

Bodyguard 8861

Chapter 8861

"sima yi, it's a good thing we have you! otherwise, i definitely wouldn't be able to escape! those sand sculptures are so annoying, i can't kill them and i can't shake them off!"

daniya, who had escaped, was still a little scared. she patted her chest and whispered, ""i thought that since there was no danger here, it was really a safe area. now it seems that it's too early to be happy. i wonder if there are any more similar things!"

"i can't say for sure, but it's most likely there. we can't be careless and have to be careful!"

"it's a good thing we have a direction now," lin yi said seriously, " we just need to keep our direction and go in stealth!" i'm guessing that there's something at the bottom, maybe it's the seven-colored soul devouring grass!"

lin yi wouldn't have had much confidence if it weren't for the sand sculptures, but daniya's jump in the air had drawn them out. it proved that this peaceful underground space wasn't as simple as it seemed.

danger was everywhere, and every step was filled with trepidation. there would definitely be corresponding opportunities hidden!

crisis, crisis, it meant that danger and opportunity coexisted.

"if only the rainbow soul devouring grass was here. if i can't find it, i'll have to go to poluo sand river ..."

daniya mumbled softly. she was already sick of this damned forbidden area. she had just said that she liked the spectacular view, but now she wanted to eat it back!

this place was already so troublesome, if he really went into poluo sand river, who knew what he would encounter!

"Didn't you say that the seven-colored soul devouring grass is at the bottom of po Luo Sand River? this is the real po Luo Sand River! Therefore, the possibility of this is quite high!"

It was just a guess, but Lin Yi wasn't too sure.

But in front of Daniya, he still had to show his confidence, "Besides, my luck has always been good. There's no reason for this to be an exception. Perhaps we'll be able to find the seven-colored soul devouring grass soon and leave this place."

"mm! sima yi, i believe you! you can definitely do this!"

daniya nodded hard, as if she trusted lin yi, but she didn't really think so.

the seven-colored soul devouring grass was a legendary item. it was hard to say if it really existed!

even if there was, it wouldn't be easy to obtain it. after all, this was poluo sand river, a forbidden area of the darkness demon beast clan!

those who entered poluo sand river had never left, so daniya didn't have much confidence in leaving this place!

she had no choice but to trust lin yi ...

the two of them chatted along the way, and with the help of the mobile concealment spell formation, they approached their target without any danger.

its speed was not slow either, at least two to three hundred kilometers per hour.

after walking for ten hours, they finally arrived at the bottom of the bowl that daniya had mentioned!

"there's ... a building here! could it be that there's a race living here?"

daniya was shocked. although they had not arrived yet, they could already see the general situation from the terrain advantage.

of course, this was only daniya. lin yi was still half blind, and he couldn't see that far.

"What kind of building is it?"

Lin Yi asked casually without stopping.

"They're all made of sand, and the style is different from our tribe 's. It doesn't seem to be your human construction model, so I can't tell what it is exactly. You should go and see it for yourself!"

Daniya didn't seem to know how to describe it. Fortunately, even though the distance was far, the two of them were extremely fast, flying from high to low, and they were close in the blink of an eye.

At this moment, Lin Yi's spirit sense could finally see the building that Daniya was talking about!

Indeed, it wasn't easy to describe the style of these sand buildings. It wasn't the kind that humans used, and it wasn't the style that was commonly seen in the darkness demon beast clan.

If one had to point out something, there were some alien architectural styles in the comics, such as the people of Planet Namek!

They weren't exactly the same, but they were somewhat similar.

Lin Yi didn't think too much about the style-what was the secret hidden in these buildings?

Was there a life inside?

If there were life forms living in it, what race were they?

Human? The darkness demon beast clan? Or unknown alien creature?

"Let's go in and take a look. Be careful!"

"this place looks a little weird," lin yi said softly, "it's definitely not that safe. we have to be careful. "

"i understand! don't worry!"

daniya responded in a low voice as well. the two of them slowed down and slowly stepped into the strange yellow sand buildings.

because of the cover of the concealment array, they were not afraid of being discovered. although the two of them said that they had to be careful, they were actually very bold when they acted.

on the way here, lin yi added more formation flags to the movement formations.

other than hiding, the formations now could also attack, defend, and many other functions. it could be regarded as lin yi's innate domain, and it was a rather powerful one.

This was also the reason why Lin Yi and Daniya were so confident. With such a powerful movement formation protecting them, it was enough to deal with most dangers!

After stepping into the buildings, Lin Yi and Daniya realized that they couldn't get in at all!

There seemed to be a door outside, but it was only for show. The main body was made of yellow sand, which was connected to the main body of the building.

If one wanted to enter, the only way was to break through the door or break through the wall. There was no difference between the two, and they could be regarded as the same behavior.

They'd just told them to be careful, and Lin Yi and Daniya, of course, wouldn't do the work of a violent demolition team. They could only go around the buildings and continue deeper.

The entire building complex was extremely quiet. Up until now, there were no signs of life.

But because there was yellow sand everywhere, there were no footprints, so he couldn't tell how long it had been since someone had been here.

"Sima Yi, there seems to be a yellow sand altar in the center. It should be the core of this place. Let's go and take a look. Perhaps we can get the answer we want!"

Daniya's eyes were sharp, and she took on the role of guide, while Lin Yi controlled the movement formation to ensure the safety of the two.

Since there was a construction area here, it was not strange for an altar to appear!

Lin Yi nodded in agreement and followed Daniya through a sand-covered building to the center.

"Daniya, what's that? Have you seen it before?"

As they got closer, Lin Yi pointed at a sand-made statue of a plant.

Although it was called an altar, it was more like a flower bed. However, the sand below it was piled up higher than the other buildings, making it seem more important.

"I've never seen it before. It looks like a statue of some kind of plant ... Or is it a type of plant that is made up of yellow sand? Just like those sand sculptures. "

Daniya shook her head. She was very disappointed.

Chapter 8862

She'd been hoping that Lin Yi would find the rainbow soul-devouring grass here, and then she'd be able to leave this place!

In the end, after a whole day of traveling, he only found this useless thing ... Nothing!

Just thinking about it made him so angry!

He couldn't find the seven-colored soul devouring grass here, so he could only go to the main body of poluo Sand River.

But Daniya felt that going to poluo Sand River was basically the same as announcing her death, and she didn't want to die yet ...

"En," Lin Yi replied, not saying anything else. The sand plant statue had gotten most of his attention.

No matter what, Lin Yi still felt that something like this appearing in this place was unusual.

The plant statue was about three meters tall, and its main body looked like grass, but it was so tall that it could be called a tree.

Lin Yi was looking for the rainbow soul-devouring grass, and instinctively thought that this statue might be the rainbow soul-devouring grass.

If it really was a seven-colored soul devouring grass statue, could the real seven-colored soul devouring grass be in this area?

For example, in those sealed buildings made of yellow sand?

He didn't want any accidents to happen, so he didn't touch any of the sand-covered buildings. Perhaps he should go back and do the violent demolition team's work?

Daniya didn't know what Lin Yi was thinking about, but she was a little depressed. She couldn't help but kick at the sand base under the altar.

This was also an unconscious act of venting. There was no special meaning to it. He did not expect that the yellow sand at the base would crack directly when he stepped on it!

The yellow sand slid down, revealing the bones that had been buried for a long time!

That's right!

There wasn't just sand in the sand, there were also all kinds of bone skeletons. From the size and shape, some of them were human skeletons, but most of them were from the darkness demon beasts. They looked many times bigger than human skeletons!

Daniya was dumbstruck as she looked at everything that had happened. She never thought that her casual kick would cause such a huge commotion!

The collapse of the base had already formed a chain reaction, and the entire lower part of the altar was collapsing. As more yellow sand flowed down, more white bones were revealed!

Legend had it that no living being could leave poluo Sand River, but it seemed like those who couldn't leave had all gathered here, becoming part of the base of the altar!

Soon, the altar also began to fall apart. The leaves of the plant statue on top also had cracks, and soon fell apart with the altar!

The inside of the broken plant statue was actually flashing with a colorful light!

"seven-colored soul devouring grass! that was definitely the seven-colored soul devouring grass! it was only wrapped in yellow sand, and it looked like a yellow sand statue! sima yi! it was the seven-colored soul devouring grass! we've found it!"

daniya came back to her senses, her eyes filled with that gorgeous seven-colored radiance!

if he found the seven-colored soul devouring grass, he wouldn't have to risk his life in poluo sand river!

wouldn't it be great if everyone worked together and left this damn place as soon as possible!

lin yi didn't dare to waste any time and quickly flew up to the statue, trying to control the thing inside the statue.

he didn't expect the skeletons and bones below to get up as soon as lin yi flew up!

on the ground, the flowing yellow sand was rapidly covering these bone armors, turning into their new flesh, armor, and weapons!

not only did the bones in the altar turn into sand warriors, but the buildings without doors also collapsed and countless giant sand scorpions crawled out.

lin yi's butterfly steps allowed him to nimbly charge through the gaps between the sand warriors, but he realized that there wasn't any gap left!

layers and layers of sand warriors formed an impenetrable defense. no matter how lin yi dodged, he couldn't move forward. instead, he was forced back!

daniya was the same-she really wanted to help lin yi get the rainbow soul-devouring grass.

however, even though he had the strength to break through the heavens, he was still unable to break through the obstruction of these inanimate objects.

Lin Yi activated the movement formation to its maximum, but it didn't pose much of a threat to these sand monsters. Even if they were crushed into pieces, they could instantly reform and recover!

The only use it had was a defensive ability. It helped Lin Yi and Daniya block a lot of attacks, so they didn't lose focus in the sea of attacks.

"Sima Yi, let's retreat first! There are too many enemies, we can't stop them!"

Daniya felt pressured and couldn't help but want to retreat. She wanted to wait for the yellow sand monsters to calm down and everything to return to normal before secretly taking the seven-colored soul devouring grass.

If he had attacked the sand plant statue on the altar first, he might have had a chance to succeed.

"no! it was too late to retreat now! the enemy behind us might not be easier to deal with than the one in front of us! the difficulty of breaking out of the encirclement might be even higher than taking down the seven-colored soul devouring grass!"

lin yi rejected daniya's suggestion without hesitation. in the current situation, there was no retreat!

the yellow sand monster with bones as its core was stronger, but there were more giant sand scorpions crawling out of the buildings. they surrounded them from all directions, and it was not easy to break through.

daniya looked around and knew that lin yi was right. she gave up on trying to break out.

"sima yi, these yellow sand monsters are undying. if we continue to fight them, we will all die from exhaustion! we can only rely on an explosion to open the passage!"

daniya's face hardened as she looked at lin yi seriously, "next, i will use my strongest attack to open up a passage for you to go up. i can only launch this attack once at the moment. after that, i will fall into a period of weakness. success or failure will depend on this one move. you must be prepared and seize the opportunity!"

lin yi blinked, but before he could say anything, daniya was already ready.

daniya's entire body was emitting a black light, similar to the demonic devour sword's black light. the only difference was that her black light was tens of times stronger than lin yi 's.

although daniya's target was the yellow sand monsters above, lin yi could clearly feel a strong sense of danger. it was clear that even the aftershock of daniya's attack would pose a threat to lin yi!

strong!

daniya's [storing power] only lasted for a second, and then with a clear and sharp whistle, the black light was like a huge cannon blast, directly plowed a three-meter diameter passage in the enemy group in front of her. there was nothing in the passage, even the yellow sand seemed to have melted.

"sima yi! go!"

after daniya's attack ended, she shouted with all her might, even to the point that her voice cracked!

Chapter 8863

after shouting, she directly sat on the ground. she was really so exhausted that she couldn't stand.

she was really going all out this time. if no one came to her rescue, this move would be equivalent to suicide!

the surrounding yellow sand monsters were undying and unkillable. they continued to rush over and were like lambs waiting to be slaughtered after losing their strength!

however, daniya's ultimate was really strong. not only did she clear a path in front of her, but the surrounding yellow sand monsters were also affected. they were hit by the aftershock and were unable to follow up with an attack.

lin yi didn't dare to waste any time. this was an opportunity that daniya had risked her life for. in order to speed up, he gave up on the dark beast body and flew up in his essence spirit state.

as soon as it left his body, the curse mark of the sorcerer tribe began to become active. the negative effects of the surrounding yellow sand on his primordial spirit also began to show.

the sand in po lu sand river was not friendly to the corporeal body, and it was extremely effective against primordial spirits!

lin yi could feel that his yuan shen had entered a super consumption state. if this continued for more than five seconds, the witch race's curse mark would be fully activated, and at that time, he would have to cut off a part of his yuan shen and burn it!

once the primordial spirit was cut, it was inevitable that there would be a short period of weakness. it was hard to say if it could still withstand the double attack of the yellow sand and the wizard tribe's curse!

His only chance was within these five seconds!

Lin Yi flew over in his spirit form and instantly passed through the tunnel Daniya had created, appearing beside the sand plant statue.

The entire process took less than one-third of a second. It seemed that there was still enough time!

The yellow sand plant statue was also affected by Daniya's attack, and was about 70 - 80% shattered.

At the bottom, Lin Yi could clearly see a colorful grass. Its shape was the same as the statue, but it was only one-twentieth the size.

Exquisite, small, and beautiful!

Lin Yi's consciousness went into a daze when he saw the colorful grass!

Even hundreds of chaos demonic beetles couldn't cause Lin Yi to show such a fatal weakness, but this rainbow grass didn't do anything. Just one look was enough to make Lin Yi lose his mind!

Terrifying!

without a doubt, this was the seven-colored soul devouring grass!

two seconds had passed by the time lin yi came back to his senses. it was enough for him to go back and forth three times in the tunnel daniya opened!

fortunately, daniya's big move was terrifying enough. in two seconds, the yellow sand monster didn't appear!

the surrounding yellow sand monsters that weren't shattered tried their best to rush over, but the residual power of daniya's attack made it difficult for them to approach!

that was close!

lin yi was terrified-if he'd been in a daze for a bit longer, the sand monsters would've been in trouble, and the witch race's curse mark would've been.

"seven-colored soul devouring grass, come over here!"

lin yi transformed into his witcher spirit body and grabbed the colorful grass, pulling it out with all his might.

Lin Yi thought it would be a lot of effort, but it was actually fine. He even used too much force and almost fell to the ground.

"Senior ghost, now that we have the seven-colored soul devouring grass, how should we use it?"

Lin Yi only remembered after getting the rainbow soul-devouring grass that the old geezers in the Jade space only said that the grass could cure the witch's curse, but they didn't say how to use it!

What a bunch of traps!

Can't you be more reliable?

"You don't need to worry, the seven-colored soul devouring grass will do it by itself!"

The damn thing immediately replied, but the answer didn't sound too reliable ...

Lin Yi was suspicious, but the ghost explained, "When the rainbow soul-devouring grass meets a primordial spirit or a sorcerer spiritual body, it will activate its devouring ability at the first moment."

"So, under normal circumstances, if you touch the rainbow soul devouring grass in your primordial spirit state or in your Shaman Spirit body state, it's equivalent to you giving yourself up. However, you're not in a normal situation right now. Because of the existence of the wizard tribe's curse, the rainbow soul devouring grass's primary goal is to get rid of the wizard tribe's curse!"

"Just like when you and the girl you like want to do something indescribable, you will first get rid of those annoying obstacles. In the eyes of the seven-colored soul devouring grass, the witch tribe's curse mark is those annoying obstacles!"

lin yi didn't know what to say-the metaphor was pretty accurate, but could you be more serious, senior ghost? can't you be more serious at a time like this? what the hell is this? i don't understand a single thing!

it didn't matter if lin yi really didn't understand it or not-the thing had explained everything, and the two communicated quickly through their spiritual sense. it didn't take too much time.

the spiritual connection was completed the moment lin yi grabbed the rainbow soul-devouring grass. lin yi saw the small, exquisite, and cute rainbow grass. all the leaves were intertwined together, forming a black, open mouth!

the whole plant was in lin yi's hand, but the huge mouth formed by the leaves was enough to swallow lin yi's witcher spirit body!

to be honest, lin yi was quite shocked to see this scene-it was freaking exciting!

it was a good thing that the thing said that the plant's first target was the witch race's curse mark. otherwise, lin yi might have just thrown the plant away.

"sima yi!"

daniya didn't know any of this, but she was scared out of her wits when she saw the rainbow soul-devouring grass open its bloody mouth. she started screaming!

it wasn't because daniya cared about lin yi's life or death, but because she was still in her weakened state. if lin yi died, she would die with him!

she didn't want to die with lin yi!

no, they could live together, but they didn't want to die together!

unfortunately, there was nothing she could do. she could only watch as the huge mouth formed by the seven-colored soul-devouring grass bit at lin yi. she had even prepared herself for lin yi's death in despair.

he didn't expect that when the mouth of the seven-colored soul-devouring grass came down, dark-gray patterns would appear all over lin yi's body, densely covering the entire surface of the sorcerer spirit body.

the curse of the wizard clan!

Under the stimulation of the seven-colored soul-devouring grass, the wizard tribe's curse mark was fully manifested. They had no consciousness and were not living beings, but they could still feel the pressure brought by the seven-colored soul-devouring grass!

The witch race's curse Mark's mission was to kill Lin Yi. If they were conscious and knew that the rainbow soul devouring grass's ultimate goal was to devour Lin Yi's Shaman Spirit body, they might avoid it. It didn't matter who killed Lin Yi, as long as he was dead!

However, the witch race's curse mark didn't have this kind of intelligence. The rainbow soul-devouring grass's pressure first acted on their heads, making the witch race's curse mark think that the rainbow soul-devouring grass was Lin Yi's ally to deal with them!

Chapter 8864 The End

No matter what, the witch race's curse marks couldn't allow any interference to affect their mission, so they needed to get rid of this interference before dealing with their target, Lin Yi!

The seven-colored soul-devouring grass wanted to devour Lin Yi, but it realized that the witch race's curse was in the way. The two of them had the same idea-they had to get rid of the obstacle first!

Both sides were after Lin Yi, but they'd tossed him aside and started fighting first. It was like two people looking for treasure, and after finding it, they'd fight to the death to decide who the treasure would go to.

The treasure boy finally understood what the rainbow soul devouring grass meant. The old guys were simply talking nonsense!

They had played a dirty trick and made the seven-colored soul-devouring grass and the wizard tribe's curse bite each other!

The truth was that the seven-colored soul-devouring grass could not cure the Voodoo race's curse, but it could consume the curse's energy. The final winner would be decided by who was stronger!

In the end, the rainbow soul-devouring grass could be considered to have cured the witch's curse, but it wasn't the kind of treatment that Lin Yi thought it was. No wonder these old men didn't mention how to use the herb at the start-it really didn't need to be mentioned. It was fully automatic after finding it ...

After understanding this, Lin Yi was at ease to be a fisherman, waiting for the result of the fight between the Sandpiper and clam. The Voodoo race's curse mark didn't leave Lin Yi's sorcerer spirit body, so he was at the center of the battlefield. He couldn't leave even if he wanted to.

he took a look at daniya-she was in a weakened state, and if the sand monster attacked her, she probably wouldn't be able to hold on. if it was really dangerous, he'd have to risk his life and move towards the battlefield with the rainbow soul-devouring grass and the witch race's curse.

surprisingly, the yellow sand monsters around him did not move. they all stayed where they were obediently, as if they had all turned into sand sculptures.

this sand sculpture was referring to a yellow sand sculpture, not a large yellow sand sculpture ...

for now, daniya didn't seem to be in any danger. after she recovered and recovered from her weakened state, she could protect herself. lin yi didn't need to worry about her anymore.

as for why the sand monsters turned into statues, it was probably because lin yi caught the rainbow soul-devouring grass.

without a doubt, the seven-colored soul devouring grass was the core of this area!

did controlling the rainbow soul devouring grass mean that the yellow sand monsters had lost their backbone?

or was it because the seven-colored soul devouring grass wanted to eat in peace and didn't want to be disturbed?

whatever the reason, it was a good thing for lin yi now!

the longer he delayed, the better! at the very least, daniya's strength would recover even more.

however, the battle between the seven-colored soul-devouring grass and the wizard tribe's curse mark did not last long. in just over ten seconds, the victor was already decided.

the seven-colored soul devouring grass had won without any suspense!

the wizard tribe's curse mark was also very powerful, but it was nothing compared to the seven-colored soul devouring grass. after a short stalemate, the wizard tribe's curse mark was completely defeated by the seven-colored soul devouring grass!

the dark grey witcher tribe's curse mark was pulled in by the huge mouth formed by the seven-colored soul-devouring grass, and lin yi felt as if his witcher spirit body had taken off a heavy layer of armor, instantly becoming extremely relaxed!

however, in order to suppress the curse of the sorcerer tribe, he had cut his primordial spirit many times and burned it, which had caused his sorcerer spiritual body to suffer considerable damage. his strength had also fallen to the peak of the middle stage of the shattered sea realm. it was a heavy loss.

he'd been half a step into the heaven-breaking level, but he'd lost three small levels in a row. lin yi's heart ached just thinking about it, but luckily he'd finally gotten rid of the witch race's curse. he could always get back what he'd lost.

"don't just stand there, devour the seven-colored soul devouring grass! it's at its weakest now, and the seven-colored soul devouring grass was not completely unscathed when it was dealing with the wizard tribe's curse. "

the damn thing didn't give lin yi much time to think as it rushed out, "the seven-colored soul devouring grass is currently focused on devouring the wizard tribe's curse mark and has no time to care about you. once it's done devouring, you won't be able to escape the fate of being killed as a wizard spirit body."

"this is the only chance. i have to devour the seven-colored soul devouring grass and make up for my previous losses. i can even take this opportunity to improve. hurry up!"

lin yi heard the words and used his essence spirit devouring skill without hesitation. other people might harm him, but this thing definitely wouldn't!

it was an instinct for lin yi to trust ghostly things!

The primordial spirit devouring skill was originally an attack on the primordial spirit. Although the seven-colored soul devouring grass was not a primordial spirit, it was still suitable for this skill.

The seven-colored soul devouring grass, which was happily enjoying its spoils of war, did not expect to be swallowed by someone else at all. It immediately began to struggle and resist.

Lin Yi's Witcher's spirit body suddenly expanded like a ball of skin. If it was his physical body, it might have exploded, but The Witcher's spirit body had an advantage in this aspect-it didn't matter if it expanded a little.

After the rainbow soul-devouring grass was swallowed into Lin Yi's Witcher form, the sand monsters started to move restlessly. They stood up from the sand, but they were still at a loss, not knowing what to do.

Lin Yi was a little worried. Daniya was still under the effects of the weakened state. If the sand monsters attacked, she would probably die!

"Don't be distracted. Focus on suppressing the seven-colored soul devouring grass's counterattack. Only then will you have a chance to live!"

The ghost reminded Lin Yi sternly-this was a critical moment, and if Lin Yi didn't give it his all, he might get devoured by the rainbow soul devouring grass!

In fact, the seven-colored soul-devouring grass was quite helpless at this moment. It had not digested the wizard clan's curse mark that it had just swallowed. It had used up most of its energy and could not turn the wizard clan's curse mark into nourishment.

It was the most embarrassing moment, and the rainbow soul-devouring grass was being devoured by Lin Yi. It wanted to fight back with all its might, but it couldn't get away from the Voodoo race's curse.

If it wasn't for that, Lin Yi might have been devoured by the rainbow soul devouring grass instead. It was so dangerous that even the thought of it made him shiver.

If it wasn't for the fact that they didn't have a choice, the damn thing wouldn't have suggested Lin Yi to do something so dangerous. This was a life-or-death situation, and if they didn't, their souls would be destroyed by the curse sooner or later.

"I know. Senior ghost, don't worry! The seven-colored soul devouring grass isn't a big deal, I can definitely take care of it!"

Lin Yi felt like his Witcher spirit body was about to explode from the colorful soul-devouring grass, but his mouth still insisted that it was fine!

The two sides were in a stalemate. Lin Yi's side had a slight advantage, but if the rainbow soul-devouring grass started to digest the witch race's curse mark and get energy from it, the balance would be completely reversed.

So no matter how painful it was, Lin Yi had to hold on and completely digest the seven-colored soul-devouring grass before it digested the Voodoo race's curse!

Chapter 8865

"use all the black crystals you've obtained before. they'll be your greatest supplement!" he said.

the ghastly thing reminded lin yi that the black crystals he got from the chaos demonic beetles were meant for when he broke through to the heaven breaking stage, but he needed too many of them and didn't have them yet.

now was the critical moment of life and death, how could he care about the future? he had to take it out to save his life first!

lin yi didn't say anything and took out all the black crystals from the space in the jade. he followed the directions of the damn thing and merged them into his witcher spirit body.

now was the time for the essence spirit devour skill to continue, and after the black crystal entered, lin yi's essence spirit's strength instantly skyrocketed!

the expanding sorcerer spiritual body suddenly contracted. the direct effect of the increase in primordial spirit strength was that the seven-colored soul devouring grass was instantly suppressed. the original balance was broken!

lin yi was a lot more relaxed now, but it wasn't the time to relax yet. he used this new energy to continue grinding down the rainbow soul devouring grass, trying to devour it as soon as possible!

the rainbow soul-devouring grass's resistance was getting more and more intense. in a situation where it was in a weaker position, the rainbow soul-devouring grass instinctively wanted to gather all its strength to resist lin yi's devouring.

as a result, the witch tribe's curse mark, which had completely turned into energy, was spat out by the seven-colored soul devouring grass!

it couldn't digest all the energy lin yi was devouring, and it would only take up its energy if it stayed. at this critical moment, it made the wisest decision.

at this moment, the wizard tribe's curse mark no longer posed any threat. it was like a feast.

to put it simply, the seven-colored soul devouring grass had put in so much effort to prepare this feast, but in the end, they had no time to enjoy it.

lin yi was hungry, and naturally, he wouldn't reject this feast!

the primordial spirit devouring skill digested the processed wizard tribe's curse mark energy without any trouble. it was even smoother than absorbing the black crystals.

the tables had really turned!

the voodoo race's curse almost devoured lin yi's spirit, but now it was the opposite. the curse turned into pure spirit energy and lin yi ate it in one bite.

the huge amount of pure yuan shen energy increased lin yi's spirit level by a huge amount. the boost from the witch race's curse was almost the same as what lin yi lost before. it was all decided!

the seven-colored soul-devouring grass had given up on the energy from the witch race's curse. it could finally go all out against lin yi's devouring.

however, it didn't expect that giving up the witch race's curse would make lin yi's strength increase so much. it was in a bad situation!

it wasn't easy to mobilize all their forces, but in the end, they found that they were still completely suppressed by the other party. this wasn't fun!

with the help of the black crystal and the voodoo race's curse, lin yi's yuan spirit's level returned to its peak state, and it even seemed to be going further!

half-step heaven splitter!

he was about to break through to the next level!

after devouring the seven-colored soul devouring grass, he would be able to take this crucial step. his primordial spirit would be reborn and enter a whole new world.

if the devouring failed and the rainbow soul devouring grass turned the tables, lin yi's essence spirit would probably be finished!

in this fight, both sides had no way out. only one of them could survive!

This was a life-or-death battle, and there was no room for mistakes. Even if Lin Yi had the advantage, he didn't dare to be careless. He used all his strength to deal with the seven-colored soul-devouring grass.

The rainbow soul-devouring grass's resistance finally loosened up. Under Lin Yi's powerful devouring power, its energy started to leak out bit by bit, and was absorbed by the soul-devouring skill and turned into Lin Yi's soul energy, slowly increasing Lin Yi's soul level.

Under this situation, the gap between the two sides grew bigger and bigger. That tiny hole also began to become a breach in the dam, and it was out of control!

Lin Yi's Witcher spirit body had finally returned to its normal state, and the entire body emitted a seven-colored light that lit up the entire area.

Within the range of the seven-colored light, all the yellow sand monsters knelt on the ground, expressing their submission!

There seemed to be an invisible force around Lin Yi's body supporting the shaman Constitution, slowly floating in the air. A seven-colored light pillar shot into the sky, directly entering poluo Sand River.

The originally stable poluo Sand River began to churn violently under the impact of the seven-colored light pillar. In an instant, it was as if the sky was going to fall!

Lin Yi's essence spirit felt infinitely enlarged, as if it had covered the entire heaven and earth, becoming an existence that the entire heaven and earth couldn't contain.

The sky shattered, and his vision instantly expanded. In the dark and boundless space, spots of Starlight appeared. Before he could see clearly, his primordial spirit suddenly shrank back and returned to its original state!

The rainbow light had completely disappeared, merging into Lin Yi's Witcher spirit body. Lin Yi slowly opened his eyes.

There was a faint seven-colored glow in his pupils, forming two clouds of Nebula-shaped mist that quickly disappeared.

Because the vision that the wizard tribe's curse had lost had been completely restored, even better than before.

The primordial spirit that he had lost had also been replenished. After devouring the seven-colored soul devouring grass, he had naturally advanced to the heaven breaking stage!

The feeling of power filled Lin Yi's heart, as if he was in control of heaven and earth!

His body was already in the heaven breaking stage, and he didn't think that there would be much of a difference when his essence spirit leveled up, but when he really did it, he realized that the two were completely different!

Lin Yi almost couldn't help but take out his body from the Jade space to test how strong his spirit would be after returning to its original position.

But Daniya was still looking at him in shock, and Lin Yi didn't have the time to show off.

The sand monsters had all disappeared, and Lin Yi didn't notice-they'd probably gone underground.

it was the same for the human and dark demon beast skeletons. it was probably because lin yi had devoured the rainbow soul-devouring grass that the sand monsters lost control.

lin yi didn't feel like he had the ability to control the sand monsters, so it was better for them to just disappear than to attack him!

"daniya, are you alright? are you hurt?"

lin yi flew to daniya's side.

she was still staring at lin yi, her mouth wide open and forgetting to close.

the scene just now was too shocking. she thought that lin yi would have a slim chance of survival, and even if he had the chance to live, he would be in a worse state.

who would've thought that lin yi would come down like a god, and all the sand monsters disappeared just like that? it was a miracle!

So when Lin Yi came over to ask her, Daniya still hadn't recovered from the shock. She only came back to her senses when Lin Yi repeated himself.

Chapter 8866

"Ah, no, no, I'm fine, I'm not hurt! I've recovered a lot from the exhaustion just now and I'm no longer in a weak state. "

Daniya shook her head repeatedly, feeling that her mouth was wide open enough, and she even revealed a shocked expression, ""Sima Yi, you've fully recovered? So powerful! I thought we were really done for this time, but you actually turned the tables and turned the tables! You're amazing!"

"Hmm, I feel like you've not only recovered, but you've also become stronger, right? This was a breakthrough, right? The seven-colored soul-devouring grass is a legendary and vicious object, but you were actually able to devour it. I really didn't dare to imagine that such a thing could happen!"

Daniya's shocked expression vanished, replaced by a look of admiration as if Lin Yi had become her idol.

Lin Yi's lips twitched-the change was a bit sudden, but it didn't seem like it was unacceptable ...

"It's not as powerful as you say. I was just lucky and almost died! The seven-colored soul devouring grass was indeed a legendary and extremely dangerous item. It was extremely powerful! If it's just me, there's no way I can defeat it!"

Lin Yi waved his hand, indicating that he wasn't that strong. "Strictly speaking, I used the seven-colored soul-devouring grass to extract the Sorcerer tribe's curse mark from my primordial spirit. Then, I used the Sorcerer tribe's curse mark to greatly weaken the seven-colored soul-devouring grass's strength."

"After that, I used the seven-colored soul-devouring grass to deal with the Sorcerer tribe's curse mark and turned it into energy that I could absorb. I took advantage of the seven-colored soul-devouring grass's weakness to absorb the energy of the Sorcerer tribe's curse mark, which in turn suppressed the seven-colored soul-devouring grass."

"If there had been any mistake, I would have died without a burial place. I was really lucky to have survived ..." He thought.

Only then did Daniya know what Lin Yi had been through. She was shocked, but at the same time, she had a new evaluation of Lin Yi. He was a cruel man, and he could be so cruel to himself!

Even though she had no other choice but to risk her life, Daniya knew that if it was her, she might not have the courage to come to poluo Sand River to look for such a slim chance.

She'd always thought that the rainbow soul-devouring grass was the antidote to the Voodoo race's curse. She didn't expect Lin Yi to use the herb and the curse to attack each other.

The two were two completely different things!

The former said that as long as he found the rainbow soul-devouring grass, he would be able to remove the curse without a doubt, but the latter didn't mean anything at all. Maybe the rainbow soul-devouring grass and the curse would work together to kill Lin Yi first?

Breaking into poluo Sand River for a child's play plan ... Daniya thought that she was probably crazy to follow Lin Yi here!

The results were better than expected, but Daniya still thought that Lin Yi was a crazy person!

This was the first time she doubted if she'd end up well if she went undercover with Lin Yi in the human world.

If her identity as a spy was discovered, she would probably die a very unpleasant death, right?

"hehe ... hehe ... sima yi, you're too humble! even if it's luck, your luck is also a part of your strength! and all of this was within your calculations. i really admire you!"

daniya thought of the miserable outcome that she might have to face, but she still maintained a smile of worship, ""by the way, you've already found the seven-colored soul devouring grass and successfully resolved the threat of the witch tribe's curse. shouldn't we leave this place?"

daniya didn't want to stay in the forbidden area poluo sand river for even a minute longer!

thinking about it carefully, she didn't seem to have encountered too much danger, but she was extremely disgusted with this place and just wanted to leave as soon as possible.

Lin Yi nodded, "it's time to leave. This should be a space that the rainbow soul devouring grass created for them to stay in. Now that the rainbow soul devouring grass is gone, it might be buried by poluo Sand River soon!"

Lin Yi suspected that the rainbow soul-devouring grass was a treasure from a certain race, and that the sand buildings were the work of that race.

It was just that there were no other clues in this space other than the sand buildings, and Lin Yi didn't plan on looking for the race he was thinking of.

As for poluo Sand River filling up the space again, it wasn't a lie. After recovering his spirit, his vision and senses were back to normal.

Perhaps it was because he'd consumed the rainbow soul-devouring grass, but this space didn't hinder Lin Yi's spirit sense at all. With just a thought, he could bring the entire space into his spirit Sense range.

Daniya couldn't see it, but Lin Yi could. The tornado-like sand pillar was starting to collapse!

There were a total of one hundred and eight sand pillars in the entire space, and every one of them had the same sign. That was why Lin Yi said that!

"I also feel depressed. It's as if something bad is going to happen!"

Daniya raised her head to look at the poluo Sand River in the sky. The originally calm poluo Sand River was now rolling about chaotically, and just looking at it gave her pressure.

"Let's go. We need to leave this place as soon as possible!"

Lin Yi picked the nearest sand pillar and returned to the abandoned body of the dark Beast, flying over with Daniya.

His initial guess was that the sand pillar was the way out of here, but it was extremely dangerous. There was nothing he could do about it-his spirit sense didn't seem to have any other exit, so he could only try his luck at the sand pillar.

After a while, the two came to the nearest sand pillar. Here, they could already see a collapsed hole in the sand pillar from time to time. Although it would be repaired soon, the instability of the sand pillar had long been exposed.

"this sand pillar looks like it's going to collapse! will it be dangerous for us to leave this place?"

daniya still remembered lin yi's previous attempt. with just a light touch, the flesh and blood disappeared instantly, and there were even signs of it attacking the spirit. it was extremely dangerous!

now that the sand pillar was showing signs of instability and collapse, she was not sure if it was the right choice to leave ...

perhaps it would be safer to think of a way to jump into poluo sand river in the sky, even if he would be attacked by the group of sand sculptures.

"there will definitely be danger, but if we don't leave as soon as possible, the danger will be even greater!"

Lin Yi raised his head and looked at the sand pillar, "this thing is indeed the pillar that supports this space. Once it collapses, this space will die. If we're still here then, we'll be stuck here forever!"

"We can only save our own lives if we leave now while we can still hold on! As for the danger ... After I fused with the seven-colored soul devouring grass, I don't feel that this sand pillar is as dangerous as before!"

As Lin Yi spoke, he reached out his finger again and slowly inserted it into the sand pillar. This time, his finger stayed in the sand pillar for a few seconds before he pulled it back.

It was completely different from the first time-Lin Yi's finger was unscathed!

Chapter 8867

The sand pillar's attack didn't land on Lin Yi. Was it because of the rainbow soul-devouring grass 'aura? Or was it because of the seven-colored soul devouring grass's disappearance?

No matter what the reason was, it was possible to leave through the sand pillar, and it was safe!

Daniya was overjoyed and grabbed Lin Yi's arm with both hands, "That's great! You'll be able to leave the sand pillar safely after eating the seven-colored soul devouring grass. What are we waiting for? Let's go immediately!"

Lin Yi grabbed Daniya's hand and extended his spirit sense out, enveloping her whole body. "Let's go! Relax, don't be nervous, and don't struggle or resist. I will protect you!"

The sand pillar didn't attack Lin Yi, mostly because of the rainbow soul-devouring grass. Lin Yi wasn't sure if Daniya was immune to the sand pillar's attacks.

However, Lin Yi used his own spirit sense to wrap around Daniya. There shouldn't be any problem, right?

"Good! I got it!"

Daniya nodded seriously. She was entrusting her life to Lin Yi, but she didn't think there was anything wrong with it. After the incident, she would probably find an excuse to tell her that it wasn't that she believed in Sima Yi, but that she really had to leave Poluo Sand River. There was no other way!

Lin Yi nodded and didn't say anything else. He held Daniya's hand and walked into the sand pillar.

there was an upward spinning force in the sand pillar. it was indeed like a tornado, and it could send people into poluo sand river in the air.

however, this force was extremely gentle. if lin yi didn't want to, this force wouldn't forcefully pull him.

this should be the effect of the rainbow soul-devouring grass. if it was before, it would've killed lin yi!

since he had a choice, lin yi didn't rush up. he slowly pulled his hand back and brought daniya's arm into the sand pillar.

if there was a problem, such as his consciousness being unable to protect daniya and the sand pillar still attacked her, he would have enough time to react and push her away from the sand pillar.

fortunately, this kind of bad situation didn't happen. daniya entered the sand pillar calmly, and with lin yi's spirit sense protection, she didn't suffer any attacks.

the two of them followed the spinning force of the sand pillar and soon entered poluo sand river.

"So this is poluo Sand River? It's pretty!"

Daniya was in the legendary forbidden area, poluo Sand River, and couldn't help but feel a myriad of emotions,""I don't think anyone would believe this, I'm just swimming in poluo Sand River!"

Poluo Sand River was made of quicksand, but it felt like he was in a real river!

However, the river was filled with countless golden specks of light. It was impossible to imagine such a dazzling and spectacular scene unless one saw it with their own eyes.

Lin Yi didn't doubt at all that if Daniya was a girl from the common world, she'd be taking pictures like crazy right now and bragging to her friends.

"sima yi, i didn't expect poluo sand river to be so beautiful. why don't we stay here and play for a while longer?"

sure enough, beautiful things had a fatal attraction to girls, whether it was a human or a beast of darkness, there was no difference.

daniya, who had been so anxious to escape poluo sand river, was now wandering in the beautiful poluo sand river. she didn't sense any danger and immediately changed her mind!

lin yi smiled bitterly,"daniya, are you sure you want to stay here?" this was poluo sand river! danger is everywhere!"

daniya had lin yi's protection, so she didn't sense any danger. lin yi's spirit sense, on the other hand, was being eroded by the river!

After leaving that independent space, the seven-colored soul devouring grass's immunity began to decline, and poluo Sand river's ability to erode primordial spirits began to show its fangs.

If it wasn't for Lin Yi's spirit being extremely strong after breaking through to heaven breaking primary stage, and the rainbow soul devouring grass's protection that hadn't completely dissipated, Lin Yi and Daniya would've been in trouble already!

There was another point, Daniya had only jumped up before and was already attacked by hundreds of sand sculptures from poluo Sand River. Now that the two of them had directly entered poluo Sand River, it was hard to say if more sand sculptures would surround them.

Extreme beauty would most likely be accompanied by extreme danger!

Poluo Sand River was not a tourist attraction, but a forbidden land that buried countless explorers!

Lin Yi suspected that the calmness was related to the rainbow soul-devouring grass!

Daniya stared blankly for a moment. That's true ... But she really couldn't see any danger in this place!

It had been two to three minutes since he entered poluo Sand River from the sand pillar. Other than the beautiful scenery, there didn't seem to be any danger!

Daniya subconsciously ignored the name of po Luo Sand River.

This was also because Lin Yi brought her from the sand pillar to poluo Sand River without any effort, giving her the illusion that Lin Yi could counter poluo Sand River.

After all, Lin Yi couldn't enter the sand pillar before he consumed the rainbow soul-devouring grass.

"Sima Yi, can you feel the danger? Poluo Sand River should be friendly to you, right? Otherwise, when we come out of the sand pillar, poluo Sand River will attack us, right?"

Daniya's thoughts were quite clear, and it wasn't wrong for her to think this way. However, she didn't know that poluo Sand River didn't attack Lin Yi and her, but it was just that it wasn't that strong, so Lin Yi blocked it silently!

"You're right! Actually, when we came out of the sand pillar, poluo Sand River had already started targeting us. Don't think that it's not dangerous just because it's beautiful here ..."

Daniya's face changed as she pulled Lin Yi up.

"Sima Yi, then why are you still so carefree? Do you really think we're here to play? Hurry up and leave! How could he be so carefree? Increase the speed!"

Lin Yi didn't know what to say ... This guy changed his attitude so quickly?

However, poluo Sand River was not a good place, leaving quickly was the right choice!

The two had the same opinion and immediately sped up their speed. However, poluo Sand river's erosion of Lin Yi's spirit also increased, and it would break through Lin Yi's defense faster than expected!

Luckily, Lin Yi and Daniya still had a very weak spirit sense defense when they rushed out of poluo Sand River!

"Go, don't stay near poluo Sand River!"

Lin Yi and Daniya landed on the shore of poluo Sand River, and Daniya pulled Lin Yi and ran.

Her desire to live was quite strong, and knowing that poluo Sand River was dangerous, she didn't need Lin Yi's reminder at all. She would naturally choose the safest way to protect herself.

They had entered the quicksand pit by mistake, but Daniya was more careful when they left. She didn't care about her losses and attacked from a distance before they passed by, using her powerful strength to create a tunnel.

Chapter 8868

in this way, he didn't need to worry about running into quicksand pits. although it was a bit reckless, it was still a good way.

the two of them ran for over ten kilometers and were considered to be far away from poluo sand river before they stopped. daniya was also exhausted after bombarding them all the way here, so she quickly sat on the ground and panted.

when she was helping lin yi get close to the rainbow soul-devouring grass, she had used her ultimate skill, which caused her to enter a weakened state. although she managed to get out of the weakened state, she couldn't recover all her energy immediately.

now that he was fighting his way out, he almost entered the weakened state again ...

"hu hu hu ... hahahaha! we really went to poluo sand river and came out unscathed! this was an unprecedented feat! wouldn't it be famous in the world if it were to spread?"

Daniya first panted heavily, then laughed, "Sima Yi, there has never been a record of anyone being able to escape from poluo Sand River in one piece. The bones under the rainbow soul devouring grass are proof. We should be the only ones who have been able to escape from poluo Sand River since ancient times!"

"No, you can't call it escaping, we conquered poluo Sand River! Even the legendary seven colored soul devouring grass was eaten by you, we truly deserve to be called the conquerors of poluo Sand River!"

Daniya was extraordinarily proud, and could even be said to be a little arrogant! She didn't look like the little girl next door at all.

Was he provoked?

lin yi's lips twitched, not giving it much thought. "whatever you say! we're pretty lucky this time. basically, we're safe. "

lin yi wasn't talking nonsense when it came to luck. if he didn't get the rainbow soul devouring grass, the poluo sand river would be at least a hundred times more dangerous. how could they let daniya and lin yi escape so easily?

the name "forbidden area" wasn't just for show. even daniya and lin yi entering the space where the rainbow soul devouring grass was from the quicksand was extremely lucky.

if not for that, he probably wouldn't have the chance to find the seven-colored soul devouring grass if he went all the way into poluo sand river. the chances of him escaping would be very low, and the chances of him being killed by poluo sand river were very high.

"luck is also a part of one's strength. sima yi, your luck is extremely good, which is the same as having great strength! i think we can continue to explore together!"

Daniya's ego was clearly inflated, even putting aside her goal of returning to the human world with Lin Yi,"Sima Yi, I also know the locations of a few forbidden areas. I heard that there are good things there. Why don't we go and try?"

Her face was full of eagerness, and her tone was full of encouragement because there was a treasure she really wanted in a forbidden area.

In the past, she didn't have any thoughts about it because she didn't dare to get close to the forbidden area. However, after successfully making a round trip from poluo Sand River and obtaining the legendary seven colored soul devouring grass, Daniya's attitude had undergone a huge change.

The forbidden land was nothing more than this!

With Sima Yi, this lucky and strong guy, there was a chance that she could get the treasure she had always wanted!

The current Daniya had the strength of the middle stage of heaven crushing. If she could get that treasure, it wouldn't be a problem to advance to the great circle of heaven crushing! There was even a possibility of going further!

Just thinking about it made him excited!

"how is it? sima yi, believe me, if we work together, we will definitely succeed! if there's anything good, we'll split it equally! poluo sand river is the most dangerous of all the forbidden lands, none of the other forbidden lands are more dangerous than it!"

the more daniya thought about it, the more she felt that it was feasible. she started encouraging lin yi with all her might, "if even the river of falling sand can't stop us, then the other forbidden lands definitely can't stop us! let's do it!"

lin yi's mouth twitched. the kid must've been triggered-why was he so aggressive all of a sudden?

the trip to poluo sand river was really heaven-defying, that was why it was so smooth. there were still many dangers, and he didn't dare to guarantee that he would have such luck in other forbidden areas!

but then again, lin yi had never resisted risks, and if he could get stronger, then he wouldn't be scared.

just then, daniya added, "i know of a treasure that can greatly increase our body refining abilities. moreover, the danger level is one of the lower ranked forbidden areas. sima yi, how about we go to that forbidden area and try it out?"

"if the two of us can successfully increase our strength, it will be of great help to our future plans. whether it's causing destruction here or finding a way to return to the underground devil's den, we'll have more confidence, right?"

seeing that lin yi didn't say anything, daniya really did try her best to persuade lin yi. it didn't matter if they went to other forbidden areas or not, but she had to go to the treasure she wanted!

she almost said something like "since i accompanied you to poluo sand river, you should also accompany me to the forbidden area i wanted to go to!"

she'd be forcing him to return the favor if she said that-it'd definitely lower lin yi's impression of her, and the bond that they'd built up through thick and thin might just fall apart.

So Daniya bit her teeth and stopped herself from saying that. Having a baby was good, but Lin Yi's feelings for her were important too-she couldn't just let it go!

Fortunately, Lin Yi was already moved and didn't need her to persuade him further."Daniya, you're right! Since there's an opportunity to improve our strength, there's nothing wrong with us giving it a try!"

"what's the treasure you're talking about? which forbidden area is it? tell me the specific situation! before that, let's make it clear that we can only go to one forbidden area! after that, we'll have to think of a way to return to the underground devil's den!"

lin yi didn't want to stay in the dark beast clan's old nest for too long. he couldn't do much on his own anyway. he'd already achieved his goal, and it was time to go back.

lin yi had never even considered the grand goal of killing the entire dark demon beast clan. just a team led by senlan wuhun was already hard to deal with, let alone the entire dark demon beast clan.

who knew how many senlan wuhun there were in the darkness demon beast clan ...

Quit while you're ahead, lest you lose all your capital!

"You agree? Sima Yi, I knew you would agree! Constantly seeking to become stronger is a belief that every strong person must have!"

Daniya was overjoyed and cleared out all the other persuasive words she had prepared in her mind, changing them to an explanation of the target: "The forbidden place we are going to is called the hundred-refined demon Congo. Legend has it that in the center of the demon territory, there is a treasure called the hundred-refined diamond fruit. After consuming it, one can greatly increase the level of one's body refinement."

Chapter 8869

"it doesn't just increase the level of body refining, but it also refines and transforms the body of the user in all aspects after consuming it to improve the strength of the body refining. therefore, there will definitely be no side effects. on the contrary, it can increase your own potential!"

"this kind of heavenly treasure is something that everyone dreams of. unfortunately, the hundred refined demon area is a forbidden area. ordinary experts can't enter at all. at most, they can only cultivate at the edge."

"that's right, although the hundred refining demon area is a forbidden area, it can also be regarded as a treasured place for cultivation. the hundred refining demon area trains the body, the heart, and the spirit. as long as you're at the edge of the area, you can completely temper your body in all aspects, and the effect is at least two or three times better than ordinary cultivation!"

"therefore, there are many small tribes around the hundred refined demon area, as well as many ascetics who go there alone. this is completely different from poluo sand river."

daniya explained a lot in one breath, and lin yi had some understanding of the hundred refined demon area. he couldn't help but ask, "since there's a hundred-refined king kong fruit in the hundred-refined demon Congo, someone from your side should have been there before, right? are there any records of you obtaining hundred refined diamond fruit?"

the dark demon beasts respected the strong, and it was the law of the jungle. there were many strong people who risked their lives to become stronger, and lin yi didn't believe that no one had ever succeeded.

if it really was the same as poluo sand river, a record that had never been successful before, lin yi would have to think about it and see if it was worth the risk. if it was just a legend, and there wasn't any hundred refined king kong fruit, then what was the point of Congo risk?

in the end, daniya nodded with certainty. "there are! as i said earlier, the danger level of the hundred refined demon area is one of the lowest among all Congo forbidden areas. that's why some people managed to enter and obtain the hundred refined king kong fruit. when they came out, their strength increased greatly. "

"But there's a restriction in the hundred-refined demon area. Those who enter can't exceed the heaven breaking stage. After heaven breaking experts enter, the survival rate is less than one in a hundred, and the success rate is one in ten thousand ..."

"All of this is true. Furthermore, the hundred refined King Kong fruit has a special characteristic. Everyone can only eat one fruit in their lifetime. It's useless to eat more than that. At the same time, if anyone who has entered the hundred refined demon area and eaten the hundred refined King Kong fruit wants to enter again, the difficulty will increase by more than a hundred times!"

"There was one who didn't believe in heresy. He thought that his strength had doubled after consuming the hundred-refined King Kong fruit and wanted to go in again. In the end, he died not long after entering. From then on, no one dared to go in a second time after succeeding!"

Lin Yi nodded-this meant that there wasn't just one fruit, but those who had the ability to get it couldn't take out too many at once, and they couldn't go in a second time.

Moreover, the success rate and survival rate were extremely low. The success rate was one in 10000. No wonder it was called a forbidden area. No matter how many heaven breaking experts the darkness demon beast clan had, they wouldn't dare to play this game. It was easy to play with the annihilation of the clan!

As such, the hundred-refined diamond fruit was still considered a legendary treasure. The experts of the darkness magical beast clan still desired it, but they didn't dare to try it rashly, just like Daniya.

If it wasn't for Lin Yi's heaven-defying luck and strength, she wouldn't even think about going to the hundred-refined demon area!

"I understand! Then let's go to the hundred-refined demon area and try! Since someone has succeeded before, we might have a chance too!"

Lin Yi's interest in Congo hundred-refined King Kong fruit grew. As long as he could get his hands on this treasure, his strength would once again welcome a qualitative increase.

He might even be able to stir up more trouble because of this, and the darkness demon beast clan wouldn't have the time to target the sub-Island!

The location of the hundred refined demon area was on the way to the demon cave. It was on the way.

However, as soon as Lin Yi and Daniya left the river, they were surrounded by the dark beasts again!

"what's going on? has our whereabouts been leaked? or is it that their search for us has already reached the extent of a blanket search?"

lin yi brought daniya away from a wave of searching dark beast soldiers and frowned, "daniya, you said that this world is vast and boundless. do you have the ability to cover the entire region to hunt us down with your dark beast clan's forces?"

daniya secretly gritted her teeth. she knew that she was the one who had attracted the pursuers. although she didn't inform senlan wuhun, he could still vaguely sense her location.

daniya couldn't do anything about it, either. luckily, senlan wuhun could only sense a certain range and couldn't pinpoint daniya's exact location. otherwise, lin yi wouldn't be able to hide!

"our army is indeed very powerful, but it's not enough to cover the entire area to hunt us down. if they can't let us go, it's either a coincidence or our previous whereabouts have been discovered."

daniya made up nonsense with a serious face, trying very hard to make it sound more reasonable, ""sima yi, do you think it's because you ate the seven-colored soul devouring grass that caused some strange movements in poluo sand river, so you called a large group of people to investigate?"

when the two were at the bottom of poluo sand river, they naturally did not know what was happening on the river, so daniya's words did make sense.

the seven-colored soul-devouring grass wasn't an ordinary herb-it was only natural that there would be some changes when lin yi consumed it!

"that's possible ... forget it, let's not get entangled with them. we'll just avoid them!"

lin yi nodded noncommittally. the fact that the witch race's mark had been sensed by the enemy meant that there was a higher chance that they would follow them, but lin yi had already devoured the mark. he didn't have to worry about that anymore.

other than the witch race's curse mark, lin yi was still suspecting if there were other hidden cards, such as the divine sense mark. lin yi was an expert in this field, so he couldn't be careless.

after multiple checks, lin yi was sure that he didn't have any hidden cards on him, but as for daniya.....he was too embarrassed to check!

scanning with his spirit sense was a secret, but with the difference in strength between their spirit senses, daniya wouldn't be able to detect lin yi's movements. the problem was that this was no different from peeking, and lin yi couldn't do it without daniya knowing.

"that's right, we just need to avoid them!"

daniya secretly heaved a sigh of relief. right now, all she wanted was to get the hundred refined king's fruit and didn't want to cause any trouble!

senlan wuhun's plan was already different from hers, so she only hoped that senlan wuhun wouldn't cause trouble.

unfortunately, things don't always go your way. the more you don't want something to happen, the more likely it will happen!

Chapter 8870 The Power Of The Divine Realm

Lin Yi and Daniya had just turned a corner, trying to go around a Dark Demon beast patrol team, but a large group of Dark Demon beast soldiers appeared in front of them!

This team even blocked Lin Yi's divine sense and only noticed their existence when Lin Yi saw them with his eyes!

One had to know that Lin Yi was no longer the same as before-his essence spirit had reached heaven breaking primary stage, and his detection abilities were more than two times stronger than before!

But even so, they still couldn't find the darkness demon beast clan's troops. It was clear that the other party had made thorough preparations!

Daniya's expression changed. Senlan wuhun had tried to contact her using a secret method that only the two of them could use, but she had not responded for her own plan. She didn't expect Senlan wuhun to appear in front of her in the blink of an eye!

That's right, the one leading the team this time was Senlan wuhun!

"Daniya, Sima Yi, the two of you are quite good at running! Was there still a way out now? Surrender obediently, and I'll leave you with an intact corpse. Otherwise, cutting you into a thousand pieces would only be a light punishment!"

Senlan wuhun was sitting on a huge chair, looking at Lin Yi and Daniya lazily with a half-smile on his face.

He had already lowered the importance of the spy plan and had prepared a double plan.

Chasing Lin Yi was the right thing to do, but after contacting Daniya to no avail, his killing intent was overflowing. The two plans were balanced in his heart, and he was completely inclined to kill Lin Yi!

Daniya hadn't even gone undercover with the humans yet, but she didn't take the initiative to contact them and even deliberately refused to contact them. This didn't seem right no matter how one looked at it!

Senlan wuhun was even considering abandoning the spy plan.

"Daniya, you're an outstanding commander of our tribe, why did you betray our tribe? I'll give you one last chance, kill Sima Yi and prove your loyalty!"

Senlan wuhun's words were basically announcing that the spy plan was invalid!

He did need Daniya to prove whether there was any loyalty left.

But in Daniya's ears, she instinctively thought that Senlan wuhun was acting with her to deepen her trust in Lin Yi's heart. This was part of the undercover plan!

Senlan wuhun's mind was constantly changing. He was indeed a rare talent, but he was a bit too casual in making plans!

The undercover plan was a secret between him and Daniya, and anyone who knew about it had already been secretly dealt with by him.

That included Daniya's personal guards!

daniya thought that her guard was just acting, and it was true at first, but she left with lin yi after the act.

in order to ensure the absolute safety and secrecy of the plan, sheunlan wuhun killed all the people who knew about it without hesitation. wufu was only one reason-the other reason was to start the plan to kill lin yi!

if daniya was killed by mistake while chasing lin yi, senlan wuhun could totally treat daniya as a real traitor. no one would say anything wrong about her death.

but if there were other people alive who knew about the spy plan, things would be out of senlan wuhun's control!

therefore, killing people to silence them became the safest choice for senlan wuhun. anyway, those who died were not important people, so if they died, then so be it!

daniya didn't know any of this. she had guessed that senlan wuhun had a new plan, but she didn't think that he would do something to prevent future trouble.

at this time, she still thought that the undercover plan was still an important option for senlan wuhun. in order to cooperate with her performance, daniya coldly rebuked,"senlan wuhun, don't be delusional!"

"since i, daniya, dare to do it, i naturally dare to admit it! you say i betrayed my people, but i think i'm saving them! you and i have different paths, so we can't work together. you don't have to worry, just let me know what you have in mind!"

daniya was full of righteousness and impassioned, feeling that her acting skills had already broken through the heavens.

senlan wuhun helplessly pouted. he could see that daniya was still following the steps of the undercover plan, but this wasn't the result he wanted.

senlan wuhun hoped that daniya would take the chance to attack lin yi. that way, he would have more confidence in preventing lin yi from escaping again!

Senlan wuhun had no choice but to nod his head since Daniya wasn't cooperating, "Very good! Since that's the case, don't blame me for being impolite! Do it!"

The soldiers of the dark Beast race swarmed up like a tide, surrounding Lin Yi and Daniya from all directions.

For a moment, murderous intent filled the air, and shouts to kill shook the sky!

If that was all, Lin Yi wouldn't mind. His spirit level had increased, and his strength had doubled. Even if he couldn't fight her, he could still break out of here with Daniya.

But Senlan wuhun wasn't going to deal with Lin Yi so easily-he'd been planning this for a long time, and it had to be foolproof!

With Senlan wuhun as the center, a gray-black mist rose within a 10-kilometer radius. A gray-black light curtain appeared at the edge, completely covering the entire space!

"the sorcerer tribe's methods!"

lin yi's face was serious as he quickly searched for relevant information in his spirit sea, "senlan wuhun has really put in a lot of money this time! he had actually created such a big scene! it's even more powerful than the wizard soul locking formation, the god devouring formation!"

"what's the wizard power devouring formation? i've never heard of it!"

daniya's expression wasn't too good. she really hadn't heard of it.

she was not very interested in the inheritance of the wu tribe, and the wu yuan god devouring formation had almost never appeared by her side. she only knew that there was a wu spirit god locking formation.

the unknown methods of the witch clan ... was senlan wuhun determined to kill sima yi?

there was no need to be in a hurry!

couldn't he wait until he came out of the hundred-refined demon area? when she gets the hundred refined king kong fruit, daniya's strength would increase greatly and she might even have the chance to break through the shackles of the heaven breaking stage.

whether the undercover plan could succeed or not, daniya would not care!

she didn't know why, but she was sure that if she went to the hundred-refined demon area with lin yi, she would be able to get Congo hundred-refined diamond fruit!

senlan wuhun was really a bastard. he didn't know how to pick the right time!

"the god-devouring formation is a very vicious formation passed down by the sorcerer tribe. it requires the blood sacrifice of at least 100 living creatures to be activated! the stronger the blood sacrifice, the greater the power of the formation!"

lin yi quickly explained the information in his memory to daniya, "judging from the power of the sorcerer essence god-devouring formation, the number of lives sacrificed in the senlan soulless blood sacrifice is at least 1000, and the individual strength must be above the mountain opening stage!"

in the node world, it was basically filled with darkness demon beasts. even if there were other races, they would most likely be wiped out by the darkness demon beasts.

so, where did the 1000 mountain split life forms that senlan wuhun sacrificed come from? they didn't need to think much to know that they were all clansmen of the darkness demon beast clan!
