

Bodyguard 8981

Chapter 8981

They were all Fang deheng's trusted aides. Even if Lin Yi had already been appointed as the Vice Hall Master and the combat guild's President, these martial artists would attack Lin Yi without hesitation under Fang deheng's orders!

"Arrest him, arrest him! I will definitely punish him today! This is outrageous! How dare you attack me in the territory of the martial Alliance!"

Fang deheng's face was flustered and exasperated, but his heart was filled with joy and certainty. He felt that victory was in his hands. Sima Yi was facing a battle formation set up by more than thirty elite martial artists. If he dared to fight back, the matter would blow up, and how would he end it?

Sima Yi was definitely going to take this down!

Lin Yi shook his head with a smile. It seemed like his name wasn't loud enough. At this point in time, there were still people who thought that a normal battle formation and thirty people were enough to deal with him?

Was he being looked down upon?

The thirty-man formation didn't even have the time to move before Lin Yi broke into the critical position, and with a casual punch and kick, it fell apart into a pile of loose sand.

The practitioners in the formation were strong, but compared to Lin Yi, they were only the weakest of the weakest. He didn't even need to take them seriously-he could just kill them with ease.

If Lin Yi got serious, he'd lose to a fighter of this level!

Fang deheng was still shouting at the side, and in the blink of an eye, all his men were lying on the ground, each one of them groaning in pain.

Strong! He was too strong!

The situation seemed to be within his expectations, yet also outside of his expectations. Fang deheng was a little dumbfounded, and Lin Yi's cold eyes made him panic even more!

"Vice head Fang, do you have any more tricks up your sleeve? Just take it out, if you don't have it, I'll go in and do something!"

Lin Yi didn't continue to attack Fang deheng, not because he had any concerns, but because he felt that Fang deheng wasn't worth his time!

Fang deheng's mouth twitched, he didn't know how to refute Lin Yi, because the strength Lin Yi showed was far beyond his imagination. If he continued to rush up, he was afraid that his brain would be beaten up.

Just as he was in a dilemma, a man came out not far away and saw the cultivators lying on the ground. He immediately frowned and scolded with a slight displeasure, "What are you guys doing? There's actually a fight going on within martial League, don't you have any rules?"

Fang deheng turned his head and his eyes were filled with joy. He rushed over and bowed respectfully, ""Hall Master Chang! There are indeed people here who don't follow the rules and want to break into our martial league's internal department. They're even using their superior cultivation base to deter us with their martial strength!"

Lin Yi raised an eyebrow-it was a man in his forties, square-faced and arched eyebrows. He looked righteous and had a natural aura around him.

Although he had never met him before, since his surname was Chang and he was addressed as Hall Master, and Fang deheng was even bowing to him, there was no need to ask. It must be the martial Alliance's managing vice Hall Master, Chang Huaiyuan, who was briefly mentioned in the intelligence report!

Fang deheng's mouth didn't stop as he continued to insult Lin Yi, making him look like a Tattletale in front of the person involved!

If the Vice Hall Master Chang Huaiyuan wanted to suppress someone, the effect would be much better than Fang deheng. Whether the person who was suppressed could make a comeback would depend on Chang Huaiyuan's mood.

Of course, that was under normal circumstances. Lin Yi wasn't a normal person. If Chang Huaiyuan really went against Lin Yi, he would most likely be the one at a disadvantage!

"Your honor is Sima Yi? I've heard that you've made quite an outstanding achievement in the matters of the darkness demon beast clan, but this can't be a reason for you to disrupt the martial Alliance. If you don't have a reasonable explanation, I won't allow you to cause trouble!"

Chang Huaiyuan's expression was the same as usual, but he wasn't very polite when he spoke to Lin Yi.

"Vice head Chang, is it?" Lin Yi cupped his hands. I'm Sima Yi, that's right, I'm here today to complete the inauguration procedures. This is the appointment letter signed and signed by Hall Master Luo, please take a look at it, vice Hall Master Chang!"

The two appointment letters were displayed once again. Chang Huaiyuan glanced at them, his face darkening. It was obvious that he didn't know that Lin Yi had been appointed as the Vice Hall Master and the combat guild's President.

As the second-in-command of martial League, he should be the first person to know about such a major event. Now that Luo xingliu had made a decision, he should at least let him know, even if there was no discussion.

Yet, Lin Yi was already here doing the procedures, and Chang Huaiyuan only just found out about it. As the Vice Hall Master, was he that shameless?

Especially when Fang deheng addressed him as Hall Master Chang, but Sima Yi insisted on adding the word 'vice' to it, which made Chang Huaiyuan very unhappy! After all, an Executive Vice Hall Master was half a level higher than an ordinary vice Hall Master. He belonged to the leadership level!

It's only right to call him Hall Master, but why did he have to add the word vice? who was he looking down on?

Fang de Heng interjected from the side: "Hall Master Chang, Sima Yi came with the appointment letter, but no one accompanied him. According to the rules, he is not allowed to go in to go through the procedures. This matter was explained clearly to him, but he refused to listen. He still wants to rely on his strength to cause such a big commotion, this is simply preposterous!"

After another round of adding oil to the fire, Fang deheng understood that with his strength, he wanted to give Lin Yi a taste of his own medicine, but in the end, Lin Yi was the one who gave him a taste of his own medicine. If he wanted to get back at Lin Yi, he had to rely on Chang Huaiyuan!

Chang Huaiyuan and Luo xingliu were rivals. They were the leaders of the two largest factions in the continent's martial Alliance. The combat guild's Guild Master was originally under Chang Huaiyuan, but he had just been relieved of his position due to an accident.

In order to continue competing for the combat guild, the most powerful Department, Chang Huaiyuan was still trying to push his own people up there, but Luo xingliu just arranged for Lin Yi to be there without any warning!

If it was someone else, Chang Huaiyuan could still find a lot of excuses and problems to object, but Lin Yi was a special case!

Whether it was the achievement of destroying the plans of the darkness demon beasts in the spatial node or the experience of almost winning all the battles against the darkness demon beasts, his perfect resume!

To be honest, Chang Huaiyuan couldn't deny that Lin Yi was indeed the best person to control the combat guild and deal with the dark Demon beasts!

However, knowing this did not mean that he would not object to it!

"So it's Deputy Hall Master Sima who's here to handle the inauguration procedures. Although there's a reason for this, it's not right to break the rules! It was originally a trivial matter, but now it has become a little troublesome!"

Chang Huaiyuan quickly adjusted his expression and nodded at Lin Yi with a smile. "In the future, we'll all be colleagues. We'll still have to work together and work together. We need to be sincere and United. Today was all a misunderstanding. Deputy Hall Master Sima, you apologize to Deputy Hall Master Fang. And these brothers, you apologize too. This matter will be considered over!"

Chapter 8982

"As for the procedures, I'll personally accompany you there. It won't be considered a violation of the rules. I wonder what you think about handling it this way, Deputy Hall leader Sima?"

Chang Huaiyuan's tactic of taking a step back for the sake of advancing seemed to be a fair solution to the problem on the surface, but in reality, he was making things difficult for Lin Yi.

Asking Lin Yi to apologize to Fang deheng meant that Lin Yi was in the wrong today!

Apologizing to the martial artists who had attacked first was almost an insult. It was as if you had to smile, nod, and bow, and say thank you when someone had slapped you.

Lin Yi wasn't a narrow-minded person, but he wasn't stupid enough to be magnanimous. He laughed and shook his head after hearing Chang Huaiyuan's words.

"Thank you for your kind intentions, vice Hall Master Chang. However, I can complete a small matter like the inauguration procedures myself. There's no need for you to come, vice Hall Master Chang!"

Lin Yi rejected Chang Huaiyuan's suggestion to accompany him. He then looked at Fang deheng and his men. "As for these people, they're being unreasonable. They're using a chicken feather as a token of authority, and they still want me to apologize? It's simply ridiculous!"

"They know that I'm the Vice Hall Master of the martial Alliance and the president of the combat Union, yet they still want me to enter through the servants' door and accept a public search. Vice Hall Master Chang, do you think they're humiliating me or the continent's martial Alliance?"

Chang Huaiyuan raised his eyebrows slightly and glared at Fang deheng unhappily. "So there's such a thing? What an idiot!"

It was so obvious that they were going to fall out on the spot! She really didn't know what was in his head. Brain or tofu?

"Deputy Hall Master Sima, please calm down. Deputy Hall Master Fang is a square and old-fashioned person. He places more importance on the rules, so he won't be too flexible. There is indeed such a rule ..."

Even if Chang Huaiyuan wanted to deal with Lin Yi, he wouldn't do it in the open. He had to plan in the dark and kill Lin Yi in one blow, so he smiled and explained that Fang deheng didn't do anything wrong, it was just that his method was wrong.

Lin Yi looked at Chang Huaiyuan with a half-smile on his face before asking, "Vice Hall Master Chang, I'm actually the Vice-President of the array and pill Dao guilds. I'm also considered an internal member of the martial Alliance, right?"

"Even if this double Vice President doesn't count, does the higher-ups of the inspection department have to go through the side door and accept that kind of public body search when they come here to do something?"

If you dare to say yes, GE will dare to turn martial League upside down today!

Chang Huaiyuan's expression changed. He had been too focused on the Vice Hall Master and the combat guild's President, especially the position of the combat guild's President, which he had been planning for all this time. He had forgotten that this person in front of him had other identities!

It was a mistake! If one's vision was too limited to what they valued, they would ignore certain things that already existed!

He'd heard that Chang Huaiyuan was the martial Union's vice Hall Master, and Lin Yi was the Vice-headmaster of the inspection department, but Lin Yi hadn't come to the starsource continent yet, so he didn't think much of it.

Now that Lin Yi mentioned it, Chang Huaiyuan immediately recalled the news!

"Hahaha, I forgot that Deputy Hall Master Sima is also the Vice President of the inspection department. At the same time, he's also the double Vice President of the array Dao Guild and the alchemy Dao Guild. In that case, we're already a family!"

Chang Huaiyuan quickly adjusted his mood and smiled at Lin Yi with cupped hands. "It's really like a flood washing over the temple of the Dragon King. As expected, this matter was a misunderstanding! Vice clan leader Fang was rash, but he didn't mean to offend vice clan leader Sima!"

"Even if vice Hall Master Sima hasn't taken office yet, we still have to give a Grand welcome to the Vice-headmaster of the inspection department coming to martial Union to handle some matters. How could we possibly stop him? This matter is a misunderstanding. Vice Hall Master Fang has been patrolling the various continents before, so he doesn't know vice Hall Master Sima. This is excusable, please forgive him, vice Hall Master Sima!"

Fang deheng was clearly in the wrong in this matter, and no matter how you looked at it, he was the unreasonable one. Chang Huaiyuan had no choice but to lower his stance and help him explain and plead for Lin Yi.

Who asked Fang deheng to be the capable general of Chang Huaiyuan's faction? Although there was more than one vice Hall Master in martial League, they were not cabbages that could be found on the side of the road. Any one of the Vice Hall Masters had a significant influence in martial League.

If Chang Huaiyuan wanted to compete with Luo xingliu for the position of martial Alliance's great Hall Master, he had to protect the few vice Hall Masters under him!

Fang deheng's expression was extremely ugly, not only because of the shame and fear of Chang Huaiyuan lowering his head to Lin Yi, but also because of his hatred for Fang Gezi.

This damn B * stard, he didn't even tell me such important information. He's clearly trying to trick me!

He even said that after being expelled from the Sangzi continent's martial Alliance's great Hall Master and patrol, Luo xingliu promoted him to the continent's martial Alliance's vice Hall Master and the combat guild's President for no reason!

Could it be that the identities of the Vice President of the inspection department and the Vice Presidents of the two major guilds were fake? Could it be that all these honorable titles had been eaten by dogs?

Damn bastard!

The Furious Fang deheng was almost certain that Fang Gezi had set him up. Otherwise, he would not have done such an unreliable thing!

After all, they were cousins. Fang deheng knew Fang Gezi's character to a certain extent. Tricking people had never been a psychological burden for Fang Gezi. Instead, it was a common tactic he used.

He didn't expect that this time, he would be the one to be scammed. This was simply intolerable!

In fact, Fang deheng had really wronged Fang Gezi this time. He was used to tricking people, but if there were no benefits, he wouldn't go so far as to trick Fang deheng. If he really wanted to trick Fang deheng, there must be great benefits in front of him.

Fang Gezi didn't reveal Lin Yi's identity this time, taking it for granted. The vice-director of the inspection department was on par with the Vice head of martial League.

After all, Lin Yi was about to become the Vice Hall Master of martial League and the combat guild's President, and it didn't make a difference whether he was the vice-director of the inspection department or not.

Saying a few more words would make it seem like he was bragging about his enemy-it was meaningless. Fang Gezi only hoped that Fang deheng could cause Lin Yi some trouble before he took over.

He'd get Fang deheng to target Lin Yi more in the future, but he didn't think that Fang deheng would use such a method to intimidate Lin Yi. Because of the unequal information, it caused Fang deheng to lose face continuously, even dragging Chang Huaiyuan into the mess ...

Fang deheng bore a grudge against Fang Gezi because of this, and she had only herself to blame!

"Vice Hall Master Sima, ignorance is not a crime. Please forgive me for my ignorance. It was a misunderstanding before. I would like to apologize to vice Hall Master Sima!"

Fang deheng hated Fang Gezi in his heart, but he had to put on an apologetic look and apologize to Lin Yi.

Chapter 8983

He had no choice. Chang Huaiyuan had already appeared and kept giving him meaningful looks. If he still did not lower his head now, he would be hated by Chang Huaiyuan later!

Lin Yi was a vice Hall Master promoted by Luo xingliu, so he was naturally in Luo xingliu's faction. Chang Huaiyuan didn't expect to win Lin Yi over, but Fang deheng was indeed in the wrong this time. There were rules in faction fights, and he could do whatever he wanted within the rules.

Fang deheng had broken the rules this time-lowering his head and admitting his mistake was the lightest punishment he could get. If Lin Yi didn't let him go, Luo xingliu's faction would get even more benefits.

To choose the lesser of two evils, losing a little face was nothing!

"Since it's a misunderstanding, let's just talk it out. We'll be colleagues in the future, so I won't hold on to it!"

Lin Yi waved his hand generously, "we're friends after all, so let's get along!" I'll be taking my leave today, I still have to go through the inauguration procedures, so I won't be able to chat with the two vice Hall Masters!"

Chang Huaiyuan relaxed a little-Lin Yi's words meant that the whole thing was over, and he wouldn't be able to bring it up again.

He gave Fang deheng a push, understanding Lin Yi's intentions but still unwilling to do so. He thanked Lin Yi reluctantly and watched as Lin Yi entered the door to complete the procedures.

Fang deheng had other plans prepared, but after the first failure and knowing Lin Yi's true identity, all those plans were useless.

He probably wouldn't use it even if he could. Instead, he would go back to Fang Gezi and have a good chat about life ...

Lin Yi walked past the two vice Hall Masters and went to the administrative department. No one came looking for trouble this time, and everything went smoothly. It was a lot easier, too, and when he came out, he was already a true vice Hall Master of the continental martial Alliance and the combat guild's President!

Because of the delay, Lin Yi didn't go to Luo xingliu and Jin botian after he came out. He went back to his place and celebrated with Fei daqiang and the others.

The next morning, Yan Su and the other investigators and Hall Masters who were on good terms with Lin Yi all came to bid farewell to Lin Yi. After Lin Yi sent them off, he officially went to report to the martial Union.

"Good Morning, Hall Master Luo!"

lin yi saw luo xingliu as soon as he entered the martial league. the busy first hall master appeared alone near the front hall, clearly waiting for lin yi. otherwise, he wouldn't have so much free time to wander around.

lin yi's attitude was natural, not treating luo xingliu as his superior. it was like a meeting between old friends.

luo xingliu smiled and nodded. he was very tolerant of lin yi because the strength he showed was far beyond his imagination. he didn't want to treat lin yi as a mere subordinate. it would be more appropriate to call him an ally or companion!

"good morning, vice clan leader sima! i heard about what happened yesterday. it's all my fault for not going with you. otherwise, you wouldn't have wasted so much time!"

"it's just a small matter. it's no big deal. hall master luo, don't be polite with me!"

Lin Yi waved his hand and smiled, "it's all thanks to this that I've gotten to know vice branch Masters Chang and Fang. It's a small gain!"

Luo xingliu gave Lin Yi a thumbs up. "Vice clan leader Sima, you're so broad-minded and have an extraordinary bearing. "Actually, vice head Chang and vice head Fang are both pretty good. They may have their own standpoints as people, but they're quite practical in doing things. It's great that you're not calculative about it. They're both the backbone of the martial Alliance, and working together is the right way!"

Lin Yi looked at Luo xingliu and realized that he meant what he said. He wouldn't slander Chang Huaiyuan just because he was from a different faction!

This was the true magnanimity and elegance!

Lin Yi's impression of Luo xingliu improved.

The two of them chatted softly as they walked slowly through the martial League. When the members of the martial League who passed by saw them from afar, they would stand by the side of the road and make way for them, bowing respectfully as they passed by.

Luo xingliu and Lin Yi also smiled and nodded in response, not acting like they were superior.

When they reached the entrance of the combat guild, Luo xingliu changed the topic. "Vice clan leader Sima, some things happened in the combat guild. The original President, Executive Vice President, and one Vice President have all left, and they took a portion of the combat generals with them."

"There's only one Vice President left in the combat guild. His name is Luo Wuding, and he's a member of the Luo clan. In terms of seniority, he has to call me uncle. He's a very talented young man with good strength and ability to do things. He should be able to help you."

"Don't think that Luo Wuding became the Vice President because of my connections. Our Luo clan may have some operations, but we definitely won't let clansmen who don't have the strength and virtue to do things!"

"If you think that Luo Wuding can't help you, you can transfer him out of the combat guild without my consent. From now on, you have the final say in the combat guild. Your words are the highest order in the Guild!"

Luo xingliu had to make things clear so that Lin Yi wouldn't misunderstand that Luo Wuding was his spy in the combat guild, who was used to monitor and influence Lin Yi's actions.

Once this kind of misunderstanding occurred, the good relationship between the two would definitely crack. Luo xingliu didn't want to see this situation, so he told Lin Yi about Luo Wuding's identity.

Lin Yi didn't mind and smiled, "With the help of Hall Master Luo's clansmen, I will definitely be able to get twice the results with half the effort. I can also better control the combat Union. What a pleasant surprise!"

Luo Wuding wasn't Luo xingliu's man, and even if he was, Lin Yi wouldn't care. He had no interest in power, and if someone he knew was helping him, he'd be happy to give it all away.

This was what Lin Yi did in the past. No matter if it was in Fengqi or Sangzi, under normal circumstances, Lin Yi would take the lead and hand the specific matters over to people he trusted to carry out. After that, he could be at ease and be a manager who doesn't have to do anything.

He was quite lucky-Lin Yi's men all had their own talents, and as long as they were in the right positions, they could complete their tasks well.

For example, Zhang Yiming was in charge of the intelligence Department, and Fei daqiang was in charge of training people and battle formations. They were all very helpful to Lin Yi.

It was just that Lin Yi didn't have enough people by his side, and it would be hard to rely on them all the time. Now that Luo xingliu brought a trustworthy Luo Wuding over, Lin Yi welcomed him with open arms!

Chapter 8984 The End

"Vice Hall Master Sima, if you have anything to do, just tell him to do it. If he's unruly in any way, just teach him a lesson!"

Luo xingliu could feel the sincerity in Lin Yi's words, and he was a little happy. If his clansmen could gain Lin Yi's trust and respect, it would be more beneficial for their cooperation.

While they were talking, the two of them had already entered the combat guild. Luo Wuding came out with hundreds of combat generals to welcome them.

Lin Yi didn't ask why the President and Vice-Presidents left, and Luo xingliu didn't explain either-but the battle Guild was clearly in a bad shape after what happened.

Luo Wuding's men were probably all the remaining members of the combat guild.

"Greetings, clan leader Luo and President Sima!"

When they saw the two of them enter, Luo Wuding and hundreds of combat generals bowed and saluted in unison. Their momentum was extraordinary.

"No need for formalities! Luo Wuding, come here!"

Luo xingliu waved his hand and called his nephew over. He smiled and introduced him to Lin Yi. "President Sima, this is the Vice President of the combat guild, Luo Wuding. You can ask him about the current situation of the combat guild. I won't disturb you any longer!"

This was Lin Yi's stage, and Luo xingliu knew his place. His presence would affect Lin Yi's performance in the combat guild, so he left after introducing Wuding Luo.

After sending off Luo xingliu, Luo Wuding stood beside Lin Yi and said respectfully, "President Sima, do you want to say a few words to your brothers?"

When a new official took office, it didn't matter if he started a fire or not. He just had to give a speech to his subordinates. It was just that Lin Yi didn't have the habit of doing that. He just said a few words to the battle generals and sent them away.

In the end, Luo Wuding was the only one left to say, "Vice President Luo, are these the only people left in the combat guild?"

Even though the hundred battle generals were of good quality and were elite martial artists, what could they do with so little manpower?

If they were to fight against the darkness demon beast clan, these people wouldn't even be enough to fill the gaps between the darkness demon beast clan's teeth.

"President Sima, you can just call this subordinate by his name. Otherwise, I'm not used to it."

Luo xingliu said that Luo Wuding was a young man, but in fact, he was already in his early 30s. He did not look much younger than Luo xingliu, but he looked extremely simple and honest.

He had a smile on his face and his right hand on the back of his head when he talked to Lin Yi. He was good at making people like him. At least Lin Yi liked him. He had a good impression!

"Alright, then I'll be more casual in the future! You can also call me by my name in private. There's no need to be so formal. "

Lin Yi was younger than this young man, and with his relationship with Luo xingliu, there was no need for him to put on airs.

"Then I won't be polite! Brother Sima and Hall Master Luo are of the same generation, but I've overstepped my boundaries!"

Luo Wuding looked happy and didn't hold back at all, as if calling Lin Yi "brother" was the same as getting closer to Luo xingliu's seniority.

Lin Yi looked at the smile on his face and was speechless. Was he an idiot?

Luo Wuding remembered Lin Yi's question and went back to the topic, ""Brother Sima, the only ones left in the Guild are the brothers from before."

"The others have all gone to carry out their tasks. Brother Sima's appointment came in a hurry, so there was no way to gather everyone back. That's why the Guild seems to be more deserted."

"Of the hundred or so brothers from before, more than half of them were actually holding all kinds of administrative duties in the Guild. If not for this, there would be even fewer people to see today."

The civilian staff of the combat guild were also elite battle generals in times of emergency. Everyone's strength was quite extraordinary, and it was not an exaggeration to say that they could bring peace to the country with their culture and their martial arts.

If he were to be placed in an Empire, he would be a true pillar of the Empire!

However, elites were not the reason for the lack of manpower. No matter how many missions there were, the combat guild's headquarters would not be left with only so few people. After all, no one could say when something would happen, so the necessary reserve power must be left.

It was because the previous Guild Master, Executive Vice-Master, Vice-Master, and others left with a group of confidants, leaving the combat guild empty.

Lin Yi didn't know the whole story, but he knew the details.

Listening to Luo Wuding's introduction and report without changing his expression, Lin Yi had a general understanding of the combat guilds. There was nothing to pity about those who left. Staying here would only make the situation more complicated. The combat guilds that seemed to be weakened now were actually stronger for Lin Yi.

It was like scratching someone with five fingers. Although it could make the other party feel pain, it was far inferior to the damage caused by a clenched fist.

Luo Wuding explained the situation of the combat guild to Lin Yi as he accompanied Lin Yi on a tour around the place. Finally, they arrived at the office of the combat guild's President.

Lin Yi didn't have any requirements for the location of the office-he wasn't going to stay here forever as the president, after all, and walking around was the right way to get to work as a President.

"Brother Luo, please sit down and talk!"

Lin Yi picked a random place to sit down and gestured for Luo Wuding to sit beside him.

Hanhan, of course, wouldn't stand on ceremony. He nodded and sat down, not treating Lin Yi as an outsider at all.

"Brother Luo, I heard about the Guild's current situation from you just now. The biggest problem is that we don't have enough manpower! Their ability to deal with unexpected situations is relatively weak. "

Lin Yi cut to the chase after sitting down. "I've mentioned to Hall Master Luo and Dean Jin that we're going to form a special elite combat Team outside of the combat guild's regular combat order. The number of people will be set at three thousand for now!"

"I'll leave this matter to you, brother Luo. The candidates can be chosen from the combat Union and the combat associations of various continents. As for the time limit ... Two months. After two months, I want to see an Army of three thousand elites!"

There were thirty-nine Continents, and it would take thirty-nine days to travel to one continent a day. Two months was already quite tight.

He could order the continents to prepare, but Luo Wuding would have to pick them himself. Lin Yi wasn't interested in going around.

Only by leaving things to his subordinates would he be a qualified superior!

What he needed to do was to grasp the general direction!

Luo Wuding cupped his hands and said, "yes!" Your subordinate obeys!"

This was an official matter, so Luo Wuding naturally entered the relationship between a superior and a subordinate. Sure enough, the junior that Luo xingliu thought highly of was not a real iron-hearted person. He knew what to do.

Regardless of the difficulty, he had to accept the mission first.

Luo Wuding thought for a moment and said, "brother Sima, it's not difficult to form an elite team. However, I can't guarantee that the selected people will follow my orders. After all, they are gathered from the 39 continents. It's indeed a little difficult to get them to work together."

Chapter 8985

the real elites were definitely the mainstays of the combat associations of various continents. how could the presidents of the combat associations hand them over to the combat guilds so easily?

even if they really did give it to him, it was very likely that he was just a confidant that the other party had assigned to him. it was hard to say whether his heart was in the combat guild or the original combat association.

such a team, if you said they were elite, they were indeed quite elite. but on a deeper level, it was not wrong to say that they were a motley crew of scattered sand.

"the combat guild is busy now, and i don't have much experience in training. within two months, it should be no problem for 3000 elites to form an army, but i can't do anything about the subsequent command and training."

luo wuding might look innocent, but he was actually very meticulous. he knew that these three thousand people would be lin yi's direct subordinates in the combat guild. he could choose the people, but he couldn't command them.

therefore, before he did anything, luo wuding had to make it clear, ""i heard that brother sima has a talent in training battle formations. why don't we let him do this with me? after the army is formed, he can train them. i wonder if brother sima would agree?"

this was luo wuding's way of expressing his attitude. he could help to lay the groundwork, but he would never get involved in the command authority of the new army.

Asking Lin Yi to send his trusted man to do it was also a way to show Lin Yi that he didn't have any selfish intentions.

Trust had to be built step by step. It was not about making two strangers trust each other completely just by Luo xingliu's reputation.

Luo Wuding understood this point very well. What he said and did was to build up Lin Yi's trust in Him.

Lin Yi smiled faintly. He didn't have much interest in power, so Luo Wuding's actions were completely unnecessary. He did want Luo Wuding to be the one to build the elite army, but he had a point.

For a period of time in the future, the starsource continent should be his base. No matter how much he didn't care about power, he had to plan a little so that the people around him could live better lives.

"That's good too. Brother Luo is very thoughtful. The combat guild does need you to be in charge of more things. How about this, I'll report to the martial Alliance and recommend brother Luo to be the Executive Vice President of the combat guild. You'll be in charge of co-operation and handling the daily affairs of the Guild."

Lin Yi treated Luo Wuding's caution and kindness with the same respect,""The establishment of the special elite team will still be led by brother Luo. I will send someone to assist you. Fei daqiang beside me is very talented in this area. He will be in charge of the training in the future."

"There's also Zhang Yiming. He'll take over the intelligence Department of the Guild. He'll be in charge of the recruitment and arrangement of personnel. Brother Luo, please cooperate."

Lin Yi wanted to manage the starsource continent, so naturally, he would arrange for Fei daqiang and Zhang Yiming to work together. The two of them did have the ability to help him.

"No problem. I'll follow brother Sima's arrangements. I'll do my best to cooperate with my two colleagues!"

Luo Wuding didn't seem to be particularly excited about the promotion, and he didn't object to Lin Yi's arrangement of Fei daqiang and Zhang Yiming.

It was normal for a new official to bring two trusted aides to take charge of an important Department. It wasn't wrong to have more. Lin Yi only put two in, and even Luo Wuding thought it was too little.

"It's the combat guild's blessing that you can cooperate with each other sincerely and work together. If you have any problems, brother Luo, you can come to me at any time to discuss it. If I'm not here, you can deal with it as you see fit."

Lin Yi meant to give Luo Wuding the power, but Luo Wuding understood and immediately smiled, indicating that even if Lin Yi wasn't here, he would still discuss business with Fei daqiang and Zhang Yiming.

The new leader said that he wanted to give you more power, and you really want to monopolize it. That's an idiot! Why? Can't wait to remove the leader and replace him?

Luo Wuding looked like a simple-minded person, but he was definitely not a simple-minded person. He knew a lot of things very well.

Lin Yi really wanted to give him the power, but Luo Wuding didn't want to accept it.

After a simple chat about the combat guild, Lin Yi let Luo Wuding go and do his work. He left his post and went back to his house to find Fei daqiang and Zhang Yiming.

"Luo Wuding is a good person, but he thinks too much. You guys go to the combat guild and ask him to cooperate with you. Put the formation of a new army and a new intelligence Department on the agenda."

Lin Yi gave the two tasks. "Put in more effort, da Qiang. The new army will be the hidden blade against the dark Demon beasts in the future. Don't be careless. Even if there are spies from other continents, train them to be of one mind."

"And Yiming, the combat Union has its own Intelligence Department, but it's just an ordinary Department that they don't pay much attention to. Plus, a group of people have left, so it's useless now. If you take over, you'll have to rebuild it from scratch!"

"At our current level, intelligence has become particularly important. No matter what we do, we need to know ourselves and our enemies to win every battle. Therefore, this matter is more urgent than the formation of a new army. You have to work harder."

"Don't worry, boss. I won't let you down!" Zhang Yiming cupped his hands in respect.

It was not the first time Zhang Yiming had set up an Intelligence Department. He was very familiar with it. So what if the combat guild's Intelligence Department lacked manpower? he could transfer some of the previous team members over and form a backbone immediately.

So in Zhang Yiming's eyes, although the mission was important, it was not difficult!

Fei daqiang patted his chest and changed the topic to Lin Yi.

"Boss, are you not going to participate in the battle general selection? Do you have other things to do?"

"It's nothing special, I just want to take a break and go back to Fengqi Dazhou before the combat guild gets on track." Lin Yi smiled.

To be exact, he was going back to the SU family in Fengqi Dazhou to take a look. Sima Yunqi and su lingyue were still in the SU family. They hadn't seen each other for a while, so it was good to take this opportunity to go back and take a look.

Although Sima Yunqi and su lingyue weren't related to Lin Yi by blood, the couple really treated him like their own son. Lin Yi also felt the warmth of a parent's love from the two of them, so he wanted to visit them when he had time.

It wasn't wrong to say that they were slacking off. After all, how could the Vice Hall Master of martial Alliance and the president of the combat guild really have free time? There were too many things to do, and Lin Yi only had the time to go for a walk when he left all the work to his subordinates.

"Feng Qi Dazhou? That's right, boss hasn't been back for a long time, it's good to go and take a look. Don't worry about this place, leave it to us!"

If it was any other place, Fei daqiang might even pester Lin Yi to go with him. After all, only by following Lin Yi could he see all kinds of exciting things.

Chapter 8986

But as for Fengqi great continent ... Forget it. He would deal with the darkness demon beast clan before he left, so he wouldn't have to worry about them invading Fengqi great continent.

Yan Su and house su worked together and managed to maintain the stability of the situation perfectly. They were just going back to visit their relatives, and Fei daqiang didn't feel like he needed to follow the big shots this time. It was more interesting to follow the arrangements and form a new army.

Zhang Yiming didn't have any objections either. After receiving their missions, they said goodbye to Lin Yi and went to the battle Guild to find Luo Wuding, ready to build a new army and Intelligence Department.

Other than promoting Luo Wuding to the Executive Vice President, Lin Yi also gave Fei daqiang and Zhang Yiming the title of Vice President, officially entering the combat guild. It was much more convenient for them to do things.

After sending the two off, Lin Yi went to Daniya's courtyard. Daniya had been interacting with Dian Youwei recently, but there hadn't been any progress.

"Daniya, I'm going to leave for a few days. Do you want to stay here or follow me around?"

Lin Yi came over to say goodbye to Daniya, but if she wanted to go with him, it wouldn't be a problem.

Daniya replied without hesitation, ""I'll go with you! Dian Youwei hasn't been up to anything recently, and he seems to be on guard against me. If I leave for a while and stay by your side, it might be easier for him to let his guard down. "

It was true that there was no new movement. As for whether Dian Youwei didn't trust her, only she knew.

As a double agent, Daniya was in quite a bit of pain. One moment, she was determined to stand on Lin Yi's side, but the next moment, she wavered and thought about returning to the dark Beast race.

He might be very determined at a certain stage, but after that period of time, he would start to waver and hesitate again.

To be honest, this kind of mentality wasn't suitable for being a spy, and Daniya knew that, but there was nothing she could do about it. Now that Lin Yi said he was leaving the starsource continent, she had an excuse to escape.

Let's stay away from Dian Youwei first and talk about all these problems later! Perhaps time could give the right answer!

"Alright, let's go out for a walk! Dian Youwei asked Yiming to keep an eye on him. You can contact him when he comes back. "

Lin Yi wasn't surprised at all. Daniya came here with no family, only him as a comrade who had gone through thick and thin with her. It was normal for her to want to follow him. Leaving the starsource continent and exploring other continents would make it easier for her to integrate into human society.

He couldn't say goodbye, but getting a travelling companion wasn't a bad idea. He sent a message to Luo xingliu and Jin botian, saying that he'd take Daniya for a tour of the other continents and to make preparations for the future plans.

They were his two superiors, after all, and he had to report to them before he went on a trip. By the time the two bosses received the news, Lin Yi had already left with Daniya through the teleportation formation.

Fengqi Dazhou teleportation formation.

Lin Yi and Daniya stepped out of the formation, and Lin Yi couldn't help but sigh.

Feng Qi great continent wasn't the place he had stayed the longest, but it was the great continent he wanted to come back to the most because Sima Yunqi and Su Lingyue were there.

The Su family was still alright and could only be considered as ordinary ties. However, there was still Su Yumo, so their relationship was a little more special.

After Lin Yi took over as the Vice Hall Master and combat Guild's President, his most important task was to deal with the dark Demon beast clan and investigate their movements.

From this perspective, it wasn't appropriate for Lin Yi to go back to Fengqi Dazhou. After all, he'd already killed most of the high level Dark Demon beasts in Fengqi Dazhou. The remaining ones were all training targets for human fighters.

Going back to Fengqi great continent was really abusing his position.

"This is Feng Qi great continent? Although it doesn't look as good as the star source continent, it's not bad!"

Daniya followed beside Lin Yi, looking around curiously, ""This used to be a third-grade continent, right? Now that it's been upgraded to a first-grade continent, it should get better and better, right?"

"That's natural. With resources, Fengqi Dazhou's development will definitely get better and better! In fact, the difference between a third-grade continent and a first-grade continent is mainly in the supply of resources. If it's in terms of environmental factors, there's a difference, but not that big ..."

Lin Yi commented on the differences between the continents. He hadn't been to the first or second tier continents yet, but he could tell by looking at the cities in the common world.

To put it simply, the classification of first-tier, second-tier, and third-tier cities was the difference in the degree of prosperity. Whether it was prosperous or not, there were many external factors, such as political and cultural centers, financial and economic centers, Science and Technology entrepreneurial centers, and so on. Without these external conditions, would there be such a big difference when it came to people?

Looking at the overall situation, the average talent of the people in all places was about the same. Although there would be shocking geniuses appearing, they were only in the minority. It was impossible for all the geniuses to emerge in one place.

In other words, in the 39 continents of the starsource continent, apart from the various factors, the probability and number of heaven breaking realm martial artists were almost the same. The lack of resources was the root cause of the difference in the number of strong and weak martial artists.

Resources didn't just refer to cultivation resources, but also complete cultivation method inheritances, martial arts secret techniques, martial Dao direction guidance, and so on. These were the most basic conditions to cultivate and become strong early on!

Fengqi continent used to be a third-grade continent with the least resources, so its strength was naturally not as good as the other second-grade and first-grade continents. If the talents couldn't grow, the performance of the competition would be weak. This was also the principle that the strong would always be strong and the weak would be weak.

They could only rely on one or two heaven's favorites like Lin Yi who could suppress the current generation on their own. After becoming a first tier continent, it would welcome a huge leap in strength. They would have enough competition in the future.

Daniya was a smart person, and Lin Yi's casual conversations were all very interesting, so she listened with great interest. She would even give her own opinions from time to time, and she chatted with Lin Yi.

As he spoke, he left the teleportation formation and arrived near martial Union. Before Lin Yi arrived, the martial Union Hall Master and the patrol had already left the starsource continent and returned to their respective places.

If Yan Su was still the Feng Qi great continent's patrol, Lin Yi would definitely visit her first. Even if the two just separated, he should at least greet her when he arrived at her place.

Unfortunately, Yan Su had already been transferred to the Sangzi great continent's patrol and had gone directly from the starsource great continent to the Sangzi great continent. The matter here would be dealt with later. After all, Fang Gezi was there in the Sangzi great continent, so he couldn't give that guy time to make arrangements.

Chapter 8987

Other than Yan Su, the hall Master of the martial Alliance, who was more familiar with Lin Yi, was also transferred away. Feng Qi continent had been promoted to a first-grade continent, so the hall Master of

the martial Alliance naturally had outstanding achievements. Normally, they would add an illusory title from the martial Alliance as a reward and some resources.

After all, becoming the hall Master of the martial Alliance from a third-grade continent was already the greatest reward.

The problem was that there had been some accidents in the competition this time. Many people had died in the barrier, including many Great Hall Masters and patrols of the martial Alliance, so many positions had been vacated.

Everyone knew that Fengqi continent's promotion to a first-grade continent depended on someone. In terms of contribution, the martial Alliance's great Hall Master was the one who was easily overlooked. Thus, Luo xingliu considered more when rewarding him and finally arranged for him to be the Great Hall Master of the martial Alliance in another third-grade continent and also serve as a patrol.

With Lin Yi's experience, it was an honor to hold two positions. The hall Master of the martial Alliance of Fengqi continent didn't care about going from a first-grade continent to a third-grade continent. He accepted the appointment happily and went to the third-grade continent from the starsource continent.

That third-grade continent's martial Alliance's great Hall Master and patrol had both died in the barrier, so he had gone there to take over the force. There would not be any obstacles at all, and if he delayed it, he would instead be United by the people under him.

So when Lin Yi passed by martial League, he didn't want to go in and have a look. The new hall Master and patrol should be Luo xingliu and Jin botian's people, but Lin Yi wasn't familiar with them. This time, he came back as a private person and didn't involve himself in official business.

What he didn't expect was that Lin Yi was just passing by and got involved in something. The gate of martial League was broken open from the inside and five or six people stumbled out. Behind them was a group of Fengqi Dazhou's generals who were chasing after them with cold faces.

Lin Yi froze. Although he wasn't familiar with them and didn't even talk to them, he had seen the faces of the new hall Master and patrol of the martial Alliance of Fengqi continent.

These two were among the few people who were being chased!

They were the two giants of Fengqi great continent, how could they be chased after as soon as they took over? What the hell was this?

The first thing that came to Lin Yi's mind was how Fang deheng had made things difficult for him when he went to the continental martial Union to complete the procedures. Could it be that these two were treated the same when they first arrived?

That shouldn't be the case!

They were already the Supreme leaders of Fengqi Dazhou, who dared to make life difficult for them? He even wanted to kill them. Was he tired of living?

Fang deheng thought that Lin Yi's status was similar to his, and that was why he dared to come out and play tricks. When he found out that Lin Yi was the Vice Dean of the inspection department, he immediately backed off.

"Don't let them go. If they dare to cause trouble in our Feng Qi great continent, it's not too bad to kill them directly!"

Lin Yi was still confused when a familiar voice came from the gate of martial League. The arrogance didn't change one bit.

The person who walked out with the voice was the Ouyang family's patriarch, Ouyang kuantian! Ouyang laodeng crossed the threshold with his hands behind his back and his feet in the shape of a Chinese character. He coldly looked at the people who were surrounded by the battle generals.

He was the newly appointed martial Alliance's great Hall Master and patrol envoy, but his face was now covered in blood and dirt. He was like a stray dog, unable to even escape!

"Ouyang cuantian, How dare you! You even dare to refute the appointment of the continent's martial Alliance! You still dare to attack us? Do you really think that you can hide the sky with one hand in Fengqi great continent, that even the continent's martial Alliance can't do anything to you?"

The new first hall Master wiped the blood off his face, his eyes wide open in anger, and shouted, ""You took advantage of the previous head Hall Master and the patrol bringing people to participate in the martial League tournament to start a rebellion and control the power of Fengqi Dazhou. Do you know this is a rebellion?"

"It's just a small continent. Who gave you the courage to go against the martial Alliance of the continent? It's still not too late to turn back now. Otherwise, what awaits your Ouyang family is the end of your life. I advise you to think twice before acting!"

Ouyang chuantian laughed out loud, "hahahaha, this is ridiculous!" Do I still need you to worry about my family? I'm now the legitimate Great Hall Master and patrol of the martial Alliance in the great Fengqi continent. You two imposters, how dare you come here to seize power from me? you're the one who doesn't know what's good for you!"

"You think you can take over Fengqi Dazhou with two useless appointment letters? Hehe, I just wanted to ask, who gave you the courage to think that I would hand over Fengqi Dazhou to you?"

"What are you still doing? Take them all down for this seat! If they dared to resist, it didn't matter if they were killed! It's just a few more people dying, it doesn't matter!"

Ouyang cuantian looked down from above, his eyes full of contempt.

Lin Yi didn't want to go to the martial Alliance at first, but now that he was in trouble, he had to show up!

No matter what, he was still the Vice Hall Master of the continent's martial Alliance and the vice-director of the inspection department. The people who were trapped were all his subordinates. He had no choice but to do something if he didn't see them.

"Stop! What are you all doing? He even dared to kill the people sent by the continent's martial League! Ouyang cuantian, you're really too bold now!"

Lin Yi gestured for Daniya to wait by the side of the road as he flashed into the encirclement and stood in front of the people, facing Ouyang kuantian who was on the steps.

The generals in the encirclement didn't see how Lin Yi got in at all. It was as if Lin Yi had been there all along, and they didn't notice him until they talked.

When they saw the appearance of the person who had spoken, the battle generals that had surrounded them couldn't help but be shocked!

Although Lin Yi had left Feng Qi great continent for some time, the legend of him staying in Feng Qi great continent had never disappeared.

i'm no longer in the martial world, but there are still legends of me in the martial world! that was probably how it felt.

everyone knew who lin yi was, and they'd be lying if they said they weren't panicking at the sight of this fiend.

even ouyang laodeng, who was on the stairs, panicked when he saw lin yi. he was suppressed too much by lin yi before, and it was traumatic for him. now that he saw his old enemy, the trauma appeared in his heart.

ouyang cuantian forced himself to calm down. he thought that he now had the confidence and would no longer be afraid of sima yi. after preparing himself mentally, he was able to control his changing expression and became calm again.

even if he was pretending to be calm, at least he could give his subordinates some confidence!

"Sima Yi! Long time no see! This matter has nothing to do with you, so just do what you need to do and don't be a hindrance here!"

Even though Ouyang cuantian had prepared himself mentally, he still didn't want to have a direct conflict with Lin Yi. He wanted Lin Yi to stay out of it, "After this old master has finished dealing with the matters here, if you have time, you can sit down for a cup of tea and reminisce about the past. If you don't have time, this old master will invite you for a drink!"

Chapter 8988

"what's there to reminisce about, ouyang cuantian?" lin yi laughed. are you trying to recall how you were suppressed by me in the past?"

one sentence, and ouyang cuantian's face, which had finally calmed down, turned black!

the people standing behind lin yi were overjoyed to see lin yi appear like a god-sent soldier. they immediately cupped their fists and bowed after lin yi finished speaking, saying in unison, ""your subordinate greets vice clan leader sima (vice clan leader)!"

the martial league called lin yi vice head, and the inspection department called him vice dean-there was nothing wrong with that!

the dark-faced ouyang kuantian was slightly startled. he had been busy with integrating the various forces in fengqi continent and gathering the power of the martial alliance and the inspection department, so he had been relatively slow in receiving news from the martial alliance in the starsource continent.

the news of lin yi becoming the vice hall master of the martial union and vice-director of the inspection department hadn't reached fengqi continent yet. it might be here in a while, but lin yi came too fast, so ouyang kuantian didn't know about it yet.

"Ouyang cuantian, as you can see, this matter isn't completely unrelated to me. It's extremely related to me! I can't ignore it even if I want to!"

Lin Yi spread out his hands and put on a helpless face, "They're my subordinates. If you want to kill them, what can I do? I'm also in despair!"

Those guys who were surrounded couldn't help but laugh out loud. They no longer had the despair of being surrounded and chased, and all of them were extremely relaxed.

What Lin Yi had done in Xingyuan was too shocking. Unparalleled combat strength and far-reaching wisdom-what was there to worry about when a heaven's favorite with both brains and brawn appeared in front of them?

It was so F * cking reassuring to have such a Shangguan!

"Sima Yi, you're trying to interfere with what this old man is doing, right? This old master knows that you like to meddle in other people's business, but this time it's really not something you can meddle in. Since

we're acquaintances, this old master will give you one last piece of advice, it's not too late to leave now!"

Ouyang chuantian's face darkened as he narrowed his eyes and stared at Lin Yi coldly. "This old master doesn't care what your identity is, but I advise you to ignore it and listen to my advice. Otherwise, don't blame this old master for not considering our old friendship!"

"Ouyang cuantian, I'm really curious. Where did you get your courage from? I'm now the Vice Hall head of the martial Alliance and the vice-head of the inspection department. What can I not interfere with Feng Qi Dazhou's matters?"

Lin Yi tilted his head and showed his identity token. According to Luo xingliu's orders, all the 39 continents of the starsource continent had to listen to Lin Yi's orders, Fengqi continent was no exception!

Unless Ouyang kuantian wanted to lead the Fengqi continent to rebel and draw a clear line with the starsource continent, then he would indeed not need to care about the orders of the martial Alliance and the inspection department.

The problem was that the Fengqi great continent wanted to go against the entire Xingyuan continent. Even if Ouyang chuantian went crazy, the other people in the Fengqi great continent wouldn't follow suit! This was especially so for battle generals of martial League. They should have some idea of their own strength, right?

Fighting with all the generals of the entire starsource continent? If Ouyang cuantian dared to say that, he would probably be killed by the general of Fengqi Dazhou in the next second! Therefore, Ouyang cuantian's current actions were a little strange!

Lin Yi revealed his identity, and Ouyang kuantian's face turned a bit ugly. He clearly didn't expect Lin Yi to be promoted from the martial Alliance's Hall head and patrol to the martial Alliance's vice Hall head and Vice-Principal of the patrol Department in such a short time!

Wasn't the speed of his advancement a little too fast?

Most people would stay in this position for many years, and they might be transferred to other continents in the middle. How could it be so easy to enter the continental martial Alliance?

Sima Yi had done it!

It was simply a step up every year, a trend of directly soaring to the sky!

The key was that Sima Yi was still so young. No one could say for sure how far he could go in the future. One could only say that his future was limitless!

Ouyang cuantian's fear of Lin Yi deepened, or rather, the area of his psychological trauma expanded!

If it wasn't necessary, Ouyang laodeng really didn't want to mess with Lin Yi, but there was no turning back. Things had already started, and there was no way to end it halfway!

"Sima Yi, I didn't expect you to have already mixed into the continent's martial Alliance and hold such an important position. I'd like to give you my sincere blessings!"

a hundred thoughts ran through ouyang cuantian's mind, and he put on a fake smile as he cupped his hands at lin yi."however, regardless of whether you're the vice hall master of the continent's martial alliance or the vice-headmaster of the inspection department, you can't interfere with today's matter!"

"what's that supposed to mean?"lin yi asked. they're all my people, and not only did you refuse to let them take their positions, you even tried to harm them. as the vice hall master of the continental martial alliance and the vice director of the inspection department, i can't even interfere?"

he had nothing to do anyway, and he didn't mind spending some time to see what this ouyang old deng was up to.

ouyang cuantian took out a token, slightly raised his head, and proudly said,""look carefully, i'm the master of this great land of feng qi now. these two people want to seize my power, how can i let them go?"

"Sima Yi, you can't meddle in this matter. If you insist on getting involved, you'll be the one to suffer in the end. So listen to this old man's advice and stop being stubborn!"

Lin Yi glanced at the token in Ouyang kuantian's hand. It was a combined token of the martial Alliance's Hall Master and patrol. When he was in the great land of Sangzi, he used two separate tokens to indicate different identities.

Ouyang cuantian had actually taken out a composite token, and it didn't look like a fake. Whether it was the material or the special patterns on the token, it was all genuine.

This was a little strange!

Since Luo xingliu and Jin botian had already been appointed, how could they give such a compound token to Ouyang kuantian? And what did Ouyang cuantian do to be able to hold two positions at the same time?

Not to mention that Fengqi great continent had become a first-class great continent, even if it was a third-class great continent in the past, Ouyang kuantian was not qualified!

"Ouyang kuantian, who appointed you as the martial Alliance's great Hall Master and patrol envoy of the Fengqi continent? Why haven't I heard of it before?"

Lin Yi's expression turned serious. The leader of a continent under the starsource continent was out of the control of the martial Union and the inspection department. This was no small matter.

Since he was now the Vice head and Vice-Principal of the martial Alliance, he had to be responsible for the Alliance and the inspection department. He had to get to the bottom of this matter!

"You didn't hear about it because your level isn't high enough! What's so strange about that?"

Ouyang cuantian laughed disdainfully. "Sima Yi, don't think too highly of yourself. There are many things that you can't interfere with at your current level. I'm giving you face, but you're the higher-ups of the continental martial Alliance. If I don't give you face, Who Do You Think You Are? I don't need to explain anything to you!"

Chapter 8989

Lin Yi smiled. This Ouyang old Deng was quite interesting. He thought too highly of himself. Did he really think that just because he had a token from God-knows-where, he could look down on everyone else and be high and mighty in the star source continent?

What a joke!

"Ouyang cuantian, I don't care where you picked up that trash in your hands. As the Vice Hall Master of the martial Alliance of the starsource continent and the Vice Director of the inspection department, I'm informing you that your appointment is completely invalid."

Lin Yi reached out and pulled the two new hallmasters and investigators to his side. "These two are Feng Qi great continent's legitimate Great Hall Master and patrol, you are not! End this farce right now and go back to your Ouyang family to be the head of the family!"

"If you still don't know what's good for you, your entire Ouyang family will be implicated by you. As the head of the family, Ouyang cuantian, you should consider the pros and cons of this matter, right?"

From Lin Yi's point of view, Ouyang kuantian wasn't even the leader of Fengqi Dazhou, so he wasn't fired or anything. He was just notified.

Letting two legitimate leaders take over was like setting things right. Of course, Ouyang cuantian would not accept it so easily. This old Deng seemed to be very confident. Under such pressure, he would probably show his trump card.

Just as Lin Yi expected, Ouyang chuantian laughed coldly, "Sima Yi, do you really think you're that great? I've already said that you don't have the right to interfere in Fengqi Dazhou's Affairs, and don't even think about using your status to dismiss me!"

Shaking the token in his hand, Ouyang chuantian revealed a trace of pride on his face, "Look carefully. This token was not issued by the martial Alliance of the starsource continent. My appointment was directly issued by the martial Alliance of the continent Island of The Burning Sky Star region!"

"From now on, the Phoenix perch great continent belongs directly to the martial Alliance of the continent Island in The Burning Sky Star area. The martial Alliance of the starsource continent has no right to interfere. Those two people came here to cause trouble and wanted to occupy the Phoenix perch great continent with empty words. It's reasonable for me to take them down or even kill them!"

"I've already made things very clear. Sima Yi, do you still want to stand up for me? These fanatics are definitely doomed. If you want to get yourself involved, then try it!"

Ouyang kuantian waved his hand, and the surrounding Warriors took a few steps forward, narrowing the encirclement. If Lin Yi didn't leave, he would become their target as well.

Lin Yi looked at Ouyang cuantian with a smile that wasn't quite a smile, his eyes looking at him as if he was looking at an idiot, "Ouyang cuantian, are you stupid? The continent Island of The Burning Sky Star area will only connect with the martial Alliance of the continent. When did they interfere with the appointment of a subordinate continent of the martial Alliance?"

it was just like how the continental martial alliance would only hold the most important appointment rights of the hall master, inspector, and guild president on the continent level. the branches under the continent would basically not interfere.

ninety-nine percent of the division leaders were appointed by the continents themselves. occasionally, the continental martial alliance would appoint someone directly, but they would also get the approval of the alliance.

the martial alliance of the continent was originally arranged by the martial alliance of the continent, so these occasional actions would naturally not be opposed.

on the other hand, it was different for the martial alliance of the continent island. in name, the martial alliance of the continent island was the superior of the martial alliance of the continent. however, they had very little authority over the appointment and removal of the martial alliance of the continent, and it was basically just a formality.

just like the united nations in the secular world, they had no direct leadership over the member states. they could give opinions, but they could not interfere with the internal affairs of the member states!

the martial alliance of the continent island did not have enough power to command the martial alliance of the continent. ouyang kuantian had accepted the appointment of the martial alliance of the continent island and wanted to make the fengqi continent independent from the starsource continent. it was as unreliable as a province in china wanting to claim independence and finding a country that claimed to be free, democratic, and hegemonic on from the other hemisphere to back it up.

those who sought independence would never be treated as treasures by their new masters. they just wanted a cannon fodder to stir the balance of this area, so that they could have more chips to gain benefits for themselves.

ouyang cuantian had completely lost his mind. he actually used the feather of the martial alliance of the mainland island as a token of authority. he was truly a typical representative of someone who was not afraid of death!

But Ouyang cuantian didn't know that. He laughed proudly after hearing Lin Yi's words, ""Ignorant! Sima Yi, what do you know? The martial Alliance of the continent Island is the true commander. I've been valued by the martial Alliance of the continent and have been appointed as the Great Hall Master and patrol of the martial Alliance of the Phoenix Nest continent. Naturally, I have to bow and die for the martial Alliance of the continent Island!"

"You, on the other hand, shouldn't come to my territory and yell just because you're from the martial Alliance of the continent. Do you believe that the martial Alliance of the continent Island will send an order and send you to eternal damnation?"

ouyang kuantian had the martial alliance's support and was full of confidence. he pointed at lin yi and threatened, "since we're acquaintances, this old man will give you one last piece of advice. don't come to this pool of muddy water again and think about yourself! it's not too late to leave now. once this old master gives the order to move, you won't be able to leave even if you want to!"

when he called himself "old man," he was speaking in a private way, but when he called himself "this seat," it meant that he was speaking to lin yi in a public way. ouyang kuantian was already giving lin yi face, but if he didn't want it, then he really would have to tear their relationship apart!

in fact, ouyang cuantian really didn't want to have a falling out with lin yi, or he wouldn't have kept telling lin yi not to get involved. with the enmity between the two, he really wanted to kill lin yi!

it was because he was not confident that he would appear to be so strong on the outside but weak on the inside!

lin yi smiled and shook his head, "ouyang cuantian, you really don't understand!" i'll give you one last piece of advice. it's still not too late to turn back now. don't ruin yourself and ruin your ouyang family!"

"the martial alliance of the continent island has no reason to interfere in the internal affairs of the martial alliance of the continent. it's even more against the rules to appoint you as the commander of the feng qi continent! do you think the martial alliance of the continent island will help you if they really want to suppress the fengqi continent?"

"even if the martial alliance of the continent island is willing to help you, they will cut off the teleportation channel of feng qi great continent. in a situation where distant water can't put out a nearby fire, how long can feng qi great continent support itself?"

lin yi tried his best to persuade him. after all, feng qi dazhou was a place he managed. he didn't want to see any damage. it was best to solve it peacefully.

if it really didn't work, he could only choose to solve it by force. moreover, he could launch a beheading operation in the shortest time possible to get rid of the head of the ouyang family. that should be able to quell the rebellion, right?

"Sima Yi, who are you trying to scare? This old man isn't scared! The continental martial Alliance dared to attack the continent directly under the continental martial Alliance? This is an out-and-out rebellion!"

Ouyang cuantian gritted his teeth and sneered, "since you refuse a toast only to drink a forfeit, then I have nothing to worry about!" Everyone, listen up! Surround them and take them down! If anyone resists, kill them without mercy!"

Chapter 8990

With the order, all the battle generals surrounding Lin Yi and the others began to attack. At that moment, all kinds of skills were shot at the center. With the enhancement of the battle formation, the power was extraordinary.

Even with Lin Yi's body, he'd probably be injured if he took a hit like this head on.

Too bad Lin Yi's been through this too many times-there was no way he'd just stand there and wait for an attack like that. The other party's battle formation came from the inheritance he had left behind. It was laughable to think that it was being used to deal with him!

His body flashed quickly, and Lin Yi found a small gap in the seemingly dense and traceless attack. He shuttled through it with ease and got close to the battle formation of the encirclement in an instant.

It was the same as when they entered the encirclement. When Lin Yi wanted to leave or do something, the battle generals who formed the encirclement couldn't react.

Others couldn't see the flaws in the battle formation, but Lin Yi saw them clearly. With a casual strike, the battle formation instantly fell apart, and the concentrated fire attack was scattered and destroyed.

Not only that, but the collision of the attacks also scattered the attacks from other directions. The almost perfect joint attack collapsed because of a small mistake.

It was like a building model built with stacked coins. It looked beautiful, but as long as one of them was removed, the point of force would change, causing it to be unable to bear the weight and instantly collapse.

The few people in the encirclement were nervously in a defensive posture, ready to fight with their lives to meet the violent joint attack. In the end, after they finished their posture, those attacks had also exhausted each other.

The surroundings were very lively, but in the end, not even a single aftershock of the attack affected them. It was simply amazing!

Lin Yi didn't stop attacking, and he also broke up the battle formation on the side before returning to his original position, smiling at Ouyang cuantian.

Because he moved too fast and in too short a time, those who weren't strong enough couldn't see Lin Yi's movements at all. Lin Yi even gave them the feeling that he didn't move at all. It was the battle generals who formed the encirclement that had internal strife and ruined the good joint attack!

"Ouyang cuantian, you can't possibly think that you can take us down with just a few people forming a battle formation, right? Are you looking down on me?"

Lin Yi's words made Ouyang kuantian's face darken. To be honest, he didn't expect these generals to be able to do anything to Lin Yi, but the result was obviously worse than he expected!

that damned sima yi, he's even stronger and harder to deal with than before!

"ouyang kuantian, are you still going to act willfully and use the martial alliance of the mainland island as a token of authority? believe it or not, if i kill you right now, the martial alliance of the mainland island won't even say a word!"

perhaps the martial alliance of the continent island wanted to use ouyang kuantian to seize control of the phoenix land, and then split the starsource continent to control the martial alliance.

it was likely that the people from the continent island, including the sky array sect, did not manage to gain an advantage and felt that they had lost face. thus, they were prepared to attack the star source continent.

if lin yi didn't suddenly return to fengqi great continent and let ouyang kuantian control it, imprisoning and even killing luo xingliu and jin potian's appointed hall masters and investigators, cutting off the martial alliance's possibility of getting information, fengqi great continent might really become the bridgehead for the martial alliance to control the entire starsource continent.

but things were different now-he'd just started his plan, and he wasn't stable yet. if lin yi really did kill him, the martial alliance wouldn't be able to do anything for him.

just as Lin Yi said, they couldn't even say a word about Ouyang Kuantian's death. They could only pretend that nothing had happened!

"Sima Yi, don't be too arrogant! How could the martial Alliance of the continent Island be as simple as you think? A country boy like you can't understand how powerful the martial Alliance of the continent Island is!"

Ouyang Kuantian's expression changed. In the end, he grinned hideously and said, "This Lord has always tolerated you in order to give you face. Since you don't want face, then this Lord has no need to be polite! Don't you look down on the continental martial Island Alliance? Then I'll show you how powerful the martial Alliance of the mainland island is!"

Before his voice had died away, Ouyang Kuantian took out a jade talisman, injected all his attribute Qi into it, activated it, and threw it into the sky.

The Jade talismans in the air burst out with a dazzling light. In the blink of an eye, it formed a starry sky that enveloped everyone.

In the area covered by the light, there were no more buildings of martial League, nor was there any land. Everyone seemed to be in the void, and all that could be seen was the sky full of stars!

The ancient stellar heavenly cycle domain! (Fake)

Ouyang Kuantian laughed out loud, not hiding his arrogant and proud expression at all, "Sima Yi, I've already given you many chances, but you don't know how to cherish them! Did you see that? This is the

trump card that the martial Alliance of the continent Island gave me, the ancient stellar heavenly cycle domain!"

"In this domain, the power of the stars will be used by me. No matter how awesome you are, can you be more awesome than the stars? It's too late for you to regret now! I'll see how you die! No, I just want to see how you're going to kill me!"

Lin Yi felt the pressure around him, and the Jade space's warning, but he wasn't flustered. This ancient stellar field was quite powerful-it was enough to threaten his life!

Most importantly, Lin Yi didn't know if this thing counted as a formation or not-he couldn't understand it with his current level of formation skills, let alone find a way to break it!

Fortunately, although the jade pendant's spatial warning was urgent, it was not to the extent of being fatal, so he did not panic!

Ouyang chuantian laughed arrogantly, but his heart was in great pain. The ancient heavenly cycle stellar domain in this jade talisman could only be used three times, and its power was only one-fifth of the real ancient heavenly cycle stellar domain. Therefore, the word "fake" had to be added at the end of the name.

However, no matter how fake it was, it was still a trump card that was sealed with the power extracted from the ancient stellar heavenly cycle domain. It could reverse the situation every time, and it was omnipotent in killing and saving lives.

If it wasn't for Lin Yi's intervention, he wouldn't have used this trump card!

The true ancient heavenly cycle stellar domain was not only powerful, but it could also absorb the power of the stars in the world to replenish itself. As long as it was not broken or retracted, it could be maintained forever!

However, the three times sealed in the Jade talisman did not have this ability. Each time it was used, the number of times it could be used decreased. Each time, it could only exist for an hour at most. If it was overused by a powerful attack, the time would be further shortened.
