

## **Bodyguard 8831**

### Chapter 8831 The End

Maruhaya hesitated for a moment, then obediently put away his weapon.

As Daniya's confidant, he naturally did whatever she said, but the way he looked at Lin Yi was still full of vigilance and hostility.

Lin Yi smiled bitterly to himself. He didn't blame maruhaya, he was just doing his job!

From the other party's point of view, it would be strange if they didn't react when an unknown person suddenly appeared in Daniya's tent!

Maruhaya probably didn't understand why Daniya would let Lin Yi into the tent without sounding the alarm.

He connected the dots and realized that Lin Yi was the human Senlan wuhun was looking for.

"Maruhaya, take off your armor and give it to him. Then, wait in the tent and don't leave!" He ordered.

Daniya didn't explain much, nor did she want to let the two of them get to know each other. She immediately ordered maruhaya to take off his armor.

Maruhaya wanted to say something but stopped. He was not an idiot. Daniya's order was obviously to let this unknown guy dress up as him and leave the camp!

But this way, Daniya would get into great trouble!

But as Daniya's confidant, he knew that his master was a man of his word, and trying to persuade him now would only have the opposite effect!

Besides, he was used to following orders. He could only sigh in his heart and silently take off his armor and equipment.

Lin Yi opened his mouth to speak, but was stopped by Daniya. "Don't say anymore. Time is of the essence. When Senlan wuhun realizes what is going on, he might not break into my tent, but it will be more difficult for you to leave. If you want to leave, you should hurry up and not miss your only chance!"

What else could Lin Yi say?

Staying behind would only increase the risk of being exposed and Daniya's associated risk, so it was better to leave as soon as possible!

He silently put on maruhaya's armor, pulled down the helmet's visor, and adjusted his aura slightly. From the outside, he looked exactly like maruhaya!

Even maruhaya himself suspected that it was him when he saw Lin Yi. It was even more difficult for someone he wasn't familiar with to tell the difference.

"That's good! It was perfect! Then let's go now! Maruhaya, you stay here and don't go anywhere. Try not to let anyone find out, I'll be back soon!"

Daniya gave a few last words of advice before bringing Lin Yi out of the tent. There were seven of Daniya's trusted guards outside the tent, and they all bowed when they saw her.

No one took a second look at Lin Yi behind Daniya, and no one suspected that he wasn't maruhaya.

"You two continue to guard this place. No one is allowed to enter my tent, understand?"

Daniya randomly picked two guards and ordered them to guard the tent, in case someone went in and found maruhaya.

"Yes! Commander!"

The two guards did not have any questions. They bowed and accepted the order. They stood on both sides of the tent's entrance and began to carry out their duties.

The remaining five followed Lin Yi under Daniya's instructions, protecting her as she walked out of the camp.

Just as Daniya had said earlier, there were many darkness beast soldiers interrogating them along the way. However, after seeing Daniya, who was leading the group, they all respectfully retreated to the side and saluted her. No one was foolish enough to come up and interrogate Daniya's group.

From this, it could be seen that Daniya's status in this camp was indeed noble, or perhaps she had a noble status herself, a status even more noble than the dark wind camp's commander?

He reached the exit of the base without any obstructions. Once he was out of this place, The Witcher soul lock formation would no longer restrict his spirit. If Lin Yi wanted to escape, there wouldn't be any obstacles.

Fifty steps, thirty steps, twenty steps, ten steps ...

Seeing that the exit was within reach, the darkness beast clan soldiers in charge of guarding the exit saw Daniya coming over and began to greet her from a distance. Everything seemed to be extremely smooth.

At most, in ten to twenty seconds, he would be able to leave the effective range of The Witcher soul locking formation!

But at this moment, Senlan wuhun's roar sounded in the air again, ""All troops, hear my order! Dark wind camp's commander Daniya has betrayed the race and colluded with human spies. Capture her immediately! If there's any resistance, kill without mercy!"

lin yi was shocked-how long had it been? would daniya's help be exposed?

senlan wuhun had directly labeled daniya as a traitor and had even said the words "kill without mercy."  
he was clearly angry from embarrassment!

the group of darkness magical beast soldiers at the exit had been respectfully bowing, but when they heard senlan wuhun's order, they immediately stood up and revealed sharp killing intent.

there were 20 darkness magical beasts here, but there were at least 200 of them who would rush over upon hearing the order.

the immediate was within 10 seconds, after which more reinforcements would arrive.

it had to be said that senlan wuhun's ability to command troops was indeed outstanding. under his arrangements, if there was a problem in any place of the camp, reinforcements would come in a very short time.

this was especially true for a key position like the exit. usually, there was only a small team of 20 people guarding it, but if something really happened, they could mobilize at least 2000 continuous reinforcements in a minute!

"Not good! They must have been discovered in maruhaya! Senlan wuhun was really worried and went to my tent to investigate. My guards couldn't stop him when I wasn't there!"

Daniya's face was pale. She didn't think that Senlan wuhun would discover the problem in such a short time!

She just needed to hold on for another ten minutes or so and she'd be able to send Lin Yi away, and then go back to the tent easily and happily, as if nothing had happened!

After that, she would find an opportunity to take her Dark Fire Battalion out for a walk and let maruhaya mix in, pretending to return to the camp outside. The whole thing would be flawless!

In the end, he was still one step behind!

Senlan wuhun had directly labeled Daniya as a traitor, so he must have gotten the truth from maruhaya!

maruhaya was daniya's trusted aide, but he was also loyal to the darkness magical beast race!

daniya would help humans, but maruhaya wouldn't. selling lin yi off wasn't a burden to him at all!

"commander daniya! the commander has given the order. there might be some misunderstanding, so please cooperate and don't make things difficult for us!"

the captain of the guards at the exit blocked the exit with his men, stopping daniya with a serious face!

senlan wuhun's order was to first capture her, and only kill her if she resisted. these guards didn't know what had happened, so they definitely didn't dare to kill her.

Chapter 8832

The best situation would be for Daniya to obediently cooperate and allow herself to be captured. This way, everyone would be happy!

"If there's any misunderstanding, commander Daniya will communicate directly with the commander and it will definitely be resolved immediately. Now that there's a conflict with our brothers, any misunderstanding will become troublesome! Commander Daniya, please reconsider!"

The captain of the guards didn't want to make a move on Daniya, so he naturally didn't mind saying a few more words. He could also buy some time while the reinforcements were on the side.

With more people to share the burden, he wouldn't have to worry about Daniya's hatred afterwards. He didn't think that Daniya would really be killed by Senlan wuhun, so if he didn't have to offend Daniya, it would be best not to.

Daniya's face was as calm as water as she gritted her teeth and shouted, ""Charge out!"

Before she could finish her sentence, she made the first move, her mid-stage heaven breaking aura exploding out. In terms of level, she was much stronger than Lin Yi.

There might still be a chance to turn back now, but Daniya clearly didn't trust Senlan wuhun's magnanimity. She didn't hesitate to choose a path to the end!

If you say I'm rebellious, then I'll be rebellious!

Lin Yi had no other choice but to follow Daniya. It would be too fake if he tried to persuade her to reconsider!

As long as Senlan wuhun was going to execute Daniya because of him, Lin Yi wouldn't run away alone!

"Charge!"

The other personal guards behind Daniya didn't say anything and followed closely behind her.

There was no need to doubt their loyalty to Daniya, so they didn't even consider whether doing this was equivalent to betraying the darkness magical beast race!

No matter how serious the consequences would be, the only person they needed to be loyal to was Daniya!

A fierce battle instantly broke out. The small team guarding the door wasn't weak, but compared to Daniya and her elite personal guards, they were several levels below her.

In a single exchange, a gap was opened in the twenty men guard team. Daniya did not linger and took the lead to rush out of the gap. As long as they left the camp, they would be free!

But the speed of the reinforcements was too fast, and in just a few sentences, the first batch of 200 darkness demon beast soldiers arrived!

If he wanted to escape, his tail would definitely be bitten. Once he couldn't get rid of it, it would be even more difficult to escape when the experts in the garrison moved out!

"Commander Daniya, quickly leave! We'll block the pursuers!"

At the crucial moment, the five personal guards behind Daniya resolutely turned around and blocked the exit. The two of them pushed the huge door with all their might, trying to close the exit and delay the speed of the pursuers.

The other three directly charged towards the 200 darkness demon beast soldiers, trying their best to slow down the speed of their pursuers!

Even if the few of them were just insignificant pebbles, they would do their best to stop the torrent that was pouring down!

In that instant, even Lin Yi's expression changed!

"No! Don't be like this! Hurry up and come out!"

Daniya stopped and turned around, as if she wanted to run back to save her loyal personal guard.

However, the door closed faster than she had expected. Before she could return, the door had already closed completely.

There was only a faint and fierce battle cry coming from the other side of the door. If he was not mistaken, the five personal guards most likely would not survive because they had resisted Senlan wuhun's orders!

The Witcher spirit God-locking formation's effect had already worn off, and Lin Yi could leave as a spirit if he wanted to. He wouldn't be locked down anymore.

But Daniya had completely fallen out with Senlan wuhun, leaving her here was no different from sending her to her death.

"Daniya, let's go! Don't waste their good intentions!"

Lin Yi looked at the tears on her beautiful face and felt a little guilty, "I'm very sorry, they were all ..."

"No! Sima Yi, this has nothing to do with you. They chose to sacrifice themselves for my sake! You're right, I can't waste their good intentions!"

Daniya was clearly a woman with a firm will. She wiped the tears off her face and turned to fly away, "Go! Leave immediately! They can't buy us much time, we can't let them die in vain!"

Lin Yi praised internally. She was able to calm down so quickly, she wasn't a simple person!

They were much better than those companions who risked their lives to save them, not only not cherishing the opportunity, but also wishfully following them to their deaths.

Only by surviving would there be a chance to turn the tables!

Not long after the two left, the gate of the camp opened again, and groups of Dark Beast soldiers spread out, searching for Lin Yi and Daniya in all directions!

In the commander's tent in the center of the camp, Senlan wuhun was sitting lazily on a chair behind a huge desk. He was savoring a glass of wine in his hand, but he did not look angry at all.

It was as if Senlan wuhun didn't make the angry roar that resounded throughout the camp.

There were eight darkness magical beast experts standing opposite the desk, and upon closer inspection, they were actually Daniya's eight personal guards!

Maruhaya was the leader of the eight, he lowered his head and said respectfully, "Marshal, the plan is going smoothly! Commander Daniya has already obtained the trust of that human's primordial spirit. We didn't put on such a great show for him in vain!"

"But I really don't understand. Why don't you just kill him? At that time, he wasn't even sure if he would be able to find commander Daniya's tent. "

Senlan wuhun laughed with a proud look on his face. "Well, you're all Daniya's trusted personal guards, and you've made quite a contribution this time. I'll explain it to you."

"That human's primordial spirit is very special. It can smoothly possess the bodies of our clansmen, so it's not easy to capture him with the Sorcerer soul divine locking formation alone."

"Moreover, he also has a flame that can burn divine sense. It's very difficult to deal with, and it might even be effective against The Witcher soul locking array. If he goes all out when we capture him, the final result may be a life and death struggle."

"This is not good for us! Since he's a tough bone to chew, why don't we throw him out first and let the others gnaw on him?"

"Daniya is our tribe's most outstanding commander. No matter if it's strength or schemes, she's the best choice. This time, the plan to use the chaos demonic beetles to open up a spatial node passage has basically failed, or rather, the chances of success are extremely low!"

"That's because that human's primordial spirit can be said to be the chaos demonic beetle's natural enemy! Although there aren't many people like him in the human world, he must not be afraid of being trapped on our side since he dares to come back alone. If we speculate based on this, there are not many people like him, but there are definitely not few. "

"That's why the chaos demonic beetle's plan to open up a spatial node is destined to fail. Since that's the case, I might as well let Daniya use it to gain some credit! With Daniya's help, that human's soul will definitely complete the mission he came in for smoothly. "

Chapter 8833

"Now that Daniya has become a traitor to our race, she no longer has any place to stand on this land. She has also helped that human's soul so much. Do you think he will leave Daniya alone when he leaves? I'm guessing that he'll most likely bring Daniya back to his world!"

"Whether it's a hero who can't stand the charms of a beauty or a laughable human friendship, I'm sure he won't leave Daniya behind! At that time, Daniya will be able to openly move about in the human world, and opening the node will be much easier!"

Maruhaya was suddenly enlightened. Although he was also involved in the plan, he did not understand the significance of the plan.

After hearing Senlan wuhun's explanation, he finally understood what kind of game he was playing.

One had to admit that most of Senlan wuhun's plans and conjectures were perfect. The only thing was that there was only one Lin Yi!

Senlan wuhun thought that killing Lin Yi alone wouldn't be of much use, and that there must be more similar talents in the human world, so he arranged for Daniya to enter the human world first.

If he knew how important Lin Yi was to the human race, he would kill Lin Yi at all costs!

Even if all the soldiers here were to die with Lin Yi, he didn't care!

It was because of this mistake that Senlan wuhun gave up on the chaos demonic beetles 'plan. This was an unexpected gain for Lin Yi, even though he didn't know about it yet!

"The great commander is wise! This plan was truly flawless! Our commander Daniya is indeed the best candidate to complete this plan! That human brat has probably completely believed in commander Daniya. In the future, he probably won't even know how he died!"

Maruhaya complimented him, and the others laughed along.

They acted according to Senlan wuhun's script, and their acting was extremely realistic. They were confident that they didn't reveal any flaws!

"Hahahaha! That human's primordial spirit is also a talent, but it's a pity that he's not willing to surrender to me. If he's willing to surrender, he'll definitely have the talent to be a great general!"

Senlan wuhun was extremely happy-he felt a sense of accomplishment for being able to trap someone as strong as Lin Yi in the palm of his hand. If his opponent was a piece of trash, he wouldn't feel any joy at all.

Every time he recalled the entire process, he could gain a lot of joy from it.

Senlan wuhun had immediately set up this plan when The Witcher soul locking array was activated. His reaction speed was terrifying.

The first step was to surround Lin Yi and force him to follow the route he planned. Senlan wuhun didn't underestimate Lin Yi and thought that he would see through this.

So the second step was to guide Lin Yi to another route that was harder. Of course, this was also under Senlan wuhun's control. No matter where Lin Yi went, he would still end up outside Daniya's tent!

Only Daniya's tent would have an obvious flaw, and Senlan wuhun believed that Lin Yi would be able to see through it.

And at this time, Daniya needed to take the risk.

If Lin Yi was cruel and merciless, Senlan wuhun would have to admit that he was unlucky and his plan would fail.

Of course, Daniya wouldn't encounter much danger. After all, she was a middle heaven breaking expert, and there were eight guards outside the door.

Lin Yi shouldn't be able to do anything to Daniya in a short period of time, but if he didn't do it right away, it meant that the plan was feasible. Daniya would immediately win Lin Yi's favor and lay the foundation for breaking into the human's internal circle!

The entire process went smoothly, including the request for Daniya to cooperate with the search.

If Lin Yi chose to stay, there would be more pressure on Daniya, making her tent more dangerous. In the end, Lin Yi would have to choose to leave.

When they were about to leave, Senlan wuhun announced that Daniya was a traitor and gave the order to kill without mercy.

In such a critical situation where there was no time to think, Daniya's choice to charge forward was extremely reasonable.

The guards would then risk their lives to stop the pursuers, giving Daniya and Lin Yi a chance to escape. It made the whole plan seem tragic, but it also added points to Daniya's plan.

After all, he'd be at a disadvantage if he were to escape with the guards. Only Daniya following him would make him feel like she was a pitiful weakling who needed protection.

Senlan wuhun was sure that Lin Yi would bring Daniya to the human world, but he definitely wouldn't bring Daniya and her guards back!

Step by step, the entire situation was under Senlan wuhun's control. His calculations of the human heart had already reached the extreme!

It wasn't that Lin Yi wasn't as smart as him, it was just that he was part of the plan from the start and didn't know that he was being schemed against.

Lin Yi wasn't wrong about one thing-a genius of the dark Beast race like Senlan wuhun really needed to be killed as soon as possible!

Otherwise, it would be a disaster for mankind!

Lin Yi and Daniya were already far away from the camp, and they only found a hidden place to rest after they lost the pursuers.

In fact, Lin Yi could just set up a random invisibility formation and basically guarantee its secrecy, but he didn't have the intention of showing off his formation skills in front of Daniya.

"Daniya, what's your next plan? Are you going back to your tribe?"

Lin Yi didn't have any plans to use Daniya to cause trouble at the other nodes. After all, she lost a few loyal guards for Lin Yi and was labeled as a rebel by Senlan wuhun.

Even Lin Yi himself would feel inhuman if he still wanted to use Daniya in a situation like this!

To be honest, Lin Yi didn't suspect that Daniya was a spy sent by Senlan wuhun at all. After all, he was in a dangerous situation back then, and the dark beasts didn't need to do something like that.

If he really wanted to think of something, wouldn't it be nice to just take him down and brainwash him?

Lin Yi didn't know, but because of the uniqueness he displayed, Senlan wuhun felt that brainwashing and the like might not work on Lin Yi. That was why he decided to send Daniya to infiltrate the human world.

For this reason, Senlan wuhun was even willing to give up on the plan to open up a passage for all the chaos demonic beetles! It was to give Daniya a wave of credit!

The only thing Daniya needed to do now was to follow Lin Yi and use all means to gain his trust. How could she go back to the tribe?

Daniya's pretty eyebrows furrowed at the question. "I ... I'm afraid I can't go back to the tribe! Senlan wuhun has a high enough prestige in our tribe. If you and I escape, we'll be considered traitors, and we'll only die if we return to the tribe!"

Chapter 8834 The End

"But you don't have to worry about me. Although the environment of our world is bad, it is vast. I can always find a way to settle down wherever I go. On the other hand, although you can disguise yourself as one of our people, I'm afraid it won't be so easy for you to adapt to this place."

Daniya was retreating for the sake of advancing-she'd understood Lin Yi's personality from the short time they'd spent together. He wouldn't just abandon her like that.

"It's dangerous for you to wander to a strange place like this. How about this, I'll stay with you and help you find a safe place first, then we'll talk. "

Daniya's goal was to get Lin Yi to take her out of the world inside the node and to the sub Island.

But she couldn't bring it up herself-it had to be Lin Yi.

Daniya smiled at Lin Yi's reasonable suggestion, "Alright! With you accompanying me, I believe I will definitely find the most suitable place for me! But wouldn't this take up too much of your time?"

"If you have other things to do, go ahead! Don't worry about me, I can take care of myself! I don't want to affect your work! After all, my wish is for the two races to live in peace! You took the risk to enter the node to stop the war, right?"

He continued to retreat, tapping Lin Yi to remind him of his purpose in coming to the node ...

Daniya, of course, didn't know what Lin Yi's goal was, but it couldn't be wrong!

Lin Yi nodded. "I do have some things to do, but it's not to the point of letting you go alone ... If you really want to stop the war, then it shouldn't be a problem for us to go together, right? I'll help you find a suitable place while I'm doing this."

"Good, good! Then it's settled!"

Daniya clapped her hands happily, "if there's anything I can help with, you can tell me. I'll be happy to help!" Alright, where should we go next?"

Lin Yi scratched his chin, deep in thought. If they were talking about helping, Daniya seemed to be able to help a lot. After all, she was the commander of the dark wind camp of the dark Beast clan. She should be more clear about the distribution of the nodes, right?

The question was, was it appropriate for Daniya to become a guide?

"Daniya, aren't you going to ask me what I'm going to do?"

"Anything is fine as long as we can stop the war between the two races! For the sake of our common goal, I'm very willing to help!"

Daniya smiled brightly and patted Lin Yi's shoulder, "Hey, from now on, you're my only companion! Sima Yi, I've heard that you human girls all need the protection of boys, right? So, you'll protect me in the future, right?"

"Of course, I will protect you! We're partners now!"

Lin Yi didn't doubt him and nodded. The two had gone through life and death together, and they were worthy of being partners!

"Since we're partners now, I won't hide it from you. My mission here is to remove the chaotic spiritual fluctuations transmitted from the node. With the existence of such fluctuations, it will be more difficult to repair the loopholes in the node."

"Once the spatial node is opened, the war between the two races will immediately begin, causing great suffering. Therefore, my task is quite important and must be completed as soon as possible. This is the reason why I was in a hurry to leave before!"

Daniya had some doubts in her heart. According to Senlan wuhun's speculation, there should be many people similar to Sima Yi. Wouldn't it be much easier to enter from all the nodes at the same time and return immediately after dealing with the chaos demonic beetle?

Why did he let Sima Yi in alone? Could it be that Sima Yi had offended the higher-ups of the human side, and was thrown into the node like an abandoned child to carry out this kind of mission with a 90% chance of survival?

Or could it be that the humans were afraid of accidents and were unwilling to invest too many talents like Sima Yi at once, so they sent someone to test the waters? In the end, he was still an abandoned pawn!

This guy must have offended someone!

Daniya's mind whirled, and she finally came to this conclusion.

She didn't dare to ask, in case Lin Yi got suspicious. She could only guess!

"So that's how it is! I know about this plan. Senlan wuhun brought us here to protect the opening of the node from being affected, but you ruined it!"

Daniya casually said while thinking, ""Sima Yi, in your plan, what's the next point? Are there any levels of priority?"

"No, I mean I don't have a detailed plan yet. After all, it's my first time here, and I don't know where the other nodes are."

Lin Yi spread his hands helplessly. "I sneaked into your base to find clues and the locations of the other nodes. I didn't think that I would cause such a big mess in the end, even dragging you into becoming a traitor!"

"Let's not talk about the traitor. I've always been a loner and advocated for peace between the two races. I've long been regarded as a traitor by Senlan wuhun! This time, he reacted so quickly. It seems like he has finally achieved his wish after much planning. "

Daniya wasn't afraid of the topic of traitors, but she didn't want to talk about it too much either. The more she spoke, the more she would make mistakes!

Thus, after a few casual words, Daniya immediately changed the topic. ""Since you don't have a detailed plan, let's go in order. First, we'll go to the nearest node, and then we'll go there one by one. I hope they don't become more vigilant. Otherwise, it'll be more difficult with just the two of us!"

Even though she said that, only Daniya herself knew that she was here to earn some credit, so how could she be on high alert?

Daniya stood up and looked around before pointing in a direction. "If we go from here, with our speed, we should be able to reach the nearest node in about two hours!"

"If we continue in this direction, there are thirty-nine more nodes in a ring formation. In the end, we will go around to the rear of our current position, which is this side!"

She turned around to let Lin Yi know where she was talking about. "So if we go this way, we can turn back and walk in the direction behind us. There's another ring of nodes, and there are forty-two of them."

"These are the nodes where the chaos demonic beetles have been placed. There are still many other nodes that have been repaired by your side, and there are no flaws left behind, so you can't use them."

"If your plan is only to target the nodes with the chaos demonic beetles, then these 81 nodes will be the ones. Compared to the total number of nodes, the 81 nodes can be said to be insignificant, but if the two of us want to take care of all of them, it won't be easy!"

Daniya revealed all the information she knew.

Lin Yi sighed to himself-Daniya had done him a huge favor!

Chapter 8835

If it wasn't for her, who knew how long it would have taken him to figure out all this information.

The soul search on Zachary had also obtained some information in this area, but the details could not be compared to what Daniya had provided.

Comparing the two, the fragments in Zachary's memories matched what Daniya had said.

This also proved the truth of Daniya's words!

"Let's do as you say and start from the nearest node! There will always be a way out. Even if they are on guard, we will definitely be able to find a way after we get there!"

Daniya didn't object to Lin Yi's decision, and the two continued their journey to the nearest node.

Two hours later, the two of them successfully approached the node, and they didn't encounter any obstacles along the way. However, the closer they got to the node, the more concentrated the guards of the darkness demon beast clan became.

Daniya's strength was above Lin Yi's, but her methods of hiding were far inferior to Lin Yi's. She was clearly dragging him down.

The two of them hid behind a small hill and looked at the guards on the other side of the hill. There was a guard every three steps and a guard every five steps. They had no idea how they could get past the guards and reach the node.

"Sima Yi, why don't I go and attract their attention and take them away while you take the opportunity to break in? As long as you can successfully complete the mission, we will meet up near the next node. What do you think?"

Daniya strove to perform, so she took the initiative to propose a plan that seemed feasible.

If she could succeed, her position in Lin Yi's heart would naturally rise, and his trust in her would go up another level!

But Lin Yi didn't want Daniya to take the risk. This node was similar to Senlan wuhun's. The dark Beast Army had another camp, not directly around the node.

There were a lot of soldiers guarding the node as well, much more heavily guarded than the one Lin Yi came in with, but the difficulty they created wasn't as high as one base.

"It's too dangerous for you to lure them away. I have other ways. You can just stay here!"

Lin Yi was prepared to head to the node in his spirit form-as long as he didn't run into a Special Dark Demon beast like Senlan wuhun, he wouldn't be discovered.

"By the way, is The Witcher soul God-locking formation that Senlan wuhun used the standard formation in your camp? Is it possible to set up such a formation at this node?"

His Yuan Shen State was extremely well hidden, but if the darkness demon beasts had set up a Witcher soul lock formation here, Lin Yi would be walking right into a trap. He would be locked in by The Witcher soul lock formation, so he needed to know first.

Daniya didn't even think and directly shook her head,"Of course not. Although The Witcher soul locking array is not a top secret array, it is not something that can be set up casually. We can't be sure of the garrison. There might be one, but it is absolutely impossible to set up The Witcher soul locking array with this kind of temporary team in the wild."

"You want to use your primordial spirit to go over? So you want me to wait for you here? That's not a bad idea, but the chaos demonic beetles also have a very strong restriction and interference effect on the primordial spirit. If you go there with your primordial spirit, you might be in danger!"

Her reaction was quick, and she immediately guessed Lin Yi's plan from his words. She expressed her worry.

Of course, Daniya knew that the chaos demonic beetles had little effect on Lin Yi. Senlan wuhun had already proven it, but the Daniya in Lin Yi's mind didn't know about this, so she showed it appropriately.

"It's fine. The chaos demonic beetles pose no threat to me. As long as there's no Witcher soul sealing array here, I can come and go as I please! You can stay here and help me look after this body!"

With that, Lin Yi's essence spirit left his body, leaving behind the dark Demon beast's body. He flew out of the hill and headed to the node.

Daniya's eyes flashed with an unnoticeable surprise.

Hearing about it was one thing, seeing it with her own eyes was another. To be exact, she knew that Lin Yi's spirit had left the body, but she couldn't sense if it was still there or if it had already left.

She wasn't Senlan wuhun, so she didn't have such a keen perception of primordial spirit. She could only nod pretentiously and say to the air, ""Don't worry, I'll definitely protect your body and not let anything happen to it!"

Lin Yi was long gone, and naturally didn't hear what she said. This body wasn't important at all, and Lin Yi could abandon it at any time.

There were darkness magical beasts everywhere, so it was really easy to change a body.

Because Daniya was here, Lin Yi couldn't put it into the Jade space. After all, the Jade space was Lin Yi's biggest secret, and he wouldn't tell anyone he didn't trust.

I'll put it here and use it when I can. I won't feel bad even if I lose it.

While Daniya was seriously protecting the body that Lin Yi was throwing away, he had already quietly approached the dark beast's defensive position.

Without The Witcher spirit God-locking formation, and without someone like Senlan wuhun who could sense Lin Yi's presence in his Yuan spirit state, passing through this defensive position was extremely easy. It didn't require any skill at all!

Soon, Lin Yi got close to the node, and the dark beasts didn't have as many guards here as before-they probably thought that the center was safe since the outer area was so tight.

Just like the first time, there were still six chaos demonic beetles releasing chaotic divine sense fluctuations.

Through the loopholes in the nodes, the fluctuations were continuously transmitted to the underground Devil's Den, preventing the human array Masters from repairing the flaws in the nodes.

Lin Yi didn't make a move right away. He used the opening to open up a small crack in the node and went through it, returning to the underground cave.

At the same time as he escaped from the influence of teleportation, his primordial spirit condensed into a sorcerer spirit body. He raised his eyes and scanned his surroundings. The formation Masters and battle generals at this point had already entered a battle-ready state.

The sudden crack in the node had really frightened them! They had thought that the darkness demon beasts had broken through the spatial node and attacked them!

They were all unfamiliar faces!

Lin Yi quickly took out his investigator token and showed it to everyone. "I'm Sangzi great continent's patrol envoy, Sima Yi, and also the array Dao Guild's Vice President. I sent someone to send a message earlier, did you receive it?"

"Greetings, patrol envoy Sima!"

"Greetings, Vice President Sima!"

The people present heard Lin Yi's name and confirmed that his identity token was correct, and they all saluted and greeted him!

Chapter 8836

On the side of the darkness demon beast clan, other than some special races, such as the divine concealment demon eyes that specialized in possessing and controlling humans, the other races basically didn't have the ability or skill to separate their primordial spirits from their bodies.

And so, Daniya was really curious about Lin Yi's methods. She was just testing him-even if he couldn't learn it, she'd at least get some information about it.

She didn't understand it, so she couldn't target it-if she did, it'd be much easier to deal with Lin Yi in the future.

"It's fine. This isn't a secret technique. Of course, there's no problem if you want to learn it! However, it's very dangerous for your primordial spirit to leave your body. First, your primordial spirit must be strong enough!"

Lin Yi didn't mind teaching Daniya some skills. Since she was his partner now, he could teach her whatever she wanted to learn, but the risks had to be made clear.

"Other than having a strong primordial spirit, your body must also have a safe place to store it. Once your primordial spirit leaves your body and your body is destroyed, your primordial spirit will also gradually die."

"By then, unless you can rebuild your body, possession will be your only choice. However, possessing a body that is not completely suitable for you will not benefit you at all. It will even continue to weaken your essence spirit."

"If you think you're willing to take such a risk, I'll teach you the method to separate your primordial spirit from your body. You have to think about it carefully!" He said.

Daniya hesitated, "is it that dangerous?" I do need to think about it. Why don't you say more?"

"Hmm ... How about this? I'll see how strong your primordial spirit is. Don't resist!"

As he spoke, Lin Yi extended a thread of spirit sense into Daniya's sea of consciousness to test it out.

Daniya's body tensed up, her sea of consciousness clearly resisting. Lin Yi didn't mind. After all, the sea of consciousness was the most important part of the body. Even if he told her about it, it was still natural.

It was like if someone told you that there were no bullets in the gun, then aimed it at your eyes and pulled the trigger, you would still be tensed up and scared.

Lin Yi didn't have any intention of checking Daniya's sea of consciousness, so he pulled it back after a while. On average, Daniya's spirit wasn't weak.

It was indeed very good that she could naturally reach the middle stage of the mountain opening stage without cultivating. However, compared to her body refining strength, which was at the middle stage of the heaven breaking stage, it was really not enough.

"How is it? How's my primordial spirit?"

Daniya didn't mention her resistance-she seemed very interested as she asked.

Lin Yi smiled and nodded,"not bad, but it's still far from your body's strength!" If your primordial spirit leaves your body, I'm afraid you'll only be able to use one-thousandth of your strength, which is not very meaningful!"

"If you're really interested in this, I suggest you increase the strength of your primordial spirit first. When it's almost the same as your body refining strength, then you can try to separate your primordial spirit from your body!"

"I have a way to quickly increase the level of your primordial spirit, which is to transform your deified soul sea into The Witcher spirit sea. This way, your primordial spirit will have a huge improvement in the short term. In the long run, your growth rate will be even faster!"

Daniya's expression changed slightly. She was a high-ranking member of the darkness demon beast clan, so she knew what Wu Linghai was. She also knew that the modified Wu Linghai would be controlled by the modified Wu Linghai!

This was the lesson she learned from the blood of the dark Demon beasts. She didn't see Lin Yi as a partner, so she couldn't accept Lin Yi's Wu Linghai transformation!

"Wu Linghai? That was a sorcerer tribe technique, right? Sima Yi, are you a descendant of the Sorcerer clan?"

Daniya quickly collected her thoughts and continued to act like a curious child, ""Aiya, I suddenly really want to see what your original form looks like, Sima Yi. The Sorcerer clan doesn't look that good, right?"

"I'm not a member of the Sorcerer tribe. I've only obtained some of their inheritances by chance, and modifying the Sorcerer spirit sea is one of them. My true form isn't that good-looking, but it's not that ugly either! Do you want to transform Wu Linghai?"

Lin Yi explained casually, still wondering if all girls were focused on looks or not. Shouldn't Wu Linghai be the main focus now?

If he encountered an opportunity to improve his strength, he would definitely pay close attention to it and fight for it with all his might! Why did she focus on Lin Yi's appearance and the witch's appearance when it came to Daniya?

Why did he run so far off in such a righteous and logical manner?

Lin Yi asked a second time, and Daniya couldn't fool him anymore. She pouted and shook her head, "Don't! I hate the Sorcerer clan, so I don't really like their methods. There are clansmen in our tribe who are learning the inheritance of the wizard tribe, and all of them are ... Tsk ... This is so ugly!"

Daniya's face was filled with disdain. Her strength proved her hatred towards the witch tribe's inheritance, and also showed her status as a member of the appearance Association. Anything that affected her beauty, even if it could rapidly increase her strength, she would definitely not learn it!

Of course, only she knew the real reason. She just didn't want Lin Yi to change her sea of consciousness so that she wouldn't be controlled by Lin Yi in the future!

If there were other ways to increase one's strength, she wouldn't mind learning it if it didn't have any side effects other than affecting one's appearance. After all, in the darkness demon beast clan, strength was also the most important thing, and beauty was nothing!

Daniya didn't like the witch race, so Lin Yi wouldn't force her.

Other than transforming Wu Linghai, there were other methods to train deified soul and improve primordial spirit, but the effects were not as obvious.

"Alright, since you're not willing to accept Wu Linghai, I'll teach you some techniques for us humans to train our deified soul. You can slowly improve the level of your primordial spirit."

Lin Yi thought about it and found a suitable spirit training method for Daniya.

She didn't reject him this time, and happily learned from Lin Yi.

Daniya's talent was great, and she quickly grasped the method Lin Yi taught her. All that was left was a long period of practice and repetition.

The two of them continued on their way after resting. They completed two more nodes in the same way. The process was almost the same, and the result was the same. There was no danger or difficulty at all.

Lin Yi killed another twelve chaos demonic beetles and got dozens of black crystals. It was nothing compared to the two to three hundred that Senlan wuhun had gotten.

However, no matter how small a mosquito was, it was still meat. As the saying goes, 'sand makes a tower', and little drops make an ocean [ 1]. There were still 70 to 80 nodes to go. If he slowly harvested them, the number would be quite a lot.

On the way to the next node, Lin Yi remembered that there was a place called the chaos demonic mound in zhama Huck's memories. It produced Chaos Black crystal ores and could be said to be the base camp of the chaos demonic beetles.

Chapter 8837

On the way to the next node, Lin Yi remembered that there was a place called the chaos demonic mound in zhama Huck's memories. It produced Chaos Black crystal ores and could be said to be the base camp of the chaos demonic beetles.

Chapter 8838

However, the memory fragments he got from soul searching were too messy, so he couldn't get the exact location of the chaos demon mound.

"Daniya, do you know the location of the chaos demon mound? Is it nearby?"

Honestly, Lin Yi was just asking. He had no idea where the chaos demon mound was.

But in Daniya's ears, it was somewhat shocking!

This was because the chaos demon mound was really nearby!

Lin Yi didn't ask earlier or later-he probably had an answer now, and wanted to test it out.

"Chaotic demon mound? I think it's nearby. I've never paid attention to this place before, so I'm not very sure ..."

Daniya pushed it away without a change in her expression and pretended to ask casually, ""Why are you asking about the chaos demon mound? That's not a good place. There's nothing there other than Chaos Black crystal ores. "

"And this type of ore isn't very useful. Only the chaos demonic beetles like to eat this type of ore ... You can't be thinking of going to deal with the chaos demonic beetles, right?"

An idea flashed through her mind and she felt that she had found the right way to go about it. She immediately advised, ""If that's what you're planning, I think it's better not to go,"

"Because most of the chaos demonic beetles have been taken away, there are still quite a few left in the various bases. So, the chaos demonic mound only has some useless ores."

"Even if there were some chaos demonic beetles left behind, they would definitely be hidden in the underground mineral veins. How could it be easy to find them? The mine itself will have fluctuations that can confuse the mind, going there is really a thankless effort. "

Lin Yi raised his eyebrows and frowned ... Didn't Daniya just say that she didn't pay much attention to the chaos demon mound?

Since he knew so much, why didn't he pay attention to it? It wouldn't be a problem to say that he knew it like the back of his hand, right?

Daniya's heart skipped a beat. She realized that she had said too much and immediately changed her tone, "I heard all of this in the camp. I don't know if it's true, but it might not be without reason. Going to the chaos demon mound will definitely waste a lot of time."

Lin Yi smiled and nodded, "you're right. But the chaos demonic beetles are the most important part of the plan. Since we're near the chaos demon mound, I have to go and see what's going on. Maybe we'll get something unexpected!"

The first few nodes were taken care of too easily, much faster than expected. Lin Yi had the confidence to spend some time to find the chaos demonic beetles in the chaos demon mound.

Firstly, the chaos demonic beetles were indeed the key factor in the darkness demon beast clan's opening of the spatial node. If they could get rid of them at the root, at least the darkness demon beast clan would not be able to use them against humans in the future.

As for the second reason, of course, Lin Yi wanted the black crystal inside the chaos demonic beetle to increase the level of his essence spirit!

It was just that Lin Yi didn't tell Daniya the reason.

If he didn't know where the chaos demon mound was, or if he knew its location but it was far away, Lin Yi wouldn't go there. It would be a waste of time. He'd only consider looking for it after he'd settled all the nodes.

Since he knew that the chaos demon mound was nearby, he could go there along the way. It wouldn't delay anything, and he could take care of both sides.

Daniya was silent for a moment before she nodded. "What you said makes sense. In that case, let's go over and take a look. Although I know that the chaos demon mound is probably nearby, I don't know the exact location. I might take a long time to find the way ..."

She knew that she couldn't stop Lin Yi from going to the chaos demon mound anymore as it would raise unnecessary suspicion. She could only go with the flow!

Perhaps he could take this opportunity to deepen their trust?

Daniya calculated in her heart and used a special method to send the message out when Lin Yi wasn't paying attention.

"It's fine. Since it's nearby, I'll always be able to find a place! If you say that the chaos demon mound is not a good place, then it must be a sparsely populated environment. If we find such an environment, we will most likely be able to find the chaos demon mound. "

Lin Yi didn't mind spending more time-it wasn't like it would cost much anyway!

The world where the darkness demon beast clan lived was vast and boundless, but not all of it was desolate.

The high-level Dark Demon beasts lived together in a tribal form. In addition to the powerful large tribes, there were also many small tribes scattered in various places.

There were also low to mid-tier Dark Demon beasts that wandered around, not attached to any tribe. Lin Yi didn't have to run around like a headless fly when he wanted to find the chaos demon mound.

A place with a small tribe would most likely not be in the chaos demon mound.

As long as he used the process of elimination to determine the approximate location, he could then find these small tribes and casually ask them. He might be able to obtain accurate information.

After all, Lin Yi was still a Dark Beast, and the small tribe wasn't a military base. It shouldn't be hard to ask for directions.

Daniya took the initiative and brought Lin Yi around, finally finding a small tribe.

As expected, they didn't dare to doubt Lin Yi and Daniya, the two high-level dark beasts in their human forms. They answered all the questions with respect.

"Argh! It turns out that the chaos demon mound is in that direction. I led you the wrong way, and you have taken a long, pointless journey ..."

After leaving the small tribe, Daniya looked very ashamed, ""I said I'm a local tyrant, but my sense of direction is so bad. I'm really sorry!"

She'd achieved her goal of stalling for time, and Daniya wasn't worried that Lin Yi would suspect her intentions. Apologizing would make it harder for Lin Yi to blame her.

Lin Yi smiled and waved his hand, "it's nothing. It's normal to go in the wrong direction when you don't know the exact location. I've seen people who kept going in circles but couldn't find the right direction. You don't have to worry about this kind of small thing!"

Daniya obviously wouldn't care about such a small matter. What she cared about was whether the message she sent back had been timely converted into the plan.

Senlan wuhun and a thousand elites were resting a few dozen miles away. He had been following behind Lin Yi and Daniya the whole time, using a special method to keep in contact with her.

Daniya's message was slightly out of his expectations, but it seemed to make sense.

Therefore, Senlan wuhun did not hesitate to follow Daniya's request and made arrangements in the chaos demon mound.

With Daniya stalling for time, Senlan wuhun had enough time to make arrangements. His goal was still to let Daniya enter the human world, not to kill Lin Yi here.

But if Lin Yi didn't live up to his expectations and ended up dead, he wouldn't have too much regret.

Chapter 8839

This was what it meant to be happy when you win and happy when you lose. Senlan wuhun enjoyed the feeling of controlling others. In his eyes, Lin Yi was just a target with some value.

Lin Yi's sudden idea of going to the chaotic demon mound slightly messed up Senlan wuhun's plan, but she didn't mind going with it and teaching Lin Yi a lesson.

If Lin Yi couldn't take it, he would continue to push for the chaos demonic beetles to open the passage.

The premise was that there weren't any other Masters like Lin Yi entering the node to destroy it!

Lin Yi didn't know that Senlan wuhun was spying on him, and the Jade space didn't give him any warning, but Lin Yi did feel a prickling sensation on his back. It was getting more and more obvious as he got closer to the chaos demon mound.

It seemed to be dangerous, but not fatal enough. Even the warning of the Jade space was not triggered, so the threat level was not high ...

Lin Yi thought about it and was only a little more alert as he continued to approach the chaos demon mound at high speed!

After a short while, the two finally saw the chaos demon mound. There were no tall mountains or precipitous Hills. From a distance, it looked like a low hill with a black surface without any plants.

After entering the range of the chaos demon mound, the suppression on divine sense was even stronger. Lin Yi released his divine sense at full force, but he could only maintain it within a radius of three hundred meters.

If one's vision was good, using spiritual sense to probe was not as efficient as using one's eyes to observe.

The chaotic energy waves were constantly invading Lin Yi's Wuling sea.

However, even though these chaos fluctuations were massive, they were somewhat impure. In terms of quality, they were far inferior to the chaos demonic beetles.

Hence, these chaotic waves posed no threat to Lin Yi. No matter how large the amount was, it couldn't shake the stable Wu Linghai.

But Daniya seemed to have a hard time dealing with it!

After all, the level of her primordial spirit was relatively low, and she was unwilling to transform into Wu Linghai. She was just an ordinary deified soul, so it was naturally difficult for her to resist such chaotic fluctuations.

"Daniya, why don't you wait for me outside? There's no need to force yourself into the chaos demon mound!"

Lin Yi stopped walking and turned to Daniya, who was a little slow to react. "I'm quite adaptable to this place, so there won't be any danger. You can wait for me at the periphery of the chaos demon mound."

Daniya waited for a while before shaking her head,""No, the chaos demon mound is filled with unknown dangers. This is different from the guards at the border of the spatial nodes. I can't let you take the risk alone. If you must go in, I will naturally follow you in!"

In fact, Daniya had a way to deal with the effects of the chaos fluctuations. These fluctuations weren't released by the chaos demonic beetles, but were passively released by the chaos Black crystal ore vein under the chaos demon mound.

Ordinary darkness-type magical beasts would definitely be affected if they got close, but Senlan wuhun had experience in mining and commanding chaos demonic beetles in battle. How could he not have a way to counter it?

And since Daniya was a general under Senlan wuhun, it would be easy for her to overcome it!

However, Daniya couldn't use any methods to block the chaos fluctuations in front of Lin Yi. She had to lie about not paying attention to the chaos demon mound, and now she had to lie more!

lin yi thought about it and nodded,"i don't agree with that ... but if you insist, then we'll go in together!" it just so happens that i have a formation plate here. you can use it to resist for a while, it might be of some use. "

as he spoke, lin yi took out a small and exquisite formation plate and handed it to daniya.

this was, of course, lin yi's creation-it wasn't some profound formation, just a simple spirit sense shielding formation.

the chaos fluctuations that were everywhere in the chaos demon mound were also a kind of spiritual fluctuation. it was naturally best to have a spiritual consciousness defense tool, but a spiritual consciousness shielding array disc could also be used.

after all, the chaos demon mound's chaos fluctuations were unconscious fluctuations that were passively emitted by the black crystal mine. it didn't have the ability to attack on its own, so shielding it was equivalent to defending.

"Eh, it's really effective! Sima Yi, you sure have a lot of good stuff! With this array disc, the chaos demon mound will no longer have any effect on me!"

After Daniya activated the array board, her eyes immediately brightened. She happily took the array board and looked at it back and forth, clearly not having seen such an effective array board.

"This isn't anything good," Lin Yi smiled faintly,"but if you like it, I'll give it to you as a memento!"

It didn't take much effort for Lin Yi to inscribe a low-level formation disk like this, so he gave it away like it was a toy for a friend to play with.

"Really? That would be great! I won't stand on ceremony with you, so I'll accept it!"

Daniya happily hugged the formation plate, looking very cute as if she had obtained her precious treasure.

"Of course it's true. It's not something valuable. It's good that you like it!"

"Alright, let's continue since you're coming!" Lin Yi smiled.

The spirit sense shielding formation was effective and solved Daniya's problem. Lin Yi increased his speed and entered the center of the chaos demon mound.

There were many mine holes of various sizes here, and they extended deep into the ground. These were probably the tunnels that the darkness magical beasts had left behind when they were mining.

In the mine, the mine vein's chaotic fluctuations were obviously much stronger than outside!

"Sima Yi, are we really going to enter the mine? I've heard that there are other dangers besides the chaos demonic beetles in the chaos Black crystal mine!"

Daniya and Lin Yi stood in front of the biggest mine, a little worried, "Maybe we'll be trapped in the mine and delay our next plan! If the node passage is opened, even if there is only one, the war between the two races will be inevitable!"

"It's not that serious," Lin Yi smiled, "it's just a mine, how dangerous can it be? But Daniya, it's best for you to stay outside. If I encounter danger, I can abandon this body and leave the mine in my primordial spirit state. You'll be in more trouble!"

The corner of Daniya's mouth twitched, 'just say that I'm your burden! It was really hurtful! No matter what, we're still partners, and we agreed to advance and retreat together. Now you want to abandon me?"

Her plan was to help Lin Yi out when he was in danger-saving him a few more times should be enough to gain his trust, right?

If she couldn't stay by Lin Yi's side, then what was the point of her plan? she'd be reduced to a lookout, and Lin Yi wouldn't take her seriously.

"No, how could you be a burden? you've helped me a lot. I don't know what to do without you. Let's go down!"

Lin Yi cajoled her a little, diverting her attention away from the danger. He then led the way and entered the largest tunnel.

Chapter 8840

Most of the darkness demon beasts were much larger than humans, so the mine was also quite large.

Although Lin Yi had the body of a Dark Demon beast, he was only a little bigger than a normal person after transforming. Walking in the mine, he felt that it was very spacious!

However, the detection ability of the spiritual awareness was further compressed, and the radius of about ten to twenty meters was the limit.

In the dark mine, the only use was to know in advance when they encountered corners and other places that were difficult to see with the naked eye.

It was better than nothing!

After walking for a few hundred meters in the tunnel, the two of them entered a relatively open area, about six or seven hundred square meters.

This place should have been the mining site of the chaos Black crystal ore in the past, and there were even some fragments of black gold ore scattered on the ground.

"Sima Yi, something's wrong! Be careful!"

Daniya, who was following behind Lin Yi, suddenly reminded him.

It wasn't that she really felt that something was wrong, but according to the plan, something should have appeared!

Unless Senlan wuhun didn't make any arrangements, or she didn't receive the message!

But these two points were unlikely, and Daniya was still very confident in Senlan wuhun.

He didn't need Daniya's reminder-Lin Yi already felt something was wrong!

After entering this space that was neither too big nor too small, his deified soul, which had been weakened to the extreme, was completely suppressed back into the Sorcerer spirit sea. He could not extend it out anymore!

This wasn't very accurate. To be exact, the spiritual sense could still be extended out, but as soon as it left the body, it would immediately disappear without a trace.

It was as if he was suppressed in The Witcher spirit sea and couldn't leave his body. Although the results of the two seemed similar, they were completely different in essence!

The energy fluctuations from the chaotic black crystal mine didn't have such a terrifying ability, so it was obvious that there was something fishy about this!

"Yes, I noticed that too, but it's not a big problem. It's not a difficult opponent! There's no need to be nervous!"

Lin Yi turned around with a smile, looking relaxed. "Other than the ability to annihilate divine sense, it doesn't seem to be dangerous in other aspects. You should know who your opponent is, right?"

"Annihilate divine sense? The shadow God-devouring Lion?"

After all, Daniya was a big Shot of the darkness magical beast clan. When she heard the characteristics of the annihilating divine consciousness, she immediately thought of the shadow God-devouring Lion.

Although there were other races with similar abilities, the only one Senlan soulless had sent out was the shadow God-devouring Lion.

"It's possible! I've encountered shadow God-devouring Lions before, so I'm quite familiar with this feeling!"

Lin Yi said with a smile, a little nostalgic.

If he hadn't met the shadow God-devouring Lion again, he would have almost forgotten that he had a five-year agreement with it!

Unfortunately, he didn't know when he would be able to leave the sub-Island, and he would most likely break the five-year promise ...

With Lin Yi's current strength, the lion would definitely be on its knees if he went!

It was to keep the lion from coming out for five years, but it seemed that as long as Lin Yi could go back, it didn't matter if it came out or not.

"You've encountered a shadow God-devouring Lion? Then you should also know how powerful they are, right? The shadow God-devouring Lions are few in number. Even if you add up the entire population, you'll only have a few hundred. "

Daniya's expression was grave, "if there really is a shadow God-devouring Lion here, we'd better leave as soon as possible!" In a place like this, even I can't guarantee that I'll be able to defeat a shadow God-devouring Lion, even if the opponent's level is lower than mine!"

"You've dealt with the shadow God-devouring Lion before, so you should know their characteristics, right? The divine consciousness obliteration is only one of its talents. The ability to blend into the shadows and move stealthily is even more terrifying!"

"The shadow God-devouring Lion Clan can be said to be born assassins. This is especially so in an environment like the mine. It's even more suitable for them to display their abilities!"

"Perhaps the shadow God-devouring lion's experts were already hiding behind us while we were talking, ready to launch a sure-kill attack!"

Daniya was still explaining when Lin Yi turned around and slashed out with the demonic devour sword!

A soft sound of metal clashing rang out in the air. The demonic devouring sword paused for a moment before continuing to fall. In the end, it did not encounter any more obstacles!

There really was a sneak attack from behind!

The Jade space had an alert, but it was very weak. It was clear that even if the sneak attack hit Lin Yi, it wouldn't be a threat.

Therefore, the warning was just a small reminder, and it was perfunctory!

"It's the shadow God-devouring Lion! It's not good for us to fight here! Sima Yi, let's quickly retreat first!"

Daniya's body tensed up as she went into a defensive stance, scanning the surroundings vigilantly. She moved her body slightly and leaned her back against Lin Yi's!

On the battlefield, to entrust one's back to the other was equivalent to entrusting one's life to the other. It represented the highest level of trust!

Of course, Daniya was doing this to gain Lin Yi's trust. The lion was on their side, after all, and she'd only be putting on a show.

Lin Yi felt the soft and warm touch on his back, and his heart went cold!

The innate ability of the shadow God-devouring Lion was to annihilate divine sense, and the chaotic black crystal mine was filled with chaotic fluctuations. The chaotic divine sense fluctuations released by the chaos demonic beetles would also be annihilated by the shadow God-devouring Lion!

why would these darkness-type magical beasts, the natural enemies of the chaos demonic beetles, appear in the chaos black crystal mine?

if the darkness demon beast clan wanted to arrange for guards here, it definitely wouldn't be the shadow god-devouring lion!

following this line of thought, why would the shadow god-devouring lion appear here? who was he targeting? what did he mean by attacking without even saying a word?

lin yi and daniya were wanted by the dark beast clan, but the news wouldn't spread that fast. at this stage, only the bases knew about this.

the small tribes that were scattered in the barren land didn't know about it, so lin yi and daniya were treated with respect when they passed by them.

the chaos black crystal vein would receive the news in advance, so they would attack lin yi as soon as they saw him?

that was impossible!

under normal circumstances, no matter if they were the guards or not, when they saw two shapeshifted darkness demon beasts, they would come out and have a chat, right?

a sneak attack could only mean that this was premeditated!

then, here came the problem!

who had planned this? lin yi's sudden decision to come to the chaos demon mound, who could have prepared in advance?

the small tribe that they had passed by before?

it was possible, but even if the small tribe immediately sent the news, they might not be able to inform the right person in time, let alone make arrangements in advance!
