

Bodyguard 8881

Chapter 8881

"The human who killed Senlan wuhun might become the biggest threat to our entire race. Desolate earth, what are you hesitating for? Do you really want to let go of such a threat? Let go of this human who killed Senlan wuhun? Let go of the traitor Daniya who betrayed our race?"

Grand priest Huang Kong pressed forward step by step, oppressing the Grand priest of the barren lands from the standpoint of righteousness. His words were Grand, but he might have his own schemes in his heart.

The relationship between the two tribes was not good. If the desolate sky high priest tribe could cause the desolate land high priest tribe to fall into misfortune and decline by refining vengeful spirits, the high priest would be very happy.

Since he was not the one who suffered losses, he had no qualms. Therefore, while he was forcing the high priest of the wasteland, he also began to encourage the other high priests who did not speak to echo his words.

It was still the same. The losses were not his, so he naturally had no qualms. Grand priest Huang Kong took the lead and put on a righteous act.

The high priests who were watching from the side quickly made their choice and began to support high priest Huang Kong. They demanded that the high priest of the barren lands take out the dead body of Senlan wuhun!

The darkness demon beast race also had moral constraints, and the high priest of the desolate lands was now under the moral constraint of others. It was as if he would become a sinner of the darkness demon beast race if he didn't take out Senlan wuhun's corpse and use it to refine vengeful spirits!

Unless the high priest could come up with a new plan to prove that they didn't need sheunlan's body to find Lin Yi and Daniya, they would have to follow the high priest's plan!

It was just as the barren high priest said-if the barren high priest had a way to track Lin Yi down, why would he waste his time here?

The high priest of the wasteland had no choice but to yield under the great pressure!

To be honest, the high priest didn't care if Senlan wuhun could reincarnate or not. A dead genius commander was meaningless to the tribe. Even if he could reincarnate, he didn't know where he would be reincarnated to. It had nothing to do with the tribe.

If it weren't for the legend that bad luck would befall the tribe, the high priest of the wasteland would have readily agreed. But now, he was forced to do so, and his face was livid.

After the order was given, Senlan wuhun's body was quickly sent over.

The refinement process was presided over by Grand priest Huang Kong. The entire process lasted for less than an hour. Senlan's body completely disappeared, turning into a translucent vengeful spirit that had no fixed form and was constantly twisting. It let out a shrill scream in the air!

After the screech, the vengeful spirit started flying in a certain direction-it went without saying that it was where Lin Yi and Daniya were!

Grand priest Huang Kong controlled the speed of the vengeful spirits and commanded the Allied forces to follow behind!

This time, the tribal Coalition Army could be said to be very powerful. There were more than 10 million of them, and their strength was quite impressive. The weakest of them was a magical Beast of Darkness at the xuansheng stage!

As long as they found Lin Yi, they would kill him and Daniya with numbers! Cannon fodder had their uses too-they used their stamina and energy, chased and blocked, and used their lives to determine Lin Yi and Daniya's position.

In any case, the dark beasts were determined to not let Lin Yi and Daniya go!

Lin Yi and Daniya didn't know that the dark beasts had sent such a huge Army to capture them. They were still focused on the path of disaster!

Even the hundred tempered demon territory might not be able to stop an Army of tens of millions of darkness beasts.

The forbidden area was indeed dangerous, but it wasn't impossible to break through it. It was just unnecessary. What was the point of breaking through the hundred tempered demon territory if millions of people died? Just for one or two hundred-refined King Kong fruits?

The cost and reward were completely disproportionate, so the darkness demon beast clan would naturally not be so stubborn as to cause trouble.

But Lin Yi and Daniya were in the hundred refined demon territory. When the Army of ten million arrived, no one knew what would happen!

Lin Yi and Daniya had been on the path of disaster for a few days now, but they didn't have any concept of time here. They were going through all kinds of trials and tribulations every minute and second, and they couldn't tell how fast time passed.

Sometimes, seconds felt like years, and sometimes, he would become numb because of the pain. In a trance, a long time had passed!

At the start, Lin Yi could still look after Daniya, but as they went deeper into the path of disaster, the two separated and disappeared into the mist. When they realized each other, they were already gone.

Lin Yi couldn't even take care of himself-he had to give up after searching for a long time with all the pressure.

Lin Yi had been through a lot these past few days on the path of disaster-metal, wood, water, fire, earth, wind, lightning, light, dark, ice, and so on-all of them had become real disasters falling on him, and there were also all kinds of heart demons that affected his mind.

Body, heart, and spirit! The hundred refined demon domain was as the rumors said-the difficulty of the path of hundred tribulations increased exponentially after activating it, and the difficulty of the path of hundred tribulations was based on the strength of the person undergoing it. The stronger Lin Yi was, the stronger the tribulations he had to endure.

The path of disaster seemed to have no end, and even someone as strong as Lin Yi was starting to get tired. He didn't know how long it would take to get through this plain-looking stone path.

At this moment, Lin Yi's essence spirit was trapped in his body and couldn't leave. At the same time, he had to withstand the invisible attack of consciousness. If Wu Linghai wasn't strong enough, his essence spirit would be shaken.

As for his body, it was covered in wounds. At the start, it was the individual elemental attacks, and Lin Yi was able to deal with them easily. Towards the end, there were more and more complex elemental attacks, and Lin Yi almost couldn't resist them!

Fortunately, every time he thought that he couldn't resist it and might as well just sink in, Lin Yi would suddenly wake up and understand that it was his inner demon causing trouble. Instead, he would remind himself to grit his teeth and persevere!

Finally, Lin Yi stepped out of the fog and the rain stopped. A rainbow was hanging in the sky, and under the rainbow was a green stone Hill. At the top of the hill was a small tree shining with a golden light!

The little tree was about three meters tall, and its branches and leaves were all light gold. Only at the top of the tree, under the rainbow, there was a fist-sized Vermillion fruit. It was shining with golden and Vermillion light.

A hundred-refined diamond fruit?

Lin Yi Congon't seen a hundred-refined King Kong fruit before, but he naturally had a definite answer!

There wasn't anyone else around Congo Hill, so Daniya shouldn't be out yet. Lin Yi turned back to look at the stone path, wondering if he should get the fruit first or go back to Daniya.

He Congo thought that there would be more than one hundred refined King Kong fruit. However, there was only one on the small Golden Tree. This was a little awkward!

Chapter 8882

Daniya wanted the hundred-refined King Kong fruit, and so did Lin Yi. After all, it was a rare opportunity to increase his strength, but he only had one. Did he have to fight with Daniya for it?

Lin Yi hadn't even finished thinking when he heard light footsteps from the mist behind him. He turned around and saw Daniya staggering out.

The moment she saw Lin Yi, Daniya let out a breath of relief. She looked like she was in a mess, barely passing through the path of disaster. She wanted to speed up, but she fell to the ground!

Lin Yi rushed over to help, but his body was also weak. His legs went soft, and he sat down on the ground after a few steps!

Before he came out, he could still hold his breath, but after leaving the path of disaster, all the accumulated fatigue came back like a tide. Lin Yi couldn't resist the fatigue that came from the depths of his soul!

"Haha...Haha...Sima Yi, you can't hold on any longer? I thought that you would be much stronger than me since you came out earlier than me. It seems that we're not much different!"

Daniya forced herself up and sat closer to Lin Yi. She didn't care how many wounds she had as she teased Lin Yi.

A new life after a disaster!

The two of them had just walked out of the path of disaster and experienced what it really meant to have a new life after a disaster. They felt a lot more relaxed, and Lin Yi threw a pill to Daniya to help her recover.

"Indeed, we're on the same boat. I just came out and was worried about you, but you came out with me!"

"You're worried about me? Haha, that's great ... But it's useless to worry. I've already discovered that I'm the only one facing the path of disaster. No one else can help me! It's a good thing we both came over!"

As Daniya spoke, she looked up at the Rainbow and immediately noticed the Golden Tree on the bluestone Hill and the Vermillion fruit at the top!

"Hundred-refined diamond fruit! A fully ripe hundred-refined King Kong fruit!"

Daniya jumped up from the ground as if she had a spring, her face filled with joy and excitement!

At this moment, her waist was no longer sore, her legs were no longer in pain, and she was full of energy!

What was the point of entering the hundred refined demon territory? Wasn't it all for this hundred refined diamond fruit?

However, she immediately saw it clearly. There was only one hundred-refined King Kong fruit on the small Golden Tree!

At this moment, Daniya's mind was spinning. She even thought of killing Lin Yi and taking Congo hundred refined King Kong fruit, but the thought disappeared in a flash and was immediately dismissed.

She didn't know if it was because of Lin Yi's strength or some other reason, but she rejected the idea of killing Lin Yi. There wasn't even a trace of killing intent!

Daniya didn't know, but luckily she didn't reveal any killing intent. Otherwise, with Lin Yi's sharp senses and the Jade space's warning, he would've noticed it immediately.

If Lin Yi found out that Daniya wanted to kill him, it would be hard to say what he would do ...

"It really is Congo tempered Vajra fruit? I can feel that the fruit is what we want, and I'm sure of it now!"

Lin Yi already knew about the thousand-refined King Kong fruit, so he didn't have much of a reaction. He sat still on the ground, "It's a pity that there's only one hundred-refined King Kong fruit. Shall we split it in half?"

Daniya's expression was not too good, ""The hundred-refined King Kong fruit can not be cut open. It must be eaten by one person in its entirety for it to have any effect. If it is split into two, it will have no effect at all!"

She was in a hurry to get the hundred refined King Kong fruit but there was no need for her to lie. A ripe hundred refined King Kong fruit could not be shared between two people!

"Sima Yi, although I know that this request is a little overboard, can you please let me have the hundred refined Congo fruit? I really need it! As long as I get my hands on the hundred refined diamond fruit, I will follow your lead in Congo future!"

Daniya thought that there was no way to prove that she was a spy anymore, so she might as well follow Lin Yi.

If he did well and obtained important information, he might even be able to restart his undercover plan and prove his identity as a spy with credit!

in short, he Congo to hoodwink the hundred-refined diamond fruit into his hands first. no matter what choice he made later, he would not lose out!

lin yi blinked before smiling. "you don't have to make it sound so serious. if you need Congo hundred-refined diamond fruit, just take it! i don't really want it! don't take it to heart!"

lin yi was always generous to his own people, even if the thousand-refined king's fruit was an extremely important treasure to him. but since daniya asked, lin yi naturally wouldn't fight with her. he didn't lack this kind of grace!

daniya was overjoyed-she was just testing it out, not expecting lin yi to agree right away!

that was a hundred-refined diamond fruit, not some small apple. if he were to take it out, it would be enough to cause a few dark beast tribes to fight for it!

he said he didn't want it, and he didn't want it ... how broad of a mind did he have!

"sima yi! y-y-y-you ..."

daniya was so excited that she couldn't even speak properly. she really didn't expect this!

"don't argue with me, hurry up and get Congo hundred-refined king kong fruit! the earlier we eat, the faster we can increase our strength, so we can leave the hundred refined demon area!"

after giving up on the hundred-refined king kong fruit, lin yi's entire body relaxed a lot. the fatigue from before came back again, and he wanted to just lie on the ground and sleep.

daniya suppressed the excitement in her heart and took a deep breath. to be honest, she was really Congo to lin yi right now, but gratitude was gratitude-she still had to keep the fruit for herself!

as for what would happen in the future, daniya didn't think about it for a while and decided to take it one step at a time!

Just as Daniya was about to go to the green stone Hill to get the hundred refined King Kong fruit, the two of them were suddenly stunned!

There was no sound, but a rule regarding the hundred-refined King Kong fruit suddenly appeared in both Lin Yi and Daniya's minds!

If he wanted to obtain a mature hundred-refined Congo fruit, only one person who had survived the hundred tribulations path could survive!

From now on, if you don't pluck the hundred refined King Kong fruit within 10 minutes, Congo ripe hundred refined King Kong fruit will turn into nutrients and fuse with the small Golden Tree. It will only ripen again after 1000 years!

If there was more than one person who had survived the path of disaster, the hundred refined King Kong fruit would be in an untouchable state until the time limit was up and it would turn into nothingness!

To put it simply, if Daniya wanted to get Congo hundred-refined King's fruit, she had to kill Lin Yi!

And he had to kill Lin Yi within ten minutes!

Once the battle was in a stalemate and ten minutes had passed, the ripened hundred-refined King Kong fruit would disappear. If he wanted to get it, he would have to wait a thousand years!

Daniya was dumbfounded! What the hell is this? Is there such a rule? He had never heard of it before!

Chapter 8883

Thinking about it, the darkness demon beasts that had obtained hundred refined King Kong fruits in the past had only obtained unripe ones. No one had ever obtained a ripe one!

It's a ghost!

Whether or not he wanted to kill Sima Yi was one thing, but the key was whether or not he had the ability to kill Sima Yi!

Daniya was confident in her own strength, but after following Lin Yi and seeing so many unimaginable methods, she didn't have the guts to say that she could defeat him for sure!

"Sima Yi, do you ... Do you feel any information in your heart?"

If it was before she met Lin Yi, she would've used a sneak attack to kill Lin Yi first.

But the Daniya today didn't have that thought at all. In other words, she didn't have any hostility towards Lin Yi at this stage!

Luckily, she didn't have any hostility-if Lin Yi did, he'd probably strike first!

Lin Yi had always been as warm as the spring breeze to his own people, but to his enemies, he was as ruthless as the autumn wind sweeping the fallen leaves!

"Daniya, did you feel it too? It seems that this is not fake!"

Lin Yi nodded and smiled bitterly, "As expected, the hundred-refined King Kong fruit isn't something that's easy to obtain. It's right in front of us, but there's still such a rule! There's no point even if I give up ... Wait!"

Lin Yi's eyebrows furrowed as he spoke, and he held his chin, deep in thought.

There shouldn't be such a rule-Lin Yi had been able to get the thousand-refined King Kong fruit by himself before Daniya arrived, and there weren't any rules!

The rules that suddenly appeared were a little strange no matter how one looked at it!

"I'll try it first! Maybe it's just an illusion in our hearts!"

Daniya saw that Lin Yi was deep in thought, and couldn't help but suggest a plan after a while. Time waited for no one!

If the hundred-refined diamond fruit really disappeared after 10 minutes, it would be a huge loss!

Lin Yi nodded noncommittally and didn't reply. Daniya didn't say anything and turned around, flying towards the green stone Hill!

The journey was very smooth. He did not encounter any obstacles and directly arrived at the top of the small hill. With a light leap, he was above the small Golden Tree. He reached out and grabbed the Vermillion colored hundred-refined diamond fruit!

In the end, Daniya's hand really did pass through the hundred-refined King Kong fruit and grabbed the empty, lonely, and cold fruit!

If there was still more than one person alive who had passed the path of disaster, the hundred refined King Kong fruit would be in an untouchable state!

As expected, it was in an untouchable state! It was as if Congo hundred-refined diamond fruit was just an illusion!

Daniya landed on the ground, her heart filled with disappointment. She turned to look at Lin Yi blankly. After going through the hundred tribulations path with great difficulty, was he going to give up just like that?

Lin Yi quietly followed her to the top of the hill and stood in front of Daniya, "Daniya, since you want Congo hundred refined King Kong fruit so much, why don't you make your move!"

"Ah?"

daniya was dumbfounded. what did he mean? kill you? or will you have an excuse to kill me?

daniya didn't want to kill lin yi, and even if she did, she wouldn't fight him head-on. she would paralyze him first before sneaking up on him!

how could he attack so easily? in that case, it was really hard to say who would die in the end!

"sima yi, stop joking! or are you trying to kill me, so you let me make the first move?"

Daniya, who reacted, waved her hand and laughed bitterly. She sighed and said, ""Forget it! We have no fate with the hundred-refined King Kong fruit. To me, Congo hundred-refined King Kong fruit is important, but it's definitely not as important as you!"

"If I have to choose between the two, I choose you! If you can give up the hundred refined diamond fruit for me, I, Daniya, can also give it up for you! In any case, we didn't suffer any losses in this trip to the hundred refined demon area!"

The path of disaster wasn't a joke-after surviving the disaster, Lin Yi and Daniya's bodies, spirits, and minds had all been strengthened!

They weren't fully recovered yet, but once they did, they'd both be able to level up by at least a small level!

It was not just the body refinement level, but an all-round improvement!

For example, Lin Yi's essence spirit and body were both in the early stage of heaven breaking. Now, he was at least in the peak of the early stage of heaven breaking, and even had one foot in the middle stage of heaven breaking. He could break through again at any time!

In just a few days, this kind of improvement was terrifying! If he were to cultivate normally without the assistance of any heavenly treasures, it would take several years for him to advance a small level in the heaven breaking stage!

This was also why Daniya wanted to obtain the hundred refined King's fruit so badly. Her talent and potential had almost been fully developed. Without the influence of external forces, she would probably never be able to break through the heaven-breaking stage and enter the next realm!

It was because of this that Daniya had made a great decision to give up on the hundred refined King Kong fruit!

Lin Yi smiled. If Daniya chose the hundred-refined King Kong fruit and wanted to fight him, he would understand, but he wouldn't really give his life to Daniya!

A battle was unavoidable. At most, he would show mercy and not kill Daniya. When the time was up, everyone would part ways and be strangers again!

Daniya, on the other hand, chose to give up on the hundred-refined King Kong fruit in exchange for Lin Yi's friendship. Her position and weight in Lin Yi's heart had undoubtedly increased a lot!

"It's a ripe hundred-refined Congo fruit. Can you bear to give it up just like that? It's a once-in-a-thousand-years event!"

Lin Yi said with a smile, but Daniya rolled her eyes at him.

"That's right, I can't bear to give up on this once-in-a-thousand-years matured, hundred-refined King Kong fruit! Why don't you ask Sir Sima Yi to do me a favor and hand over your little life to help me?"

Daniya snapped at Lin Yi before looking at the red fruit on the tree, unwilling to part with it.

Since he couldn't get it, he would take a few more glances while he could still see it! When the time was up, he wouldn't be able to see it even if he wanted to!

Lin Yi smiled, not minding Daniya's words at all. It only meant that she had given up!

"Daniya, I thought about it just now, and the hint that suddenly appeared in our hearts should be the final heart tribulation of the path of disaster! If we are greedy and end up with both of us injured, even if one of us kills the other, I'm afraid we won't be able to get the hundred-refined King Kong fruit!"

Lin Yi wasn't just posturing when he was deep in thought-he was really deep in thought. "As long as we make a move, we'll be stuck in the heart tribulation. In other words, we didn't pass the last test of the path of hundred tribulations!"

"Without passing through the path of disaster, we naturally aren't qualified to get the hundred refined King Kong fruit. Now that both of us have voluntarily chosen to give up, we can be considered to have truly passed through the path of disaster!"

Daniya's mouth was agape as she fell into a daze.

Thinking about it carefully, it did seem to make a lot of sense!

Chapter 8884 The End

As Lin Yi finished speaking, the fog on the path of disaster quickly dissipated, revealing the full appearance of the stone Road, winding into the distance. Everything they'd experienced these past few days was like a dream, because the path of disaster now looked like a very ordinary road!

Lin Yi and Daniya had finally overcome their greed and passed the final trial of the path of disaster. Daniya was happy after thinking it through.

"Sima Yi, that means that the restriction from earlier should have disappeared, right? We don't have to kill each other and we can get Congo hundred refined King Kong fruit!"

As she spoke, Daniya quickly raised her head and looked at the Vermillion fruit at the top of the Golden Tree ... Fruit ... Where are the fruits?

The smile that had just appeared on his face instantly froze!

What about Congo hundred-refined diamond fruit? Why is it gone?

Daniya almost went crazy. What the hell was this? It was not easy to pass the path of disaster, but the hundred refined King Kong fruit in front of him actually disappeared? It disappeared without a sound, as if it had never appeared at the top of the Golden Tree!

No, he couldn't have touched the hundred-refined King Kong fruit before. What he saw couldn't have just been an illusion. Did the hundred-refined King Kong fruit really not exist?

His head hurt! It was going to explode on the spot!

"Si, Sima, Sima Yi! Are my eyes playing tricks on me? The hundred-refined diamond fruit is still on the tree, right?"

Daniya covered her eyes and rubbed them a few times, not willing to believe what she had just seen! The ups and downs of life were like this!

He was overjoyed when he first saw the fruit, then troubled when he found out that he only had one. He was excited and grateful when Lin Yi gave in to him. He was sad when he had to choose between the two. He was relieved when he found out the truth. Finally, he fell into a state of madness when everything was fake ...

It was so F * cking exciting! Daniya expressed that she wanted this kind of stimulation at all. Wasn't it better to be safe and sound?

Lin Yi, on the other hand, didn't look surprised. He smiled and patted Daniya's shoulder. "The hundred-refined King Kong fruit is Congo not on the tree. As both of us have passed the test of the heart tribulation, one hundred-refined King Kong fruit can not be given to both of us."

Daniya covered her face, unwilling to face reality. "So you're not giving me any? The hundred-refined diamond fruit has its own ideas!"

"No, the hundred refined King Kong fruit is for the both of us to benefit! Daniya, open your eyes and look up!"

Daniya subconsciously raised her head and opened her eyes. What was there?

A rainbow?

There was indeed a rainbow, but Lin Yi wasn't referring to the rainbow. He was referring to the two small golden-red gas balls that were entangled under the rainbow. If one didn't look closely, they'd miss the rainbow.

"What's that?"

Daniya's heart was beating wildly. There were too many ups and downs, and she was both excited and afraid ...

Lin Yi raised his head slightly and chuckled, "It's Congo one you're thinking about, the hundred-refined King Kong fruit! It's just that it's changed from a physical body to a gas!"

Daniya was dumbfounded. All kinds of emotions were churning in her heart. At the same time, she was very puzzled. The physical body of Congo hundred refined King Kong fruit had turned into gas? This was unheard of!

There wasn't even a legend that dared to spread such rumors! However, it had appeared in front of him!

Then, Daniya thought again, how did Sima Yi know all this? He made it seem like he knew it better than her!

Ask if you don't understand, Daniya is also single now!

"Sima Yi, how do you know all this? Could it be that something happened that I don't know about?"

As she asked the question, Daniya's eyes didn't move at all. She kept staring at the two entangled golden-red gas, ""What's next?"

"There's nothing you don't know," Lin Yi replied with a smile, "I'm just making some reasonable deductions based on what I saw."

"Next, perhaps we will each get some benefits! However, I suspect that the effect will be greatly reduced! I hope you don't be too disappointed!"

Before he could finish, the gold and red Qi in the air suddenly separated, turning into a light gold and vermillion red Qi, flying directly in front of Lin Yi and Daniya, floating in the air.

"Sima Yi ... What's the situation now?"

Daniya subconsciously lowered her voice, as though she was afraid of alarming the two balls of gas,""What do you think we should do?"

"I think ... You're asking us to choose one, right?"

Lin Yi wasn't too sure, but he thought that it should be the right one."Daniya, why don't you try one?"

Originally, the hundred-refined King Kong fruit was a light gold and vermillion red color that reflected each other. Now, it was completely divided into two masses of gas, light gold and vermillion red.

The two balls of gas were about the same size, but as Lin Yi said, the effect would be greatly reduced if they were split into two.

A ripe hundred refined King Kong fruit was several times or even more than ten times stronger than an unripe one. But in the current situation, Daniya felt that it would be good enough if one of the balls could compare to an unripe hundred refined King Kong fruit!

Faint gold, vermillion red ...

Daniya looked left and right. She didn't know what the difference was between these two balls of air and whether the effects were the same. Since Lin Yi let her choose first, she decided to go with it. After weighing the options, she reached for the red Qi.

It wasn't that he felt that the Vermillion color was more powerful, but that it looked better!

The moment Daniya's outstretched finger touched the red gas, the gas immediately disappeared into her body from her fingertips, not giving her any time to react.

At the same time, the Golden Ball of air flew towards Lin Yi. Lin Yi didn't do anything, allowing it to enter his body.

It was obvious that the two balls were properly distributed-one person would get one ball, and the other would get the other one. There was no way one person would get two balls all by himself, even if Lin Yi wanted to!

From this point of view, the hundred-refined diamond fruit was quite fair. As long as you passed the path of disaster, you wouldn't return empty-handed!

Thinking about it, if Daniya fell into greed in the last trial and couldn't pass it, the ripe fruit would be in Lin Yi's pocket, and Daniya wouldn't be able to get it even if she wanted it!

The current outcome should be considered the best, right?

the golden qi entered lin yi's body, and all the injuries he suffered, be it internal or external, be it his body or his essence spirit, were instantly healed. it was even more effective than the best healing pills lin yi had!

and the benefits of the path of disaster were finally clear. lin yi's spirit and body had both reached the peak of the early heaven-breaking stage. as the golden qi entered every cell in his body, his level reached the mid heaven-breaking stage and continued to rise, completing the entire process of the mid heaven-breaking stage.

Chapter 8885 No Problem!

In the end, he didn't break through to the mid heaven breaking stage. Although Lin Yi had one foot in the peak of the mid heaven breaking stage, he didn't take the last step. He was still in the mid heaven breaking stage.

As for Daniya, her aura had risen to a terrifying level. She had directly broken through to the great circle of the heaven breaking realm. If she could obtain the complete hundred refined King Kong fruit, breaking through to the great circle of Congo heaven breaking realm would not be a problem!

However, Daniya's primordial spirit didn't keep up with the speed of her body refinement. It only rose from the mountain opening stage to the peak of the late stage of earth splitting. From the level, it seemed like it had risen by more than an entire level, much higher than the level of her body refinement.

However, no one would think that a large level from the mountain split stage to the sea splitting stage could be compared to a small level from the heaven breaking stage. The two were on completely different levels, and there was no way to make such a comparison!

It was like a kilogram of gold and a ton of yellow sand. Although both had the word "yellow" in their names, the two were not the same thing. In terms of weight, the yellow sand would definitely have the upper hand. If people were given a choice, no one would choose the yellow sand!

Lin Yi's improvement was small, so he completed it quickly. He could even watch Daniya break through after that, and it took a while for her to finish.

"Sima Yi, I've reached the great circle of heaven crushing! This trip was really worth it! I can feel that if I continue to cultivate, I will definitely have the chance to break through to the heaven breaking stage!"

Daniya was extremely excited after completing her breakthrough. Her original potential was barely enough to reach the great circle of heaven-Sundering at most, and that was it even if she trained until her death.

Even though he did not manage to obtain a fully matured hundred-refined King Kong fruit this time, and only obtained half of it, it was already a pleasant surprise!

Not only did his strength directly increase to the great circle of heaven breaking, but he also had a great chance of breaking through the shackles of the heaven breaking stage!

She was still young and had enough time to cultivate and break through! She wasn't afraid of cultivation, but she was afraid of the helplessness of not being able to break through the bottleneck despite trying hard. Now, she didn't have to worry about this in the future!

"Sima Yi, how are you? Was the improvement big? I feel that you are indeed much stronger than before, but not as big as I thought!"

After Daniya's excitement, she started to pay attention to Lin Yi's increase in strength. It was as she said, Lin Yi didn't hide his aura and the increase in strength he showed wasn't as big as she thought, at least not as much as Daniya's increase!

Could it be that the light gold aura was not as effective as the Vermillion red aura? This seemed to be the only explanation!

Thinking of this, Daniya suddenly rejoiced, rejoicing that she had chosen the Vermillion ball of air. If it was another one, it was hard to say how much strength it would have increased, but it definitely wouldn't have reached the great circle of heaven-Sundering!

Lin Yi smiled faintly, "it's alright, I'm already very satisfied. I've reached the middle stage of heaven breaking. I'll be able to break through to the peak of the middle stage of heaven breaking with a little practice." This result was pretty good! By the way, I have to congratulate you. You've reached the great circle of heaven crushing. If you work hard, you'll definitely be able to advance further!"

"Thank you! 'Sima Yi, it's all thanks to you that I've been able to improve so much!' It's a pity that you can't be like me ..."

Daniya was embarrassed that she was too happy-she felt like she was taking advantage of Lin Yi. If Lin Yi didn't want to let her go, she might've fought to the death.

If he did that, the hundred-refined diamond fruit would be completely out of the question!

What she didn't know was that Lin Yi really was satisfied!

The pale Golden Ball of gas did not seem as effective as the Vermillion red one, but that was not the case!

Not to mention anything else, just the simultaneous increase of primordial spirit level and body refinement level was far superior to Daniya's.

As mentioned before, a small level in the heaven breaking stage was more precious than a big level from the mountain opening stage to the earth splitting stage. The rainbow soul devouring grass could only help Lin Yi break through to the early heaven breaking stage from the great completion of the sea splitting stage. Now that he was in the middle heaven breaking stage, he could enter the peak of the middle heaven breaking stage at any time. What was there to be dissatisfied about?

Other than the improvement of his spirit, Lin Yi also felt that his body's potential had improved as well. This was a bit unreal-after reconstructing his body, Lin Yi's body should be close to perfect with unlimited potential, but he didn't expect that after the light golden qi entered his body, he felt his potential increase again!

Or to put it more clearly, it meant that in the future, when he cultivated, his speed would be faster, his Foundation would be more stable, and his upper limit would be higher!

Daniya chose to increase her strength in the short term, but there was a limit to her potential. Lin Yi was the exact opposite. His strength didn't increase that much, but his potential was much stronger than Daniya's in the future!

If a person were to obtain a fully matured hundred-refined King's fruit, it would greatly increase their current strength and future potential, creating a powerful genius!

From this point of view, Daniya was at a loss ...

"Alright, let's cut the formalities. You think that my improvement is not as good as yours, but how do you know that I won't feel that I've taken advantage of you?"

Lin Yi patted Daniya's shoulder like a master, "You must know that everything in the world has its own laws of fate. Originally, the hundred-refined King Kong fruit was already yours, but in the end, it was split into two. Therefore, everything can be left to fate. You don't have to be too concerned about it!"

The corner of Daniya's mouth twitched. It sounded very reasonable, so she'll just take it as you're right!

"Okay ... Should we leave the hundred tempered demon territory and find a node to leave?"

Daniya casually changed the topic, "Sima Yi, I'll ask again. Is it really okay for me to follow you to the human world?" I'm a wanted traitor here, and if I go to your place, I'll also be a wanted mutant. I might as well stay here and wait for death!"

"Don't worry! You'll have no problem following me! No one will make things difficult for you! It's too dangerous for you to stay here, so it's safer for you to go back with me!"

Lin Yi had the right to say something like that. If he brought Daniya with him, the martial Alliance and the inspection department wouldn't come looking for trouble. If Daniya didn't want to follow him, she could stay in the underground cave, which was much better than here.

But with Daniya's complete heaven splitter, Lin Yi didn't feel at ease leaving her in the underground cave. If she was bewitched by the dark beasts, then she'd be too much of a threat ...

It was better to bring it with him!

As the two of them spoke, the path of disaster slowly disappeared. No one knew where it had gone. The next time it reappeared would be a thousand years later!

When the path of disaster disappeared completely, Lin Yi and Daniya were surprised to find themselves at the top of the cliff on the outskirts of the hundred refined demon territory. Yes, it was the cliff they came from!

Chapter 8886

The small bluestone Hill and the small Golden Tree had disappeared without a trace like a dream. If it were not for the fact that their strength had truly increased, they would have suspected that everything they had experienced was just an illusion!

"This is amazing ... We actually got out just like that! Speaking of which, he hadn't even seen much of the hundred refined demon territory, a forbidden area! If we tell others, does that mean we've been to the hundred refined demon area?"

Daniya laughed with emotion. The path of disaster was filled with fog, and they had to be on guard against being forced out of the stone Road, losing the chance to get the hundred refined King Kong fruit.

After passing through the path of disaster, he directly reached Congo location of the hundred refined King Kong fruit. Then, he returned to the original location. To say that he had entered the hundred refined demon area was a bit undeserved.

"If it doesn't count, do you want to go inside again?"

Lin Yi smiled, "we got the hundred-refined King Kong fruit. The hundred-refined demon territory probably doesn't like us, so they just sent us out. They don't welcome us. We'd be considered bad guests if we went in again, right?"

Daniya deeply agreed and repeatedly nodded, "Yes, yes! Therefore, those who obtained the hundred-refined King Kong fruit would have to face dozens of times more difficulty if they wanted to enter the hundred-refined demon area again! We went in through the path of disaster, and if we go in again, it'll probably be hundreds of times more difficult ... Let's go, let's go!"

Thinking about the legendary example, Daniya pulled Lin Yi towards the cliff without hesitation. They couldn't afford to offend him!

There's no benefit in it, so it's useless to go and get abused!

The two of them jumped down from the cliff that was as smooth as a mirror. When they came out, it was not as troublesome as going in. It did not matter even if there was some pressure. It was even faster to go down.

Lin Yi raised his head as he landed and looked at the sky in the distance. A huge and ferocious human face appeared in the dark sky, roaring at him.

A cold gust of wind swept over, causing Lin Yi and Daniya's clothes to flutter. Fortunately, the cold wind didn't have much killing power, and Lin Yi and Daniya weren't the same as before, so they weren't affected at all!

"Sima Yi, what's that? It looks a little like a forest orchid without a soul ..."

Daniya followed Lin Yi's gaze, and her face paled!

Senlan wuhun was already dead, so why did he appear in the air? Although it looked like a huge, abstract face formed by dark clouds, Daniya was sure that it was a soulless face. She couldn't be wrong!

Lin Yi's expression was serious, "it's indeed Senlan wuhun ... I can feel an evil presence, it's coming for us!"

The methods of the Sorcerer tribe!

The Starlight Magus had completely surrendered, and Lin Yi had a deeper understanding of the Sorcerer tribe's methods. Lin Yi didn't know how to make vengeful spirits from corpses to track down the murderer, but he wasn't completely ignorant!

He didn't expect that the darkness demon beast clan would use such a method! He had been too careless!

The wizard Power devouring formation, which required thousands of lives to be sacrificed, could be used without any restraint, so it didn't seem difficult to understand why a corpse was used to track him.

As for the side effects of bringing bad luck to the tribe, it was obviously not within the scope of the darkness magical beast clan's consideration!

"Sima Yi, let's hurry and leave!"

Daniya was a little flustered. She had a traitor's name on her head, and if she didn't quickly escape, she would really be killed by her own people!

Let alone an increase in strength, Daniya was very clear that an individual's heaven crushing perfection was nothing in front of the war machines of the darkness magical beasts!

"It doesn't seem to be easy to walk ..."

Lin Yi's essence spirit had broken through to the mid-stage heaven breaking realm, and he could use it even more easily. The range of his detection doubled again, so he could clearly feel how many troops the dark Demon beasts had sent to hunt him down!

Perhaps it was because he got the hundred-refined King Kong fruit, but the restrictions on the spirit sense outside of the hundred-refined demon area were gone. Lin Yi could not only see the dark Demon beasts in this direction, but also in other directions.

The entire hundred-smelting demon territory was surrounded by the dark Demon beast clan's Army. Unless Lin Yi could fly into the sky or dive into the ground, there was no way he could avoid their pursuit.

Especially that huge, abstract face in the sky-it'd provide Lin Yi with real-time coordinates. The dark beasts were cheating, how could they play with them?

"Daniya, we've been surrounded. The numbers ... Are hard to count! Although our strength has improved by leaps and bounds, the success rate of breaking through the encirclement of such a large number of enemies is almost zero!"

Lin Yi said after some thought, "Daniya, you should know what's up with that huge, abstract face of Senlan wuhun in the sky, right?" The tracking method of the Sorcerer tribe has locked onto me! So if we choose to part ways now, your chances of escaping will be higher!"

Although Daniya was an important target for the dark beasts, the only one who could use Senlan wuhun's body was Lin Yi, the one who killed him!

If Daniya slightly altered her appearance, there was still a chance of getting away with it!

But then again, the darkness demon beast clan had mobilized so many tribes to surround the entire hundred refined demon domain. It would be much more difficult to sneak out of this place than to wander around the hundred refined demon domain.

If there was a rule that they would rather kill the wrong person than let him go, then all the darkness magical beasts cultivating in the outer area of the hundred-tempered demon territory would probably be in trouble. Without a clear and prominent identity, it would not be easy to keep their lives!

Daniya wasn't an idiot-she was an excellent spy, and she understood the logic behind it without even thinking about it. As such, she objected as soon as Lin Yi opened his mouth.

"No! We're now on the same boat, or rather, we share the same fate. No matter how powerful the enemy is, I'll always stand with you and live together! Die together!"

Daniya said it without any hesitation. She thought that she would die faster if she escaped alone, so she had a higher chance of survival if she was with Sima Yi, the mysterious human.

It was just that when she said it, even she herself believed it a little, that she really wanted to live and die with Lin Yi ... Her rationality was reminding her that she was just lying to Sima Yi, that if they were in danger, she had to save her own life first!

At the critical moment, using Sima Yi as a target to attract attention while he took the opportunity to escape was a pretty good backup plan!

Would he make such a choice in the end ... Daniya couldn't say for sure herself, and could only repeatedly emphasize in her heart that it should be done!

Lin Yi didn't know what was going on in Daniya's mind, and he nodded immediately after hearing her answer, "Well, it's not a good thing to separate now. Although I can attract their attention, it seems that they won't let go of the people in the outer area of the hundred refined demon area."

Chapter 8887

"Daniya, let's make this clear first. If we encounter any danger, I need you to completely trust me and listen to my commands. There must be no doubt or hesitation ... Can you trust me?"

Lin Yi really treated Daniya as his partner now-he'd open up the Jade space to her if things got too dangerous!

Because of Daniya's identity as a Dark Beast, she could be kept in the Jade space directly. This way, Daniya naturally didn't have to face the dangers of the outside world, and if Lin Yi ran away alone, he had more tricks up his sleeve and a higher chance!

For example, he could store his physical body back into the Jade space and find a temporary body for his primordial spirit. It would be best if it was a soldier of the darkness demon beast Army. This way, he could secretly leave the hundred tempered demon territory.

The problem was that Lin Yi was in his Witcher form when he killed Senlan wuhun, and the tracking methods of the witchers were directly used on The Witcher form. Lin Yi wasn't sure if he could hide from them if he used the bodies of the dark Beast race soldiers!

Even if he could Dodge it, before the Sorcerer spirit body entered the darkness demon beast's body, his position would definitely be tracked by the darkness demon beast ... In short, it would be very difficult!

"I will definitely trust you! I'll do whatever you want me to do! I won't give you any discount!"

Daniya said without hesitation. She didn't care about what she thought in her heart, but at least on the surface, she acted as if she trusted Lin Yi completely.

"Good! Let's not delay any further, we'll set off immediately!"

Lin Yi was pleased and chose another direction to fly with Daniya.

Senlan wuhun's giant face turned in the air and continued to roar at Lin Yi and Daniya before flying towards them.

Lin Yi's spirit sense told him that the dark Demon beast Army had started to move quickly, surrounding the two. It was clear that they had confirmed the exact coordinates and were now in a killing mode.

In less than a minute, a black mass of darkness demon beast soldiers appeared within their sight. There weren't any battle cries, but the ground trembled as their feet landed!

During the silent charge, the dark Beast Army's aura continued to rise, and the killing intent was so dense that it was almost tangible. Lin Yi could feel the shocking chill in the killing intent even from far away!

Daniya's face was pale as she clenched her teeth and followed Lin Yi. She had no other thoughts after seeing the dark Beast clan's formation. Killing Lin Yi and returning to the dark Beast clan was suicide!

She wouldn't even have the chance to speak under the charge of the Army!

Lin Yi, on the other hand, was constantly waving formation flags and setting up movement formations around him. He should really be glad that he learned how to use a movement formation!

The movement formation had been a great help to Lin Yi all along-he'd probably be dead if he didn't learn it! And the current situation was clearly the time for the movement array to show its might!

Both sides were extremely fast, and the distance between them was closed in ten seconds. Lin Yi and Daniya were like two little moths, rushing into the black flames!

However, when they first clashed, the side with the absolute advantage in numbers didn't show their advantage. Instead, Lin Yi and Daniya were like a hot knife through butter, cutting into the formation of the dark Beast Army.

Wherever it passed, blood and flesh flew!

The vanguards were naturally elites, but they weren't trump cards. These Dark Beast elites were strong, but they weren't worth mentioning in front of Lin Yi and Daniya. After the battle started, the two heaven breaking Masters entered a state of chopping vegetables!

The commander of the dark beasts didn't seem to have Senlan wuhun's ability as a commander. The Allied forces were like a plate of loose sand, stacking up numbers to wear down Lin Yi and Daniya's stamina!

Lin Yi had the time to talk to Daniya in between his kills. "Daniya, the formation in front of us isn't that strong, and it's not thick enough either. Let's put in more effort and after we kill our way through, we'll have a chance to escape!"

"The reinforcements are already on their way, and they'll be able to increase the thickness of the formation. We have to be fast! If we can't break out of the encirclement before their reinforcements arrive, we'll have to face an endless stream of obstacles!"

No matter how strong he was, there was always a limit to his physical strength!

Without Qi, Lin Yi couldn't replenish his lost energy quickly, and he couldn't use any powerful area-of-effect skills. He could only break through by punching!

Lin Yi would be the one to die if they fought the dark Demon beast Army!

"I understand! I Won't Hold You Back!"

Daniya didn't have any other choice. Would she die, or would the soldiers of the darkness beast clan die? Was there a need to choose?

Those who blocked the way had to die!

The command center of the darkness demon beast Alliance Army was right below the huge, abstract-faced vengeful spirit in the air. The high priests of those tribes had gathered together and acted as the people who formed the command center, and the leader was high priest Huang Kong!

Because the high priest Huang Kong was the one who refined sheunlan's body and controlled the vengeful spirits to track Lin Yi down, the command center of the Alliance was naturally under his control!

"High priest of the barren sky, that human and the traitor Daniya are very powerful. They killed our soldiers very quickly! Should we think of a countermeasure to suppress their momentum? For example, sending an even stronger expert?"

Some of the other high priests felt that the loss was too great, so they gave more pertinent suggestions!

A heaven breaking stage darkness magical beast was the elite of the elites of the darkness magical beast clan, the most powerful pillar of support! There weren't many of them in each tribe. Basically, every heaven breaking expert was at least a deputy commander.

Using a team of Masters of this level to kill Lin Yi and Daniya was the best way to show the effect of the interception! The problem was that darkness magical beasts of this level were the most precious fighting force in the tribe, and losing even one of them would be a huge loss!

Other than the high priest who made the suggestion, the other high priests did not say anything and remained silent!

They could work together when they were united against an external force, but when victory was in the bag, every high priest had their own plans-they didn't want to waste too much of their own strength just to deal with Lin Yi!

grand priest huang kong's eyes swept across the crowd. he knew the minds of the other grand priests like the back of his hand. he immediately smiled and said,"there's no need! that human was a little strange. since he and the traitor daniya liked to kill, then let them kill! if they just stand there and don't fight back, how many people can the two of them kill?"

in the eyes of the barren high priest, the ordinary soldiers of the darkness demon beast clan were just cannon fodder, and it didn't matter if they died! moreover, the ones who died weren't his tribe's warriors.

Chapter 8888

The mission of cannon fodder was to exhaust the enemy. Lin Yi and Daniya were so fierce, so it was perfect for the cannon fodder to exhaust them. Don't look at how fast Lin Yi and Daniya were killing, they had only killed a hundred Dark Demon beasts along the way!

Compared to the total number of soldiers in the Alliance Army, it was just a drop in the ocean!

If they were to send out experts to kill them now, the high priest of the barren sky tribe would definitely send out a few experts from his tribe. Otherwise, how would he convince the masses?

If it was damaged, who could he go to?

If Lin Yi knew what these high priests were thinking, he'd probably laugh out loud!

Such a large-scale encirclement operation, with at least a million troops dispatched, in the end, the operation had not been successful, and each and every one of them had already begun to scheme against each other!

From this, one could see the importance of an excellent commander to an Army of more than a million soldiers!

If it was Senlan wuhun who was leading this operation, Lin Yi wouldn't even dare to say that he had a one percent chance of breaking through. But now, although he didn't know what these high priests were thinking, from the battle formation, Lin Yi felt that he had a thirty to fifty percent chance!

The high priest made the decision to use cannon fodder to exhaust Lin Yi and Daniya and ordered the reinforcements to speed up!

Although it was said that the high priest Huang Kong was in charge, when it came to giving orders to the other tribes, the other high priests were still required to personally give orders. However, everyone recognized the high priest Huang Kong's position as the leader. If there were no special circumstances, his orders must be carried out unconditionally.

The coordination wasn't as smooth as a unified command, and as Lin Yi and Daniya advanced, they realized that although the dark Beast reinforcements were still coming, there were many gaps between the troops!

It seemed like ... The difficulty of breaking through wasn't that high?

"Daniya, can you identify which side the teams that are surrounding us belong to?"

Lin Yi's sharp senses told him that there might be a chance to escape, and he was sure that there were a few groups of Warriors from different tribes around!

This was because the various tribes of the darkness magical beast clan also had their own totem marks, and they could be distinguished with a little attention!

If the dark Demon beast Army was like a piece of iron, Lin Yi could only continue to force his way through, but it seemed like they didn't cooperate well. There were even some situations where the commands affected each other!

There was a chance!

Daniya followed Lin Yi and had the movement formation to protect her, so she didn't use up as much energy as he thought. She was able to fight with ease, and she looked around after hearing Lin Yi's question.

"No problem! I'm very familiar with the totem marks of each tribe, and I can recognize them as soon as I see them. For example, that's the tribe of the high priest of the wasteland, which is where Senlan wuhun is. That's ... That's ... And that's the tribe of the high priest of the barren sky!"

Daniya casually pointed out the six tribes in the surroundings as if she was counting her family's treasures.

"Senlan wuhun's tribe is also among them?"

Lin Yi's lips curled up into a meaningful smile. Using Senlan wuhun's body to create a vengeful spirit to track him ... Would the tribe be doomed?

"Yes, Senlan wuhun's tribe is very powerful. My tribe is also under the wasteland high priest tribe, so I was recruited into Senlan wuhun's Garrison!"

Daniya casually explained her identity, indicating that she wasn't from the same tribe as Senlan wuhun, and that she was only a subordinate of this tribe.

Lin Yi understood-it was the same in human society. There would always be many smaller families living under a powerful family, but these small families were only subordinates, not members of the powerful family!

When there was a conflict of interest, it wasn't uncommon for both sides to turn hostile, and Daniya also used this to show that she wasn't close to Senlan wuhun.

"I see ... Daniya, how is the relationship between these tribes? Especially Senlan wuhun's tribe, do they have a good relationship with the other tribes?"

Lin Yi asked as he moved towards the high priest.

From the dark Demon beast's formation, the high priest's formation was thicker, and it wasn't a good choice to break through, but Lin Yi's sharp eyes noticed that the other tribes were keeping a distance from the high priest tribe.

It wasn't obvious, but it did exist!

This was the flaw!

Perhaps it was a deliberate act to lure Lin Yi and Daniya into using it, but Lin Yi was more willing to believe that it was the vengeful spirit that brought bad luck to the tribe, affecting the mentality of the soldiers!

The dark Beast clan attached great importance to the inheritance of the wizard clan, or rather, they revered it. Even if the legend said that it was a tribe of the dead, the soldiers under them did not dare to take the risk to get too close. What if the bad luck was contagious?

If there was an order from the top that forced everyone to cooperate, the soldiers could not refuse. But when there was no such order, they would instinctively keep a distance, so they would not be blamed.

It was just like when you were on public transport and the person sitting next to you farted, you would also instinctively turn your head to keep a distance ... It was awkward but polite!

If the other party were to make a false accusation and preemptively look at you with a disdainful expression, even using their hands to cover their mouth and nose, then only embarrassment and rudeness would remain!

Anyway, the tribe of the wasteland high priest was the passenger who farted. The tribes around him instinctively moved away, leaving some space for Lin Yi to break through!

Daniya didn't even need to think about Lin Yi's question before answering, "We don't have a good relationship with the other tribes, but we don't get along well with high priest Huang Kong's tribe. We often have small-scale conflicts!"

"However, when Senlan wuhun was still alive, the tribe of the high priest of the barren sky could not gain any advantage. It was almost as if they were being pushed to the ground. Now that Senlan wuhun is dead, the tribe of the high priest of the barren sky will probably be the happiest!"

Lin Yi looked at the position of the high priest tribe. Daniya had pointed it out just now, so there was no need for her to point it out again!

Very good!

The teams of the two tribes were next to each other! The distance between the two tribes was even larger than the other tribes! The formations of these two tribes were the deepest, and it would be harder to break through, but Lin Yi felt that this was the opportunity he wanted!

"Daniya, let's go and greet the Senlan soulless tribe! At the same time, I can help them recall the memories of the forest orchid soulless!"

Lin Yi's lips curved into a smile that wasn't a smile as he killed a few soldiers and sped up with Daniya.

Chapter 8889

Daniya didn't ask why. From the conversation she had with Lin Yi, she could roughly understand what he was thinking! Smart people didn't need to say it out loud. They could easily guess each other's thoughts.

The high priest tribe's soldiers saw Lin Yi and Daniya charging at them and were all pumped up, screaming and charging at them.

If one were to ask who wanted Lin Yi and Daniya dead the most, it would be all the dark beasts in the wasteland high priest tribe!

The genius commander Senlan wuhun was killed by Lin Yi and the traitor Daniya, and his body was made into a vengeful spirit to track enemies, bringing bad luck to the tribe!

Seeing Lin Yi and Daniya, the dark beasts of the wasteland high priest tribe wanted to skin the two alive!

Unfortunately, the dark Beast soldiers in front of Lin Yi and Daniya were treated as cannon fodder by the high priest. They might be strong on the outside, but they were nothing in front of Lin Yi and Daniya!

Lin Yi moved with the formation and easily stabbed into the formation like a sharp blade. Daniya followed closely behind and turned into a blade, widening the wound on the formation even more!

In the moment of contact, the two of them had killed seven or eight mountain opening stage soldiers, and the others were also unstoppable. They were forced to retreat by Lin Yi and Daniya's aura!

If the surrounding tribes could send reinforcements at this time and surround them from all directions, Lin Yi and Lin Yi would be surrounded, and it would be more difficult to break out.

However, the surrounding tribes didn't come to help immediately as Lin Yi expected. They didn't even close the gap between the high priest tribe and the barren earth Tribe, letting Lin Yi and Daniya charge left and right in the formation!

Especially the group from the high priest tribe. Not only did they not come to help, they even opened up more distance and spread out, forming a new encirclement to prevent Lin Yi and Daniya from breaking out.

The darkness magical beasts of the barren high priest tribe thought to themselves, "it's already the greatest tolerance that they didn't hit him when he's down. They definitely won't help, but they can't let the target escape either, so it's reasonable to block him from the outside!"

"Sima Yi, you've guessed right! As expected, the barren high priest's tribe didn't come to help. They even opened up space for us, giving us more space to move around! Are we going to break through this gap now?"

Daniya was secretly happy. She could see the hope of breaking through. The two tribes of the wasteland high priest and the barren high priest were fighting on their own. If they broke through the gap, the success rate would be very high!

Even though the dark magic beasts of the barren high priest tribe had set up a blockade, in Daniya's eyes, it was a complete waste of effort! How could they stop Lin Yi's escape if they spread out their forces and stretched the battle line?

Especially in this position, the barren high priest's tribe could be used to block the other tribes. Lin Yi and Daniya only needed to break through the barren high priest's tribe and they would have a 50% chance of breaking out!

"That's fine, but we have a better choice!" Lin Yi smiled.

As he spoke, he launched a large-scale divine sense vibration. After his primordial spirit reached the mid-stage of heaven breaking, the range and power of the divine sense vibration were more than ten times stronger than when he was at the great circle of the sea splitting realm.

The wasteland high priest tribe was the best at defending against spiritual sense attacks. After Senlan wuhun's death, there was no commander. In addition, most of the spiritual sense power had been taken away by Senlan wuhun, and the rest were with the wasteland high priest.

They all knew that they were cannon fodders, and the top-tier ones wouldn't waste their lives here. Lin Yi's spirit sense was invincible, easily knocking out these soldiers.

For a short period of time, they would be in A State of Trance, unable to stay awake.

Lin Yi took the chance to activate the illusory formation elements in the movement formation. The dark beasts in front of him were already in a daze and couldn't tell the difference between reality and illusion. Once the illusory formation was activated, they were instantly trapped in it without knowing it!

The contents of the illusion formation were simple. They hid Lin Yi and Daniya's real existence and turned the soldiers into Lin Yi and Daniya.

The dark beasts who were trapped in the illusion didn't even think about why Daniya and Lin Yi suddenly changed their positions. They turned their guns and charged at the high priest's formation!

"F * ck! Were they crazy? Why are you charging at our formation?"

"Stop! All of you, stop! This is our place ..."

"Block them, don't let them rush over and mess up the formation! Block it ..."

The soldiers of the barren high priest tribe were shocked. Although they didn't get along well with each other and often had small conflicts, they would never make mistakes when it came to important matters!

So what was going on? It was a great sin to attack one's own defense line for no reason!

As a result, these soldiers still felt that they were lucky. They felt that the soldiers of the wasteland high priest tribe were just impulsive. They were angry that they didn't go to the rescue, so they deliberately attacked to scare them. In the end, they stopped in time!

They immediately realized that they were thinking too much. The soldiers of the wasteland high priest tribe all had ferocious expressions, as if they were enemies who had killed their fathers. They didn't seem to stop at all.

Although the soldiers of the barren high priest had made some preparations, they were still not fully prepared. They were shocked by the impact of the opposite side. As soon as the two sides met, the barren high priest's side suffered quite a number of casualties!

"Kill them! This group of bastards was serious! They want to use this opportunity to deal with us!"

High priest Huang Kong's soldiers roared and attacked mercilessly. The two sides had truly entered an all-out battle!

Lin Yi and Daniya hid in the illusion formation and mixed in with the high priest's group. They didn't pick a target and just attacked whoever was close to them!

The vibration of the divine sense did not stop. As long as they were within the attack range, no one could escape!

Without a way to defend against the attacks, Lin Yi was like a fish in water. No matter how many there were, he wasn't afraid. The Wu Linghai was truly as vast as the ocean, and the consumption of the consciousness shock was just a drop in the ocean!

"Sima Yi, you're amazing! To think that they could think of such a method to make them attack each other and create chaos. Even without the influence of the illusory formation, the two tribes that are fighting will definitely not let this go!"

Daniya laughed in a relaxed manner in the moving formation, ""The high priests of the barren earth and the barren sky tribe have never been on good terms with each other. This might even become the fuse for the war between the two tribes!"

Chapter 8890 The End

After saying that, Daniya realized that her tone was somewhat gloating and quickly reminded herself that she couldn't have such thoughts! After all, she was a spy from the darkness demon beast clan, and the tribe of the high priest of the desolate lands was still her sect master's tribe. Once the two tribes fought, her clan would also be involved, and she definitely couldn't stay out of it.

How troublesome!

For the sake of their own lives, it was understandable to kill some darkness demon beast soldiers, but to start a war between two tribes, that would really be a traitor!

For a moment, Daniya felt a little conflicted. She didn't know what she should do. Her mind was also constantly changing, wavering left and right. In the end, her position as a spy had already begun to waver!

Lin Yi didn't notice the change in Daniya's heart. He raised his head and looked at the giant face of the vengeful Spirit in the Sky, smiling faintly, "Causing chaos and instigating a civil war isn't the goal! Even though we can hide among them and fish in troubled waters, temporarily gaining a chance to catch our breath. "

"But as long as we don't get rid of the vengeful spirits 'tracking methods, even if we break out of the encirclement, we won't be able to escape in peace. We'll be chased all the way!"

These dark beasts were just cannon fodder, and Lin Yi knew that. He could see through the dark beasts 'plans with one look, so he didn't think that these soldiers were the real enemies he had to face!

There would definitely be even stronger darkness magical beast experts appearing in the future. Not only in terms of strength, but also in terms of races and methods that restricted spiritual sense attacks!

If he wanted to escape in peace, he had to deal with the vengeful spirit that Senlan wuhun's corpse had refined!

Thinking about it, it was really bad luck. Senlan wuhun could be considered a ghost that refused to leave! When he was alive, he had caused a lot of trouble. Even if he was dead, he still did not live in peace!

Daniya was slightly startled when she heard this: "Sima Yi, don't tell me you're going to deal with that vengeful spirit?"

She didn't know if she should say it out loud!

Even a fool would know that the vengeful spirit would be the central hub of the Allied forces!

Not to mention how strong the guards were, just the high priests of the tribes, which one of them wasn't an existence with a fierce reputation? If one's methods and strength could not suppress a tribe, how could one become a high priest?

It was already very difficult to break out of the encirclement. If they wanted to do the opposite and take the risk of going to the core position, wouldn't that be courting death?

No matter how shocked Daniya was at Lin Yi's abilities, she didn't think that she could come back alive after taking such a risk!

"No! It was too dangerous! Although it would be troublesome to be tracked, it was still better than death! After we break out of the encirclement, we'll quickly find a node that can be opened. As long as we return to the underground Devil's Den, everything will be over!"

The vengeful spirit would not rest until Lin Yi's killer died. Only when Lin Yi died would the vengeful spirit completely disappear!

But if Lin Yi left the world inside the node, theoretically speaking, it was the same as dying. The vengeful spirit might even be fooled and disappear!

Daniya's idea was to take advantage of the chaos created and the fact that the darkness magical beasts had yet to send out their elite experts to quickly break out.

With her and Lin Yi's speed, even if they couldn't shake them off, it wasn't impossible for them to fight and run. As long as they weren't surrounded again, they had a good chance of going back to the underground cave!

He could clearly live, so why did he have to die?

"Daniya, if we don't get rid of the vengeful spirits, we won't be able to escape! The current chaos is nothing. They are just cannon fodder. I think they have already begun to react!"

Lin Yi's thoughts were clear, and Daniya was confused, "The chaos of the cannon fodder won't shake the foundation of this operation. They have enough numbers to make up for the small mistakes in front of us!"

"You think that breaking out now is a good opportunity, and they will think the same. Therefore, our breaking out of the encirclement is within their expectations! If we follow their rhythm, what good will there be?"

"On the other hand, if we launch a surprise attack on the command center of this operation, it will exceed their expectations. Won't the success rate increase? Once we get rid of the vengeful spirits that are chasing us, we will be free to fly in the sky and the sea will be wide!"

For a moment, Daniya thought that Lin Yi was right ... But even if he was right, it didn't change the fact that it was a death sentence!

"Sima Yi, have you thought about it? The Vengeful Spirit can sense our location. If we want to attack, we can't hide from the eyes and ears of the command center! Our only chance is to catch them off guard. Otherwise, how can we get close in such a large Army?"

Daniya quickly thought of a point to refute, but Lin Yi only smiled noncommittally!

"That's why we need to create more chaos!"

As Lin Yi spoke, he brought Daniya away from the two high priests' formation, allowing them to fight on their own!

The Warriors of these two tribes had already gone mad from the killing. Both sides had completely mixed together, and it was impossible for them to separate even if they wanted to. Even without the influence of the illusory formation, they would not be able to stop the battle.

Lin Yi, on the other hand, took Daniya and cut into the other tribe's troops. He used the same method to affect the soldiers' minds and then used the illusion formation to lead them into the battle, attacking the high priests of the barren earth and barren sky at the same time!

If they wanted to spread the chaos, they just had to drag more tribes into the water!

Not long after, Lin Yi's plan was successfully completed, and the cannon fodder teams that were blocked were all in a chaotic battle. The disadvantage of the lack of a unified command could be seen now!

This also proved how important an outstanding commander was to a loose Alliance like the darkness demon beast clan!

A plate of loose sand, the more the number, the less the effect it could play!

The command center of the darkness demon beast Alliance Army!

Just as Lin Yi said, Grand priest Huang Kong and the others had already reacted. Of course, before they did, they criticized each other.

"Look at what your people have done! You can't do anything right, but you're good at ruining things. You attacked your own territory and caused the other tribes to fall into chaos. Your tribe will not be able to escape this punishment!"

Grand priest Huang Kong pointed at the nose of the Grand priest of the barren lands and scolded him. The other Grand priests of the other tribes did not say anything.

It was true that the wasteland high priest tribe was the first to start the chaos, and the wasteland high priest had to take the blame!

The wasteland high priest's face darkened, and he snorted coldly, ""If that human didn't have any tricks up his sleeve, how could he have escaped from Senlan wuhun's pursuit time and time again? in the end, he even broke the wizard Yuan God-devouring formation?"

"The current chaos is only used to exhaust that human and traitor Daniya's cannon fodders. Which one of you has any hope that they can take down that human and traitor Daniya? I don't think so?"
