

## Bodyguard 9021

### Chapter 9021

Especially those with a female partner, they were even more eager to try it out. For example, Meng buzhuai, who was standing next to Lin Yi, had a look of eagerness in his eyes. He wanted to bid for this soft armor and give it to Yan Wuming.

"The starting price of the flowing cloud sky armor is 500000 gold certificates, and each increment is no less than 10000 gold certificates. It's cheap and good quality. Grandmaster Meng's work has always been in high demand, and its effects are even more well-known. Those who are interested can start bidding now!"

The auctioneer announced the start of the auction for the flowing cloud sky armor. Normally, the price of this soft armor would not be low, but the people who had come today were all powerhouses from all over the world. Their target was the six-point star source instrument, so a mere 500000 gold certificates was nothing.

The flowing cloud sky armor was indeed in high demand, so it was arranged to be the first to go up for bidding. The price wasn't too high, and it just happened to stir up the atmosphere of the auction!

"Six hundred thousand!"

Meng buzhuai was the first to speak, and he directly raised the price by 100000, showing that he was determined to get it!

Originally, he was already an eye-catching existence. Everyone who entered the hall would basically give him a glance. Now that he was the first to bid, he had attracted everyone's attention again.

Meng buzhuai didn't care at all and arrogantly looked around, as if to say, "if you want to compete with me, then try it!"

"Six hundred and ten thousand!"

If it was any other place, the life chasing duo might have been able to scare people off due to their fierce reputation. However, everyone present today was an expert, and most of them had hidden their identities. Who was afraid of who?

Hence, after Meng buzhuai placed his bid, someone immediately followed up and only raised the minimum bid of 10000 gold certificates.

Meng buzhuai snorted, and without the auctioneer's encouragement, he raised his hand, ""Seven hundred thousand!"

"Seven hundred and fifty thousand!"

"Seven hundred and sixty thousand!"

"Seven hundred and eighty thousand!"

For a time, the people bidding rose and fell, but no one was frightened by Meng buzhu.

The flowing cloud sky armor was a top-grade soft armor. In fact, it was hard to tell its true price. If one's strength wasn't high enough, it was useless to wear the soft armor. No matter how weakened one was, one's body wouldn't be able to withstand the remaining attacks and would still die.

Only when two opponents of similar levels fought could the true effect of the flowing cloud sky armor be revealed. At that time, it could be considered a life-saving trump card!

The target audience of this flowing cloud sky armor was below the sea Rift stage. Therefore, first-grade restaurant's estimated price was at least one million and above. It was still far from the predetermined price. The beautiful auctioneer on the stage did not say much, but the bids below the stage were already endless.

In just a minute, the price had shot up to nine hundred and twenty thousand. Lin Yi glanced at Daniya, who was beside him, and saw that she was admiring the flowing cloud sky armor. He raised his hand, "One million!"

1,000,000 was a dividing line, and it was already approaching the market price of the flowing cloud sky armor. If it was a normal auction, people who liked it would naturally continue to pursue it.

However, it was different today. Ten out of ten people who came to first-grade restaurant were here for the six-point stellar source instrument. Although one million was not a lot and could not even be considered an appetizer, it was just that no one knew how much financial resources the others had, so they had to be careful.

"Someone has placed a bid of one million gold certificates! The flowing cloud sky armor was worth this price! Sure enough, this handsome young master had good taste. He must have bought it for the beautiful young lady next to him. It's really meaningful!"

The auctioneer started to liven up the atmosphere. After the bid of one million was announced, the entire place fell silent for a few seconds. She naturally understood that it was time for her to make her move!

"One million going once! Someone else wants it ... Alright, we see the VIP in Room 13 bidding 1.1 million gold certificates! The current price of the flowing cloud sky armor is 1.1 million gold certificates!"

In the previous bidding, it was basically the people from the first floor and the second floor who were bidding. The people from the private rooms on the third floor had not bid at all.

The private room was filled with distinguished guests invited by the best invitation cards of first-grade restaurant. Without a doubt, they were all powerful existences from all over the world.

Although the flowing cloud sky armor was not bad, it was not like these wealthy families had never seen it before. It would not be a problem to get Grandmaster Meng to custom make it. In addition, today's goal was the six-point star source instrument, so they were just here to watch the fun.

He didn't expect that someone would suddenly make a move!

Meng buzhuai chuckled and said, "kid, your Lord Meng wanted to fight with you for it. However, Madam said that she doesn't want this flowing cloud sky armor anymore. So, Lord Meng gave up. You can continue!" Don't be scared!"

Lin Yi rolled his eyes. This guy was just here to watch the show. He didn't want to fight with the people in the room, but he wanted Lin Yi to go up and cause trouble!

"One million two hundred thousand!"

Lin Yi raised the price again. This amount of money was no big deal. After all, Daniya had saved his life before. Since she was interested in the flowing cloud sky armor, he'd buy it for her.

Even though the darkness demon beast race's body was far stronger than the flowing cloud sky armor, this top grade soft armor was just an accessory in Daniya's hands ... Just treat it as giving her a beautiful piece of clothing.

The auctioneer didn't even need to say anything when Room 13 followed up with a bid of 1.3 million!

Lin Yi frowned. Something's wrong!

He extended his divine sense and quietly touched the crystal wall in front of private room 13.

The formations on the second floor were much better than the ones on the second floor, but it was still nothing to Lin Yi.

The crystal wall was the same-it could block other people's divine senses, but not Lin Yi 's. If Lin Yi's spirit wasn't entangled by the star power, no one in the auction house would be able to hide their appearance from Lin Yi's divine sense.

As for now, he could only get into one or two rooms, and Room 13 caught Lin Yi's attention, becoming the first target!

Mei gancai?

Lin Yi used his spirit sense to see who was in Room 13-it was this guy!

It seemed that the Tianji Mei mansion was indeed one of the top aristocratic families in the Tianji continent. Even the top-notch invitation letter from first-grade restaurant had been sent to Mei gancai!

He didn't manage to buy the geographical map at that time, but this kid should have been able to get it through other means, right? For example, it was probably a small matter to make a geographical map through first-grade restaurant!

Come to think of it, was Mei gancai picking on Lin Yi because of that small matter?

"Young master, we don't have to buy that soft armor, do we? What you're wearing is even better than the flowing cloud heavenly armor!"

Mei gancai's attendant whispered, "Our goal is the six-part star source instrument. Although we have mobilized a huge amount of funds this time, it is difficult to say whether we can beat the other forces. We should preserve as much of our strength as possible!"

The real experts of the Mei family hadn't arrived yet. Mei gancai was bidding for the six-point star source instrument with a huge sum of money. The people around him were a little nervous. However, this guy was too ambitious and didn't think much of it.

Big-hearted but small-minded! Lin Yi had disrespected him at the fragrant ink Pavilion, so he decided to teach Lin Yi a lesson after seeing him.

Chapter 9022

"Shut up! Are you teaching me how to do things?"

Mei gancai snorted coldly and said, "our Tianji Mei mansion is rich and powerful. We don't lack such a small amount of money!" That brat dared to offend this young master, so no matter what he wants to bid for today, he can forget about getting it!"

She was picking a fight with Lin Yi!

Lin Yi couldn't help but want to laugh.

"One million and three hundred thousand going once! The guest in Room 13 has bid 1.3 million, is there anyone else?"

The auctioneer began to call out the price. Since she was a VIP guest in the private room, she did not dare to delay. She simply asked and continued, ""One million and three hundred thousand going twice! One million three hundred thousand ... One million five hundred thousand! It's the same young master from before, and he has bid 1.5 million!"

The beautiful auctioneer was excited. This was the bidding scene she wanted to see! The flowing cloud sky armor had already exceeded her expectations. The higher the final price, the higher her Commission would be.

"Two million!"

Mei gancai didn't hesitate at all. Lin Yi added two hundred thousand, so he added five hundred thousand!

The attendant beside him sighed and didn't dare to continue persuading him. He could only comfort himself in his heart that this small amount of money didn't matter. It wouldn't affect the overall situation!

"Two million and ten thousand!"

Lin Yi smiled mischievously and only raised the price by a minimum margin, making everyone who was ready to watch a show feel as if they had stepped on thin air. They felt very strange!

The other party had already added 500000, shouldn't you at least add 600000? What's the deal with only adding 10000?

Especially the beautiful auctioneer, who was so excited just now. Now, she was a little emotional!

Mei gancai didn't think too much about it. As long as Lin Yi made a bid, he'd push it down. "Two million five hundred thousand!"

Lin Yi shrugged, spread his hands, and curled his lips. "There's no other way! I can only give up! The flowing cloud sky armor is indeed not fated with me!"

Everyone in the hall burst into laughter-they all understood that Lin Yi was mocking the person in Room 13 for being stupid!

The flowing cloud sky armor was indeed an excellent piece of defensive equipment, but spending 2.5 million was a little too much, especially the number 250, which was even more laughable!

As for whether he would offend the VIP in the private room? Don't joke around, everyone was here to compete for the six-point star source instrument. They didn't enter the private room only because they were too late. Who was afraid of who?

Mei gancai's face reddened. He didn't suspect that Lin Yi was trying to scam him, but he was angry at himself for calling out 250!

The beautiful auctioneer was also very helpless. The atmosphere had clearly been lifted, so shouldn't everyone be trying to raise the price all the way up to make it sound better? How did it disappear?

"2.5 million going thrice! Deal! Congratulations to the distinguished guest in room number thirteen for winning the first item of this auction, flowing cloud sky armor. It's a good start!"

She didn't know if it was a good start, but Mei gancai's face was red with anger!

In the following period of time, Mei gancai's face became redder and redder. Because Lin Yi attacked multiple times, Mei gancai naturally followed up in order to snipe Lin Yi. She was tricked by Lin Yi again and again!

It had to be said that the auction of first-grade house this time had indeed taken a lot of thought. The auction items were quite extraordinary. They were indeed treasures that only Warriors at the sea Rift stage and above were qualified to buy and use!

Therefore, Mei gancai spent her money boldly and confidently, not feeling that the things she had bought were not good.

He'd unknowingly spent a huge amount of gold certificates, and he'd lost at least a fifth of his reserve funds for the auction of the six-point star source instrument!

After "snatching" the next item from Lin Yi at a high price, Mei gancai's follower couldn't take it anymore.

"Young master, we've already used up about a fifth of our funds, and we'll be close to a quarter soon! If this continues, we might have to withdraw from the competition for the six-point star source instrument!"

The attendant was scared. Even a fool could see that Mei gancai was in a bad mood. Good advice was unpleasant to the ear. He was likely to become Mei gancai's scapegoat to vent her anger.

However, if he just watched without warning, he would also be held responsible! He was caught in a dilemma. He had no choice but to advise Mei gancai.

"Young master, don't be angry with the man and woman anymore. That kid is obviously raising the price. Maybe he was just a shill arranged by first-grade restaurant to raise the auction price. We can't be fooled by him!"

Mei gancai was about to get angry, but after hearing what he said, he was stunned for a moment and felt that it made sense ...

"Is that kid a prop? It was a little similar! No wonder this young master isn't happy, are they F \* cking toying with this young master?"

Mei gancai narrowed his eyes and sneered. "Do you really think this young master is stupid? I've already seen through everything, and I've also figured out all of that kid's tricks!"

"Next, let this young master return the favor! Doesn't he like to raise the price? this young master will let him reap what he sowed this time! Let's see if he can seal up the hole!"

Just then, a new item appeared on the stage: the ancient stellar heavenly cycle domain-fake!

Lin Yi was surprised to see the Jade talisman-it was the same as the one Ouyang kuantian had used before, and it was the same ancient stellar field he'd encountered twice.

The moment he saw the Jade talisman, Lin Yi's essence spirit and the star energy in his body started to stir, which proved the Jade talisman's authenticity.

"As everyone can see, this jade talisman contains the ancient heavenly cycle stellar domain-fake! Although it's a simplified version of the ancient heavenly cycle stellar domain, and its power is only one-fifth of the real stellar domain, it's more than enough to deal with a heaven breaking stage martial artist!"

"This jade talisman can use the ancient heavenly cycle stellar domain three times in total, and the time limit for each use is an hour. It can also combine two uses together. Although the time limit won't be extended, the power can be increased to a quarter or even a third of the original!"

"That's the general situation. I believe that everyone here is an expert and knows how precious this jade talisman is! I won't say much, the bidding starts now!"

"The starting price of the Jade talisman is ten million gold certificates, and each increment is no less than five hundred thousand gold certificates! If you're interested, please raise your sign and bid!"

"Eleven million!"

" 12 million!"

" 13 million!"

.....

The auction's first climax had appeared. Regardless of whether it was the main hall or the private rooms on the second or third floor, everyone had joined in the bidding for the Jade talisman. The bids rose and fell in an endless stream!

It couldn't be helped. The ancient heavenly cycle stellar domain was famous in the heaven's legacy continent, and it was a true killing weapon!

In comparison, the flowing cloud sky armor and the like were simply children's toys!

Chapter 9023 The End

Was the six-point star source instrument important? It was important!

However, the importance of this jade talisman wasn't any less. With this jade talisman in hand, he would have full confidence in the fight for the Black Star River!

Even if the six-part star source instrument was won by someone else, he might be able to snatch it back by using the ancient heavenly cycle stellar domain in the Jade talisman!

It's a profit without a loss!

In the blink of an eye, the price of the Jade talisman broke through 30 million and continued to rise without slowing down. The beautiful auctioneer smiled and did not even need to open her mouth. She only needed to watch the crowd bidding to know that the first sky-high price item was about to appear!

Mei gancai was excited. He wanted to get Lin Yi back, but now that he found something really good, he wasn't going to let Lin Yi back. He immediately called out a sky-high price of fifty million!

The new bid that was almost double the original price caused the enthusiasm of the entire auction to cool down a lot.

Now, everyone in the auction house knew that the person in private room 13 was either a nouveau riche or a hothead. He was a classic example of a silly but rich person. It seemed meaningless to compete with such a person ...

The ancient heavenly cycle stellar field was indeed good, but it was only a simplified prop after all. It could be used as a surprise attack to save one's life and turn the tables in times of danger. The problem

was that everyone knew that you had this thing, and naturally, there would be corresponding countermeasures!

Whether or not they should continue fighting for the Jade talismans was up for discussion!

After calming down, the tycoons started to test the waters one last time. Five hundred thousand, five hundred thousand, they increased it to fifty-five million, and then Lin Yi increased it by ten million.

Sixty-five million!

Lin Yi really wanted to buy the Jade talisman this time, not for its power, but to study the power of the stars!

If he could crack the simplified version of the ancient heavenly cycle stellar domain, he might be able to resolve the power of the stars in his body!

"Eighty million!"

Mei gancai was very forthright, but his followers felt like crying.

Mei gancai only had 100 million in cash on her this time, but after Lin Yi raised the price a few times, she'd already spent over 20 million.

The remaining 80 million was all in cash. Mei gancai had put all his eggs in one basket!

"Eighty-five million!"

Lin Yi didn't back down at all as he raised the bid!

Meng buzhuai clicked his tongue in admiration, "not bad, kid!" I didn't know you were so rich! Or is this the common property of the thirty-six heavenly stars?"

Daniya snorted and corrected him. "It's not the thirty-six heavenly generals. It's the strongest thirty-six heavenly generals in the Supreme universe and endless chaos!"

Yan Wuming burst out laughing, "why do I remember that it was the 36 heavenly generals of the endless wilderness?" Now there are a few more words?"

Daniya was expressionless, "you're wrong!" It has always been the strongest 36 heavenly stars in the Supreme realm of the myriad world and the endless chaos!"

Lin Yi's mouth twitched. Daniya, you're pretty good at lying through your teeth! 'Forget it, as long as you're happy ...

The atmosphere in Mei gancai's room wasn't as relaxed as Lin Yi's room. Lin Yi's price had already exceeded all the cash Mei gancai could take out!

She'd just said she was going to scam Lin Yi, but she'd raised the starting price from ten million to eighty-five million. No matter what, she'd scammed Lin Yi, but she wasn't willing to accept that!

"Go and contact the person in charge of first-grade restaurant. Activate the credit Agreement of Tianji Mei mansion!"

Mei gancai didn't only have cash. He had a backup plan!

With the Mei mansion's status in the Tianji continent, no matter where they went, they would always have a credit limit that they could use. They could just go to the Mei mansion to settle the bill later.

However, not everyone could use this amount of money. Mei gancai had only obtained the authorization from her family because she had come for the inky Star River.

The attendant's expression changed several times, but in the end, he lowered his head and accepted the order.

On the stage, the beautiful auctioneer was still promoting the ancient stellar field and wasn't in a hurry to hit the hammer. Lin Yi and Daniya were new faces, and they looked young.

Since she was sitting in the main hall, she obviously couldn't be compared to the VIP in the private room. Therefore, she could delay for some time. If she could push the price further, it would definitely be a good thing for her!

Mei gancai's attendants were quickly taken care of. A manager of the first-grade restaurant personally entered the private room to confirm and activated the 50 million credit limit of Tianji Mei mansion in the first-grade restaurant!

On a normal day, 50 million was enough to support the people of the Mei residence to participate in a high-end auction. However, it might not even be enough for half price of an item today.

" 90 million!"

With the limit, Mei gancai immediately raised the bid. The beautiful auctioneer on the stage was already waiting for her. She had already delayed for a long time. If she didn't make a bid, she would have to drop the hammer.

It wasn't that the others didn't want the Jade talismans-they'd definitely join the bidding if they had the chance, but the main thing right now was to see if Lin Yi and the person in Room 13 would continue.

Lin Yi didn't hesitate to raise the price as well." 95 million!"

" 100 million!"

Mei gancai gritted her teeth and increased the price by ten million. The credit limit of first-grade restaurant was reduced by half.

"One hundred and thirty million!"

Lin Yi's determination to get it had stepped on the upper limit of Mei gancai's funds!

Mei gancai's face instantly turned gloomy. She turned to the manager of first-grade restaurant and said, "I want to borrow two hundred million Yuan from your first-grade restaurant in the name of Tianji Mei mansion!"

The Mei family had countless assets. In fact, it was not difficult to mobilize hundreds of millions. However, Mei gancai's status was not high enough, so the amount of liquid capital that could be mobilized was only so little.

The experts of the Mei residence who had arrived later would naturally bring the funds. Unfortunately, distant water could not quench present thirst. He could only ask to borrow money from the first-grade restaurant.

The manager of first-grade restaurant smiled respectfully. "No problem. If young master Mei wants a loan, first-grade restaurant will definitely satisfy your needs. Besides, this is the first time you've asked first-grade restaurant for it. If you can return it within three days, we won't charge you any interest."

Emergency loans had always been usury. Nine out of thirteen was a little exaggerated, but asking for two percent interest was definitely a friendly price. First-grade restaurant was free of interest for three days, which was indeed a great show of respect to Tianji Mei mansion.

"Alright! It's settled then!"

Mei gancai calculated the time. The family's follow-up funds and experts would definitely arrive today or tomorrow. It would not be a problem to return the loan to first-grade restaurant. So, he agreed on the spot and asked to get the loan funds immediately.

The auction didn't need to wait for the funds to come in, so Mei gancai immediately wanted to increase the price after getting the promise of the first-grade restaurant's loan. However, he was stopped by his attendant.

"Young master, I can't add any more! The ancient heavenly cycle stellar field is indeed good, but it's just a simplified version. Powerful families have ways to crack it. If we spend a large amount of money on this jade talisman, it'll be hard to explain when we go back!"

Mei gancai's follower's face was pale, and his forehead was covered in cold sweat. He had also risked his life to admonish them. The credit limit was still fine, there was always a limit, but there was no bottom line for loans.

If the 200 million he borrowed was not enough, would he have to borrow another 500 or 600 million?

Chapter 9024 The Power Of The Divine Realm

The Tianji Mei mansion didn't care about money, but they cared about their disciples' ability to do things. For a simplified version of the ancient heavenly cycle stellar domain jade talisman, Mei gancai's life in the Tianji Mei mansion had come to an end!

"Young master, our main goal today is the six-point star source instrument. Don't forget this! The family wouldn't mind spending a lot of money for the six-point star source instrument, but if you delay the bidding for the six-point star source instrument because of something else, not only will you not have any credit, but you'll also be held accountable!"

His follower and Mei gancai were bound together for good or bad. Mei gancai's position in the Mei mansion was directly related to his position in the Mei mansion. Therefore, he was sincerely planning for Mei gancai.

Mei gancai was stunned for a moment, and his already heated brain finally calmed down a little.

The attendant struck while the iron was hot and continued to persuade, ""Young master, didn't you say that you wanted to trick that kid? Now was the time! The starting price of 10 million has already reached 130 million. It's more than ten times the original price. That's enough!"

"That kid just directly increased the price by tens of millions. It might be his last bet. If we increase the price again, he might give up. At that time, we will be the ones suffering!"

Mei gancai nodded, thinking that his words made sense.

The ancient heavenly cycle stellar domain was indeed a good thing, but those families and sects with deep foundations might have techniques that were more powerful than the weakened version of the ancient heavenly cycle stellar domain.

Or perhaps there were some means to counter or crack the weakened version of the ancient heavenly cycle stellar domain. Therefore, this thing could be used as a trump card, but he could not pin all his hopes on it!

While she was hesitating, the beautiful auctioneer could not delay any longer. The small hammer in her hand fell and she said, "" 130 million! Congratulations to this young master for obtaining a jade talisman with the ancient heavenly cycle stellar domain!"

In the private room, Mei gancai suddenly laughed. She lazily leaned back in her chair and took a sip of the wine.

"That kid really thinks he can do whatever he wants just because he's rich. What a joke!"

The back of the follower beside her was already drenched. He felt as if he had just returned from the gates of hell. When he heard Mei gancai's words, he quickly smiled and pandered.

"Young master, you don't seem to care about the Jade talismans that kid got? Do you have a plan?"

"No plan. It's just that the kid is raising the price so brazenly. I'm afraid it has already fallen into the eyes of those with ulterior motives!"

Mei gancai's face was filled with pride, "You think no one can offer a higher price? The ancient heavenly cycle stellar domain is famous. Even if it's only a simplified version with 20% of its power, there are still many people who have the ability to bid for it. Why is it that apart from this young master, there's basically no one else?"

He wouldn't admit that the others had the mentality of watching a show. He only thought of an explanation that was beneficial to him. "That's because a kid with no background and the money from the competition won the Jade talisman of the ancient heavenly cycle stellar realm. I'm afraid he won't be able to use it even if he has the life to get it!"

The attendant revealed an expression of sudden realization and repeatedly praised, ""Young master is wise! It looks like that brat is dead for sure!"

"Of course! Why do you think most of the people in the hall are in disguise? There's also an array separating the private rooms from the private rooms to protect our privacy and not let anyone know who bought what!"

Mei gancai smiled proudly, "that brat thinks that he has some strength and some money in his hands, so he can do whatever he wants in the Tianji continent. Just wait and see, he'll be courting death if he gets the Jade talisman!" When that happens, no one will know how they died!"

"There are definitely more than one or two people watching him right now. It just so happens that he has strong financial resources. All the conditions are ripe for people to covet! If I casually kill him, who would pursue the matter?"

He wouldn't have attracted the attention of the tycoons in this auction house if he was just rich, except for those who liked to Rob. But Lin Yi had the ancient stellar realm jade talisman, and with his money, it was no wonder he was targeted.

Mei gancai saw this and was certain that Lin Yi was dead!

Lin Yi didn't mind at all-danger? Could the heaven's legacy continent be as dangerous as the darkness demon beasts in the node world?

He was being held back by the power of the stars, but he had Daniya by his side, so he wasn't worried at all. Plus, there were so many old men in the Jade space he could borrow strength from, so what danger was there?

With this jade talisman, if he could comprehend a way to deal with the power of the stars from it, he could even restore his strength. Anyone who came would die!

"Kid, you're quite brave, and you have quite a lot of money!"

Meng buzhuai started to grumble at the side, ""Don't think that you have a life-saving trump card just because you bought the ancient heavenly cycle stellar realm jade talisman. Let me tell you, if anyone wants to target you, they will definitely have a way to deal with the ancient heavenly cycle stellar realm."

"Believe me, not only will this not protect you, but it will also become a reason for you to be hunted down. Since we've hit it off so well, I'm willing to help you."

"How about this, you sell me the Jade talisman of the ancient heavenly cycle stellar domain, and I guarantee that no one will hunt you down! Of course, I'm such a loyal friend, sharing the danger with you, you can't sell it to me at the auction price, right?"

"Zero! We're all Good Brothers. I'll help you with the zero. Thirteen million! It's thirty percent higher than the auction price, which is very fair. I will also guarantee your safety, what do you think?"

Lin Yi almost laughed out loud-did the guy erase the last zero? It made sense, didn't it?

"Get lost!"

Lin Yi didn't want to waste time talking to Meng buzhuai anymore. What life-chasing duo? it sounded pretty scary, but it wasn't cold at all. Was he a crosstalk comedian?

"Hey! What are you saying? If the business doesn't work out, what's wrong with you saying such evil words?"

Meng buzhuai continued to babble until Yan Wuming patted him on the shoulder. He finally stopped pestering Lin Yi.

Yan Wuming smiled at Lin Yi, "don't take it to heart, he doesn't have any bad intentions!" I'm just reminding you that you're not in disguise. You have to be careful after the auction, in case you're targeted by people with ill intentions!"

Lin Yi and Daniya weren't used to this sudden kindness. They were still at loggerheads before, could it be that Daniya and Yan Wuming had developed feelings for each other from their bickering?

Daniya was straightforward and directly asked, ""What are you worried about us for? You didn't put on any disguises either! Wasn't he afraid of being targeted? Everyone's target is the six-point star source instrument. Aren't you afraid that it will be snatched away even if you get it?"

Chapter 9025

Meng buzhuai grinned, "there are many people who want to kill us, but who has ever succeeded?" Everyone knew that it was best not to chase after Meng! Because if we can't catch up, even if we do, we'll just be giving away our lives!"

This guy was a little smug, but it didn't seem like he was talking nonsense. Their title of life-chasing duo Masters was forged from blood and fire!

"Hey, if you guys aren't afraid, what are we afraid of? Whoever dares to covet the strongest 36 heavenly stars in the primeval era will be courting death!"

Daniya indeed had the confidence and confidence, but with that string of nicknames, it seemed like she was just bragging!

Anyway, Meng buzhuai and Yan Wuming did not believe it at all!

Lin Yi looked at Meng buzhuai, deep in thought. He couldn't help but guess that Meng buzhuai and his wife were openly attending the auction without any disguises. Did they not want to participate in the bidding for the six-point star source instrument?

They were just here to put on an act and then see who would win the bid for the six-point star source instrument in the end, and then secretly follow and wait for an opportunity to snatch it?

Meng buzhuai didn't look like a decent person, he would do such a thing!

The people at the auction were done with Lin Yi by now, and the Jade talisman was in Lin Yi's hands. He couldn't study it until he activated the ancient stellar heavenly cycle domain.

The power of the stars in his body was faintly affected by the Jade talisman, but that was all. He didn't have any more clues.

The auction continued, and the items were all good. Although the enthusiasm for bidding was not as strong as the Jade talismans, there was no awkward silence.

Lin Yi was a lot quieter now. He would call out a price once in a while, but he would stop once someone exceeded it. Mei gancai, on the other hand, calmed down and stopped targeting Lin Yi. Perhaps in his eyes, Lin Yi was already a dead man. No matter how much good stuff a dead man took, it was all in someone else's pocket.

The whole process was calm, but Lin Yi could clearly feel many eyes and senses peeking at him. They were all interested in the ancient Star Domain jade talisman and were confident in snatching it from Lin Yi!

As for where they got their confidence from ... It was probably because Lin Yi and Daniya were young.

In short, it was finally time for the grand finale, the six-point star source instrument!

"Distinguished guests, the next item is the last item of this auction. I don't think you need me to introduce it to you. You should know what it is, right?"

The beautiful auctioneer's face was slightly red. It was the blood boiling from excitement. Today's auction had far exceeded her expectations. The last item, the six-point star source instrument, was worth looking forward to!

"That's right, it's the six-point star source instrument! The legendary treasure that could find the exact location of the Black Star River before it appeared! As long as we have the 60% star source instrument, it won't be a problem for us to find the star Ink River one, two, or even three or four steps ahead of others!"

"I don't need to explain the specific situation. Everyone should be anxious, right? Now, let's start the auction for the six-point star source instrument! The starting price is fifty million gold certificates, and each increment must not be less than five million!"

Before he finished speaking, someone had already made a bid, "A hundred million gold certificates!"

The first bid had already doubled the starting price!

They were all tyrants of their own regions, and they clearly knew what the purpose of coming here was. Naturally, they were not interested in testing the waters with a few million. They might as well raise the price by a large margin and eliminate many competitors, so as to not waste time!

"Hahaha, you want to get the six-point star source instrument with just 100 million gold certificates? 150 million!"

A maniacal laugh came from private room No. 11 on the third floor. He raised the bid by another 50 million.

Mei gancai's face darkened. He had only brought 100 million Yuan and wanted to bid for the six-point star source instrument. Now, it seemed like a joke!

The second bid was the maximum he could reach with his original funds and credit limit. He had used up about twenty million Yuan. If he hadn't borrowed two hundred million Yuan, the Tianji Mei mansion would have been eliminated before he could even make a bid!

It would be so embarrassing if this got out!

"Two hundred million gold certificates!"

Mei gancai gritted his teeth and joined the battle. With the funds from the loan, he could finally enter the battlefield and fight. At least, it would be justifiable when he returned!

" 250 million!"

" 300 million!"

After meigancai, two more people from the private rooms on the third floor joined in the bidding. In the blink of an eye, the price had already risen to 300 million!

The beautiful auctioneer on the stage was a little confused, wondering if she had said something wrong. Didn't he just say that the minimum bid increment was no less than five million? Could it be that he said 50 million?

No matter what, such a fierce increase in the bid had indeed successfully driven away many people's thoughts of participating. It was not that these tycoons did not have the assets, but they could not bring out so much cash flow in a short time.

The news of the auction for the six-point star source instrument had not been circulating for long, so many people did not have the time to raise money. For example, Mei gancai, who was the first to come, had only brought 100 million with him.

From the looks of it now, the capital threshold set by first-grade restaurant was too low. The threshold of ten million gold certificates was only enough to enter the auction for something similar to the flowing cloud heavenly armor. As for the six-point star source instrument, it was just for the pleasure of looking at it. It did not even have the qualification to bid!

"Three hundred thirty million!"

This was Mei gancai's final struggle. This was his limit. He had already borrowed 200 million Yuan. He reckoned that first-grade restaurant would not continue to loan him more funds.

The auction house was only willing to lend Mei gancai money out of respect for the Mei mansion. If it were any other force, they wouldn't have received such treatment.

After all, the auction house needed real gold and silver. It was fine if the auction item was bought, as it was one's own item. However, if it was an auction item entrusted by someone else, the auction money had to be given to the seller!

If they were to let first-grade restaurant pay for their losses, first-grade restaurant would have closed down a long time ago!

Mei gancai knew that the six-point star source instrument had nothing to do with the Mei mansion of Tianji. However, he still held on to the hope that he would be lucky. Thus, he called out his final bid, which was 330 million!

What if the others didn't have much cash flow to use? These days, most of the assets of the wealthy families were fixed assets, businesses, cultivation resources, and even antiques. No one would keep a large amount of cash in their hands.

If they wanted to sustain the huge expenses of the aristocratic families, they had to roll up the money. Money could only generate money to make profits. The money left in their hands was like a pool of stagnant water!

That was why Mei gancai was looking forward to it. He was looking forward to the fact that others couldn't raise too much money in a short time. Perhaps he would be able to get it?

Unfortunately, Mei gancai's wish immediately turned into a delusion. His bid was only maintained for two seconds before it was replaced by the 335 million bid from the third private room!

Then, it was 340 million, 350 million!

After the bid reached 300 million, the number of people bidding clearly decreased a lot, and the increase returned to the right track. The increase was five million and ten million, no longer soaring like before.

Chapter 9026

Meng buzhuai clicked his tongue and sighed, "they're all rich people!" I thought we could participate in the competition for the six-point star source instrument, but we don't even have the right to bid once!"

Lin Yi looked at him from the corner of his eyes. This guy didn't look like he was going to give up at all. As expected, he didn't come to the auction to bid, did he?

If he was the one who won the bid for the six-point star source instrument, would Meng buzhuai and Yan Wuming also come after him? Maybe it really is possible!

Even so, when it was time to act, he still had to act!

Lin Yi did some calculations-he still had around four hundred million Yuan in his hands. He didn't know about this before, but after doing the calculations, he realized that Fei daqiang was a business genius!

To be able to amass such a huge amount of wealth in such a short period of time, although it was also because of Lin Yi's status that he was able to provide him with all kinds of conveniences, there were probably only a few people in the entire sub-Island who could do this!

The most important thing was that Fei daqiang had a way of accumulating money. He had always taken the proper path and had never taken any side steps. This was a real talent! And he'd only given Lin Yi a portion of it-the majority of it was still in his hands, used as capital to earn money!

Awesome!

Lin Yi sighed in his heart and opened his mouth to bid, joining the ranks of the six-point star source instrument!

"Four hundred million gold certificates!"

This was pretty much Lin Yi's limit-he couldn't do anything more than that, unless first-grade restaurant could accept using other items to offset the price.

The price had gone back to five to ten million, but no one expected Lin Yi to suddenly raise the limit by another forty to fifty million!

Lin Yi wanted to use his aura to scare off those who wanted to raise the price. Of course, it would only be for a short while. If someone really did raise the price, he'd have to give up.

After Lin Yi's bid came out, the entire auction house fell into a strange silence for a moment, everyone's eyes landing on Lin Yi.

Meng buzhuai muttered in a low voice again, "F \* ck, I knew you were rich, but I didn't expect you to be this rich!" He could even throw out 400 million without even blinking! It seems that your whatever Tian Huan is really awesome!"

"What a pity! The richer you are, the more likely you'll be targeted. You two have to be careful. Master Meng gave you face and didn't Rob you, but you can't prevent other people from having designs on you!"

Daniya snorted in disdain. She was about to correct Meng buzhuai and repeat the full name of the thirty-six dippers when Lin Yi stopped her.

Now was not the time to be talkative. He did not put on a disguise, and it had indeed attracted the covetous eyes of many participants!

After the bid of 400 million, five marks were placed on Lin Yi's body within a second or two. Daniya wasn't spared either, with five tracking marks on her.

Four of them were made with items, and only one was a spiritual mark. In Lin Yi's eyes, it was very crude and unrefined, but to the person who used it, it was an extremely exquisite method.

"Hahahaha! Heroes really come from youngsters! The six-cent star source instrument was worth so much money, but it was a pity that he had come in a hurry today and did not have more funds! It seems that this young hero is going to win the bid for the six-point star source instrument!"

A burst of laughter came from private Room No. 2 on the third floor, followed by a flat statement about the lack of funds.

Was Private Room 2 really lacking in funds? I'm afraid not!

"It's really a pity. I didn't bring enough money, so I could only watch helplessly as the six-point star source instrument was bought by someone else. What a waste!"

"Me too. I didn't expect the six-point star source instrument to be sold for such a high price. I miscalculated!"

"It turns out that everyone has no money! Then the others probably wouldn't have much money either, right? They could only watch that young man get the six-point star source instrument with envy, jealousy, and hatred!"

The people in the private rooms on the third floor all made a mocking sound. No one really thought that they didn't have money. Everyone knew what had happened!

In private room 13, Mei gancai laughed happily. "That kid is really looking for death! Originally, if he only bid for the Jade talisman of the ancient cosmic stars domain, he would be targeted by people with ulterior motives. However, everyone's preferred target would definitely be the person who bid for the six-point star source instrument!"

"I didn't expect this kid to be so rich and so good at seeking death. He directly raised the price of the six-point star source instrument to 400 million gold certificates! To be so open and brazen, you're really not afraid of death!"

"Young master, you're really smart. You've already seen that this kid's life was coming to an end!" The attendant quickly complimented him with a smile. If he didn't bid, the other powerhouses might have raised the price even higher. Not to mention 400 million gold certificates, even 800 million or 1 billion gold certificates would have been a piece of cake!"

"But when this kid made his move, everyone immediately had a tacit understanding! They would join hands to suppress all the bidders and lock the six-point star source instrument in the hands of this kid! Young master, is that what happened?"

Mei gancai nodded in satisfaction and pointed at his follower with a smile. "You're smart! You're not wrong at all! Although the people attending this auction are all heroes, the people in the private rooms on the third floor are the most distinguished!"

"All the private rooms on the third floor have made their announcements. No one would be so blind as to raise the price at this time. If they did, they would be targeted by all the tyrants on the third floor, and they wouldn't even know how they died."

"In addition, if the six-point star source instrument is bought by that kid, the target will be clearer. At least, people without disguises will have more confidence in tracking or setting up an ambush."

"For those who want the six-point star source instrument, instead of snatching it from those who hide their identities, it's better to keep an eye on that kid. You don't have to spend your own money, so it's killing two birds with one stone!"

As he spoke, everyone in the auction came to a tacit understanding and no one raised the price. They really wanted the six point star source instrument to fall into Lin Yi's hands.

The beautiful auctioneer's expression was a little ugly, and she almost couldn't maintain her professional smile.

Originally, the six-point star source instrument should have been able to be sold for a higher price. However, with the tacit agreement of the distinguished guests on the third floor, the price was locked at 400 million gold certificates. It was not only the first-grade restaurant that would suffer a loss. As the auctioneer in charge of the auction, she would also lose a lot of Commission!

Unfortunately, in the eyes of those big shots, she, the auctioneer, was nothing. How could she dare to complain? not only that, she had to cooperate and speed up the process of the auction!

"... 400 million gold certificates going twice. Is there anyone else interested in the six-point star source instrument? This was the last chance! 400 million gold certificates rolling out for the third time! Congratulations to this young master for successfully winning the auction's finale, the six-point star source instrument! Congratulations!"

The beautiful auctioneer squeezed out a warm smile and made the final decision!

Chapter 9027

Lin Yi, on the other hand, had a satisfied smile on his face. He might've invested almost all the money he had around him, but he definitely didn't lose anything this time!

As for being targeted, Lin Yi didn't feel any pressure at all. Compared to the dark Demon beast race in the world node, there was no pressure to face these powerhouses from the Tianji continent!

"Little brat! You're really something! From now on, you two are on your own! We don't even know each other!"

Meng buzhuai laughed weirdly and left with Yan Wuming after saying that.

Everyone's attention was on Lin Yi and Daniya now, so Meng buzhuai naturally had to leave as soon as possible to draw a line between him and Lin Yi and Daniya, so that he wouldn't be dragged into the trouble.

At this time, the delivery of the six-point star source instrument had not been completed, so no one cared about Meng buzhuai and his wife's departure ... Although they had many enemies, no one was willing to give up the six-point star source instrument for Meng buzhuai and his wife at this time!

Lin Yi prepared the payment calmly and waited for first class restaurant to send the six-point star source instrument over.

Before the transaction was completed, no one would dare to make a move in first-grade restaurant. It was not that first-grade restaurant was powerful, but in front of so many heroes, first-grade restaurant was just a little brother! He couldn't even be considered a younger brother!

The only reason why they didn't make a move was that everyone was restraining each other. If they made a move now, they would become everyone's target. No one was willing to be the fool who broke the balance!

Lin Yi was the one who stood out, so everyone just had to keep an eye on him!

"These people really don't hide their malice towards us at all! It seems like the moment we walk out of first-grade restaurant, it will be their signal to attack!"

Daniya looked around calmly. She wasn't afraid of numbers. As long as they weren't at late-stage heaven breaking, they wouldn't even be a threat to her, unless they had Lin Yi's insane ability to fight above his level.

"It should be right. Let's not get entangled with them to avoid unnecessary trouble. After we get out, we should leave quickly. If someone catches up, we'll talk about other things then!"

Lin Yi realized that he'd been marked, but he didn't remove it-if the enemy could catch up, it'd be a good idea to give them an unforgettable lesson!

"Alright, I'll do as you say!"

Daniya felt a little regretful. She was already imagining the moment they stepped out of first-grade restaurant, surrounded by enemies from all directions. Then, she'd bring Lin Yi to slaughter everyone, and no one would be able to stop them. They'd completely spread the name of the strongest thirty-six dippers in the endless ages!

Although it was just her and Lin Yi right now, it didn't matter-she could always find more lackeys to keep up the front!

Too bad Lin Yi said he was leaving when she had a good idea-she had no choice but to follow him!

"Young master, please keep your 60% star source instrument!"

The people from first class house brought the six-point star source instrument and took away the gold certificates Lin Yi gave them. Although they looked respectful, there was a little pity in their eyes, as if they thought that Lin Yi was going to die soon!

The six-part star source instrument wasn't big, only the size of a palm. It looked extremely delicate. Its outer shape was a round metal ball, and its surface was covered with mysterious lines. Each line was composed of many tiny parts. Not to mention its function, the six-part star source instrument itself was a rare piece of art!

Lin Yi, on the other hand, didn't have much respect for art. He casually tossed the device around, not worried that it would break if it fell to the ground ...

"Everyone, you let me win! I'll accept the six-point star source instrument! I know that many of you have other plans in mind. If you want to snatch it, then come and try! However, you'd better consider the consequences of snatching it!"

Lin Yi threw out a few harsh words and pulled on Daniya's arm, "Let's go!"

The two of them were in the corner and were the closest to the exit. They left as soon as they said they would, and in an instant, they had covered the short distance and flew out of the door!

As soon as Lin Yi and Daniya rushed out of first-grade restaurant, there were more than ten attacks launched at the same time. It was obvious that the auction house had prepared an ambush.

In the short period of time between Lin Yi's bid for the six-point star source instrument and the completion of the delivery to first-grade restaurant, the news spread, the ambush was arranged, and the moment Lin Yi and Daniya stepped out of the door, the ambush was launched!

It was very efficient!

Moreover, the people who launched the ambush shouldn't be from the same group. It wasn't difficult to tell from their scattered attacks that there were at least four or five different groups. Perhaps they had participated in the auction with the intention of snatching the six-point star source instrument.

That was why they had made arrangements in advance. Once the news spread, they would attack the owner of the six-point star source instrument!

It was a pity that although their attacks were fierce, they weren't enough to pose a threat to Lin Yi and Daniya, especially since their messy attacks couldn't form an effective joint attack. Instead, they affected each other and were full of flaws.

Lin Yi and Daniya didn't make a move, but sped up and flashed through the gap, floating away leisurely!

"Chase!"

"Don't let them get away!"

"Keep an eye on them, don't let them leave your sight!"

.....

The groups of people had a tacit understanding to stop. They were competitors, but they had to have something to compete with first. Even if they wanted to fight, they had to fight after they got the six-point star source instrument!

It wasn't just these people who made a move, there were many others who didn't make a move as well. They followed closely behind Lin Yi and Daniya, and the people who were originally participating in the auction at first-grade restaurant also came out in large numbers, following Lin Yi and Daniya without any hesitation.

The six-part star source instrument had already changed hands, and the balance had been broken. The various heroes of the Tianji continent had torn off their disguises, and like a school of sharks chasing after flesh and blood, they maintained a temporary peace between each other. Once anyone managed to snatch the six-part star source instrument, they would immediately become the new prey!

The Tianji Empire's imperial capital was trampled by rarely seen experts. In order to speed up, many buildings were destroyed.

Lin Yi and Daniya felt as if a giant net had been pulled open and was closing in on them from all directions.

"Sima Yi, it seems that the six-point star source instrument is really hot to deal with. The various forces of the heavenly secret continent have long made arrangements. Looking at the people who have surrounded us, there are at least two or three thousand Warriors above the sea shattering stage, right?"

Daniya had a relaxed expression. She had seen many big scenes and was naturally used to it. "It's a pity that the Tianji Empire doesn't have any dignity at all. The capital is being attacked by so many martial artists who have broken the law, yet they don't dare to send anyone out to maintain order!"

Lin Yi rolled his eyes. Even if the Tianji Empire was one of the most Central Empires on the continent, it was still just one of the martial Alliance's empires.

How many experts of the sea splitting stage could the Empire produce? In the face of the gathering of the top powers of the continent, the only choice the heaven's Legacy Empire had was to pretend not to see anything. Even if the imperial capital was destroyed, they would not dare to say anything!

After all, the imperial capital could still be rebuilt if it was destroyed, but if the Empire was destroyed and the royal family was exterminated, there would be no hope left!

Chapter 9028

"Don't worry about it. Let's leave the imperial capital first. These people want to catch us, but they're still not good enough!"

Lin Yi wasn't afraid of them, but he felt that the shockwaves from fighting in the imperial capital, whether they were at the sky-breaking or sea-splitting stages, would be extremely strong.

If it were to affect the innocent civilians, it would cause extremely serious casualties!

It was best to avoid such unnecessary casualties!

"Okay ... Actually, I think it's more convenient to kill a group of people as a warning to others. After we intimidate them, when they want to kill us again, they will think carefully about whether they can still take our things!"

Daniya didn't put the experts of the heaven's legacy continent in her eyes. Although several thousand experts at the sea splitting stage and above had the ability to threaten her life, she really didn't put these several thousand people in disunity in her eyes.

After killing a batch, breaking out of the encirclement was a piece of cake!

"There's no need to go through so much trouble. After we leave the city, take them slowly for a stroll. We'll see if we need to kill the chicken to warn the monkeys."

Lin Yi said as he caught an arrow from afar. An Archer above the sea shattering realm was very strong! Unfortunately, Lin Yi's eyes and techniques were far better than his opponent's, and catching the arrow didn't take much effort.

If Lin Yi was still in his peak condition, he could probably kill the powerful Archer by throwing the arrow back. However, he was entangled by the power of stars and his strength was limited. He didn't have full confidence, so he didn't fight back.

It would not be good if the arrow flew back and killed innocent passers-by. Even if it did not kill innocent passers-by, it would not be good if it hit the flowers and grass on the roadside!

"Alright, whatever you say. I'll listen to you!"

Daniya shrugged and copied Lin Yi, catching the arrow in her hand as she glared at the Archer.

Whoever shot an arrow at me, don't even think about running away once I'm out of the city!

The Tianji Empire's capital was huge, but for Masters like Lin Yi and Daniya, it wasn't that big when they ran at full speed. The walls soon appeared in their field of vision.

The Imperial City's guards knew that there would be an auction for the six-point star source instrument at first-grade restaurant today. They had also anticipated the fight after the auction, so they had opened the city gate early. The guards restricted the civilians from entering and leaving the city gate and cleared the passage. They hoped that the big shots could leave the city smoothly. Then, everything would be fine.

However, they forgot that these Masters weren't interested in passing through the city gates. Lin Yi and Daniya ignored the gates and flew off the city walls. The people behind them did the same. They left the city in a big group.

Not a single one of them used the city gate ...

The guards rejoiced in their hearts, but at the same time, they couldn't help but Mutter, why did he have to climb over the wall instead of walking through the door? as expected, a strong man is a strong man, he doesn't take the ordinary path!

There weren't any more practitioners waiting outside the city after leaving the capital, but Lin Yi could still see quite a few people hiding in the dark with his spirit sense.

The strength of these people might not be strong, and most of them were around the level of the mountain opening stage, but judging from their hiding positions and the way they observed in the dark, they should be spies arranged by the various forces outside the city, just in case, to monitor suspicious people leaving the imperial capital.

Lin Yi and Daniya flew out of the city wall, and it was hard to say that they weren't suspicious. The spies focused their attention on the two and used their own methods to guide them.

"So troublesome! Looks like we really do need to get rid of some of them first!"

Lin Yi's temper flared up as he scanned the terrain with his spirit sense. "Let's go over there and see who's the fastest to come. Let's give them a surprise!"

"Alright! I was just waiting for you to say that!"

Daniya squinted her eyes and smiled. She began to rub her hands, ready to show off her skills.

Before, when Lin Yi was free, he was basically the main player, and she was on the bench for ten thousand years. Now that Lin Yi was injured and not in his best condition, Daniya wanted to perform well and show the value of her existence!

Lin Yi took out a formation flag and threw it around him, but it didn't fall to the ground. Instead, it disappeared into the void around Lin Yi. Daniya's heart went cold when she saw this.

She'd seen Lin Yi use a movement formation before, and it was like he had an extra realm-what the hell was he doing here?!

Even if Lin Yi's strength was damaged and he wasn't in his best condition, the power of the movement formation was enough to deal with a group of martial artists chasing after him!

"Sima Yi, if there's anything, just leave it to me. You don't have to do anything, just help me hold the line. If I can't win, you can come and help. What do you think?"

Daniya stated her request tactfully, in case Lin Yi used a movement formation to kill the enemy. How unlucky would she be if she couldn't even move her body?

"Sure!" Lin Yi nodded with a smile. I'll leave it to you, I'll set up a movement array just in case. After all, I'm not in a good state right now, so I have to have some means to protect myself so as not to hold you back!"

"What are you saying? how can you be a burden to me? You're our trump card and can't be used easily. Under normal circumstances, I'll be the vanguard and deal with it! Don't worry, I can handle everything properly!"

Daniya was all smiles. Under her beautiful face, her violent heart was already beating restlessly.

Soon, the movement array was completed, and the two came to a Canyon Passage. The steep mountain walls on both sides only left a line of sky, and the wide area below was only wide enough for four people to walk side by side, while the narrowest area was only wide enough for one person to walk.

This place was obviously not a good place to make a move. Not only could he not use his full strength, but if he did not control his strength well, he might cause the mountains to collapse and the ground to crack. The valleys on both sides would collapse, and he would be buried directly!

"This is the place! It was a good place where one man could hold off ten thousand men! Daniya, I'll leave it to you! Get rid of the people who are chasing us!"

Lin Yi said as he pulled Daniya back, turning her around to face the way they came from before he continued forward. "I'll go ahead and make some arrangements. You block the people behind!"

"No problem! However, you've said the wrong thing. It should be one woman guarding the pass, ten thousand men can not open it! Don't worry, I guarantee that none of you will be able to pass through here!"

Daniya domineeringly straightened her back and indifferently looked at the crowd that was chasing after her.

Less than one in ten people would be able to keep up with Lin Yi and Lin Yi's speed after leaving the imperial capital-it was entirely possible to shake them off if they were competing in speed.

Chapter 9029

However, Lin Yi noticed that there were spies all around the imperial capital. There were dozens of people even above the canyon. They were obviously not from the same faction. On the contrary, they were from dozens of different factions.

After passing through this Canyon, it was unknown how many people were still hiding in the dark. Because of the star Ink River, there were probably spies arranged by various powers all over the heaven's Legacy Empire. Not only were they keeping an eye on the person who had obtained the six point star source instrument in the auction, but they were also trying their luck.

What if his luck was off the charts and he encountered the Black Star River that was hidden underground? What if when the Black Star River appeared, their people were already there? One step ahead, one step ahead!

And so, Lin Yi realized that it wasn't possible for him to study the ancient Star Domain jade talisman and the six-point star source instrument in peace, so he decided to use a lightning-fast method to scare the others!

If a Tiger didn't show its might, it would be treated as a sick cat!

The tiger's roar in the forest would let the greedy wolves know whose territory this was!

The pursuers caught up in an instant and were bewildered when they saw Daniya blocking the canyon alone.

"Miss, you can't run away. Hand over the six-part star source instrument and I can let you live today. If you don't listen to my advice, you and your companions will all die!"

The pursuers stopped at the entrance of the canyon. One of the old men smiled and said, ""This old man has good intentions. I hope that miss will not make a mistake. The six-point star source instrument is of great importance. It is not something that you two juniors can hold. It is better for you to be obedient!"

The other brawny man sneered, "cut the crap. Did that kid escape alone?" You're really willing to leave such a delicate little girl behind. If you don't want to die, get out of the way. I don't have time to waste on you!"

"What's the point of saying so much, go and kill her! The six-point star source instrument is still with him!"

The middle-aged woman on the side urged impatiently, but she had no intention of making a move herself. Her eyes kept darting back and forth between the others.

Those who had caught up were all experts from all over the world. Everyone's goal was the six-point star source instrument, but they were not allies. No one wanted to make the first move and let others take advantage of them!

No one was a fool. Daniya dared to stay behind to bring up the rear without any signs of nervousness. Who would believe that she didn't have something to rely on?

Letting the others go up and test him was the best choice!

Unfortunately, these pursuers were all foxes that had lived for thousands of years. How could they not know what others were thinking? If it was a force that caught up, they wouldn't have stopped at all. They wouldn't even say a word and would directly attack Daniya!

"You guys talk too much nonsense. If you want to fight, then fight. Don't talk nonsense. If you're afraid, then get out of here, lest you die in vain! If you want to snatch the items of the strongest 36 heavenly stars in the endless primordial era, you are not qualified!"

Daniya's face was full of arrogance as she pointed her index finger at the pursuers. If it was Lin Yi who said that and did that, the taunting effect would be at its maximum.

On the other hand, Daniya's effect was much worse. It couldn't be helped, her appearance was too beautiful and had a bit of cuteness to it. No matter how he looked at her, he didn't feel that way. The men opposite him actually felt that she was a little cute.

Only those female martial artists would be a little unhappy ... The same sex repels the same principle, right?

"Little girl, you really don't know the immensity of heaven and earth! What thirty-six dippers? I've never heard of them, and you have the nerve to use them to scare people!"

An old woman behind him took the lead and said, ""Since you like to talk nonsense, this old one will help you teach this little girl a lesson!"

She was shouting fiercely, but in reality, she didn't approach Daniya. Instead, she threw out three armor-piercing darts from behind. The armor-piercing darts that contained elemental energy could easily penetrate the physical defense of a warrior of the same level. If one wasn't careful, it was normal to be killed.

After the old woman threw the armor-piercing dart, her body flickered and she retreated instead of advancing. She hid behind the others like a ghost and continued to provoke Daniya with her words.

The older one was, the less courageous they would be. The old woman vividly displayed this characteristic. Everyone knew that Daniya had something to rely on, but they didn't know what it was, so the old woman began to provoke a dispute while she prepared to hide in the dark and watch.

Daniya chuckled. "Such a small trick. You have the nerve to use it to scare people?"

This was returning the old woman's words, and at the same time, returning the three armor-piercing darts!

When the lightning fast armor piercing dart approached Daniya, she casually reached out and grabbed it, and it obediently fell into her palm. Then, it flew back in an even more violent and violent manner!

Without any special technique, the three armor piercing darts whistled through the air and flew straight at the old woman. It didn't matter if she was hiding behind the others. Daniya was confident that after piercing through the people in front, she would continue to nail onto the old woman's body!

"Let's attack together and not waste any more time!"

The old man who spoke first shouted. He felt that Daniya was distracted by the old woman's sneak attack, so it was a good time to attack. Thus, he rushed out first and didn't pay any attention to the three armor-piercing darts that flew past his ears.

The others didn't pay attention to the armor-piercing darts and followed the old man. The warrior who was used as a shield by the old woman had an ugly expression on his face when he faced the three armor-piercing darts. He dodged quickly, but he only managed to avoid two of them. He couldn't avoid the last one no matter what.

He had no choice but to try his best to avoid being hit in his vital parts. In the end, he used his left shoulder to take the blow.

Just as Daniya had expected, the armor piercing dart and her strength could completely penetrate one person and continue to pose a threat to the people behind.

The old woman didn't think that Daniya's strength would be so strong. She had just hidden behind the shield when the armor piercing dart returned. The person in front of her dodged the armor piercing dart and she was caught off guard, but she used all her strength and finally dodged it by a hair's breadth!

The two armor-piercing darts missed her by a hair's breadth. They brushed past her and even pierced her clothes, leaving two shallow scars on her body.

Before the old woman could even breathe a sigh of relief, the armor-piercing dart that had pierced through the shoulder of the person in front of her arrived!

Because it had pierced through that person's body, its power had been reduced. Under normal circumstances, the old woman could even reach out and easily catch it. However, she had exhausted all her strength to deal with the two armor-piercing darts from before, and this one had been slightly deflected by the shoulder of the person in front of her!

"No!"

The old woman's eyes widened and her pupils contracted. She let out a short shriek and twisted her body wildly, but she still couldn't avoid the last armor-piercing dart!

Her body had already turned to the side, and the armor-piercing dart had pierced into her neck from the side, cutting open her windpipe and blood vessels. With a rain of blood, it smoothly went through the other side of her neck.

Chapter 9030 The Power Of The Divine Realm

The old woman's own armor-piercing dart had ended her own life. She had started the battle, but at the same time, she had also started the end of her life. When she fell, her eyes were full of fear and doubt!

Why? She was already so careful, but she was still killed so easily?

After Daniya threw the armor-piercing dart, she didn't pay any more attention to the old woman. It didn't matter if she was Dead or Alive, it wouldn't affect the overall situation!

Next, it was time to deal with this wave of people. The old man in the lead looked extremely powerful. His strength was around the middle stage of heaven breaking, and he seemed a bit threatening.

Daniya gathered her strength slightly and threw a punch. A vast and mighty force rushed towards the old man like a hurricane.

In the end, the old man revealed a sinister smile as if his scheme had succeeded. He suddenly turned around and rushed upwards. The witness shot up dozens of meters like a rocket, perfectly dodging Daniya's violent attack.

However, the cultivators who had followed him didn't react so quickly. Although they had been wary of the old man, they hadn't expected him to be so evil and to Dodge at such a perfect time.

The old man himself and Daniya's attack brushed past each other by a hair's breadth. The fighters behind him had no time to Dodge because their line of sight had been shaken and Daniya's attack was as fast as lightning.

Fortunately, they had been on guard against the old man's dirty tricks, so they had hurriedly put up a defense when the attack was about to hit them.

An invisible wave of air exploded from the point of contact between the two sides. The people who were unable to rush up were pushed back by this huge force and staggered back a few steps. However, they managed to block Daniya's attack and at the same time, no one was injured or killed. This was good news.

As for the bad news, it was naturally because Daniya's strength alone forced several heaven breaking experts to join forces to resist, and they barely managed to tie.

If it was a one-on-one fight, none of the people present would be Daniya's match!

After experiencing Daniya's strength, the practitioners' expressions all changed slightly, their hearts becoming more serious. They wanted to let the others touch Daniya while they hid on the side to watch the wind or find a chance to sneak over and chase after Lin Yi, who they thought had already escaped.

A Motley crowd!

If they were to work together and sincerely unite, they might be able to fight with Daniya for a while. If each of them had their own plans, they wouldn't have any chance!

After Daniya blocked the Warriors who were following her with a punch, she didn't pursue further. Instead, she grabbed a stone from the Rocky Mountain wall and threw it into the air.

The old man wanted to use the people behind him to attract Daniya's attention so he could fly over and continue chasing Lin Yi, but he miscalculated Daniya's combat and reaction speed.

The people behind him could only barely protect themselves and had no ability to delay or affect Daniya.

The rock that Daniya threw carried a shrill whistle as it instantly caught up to the old man in the air. Although she didn't have much research on hidden weapons, with the strength of the great circle of heaven-Sundering, she could definitely be a threat if she casually threw something.

For example, the old woman's armor piercing dart and the rock!

Speed, strength, and prediction!

These three points were actually enough. There was no need for any more techniques. When one's speed was extremely fast, one could naturally guarantee the output of power, and the accuracy of judgment would ensure that the output would not miss!

The old man's expression changed drastically in the air. The rock instantly appeared in the path he had to take, and there was no way to Dodge it. If he didn't react, he might be killed by an ordinary rock!

"Open!"

At the moment of crisis, the old man burst out with amazing potential and punched out in a flash. He didn't use all his strength in the hurry, but it just hit the flying rock!

The huge force instantly exploded, and the rock was instantly crushed into powder under the collision of the two huge forces. The old man had nowhere to borrow strength in the air, and the aftermath of the collision spread out. He could only roll back. In the process, he felt extremely suffocated in his chest, and there was a sweet taste in his throat. He directly spat out a mouthful of blood!

The difference in strength between the two sides was too great, Daniya had the complete advantage of crushing the other side. Even if it was a long-range attack, it was not something the old man who was in the air with no place to borrow strength could withstand.

"You don't know your place! Don't even think about passing through me!"

Daniya snorted coldly, her hands continued to grab rocks from the rock wall, chasing after the old man in the air like a machine gun. Although there was no technique to speak of, there was a rough and bold style in it.

Not to mention the Warriors who were not in the same group as the old man, even the Warriors who were in the same force didn't dare to help the old man fall to the ground after seeing the power of Daniya's stones. They could only watch as the old man was hit by countless stones and exploded in the air, turning into a rain of blood.

A super expert at the middle stage of heaven breaking realm, an existence that could be considered a hidden force even among the top forces of the heaven's legacy continent, had been smashed to death by a stone like this?

Looking at the process, it was even easier than a father beating his son ...

In a short period of time, two were dead and one was injured!

The hearts of the pursuing cultivators all sank as they retreated a certain distance in tacit understanding.

They were all experts, but when they encountered an opponent they couldn't defeat, they would also feel fear!

It was because he had enough vision that he could understand how terrifying Daniya was!

"Dammit! Where on earth did this unparalleled expert come from? Why haven't I heard of it before?"

Some people couldn't help but start to Mutter, while others echoed.

"Indeed, there's no reason to not have any information about such a powerful expert! Which one of you knows? hurry up and explain!"

"Now isn't the time for us to make our own plans. With the appearance of such a troublesome enemy, if we can't work together, then we really won't have a share in the star Ink River!"

"I've heard her mention something about the thirty-six dippers of the endless wilderness before. Have you heard of this organization? Could it be that there are thirty-six of them, and they are all of similar strength?"

Hearing this, everyone instantly fell silent. Even Daniya couldn't handle one, thirty-six ... Just thinking about that scene filled them with despair!

Daniya originally wanted to charge in and kill a few more to establish her might, but this group of cowards had already instinctively started to work together. Furthermore, there were even more experts coming from behind, so charging in might not have much of an advantage.

The first to catch up might not be the strongest group, it could only be said that they were the fastest group. It was because of this that Daniya's crushing advantage was like a natural chasm that could not be crossed!

Among the fighters who came later, the ones with strong battle strength might be able to take Daniya head on for a few waves!
