ghost, what's the use of this thing?" Lin Yi blinked.

He found five black crystals the size of rice grains in a chaos demonic beetle's body. All of them added together were not even the size of a fingernail. The energy contained in them was negligible, and they were things that could mess up one's thoughts. What could they be used for?

"It's useful! However, it won't have much effect if the quantity is too small. I'll collect it first, and when the quantity reaches a certain level, it will naturally be able to be used. "

The ghastly thing didn't keep him in suspense and continued to explain, ""As long as you have a large enough number of these crystals produced by the chaos demonic beetles, you can use them to help

your primordial Spirit break through! It's very difficult for you to break through on your own, but with this thing, the chances will be many times higher!"

After Lin Yi lost his body, he could only rely on his spirit to move around. It was only when he reconstructed his body that he finally got out of that awkward situation.

However, for a long time, the strength of the newly born physical body was weak, far from being comparable to the primordial spirit. When they encountered danger, they could only rely on the primordial spirit to get out of the predicament.

It wasn't until later, by chance, that his body-tempering level rose rapidly and he broke through to the heaven breaking stage, reversing the situation of his primordial spirit being stronger than his physical body.

But a new problem came with it. After Lin Yi's sea of consciousness turned into the Wuling sea, it was much more difficult to level it up again.

In a short period of time, it was almost impossible for an essence spirit to catch up with a body-refining level. The barrier to breakthrough was too strong, and Lin Yi himself knew that, so he never thought about it in this way.

And now this thing was saying that as long as he collected enough black crystals from the chaos demonic beetles, he could use them to help Lin Yi's essence Spirit Break through?

Lin Yi was moved!

"Senior ghost, how many of these crystals do I need for my breakthrough?"

Now, Lin Yi's essence spirit could be considered to be at the great completion of the sea-splitting realm. It looked like he was very close to the heaven breaking realm, but in reality, the gap between them was like a chasm!

For example, Lin Yi was now standing on the highest peak in the world. It looked like he was very close to the sky, but in fact, he was many peaks away from the sky, and he didn't have any support to climb up!

The ghastly thing did not answer immediately. It seemed to be calculating in its heart. After a while, it said,""About ... A black crystal half the size of your body should be enough ... Maybe a little more. Just to be safe, it should be no problem to collect black crystals of your size!"

Lin Yi didn't know what to say. He looked at the five black crystals in his palm ... The same size as his body? How many were there?

Senior ghost, are you trying to trick me? Even if they exterminated the entire chaos demonic beetle clan, it was still uncertain if they would be able to collect that many black crystals!

You already said that the number of chaos demonic beetles is limited by the number of Chaos Black crystal ores. If the darkness demon beast race only has a few ores, wouldn't that mean that we have no hope?

Lin Yi didn't think that there would be a huge number of chaos demonic beetles. If there were that many, there couldn't be only six of them in a node, right?

"This old man knows what you're thinking. You don't think that there are that many chaos demonic beetles, right? But we can't be sure of this. Maybe there are many of them in the darkness demon beast clan?"

The demonic thing understood Lin Yi's thoughts very well and smiled as he consoled him, "There's no harm in collecting them first anyway. Let's collect them slowly. That's quite a lot! There are still many nodes in the underground Devil's Den that we can sweep through, and the darkness demon beast clan definitely has a base for the chaos demonic beetles. There's still hope!"
