

Bodyguard 8971

Chapter 8971

Fang Gezi didn't deny it. Most of the witnesses were dead, but the team that Lin Yi sent out of the barrier before the murder was still there. They all knew that Fang Gezi could use the barrier's power.

Therefore, Fang Gezi simply admitted, ""In reply to Dean Jin's words, there was indeed such a thing. By chance, this subordinate obtained a chance to use the power of the barrier to form a defense."

"In order to make the best use of this opportunity, your subordinate put in a lot of effort to set up an ambush and lure Sima Yi into it. In the end, I was betrayed by my ally."

"In this case, if we want to continue the ambush mission, we have to cut the Gordian knot quickly and settle the matter quickly, so as to avoid attracting more rebellions."

"In order to intimidate everyone, your subordinate could only be ruthless. In fact, your subordinate didn't really want to kill anyone. It's just that it's my first time controlling the power of the enchantment, so I inevitably made some mistakes, which caused serious consequences!"

"This was your subordinate's fault. I wanted to win against Sima Yi too much and was blinded by hatred. Although the ones who attacked were the Allies of the other clans and the tokens were split among them, your subordinate can not escape the blame. For this, your subordinate is willing to accept the crime of killing by mistake and bear the responsibility!"

Fang Gezi's words were a mix of beating and beating. She had taken a step back in order to advance and weakened the responsibility by countless times. She even changed it to the point that he was not in the wrong and was willing to take responsibility for the dead murderers.

He's so loyal!

Jin botian almost laughed out of anger. Who didn't know the exact situation? However, no one could refute Fang Gezi's words.

At that time, it wasn't Fang Gezi or the burning sun continent's battle general who killed them, but people from the other three continents. They were all wiped out by Fang Gezi in the battle at the top of the water region mountain.

It wasn't easy to find out who was responsible!

Lin Yi and Liang Shuliang heard Fang Gezi's shameless words after coming out of the room, and they had nothing to say.

Fang Gezi's eyes were filled with hatred when she saw Lin Yi and Liang Shuliang. She pointed at Lin Yi and screamed hysterically, ""The murderer! Sima Yi, you murderer, you actually dare to appear in front of us as if nothing had happened!"

"Hall Master Luo, Dean Jin, are you going to watch this murderer get away with it? Are our brothers from so many continents going to die in vain?"

One had to admit that this guy's acting was pretty good-his mannerisms and posture were impeccable. 90% of the people around believed him, thinking that Lin Yi really was the murderer of so many people. They were all in a rage, calling for punishment!

These people were from the Alliance of the thirty-six continents, so they naturally stood on Fang Gezi's side. The dead fighters were only a part of the elites. They all chose to believe Fang Gezi's story and thought Lin Yi was the murderer.

Constable Liang stood out and cupped his hands."Hall Master Luo, Dean Jin, I can vouch for you. Patrol envoy Sima is not this kind of person. The last massacre had nothing to do with patrol envoy Sima!"

"Although I can't verify the origin of the last attack, compared to patrol envoy Sima, I'm more willing to believe that Fang Gezi did it in the dark and killed these people on purpose to frame patrol envoy Sima!"

Fang Gezi immediately jumped out and shouted,"Liang Liang, don't think that you can spout nonsense just because you're the inspector of the starsource continent!" If it wasn't for your betrayal, our Alliance wouldn't have been broken!"

"If it wasn't for your betrayal, Sima Yi wouldn't have had the chance to take advantage of our internal battle to launch this attack! You and Sima Yi are accomplices, and you are half responsible for this. Now, you want to slander me! This is simply preposterous!"

"Since you're all in the same gang, how can your words be trusted? If it weren't for you, how could there be such a heavy casualty?"

"Ridiculous!" Liang Zhao sneered. If you hadn't gone against the rules and lost the trust of your allies, how could you have caused a civil war? If Fang Gezi had not been unpopular, how could I have made a call and have so many people respond? Our starsource continent has no desires, so why should I fight with you?"

"It's because you're too cruel and tyrannical. You even attacked your allies! If it wasn't for the fact that we couldn't stand it anymore, why would our starsource continent need to get involved in this? We'll just get through it easily!"

After Liang Shuliang finished speaking, other martial artists responded immediately. They were the ones who were eliminated by Fang Gezi's underlings when Lin Yi was in the forest scenario.

They thought they had met an ally, but they were stabbed in the back and were the first to be eliminated. They were indignant. Now that they had the chance, they naturally supported Liang cailiang and accused Fang Gezi.

For a moment, the situation was a little out of control. There were voices of criticism and rebukes everywhere. It was as chaotic as a wet market.

Fang Gezi was also having a headache. He was the one who made the plan, but he didn't expect his men to be so good at carrying it out. They stabbed their allies in the back as soon as they entered the barrier!

Her initial plan had started to become a little inappropriate after she had the opportunity to use the barrier's power. Unfortunately, it was too late for Fang Gezi to stop her initial plan.

The scattered teams became uncontrollable existences. Fang Gezi couldn't do anything to them before they regrouped, but this was the consequence!

"Hall Master Luo, Dean Jin, let's not talk about other things for now. We're talking about Sima Yi's problem! He has killed so many of our men, this subordinate has to give an explanation for his impeachment, right?"

Fang Gezi knew that she couldn't let the chaos continue, so she stepped forward again and suppressed all the arguments. She said righteously, ""After we've dealt with Sima Yi's problem, I can slowly explain anything else!"

In fact, stabbing an ally in the back was not a big deal. It was a team battle after all. Every continent was an independent individual and they were competitors!

Deceiving others is one of the methods, and you believe me when I say we're allies? He deserved to be stabbed in the back!

At most, this was a little despicable, but so what? A team battle was supposed to be unscrupulous. If you're an idiot, do you think you're in the right?

The burning sun continent's martialists had no faults, so who could say anything?

Therefore, Fang Gezi was very certain that she had to deal with Sima Yi's murder first. In comparison, this was the most serious problem!

Luo xingliu glanced at Fang Gezi coldly and said indifferently, ""What do you want to do? This is only your side of the story, and there is no real evidence. On Sima Yi's side, Liang Shuliang is there as a witness. How do you want to impeach Sima Yi without any evidence?"

Chapter 8972

"Hall Master Luo, what do you mean by no evidence? The truth is already out in the open. When Sima Yi attacked, most of his targets were people on my side. Liang Liang's side also had a small group of people involved. "

Fang Gezi looked indignant, as if she was extremely dissatisfied with Luo xingliu's cover-up, but she did not dare to speak out. ""As for Sima Yi's side, there isn't even a single injured person, let alone someone who has died!"

"Isn't this evidence? What evidence was there to prove? Liang Liang said that Fang Gezi led this attack, what a joke!"

"If I had mastered such a powerful attack, why didn't I just pour it on Sima Yi and the others? Sima Yi and the others only had a dozen or so people. With one attack, they should all be dead, right? 'Why didn't I kill my enemy, Sima Yi? why did I kill my ally instead?' Am I crazy?"

Logically speaking, Fang Gezi's words were flawless. Anyone who had a powerful attack would attack their enemy. Only a crazy person would attack their own head!

Although Fang Gezi was not dead, he was indeed within the attack range of the attack that had killed more than 200 people. However, he was at the edge and managed to escape in time, so he did not suffer too serious an injury!

No one knew that Fang Gezi chose to self-destruct because she wasn't confident in killing Lin Yi. If her attack didn't kill Lin Yi, his plan would be for naught and he'd become the target of the accusation.

For safety's sake, he chose to kill his own ally and then frame Lin Yi for it, getting a bunch of tags and points at the same time!

In that situation, Fang Gezi's choice was the most correct and most suitable!

If Lin Yi was in Fang Gezi's position, he might be able to do better!

Luo xingliu was silent for a moment. He didn't know that Lin Yi was an opponent that even a barrier might not be able to kill in Fang Gezi's heart, so he agreed with her. Naturally, he couldn't refute her.

Jin botian squinted at Fang Gezi and said slowly, ""There is no real evidence for this matter. You all have your own statements, but you can't produce enough proof!"

"However, it has already happened. No matter what, we have to come up with a procedure to deal with it! Since Sima Yi was the most suspicious, then he would give Sima Yi a punishment! From today onwards, Sima Yi will no longer hold the position of Sangzi great continent's patrol!"

"Regardless of whether this matter is related to Sima Yi or not, he was not able to get himself out of it, which is a crime. Removing him from the position of patrol is a small punishment but a big warning! Do the rest of you have any other opinions?"

Lin Yi was originally the Great Hall Master and patrol of the martial Alliance in the Sangzi continent, but he was no longer the Great Hall Master. Now that he was removed from his patrol position, he had nothing to do with the Sangzi continent anymore!

Fang Gezi was secretly happy. As far as she was concerned, Lin Yi's removal from the patrol position meant that he had no status anymore. It would be easy for him to get his hands on one in the future.

The strategic objective was basically achieved!

It was just that there was no more punishment, which made it a little incomplete!

"Dean Jin is wise! A black sheep like Sima Yi should be expelled from our patrol team! Return us a clear sky!"

Fang Gezi wanted to attack Lin Yi further, so she continued to target him, ""It's just that Sima Yi is such a vicious and evil person. Dean Jin's punishment is not enough ..."

"Are you teaching me how to do things?"

Jin botian glanced at Fang Gezi coldly and interrupted him, ""Why don't you be the director of the inspection department and you handle all the affairs?"

Fang Gezi shuddered. Intimidated by Jin botian's aura, she quickly lowered her head and admitted defeat. "I don't dare, I don't dare, this subordinate has overstepped my boundaries! Please forgive me, Dean Jin!"

He wanted to be the director of the inspection department, but he couldn't afford it at this time!

If he dared to reveal his ambition, he might be secretly suppressed by Jin botian!

Jin botian snorted and ignored Fang Gezi. He turned to look around and said, ""Is there anyone who is not satisfied with Sima Yi's punishment? If you have any different opinions, you can speak up and I will consider them!"

No one spoke! Fang Gezi had just been chided. Who would dare to speak up now? they would only be provoking Jin botian!

"I have no objections, thank you for your generosity, Dean Jin!" Lin Yi cupped his hands.

People who didn't know the situation would think that Lin Yi was being sarcastic, but Lin Yi was really grateful to Jin botian. Jin botian was trying to protect him, which was why he came out and solved the problem.

There was no point in arguing-removing Lin Yi from his position didn't mean that he was the killer. Jin botian had said that it was a punishment for not being able to protect himself, not for killing two hundred people!

After removing the Sangzi continent's inspector and vice-director of the inspection department, Jin botian was preparing to let Lin Yi take up a position in the starsource continent. His decision just now was actually pushing the boat with the current-Fang Gezi even thought that his plan had succeeded!

"Since no one has any objections, this matter will come to an end for now. We'll discuss it again after we find out the truth! Now, let's have Hall Master Luo summarize the martial Alliance Tournament!"

Jin botian was not the protagonist, but Luo xingliu was. Thus, Jin botian took a step back and gave Luo xingliu space.

When the two passed by each other, they made a secret eye contact, as if they had reached some kind of tacit understanding.

Luo xingliu stood still and said calmly, ""The team battle has ended and the final points have been calculated. Sangzi continent is still ranked first in points. From now on, Sangzi continent will be promoted to a first-class continent."

"In addition to the Sangzi great continent, the performance of the Xingyuan great continent and the Fengqi great continent were also extremely outstanding, and they were also ranked among the first-grade great continents! The burning sun continent's points are ranked 4th, and it's ranked first in the second-class continent ..."

Fang Gezi's face darkened. He had thought that his operation was perfect and that he would have no problem getting a first-grade continent's quota, but he was still one step behind and only got the first place of a second-grade continent.

It was a lot of progress compared to before, but compared to the Sangzi great continent and Fengqi great continent, which were originally third-grade great continents, it was too far away!

Perhaps he had used up all his good luck when he used the power of the barrier. Although he had obtained many nameplates in the end, he didn't get any points from any continent. It was just the points from the nameplates themselves.

Instead, Liang Liang and Yan Su were given some of the points they originally had from other continents. With their own continent's symbol, their points wouldn't be halved, so they were ranked above Fang Gezi, who was scheming.

Then there was the continent of Wutong. Before entering the barrier, it was ranked third. After entering, it was lucky to find the symbol of the continent. To be on the safe side, it hid until the end of the team battle. Its ranking dropped slightly, but it still became an upper tier among the second-class continents!

Chapter 8973

This was already considered a very good result. The Great Hall Master and the patrol were very satisfied. They didn't expect to be promoted to a first grade continent. Today was the best result.

When the rankings were announced, some families were happy while others were sad. However, this wasn't the end. After the competition, not only would the rankings of the continents be adjusted, but the first hall Masters and investigators of each continent would also be transferred to a certain extent according to their performance.

These weren't fixed rules, so no one present was mentally prepared. The continents that had people killed only cared about how much their strength had been weakened.

After Luo xingliu announced the rankings of the continents, he immediately began to announce the new appointments."The burning sun great continent's patrol envoy, Fang Gezi, was very active in this tournament. Her performance was quite outstanding, so she's been specially transferred to the Sangzi great continent to serve as the hall Master of the martial Alliance!"

After Lin Yi stepped down, the Sangzi continent was without a leader. Luo xingliu's sudden announcement of Fang Gezi's transfer to the Sangzi continent shocked everyone!

Everyone could see how much Luo xingliu valued Lin Yi. The Sangzi continent could also be considered Lin Yi's private land. Whether it was the martial Alliance or the inspector's side, they all followed Lin Yi's opinion.

After Lin Yi stepped down as martial Union's Hall Master and inspector, if he wanted to continue controlling the power of Sangzi continent, it would be best to promote Lin Yi's talents. Why did he arrange for Fang Gezi to go?

There was no doubt that after Fang Gezi became the hall Master of the martial Alliance, the first thing she would do was to clean up the people Lin Yi left behind, removing the influence Lin Yi left on the great continent!

Was Luo xingliu dissatisfied with Sima Yi? Was this the punishment for Sima Yi?

Fang Gezi was surprised and overjoyed. She immediately stepped out and bowed."Thank you for your appreciation, Hall Master Luo. This subordinate will do my best to take care of Sangzi continent for you! If there's anything you need me to do, I'll go through water and tread on fire without hesitation!"

The current Sangzi great continent was different from the past. If it was before the great competition, being transferred from the burning sun great continent to the Sangzi great continent would be equivalent to being demoted. Now that the Sangzi great continent had become the number one first-grade great continent, it would be a proper promotion to be transferred from the burning sun great continent's patrol envoy to the hall Master of the martial Alliance!

While Fang Gezi was overjoyed, she had already thought of countless plans in her heart. She just had to wait until she reached the great land of Sangzi to get rid of the people Sima Yi had left behind and take control of the great land of Sangzi as soon as possible.

Being the Great Hall Master of a first-class continent's martial Alliance was a glorious thing! Fang Gezi was filled with anticipation. She felt that her performance was outstanding enough to move Luo xingliu's heart!

After spending two years in the Sangzi continent, he would be able to form a team that completely belonged to him. With this as a springboard, he could smoothly enter the continental martial Alliance. He should start off as a vice Hall Master with real power, then slowly work on the administrative vice Hall Master, and then become the main hall Master of the continental martial Alliance!

From then on, the entire starsource continent would be under Fang Gezi's control!

Hahahaha! He felt like he had reached the peak of his life!

"Hall Master Fang, you don't have to be so polite. This is the reward you deserve! The Sangzi continent is now the number one first-grade continent in our starsource continent. The martial Alliance's Hall Master

and patrol are both indispensable positions, so we can't leave any vacancies. Do your job well from now on and don't ruin the reputation of the number one first-grade continent. "

Luo xingliu glanced at Fang Gezi indifferently and suddenly smiled. ""Dean Jin, the patrol also needs someone to take over. What do you think?"

Jin botian stood up again with the same faint smile. ""The first-tier continent naturally can't let such an important position like patrol remain vacant. The candidate must be outstanding enough!"

"According to the previous patrol's assessment and this martial League tournament, I feel that Fengqi great continent's patrol's Yan Su is very suitable to take over the Sangzi great continent's patrol's position. Patrol's Yan, do you have any opinions on this transfer?"

Fengqi great continent had also been promoted to a first grade great continent. Although it was ranked third, it wasn't much different from Sangzi great continent. Yan SU's transfer could only be considered a normal transfer. At most, it was a promotion of half a grade. In terms of position, it didn't have much meaning.

But Yan SU's status was different. When Lin Yi left the Sangzi continent and Fang Gezi took over as the hall Master of martial Alliance, Yan Su becoming a patrol had a completely different meaning!

The patrol had the authority to supervise martial League. Although he couldn't interfere with martial league's internal affairs, he had no problem restraining Fang Gezi. If an unrelated person were to be the patrol, he might be assimilated by Fang Gezi.

It was absolutely impossible for Yan Su!

Now, the martial Union of Sangzi continent had been completely United by Lin Yi. Whether it was the combat Association, the array Association, or the alchemy Association, they all respected Lin Yi!

It would be a stretch to say that Lin Yi had taught them personally, but it was true that they'd all received Lin Yi's legacy. After Fang Gezi went over, they could use time to slowly clean up and recruit the various departments of martial League without any influence.

With Yan SU's influence, it would be fun!

Without a leader, martial league's divisions could be broken down one by one. As a patrol, Yan Su couldn't directly lead all the divisions, but everyone knew about his relationship with Lin Yi.

As long as Yan Su became the spiritual leader, the various departments of the martial Alliance in the Sangzi continent would still be as united as an iron plate. Fang Gezi wanted to recruit all the departments? Hehe, probably no one would listen to his orders, right?

It would be more like they were directly made into mere figureheads by the various departments of martial League!

There were many cases where the Great Hall Master of the continental martial Alliance didn't have enough control, and he was overpowered by the joint efforts of his subordinate departments. Of course, in those cases, most of the time, there was an outstanding Deputy Hall Master who was stirring up trouble.

"I have no objections. I'll follow Dean Jin's arrangements. No matter which continent I'm on, I'll do my best and do my part. I'll never fail Dean Jin's expectations of me!"

Yan Su was stunned for a moment, but she immediately understood the meaning of Jin botian's arrangement, so she accepted the appointment without hesitation.

Sangzi continent was a place that Lin Yi put his heart and soul into, and Yan Su swore to protect it for Lin Yi. As for Fengqi continent, he didn't need to worry about it. No matter who took over, it wouldn't affect Lin Yi's position in Fengqi continent!

Fang Gezi's expression darkened. How could she not understand why Jin botian had arranged for Yan Su to go over?

If he wanted to successfully control the great land of Sangzi, he had to get rid of the traces and influence that Sima Yi had left behind in the great land of Sangzi as soon as possible. Yan Su was clearly Sima Yi's people and could act on behalf of Sima Yi in the great land of Sangzi.

With a patrol like this, how could Fang Gezi eliminate Sima Yi's influence? Jin botian's move was too disgusting!

It was a good thing that Yan Su was just Yan Su and not Sima Yi!

Chapter 8974 The End

Fang Gezi could not object. While feeling displeased, she began to think about how to deal with Yan Su. He felt that he could easily kill her!

As long as Sima Yi didn't return to the great land of Sangzi, everyone else was fine!

"Investigator Yan is an extremely outstanding talent. Under your supervision, Feng Qi great continent has developed very well. After being transferred to Sangzi great continent, I believe you will be able to display the same strength. This Lord has very deep expectations for you!"

Jin botian was extremely friendly to Yan Su, a warm smile on his face. He then added, ""As for the position of Feng Qi great continent's inspector, it can't be left empty. After Feng Qi great continent is promoted to a first grade great continent, it will be busier."

"However, the great land of Feng Qi is quite stable now. It's not a good thing to rashly send someone unfamiliar with the situation to be the patrol envoy. So, the candidate for the great land of Feng Qi's patrol envoy will be recommended by you, patrol envoy Yan!"

The continent's inspector must be appointed by the continent's inspection Institute, but the original inspector also had the authority to make recommendations. Furthermore, the recommended candidate would usually not be rejected, unless the inspection Institute had special considerations and needed to personally appoint the inspector. Only then would they reject the candidate recommended by the previous inspector.

Since Jin botian had asked Yan Su to recommend a candidate, he would naturally not reject him. The inspection department was just a formality. After Yan Su had a candidate, she could basically hand over the candidate.

Fengqi continent was also one of Lin Yi's most influential continents. If it was someone else, they would definitely destroy Lin Yi's influence. The person Yan Su recommended would naturally follow Yan SU's will and Lin Yi's influence would continue to play its role.

This was Jin botian's way of protecting Lin Yi, and Lin Yi knew this very well. Fang Gezi was the same, but he couldn't refute Jin botian's decision. He could only comfort himself that Sima Yi was a white man now. Whether it was Sangzi Dazhou or Fengqi Dazhou, they would lose their influence in the end.

"As you command, principal! This subordinate will carefully select and find the most suitable successor to Feng Qi great continent and continue to stabilize the difficult situation of Feng Qi great continent!"

Yan Su didn't decline. She bowed solemnly and accepted the order. She already had a few candidates in mind. After she went back and considered them, she could submit them to Jin botian.

After that, there were still some appointments made by the Great Hall Masters and patrols of the continental martial Alliance, as well as the pensions for the casualties in the team battle. It took about twenty minutes to finish everything.

This year's continental martial union tournament had officially come to an end. The power structure of the 39 continents in the starsource continent had also undergone a complete change. No one knew how things would develop in the future, but there was a lot of hatred between many continents and the higher-ups of these continents.

Under the undercurrent, it was still a question whether the continents could live in peace.

Luo xingliu and Jin botian didn't have any solutions for the time being. Unless they could find out the truth behind the 200 elite warriors killed in the enchantment and bring the murderer to justice, they couldn't appease the resentment of the continents who had been injured or killed.

"The martial Alliance Tournament of the starsource continent has come to an end. Next, I have a special commendation that I need to announce to everyone!"

Luo xingliu and Jin botian muttered to themselves for a while before they stood up and clapped their hands to attract everyone's attention. ""As we all know, there was a Dark Demon beast clan's scheme to open the spatial node passage and invade the underground Devil's Den."

"Because the darkness demon beast clan had planned it thoroughly and used a special method, we were unable to notice the hole in the node when we were repairing it. If Sima Yi had not discovered it, we might have already been facing a large-scale invasion from the darkness demon beast clan!"

"After discovering the hole in the node, Sima Yi went deep into the node by himself and rampaged through the territory of the darkness demon beast clan. He destroyed dozens of the manufacturing points of the node's hole. Such a feat can be said to be earth-shattering, and to us humans, it can be said to be an unparalleled achievement!"

Luo xingliu was exaggerating a little, but in his heart, it was completely reasonable to describe Lin Yi's actions as "extraordinary."

"Everyone, the hero who has contributed so much to the human race, Sima Yi, has been stripped of his position as the Great Hall Master and patrol envoy of the martial Alliance of the Sangzi continent. Isn't this a laughable matter?"

"Even if you say that merits and demerits are demerits and merits and demerits can't offset each other, then after punishing those who have made mistakes without any solid evidence, shouldn't the merits that are as solid as a mountain be rewarded as well?"

Most of the people below fell into silence. Only a few continents, such as Sangzi continent, Fengqi continent, and Wutong continent, cheered, thinking that Luo xingliu was right!

Especially since they all felt that Lin Yi's punishment was unjust, and now that they could compensate him for his contribution, it was barely acceptable!

Luo xingliu smiled, raised his hands, and slightly pressed down twice. ""There are punishments for wrongdoings and rewards for meritorious deeds. The rules of the martial Alliance are to be clear about rewards and punishments! Sima Yi has made an unparalleled contribution, so naturally there should be a corresponding reward!"

"I hereby announce that due to Sima Yi's outstanding performance in the fight against the darkness demon beast clan and his outstanding contribution, I hereby appoint Sima Yi as the Vice Hall Master of the martial Alliance of the starsource continent and also the president of the martial Alliance's combat Union! You'll be in charge of all matters related to the resistance against the darkness demon beast clan!"

"The president of the continental martial league's combat Union has the right to mobilize the combat generals of all the combat associations of the continents under his jurisdiction. Both the hall Master of the continental martial League and the president of the combat Association must cooperate and obey the Union's orders!"

"The darkness demon beast clan is a great threat to our human race, and whoever dares to disobey the darkness demon beast clan will become The Public Enemy of the human race! I hope that everyone will remember this!"

Luo xingliu had given Lin Yi a lot of power. The Vice head position was fine, since the continental martial Alliance had more than one vice head, but the combat guild's President was the one and only one with real power!

He also had the power to call all the generals of the continents. Just that alone was enough to make Lin Yi's power reach the heavens!

Other than these positions, Luo xingliu also gave Lin Yi many material rewards such as heavenly materials and earthly treasures, and countless divine weapons. However, these were nothing to Lin Yi. After all, he didn't lack these things. What was really useful was his new identity!

Fang Gezi's heart was filled with anxiety. She felt as disgusted as if she had eaten a group of flies!

He thought that Lin Yi would be a nobody from now on, while he, Fang Gezi, would rise from the patrol of a second-grade continent to the first-grade continent's martial Alliance's Hall Master. It would be a piece of cake for him to capture Sima Yi.

Chapter 8975

He did not expect that in the blink of an eye, what he thought was a nobody would suddenly become his superior. Not only was he the Vice Hall Master of the continental martial Alliance, but he was also in control of the strongest military organization!

Even the combat Association of the continental martial Union had to obey the transfer order. What did this mean? It meant that he, Fang Gezi, would never be able to reach into the combat Association of Sangzi continent again!

That was Sima Yi's territory. He thought that he would die and Fang Gezi would have a way to get in and eventually subdue the combat Association. Now, the people in the combat Association realized that their original backer was stronger and more reliable. Who would care about Fang Gezi?

It was annoying!

"Hall Master Luo, I have something I don't understand. I hope Hall Master Luo can help me clear my doubts!"

Fang Gezi was unconvinced. Sometimes, he was indeed very scheming and could come up with precise plans, but sometimes, he could not hold his temper, just like now. "Sima Yi has already been removed from all his positions. He's just a commoner now. What right does he have to enter the continental martial Alliance and take on such a vital position?"

"There has never been such a precedent, and there shouldn't be such a special case! Be it the Vice Hall Master of the continental martial League or the president of the combat guild, they're both top-tier higher-ups in the entire starsource continent. How can they allow a nobody to ascend to such a high position like this?"

"I would like to ask Hall Master Luo, is it really reasonable to do this? Shouldn't we be more cautious? Even if you want to promote the younger generation, you should take it one step at a time and slowly promote from the bottom. "

"Even if it's a reward, the various resources and treasures given by Hall Master Luo are enough to offset Sima Yi's contributions. Why should we break the rules and promote a commoner to the Deputy Hall Master of the continent's martial Alliance and the president of the combat guild? This subordinate asks Hall Master Luo to think twice! If we do this, what will our conscientious colleagues do?"

In Fang Gezi's opinion, although Luo xingliu's actions were reasonable and not wrong, he would really offend a large number of people. It was not worth it.

It was like suddenly promoting a community security guard to the governor of a province. Not to mention whether he had the ability to take on this position, even the other high-ranking officials who coveted this position would never agree with this decision!

In the end, they would hate the person who made the decision, and then casually kill the security guard who wanted to be their boss!

Fang Gezi seemed to be thinking for Luo xingliu, but her real intention was clear-she wanted to stop Lin Yi from becoming the Vice Hall Master of the continental martial Alliance and the combat guild's President!

Luo xingliu smiled and said, "thank you for your reminder, Hall Master Fang. However, the problems you mentioned are not problems! Although Sima Yi has stepped down from his duties as the Great Hall Master and patrol of the martial Alliance of the Sangzi continent, he still has other duties. "

Fang Gezi frowned, remembering that Lin Yi did have the Vice-Presidents of the array formation Guild and alchemy Guild, but he hadn't been to either of them before. It would be more appropriate to call him an honorary Vice-President. It didn't make sense to use that as an excuse!

"Hall Master Luo, even if Sima Yi is the Vice-leader of the Alchemy Guild and the array Guild, he doesn't have the qualifications to be promoted to the position of the continental martial Alliance's vice-Hall Master and the combat guild's President. After all, he has never been to any of the two guilds and is only in name!"

Fang Gezi seized this point and started to talk. ""In this subordinate's opinion, it's more reliable to promote Sima Yi to the president of the array formation Guild or the president of the Alchemy Guild!"

"In this case, with the rewards of materials and treasures, it is enough to reward him for his contribution to mankind! As for the continental martial Alliance, it's better not to let Sima Yi in. After all, he's just been removed from his position as the Great Hall Master of the martial Alliance of the Sangzi continent. This is a punishment!"

"According to Hall Master Luo's decision, isn't it a promotion? What punishment could there be? Who would respect the rules in the future? If everyone wanted to break the rules and seek promotion, wouldn't it be a mess?"

Luo xingliu's eyes were cold as he looked at Fang Gezi expressionlessly. ""Hall Master Fang, are you teaching me how to do things? Do you want me to abdicate my position and give you the position of the Great Hall Master of the continent's martial Alliance?"

"I don't dare! This subordinate has no such intention, I am just stating the facts, please forgive me, Hall Master Luo!"

Fang Gezi hurriedly lowered her head and bowed, but she refused to back down!

Fang Gezi could already foresee Sima Yi's tragic end by letting him take over the continent's martial Union's combat Guild and becoming his direct superior. In addition, Yan Su would go to the great land of Sangzi to be a patrol.

There was no doubt that he would be completely overpowered!

There was still room for negotiation if it was just Yan Su, but with the addition of the Vice Hall Master of the continental martial League and the president of the combat guild, there was no hope!

No matter what, he had to stop it!

Jin botian chuckled and looked at Fang Gezi with a mocking expression. "Hall Master Fang, you're worrying too much! Actually, your problem isn't a problem at all, because besides being the Vice President of the two guilds, Sima Yi has another identity!"

"Vice President of the inspection department! Was this identity enough for him to become the Vice Hall Master of martial League and the president of the combat guild? Does Hall Master Fang have any other opinions on this?"

Fang Gezi was shocked. She had never heard that Sima Yi was the Vice President of the inspection department. She instinctively thought that Jin botian was lying!

"How is that possible? Could it be that Dean Jin was trying to protect Sima Yi and intentionally promoted Sima Yi to the Vice Dean of the inspection department? Hehe! Since when did the inspection department become Dean Jin's place? He removed Sima Yi from his position as the great Zhou's patrol envoy and said it was a punishment, but he's now the vice-principal of the patrol Department. This world is really fair!"

Fang Gezi was furious and spoke to Jin botian in a sarcastic tone!

Jin botian's eyes revealed a look of pity. This unlucky child did not even know the background of his opponent and jumped out to look for trouble in a hurry. He was either iron-headed or brainless!

"This Lord originally doesn't need to explain anything to you, but for the sake of Vice Principal Sima's reputation, this Lord still has to explain! It's not the first time Deputy Dean Sima has entered a Node world. For some reason, his achievements in Feng Qi continent have not been made public!"

Jin botian was ready to clear Lin Yi's name-he'd grown his wings in the inspection department, and Lin Yi was going to join the martial League and take control of the combat guild. The situation was different from before.

"Vice Principal Sima made great contributions as a patrol in Feng Qi great continent. With his achievements in Feng Qi great continent, how could he only be transferred to Sangzi great continent as a patrol? He's also the hall Master of martial League, but he's just taking advantage of the situation and not rewarding us. "

"So from that time on, Deputy Dean Sima became the Deputy Dean of our inspection department. This matter was also resolved by the inspection department, and all the higher-ups of the inspection department knew the details."

Chapter 8976

"You said that this Lord's words are absolute, this Lord really doesn't dare to accept it! However, for the convenience of Vice Principal Sima in the Sangzi continent, his identity had been kept a secret. "Of course, everyone with a high enough status knows about this. It's understandable that Hall Master Fang doesn't know about it. If you don't believe me, you can ask any of the higher-ups in the inspection department!"

Jin botian's words were sharp, implying that Fang Gezi's status was low. She used to be the patrol envoy of the continent and didn't have the qualifications to enter the higher-ups of the patrol Institute, so he didn't have the right to know many things.

Fang Gezi's face turned as pale as a sheet. She believed Jin botian's words because there was no way to fake it. Jin botian's words were not the only thing that mattered in the inspection department. It was actually very easy to investigate this matter. Those who were unhappy with Jin botian would definitely not sit by and do nothing.

So, Sima Yi was really the vice-principal of the inspection department?

So, Sima Yi was fully qualified to become the Vice Hall Master of martial League and the president of the combat guild?

Fang Gezi was dumbfounded. In order to deal with Sima Yi, he had used all his tricks. He even dared to attack himself with the power of the barrier. He was a model example of fighting with his life.

And you're telling me that these are all children's games? His level had long since exceeded this level. Playing with you was like playing with a child. After he was done, he would go back to being a superior!

Now that he thought about it, all the plans he had made before, which he thought were brilliant and peerless, turned out to be like the tricks of a jumping clown. He was so happy to see it!

The more Fang Gezi thought about it, the angrier she became. Her chest tightened, and she almost vomited blood!

In the end, he still managed to hold on. He clutched his chest and staggered two steps back. He cupped his hands and said with gritted teeth, "This subordinate understands! This subordinate is presumptuous!"

After saying that, Fang Gezi lowered her head and returned to the line. No one saw a trace of red flowing out of the corner of her mouth. No one knew if she had really vomited blood or if she had bitten her mouth!

"Does anyone have any other opinions? Is there anyone else who would like to teach me and Dean Jin how to do things?"

Luo xingliu still looked at Fang Gezi expressionlessly. Although he was talking to the others, he was actually trying to beat Fang Gezi down.

The others all felt the same way, so how could they still dare to step forward and say anything?

Anyone could tell that Fang Gezi was done for. After offending her superior, he, the hall Master of the first-grade continent's martial Alliance, was basically crippled!

Not only did this guy talk back to the continent's martial league's Hall Master, but he also talked back to the head of the inspection department. He even offended the Vice head of the inspection department, the martial league's vice Hall Master, and the combat guild's Guild Master, Sima Yi. He was really a tough guy, but he had never seen anyone as tough as this!

A few Great Hall Masters and investigators who liked to gamble were already planning to go back and start a bet on when Fang Gezi would be finished!

The entire place was silent. After two minutes of silence, Luo xingliu nodded slightly and said, ""It seems that no one has any objections to my decision! That's good! Otherwise, I'd really think that the continental martial Alliance has already declined and that no government orders can be passed down!"

The hall Masters of the other continents bowed to Luo xingliu to show their loyalty and obedience to the continental martial Alliance.

Luo xingliu didn't go too far. After saying a few words, he announced the dismissal!

All the continents left one by one, leaving only Lin Yi behind.

"Hall Master Luo, Dean Jin, isn't the appointment a little rushed this time? What did I do to deserve such an important position?"

Lin Yi followed the two to a quiet room and spoke immediately, "Actually, I don't have any ambition. It doesn't matter if it's just in name. As for the president of the combat guild, I'd like to ask Hall Master Luo to choose another capable person!"

He'd had all sorts of titles already, and a few more didn't really matter, but he really didn't want to be the head of some Department with real power.

It was too troublesome!

Just like the array formation Guild and alchemy Guild, he could be the Vice President without having to do anything!

"Vice clan leader Sima, you're too humble. If you're not qualified, who else in this world is qualified to take on such an important task? You don't have to decline, for the sake of the survival of our human race, Deputy Hall Master Sima has to put in a lot of effort!"

Luo xingliu chuckled as he poured Lin Yi a cup of tea. "Actually, with your achievements, Sima, it's only right for me to give you my position as the hall Master of martial League. If you continue to decline humbly, I'll really have to step down and give my position to a better person!"

Lin Yi shook his head with a bitter smile. The hall Master of martial Union was even more troublesome- please don't!

"Alright, let's not talk about these things anymore. Let's talk about serious matters. Sima, you're the main character, so you have to put in more effort!"

Jin botian ended the conversation and said, ""The three of us have met today to discuss the matters of the darkness demon beast clan. This matter concerns the rise and fall of humanity, so we can't be careless!"

Lin Yi straightened his back and made a listening gesture.

If the darkness demon beast clan were to make a move, then he would not be held back and would have to solve the problem no matter how troublesome it was!

"According to our intelligence, the darkness demon beast clan is becoming more and more active. Although Sima's entry into the node has disrupted their plan, the darkness demon beast clan hasn't stopped. They're preparing to welcome the revival of their King!"

Jin botian's smile disappeared and his expression turned serious. ""Once the king of the darkness demon beast clan revives, they'll definitely attack the spatial node. Our starsource continent has 39 continents, and the starsource continent has just been repaired, but the other continents might not be in good condition."

"Sima, I've appointed you as the Vice Hall Master of the continent's martial Alliance, the president of the combat guild, and also the Vice President of the patrol Department. I want you to investigate the dark Demon beast clan's conspiracy!"

"You have Daniya by your side now. We can use her to get close to the dark Beast clan's spy, Dian Youwei. We should be able to obtain more information that will be of help to our operation."

"But we can't completely rely on Daniya. If she's deceived by Dian Youwei and sends us false information, we'll be in a passive position."

"So, you have to think of another way to deal with the darkness demon beast clan! In terms of investigation, you have the highest authority in the starsource continent. If you need it, you can mobilize all the resources in the entire starsource continent to assist you!"

This was also why Lin Yi was the hall Master, vice-director, and President of the combat guild. In terms of strength or influence, Lin Yi's power was almost on par with Luo xingliu and Jin botian.

The three of them could be considered the three magnates of the starsource continent!

The other vice heads of the martial Alliance, the Vice heads of the regular branch, or the Vice heads of the inspection department couldn't even be compared to Lin Yi!

Lin Yi rubbed his brows, his heart heavy. The entire 39 continents of the Xingyuan continent were on his shoulders. This responsibility was too heavy!

Chapter 8977

Other people would be overjoyed to have a position like Lin Yi 's, but Lin Yi wasn't at all. He had no interest in power to begin with, and now he had to take on responsibilities that matched the power. It was a huge burden!

"Sima, in the entire starsource continent, there might be someone who understands the darkness demon beast clan as well as you. However, when it comes to fighting against the darkness demon beast clan and entering the node world to investigate, no one would dare to claim to be the best!"

Jin botian patted Lin Yi's shoulder, his expression serious, "With great power comes great responsibility! Other than you, I'm afraid no one else can take on this task!"

He was afraid that his little brother Lin Yi wouldn't be too willing, so he spoke first.

Jin botian actually hoped that Lin Yi would stay in the inspection department and help him, but compared to the bigger picture, what was a mere inspection department? Jin botian was not a selfish person. Compared to the safety of mankind, he did not care about the control of the inspection Institute at all.

"I understand. Since Hall Master Luo and Dean Jin are willing to believe in me, I will definitely do my best for this matter!"

Lin Yi smiled bitterly inside-what did she mean by "with great power comes great responsibility"? she wasn't a little spider, after all, she didn't need words like that to encourage her.

The dark Demon beast clan was the biggest enemy of humanity. Lin Yi wasn't a Saint, and he didn't have the ambition to save the world, but he couldn't just stand by and watch the dark Demon beast clan wreak havoc. After all, there were still many people he cared about in this world, and for their safety, he couldn't let the dark Demon beast clan see the light of day again!

"We don't know what the darkness demon beast clan will do next, but we can't just passively wait for them to attack us. We need to make preparations!"

Lin Yi got into character and started giving suggestions, "There's no hope of victory if we're on the defensive, and we'll definitely lose if we defend for a long time. In our fight against the darkness demon beast clan, we've always been on the defensive, and the initiative has always been in the hands of the darkness demon beast clan. "

"This can't go on. I think we should start forming an elite army and take the initiative to attack the darkness demon beast clan. We don't need to be able to kill them, but we need to at least be able to destroy their plans."

"No problem. I'll leave this matter to you. If you need any assistance, just tell me. You can also choose any personnel you want!"

Luo xingliu immediately decided."This team will be led by you. You have full autonomy in any action. You don't need to ask us for instructions. Of course, if you have any plans, you can also tell us."

Lin Yi nodded. He didn't have a detailed plan right now, of course. It was just a concept. After he became the combat guild's President, it wouldn't be a problem for him to build an elite team like this.

He controlled all the battle generals of the thirty-nine Continents. It was as easy as turning his hand if he wanted to gather experts!

Other than battle generals, there were also a large number of resources that could be used, such as the intelligence network of various continents. Not only could he use them to find out information about the darkness demon beast clan, but he could also gather information about some super families!

It was a combination of public and private interests, killing two birds with one stone!

From the looks of it, there was a good side to having such power. It was better to use public office for personal gain than to have no clue at all!

"Understood, then I will agree to this matter! As for the darkness demon beast clan, I'll start gathering information as soon as possible, and I'll also start preparing for the formation of an elite team!"

Both Luo xingliu and Jin botian smiled at Lin Yi's acceptance of the mission. In fact, Lin Yi wasn't the only one who could do this-the entire starsource continent was filled with talents, and there was bound to be a suitable candidate to lead.

However, Lin Yi was the most special one. Whether it was Luo xingliu or Jin botian, they both thought that Lin Yi was the most suitable one. Perhaps someone could do this, but no one could do it better than Lin Yi!

"That's great! With you in charge of this matter, I think we're already halfway to success! Strike the iron while it's hot, why don't we go and do your inauguration procedures now?"

Luo xingliu couldn't wait for Lin Yi to start working. Although he had announced Lin Yi's appointment, he still wasn't the Vice Hall Master or the combat guild's President before the procedures were completed.

"No need, no need, I'll do it myself! It's not a big deal, so there's no need to trouble Hall Master Luo to accompany me personally!"

Lin Yi waved his hand in refusal-it was just the procedure, and it was too high-profile to have the Grand Hall Master of the continental martial Alliance come with him.

As for the inauguration ceremony, there was no need for it at all. The appointment had already been announced in front of the martial Alliance's great Hall Master and the patrol envoy of the 39 continents. There was no more Grand inauguration ceremony than this.

Jin botian nodded."That's good. You don't have to worry about it, Hall Master Luo. Let Sima walk around on his own. He'll be able to better understand and grasp the situation in martial League. It's not good for you to follow him."

The martial Alliance was the same as the inspection department-they weren't United, and they had their own factions. After Lin Yi became one of the tycoons, he needed to know how the internal department of the martial Alliance would react.

If Luo xingliu followed Lin Yi, their reactions would be hidden. Only when Lin Yi went alone would they show their true state.

Luo xingliu immediately understood and nodded with a smile.""Dean Jin is right. We should take advantage of the fact that the news hasn't spread yet and let Sima take a look at martial league's situation. It'll also lay the foundation for our future work. There's no time to waste, Sima, you should set off now!"

As he spoke, he took out two appointment letters and handed them to Lin Yi. One was for the Vice Hall Master of the martial Union, and the other was for the combat guild's President. With these two appointment letters, Lin Yi would be the official higher-up of the martial Union, a giant of the continent!

Luo xingliu had prepared these two appointment letters a long time ago. No matter what results Sangzi Dazhou would achieve under Lin Yi's leadership, he would give them to Lin Yi. However, he was worried that Lin Yi would reject him, so he didn't finish the procedures. That was why Lin Yi had to handle it personally.

Lin Yi took the two letters of appointment and cupped his hands to Luo xingliu and Jin botian, "I'll go over now. After I'm done with the procedures, I'll come back to talk to Hall Master Luo and Dean Jin."

At the same time, in another place of martial League, Fang Gezi was talking to one of the Vice Hall Masters of martial League on the continent. This vice Hall master's name was Fang deheng, Fang Gezi's cousin from the same clan. However, the two bloodlines had taken root in two different continents and had not had much contact in the past.

In terms of blood relations, the two of them were relatively close. They were cousins within three generations. With the family as a link, the difference in status between the two was not big, so they would naturally be close when they met.

Other than getting close to Fang deheng, Fang Gezi also wanted to make things difficult for Lin Yi.

Chapter 8978

"Cousin, that Sima Yi is arrogant and despotic. This time, he has also been highly regarded by Hall Master Luo. Once he becomes the Deputy Hall Master, his position might even be above yours. You must be more careful!"

Fang Gezi looked worried for Fang deheng and incited him, ""Cousin and Hall Master Luo shouldn't be on the same side, right? Sima Yi's entry into martial League might be a signal for Hall Master Luo to beat down and push out his cousin! I thought that after becoming the Great Hall Master of the martial Alliance of a first-class continent, I would be able to coordinate with my cousin and help each other, but it seems that it's a little difficult now!"

Fang deheng snorted, his face showing his displeasure, "Don't boost other people's morale and diminish your own prestige. Even Luo xingliu couldn't do anything to me, so what can a mere newcomer do? You don't have to say anything, I know that Sima Yi and you don't get along, and the Sangzi continent you're taking over is his territory. "

"You're afraid that Sima Yi will do something bad and hinder you from controlling the great land of Sangzi, right? Don't worry, I'll naturally beat Sima Yi up so that he won't have the time to set up obstacles for you in the great land of Sangzi!"

Fang deheng did not know what had happened during the team battle, nor did he know the details of the rewards after the competition. He only knew that Fang Gezi and Sima Yi had been at odds before the team battle.

After listening to Fang Gezi's brief description, she thought that she understood everything and didn't take Lin Yi seriously!

Fang Gezi didn't want to share all the information with her cousin on purpose, but she didn't want Lin Yi to kill Fang deheng and make him lose an ally.

After some thought, Fang Gezi said, ""With cousin handling it, everything will naturally be fine. However, Sima Yi can not be underestimated. Cousin, don't take action personally. It's best if you can hide in the dark and let Sima Yi suffer a few more losses. We still can't find out who's targeting him!"

If it had been anyone else but Fang deheng, Fang Gezi would not have bothered to say these words. It was enough as long as he could use her. He did not care if she was Dead or Alive after using her.

Fang deheng was different. After all, they were of the same clan and bloodline, so he would be of greater use in the future.

"I know, I know. You're just too careful. It's just a mere Sima Yi, what's there to be afraid of? I can deal with him easily, so just watch!"

Fang deheng waved his hand dismissively, completely unaware of Fang Gezi's good intentions.

Fang Gezi pursed her lips. This was all he could say. If he said anything more, Fang deheng might not dare to deal with Sima Yi anymore!

There was no other way, he could only let Fang deheng play freely, and hope that his cousin could escape in one piece! After all, Fang Gezi had already warned him in advance, so he couldn't be blamed for what happened.

The two of them exchanged a few more words before leaving. Fang Gezi had to make some preparations before leaving for Sangzi continent to take over the position of martial Alliance's great Hall Master.

Fang deheng, on the other hand, went to the Department of martial Union to handle the inauguration procedures, ready to wait for Sima Yi to take up his position. At the same time, he made some arrangements to give Lin Yi a show of strength.

It was still early, and Fang deheng was sure that Lin Yi would come first to complete the procedures. Waiting here was definitely the right choice!

As expected, Fang deheng didn't have to wait long before Lin Yi came looking for him, but he couldn't even get close to the entrance. He was stopped by the guards at the outer gate.

"Martial league's restricted area, unauthorized people are not allowed in!"

The two guards stopped Lin Yi with a blank face. They were the people Fang deheng had arranged. They could at least annoy Lin Yi.

Lin Yi didn't think much of it at first-he thought it was normal, so he cupped his hands with a smile. "I'm Sima Yi, I'm here to handle the procedures for my inauguration. I'm not an unrelated person ..."

"I don't care who you are. As long as you're not an internal member, you can't enter! If you want to do something, at least you need someone to accompany you!"

One of the guards looked at Lin Yi coldly. "You said that you're here to go through the procedures for taking up the position, so why isn't anyone following you? Hurry up and go find someone who can help you do things before coming back!"

The other one had a disdainful look on his face as he mocked in a low voice, ""There are really all kinds of people nowadays. Do you think that the continental martial Alliance is a place where anyone can enter and leave as they please? Do you have any good eyesight? He really doesn't know the immensity of heaven and earth!"

Lin Yi raised his eyebrows, finding it funny. He was the Vice Hall Master of the martial Alliance, the president of the combat guild, and the leader of all the generals in the thirty-nine Continents. How could he be mocked by two guards?

People at different heights had different views and perspectives, and Lin Yi wasn't going to get angry at these two small characters. He smiled, "I'm Sima Yi, the newly appointed vice Hall Master of the martial Alliance and the president of the combat guild. I'm here to complete the inauguration procedures, but I can't even enter?"

As he spoke, Lin Yi took out the two appointments and showed them to the guards. "In theory, I shouldn't be considered an idle person, right? We're all martial League members, but can't we go through?"

If it were someone else with such status and strength, they wouldn't even talk nonsense with the small fry guarding the door. So what if they directly flew in?

Lin Yi, on the other hand, didn't bother to attack these small people at the bottom. The real upper-class people didn't lack this kind of bearing. Of course, there were also people who would take revenge and kill those who offended them!

The two guards looked at each other and panicked. They were Fang deheng's men, and they were willing to listen to Fang deheng's orders to stop someone from entering.

However, when the person being blocked was the newly-appointed vice Hall Master of martial League and the president of the combat guild, it was completely different!

When Immortals fight, mortals suffer! When the city gate caught fire, the fish in the moat would be affected!

If they were to get involved in the battle between the two vice Hall Masters, they would die without even knowing how they died!

If he disobeyed Fang deheng's orders, he would end up in a miserable state. As Fang deheng's subordinate, disobeying his superior's orders was the same as betraying him. What good would come out of this?

If they continued to carry out the order, they would completely offend the upstart of martial Union in front of them. From these two letters of appointment, it could be seen that Sima Yi's power may be above Fang deheng 'S. Small figures like them could not even withstand his little finger!

No, he didn't even need his pinky finger. He only needed a light breath to destroy the two of them!

I'm going to die!

The two guards' hearts were in turmoil, and for a moment, they didn't know how to react. But when they saw their companion's pale face and cold sweat on his forehead, they knew that their own situation was not much better. Most likely, they were in the same boat!

Just as he was in a dilemma, Fang deheng came out!

Fang deheng had been waiting for Lin Yi at the administrative department, but after sensing Lin Yi's arrival, he decided to go himself, thinking that the guards wouldn't be able to stop him.

Chapter 8979

No matter what, he had to give this new vice Hall Master a taste of his might and let him know the rules that seniors and juniors should abide by!

"What are you arguing about? Where do you think you are? This is the continental martial League, not a market!"

The moment Fang deheng appeared, he exuded a thick aura of authority. When the two guards saw him, they felt as if they had been granted Amnesty, and their bodies relaxed.

"Greetings, vice head Fang!"

The two of them bowed in unison, and then one of them explained the situation, ""This Lord calls himself Sima Yi. He has two letters of appointment with him, saying that he wants to go in and handle the procedures for inauguration. As Lord Sima has no one to accompany him, we stopped him ..."

Lin Yi raised his eyes to look at Fang deheng. He'd never seen him before, but Zhang Yiming's basic information had Fang deheng's name in it. With the comparison, he naturally knew who this person was.

"Sima Yi greets vice clan leader Fang! We'll all be colleagues in the future, so we should get to know each other more often!"

Lin Yi cupped his hands in greeting, giving Fang deheng enough face. They were both vice-heads, and in terms of power, Lin Yi had much more than Fang deheng.

To be able to greet him first as an equal, Fang deheng, the Vice Hall Master, should be able to receive the goodwill, right?

Fang deheng completely ignored Lin Yi's kindness and waved at the two guards with a cold face, "You've done a good job. You're a model of loyalty. Things that don't conform to the rules should be stopped by force!"

Lin Yi's eyes narrowed-this guy didn't look friendly!

Fang deheng waved the two guards away and turned to Lin Yi, "Sima Yi, right? I've heard of you before. So you're the hall Master of the martial Alliance of the Sangzi continent and also a patrol. Your words carry enormous weight in the Sangzi continent. "

"It's a pity that you're no longer the Great Hall Master of the martial Alliance of the Sangzi continent, nor are you the patrol envoy of the Sangzi continent. This place is also no longer the Sangzi continent, but the martial Alliance of the starsource continent!"

"Since you're here, you have to follow the rules. Nothing can be accomplished without rules. If you want to do something, you have to be accompanied by internal staff. It's improper to walk around alone!" Since this is your first offense, I won't punish you today. You can leave now!"

"After you've found someone to accompany you, you can go through the procedures! Do you understand? If you understand, then hurry up and leave! Don't waste my time here!"

Lin Yi laughed coldly in his heart. This Fang deheng wasn't easy to deal with! When did he offend him? Or was he standing up for someone?

Fang deheng ... Fang Gezi ... They were both Fang 's, so they were probably Birds of a Feather!

Zhang Yiming hadn't been here for long, so he didn't have any detailed information. He didn't know if Fang deheng and Fang Gezi were cousins.

But Lin Yi only needed a simple deduction to understand what was going on!

"Vice Hall Master Fang, the letter of appointment in my hand was personally signed by Hall Master Luo. In theory, I'm already the Vice Hall Master of martial Alliance and the president of the combat guild. With such a status, am I not qualified to walk in martial Alliance?"

Now that he knew the enemy's background, Lin Yi naturally wouldn't hold back. He immediately entered his sharking mode, "Hall Master Luo wanted to accompany me to complete the procedures, but I rejected her. Could it be that vice Hall Master Fang is above Hall Master Luo in the martial Alliance and can ignore Hall Master Luo's appointment letter and set rules as he wishes?"

Fang deheng paused. He came here to knock Lin Yi down, but he was knocked down by Lin Yi instead. He wasn't on Luo xingliu's side, but he couldn't bring this up in the open.

On the surface, martial league's inner circle would definitely still be led by Luo xingliu, and no one could deny his appointment letter!

"Vice Hall Master Fang, I'm here with a letter of appointment to complete the inauguration procedures, but you're not letting me go. Are you looking down on Hall Master Luo or me, the newly-appointed vice Hall Master of martial Alliance?"

Lin Yi continued to press on, not giving deheng the chance to catch his breath. "After going through the formalities, we will be colleagues. Do you mean that you don't want to acknowledge Hall Master Luo's appointment or that you don't want me to become the new vice Hall Master?"

Fang deheng was secretly angry, this guy was really annoying! No wonder brother Fang Gezi had a hard time calming down! Why was he speaking the truth all day long?

"Sima Yi, don't make false accusations! I'm loyal to Hall Master Luo and the martial Alliance. As for you, there's no enmity between you and me, so why should I target you?"

Fang deheng calmed himself down and maintained a calm expression. "Rules are rules. Since they've been set, they're meant to be followed. You can't make an exception for you just because you're the future vice Hall Master! If we follow the orders of our superiors, how will we manage the martial Alliance in the future?"

There was some logic to his words, and Lin Yi had to admit that Fang deheng's eloquence was decent.

Fang deheng did not stop and continued, "Of course, Hall Master Luo's appointment and Sima Yi's identity are special. Although we can't make an exception, we can still be lenient. Do you see the small door over there?"

They were standing at the entrance to the Human Resources Department of martial League. Ten steps away, there was a small door on the wall. It was no higher than two meters and no wider than 1.2 meters. It was only wide enough for one person to pass through. It would be difficult for those who were burly to even enter, as they had to lower their heads and hold their chests.

Fang deheng was pointing at this small door, "That small door is usually used by the servants of martial League. Although there are guards, they're not that strict. Sometimes, people who come to do some small things will also go in and out through that door!"

"If you really want to go in and do things now, then go in through that small door. However, I have to remind you that there is no problem going in through the small door, but those who go through the small door must undergo a public search to prevent anything bad from being brought in. I hope you can understand, Sima Yi!"

This was blatant humiliation. As the Vice Hall Master of the martial League and the president of the combat Union, he could only go through the small door that servants could pass through before taking on his new position. He even had to be publicly searched. How was he going to survive in the martial League in the future?

If Lin Yi agreed, his subordinates would look down on him!

"Heh ... Isn't it a little inappropriate for vice head Fang to do this? Do you think that a vice Hall Master of martial League should experience such humiliation?"

Lin Yi's words didn't scare Fang deheng at all. Instead, he sneered, "Vice Hall Master? The Vice Hall Master naturally won't suffer any humiliation, and this Lord will definitely not allow such a thing to happen!"

"It's a pity ... Sima Yi, are you still not clear about the situation? You haven't gone through the official procedures yet, and you're only holding a letter of appointment. You're not the Vice Hall Master of our continent's martial Alliance!"

"Not only are you not the Vice Hall Master of the continent's martial Alliance, but you've also been relieved of your position as the Great Hall Master of the martial Alliance in the Sangzi continent. In other words, you're just a commoner now. What are you putting on airs in front of me for?"

Chapter 8980 The Power Of The Devil

Fang deheng glanced at Lin Yi and smiled coldly, "Since you're not a member of martial League now, the rules of martial League are clear. You can either obey them or leave. There are only two choices. You can decide for yourself!"

Lin Yi squinted his eyes and smiled. "Not bad, not bad. Vice head Fang is really loyal to martial League. I really admire you!"

Lin Yi didn't even bother to hide the sarcasm in his voice, but Fang deheng didn't seem to feel anything at all. He didn't even look ashamed.

Now that things had come to this, Fang deheng's attempt to make things difficult for Lin Yi was obvious. Lin Yi understood that reasoning with him wouldn't work. Fang deheng was determined to give him a taste of his strength today. He wouldn't change his mind no matter what.

It wasn't a big deal-she'd only piss Lin Yi off a little, but it didn't matter if she made a scene.

Lin Yi could've used his status as the Vice-Presidents of the alchemy and array guilds if he wanted to reason with Fang deheng. These two guilds were under the martial Alliance, and it was impossible for Fang deheng to say that he wasn't an internal member of the martial Alliance.

But Lin Yi didn't plan on continuing to argue-he'd just do it if he could!

Since Fang deheng wanted to show off, Lin Yi didn't need to be polite. He'd make a big deal out of it and see who'd be the one showing off in the end!

"There's no need for admiration. Sima Yi, you'd better make a decision quickly. Do you want to enter through the small door and accept a public search, or do you want to leave immediately and find someone to accompany you?"

Fang deheng's face was calm and he felt that victory was already in his hands, "There are only two choices, and neither is a big deal. Just choose one! Don't waste my time here!"

This was a show of strength to Sima Yi, and after he had lost his spirit, he would slowly take care of this brat!

Lin Yi didn't follow the script, however-he looked at him with a smile that wasn't a smile. "I don't want either of the two options. The third option is more like it!"

fang deheng's eyes turned cold, "there are only two options, there is no third option!" sima yi, what are you trying to do? this is the headquarters of the martial alliance in the starsource continent, not a rural place like the sangzi continent you used to stay in! don't blame the martial alliance for suppressing you if you dare to cause trouble!"

although he said that, fang deheng was actually hoping that lin yi would explode and cause some trouble so that he could take care of lin yi.

lin yi was very willing to cooperate in this aspect, "why isn't there a third option? i won't choose either of them. i'm going to enter through the main entrance today, and i won't let anyone search me!"

"how audacious! even if you're already a vice hall master, you still don't have the right to break the rules of martial league, let alone the fact that you're not a vice hall master yet! i advise you to think twice and not make a mistake!"

fang deheng was furious, pointing at lin yi and yelling at him, but he was laughing inside. he was waiting for lin yi to make a move!

lin yi snorted and ignored the cowardly fang deheng as he walked through the front door.

if there were only two guards before, lin yi wouldn't bother to bully the weak, so he didn't want to force his way in. now that fang deheng jumped out to take charge, there was no need to be polite anymore.

fang deheng's status and strength were both very strong, and lin yi felt that he could barely be considered an opponent. breaking through the front door with an opponent like this didn't look like bullying the weak!

"If you say it's a mistake, then it's a mistake! I'm going in from the front door now. Try stopping me if you have the guts!"

Lin Yi had already reached the stairs in front of the main door as he spoke. It was only two more steps and they would really enter the main door. The two guards froze on the spot, not knowing whether to advance or retreat. Seeing that deheng didn't say anything, they decided to play dumb.

"How audacious! How dare you break the rules and barge into the continental martial League! You've gone against the heavens!"

Fang deheng shouted and raised his hand to block Lin Yi. He thought he could block it, but he didn't know Lin Yi at all.

Lin Yi had always been amenable to coaxing but not coercion-if Fang deheng wanted to use force, he'd have to have the ability to do so!

Before she could even touch the corner of Lin Yi's shirt, Lin Yi grabbed her wrist and threw Fang deheng, the Vice Hall Master of the continental martial Alliance, in a half-circle in the air. The man flew over Lin Yi's shoulder and smashed into the stone floor behind him.

The hard bluestone floor shattered and was instantly covered with Spider-like cracks. It looked like he had fallen quite hard.

Fang deheng's mind was a little blank, but he quickly reacted. He was F * cked by Lin Yi!

"Sima Yi! How dare you! How dare you attack me in public! You're dead!"

As an expert in body refining, this impact naturally could not hurt Fang deheng's body, but it severely hurt his face and mind. So when Fang deheng regained his senses, he screamed, even his voice broke!

Lin Yi turned around and looked down at Fang deheng, a mocking smile on his face."Vice Hall Master Fang, you should've been mentally prepared for this before you tried to stop me, right? Don't pretend to be pitiful here and say that I attacked you!"

"Who made the first move, do I need to say? If you're not convinced, then get up and fight. Who are you acting like a woman for?"

Since he was an enemy, there was no need to give him face. Lin Yi's sarcasm was indeed not giving him any face.

What rules? it was really laughable. As the Vice Hall Master of martial League, how could he not make the decision to let someone who was here on business enter?

Even if Lin Yi was a commoner, Fang deheng could let him go with just a word, let alone the fact that Lin Yi would be a vice Hall Master of martial Union on the same level as him.

If you insist on finding fault, then let's all find fault together. If you want to act pitiful, then I'll make you really pitiful!

"Men! Take down this ignorant fool! I'd like to see if Hall Master Luo will protect such a crazy and ignorant subordinate like you! Do you really think that you can do whatever you want in martial League just because you have two appointment letters?"

Fang deheng jumped up from the ground, shouting for help while distancing himself from Lin Yi.

From the short exchange just now, he already understood that he was no match for Lin Yi in terms of martial arts. It was impossible for him to fight Lin Yi one-on-one. He had to use the terrain and the people to his advantage and use the human wave tactic to deal with Sima Yi!

Hearing Fang deheng's call, a large group of martial artists rushed out from the gate. There were more than 30 people in total, each of them with extraordinary strength, and they even formed a battle formation.

Needless to say, these martial artists were also part of the backup plan that Fang deheng had arranged. They were waiting to come out and deal with Lin Yi if there was a disagreement, and now they were finally put to use!
