

Bodyguard 8961

Chapter 8961

The three battle formations that attacked were stunned for a moment. After all, they were allies just now. The best result should be to knock them out of the barrier, but they didn't expect to be killed directly!

For a time, the hearts of the cultivators of the three continents were filled with a bit of sadness. When someone reached out to grab the dead nameplate, they disappeared and followed suit to fight for the nameplate.

He attacked for the token plate, how could he give up just because he killed someone?

However, after they got their nameplates, they felt that the martial artists from the other continents around them were looking at them strangely ...

Those who kill will be killed!

Since they had done it, they had to be on guard against others!

It was a temporary Alliance that would fall apart once the target was taken care of. Now, they didn't even need to wait for that to happen. The cracks between them were already becoming more and more obvious!

"The betrayer has already gotten what he deserved. Next, it's time to get rid of Sima Yi and the others! Everyone, if we don't use our strength now, when will we?"

Fang Gezi had no explanation for the true death of old Zuo's team, so she immediately devoted herself to commanding the attack. "The left and right wings will surround the back and the front in a fan-shaped formation. Everyone, attack together and attack with all your might. We must take down Sima Yi and the others!"

"The power of the barrier can't be maintained for long. If we wait until then, everyone will lose their protection, so I ask everyone to be more serious and not make any mistakes!"

These words were half true and half false. The utilization of the barrier's power was definitely not endless, and there would always be an end. However, the barrier's power was only used for defense, and it would not end so quickly.

Fang Gezi didn't want to drag things out-she wanted to get rid of Lin Yi as soon as possible and then capture everyone from the other continents, including Liang baring and the others who were watching from the sidelines!

Liang Liang led his team further away, as if to show his attitude that he wouldn't participate in this battle, but Fang Gezi had a feeling that Liang Liang was on guard against something.

Fortunately, Liang caoliang and the others were still within the range of Fang Gezi's barrier, so they did not need to worry about them for the time being!

In fact, after losing a few teams of Warriors, there were less than 200 people present. If Fang Gezi launched an attack with her barrier power, it would be enough to cover everyone.

But he wasn't sure if Lin Yi and the people from the Sangzi continent could block this one and only attack. If the people from the Sangzi continent blocked it and the people from the other continents were killed, then it would be a big problem!

It was because of this that Fang Gezi wanted the cultivators of the other continents and the people of the Sangzi continent to exhaust each other. It would be best if both sides were injured. At that time, she would launch her strongest attack and reap the greatest fruits of victory!

No one knew about Fang Gezi's plans. The teams from the other continents temporarily gave up on other thoughts and cooperated with her command. They surrounded Lin Yi from all sides and prepared to launch their strongest attack on Lin Yi and the people from Sangzi continent!

"You're really stubborn. You've made it so clear, but you still can't see Fang Gezi's wild ambition? If he could kill one team of his allies, he could kill all of them! Are you all brainwashed by him?"

Lin Yi did have the intention of driving a wedge between the Alliance, but he didn't think that these people would be this stubborn. They said that they wouldn't shed tears until they saw the coffin, and they wouldn't shed tears even if they saw the coffin!

Lin Yi didn't stay idle as he spoke-he kept waving his hands, sending formation flags out in an endless stream, forming layers of defense around him.

Lin Yi could set up many of these formations in fixed positions, and their defensive power couldn't be underestimated. Even a few battle formations wouldn't be able to break it in one hit.

It usually took a few hits to break a layer, and Lin Yi had already laid down a few more layers in the process!

A normal diamond Grandmaster might not be able to do this, but as long as they set up the formation properly and were in charge of it, they could achieve a similar effect. It was just that they couldn't compare to Lin Yi in terms of endurance.

There was a huge amount of array flags stored in the space of the jade pendant, and he was not afraid of using them up!

The rumbling explosions did not stop. Fang Gezi's face turned gloomier and gloomier with the deafening explosions!

He had expected that Sima Yi would be difficult to deal with, but he did not expect that he would be difficult to this extent!

How could a battle formation formed by the elite warriors of so many continents fail to break the defensive formation set up by one person? It was simply unimaginable!

If this continued, the time limit for using the barrier's power to defend would really be up!

At that time, without the protection of the barrier, would the various continents' battle formations be able to withstand the counterattack of Sima Yi, a diamond rank array Grandmaster?

The seemingly exquisite battle formation was probably a toy that was full of mistakes in Sima Yi's eyes, right?

Fang Gezi subconsciously gritted her teeth, not knowing what to do.

Was this the only attack that could summon the power of the barrier? If they concentrated their attacks, they might be able to break through Sima Yi's defensive array, but they might not be able to kill Sima Yi and the generals of the great land of Sangzi.

Even if she could kill Sima Yi, Fang Gezi, who had already exposed her ambitions, was not confident in facing her allies from the continent who should have been killed. Once Sima Yi died, the Alliance would end!

The burning sun continent would become the new target of public criticism!

This was awkward ...

Fang Gezi was hesitant. Why did her perfect plan become so passive?

They had really seen a ghost!

"Investigator Fang! How long can the defense last?"

Some of the leaders of Dazhou had a bad feeling and asked, "Sima Yi's array skills are beyond our imagination. We can't break his defensive array. It's meaningless to continue!"

As expected, Fang Gezi's initial plan to ambush Sima Yi was the best choice. Unfortunately, the ambush didn't succeed completely and turned into a head-on battle!

If they were to let Sima Yi set up an array as he pleased, it would be difficult for a team of less than two hundred people to break through an array set up by a Diamond Grade array master!

In particular, this team of less than 200 people was composed of people from different continents. They seemed to be all elites, but in fact, they were just a motley crew. If they really came from the same continent and formed a large-scale battle formation, they might have a chance to break the defensive formation!

Unfortunately, there were no 'ifs'!

The current situation looked like the Alliance had the upper hand. They attacked wave after wave and did not need to consider defense at all. However, once the barrier's defense disappeared, who could stop Sima Yi's counterattack?

Thinking about how Sima Yi had defeated a group of children with one punch, the martial artists who were surrounding the great land of Sangzi couldn't help but feel a chill in their hearts.

Chapter 8962

"don't worry, we'll support them until we take them down! it's impossible for sima yi to strengthen the defensive formation without limit. we will definitely win!"

fang gezi promised loudly in an attempt to boost morale. as for the truth, only he knew!

even so, the morale of the continental battle formation's cultivators, who couldn't take it down after a long time, began to rapidly decline. so what if the barrier's defense could withstand it? sima yi was calm and at ease in the defensive array. there was no such thing as a limit!

that kind of relaxed and relaxed posture made them completely unable to see any hope of breaking the formation!

"Don't be discouraged, everyone. Keep working hard. Victory is right in front of you. Sima Yi is only pretending to be calm, but he's actually an arrow at the end of its flight and will collapse at any moment!"

Seeing that the morale was low, Fang Gezi could only continue to give chicken soup to the martial artists of the other continents. Suddenly, she remembered that there was a team from another continent at the periphery. Although they had made an agreement, she couldn't care less now.

He might as well try his best!

"Investigator Liang, this is a crucial moment. We are only lacking a little bit of strength. Sima Yi's endurance has reached its limit. We need the last straw to break the camel's back. Please, on account of our Alliance, come and help us!"

Fang Gezi asked Liang for help, but she didn't really want Liang to bring the battle generals of the starsource continent to help. She only said this to lower Liang Liang's guard and trick the people of the starsource continent into coming!

She was reaching the limit of the barrier's defense. After much consideration, Fang Gezi decided to give up on the plan to kill Lin Yi and target all the Alliance members present!

The barrier's only attack might not be able to do anything to Sima Yi, but it would definitely be able to kill all of his defenseless allies!

At the same time, the power of the barrier that protected them would become the most vicious dagger and take their lives!

It would be great if they could kill the people from the Sangzi great continent, but it didn't matter if they couldn't. As long as Fang Gezi plundered the nameplates of these two hundred people, the points he got would be enough for the burning sun great continent to defeat the other three great continents!

At that time, he could use the remaining time of the barrier's defense to escape from Sima Yi's pursuit, and he could also achieve his goal!

As for those who had died, they could just throw the blame to Sima Yi after they got out. Even if there were flaws, they could still find a way to justify themselves!

All these thoughts flashed through Fang Gezi's mind in an instant. It worked! Let's do this!

In the end, Liang Liang didn't follow his script at all. In the face of Fang Gezi's sincere call for help, Liang Liang led the battle generals of the starsource continent and ran some distance away.

Then he shouted,"investigator Fang, I'm sorry. Our agreement wasn't like this. I, Liang Liang Liang, always keep my promises. I will never do things that go back on my word. Therefore, I won't interfere. You guys continue to work hard!"

Fang Gezi was stunned. She gritted her teeth in anger. 'My plan is so perfect. Can't you just cooperate a little?' Even if they were closer, why did they have to run so far?

If Liang Liang and the others had been at the edge of Fang Gezi's attack range before, they were now almost half a foot out of her attack range!

Fang Gezi began to suspect that Liang Liang knew his trump card and could accurately predict his attack range. Otherwise, it wouldn't be so uncomfortable!

In fact, Liang Liang had just guessed Fang Gezi's plan by accident. He was indeed on guard, but he didn't know Fang Gezi's attack range.

However, when Fang Gezi asked him to move closer, he instinctively did the opposite and widened the distance between them!

The two of them were as cunning as foxes, but Liang cailiang seemed to be better, so Fang Gezi was in a bad mood!

What to do? Continue with the plan?

If she couldn't kill the people of the Xingyuan continent, how could Fang Gezi dare to attack the martial artists of other continents? Once they left the boundary, Liang Shuliang's testimony would definitely cause the continent of these dead people to attack the burning sun continent!

The burning sun continent might be fine, but he, Fang Gezi, was definitely doomed!

"Patrol envoy Fang, we can't do this anymore, let's retreat! I'll find another chance in the future!"

Yuan Buliu, who was standing beside Fang Gezi, sighed. He had been playing the role of an invisible person, leaving everything to Fang Gezi to decide and arrange.

With Fang Gezi in the front, Yuan Buliu's presence was as low as it could get. The great inspector of the burning sun continent was almost ignored by everyone.

However, Yuan Buliu was with Fang Gezi. Even though he didn't know Fang Gezi's plan, he knew the time limit of the barrier.

Time was running out!

At this time, if he were to retreat with everyone, although he would not be able to do anything to Sima Yi's group, at least he would ensure the safety of the teams from the various continents. Facing a small two hundred people, Sima Yi would not chase after them, right?

Yuan Buliu was a little traumatized by Lin Yi's actions, and she could accept this result!

Fang Gezi glared at Liang Shuliang in the distance with hatred. Lin Yi and the others in the defensive formation were all bastards, not cooperating!

If he missed this opportunity, where would he find another one?

Not to mention dealing with Sima Yi, just these allies alone were now under the protection of the barrier, so they were attacking with all their might without any defense. Once the barrier's power was activated, no one could resist it!

And after leaving the battle state, even if they did not deliberately defend, they would have a certain defensive ability and defensive instinct. The defensive instinct when facing an attack might be able to save their lives!

To put it bluntly, the martial artists of the continents who were attacking with all their might and had completely given up on defense could be regarded as a negative number. Their defense power would at least be a positive number in their normal state. The two were completely different.

Give up? It was still a desperate bet!

Fang Gezi's eyes turned red and she almost could not suppress the crazy thoughts in her heart. In the end, she could only grit her teeth and bear with it because she could not deal with the aftermath.

"Everyone, let's retreat! Since investigator Liang isn't willing to help, we can only give up. There's no point in continuing this stalemate!"

Fang Gezi's face darkened and she immediately refuted her earlier statement, ""Without more help, we can't break through Sima Yi's defensive formation in time. A safe retreat is the best we can do!"

Even if he had to retreat, he didn't forget to push the blame to Liang Liang. He directly stated that Liang Liang didn't want to help him because he failed. This was going to be an open fight!

Liang Liang shrugged his shoulders from afar. Even if he had to shed all pretenses of cordiality, he wouldn't take half a step closer!

A wise man would not stand under a dangerous wall. Since he had noticed that something was wrong with Fang Gezi, he had to leave this area first before he could figure out what was wrong!

Chapter 8963

The people from the other continents weren't fools. They more or less felt that something was wrong.

Putting aside Fang Gezi's ability to use the barrier's power, he really didn't have the qualifications to be the commander of the Alliance of the 36 continents. The only one who was qualified was the leader of a first-grade continent, Liang Liang.

In the beginning, it was also because of Liang Shuliang's support that Fang Gezi was able to successfully gather these two hundred people and ambush the people from the Sangzi continent.

So Liang Liang didn't want to act at the most critical moment, which was a bit strange. Even if the plan had stated that the starsource continent's team would be used as bait and not participate in the battle, it still didn't make sense.

Was it because he couldn't bear to see his ally killed? Or was there some other reason?

With all kinds of suspicions, the battle formation around Lin Yi and the people from Sangzi continent started to retreat in an orderly manner. After giving up on the attack, the barrier's defense was complete and Lin Yi didn't have any chance to fight back. He let them leave the battle circle.

"Fang Gezi, don't say that I'm not willing to help. There are some things that I don't need to say, right? I'm actually very clear about what you're planning!"

Liang Liang didn't ignore Fang Gezi's accusation. He naturally attacked, ""If it's really as you say, and you're just a step away from crushing Sima Yi's defensive array, why don't you use your final trump card?"

"Let me tell you something simple first. For example, if you want to control your defense, you won't be able to get out. Yuan Buliu and the other people of the burning sun continent don't need this, do they? Can't they be the last straw that breaks the camel's back?"

"Not letting the burning sun continent's people attack can be considered as you trying to preserve your strength, but why aren't you willing to use the ultimate move that can affect the overall situation? Are you trying to get us into the attack range and then kill us all in one fell swoop?"

Liang Liang didn't know Fang Gezi's plan or Trump card. He had only made a bold assumption based on the existing conditions and then suddenly released it to trick Fang Gezi.

Fang Gezi's expression changed drastically. Her scheme had been exposed all of a sudden, and she could not suppress her fear at all. Even if she reacted quickly and calmed down, this short change was enough to let her imagination run wild!

"What nonsense are you talking about? Liang Liang Liang, don't think that you can slander others just because you're the inspector of the Xingyuan continent! It doesn't suit your status as a first-tier inspector. You're really tarnishing the reputation of the starsource continent!"

Fang Gezi denied it and quickly changed the topic. ""You were unwilling to make a move before. In order to cover up your unscrupulous behavior, you racked your brains to come up with such a boring excuse. Do you think you can deceive everyone? Everyone's eyes are sharp. No matter how you quibble, you can't change the truth!"

Liang Liang didn't fall for it and continued on the original topic, "Everyone, you should have your own judgment. What I want to say is that Fang Gezi has hidden a powerful attack method and is driving everyone to fight with Sima Yi and the Masters of the Sangzi continent."

"No matter what the final result is, Fang Gezi is in an undefeatable position. He'll take advantage of the fact that both sides are injured and use his trump card to kill everyone here. The burning sun continent will be the biggest winner!"

"Just look at how Fang Gezi treats her allies and you should know how cruel she is! In other words, if I go over, everyone might die. If I don't go over, I'll be saving everyone's lives!"

Faced with Liang Shuliang's analysis, Fang Gezi was panicking. Because the battle had ended, she might not be able to kill everyone even if she attacked with the barrier.

The battle just now was the best opportunity. If he missed it, it wouldn't be suitable for him to make a move.

He had no choice but to grit his teeth and fight Liang Shuliang head on!

During this process, the martial artists from the other continents were skeptical. Some of them still supported Fang Gezi, while the others leaned towards Liang Shuliang!

The ratio between the two was about one to one. Without any special instructions, the two sides, who had a 50 - 50 chance of winning, moved to the sides tacitly. One side stood behind Fang Gezi, while the other moved closer to Liang Shuliang.

The Alliance of the thirty-six continents had officially begun to split!

It was such a child's play, like it was a joke!

Lin Yi looked at the scene, unruffled. He didn't think that Liang would use this method to separate the people. There was no point in fighting under the protection of the barrier anyway, and it wasn't a bad thing!

The debate between Fang Gezi and Liang commandeering didn't last long. The boundary's time limit was almost up, and Fang Gezi didn't dare to waste any more time. Once the boundary's defense was lost, she wasn't sure if she could withstand Lin Yi's counterattack.

"Good, good, good! Sima Yi and Liang Shuliang, you're both good! The Green Mountains won't change, and the green water will flow forever. Let's wait and see!"

After saying that, Fang Gezi left with the rest of the Dazhou team who were willing to believe in her and follow her!

After Fang Gezi left, the rest of the people no longer had the protection of the barrier. Their defense against Lin Yi had reached its limit, and they were all in a defensive position as if they were facing a powerful enemy.

Liang Liang brought his men to the front and cupped his hands at Lin Yi, "Patrol envoy Sima, as you can see, we have no intention of being your enemy. Everything that happened before was because we were bewitched by Fang Gezi!"

"Now that we've seen Fang Gezi's true colors, we want to get rid of her control and hope to temporarily bury the hatchet with patrol Sima. We'll wait until the end to have the normal team battle. What do you think, patrol Sima?"

Liang Liang still didn't reveal his secret alliance with Lin Yi. He only used his identity as the Xingyuan continent's inspector and became the leader of these continents.

Liang wouldn't mind helping if Lin Yi wanted to wipe out this group of people. They could sneak attack them from the back like before. It would be easy.

However, Liang felt that it was more useful to keep them alive than to send them out of the wizardry barrier. After all, they were just small teams from different continents. There were other small teams out there.

Once they found the other teams, splitting up the Alliance of the thirty-six continents would be as easy as turning their hands!

Smart people didn't need to go too far with their words-Liang believed that Lin Yi would understand, and it explained why he didn't help him.

As expected, Lin Yi nodded with a smile, "investigator Liang, you're a man of justice. Now that we have a common enemy, let's call a truce and move separately. We'll see who's stronger in the end!"

Chapter 8964 The End

The two knew that it was impossible for them to team up with the other continents. If they did, Lin Yi wouldn't be able to do anything to the continents that followed Liang!

Liang Liang could attack them without a care, but Lin Yi wasn't like that. If they became allies, not only would he not attack them, but he would also take care of them to a certain extent.

"Hahahaha, patrol envoy Sima is indeed straightforward. Then we won't disturb you any longer. Farewell!"

Liang Shuliang cupped his hands and turned around, not guarding against Lin Yi at all. The other cultivators who were following him were convinced that only Liang Shuliang had the right to lead them!

This bearing was much stronger than Fang Gezi 's!

And the truce with Lin Yi wasn't a sign of weakness, and leaving wasn't running away-it was for a fair fight ...

In short, this matter was similar to beauty in the eyes of the beholder. If one's heart believed that he was right, then all his actions were right. There was no reason to speak of!

After Liang Liang left with his men, Fei daqiang said impatiently, ""Boss, boss, Fang Gezi must not be far away. Let's go after her. This stupid thing's trump card will definitely fail before it runs away. Let's catch up and kill him!"

"It's too late! Just now, he was still able to mobilize the barrier's power, so we can't pose a threat to him for a short time. When he left, he could also use the barrier's power to hide his whereabouts, so we can't catch up!"

Lin Yi waved his hand, "I'll let him go this time. He won't be able to do anything for long anyway. Liang Shuliang's division was effective. He took away half of the people. The Alliance will only be more turbulent in the future."

Liang Liang didn't say it out loud, but Lin Yi could tell the truth behind this ambush. For example, Fang Gezi was the commander because he had a hidden card that allowed him to use the force of the barrier!

If not for that, Liang Shuliang would have been the commander with his status in the star source continent!

Fang Gezi might have been jumping around and forming an alliance of 36 continents, but he wasn't the leader of the Alliance yet!

Just like in the Romance of the Three Kingdoms, when the 18 princes attacked Dong Zhuo, Cao Cao was the first to contact the princes, but the final Alliance leader was Yuan Shao, who had the background of the four generations of the three ducal families!

If you want to be promoted, you must first have the qualifications and background to be promoted!

Liang Liang had stood out to break off relations with Fang Gezi. Coupled with the fact that Fang Gezi had ordered the slaughter of their allies, how many people in the Alliance of the 36 continents would follow Fang Gezi?

Perhaps before they attacked the Sangzi continent and the other three continents, there would be a big war within the Alliance of the 36 continents!

"Boss said to let him go, so let's let him go! What a pity ... The next time I see Fang Gezi, I'll beat him up so badly that even his mother won't be able to recognize him!"

Fei daqiang smacked his lips with slight regret, but he quickly felt relieved. "Anyway, this kind of clown is really not worth boss's trouble. Forget it, let's continue to find our own people!"

Although he had given up on tracking Fang Gezi, Lin Yi still chose the direction where Fang Gezi and her men had left.

If he could meet them again, it would not be bad to take care of them in passing!

The group continued their journey in the desert, and after an hour, they didn't see anyone. Fortunately, they weren't completely without gains-Lin Yi found the sign of another continent. It was better than nothing.

In the end, the group found a hole that led downwards in the desert-it was probably a passage to a different scene, and after a few minutes, they arrived at the new scene.

Underground lava!

"Boss, there's no more road ahead. Are we going to walk in the lava?"

Fei daqiang looked at the lava hell in front of him and felt very unhappy ...

Although the heat of the lava was shocking and not enough to cause any harm to body refining experts like them, it was still not a pleasant thing to walk in the lava!

It was like walking barefoot on a road paved with cacti. Would anyone die? He wouldn't! Would he be happy? Even a fool would not be happy!

Lin Yi smiled and shook his head, "who said there's no road ahead? the road's in the lava, you just can't see it!" Everyone, keep an eye on where I'm staying and don't go astray!"

There was lava flowing in front of him, and it looked like there really was no way out. There was no end in sight, but Lin Yi's spirit sense clearly saw that there were some rocks for him to step on less than two centimeters below the surface of the lava.

The area of these footholds was only half the size of a palm, and the distance between each footholds was between ten to fifteen meters. If not for the assistance of spiritual awareness, it was impossible to find them.

If Lin Yi wasn't here, Fei daqiang really could only swim through the lava ... That's right, the depth of the lava was more than three meters, but he wasn't sure exactly how deep. Lin Yi's spirit sense could only reach three meters deep, so Fei daqiang's so-called trudging didn't exist at all. He couldn't find a foothold in one step, and he could swim in the lava lake immediately!

A dozen meters wasn't much-it was like taking a step for a martial artist. Lin Yi started first, and with a light tap of his foot, his body continued to land on the next foothold.

The flowing lava didn't affect Lin Yi's feet at all. As Lin Yi left, the lava rippled a few times. Fei daqiang's toes followed closely behind, tapping at the center of the ripples and following Lin Yi's footsteps.

Then it was Zhang Yiming, and then the other seven battle generals. One by one, they advanced easily in the magma.

After walking for two to three kilometers, they finally saw a rock platform with lava coming out. Lin Yi led the group to land on the platform and they could see a tunnel not far away.

Fei daqiang was a little confused."Boss, if we go in through this hole, will we leave the lava scene directly and move to the next scene?"

Are they here to sightsee? Even if it was a scenic spot, the tour time was too short, even if Fei daqiang didn't like lava scenes very much.

Lin Yi was about to speak when his face turned serious. "I'm afraid they won't leave so soon. I heard some sounds. Let's go!"

Before he could finish his sentence, Lin Yi had already charged into the cave!

It was the familiar taste and the familiar formula again!

Without a doubt, after changing the scene, they had encountered another battle between other teams. However, they did not know who it was this time.

After entering the cave, they could see the entire tunnel. It was only about 300 meters long and was quite straight. From this end, they could see half of the exit. They could see it clearly after taking a few steps.

Chapter 8965

Lin Yi ran at full speed, covering three hundred meters in an instant. Although Fei daqiang and the others couldn't compare to Lin Yi, they weren't too far behind. It was much better than the previous two times!

The ten of them flew out of the exit one after another and saw the situation clearly at a glance.

The battle did happen. One side was Yan SU's team from Fengqi great continent, and the other side was from the Alliance of thirty-six continents. There were only twenty-five people from the Alliance of thirty-six continents, while Yan SU's side only had five.

In a five to one ratio, Yan SU's combat power wasn't bad, but it couldn't be compared to Lin Yi. He was only half a step into the heaven breaking stage, and while he could fight against early heaven breaking opponents, he couldn't turn the tables in a five against one situation!

What Lin Yi and the others saw was the Fengqi Dazhou's group of five being surrounded. They were all on a rock platform surrounded by boiling lava. One of the sides was connected to the wall of the cave, where Yan SU's group was leaning on.

If it wasn't for the geographical advantage of having their backs against the mountain rock and using the surrounding magma to protect both sides, Yan SU's group of five only needed to face the attacks of ten people at the same time, and they would have probably been defeated long ago.

However, everything had its advantages and disadvantages. The geographical advantage helped in defense, but it also completely cut off the possibility of Yan SU's group of five breaking through! There were twenty-five people on the other side, and only ten people could fight at a time. However, the fifteen people did not idle around. While they completely sealed off the surroundings, they would often switch to fight.

In this way, the side with more people could use the tactic of taking turns to exhaust the physical strength of the side with less people, while he could keep maintaining his peak condition. If this continued, he would soon be able to completely break the defensive formation of Yan SU's group of five!

If Lin Yi didn't come, Yan Su and the others would've been kicked out of the barrier, but Lin Yi's arrival turned the situation around!

"It's Sima Yi! Sangzi Dazhou's people are here!"

The continent Alliance's martial artists who weren't participating in the battle were on high alert. They immediately screamed when they saw Lin Yi coming out of the cave.

A person's name was like the shadow of a tree. Sima Yi's name could be considered to have shaken the world. He had barged into the world of nodes alone, completed a super difficult task, and even retreated in one piece!

There was only one word to describe how strong he was!

The continent Alliance's martial artists couldn't even take down Yan SU's team easily, so they panicked when they saw Lin Yi appear with the generals of the Sangzi continent!

"Let's go!"

One of them shouted and flew in another direction. The others didn't say anything and followed. They didn't have any desire to fight against Lin Yi and the battle generals of the Sangzi continent. They just wanted to escape!

Yan SU's eyes lit up. Lin Yi's appearance was a pleasant surprise, but his strong battle experience made him know what the right choice was.

The people of the continental Alliance had the absolute advantage and the absolute initiative, so they could leave as they pleased. However, Yan Su refused to let them go. Taking advantage of the other

party's retreat, she instantly turned from defense to attack and raised the operation of the battle formation to the limit!

Elite!

An ordinary battle formation would not be able to switch from full defense to full attack so quickly, but Yan Su had done it!

The battle formation of Fengqi continent suddenly burst out and covered the ten Warriors who wanted to retreat. They didn't have the chance to escape at all!

The martial artists who had besieged Yan Su and the others were originally an Alliance Army temporarily formed by several continents. They could not advance and retreat together at all. Ten of them were held back by Yan Su, while the rest continued to flee without looking back.

Perhaps in their hearts, it was a very lucky thing for them to have someone who could attract their attention and play the role of bringing up the rear!

"Stop! Where do you all think you can run to? Our boss is here, do you think you have the right to run away?"

Fei daqiang shouted and led his men to surround the cultivators who were trying to escape. In terms of individual strength, whether it was Fei daqiang or the battle generals of the Sangzi continent, not only did they not have an advantage, they were even lower than the other side.

However, the combat power that both sides displayed was as different as heaven and earth. They could not be compared at all! Apart from their own qualities, a powerful battle formation was the key factor!

With Lin Yi's guidance, their battle formations were enough to instantly kill battle formations of the same level from other continents. Whether it was speed or attack or defense, the difference between the two sides was like a chasm!

The people who wanted to run didn't expect that before Lin Yi even made a move, the generals of Sangzi Dazhou would give them a blow!

It was as easy as crushing dry weeds and smashing rotten wood!

In just a few blinks of the eye, those who were running away and those who couldn't escape were all caught in one net!

Lin Yi came as fast as lightning, but he completely relaxed after he arrived. He waited for the generals to turn into white light before he smiled and talked to Yan Su.

"Sima, it's a good thing you came in time. If you had come any later, we would have to go out and wait for you!"

Yan Su laughed as she waved at Lin Yi before plopping down on the ground.

Facing an enemy with an advantage in a tag-team battle, he was indeed exhausted!

Not only was he physically tired, but he was also mentally exhausted. Now that he had suddenly relaxed, he felt a little exhausted.

Fengqi Dazhou's other four battle generals were the same. They were even more tired than Yan Su. At least Yan Su could still sit. After the four of them respectfully saluted Lin Yi, Fei daqiang, and the others, they just laid on the ground and panted.

Director Yan, it's been so long, but you guys haven't met any other small teams?"

Lin Yi smiled and asked the question he was concerned about, "The Alliance of thirty-six continents only met those people?"

"No, I met them at the great continent of Wutong. They found a very good place and were prepared to hide there."

"The people of the Wutong continent are quite lucky. When I met them, there were already fifteen people gathered together. I also found their continent's symbol in that hidden place very smoothly." Yan Su shook her head and smiled.

"That side is very suitable for setting up a formation. After setting up the formation, it's easy to defend and difficult to attack. It can be said that one man can hold off ten thousand men, so they decided to defend there first."

The Wutong continent's points were ranked third before entering the barrier. After obtaining the continent's symbol, it could be guaranteed that their points would not be reduced after the team battle.

If they met Lin Yi, they might follow him, but Yan Su ... They weren't close!

In other words, the people of the Wutong continent didn't trust Yan Su. They felt that it was better to stay in one place and waste time than to act with him.

With the current situation of points, they could basically guarantee a place in the second-grade continent without losing points. Wutong continent was originally only below average in the third-grade continent, so what was there to be dissatisfied with getting a place in the second-grade continent?

Chapter 8966

"They told me to tell you when I meet you. If you need them, you can go there and find them. If you think you have enough points and don't want to fight for them, you can also go there and kill time with everyone."

"That place is the escape route they have arranged for us! You can go and find them at any time or situation!"

Lin Yi nodded after Yan Su finished. "It's pretty good! Luck is also a part of strength, being conservative is also a type of strategy, Wutong's choice is not a problem!"

Although he said that, Lin Yi didn't think that there was anything wrong with Wutong's choice. It was just that Wutong's hiding made the three continent Alliance even more lacking in manpower.

Of course, Lin Yi didn't mind having more people than he did, so it wasn't a problem.

Yan Su also nodded. "There's indeed no problem. Wutong continent's decision is very wise. However, I feel that the team battle needs some fighting to be worthy of its name. It's meaningless to just hide."

"There's also some unverified news. Some of our people have been sent out of the enchantment barrier, and the number is still uncertain. But judging from the situation when we were besieged, it's most likely true!"

Lin Yi nodded, "that's inevitable. There are too many of them, and it's easy to build a numbers advantage. If our team encounters them, we can defend for a while, but without backup, we'll still be eaten up!"

For example, Yan Su and the others' situation just now. If they had the same number of people and were of the same level, they could crush their opponents. However, when they were at a disadvantage in numbers, they were basically being suppressed.

Lin Yi had expected this situation—they could basically give up if they couldn't meet up with the other two teams.

After all, this was the third scene Lin Yi had experienced. Fang Gezi once gathered a team of more than two hundred people. Whether it was the remaining ten generals from the Sangzi continent or the

people from the Fengqi continent and Wutong continent, they wouldn't even have the chance to escape if they encountered an enemy of this scale!

Lin Yi wasn't worried about their nameplates being stolen. As long as they could trigger the protection mechanism, it wouldn't be a problem. What he was most worried about was Fang Gezi's ability to use the boundary's power. They wouldn't even be able to teleport out of the boundary. Then, they would really die!

"Sima, what do we do now? Do you have any plans?"

Yan Su started slacking off the moment she met Lin Yi, planning to follow him without even needing to think.

"I don't have a plan, let's just take it one step at a time! Let's walk around and hope to meet our people. It'll be best if we can find the symbol of our continent, but it doesn't matter if we can't. The final battle will begin when we can sense it!"

The situation wasn't clear yet, and Lin Yi couldn't come up with a good plan.

"You're right! Anyway, I don't have to worry about my safety when I'm with you. I don't have to be afraid of walking around! Then let's go!"

Yan Su stood up, patted the dust off her butt, and said with a smile, "Before, I was afraid that we would encounter an opponent with more people than us, but now I'm not worried at all. With you by my side, I hope that those reckless guys will come to their deaths quickly!"

"Aren't you overconfident in me?" Lin Yi chuckled. My fighting strength hasn't reached the point where I can crush everyone. You're making me feel very pressured!"

In terms of strength, Lin Yi wasn't the strongest, but he had a lot of tricks up his sleeve!

Those with a higher body than Lin Yi couldn't compare to him in terms of spirit sense, and those who could use items to defend against spirit sense attacks were no match for him in terms of formations!

Those who were strong enough to go against Lin Yi, he still had things like formation disks and talismans to break through. Otherwise, he'd use his physique to deal with these Masters!

How much water a bucket could hold depended on the shortest board, and people like Lin Yi, who had no shortcomings in any area, really did make people despair ...

"You don't have to be so modest. I don't feel any pressure following you anyway. What does it have to do with me if you feel pressured?"

Yan Su chuckled and joked. The group packed up and set off again.

In the next four hours, Lin Yi brought everyone to wander around the lava world. They encountered some teams from the thirty-six continents, and they all had less than ten people. Lin Yi and Yan Su didn't need to do anything. Fei daqiang and his Warriors easily dealt with them and got some tags.

In addition, the symbols of two other continents were found. Unfortunately, they still didn't have the symbols of the Sangzi continent and Fengqi continent. Those who found the symbols of their continents at once were really lucky!

As time passed, he finally reached the moment where he could sense the symbol!

A map suddenly appeared in everyone's spiritual sea, with a flashing white and red dot on it. Everyone's map was the same, but the important thing was the dot on the map!

Lin Yi understood immediately-the White dots were his location, and the red dots were the continent's symbol!

The map was rather rough, and it was only roughly divided into a few areas. There was basically nothing inside the areas, and the only valuable things were the passages for each area or scene change.

Following the map's guidance, it was easier to find the location of the passage where the scene changed.

"Sima, our Fengqi great continent's symbol is in the water area. Where is your Sangzi great continent?"

Yan Su informed Lin Yi after confirming the location.

Lin Yi's lips curled up into a smile, "It's a coincidence that our Sangzi continent's symbol is also in the water area. If I'm not wrong, the symbols of our two continents should be in the same position! You're also on the island, right?"

From the map, the waters were a vast expanse of water. There was only a small island in the center, which was considered the only land.

If the sign was somewhere in the water, they'd need to dive down, but Lin Yi found that the sign was on an island, so he guessed that the sign had already been found!

Only people who had the confidence to deal with Lin Yi would have the symbol in their hands, or a group of people!

Then it's normal that the Fengqi Dazhou symbol is in their hands!

As expected, Yan Su immediately nodded after hearing it. ""That's right, our symbol is also on the island! It seems that this Island in the water is the place for the final battle!"

"Don't be careless. It might be a trap!"

Lin Yi curled his lips, "if Fang Gezi is the mastermind, I'm sure it's a trap to lure us in!" If someone else is leading, then the possibility of a direct battle will be slightly higher. "

Chapter 8967

No one knew how far Liang Liang's plan to split the Alliance of the thirty-six continents had progressed. If the two sides were not too far apart in strength, it would be a battle between the three forces. In order to preserve strength, the chances of setting up a trap would be infinitely high!

"So what if it's a trap? Knowing that there was a Tiger in the mountain, he still went to the Tiger Mountain! Let's just cross over and level the trap. Let's see what other tricks they have up their sleeves!"

Yan Su laughed and patted Lin Yi's shoulder, "With you here, what kind of trap can trap us?"

This wasn't just because of his confidence in Lin Yi's combat strength, but also because Lin Yi was outstanding in other aspects.

The so-called traps were nothing more than formations. Lin Yi's formation skills were the best in the world to Yan Su. Who could do anything to him?

"Go! Let's go to the Alliance of the thirty-six continents and take down Fang Gezi and Yuan bulu. We'll take their points and make them lose all hope!"

Yan SU's heroic spirit affected the other battle generals. Everyone raised their hands, waved their fists, and shouted as they set off for the water!

Following the map's directions, Lin Yi and the group quickly found the tunnel, changing from the lava to the water.

Lin Yi only realized that he wasn't on an island when he came out of the tunnel, but on an empty ship.

They were surrounded by vast waves, and they couldn't see the end of it. Instead of a water body, it looked more like a sea. There were waves on the surface of the water, gently hitting the body of the big ship, pushing the unmanned big ship to slowly drift in the water.

"Sima, this is the edge of the water. If we want to go to the island, it seems we need to use this big ship! Do any of you know how to operate a boat?"

Yan Su turned around and asked the others. Operating a boat was not an easy task. If one did not know the main points, they would only make the boat spin in the water. It was better to let the boat float on its own.

Fei daqiang and the others looked at each other and then shook their heads in unison. Everyone was a high-level martial artist. Why would they learn how to sail a boat?

When ships were needed for travel, there would naturally be professional boatmen to control it. Where would they be needed?

Only those low-level adventurers and Warriors who had to rely on water for a living would want to learn the skills of controlling a ship.

Lin Yi used his spirit sense to scan the entire ship, making sure that there was no one else on board. "This boat is too big. If no one knows how to operate a boat, let's change to a smaller one! There are small boats on both sides of the ship, so it's much more convenient for us to use them. "

The boats on both sides of the ship were actually lifeboats. They weren't big, but two boats were enough to fit Lin Yi and his group.

It was not easy to control the big boat, but it was much easier to control the small boat. One only needed to use the oars a few times to get the hang of it. It was even easier and more pleasant for the martial artists to row the boat. The two small boats were paddled into two speedboats. The stern of the boat drew a long line of water, and the bottom of the boat was close to the water surface, with almost no line of water.

From a distance, it looked like he was breaking ice, gliding on the water at an extreme speed. Under such speed, in less than ten minutes, the small island in the middle of the water was already in sight!

The position of the continent symbol in everyone's sea of consciousness had not moved. What were they going to face next? an enemy lying in ambush, or an opponent waiting in the open?

As they got closer to the island, Lin Yi and Yan Su flew over from the boat. The moment they landed, Lin Yi felt the waves of a battle!

"Sima, is there a battle?"

Yan Su could feel it as well, but it wasn't clear. She looked at Lin Yi suspiciously for an answer.

Lin Yi nodded. "There are indeed fluctuations of battle. We can't rule out the possibility that it's an illusion. Let's go and take a look!"

The group retracted their auras and followed Lin Yi to the source of the battle. After five to six kilometers, they were in the center of the island. The battle was getting clearer and clearer-the source was on the hill!

It was the highest point on the island, the peak of which was nearly two hundred meters above sea level. If one had a good view, they could basically see the entire Island. In other words, someone would be able to see them from there!

It didn't seem to make a difference whether he had concealed his aura or not ...

As expected, as Lin Yi's group got closer to the hill, the fighting on the top of the hill quickly calmed down. Whether it was a real fight or a fake fight, it all stopped because of Lin Yi's arrival.

Lin Yi was bold and wasn't afraid of a trap at all. He led everyone up the mountain, but they had to make the necessary preparations before going up. The movement formation was stacked to the limit, and it could show its power at any time.

Even if all the people of the Alliance of thirty-six continents joined forces, they wouldn't be able to break through the defense of the mobile array easily!

"Sima Yi, I've been waiting for you! You've finally come!"

Two hundred meters was nothing to powerful martial artists. With a little effort, they reached the peak in the blink of an eye. The first one to speak was indeed Fang Gezi!

The top of the mountain was a relatively flat platform area with an area of about 1400 to 1500 square meters. Fang Gezi had brought about 200 to 300 people with her. Liang Shuliang had brought about the same number of Warriors from the Alliance to confront Fang Gezi.

The shockwaves from the previous battle were clearly caused by the two sides. It seemed like Liang Shuliang had really messed up the Alliance of the thirty-six continents!

But once Lin Yi came, both sides stopped immediately, which proved that the area of the battle was not wide. If it was a full-scale battle, it wouldn't be easy to stop!

"Patrol envoy Sima, we meet again!"

Liang Liang Liang smiled and cupped his hands, greeting Lin Yi and Yan Su. "Fang Gezi has gone against the law and used us as pawns. It's really despicable. Therefore, the so-called Alliance from before has already fallen apart. Patrol Sima, patrol Yan, are you interested in joining forces with us to get rid of Fang Gezi and the others first?"

Even now, Liang still didn't reveal that he'd formed an alliance with Lin Yi-he used the normal way to get them to work together.

Liang Liang took out a continent's symbol as he spoke, throwing it to Lin Yi. "This is the symbol of the great land of Sangzi. I'll give it to patrol envoy Sima to show my sincerity!"

Lin Yi was the one who gave him the star source continent's symbol, and he was returning the favor by giving Lin Yi the Sangzi continent's symbol.

Only Liang Shuliang and Lin Yi knew about this. Those who didn't know the truth would think that Liang Shuliang was trying to win over Sima Yi, so he just gave him a big gift. It was very generous!

Fang Gezi was furious, 'Liang Liang! Are you crazy? The Sangzi continent's symbol is in your hands, if you keep it, you can reduce Sima Yi's points by half, why do you have to return it to him?"

Chapter 8968

"Even if there is a conflict between us, it's still an internal problem. We should work together to get rid of Sima Yi and the others first. What you're doing is simply a treacherous and despicable person!"

The words were fierce, but they were meaningless. A verbal lawsuit could never be explained clearly, especially at this juncture when a war was about to start.

Fang Gezi accused Liang of treachery, while Liang Liang scolded Fang Gezi for being hypocritical and betraying their alliance. Those who could be persuaded were already standing behind them, so it was useless to say anything more.

Lin Yi was Fang Gezi's natural enemy, so there was no reason for him to reject Liang Liang's offer!

"Investigator Liang, thank you for your generous gift. I also think that Fang Gezi is a piece of trash. Let's work together to get rid of him first before we have a fair fight!"

Lin Yi put away the Sangzi Dazhou's sign and nodded, "Although there's still a lot of time, we must eliminate all evil. How about we do it now?"

"Just what I wanted!"

Liang Liang laughed loudly and exchanged a look with Lin Yi.

Fang Gezi's face turned red and the veins on her forehead popped. She shouted at the Warriors who followed Liang Shuliang, ""Are you all crazy? Are you stupid? Why did he follow Liang Shuliang? Just because he's the inspector of the starsource continent?"

"Don't forget, the starsource continent has a special status. Whether they have points or not, it won't affect their status as a first-class continent. Why are you following this kind of person?"

"It's not too late to turn back now. We'll get rid of Sima Yi and Yan Su, and then we'll settle the internal problems. We are allies! There's no reason to let Sima Yi and the others have it!"

Liang yulang chuckled. "Fang Gezi, don't waste your time. The Alliance of the 36 continents has already fallen apart the moment you ordered the death of your ally!"

"No matter how dissatisfied you are, kicking them out of the protection mechanism and teleporting them out of the barrier is already the best you can do. Why do you want to use the power you control to kill them? Aren't they the best of the best?"

"If you can kill them without hesitation, you can naturally kill us without hesitation. It's useless to say anything now. We'd better surrender!"

If he couldn't control the power of the enchantment, he couldn't kill anyone. Liang Liang's main goal was to persuade them to surrender. If they really wanted to fight, they could wait until they left the enchantment!

Of course, Fang Gezi wouldn't surrender. She knew that she wouldn't die, so she would be stupid to surrender. There was still a chance of victory.

"Everyone, stop talking nonsense. Let's start fighting!"

Lin Yi waved his hand, and Fei daqiang and Yan Su led the others into a battle formation and attacked Fang Gezi!

Fengqi great continent's battle formation was something Lin Yi had taught them, and it was the same line as Sangzi great continent's battle formation. The two great continent's battle formations cooperated without any problems, and it was so smooth that it was as if they had practiced it countless times.

"Sima Yi, do you really think I'm afraid of you? What can you do with so few people?"

Fang Gezi continued to be stubborn and ordered a team of 30 martial artists to stop Fei daqiang and the others. Unfortunately, they were defeated as soon as they came into contact with them. They could not hold on for long.

"Hahaha, Fang Gezi, with so few people on my side, will we be able to make any waves?"

Liang Liang laughed as he threw his forces into the battle. He and Fang Gezi were on par in strength before, but with Lin Yi's help, they could unleash the power of more than a hundred people even though there were only a dozen of them!

And this was without Lin Yi's help. Once Lin Yi made a move, Fang Gezi's power would collapse instantly!

To be honest, Liang Liang felt that this battle didn't even need to be fought. The result was already decided!

That was indeed the case. The battle formation led by Fei daqiang and Yan Su was like an extremely sharp blade, easily tearing a hole in Fang Gezi's formation.

Liang Liang, who was following closely behind, brought more martial artists to break into the enemy's formation from this opening. They began to tear at the formation, widening the gap rapidly!

It was foreseeable that the battle between the three parties would end smoothly in a short time. Fang Gezi, who had worked hard to create the Alliance of 36 continents, would be defeated without any suspense!

In fact, Fang Gezi didn't think that much. If she really wanted to form an alliance against Lin Yi, she wouldn't have lost so badly. It was his fault for thinking too much, even scheming against his allies. He had only himself to blame for his failure!

"Patrol envoy Sima, why don't you come and move around? Such an easy battle, isn't it good to have fun together?"

Constable Liang took the lead and led his men to attack, taking the time to invite Lin Yi.

"Investigator Liang has made an agreement. Sima Yi dares to disobey!"

Lin Yi smiled and cupped his hands before flying into the battle, activating his invincible mode.

Seeing Lin Yi's appearance, whether it was the people from Sangzi continent or Liang's Alliance, their morale all shot up.

Lin Yi's people were naturally unrivaled when their leader made a move! The Warriors on Liang's side heaved a sigh of relief.

After all, Lin Yi's reputation was there. If he didn't make a move, they would guess that he wanted to save his strength and deal with them after he took care of Fang Gezi and the others.

Once they had such a suspicion, they would definitely hold back and only use 40% to 50% of their combat power at most. Instead, they would become a burden!

Liang Shuliang and Lin Yi had both considered this, and so they echoed each other. Lin Yi took the opportunity to get off the stage, and the situation was one-sided. Fang Gezi's side kept turning into white light and teleporting away!

Fang Gezi's boundary power did not appear. Otherwise, his battle generals would not have been defeated so quickly. Ordinary Warriors' battle formations could not break through the boundary's defense!

Liang Liang Liang had lost all interest in persuading them to surrender. Surrendering meant handing over their tags anyway, so it didn't matter if they fought or not.

The battle between the two sides was as fast as lightning. Fei daqiang and Liang commandeering advanced side by side and almost broke through Fang Gezi's battle formation. They had the chance to face Fang Gezi directly!

Lin Yi's movements were light, shuttling back and forth in the formation. He only needed a fraction of his full strength to break through the enemy's battle formation, making it even easier for the others to advance.

Fang Gezi's expression changed rapidly. At times, she was frightened, at times flustered, and at times solemn. In the end, she actually revealed a strange smile!

Lin Yi's spiritual sense had been watching him and noticed the strange smile on Fang Gezi's face. He felt that something was wrong, but before he could figure out what it was, Fang Gezi's face changed again.

Chapter 8969

Anger, fear, despair ... Several complicated emotions were mixed together, causing Fang Gezi's face to twist and look very ferocious!

"Sima Yi! Stop! How dare you ..."

Fang Gezi shouted but could not finish her sentence!

Lin Yi didn't know what Fang Gezi meant, but the next moment, a huge force fell from the sky, covering the battle area like a natural disaster!

In this area, most of the Warriors were from Fang Gezi's side. A small portion of them were from Liang paoliang's side. Including Fang Gezi, there were about two hundred people who were attacked by the barrier!

On the other hand, Lin Yi, Sangzi Dazhou and Fengqi Dazhou's people weren't affected at all. It was as if they avoided it on purpose, accurately controlling the range of the attack.

Although Fang Gezi was also in the attack range, she was at the edge and managed to avoid the most powerful attack. Her body was grazed slightly and she spat out a mouthful of blood. Her left arm was also badly mangled!

The others who were attacked were not so lucky. Because it was an attack by the barrier, none of the nameplates used to save their lives triggered the protection mechanism. All those who were attacked by the barrier were killed!

The sudden and huge change caused everyone who was still alive to fall into a daze. They had never thought that they would suddenly suffer such a large-scale killing attack that even the nameplate could not teleport people away!

After the dust settled, white light flashed and the corpses were teleported out, leaving behind only nameplates on the ground!

Liang yulang's face was as dark as ink. He had always guessed that Fang Gezi still had a trump card, but he didn't expect it to be so powerful!

When he asked Lin Yi to help, other than letting the others lower their guard, he also had the idea of letting Lin Yi take the risk!

In the end, the risk was too dangerous and could not be shared!

If it wasn't for the fact that his position was relatively close to Fei daqiang, he might have been a bloody corpse in the attack range!

"Sima Yi, you're actually so insane that you killed two hundred elite martial artists in one go! This matter would definitely not end well! I, Fang Gezi, admit defeat this time. We'll settle the score after we get out of the barrier!"

Fang Gezi covered her wound with her right hand. After shouting, she rolled up a nameplate, activated a teleportation array talisman, and disappeared from the top of the mountain!

Liang Liang Liang's mouth twitched. Fang Gezi was the one behind the attack this time, and he was pushing the blame to Sima Yi? Speaking of which, this was really a beautiful move!

If Liang Liang hadn't been paying attention to Fang Gezi, he wouldn't have realized that Fang Gezi was the source of the attack, let alone the others.

Before the attack, Fang Gezi shouted for Sima Yi to stop, and added a "crazy" after the attack, confirming that the attack was from Lin Yi!

What was even more amazing was that most of the people who were killed were Fang Gezi's fans, a small portion were Liang commandeering's men. Lin Yi's side was completely unscathed, perfectly matching the result that Lin Yi was the culprit!

Other than Liang cailiang, almost no one else knew that Fang Gezi could use the boundary's power! Even if one or two of them managed to escape, they only knew that Fang Gezi could use the barrier's power to defend herself. They had no idea that Fang Gezi could use the barrier's power to launch such a powerful attack.

Why didn't he use this trump card when he ambushed Lin Yi? If he had used it at that time, he might have already taken care of Sima Yi, right?

So even if this matter was investigated later, Fang Gezi would have enough reason to shirk responsibility and continue to push the blame on Lin Yi. Liang baring's words wouldn't be believed because of his position, and accusing Fang Gezi would only make people think that he was covering for Lin Yi.

Liang Shuliang had his own plans, too. Fang Gezi's actions might be what he wanted to see, so it would be difficult to ask him to help Lin Yi!

"Boss, what does that bastard Fang Gezi mean? Are you trying to frame us?"

Fei daqiang's expression was very ugly. The power of the barrier was very powerful and posed a great threat to the battle formation he and the other battle generals had formed. If they were caught in the range of the attack, they would most likely be injured.

However, compared to being framed by Fang Gezi, getting injured was nothing!

"Isn't that right!"

Lin Yi, on the other hand, was calm as he nodded. "Fang Gezi's quite the character. He had actually thought of such a method! Now we can't explain ourselves. It doesn't look like we can easily get rid of this blame. "

"Director Yan, can you sense the symbol of Fengqi great continent? Where is it now?"

Lin Yi had Sangzi Dazhou's symbol in his hand, which Liang Liang had just sent back. He didn't mention Fengqi Dazhou's symbol, so it was obvious that he didn't have it.

Liang Liang knew about Lin Yi and Yan Su's relationship. If he had the Fengqi Dazhou's symbol, he wouldn't be stingy and give it to Lin Yi along with the Sangzi Dazhou's symbol to get a bigger favor.

Getting 50 points as a token to establish a relationship with Lin Yi and Yan Su, the two powerful people of the continent, was an extremely good deal. Liang understood this.

Therefore, the symbol of Fengqi great continent was not in Liang Liang's hands. It was most likely in Fang Gezi's hands. Now that Fang Gezi had escaped, if Yan Su could sense the location of the symbol, she would be able to track her down immediately!

Yan Su heard Lin Yi's words and immediately looked into her sea of consciousness. The red dot and white dot on the map had merged together, meaning that the two were in the same position!

"Sima, Dazhou's symbol wasn't taken away. It's right here ... Fang Gezi is a thoughtful fellow. We can't underestimate her!"

Yan Su said as she took a few steps to the side, finding Fengqi Dazhou's symbol in a pile of rock powder and showing it to Lin Yi.

"Fang Gezi must have left this behind on purpose. It's not that he didn't want to take it with him, but it would expose his first destination after teleportation and give us a chance to track him down. That's why he left it here."

It was clear that Fang Gezi had planned this all along-she'd even taken these small details into account, leaving no room for Lin Yi to exploit.

"Forget it, I can only let him be proud this time. After leaving the barrier, I'll think of a way to get back at him."

Lin Yi waved his hand helplessly. There wasn't much time left, and he couldn't search the entire barrier. Even if he could, he couldn't guarantee that he'd find Fang Gezi.

Judging from her performance these few times, Fang Gezi was definitely not an idiot. At least, she was quite good at scheming and planning.

He had underestimated him in the past! He had to pay attention in the future and never underestimate him again!

Chapter 8970

More than half of the people who followed Fang Gezi in the Alliance of 36 continents had died. The remaining people were full of despair when they saw Fang Gezi escape. In order to avoid dying in the array formation, they all chose to teleport away by themselves without saying anything.

Losing the nameplate would only mean losing the qualification to participate in the team battle. Perhaps it would also mean losing the original points, but at least they would be able to keep their lives, right?

Lin Yi felt helpless. Can't everyone listen to my explanation? Those people who died just now really had nothing to do with me!

It wasn't just Fang Gezi's group that escaped the array formation. Liang's group was also terrified and most of them chose to leave the array formation without a word!

The attack just now was too terrifying, and it was an area-of-effect attack. Everyone within the area was the target, without exception.

They would not believe in the promise of an Alliance!

Liang Liang looked a little awkward as he waved his hand at Lin Yi. "Patrol envoy Sima, I believe you. This matter has nothing to do with you. It's all Fang Gezi's doing! Everyone only has a little misunderstanding about you. When the truth is revealed and all the misunderstandings are cleared up, they will naturally know that they have wrongly blamed you!"

This explanation was quite weak. Another group of Warriors who followed Liang Shuliang had quietly teleported away. In the end, only one-tenth of the original group was left. Between life and death, it was obvious who would be the winner.

Liang Liang felt even more embarrassed-he opened his mouth, not knowing what to say. Lin Yi consoled him instead, "Thank you, patrol envoy Liang. Fang Gezi has arranged this well. It's indeed hard to tell, but the good will be the good, and the bad will be the bad. Right and wrong are free to be discussed."

"Investigator Liang, you don't have to worry about me. We don't have many people left. Let's split these tags and then go our separate ways?"

After Fang Gezi left, Liang baring only had around twenty people left. There was no need to fight anymore. Lin Yi didn't lack points anyway.

Liang Liang nodded-it wasn't a wise choice to reveal their alliance with Lin Yi or turn on him now. Only by splitting up with him would the practitioners following him be at ease.

"That's good. There are still many places in this barrier that have not been explored. We'll take our leave now. See you after we leave the barrier!"

Liang Liang took his men and left with some name tags, leaving only Lin Yi and his group on the peak.

At this point, there was nothing else Lin Yi could do. Looking for Fang Gezi was a waste of time, and with the symbol of the continent in his hands, most of his opponents had either died or left. He had no interest in looking for the rest to fight.

He had no desires!

In the end, Lin Yi decided to rest on the peak and wait for the time to run out before everyone teleported out of the barrier!

Outside the barrier, Luo xingliu, Jin botian, and the others didn't leave. With the various news brought by the people who were sent out in advance, they had a rough impression of what had happened inside the barrier. When they learned that about 200 elite martial artists had died, their faces didn't look good!

Those who had entered the barrier were the most elite battle generals of each continent. They were brave warriors who had resisted the darkness demon beast clan, and the death of even one of them would be a great pity. In the end, more than 200 people had died in one go. This was a huge earthquake for each continent!

There was indeed a way to use the barrier's power within the barrier, but it wasn't a back door arranged by martial League or the inspection department. It was a loophole in the barrier itself.

It was not easy to find a hole, and it was even more difficult to use the power of the barrier. Luo xingliu and Jin botian did not expect that someone could actually do this!

"Hall Master Luo, do you really think that Sima Yi was the one who used the barrier's power to kill? Based on my understanding of Sima Yi, he would never do such a thing!"

Jin botian stood on Lin Yi's side without hesitation, ""There must be something fishy about this matter. We must investigate the reason before we can make a decision!"

"Dean Jin's words make sense. Although the majority of the people who came out at the end said that it was Sima Yi's doing, I think that my judgment of people is pretty good. I also believe that Sima Yi is innocent!"

Luo xingliu first stated his position and then changed the topic." "However, when three men make a tiger, the words of the masses can melt gold. Without sufficient evidence, we can't prove Sima Yi's innocence! If we're jointly impeached, we must have a countermeasure ..."

Some people knew that Fang Gezi could use the barrier's power, but that didn't prove anything. It only meant that Fang Gezi had the ability to do so. It was useless to say anything without evidence.

Therefore, Luo xingliu and Jin botian tacitly didn't mention this and waited for the opportunity in their hearts.

When the time limit was up, everyone inside the barrier was teleported out, including those from the great continent of Wutong who had been hiding after finding the symbol of the great continent.

Fang Gezi was covered in wounds. When she saw Luo xingliu and Jin potian, she wailed and rushed forward to kneel down."Hall Master Luo, Dean Jin, you have to seek justice for me, for the burning sun continent, and for the many innocent Warriors who have died!"

"I don't know what kind of luck Sima Yi had, but he was able to manipulate the barrier's power into an all-conquering attack. He took advantage of the chaotic battle between Liang and I and killed nearly two hundred martial artists in one fell swoop!"

"Such a brutal and overbearing person isn't fit to be the patrol envoy of the patrol Council! "I, Fang Gezi, am representing the comrades and brothers who were killed by Sima Yi to impeach this extremely vicious ruffian! I hope that Hall Master Luo and Dean Jin can seek justice for us!"

Fang Gezi had planned everything from the start, so she didn't even bother to clean up her wounds to gain sympathy. Since she couldn't deal with Lin Yi during the team battle, she had to settle for the next best thing. As long as she could get rid of Lin Yi in this wave of accusations, it would be a huge gain.

The difficulty of dealing with a commoner without any position was completely different from dealing with an inspector of a continent!

Lin Yi's position as the hall Master of the martial Alliance had been removed, and now that he'd messed up his patrol identity, he'd basically achieved his goal!

Jin botian said with a cold face, ""Patrol envoy Fang, this seat heard that you can also use the barrier's power to form a defense within the barrier, and use it to influence the activation of the nameplate's defense mechanism. Then, you killed a team of your own allies, is that true?"

If he wanted to help Lin Yi, he had to use Fang Gezi's ability to control the barrier. Jin botian ignored Fang Gezi's accusation and asked for an explanation.
