

Bodyguard 8931

Chapter 8931

Their attacks were only frozen for a short moment. If the opponent wanted to seize this opportunity to attack their bodies, they could immediately recover their fighting ability even if they were slightly injured, not to mention whether they could break through their defenses. They could then use their powerful strength to counterattack.

Who would have thought that Sangzi continent's battle generals didn't even think about attacking their bodies, but chose to use the instant opportunity to send them off the stage!

In fact, they had already regained their ability to move in the air. However, they had already gained momentum, and landing steadily was the last thing they could do!

The noisy crowd that was waiting to watch a good show suddenly fell silent. Everyone was like a duck that had its neck grabbed, looking at everything that happened in front of them in disbelief.

It was clearly a battle where victory was in their grasp, but the situation suddenly changed. Wasn't this too F * cking exciting?

In particular, all Ten Rings were the same. Had they rehearsed this in advance? They were all invited actors? Wasn't that acting too obvious?!

"We won! That's great!"

In the silence of the audience, a sudden cheer broke out. This was, of course, the cheer from the people of the top three continents, led by Sangzi Dazhou.

He had always been targeted and had never been surpassed!

"Boss, I didn't expect things to go so smoothly. We actually won the first round so easily! I originally thought that they should surrender and give up the first round!"

Zhang Yiming laughed happily and couldn't help but sigh, ""When the lots were drawn, I was thinking of giving up the first round and focusing on the second and third rounds. Our points wouldn't be much less. Who would've thought that we would defeat our opponent so easily!"

Fei daqiang laughed and said, "it's all because of boss. He calculated that the other party would go all out and win in an instant. He used the defensive array disc to block the attack and wait for an opportunity to counterattack. That's how he got the results he has now." That's why I've said it before, with boss around, there's nothing that can't be done!"

Senior leg hair Fei daqiang, when there was an opportunity to praise the might of the leg, everyone had long been used to it.

Lin Yi smiled and waved his hand. "It's because the brothers who went up were experienced and seized the fleeting opportunity. If not, it would be useless no matter how many defensive formation discs they had!"

As he spoke, the ten generals came down from the stage. They were happy, but they weren't proud. They quickly came over to thank Lin Yi.

Lin Yi didn't participate in this battle, but he provided the props and made the battle plan all by himself.

It wasn't wrong to say that Lin Yi was the biggest contributor.

"Boss, how are we going to fight the next two matches?"

Fei daqiang couldn't wait to see his family's proud record of thirty wins. "We'll continue to use this strategy and take all the victories. We'll make those who want to see us make a fool of ourselves lose face. How about it?"

"No need. After using this tactic once, others will naturally be on guard and won't give us such an opportunity again!"

"Just play the other two as usual, it doesn't matter if you win or lose!" Lin Yi waved his hand.

The judge had just announced that the Sangzi continent's ten battle generals would win the first battle by killing instantly. So, in addition to the ten basic victory points, there would be an additional ten bonus points.

They had won 200 points in one match, and they had a higher chance of winning the next two matches. The gap between them and the other continents was not narrowed, but it was possible to widen.

Fang Gezi's and the others' dark faces were enough to tell!

After Sangzi great continent, it was Fengqi great continent's turn. Their draw results were normal. There were strong and weak opponents, but they didn't seem to be prepared for the battle strength of Fengqi great continent's generals.

There wasn't an instant kill, but the result was still out of everyone's expectations. Fengqi Dazhou also won all ten battles and all of them ended within one minute, getting five points for each battle.

In the end, they took 150 points and continued to be in second place, just behind Lin Yi's Sangzi Dazhou!

The people from the other continents fell into silence. To be honest, the first battle in the Sangzi continent didn't let people see much.

The most amazing thing was the one-time-use defensive formation disk Lin Yi provided, which perfectly blocked the full-force attacks of the ten sea Rift realm Masters.

Later, they were seized and sent off the stage. It was completely a combination of experience and skill. It couldn't be said that Sangzi continent's battle generals were very strong, but they still felt that third-grade continent's battle generals only knew how to take advantage of opportunities. Their true battle strength definitely couldn't be compared to first or second-grade continents.

It wasn't until Fengqi continent's battle results blinded them that they had to admit that the battle strength of a third-grade continent's battle general was beyond imagination!

Then, it was Wutong continent's turn. Fortunately, it was not so amazing this time. Although they won eight out of ten matches and obtained 120 points, they lost two matches and did not have the dominant performance of the previous two continents.

Even so, the difference in points was getting bigger and bigger, and the advantage was maintained extremely well!

In the second and third battles, the three continents fought as usual. The other continents were on high alert and remained cautious enough. Finally, the situation did not continue to be one-sided.

There were wins and losses, and there were also situations where they were entangled for five minutes without a winner or loser, resulting in no points. But overall, the three continents led by Sangzi not only maintained their lead, but also further expanded it.

When night fell, the individual battles were all over.

"Everyone has worked hard today. Have a good rest tonight. Tomorrow, we will continue with the second round of battle, the team battle!"

Luo xingliu was very satisfied with today's results and smiled. ""The rule of the team battle is a full 20 people. You can choose to form a team with less than 20 people, but you can't exceed the quota. You must have at least 12 people!"

"The teams from the 39 continents will enter the forest we chose at the same time to find the continent marks we left in the forest! Each continent has its own unique mark. Only by finding this mark can you get all the points of the competition!"

"If you can't get the mark of your continent at the end of the competition, the points you get will be reduced by half! In other words, the team without a mark will only get half of the total score. "

"For example, the Sangzi continent is currently ranked first in total points, but its lead is only about double. If we can't find the mark that represents the Sangzi continent, the first place may be the other continents! This is your best chance to overtake your opponents!"

To put it bluntly, the symbol of this continent was the fuse used to make all the teams fight for it! In addition to fighting for the symbols of one's own continent, they also had to fight for the symbols of other continents. Attacking the enemy was equivalent to improving themselves.

Chapter 8932

In theory, all the continents should fight for themselves, and the other teams were all enemies!

But looking at the current situation, Sangzi Dazhou and the other top three would become natural allies because of Lin Yi. It would be more convenient if the three of them worked together in the competition.

Other than these three continents, the other thirty-six continents might also become an alliance. Their goal was to eliminate Lin Yi's three continents first before they compete among themselves!

The situation was not optimistic!

"In addition to the symbol in the team battle, there is another way to score points, which is to defeat people from other continents to obtain points! At that time, every participant will have a nameplate to represent their identity!"

Luo xingliu held a black metal chain in his hand. An inch-long metal sign hung on the chain and he showed it to everyone. "This nameplate represents the life of the participant. Once the nameplate is stolen, it's equivalent to being killed in the battle."

"The basic score for each nameplate is ten points. The more plates you obtain, the higher the score! Other than that, the existing points can also be used as resources!"

"Each continent can choose to put their current points on one person or all the members. These points will be recorded on the nameplate. Once the person with points is defeated, the points will be taken by the other party. Please think carefully about the arrangement!"

The purpose of the team competition was to encourage fighting. Although it might form an alliance if all the teams from the 39 continents were put together, it was also for better fighting!

An Alliance would only exist if they had a common enemy. Once the enemy disappeared, internal strife would immediately occur!

Whether it was the symbol of the continent or the team's points, they were all obvious reasons to fight. For the final victory, everyone would do their best!

"The team battle lasts for 24 hours, which is one day and one night. It starts tomorrow morning and ends the day after tomorrow! The symbols of all the continents will fluctuate after sixteen hours. "

Luo xingliu continued to explain some details in the rules."The nameplate worn by each continent's team member will sense the symbol's location after the signal fluctuation is produced!"

"The nameplate of each continent can only sense the corresponding symbol of the continent and not the symbol of other continents. It's only to provide an opportunity for those who haven't found the symbol."

"Of course, this opportunity might be a complete trap. When the time comes, you can decide for yourself whether to follow the location provided by the nameplate to find your continent's symbol."

"If you don't go, it's obvious that you're giving up half of your points. If you go, you might step into a trap and lose all your points. It's also a test for you to decide!"

Lin Yi heard the rules and nodded to himself. He had to admit that this was pushing it to the extreme!

Just the signal fluctuation produced by the last continent's symbol alone would allow the nameplate to sense its location, and he could make many arrangements around it!

Tomorrow's team competition would be quite interesting!

"By the way, one last thing. The emblems of your continents can be exchanged for 100 points. The emblems of other continents can also be exchanged for 50 points. If all your points are taken away, this might be your last hope. Remember to grab it!"

Luo xingliu waved his hand. "That's all for today. Everyone, go back and rest. See you tomorrow morning!"

The people below all cupped their hands and bowed, saying goodbye to Luo xingliu and then turning to leave.

Fang Gezi couldn't wait to get out and had begun his plan again. There was no doubt that in tomorrow's team battle, he would unite all the continents that could be United and target the three continents led by the Sangzi continent!

Before dealing with the top three, they might maintain peace internally and join forces against the enemy!

In fact, even if Fang Gezi didn't do this, the top three would become The Public Enemy of all continents. After all, the difference in points was obvious, and those who wanted to make a fortune would target the top three!

As long as they saw that the people of those continents had faintly avoided the top three continents, led by the Sangzi continent, when they left, they could understand their thoughts.

"Sima, tomorrow's team battle doesn't look easy to deal with! Do you have a plan?"

Yan Su, Fengqi great continent's first hall Master, Wutong great continent's first hall Master, and the patrol found Lin Yi and asked worriedly, "In the current situation, our three families will definitely become the first thorn in the other continents' eyes. What should we do?"

Yan Su was not afraid of a fair and square battle. However, a team battle was definitely not that simple. Unless it was a narrow encounter, it was more likely that they would be ambushed and besieged by many enemies!

Yan Su wasn't particularly good at stratagems, so she went to Lin Yi for advice first!

"Director Yan, what are you worried about? With our boss around, what can't be solved? Don't worry, if they come one by one, we'll deal with them one by one. If they come together, it'll save us a lot of time and we'll get rid of them all at once!"

Fei daqiang laughed and said, "What kind of situation has our boss not seen? A mere five or six hundred people attacking together isn't a big deal!"

Lin Yi didn't say anything yet, but he'd be leading the team for tomorrow's team battle. From Fei daqiang's point of view, Lin Yi could take on all the contestants by himself. It wasn't that he was looking down on anyone, but these continents were nothing in front of Lin Yi!

Yan Su was startled, but she did not refute Fei daqiang. After thinking about it, it did make sense!

Lin Yi entered the spatial node alone and killed his way in and out of the territory of the dark Beast clan. Not only did he escape unscathed, but he also brought back the little beauty Daniya!

What could a mere team battle do?

Lin Yi patted daqiang's shoulder, telling him to stop bragging and get down to business!

Lin Yi put up a noise-blocking restriction before speaking slowly, "Each continent has its own Foundation and trump cards. We can't underestimate any opponent."

"We still don't know what's going on in the team battle. We can only make some guesses and make some preparations."

"My idea is that when we enter the battlefield of the team battle, all of our continents will not be in the same position. We should enter from different directions to avoid a large-scale chaotic battle at the same time as entering the battlefield."

Chapter 8933

"If that's the case, there's no need for a day and a night at all. The winner might be decided in ten or twenty minutes! So what we need to consider now is how to get through the initial stage!"

"The other continents will probably join forces to deal with us. In the beginning, we should be scattered in different locations, so the probability of encountering two or three continents joining forces is higher."

Lin Yi, of course, wasn't afraid of two or three continents working together, but Fengqi continent was different from Sangzi continent. Although they were strong, they would still be outnumbered when facing many enemies!

"That makes sense! That's why in the beginning, we need to find each other's locations as soon as possible. As long as we meet up, our safety will be greatly increased!"

Yan Su nodded and said, ""We can only act according to the situation after entering the battlefield. We can make a secret code to inform each other of our location!"

If the battlefield didn't restrict the use of spirit sense, Lin Yi could easily search a large area and the chances of finding them would be extremely high. However, it probably wouldn't be so good. The battlefield would most likely have restrictions on spirit sense, so it was necessary to have a secret code. For example, learn some kind of bird call in the forest, or send some kind of light signal in the desert.

Lin Yi agreed and made a simple agreement.

Yan Su clapped her hands and continued, "there's one more thing. How should we distribute the points?" If it was distributed to everyone, every time the nameplate was stolen, the points would also be stolen. "

"However, if all of them are concentrated on one expert, it will be easy for them to be targeted. In case they are ambushed and killed by the enemy, the risk will be too high!"

For example, Yan Su was a strong person, so keeping all the points he had should be the safest choice. However, once he was in a battle, he would definitely be the target of public criticism. Regardless of whether he had any points, the enemy would find a way to kill him first!

In a team fight, the C spot was the first to be killed. This was a universal saying!

To put it in a cultured way, shoot the horse before shooting the man, and capture the king before capturing the bandits!

From this perspective, if Yan Su carried all her points, it would be the riskiest choice. It was very likely that she would be robbed of all her points in an instant!

"Or we can put all the points on one person and let him go into hiding. Patrol Sima is a Diamond Grade array master. When the time comes, he will set up a concealment array. I reckon no one will be able to find him!"

The Wutong continent's patrol couldn't help but voice his thoughts. Because of the previous patrol exam, he had interacted with Lin Yi and Yan Su quite a bit and could be considered acquaintances.

His thinking wasn't wrong. With Lin Yi's skills in formations, setting up a stealth formation, along with defense, attack, and illusionary formations ... It wouldn't matter if people from other continents found out, let alone if they did.

In a short time, it was impossible for the sub island's array Masters to break Lin Yi's array. After all, this was the product of the fusion of various array inheritances. Even Shi chengcai, who had been taught by Lin Yi, might not be able to break it in a day.

It was even more impossible to break the formation with force. It would probably take a day to break it. The people of the other continents had nothing to do, so they didn't search for the continent's symbol. That was why they used force to attack the formation. The premise was that they could find this invisibility formation!

"It's a good idea, but it's too embarrassing!"

Before Lin Yi could say anything, Yan Su frowned and denied, "Even if we will be at a disadvantage in the team battle, no, it should be said that we will definitely be at a disadvantage in the face of the Alliance of so many continents, but there is no need to be so cowardly."

"Points are meant to be obtained through fair and square battles. What's the point of hiding? I'd rather be defeated and have my points stolen than choose to hide and kill time. If I do that, I'll lose the meaning of participating in the team battle!"

"As the saying goes, it's better to be broken Jade than to be intact tile. Besides, with Sima here, our three families may not necessarily be at a disadvantage if we join forces. When the time comes, we'll be hiding like this. Not only will we lose face, but we'll also lose our own morale!"

The Wutong great continent's patrol envoy was slightly embarrassed. Yan SU's words really didn't show any mercy!

He knew Yan SU's personality, so he wouldn't blame her. Even if he wasn't happy with her, he had to hold it in. After all, Lin Yi and Yan Su were closer than he was. Even if he didn't give Yan Su face, he had to give Lin Yi face!

Lin Yi was indeed on Yan SU's side, "Director Yan, you're right. We don't need to show weakness. Even if those continents want to join forces, it's impossible for them to all gather in a short time. We can still break them one by one. Their advantage is not as great as we think!"

"As for how to deal with the points ... It's up to you. It doesn't matter if you split up or gather. Even if we lose them, we'll get them back. Whoever robbed us, we'll go and get them back with interest!"

These words were domineering!

Not only was Yan SU's spirit roused, the great Wutong continent's patrol also became much more spirited.

Lin Yi's strength and magic had left a deep impression in their hearts. Lin Yi's confidence made them believe in him!

The discussion on this side had come to a preliminary conclusion. As for the specific actions, they would have to wait until tomorrow to enter the battlefield and see the situation.

On Fang Gezi's side, things seemed to be going smoothly as well. She was like a butterfly, walking around with a smile on her face. It seemed like she knew that her plan against Lin Yi was about to succeed.

Lin Yi took a look at the two and left with his men.

As long as one was strong enough, who would care about those insignificant obstacles?

After going back, he first selected the people who would participate in the team battle. Other than Lin Yi leading the team, Fei daqiang and Zhang Yiming were also among them. Strength aside, it was good to gain some battle experience and experience!

Lin Yi gave the remaining spots to the combat Association's combat generals, filling up the twenty-man team. He wasn't afraid of people taking advantage of the difference in strength.

In a normal team, there should be an array master. Whether it was to set up their own array or to break the enemy's array, they were indispensable members. If it took a long time, they would also need an Alchemist.

However, this time, it was only 24 hours. As long as there were enough medicinal pills in reserve, there was no need for The Alchemist to take up a quota.

Sangzi continent had Lin Yi, so they didn't need anyone else to make pills or set up formations. So other than Fei daqiang and Zhang Yiming, everyone else in the team was a general.

After the name list was confirmed, all that was left to do was to prepare for the battle. Lin Yi made a bunch of formation disks and talismans-they didn't need to be very powerful, as long as they could be useful at critical moments.

Chapter 8934 The End

These formation disks and talismans were meaningless to Lin Yi-they were prepared for the generals, and could be considered a form of protection.

They might not be able to stay by Lin Yi's side all the time after entering the team battle-they might be able to use it if they split up.

Other than formation disks and talismans, elixirs were also a necessity, but Lin Yi didn't have to worry about that. There were quite a few elixir Masters here this time, and with automatic furnaces, as long as they weren't high-end elixirs, they'd have enough!

Fei da Qiang was also very focused. He gathered the battle generals on the list and practiced the battle formations. They were all familiar with the things, so no one had any problems. However, the big battle was imminent, so no one was careless. They were all very serious in their training.

Everything was proceeding in an orderly manner. By daybreak, everyone who had participated in the team battle had adjusted their state of mind and set off for martial League in high spirits!

The teams from all the continents arrived at almost the same time. They were then brought to a training ground in martial League, not the place where the competition had taken place yesterday.

Luo xingliu, Dian Youwei, and the other higher-ups of martial League were already waiting there. Seeing that everyone was present, Luo xingliu nodded to Dian Youwei, indicating that he would speak!

Dian Youwei was probably prepared for this. After nodding slightly, he stood up and said, "Everyone, be quiet and listen to me! For the upcoming team battle, you will enter a special training boundary of martial League. "

"Every continent's team will enter the barrier from this passage, but they will appear in different locations! All the teams will be randomly teleported to the edge of the training barrier. "

"After entering, you won't be able to move immediately and will be restricted to the same place for a period of time. Everyone, please be patient and observe the surrounding environment first. Once all the teams from all the continents have entered, the restriction will be lifted!"

"The entire barrier has a few different geographical environments, such as forests, deserts, underground lava caves, and vast rivers and lakes! With everyone's strength, if nothing unexpected happens, you'll be able to completely walk through the entire training barrier within twenty-four hours, but that's all. "

"Even if you do nothing else and just rush on your way, twelve hours is only enough for you to explore the barrier once. So, you have to pay more attention to the time. Most people will not have the chance to fully appreciate the scenery of the barrier."

In just a few words, Dian Youwei made a simple outline of the battlefield he was going to go to, so that everyone had a rough idea of what was going on. "When you enter, you will enter from continent to continent. However, the teams from each continent will also be randomly separated. Each teleportation point will have about five to seven people."

"Therefore, a full team of 20 people may be divided into three to four small teams. After you enter, you need to find your own team and join them."

"During this period of time, it's very easy to be attacked by the enemy due to a lack of strength. I would like to remind everyone to be careful! Of course, since you are from the same continent, although the landing points are different, the locations should be closer. It will not be difficult to meet up!"

Upon hearing this, the expressions of the leaders of most continents changed slightly. One was afraid that when they were scattered at the beginning, the enemy would take the lead to gather and form a local advantage, which would be more troublesome.

Another important point was the distribution of the points! Originally, all the continents had a safekeeping plan for the existing points, but that was based on the premise that the entire team worked together!

Now, it seemed that there was still a need to adjust the original plan! Because the uncertainty of the opening had become greater, they could only continue with their original plan after the entire team had gathered!

Dian Youwei didn't care about the thoughts of these continents and continued to say, ""There are some dangers in the training barrier itself, but the threat level is not high. You can pay more attention to it, or ignore it."

"Apart from calculating success or failure and points, each of your nameplates also has a protection mechanism. When there is an attack that threatens your life, the nameplate will automatically release a defense and teleport the wearer out of the barrier."

"Being teleported out means you're eliminated, but at least you can keep your lives! One thing to note here is that the inscription plate's defense triggers the barrier's power. In theory, as long as the barrier is not broken, the inscription plate's life-saving defense is equivalent to an invincible state. "

"However, if someone's attack exceeds the scope of the barrier's tolerance, the people defending will still be injured. So, once you find that the opponent is too strong and there is a danger of death, be decisive and do not hesitate to activate the life-saving transmission function of the nameplate!"

"This is the general situation of the training barrier. I wish everyone all the best. That's all I have to say. Next, I'll ask Hall Master Luo to say a few words to everyone!"

Dian Youwei stepped back and made way for Luo xingliu. He bowed slightly and extended his hand to invite Luo xingliu to come forward and give him a lecture.

Luo xingliu took two steps forward and announced without any nonsense, ""I have nothing else to add. The team battle segment of the ranking competition of the continents under the starsource continent will now begin!"

Someone from martial League activated the mechanism, and a ten-meter-tall, six-to-seven-meter-tall, rectangular door of light appeared in front of everyone. It should be the passage to the training barrier.

Sangzi Dazhou was still first in the total score. Lin Yi led the team and went through the door first. They would be temporarily unable to move after going in, but at least they would have more time to observe and adapt to the environment around the landing point. It wasn't a bad thing.

Before entering, Lin Yi greeted Yan Su and the others from a distance. From the introduction just now, the boundary was huge, and they didn't know if they could meet up with them. They could only rely on themselves and pray for luck!

Even people from his own continent would be separated, and he didn't know if they'd be able to gather together. Lin Yi didn't have the power to take care of his two brothers.

Yan Su and the others looked grave. The situation was worse than they had imagined. It was very obvious that the other continents were joining forces. Even if the teams of one continent were not in order, they could still join forces with the teams of other continents.

And they were making things worse! They were already at an absolute disadvantage in numbers. Now that the continental team was split up, they had no power to fight back!

He could only hope that after entering, he would be able to be next to the Sangzi continent's team!

Lin Yi led the team through the light door, and the light changed before their eyes-a lush forest came into view!

It was obvious that the Sangzi continent's starting point was a forest terrain!

Lin Yi didn't need to look back to know that there were only four people beside him. Fei daqiang, Zhang Yiming, and two generals from the combat Association were there.

Chapter 8935

During the random teleportation process, the worst group result appeared. If there were five people here, the Sangzi continent's 20-man team was obviously divided into four groups because the minimum number of people was five people!

Dian Youwei had made it very clear that they could be randomly divided into groups of five to seven people, with a maximum of seven people. The other 15 people could not be divided into two groups either, so they could only be divided into three groups with five people in each group, which was very even ...

"Boss, this translucent light membrane is the thing that's restricting our movements, right? It's really tough ... Do you want to try and see if you can break it?"

Fei daqiang looked up and saw the light film in front of him. He reached out and tried to poke it a few times, and then stabbed it a few times with a knife, but it bounced back.

Lin Yi took a casual look and smiled as he shook his head, "Don't waste your energy. This is the restriction that the barrier has manifested. It's not something that can be easily broken. It's similar to the life-saving defense mechanism of the nameplate."

It wasn't impossible-Lin Yi could probably break it if he used his full strength, but there was no point in doing so.

Not to mention the unknown consequences of doing so, so what if he broke the restrictions? Find the other three groups and help them break the restrictions?

With this time, the other continents would have completed their teleportation and the restrictions would have been lifted automatically. It would have been a waste of energy.

"Boss is right, I'm just wasting my energy! This thing is really powerful! It seems that our nameplates can at least ensure our safety and that we won't die in this barrier!"

Fei daqiang tried to increase the output a few times. As a result, the stronger the output, the stronger the rebound force! In the end, he could only helplessly give up!

"That's wrong! Do you think that we can still use the nameplate's life-saving function if we follow boss?"

Zhang Yiming laughed and argued with Fei daqiang. It was a rare opportunity to laugh at the senior leg hair's mistake. He must not let it go!

"Zhang xiaopang, don't talk nonsense! With boss around, of course we don't need to use the nameplates. I'm just worried about the other brothers! Before they meet up with us, they won't be able to obtain the boss's protection!"

Fei daqiang immediately found an excuse and smiled at Lin Yi, "However, with boss around, I'm obviously not worried. When the restriction is lifted, boss will definitely find those brothers immediately! Under boss's wise leadership, they swept across the world!"

Senior leg hair was not given for nothing! Zhang Yiming was speechless. In terms of eloquence, he was not as good as Fei daqiang. In terms of face, he was even more shameless. He should just admit defeat!

The two talked and laughed as they waited for the restriction to be lifted. They were not nervous about the team battle at all, as if they were on an outing.

Lin Yi didn't join in, but looked around and observed the environment. There wasn't much to see-there were huge trees everywhere, and low shrubs and all kinds of plants. The area he could see was very small, and there were too many things blocking his vision.

He'd tried using his spirit sense too, but because of the translucent light membrane, even someone as strong as Lin Yi couldn't penetrate it!

It was still the same sentence, there was no need to destroy the light film with all his strength. It was a thankless task, and he only needed to wait a moment longer.

In fact, the waiting time was really not long, about three or four minutes, and the light film turned from translucent to completely transparent, and then completely disappeared.

Fei daqiang and Zhang Yiming were still bickering, but it didn't stop him from reaching out to test it. This time, there was no obstacle, and his palm only touched air!

"Boss, we can go out now! The restriction has disappeared, and the people from the other continents have entered!"

Lin Yi didn't wait for him to finish, but he'd already walked out. The ground was covered in leaves, and while it was soft and comfortable, it was still easily heard.

Lin Yi didn't mind-it didn't matter if it was his own people or enemies, it was good to hear the noise!

It could save him a lot of energy!

"This barrier's restrictions on divine sense are very strong! What do you guys think?"

Lin Yi released his spirit sense and found that the detection range was very small, about two hundred meters in radius ... This distance was almost nothing to Lin Yi!

If it wasn't for the forest environment, which didn't affect one's vision, a radius of 200 meters really couldn't be seen as far as the eyes could!

Right now, it was better than nothing!

"Boss, I can't release my divine sense! I can't detect the surroundings, so I can only rely on my eyes!"

"Boss, I'm the same. My divine sense is restricted and I can't use it at all!"

Fei daqiang and Zhang Yiming tried and both said that their divine sense was completely restricted!

Lin Yi was a little surprised, but he wasn't too surprised. After all, his spirit sense was already in the heaven breaking stage, and he could only detect within a 200-meter radius. Fei daqiang and Zhang Yiming were too far behind him, so it wasn't strange that they couldn't use their spirit sense.

"It seems that this barrier hopes that the people who come in can explore and search with their feet on the ground, so it restricts their divine sense. Otherwise, it wouldn't be difficult to find people or things!"

Lin Yi understood immediately. It seemed that he still had a radius of two hundred meters, which was enough for this forest!

"Let's go and find the others first. We'll make plans after we meet up! Fei daqiang, you send the secret signal to see if there are any of our own people around. "

Fei daqiang replied. He stomped hard on the ground and flew onto a branch of a big tree. He closed his hands around his mouth and imitated a specific bird call.

The various secret codes that they had discussed yesterday were being used as soon as they entered today!

This forest was very quiet, and Fei daqiang's imitation of the bird's call could be heard from a long distance. If there were people nearby, they would respond after hearing it.

Fei daqiang listened carefully from the tree. Except for the bird chirps he made, he didn't get any response. It seemed that there were no people nearby, so he had to walk a little more.

"Boss, there's no response. Where should we go now?"

Fei daqiang waited for a while and jumped down the tree nimbly, landing beside Lin Yi. "I looked around from the tree. The surroundings are almost the same. There's nothing special. It seems like it's the same no matter where we go!"

"Yeah," Lin Yi said, pointing in a direction. "This way then! Try again after walking a distance. Da Qiang, leave some marks along the way. If your own people come and see us, they can follow the marks and find us!"

"Yiming, you three spread out and search the wings. See if there are any signs left by our own people. Also, look for the symbol of the continent. It's useful whether it's ours or not. I just don't know what it looks like."

Luo xingliu and Dian Youwei didn't describe the symbol of the continent in detail, so it was probably something that they could recognize when they saw it.

Chapter 8936

Lin Yi's spirit sense had a limited range, so he could only ask his men to expand the search area. If something happened, he could coordinate and it wouldn't be too big of a problem.

After walking like this for four to five minutes at a moderate speed, they didn't find anyone or anything. Suddenly, a rumbling sound came from the distance. It sounded like someone was fighting!

"Boss! There's a battle over there, most likely our people have been discovered!"

Zhang Yiming was in that direction, so he called out to Lin Yi immediately. "Judging from the sound, it should be five or six kilometers away. If we hurry over, we can make it!"

As expected of a professional intelligence officer, he was able to make an accurate judgment just by listening to the sound.

As he spoke, Lin Yi and the others quickly flew over and gathered together.

"We've just entered the barrier. There will definitely be a conflict between our people!"

Lin Yi arranged without hesitation, "I'll go over and take a look first. The four of you will follow after me. I'll pay attention to observe along the way. You should also be careful and not be ambushed!"

The current situation was that the first three continents, led by the Sangzi continent, were on one side. The remaining thirty-six continents should have formed an alliance to deal with the first three continents!

Therefore, if a battle were to take place in the opening stage, it could only be a battle between the top three and the bottom thirty-six!

Five or six kilometers wasn't too far, and they could get there in no time at full speed. That was why Lin Yi was confident that Fei daqiang and the others would follow them, so that they could come to help in time if anything happened.

"Don't worry, boss. We'll be right behind you. We won't fall behind too much!"

Fei daqiang patted his chest and agreed. Lin Yi nodded and flew away without saying anything else.

Lin Yi's speed was fast, but Fei daqiang's group wasn't slow either. They were just too slow compared to Lin Yi. If they were to travel long distances, the difference would be very obvious. For a short distance of five to six kilometers, the difference wouldn't even be a full minute, only thirty to forty seconds at most.

The shockwaves from the battle didn't last long. Lin Yi's figure was as fast as lightning, shuttling between the trees. Even his shadow was a little blurry. It only took him ten seconds to cover five to six kilometers, but he still couldn't make it in time for the battle!

The place where the battle fluctuations had come from, apart from seven or eight fallen trees and a scene of wolves, there was nothing worth paying attention to. The people on both sides of the battle had long since disappeared.

It was obvious that the difference in strength between the two sides was huge. One side was almost instantly killed by the other side!

That was why the battle ended so quickly!

The other possibility was that the two sides had been fighting for a long time, and it was only the final explosion that caught Lin Yi's attention.

Lin Yi looked at the scene carefully and ruled out the second possibility. There were only signs of an explosion, no signs of an ongoing battle.

It should have been an accidental encounter. Both sides had erupted with powerful combat power, and in the end, it might have been a competition of who had the faster reaction speed to hit the opponent in advance and end the battle in an instant.

He didn't find anyone hiding within the range of his divine sense. The victorious side was very experienced and knew that the battle was relatively loud and might attract the attention of others, so they immediately retreated after the battle without any delay!

As for the losing side, they would be directly teleported out, leaving behind only their nameplates, which were the spoils of war of the winner!

Lin Yi stood in the middle of the battlefield and didn't move. After a while, Fei daqiang, Zhang Yiming, and the others followed.

"Boss, didn't you see anyone?"

Zhang Yiming asked as he started to search the area. "They retreated very quickly, but they were not flustered. There were almost no traces left behind. They were all well-trained experts!"

"Boss, it shouldn't be our people who were defeated, right? No matter what, it shouldn't be to the extent of being instantly killed!"

Fei daqiang stood beside Lin Yi and kicked the broken tree trunk, "All of us have the array discs and array talismans that you gave us, boss. It won't be a problem for us to hold them off for a while. We can't be killed in just a few seconds!"

"So, will the winner be our people? These guys are too cautious. They immediately retreated after winning to avoid being besieged by other enemies. It's very reasonable!"

"Not bad!" Lin Yi nodded with a smile. Your deduction is somewhat reasonable, but the two sides of this battle should not be our people! After all, the Alliance of the thirty-six continents is just a motley crew formed at the last minute. It's not as united as an iron plate!"

"After dealing with our three families, the 36 continents still have to decide who is stronger. So, it's not impossible for them to take advantage of the situation at the beginning!"

Lin Yi had deduced that it was an accidental battle, but he couldn't rule out the possibility that it was a dirty sneak attack. The two continents were in an Alliance, so they'd be more relaxed when they met their allies.

One side felt that they had to work closely together to deal with the three families headed by Sangzi Dazhou at this stage. The other side had ulterior motives and took advantage of the other side's relaxation to launch a sneak attack and end the battle in an instant!

In any case, the people who were ambushed would be teleported out and would not really die. Even if they turned hostile after the incident, there would not be a life-and-death battle. At most, they would not have any contact with each other!

Perhaps the relationship between the two was just so-so, it didn't matter if it got worse!

Fei daqiang was stunned for a moment, "are they so short-sighted?" If that's the case, the Alliance of the thirty-six continents will become extremely fragile, and we might be stabbed in the back by our allies at any time. It won't be a threat to us at all!"

Zhang Yiming returned to Lin Yi's side after searching the area. "Boss, our people didn't leave any signals nearby. The battle just now really had nothing to do with our people!"

Lin Yi's group left a secret signal mark not far away from each other to contact their own people and point them in the right direction-it was an agreement before they came in!

If Sangzi Dazhou's people were fighting here, there must be secret signs left by them. Zhang Yiming went to search for them first to confirm this.

In fact, when Lin Yi was standing, he'd already used his spirit sense to search the two hundred meter radius, and made sure that there was no sign from his side. That was why he made that deduction.

"It's really a dog-eat-dog fight within the Alliance of thirty-six continents! Do they think that they won't encounter us, so they're at ease and have a bold internal fight?"

Fei daqiang began to rub his hands and was eager to try. ""Boss, let's catch up! Let's kill all of them and let them know the consequences of ignoring us. "

Chapter 8937

"Why would I?" Lin Yi smiled. They are our allies! Do you think they'll stop after they've tasted the sweetness of backstabbing?"

"With such an unstable factor, the Alliance of the 36 continents collapsed so quickly! Although it's interesting to gather them together and catch them all in one fell swoop, it's even more interesting to watch them fight among themselves!"

Fei daqiang clapped his hands and laughed, "that makes sense!" As expected of the boss, he was so thoughtful! The unstable factor within them is our ally! We really can't do this, and we have to protect it well!"

"Boss, we're the first to arrive," Zhang Yiming said after some thought, "will there be other teams coming after hearing the commotion?" Should we hide here for a while?"

The initial stage of entering the barrier was the time when the teams from each continent were the most scattered. It was also the time when everyone was trying to find ways to meet up with their own people.

As long as it was a team that heard the commotion, they would definitely rush over to check it out. Lin Yi's side could totally wait for them to come. They could come when they were on the same side and meet up. If it was an enemy, it would be the points that came to them!

As for why Lin Yi was the first to arrive? One was because the distance was close, and the other was that Lin Yi was bold and wasn't afraid of an ambush.

The small teams from other continents couldn't even catch up to Fei daqiang's speed, let alone Lin Yi's unbridled speed. They had to be careful and on guard.

Zhang Yiming had also considered this point and felt that he could make use of it, which was why he had made this suggestion.

"Yes! Then let's wait here and see!"

Lin Yi nodded and ordered Fei daqiang, "Da Qiang, go and make some noise. Make it loud, in case the group that's coming over doesn't come because there's no sound."

"Alright! Boss, don't worry, I'm good at this!"

Fei daqiang laughed and agreed. Then, he began to punch and kick, and several big trees fell down. The movement was even more than before.

Lin Yi didn't sit around either. He waved some formation flags and set up a stealth formation. After that, he told Fei daqiang to stop and everyone hid in the stealth formation, waiting for the rabbit to hit the tree!

With Lin Yi's skill in formations, not just anyone would be able to see through a random stealth formation-even a diamond Grandmaster would have to look for it consciously and only notice something when they were close enough.

The five of them were hidden in the invisibility formation, so they didn't have to worry about anyone finding them. However, the people who came couldn't hide from the Five's sight.

After a minute, more than one team sneaked over. Lin Yi's spirit sense found a seven-man team first, and their uniforms and symbols indicated that they were from the burning sun continent.

However, Fang Gezi and Yuan Buliu weren't in the team. They were obviously a team with a lot of people. They were lucky to get seven people, but Lin Yi wasn't interested in them since they weren't there.

If those two guys were here, they would have killed them all in one fell swoop, and the points of the burning sun continent would probably be transferred to someone else!

Speaking of which, if a team from the burning sun continent appeared here, there was a high possibility that there were others nearby. Lin Yi had a chance to deal with Fang Gezi and Yuan Buliu!

In addition to the first seven-man team approaching, there was another ten-man team coming from another direction. To be precise, it should be two teams of five.

The two teams belonged to two different continents. Perhaps they were evenly matched, or perhaps they had a good relationship. They seemed to get along well with each other, and there were no sneak attacks.

The two sides were approaching at a similar speed, and they were extremely cautious. When the distance between the two sides reached a certain distance, they discovered each other's existence almost at the same time.

"Who's there!"

"Who's that?"

The scouts on both sides shouted at the same time and waved their hands to signal their own people to get ready for battle!

One side felt that the seven-man team was the team with the most people in the beginning and would definitely have the power to fight against people from other continents. The other side had two five-man teams, so they were even more powerful than other individual teams. Therefore, their first reaction was to prepare for battle rather than retreat.

After the two sides announced their names and found out that the other party was an Alliance in name, they immediately relaxed a lot and directly moved closer to the Joint Forces.

As a result, they formed a seventeen-man team when they stepped into Lin Yi's battlefield. Since the burning sun continent had the most people and Fang Gezi was the one who had been connecting all the factions, the seven-man team from the burning sun continent was temporarily the leader.

Of course, this was also because there were no big shots in the team like the Great Hall Master or the patrol envoy. Everyone was a partial master, and there was no difference between who was higher or lower. The more people there were, the stronger they were. It was normal to have the right to speak.

"There was a fierce battle here. It seems that both sides went all out. I don't know which continent's brother encountered people from the Sangzi continent and the other three continents."

The leader of the burning sun continent was a half-step to heaven breaking expert. He was one of the strongest among the seventeen people present. As soon as he spoke, he determined the battle to be a battle between the Alliance of the thirty-six continents and the Alliance of the three previous continents.

"The traces of battle here ... Seem a little strange. I remember that after the first violent battle, about a minute later, there was the sound of a Second Battle. Could there have been more than one battle here?"

A warrior half a step to heaven crushing expert from another continent frowned and vigilantly looked around."Everyone, be careful. The battle just ended not long ago, so there might be people lying in ambush nearby. If they are our people, they will definitely come out to meet us When They See Us coming. Those who don't come out are most likely the enemies!"

One had to admit that this guy was quite experienced, and his vigilance was very high. Unfortunately, Lin Yi's invisibility formation was at the peak of perfection, and he couldn't see through it.

When the others heard this, they all clenched their weapons tightly and got into a defensive formation. They would be able to respond to any unexpected situation at the first moment.

Inside the formation, Fei daqiang whispered to Lin Yi, "Boss, are we not going to attack now? This motley crew can be taken down in a short while!"

"There's no need to be so quiet. This formation has a sound-proof function. We can hear them talking, but they can't hear us!"

Lin Yi smiled and continued, "There's no need to worry now. Let's hear what they have to say first. We might be able to obtain some unexpected information. "

Chapter 8938

Zhang Yiming didn't say anything. He just looked at the mixed team outside thoughtfully. He didn't seem to be interested in fighting.

Fei daqiang made an "Oh" sound. He would just do what the thigh said and let those motley crew play for a while.

The people outside were in a defensive stance, but the conversation did not stop.

"There's no movement. Perhaps he has already left? It's also possible that they don't dare to come out and attack us because they see that we have more people!"

The burning sun continent's team leader smiled, "Everyone, keep your guard up and don't let your guard down!"

The others agreed one after another, but he didn't care. It was a temporary team of three continents, and it was a joke to ask for neat and orderly arrangements!

"Brother, did you meet anyone from the first three continents when you came here?"

The team leader of the burning sun continent started to ask around, but he didn't have time to ask when they were gathering, "Before I came in, I said that the people who were sent in the same batch would appear at the neighboring teleportation point. I thought that the people nearby were people from our continent. In the end, I didn't see my own people, but I met you!"

"From the traces left by the two sides of the battle, it seems that there are no people from our continent. It's strange! Could it be that vice Hall Master Dian wasn't telling the truth before he came in?"

"We didn't meet anyone from the first three continents, but we met not long after we left the teleportation point. We also thought that we would meet people from our continent first, but we didn't expect to never see anyone from our continent!"

The half-step heaven crushing expert who had said that he wanted to remain vigilant shook his head with a wry smile. "Now it seems that the possibility of our own continent being nearby is very low. One

of the people fighting here should be from the first three continents, and the other side is unknown, but it may be a brother from another continent!"

"It's good that we can work together to fight against the enemy. If we encounter people from the first three continents, we can easily face them! It would be perfect if we could snatch their points!"

Another continent's martial artist also joined in the conversation. "Let's discuss how we should distribute the points of the main forces of the first three continents. Should we split it equally?"

The leader of the burning sun continent laughed. "Equal distribution seems fair, but it's unfair! For example, if your people fought to the death to kill the other party, and we didn't do anything, but wanted to split the spoils equally, do you think it's appropriate? Let's distribute it according to how much effort we put in. The more we work, the more we get. It's fair to everyone!"

The team leader from another continent frowned and said, ""Then how do we determine who contributed the most? For example, if one side focused on defense and blocked all the attacks, while the other side wandered around and exhausted the other side's strength and aura, but was killed by the other side in the end, who would put in more effort? the killer or the defender? What about the number of people consumed?"

Lin Yi and the others couldn't help but laugh. They hadn't even seen him yet, and they were already fighting over the loot? As expected, a motley crew couldn't achieve great things!

The three parties on the outside wrangled for a while, but still couldn't get the point, so they could only put it aside for the time being, saying that they would discuss it when there was really a need for distribution.

At that time, if they couldn't discuss it properly, at worst, they would meet on the battlefield, and whoever died would be unlucky!

Each of these people had their own ulterior motives and laughed heartily, pretending to be happy and harmonious.

Five or six minutes had passed without them realizing it. Other than them, there were no other teams coming over, so they discussed for a while and prepared to go in other directions to find people.

It didn't matter if it was their own people or the enemies they expected, as long as they met them, it would be fine!

Fei daqiang had been waiting for a long time. Seeing that they were about to leave, he couldn't help but ask, "Boss, are we just going to watch them leave? No matter how small a mosquito is, it's still meat. Don't waste it! They don't have any information for us, so we should just get rid of them!"

Zhang Yiming reached out and patted Fei daqiang, ""Do you still not understand? The boss left them behind on purpose!"

"Why?"

Fei daqiang was stunned. He really didn't understand why Lin Yi kept these people alive. In terms of strength ... These seventeen people combined weren't even enough to fight one of Lin Yi's hands!

Why not do something that was convenient and didn't require much effort?

Zhang Yiming patted his forehead, his face full of disappointment. "Fei daqiang, if you were half as smart as you were when you were making money, I wouldn't have to spend so much effort!"

Fei daqiang almost slapped him on the head. What do you mean by saying that your Grandpa Fei is stupid? Are you asking for a beating?

If it wasn't for Lin Yi's thigh in between, he would have let Zhang xiaopang know why flowers were so red!

Zhang Yiming saw that Fei daqiang's expression wasn't good, so he didn't dare to continue showing off. He quickly said, "Didn't you notice the direction the seven people from the burning sun continent came from?"

Fei daqiang really didn't pay attention. He quickly turned his head to think and then suddenly said, "It's in the opposite direction from where we came! So this was the best way to find that bastard Fang Gezi? Eh? What does that have to do with us letting them go?"

Zhang Yiming's mouth twitched. He felt like he was playing the piano to a cow. If he continued, he would only be angered to death!

Lin Yi shook his head and smiled, "Yiming, da Qiang didn't go check just now, so it's normal that he doesn't know!" Don't tease him!"

Fei daqiang immediately bared his teeth. "Zhang xiaopang, are you so free? you dare to play with me?" Do you believe I'll beat you up?"

Zhang Yiming raised his hand and begged for mercy. "Yes, yes, yes. It's my fault. I'll just say it!" The direction the seven people from the burning sun continent came from is the direction the winner of the battle left in!"

"In such a short period of time, the two teams would not have passed each other. When they came, they were dozens of meters away from each other. They could sense each other's movements. How could they miss the team that was coming from the opposite side?"

"It's obvious that the seven people from the burning sun continent left from here! Originally, they wanted to leave the scene as soon as possible and get out of the disgraceful incident of ambushing their allies. "

"However, after hearing the sounds of a battle here, they felt that there was a chance to reap more benefits after tasting the benefits. They could pretend that they had just arrived and clear their name."

"If another conflict erupts between two teams here, they can totally sit back and reap the benefits. Even if they encounter one team, they can find a way to sneak attack again!"

"They did run into one, but it was a team from two continents. They weren't sure if they could take it all in one go. If one of them managed to escape and spread the news, the burning sun continent would become a rat on the street!"

Fei daqiang finally understood. He clapped his hands and said, "I see. Why didn't you say that the seven rats of the burning sun continent were our hidden allies? In that case, it's not good to make a move on them!"

Chapter 8939

"Come to think of it, it was Fang Gezi who set up the Alliance of the 36 continents, and the first person to stab an ally was also one of her men? What was the meaning of this unlucky child? Do you want to destroy this Alliance?"

He had never seen someone who built his own house and poached his own wall at the same time! Not only had Fei daqiang never seen this before, Lin Yi had never even heard of it!

However, it was understandable if one thought about it carefully. Fang Gezi wanted to deal with the first three continents led by Lin Yi, and at the same time, she wanted to make the burning sun continent a first-class continent.

The Alliance was the foundation to deal with Lin Yi's group, but it was hard to say how many points they would get in the end. Instead of fighting with the temporary allies at the end, it was better to play dirty from the start and get enough points first!

If they were lucky and snatched the main force points of a continent, they would make a big profit!

"You don't have to worry about what Fang Gezi is thinking. It's not bad for us to play around with the burning sun continent, so let them be for the time being!"

Lin Yi waved his hand and put away the formation flag, removing the invisibility formation. "From their conversation just now, what Dian Youwei said might not be true. The others that we've scattered might not be nearby! I can only think of a way to look for it!"

"Boss, why don't we follow them? In case they run into our people, we can help them!"

Fei daqiang still couldn't forget about it and always wanted to find an opportunity to get rid of the previous group of people!

If that group of people met other groups from the Sangzi continent, or Fengqi continent or Wutong continent, Lin Yi would have to help them!

"No need! No matter which direction we go, the chances of meeting our own people are the same. Following those people will only slow us down. Let them consume their own energy!"

Lin Yi rejected the suggestion immediately. "Our main target was the burning sun continent where Fang Gezi and the others are. We're not in a hurry now. Let them fight among themselves. No one will really die Here anyway."

"Once the team battle is over, even if the burning sun continent becomes a first-class continent, it will still be attacked by the Allies he betrayed! This is more interesting than ending them now!"

Fei daqiang thought about it and agreed. If they could really silence people inside the barrier, then the burning sun great continent's tricks were still somewhat useful. As long as they did it discreetly enough, they weren't afraid of people discovering their little tricks.

As for now, he could only obtain a temporary advantage in the barrier. There would come a time when he would be dealt with later!

"Boss, I think the burning sun continent will also choose their targets specifically. They won't be so crazy as to attack all the teams from the other continents, right?"

Zhang Yiming scratched the back of his head. "The continents that they don't have a good relationship with and aren't strong are their targets. I don't think the other continents will do anything. They don't need to be the only one. They just need to get enough points to surpass us."

"This is the best way for the burning sun continent to take revenge. Even if the other continents want to take revenge, they won't dare to act rashly if they don't have enough power!"

Lin Yi nodded in agreement after some thought. "Indeed! So, you mean ... We have to do something in it? For example, pretending to be someone from the burning sun continent and robbing people from other continents?"

"Boss is wise, that's what I meant! As expected, boss, you already had a plan, I didn't need to say anything!"

Zhang Yiming had been with Fei daqiang for a long time, and he had learned the eloquence needed to hug someone's thigh. His expression was also in sync, making Fei daqiang vigilant. He was afraid that Zhang xiaopang would take over his position as the senior leg hair!

Sigh ... Do you think it's easy for you, Grandpa Fei? His life's dream was to be a qualified and experienced leg hair. Why were there always some flirtatious bitches who wanted to covet this position? It's really too difficult for me!

"Don't be garrulous! If you didn't remind me, I wouldn't have remembered!"

Lin Yi smiled as he slapped Zhang Yiming's face. He shook his head, "That's a good idea. We're going to deal with the other continents anyway, so there's nothing wrong with shifting the blame to the burning sun continent. However, it's not that easy to work on the people of the burning sun continent. "

First was the clothing, the symbol, the name tag, etc. He needed to take them from the people of the burning sun continent to disguise himself, but he didn't want to touch them for the time being so that the burning sun continent would continue to be rat sh * t in the pot of the Alliance of the thirty-six continents.

Even if they wanted to touch them, they could only snatch their nameplates at most. It was not easy to get their clothes and so on. When they snatched their nameplates, they would be teleported out!

"There's no hurry. Let's think about it!"

Lin Yi put it aside for now and led the team in another direction.

This was the only direction that no team had come from before ... Perhaps there had been one, the team of unlucky people who had been sneaked away by the people of the burning sun continent.

Lin Yi chose this direction because he wanted to try his luck-he might run into other teams, whether they were his own or enemies!

After walking for another 10 minutes, they were already tens of kilometers away from the place where the battle had taken place. They didn't meet anyone along the way. They were really unlucky!

The vastness of the barrier also changed their understanding of it. The forest was so big, and it was almost endless. Who would've thought that the forest was only one part of the barrier?

If the other landforms were all this big, it would take a day and a night to cover it. Time was really quite tight!

Lin Yi was feeling frustrated that he couldn't find the People's hearts when his spirit sense found something unusual!

On the surface, there was nothing special about the tree, but the trunk was hollow! If one didn't pay attention, one wouldn't be able to notice the problem.

After Lin Yi's spirit sense scanned it, he pulled it back and looked at it carefully again. He found something!

"This way! There's a tree there, and it feels very strange!"

Lin Yi called out, and the four immediately followed him. No one raised any questions.

The tree was not far from their original path, only twenty or thirty meters away. Even without using spiritual sense, they could vaguely see the trunk, but no one would pay special attention to a seemingly ordinary tree.

If Lin Yi didn't use his spirit sense to scan with a radius of two hundred meters, he wouldn't be able to find the difference!

"Boss, is there something wrong with this tree? It looks normal!"

Zhang Yiming touched the trunk of the big tree and didn't find anything unusual.

"Why don't we just knock it down?" Fei daqiang rolled up his sleeves.

Lin Yi waved his hand, signaling for them to back off. "There's a very well-hidden seal on this tree, so there must be something hidden in the trunk! If you try to break it by force, you might damage the items inside. "

Chapter 8940

"That's easy. Boss, you can just break the array with your big feet. You can definitely break the seal!"

Fei daqiang waved his hand casually. In his heart, Lin Yi was the synonym of omnipotent. He could solve anything perfectly!

Lin Yi chuckled and shook his head. He didn't say if breaking the formation with his feet would solve the problem. He only put his hand on the tree and used his spirit and palm to distinguish the restrictions on the tree.

At first glance, it was a little troublesome, but after careful inspection, he realized that it was nothing more than this!

With Lin Yi's skill in this area, there really wasn't any seal or restriction that could trouble him!

Soon, Lin Yi found a way to break it. He just used his elemental Qi and the vines around the tree started to move.

The originally ordinary vines seemed to have come to life in an instant. They squirmed and contracted, drifting away in all directions, revealing a small hole in the trunk.

The space inside the tree hole was very small, and the hole was only big enough for an adult's hand to go in. Lin Yi reached his hand in without hesitation. Fei daqiang wanted to fight for a chance to show off, but Lin Yi took his hand back before he could even open his mouth!

"Boss, what's inside?"

Fei daqiang looked at Lin Yi's palm, and Lin Yi opened it up, revealing an oval-shaped white jade. There were a few ancient words carved on the surface, and a picture around the words.

"The continent's symbol? It turned out that this thing was hidden so well! If it wasn't for boss, who would have found it hiding here!"

Fei daqiang was very surprised. He looked at the Jade tablet and then at the tree hole. The surrounding vines had wriggled back, the trunk had returned to its original state, and the tree hole had completely disappeared. No matter how he looked, he couldn't see any flaws.

They got the symbol of a third tier continent this time, and it didn't have much to do with Lin Yi's side. They must've joined the Alliance too, but it wasn't out of jealousy-they were just following the crowd.

If they didn't join the alliance of the first and second tier continents against the top three, they'd be targeted too. It wasn't that they wanted to deal with Lin Yi's group, it was more like they were trying to protect themselves.

Of course, this wasn't a reason to forgive him. Lin Yi wouldn't go easy on them-he'd kill them if he had to, and he'd have to pay the price for standing on the wrong side!

"It's really difficult to find their hiding place before the continents can sense them! It's also possible that not all the symbols of the continent are hidden so well. Otherwise, if no one can find them, we won't have enough time later!"

Lin Yi said as he tossed the Jade to Fei daqiang. "No matter what, it's definitely a good thing if we can get more Jade plates. In the end, we don't need to look for people, they will come to us on their own!"

He didn't have to force it-it was best if he could find it, but it didn't matter if he couldn't. Lin Yi didn't care too much about it, and he wasn't even in a hurry to get his own logo. He'd be able to feel it in the end anyway, so he'd leave it to fate.

"Boss, do you want me to keep the cards of the other continents?"

Fei daqiang caught the Jade token and revealed a happy smile, "As expected, such an important person still needs boss's most trusted person to cook!"

As he spoke, he raised his eyebrows at Zhang Yiming, meaning that leg hair's position was still stable. It was still too early for him to usurp the throne!

Zhang Yiming couldn't help but roll his eyes. "It's just a target, is there a need to be so excited? The boss chose you as a target because of your thick skin. It's such a simple task, what does it have to do with trust?"

This is heart-wrenching, old tie!

Fei daqiang thought about it and it was true. When all the continents could sense the location of the continent's symbol, the person holding the jade pendant would naturally become a bright torch in the night and attract everyone's attention!

"What's wrong with the target? Why didn't the target need to be trusted? Do you think anyone can be a target? If it wasn't for the fact that there was someone important by boss's side, would those guys believe it? I'm afraid you can tell that there's a problem with a single glance. "

Fei daqiang straightened his neck and leaned against the wall, trying to show that he was very important!

Zhang Yiming didn't have many chances to make Fei daqiang suffer, so he didn't let his guard down. The two of them began to argue.

Lin Yi shook his head with a smile, letting them be. They'd been bickering all this time anyway, and it made their relationship even more intimate.

As for using Fei daqiang as a target, it was Zhang Yiming's joke. Everyone knew that Lin Yi didn't have to do that.

No matter who had the Jade token, all the continents that wanted it would have to come and fight for it. Lin Yi didn't need Fei daqiang to attract attention!

It was true that the Alliance wanted the Jade token, but their main target was still Lin Yi! Lin Yi was like the sun in the sky, who would care about Fei daqiang's torch when compared to the sun?

The five of them continued forward. Obtaining a token was an unexpected gain. Strictly speaking, it was nothing. After all, they only got 50 points in the end.

Sangzi Dazhou's advantage in points was too big and he didn't lack points. It was better than nothing. Fei daqiang and Zhang Yiming didn't care. Their focus was on whether the target was important or not.

After walking for a while, a Valley appeared in the forest. The entrance to the valley was narrow, and the passage into the valley was about twenty meters long. It could only allow two people to walk side by side, but after passing through the passage, the inside suddenly became open.

It was like walking out of the players' passageway and facing the entire football field.

Lin Yi used his spirit sense to check before he even got close to the entrance. Two hundred meters wasn't enough to cover the entire Valley. He could only check the area near the exit.

"There's a small valley up ahead. Everyone, stop for a moment!"

About fifty meters away from the entrance, Lin Yi raised his hand, signaling for the others to stay alert. "There are traces of human activity nearby. Someone might have stopped in the valley!"

From his current position, he couldn't see the entrance of the valley with his naked eye. The trees were too good at blocking. If he didn't have his divine sense, the entrance to the valley wouldn't be easy to find.

If they didn't pass by the entrance by chance, it was more likely that they'd just brushed past each other since they were forty to fifty meters away from Lin Yi!

"Boss, isn't it better if someone stops by? let's go in and take a look. If it's our own people, we'll win. If it's our enemies, we'll win. Anyway, we'll return victorious. There's no difference!"

These shameless words were obviously from Fei daqiang, but it did make sense. With Lin Yi's strength, he had nothing to fear with these people!

"We don't know what's going on inside. If we rush in, won't we alert the enemy?"

"If there's really someone inside, there might be someone standing guard at the entrance. We'll be discovered as soon as we get close. Then, we'll inform the people inside. What if there's another exit on the other side and they slip away?" Zhang Yiming said. Boss means that if we want to go in, we have to find a way not to alert the people inside!"
