

## Bodyguard 8951

### Chapter 8951

You're a second-grade continent's patrol envoy, so why are you so awesome?

Therefore, not only did he raise the question, but he also deliberately directed the topic to Liang Shuliang, who he thought was an important figure!

"Patrol envoy Liang, you are the patrol envoy of the starsource great continent. It can be said that your status is the most respected among everyone present. If patrol envoy Fang's words are correct, then we should still ask patrol envoy Liang to command the next operation!"

That's right, Liang Liang quickly met a team from another continent after separating from Lin Yi, and then he found another team from the starsource continent. He was quite lucky.

Then, he ran into Fang Gezi's team, and it became what it was now.

The status of the starsource continent was transcendent, and Liang cailiang's status was indeed higher than Fang Gezi 's. If he took over command, the others would definitely be more convinced, at least the second-grade inspector who raised the question would be more convinced.

Fang Gezi didn't look happy, but Liang Liang smiled and said,""Our Alliance was proposed by patrol Fang and was successfully implemented. I just happened to be there, I don't dare to be the commander! There's no need to mention this matter anymore, let's first hear what patrol envoy Fang has to say. "

Liang didn't disclose anything about Lin Yi's desert scene, so he was very interested in Fang Gezi's source. Lin Yi had also warned him to be on guard against Fang Gezi and the people of the burning sun continent. He'd rather hide in the back and observe everything than lead.

The Mantis stalks the cicada, unaware of the Oriole behind. Liang Zhouliang felt that he was the last Oriole!

Fang Gezi's expression turned for the better. Liang Liang no longer had any thoughts of fighting for power, which was naturally a good thing for her.

"I won't hide it from you. After entering the barrier, I was very lucky and obtained some opportunities. I won't go into details, but one of them is that I can sense what my team members from my continent see before they are teleported out!"

Fang Gezi's words received a wave of exclamations and he was a little smug. "Not long ago, I saw the scene of Sima Yi attacking our burning sun great continent team. Without a doubt, our people have all been sent out, but Sima Yi's whereabouts were naturally exposed to my vision."

"And after seeing these images, the location of the nameplate left by the burning sun great continent's team members will appear in my perception. Sima Yi holding onto those nameplates is equivalent to exposing his location to me at any time."

"The latest news is that Sima Yi is moving in our direction. He's about four hundred miles away. From his route, we don't have to go and look for him!"

"Now we only need to set up an inescapable net and wait for him to join in on his own accord. Then we can complete the battle of annihilation of the Sangzi continent! Then we'll happily split the points of the Sangzi continent!"

Although Fang Gezi didn't make it clear, her words had already confirmed that he was going to be the Supreme Commander of the joint team!

"Investigator Fang, even if Sima Yi is heading in this direction, how can you be sure that he won't change direction and go somewhere else? This desert's terrain is constantly changing, so it's normal to change directions while moving!"

Another person raised a question, 'even if we take ten thousand steps back, even if Sima Yi didn't change his direction, will our ambush be effective? I've heard that Sima Yi's spiritual perception is outstanding, and he can sense danger in advance. "

"Other than that, Sima Yi is also a diamond rank array master. He has a clear understanding of arrays and all kinds of battle arrays. It is impossible to use these methods to deal with him! We can only use our own strength to fight with the people of the Sangzi continent!"

"If that's the case, why set up an ambush? There will be so many variables in the middle, so why don't we just go in Sima Yi's direction and kill him, gather everyone's strength, and take him down?"

Many people agreed with her, but Fang Gezi did not care. Instead, she smiled confidently. "Everyone, please calm down. I will first talk about the ambush. Perhaps Sima Yi's spiritual sense is really outstanding and can predict some dangers ... This is not uncommon. Many people here have similar abilities."

"What I want to say is that I have enough means to block Sima Yi's premonition of danger, so our ambush will definitely not be useless because we were discovered in advance! On the contrary, as long as we can ensure that Sima Yi enters the encirclement, he will not be able to escape even if he has wings!"

"The only thing we need to worry about now is how to lure him into our encirclement. I think it's a good idea to give him some bait. As for the bait ... Since you're so enthusiastic about asking him questions, I'm sure you'll be very enthusiastic about helping him solve the problem, right?"

Fang Gezi looked at the people who raised the question with a half-smile on her face. She was planning to use them as bait to lure Lin Yi into it!

The bait was obviously a trap, and it might be swallowed directly. Everyone was smart, why should they sacrifice themselves for your sake?

It was true that everyone was in the Alliance, but once the target was taken care of, the Alliance would immediately turn against each other. Who would be willing to sacrifice themselves at this time?

"No, no, this matter is of great importance, and we can't control our actions. As expected, you're the best bait, patrol Fang! Everyone in the burning sun continent knows about the grudges between Sima Yi and you. If they see your tracks, they'll definitely not let you go!"

"That's right, that's right, if it was someone else who tried to lure Sima Yi, he might not even care! Only the burning sun continent's people are born with a taunting aura to Sima Yi and the others. Investigator Fang, it's better for you to send someone to lure Sima Yi!"

.....

When there were benefits, they could do it together, but if there were losses ... Whoever proposed it would be responsible!

Fang Gezi laughed and said, "everyone, our common goal is to destroy the three third-grade continents led by the Sangzi continent!" And Sima Yi is the soul of these three third-grade continents. If we can get rid of him, it's equivalent to winning more than half of the battle!"

"If you want to successfully take down Sima Yi, I, Fang Gezi, will say this without any hesitation. Without my schemes and trump cards, you may not be able to do anything to Sima Yi! In this battle, if you think that someone on our side is not worthy of being the commander, then we'll go our separate ways and part ways here!"

"You can choose to continue working together to complete your goal or go your own way and let the Alliance end. Make your own choice!"

Fang Gezi was very confident and her tone was firm. The Alliance of the 36 continents was an Alliance that she had worked hard to form. Logically speaking, it should not be so nonchalant!

Everyone had their own speculations. They thought about what Fang Gezi had said about obtaining some mysterious opportunity after entering the barrier ... Could there be something even more beneficial?

Since Fang Gezi did not say anything, they could only guess in their hearts. For the time being, they did not dare to say that they would just forget about it.

Chapter 8952

"Alright, everyone, stop arguing. I'll say something fair!"

Liang Liang stood up and smiled, "Since patrol Fang already has a complete plan, then we'll ask him to take command of this operation! If this operation fails, there won't be a next chance!"

"As for the bait, our starsource continent will do it! It's just that luring Sima Yi and the others into the encirclement isn't a difficult task, and the danger won't be too high!"

"in return for acting as bait, after we enter the encirclement, our starsource continent will not participate in the battle and will only act as a reserve force. however, we must take the first credit for the final distribution of the spoils of war! does anyone have any objections?"

liang yu liang had recommended himself to be the bait. he must have his own considerations, and his request wasn't too excessive. after all, the status of the starsource continent wasn't ordinary. even if he didn't contribute much, he couldn't be ignored during the distribution.

now that he was acting as bait and asking for the first credit, no one else had any objections. the only one who had objections was probably fang gezi's burning sun continent!

after all, fang gezi was the one who planned, carried out, and took out the trump card to ensure victory. how could he be convinced that the credit went to the xingyuan continent?

"no problem! since investigator liang is courageous, it's only right for him to take the first credit. this matter is settled!"

Unexpectedly, Fang Gezi was convinced! Not only was he convinced, he didn't even have a trace of dissatisfaction and agreed very readily!

Liang Liang squinted his eyes. Fang Gezi was up to something big! He actually didn't care about the right to distribute the spoils after the battle, which could only mean that he didn't care about this!

Why didn't he care? Of course, it was because he could get a bigger reward!

It was like a person who could originally earn 10000 Yuan a month, but suddenly told that he could only give you 5000 Yuan a month in the future. Would he not care? He definitely cared! However, if he acted like he didn't care at all, it must be because there was something else to it. For example, he would say that he would give you an additional bonus of one million Yuan at the end of the year!

At this time, who would care whether they could get 10000 or 5000 a month? It didn't matter even if he didn't get a single point!

Fang Gezi looked down on the right to distribute the first credit after the war because she was confident in taking more, right?

"In that case, there's no time to waste! Investigator Fang, you take command of the formation, then give me Sima Yi and the others "location. I'll be in charge of luring them over!"

Liang Liang already had a rough guess in his heart. He probably understood Fang Gezi's thoughts pretty well.

The Mantis was about to start hunting the cicada, but the Oriole didn't need to be in a hurry. He just had to watch from behind!

It would be even better if he could learn more about Fang Gezi's means!

fang gezi cupped her hands in thanks and immediately instructed the others to move!

because liang liang had expressed his support, the people from the other continents had no choice but to acquiesce to fang gezi's commanding position and follow her orders.

liang liang wasn't in a hurry to set off. he was waiting for fang gezi to confirm the ambush location before discussing the details of the ambush.

to be honest, there was nothing special about fang gezi's ambush. it might be a high-end operation in any continent, but it seemed ordinary when all the continents joined hands and gathered talents.

especially since her opponent was the diamond rank array master sima yi, there was nothing special about her. liang liang couldn't understand where fang gezi got her confidence from. or perhaps he hadn't taken out his trump card yet?

"investigator liang, the preparations here are almost complete. you can set off to lure sima yi over!"

Fang Gezi looked satisfied. She clapped her hands and turned to Liang Shuliang. "Sima Yi is about two hundred and thirty to forty li away from us. The direction he's heading in is slightly off."

"If we continue in this direction, we will miss our ambush! That's why investigator Liang, your mission is very important! We have to make sure that we can lure them into the ambush!"

"I only have one chance, and my trump card can only be used once. If I don't succeed this time, the next time I want to take down Sima Yi, I'll have to gather all the people of the thirty-six continents together!"

Liang zhaliang thought to himself, "as expected, this guy hasn't shown his trump card yet. Is he deliberately guarding against me?" Or did he have to use it at the last moment?

Since Fang Gezi did not want to say, he did not ask further. He nodded with a smile and said, "Don't worry! I guarantee that I can lure Sima Yi into the ambush. We'll enter from that gap, right?"

"That's right, that's a gap that was intentionally left open. After Sima Yi enters the encirclement, that gap will close up and form a true inescapable net!"

Fang Gezi nodded and pointed out, "After investigator Liang and the rest of you enter, follow the path that was left open. You must be fast. After you pass through, you can enter the back to watch the battle!"

"The location to lure Sima Yi can't be too far away. If you set off now, about a hundred miles, you should meet the Sangzi continent's team! This distance was about right! I wish investigator Liang a safe journey and a victorious start!"

Liang Liang laughed and said, "I can't win in the beginning. If I win, I won't be bait!" Wouldn't that be a waste of everyone's hard work?"

"Hahahaha, so what if it's a waste? as long as we can get rid of Sima Yi's Sangzi Dazhou, I don't care how we get rid of him!"

Fang Gezi laughed out loud, and the two bid each other farewell. Liang Shuliang brought his henchmen and flew towards Lin Yi.

Lin Yi didn't know that Fang Gezi had set a trap for him yet. He didn't see anyone along the way, nor did he find anything worth paying attention to.

There were even two continent signs in the forest scenario, but there was nothing in the desert!

"Boss, should we change direction? We've already walked for almost a hundred kilometers, right? I don't see any signs of human activity. Could they be in other directions?"

Fei daqiang was a little bored as he followed Lin Yi. The desert scenery was indeed magnificent at first sight, but he got sick of it after a while. It was boring to see the same scenery everywhere.

Especially after walking for more than 100 kilometers, although he was fast and didn't spend much time, the feeling of boredom was getting more and more obvious.

Fei daqiang now wanted to find some people from the enemy continent to fight. It was better than wandering aimlessly in the desert.

"We've only walked a short distance! Let's walk a bit more and see, maybe we'll meet other teams soon. We're just unlucky now, if we're lucky, maybe we'll meet a few hundred people at once. "

Lin Yi said with a smile, not expecting his words to come true-there really were two hundred people waiting for him!

## Chapter 8953

"Alright, I'll listen to boss! Boss must be right. I have a feeling that our luck is going to change soon! So we'll soon encounter a team of a few hundred people, right?"

"There are only about 700 people in the Alliance of 36 continents. Will they all gather together and wait for us to surround them?" Fei daqiang said with a smile.

Lin Yi only had ten people on his side at the moment, and it was a bit of a joke to say that ten people surrounded seven hundred people from the thirty-six continents.

However, when Fei daqiang said this, no one thought that it was funny. On the contrary, they all agreed with him.

With Lin Yi here, why would they need ten people? One person could surround seven hundred people!

"Don't even think about that kind of good thing. It hasn't been long since we entered the barrier. The people of our Sangzi continent haven't gathered yet, and the people of the Fengqi continent and Wutong continent haven't been seen either. How could the Alliance of the thirty-six continents have gathered together?"

Zhang Yiming pursed his lips and laughed, "a team of thirty to forty people is already a lot!" It won't be easy to encounter another team of 30 or 40 people. If we're lucky, 50 or 60 people will be the maximum!"

He was making a logical deduction, which was not wrong at first. After all, how many people were there in the forest? It should be almost time in the desert!

However, he didn't expect Fang Gezi to be so lucky. In such a short time, she had gathered more than two hundred martial artists and even had a trump card against Lin Yi.

"If there are only fifty or sixty of them, it's not enough at all! Boss can scare them to death with just one look. There's no challenge at all!"

Fei daqiang deliberately sighed and sighed, but in fact, he was trying to hug someone's thigh in a fancy way!

"That's true. It's rare for you to come here, so I can't let you be too free. You're not here for a vacation, so you have to accept some trials and tests! Next time, I won't care. Da Qiang, you'll be in charge of dealing with the enemy!"

Lin Yi smiled as he made his decision. He was already one of the strongest people in the barrier, and the barrier couldn't completely restrict his spiritual sense. He was practically invincible!

In this case, there was nothing wrong with letting Fei daqiang and the others receive more combat training!

He had brought them in to give them a chance to gain experience, so what was the point of always abusing noobs?

"No problem! Boss, just wait and see! I definitely won't embarrass the boss!"

Fei daqiang agreed immediately. He had already begun to rub his fists and wipe his palms. He couldn't wait for an enemy to come over and give him a chance to practice. With a powerful person by his side, what was there to worry about?

Don't worry, just rush over boldly and it will be over!

In the relaxed and happy atmosphere, the group of people moved quickly and unknowingly traveled another 40 to 50 kilometers. They saw a few people emerging from the sand dune in the distance.

"Boss, that's Liang Shuliang and the others, right?"

Fei daqiang was excited at first, feeling that he had finally welcomed the opportunity to show off his skills. But after taking a closer look, he seemed to be an acquaintance, and suddenly felt a little discouraged.

They were about two thousand meters apart, and Lin Yi couldn't scan with his spirit sense, but there weren't any obstacles in between. He could see clearly with his naked eye, and he wouldn't mistake them for each other.

Liang Liang's group followed Lin Yi from the forest to the desert, and they went their separate ways after that. They didn't expect to meet Lin Yi again so soon!

"It's them, but they look a little strange ... Like they're provoking us?"

Zhang Yiming scratched his head in disbelief. ""Liang Liang's eyes aren't bad, are they? So what did he mean by this? Were you lying to us before?"

Intelligence agents needed to be cautious and suspicious, so Zhang Yiming never completely trusted Liang commandeering. Seeing the strange behavior of the people from the starsource continent, he immediately brought up the suspicion that he had not eliminated before.

"Maybe they're trying to tell us something?" Lin Yi said after some thought. Let's go over and take a look first!"

Fei daqiang and Zhang Yiming didn't have any objections. The group sped up and rushed to the sand dune Liang was at.

On the sand dune, one of Liang Liang's trusted men said in a low voice, ""Milord, aren't we being too perfunctory by doing this? Will Fang Gezi be suspicious?"

"What's there to doubt? Didn't we already attract the people from the Sangzi continent?"

Liang Liang shrugged his shoulders, "With just the few of us, we can't really go and fight Sima Yi and the others head-on, right? There's no need to feign defeat, it'll be a complete rout!"

He was clear about the difference in strength between the two sides. If they really fought with Lin Yi, they wouldn't gain any advantage. Fang Gezi and the other continents knew this as well.

If that wasn't the case, why would Fang Gezi set a trap for Lin Yi? They could just directly bring people up to fight!

Hence, no one could say anything about Liang Liang's perfunctory bait.

"Sir, should we leave some messages to the Sangzi continent to remind them of Fang Gezi's ambush?"

The practitioner who spoke just now thought that if he didn't contact Lin Yi, he wouldn't be able to send a message face to face, so leaving a clue here was a good choice.

After all, Liang Liang Liang had made it clear that he wanted to work with Sima Yi. The two of them were Invisible Allies. They couldn't really lead their allies into an ambush, right?

Liang Liang shook his head. "Don't do anything unnecessary. We don't know if Fang Gezi has sent people to follow us. She might be monitoring our every move."

It wasn't that Liang was suspicious. Fang Gezi wouldn't trust anyone else with the task. Liang had thought that Fang Gezi would send a confidant to follow them if they volunteered to be bait.

However, Fang Gezi didn't mention this at all. She seemed to trust Liang Liang very much, which was very suspicious. Liang Liang didn't believe that Fang Gezi didn't have a backup plan.

"Don't worry, Sima Yi isn't a person without a plan. With our abnormal behavior and not coming into contact with them, he will definitely be able to deduce some truth!"

Liang Liang's lips curled up as he chuckled, ""Let's not underestimate Fang Gezi, let alone Sima Yi. In comparison, Sima Yi is much stronger than Fang Gezi!"

"It's completely unnecessary to leave a message here. It's useless except that Fang Gezi's people will easily find out. Sima Yi doesn't need a word from us to understand our intentions! Alright, let's retreat first! They're very fast, we can't really come into contact with them!"

If they really came into contact, Liang would have to sacrifice a few of his men and pretend to be defeated ... The truth was that they were no match for Sangzi Dazhou.

Chapter 8954 The End

Liang didn't want to weaken his forces for the sake of his future plans, so keeping a distance from Lin Yi's team was his only choice.

"Boss, Liang Shuliang and those guys from the star origin great continent ran away! What was the meaning of this? Are you kidding us?"

They were about to get close, but Liang Liang led his men down from the other side of the sand dune. Fei daqiang was immediately unhappy.

If you're a friend, then come and make it clear. If you're an enemy, then come and fight. You F \* cking ran away after provoking me. What do you mean by this?

Lin Yi's eyes narrowed as he chuckled. "Liang Liang and the others aren't playing with us, they're just sending us a message! If there are no special circumstances, they can come and have a chat with us!"

"No matter if they are friends or enemies, there will always be more opportunities to achieve their goals if we get close to them. However, Liang Shuliang didn't choose to say it in person. Instead, he provoked them and ran away. What does this mean?"

"What does it mean?" Fei daqiang was confused.

It means that they are looking for trouble and are just playing with us! Wasn't that the case?

If it involved money transactions, Fei daqiang's shrewdness was definitely at the level of a genius. Without this factor, it was a little urgent!

"Liang Liang's actions seem like they're trying to lure us into chasing them ..." Zhang Yiming said thoughtfully. "They're trying to lure us from the enemy's side."

There was no need to do so if they were allies!

"That's right. Yiming is right. Liang Liang and his men are trying to lure us out. At the same time, they are telling us that they have successfully infiltrated the team of the Alliance of the thirty-six continents."

Lin Yi didn't let Liang down. He managed to deduce the truth from this little bit of unreasonable information. "The opponent's strength should be pretty good this time. Liang Liang and the others won't have a chance to do anything."

"That's why we can only cooperate. Liang probably took the initiative to be the bait. Otherwise, with his identity as the inspector of the Xingyuan continent, no one can command him!"

"They deliberately used bait to lure us. The ambush they set up must be very powerful. At the very least, they are very confident in taking us down! Liang Liang warned us so that we can defeat the enemy. He thinks we can do it!"

Fei daqiang wanted to ask Liang zhulang if he was not afraid that they would not follow them after they saw through the ambush. After all, most people would not be willing to go to the mountains knowing that there were Tigers there.

Before he could ask, Zhang Yiming answered, ""I understand! Liang Liang and the others can't eat it themselves, so they want to drag us along! If we don't follow them, their bait will fail, and it might arouse the suspicion of the higher-ups of the enemy. "

Once a spy was suspected, he was basically useless and could no longer play his role.

"That's about it. Since we know, we should keep our distance and follow them. Let's see what kind of surprise gift the Alliance of the 36 continents has prepared for us!"

Lin Yi smiled, not caring about the ambush at all. In front of absolute strength, all schemes and intrigues were useless!

Liang Shuliang turned his head and saw that Lin Yi had slowed down a bit and was now moving at the same speed as him.

The distance between the two sides had entered a delicate balance. One side couldn't shake off the other side, and the other side couldn't catch up. It was really an excellent pursuit!

"Sima Yi is indeed powerful. He already knows what's going on!"

Liang Liang complimented in a low voice. A strange expression flashed across his face.

In fact, what he said to Lin Yi wasn't all the truth-he could only tell half the truth and half the lie. As for how he'd actually do it, that was entirely up to the situation.

The status of the starsource continent was indeed transcendent, and there was no need to worry about losing its status as a first-class continent. However, if his results as the new patrol were too bad, and the starsource continent could only rely on its status as the center of the martial Alliance to maintain its status as a first-class continent, it would be a serious failure!

Liang Liang didn't want to be an invisible patrol with no sense of existence, so the results of the starsource continent had to be outstanding, not without any desires!

He could be Lin Yi's ally and go undercover in the Alliance of the thirty-six continents, or he could pretend to be a spy and deal Lin Yi a fatal blow!

For example, if Lin Yi didn't see through Liang Liang's clues and information, Liang Liang might have helped Fang Gezi deal with Lin Yi!

Of course, the real fight would be when Fang Gezi's side had the upper hand. To put it bluntly, Liang Liang wouldn't be on any side. He would be on his side!

Liang Yu Liang was on the side that was stronger! To put it nicely, he was taking advantage of the situation, but to put it bluntly, he was a fence-sitter who benefited from both sides!

In any case, he would not suffer any losses no matter who won or lost! The best choice was to provoke a fight between the two sides and then profit from it!

Liang Liang was very satisfied as he looked at Sangzi Dazhou's team chasing after them. It was easy to partner up with smart people!

He wondered if Fang Gezi's trump card would work. Sima Yi was already on guard, so it shouldn't be that easy to succeed, right? It would be best if both sides were injured!

Liang Liang Liang's condition for being bait was that he wouldn't attack Lin Yi. To put it simply, he was prepared to be the fisherman and watch the two sides fight.

Liang Liang was very satisfied with this operation. It could be said that he had taken care of all aspects.

First of all, he had taken the initiative to be the bait and gained a good impression from Fang Gezi and the Alliance of the 36 continents. Then, he had won the privilege of watching the Tigers fight from the mountain.

If it was someone from another continent who tried to lure Sima Yi, there was a high chance that they would not be able to return. Liang Liang Liang did not have this worry. After all, he had already secretly formed an alliance with Sima Yi. Therefore, the favorable impression and special privileges he gained were all free benefits.

On the other hand, Fang Gezi's trump card might pose a threat to the people of the Sangzi continent. Liang Liang Liang used the opportunity of being bait to secretly remind Sima Yi to be careful, and he got another wave of favors without wasting any money.

The Sangzi continent's people were prepared, so they wouldn't be killed by Fang Gezi at once. It increased the chances of both sides suffering, which also increased Liang Shuliang's chances of benefiting from the battle.

There was also a seemingly clumsy and perfunctory act of luring the enemy. Not only did he secretly provide Sima Yi with information, but he also forced Sima Yi, who knew the truth, to follow Fang Gezi's trap because Liang Shuliang believed that Sima Yi would not betray his allies!

This was completely different from him, so he was even happier to make use of it!

It was perfect!

Liang Liang Liang combed through everything from the beginning and felt that his operation was perfect and flawless.

Chapter 8955

Now, he only needed to pass through the reserved passage, sit on a bench, watch the show, and finally come out to reap the fruits of his victory. He would basically be able to establish his position as the number one in the starsource continent!

Especially the symbol of the star source continent, Liang Liang had already gotten it. As long as he completed this plan, the team battle would be over!

Liang Liang's mind was spinning and he had unknowingly arrived at the agreed location.

From the outside, there was nothing unusual. If Liang Shuliang didn't know that this was where Fang Gezi was hiding, he would have thought that they were just passing by!

Would Sima Yi notice the problem?

Liang Liang Liang was a little suspicious. He passed through the ambush in an instant and followed the planned route to escape. He couldn't send any signals to Sangzi Dazhou behind him.

If he wasn't careful, it would only expose his plan!

If Sima Yi didn't notice the problem and was killed without any preparation ... That would be his fate! You can't blame anyone!

Lin Yi followed Liang at a moderate distance, stepping right into the ambush when Liang left. There was nothing unusual in the range of his divine sense and his naked eye.

However, the Jade space sounded an alarm!

There was danger!

"Stop!"

Lin Yi raised his hand immediately, and the others behind him stopped.

They'd already expected an ambush from the Alliance, so no one thought it was strange. They only thought that Lin Yi had found their tracks.

Only Lin Yi himself knew that the enemy's presence was a fatal threat to his side even though they were nowhere to be seen!

Who was in charge of this ambush? There's something!

"Boss, what did you find? Where are the enemies?"

Fei daqiang was a little excited, and his eyes darted around. He remembered that the thigh had said that he would be the next one to fight. He couldn't help but be happy when he thought of the scene of bullying noobs!

What? There's a vegetable that can't be beaten? Then just leave it to the big thigh, there's all the vegetables in front of the big thigh!

"Don't worry, they're all hiding pretty well. They're secretly preparing a big move to deal with us!"

Lin Yi waved his hand dismissively and observed his surroundings, trying to find the source of the danger.

Fang Gezi, who was observing Lin Yi from the dark, felt like a cat was scratching at her heart.

Lin Yi had brought Sangzi Dazhou's men into the encirclement, but the distance was a little awkward. It was like an enemy had come. Fang Gezi was sitting in the main hall, with executioners waiting in ambush.

As long as the enemy came close, he could smash the cup as a signal, and the executioners would come out to kill the enemy. However, the enemy was only standing at the door. Not to mention the executioners, even if he wanted to close the door and let the dog out, the door couldn't be closed!

"Investigator Fang, did Sima Yi discover something? What should we do? Should we continue waiting or should we take action now? If Sima Yi turns around and leaves, our arrangements will be in vain!"

Some of the leaders from the other continents couldn't help but ask Fang Gezi. They were all in the same boat now, and their common goal was to kill Sima Yi, so they were more anxious than Fang Gezi.

Fang Gezi also wanted to know what to do!

Sima Yi was a sly and cunning fellow. The place he had stayed at was too awkward. If he were to make a move now, it was not that there was no chance at all, but there was really only a slight chance. There was a 99% chance that he would have to watch as Sima Yi and his men escaped with ease!

How could Fang Gezi let Sima Yi go so easily after putting in so much effort to set up such a trap? He was more anxious than anyone else, but he could not show it on the surface in case he shook the morale of the Army!

"Wait! Don't be anxious!"

After much consideration, Fang Gezi gritted her teeth and forced herself to calm down. She tried to find a reason to convince the others, but she was also trying to convince herself. "There's nothing wrong with our arrangement, it's definitely not a killing trap that Sima Yi can easily see through! He's probably just being cautious right now, but he'll definitely continue moving forward after waiting for a while!"

He wanted Liang Shuliang and the others to lure another wave of people, but Liang Shuliang had escaped the encirclement. If they wanted to contact him, they would most likely expose their plan.

The losses outweighed the gains!

A little impatience spoils a great plan! Fang Gezi could only keep repeating this in her heart, hoping that Lin Yi would hurry up and move on instead of dawdling at the door!

On the other side, Lin Yi stopped for a while and still didn't find anything. During this time, Fei daqiang and the others followed Lin Yi's instructions and took out their defensive formation discs, ready to activate them at any time.

Lin Yi didn't sit around either-he threw out formation flags as he observed the surroundings, setting up a movement formation. The Jade's warning couldn't be taken lightly, it had to be treated seriously!

With that done, Lin Yi waved his hand, "Continue forward! Everyone, focus your attention and be careful!"

Fei daqiang and the others responded in unison and raised their guard as they followed Lin Yi.

Fang Gezi, who was observing in the dark, was overjoyed. 'Sima Yi, Oh Sima Yi, you've finally stepped into my trap. Let's see how you're going to escape this time!'

Just a little more! Just a little more!

Good! Close the door and let the dogs out!

Fang Gezi suppressed her excitement and sent out a signal to surround them!

The direction where Lin Yi and the others came from started to shake, and a part of a trap formation appeared in an instant. Surrounding it were battle formations formed by martial artists, coordinating with the operation of the entire trap formation, completely trapping Lin Yi and the others in the center.

"This is interesting! You actually managed to hide from my eyes!"

Lin Yi raised an eyebrow, surprised and curious at the same time.

Under normal circumstances, Lin Yi would've noticed if there was a formation in the area he passed by- even a stealth formation wouldn't be able to escape his spirit sense's scanning!

This time, he didn't feel anything at all. Even after carefully checking, he still didn't find anything. This was interesting indeed, and it was enough to pique Lin Yi's interest!

"Sima Yi! What a coincidence! I didn't expect to meet you here, it's really fate!"

Fang Gezi stood up with a smile, feeling that everything was under control. From the moment Lin Yi entered the encirclement and successfully surrounded them, the outcome was already decided!

There was no suspense in the following battle, and Fang Gezi didn't mind pushing back a little. She wanted to use this chance to show off in front of Lin Yi.

"Fang Gezi, so you were the one who plotted against me? Sure enough, you can do what a rat can do. Speaking of fate, there is indeed fate, but between you and me, it should be considered an ill fate, right?"

Lin Yi's expression was relaxed, not the slightest bit nervous from falling into an ambush. "I have to admit, the array you set up this time is not bad. It was actually able to hide from my eyes. It seems that you have a super expert in the array Dao by your side! You don't mind letting him out to get to know you, do you?"

Chapter 8956

An ambush was the most dangerous when it wasn't activated. Once it turned from dark to light, it lost its purpose. Lin Yi wasn't looking down on Fang Gezi, but after the enemy's ambush turned from dark to light, it wasn't worth Lin Yi's worry.

"I'm sorry to disappoint you. This arrangement was completed by me. It's really an honor to be able to get your praise!"

Fang Gezi's lips curled into a mocking smile. "Great Grandmaster Sima, do you understand my arrangements now? Should he consider surrendering? If you surrender, you'll lose half the battle!"

"If you can kneel down and admit defeat, I can promise that I will only take the nameplates of five out of the ten of you. Then I will split half of your Sangzi continent's points and I will let you go. Am I not being very magnanimous?"

"Of course, if you think you can resist, that's fine. I can fulfill your wish. However, I have to remind you that your nameplate will not be able to trigger the protection mechanism under my arrangement!"

"In other words, when you suffer a fatal attack, you will really be killed! Don't even think about throwing away your nameplates and leaving. In my encirclement, you can only surrender or die!"

Lin Yi wasn't the only one surprised. Everyone from the Alliance was shocked as well. This was the first time they heard Fang Gezi mention it. So this was her trump card?

Was it real or fake?

Liang Liang, who was hiding outside the encirclement, pinched his chin and fell into deep thought. He didn't think Fang Gezi was exaggerating. It seemed that this guy really had an amazing opportunity in the barrier!

Wasn't he too lucky?

With such a good opportunity, Fang Gezi would never let Sima Yi go. The so-called surrender was only half lost because he wanted to take the opportunity to humiliate Sima Yi ... What a boring move!

Liang Liang looked down on Fang Gezi. What did she do to the ambush? When Sima Yi stepped into the trap, he should have used his full power!

All that nonsense just to show off his sense of superiority? He even exposed his trump card. Did he really think that he could relax his vigilance just because he had victory in his hands?

The other party was Sima Yi. He had barged into the spatial node alone and killed his way in and out of the darkness demon beast clan's territory. Not only did he escape unscathed, but he also managed to kidnap a beautiful expert from the darkness demon beast clan ...

What right do you have to look down on such an opponent?

Idiot!

Liang Liang kept complaining in his heart, but he couldn't show his face at this time. He could only continue to wait and see.

Lin Yi's group wasn't scared at all in the encirclement, not even nervous. Lin Yi had a strong self-confidence, confident that he could handle any situation.

The other nine had even more confidence in Lin Yi than in himself. They felt that as long as Lin Yi was here, it didn't matter if the sky collapsed. Lin Yi would be able to hold up the sky!

"Ha ... Amazing! Even I'm a little scared!"

Lin Yi chuckled in disdain. He said he was scared, but there wasn't a hint of it on his face. "What's the point of just talking without practice? if you want us to surrender, it's far from enough to just talk! Why don't you show me something?"

"Alright! If I don't beat you to tears, you'll think I'm just scaring you! However, I'll say the ugly words first. If you can't bear it and a few of you die, don't blame me! I've already warned you! You're the ones who refuse a toast only to drink a forfeit!"

Fang Gezi was prepared to kill everyone on Lin Yi's side, but she wanted to get some pleasure from humiliating Lin Yi before killing him.

The overall situation had already been decided. In a situation where victory was in their grasp, if they didn't properly humiliate their opponent, wouldn't it be like walking in silk clothes at night?

First, kill a few insignificant people to intimidate Sima Yi, then force Sima Yi to kneel and beg for mercy. The plan went through! It was perfect!

"Brothers, if Grandmaster Sima wants to see our strength, then let's show him! The lives of his underlings are cheap, and Grandmaster Sima won't care, so let's just kill a few first!"

At Fang Gezi's command, the people of the Alliance of the 36 continents started to act cooperatively. They didn't really follow Fang Gezi's order, but they wanted to see if Fang Gezi was telling the truth. Could they really ignore the nameplate's defense mechanism and kill people inside the barrier?

The killing formation set up by the Alliance of thirty-six continents started to activate. Then, the battle formations of each continent started to attack Lin Yi's group!

In an instant, the world changed colors!

Lin Yi's face changed at the same time!

If it was just the Alliance of the thirty-six continents "formation and battle formation, it would be full of mistakes in Lin Yi's eyes. It was nothing!

It was really too easy to crack it. It was just a casual matter.

However, this time was different!

An invisible force gathered on the formation and battle formation, filling up all the holes and giving them a vast and majestic power!

It couldn't be cracked! There was even an illusion that he couldn't resist!

This was ... The power of the barrier?

Lin Yi instantly understood everything. The reason why he couldn't detect Fang Gezi's ambush was because Fang Gezi could activate the barrier's power to hide herself. How could he have discovered her?

Even Lin Yi had to follow the boundary's rules, but Fang Gezi could use the boundary's power to hide. It was easy for her to not be discovered!

When this guy said that the nameplate's defense mechanism would not take effect, it was definitely not an alarmist talk. This was because the nameplate itself used the power of a barrier to form a temporary period of pseudo-invincibility, teleporting the wearer out.

Fang Gezi could use a more powerful force, but the force on the inscription plate was nothing!

Liang yulang, who was standing outside, was shocked. He had not expected Fang Gezi's so-called trump card to be the power of the ward! What kind of luck did this guy have to actually obtain such a great opportunity?

With this move, Fang Gezi was invincible!

However, Fang Gezi's trump card should have its limitations. For example, he had to set it up in advance. Otherwise, he wouldn't have needed to set up this ambush. He could have just found Sima Yi and fought him directly!

Other than that, he didn't know if Fang Gezi's trump card had a limit to the number of times it could be used ... Liang wouldn't believe it even if Fang Gezi said it could only be used once.

"Wait! In this ambush ... Fang Gezi isn't thinking of killing everyone in one fell swoop, is she?"

Liang Liang murmured as his eyes focused. He closed his mouth and started to plan.

Sima Yi had said that the people of the burning sun continent had the intention of annexing the Alliance of the thirty-six continents. If they could successfully get rid of Sima Yi, these people who had been allies just a moment ago would be easily dealt with by Fang Gezi, right?

The starsource continent could be independent? I'm afraid not!

Chapter 8957

Liang Liang's heart went cold. Fang Gezi said they were outside the encirclement. Was it true? He thought that he was just watching the Tigers fight, but was he actually in the Tiger's mouth without knowing?

Liang Liang shivered and broke out in cold sweat. He thought that he was the Oriole behind the Mantis stalking the cicada, but now he was not sure who was the prey!

Those who are good at scheming will always scheme!

Liang Liang Liang wanted to take his men and escape from this place. He wanted to see how things would turn out after they got far away from the place. However, if he really did that, neither Fang Gezi nor Sima Yi would believe him after this!

After working so hard for half a day, was he going to let all his plans go to waste? Liang Liang didn't want to give up. He could only grit his teeth and bear with it to see what the final result would be!

Wealth comes from danger, let's take a gamble first!

Liang Shuliang's heart was in a mess outside the encirclement, but Lin Yi, Fei daqiang, and the others were in a real desperate situation!

In addition to their own power, the battle formations of the surrounding continents also had the power of an unstoppable barrier. Fei daqiang and Zhang Yiming had led seven generals to form a higher level battle formation, but their attacks were like dragonflies shaking a pillar when they encountered the power of the barrier. They had no effect at all.

To put it bluntly, the battle formation of the Alliance of the thirty-six continents was like a nameplate that had been activated. It was wrapped in the power of a barrier, forming an absolute defense that covered all 360 degrees!

Unless one could break through this powerful absolute defense in an instant, no one would be able to hurt the martial artist in it!

"Hahahaha! Sima Yi, are you trying to scratch our itch? Then use more force! I can't feel your strength at all. Did you not eat enough?"

"hehehe, it's not that you didn't eat your fill, but that you peed your pants in fear, right? his hands and feet went soft, and he peed in his pants! actually, wasn't it better to surrender? what's the point of putting up a stubborn resistance?"

"there are indeed such idiots who won't shed tears until they see their coffins! he thought that he was powerful, but in fact, he was nothing! you'll only drag your subordinates to die with you, and you can't even protect yourself!"

.....

The martial artists inside the barrier realized that Fang Gezi's trump card was really effective and became arrogant. They laughed proudly as they saw Fei daqiang and the others' attacks break outside the barrier, mocking Lin Yi!

As long as the defensive barrier was not broken, they would be standing firmly in an undefeatable position! Facing a group of enemies who couldn't fight back, their courage increased exponentially. Their initial goal was to kill a few generals from the Sangzi continent, but now they wanted to attack Lin Yi directly!

With the power of the barrier in hand, if the enemy was killed, it would be a true death. There was no such thing as teleportation!

If they could get rid of Sima Yi, the first three continents would immediately fall apart, and the remaining people of the Sangzi continent would be no threat at all!

That was why people's ambitions would increase with their strength. In the beginning, they might not really listen to Fang Gezi's orders; they just wanted to try.

However, after realizing that Fang Gezi's so-called trump card was the power of this enchantment, his ambition spread like a wildfire.

They were all from different continents, but they all made the same decision without discussing it. In an instant, all the battle formations were focused on Lin Yi, who hadn't attacked yet. Fei daqiang and the others were completely ignored!

Lin Yi's face was calm as he looked coldly at the group of martial artists charging at him. He activated the mobile battle formation around him, enveloping all ten of them in it.

The first violent collision between the two sides broke out between the various battle formations covered by the power of the mobile formation and the barrier!

Lin Yi's movement formation was mainly for defense, and it was enough to block the attack of a heaven breaking master, but the opponent was a battle formation from several continents, and the power of each battle formation was no less than a heaven breaking master.

It was like Lin Yi's movement formation was facing the combined attacks of several heaven breaking Masters! In addition, the other party had the power of the barrier, and its toughness far exceeded that of a mobile formation. With just one collision, the mobile formation made cracking sounds and kept shaking.

Although it had not been completely shattered, the defensive barrier formed by the formation was already covered in dense cobweb patterns. It could collapse at any time. Perhaps a gust of wind could blow away the movement formation!

"Hahahaha, Sima Yi, there's still time to kneel and beg for mercy! Please don't force yourself! It's meaningless!"

Fang Gezi stood with her hands behind her back, looking down at Lin Yi's group proudly, ""Up until now, you've only been facing defensive powers. If I were to use my killing powers, you wouldn't even have the chance to beg for mercy!"

"Listen to my advice, quickly kneel down and beg for mercy. Seeing that we are all investigators, I can let you live and let you teleport away. This is my last bit of kindness. If you still don't know what's good for you, don't blame me for not being polite!"

Fang Gezi insisted on making Lin Yi kneel and beg for mercy. The meaning of her words had gone from killing a few generals to annihilating Lin Yi's entire team.

It was clear that this was the first time he'd come into contact with Lin Yi, and it'd greatly boosted his confidence. He might've been a little hesitant before, unsure if Lin Yi had a way to break the barrier. His plan might've been 90% sure, but he was afraid that there would be a trace of uncertainty.

However, after the first collision, Fang Gezi was convinced that this plan was foolproof! Sima Yi was dead for sure!

"Heh ... Fang Gezi, you still have good intentions? I didn't know that you meant that you were being polite to us now, right? Don't worry, hurry up and show this Lord!"

Lin Yi didn't seem to notice the fact that the formation was about to break. He sneered at Fang Gezi and retorted, ""Hurry up and show me all your moves! Let me have a good look, this level alone can't take down us all!"

The general opposite Lin Yi felt like he was being looked down on and immediately shouted, "Big words! Sima Yi, do you really think you're invincible? Break!"

The battle formation he led exploded with their strongest attack, ruthlessly bombarding the broken mobile defensive formation. The huge attack power instantly tore the defensive barrier of the mobile formation!

The attack didn't consume much energy, and if nothing unexpected happened, it would pierce through Lin Yi's chest, leaving a huge hole in it!

Unfortunately, the scenario did not go according to his plan. The accident might be late, but it was not an accident. The wave of attack that had just broken through the defensive layer was immediately met with a stronger counterattack. When the two collided, they were directly shattered by the new counterattack!

Chapter 8958

How could Lin Yi's movement formation only have one level? After the defensive array, it was a sharp killing array! The killing move that was activated at full force not only destroyed the attack launched by the opposing battle formation in one fell swoop, but it also swept back with the shattered force of the enemy!

The leader's face changed. This wasn't what he'd expected, but he didn't panic. With the barrier's protection, this level of attack wasn't something he'd take seriously.

Sure enough, after the powerful counterattack hit the absolute defense formed by the barrier power, it exploded like a gorgeous firework. Other than being beautiful, it did not pose any threat.

At the same time, the battle formations from the other continents didn't just sit around and wait, they also started attacking Lin Yi's group.

The killing formation of the mobile formation used attack to attack and did not fall into a disadvantage for a while. The battle formation led by Fei daqiang was also calm and met the enemy head-on, and there was no danger for the time being!

"Boss, it's true that their barrier can only defend and not attack, so we're on par. But if Fang Gezi isn't lying and can use the barrier's power to attack, we probably can't resist it!"

Zhang Yiming didn't have much use in the battle and was just a pamper. He had time to observe the situation and whispered to Lin Yi, ""Let's break out now. We'll settle the score with Fang Gezi later. How about that?"

As Lin Yi's intelligence chief, Zhang Yiming's talent in intelligence was unquestionable. He also thought of Fang Gezi's restrictions on the barrier's power.

If there were no restrictions, Fang Gezi wouldn't have needed to set up an ambush. She could attack at any time!

Under normal circumstances, Fang Gezi would be in an invincible state with the help of the barrier. The fact that he had set up an ambush on purpose only proved that there was a limit to Fang Gezi's ability to use the barrier!

Therefore, Zhang Yiming suggested breaking out of the encirclement and turning the unfavorable situation around before considering counterattacking!

"There's no need for that!" Lin Yi smiled. Fang Gezi thought she was invincible with the power of the barrier, but she didn't know that it had flaws and wasn't really an absolute defense!"

"You guys defend your positions well. Watch me break their self-righteous absolute defense! If it really has the killing attribute, let Fang Gezi see it!"

As he spoke, Lin Yi gave up on controlling the movement formation and threw out a few formation flags to fix the formation around Fei daqiang and the others to defend against the attacks of the battle formations.

Lin Yi himself was like a cloud, easily passing through the gaps between the attacks, appearing in front of the battle formation in a seemingly slow but fast manner!

The two shots were less than two meters apart, and they were no more than face to face. The leader of the other team was shocked and subconsciously attacked Lin Yi with his battle formation!

Lin Yi's lips curled up, revealing a smile that said everything was under control! The reason why he had rushed over was because he had been waiting for this moment!

The power of the barrier was indeed an absolute defense. Otherwise, when the defense mechanism of the nameplate was triggered, it would not be able to teleport the wearer away!

Lin Yi's soul snatching hand only succeeded because he pulled a trick. He managed to pull the opponent's spirit out before the defense mechanism was triggered.

If the inscription plate's defense mechanism was triggered first, and the person inside didn't move at all, even the soul-snatching hand wouldn't be able to penetrate the barrier and hit the opponent.

In other words, under the current circumstances, Lin Yi couldn't deal with the cultivators of the thirty-six continents under the protection of the barrier even if he used the soul-snatching hand.

Unless he could break the barrier with brute force!

Or perhaps the person inside opened up the barrier to give Lin Yi a chance to attack!

If they didn't do anything, Lin Yi wouldn't stand a chance, but the moment they attacked, there would be a very, very small opening in the barrier!

It was like a fish in the water. It was impossible to catch the fish without breaking the surface of the water. However, once the fish floated to the surface and blew bubbles, the water surface would naturally separate!

Lin Yi's sharp senses had discovered this fleeting flaw through the collision and attack of the movement formation, but the time was too short to use it.

Only by getting close could he successfully grasp this little flaw!

So Lin Yi used his butterfly microsteps and instantly got close to the opponent, and the opponent also cooperated and attacked, revealing the opening Lin Yi expected!

One punch!

The violent force exploded with a loud bang, further expanding the opponent's exposed flaw. Even the power of the barrier could not resist this powerful force tearing the flaw.

However, the barrier was extraordinary. The opening only expanded a little, but it wasn't completely torn apart. All the martial artists inside were shocked and didn't dare to slow down. They all used all their spirit and strength to attack, trying to fight an attack with an attack. They wanted to take advantage of the gap between Lin Yi and the barrier to kill him first!

A mocking smile appeared on Lin Yi's lips. His fist was powerful, but it was only a way to widen his opponent's weakness.

The true killing move was a spiritual awareness attack skill!

These generals were just opponents, not enemies. Lin Yi didn't want to take their lives with the hand, so he used his consciousness first to shake their souls and make them lose control.

Then, three consciousness pill fire vortexes fell into the battle formation, madly spinning and pulling these martial artists' primordial spirits, and burning them with the consciousness pill fire!

If it was outside, this kind of attack would be the real killer move. The soul-hooking hand had left some leeway, so that they could return the primordial spirit.

But inside the barrier, it was the exact opposite. There was no way Lin Yi could return the soul that was taken away by the hand—he'd just be sending a corpse out, and he couldn't return the soul to expose his abilities.

The life-threatening danger of the consciousness pill fire Whirlpool would directly trigger the inscription plate's defense mechanism and teleport these generals out. Their primordial spirits might be slightly injured, but at least their lives could be saved. They would recover after resting for a while.

Everything developed as Lin Yi expected. The group of fighters all turned into white light and left the barrier, leaving behind only their name tags that reflected the sunlight.

Those who didn't understand Lin Yi's methods could only see Lin Yi's punch and the shaking of the barrier because the fire vortex was invisible. A group of elite fighters under the protection of the barrier were fatally injured and activated the nameplate's defense mechanism, being transported out of the barrier!

Overbearing!

This punch was too overbearing!

The battle formations of the surrounding continents were a little stunned. Wasn't the protection of the barrier an absolute defense, and one would never be attacked within the barrier? Then what had just happened?

Chapter 8959

The practitioners from these continents didn't realize that it wasn't Lin Yi's fist that was overbearing, but that their own attacks had caused a flaw in the barrier's defense.

Lin Yi was only able to grasp that small opening and expand it!

Because of the unknown, they were afraid!

They were all proud and arrogant before, thinking that they could kill Lin Yi and the others with the barrier's defense, but they panicked again after being taught a lesson by Lin Yi.

Lin Yi turned to the other group after sending off the first group. He was so fast that they didn't even have time to think.

Seeing Lin Yi charging at them like a tornado, the group of martial artists instinctively activated their battle formation and attacked first, giving Lin Yi their strongest attack.

They would never have thought that this was the moment Lin Yi was waiting for!

Only by attacking would they be able to break the absolute defense of the barrier and give Lin Yi a chance to counterattack!

Without any suspense, another continent's battle formation was destroyed. The martial artists who formed the battle formation were all annihilated and turned into white light one after another as they were transported out of the barrier!

Two seemingly simple and effortless attacks had destroyed two different continents' battle formations. Lin Yi's combat strength was unrivaled!

The people who had been clamoring about what they were going to do now were all stunned. No one dared to attack Lin Yi anymore, giving up on their attacks and getting into a defensive position as they retreated.

Lin Yi flew back in front of Fei daqiang and the others. If the other side didn't do anything and just defended, the barrier was extremely strong. Lin Yi didn't want to waste that energy, not to mention whether it could be broken.

"Fang Gezi, do you have any more tricks up your sleeve? Just this? It was completely not enough! You want to use these continents as cannon fodder to consume me and the rest of them at the same time, right?"

Since he couldn't fight them with force for the time being, he would use his wits! Lin Yi's lips curled up as he tried to drive a wedge between them. "The Alliance of the thirty-six continents, huh ... I'm afraid it's an Alliance that will help you count the money even if you sell the thirty-five continents, right?"

"These poor guys actually listen to you and are willing to be the burning sun continent's cannon fodder. I don't know what kind of magic potion you fed them! Fang Gezi, you're indeed a talent!"

Fang Gezi's face darkened. Lin Yi's words had exposed her secret plan, but she would never admit it!

The people from the other continents all looked at Fang Gezi with suspicion after hearing Lin Yi's words. If they could prove that their suspicions were true, they would turn their attention to the burning sun continent immediately!

"Sima Yi, don't make irresponsible remarks here. Do you think that these little tricks to sow discord will have any impact on our Alliance? Don't joke around!"

Fang Gezi was strong and calm. She sneered and retorted, ""Our thirty-six continents advance and retreat together. There's no such thing as cannon fodder! There's only a difference in the division of labor, there's no such thing as nobility or inferiority!"

"Your strength is indeed extraordinary, and you've achieved a certain result in your sudden outburst. But you should be an arrow at the end of its flight now, right? Trying to buy time by sowing discord? What a joke! Do you think we'll be fooled by your clumsy plan?"

He didn't explain anything to the other continent's practitioners, but only refuted Lin Yi with a sense of justice. He also achieved his purpose of explaining, and the practitioners felt that it made sense, naturally lowering their suspicions.

Lin Yi shrugged nonchalantly, "you guys think I'm trying to buy time?" Then what were they waiting for? Come over and continue fighting! It's not like I'm going to stop!"

The cultivators from the other continents had ugly expressions on their faces. Sima Yi had no intention of stopping, but they were the ones who retreated out of fear ...

"Fang Gezi, why don't you bring your people from the burning sun continent and fight them yourself? If you don't want to use others as cannon fodder, then show them some sincerity!"

Lin Yi continued to look relaxed, "If you don't dare, you can also lead the people from other continents, but you have to at least act like you're leading the charge. Otherwise, how can you be convincing?"

Shoot the horse before shooting the man, capture the king before capturing the bandits!

Fang Gezi was the leader of this ambush. If he dared to fight Lin Yi himself and Lin Yi took the chance to break it, the ambush would be broken without a fight!

If Lin Yi had said that when he first entered the ambush area, Fang Gezi might have used the barrier to try. After all, in his mind, the protection of the barrier was an undefeatable place.

But Lin Yi destroyed the battle formations of two continents with two clean punches. How could Fang Gezi dare to go up and get in trouble?

"Sima Yi, don't waste your time. All the arrangements here are under my control. If I could move as I please, do you think you would still be alive? You can see that I'm restricted and can't move, so you want to use this to sow discord, right?"

Fang Gezi chuckled. "That's a good idea. Unfortunately, our brothers in the Alliance of the 36 continents are all people with a profound sense of righteousness. How can they be incited by you with just a few words?"

"Everyone, Sima Yi's fierce attacks will definitely take time to recover. He's at his weakest right now, so don't be fooled by his words. Let's kill him with all our strength!"

"If we can't succeed this time, the three third-grade continents, with the Sangzi continent as the leader, will soar to the sky without any possibility of stopping them. Are you really willing to be suppressed by the people of these three third-grade continents?"

The people from the other continents weren't really moved by Fang Gezi's words, but they had no way out now. Since they had already attacked Lin Yi, they couldn't just let it go!

"What investigator Fang said is right! Sima Yi is trying to stall for time, we can't fall for his trick! Brothers, let's kill them together!"

Someone shouted. This was a continent that had a good relationship with the burning sun continent. They were already fully supportive of Fang Gezi, but now they stepped forward to fan the flames.

The surrounding continents "battle formations surrounded Lin Yi's side once more-there was no turning back now that they'd done it. They had to go all the way. If someone took the lead, they'd follow.

"Poor thing!" Lin Yi laughed. You bunch of cannon fodder, do you really think Fang Gezi is telling the truth? I don't mind sending you guys out, but it's like you're Fang Gezi's helpers, so it's not very pleasant!"

Fei daqiang couldn't help but say,"a bunch of idiots!" Let me tell you something. When we first entered this place, we were in a forest. We met a few other teams there, and one of them was from the burning sun continent. "

Chapter 8960

"What do you think? How dare the people of the burning sun continent attack an ally of the Alliance of 36 continents! And it was an extremely despicable sneak attack!"

"They have no intention of truly joining forces with you. They are using their identities as allies to secretly attack and collect points! Because they know that they are no match for our boss, the best choice is to collect points from you!"

Fang Gezi flew into a rage and shouted,'nonsense! Everyone, ignore their nonsense and quickly kill them!"

He was a little angry from embarrassment because Fei daqiang's words were true! All the participants of the team battle in the burning sun continent had received his instructions!

As long as there was an opportunity and he did not expose himself, he could kill his allies and collect points!

She never thought that this would be seen by Sima Yi's team! It was really a ghost!

"whether it's nonsense or not, i'm sure investigator fang knows best?"

fei daqiang pursed his lips and smiled as he glanced at fang gezi with a teasing expression.

the battle formations that were preparing to attack didn't completely believe him, but they did slow down and seemed to be extremely hesitant.

"If you want to punish someone, you can't find a good excuse! Framing someone was nothing more than this! Attack! Hurry up and attack!"

Seeing that the people from the other continents were hesitant, Fang Gezi was confused. His plan was actually quite outstanding, and he also believed that it would succeed in becoming a first-class continent!

He didn't expect to be exposed in public ... Of course, he wouldn't admit it even if he was beaten to death. After he killed the people from the great land of Sangzi, he would also get rid of these allies present!

thinking of this, fang gezi forced herself to calm down. "everyone, sima yi has been trying to sow discord between us from the beginning. do you really believe such empty and absurd words?"

"if you feel that i, fang gezi, can't be trusted, then we'll forget about the alliance. everyone will go their separate ways and wait to be defeated by the people of the sangzi continent!"

"if you trust me, then don't waste any more time. everyone, attack together and kill sima yi and his men! then, we'll split the spoils!"

Fang Gezi's die-hard supporter stepped forward again and said righteously, ""Of course we believe in investigator Fang. Anyone can see that Sima Yi is trying to sow discord! Brothers, kill them!"

"Wait! I have something to say!"

The leader of the other continent stopped the attack with a blank expression. ""It's not that I'm against the attack, I just want to ask patrol Fang, you just said that there's still offensive power! If it's not convenient for you to move with us, then bring out your attack power!"

"I believe that with the power to attack, taking down Sima Yi and the others will be as easy as taking something out of a bag. We can follow up and cooperate. This way, everyone should not have any doubts in their hearts, right?"

Fang Gezi was furious. Apart from defense, the barrier's power could also attack.

The problem was that this attack could only be used once, and the maximum number of targets it could target was 200 people! He couldn't bear to use it against Sima Yi and the people from Sangzi Dazhou!

After all, Sangzi Dazhou only had ten people, it would be a waste to use this trump card!

Fang Gezi's plan was to borrow the people of the Alliance of the thirty-six continents to kill Lin Yi and the generals of Sangzi continent with the protection of the barrier.

Then, he would activate the barrier's power to attack and defeat all his allies in one fell swoop!

Just as Liang Liang had guessed, Fang Gezi's target wasn't just Sima Yi or Sangzi Dazhou, but everyone present!

"I was just trying to scare Sima Yi! If I really had such a method, do you think I would hide it? I've already used it to deal with Sima Yi! Do you guys even have brains? Can't you think properly!"

Fang Gezi's face turned red as she berated, ""If you can't trust me, then get the hell out of here! If you don't even have the most basic trust, how can you talk about cooperation and Alliance?"

The leader who had just spoken was silent for a moment, then he immediately cupped his hands and said expressionlessly, ""Since that's the case, we won't participate in this operation! Goodbye!"

It was clearly a situation where the arrow had been nocked and had no choice but to be fired, but he actually left just like that. He directly led his team to maintain their defense and slowly retreated.

Fang Gezi was dumbfounded. She had never expected this to happen!

"Old Zuo, don't be a coward! Although investigator Fang's words are a bit harsh, it's also reasonable. We're all in the same boat, there's no need to be so rigid!"

Fang Gezi's close ally stepped forward to mediate. ""We have a common interest. Now, we have to target a common enemy. The best choice is to be sincere and United, and work together!"

"Those of different paths can not conspire together! Patrol envoy Fang didn't explain in detail, so there are some situations that we can't explain. Please forgive us for not being able to accompany you!"

Old Zuo insisted on leaving with a cold face, "just as patrol Fang said, without even the most basic trust, there's no need to form an alliance!" If you're willing to believe him, then stay. If you have the same opinion as me, then you might as well leave!"

Not only did he want to leave, but he also wanted to drag the others along!

Fang Gezi was furious. Her plan had been ruined!

"If you want to go, then go! Don't try to delude the public with lies! Leaving our Alliance is the same as making us your enemy! Or do you want to join Sima Yi's camp now?"

Fang Gezi glanced around and said coldly, ""Everyone, the current situation is that our Alliance and Sima Yi's Alliance of three provinces are either one or the other! Since old Zuo wants to leave us, he is our enemy! I suggest that we take them down now! The spoils of war will be shared by the person who gets it!"

In the end, the team battle would be fought by the continents. In order to prevent the other continents from leaving, Fang Gezi directly set old Zuo's team as the enemy!

As for the nameplates and points on their bodies, they belonged to whoever could get them. There was no need to distribute them!

As a result, many people were tempted. Those who wanted to leave with old Zuo also changed their minds instantly. They looked at them with unfriendly eyes as if they were looking at prey in their mouths!

Old Zuo's face turned pale. He opened his mouth to speak, but Fang Gezi beat him to it and continued, "Their team's defense has been eliminated. They can make their move at any time!"

Before he could finish his words, the three battle formations on the side launched an attack on them almost at the same time!

In terms of strength, everyone was on par with each other, so the number of people became the most critical factor. Old Zuo hurriedly organized a defense, but he could only defend against the attack of one side. In the blink of an eye, their battle formation was broken, and all of them were killed on the spot!

Under Fang Gezi's control, the barrier's power triggered the inscription plate's defense mechanism, and no one could escape!
