

Bodyguard 8851

Chapter 8851

Everything that had happened at that point made Daniya doubt if Senlan wuhun would still stick to his undercover plan.

If it was not for Sima Yi's explosive strength that exceeded his expectations, the inescapable net that was set up at the node just now would definitely have destroyed Sima Yi's soul!

As for Daniya who did not reveal her identity, she was treated as a true traitor. If Sima Yi was killed, even if she revealed her identity as a spy, she might not be able to escape unscathed. She would most likely be torn apart by the angry darkness demon beast clan soldiers!

To be able to climb to her current position and be entrusted with such an important task, how could Daniya be an idiot?

She only needed to think for a moment to roughly deduce Senlan wuhun's true plan!

As for Sima Yi, if he could kill him, he would. If he couldn't, he would continue with his undercover plan!

In other words, Daniya's risky plan had become a backup plan!

Who couldn't bear it!

If her plan to open up a passage through the node succeeded, her plan would fail!

In order for her plan to go smoothly, Daniya decided to forget about Lin Yi's words after hesitating for a while, pretending that she didn't hear it!

In any case, when Senlan wuhun had first discussed this with her, he had also mentioned that she could use the chaos demonic beetles to open up a spatial node passage, and that they could be used as her stepping stone!

So this time, there was nothing wrong with not reporting what he knew. It was reasonable and there was nothing wrong with it!

These thoughts flashed through her mind, but Daniya's expression did not change much. After a moment of silence, she asked, ""Sima Yi, if what you said is true, then it's really good news! But then again, if all the holes in the nodes are fixed, can you still leave this place and return to the underground Devil's Den?"

If all the loopholes were gone, it would be too difficult to open the node seal from the inside.

The darkness demon beast clan had gathered their Army and attacked continuously, but they were unable to break the seal. If not for this, the underground Devil's Den would have been taken by the darkness demon beast clan long ago!

Daniya's concern was understandable! After all, her plan was to use Lin Yi to infiltrate the human world. If Lin Yi couldn't go back himself, what was the point of being a spy? He should just go undercover with Lin Yi in the dark Demon beasts!

Lin Yi blinked-this really was a problem!

If all the nodes were repaired perfectly, even Lin Yi himself might not be able to open the passage from the inside.

Especially after this incident, every node would definitely be guarded by array Masters from the array Guild. Once they discovered signs of instability, they would definitely go all out to repair and maintain the stability!

This way, even if Lin Yi had the ability to open the node passage from the inside, there was no chance of success with the external interference!

Would he have to stay in the spatial node forever with the darkness magical beasts?

"Sima Yi, have you not considered this before? Do you think it's good for you to stay?"

Daniya had been observing Lin Yi's expression the whole time, and someone as smart as her guessed right,"Haha, Speaking of which, you can possess other bodies at any time, so it's very suitable for you to live here. If you really don't want to leave, I'll welcome you!"

Lin Yi laughed dryly and shook his head. "How is that possible? I naturally have plans and confidence to leave this place and return to the underground Devil's Den. You don't need to welcome me! I definitely won't stay, but you, you've already become the target of public criticism here. Why don't you join me in the future? I'll also welcome you!"

Lin Yi only said it casually as a response to Daniya, but it was exactly what she wanted!

Secretly rejoicing, Daniya immediately seized the opportunity and nodded repeatedly, "Good, good! If you can't go back, you'll follow me. If you can go back, I'll follow you. You have to guarantee my safety and provide me with good food and drinks!"

"No problem! We humans have countless delicacies. I'm sure you'll be able to eat different kinds of delicious food every day! By then, I'll definitely be able to feed you until you're fair and chubby!"

"Bah! Who wants to be fat! Do you think I'm a pig?"

The two of them had digressed from the topic as they laughed, but that seemingly casual agreement had already been established!

Daniya was satisfied. With Lin Yi's promise, returning to the underground cave was a matter of course. The only problem now was how to get back?

Did Sima Yi really have a backup plan?

Lin Yi wasn't prepared for this!

However, there was no rush for this. He just had to send a message out at the next node and agree to leave a small flaw at a certain node.

When Lin Yi wanted to go back, he could go to that node and give the signal-it would be easy to open the passage!

What he needed to do now was to find a way to send this message out!

"Sima Yi, where are we going now? Should we still follow the original route? Or should he change his route? I think they've already taken precautions and made speculations after the few consecutive raids on the nodes. It should be better to change routes. What do you think?"

Daniya was planning for Lin Yi from the bottom of her heart. Her goal was the same as Lin Yi's now-to complete the mission and return to the underground cave. Her mission would only officially begin after Lin Yi returned to the underground cave!

He had to get Lin Yi back!

Lin Yi thought about it and nodded, "Daniya, what you said makes sense! Our previous actions were traceable, so it's easy to deduce where our next target is. "

"Maybe they've already set up an inescapable net for us to jump in! That's why we have to do the exact opposite. We'll no longer go to our original goal, and we'll go back on the path we've taken before!"

Daniya thought for a moment and immediately shook her head, "No, we can't turn back. Although they won't expect us to turn back, we've already made the guards at several nodes lose their mission targets."

"These guards should be following us all the way. They might have already gathered together. If we go back the way we came, it's very likely that we'll run into them!"

It didn't matter if it was the higher-ups of the darkness magical beast clan, but Daniya was afraid of Senlan wuhun!

These words seemed a little ridiculous. Daniya was a spy sent by Senlan wuhun, so what was the point of being afraid of him?

But Daniya's previous conjectures had more or less confirmed Senlan wuhun's thoughts. This heartless commander had already made two preparations!

If he had the chance to kill Lin Yi, he wouldn't hesitate to do it. Daniya's role was almost zero!

With the title of a traitor, Daniya's chances of survival in a chaotic Army were too low!

Even if she returned to Senlan wuhun's side without any danger, Daniya wouldn't have any credit to speak of. After spending so much effort, the end result was nothing and even she would have to lose her life. How could Daniya accept this?

Therefore, her only choice was to complete her original plan and break into the human race to obtain the greatest credit!

Chapter 8852

If she succeeded, it wouldn't be impossible for Daniya's status to surpass Senlan wuhun!

And so, Daniya didn't want Lin Yi to meet Senlan wuhun at this time. Even if Lin Yi had used all kinds of magical methods, she still felt that Senlan wuhun was more terrifying!

Lin Yi heard Daniya's words and nodded in agreement, "That makes sense! Although they might not meet us, and even if they do, they might not recognize us, it's best not to get involved in unnecessary risks! Daniya, you can decide how to go. After all, you're more familiar with this place!"

This was his trust in Daniya, and if he fell into a trap, he'd have no choice but to accept it!

Daniya smiled and said, "sure!" Then I won't be polite, let's go this way!"

The newly chosen direction was nearly 90 degrees away from the original route. If they had been heading east, they were now heading north.

"Our next target node is actually the original 13th node. The nodes we skipped in the middle should be enough to avoid their heavy defense!"

"Let's go over there and take a look at the situation first. If your new plan succeeds, then we'll go to the node that you've skipped to observe. Or you can leave it to the end and directly go to the other side and come back in a circle."

Daniya's plan could basically avoid a few key points that the darkness magical beast clan had defended. The new target would definitely be well-guarded, but it wouldn't be as strict in comparison.

This time, they were only going to observe the situation. As long as Lin Yi didn't make a move, his methods of hiding were invincible. They didn't need to expose their tracks and they could find out the situation!

"Alright! Let's do this!"

Lin Yi didn't mind, and the two followed the new route. When they reached the next node, they realized that the security wasn't as tight as before.

Whether it was the dark night God-hunting spiders or the dark spirit God-searching bats, he did not see them. This meant that the defense against primordial spirits here was very ordinary.

As long as he sneaked in with his primordial spirit, there was basically no danger of being exposed!

The two returned to their original state, with Lin Yi approaching the node in spirit form while Daniya helped guard the body he left behind, waiting for him to return.

Of course, Lin Yi was serious this time. Even if something happened, Daniya couldn't come to help-it would only affect Lin Yi's escape!

Daniya had already promised that there wouldn't be a next time, so she could only aggrievedly express that she would definitely listen!

Only then did Lin Yi sneak into the dark Demon beasts 'camp. There weren't any dark god-hunting spiders or dark spirit God-searching bats, and Lin Yi was extremely relaxed in his essence spirit state. He quickly got close to the node.

At this moment, the location of the spatial node was in a state of chaos. There were about 300 darkness demon beast clan elite soldiers attacking the spatial node's hole. At the same time, there were also 70 to 80 chaos demonic beetles releasing fluctuations of chaotic divine sense, desperately trying to transmit it through the hole.

However, the hole in the node was still steadily disappearing. It was not fast, but it did not seem to stop.

There was no need to ask, it was definitely the array Masters from the underground devil cave that had started to move. They used a divine sense shielding array to block the chaotic divine sense fluctuations of the chaos demonic beetles, and then used all their strength to repair the holes in the nodes.

Lin Yi watched for a while and knew that the dark beasts had no chance of winning. It seemed like they were making a lot of noise, but in reality, it was all useless.

If they could use brute force to open the node, they would have done it long ago. Why would they wait until now?

The loopholes in the nodes weren't something that these few elite darkness magical beasts could open up, and they couldn't even stop it from being repaired!

It's settled!

The plan in the underground Devil's Cave was working fine, and all the nodes could be repaired. All Lin Yi needed to do now was to send his message over!

He had to take advantage of the fact that the loophole in the spatial node had not completely disappeared!

Once the hole in this node disappeared, the other nodes would repair themselves at about the same time. Lin Yi basically wouldn't have the chance to send messages anymore!

Make your move!

Lin Yi's Shaman Spirit body appeared at the edge of the spatial node and used his own power to help the dark Beast clan tear open a crack. He then sent the letter and a spiritual Jade he had prepared in advance into the crack!

The elites of the darkness demon beast clan were all dumbfounded!

They had been attacking for a long time, but they couldn't even stop the hole from disappearing. Who was this person that suddenly appeared? A crack was actually torn open in an instant!

All the darkness demon beasts were excited! A crack and a hole were completely different! No matter how small the crack was, if they continued to attack, it would continue to expand and eventually open a passage!

Where did this godly teammate come from? Awesome!

Unfortunately, they didn't even have time to exclaim in admiration or even react in time to launch their attacks when Lin Yi started repairing the crack!

It was easy to open, so naturally, repairing it would not be too difficult! At least for Lin Yi, it wasn't difficult to fix!

In an instant, the crack disappeared, and the hole disappeared with the help of Lin Yi and the demon cave!

This node had been completely repaired!

All of the darkness demon beast elites were stunned! What was this? The combination of Ice and Fire? The happiness and excitement she felt just now was replaced by the despair and loss she felt now!

"Kill him! He's that human's primordial spirit!"

Some of the dark beasts reacted quickly, realizing who Lin Yi was. They roared and attacked Lin Yi.

The other Dark Demon beast soldiers started to attack as well, but Lin Yi wasn't afraid at all. He used his spirit sense to buy himself some time.

Normal Dark Demon beasts weren't attractive to Lin Yi at all. It didn't matter if he killed them or not, but there were 70 - 80 chaos demonic beetles here. Lin Yi had to kill them!

Previously, there were only six chaos demonic beetles at each node. He didn't expect that there would be more than a dozen times this time!

This would provide Lin Yi with more black crystals! What an unexpected gain!

Even if it wasn't for the black crystal, the chaos demonic beetles had to be eliminated. They were too great a threat to humanity, and keeping them alive would only leave behind hidden dangers for the Great War in the future.

He wouldn't let these chaos demonic beetles go, no matter what.

And so, Lin Yi used his consciousness to slow down the attacks of the other Dark Demon beasts, and directly killed the chaos demonic beetle!

However, Lin Yi's attack had just gotten close and hadn't even landed on the chaos demonic beetles when they all self-destructed in unison!

The jade pendant space had not been moving at all, but when the chaos demonic beetle self-destructed, it suddenly sent out a warning alarm!

It was obvious that before they self-destructed, these chaos demonic beetles posed no threat to Lin Yi at all, but the moment they self-destructed, they became a fatal danger to Lin Yi!

Chapter 8853

Even the Jade space couldn't predict the danger, so naturally, Lin Yi was shocked!

After all the chaos demonic beetles self-destructed, they instantly formed a black cloud that enveloped Lin Yi!

If it wasn't for the Jade space's emergency signal, Lin Yi would've crashed into it without even having time to react.

With this warning, Lin Yi instinctively retreated when he touched the edge of the black cloud and didn't fall into it.

Although he only touched a small part of the black mist, a network of black lines appeared on Lin Yi's body, spreading from the point of contact to other parts of his body.

Lin Yi's vision went black, and he felt like he was blind!

Although his current sorcerer spirit body was similar to his physical body, the strength of his vision was not determined by his eyes, but by his divine sense to simulate the function of his eyes.

The reason why the shaman spiritual body had become blind was definitely because there was a problem with his consciousness and he was unable to continue simulating his eyes!

Lin Yi was extremely shocked-what was this Dark Beast? It was actually so powerful!

Even the Sorcerer spirit body could target damage? Furthermore, using the chaos demonic beetle to set up a trap, the designer's intelligence was also the best choice!

"Let's go, don't waste any time here!"

The damn thing suddenly appeared and yelled at Lin Yi, "This is a kind of witchcraft that the Sorcerer tribe uses to deal with sorcerer spiritual bodies. The black clouds are not poisonous, but when they

come into contact with sorcerer spiritual bodies or primordial spirit bodies, they will leave the Sorcerer tribe's curse mark on the Sorcerer spiritual body or primordial spirit!"

"The complete form of the wizard tribe's curse mark will devour the wizard spiritual body or the primordial spirit body. Although you only touched a small trace, it will have a huge impact on you."

"In this situation, don't even mention fighting. It's already very good that you can stay alive. If you don't want to die, leave the battlefield immediately!"

Lin Yi could already feel the effects of the witch race's curse on him. He had lost the vision simulated by his divine sense, and the detection ability of his divine sense was at its weakest. He could only barely detect within a ten-meter radius.

And the situation detected was similar to a person with 1000-degree myopia without glasses. It was so blurry that it made one's mind explode!

Lin Yi didn't need the damn thing to remind him-he knew he had to run!

The thin black threads on the Sorcerer spirit body were still spreading. The longer it took, the deeper the effect on the Sorcerer spirit body. If this dragged on, he might really die Here!

If there was a problem with his Witcher spirit body, there was no point in keeping his body-his soul would be destroyed, and he'd be dead!

"Senior ghost, is there a way to get rid of this kind of wizard clan curse?"

Lin Yi asked the ghostly thing calmly as he tried to escape.

Although Lin Yi had the legacy of the witch race, he didn't have a solution to it. In the countless books he'd collected before, there wasn't a single book that mentioned this curse!

Since this thing knew about the witch race's curse, Lin Yi could only place his hopes on it!

"There's no solution for now. Escape first, and we'll discuss it!"

The "us" the thing was talking about was the old guys in the Jade space, not Lin Yi.

Lin Yi's top priority right now was to escape the dark Beast clan's encirclement.

Lin Yi smiled bitterly. He couldn't see his surroundings clearly, and it wasn't easy to escape!

Especially with the curse mark on him, Lin Yi could feel that even if he turned into his Yuan spirit form, he wouldn't be able to get rid of it.

At the same time, the location of his primordial spirit would be exposed due to the existence of the witch tribe's curse mark!

Not only that, but once he transformed into the primordial spirit state, the power of the wizard tribe's curse mark would be even stronger. The wizard spiritual body could still hold on for a while, but if he was in the primordial spirit state, he would probably be devoured quickly!

"I've tried my best ... Life and death are determined by fate, wealth and nobility are determined by the heavens, I have to fight for my life! Senior ghost, if we can't solve it for the time being, is there a way to temporarily suppress the spread of the curse mark?"

Lin Yi didn't have much hope-he was just asking. If he couldn't solve the problem or suppress it, the chances of him escaping were too low!

The ghost was silent for a moment, and when Lin Yi lost all hope, he said, ""There is indeed a way to temporarily suppress it, but the repercussions are extremely serious!"

Lin Yi was overjoyed-he couldn't care less about the side effects right now.

If he couldn't suppress the wizard tribe's curse, there wouldn't be a future at all. What was there to be afraid of?

"Senior ghost, please tell me! We don't have time to worry about it now!"

The ghastly thing hummed and said in a deep voice, ""Your sorcerer spiritual body is not contaminated with many sorcerer tribe's curse marks, which is a blessing in a misfortune! If not for that, you wouldn't be able to suppress it no matter how great the price you pay. You can only give it a try if your current situation is still optimistic. "

Lin Yi couldn't help but want to roll his eyes. How despairing would that be?

The ghost didn't let Lin Yi rush him and continued, "Burning the contaminated parts of your sorcerer spirit body can temporarily alleviate the effects you're suffering, but this is only a temporary solution."

"Now, most of your sorcerer spiritual body already has the Sorcerer tribe's curse mark hidden in it. Burning the most severe part will only alleviate the pain but not cure it. The next outbreak will be even stronger."

Lin Yi immediately understood what was going on!

Burning a portion of the contaminated sorcerer spirit body? It was equivalent to tearing apart one's primordial spirit. That kind of pain was not something ordinary people could imagine!

This was only a temporary relief. At any time, they would face an even more powerful counterattack from the wizard tribe's curse!

The side effects didn't just refer to the next counterattack of the curse seal, but more to the fact that Lin Yi's soul might not even be able to recover after being torn apart.

There was no doubt that the level of his primordial spirit was likely to drop because of this!

"I got it!"

Lin Yi knew how serious the consequences would be, but he had no other choice. Burning a part of the body was much better than destroying the whole body!

Lin Yi didn't need the ghost to teach him what to do next. The part of the body that came into contact with the black mist was the source of the pollution. Without a word, Lin Yi covered it with his Spirit Fire and tore it apart, burning it with it!

The intense pain acted on his soul, and even with Lin Yi's tough Witcher's body, he was almost tortured to death by the pain.

It was a long conversation with the ghostly thing, but it was just a thought from Lin Yi. The dark beasts that were chasing Lin Yi weren't even in position when they saw Lin Yi's body start burning!

Lin Yi was in too much pain-he activated a defensive formation in case he was attacked when he was weakened, buying him a second or two.

It was all thanks to this formation disk that Lin Yi was able to safely endure the pain of his essence spirit being torn apart.

Chapter 8854 The End

Just as the ghost had said, it had temporarily suppressed the spread of the wizard tribe's curse mark and also eliminated a part of its influence.

For example, the radius of his divine sense had expanded tenfold, from ten meters to a hundred meters. This was also a huge improvement! The clarity was also much better, at least he wasn't nearly blind anymore.

Lin Yi didn't know how long it would take for the curse to activate again.

His current state was already the highest level he could achieve. If he couldn't break out now, the chances of breaking out later would be even slimmer.

The defensive formation finished its mission and gave Lin Yi some time to catch his breath before it was broken. Lin Yi didn't mind it and activated another illusion formation.

It meant that he didn't expect it to be of much use. He only needed to buy one or two seconds!

The moment the formation was activated, the surrounding soldiers were all affected by the illusion. It didn't matter if it was for a second or half a second, but it gave Lin Yi the chance to attack!

Soul snatching hand! Possession!

This was the process, and Lin Yi played along with it. After getting a new body, he could let his spirit rest for a while, and the Voodoo race's curse would be isolated for a while.

"The human's primordial spirit has escaped! This way! Quickly stop him!"

Lin Yi's exaggerated voice caught the attention of the other Dark Beast soldiers.

They all knew that Lin Yi's essence spirit state could come and go without a trace, so they didn't suspect him and followed him!

Of course, there were some dark beasts that were still suspicious of Lin Yi's words and continued to search the area.

Lin Yi couldn't think too much about it and sneaked into the group, getting out of the car halfway and turning back in the right direction to meet up with Daniya.

Daniya was clearly a little anxious. They said they wouldn't make a move and would only go take a look, so why did they make such a big commotion?

She was certain that she wouldn't go help Lin Yi whenever something happened, so what should she do now? Are we really not going to provide support? What if they were just waiting to send reinforcements?

Daniya looked at the battle in the distance, thinking about how she could avoid Lin Yi's dislike and not conflict with her promise to not send help.

Previously, there were only six chaos demonic beetles at each node. He didn't expect that there would be more than a dozen times this time!

This would provide Lin Yi with more black crystals! What an unexpected gain!

Even if it wasn't for the black crystal, the chaos demonic beetles had to be eliminated. They were too great a threat to humanity, and keeping them alive would only leave behind hidden dangers for the Great War in the future.

The moment the formation was activated, the surrounding soldiers were all affected by the illusion. It didn't matter if it was for a second or half a second, but it gave Lin Yi the chance to attack!

Soul snatching hand! Possession!

This was the process, and Lin Yi played along with it. After getting a new body, he could let his spirit rest for a while, and the Voodoo race's curse would be isolated for a while.

"The human's primordial spirit has escaped! This way! Quickly stop him!"

Lin Yi's exaggerated voice caught the attention of the other Dark Beast soldiers.

They all knew that Lin Yi's essence spirit state could come and go without a trace, so they didn't suspect him and followed him!

Of course, there were some dark beasts that were still suspicious of Lin Yi's words and continued to search the area.

Lin Yi couldn't think too much about it and sneaked into the group, getting out of the car halfway and turning back in the right direction to meet up with Daniya.

Daniya was clearly a little anxious. They said they wouldn't make a move and would only go take a look, so why did they make such a big commotion?

She was certain that she wouldn't go help Lin Yi whenever something happened, so what should she do now? Are we really not going to provide support? What if they were just waiting to send reinforcements?

Daniya looked at the battle in the distance, thinking about how she could avoid Lin Yi's dislike and not conflict with her promise to not send help.

Daniya hadn't even thought about it yet and Lin Yi was discovered!

The darkness demon beast clan realized that they had gone in the wrong direction and immediately changed their course.

Countless attacks were fired in Lin Yi's direction.

Lin Yi's blurry vision appeared again, and he could only rely on the warning in the Jade space to avoid it. He was in a difficult position.

The body he'd taken over wasn't very compatible with him, and he'd lost his sight just like the shaman Spirit body. With the curse on his soul, Lin Yi's strength was greatly reduced-he couldn't even use half of it.

He used his defensive talismans to block a few attacks, but he couldn't block all of them. Lin Yi couldn't focus on one thing, and the dark beast's attack finally hit him!

The strength of this body wasn't outstanding-it was only on par with the dark Beast soldiers' attacks. Taking three to five hits wasn't a problem, but dozens of attacks in a row ... Lin Yi couldn't take it!

Before his limbs broke and his body fell apart, Lin Yi had to abandon this temporary body and turn back into his Yuan spirit to escape the danger.

"Don't let him escape! Over there!"

"Follow closely! We can't let him escape!"

The elite soldiers of the dark Demon beast clan shouted as they chased after Lin Yi, not letting up at all.

Chapter 8856

"Seven-colored soul devouring grass? I think I've heard of it before, it's an extremely rare plant, legend has it that it grows at the bottom of the poluo Sand River, almost no one has seen it before, why do you ask?"

Daniya was quite knowledgeable, and Lin Yi didn't expect much from her. He didn't think she'd be able to answer him without much thought. What a surprise!

Lin Yi didn't even know what the rainbow soul-devouring grass was. It was the ghastly thing that told him the name.

The conclusion of the elders meeting in the Jade space was that this rainbow soul-devouring grass might be able to remove the curse on Lin Yi's soul!

Lin Yi didn't care who the answer came from-it was his only hope, after all, so he'd just take it as the right answer!

It was just that the old guys in the Jade space didn't know where to find the rainbow soul devouring grass, and Lin Yi got the answer just by asking Dania!

"The forbidden area poluo Sand River? What was that place? Is it far from here?"

Lin Yi's eyes brightened-this really was the end of the road!

Daniya was slightly startled. Why was he so excited?

"Poluo Sand River, it's poluo Sand River after all, it's a forbidden area on our side. Under normal circumstances, no one would dare to get close to this place, anyone who dares to get close to the forbidden area is basically dead!"

Daniya looked at Lin Yi with a strange expression, "The seven-colored soul devouring grass is said to be at the bottom of poluo Sand River, but no one has seen it before ... You're not thinking of going to poluo Sand River, are you?"

"Sima Yi, I don't care what you want the seven-colored soul devouring grass for, but poluo Sand River is too dangerous. I don't want to see you throw your life away. Instead of getting close to poluo Sand River, you might as well attack a heavily guarded node. At least you'll have a higher chance of survival!"

"After all, the seven-colored soul devouring grass is said to be at the bottom of poluo Sand River. It's deadly to get close to it, let alone going into the bottom. What if the legend is just a legend and there's no seven-colored soul devouring grass?"

Lin Yi waved his hand, "Daniya, don't worry about anything else. Just tell me where poluo Sand River is. I won't let you take the risk. I'll go in by myself. The seven-colored soul devouring grass is extremely important to me because I thought of the witch race's inheritance. The only way to get rid of the curse is to find it!" Do you understand what I mean?"

His meaning was clear. Without the seven-colored soul devouring grass, he would die sooner or later if he was cursed by the Sorcerer tribe.

The search for the seven-colored soul devouring grass was extremely dangerous, and he might even die immediately.

Compared to endless torture, it was much more comfortable to die in endless pain.

If the rainbow soul-devouring grass was the only solution, then Lin Yi had to get it even if he had to risk his life!

Daniya was stunned. Was the seven-colored soul-devouring grass the only way to resolve the wizard tribe's curse? She had never heard of it before!

If she had known, she definitely wouldn't have mentioned poluo Sand River!

Now that Lin Yi had made up his mind to look for the rainbow soul devouring grass, Daniya had no reason to stop him. Lin Yi's reason was too strong, she couldn't refute it at all!

If she was in Lin Yi's position, she would risk her life to go to poluo Sand River too!

If you stick your head out, you'll be cut, if you don 't, you'll be cut into a thousand pieces, so I'll definitely kill you with one strike!

Daniya didn't want to go to poluo Sand River, so she started leaning towards taking Lin Yi down now to claim her reward.

But seeing Lin Yi's eyes light up, she pushed the thought down.

In fact, Lin Yi's eyes couldn't see anything. The spirit and whatever, it was all a kind of aura. Daniya felt that Lin Yi wasn't completely powerless at the moment. If they fought directly, both sides would be injured.

Lin Yi's endless methods made Daniya very wary, and she used this reason to convince herself not to attack Lin Yi for now.

"Alright, looks like you really do have a reason to go to the forbidden area poluo Sand River. I'll tell you the truth, poluo Sand River isn't far from our current location. With our speed, we'll be able to get there in about a day!"

Daniya decided to continue observing. Poluo Sand River was a forbidden area, but since there was a legend about it, someone must have entered and come out!

If not, how could there be a legend? None of them could come out, so who would know what was inside?

Sima Yi had many trump cards, so they would see if there would be a situation where he was forced to die. Daniya felt that she did not lose out. At most, Sima Yi would die in poluo Sand River. If she brought the news back, it would be a contribution.

If they didn't have any great merits, there wasn't much difference between capturing them and bringing the news back. Daniya didn't care that much!

"That's great! Daniya, it's great that you know this place! Let's not waste any time, we'll set off immediately. Please take me there!"

Lin Yi was very happy-a day's journey really wasn't that far. The dark Demon beast race's spatial node was vast and boundless, and if poluo Sand River was at the extreme end, it'd take a year and a half to get there-Lin Yi would probably die on the way ...

"Alright! Let's go!"

Daniya knew that Lin Yi wasn't in a good state, so she picked him up and sped away.

With her strength, this little increase in weight was nothing. It was not a big deal.

It was just that Lin Yi was a little embarrassed to be carried by a pretty girl. It was a little damaging to his image, but time was of the essence. The longer he delayed, the more damage his spirit would suffer. He couldn't care about his face now.

Traveling in the primordial spirit state could avoid embarrassment, but it would increase the consumption and also make the wizard tribe's curse mark more active.

Lin Yi had already realized that the curse marks were less active when the primordial spirit was in the body. Without the body, the curse marks were like a flood!

Daniya didn't think much of it. Along the way, she tried her best to find hidden routes to advance. If there were small tribes along the route, she would make a detour, not leaving any chance of exposing her whereabouts.

The dark Demon beasts didn't appear, and Lin Yi's aura-masking formation seemed to be working. The two arrived at the dark Demon beast's forbidden area, OBO falling sand River, faster than they expected!

Of course, the two of them were only at the outermost area of poluo Sand River!

"Sima Yi, did you see that? That's poluo Sand River!"

They were in a desert, and Daniya stood on a tall sand dune with Lin Yi on her back. A Golden River could be seen in the distance.

However, it was not water that flowed in the river, but quicksand!

The color was lighter than the surrounding desert, so one could still distinguish the difference from a distance. Of course, if it wasn't for the speed of the quicksand, the difference between the two was not that big!

Chapter 8857

"I can't see clearly ..."

Lin Yi was helpless. His body's vision was affected by his spirit, making him blind even if his eyes were fine. His Spirit's detection range was so small that he couldn't see poluo Sand River.

Daniya was speechless. Such a huge poluo Sand River, it wouldn't be too much to say it was dazzling, but you said you couldn't see it clearly? Could it be that he felt that it was too comfortable on this great aunt's back, so he didn't want to come down?

"The witch tribe's curse's greatest effect on me is my vision. It's fine within a hundred meters, but I can't see anything beyond that ... Daniya, tell me, how far is poluo Sand River from here?"

Lin Yi explained, embarrassed. After all, the situation was quite embarrassing.

The corner of Daniya's mouth twitched. She stood on the sand dune and looked at poluo Sand River. It didn't seem too far, but experienced people knew that the distance one could see and the actual distance one walked couldn't be compared.

..."About seven to eight thousand meters away! Forget it, let's get closer first!"

Daniya originally didn't plan to go near poluo Sand River. After all, the fierce name of the forbidden area was not a joke!

But Lin Yi couldn't see clearly, and if she left him behind at the outer circle, all her efforts would go to waste, and she wouldn't be able to leave a perfect impression!

She had to put on a full show, and since she'd chosen to win Lin Yi's trust, she didn't want to give up halfway. It shouldn't be too dangerous if they didn't enter poluo Sand River, right?

Daniya found an excuse in her heart and prepared herself before carrying Lin Yi down the sand dune and flying towards poluo Sand River!

"Daniya, you don't have to get too close, just point me in the right direction after you put me down. I can walk the rest of the way myself ..." Lin Yi said.

Before she could finish, Daniya screamed and fell in with Lin Yi!

Poluo Sand River was a River of Death formed by quicksand, the deserts on both sides were not safe places either, there were also countless quicksand traps!

Daniya knew about the forbidden area, poluo Sand River, but she didn't know the specific situation. She only thought that they would be safe if they didn't enter the river.

So Daniya felt that at least with her strength, she could protect herself on the outside.

However, this was not the case!

Rushing down from the sand dune, Daniya ran for no more than a thousand meters. She was still at least six to seven thousand meters away from poluo Sand River when she stepped into the quicksand!

Even Daniya couldn't resist the huge pulling force underground!

The forbidden land was the forbidden land. Anyone who underestimated the forbidden land would have to pay the price!

It was too late for Daniya to regret. She wanted to jump out of the quicksand, but the more she tried, the faster she sank. She had no way to resist!

Lin Yi's body followed Daniya into the quicksand. He knew that struggling was useless, so he immediately left his primordial spirit and didn't care about the witch race's curse.

After Lin Yi transformed into his Witcher spirit body, his body that had lost its spirit was pressing down on Daniya's body, causing her to sink even faster!

Daniya was already in despair. The quicksand covered her mouth, nose, and soon her entire head. The arm that was left above the quicksand waved weakly, but it was useless.

At this moment, Daniya was feeling a little regretful. Why did she bring Sima Yi into the forbidden area, po Luo Sand River? Wouldn't it be nice to directly give it to Senlan wuhun?

He really brought this upon himself!

She was doomed if she fell into the quicksand, but Sima Yi could transform into his primordial spirit form to escape the disaster of the quicksand. How infuriating!

He only wanted to wait outside poluo Sand River!

Just as Daniya was complaining to herself, the body on her back that had lost Lin Yi's spirit suddenly moved again. The quicksand around her body was pushed open a little, forming a small space.

"Sima Yi? Why did you come back?"

Daniya was shocked. She thought that Lin Yi must've escaped by himself. After all, he could've flown out of the quicksand zone in his spirit state.

After she was trapped in the quicksand, even a mid-stage heaven breaking cultivator couldn't break free. Lin Yi couldn't save her even if he wanted to.

She didn't like being abandoned, but she agreed that Lin Yi's escape was the right choice.

She would be the same if she were in his shoes. She knew that she couldn't save him, but she still wanted to sacrifice herself. Wasn't that stupid?

She didn't think that Sima Yi would be so stupid to actually return to her body!

He even used a defensive disk array to spread the quicksand, not allowing Daniya's body to be directly worn down by the strange quicksand!

"You came to the forbidden area poluo Sand River because of me, how can I let you face danger alone? Don't worry, we'll be fine!"

Lin Yi's warm voice sounded from behind her, and Daniya's heart ached for some reason, as well as a strange feeling of being touched.

Although the defensive formation could only temporarily block the erosion of the quicksand and couldn't prevent the two of them from being pulled into the unknown underground, Daniya suddenly didn't feel scared anymore!

It was as if Lin Yi's words were the truth, and they were really going to be fine!

"Daniya, do you have any useful information about poluo Sand River? Any clue will do. We need all the clues in our current situation!"

Lin Yi was calm, and this calmness infected Daniya.

They didn't need to travel anymore, so Lin Yi got down from Daniya's back naturally. She suddenly felt like something was missing, and she quickly searched her memories.

But the problem was that poluo Sand River was a forbidden area. Daniya had heard of it before, but she was never interested in knowing more about it, because she had never thought of coming to poluo Sand River!

"Hmm ... I don't think I have any other clues. I've told you everything I know, that's all!"

Daniya looked embarrassed, ""I'm sorry, Sima Yi. I can't help much and even dragged you into this! You should leave now! If it's you, you should be able to escape, right?"

The pulling force of the quicksand was surprisingly strong. However, if one was in the primordial spirit state, they would not be restricted by this pulling force!

Lin Yi shook his head, "it's too late. The pulling force of the quicksand isn't a threat to me, but we're already in poluo Sand River. When I came down, I realized that if I move around in spirit form, I'll lose more than a hundred times more energy. If I run now, I'll be dead before I can even get up!"

Poluo Sand River lived up to its name, its invisible damage to primordial spirits was stronger than physical pulling!

And Lin Yi still had the wizard tribe's curse mark on him. If the poluo Sand River consumed too much of it, the curse mark would take the chance to erupt and he would be dead!

It was a fact that he didn't want to abandon Daniya, but it was also because it was not suitable for him to move around in his Witcher spirit body or primordial spirit state.

Chapter 8858

"Even you can't escape? What should he do then? Where are we being dragged to?"

Daniya was slightly disappointed, and her attention turned back to the predicament she was in.

As the two of them spoke, the speed of their descent became faster and faster. If it wasn't for the protection of the defensive disk array, Daniya estimated that several layers of her body would have been worn off by the rapid flowing sand!

No matter where the end of the quicksand was, those without any defensive abilities would die if they were to fall into the quicksand. They would not be able to see the end!

"This is the outer area of poluo Sand River," Lin Yi said after some thought, "the place the quicksand is pulling us to might be the bottom of the river!" The quicksand underground will most likely merge into the river of falling sand!"

"In that case, it's not a bad thing. My original goal was to enter the bottom of poluo Sand River, and now I don't have to find my way."

"The only bad thing is that I got you involved. Daniya, I'm really sorry. I shouldn't have let you bring me near poluo sandriver. I could have come over on the sand dune!"

Lin Yi wasn't lying. Poluo Sand River was a forbidden area in the dark Demon beast clan, and the danger was self-evident.

So his original plan was to enter poluo Sand River alone and let Daniya wait in a safe place, just like how he did at every node.

if it wasn't for the limited vision, lin yi wouldn't let daniya go any further.

he had made the same mistake as daniya, thinking that they were still 10 kilometers away from poluo sand river and should be in a safe range. however, things didn't turn out as he had expected!

"sima yi, what are you saying! you're injured now, and it'll have a huge impact on your strength. how can i let you risk your life alone? no matter what you think of me, i'm definitely going to advance and retreat together with you this time! we're in the same boat!"

daniya wouldn't tell him that she planned to leave lin yi at the outer area and let him go to the poluo sand river alone.

but now that he was already involved, if he still said that, he must have lost his mind!

at this time, of course, he would say whatever righteous words he could!

Lin Yi was really touched. He felt that Daniya knew that the forbidden area was dangerous, but she still went to the bottom of poluo Sand River to help him find the seven-colored soul devouring grass. It was extremely valuable!

"Alright, since we can only advance and retreat together, let's join hands and charge into this forbidden area that makes you all tremble in fear! I believe that this place will not be able to stop us!"

Since he had no other choice, Lin Yi let go of his arms and felt more heroic.

Daniya thought that Lin Yi was bluffing, but subconsciously believed that he could really do it. She felt weird, not knowing what she was thinking.

As they spoke, the two of them suddenly broke away from the quicksand and instantly fell. The feeling of weightlessness caught them off guard!

The fall didn't last long. In just a second or two, the two of them crashed heavily to the ground.

He entered an independent space without quicksand.

Fortunately, the ground was relatively soft, and there was a defensive barrier formed by a defensive array disc as a buffer, so he was not injured when he fell.

Lin Yi removed the formation plate's defense, but the quicksand had worn it down as well. He couldn't use it again-he'd have to make a new one.

It was said that Lin Yi removed the barrier on his own accord, but in reality, it would've collapsed on its own if he hadn't removed it.

It was pitch black all around, but the world inside the node was dark all the time-Lin Yi was used to it by now. It was just a little darker here.

This level didn't affect Daniya's vision at all, but Lin Yi didn't have much vision to begin with, so it didn't matter if it was dark or not. He could see what his spirit sense could see, but if it couldn't, then forget it!

"Sima Yi, could this be the bottom of poluo Sand River? What a magical place!"

Daniya looked around and couldn't help but exclaim, ""Look up, the flowing golden sand should be the main body of poluo Sand River right? We're also stepping on sand, but it's not flowing sand. Could it be a defective product that was eliminated by poluo Sand River?"

This space was very strange. It was like the bottom of a River. However, it was not directly connected to the sand River.

Instead, it was an independent space that separated the riverbed from the sand River.

Lin Yi didn't know what to say-was there a big difference between quicksand and non-quicksand? He didn't have much research! I really can't talk!

Lin Yi couldn't see what was going on up there, either. The Golden sand from the ground to the top seemed to be beyond the range of Lin Yi's spirit sense, so it was normal that he couldn't see anything.

"Sima Yi, look, there's a tornado-like sand pillar in the distance, connecting the sky and the earth! Could it be that these sand pillars are the pillars that hold up the sky in this world?"

Lin Yi said helplessly. It wasn't that he didn't want to see, but he really couldn't!

He didn't want to remind Daniya about this, so he nodded."Hmm, that's possible. Let's get closer and see what we can find!"

"Alright, let's pick the one that's closer!"

As she spoke, Daniya pulled Lin Yi's arm and moved to the side.

Lin Yi didn't try to break free, letting her pull him as they ran on the sand.

After about seven to eight hundred meters, Lin Yi's spirit sense could finally see the sand tornado.

Just as she said, it was a sand pillar that looked like a tornado. The bottom was small, but the higher it went, the bigger it became, like a yellow sand vortex.

The main body of poluo Sand River should be at the top, but Lin Yi couldn't see it. From another perspective, it could indeed be seen as the pillar that held up the sky!

Lin Yi and Daniya were already very close to the sand pillar, but they didn't feel any force.

If this was really a tornado or a Whirlpool, it would definitely suck in people or objects that got close to it.

"How spectacular! What do you think, Sima Yi? As far as the eye can see, there are hundreds of these sand pillars, making me feel tiny. Who would have thought that this is only the bottom of poluo Sand River!"

Daniya was slightly excited, like a little girl on a spring outing. "Although there's yellow sand everywhere, it looks really magnificent. I actually like this place a little!"

Lin Yi was speechless-this was a forbidden area, a forbidden area! Do you really think we're here for an outing?

Since he liked this place, could it be that he wanted to settle down here?

Daniya, of course, didn't know what Lin Yi was thinking. She pulled on Lin Yi's arm and continued walking until they reached the sand pillar.

Chapter 8859

At this point, it could be clearly seen that the sand that formed the sand pillar was not motionless, but slowly flowing.

It was not flowing up and down, but in a horizontal circle. It was indeed very similar to a vortex, or rather, it was a yellow sand vortex. However, the two of them did not feel the yellow sand being pulled in.

"Sima Yi, could this sand pillar be the way to leave this place? If we want to leave, we can only rely on it to enter poluo Sand River and then escape?"

Daniya put away her playful thoughts and observed the sand pillar up close with a serious expression.

Although she did not feel any threat from the sand pillar, she did not dare to touch it.

After all, this was the depths of the forbidden land. She wasn't really a naive and naive person who would think that everything here was so beautiful.

Killing intent at every step was what a forbidden land should be like!

When she fell down just now, if it was not for the protection of Sima Yi's array board, Daniya estimated that she would have died already. So, no matter how careful she was with the sand pillar in front of her, she could not afford to be too careful!

Lin Yi had the same idea, but this body was only temporary-he didn't have to worry about it.

So Daniya didn't dare to touch it, and Lin Yi put his index finger into the pillar to test it out.

This was something he had to do. It was related to his future actions. If it was really the way out of this place, how could he play if he didn't dare to touch it?

Lin Yi had tried using his spirit sense to check, but he couldn't get into the sand pillar.

Daniya looked at Lin Yi's finger nervously. She didn't want to come to the river, but she was dragged into it. She just wanted to leave as soon as possible!

What spectacular and what I like, go to hell!

Lin Yi's fingers touched the sand pillar and bounced back as if he was electrocuted.

When he looked again, the finger that had touched the sand pillar was only left with a piece of white bone. The flesh and blood that had attached to it had completely disappeared.

If Lin Yi didn't pull it back quickly, this finger bone would've been completely worn out!

"So powerful! The friction of the sand pillar is too strong, even stronger than when we came down! If we had come down in this sand pillar, the defense formation plate would have exploded!"

Lin Yi let out a light breath and raised his hand to check the bones. "Also, it's not just effective on the physical body. When you come into contact with the sand pillar, your primordial spirit will also be affected. The exact degree of damage is still uncertain, as the contact time is too short."

"I've estimated that the damage to the primordial spirit shouldn't be any weaker than the damage to the physical body! It was terrifying! If this is really the exit, we have to be fully prepared. Otherwise, we'll just be courting death!"

Lin Yi sighed. Poluo Sand River was indeed a forbidden area. They had a 90% chance of survival when they came in, and if they wanted to leave, they'd at least have 9.5% chance of dying and 0.5% chance of survival. It was a little worse than a 90% chance of survival.

Daniya was silent. What did it mean to be fully prepared? Without this complete preparation, could it be that he would not go out for the rest of his life?

"Let's go somewhere else first, if this is really the bottom of poluo Sand River, then the seven colored soul devouring grass should be here! In this aspect, our luck is pretty good, at least it's much safer than coming in from poluo Sand River!"

Lin Yi casually took a healing pill, and the bones on his finger quickly grew new flesh.

His bones weren't broken, and it was just some flesh wounds. It wasn't a big deal, and the darkness demon beast race had a strong recovery ability, so he had almost recovered in the time it took to speak.

Daniya didn't object. She could only follow Lin Yi's opinion now. She didn't have any idea what to do here alone.

The two left the sand pillar and started wandering around aimlessly. After ten minutes, Lin Yi suddenly stopped.

"Sima Yi, what's wrong? Did you find something?"

Daniya instinctively assumed a vigilant and defensive posture, thinking that some danger was approaching.

After all, this was a forbidden area! How was it possible that he had not encountered any danger for ten to twenty minutes?

Lin Yi waved his hand, telling Daniya not to be nervous. "There are indeed some discoveries. Daniya, take a closer look at our surroundings. Is there a slight tilt?"

"tilt? it's definitely slanted. it's a sand dune, the difference in height will form a slope!"

daniya stared blankly for a moment. there was nothing strange about this, right? this was strange!

"it's not the sand dunes we're standing on,"lin yi shook his head,"it's the wider terrain. is it tilting?" tell me when you see it in detail!"

he had no choice-his field of vision was only a hundred meters or so, but the curse seemed to have entered an incubation period after he came here, and didn't come out to cause trouble.

if it wasn't for that, lin yi wouldn't even be able to maintain a hundred-meter radius if he burned some more of his essence spirit!

and so, the task of observing the wider area had to be left to daniya. it was already difficult for lin yi to detect a slight tilt in the area with his small vision.

"alright, i'll jump up and take a look!"

daniya finally understood what lin yi meant. as she spoke, she put strength into her legs and shot up like a rocket, reaching a few hundred meters in the air.

the cloud-like golden quicksand above her head was still very far away. daniya didn't think that she could jump into the quicksand above. even if she had the ability, she wouldn't do it because her intuition told her that it would be very dangerous.

it was even more dangerous than climbing up the sand pillar!

so this time, she held back. she only looked down from a few hundred meters in the air and began to free-fall.

as she neared the ground, daniya made a few movements to disperse the force and landed lightly on the original spot, like a piece of paper falling, without the slightest impact of falling from a height of several hundred meters.

"sima yi, you're right! the entire terrain is indeed slanted. looking down from the sky, it's like we're in a bowl, high in the surroundings and low in the middle!"

daniya was a little excited. she thought that lin yi was really something, to be able to notice something like this without her noticing it, "we are now at the edge of the bowl. as long as we follow the slope, we can reach the bottom of the bowl!"

if it wasn't for looking down from a high altitude, daniya wouldn't have noticed the problem. but now that they had a clear direction, even if there were sand dunes blocking their way, they wouldn't be unable to find their way.

the terrain was converging downward. it was obvious that as long as they reached the bottom of the bowl, they should be able to find something!

"sima yi, how did you find out about this? if i hadn't jumped into the air, i wouldn't have been able to see any signs of tilting!"

daniya was right. in this desert, the two of them were as small as a grain of sand, and it was impossible to see the angle at which they were inclined.

Chapter 8860

It was like a person on a planet couldn't see that it was a ball under their feet. Only when they left the planet and entered space could they see the whole picture.

"Nothing special. Although the sand under our feet doesn't show any signs of flowing, if you look closely, you can see that it has some flowing nature. It's like when the wind blows in one direction, the grass on the ground will fall with the wind."

Lin Yi explained.

It was also because Lin Yi's field of vision wasn't wide enough, and he could only observe in a small area, but he noticed more details.

"So that's how it is! You're really ..."

Daniya was just about to praise him when she suddenly looked up at the sky!

In the cloud-like golden quicksand, hundreds of Sand Balls were falling down toward the two of them.

to be exact, after daniya jumped up, the sand fell from the golden quicksand, but because the distance was further and it took more time, daniya didn't notice.

when he discovered it, the golden sand was already a hundred meters off the ground. after daniya raised her head, lin yi raised his head as well, because the sand had entered his field of vision!

"what's that?"

daniya exclaimed in a low voice and quickly assumed a fighting stance because the falling sand wasn't just pure sand. when it came close to the ground, it revealed its true appearance!

"a bunch of idiots!" lin yi said, his face expressionless.

he wasn't cursing, he was answering daniya's question. yingying was really a group of sand sculptures!

the golden sand balls spread their huge wings. they were huge eagles made entirely of golden quicksand, and they truly deserved the name of sand eagles!

"i understand! because i jumped into the sky and triggered some kind of restriction in the forbidden area, i attracted the attack of these sand sculptures?"

daniya's mind was also spinning quickly. as expected, it was unrealistic to jump into the golden quicksand in the sky. just by getting a little closer and still far away, she was already being chased by hundreds of sand sculptures. if she got any closer, would she still be able to survive?

"it should be right! we can't go in the air. this is also a reminder that if we want to leave this place, we can only leave through the sand pillar!"

lin yi said as he pulled out a bow and a few hundred arrows. he didn't know if they were his spoils of war or if he just bought them for storage. he didn't use them usually and forgot where they came from.

it just so happened that he needed a bow to fight an enemy in the air, so he took it out and used it. lin yi's archery skills were definitely not as good as ling hanxue 's, but he was definitely above the standard-strength and accuracy were no problem.

lin yi's arm almost turned into a circle of afterimages as he shot out arrows one after another, creating a curtain of arrows. even a gatling gun couldn't do much!

the sand eagles in the air were hit by the arrows one after another, and a powerful force exploded, bringing up a large amount of golden quicksand. some of the arrows hit the sand eagles 'heads directly, and even had the effect of exploding their heads.

however, in the next second, the exploded head immediately reassembled, and the body that was shot through also instantly recovered to its original state!

what an idiot!

the army of golden sand statues wasn't afraid of lin yi's arrows at all!

in the face of all physical damage, the army of idiots was immortal!

lin yi missed his arrows and didn't even stop them for a moment. seeing that the army of sand sculptures was already more than ten meters away, they all flashed their sharp quicksand claws and started to attack with the acceleration of their fall!

daniya shouted loudly and leaped towards the group of sand sculptures. she dodged in the air and stepped on the sand sculptures from time to time to borrow their strength, causing them to explode!

in terms of strength, daniya completely crushed the group of sand sculptures, but her attacks were still physical in nature. after the sand sculptures were blown up, they would immediately reform, not caring how strong she was.

The only thing it could do was to stop the group of sand sculptures from diving down, and attract them to circle around Daniya more than ten meters in the air.

Lin Yi took the chance to take out some formation flags and quickly set up a stealth movement formation.

The sand Eagle, who was immune to physical attacks, could not be killed at all, so there was no point in continuing to fight.

As for spiritual attacks, Lin Yi didn't dare to do it in his current state, in case he triggered the witch race's curse!

What's more, a divine sense attack might not be effective on the sand Eagle. It was made of quicksand, what kind of primordial spirit was it?

Since he couldn't kill them, he could only think of a way to avoid them!

"Daniya, stop fighting, come down!"

Lin Yi shouted, saving the last array flag for later. It was all thanks to Daniya that he was able to buy some time in the air. Otherwise, he wouldn't be able to set up a movement formation when he was surrounded by hundreds of sand dumbasses.

Daniya was very familiar with Lin Yi's combat ability and battle awareness, especially his ability to escape. So after hearing Lin Yi's greeting, she didn't say anything and blew up a bunch of sand sculptures, falling rapidly from the Golden sand!

The moment Daniya landed, Lin Yi threw out the last formation flag!

The concealment array was activated, and the two of them instantly disappeared.

The group of sand sculptures that had been blown up in the air reassembled and swooped down to the place where the two of them had disappeared with a shrill cry. It was as if hundreds of cannonballs had landed on the ground, blowing up the entire area!

If Lin Yi had set up a normal stealth formation, even with a defensive formation, it would be destroyed by the suicidal attacks of the group of idiots.

After all, a concealment array was no different from a smokescreen. It could not withstand a violent attack.

However, Lin Yi was using a moving formation this time, and the core of the formation was Lin Yi himself!

In other words, the formation would follow Lin Yi wherever he went.

The moment Daniya landed and the formation activated, Lin Yi had already flown out with Daniya.

The group of idiots "attacks were fast, but they were still a bit slow, almost brushing past Lin Yi!

Daniya was filled with lingering fear. Her strength was indeed far beyond the group of sand sculptures, and she could blow them up with just a raise of her hand.

However, the other party was basically immortal. If you want to destroy one movie, come on, I'll give you ten more movies!

As long as you're happy, you can do whatever you want!

Once the consumption was too great, it would be time for the group of sand sculptures to start their counterattack!

No matter how strong Daniya was, she couldn't withstand this kind of consumption. She couldn't escape even if she wanted to!

After all, the group of sand sculptures was flying in the sky, and it was their home ground. Daniya could be said to have nowhere to run!

Only Lin Yi's movement formation could make him disappear from under the noses of these idiots!

Losing their target, the sand sculptures created a huge sandstorm, but it was no threat to Lin Yi and Daniya.

The two of them had left the area in a short amount of time, and it didn't matter how strong the sandstorm was. It even wiped away the traces that Lin Yi and Daniya had left behind!
