

Bodyguard 9001

Chapter 9001

They were all heaven breaking experts, and their foundations were much stronger than Ouyang kuantian's battle generals.

With a good foundation and the boost from the stellar field, the practitioner at the front was full of confidence, thinking that he didn't even need the help of his comrades-he could take Lin Yi down by himself.

Lin Yi's speed was their biggest obstacle before, but after the Buffs, their own speed had a shocking increase, and they weren't too far behind.

Especially with their enhanced vision and reaction speed, they had the confidence to capture and deal with Lin Yi.

Furthermore, in the ancient stellar field, their enemies would be suppressed and weakened by the field, and their strength would be reduced to less than 10%. What was there to be afraid of? There was no suspense at all, Hey!

So the warrior at the front was in high spirits. He didn't use any weapons or skills, just a simple punch with a bright Starlight and Thunderbolt force. It was extremely fierce and aimed at Lin Yi's face, as if he wanted to smash Lin Yi's head.

Lin Yi didn't move, as if he was really under the suppression of the stellar field. He didn't even have the time to react. He only moved his arm when the fist was about fifty centimeters away from him.

A fist against a fist, a head-on collision!

The fists of the two sides collided without any fancy moves. There were even circles of void ripples at the point of contact. After a stalemate for a moment, a deafening boom was heard.

Lin Yi wanted to test the strength of the stellar field, so he took the punch head on to test his opponent's strength.

The result of the fight was almost the same. The heaven breaking cultivator who had rushed over first was forced to take three steps back. He barely managed to stabilize his body, his face slightly pale.

Lin Yi, on the other hand, was forced back four steps before coming to a stop. He wasn't affected by the shockwave at all. From the looks of it, it seemed like the heaven breaking expert had the upper hand. After all, he didn't take a step back.

But from the looks of it, Lin Yi was more relaxed, so it wasn't a problem to call it a draw!

In fact, the martial artist knew very well that he had lost this punch because he was the one who had initiated the attack. Not only did he have the boost of distance and speed, but he also had the initiative to attack.

Lin Yi was on the defensive, not moving at all. He didn't even charge up his strength for the last punch, as if it was just a casual attack.

However, such a hasty and casual punch had hit back his full-powered attack. If this was still the effect of the stellar field ... How terrifying was this person's strength?

The martial artist who had been pushed back stood still. Countless thoughts flashed through his mind, but he didn't have time to think and shouted again, "Attack together, don't give him a chance to gain momentum! This person is too strong. We have no chance of winning in a one-on-one fight!"

He had originally wanted to say that none of them could beat him in a one-on-one fight, but when he said it in the end, he still modified it a little and changed it to "no chance of winning," which sounded a little better.

The other martial artists were following behind him, wanting to beat him up when he was down or to stop him from running away. They didn't expect Lin Yi's strength to be so far beyond their imagination.

After hearing the signal, the seventeen practitioners spread out in a circle, ready to attack at the same time!

The threat was too great, so it was better to kill him as soon as possible!

In order to avoid any accidents, they even gave up on their formation. They wanted to use their advantage in numbers to restrict Lin Yi's movement space. At the same time, many Starlight chains appeared in the void of the star field. The heads of the chains were cone-shaped sharp blades, and they attacked Lin Yi together with the seventeen martial artists!

The Starlight chains could wrap, bind, stab, and so on. Lin Yi didn't know if he could break free once he was bound, so the only way was to avoid these chains!

"You have no chance of winning in a one-on-one fight. Do you think you can change things just because you have the numbers? What a joke!"

Lin Yi's body flashed, using the butterfly steps to weave through the chains as he mocked his opponent, "One ant and 17 ants, to a human, what difference can there be? It's the same whether you crush it with a finger or a foot!"

As he spoke, his agile figure passed through the pincer attack of the three chains and lightly appeared in front of one of the cultivators. A black light bloomed as the demonic devouring sword's blade was thrust straight at the cultivator's throat!

The stellar field could greatly increase their defensive capabilities, but it still could not withstand the sharpness of the demonic devour sword. As long as they were stabbed, they would die without a doubt!

"What a joke! Do you think you can kill us so easily? Aren't you looking down on the ancient heavenly cycle stellar domain too much?"

The martial artist shouted and put his palms together. A shield with dazzling Starlight instantly appeared in front of him!

In this ancient heavenly cycle stellar domain, not only could the power of the stars strengthen their bodies and their offensive and defensive abilities, but they could also use it to a certain extent.

In comparison, Ouyang cuantian's jade talisman was a lot weaker in this aspect. Apart from Ouyang cuantian, who had a jade talisman, the other allies in the stellar domain could not use the power of the stars, and could only passively accept the support of the stellar power.

The black demonic devouring sword struck the Starlight shield, but it couldn't penetrate the seemingly illusory Starlight shield.

Lin Yi was surprised, not expecting the Starlight shield to be this strong.

In the brief moment of pause, the practitioners on the side had already surrounded Lin Yi, and there were dozens of Starlight chains shooting at Lin Yi's body, blocking all his escape routes.

"Hey! Have you all forgotten that I'm still here!"

Daniya, who had been ignored the whole time, suddenly appeared behind the encirclement. As she spoke unhappily, her hands turned into countless afterimages, grabbing and shaking off the dozens of Starlight chains one by one. In the blink of an eye, she broke through the siege of the Starlight chains.

Without waiting for the Starlight chains to regroup and attack again, Daniya moved like lightning, and with a soft shout, she sent three fighters flying with a kick, her ferocity no less than Lin Yi 's!

The ancient stellar field's restrictions and restraints also worked on Daniya, but Lin Yi had taken some time to talk to her about it after his encounter with Ouyang kuantian.

Daniya might not be able to break free from the restraints, but with Lin Yi's multi-tasking ability, she could return to her normal fighting abilities!

"F * ck! This girl is this strong too?"

The practitioners were all shocked. They thought that Daniya was just a follower of Lin Yi 's, like a flower vase. Who would've thought that Daniya's combat strength was this shocking? without the ancient stellar field, none of them could take one hit from her!

Chapter 9002

Even with the power of the stars, it seemed that they were no match for him ... Fortunately, the defense of the power of the stars was amazing. The three generals who were kicked away were not injured and immediately turned back. If it were not for this strengthened defense, the three of them would probably be crippled if not dead!

Lin Yi secretly tried using spirit sense vibration and spirit sense needle to attack, but it was like a clay ox entering the sea, there was no reaction.

The star domain's star power formed a defensive layer around these cultivators "bodies, and it was actually able to silently nullify this level of spiritual energy attack.

The vortex could melt the star power, but these practitioners weren't dead. When Lin Yi used the vortex, they'd cover each other and retreat if they realized something was wrong, so Lin Yi didn't throw the skill out blindly-he'd use it at the critical moment!

Daniya came to Lin Yi's side, and the fighters surrounded the two of them. Above them were dozens of Starlight chains, and above them were dozens of stargod arrows that were slowly forming, locking onto Lin Yi and Daniya.

It wasn't an exaggeration to call it an inescapable net!

"I didn't expect this! I was originally going to deal with Sima Yi, but I actually caught a big fish that's not weaker than Sima Yi. I didn't lose out this time!"

The martial artist who spoke before continued,""Little girl, actually, there's no point in you dying with Sima Yi. We'll give you a way out. As long as you kill Sima Yi, not only will we let you live, but we can also introduce you to the martial Alliance of the mainland island and give you an important position."

"It's fine if you don't want to go to the martial Union on the continent Island. Come to our sky array sect, you can at least be a Guardian elder or a guest elder. You'll have a noble status and amazing benefits. At the same time, you'll be free and unrestrained. Wouldn't it be better than you dying with Sima Yi?"

"How is it? Time waits for no one, and you don't have much time to think about it. As long as you agree, we'll be on the same side in the future! Kill Sima Yi, and even if you don't want to join any force, the sky array sect will give you enough gifts as thanks, so that you won't have to worry about resources for the rest of your life!"

They didn't have any information on Daniya in their reports, so they assumed that Daniya and Lin Yi just met not long ago and didn't have a deep friendship.

If they could win over such a powerful expert, it would be equivalent to weakening Sima Yi's strength by half. On the other hand, they would have obtained an expert who could fight against Sima Yi.

One in and one out, that was equivalent to two Sima Yis!

No matter how big the price was, it was worth it!

This guy's mind was pretty quick, and his guess was right. Lin Yi and Daniya hadn't known each other for too long, but they had a friendship that went through thick and thin together, and it wasn't something that anyone could destroy.

Not to mention, Daniya's status was different. Even if she wanted to betray Lin Yi, it would only be because she wanted to return to the dark Demon beast clan, not because of the sky array sect or the continent Island martial Alliance!

"Bah! What are you? I don't even care about the martial Alliance of the continent Island or the sky array sect. They're not even worthy of carrying my shoes, and you have the nerve to recruit me?"

Daniya's face was full of disdain, but she was too cute for her own good. She turned to Lin Yi and whispered, "Am I being too fierce when I speak like this? I'm sure they'll be intimidated, right?"

Lin Yi's lips twitched a little before he nodded against his conscience. "That's right, you're super fierce, you can definitely scare them!"

The martial artist who was speaking was dumbfounded. Are you guys serious? You're whispering in front of us ... And everyone can hear you! Do you think we're stupid or deaf?

Feeling humiliated, these cultivators no longer tried to persuade Daniya to surrender. After exchanging glances with each other, they launched their attacks without a word.

The Starlight chains and Starlight arrows also fell from above, filling the sky with Starlight. In an instant, Lin Yi and Daniya were in a dead end!

"Sima Yi, what's your plan? can you bring it out now?"

Daniya was panicking a little as she faced the huge wave of attacks. Her only hope was that Lin Yi had a plan to turn the situation around.

Lin Yi only shrugged casually, "My plan is to adapt to the situation!"

To hell with improvisational! If you didn't have a plan, you should have said so earlier. I could have watched you for a while!

Daniya cursed in her heart, but she didn't dare to be negligent. She blocked more than a dozen attacks, then lowered her body and hid under her opponent, temporarily avoiding the pursuit of the Starlight chains and star God arrows.

The demonic devour sword in Lin Yi's hand shone with a black light as he used the new fire spirit sword technique's sixth style, raging Flames of War. The blade was wrapped in the conflagration of the consciousness and met the endless Starlight head-on!

In this ancient star field, the consciousnesses and refinement fire were the most powerful attacks. Without them, Lin Yi and Daniya wouldn't even be able to move freely.

Therefore, when the demonic devouring sword with the consciousness alchemic fire met the power of the stars, countless sizzling sounds instantly rang out, like water drops falling on a red-hot iron block, except that there was no steam.

In terms of quality, the two forces were not exactly the bane of each other. They were the bane of each other, and it was more like they were hurting each other.

He sprayed a mouthful of water on the Red Hot branding iron. After the water evaporated, the branding iron was still red. He threw the branding iron into a bucket of water. The branding iron turned cold, but the water did not burn it much.

The outcome of the battle between the two sides would eventually change from quality to quantity!

The alchemic fire sword light continued to collide with the Starlight chains and the stellar God arrow. Both of them were consuming each other. On one side, there was a pseudo-stellar domain formed by the formation. There was definitely a limit to the power of the stars, but he didn't know what the limit was.

The other party's primordial spirit was even more powerful. Wu Linghai could continuously provide the consciousness elixir fire. The two sides were evenly matched for the time being, and it was hard to tell which side would give up first.

However, the Starlight chain and the stargod arrow weren't the only offensive means in the stellar field. There were also the 17 heaven-breaking cultivators who had been strengthened by the power of the stars.

With the power of the stars, their attack and defense, speed, and reaction were all on par with Lin Yi's own body.

A single demonic devour sword had to deal with a sky full of chains and arrows, and at the same time, he had to block the attacks of seventeen heaven breaking cultivators. Even someone as strong as Lin Yi couldn't handle it!

"Sima Yi, you'd better think of something. If this continues, we won't be able to hold on!"

Daniya wasn't really hiding below and not doing anything, but she was focused on attacking the lower three paths of the seventeen practitioners, conveniently using their bodies as a shield!

Chapter 9003 The End

Both the Starlight chains and the star arrows had automatic tracking abilities, but after being blocked by Lin Yi's demonic devour sword with his Spirit Fire, they were no longer a threat to Daniya.

Daniya's own strength was outstanding, and she was at the great circle of heaven breaking. Even these heaven breaking cultivators who had received the power of the stars would find it difficult to shake her defense.

If it weren't for her, Lin Yi would be in a dangerous situation!

On the surface, both sides seemed to be in a state of balance, but to Lin Yi and Daniya, the danger was comparable to the most dangerous times in the node world!

"Don't worry, there will be a way!"

Lin Yi could only comfort Daniya like this. It was difficult to open her mouth when she was multitasking. After saying this, Lin Yi couldn't continue and could only focus on dealing with the attacks.

Daniya pouted, unable to continue grumbling. She tried her best to distract Lin Yi's attention and share the pressure!

With the support of the star energy, these practitioners had extremely strong defenses. Daniya couldn't do anything to them for a while. Although she could move freely with Lin Yi's help, the star field's weakening was still there.

Under such circumstances, even with Daniya's destructive power, she could only send them flying, but was unable to effectively kill them.

As Lin Yi fought, his mind was thinking of countermeasures. Wu Linghai could continue to supply the psyche and refinement fire, and it looked like a long battle, but the sky array sect was prepared. If they really wanted to use up all their energy, Lin Yi could hold on, but Daniya might not!

Besides, other than using his spirit sense, he couldn't make up for the stamina he used up using the skill. Lin Yi knew that he couldn't drag this on any longer, it would be bad for him!

"Daniya, come over and help!"

Lin Yi's methods were all restricted in the star field. His spirit sense attacks were blocked by the star power, and he couldn't even set up formations. The only thing he hadn't tried was a battle formation!

Daniya's strength was just enough to cooperate with Lin Yi. If Fei daqiang or Zhang Yiming came, they wouldn't even have the right to form a battle formation with Lin Yi.

"Alright! I'm coming!"

Daniya replied and knocked back two fighters before flashing to Lin Yi's side. She couldn't do anything to her opponent, but it wasn't hard for her to escape. She had the initiative now.

"What do you want me to do?"

Daniya didn't waste any time and acted as if she was fully supporting Lin Yi. Lin Yi gave her instructions, and Daniya immediately followed them.

The two's formation wasn't too complicated, and Daniya just needed to follow Lin Yi's instructions to complete it perfectly.

Lin Yi didn't have much hope at first-he thought that if he couldn't set up a formation in the stellar field, a battle formation would be useless. He didn't have many methods left, and he decided to try it out.

Unexpectedly, this two-person battle formation was formed very smoothly. The offensive and defensive abilities, speed, and destructive power of the two people all had a significant improvement!

"Sima Yi! You're really something! You should have said so earlier! I knew you could solve all the problems!"

Daniya was very happy, and as she spoke, she kicked away a warrior who was charging at her. She had been unable to break through his defense for a long time before, but this time, her kick had shattered the star power around his body!

The fighter stopped twenty meters away, his brows furrowed as he clutched his abdomen and looked at Daniya. It was clear that after breaking through her defense, he still had the strength to attack his body, causing him to suffer a certain amount of impact.

However, this little impact was not enough to hurt him. At most, it would hurt a little, which could be eliminated in the time it took to take a breath.

Daniya didn't care. As long as she could break his defense, it wasn't impossible to heavily injure or even kill him!

"Sima Yi, you do have some ability! It's beyond our expectations. To think that he can form a battle formation with others to increase his strength in the ancient stellar revolution domain!"

The heaven breaking cultivators all retreated from the battle, and the Starlight chains and stargod arrows in the sky no longer attacked, returning to their original positions to accumulate power.

The martial artist who spoke earlier sneered, ""It seems that if I want to deal with you, I have to be serious! Since that was the case, he could only go all out! You won't be able to withstand the next attack. If you want to surrender, now is the best time!"

"Sima Yi, this is your last chance. Surrender or die! I'm not joking with you! Once you die, your parents will die as well, and everyone related to you will die. You'd better consider it carefully!"

"What?" Lin Yi smiled. Was he trying to stall for time and use a big move? Whatever means you have, just use them! Do you need me to give you time to prepare?"

The opponent wasn't at a disadvantage, and even had a slight advantage, yet he suddenly retreated and said some nonsense. There had to be some sort of plan. Lin Yi's casual words made the face of the opponent become unnatural.

This also proved that Lin Yi's guess was right-there should be more hidden cards in the ancient stellar field!

Giving them time to prepare was all talk and no action!

"Do it!"

Lin Yi shouted and charged at the enemy first. Daniya followed beside him in tacit understanding. The two of them burst out with their full potential and the two of them were like shooting stars, leaving long afterimages behind them as they appeared in front of the enemy's formation.

"You're too naive! Do you really think you can do anything to us?"

The cultivator who had just spoken shouted and raised his hands. The six cultivators around him did the same, and the power of stars formed a dazzling wall of Starlight in front of them.

This wasn't a battle formation, but it was a combination of all the star energy they could use. Although Lin Yi and Daniya's attacks were boosted by the battle formation, it was still impossible to break through the defense of the seven people's combined star energy.

The other ten practitioners didn't stay idle either, pouncing at Lin Yi and Daniya from both sides. At the same time, the chains and arrows in the sky swooped down again like a brilliant meteor shower, but their targets were all concentrated on Lin Yi and Daniya.

As long as Lin Yi and Daniya couldn't break through the star energy barrier, they'd return to the stalemate. Lin Yi focused on dealing with the chains and arrows in the sky, while Daniya dealt with the attacks from the practitioners below.

These 17 heaven breaking stage cultivators did not mind the situation falling into a stalemate. This was because the trump card that they had prepared in the ancient heavenly cycle stellar domain was about to be completed!

If he could delay for a little longer, the opportunity for victory would appear!

Chapter 9004 The End

Lin Yi's eyes turned cold. He knew that they were trying to buy time, so he couldn't let them lead him by the nose!

The divine sense pill fire vortex!

A fully activated pill fire Whirlpool wasn't the same as before. With Lin Yi's current spirit sense, the power was terrifying!

The Seven's combined star power touched the triangular fire vortex and instantly melted a big hole. Lin Yi and Daniya didn't stop at all and passed through the hole!

The demonic devouring sword also had the support of the conflagrated knowledge sea's alchemic fire, and its incomparably sharp black blade was like the sigh of the netherworld, easily taking away the lives of the seven Heaven breaking cultivators who were caught off guard!

They thought that the barrier formed by the star energy was enough to stop Lin Yi and Daniya's advance. Even if they were pierced by the demonic sword, they still had the star energy defense on their bodies, which was enough to ensure their safety.

They didn't expect Lin Yi to be able to get through the star energy barrier like it was rotten wood. The defense on their bodies was like soft tofu-they couldn't withstand the demon devour sword at all!

The seven people who didn't even think about defending were instantly killed, and the other ten fighters who misjudged Lin Yi and Daniya's movements, along with the Starlight chains and Starlight arrows, all fell behind the two, not even touching the corner of their clothes!

When the attacks missed, they would change their direction to chase after Lin Yi and Daniya. The two of them had completed the change in direction, and it was a new round of attacks!

The remaining ten practitioners split up into two groups of five on each side. From the previous situation, this was an exquisite encirclement of Lin Yi and Daniya.

However, in a situation where the seven people in front of them were completely wiped out in a single exchange, they had become the targets of being attacked one by one after being blindly divided!

Even if the distance between the two groups of five was only a few steps, it had now become so close yet so far!

The demonic devouring sword's Black light flickered with the spiritual sense pill fire, and three of the five people died after a symbolic resistance. The remaining two relied on the dozens of Starlight chains to save their lives, but they were also covered in cold sweat.

In the blink of an eye, 10 of the 17 heaven breaking stage cultivators had been killed. Only the last seven had finally gathered together, but they no longer had the slightest sense of security!

Lin Yi had paid a price for his display of power. When he killed three of the five, the Starlight chain and Starlight arrow had already changed directions. At such a close distance, Lin Yi couldn't completely block or dodge it because he had used all his strength.

Daniya tried to defend, but two arrows still went through Lin Yi's body. One was in his left shoulder, and the other was in his left rib!

Blood instantly dyed half of Lin Yi's body red. If it was a normal injury, with Lin Yi's body refinement level, he could heal the wound and stop the bleeding in just a breath. He didn't even need medicine.

However, the star light attached to the wound, stopping Lin Yi's body from healing.

"Sima Yi, how are you? Is there anything wrong?"

Daniya was pulled back by a few Starlight chains, and the battle formation between the two was broken. After the Buffs disappeared, her strength returned to normal, and she couldn't get close to Lin Yi at the moment. She could only ask Lin Yi anxiously.

Lin Yi opened his mouth and coughed a couple of times, a red trickle flowing down the corner of his mouth. It'd been a long time since he'd been injured like this!

"It's fine, it's a small matter!"

Lin Yi wiped the blood off his lips and smiled nonchalantly. "This small injury has no effect on me! We already have the upper hand! The next step is to kill them all!"

As he spoke, he popped a healing pill into his mouth-it was supposed to be able to cure all illnesses, but it still couldn't stop the bleeding!

The power of the stars was indeed a troublesome thing!

"Hahahaha, Sima Yi, you're still so boastful even when you're at death's door. Those who are injured by the power of the stars will definitely die as long as they're still in the star Domain! You're finished!"

The remaining practitioner was a little scared at first, but after seeing Lin Yi injured, he was overjoyed!

The wounds caused by the power of the stars, as long as they were still in the stellar field, would continue to absorb the power of the stars to expand the wound, worsen the injury, and finally take the life of the person!

It was normal for Lin Yi's pill to fail in healing the wound-it was already amazing that he was able to stop the star energy from expanding the wound. If it were someone else's pill, it might not even have any effect!

The chains and arrows in the sky didn't stop just because Lin Yi was injured. They continued to flash around and attack Lin Yi, taking his life when he was down. This was something everyone understood!

Lin Yi's heart skipped a beat-the Jade space was warning him, but it wasn't because of the Starlight chains and Starlight arrows!

The chains and arrows could hurt Lin Yi and even threaten his life, but it wasn't impossible for him to deal with them. They were only troublesome, not life-threatening, and the warning from the Jade space was almost to the point of certain death!

What was it?

Lin Yi's eyes and spirit sense were searching for the source of the threat, but he couldn't find anything. He could only confirm that the threat didn't come from the Starlight chains or the stargod arrows, and it definitely wasn't from the seven Heaven breaking cultivators!

The danger came very quickly, and Lin Yi only had time to do a rough search after receiving the Jade space's warning before his eyes were filled with stars.

The River of Stars hung upside down and flowed down!

An incomparably brilliant and spectacular River of Stars descended from the sky, surging towards Lin Yi and Daniya like a flood, locking the two within the range of the river.

Even Lin Yi and Daniya, who were as strong as they were, felt their bodies go stiff at this moment. The restraints of the star power appeared again, as if a great force was forcing them to watch the unparalleled wonder in front of them!

What a deadly spectacle!

Lin Yi suddenly realized that wangliang would really die if he was sucked into this Galaxy!

On the verge of life and death, veins popped out on Lin Yi's forehead as he shouted. His whole body emitted the compound pill fire and he finally regained his ability to move. If he dodged now, he should be able to avoid the River of Stars!

However, Daniya was still struggling. If Lin Yi escaped the Galaxy, Daniya would die for sure!

Time seemed to have stopped at this moment. Life or death, Lin Yi had to make a choice. If he escaped alone, the success rate was over 80%. If he wanted to escape with Daniya, the success rate was infinitely close to zero!

Lin Yi had a clear estimation of his own strength-what he could do and what he couldn't do, it was all extremely clear, without any deviation!

Chapter 9005

Would he live alone, or would he die together to save Daniya?

In an instant, Lin Yi made a decision, and his eyes were filled with determination. Other than living alone or dying together, there was still a possibility of living together!

Even if it was infinitely close to zero, it was not zero. Even if the probability was one in ten thousand, one in a hundred thousand, or one in a million, it was still a possibility of success!

Daniya was already a comrade that Lin Yi acknowledged. No matter what, he couldn't just watch her die!

As the star River swept over, Lin Yi burst out with all his strength, leaving a trail of afterimages as he crashed into Daniya. At the same time, he shouted two words, "Break the formation!"

Daniya's body was sent flying like a cannonball from the impact. As a Dark Beast, her body was extremely strong, and with Lin Yi's skillful attack, she wasn't injured at all.

All of Lin Yi's strength was used to push Daniya forward, and the speed at which she flew was twice as fast as Lin Yi's previous speed. The star River swept past her and didn't cause her any damage.

Lin Yi, on the other hand, bounced back a distance from the full-force impact and stopped in the center of the galaxy!

"sima yi!"

daniya's eyes almost split as she turned to look at the resplendent galaxy."sima yi, tsk tsk tsk!"

she knew very well that if lin yi didn't help her get out of the galaxy, even if she was a complete heaven-breaker of the dark demon beast clan, she would be washed away by the galaxy!

all this while, daniya had been wavering between betraying the dark beast clan and blending into the humans by lin yi's side, or hiding in the humans to continue her undercover mission. it was only at this moment that she completely forgot about the dark beast clan!

daniya couldn't see lin yi when she turned around because the galaxy was too fast. lin yi was already completely submerged when she turned around!

Daniya's eyes instantly turned red-the killing intent in her heart was so strong that it filled the sky. Want! Die!

Sima Yi was dead, and every single person on this mountain would be buried with him!

Daniya turned her head, her body still flying at high speed. Lin Yi's last words were still echoing in her mind!

If it was before the appearance of the Galaxy, Daniya would not have been able to break through this simulated ancient heavenly cycle stellar domain. But after the appearance of the Galaxy, the situation was completely different!

The fake ancient heavenly cycle stellar domain was ultimately fake. The real ancient heavenly cycle stellar domain could easily use the Galaxy as a means of attack, and the power of the stars would never be lacking.

In order to use a super killer move like the Galaxy in the ancient stellar heavenly cycle domain simulated by the formation, all the power had to be drained instantly!

Not to mention how much power this formation had, its consumption was even more than the original. Therefore, when the Galaxy appeared, the formation was also at its weakest. Besides the Galaxy, the starry sky and the void all disappeared.

The sky array sect once again appeared in front of Daniya's eyes, and the direction she was flying in was one of the nodes of the array that simulated the star Domain!

Lin Yi had already figured out all the nodes of the formation before he activated the stellar field, but he was a little careless at the time and didn't want to make the first move, which was why he was in such a dangerous situation.

When he sent Daniya out of the Galaxy, Lin Yi had already noticed the formation nodes. This was the best time to break the formation, perhaps the only chance. So when he hit Daniya, he chose the most important node for her as his destination!

Daniya didn't know how many thoughts and calculations Lin Yi had in that moment. Her eyes were red, and everything she saw was an enemy!

She thought that Lin Yi was dead, so all the enemies in her eyes had to be buried with him!

There were five practitioners in the node, and Daniya didn't care if they were practitioners or formation Masters. She used Lin Yi's strength and flashed past them, landing on the node and completely shattering it!

Behind Daniya, the five Warriors had been completely torn apart by the violent power, leaving only a bloody mist in the air.

After the power of the formation was instantly drained to form the Galaxy, the formation would naturally recover its power slowly. All the nodes would still be hidden in the void after a short period of time.

However, the most important node had been destroyed, and the entire formation had been affected. The various nodes that had just faded away reappeared in the distant vibrations.

Daniya stomped her feet and her entire body shot out horizontally. She appeared at the nearest node position as if she had teleported, and a powerful force poured down on the enemy's head without reservation!

The second node was broken!

At this time, the blood mist at the position of the first node was still in the air and had not fallen down. The second node followed the footsteps of destruction. Almost at the same time, the third node also exploded!

The Furious Daniya's speed was as fast as lightning. The Warriors in the nodes couldn't even see their shadows before they were turned into a bloody mist!

One second!

All the nodes were destroyed, and all the people in the nodes were exterminated. The ancient heavenly cycle stellar domain disappeared, and the resplendent Galaxy turned into specks of Starlight and disappeared without a trace!

In the entire sky array sect, only the seven Heaven breaking cultivators were still alive. They still had smug smiles on their faces, but they were now frozen on their faces, making them look extremely comical.

Just a second ago, they had still seen their strongest killer move, Galaxy, descend, engulfing their nemesis, Sima Yi, and that unknown woman.

The next second, the unknown woman shot out of the Galaxy and destroyed all the nodes with a series of crackling sounds. Even the ancient heavenly cycle stellar domain was gone!

It's not that I can't keep up with the times, but the world is changing too fast ...

The seven Heaven breaking stage cultivators were all dumbfounded. Their minds were still reacting to this matter, but they had forgotten that after the stellar field disappeared, their offensive and defensive buffs had also disappeared ...

In her berserk state, Daniya's eyes were already red from killing, and her strength was even stronger than when she was at her peak. When she discovered where the last enemy was, she immediately rushed over!

Under normal circumstances, these seven Heaven breaking experts weren't Daniya's opponents at all. Previously, they had only been able to exchange blows with Daniya by relying on the support of the star Domain.

Now that the star Domain had disappeared and the support of the star power had disappeared, they returned to their original state. Daniya had entered a berserk state. Under this situation, the two sides had entered a gap of crushing levels.

In addition, they were still in a daze, so there was no doubt that they would be instantly killed by Daniya!

Chapter 9006

"daniya, leave him alive!"

lin yi's weak voice sounded, and daniya was surprised and happy. she turned around and saw six clouds of blood behind her ... if she had been a bit later, it would have been seven clouds of blood!

in front of a berserk daniya, a heaven breaking expert was no different from an ordinary person.

"sima yi, you didn't die! that's great!"

the blood red in daniya's eyes quickly receded as she carried the last surviving heaven breaking practitioner and flashed to lin yi's side, throwing the guy on the ground like a broken sack.

that poor living brother had already fainted from daniya's violence. he didn't know if he was lucky or unlucky to be alive. it might not be a bad thing to die a quick death!

"Sima Yi, how are you? Are you alright?"

Lin Yi sat on the ground. The number of wounds on his body didn't increase, but his body was shining like stars. It looked extremely brilliant, but Daniya could feel the danger hidden within.

She knelt down on one knee and reached out to help Lin Yi up, but he rejected her, "Daniya, don't touch me first. The power of the stars is too dangerous. If you touch me, not only will I be in danger, but you will also be in danger!"

Daniya's hand immediately stopped in mid-air, not daring to move an inch forward, "Sima Yi, what's your situation now? How can I help you?"

Although it was a miracle that Lin Yi could survive in the Galaxy, Daniya was still worried about Lin Yi's condition!

Lin Yi waved his hand with a bitter smile and didn't say anything. He sat cross-legged and started suppressing the star power in his body.

It was all thanks to the Jade space that he was able to survive this time. Just like the warning of the Jade space, if Lin Yi were to be swept by the Galaxy directly, he would be dead without a corpse.

The moment they came into contact, Lin Yi's essence spirit left his body and went back into the Jade space. He then faced the torrent of stars in his ethereal state.

In this state, the spirit was immune to all physical attacks. The problem was that the Galaxy wasn't a physical attack-the power of stars was a power that Lin Yi had never come into contact with before. The fire and the power of stars could melt each other, so the Galaxy could naturally damage the spirit.

The state of void could only reduce the damage from the stars, but it couldn't ignore them. In that short moment, Lin Yi's spirit was heavily injured. If Daniya didn't go berserk and destroy the ancient star field in the shortest time possible, cutting off the source of the Galaxy, Lin Yi's spirit might have really disappeared from the Galaxy!

After the Galaxy collapsed, Lin Yi realized that his essence spirit was filled with the power of the stars. The power of the stars was like gangrene attached to his bones, still damaging his essence spirit.

If he existed as a Yuan Shen, the yuan Shen would continue to dissipate. Lin Yi had no choice but to move his body out of the Jade space, return the yuan Shen to his body, and sink into the Wu Linghai.

Only then did he manage to suppress the damage of the star power to the yuan Shen. However, it was impossible to get rid of the star power in a day!

Not only that, after the primordial spirit left his body, the star power in his body suddenly spread out. After the primordial spirit returned, the star power from the Wu Linghai entered his body and resonated with the star power before, causing Lin Yi to be wrapped in Starlight.

If he didn't control it, his body would collapse under the star energy's erosion sooner or later. This was why Lin Yi didn't say anything and immediately suppressed the star energy.

Under the combined attack of the pill and his body, the star energy was finally controlled to a corner of his body. The wounds on his shoulder and ribs were healed as well, but Lin Yi's heart was heavy.

The power of the stars in his primordial spirit and body couldn't be expelled for the time being, which was equivalent to placing a seal on his body!

More than half of his power had to be used to suppress the power of the stars. If he fought with all his strength, the power of the stars would burst out like a Prairie Fire, and it would be more difficult to suppress it again.

What was even more annoying was that if the primordial spirit and the corporeal body were separated, the power of the stars on both sides would burst out. It could be suppressed for a short time, but if it was prolonged, the primordial spirit and the corporeal body would collapse.

From now on, Lin Yi couldn't just let his spirit leave his body-the consequences were too severe, and he might not be able to handle it.

In usual battles, it should not be a problem to control the strength below the early stage of the sea Rift realm. It was best not to use the early stage of the sea Rift realm and only use the strength of the consummate level of the earth splitting realm. That was the safest way.

The power of the stars was a seal like this, and if Lin Yi wanted to break the seal and fight with his full strength, he had to suffer the backlash of the power of the stars!

"I'm fine, don't worry! It's all thanks to you this time. If the stellar field had continued for another second, I might have been in danger!"

Lin Yi suppressed the star energy in his body and got up as if nothing had happened. He smiled and comforted the nervous Daniya, "How are you? Did you get hurt?"

"No, I'm not injured at all. You even said that it was all thanks to me ... If you didn't save me, I would have been dead, and you wouldn't have been injured!"

Daniya pouted, but Lin Yi really did look fine. Other than his pale face, his wounds were all healed, and she relaxed a lot.

Meanwhile, the old men in the Jade space were nervously discussing the star power. Lin Yi could hide it from Daniya, but they knew the condition of Lin Yi's spirit and body.

It didn't matter if they were friends or enemies with Lin Yi in the beginning, now that they were in the Jade space, they were in the same boat as Lin Yi. Unless they could escape the Jade space, Lin Yi was dead. If the Jade space collapsed, they would die too.

Therefore, when the ghostly thing asked how to solve the problem of the power of stars, they were all very enthusiastic to say what they could think of and study it together. Unfortunately, they had no clue for the time being. The power of stars was also a very strange power to them!

Lin Yi didn't care about the discussion in the Jade space. The entire sky array sect had been wiped out by Daniya, and she was terrifying in her berserk state. No one could survive her.

Luckily, Lin Yi spoke up early and left one of them alive. If they were all dead, they wouldn't be able to track down Sima Yunqi and Su Lingyue!

Sima Yunqi and his wife were important people to Lin Yi, but to Daniya, they were not even worth a fart. As long as Lin Yi was alive, she would only care about those related to him. If Lin Yi was dead, she would only kill everyone who hurt him.

Just like what he did just now!

Lin Yi's only hope now was to find out the whereabouts of Sima Yunqi and his wife from this person!

Chapter 9007

"Tell me, where did you send the person I'm looking for?"

Lin Yi slapped the practitioner awake. Daniya had already broken his limbs before that, in case he had any unrealistic thoughts of resistance.

The only survivor was a little confused after being slapped awake by Lin Yi-it took him two whole seconds to figure out his current situation.

Lin Yi was very patient-he waited for the man to wake up before asking, "Where did you send the person I'm looking for? If you can answer my questions honestly, I can consider letting you Live!"

In fact, compared to Sima Yunqi and his wife's whereabouts, how to remove the power of the stars was the most important question. However, Lin Yi still chose to ask about Sima Yunqi and his wife's whereabouts first.

"I don't know. We were only sent to deal with you. We didn't participate in anything else. I can only say sorry!"

The guy quickly calmed down and looked at Lin Yi calmly. "You might not believe me, but I'm telling the truth! In fact, I'm very curious about you. How did you survive the scouring of the Galaxy? You look fine, but I guess you're not as nonchalant as you look, right?"

Perhaps he thought that he could use this to threaten Lin Yi, and so he seemed very confident and fearless.

Daniya looked at Lin Yi worriedly. She felt that Lin Yi wasn't completely fine ... Now that the guy mentioned it, she felt that something was wrong.

Lin Yi smiled and shook his head, "I don't have much patience, and I don't want to talk to you about whether I'm okay or not. If you don't answer my questions, you might not be willing to bear the consequences!" I'll give you one more chance. Do you want to organize your words before you answer?"

"Hahaha, my companions are all dead, and I'm the only one left. There's no point in living. If you want to kill me, then do it. I don't know anything, and even if I did, I wouldn't tell you!"

Brother Liukou probably thought that he was Lin Yi's only clue and wouldn't be killed so easily. Plus, he had some information that could be used to threaten Lin Yi, so he showed his strength without fear!

Lin Yi smiled and shook his head helplessly. He really didn't want to use the soul-searching technique!

His primordial spirit was still being pestered by the power of the stars. Using the soul-searching technique would only increase the burden on his primordial spirit. Unfortunately, he had no other choice now. The other party was not willing to cooperate. Time was tight. He had to find the whereabouts of Sima Yunqi and his wife as soon as possible!

If the guy was willing to cooperate and answer his questions honestly, Lin Yi really didn't mind letting him Live!

"Fine, since you want to die so badly, I'll fulfill your last wish!"

Lin Yi said indifferently as he reached his hand out to the guy's head. "As for what you don't want to tell me, I have no choice. I can only find the answer myself!"

The live bro was stunned, not understanding what Lin Yi meant. His instinct told him that it wasn't good!

Before he could react, Lin Yi had already made his move.

Soul snatching hand!

Soul-searching technique!

Even if it would increase the burden on his essence soul, he had no other choice!

Lin Yi frowned, his face turning paler. The soul-searching technique was harmful to the spirit to begin with, and it was getting worse with the star power.

Daniya looked at Lin Yi worriedly, biting her lips and not saying anything. A few seconds later, the soul search ended, and Lin Yi let out a long breath, relaxing her a lot.

"Sima Yi, how is it? Did you find your parents? Let's go and save them!"

Lin Yi's brows were still furrowed as he shook his head. "I have some clues, but they are not very clear. The ones who took them away are experts from the darkness demon beast clan, and they are not from the starsource continent. I don't know where they are from!"

Daniya was stunned for a moment. She would never have thought that the capture of Sima Yi's parents would lead to the darkness demon beast clan from another continent. What was going on?

"Daniya, we'll immediately return to the starsource continent. You go and ask Dian Youwei about this. If he doesn't have any information, we'll take him down immediately. He should be the one with the highest status among the darkness demon beasts that are hiding in the starsource continent. The darkness demon beasts from other continents will definitely not let him off when they come to the starsource continent!"

Lin Yi's thoughts were clear-with the sky array sect's branch lost their lead, the only way to continue was to find Dian Youwei!

The dead brother didn't provide complete information, and the drawbacks of the soul-searching technique were unavoidable. The bits and pieces of information couldn't guide Lin Yi's next course of action-he had to find the direction himself!

"No problem! Don't worry, as long as Dian Youwei has this information, I'll definitely be able to get it from him!"

Daniya agreed immediately. If she still had a sense of belonging to the darkness demon beasts in the node on the starsource continent, she had no feelings for the darkness demon beasts on the other continents.

The spatial node world was vast and boundless, and it also corresponded to the spatial nodes of the various continents. Only the higher-ups of the darkness demon beast clan would be in contact with each other between the two continents, and the lower-ranked ones didn't have much of a relationship.

This time, Daniya didn't feel any pressure standing on Lin Yi's side. She even felt that it was a natural thing to do!

"Let's go. We'll immediately return to the starsource continent!"

Lin Yi didn't dawdle and quickly left the ruined sky array sect with Daniya!

Other than the information on Sima Yunqi and his wife, brother Houkou also had a bit of information on the power of the stars. Although it was scattered, it gave Lin Yi some hints on how to solve the problem of the power of the stars. After finding Sima Yunqi and his wife, he would go and see if it worked.

The SU family's group left an hour early, but they still couldn't make it in time. The Ouyang family didn't do anything, either, so they met Lin Yi and Daniya on the way.

"Grandfather, father and mother are not in the sky array sect's sub-school, they have been taken to another place. I am in a hurry to track down their whereabouts, so I can't talk to you anymore! We'll talk again when we're back!"

Lin Yi paused for a moment before quickly adding, "Old man, please pay more attention to the Ouyang family. There's no need to fight them head-on. We'll see how things go after martial League has stabilized!"

If possible, Lin Yi wanted to kill that old man before leaving. After all, Ouyang kuantian's jade talisman could form an ancient Star Domain. It wasn't as powerful as the sky array sect 's, but it could easily deal with the SU family's Warriors.

Chapter 9008

However, the sky array sect's sub-school had been destroyed. If Ouyang old Deng was smart, he would choose to lay low for a while and see the situation.

Lin Yi's condition wasn't looking good right now, and he didn't have time to waste on the Ouyang family. He could only leave Ouyang old Deng for now and deal with them later!

"Alright, I understand ..."

Su yongcang didn't even finish his sentence when Lin Yi brought Daniya and set off again. The two were too fast, and most of the SU family's people were still confused by the situation. The two had already disappeared into the distance.

Return to the teleportation array, teleport back to the star origin great continent!

Ouyang kuantian was indeed in hiding, so Lin Yi and Daniya didn't encounter any trouble and returned to the starsource continent smoothly.

Daniya immediately went to find out more from Dian Youwei while Lin Yi went home and wrote a letter to Luo xingliu, Jin botian, Fei daqiang, and Zhang Yiming.

He briefly mentioned what had happened in Fengqi continent, and then said that he would leave the starsource continent for a while. If everything went well, he would be back soon.

If he went to visit them one by one, it would waste too much time. Lin Yi didn't know why the dark Demon beasts from the other continents took Sima Yunqi and su lingyue away, but it wasn't anything good.

Now was a time to race against time. If he could explain it in writing, he didn't need to explain it personally.

Daniya came back very quickly, as soon as Lin Yi finished writing the letter. She was very efficient.

"How is it? Is there any news from Dian Youwei?"

Lin Yi had already prepared for the worst. If there was no news from Dian Youwei, he might have to take him down and search his soul again!

It was impossible for Dian Youwei to not notice that the darkness demon beasts from other continents had come to the starsource continent. If he said that he didn't know anything, he must be lying to Daniya!

Daniya's expression was serious, and Lin Yi thought that she didn't get any useful information.

In the end, Daniya nodded. "There is indeed news. However, I don't know if it's related to your parents ... The latest news is that most of the darkness demon beasts on the starsource continent will try to move to the heaven's legacy continent in the near future!"

"There are two reasons. The first is that you have become the Vice Hall Master of the martial Alliance and the president of the combat guild. Your main responsibility is to deal with the darkness demon beast clan. Your reputation is at its peak, and the darkness demon beast clan on the starsource continent has to avoid you."

"Of course, this isn't the most important thing. The most important thing is that the heaven's legacy continent seems to have a huge plan that requires a lot of combat power. It's not quite possible to come out from the node, so we can only gather experts from the various continents to participate."

"Although there is no direct evidence that your parents were taken away by the darkness demon beast clan from the heaven's legacy continent, according to what Dian Youwei said, other than the darkness demon beast clan from the heaven's legacy continent, no other continent has sent any experts to the starsource continent."

"Actually, I didn't look for Dian Youwei today because he wanted to discuss this with me. Between him and me, at least one of us needs to observe in the dark. We don't have to participate in the big plan, but we need to know the details."

"It seems like the martial Alliance of the continent Island is also paying attention to the heavenly secret continent. The other continents have sent people to investigate the heavenly secret continent. I guess

the starsource continent didn't receive any notice from the martial Alliance of the continent Island because they have been on bad terms with the martial Alliance of the continent Island recently, right?"

"Dian Youwei obtained this information through his own channels. If I don't go, he will apply to go to the Tianji continent as the Xingyuan continent's investigation representative to investigate. I've already said that I will go to the Tianji continent because this might be the only clue to track down your parents."

Lin Yi pondered for a while, digesting the information Daniya brought him. He nodded, "I understand! We haven't received any news about what happened in the Tianji continent. Only Dian Youwei knows, right?"

"That's right. The martial Alliance and the inspection department of the starsource continent haven't received any news from the Tianji continent yet. Perhaps the martial Alliance of the continent Island isn't prepared to let the starsource continent get involved?"

Daniya also had some understanding of politics. The incident at the Phoenix Nest continent was clearly the prelude to the martial Alliance of the continent Island wanting to completely control the starsource continent. It was only a matter of time before the two sides became enemies, so it was normal for them to not bring the starsource continent along.

Lin Yi nodded and added a few more words to his letters to Luo xingliu and Jin botian. Other than reporting the Tianji continent's news, he also said that he wanted to be the investigation representative of the Xingyuan continent.

After all, going to another continent without telling them in person was a dereliction of duty, but now that they had found an excuse to do so, no one could say anything!

"Alright! Let's go take a look at the heaven's legacy continent! I feel that the darkness demon beast clan's expert that appeared at the sky array sect's sub-school should also be heading to the heaven's legacy continent! It's very likely that my parents have been taken to the heaven's legacy continent!"

Lin Yi sealed the letter and had someone send it to martial League and the inspection department. He then took Daniya to the teleportation formation, heading towards the Tianji continent!

There was no direct teleportation formation between the continents. There would be one to three transit teleportations in between.

The transit teleportation would not take one out of the teleportation array. Instead, it would pause for a while before activating again. The person who was being teleported would not know which transit teleportation array they would pass through.

This was a completely different concept from taking a plane in the mortal world. The two had to go through three transfers before they reached their destination, the Tianji continent.

Even Lin Yi, who was used to teleportation, felt a little dizzy after coming out. Daniya was even worse, her feet were floating.

Lin Yi was dizzy, but he still had to be on guard. The moment he stepped out of the teleportation formation, his spirit sense spread out in all directions, getting a grasp of the situation.

"You two, may I ask where you came from? What business do you have in our Tianji Empire?"

There were a few martial artists by the teleportation formation. The middle-aged man in the lead was around mid-stage sea Rift. He asked politely when he saw Lin Yi and Daniya.

"Because there have been many distinguished guests coming from afar recently, martial League has ordered us to register the visitors. Please cooperate with us and don't take offense!"

People who could use the teleportation formation were of high status. Normal martial artists didn't have the right to use the teleportation formation. It was the same on every continent, so the middle-aged martial artist in front of Lin Yi was very humble and didn't dare to offend him.

Lin Yi raised a hand to his forehead and thought for a moment before asking, "Is this the heavenly secret Empire? We didn't want to come to the Tianji Empire. We probably teleported by mistake ... What happened to your Tianji Empire recently? Why are there so many people here?"

Chapter 9009

The middle-aged martial artist was stunned. Teleported to the wrong place? There's such a saying? I'm afraid you guys didn't teleport wrongly on purpose, right?

Lin Yi had never been to the Tianji continent before. He thought that he would be teleported to the capital of the Tianji continent, the martial Alliance's teleportation formation. Who knew that he would end up in an Empire's teleportation formation?

But then again, this place was called the heaven's Legacy Empire, and it was named after the heaven's legacy continent. It should be very close to the martial Alliance of the continent, right?

If not for that, how could an ordinary Empire have its own teleportation array? So, this place was also the location of the heavenly secret continent's martial Alliance?

Lin Yi's mind spun quickly, trying to come up with a reasonable explanation with the few clues he had. The middle-aged martial artist, on the other hand, was stunned for a moment before reacting.

"If the two of you have teleported to the wrong place, please teleport away! If you wish to stay in our Tianji Empire, you'll still need to register. May I ask if the two of you wish to leave or stay?"

Lin Yi didn't answer his question, and he didn't care about it either. He gave him two choices-leave or tell him the truth!

Even if he didn't offend them, he still had to do what he had to do!

Lin Yi didn't mind, but Daniya wasn't, "Hey, old man, what do you mean? You didn't answer when we asked you, and now you want to drive us away? Do you think we're easy to bully because we're young?"

The middle-aged martial artist was dumbfounded. Old man? I'm in my Prime, alright? There's not a single wrinkle on your forehead. How dare you call me an old man?

The few martial artists behind him looked serious and quickly got into a defensive formation, ready to attack at any time. At the same time, they were also ready to sound the alarm.

Daniya was getting more and more annoyed by their actions. She had not completely vented her anger from the sky array sect's rampage, and now that she sensed the other party's defense and vigilance, a small flame in her heart rose.

The momentum of the great circle of heaven crushing suddenly pressed down, and an invisible pressure appeared out of thin air. All the cultivators, including the middle-aged man, turned pale and their bodies stiffened, unable to even move their fingers.

In their perception, it was as if they were facing a prehistoric giant beast. If they dared to resist, they would be torn to pieces immediately!

"Daniya, we're guests from afar, don't scare them!"

Lin Yi smiled faintly and waved his hand, signaling for Daniya to put away her pressure.

Daniya made an "Oh" sound and obediently retracted her aura. It was actually only a second or so, so short that it could be ignored. However, after the cultivators' bodies relaxed, their legs went soft and they involuntarily knelt on the ground, their hands on the ground to support themselves as they gasped for breath.

The joy of escaping from death inexplicably welled up in their hearts. The other party had clearly not done anything, but they felt that they had managed to keep their lives!

Only the middle-aged martial artist in the lead was slightly better. At least, he did not kneel down. His feet were also very weak, but after staggering two steps, he managed to stand firm.

Daniya took a glance and found that the middle-aged man's hand was trembling. He was obviously afraid, and she immediately revealed a disdainful smile.

Useless thing!

"Everyone, although we were teleported by mistake, since we're already here, it should be fine for us to stroll around, right? As for where we come from and what our identities are, we don't want to talk about it. Can you help us keep it a secret for the time being?"

Lin Yi smiled at the only middle-aged martial artist standing, "I know. The Tianji Empire is a very powerful empire. We don't have any ill intentions. This small request shouldn't be too difficult, right?"

"It's not difficult, not difficult! It is the Tianji Empire's honor for the two lords to grace us with your presence. If there is any need, we will do our best to assist the two lords. If the two lords do not wish to be disturbed, we will not disturb their mood!"

The middle-aged cultivator's attitude immediately took a 180-degree turn, his expression becoming extremely respectful and humble.

On the sub-Island, strength was everything!

This was the same everywhere he went!

the strength that daniya had displayed was enough for her to destroy a country! the tianji empire could not stop a super expert of this level!

and with lin yi and daniya's relationship, no matter how you looked at it, daniya was always the subordinate. so lin yi, who looked the same age, should be an even stronger master, right?

the tianji empire did not dare to offend such an important figure. they would only do their best to please them, so the middle-aged martial artist's words were completely sincere and not a single word was false.

daniya snorted. "why didn't you do this earlier? why did you have to babble for so long? what's the point of having some formalities?"

the middle-aged martial artist continued to respond with a respectful expression, not showing the slightest hint of embarrassment.

"Then can you tell us what happened to the Tianji Empire recently?" Lin Yi asked gently. Other than us, there are other people here, right? Who are these people?"

Since the darkness demon beast clan had come from the starsource continent to the heaven's legacy continent, he wondered where they would be teleported to. Could they have also arrived at the heaven's Legacy Empire?

To be able to move in broad daylight, they must have either transformed into a human or controlled a human body to move. The few martial artists in front of him probably couldn't see any flaws.

Lin Yi thought that he should get two portraits of Sima Yunqi and Su Lingyue, it would be easier to find clues.

"Replying to my Lord, there have been rumors recently that the Ink Star River has appeared within the borders of our Heaven's Legacy Empire. As a result, heroes from all over the world are gathering towards our Heaven's Legacy Empire. There are many of them, so I can't say for sure."

The middle-aged martial artist bowed slightly and smiled humbly, "Actually, our Tianji Empire's request for everyone to register is just a formality. For true experts, if they are willing to give us face, we can still say a few words. If they are not willing to give us face, we will not dare to force them."

Lin Yi understood—he and Daniya were the type who didn't want to give them face, and they couldn't force them.

To put it bluntly, the people who could truly register their information were mostly not considered strong. At most, they were at the sea shattering stage. There were probably not many heaven-breaking experts who would be willing to give the Tianji Empire face, and the Tianji Empire did not dare to offend these people.

These weren't the main points—the main point was that the middle-aged man was talking about the Star Ink River, which piqued Lin Yi's interest.

He'd used the Black Star Crystal and other treasures to level up and breakthrough all this time, but he'd never heard of the Black Star River. He'd found something similar when he used Soul search on that guy in the sky array sect.

If he wanted to solve the problem of the star power, he needed something like star ... Ink ... Something like that. Lin Yi was still thinking if he should go look for something like the star Ink crystal, but now that he thought about it, perhaps the star Ink River was the answer?

It's really like a pillow comes when you're sleepy!

Chapter 9010 The Power Of The Devil

"Can you tell me more about the star Ink River?"

Lin Yi asked. At the same time, he took out a pen and paper and started to draw Sima Yunqi and Su Lingyue's portraits. Sketching wasn't difficult. Lin Yi had countless books in his sea of consciousness, and he had many drawing skills as well.

With a strong body control and a certain skill, it was not difficult to draw the faces of two people.

"Yes! I've heard that the Black Star River is a legendary land of treasures. Even the most ordinary water of the Black Star River can be used to speed up one's cultivation, allowing one to achieve twice the result with half the effort. "

The middle-aged martial artist explained, ""It's just that the Black Star River isn't a fixed location. It will move on its own. It's not easy to find its location. "

"However, every time the Black Star River appears, there will always be an omen. This time, The Omen appeared within the borders of our heavenly secret Empire. Thus, the heroes from all over the world who received the news all came to our heavenly secret Empire, hoping to obtain the opportunity to enter the Black Star River to cultivate."

"The most ordinary water of the Black Star River is also a heavenly treasure that everyone yearns for. The Black Star River also contains the most precious Black Star Spirit core, which is an unparalleled treasure. It's said that the Black Star River is derived from the Black Star Spirit's core. If you can obtain the Black Star Spirit core, it won't be difficult for you to become the number one expert in the world!"

"It's just that no one has found the exact location of the star Ink River yet, so more and more people have come to our Tianji Empire. There are experts all over the Empire, so no one can say for sure where the star Ink River will eventually appear!"

Lin Yi left the teleportation formation with Daniya. The information he got from the middle-aged man was very limited. Other than knowing that the star Ink River would appear in the Tianji Empire, there was basically nothing useful.

He didn't reveal who was worth paying attention to in the Tianji Empire, and this made Lin Yi feel at ease. At the very least, his and Daniya's information wouldn't be easily revealed.

Sima Yunqi and su lingyue's sketches were very good, but it was a pity that the middle-aged martial artist had never seen them before. The other martial artists also said that they had no impression of them. Perhaps they had never come from this teleportation array.

lin yi was helpless-there were only so many clues, and he wasn't even sure if they were brought to the tianji continent, let alone the tianji empire.

at the moment, he could only take one step at a time and continue to search for sima yunqi and su lingyue's whereabouts, or find out what the darkness demon beast clan's plan was in the heaven's legacy continent. in this way, he could find traces of the two.

"sima yi, what should we do now? do you want to find news about your parents or the star ink river first?"

daniya followed lin yi and looked around. this was the tianji empire's capital, and the teleportation formation was set up in the capital. if there was any danger, they could call for reinforcements and leave the capital at any time.

outside the teleportation formation was the bustling streets of the imperial capital. the guards didn't question anyone who came out of the teleportation formation, allowing lin yi and daniya to leave easily and enter the main street.

the prosperity of the tianji empire's imperial capital made daniya very happy. she had had enough of the desolation in the node world. after coming to human society, the more prosperous a place was, the more daniya liked it.

Lin Yi said casually as he looked around. "Let's find a place to sell maps first. We're new here and are unfamiliar with the people and place. It'll be much more convenient with a map in hand."

Regardless of whether it was to look for Sima Yunqi and his wife, or to look for the ink Star River, it was necessary to understand the geographical situation.

"Alright, I'll listen to you! However, before buying the map, he should buy some snacks first! I've never seen it before, but it looks delicious!"

Daniya wanted something new, so she dragged Lin Yi to a roadside eatery. Lin Yi smiled and shook his head, letting her pull him.

He didn't know where to sell the map anyway, so it wouldn't hurt to go shopping with Daniya first. After all, Daniya saved his life, so he naturally wouldn't stoop to her level to satisfy her small request.

While eating snacks, he asked a few people where they could sell a map and was led to an antique building. On the plaque were three vigorous and powerful big words: fragrant ink Pavilion!

Every stroke of the brush had an extraordinary aura to it.

Lin Yi and Daniya entered the building and found that it was a whole new world inside. The space was much bigger than it looked from the outside, probably due to the support of a spatial formation. The fragrant ink Pavilion must have a powerful background to be able to use a formation like this.

"Welcome to fragrant ink Pavilion, what can I do for you two? The calligraphy and painting are on the second floor, and the first floor is where the Four Treasures of the Study and ordinary books and illustrations are sold!"

The workers in the fragrant ink Pavilion were all refined and well mannered, wearing wide-sleeved robes with a scholarly air about them. They greeted Lin Yi and Daniya as they walked in, introducing the basic situation of the fragrant ink Pavilion with a smile.

Lin Yi returned the greeting with a smile. "I've heard that your Pavilion has a geographical map for sale. I want to buy a copy. I wonder if you can let us take a look?"

"Are the two of you also here to buy the geographical map? This way, please!"

The waiter raised his hand and led the two to a bookshelf in the distance, taking down a scroll. "The two of you are quite lucky. There is one last geographical map! Recently, there have been many people buying the geographical map. After this last one is sold, if you want to buy it again, you'll have to wait one or two months!"

"In the entire Tianji Empire, only our fragrant ink Pavilion has the most authentic and perfect geographical maps. It's not that the other places don't have it, but they're all very simple and have many mistakes, which is why our fragrant ink Pavilion's geographical maps are so popular."

The shop assistant opened the scroll for Lin Yi and Daniya to see as he praised the fragrant ink Pavilion.

The unfurled scroll revealed the mountains, rivers, cities, and villages of the Tianji Empire. It was like a 3D painting to Lin Yi.

He could Zoom in and look at the things he was interested in. It was similar to how computers were used in the secular world. It was indeed very convenient.

Lin Yi was very satisfied with the geographical map, "We're really lucky! We'll take this geographical map, how much is it?"

He had already tried it when he was buying the snacks. The money from the starsource continent could still be used on the heaven's legacy continent, or rather, it could be said that it was the common currency here, so he didn't have to waste his effort to exchange it.

When he was on the Xingyuan continent, he had Fei daqiang to make money and manage his finances, so Lin Yi never had to worry about financial problems. He always had a huge amount of wealth on him, and even when he came to the Tianji continent, he was still a rich man who could rival a country!

It didn't matter how expensive it was for a mere geographical map!

The shop assistant smiled as he put away the scroll, about to bid for it when someone walked up to him. "Then this young master wants the geographical map!"
