

## Bodyguard 8941

### Chapter 8941

Fei daqiang deeply agreed. The Big Brother definitely wanted to catch all the enemies in one fell swoop, so it was quite necessary to not give the other party time to react and prepare!

But now, he was going to argue, so he had to make things difficult!

And so, the two started to love and hate each other. Fei daqiang was more eloquent, and even if he didn't care, he could still argue. Lin Yi didn't care.

"I'll go take a look first, you guys wait here!"

With that, Lin Yi dodged to the entrance of the valley. The valley was made of rocks, and there wasn't a single blade of grass on the surface. It stood out in the forest, but fortunately, there were tall trees around it, so it didn't look out of place.

Lin Yi got closer to the entrance, checking if there was anyone above. He didn't have enough distance before, but it was much better now.

The passage was narrow, and if someone ambushed them from the top, it would be difficult to avoid them.

After checking and making sure there were no ambushes, Lin Yi sent a secret signal to Fei daqiang and the others to follow them. They would enter the valley through the tunnel together.

"Shua shua! There was indeed someone! Quite a few! It seems that uncle Fei can show off his skills!"

Fei daqiang's eyesight was good. After making sure that there were no one on his side, he immediately rubbed his fists and was ready for a big fight!

After coming out of the passage, they could see a Lake in the valley. On the other side of the lake, there were about thirty people, who were currently gathered together and discussing something.

"Boss, judging from their clothes, they're from five different continents! The leader is the patrol envoy of the Xingyuan continent. He was the new patrol envoy who took over after the fall of bei guoxia. The status of the people from the other continents is not as high as his, so they must follow his lead. "

Zhang Yiming's information gathering skills were excellent. Even though he had just arrived in Xingyuan continent, the information he gathered was more detailed than Fei daqiang 's.

There were seven people on the starsource continent, while there was a seven-person team, two six-person teams, and a five-person team on the other four continents, making a total of 31 people!

As expected, the thirty-six continents Alliance had the absolute advantage in numbers. They could easily gather many teams, unlike Lin Yi. He met so many teams but didn't see a single one of his own. Even the people from Fengqi and Wutong continents were missing.

"It's Sima Yi! Sangzi continent's people!"

Someone on the other side of the lake saw Lin Yi and the others coming in and immediately cried out. Everyone stood up and got into a fighting stance.

Even though they were two to three hundred meters apart, it didn't stop them from sensing the tension. After all, Lin Yi's name was already famous enough.

Just the fact that he entered the node world alone and managed to escape unscathed was enough to shock most of the martial artists!

Lin Yi led Fei daqiang and the others towards them at a steady pace, not forgetting to wave as he walked, "Hello, everyone! I didn't expect this place to be so lively! Was this a meal? Is there anything good to eat? Although we're uninvited guests, I'm sure you won't mind entertaining us?"

"Sima Yi! Don't think that you can do whatever you want just because you're strong! We are not afraid of you! Brothers, don't you agree?"

There was a practitioner who was half a step to heaven-breaking encouraging Lin Yi loudly. He should know that he wasn't Lin Yi's match, but at least there were more people here.

The people around them belonged to five different continents, so there was no tacit understanding to speak of. They responded sparsely, and there was no aura at all!

Could such a motley crew really stop Sangzi Dazhou's Sima Yi?

This thought suddenly appeared in most people's minds. For a moment, their morale was even lower. They were really afraid before the battle. If there was a way to escape, they would probably run away.

It was a pity that there was only one entrance to this Valley, and that was the path behind Lin Yi and the others. The other paths were completely impassable unless they climbed up the walls, but if they did that, they would be teleported out before they could escape.

"Investigator Liang, say something! Or to instruct everyone on how to deal with it! You're the only one here who can go against Sima Yi!"

The cultivator who spoke just now turned his head to look at the new patrol envoy of the starsource continent, Liang Shuliang. Among the people present, Liang Shuliang was the only heaven breaking cultivator, and his status was the highest.

Naturally, Liang Shuliang was the only one who could fight Lin Yi!

Even if they couldn 't, Liang could at least buy them some time so they could escape.

Liang Liang nodded,"Everyone, calm down! We have the advantage in numbers, if we really fight, the outcome is still unknown! Everyone here is an elite, do you think we're afraid of those few people?"

As soon as these words came out, the cultivators from the other continents felt a little more at ease. Sometimes, it was like this. When it came to success or failure, the only thing missing was a qualified leader!

"Do as we've just discussed. Don't panic, everyone. Listen to my command!"

Liang Liang continued to give everyone confidence with his calm and steady attitude. "Team 2, form your left wing. Team 4, form your right wing. Team No. 3 and team No. 5 advanced and got into formation. Team No. 3 was in charge of defense, and team No. 5 was ready to counterattack! Unit 1 will stay in the middle and provide support to all sides!"

When they were discussing earlier, they had decided on their respective numbers. The teams of the five continents had their own numbers.

The starsource continent was naturally team one, while the other four continents were team two to five according to their numbers.

Liang Liang Liang's arrangement seemed to be using the other continents as cannon fodder while the people of the starsource continent were hiding at the back as the Reapers.

However, no one could object to this. After all, they were the ones who handed over the command. If they followed the arrangement, everyone still had the strength to fight. If they didn't listen to the command, they would face the scene of collapse and defeat at any moment.

There were priorities. No matter how dissatisfied he was, he could talk about it later!

So, the people from the other four continents moved quickly. They followed Liang Liang's command and got into formation.

Fei daqiang laughed loudly as he walked, ""Are you all here to be funny? Such a crude battle formation, and he had the face to use it to embarrass himself? Don't you know that our boss is a genius in array Dao? It's better to not use such a simple battle formation!"

Were the battle formations of these continents crude? Of course not!

After all, they were the most elite experts of their respective continents, so how could the battle formation they used be bad? It was more than enough to fight against the darkness demon beast clan, which was slightly stronger than them.

But Fei daqiang was right. In Lin Yi's eyes, these battle formations were full of flaws, countless flaws!

It was too easy to counter them. Using these battle formations was indeed better than simply attacking blindly!

Chapter 8942

"Big words! If you have the ability, then come! We'd like to see how you can break our formation!"

The half-step heaven crushing expert who had spoken earlier was naturally not convinced, and a rebuttal was also considered a morale boost!

Liang Liang waited for Lin Yi's group to get within thirty meters, and when everyone was focused to the max, he shouted, "Do it!"

Team two, three, four, and five subconsciously thought that Liang Liang had ordered them to attack first. They were focused on Lin Yi's team and instinctively rushed at the enemy!

What they didn't expect was that just as they were about to charge, a bright blade light flashed behind them!

He saw the black blade behind him again!

Lin Yi didn't expect something like this to happen. He stopped in his tracks subconsciously, and so did Fei daqiang and the others, all of them with their mouths wide open!

Fei daqiang had just been rubbing his fists and sharpening his knife, but in the end, his opponent had been hacked to death by his own man, and all his sharpening had been for nothing!

It wasn't just Lin Yi who didn't expect this-the people of continents two, three, four, and five didn't expect this to happen either!

Even if there was an internal strife, it should be after the enemy was killed. It would be reasonable to have a dispute over the uneven distribution of loot, right? The enemy was right in front of him, yet he stabbed him in the back ... Did he think that the enemy was just a paper tiger?

In any case, it had already happened. There were a total of twenty-four people on the second, third, fourth and fifth continents, which was three and a half times more than the seven people on the first astral origin continent. Under normal circumstances, it would be difficult to predict the outcome of the battle.

But right now, all their attention was on Lin Yi's group of five. Their skills were not activated yet, and their power was focused on the front. They didn't guard against a sneak attack from behind at all!

It was like a 100-meter race runner who heard the starting gun and rushed out with all his might. A rope suddenly popped up from the ground and tripped them. No one could react in time. They were instantly thrown into the air, turned in the air, and fell on the ground.

They were still able to stand up after falling down during the race. Unfortunately, they were not in a race at this time, but were ambushed. In an instant, the defense mechanism of the twenty-four nameplates was triggered. After a short pause, they turned into white light and were teleported away, leaving only twenty-four necklaces with nameplates on them falling to the ground.

Liang Liang put his blade away and smiled at Lin Yi, "Patrol envoy Sima! Do you like this gift I gave you?"

The other six generals all withdrew their blades and stood behind Liang yulang. They cupped their hands and bowed to Lin Yi respectfully!

Lin Yi didn't know what that meant. To turn their weapons and surrender? Was his deterrent force already so strong?

Even if you surrender, I might not accept you! Who would dare to treat someone who betrayed their allies with sincerity? You can betray your allies now, but I can't guarantee that you won't stab me in the back a few times!

The people who followed Liang Shuliang were also unlucky. Just from the name, one could tell that they would definitely die if they followed him!

Perhaps this guy shouldn't be called cool, it would be more appropriate to call him damaged!

"Don't think that we'll let you go just because you made the first move and killed your companions! There's no such thing!"

Fei daqiang was very dissatisfied and immediately stood up to provoke him, ""You're just a motley crew, you're nothing but chickens and dogs in front of our boss. Our goal is all of your nameplates, including the few of you! Since it's a meeting gift, why don't you just give us your nameplates too!"

Unconvinced? Fight if you're not convinced!

Liang Liang didn't get angry at all. He smiled and said, "Patrol envoy Sima, we actually have a deep relationship! Let's not talk about other things, it's all thanks to you that I can smoothly take up this position as a patrol envoy!"

He was right-the last inspector bei guoxia was one of the people Lin Yi got rid of, and Liang wouldn't have gotten the position otherwise.

"By the way, I'm also one of Jin potian's people! From this point, we shouldn't be enemies!"

Liang Liang continued to play his cards, and Lin Yi understood a lot of things with one sentence.

Everything would be easier if he was Jin botian's man!

Lin Yi glanced at Zhang Yiming, who was beside him. The fatty shook his head slightly, indicating that he didn't know much about this. He had only been in the Xingyuan continent for a short time, and it wasn't easy to get some surface information. In-depth information wasn't something that could be obtained easily.

Liang Shuliang didn't seem to have much of a relationship with Jin botian on the surface. In fact, he was closer to Jin botian's competitors in the inspection department.

However, it was precisely because of this that it was not strange for him to be one of Jin botian's men! Lin Yi knew that this cheapskate brother of his had great foresight, and was used to hiding his network as a trump card.

For example, Lin Yi's relationship with Jin botian as a fellow apprentice had been well hidden up until now!

Liang Shuliang was able to successfully take over the position of the Xingyuan great continent's patrol because of Jin botian's efforts in the dark. His competitors might have also put in some effort ... He was a double agent!

No wonder Liang Liang didn't hesitate to attack his ally. He was used to being a spy!

The battle generals next to Liang Liang weren't surprised at all. They were clearly his trusted aides. This person's methods were impressive. He had only been the inspector of the starsource continent for a short time, but he already had a good grasp of the situation!

"Investigator Liang, it's useless for you to say all this! If you think you can get away with this, aren't you looking down on us too much?"

Zhang Yiming took over the conversation and sneered, ""As far as I know, out of all the continents, only our boss and investigator Liang are participating in the team battle as investigators!"

"Our boss was originally the martial league's Hall Master, but the martial League has yet to appoint a new hall Master, so he's the one leading the team. Your starsource great continent doesn't have a Hall Master to begin with, because the starsource great continent is where the continental martial Alliance is located. The hall Master of the great continent is the hall Master of the continental martial Alliance!"

"So all of your current points should be with you, investigator Liang, right? You're worried that you won't be able to win and lose all your points, so you put on this act of being a spy in front of us. You want us to believe that you're one of us and let you go?"

Fei daqiang nodded repeatedly, "that's right!" This was what happened! Zhang xiaopang, your deduction is very accurate!"

When there was nothing, the two of them would support each other. When there was something wrong, they were the closest comrades and would definitely stand together against outsiders!

Lin Yi didn't say anything and decided to wait and see. Zhang Yiming's analysis made sense, so he decided to wait for Liang Shuliang to explain.

Liang Liang was very calm. He smiled and shrugged, "You are Zhang Yiming, right? I know that you're the person in charge of collecting intelligence under patrol Sima. Perhaps you've just arrived at the star origin great continent, so you've overlooked something!"

Chapter 8943

"To me, those points are not important at all! All the other continents need points. Why? In order to get a good ranking for their respective continents! Does our starsource continent need it?"

Lin Yi and Zhang Yiming were both stunned. Did the starsource continent need points? Don't you need it? Holding the grass, he really didn't need it!

The starsource continent was the capital of the starsource continent. Participating in the competition was just a formality!

No matter how many points there were in the end, the starsource continent's status would not change. This was a first-class continent that would not be shaken even by Thunder!

Could it be that the resource allocation to the starsource continent would be canceled just because the starsource continent's performance was not good? Don't joke around! This was the center of the star source continent, and resources would only come from other continents. How could they talk about removing the favor of resources?

"So, patrol envoy Sima should be able to believe my sincerity, right? No matter how outstanding your performance is, you'll at most be on the same level as our starsource continent. "

Liang Liang didn't seem to be very proud. He was very calm, "Of course, if our starsource continent doesn't perform well, it will still be a little embarrassing, and people will inevitably point fingers at us. But these are all small matters, so it doesn't matter! Anyway, I've just been appointed, so don't blame me!"

These words were a little shameless! But it was the truth!

Lin Yi nodded slightly. The starsource continent was a superior continent. No matter how outstanding the other three continents were, their status wouldn't be affected. There was no competition between them, so there was no reason for them to be enemies!

Even a blind man could see that the martial Alliance's Hall Master, Luo xingliu, and the inspector's head, Jin botian, both valued Lin Yi a lot. As the inspector of the Xingyuan continent, Liang targeting Lin Yi was like slapping the faces of the martial Alliance's Hall Master and the inspector's head!

He was making a living under the eyes of the big shots and even dared to jump up and slap the big shots 'faces. How much did he want to die?

Now, it seemed that Liang Liang was not lying when he said he was working for Jin botian. At least, the credibility was quite high!

"Patrol envoy Sima, if I put it this way, everyone should be able to understand that our starsource continent doesn't need to participate in the Alliance of the thirty-six continents, right? The reason I agreed to Fang Gezi's suggestion was to support you!"

"Whether it's Hall Master Luo or Dean Jin, they are very concerned about your three continents. Naturally, they don't want to see you guys being attacked by a group of people! If we join them directly, they will still have the advantage in numbers. So, I will do the opposite and join their alliance. It will be easier to cover for you!"

Liang Shuliang's words made sense, and Lin Yi had to believe him.

"If that's the case, then I have to thank patrol envoy Liang!"

Lin Yi cupped his hands in thanks. It didn't matter if Liang Shuliang was telling the truth or not, the starsource continent's position didn't make much difference to him.

It was always a good thing to have one less enemy, but if there was one more, it would just be a matter of killing them in passing.

"We're all family, what's there to be polite about? It should be!"

Liang Liang waved his hand humbly and told his men to collect all the tags for Lin Yi. "Please accept these name tags, investigator Sima. We have no use for them anyway. If you need points in the end, we can also give you the ones on our side."

Fei daqiang kept the nameplate without any hesitation. Originally, he had counted the starsource continent's items as part of his harvest, so how could he be happy when he had lost a lot of them for no reason?

Lin Yi nodded and turned to Liang. "Then we won't be polite! What are investigator Liang's plans? Are you going to come with us, or are you going to stay in the enemy's Alliance?"

"Let's continue with our original plan! We won't be of much use if we follow patrol Sima now. With his strength, we might not be of much help if we follow him. It's better to divide the enemy's internal forces. "

Liang Liang Liang didn't hesitate to continue being undercover. Since the previous ones had been eliminated, the fact that he was undercover wouldn't be exposed for the time being. He had to continue!

He had only killed a few of them, so what credit could that be?

"That's good, then I'll have to trouble investigator Liang!"

Lin Yi didn't mind, and looked around. "The environment of this Valley is not bad. Did you find anything here?"

Liang Liang shook his head, "we didn't find anything of value. This place was special and we thought we would find something. However, we didn't find anything after searching. It looks like an ordinary place."

"We've been to the bottom of the lake, but there's nothing special. There's no fish or shrimp in the water, not even a blade of grass. But the lake water is a bit strange. It doesn't seem to have a place to flow, but it's not dead water. It doesn't have the rotten smell of dead water!"

Lin Yi's eyes followed Liang baring's finger as he looked at the lake. The water was blue, and there was no wind in the valley. The surface of the lake was as smooth as a mirror, reflecting the sky. It added some color to it, making it look pretty.

The lake water was just as Liang Liang had said. It didn't have any strange smell. Usually, stagnant water that wasn't flowing would have some smell. This was indeed special!

Lin Yi's spirit sense tried to penetrate into the lake water, but it only stayed on the surface and couldn't go deep!

"Eh? Investigator Liang is right, this lake water is indeed a bit special!"

Lin Yi's words seemed to echo Liang 's, but only Lin Yi himself knew that it wasn't as simple as Liang said!

Although Lin Yi's spirit sense was severely restricted in this barrier, only able to maintain a detection range of two hundred meters, the lake in front of him was only seven or eight meters away. If it could block the invasion of spirit sense, it was obviously not an ordinary thing!

"It's indeed a little strange, but there's nothing at the bottom of the lake. Can patrol Sima see anything?"

Liang Liang might have gone down to the bottom of the lake himself but couldn't find anything special. However, the lake water was still fresh even though it wasn't flowing. He couldn't get over it, so he changed the topic.

He'd heard of Lin Yi's abilities, but he'd never seen it with his own eyes. This was a good chance to see if the legendary Sima Yi was really that strong!

"There doesn't seem to be anything special on the surface," Lin Yi smiled faintly, "why don't we all go down and take a look? we might be able to find some clues!"

Before he could finish, Lin Yi raised his hand and threw out a bunch of formation flags into the lake. The calm lake surface instantly started to surge violently, waves crashing against each other and quickly splitting apart.

In the blink of an eye, all the water in the lake was pushed into the air by an invisible force, forming a blue water curtain above the lake. The lake below was completely empty, revealing the dark gray rock layer below.

Chapter 8944 The End

Liang Liang couldn't help but exclaim, "inspector Sima is indeed a Diamond Grade array master. A simple water-proof array has such power. It's really amazing!"

"Investigator Liang, you're too kind. It's just a small trick, I'm sorry!"

Lin Yi smiled humbly and walked towards the lake first. Liang Liang naturally followed half a step behind and followed Lin Yi's right side. The people from the starsource continent followed behind while Fei daqiang and the people from the Sangzi continent were on Lin Yi's left side. The two sides maintained a body's distance and were clearly separated.

Entering the rock Lake bottom, it was just as Liang paoliang had said. There wasn't even a single stalk of water grass or moss. It was a complete rock pit.

Without the lake water blocking them, it was easier to see the entire bottom of the lake. There was indeed no undercurrent passage for the water to flow through.

Did the water here really not need to be circulated and would not rot?

Lin Yi quickly found the answer!

The group walked to the center and stood still, a smile on Lin Yi's face.

"Patrol envoy Sima, did you discover something?"

Liang Liang had been paying attention to Lin Yi's expression, and he asked immediately after seeing that smile.

Lin Yi nodded and pointed. "There's a very interesting concealment array here. The technique is quite exquisite. If I didn't look carefully, I would've almost been deceived!"

In fact, it wasn't just a stealth formation at the bottom of the lake-there was also a formation that blocked out divine sense. Lin Yi suspected that the purpose of adding this formation was to expose the stealth formation!

The barrier originally had a very strong restriction on the spiritual sense. Ordinary people couldn't use the spiritual sense to probe at all. It was the same whether or not there was an array that blocked the spiritual sense.

And those who could use divine sense to probe most likely wouldn't be able to discover the concealment array. On the contrary, because of the existence of the divine sense shielding array, making the divine sense unable to penetrate, it would attract even more attention!

Therefore, it was not wrong to say that this was a flaw that was deliberately left behind!

"You're too humble, patrol Sima. You're a rare genius of arrays that only appears once in a thousand years. At such a young age, you're already a Diamond Grade array master. Your array skills are so high that even the people of the sky array sect have to admit defeat. In front of you, what kind of concealment array can hide you?"

Liang Liang praised Lin Yi sincerely. "It looks like only patrol Sima can discover the concealment array here. If it were anyone else, they definitely wouldn't be able to find any clues! Then I'll be waiting to see how patrol Sima will break this concealment array!"

"To be able to see with my own eyes patrol envoy Sima breaking the formation, it's truly a great fortune! I'll have the capital to brag in the future!"

Fei daqiang immediately became vigilant. He didn't know whether this Liang Liang was cold or not, but his ability to flatter was really not low!

Could it be that master Fei was going to have another competitor with experienced leg hair? It can't be, right? In any case, he's a patrol envoy. Isn't it too embarrassing to compete with uncle Fei for a seat?

Liang Liang didn't know that Fei daqiang was treating him as a competitor for leg hair. After praising Lin Yi, he was waiting for Lin Yi to break the formation.

Lin Yi's mouth twitched. Shouldn't he consider what position was more cool to use to break the formation? If it's too ordinary, will you be disappointed?

Was it more appropriate to use a more elegant or more simple method to break the formation? Should he control the time so that he could perform more techniques and movements?

After thinking it through, Lin Yi lifted his leg and kicked. It wasn't aesthetically pleasing at all-it was just a casual kick, and the posture ... Was quite handsome. As for the fancy and simple movements, it wasn't at all!

With a series of light cracking sounds, the space on the ground in front of everyone seemed to shatter, turning into specks of light that flew to the ground and disappeared.

"Big feet, break the formation! This is our boss's ultimate skill! A seemingly casual kick had easily broken all the formations! It was extremely powerful! Has investigator Liang ever seen such a powerful formation-breaking technique before?"

Fei daqiang was the first to jump out and excitedly introduced the long-lost big feet array breaking technique!

"I've never seen it before. It's indeed very powerful!"

Liang Liang complimented as well, and Lin Yi blinked as he looked at Liang Liang and Fei daqiang. He felt like they could form a team and do a crosstalk!

The capabilities of the douxiao and the supporting role were not bad, and they had the potential to become popular!

"Boss, it's a symbol of a continent! He's really well hidden!"

Zhang Yiming didn't say "again" or "this time" in case Liang and the others noticed that Lin Yi had the symbol of another continent.

Lin Yi didn't really mind-so what if he knew? In any case, he would still be detected in the end. Now that Liang Liang Liang knew, he wouldn't come to snatch it.

"He's indeed hidden deep enough! Even if I can sense it, it won't be easy to find it!"

Liang Liang immediately agreed,"if it wasn't for patrol envoy Sima, we wouldn't even know that the symbol of the continent exists here!" We still don't know where the array master we brought in this time is!"

Other than Liang Shuliang, the rest of the seven people in their team were all combat generals of the combat Association. They were powerful, but they did not have a deep understanding of formations. Otherwise, they would have discovered the existence of the invisibility formation when they were searching the bottom of the lake.

"Investigator Liang, it seems like your luck is pretty good. The symbol here belongs to your starsource continent! It's worth congratulatory to be able to obtain the continent's symbol at the beginning!"

Lin Yi picked up the Jade token and saw that it had the Xingyuan continent's logo on it. He gave it to Liang Liang,"Just now, you gave us a meeting gift. As the saying goes, it's impolite not to return the favor. This is our Sangzi continent's gift in return! Investigator Liang, please kindly accept it!"

Lin Yi didn't care about the favor at all.

He could only exchange it for 50 points, but Liang Liang could keep half of his points and get an extra 100 points. It was a great benefit!

Liang Liang quickly took it with both hands and said with a smile, "It's impolite to refuse a gift from patrol envoy Sima! He felt ashamed to receive it! Thank you, thank you!"

He could not refuse this favor! He couldn't refuse.

He said that he didn't care about how many points he had. Even if he didn't have any points, it wouldn't shake the starsource continent's status as a first-class continent. However, if his ranking was too low and embarrassed himself, Luo xingliu and Jin botian would also lose face.

Therefore, it was better to have a good ranking than to fail.

"Investigator Liang, you're too polite. The number plate you gave me is worth more points than this symbol. There's no need to keep thanking me."

Lin Yi waved his hand nonchalantly and looked at the spot where the Dazhou sign was. There was a meter-wide hole with water flowing through it.

Chapter 8945

Because of the formation, the water from the cave was unable to flow out and was restricted to the passage. He finally found the reason why the lake water did not seem like dead water!

It was obvious that this passage led to another water source, and only by flowing with each other could the water not rot!

"Boss, we don't know where this cave leads to. Could there be something good inside? Why don't I go over and take a look first?"

As Fei daqiang spoke, he reached into the cave and paddled in the water a few times. The water in the cave was cool and comfortable, but the entrance was a little narrow, with a diameter of one meter. If a person went in, there was basically no space to turn around.

If the passage became narrower as they went deeper, the situation would become more awkward, and they might be caught in a dilemma.

"Alright, go and take a look!"

Lin Yi nodded, and Fei daqiang immediately went into the cave and went down the tunnel.

The passage didn't become as narrow as he had imagined. Instead, it gradually widened. After swimming for about 500 to 600 meters, he passed a U-turn on the way and went from downstream to upstream.

When he finally emerged from the water, he saw an underground lake in the middle of the mountain. Lin Yi and the others followed him before he could go back.

"Boss, why didn't you wait for me to go back and inform you?"

Fei daqiang was a little depressed. He felt that it didn't have the effect it should have ...

"You're leading the way. If the distance is too long, how long do we have to wait? A one-way trip will take 12 to 12 hours. By the time you return, the team battle will have already ended!"

Lin Yi said that, but he was worried about Fei daqiang. The water could block divine sense, and even the two hundred meters distance was gone. How could he be at ease leaving Fei daqiang alone in an unpredictable situation?

If something happened, it would be too late to send help!

This was why Lin Yi had Zhang Yiming bring the two generals after Fei daqiang. He then acted as the link between Sangzi continent and Xingyuan continent and had Liang Liang bring his men with him.

This way, if anything happened, Lin Yi could rush over to help. Liang Liang would have to face Lin Yi first if he had any other thoughts.

Fortunately, everything went smoothly in the passage, and nothing happened. Finally, everyone arrived at the underground lake in the middle of the mountain!

He didn't know what material the rocks in the middle of the mountain were made of, but they emitted a faint fluorescent light. It was originally a dark place, but because of the existence of these rocks, he could barely see things, not to the point where he couldn't even see his fingers.

Fei daqiang couldn't refute Lin Yi's words. He turned around and looked at the environment. He found a new waterway, "Boss, look over there. There's a tunnel, and water is flowing out of it!"

The mountain wasn't that big-Lin Yi scanned with his spirit sense and found that it had a radius of two hundred meters, which was just enough to cover the entire mountain. He didn't find anything special, and those glowing rocks were only low-level crafting materials. Lin Yi didn't even care about them.

The only thing worth paying attention to was the passage that Fei daqiang mentioned. It was the only passage to leave besides the waterway at the bottom of the lake: "Let's go. We'll follow the water flow out of the passage and take a look!"

The group paddled in the water a few times and entered the tunnel. They were able to stand up and walk. The water started at Lin Yi's chest area, but the water level dropped as they moved forward.

After walking for a full four or five kilometers, the water level had already dropped to their ankles, and the glowing stones in the passage had long disappeared. Along the way, Fei daqiang was holding two huge luminous pearls as a light source.

This guy was just showing off. In fact, he still had a flashlight in his storage bag, but he felt that the flashlight was not as good as the night-luminescent Pearl! They didn't think that Liang Shuliang, the leader of the martial Alliance of the starsource continent, would care about the two night-luminescent pearls.

In the eyes of high-level martial artists, things that were useless for cultivation were useless trash. Compared to the night-luminescent Pearl, a flashlight was more or less a novelty ...

No matter what, they had finally reached the end of the long waterway. Light appeared in front of them, and it was obvious that they had reached the exit.

Fei daqiang was very enthusiastic. He stepped on the water and ran over. When he reached the entrance of the cave, he let out a long sigh, ""Wow! Desert!"

That's right, outside the cave, it was actually a world of yellow sand!

The exit of the cave became an opening at the bottom of a sand dune. From the outside, it was completely a sand dune. Who would have thought that there would be a Rocky Mountain path inside?

Under normal circumstances, such a situation would definitely not occur. However, this was martial league's barrier training ground. It was already impressive that the scene could change like this.

After the small stream flowed out, it formed a shallow pool of water on the sand. Because it continued to flow out, it showed no signs of drying up.

If there was such a pool in a real desert, it would definitely be the most precious land given by the heavens.

Lin Yi looked at the pond-the water level wasn't high, and it was clear enough to see the bottom. There might be a vein that formed an underground river here, and he'd use this as a transfer station. He might find something if he dug deeper.

However, Lin Yi wasn't interested in digging. He was here for the team battle, not to raid a tomb. Even if there was treasure underground, he wouldn't dig!

"I didn't think that we would accidentally leave the forest scenario and enter the desert scenario. Investigator Liang, what are your plans?"

Lin Yi turned to Liang, "do you want to continue with us?" At this place, we might encounter more teams from other continents. "

Liang Liang Liang said that he wanted to continue undercover, hoping to help Lin Yi more. If they continued to move together and were discovered by people from other continents, they wouldn't be able to play the role of undercover anymore.

After all, the desert wasn't like a forest. Standing at the top of a sand dune, one could see much further than Lin Yi's spirit sense!

There were trees everywhere in the forest, and the desert didn't have any obstacles. It wasn't impossible for the enemy to find Lin Yi and his group first, but perhaps Lin Yi wouldn't even notice them after they were discovered!

Liang Liang was a smart man, he didn't need to say it out loud. He immediately said, "Let's part ways here! There shouldn't be any other teams at the place we were at before, but it's hard to say if this place is real, so it's more appropriate for us to split up!"

"Alright! Then let's split up here!"

Lin Yi nodded slightly and said a few more words as he waved his hand, "Patrol envoy Liang, please be careful when you encounter the people of the burning sun continent! Although Fang Gezi is the founder and conspirator of the Alliance of the 36 continents, he seems to have other ideas!"

"It seems like the people from the burning sun continent want to use the identity of their alliance to sneak attack their ally from behind and get enough points to raise their continent's ranking!"

Chapter 8946

This was similar to Liang Shuliang's actions. Lin Yi didn't want to scold his second brother, but he had to remind him, in case Fang Gezi took care of him.

The spy being killed by a traitor, it was a little funny to think about ...

"Is this how Fang Gezi is calculated? As expected, it was sinister! I understand, many thanks for your reminder, patrol envoy Sima!"

Liang Liang cupped his hands in thanks. He didn't ask Lin Yi how he knew, but he believed Lin Yi's words unconditionally. There was no harm in being wary of the burning sun continent anyway, and he'd make a move on them if he had the chance.

"You're welcome! Then we'll take our leave, see you later!"

"See you later! Then, we'll have three drinks together!"

"How can three cups be enough? at least 300 cups!"

As they laughed and talked, the people on both sides cupped their hands and said their goodbyes. They then parted ways and walked in opposite directions!

The most dangerous thing in the desert was quicksand. It wasn't obvious on the surface, but the more you struggled, the deeper you sank. Thinking about quicksand, Lin Yi remembered the time when he and Daniya fell into quicksand at poluo Sand River.

A normal person would've died in there already, but Lin Yi had to go through it with great difficulty to find the rainbow soul-devouring grass!

However, the quicksand in this barrier couldn't be compared to the quicksand around poluo Sand River. Lin Yi's team walked for ten minutes and stepped on two quicksand pits. They got rid of them easily and didn't pose any threat.

At this time, the five of them had walked into an area of continuous sand dunes. One sand dune was connected to another, so their vision was affected to a certain extent. Even if they stood on the top of the sand dunes, they could not see clearly.

As they turned a sand dune, Lin Yi raised his hand to signal for everyone to stop, his expression serious.

"Boss, what's wrong? Did you find anything?"

Zhang Yiming lowered his voice and leaned closer to Lin Yi, "Is there an enemy ambush?"

Lin Yi put a finger to his mouth and made a shushing gesture. He listened carefully, and the range of his spirit sense was still two hundred meters. His vision was blocked by the sand dunes, and his good hearing played an important role in this situation!

Zhang Yiming and the others all shut their mouths and listened, but other than the slight sound of the wind and the rolling sand, they did not hear anything worth paying attention to.

Lin Yi frowned as he looked to the sand dune on his left. "In that direction, about five kilometers in a straight line, someone is screaming!"

Body practitioners trained all parts of their bodies, and their five senses were many times stronger than normal people. Lin Yi's body was now in the mid-heaven breaking realm, and it wasn't strange for him to hear sounds from five kilometers away in a desert environment.

Fei daqiang and the others couldn't do that. If they were in an open environment, they would be able to hear the movement at this distance, but it was five kilometers in a straight line, and they didn't know how many sand dunes there were. It was extremely difficult for sound to travel, and they still couldn't hear anything even after Lin Yi's warning.

"Boss, same old rules. You go first, we'll follow you!"

Fei daqiang knew his own limits-he'd only be a burden if he insisted on following Lin Yi. He'd already done it before, so he knew the way.

Lin Yi nodded slightly,"Be careful. Send a signal if you encounter danger. I'll immediately come back to help!"

Before he finished, Lin Yi had already shot out like lightning, covering a hundred meters in an instant.

Fei daqiang and the other three didn't dare to delay and followed closely. When they turned around the sand dune in front, they couldn't see Lin Yi's trace anymore. Fortunately, there were marks left by Lin Yi on the ground. They didn't have to worry about going the wrong way by following the marks!

Lin Yi's speed was fast, and as the distance shortened, the sound became clearer. He was sure that there was someone screaming, and it wasn't just one!

This time, it was obviously different from the one in the forest. The one in the forest was dealt with in an instant, leaving no traces behind. This time, the scream lasted a little longer, and the dominant side did not seem to have any intention of ending it immediately!

Lin Yi was two hundred meters away in a straight line very quickly, and his spirit sense could finally clearly see what was happening behind the sand dune!

Seeing that scene, even with Lin Yi's calm and steady personality, his eyes couldn't help but pop out of their sockets. The killing intent in his body rose uncontrollably, almost tangible!

Separated by a sand dune, there were 30 to 40 people gathered. Most of them were from the Alliance of the 36 continents, and only five of them were not!

It was these five people who screamed, and Lin Yi was familiar with their faces. They were all generals from the great land of Sangzi who followed him into the barrier!

Lin Yi didn't care if they were weaker, outnumbered, or had their tags taken away from the barrier-these were all things that should be done in a team battle.

However, these five battle generals from the Sangzi continent didn't have their nameplates stolen. Naturally, they didn't trigger the teleportation failure mechanism and leave the training barrier. Also, the people from the Alliance of the thirty-six continents didn't launch a fatal attack on them, so the defense mechanism of their nameplates wouldn't be triggered!

They screamed because the five of them had been restrained. Their hands and feet were tied to the cross-shaped wooden pillars and they were being repeatedly whipped and tortured by the five people wearing the burning sun great continent's uniform!

If it was just a normal whip, it wouldn't be enough to make the Sangzi continent's battle generals scream. Those whips were specially made weapons and the body of the whip was covered with small sharp thorns. One whip was enough to pull out a large piece of flesh, but it was not enough to harm the bones or threaten their lives.

However, that kind of pain was no less than countless small knives cutting and cutting your body. It was not an exaggeration to say that it was a thousand cuts!

The most vicious thing was that with every whip, they would also sprinkle some kind of powder on the wounds of the generals. As a Grandmaster, Lin Yi could naturally tell what the powder was.

In theory, that powder was a holy healing product. It could regrow muscles and stop bleeding, and could heal injuries in a very short time. However, it had a side effect. It would amplify the pain of the wound by a hundred times, and it would definitely not trigger the human body's own protective mechanism and cause one to fall unconscious when one couldn't take it anymore!

In other words, when using this powder, one would suffer a hundred times more pain in a state of absolute clarity in exchange for a chance to recover from injuries quickly.

In a battle, as long as you could ensure that the intense pain would not affect your movements and reactions, you would have a chance to recover from your injuries and turn the tables.

However, under normal circumstances, no one would use this powder to heal their injuries. A hundred times the pain was no joke. The difference was as huge as the impact of a bullet when flicking your forehead with a finger and pressing a Desert Eagle against your forehead and pulling the trigger.

In most cases, the result of using this powder in battle was that one would die before the injury could recover due to the side effects!

Therefore, even though this thing was said to be a holy healing item, no one used it at all. It would only appear in some situations where one needed to be tortured but was afraid of the death of the victim.

Just like now!

The battle generals of the Sangzi continent were suffering from the whipping but it wasn't fatal unless it accumulated!

The burning sun continent's people used this powder while whipping the Sangzi continent's generals, causing them to suffer a hundred times the pain. However, their injuries didn't worsen, and they were still hovering between injury and recovery!

The nameplate's protection mechanism would only be activated in an instant when one's life was in danger. It would ensure that the wearer would not die in the barrier, but it would not protect the wearer from being injured!

Especially this kind of pain that wasn't considered serious injuries, he completely ignored it!

"Hahahaha, do you feel comfortable? Isn't your Sangzi continent very powerful? Wasn't Sima Yi extremely awesome? Why don't I see him coming to save you?"

"Scream louder, if you're too quiet, I can't hear you!"

"Don't blame us for being ruthless, if you want to blame someone, blame your Sima Yi for not being tactful. Isn't it better to be a good third grade continent? Do you really think that it's so easy to sit in the first and second grade continents "seats?"

"Hurry up and call me Grandpa. Call me Grandpa a few times and I'll whip you less. Why do you have to hold on?"

The burning sun continent's people laughed and cursed as they whipped. They didn't have any clear goal, they just wanted to vent their anger on the Sangzi continent's battle general!

If the torture was to get information or force the enemy to surrender, it was understandable, but this kind of pure torture really pissed Lin Yi off!

Even if it was a passer-by, Lin Yi couldn't take it, not to mention that the target was his general!

Those people from the burning sun continent were dead!

Although the people from the other continents didn't make a move, most of them were gloating. None of them were good people, and they couldn't escape punishment even if they didn't deserve death!

The battle generals of the Sangzi continent were still screaming but no one begged for mercy!

They were all tough men. If it was ordinary pain, even if it was a broken arm or leg, it might not be able to make them cry out so miserably. The pain of being cut into a thousand pieces and amplified a hundred times had far exceeded the limits of what they could endure!

It was definitely not embarrassing to just scream. On the contrary, it was a tough spirit that was worth bragging about!

Lin Yi didn't feel any dissatisfaction towards them, only pity!

After checking the situation with his spirit sense, Lin Yi's speed increased again. He rushed through the sand dune like lightning and appeared in the encirclement of the Alliance of the thirty-six continents!

"Sima Yi!"

"It's Sima Yi ..."

"Not good!"

"Hurry ..."

Lin Yi didn't act immediately. He put his hands behind his back and stood in front of the generals with a cold face. Those who saw Lin Yi's face exploded!

Lin Yi's name was like the shadow of a tree, and his reputation was far from what it used to be. Especially after he returned from the node world, his name was even more famous, like the sun in the sky. Everyone knew that Sima Yi was a powerful character, so they naturally respected him.

Normal martial Union Hall Masters and inspectors were a bit more apprehensive, but normal generals were already a bit scared when they saw Lin Yi, even without making a move.

"Everyone, don't be afraid. No matter how strong Sima Yi is, he's only one person. We have more people, and we can definitely kill him! Think about Sangzi continent's points, even if we split them evenly, we can get a lot! Do it!"

The leader of the burning sun continent was a warrior who was half a step to heaven-breaking realm. He was still a division without Fang Gezi or Yuan Buliu.

However, he didn't change his way of dealing with Lin Yi. After seeing Lin Yi, he immediately shouted and swung his barbed whip at Lin Yi's body!

The others were encouraged by him and felt that this was indeed a rare opportunity. They were a little eager in their hearts, but they didn't have the time to act. They wanted to see the effect of the first whip!

Lin Yi looked on coldly, not even looking at the whip that was coming at him with a strong gust of wind. When the tip of the whip fell, he grabbed it and the snake-like whip instantly became a dead snake, obediently landing in Lin Yi's palm.

The spikes on the whip didn't mean anything to Lin Yi-he was in the mid-heaven breaking stage, after all, and the spikes couldn't break his defense at all. They were like the soft, short hairs on the top of a cat's head in Lin Yi's palm.

The half-step sky breaker was still talking when Lin Yi grabbed his whip. He felt a strong pulling force on the whip, and he couldn't resist at all. He was pulled away.

Everything happened in a flash, and the people on the side only saw a blur before they could see anything. All they saw was the leader of the burning sun continent lying on the ground in front of Lin Yi like a dead dog. Lin Yi held the whip in one hand and stepped on the man's head with the other.

The poor guy was being stepped on by Lin Yi in an almost humiliating way, his face touching the sand intimately and rubbing against it!

What was even more terrifying was that everyone could see that the martial artist half a step to heaven splitter's limbs were bent at a strange angle. There was no doubt that his limbs had been broken, but they didn't even hear the sound of a fracture, let alone see it!

In this instant, the battle generals of the other continents felt like they had fallen into an ice cave. The small flames of battle that had just ignited were extinguished by a large basin of cold water!

It was too fast! He was too ruthless! It was too brutal!

The point was that even with Lin Yi's ruthlessness, the half-heaven Punisher still wasn't teleported out. The tag's protection mechanism wasn't triggered!

Just like the five generals behind Lin Yi!

The generals of Sangzi Dazhou came to a sudden realization-the five of them were all tied to cross-shaped stakes, but now they were all put down, sitting on the soft sand with their backs against the stakes. Their bodies were bloody, and because of the powder's treatment, there were layers of scabs on top of each other, making them look miserable, but they were still looking at the unlucky guy under Lin Yi's feet with joy.

When had they been put down?

No one knew!

Lin Yi's movements were too fast. The surrounding battle generals thought that their hearts had already sunk to the bottom, but now they knew that it was only the beginning. There was still a bottomless abyss waiting for them!

"And you guys! All of you, come over!"

Lin Yi's cold eyes scanned the other Warriors with whips. He flicked his wrist, and the whip made a crisp sound. It was so fast that it seemed to have disappeared in the others' eyes.

Chapter 8948

When the whip reappeared, the other four practitioners were already in front of Lin Yi. The five of them rolled on the ground and ended up in the same situation.

Their limbs were broken, and their heads were pressed into the yellow sand, but no one triggered the protective mechanism of the nameplate!

The five generals behind Lin Yi had already taken healing pills, and their injuries were quickly recovering. Although the residual pain was still there, it could no longer affect their will.

"Patrol envoy! We've embarrassed the great land of Sangzi! I'm sorry!"

The five weren't in a rush to take revenge. Instead, they struggled to get up and walked to Lin Yi. They knelt down on one knee and cupped their fists. They felt that it was their fault for being tortured!

Lin Yi raised his hand and an invisible force pulled the five up, "It's not embarrassing to be outnumbered, I don't blame you! You didn't embarrass our Sangzi continent even though you were tortured! All good! Good brother!"

"I'll leave these five people to you. You can deal with them however you want! There's no need to have any scruples, I'll be in front of you for everything, and you can do whatever you want!"

Lin Yi didn't want to punish them fully so that the five of them would have the chance to take revenge. If they gave up, Lin Yi would continue to deal with these five crazy bastards!

"Many thanks, patrol envoy Sima!"

The Sangzi great continent's five battle generals bowed in thanks and then got up to tie the five burning sun great continent's men to the wooden cross!

An eye for an eye, an eye for an eye!

Their limbs were broken by Lin Yi and they couldn't fight back at all. They couldn't even activate the protection mechanism and teleport out, just like what they did to Sangzi Dazhou's group!

There were more than thirty cultivators from the surrounding continents, one of them was from the burning sun continent. He didn't attack the people from the Sangzi continent before, so he escaped for the time being.

It wasn't that he didn't want to fight back then, but the Sangzi great continent only had five people while the burning sun great continent had six. He was the extra one, so he didn't get a chance!

Now, he was very glad that it wasn't his turn! If it was a turn, it would be directly on the wooden cross now!

The crisp sound of the whip hitting the body rang out again, and the healing powder once again flew into the air. While it rejuvenated the muscles and stopped the bleeding, it also brought with it a hundred times the pain.

One after another, miserable screams rose to the sky. There were even people begging for mercy, but no one paid any attention!

Good will be rewarded, and evil will be rewarded. It's not that the time hasn't come for you to be rewarded, but when the time comes, no one can escape!

"Are you all only good at being spectators? My people were beaten up, and you just stood there and watched. Your people were beaten up, and you still stood there and watched! Why? Shows that don't buy tickets are especially good, right?"

Lin Yi's eyes turned to the remaining thirty people, his cold and emotionless look making everyone shiver!

The five of them felt sad for the five that were getting beaten up, but none of them dared to step up. They were all silent in front of Lin Yi!

Lin Yi's display of strength was completely beyond their imagination! Not to mention anything else, that ghostly speed, no one could resist at all!

At this level, it was no longer the time to gain the upper hand just because they had the advantage in numbers!

They had realized that the Alliance of the 36 continents was just a joke! Other than a limited number of heaven breaking powerhouses, no one could be a match for Sima Yi!

The advantage in numbers was even more of a joke!

"What's wrong? Why aren't you saying anything? I'm talking to you in such a friendly manner, shouldn't you at least give me some reaction? You can't say that I'm talking to air, right?"

Lin Yi's tone was cold, and he didn't sound friendly at all. His face was as cold as ice-if this was being friendly, then everyone here would be like a spring breeze ...

"Patrol envoy Sima, we're just passing by ... Actually, we don't have any enmity. The mountains are high and the rivers are far, why don't we part ways here?"

Someone couldn't take the pressure from Lin Yi and broke the silence with a dry laugh.

Someone immediately echoed, "yes, yes, yes!" We're just passersby, it was a complete accident that we appeared here. We just wanted to watch the show, we have no intention of becoming enemies with the Sangzi continent!"

"Patrol envoy Sima, my respect for you is like the endless waves of a River. If patrol envoy Sima doesn't mind, I'm willing to follow you around! Even if you have to pull a horse down, or go through water and tread on fire, I won't hesitate!"

.....

The person who spoke at the beginning just wanted to leave quietly, waving his sleeves and not taking anything with him, but the people who spoke after him became more and more digressed, even saying words like surrender and switch sides.

Unsightly!

At first, the man despised and scolded those who flattered him in his heart, but he was unwilling to fall behind and put on a flattering smile, then changed his words.

To hell with this farewell, I can also help you pull your horse down and tread through water and tread through fire, what's so great about that!

Lin Yi looked around coldly, disdain in his eyes. Since they were enemies, he might as well fight to the death-maybe he'd be able to get some respect.

Cowardice before battle, bending one's knees and changing joints, this kind of soft-boned person would not be valued anywhere!

"If you don't want to suffer like them, then obediently hand over your nameplates. Don't make me do it!"

Lin Yi's aura didn't exude any killing intent on purpose, but no one around him had the will to fight back, especially when the five men behind him were acting like a background wall.

Escape? If they could run, they would've done so already. With Lin Yi's speed, they didn't even dare to think about running away!

Because they knew that they couldn't escape!

After Lin Yi finished speaking, he looked at the elite generals in front of him. To be honest, Lin Yi hoped that they would fight back. Even if they couldn't win in the end, they would at least have some courage!

In any case, they wouldn't really die within the barrier, and before they suffered any fatal injuries, they would naturally be teleported out. If they didn't dare to resist under such circumstances ... How could they be expected to fight against the darkness demon beast clan?

The elite battle generals all had pale faces. They silently lowered their heads, their eyes secretly wandering as they wanted to see what other people would choose.

In fact, Lin Yi was wrong. They might not be afraid of death, and they might have the courage to fight to the death. The problem was that the five people from the burning sun continent had shown what it meant to be unable to live or die!

Chapter 8949

His life might not be in danger, but the pain he had suffered was not fake at all. The injuries on his body would not disappear either. Even if he was teleported out, it was uncertain whether he could recover. Would he become a cripple?

What was even more helpless was that everything that happened in the team battle could not be settled after they left the barrier. Both sides might have formed enmity, but that was a matter for the future. Now, they could not find trouble with each other because of what happened in the team battle.

Out of all sorts of considerations, there was definitely a fear of death, but it was only a small part. In short, these battle generals did not have any thoughts of resisting.

If he couldn't escape or win, what was the point of continuing the stalemate?

After realizing this, someone finally pulled off the necklace with the nameplate around his neck and threw it to the ground.

He didn't leave any harsh words behind ... The one who admitted defeat didn't say anything harsh either, and there was no need for Lin Yi to hold a grudge against him. He turned into a white light and was transported out of the barrier.

With the first person taking the lead, the rest was much easier. It was like a dam that had a hole in it, and the rest of it would soon collapse.

The nameplates were thrown to the ground, and white light lit up one after another. The other warrior from the burning sun continent wanted to throw his nameplates away and leave the barrier, but Lin Yi appeared in front of him and grabbed his wrist as soon as he raised his hand.

"You can't leave for now. Please wait a moment!"

Lin Yi's voice was emotionless, and the guy's face paled almost to the point of being transparent. Cold sweat covered his forehead, and he didn't know what to say.

When the others who had not left saw this scene, they all sped up their actions. In the blink of an eye, the surroundings were empty, leaving only the nameplates stuck in the yellow sand.

"Patrol envoy Sima, I ... I ... I didn't do anything. I didn't want to see what happened just now ... It's just that my words carry little weight, so there's no point in saying anything ..."

The martial artist managed to calm himself down after Lin Yi grabbed his wrist. He squeezed out a smile and begged Lin Yi, "I'm willing to leave my name tag behind and leave the barrier. Please spare me, patrol envoy Sima!"

"To a noble person like patrol envoy Sima, this lowly one is only an ant on the ground. There's no need to put me in your eyes. This lowly one is really a dispensable existence. Please, patrol envoy Sima, have mercy ..."

Lin Yi's hand was like a pair of iron pincers on his wrist, and he couldn't move it at all. He had another hand, but he didn't have the guts to lift it up to pull the chain.

The Sima Yi in front of him was too powerful. He had no doubt that if he raised his other hand, both of his hands would be broken, just like his five companions who were screaming on the wooden cross.

You can only leave if the big boss lets you go. When he doesn't let you go, it's best to stay obediently and don't have any crooked thoughts. That will only kill you faster!

"Although you didn't attack just now, you're still from the burning sun continent. The six of you should have gone through thick and thin together!" The old man said.

Lin Yi's lips curled up into a cold sneer. "I'll be harming you if I let you go! Your five companions are indignant and will definitely find trouble with you in the future. Instead of that, it's better to suffer with them now. They will definitely be very pleased!"

The unlucky martialist from the burning sun continent felt bitter in his heart. He only wanted to say, "please, quickly harm me!" I'd rather you harm me now and be hated by the five of them in the future!

Compared to the pain and punishment they had to endure, how much more trouble would they have to face in the future? Even death would be much more pleasant, right?

But he didn't dare say that out loud-he was afraid that Lin Yi would misunderstand and think he was trying to harm him. Who could take that if he added a wooden cross to the mess?

Helplessly, he could only continue to beg and beg, hoping that Lin Yi would show mercy and let him go!

Lin Yi's lips twitched, bored. There was no point in getting involved with a small fry like this. He used a bit more strength and broke one of the guy's wrists, taking off his tag.

A white light flashed, and the martial artist with a broken wrist was teleported out with a happy face. It was just a broken wrist, but it was not a big deal!

This kind of small injury could recover very quickly. It was really just a small punishment to teach a big lesson. He felt that his sincere begging before must have had an effect, so he decided to study this technique carefully. It might be of great use in the future ...

Lin Yi waved his hand after sending the small fry away, collecting all the tags and turning to the five martial artists.

Fei daqiang and the others happened to turn around the sand dune at this time and appeared nearby. They were still a little confused when they saw this scene.

Lin Yi explained the situation briefly and signaled for the five generals to stop.

"Have you vented enough of your anger? We still need to find other brothers, so we can't waste time on them. Let's go after we finish them!"

Lin Yi's words to the generals of the great land of Sangzi were an order that they couldn't disobey. Although they still weren't satisfied, they had vented most of their anger.

"Many thanks to Lord Sima for seeking justice for us!"

The five generals dropped their whips and walked to Lin Yi, kneeling down to express their gratitude.

"Get up, why are you kneeling for no reason? Who taught you that?"

Lin Yi waved his hand, and an invisible force lifted the five up. "I'll personally send these five to hell!"

Keeping them alive was to help the generals of the Sangzi continent vent their anger. Since his goal was achieved, Lin Yi naturally wouldn't keep them alive.

He'd already given them the death sentence before coming here, and this was the perfect time to test his theory!

The barrier would activate a protection mechanism when the wearer of the nameplate was in danger of death, and it would forcefully send the wearer out of the barrier.

For a short period of time before teleportation, a barrier would form a protective barrier. Unless one could break through this barrier, it was equivalent to activating invincibility mode and not taking any damage.

Lin Yi wanted to see if invincible mode could really make him invincible!

Lin Yi walked up to one of the practitioners and looked at him indifferently before activating his divine sense skill, soul-snatching hand!

The soul snatching hand itself did not have any offensive power. If you said that it was a spiritual sense attack skill, it could be considered as one, but it could not be considered one ...

The inscription plate's defense mechanism reflected this point very well. The soul-hooking hand easily entered the other party's spiritual sea and pulled out his primordial spirit!

The inscription plate's defense mechanism was activated when the primordial spirit left the body. A layer of dazzling white light enveloped the burning sun continent's martialist. Unfortunately, he was only a body without a primordial spirit!

Chapter 8950

In the blink of an eye, the white light wrapped around the corporeal body that had lost its primordial spirit and teleported away, leaving the nameplate on the ground. The primordial spirit that had been caught by the soul-hooking hand had already been sent into the Jade space, and he had lost the chance to leave forever!

It was indeed feasible!

Lin Yi let out a satisfied smile. The barrier had a strong suppressing effect on spirit sense. Under normal circumstances, no one could use spirit sense skills.

However, Lin Yi was a mutant with an extremely strong essence spirit and the Wu Linghai from the Wu tribe. This level of strength had exceeded the limit of the barrier.

Other people couldn't use spirit sense skills, but Lin Yi could, although the distance was suppressed!

This was not a problem!

The problem was the uniqueness of the soul Catcher hand. If it were any other spiritual sense skill, such as a damaging spiritual sense attack skill like the spiritual sense alchemy fire Whirlpool, it might have punished the nameplate's protection mechanism.

However, the soul snatching hand was able to avoid this restriction perfectly and successfully deceive it. The inscription plate's protection mechanism could only protect a physical body without a primordial spirit by the time it reacted!

A physical body that had lost its primordial spirit was actually equivalent to a corpse!

The remaining four followed the same pattern. Lin Yi didn't show any mercy. They abused the generals of Sangzi continent for no reason. When they looked for pleasure from it, they were destined to have bad endings!

Perhaps, Fang Gezi would be one of them?

Let's see his performance then!

"Alright, I've settled everything here. How are your injuries? Do you need to rest?"

Lin Yi's mood didn't change after taking care of the five scums. He turned to look at the five generals "injured bodies and felt a little guilty.

No matter what, they were people who followed him here, and they were being tortured because of him. Lin Yi wanted to protect everyone on his side!

"It's fine, it's fine. Lord Sima, don't worry! After taking the healing pill, our injuries have already healed. Don't look miserable on the outside, it's just a scab that hasn't fallen off. "

One of them quickly smiled and shook his head. At the same time, he reached out and pulled a few times on his body, tearing off a large piece of scab and revealing the pink and red new flesh inside."We don't need to rest. Lord Sima, please give the order! We can carry out the mission at any time!"

Sure enough, it only looked serious, but in fact, it was close to a full recovery.

Their injuries were mostly due to the pain they had to endure at the time. After taking healing pills, they would recover in a short time.

"Since you don't need to rest, let's continue on our way! We still have ten brothers who haven't met up with each other. I hope they're all safe ... Even if they're killed out of the barrier!"

Lin Yi sighed and waved his hand, "Let's go! Direction ... Oh right, which direction did you guys come from?"

The question was directed at the five generals. Lin Yi didn't plan on going in the direction they came from, and excluding the direction he came from, he only needed to choose one of the two directions.

In the end, the five battle generals all had dumbfounded expressions. "I don't know ... We left our footprints when we came here, but they're all gone now!"

"The sand dunes seem to have changed ... They're different from when we came ..."

"I don't have a sense of direction to begin with, and now I'm completely lost ..."

"It seems to be this way ... It also seems to be that way ... It could also be the middle of this side and that side ..."

.....

These guys were a little embarrassed. They had just vowed that they could carry out the mission at any time, but when their boss asked them where they came from, all they said was that they didn't know!

Lin Yi's mouth twitched. You can't count on even one of the five?

He had no choice but to increase the number of choices from two to three!

Speaking of which, from their words, he had obtained some useful information. The sand in the desert could flow, and the road would quickly disappear. The sand dunes would constantly change shape, size, and even position!

It wasn't impossible to lose their direction!

"Then let's go this way!"

Lin Yi pointed in a random direction-it was pretty much the same, after all, and the chances of him finding his own people weren't much different.

As such, the group of ten continued their journey through the desert. Everyone was convinced that victory was in their hands!

On the other hand, the Alliance of 36 continents led by Fang Gezi was also confident of winning!

When Lin Yi decided on a direction and started trudging through the desert, Fang Gezi had already gathered a team of about two hundred people about two hundred kilometers away. The guy was quite lucky to have met many teams from other continents in a short time.

However, the other dark plan in his heart couldn't be carried out because of this. His original plan was to first kill one or two teams from the other continents and plunder some points to supplement the burning sun continent's points. This way, no matter what the battle results were for the Sangzi continent, it wouldn't prevent the burning sun continent from standing out and at least guarantee a place for the second-grade continent.

Unfortunately, Fang Gezi and Yuan Buliu's team of seven had first encountered a team of twenty people from three continents!

Even if the sneak attack was successful, they could at most kill a dozen people, but in the end, they still couldn't escape the end of being counter-harvested. To be cautious, they could only give up on the idea of robbing their allies 'points!

Unexpectedly, in the following short period of time, they encountered several more joint teams. The number of people suddenly soared to about 200. Among them, there was no lack of heaven breaking stage experts, and there were even more half-step heaven breaking and sea splitting stage cultivators. Only less than half of them were below the sea splitting stage.

This Force's combat power could be said to be quite strong. On paper, it was enough to suppress the first three great continents, led by the Sangzi great continent!

Therefore, Fang Gezi's mind began to work. She felt that she could find Sima Yi first, get rid of the biggest enemy, and then come up with a plan to get rid of the Alliance!

"Everyone, I've received news that Sima Yi is in the desert scenario. What we need to do is to find him and kill him! If nothing goes wrong, all the points in the Sangzi continent are with Sima Yi. We'll discuss how to split it then!"

Fang Gezi waved her arms in high spirits, feeling as if she had reached the peak of her life. "Actually, if we can lure Sima Yi into our ambush, it would be even easier to deal with him! Everyone can discuss and see if there's any way to achieve this. "

"Investigator Fang, where did you get the news that Sima Yi is in this desert? Could it be that he had met people from the Sangzi continent? Where were they now? Why didn't patrol envoy Fang act against Sima Yi?"

Someone raised a question. It was also a second-grade continent's inspector. His relationship with Fang Gezi wasn't that good, and he probably couldn't stand Fang Gezi's self-righteous attitude.
