

## Bodyguard 8891

### Chapter 8891 The End

"Isn't the current chaos expected? Moreover, the Warriors of our tribe were only there because they were the first to be targeted by that human! Weren't the other tribes affected as well? It's just that the order is different. Huang Kong, your tribe is the second one. If you really want to count, you can't escape, can you?"

Grand priest Huang Kong sneered, "you still have the face to criticize our tribe? If it wasn't for the trash of your tribe, how would our Warriors have fallen into the quagmire of a chaotic battle? The subsequent tribes won't be affected as well!"

"After all is said and done, it's all your tribe's problem! Just because Senlan wuhun is dead, does your tribe not have any fighting power? Not only do they have no combat power, but they're also being used by that human. It's simply shameful!"

"Desolate earth! This matter was caused by your tribe's soldiers, so you have to take responsibility! Immediately think of a way to quell the chaos!"

As the leader of the command center, Huang Kong had the right to give orders. The high priests of the other tribes had no objections. They would be happy to let the tribe of the high priest of the barren lands do the strenuous and unrewarding work!

Senlan wuhun was dead and had been refined into a vengeful spirit guide. The tribe of the high priest of the wasteland was destined to suffer a misfortune. This was only the prelude. They all thought it was reasonable!

The wasteland high priest's face was gloomy. If it was only high priest Huang Kong who was targeting him, he could still fight back. But now, it was obvious that all the high priests of the tribes had reached a tacit understanding and wanted his tribe to be the first one to stand out.

He had no choice. He was powerless to resist this matter. If Hua gangluo were to punish his tribe at the same time, the destruction of his tribe would only be an instant.

"Good! Good! Good!"

The high priest of the wasteland gritted his teeth and spat out the word "good". He suppressed the anger in his heart and gave the order to suppress the chaos!

This time, all the elites of the wasteland's high priest tribe were sent out. The other tribes just watched from the sidelines, wanting to continue to see the development of the situation before making a decision.

If he still wanted to preserve his strength and send his men out bit by bit, it would only be a strategy of adding fuel to the fire, and Lin Yi would slowly eat them up. If he wanted to reduce his losses, he had to go all out and launch a thunderous attack!

Lin Yi led the cannon fodder troops of a few tribes and charged towards the command center of the dark Demon beast clan in a chaotic manner, but they didn't get too far before they encountered the main elite force of the wasteland high priest tribe!

The strength of the two couldn't be compared at all. The main force with the defensive spirit sense could at least block Lin Yi's spirit sense shock and not be affected by the illusion formation and fall into chaos.

The order that the main force received was to suppress the chaos with all their might, so they didn't show any mercy to their allies' attacks. In just a dozen seconds, they had killed 70% to 80% of the cannon fodder team that had fallen into chaos!

Fortunately, Lin Yi and Daniya were strong enough to break away from the cannon fodder and cut into the main force of the wasteland high priest tribe.

Although these were the true elites, after losing Senlan wuhun, they lost a general. They lost the whole team and couldn't put up much resistance against Lin Yi and Daniya, who were stronger than them individually. Their lives were reaped mercilessly!

Lin Yi's hands didn't stop, and his spirit attacks didn't stop either. All sorts of spirit attacks were unleashed, and even if the desolate earth high priest's Dark Demon beast soldiers had spirit defense methods or items, they couldn't keep blocking Lin Yi's continuous attacks!

Lin Yi had killed all the normal dark beasts below the sea shattering realm. It wasn't until he met a Dark Beast at the early stage of the heaven breaking realm that he broke through its consciousness defense and used the soul-hooking hand!

A Soul Reaper!

The early heaven crushing Dark Demon beast's body trembled, and dozens of wounds appeared all over its body. Blood gushed out like crazy.

It looked extremely miserable!

"Vice commander!"

"Protect the Deputy commander!"

A few of the dark Demon beast soldiers beside him yelled as they surrounded him and protected him. They quickly retreated, and in the gaps of the crowd, the Deputy commander's eyes were complicated. He looked at Lin Yi from afar and disappeared into the dark Demon beast soldiers.

A faint smile appeared on Lin Yi's lips as he turned back to continue his massacre with Daniya. It was undeniable that the main force of the wasteland high priest tribe was an elite force. Even though some of them were being massacred, they didn't waver and continued to surround Lin Yi and Daniya.

As more and more heaven breaking Masters joined the battle, the pressure on the two increased. Lin Yi seemed to be unable to hold on any longer and started to escape with Daniya.

"Sima Yi, what happened? Have we given up on the plan?"

Daniya was busy, but she still noticed the change in direction, "Should we break out of the encirclement or take a detour?"

"Break out! The speed at which the enemy sent out their elite troops was much faster than I thought! There was no need to continue the assault! While there are still some soldiers in chaos who can help us hold them off, we should quickly break out of the encirclement!"

Lin Yi said simply, continuing to play the role of a sharp knife. "As for the vengeful spirits that are following us ... We don't need to worry about them!"

Daniya was confused. Why didn't she need to worry? Weren't you the one who was so worried and said that they wouldn't be able to escape if they didn't get rid of the vengeful spirit?

Why did he back out when he encountered a little difficulty? No, I just said that we should break out directly! Wasn't this delaying the workers!

Daniya cursed in her heart, thinking that Lin Yi's decisions these two times were crazy!

If they had used the chaos to break out of the encirclement, they might have already escaped from the encirclement. They would not have fallen into a deeper encirclement like they were now!

The main force of the high priest tribe had moved. The main forces of the other tribes hadn't joined the battle yet, but they all moved as well, replacing the cannon fodder teams and surrounding Lin Yi and Daniya!

The difficulty of breaking out of the encirclement had increased by more than ten times!

However, Daniya couldn't complain about Lin Yi now. She gritted her teeth and continued to follow Lin Yi!

"Desolate earth, your tribe's Warriors are not bad. The battle is going very smoothly! It seems like we don't need to do anything. Your men are enough to kill that human and the traitor Daniya!"

Grand priest Huang Kong was very relaxed after seeing that the situation was stable. He had a gloating smile on his face. "This is also a chance for you to personally take revenge. I think Senlan wuhun will be very pleased. The murderer will eventually die at the hands of his own tribe, right?"

The high priest of the wasteland's face turned pale. He had sent out all his elite forces to reduce losses, but what happened in front of him still made him feel like he had fallen into an ice cave!

Chapter 8892

Lin Yi and Daniya's strength was beyond his imagination. He couldn't stop the damn humans and traitors with his numbers advantage!

Seeing his elites being quickly consumed, the wasteland high priest's heart felt like it was bleeding!

"Desolate! And all of you! Do you really want to see our entire tribe killed before you're willing to help? Is this the Alliance Army we talked about?"

The high priest of the wasteland suddenly shouted, the veins on his forehead bulging, and his eyes turning red. He was obviously furious. "Huang Kong is abusing his power to deal with our tribe! You completely don't remember how you promised to take revenge for Senlan wuhun after our tribe took out her corpse and eliminate the threat of our entire darkness demon beast clan!"

"You're in cahoots with Huang Kong now. You're just watching our tribe die out without saying anything. In the future, when you encounter the same situation, who will say anything?"

When I was killed, you stood by and did not help. When he was killed, you still stood by and did not help. When you were killed, no one stood by and did not help anymore because everyone else had been killed, so no one would come out to help!

It had to be said that the meaning behind the words of the high priest of the barren lands had indeed touched the nerves of the other high priests!

If the Grand priest of the barren lands could deal with the Grand priest of the barren lands in this way, he might be able to deal with the others in the future. Who would be the next one to be targeted?

With the tribe of the high priest of the barren lands, at least he could have a shield in front of the high priest of the barren lands. In this way ... He really couldn't watch the tribe of the high priest of the barren lands be completely destroyed!

"That human and the traitor Daniya are our common enemies! "Although the tribe of the wasteland's high priest wants to take revenge with their own hands, for the sake of the future, we must seek victory in a stable manner. We must not leave any loopholes for those two damn bastards to escape! Thus, our tribe requests to fight!"

One of the high priests had a good relationship with the wasteland high priest, and after weighing the pros and cons, he was the first to speak up, saying that he wanted to work with the wasteland high priest to deal with Lin Yi and Daniya!

The gun hits the bird that takes the lead! The first person to step forward would definitely cause the dissatisfaction of Grand priest Huang Kong. The second and third would not have so many scruples. The law could not punish the masses!

If he wanted to deal with the barren high priest, he would only start with the first one. Before that, he would probably have to find a way to get rid of the barren high priest's tribe!

Therefore, after the first one stood out, the other high priests immediately followed!

They didn't want to help the high priest of the barren land. They just wanted to protect themselves. As the high priest of the barren land had said, if they didn't make their stance clear now, they might be defeated by the high priest of the barren land one by one later!

This time, it was high priest Huang Kong's turn to be livid!

He didn't expect that the high priest of the wasteland would turn the situation around with a few words. The entire command center was about to unite and exclude him!

With the orders from the tribes, the main forces of the tribes began to join the battle, truly joining in the pursuit of Lin Yi and Daniya!

It was a pity that Lin Yi and Daniya were only two people, surrounded by people. They only had to face a few dozen people at the same time, and while it was harder to break through, the danger didn't increase by much.

Unknowingly, the main force of the dark Beast clan had been attracted by Lin Yi and Daniya, following them as they moved. The command center of the dark Beast clan remained where it was.

The heaven-Sundering primary stage vice-commander from the wasteland high priest tribe who had taken Lin Yi's soul-snatching hand and had dozens of wounds on his body spurting out blood had already retreated from the battlefield. He was being tended to by two guards as he moved towards the command center.

As he moved, the Deputy commander often looked at the abstract face formed by the vengeful Spirits in the Sky. It was nothing at first, but after a few more times, the guards around him noticed it.

"Deputy commander, why do you keep looking at that thing? Don't you think it's a little too much? The Marshal is already dead, but he's still being refined into a vengeful spirit ... Although it's to avenge the Marshal, that thing will bring disaster to our tribe, so it's better not to look at it!"

The guard looked a little indignant. As a member of the wasteland's high priest tribe, he used to be proud of having a commander like Senlan wuhun.

However, he did not approve of using Senlan wuhun's corpse to make a vengeful spirit. He actually represented the mentality of the middle and lower-level tribal warriors!

There was no problem in killing the enemy for revenge, but using the corpses to create vengeful spirits to pursue the enemy would bring disaster to the tribe. However, it would definitely not be able to obtain the support of these middle and lower-level soldiers!

"Yup! This is an inauspicious item that will bring disaster to our tribe! I'm sure Senlan wuhun wouldn't want to become such a thing after he died. "

The Deputy commander spoke in a low, hoarse voice. The ghostly thing in the Jade space had many question marks above his head, as if someone was scolding him, but he had no evidence!

Without a doubt, this deputy commander was no longer the original deputy commander! He didn't have any skills or items to defend against spirit sense attacks-he couldn't block Lin Yi's soul-taking hand at all!

There was only one reason why he was still alive and kicking. The Vice commander's essence spirit had been replaced by Lin Yi!

That's right, the one who was occupying the body of the Deputy commander was naturally the Big Shot of the Sorcerer tribe, the Starlight great sorcerer!

This traitor had tried to possess Lin Yi before, and after he was put into the Jade space, he was pressed down on the ground by the nine neonate and rubbed repeatedly. He went through unimaginable pain and torture before finally admitting his mistake!

After that, he'd been branded with the slave mark of the spirit beast clan. From then on, his life and death were in Lin Yi's hands, and he'd lost all thoughts of resisting.

The beast clan of darkness had used the Sorcerer clan's evil methods to create these vengeful spirits. If they wanted to break the spell, the Starlight sorcerer would be the most suitable!

Lin Yi's previous series of actions was just to send the Starlight Magus safely into a suitable body of a Dark Demon beast!

It wouldn't work if one's strength was too low, and it wouldn't work if one was too strong!

A weakling's body could not support a great Starlight wizard to complete the task. If the body was too strong, the soul-hooking hand might not be useful, and a great Starlight wizard might not be able to control a body that was too strong as easily as his own arm.

The early heaven crushing realm was the most suitable! And so, this vice commander was very honored to be in Lin Yi's eyes-his essence spirit was taken away and replaced with a new one!

The Starlight wizard used his injuries as an excuse to retreat from the battle. Lin Yi and Daniya changed their plan of attacking the command center and focused on breaking through, attracting the majority of the dark Demon beasts' main forces.

All their attention was on Lin Yi and Daniya. The high priests in the command center, even if they had extra attention, were all focused on fighting each other. No one would have thought that Lin Yi would send a Grand Wizard to destroy the vengeful Spirit's tracking mission!

Chapter 8893 The End

Sometimes, being too weak was an advantage. If it wasn't for the fact that Lin Yi and Daniya couldn't do anything, these high priests wouldn't be fighting each other.

If it was a war between two equally matched races, they would definitely be of one mind, throw away all their little thoughts, and fight against the enemy as one!

It was precisely because Lin Yi and Daniya weren't a threat that they didn't care about them at all. They said they were taking them seriously, and even sent millions of soldiers to surround them.

Under such an overwhelming situation, everyone's thoughts would come out, and this would become their biggest flaw, but no one had noticed it!

"You can leave first. I have to report this matter to the high priest! The other tribes are clearly targeting us and want us all dead. I'm very worried that the high priest will be in danger!"

The great Starlight wizard found an excuse to send away his personal guards. Then, he dragged his wounded body and walked to the command center openly.

"I request to see our tribe's high priest. I have important military information to report!"

The Starlight Magus didn't have Lin Yi's soul-searching ability, so he didn't know anything. He could only rely on his last minute tricks and show his identity card, pretending to be nervous and anxious.

Every tribe had a share of the guards in the command center, and no one would feel at ease putting themselves in a dangerous situation that they couldn't control. Therefore, each tribe sent a few powerful warriors to keep each other in check. Therefore, this vice-commander possessed by a great Starlight wizard also had some acquaintances.

Hearing that there was an important military report, the guards of the wasteland high priest tribe did not doubt him and immediately came forward to prove it. They didn't even ask any questions and directly let the Starlight wizard pass!

Originally, the Starlight wizard was a little nervous, but it was not entirely an act. He was afraid that he would give himself away and not be able to enter the command center and approach the vengeful Spirit's origin!

He didn't expect it to be passed so easily ... Was it so sloppy?

In any case, this was a good thing. The Starlight wizard nodded casually as a greeting, and immediately rushed into the command center with a serious face, facing the high priests of all the tribes of the Allied forces!

Uh ... The scene was a Little Big. The Starlight great shaman secretly swallowed his saliva and felt a little panicked!

This ... Didn't seem like he could beat even one of them! Can you run away later?

What he was doing now was like digging out a hornet's nest under the watchful eyes of a Hornet ... He couldn't run away from the Hornet and couldn't stop the sting. He was like an old man hanging himself, tired of living!

"What is it?"

The high priest of the barren lands was in a slightly better mood. With the support of those tribes, his tribe could temporarily retreat and retain some strength. At least they could retain a lot of vitality!

The Starlight wizard wanted to cry, but he couldn't!

It was all her own fault, she wanted to take over Lin Yi's body and ended up being completely controlled, putting her life on the line for the mission's success!

If he failed the mission, he would definitely die. If he succeeded and escaped while they were unprepared, he might still have a chance to survive.

He was a great Starlight wizard, but he had to do such a dangerous mission! If he didn't complete this mission, he would end up the same as failing the mission. He would definitely die!

Starlight cursed Lin Yi in his heart, but he had to focus on the current situation. It was a mission with a 90% chance of survival! If he didn't be more careful, even his only chance of survival would be cut off!

"High priest, this subordinate has top-secret military intelligence to report!"

The Starlight sorcerer saluted as he slowly moved closer to the wasteland high priest, as if he was going to whisper something to him.

Grand priest Huang Kong's face darkened and he shouted, ""How audacious! Don't you know where you are? It's a top-secret military intelligence, do you want to hide it from us? What was his intention? Could it be that your tribe is planning something that can't be seen by others, so you're trying to avoid us?"

"Desolate earth, your subordinates are really loyal! Other than you, I don't care about anyone else! Do you need us to make room for you so that you can speak and do things without fear?"

High priest Huang Kong mocked and ridiculed the other high priests. By using this as an excuse, he had isolated the high priest of the barren lands!

The high priest of the wasteland did not back down and sneered, ""This father's subordinates only have this father in their eyes. Do I have to give you face? Do you think that everyone will be like your subordinates, looking down on you and only paying attention to the high priests of other tribes?"

The fact that the Deputy commander possessed by the great Starlight wizard was loyal to him was perfectly normal, and he didn't ignore the other Supreme oracles. He also mocked the subordinates of Supreme Oracle Huang Kong, saying that they were all two-faced and had no loyalty!

"If we're talking about loyalty, all of our tribes added together can't compare to you. Daniya is truly a model of loyalty!" Should we call on the entire Army to learn from your tribe on how to cultivate a loyal subordinate like Daniya?"

The mockery continued. The high priest of the barren lands seized the opportunity to rub salt into his opponent's wound. Daniya was the thorn in the high priest's heart. After being caught and ridiculed, the veins on his forehead popped out, and he had nothing to say for a moment.

The truth was right in front of them-Daniya was still killing with Lin Yi, and no one in the Army would believe her if she said she wasn't a traitor.

Starlight sorcerer looked at the two high priests fighting each other and was secretly happy. It seemed that the difficulty of the task was not as high as he had thought! It wasn't to the extent of a 90% chance of survival, but it could at least increase the chances of survival by 0.5, right?

Taking advantage of the opportunity when the big shots were tearing at each other, the fuse, the Starlight wizard, moved quietly, as if he wanted to avoid the center of the storm, so the high priests did not care too much.

Everyone could understand. If they were in this position and situation, they would also want to retreat a little to avoid becoming a punching bag.

No one would have thought that this unremarkable guy's target was actually the vengeful Spirit in the Sky!

He didn't attract too much attention. After making some slight adjustments, the Starlight wizard felt that he had reached a similar position, so he immediately began to prepare himself mentally!

He was so nervous!

He only had one chance, and failure meant death! Success meant 8.5 deaths and 1.5 lives! Don't ask how this probability was calculated, it was the spiritual mind unique to the Sorcerer tribe!

Barren Earth's high priest was speechless after being scolded by barren sky's high priest, so he could only change his target to ease the embarrassment. The Deputy commander possessed by great star wizard was naturally the best target.

"You! What was he doing? If you have any military intelligence, say it quickly. This is the highest command of the Alliance Army. Every high priest present has the right to know any information! Speak!"

If the great Starlight wizard couldn't give a good reason, the high priest of the wasteland didn't mind teaching him a lesson! You blind thing, you made me lose face!

Chapter 8894 The End

Great Starlight wizard knew that he could not delay any longer. If all the Grand priests' attention was shifted to him, the difficulty of the operation would increase again!

The 0.5% increase in survival rate was about to be lost again ...

"Yes! This subordinate is impolite! The military intelligence I want to report is ..."

Great Starlight wizard could not continue to prepare himself mentally. While he pretended to report, he secretly made up his mind and gritted his teeth.

As he was speaking, the Starlight sorcerer moved without warning. He turned into an afterimage and instantly rushed into an illusionary cage next to the vengeful spirit origin and taunted the high priest Huang Kong!

In this illusory cage, there was an illusory Senlan wuhun. His face was ferocious, his appearance twisted, and he was roaring silently. It was exactly the same as the huge abstract face in the sky!

The illusory cage imprisoned the vengeful spirit, but it did not stop the physical body from entering and leaving. Therefore, the Starlight wizard entered the cage without any hindrance and approached the vengeful spirit, Senlan wuhun!

Grand priest Huang Kong was taken aback. After a brief moment of daze, he immediately regained his senses and shouted, ""What do you want to do?"

Unfortunately, he could no longer stop the great Starlight wizard from doing what he wanted to do!

This was why the Starlight great wizard needed to possess the body of an early stage heaven breaking expert. If he was not in the heaven breaking realm, he would probably be stopped by Grand priest Huang Kong before he could enter the illusory cage!

How could the Starlight wizard have the time to pay attention to Grand priest Huang Kong? He could only leave after dealing with the vengeful spirit. If he didn't complete his mission, he would probably be killed by Lin Yi when he returned. Even if Lin Yi didn't kill him, that bastard jiuying wouldn't let him go!

In the inheritance of the wizard clan, there were several ways to deal with vengeful spirits, the kind that didn't have any hidden dangers, but it would take time. It wasn't an exaggeration to say that the time given was enough for the great Starlight wizard to be torn to pieces by the dark Beast clan 10000 times!

Therefore, the Starlight wizard had no choice but to use the fastest and most violent means to solve the problem of the vengeful spirit tracking!

That's right, it wasn't to get rid of the vengeful spirit, but to solve the problem of the vengeful spirit tracking Lin Yi. As long as he couldn't find Lin Yi's location, the Starlight Magus didn't care about the vengeful spirit!

"Get out here!"

Grand priest Huang Kong did not expect a response from the Starlight great shaman, so he rushed over while shouting. The distance between the two sides was so small that it could be erased in an instant.

However, Grand priest Huang Kong was still a step too slow!

After the Starlight wizard entered the illusory cage, he immediately self-destructed his body!

The self-destruction of an early heaven crushing expert!

Putting its power aside, the extremely rich essence of the flesh and blood had completely incited the vengeful spirits 'greed. By the time Grand priest Huang Kong arrived, the soulless vengeful spirits had already absorbed more than ninety percent of the flesh and blood essence!

The vengeful spirit, which had been illusory and twisted, turned blood-red and looked much more solid. When it saw Grand priest Huang Kong rushing over, it opened its mouth and roared at him.

An invisible wave of air exploded, and the illusory cage that imprisoned the vengeful spirit collapsed and dissipated instantly!

The Starshine Magus, who had already turned into a spirit, quickly sneaked out. He knew Lin Yi's life-saving method as well. The moment his body self-exploded, his spirit would leave his body and disappear, so he wouldn't be hurt by the explosion.

However, after the vengeful spirit absorbed the blood, flesh, and essence, the Starlight Magus in the primordial spirit state would become the vengeful Spirit's food!

If Grand priest Huang Kong had not arrived in time and attracted the attention of the vengeful spirit, causing the illusory cage to break, great Starlight wizard would have died!

The illusory cage had no effect on the physical body, but it had a super strong binding effect on the primordial spirit. If the evolved vengeful spirit had not broken the cage, great Starlight wizard would not have been able to escape at all!

Vengeful spirits that had evolved were originally more interested in food like primordial spirits. However, Grand priest Huang Kong was different. He was the one who was directly responsible for refining vengeful spirits from Senlan's soulless corpse. Although vengeful spirits had no memories and consciousness, they instinctively hated Grand priest Huang Kong. That was why they let great Starlight shaman's primordial spirit go and attacked Grand priest Huang Kong directly!

Although great Starlight was in his primordial spirit state, he still felt cold sweat all over his body ... He was almost eaten by the vengeful spirit as a snack! It was so F \* cking exciting!

The blood red vengeful spirit was extremely aggressive, but its ability to track Lin Yi had completely disappeared. This kind of violent method wouldn't destroy the vengeful spirit directly, but instead, it used its bloodthirst to replace the tracking ability.

In the end, even the great Starlight wizard did not know how this blood-red vengeful spirit would develop. Perhaps it would die on its own soon, or perhaps it would evolve again and form a new consciousness after devouring enough blood, flesh, and essence!

Of course, even if they had consciousness, they would no longer be soulless!

The Starlight Magus didn't care whether the vengeful spirit would live or die in the future. He only cared about whether he could escape in the chaos. Whether he would live or die depended on this wave!

If he couldn't break through, he would probably become snacks for the blood-red vengeful spirit!

Fortunately, when the barren high priest was attacked by the blood-red vengeful spirit, the other high priests, including the barren high priest, were all extremely shocked. They focused all their attention on the blood-red vengeful spirit.

Under the primordial spirit state of great Starlight wizard, he was not discovered by them. Although there were many pieces of equipment and facilities in the command center that could restrict the primordial spirit, as a Big Shot of the wizard tribe, great Starlight wizard could easily avoid these things and escape with ease!

The giant abstract face in the sky had disappeared, and the blood-red vengeful spirit was roaring and fighting with the high priests. Its body was special, and it could be said to be in a state of half flesh and half primordial spirit. Ordinary attacks could not do anything to it, and the attacks of the divine sense would be greatly weakened.

For a moment, the high priests in the command center were caught off guard by the blood-red vengeful spirit and were in chaos! The guards nearby rushed over to help, giving the great Starlight wizard more opportunities to escape!

Nervous, excited, and full of a sense of accomplishment!

The Starlight wizard recalled the process of the mission as he fled, and he even felt a little addicted ... He even wanted to turn back and see the final outcome between the blood-red vengeful spirit and the high priests, and who was suppressing who?

The blood-red vengeful spirit seemed to be more powerful than he had imagined after its evolution. Would it be able to wipe out all the high priests? That would be an unexpected surprise!

Starlight great witch wanted Lin Yi to die, but he had to protect Lin Yi's life. Because of the slave mark, if Lin Yi died, he would die with him. He risked his life not only for the mission, but also for his own life!

If he could kill a few of these high priests, Lin Yi's escape route would be much smoother!

It was true-the main force of the dark Demon beast race immediately noticed the problem with the command center because the giant abstract face in the sky was gone!

The battle fluctuations that erupted from the command center were loud enough. There was no lack of experts above the heaven breaking stage in the main force, so how could they not notice such a big movement?

Chapter 8895 No Problem!

The command center was filled with the high priests of the various tribes. If something happened to them, the tribes would be in chaos, and so the people attacking Lin Yi and Daniya were all flustered. The dark Beast Warriors who couldn't join in on the outside all turned around under the command of the commander to go to the command center!

At this time, the importance of an excellent commander was even more prominent. Without a unified command, an Army of millions would fight on their own, completely scattered!

Teams that couldn't get involved would go to the command center to support. On the surface, there seemed to be no problem, but in reality?

Only one or a few tribes would go to the rescue. Would those who didn't go worry that their high priest would be killed in the chaos?

The various tribes had never been close to each other, and the seeds of suspicion had never disappeared. They would grow madly as soon as they had the opportunity.

Therefore, when some tribes returned, the rest did not say anything and followed along to provide support. In any case, there was nothing wrong with saying this. The high priest was the most important!

In the blink of an eye, the pressure around Lin Yi and Daniya fell like a cliff. Daniya was sweating-even a complete heaven-breaker couldn't handle such a consumption. If it weren't for Lin Yi and the movement formation, she would've been dead already.

"Sima Yi, what happened? They suddenly retreated?"

Daniya panted a few times and looked at the retreating dark magical beast Army with lingering fear. She didn't care much about the scattered tails that followed behind.

Could it be that they discovered my identity as a spy, so they let us go?

Daniya's heart was filled with doubt, and she couldn't help but have some unrealistic fantasies.

Lin Yi didn't stop and continued to run at Full Speed with Daniya. The first step was a success, but he couldn't be careless. If the enemy bit his tail, he would be in danger of being surrounded again.

"I used a doppelganger spell to secretly destroy Senlan's vengeful spirits. They can't continue to track us!"

"Maybe it's because of the vengeful spirits' disappearance that their command center is in chaos," Lin Yi explained. "That's why the teams are all rushing back to help. "

It was the truth. Although Lin Yi didn't see the Starlight wizard's actions with his own eyes, it wasn't hard for him to deduce the truth from the results.

Daniya's eyes widened in shock. "When did you use the clone technique? I didn't even notice! No, that's not the main point. The main point is that we've been surrounded, and they gave up on this opportunity so easily?"

"If the Vengeful Spirit can no longer track us, this is our last chance! What were they thinking? You want us to continue fleeing and then chase us for fun?"

"They don't trust each other," Lin Yi replied casually, "if one of them makes a move, the others will follow. They have to at least ensure their leader's safety. It's understandable." Let's hurry up and leave!"

Taking advantage of this opening, Lin Yi brought Daniya and sped up again, shaking off some of the dark Beast soldiers that were following them. If they couldn't get rid of the fast ones, they would just kill them!

The great Starlight wizard caught up very quickly, and the command center of the dark Demon beast clan was paralyzed. The other teams were in chaos, and without a unified command, no one noticed the existence of the great Starlight wizard.

Even Lin Yi and Daniya could give up for a while, let alone a Starlight wizard. Even if there were dark beasts who accidentally sensed their soul state, they didn't have time to pay attention to him. They let him pass through the million-strong Army and catch up with Lin Yi, then quietly return to the Jade space.

The Starlight Magus had done a great job this time-Lin Yi had praised the mecha while running away, and the Magus was actually quite happy ...

After taking care of the vengeful spirits, Lin Yi and Daniya didn't have to worry about their location being exposed. With the main forces of the tribes gathered together, the defenses and interception at other places were naturally less difficult. With the two's strength, it was no problem.

"Sima Yi, the vengeful spirits of Senlan wuhun have been dealt with. What if they use other corpses to refine vengeful spirits to track us?"

Daniya thought of this question after she escaped. The darkness magical beasts that they had killed in this battle must have been in the thousands, right? Wouldn't it provide those high priests with countless vengeful spirit materials?

She'd heard of the witch race's methods before, but she didn't know the specifics. Lin Yi could use his clone technique to break it easily, so he must know a lot about it.

"Don't worry, I won't!" Lin Yi smiled faintly. The ones who died this time were all soldiers who were killed in direct combat on the battlefield. They don't actually have much resentment towards us. "

"This kind of corpse is not suitable to be used to make resentful spirits. Only people like Senlan wuhun, who died unwillingly and resented me deeply, would not rest in peace after death. They would be used as tools to deal with us."

Now that this tool had suddenly backfired, those high priests would probably be flustered for a while. The result didn't matter anymore-it didn't matter who lived or died, as long as it was a good thing!

Daniya nodded in realization. Knowing that there wouldn't be any more vengeful spirits chasing after them, she heaved a sigh of relief. She then began to secretly pray, hoping that the big shots of the dark Beast clan wouldn't come after her!

When other people were undercover, they had all kinds of resources to help them climb up the ranks. Why was it that she, Daniya, had to be hunted down by her own people when she was undercover? If it wasn't for his luck, even if he had ten more lives, he wouldn't be able to kill his own people!

The only good thing was that after going through so many life and death situations together, Sima Yi's trust level had already been maxed out. If she followed him back, it would be much more convenient for her to do things. However, Daniya's heart was still hesitating. In the current situation, was there still a need to continue being a spy?

Lin Yi and Daniya found the node they agreed on-it wasn't completely sealed off, as expected, and there were some openings for Lin Yi to work on.

There were hundreds of dark beasts guarding the node, but to Lin Yi and Lin Yi who had just been surrounded by millions of troops, this number was nothing. They didn't even bother to kill them and just dispersed them!

At this point, it didn't matter if they were exposed. By the time the dark Beast Army arrived, Lin Yi would have already left the node with Daniya and returned to the underground cave!

After getting rid of the soldiers guarding the spatial node, Lin Yi successfully opened up the spatial node's passage. He turned around and extended his hand to Daniya,"Daniya, let's go! You don't belong here anymore!"

Daniya let out a deep breath. To be honest, she was a little nervous and excited about entering the underground Devil's Den. After all, this was something that all the darkness magical beasts had been dreaming of for many years, and she was finally going to achieve it!

Chapter 8896

If there weren't so many changes in the middle, this would have been the most perfect undercover mission. It was a pity that Senlan wuhun had died, and so many of the darkness beast race's pursuers had been killed. Daniya really couldn't be sure if she would be able to return to the darkness beast race.

"What's wrong? Was he a little scared? Don't be afraid, I'm here, I'll definitely ensure your safety! And you're now a traitor to the darkness demon beast clan, and you're probably the most wanted criminal in history, right? There's no way to survive here!"

Lin Yi's hand moved forward a bit more, a warm smile on his face. "Daniya, do you believe me?"

"Of course I believe you!" Daniya smiled. Actually, I'm not afraid. In fact, I'm filled with anticipation. It's just that my dream is about to come true, so it feels a little unreal, right?"

"There's a saying called 'homesickness'. Although that place isn't my hometown, I've yearned for it for a long time, so I'm a little afraid of my hometown. You won't laugh at me, right?"

"I didn't believe you when you told me that you're looking forward to human civilization and society," Lin Yi said with a smile, "but it seems like you're right!" Let's go, we'll only reach the underground Devil's Den after passing through this node passage, and it's not even the sub-Island yet. If you want to be nervous, you can wait until we leave the underground Devil's Den!"

"Sima Yi, are you making fun of me?"

Daniya seemed a little embarrassed as she glared at Lin Yi, her teeth bared. "I'm telling you, those who offend me never have a good ending!"

"I don't dare, I don't dare. Why would I make fun of you? It's all a misunderstanding!"

Lin Yi played along-intense battles were more or less nerve-wracking, and joking around helped relax. "But we really have to leave quickly. The passageway can't be open for too long. If it stabilizes, it won't be so easy to close it again!"

Daniya took another deep breath and held Lin Yi's hand as the two walked into the tunnel.

It wasn't that Lin Yi wanted to hold Daniya's hand, but the spatial node had restrictions on the dark beasts. The stronger the dark beasts were, the more pressure they would have to endure when passing through the spatial node!

Why did the darkness demon beast clan have to destroy the spatial node passageway large enough before they could activate their Army to pass through? It wasn't just because of the problem of numbers, but also because of the pressure on the darkness demon beasts!

The tunnel that Lin Yi opened was just a normal space tunnel to humans, but to the dark beasts, it could only allow beasts below the sea shattering stage to pass through. Daniya was already at the great circle of sky-breaking, and if she went in alone, she might get stuck in the tunnel!

But with Lin Yi by her side, the difference between their strength levels wasn't too big. If they were both in the same level, with Lin Yi's protection, the pressure on the dark Demon beast race would be nullified!

If there weren't such restrictions, the darkness demon beasts would have been able to send their strongest experts to occupy the underground Devil's Den. After all, it wasn't as if there hadn't been records of a spatial node being opened before. In fact, it had been many times. It was just that the truly powerful darkness demon beasts couldn't pass through that spatial node!

Only by occupying the two ends of the node and increasing the destruction force to open up the passage completely would the darkness demon beast clan be able to enter the underground Devil's Den without any obstacles!

Lin Yi was a human who had led the dark beasts through the spatial node before. After all, the dark beasts had done a lot of things like using humans as spies.

However, those who could be controlled by the dark Demon beast clan usually weren't too strong. They could only be effective if they were at the same level. For example, if Lin Yi was at the sea Rift stage, he wouldn't be able to protect Daniya.

Because of Lin Yi's presence, Daniya passed through the tunnel without any danger and entered the underground cave that all the dark beasts dreamed of!

In terms of environment, the underground Devil's Den was much better than the perpetually dark world inside the node. Although it still had some meaning of darkness, it was indeed much better overall.

However, Daniya didn't have time to experience the underground cave. As she followed Lin Yi out of the tunnel, she realized that something wasn't right!

The two of them were surrounded again!

What the hell is this! It was fine if they were chased and blocked in the node, but why were they also surrounded when they returned to the underground devil cave?

Lin Yi's face didn't look too good-there were more than a dozen bodies lying around the node, all of them array Masters and generals.

They were probably the people who were waiting for him at this point-Lin Yi didn't know them, but there was no doubt that they all died because of the mission he gave them!

It was a team of darkness demon beasts that had killed these formation Masters and battle generals!

There were about a thousand of them, and in terms of strength, it was a pretty strong team in the underground devil cave, but Lin Yi had just been surrounded by a million-level Army in the node, and there were countless heaven breaking Masters among them. A team of a thousand Dark Demon beasts was really not enough!

"All of you will die!"

Lin Yi gritted his teeth as he spat out the words one by one. The killing intent in his body rose rapidly, until it was so thick that it was almost solid!

Daniya, who was standing beside Lin Yi, was shocked. When they were surrounded by millions of enemies, Lin Yi didn't even release this level of killing intent. It was clear that the death of these ten humans had touched Sima Yi's bottom line!

The importance he attached to humans was beyond his imagination!

Daniya's opinion of Lin Yi had changed, but Lin Yi didn't care about human life as much as she thought he would.

All in all, Lin Yi could be considered a good person-he had a sense of justice, but he wasn't a Saint, putting the lives of all humans on his shoulders!

To be more precise, Lin Yi was the kind of person who was clear about gratitude and grudges. He would protect his own people no matter what. If they weren't his own people or enemies, he would kill them if he had to die. He had no qualms about it.

As for the people lying on the ground, they weren't Lin Yi's acquaintances, but they were all waiting at this node under Lin Yi's orders.

Without this order, they might have already returned to the surface. How could they have died in the underground Devil's Cave?

So Lin Yi automatically took their deaths on his own shoulders-killing this entire Dark Beast race for revenge was the only thing he had to do now!

"Hehehe, you really have no shame! I thought it would be one of our people coming from the node, but it's a human!"

The dark Demon beast in the lead was only at the consummate level of the sea-splitting realm, close to the half-step heaven-breaking realm. Facing Lin Yi, who was at the mid-stage of heaven-breaking, it wasn't afraid at all. Lin Yi didn't know if it was because it had something to rely on or because it was just stupid.

Chapter 8897

However, when he spoke, he looked at Daniya a few times. He probably saw through Daniya's identity as a darkness magical beast, but he didn't understand why an expert of the darkness magical beast clan would be with humans.

Could this human be a new spy? His attitude didn't seem like it!

Lin Yi didn't want to waste time talking. He took out the demonic blade and started killing the dark beasts!

Daniya was at a loss. She had killed many darkness beast soldiers in the spatial node, but that was because she had no other choice. She had to do it to save her life!

Now that she was in the underground Devil's Den, the darkness demon beast clan wouldn't treat her as a wanted criminal. If she wanted to continue her undercover plan, she might have to rely on the darkness demon beasts in the underground Devil's Den.

Help Sima Yi kill them together? It was a little difficult!

She couldn't help the dark beasts kill Lin Yi. They might be in an underground cave, but she needed Lin Yi's help to survive among the humans.

Whether or not she continued to be a spy, Sima Yi could not die. This was the only key for her to integrate into the human race and break into the upper echelons of the human race!

He had no choice but to help Sima Yi kill his clansmen! These guys really didn't know what was good for them. Why did they have to come here to seek death?

Daniya only hesitated for a moment before making a decision. Just as she was about to make a move, she realized that Lin Yi didn't need her help at all.

The demonic devouring sword's Black light continued to flash, and none of the dark beasts could take even one hit from Lin Yi. As long as they touched the black light that represented death, they would die without a doubt!

With the suppression in terms of strength and the support of the spiritual shock, Lin Yi was invincible. Even if the dark Demon beasts wanted to organize a battle formation to fight back, it was useless.

Against a formation master, the dark beasts "tactics weren't even child's play-they'd be better off if Lin Yi found an opening and attacked them without formation!

"Sima Yi, I'll hold the line for you!"

Daniya raised her voice. Since Lin Yi didn't look like he needed help, she didn't have to worry about attacking her clansmen again. It was killing two birds with one stone!

Lin Yi replied casually. It was true that killing these murderers with his own hands was more satisfying-it wasn't difficult at all, and Daniya could just watch from the side!

The process was smooth, but the result was not over!

There were more than a thousand Dark Demon beasts, and the strongest one was only half-step to heaven splitter. Lin Yi's full power was enough to destroy them like they were rotten wood-he couldn't even cut vegetables.

In just a minute or two, Lin Yi had killed all of them. This was countless times easier than breaking out of a million-man army.

Just as he was about to kill all the soldiers, he heard a clear Voodoo chant from a few thousand meters away. Lin Yi had the Voodoo race's inheritance, and even if he didn't know how to cast the same spell, he could still make out the general idea.

This was the witch clan's blood sacrifice summoning spell!

It was similar to the wizard Power devouring formation, which used the blood of living beings to exchange for great power!

The only difference was that this time, the blood sacrifice summoning technique used the blood, flesh, and essence of more than a thousand darkness demon beasts to summon an unknown, powerful creature!

Lin Yi didn't know if this was a plan the dark beasts had prepared, or if it was just a sudden idea after seeing the thousands of dark beasts get wiped out. Either way, things weren't looking good!

It was too late to interrupt the blood sacrifice summoning now. A gust of evil wind appeared out of thin air and started spinning. The thousand dark beasts that Lin Yi had just killed turned into blood-red powder in the wind, spinning in the air.

The wind was quickly dyed dark red by the flesh powder, and two huge dark pupils were quickly revealed in the wind, burning with black flames!

"Sima Yi, quickly leave! This thing isn't easy to deal with!"

On the side, Daniya's expression changed drastically. She was already at the great circle of sky-breaking, and when she saw the two huge eyes burning with black flames, her heart involuntarily tightened. A strong sense of danger clenched her heart like a hand, choking her throat, making her feel as if she could not breathe!

It was dangerous! It was too dangerous!

Lin Yi felt the danger as well, but not as clearly as Daniya. The Jade space didn't even alert him, either. Perhaps the unknown creature summoned by the blood sacrifice summoning spell was weaker against him?

If it wasn't enough to cause fatal danger, then there wouldn't be much of a problem!

Lin Yi turned around and waved at Daniya, smiling as he consoled her, "Don't worry, it's no big deal. I've seen many sorcerer tribe's methods. It's fine!"

Daniya didn't think that her sense of danger was wrong, but Lin Yi was so confident. Was she supposed to rush over and question him?

It wasn't time to reason with him!

In the time it took for the two of them to speak, the blood-red whirlwind had completely turned into a humanoid monster that was seventeen or eighteen meters tall. It was not very accurate to say that it was humanoid. It should be said that the upper part was humanoid, and the lower part was like a ghost's tail. Or, it could be said that it looked like a ghost.

The dark pupils were still burning with black flames, and the invisible line of sight fell on Lin Yi. The giant spirit opened its dark mouth and spat out black flames at Lin Yi!

Lin Yi was shocked, and the Jade space started to alert him. It was clear that the black fire wasn't simple, and it had the ability to kill Lin Yi!

Life and death netherworld fire!

It was a flame that only existed in the netherworld in legends, and the netherworld itself was a legend. No one could prove the existence of the netherworld at all!

Lin Yi didn't think he'd run into the hell's fire of life and death today ... What kind of monster did the blood summoning summon? Wasn't the randomness of the summoning too strong?

Facing the attack of the hell fire of life and death, Lin Yi quickly dodged. No one had seen this kind of fire before, and it was said that it was used to kill living beings. When the body touched it, it would be instantly destroyed, and when the spirit touched it, it would lose all its power and suffer endless burning torture in the fire!

It was a top-notch killing technique in both physical and primordial spirit aspects!

Even someone as strong as Lin Yi didn't dare to mess with him!

The black fire landed where Lin Yi was standing before but was quickly extinguished. The fire of life and death only killed all living things. It didn't affect dead things like soil and rocks.

The giant spirit did not take it to heart that its attack had missed. As its huge mouth opened and closed, it spat out a large amount of life and death netherworld fire that covered a large area.

If the first time was just the amount of saliva, then the second time was the amount of saliva that was full of saliva. Of course, what was spat out was not saliva, but the life and death netherworld fire!

Chapter 8898

Lin Yi continued to Dodge and told Daniya to Dodge as well. The range of the fire was wider this time, and Daniya was affected as well.

Daniya wasn't stupid-she didn't even need Lin Yi's signal. She'd already dodged when she saw something was wrong.

He'd already felt the danger earlier, and now he was even more scared. He used all his full strength and ran even faster than Lin Yi!

"Daniya, be careful. I'll think of a way to deal with this thing!"

Lin Yi relaxed a little. Daniya could handle it, so he didn't need to worry about her safety for now.

Lin Yi didn't know how to deal with the giant spirit-like thing that was summoned by the blood sacrifice summoning technique. The hell fire of life and death was his nemesis, and he would die if he touched it!

The only solution was to find the person who cast the blood sacrifice summoning spell and kill him. As long as the caster died, the blood sacrifice summoning spell would naturally end and the summoned creature would return to where it should be!

"Don't worry, I'll be fine. I'll help you hold off this monster. You can think of a way to go!"

Daniya didn't hesitate at all and took the initiative to hold him back. Unfortunately, her attacks were meaningless. That huge phantom-like monster was completely immune to physical attacks!

Lin Yi had tried using his spirit sense to attack it, and it did cause damage, but its recovery ability was just as terrifying. The damage Lin Yi caused wouldn't even last for a second before it healed itself. There was no chance of it affecting him!

Fortunately, the spirit monster's intelligence wasn't that great. Although Daniya's attack didn't have any killing power, it was enough to attract its attention.

Lin Yi took the chance to get out of the Spirit's attack range and followed the traces of the blood sacrifice.

After getting rid of the spirit monsters, Lin Yi's divine sense's detection range instantly expanded. It was probably suppressed by the blood sacrifice summoning technique before, but now it was back to normal. He found the person who used the blood sacrifice summoning technique easily.

The blood sacrifice summoning spell was a forbidden spell in the wizard tribe's inheritance. The cost of using it once was very high. Not only did it require fresh and powerful flesh and blood, but it would also have a serious backlash on the caster.

Lin Yi was confident that he could find the caster and end the summoned spirit!

If he wanted to use the blood sacrifice summoning spell, he couldn't be too far away. The backlash after using it would cause the caster to fall into a temporary state of weakness. The duration of the weakness was determined by the strength of the summoned creature.

There was no need to elaborate on how powerful the spirit monster that was summoned this time was. Even if the spellcaster could move, his speed would probably not be able to increase. At most, he would just be taking a slow stroll.

Lin Yi escaped from the spirit monster the moment he summoned it, so how could the spellcaster have time to escape? With a sweep of his divine sense, there was no place to hide!

"Dispel the blood sacrifice summoning technique and I can spare your life!"

Lin Yi's body was as fast as lightning, appearing in front of the caster in an instant. The demonic devouring sword was lightly placed on the caster's neck.

It was a Dark Demon beast in the form of an old man, wearing the traditional clothing of the Voodoo race. From the outside, it did have the aura of a senior Magus, except that its face was a little pale and its spirit was low. It was trying to keep calm under Lin Yi's demonic sword!

The weakness from the backlash of the blood sacrifice summoning spell had not yet passed. The old man should also know that he could not escape, so he did not even have the slightest intention of struggling.

"Sima Yi, I didn't expect you to be so powerful. You can even quickly shake off the demonic creatures summoned by the blood sacrifice summoning technique. You've really exceeded my expectations!"

The old man let out a breath and said indifferently, ""What's more unexpected is that you came out of the node with a powerful helper who can attract the attention of the summoned creature! This old man miscalculated! If you want to kill me or cut me up, do as you wish. This old man has no intention of living after falling into your hands!"

Lin Yi paid attention to Daniya's situation. She and the spirit monster couldn't do anything to each other, so there shouldn't be any problems for the time being.

"He's a tough one! If you want to die, I don't mind fulfilling your wish, but the problem is that after I kill you, the blood sacrifice summoning spell will naturally end. Why did you sacrifice your life?"

Lin Yi heard the old man call out his name, and it seemed like he knew that he would come out from this node. The problem wasn't simple!

If that wasn't the case, he could just kill him directly without wasting any time. He kept him alive now so that he could interrogate him for some information.

The soul-searching technique could also achieve the purpose of gathering information, but it could easily damage the other party's memories. If one was unlucky, they would only be able to obtain fragments. It would be best if the other party could take the initiative to confess!

"You actually know so much about the blood sacrifice summoning spell?!"

Shock and disbelief flashed across the old man's face. The witch race's inheritance was mysterious to begin with, and the blood sacrifice summoning technique was even more mysterious. He never thought that Lin Yi would be able to see through the method to end the blood sacrifice summoning technique!

He quickly restrained his expression and said indifferently, ""Since you know the solution, what are you waiting for? He could just directly take action! This old man will never wag his tail and beg for mercy from you!"

Lin Yi shrugged and said nonchalantly, "In that case, I can only fulfill your backbone. After killing you, I'll use the soul-searching technique to get the information I want to know!"

As he spoke, he activated his soul hooking hand and pulled the old man's primordial spirit out. With a light wave of the demonic devouring sword in his hand, the old man's eyes showed a trace of shock, and his head rolled away!

He obviously didn't expect Lin Yi to be so decisive-why didn't he just follow the script? She should at least talk a little more. Maybe she would be able to convince him?

But then again, if there really was a method like the soul-searching technique, he really didn't care if he said it or not!

As the old man's head fell to the ground, a pitch-black crack appeared in the sky. The spirit monster stopped spewing the netherworld fire and slowly entered the crack. Finally, it disappeared along with the crack.

It didn't belong to this world, and it was summoned by chance. It didn't play much of a role, and it returned to where it should be!

Lin Yi and Daniya watched as the spirit monster disappeared, both breathing a sigh of relief. It was better to go back to its world if it couldn't be killed. If they stayed here, the fire would kill them all sooner or later!

There were probably no living beings in the world it was in, right?

After watching the spirit monster disappear, Lin Yi turned to the spirit he'd conjured with the hand, preparing to use the soul-searching skill.

#### Chapter 8899

The spirit was still in his old man form, and when he saw Lin Yi raise his hand, he immediately bent over, put on a flattering smile, and bowed with his hands together, ""Lord Sima, let's talk this out. If you want to know anything, just ask. I'll tell you everything I know. There's no need to use some soul-searching technique. That kind of method is also a burden to you!"

"You've killed my body, and the blood sacrifice summoning spell has been dispelled. It's time for us to have a good talk, right? Whatever you want to ask, I'll tell you honestly!"

Lin Yi was surprised-this was a huge change! Wasn't he still a tough guy just now? why did his bones disappear after his body was gone?

However, this was also good. If he could cooperate, he could save some strength.

"Alright, it's great that you're willing to tell me. Why didn't you cooperate with me earlier? why did you have to give up your physical body?"

Lin Yi curled his lips and shook his head. He turned to look at Daniya, waiting for her to fly over before continuing, "First, tell me what you summoned. Where did you summon it from?"

As far as Lin Yi knew, the thing that the blood sacrifice summoning technique could summon wasn't certain-it was all down to luck. Over a thousand Dark Beast Masters had died, and it could summon a mountain-opening or earth-breaking creature.

The Black Spirit from before should be considered a very strong summoned creature, and the old man's luck was pretty good. Lin Yi was worried that it wasn't luck, but the ability to choose a summoned creature. That would be troublesome!

He had to clarify this matter and make sure that there were no problems!

The old man's primordial spirit continued to nod and bow, his face full of smiles. "Lord Sima, I don't know what I've summoned, nor where it came from. The things summoned by the blood sacrifice summoning technique appear randomly, and I can't control them!"

"Originally, I didn't want to use the blood sacrifice summoning technique. It was entirely because Lord Sima was invincible and annihilated our most elite team of experts in a short time. With so many ready-made materials, I wanted to use the blood sacrifice summoning technique to take a gamble."

"Actually, I've never had the chance to use the blood sacrifice summoning spell before. After all, the materials required are too strict. This is really my first time using it. I didn't expect to summon such an unreliable thing."

The old man's heart was full of resentment-if the spirit monster was smart enough to hold both of them back, he wouldn't be in any danger!

If he had a choice, he would rather summon a creature with a normal brain and a slightly weaker strength!

He looked F \* cking strong, but in the end, his lair was directly raided.

Lin Yi nodded. This was the same as what he knew-it should be credible. Since it wasn't a normal summoned creature, there was nothing to worry about.

"Very good. Now, let's change the question. Why are you waiting here to ambush me? Who gave you this information?"

Aside from the blood sacrifice summoning technique, this was the most important thing. Lin Yi didn't decide to return to the underground demon cave at the start, but it was decided at the last minute. He went to the hundred refined demon area once in between, and it didn't take too long.

How did the darkness demon beast clan in the underground Devil's Den know about this? They even set up an ambush in advance!

The old man continued to smile with a sincere look. ""Lord Sima, I'm really sorry. I still don't know the answer to this question. We only received orders to come here to ambush you. I originally thought that you would come from another place to this node to repair it. I didn't expect you to come out from the inside of the node!"

Lin Yi didn't believe that at all-he'd been in the node for a long time, and if the dark beasts didn't know about this, how would they know where he was?

There was no doubt that there was a traitor who had leaked his whereabouts. This traitor thought that these 1000 darkness demon beast elites would be able to kill him, but he had completely underestimated his combat strength!

In that case, it should be someone who wasn't very familiar with him ... Similarly, he wasn't familiar with the other party either, so it would be more troublesome to find him!

"Lord Sima, I'm telling the truth. You must believe me!"

The old man noticed that Lin Yi didn't believe him and quickly added, "Other than this question, what else do you want to know, Lord Sima? I will definitely tell you the truth without any lies!"

Lin Yi glanced at him indifferently and raised his hand, "No need, you don't know anything when I ask you. It seems like I have to find the answer myself!"

Soul-searching technique!

"Don 't! I'm saying ..."

The old man screamed, but it was too late-Lin Yi's patience was running out. Even if the information he got was incomplete, he still chose to use the soul search skill to find out what he wanted!

On the side, Daniya was silent. She didn't know what she should be feeling right now. She had seen Lin Yi's decisiveness in killing. At the same time, she deeply understood that Lin Yi was cold and merciless to his enemies. There was no pity at all!

Outstanding intelligence, outstanding strength, countless trump cards, shocking luck, calm when facing things, cold to the enemy ... With such an enemy, one wouldn't be able to sleep well, right?

No wonder Senlan wuhun changed his plan. He saw the threat of Sima Yi, so he wanted to kill Sima Yi with all his might, right? It was a pity that Senlan wuhun had underestimated Sima Yi. That was why he had been killed even though he had the advantage!

Daniya looked at Lin Yi's soul-searching, and all sorts of thoughts ran through her mind. She finally understood what Senlan wuhun was thinking before he died! At that time, Senlan wuhun might have been hoping that she would stab Sima Yi in the back.

If Daniya was in her soulless position, she might have made the same choice!

Unfortunately, there was no use in understanding Senlan soulless now. Daniya had no other choice but to walk this path to the end!

"Daniya! Let's go!"

The spirit in Lin Yi's hand quickly turned to dust under the effect of the soul-searching technique. As for how much useful information it left behind, Lin Yi himself couldn't be sure.

"Oh, okay!"

Daniya threw away the various thoughts in her mind and smiled, ""How is it? Did you find anything? How did they know you would appear here?"

Lin Yi frowned and shook his head, "There's no information on this. Perhaps he's telling the truth ... I'm sure that a spy leaked my whereabouts, but there's nothing related to this in the information I got from the soul search."

Chapter 8900 The End

"We can only put this matter aside for now. We'll slowly investigate it when we get back! The only useful information he could get from his memory was the details of a spy! Through this mole, we might be able to find out the truth of this incident!"

Daniya's heart clenched. Did this expose a spy? The status of a Dark Demon beast who could use the blood sacrifice summoning technique was definitely not low. The importance of a spy of such a level was self-evident!

This spy was definitely not a simple person in the human world. His disguise must have been perfect. Who would have thought that his identity would be exposed for no reason?

"This is an unexpected surprise, right? At least he had gained something! You've made a contribution as soon as you came back, so you deserve congratulations!"

Daniya didn't mean what she said as she congratulated Lin Yi. She asked casually, "How are you going to deal with that traitor? Are you going to arrest him and interrogate him immediately?"

Lin Yi shook his head without even thinking, "No! I only have information on him right now, and the enemy is in the open while we're in the dark. If we catch him, we'll be alerting the enemy. Not only will we give up our advantage, but we'll also alert the other spies!"

"Only by making use of the fact that the other party doesn't know my identity can I follow the vine to find the melon and use him to draw out more spies!"

Daniya was secretly shocked. Sima Yi was indeed not simple. A normal person's first reaction when they knew there was a spy would be to arrest him and interrogate him, right? He wanted to cast a long line to catch the big fish!

What a terrifying opponent!

She really wanted to know what Lin Yi would do, but she couldn't ask, in case she showed too much concern!

She didn't expect Lin Yi to turn around and look at her. He pondered for a moment before asking, "Daniya, are you willing to do me a favor? You're very suitable to do this!"

"Of course I'm willing. What do you want me to help you with? just tell me! We've been through thick and thin together, what's there to be polite about?"

Daniya's heart thumped as she vaguely understood what Lin Yi wanted her to help him with ...

"Daniya, thank you very much for saving Sima Yi! To us, he is a very, very important member. You are his Savior, which also means that you are the Savior of our inspection department!"

Jin botian thanked Daniya first, his heart full of sincerity. Lin Yi wasn't just his most capable subordinate, he was also his most concerned Junior Brother. He didn't even dare to imagine what would happen if Lin Yi died in the node!

"In the future, you will be the most distinguished guest in our inspection Institute! If there's anything you need, feel free to find me. As long as it's within my power, I'll definitely do my best!"

After Jin botian finished, Luo xingliu also expressed the same idea. After all, Lin Yi was the hall Master of the martial Union!

The two of them were polite, but there was some reservation in their words. If it was someone as carefree as Fei daqiang, he might not be able to notice the difference.

Daniya only looked innocent and stupid, but her heart was as clear as a mirror, and she could easily feel the estrangement under the surface of the two's intimacy.

She didn't really care about it, as it was all within her expectations. If they were to immediately believe a darkness demon beast expert who came from a spatial node world, then they would be out of their minds!

Unlike Jin botian and Luo xingliu, some of the investigators couldn't keep their cool and started making a big fuss after hearing Lin Yi's words.

"The darkness demon beast clan that I met in the spatial node?"

"Isn't Sima Yi a little too much? He actually brought back an expert from the darkness demon beast clan ... What is he thinking?"

"Do you guys think that Sima Yi has been brainwashed by the darkness demon beast clan? That's why you've brought a spy from the darkness demon beast clan?"

This idea was a little wild, but it was really quite popular. A few investigators at the side also echoed!

Of course, they were all very quiet, afraid that Lin Yi would hear them. They didn't know that no matter how quiet they were, Lin Yi could hear them like the back of his hand!

Lin Yi didn't care about those discussions either-it was all within his expectations, and it was precisely because of this that he wanted Daniya to get in touch with the traitor and make a huge contribution that everyone could see!

"All of you, disperse! There's a celebration party tonight. Everyone, remember to come on time!"

Jin botian was afraid that Lin Yi would feel awkward if he heard the gossip, so he waved his hand for the investigators to leave first. The celebration dinner was held for Lin Yi, so there shouldn't be as many people talking about Daniya with some buffer time.

The investigators were all tactful and left one after another. Luo xingliu didn't say much, either. He gave Lin Yi and Daniya a few more words of encouragement before leaving as well.

"Patrol envoy Sima, come and report the details of this operation! Miss Daniya, please go and rest first. You've worked so hard to help patrol envoy Sima come back, you must be exhausted, right?"

Jin botian and the others were almost all gone, and he arranged for Daniya to rest as he prepared to talk to Lin Yi alone.

Lin Yi was the patrol envoy of the inspection department, and reporting to Jin botian was his duty. No one thought that there was a problem, and seeing that Lin Yi didn't have any objections, Daniya obediently followed the others to the guest room to rest.

Jin botian brought Lin Yi to his office in the inspection department and set up a soundproof formation to make sure no one could eavesdrop on them.

"Junior Brother! You've really taken too much risk this time, making senior brother so worried! Fortunately, your strength is outstanding and you returned from the node safely! If something were to happen to you, how would senior martial brother be able to explain to master's spirit in heaven?"

Jin botian asked Lin Yi to sit down, still expressing his concern at the start. After Lin Yi thanked him again, he changed the topic and talked about Daniya, "Junior Brother, this miss Daniya you brought back ... Can you trust her?"

"Senior brother doesn't mean anything else, but you also know that other people definitely won't immediately trust miss Daniya and will definitely have many doubts! If there's a problem with her, you'll be implicated in the end!"

If something like that happened, Jin botian, the head of the inspection department, wouldn't be able to protect Lin Yi too much!

There were people who said that Lin Yi might've been brainwashed, and there was a market for that. If word got out, Lin Yi might be knocked down to the dust!

Jin botian didn't want to see Lin Yi end up like this!

"Don't worry senior, Daniya won't have any problems and she won't drag me into anything! It's normal that you don't trust her now, because you don't know how she helped me!"

Lin Yi waved his hand with a smile and started explaining the process of entering the node.

How Daniya had helped him escape from The Witcher soul locking formation's camp, thus bearing the name of a traitor, how she had helped him plan his route, how he had attacked the nodes, how he had joined hands to deal with Senlan wuhun's pursuit, and so on.
