

Bodyguard 9031

Chapter 9031 The End

Daniya knew this very well, so she stayed in the canyon and didn't go out. This was Lin Yi's idea, and she had to follow it.

"Don't say that I didn't warn you. If you want to take something from us, you'll have to be mentally prepared to be killed!"

Daniya had one hand on her waist and the other pointing at the group of Warriors, "If you want to die, then follow us! If you don't want to die, get out of my sight. If you continue to follow me sneakily, don't blame me for being ruthless!"

She deliberately pretended to be fierce, but her appearance completely affected her performance. No matter how fierce she pretended to be, she was like a little kitten learning the roar of an evil Dragon.

However, none of the powerhouses on the other side felt that Daniya was a little kitten. What 'fierce'? she was really fierce!

Under the shell of the little kitten, there was a real evil Dragon!

"Daniya, we can go!"

Lin Yi's voice came from the other side of the canyon. Daniya only stopped him for a short time, but it was enough for Lin Yi to make some arrangements.

Daniya listened to Lin Yi's every word, at least on the surface. She would do whatever he said, and so after getting the message, she immediately raised her fist and shook it a few times in front of him as a show of force before turning and flying away.

The group of experts from the heaven's legacy continent looked at each other and immediately rushed out.

Daniya's strength was terrifying, but it was impossible for them to give up on the star Ink River!

As for the threat ... Everyone was following him, and he wasn't the only one being threatened. What was there to be afraid of?

No matter what, he had to find the star Ink River. Even if he couldn't eat the meat, it was still good to drink some soup!

By the time this group of Warriors rushed into the canyon, Daniya had already disappeared. In a moment of desperation, they all flew at full speed to catch up, while also maintaining enough vigilance.

After all, the old man had already used his life to show them the consequences of not being vigilant enough!

There was nothing strange when they first entered the canyon, and Daniya had indeed left long ago. However, when they entered the middle of the canyon, there was a sudden change!

Lin Yi's formation self-destructed as someone passed through, and the narrow canyon was filled with a loud explosion, followed by a cloud of dust and a large landslide.

Almost in an instant, the entire Canyon Passage collapsed. The narrow space did not provide an effective opportunity to Dodge. All the martial artists who entered the canyon had to face a large number of rocks falling from the sky.

Fortunately, they were all experts of the heaven breaking and sea splitting stages. In the face of such a desperate situation, they didn't panic. They all attacked the falling rocks and went against the pressure to rush upward, trying to get out of the range of the rain of rocks.

The final result aside, at least their plan to continue tracking Lin Yi and Daniya was a failure!

Lin Yi and Daniya had already left the canyon and were running on the field like lightning. The surroundings were wide and open, and it was hard to hide. The forces couldn't keep their eyes on them, and they could only keep their eyes on them from a distance. They would be lost very quickly.

"Why didn't you stay a little longer just now? While those guys are panicking, it's the perfect time to harvest a wave so that they won't dare to chase us anymore. "

Daniya was obedient, but when she had questions, she would still ask, ""Actually, I can kill a few more by myself. That way, the intimidation effect will be better, don't you think?"

Lin Yi turned his head and smiled as he ran. "There's no need. We don't know each other, and we don't have any deep grudges. They might be useful in the future. "

Lin Yi wanted to kill a group of people to scare the enemy, but he realized that these people were all the top elites of the Tianji continent. If he killed too many, the Tianji continent would be greatly damaged.

After all, humanity's greatest enemy was the darkness demon beast clan. Since the darkness demon beast clan had made a move on the continent, the more human experts the better. At this time, they couldn't kill too many of the strongest cultivators, as that would only benefit the darkness demon beast clan.

It was just that there was no need to say all this to Daniya. No matter what attitude Daniya had towards the darkness magical beast clan, it was still a scheme against her clansmen, so she might be a little unhappy.

"Besides, I also want to get rid of them as soon as possible and find a quiet place to study the six-point star source instrument and the Jade talisman of the ancient heavenly cycle stellar domain."

Lin Yi added. This was a valid reason indeed. As long as he didn't get rid of the power of the stars, he wouldn't be able to recover to his peak.

It was more important to seize the time and study this!

There wasn't much point in ambushing the Tianji continent's practitioners, so Lin Yi gave up on the idea of looking for trouble with the people who had marked them. He wiped off the marks on himself and Daniya!

With that, if those people wanted to track Lin Yi, they would have to find the tracks Lin Yi left behind and follow him. It was impossible to find him with a mark!

Lin Yi thought that he'd be able to get rid of everyone after the auction, but after another ten minutes, someone blocked his way-someone he knew!

Mei gancai!

Besides Mei gancai, there were more than a dozen people behind him, and they all looked like they had bad intentions.

"Yo, little brat, you run quite fast. You actually ran over here in a short time, but you didn't expect it, did you? This young master is actually waiting for you two in front of me!"

Megancai opened her fan and waved it a few times. "Be honest and hand over the six-point star source instrument, and I'll let you live. I'm in a good mood today, so I only want the six-point star source instrument. I don't want anything else from you!"

Lin Yi didn't know how Mei gancai got ahead of him, or how she knew he'd pass by here. After all, he didn't specifically choose the direction he was going in, and it was completely random.

How did Mei gancai predict this? Or was this one of the hidden secrets of the Tianji Mei mansion? Or was it an ability that even Lin Yi couldn't understand?

[No matter what, Mei gancai isn't a simple kid. I may have underestimated him!]

"Hehe, Mei gancai, aren't you afraid of biting your tongue when you talk big? do you think that you can defeat us just because you brought a few more people? Come, come, come, didn't you want the six-point star source instrument? If you have the guts, come and get it!"

Daniya extended a finger and beckoned to megancai, "Don't just talk without practice. If you're afraid, it's the same to send your men to their deaths. I guarantee that I'll treat all of you equally and will not favor one over the other!"

Mei gancai snorted. "You don't know what's good for you. Originally, a beautiful woman like you could have won some sympathy and pity. Unfortunately, you didn't know what's good for you and rejected this young master's good intentions. Since that's the case, don't blame this young master for ruthlessly destroying the flower!"

Chapter 9032

"You guys, attack together. It's best if you can capture him alive, but if you can't, it doesn't matter if you kill him. The most important thing is to get back the six-point star source instrument!"

Eight of the practitioners behind megancai split up and formed a battle formation, charging towards Lin Yi and Daniya.

These people should be the reinforcements of the Tianji Mei mansion. Their strength was quite extraordinary. The eight people in the battle formation were all at the early stage of heaven breaking. Under the support of the battle formation, each person could display the combat power of the mid stage of heaven breaking.

But in Lin Yi's eyes, these eight early heaven breaking realm martial artists weren't complete in terms of their levels, as if they were forced to level up by external forces. They were fake early heaven breaking realm martial artists.

The Tianji Mei mansion was indeed one of the top clans of the Tianji continent. To have the ability to nurture such powerful warriors, they truly had a deep foundation!

Unfortunately, Mei gancai still didn't know Lin Yi and Daniya's strength. He thought that he could suppress the two with just this number of people. If he knew that all the Masters were defeated in the canyon, he wouldn't dare to be so arrogant!

"A motley crew actually dares to provoke us? You guys are the ones who really don't know what's good for you! If I don't teach you guys a lesson, you won't know who you can't afford to offend!"

Daniya coldly snorted, and with a burst of strength from her feet, she charged towards the eight people who had formed the battle formation.

He was only a fake early heaven breaking expert, and his true combat power was only about the same as a more powerful cultivator at the consummate level of the sea rending realm. With the support of the battle formation, the increase would not exceed the peak of the early heaven breaking realm.

On the surface, every warrior in the battle formation had the strength of a mid-stage heaven breaker, but in fact, there was a lot of exaggeration. With Daniya's strength, she didn't have much pressure when facing eight peak-stage heaven breaks-breaking early stage Warriors.

With Lin Yi's help, telling Daniya how to break the enemy's battle formation, this battle was a walk in the park!

Cutting in from the weak point of the battle formation, Daniya didn't need any moves. A simple punch, kick, knee strike, and elbow strike, bringing along her own tremendous strength, could display astonishing destructive power.

The eight fake heaven breaking experts, who were originally full of confidence, were shocked when their battle formation was broken, and were even more shocked when Daniya's simple punches and kicks swept over.

It couldn't be blocked!

It couldn't be dodged!

It couldn't be avoided!

He was going to die!

Daniya didn't have a good impression of Mei gancai-she'd wanted to kill him back at the fragrant ink Pavilion, but Lin Yi told her to keep a low profile and let him go.

I didn't expect this brat to actually dare to come over arrogantly. He's just looking for death!

As Mei gancai's underlings, these eight fake heaven breaking experts naturally had to endure Daniya's anger. In their fear, they used their bodies to resist Daniya's punches and kicks.

His bones were broken! He was dead!

Their physical strength had been raised to the initial stage of heaven breaking, but their fighting strength couldn't keep up with their physical strength, so they were in the pseudo heaven breaking stage. Facing Daniya who was at the great circle of heaven breaking, their seemingly strong bodies were like tofu, collapsing with a single touch!

In the blink of an eye, the eight people were sent flying in all directions, screaming in pain. When they landed, they were no longer breathing. Each of them was only breathing but not breathing. Before their companions could save them, they twitched twice and completely stopped breathing!

Mei gancai's face was still filled with pride. It was as if he had seen a ghost, and his expression was replaced by one of fear. His pupils contracted sharply, and he opened his mouth to shout something, but no sound came out.

What the hell happened? The family's most powerful and elite warrior battle formation was annihilated in the blink of an eye?

Wasn't this supposed to be one of the family's foundations? He didn't even have the right to warm up?

The two guards behind Mei gancai's back were as calm as water. They quickly moved in front of him and blocked him. They were the only two people on Mei gancai's side who weren't shocked by Daniya's fighting strength. They were also the strongest people on Mei gancai's side.

One was at the late-stage of heaven breaking, and the other was at the peak of the middle-stage of heaven breaking!

The Tianji Mei mansion had indeed sent out an extremely powerful lineup for the fight for the inky Star River. However, they hadn't expected that they would lose eight early heaven breaking experts before they even saw the inky Star River!

"Ruthlessly destroy a flower? Hehe ... Just like that?"

Daniya didn't continue to attack, but stood there calmly with a teasing smile on her face, ""Do you think that by sending out a few pieces of trash, you can achieve your so-called ruthless destruction of a flower?"

"I'm really sorry. Trash like them don't even have the right to be fertilizer for flowers after they die, let alone ruthlessly destroy flowers. Why don't you come over and personally destroy flowers?"

Mei gancai's heart felt weak. Go personally? Do you want me to destroy a flower?

She clearly looked extremely beautiful and moving, so how could she be so brutal? After killing eight fake heaven breaking cultivators in one go, Megancai remembered that he had some thoughts about Daniya and felt even more scared.

"How may I address the two of you? Our Tianji Mei mansion has a wide circle of friends in the entire Tianji continent, but we've never known that we have two young heroes like you. It's a great honor to be able to meet you today!"

The late-stage heaven breaking expert standing in front of Mei Gancai cupped his hands and politely said, "There might have been some misunderstandings before, but it's no big deal to talk it out. If we've offended you in any way, we'll apologize to the two of you first!"

On the sub-island, strength was respected.

Daniya's strength had obviously gained the attention of the late-stage heaven breaking expert from the Tianji Mei mansion. He was the expert who had just brought people to support Mei Gancai, so his eyes were naturally different.

With his own strength, it was absolutely impossible for him to kill the eight pseudo heaven breaking experts in such an easy and pleasant way.

In other words, the young girl in front of him was more powerful than him. It was terrifying just thinking about it!

Did the young man who had not made a move also have the same combat power, or was he stronger than the young girl?

Even the Tianji Mei mansion would not want to offend such an opponent. Just like Meng buzhuai and Yan Wuming, they were known for their life-chasing duo skills. However, in the eyes of the top forces and aristocratic families, their strength was only so-so.

The reason why he didn't deal with them was that there wasn't a big conflict of interest and it wasn't necessary. Another reason was that he didn't want to easily offend these solitary experts who could come and go freely.

A family with a big business did not have a strong master everywhere. Being targeted by such a strong master who could come and go freely without any restraints, there was no doubt that the loss was great.

Lin Yi and Daniya were clearly stronger and more troublesome than the couple. It would be best if they could turn hostility into friendship.

Chapter 9033

"Woof! Arrogance turned into respect! Forget it, since you all want to know, then I will tell you. We are two of the strongest 36 heavenly stars in the Supreme ancient era and endless chaos. He is the Tianying planet, and I am the Tianhui planet!"

Daniya seemed to be addicted to this title and repeated it without a second word, feeling very happy in her heart.

Such a domineering title was much stronger than the life-chasing duo Masters!

Just this point alone was enough to crush Yan Wuming!

The people of the Tianji Mei mansion were stunned. This long and stinky nickname ... Why did it sound like a charlatan?

But Daniya's strength was truly formidable, she definitely wasn't some swindler!

The late-stage heaven breaking expert smiled and cupped his hands. "I've long heard of your great name, it's like thunder piercing my ears! So the two of you are the Tian Ying star and Tian Huixing of the 36 heavenly stars! I'm sorry, I'm sorry!"

Lin Yi couldn't help but want to laugh-the guy's name wasn't something he could hear about!

This was something that Daniya had randomly made up. It had been created less than half a day ago, and there was probably no one else who knew about it other than Meng buzhuai and Yan Wuming, right? Where have you heard of such a great name?

However, Daniya was very satisfied."Not bad, not bad. It's hard to believe that you've heard of it. However, I still have to correct you. It's not the 36 heavenly generals, but the strongest 36 heavenly generals in the eternal and endless primordial times. Don't get it wrong!"

The late-stage heaven crushing expert's mouth twitched. He felt a little ashamed to repeat this long and smelly title ...

But Daniya's fist was big enough, so whatever she said was true!

"Yes, this one will remember! They were the strongest of the 36 heavenly stars in the ancient times, the Tianying star and the Tianhui star! I'm honored to meet you two. I forgot to introduce myself. I'm Mei Tianfeng from the Tianji Mei mansion!"

Mei Tianfeng of the Tianji Mei estate was a well-known expert in the entire Tianji continent. He belonged to the group of people at the very top, and his name was enough to intimidate an entire region.

He thought that after he reported his name, Daniya would be polite and say something like "I've heard a lot about you. "

In the end, Daniya only responded with an "Oh" and said, ""I've never heard of it! Is it because you don't have any talent in martial arts that you're called not talented? From the looks of it, he should be a person who knows his own limitations!"

Mei Tianfeng's face instantly turned red, and the veins on his forehead bulged. He almost couldn't resist the urge to kill!

You're the one who has no f * cking talent, your whole family has no talent!

The martial artist at the peak of the middle stage of the heaven breaking realm next to him bit his lips and wanted to laugh, but he didn't dare to. Mei Tianfeng's strength was naturally strong, but his name was often used to make fun of by his peers, ridiculing him for his lack of talent.

In the end, Mei Tianfeng had used facts to prove that he had talent! And he was very powerful. There were few talents in the Mei mansion who were more powerful than him among his peers.

"Tianfeng, a little impatience will spoil a great plan. Don't be impulsive!"

The martialists on the side knew that Mei Tianfeng was going crazy. They quickly pulled on his sleeve and reminded him in a low voice, "The most important thing right now is the star Ink River. Don't cause any more trouble!"

Mei Tianfeng nodded with difficulty, suppressing his anger. He turned to Daniya and Lin Yi, "Enough chit-chat, let's get straight to the point! No matter where the two of you are from, our goals are the same!"

"The Black Star River is a heavenly treasure. Any ambitious person would want to get a piece of it. The two of you may be able to find the Black Star River faster by bidding for the six point star source instrument. But, what about it?"

Mei Tianfeng quickly controlled his emotions and began to express his opinions in a clear manner. "The Black Star River is destined to be a treasure that can't be devoured by just a few dozen people. Whether it's two or thirty-six people, it's impossible for you to completely take over the Black Star River."

"If that's the case, why don't you cooperate with our Tian Ji Mei clan? before the others find the star Ink River, our two clans will join hands and divide the benefits of the star Ink River equally. This is better than the two of you being alone, right?"

"I don't deny that the two of you have extraordinary strength, but when you need manpower, strength can't replace manpower. If we work together, there should be only benefits and no harm, right?"

"Of course, the six-point star source instrument is a treasure that the two of you have won. Our Tianji Mei mansion can't take advantage of it for free. We can give the two of you 400 million gold certificates to make up for the funds you spent during the auction, and the six-part star source instrument will still belong to the two of you. "

"This amount of money is only the amount we'll be investing in. We'll also be in charge of the manpower and assistance in the future. There's no need for the two of you to worry. In the end, we'll split the profits of the star Ink River 50 - 50. I wonder if the two of you have any objections to this plan?"

Mei Tianfeng's plan was simple. Now that Lin Yi and Daniya had left everyone else behind, only the Tianji Mei mansion had found the two of them through special means.

If they could use their strength to snatch the six-point star source instrument, then there was naturally nothing to say. They would just go up and finish it. Unfortunately, after they finished, they realized that their strength couldn't take on Daniya alone, so they changed their way of thinking and sought cooperation.

Four hundred million gold certificates was equivalent to the Mei family paying for the six-cent star source instrument at the auction, but the ownership of the instrument was still in Lin Yi's hands.

It seemed that the Tianji Mei mansion had suffered a great loss, but Mei Tianfeng felt that if they succeeded, not only would they not suffer a loss, but they would also gain something!

After all, the most useful function of the six-part star source instrument was to find the function of the star Ink River in advance. Once the star Ink River appeared, the six-part star source instrument would basically be of no value.

Using four hundred million gold certificates to get the right to use the six-point star source instrument, and also getting the help of two masters, Lin Yi and Daniya, and even the other thirty-four Tiangang behind him, it was definitely a big profit!

Daniya turned around to look at Lin Yi. She was in charge of fighting, and it was Lin Yi's decision to make.

Lin Yi took a few steps forward and smiled faintly, "It sounds good, but we don't need to join hands with anyone for the time being, so we can only disappoint your good intentions!"

"If there's nothing else, I won't waste your time. By the way, we're heading this way. Please make way, thank you!"

Lin Yi was being very polite, but his firm rejection still made Mei Tianfeng and the others change their expressions.

"The two of you, our Tianji Mei mansion is very sincere in our desire to cooperate with you. There's no need to reject us, is there? There's always some leeway in everything, as the saying goes, leave a line in life, and we'll meet in the future!"

Mei Tianfeng stopped smiling and said coldly, "If the two of you think that you can ignore the goodwill of our Tian Ji Mei mansion just because you are strong, then you are looking down on us,"

Daniya laughed, "your kind intentions?" Did he just send those eight pieces of trash to disgust us? If we're even more useless than them, shouldn't we be digging a hole and burying ourselves now?"

Chapter 9034 The Power Of The Devil

It was obvious that the people from the Mei family didn't come with any good intentions. They wanted to use their strength to suppress Lin Yi and Daniya, but unfortunately, they met Daniya who was stronger than them, so they could only admit defeat.

Mei gancai couldn't help but say, "that was just a test. If you want to become an ally of our Tianji Mei mansion, you're not qualified to do so if you're not strong enough!" You've already proven your strength, that's why we're willing to give you the opportunity to cooperate!"

"We are not going to pursue the fact that you have killed eight of our heaven breaking cultivators. If you don't give us face, then you are looking down on us! If you don't want to be friends, do you want to become enemies with our Tian Ji Mei mansion?"

lin yi raised an eyebrow and looked at mei gancai with a smile. "you've been talking about the tianji mei mansion. do you mean that you can represent the tianji mei mansion? in fact, we've never taken the initiative to provoke you. it's you who have provoked us time and time again!"

"is it because you are the tianji mei mansion that we should stand still and let you slaughter us? hehe ... it's the kindness of both sides to treat each other as friends, but i don't feel your kindness at all. if that's the case, i don't mind if you want us to become the enemies of the tianji mei mansion!"

mei tianfeng cursed in his heart. lin yi's words were clearly going to turn hostile!

naturally, the tianji mei house wasn't really afraid of two heaven-breaking cultivators, but with their current strength, they couldn't even handle one daniya. with lin yi's unknown strength, they were in a dangerous situation!

but before mei tianfeng could say anything, lin yi started moving!

Now that Lin Yi was focused on studying the ancient Star Domain jade talisman and the six-point star source instrument, he didn't want to waste time on these people from the Mei mansion!

Let's end this quickly!

Lin Yi's body flashed as he used the Super butterfly micro-steps, activating the movement formation and covering everyone in the Tianji Mei house.

The layered illusory formation was the first to be activated. Even someone as strong as Mei Tianfeng only felt his vision blur. The clansmen around him disappeared, leaving behind many armored skeleton soldiers that had appeared out of nowhere, brandishing their bone sabers and charging at him.

Caught off guard, Mei Tianfeng was greatly alarmed. He subconsciously began to defend and counterattack. As a result, his counterattacks only offset a part of the killing formation's attack, while the rest were directed at the other members of the Mei residence.

The rest of the Tianji Mei clan's people were in a similar situation, but the weaker ones were barely able to protect themselves. It was already very difficult for them to deal with the killing array's attacks and the other clansmen's unintentional attacks at the same time, so they had no spare energy to launch a counterattack.

Lin Yi's movements were light and agile, easily passing through the gaps between the attacks. If a wave of spiritual sense attack came at this time, it was only a matter of time before the remaining people of the Tianji Mei house were all wiped out.

They were lucky that Lin Yi was restrained by his spirit sense attacks due to the star power, so they didn't feel that despair.

Lin Yi easily arrived in front of the terrified Mei gancai and gave her a series of slaps across the face, stunning her.

then, he punched and kicked mei gancai. he didn't use any martial arts techniques. he only relied on the battle strength of the consummate level of the sea shattering realm that he could display now to give mei gancai a solid beating. he directly beat him into a pig's head. it was guaranteed that even his mother wouldn't be able to recognize him!

daniya followed, unaffected by lin yi's movement formation. she was eager to try lin yi's move on mei gancai.

"my turn, my turn! i also want to beat up this kid. looking at his arrogant appearance, it really makes me unhappy! i'm going to beat him up too!"

lin yi raised his hand to stop daniya,"forget it. this kind of weakling can't take a punch or a kick from you. there's no point in bullying a child, just teach him a lesson. if this brat doesn't know what's good for him and comes to mess with you again, it's not too late to teach him a lesson then!"

in lin yi's eyes, mei gancai might be a bit older than him, but his actions and strength made him seem like an insensible brat. killing him would be bullying, and beating him up would be enough.

Daniya was a little disappointed and said,""Alright, consider this brat lucky. He's still alive today!"

"Why did you insult a dog?"

"Right, I should say sorry to the dog. After all, the dog is so cute. It's so unfair to compare it with that kid!"

The two of them laughed and chatted as they passed by the Tianji Mei mansion's people. They sped up and flew into the distance, leaving behind the battered and exhausted Mei mansion's Warriors.

Mei Tianfeng's face was filled with shock. He was considered the most decent person, but his clothes and armor were a little messy. He did not suffer any injuries, while the others were more or less slightly injured.

Mei gancai was the most miserable. He had been beaten beyond recognition and had become a swollen pig's head. There were many footprints on his clothes, making him look extremely miserable.

Fortunately, these were all superficial wounds and there were no side effects. He could recover quickly after taking a healing pill!

"Damn bastard! I'm going to kill them!"

The swelling on Mei gancai's face quickly subsided, and his eyes were wide open. Lin Yi's words had clearly triggered his anger!

Especially the last joke between Lin Yi and Daniya, he purposely let the others hear it. The young master of the Tianji Mei house was less than a dog in Lin Yi's eyes.

It hurt his self-esteem!

No matter what, this young master is still stronger than a dog, right? Bah! This adulterous couple was worse than a dog!

"Uncle Tianfeng, send out the signal immediately and gather all our men. I'm going to kill that B * stard couple! If I don't kill them, I'm not a human!"

Mei gancai was considered a genius disciple in the Tianji Mei mansion. She had received attention from all sides since she was young. She had never suffered such a loss, so she didn't care about it anymore.

Mei Tianfeng sighed and patted Mei gancai's shoulder. "Don't be rash! Both of them are very strong. The star Ink River hasn't appeared yet. If we fight with such experts now, we will only end up with both sides suffering!"

"Our Tian Ji Mei mansion's only goal this time is the star Ink River. Nothing else is important. As long as we obtain the star Ink River, how many experts will be born in the family?"

"At that time, even if they really have the so-called thirty-six Big Dipper stars, it won't be a big deal, let alone just two people. Our Mei mansion has enough power to kill them all!"

"For now, I'll just have to be patient! At least they didn't try to kill us. Judging from the strength and means they just showed, it wouldn't be difficult for them to kill us if they wanted to. They could easily kill us all here!"

Mei Tianfeng was someone who knew his stuff. Lin Yi's movement formation was comparable to a normal territory, and with Daniya's explosive power, killing them was really just a piece of cake.

In the end, none of them died. Naturally, the other party had shown mercy!

Chapter 9035

"Uncle Tianfeng, what should we do now? Should he continue to follow them? We can't just watch them leave, can we?"

Mei gancai's eyes were filled with unwillingness. He had always had a smooth-sailing life since he was born. At such a young age, he already had the strength of the middle stage of the shattered Sea realm. He could be considered a rather amazing talent among his peers.

On the surface, he didn't look any different from a normal rich kid, but he'd never slacked off on the path of martial arts. Now that he was being pushed to the ground by Lin Yi and Daniya, he couldn't accept the pride in his heart!

If it was someone who had been famous for a long time, like Mei Tianfeng, he would've lost and not care about his pride. But Lin Yi and Daniya were younger than him, so he couldn't accept this kind of defeat!

"Follow them from a distance and don't get discovered! We'll wait for them to find the Black Star River before we take action to snatch it!"

Mei Tianfeng thought for a moment and made a decision. "Gather all our men and deal with any possible situation! At the same time, send someone to investigate their background. I've never heard of the thirty-six dippers before ... If they really exist, we must take them seriously!"

"Also, find a way to secretly spread the whereabouts of the two of them. Don't let others know that it was us who sent the message. Now, those people who are jealous of the six-point star source instrument have most likely been shaken off by the two of them. As long as they get news of the two of them, they will definitely chase after them at the first moment!"

Mei Tianfeng made his arrangements in an orderly manner. On the surface, Mei gancai was the leader of this operation, but in reality, Mei Tianfeng was the one in charge of everything. As long as he gave the order, Mei gancai would not object.

"i understand! uncle tianfeng wanted to sit back and watch the tigers fight, right? let those people find trouble with them, and then we'll hide in the dark and observe. no matter who's unlucky, it's a good thing for us!"

mei gancai's eyes brightened as he clapped his hands and smiled. "it'll be even better if both sides suffer losses. we'll directly come out to clean up the mess and control everything. at that time, even if they want to beg for mercy, it'll depend on our mood!"

"that's right! although the plan is a little crude, it's an open conspiracy. those who want the six-point star source instrument must find trouble with those two people even if they know something is wrong!"

"this way, our chances of winning will be much higher!" mei tianfeng smiled and nodded. if we can take over the entire star ink river, the tian ji mei mansion will become the most prominent family on the entire continent!"

although the tianji mei mansion was already very famous and was one of the top noble families in the tianji continent, mei tianfeng was clearly not satisfied with just that. he wanted to go one step further.

if the mei clan was considered one of the top thirty great clans in the entire continent, then he and the mei clan's power-holders hoped that after obtaining the star ink river, they would be able to rise to the top three. they might even be able to rank at the top!

this wasn't just a single continent, but the entire continent of heavenly secrets!

in order to achieve this goal, the tianji mei mansion was determined to obtain the star ink river!

"Good! Then I'll immediately pass down the order!"

Mei gancai was very straightforward and didn't drag things out. He immediately used the unique method of the Mei mansion to send out the order. Then, he laughed and said, "Those two B * stars will regret not killing me today! I'll make them kneel at my feet and beg for mercy!"

Mei Tianfeng opened his mouth to speak, but in the end, he did not.

The outstanding disciple in front of him had never suffered any major setbacks before, but it seemed like he had been struck hard this time!

However, this wasn't a bad thing. It wasn't necessarily a good thing for a person to always be in a favorable situation. If they were struck by a major event that concerned the survival of the family and lost their composure, that would be the most terrible thing!

This could be considered as a form of training, which would be beneficial for Mei gancai's future growth. As the saying goes, the fragrance of plum blossoms comes from the bitter cold, and the sharp edge of a sword comes from the grinding!

Mei Tianfeng began to look forward to Mei gancai's progress and growth after the incident at the Dark Star River. He hoped that she would be able to shoulder the heavy burden of the family in the future!

On the other side, Lin Yi and Daniya finally got rid of everyone. There was no one following them within the range of their spirit sense, and they'd checked their bodies carefully. Whether it was the marks left by tools or spirit sense, they were all gone.

Lin Yi didn't think much of the Tianji Mei house's ambush earlier, thinking that it was just a coincidence. He didn't think that the Tianji Mei house would be able to find him without his whereabouts being exposed or any markers.

The two of them flew for more than 20 minutes and were far away from the imperial capital. They were now deep in the mountains and forests.

With the help of the map, Lin Yi found a Hidden Valley and stopped.

"Daniya, I'll be here studying the Jade talisman of the ancient heavenly cycle stellar domain and the six-part star source instrument. In the meantime, can you return to the Tianji Empire's capital to help me gather information?"

Lin Yi looked around and was satisfied with the environment. He turned to Daniya, "Do you still remember that clairaudient? I entrusted him to inquire about my parents' news, but I left in a hurry and forgot to ask him if there was any progress."

"While I'm researching, you'll have to work hard. Go back to the imperial capital and find clairaudient. Ask him if he has any news about my parents. If he has, we'll find them as soon as possible!"

This time, the most important thing for Lin Yi was to save Sima Yunqi and his wife. After that, he had to remove the star power from his body, search for treasures, fight for the star Ink River, and so on. All of these had to be placed at the back.

Daniya nodded. "It's not a problem to go back to the capital. It's not hard. It's just that I'm leaving you alone. Will you be okay?" If an enemy comes, you're not in a good condition to fight!"

Lin Yi's strength level was still there, but due to the restriction of the star power, he could only exert strength between the peak of earth split realm and early stage of sea split realm. If he were forced to use his true strength, the backlash of the star power would be quite troublesome.

Daniya was worried because she knew this as well. After all, the Tianji Empire was filled with the best fighters of the continent, and most of them were at the heaven breaking and sea splitting stages. It was enough to force Lin Yi to use his real strength.

"Don't worry, it'll be fine! I'll set up a formation here. Even a cultivator at the heaven breaking stage might not be able to break the formation I set up easily, let alone a cultivator at the sea splitting stage!"

Lin Yi smiled and shook his head, "plus, I still have the ancient stellar realm jade talisman. If someone can break my formation, they'll have to face the attack of the ancient stellar realm and the movement formation around me. I don't have to do it myself."

Chapter 9036

"you can rest assured. it won't take too much time to go back and forth to the imperial capital. it won't be easy for our pursuers to find and discover this place in such a short time."

as he spoke, lin yi started to wave the array flags and set up all sorts of stacking formations. with lin yi's attainments in the array dao, he could put a concealment formation in the stacking formations and normal array masters wouldn't be able to see through it.

even if someone found this hidden valley with a geographical map, it would be impossible to see anything different in the valley.

daniya thought for a moment and then nodded with a smile. ""you're right, i'm really bored and i'm actually worried about you! alright, i'll go back to the imperial capital and find clairaudient to understand the situation. you be careful!"

with that, she waved her hand and turned to fly out of the valley, taking the map with her as she was afraid she'd get lost and lose lin yi ...

"you should be careful too. don't cause any trouble on the way. pay attention to your disguise and don't expose your identity!"

daniya disappeared into the forest before lin yi could finish his sentence. lin yi didn't know what to do- was it really okay to let her out just like that?

would he die?

of course, the one who would die would not be daniya, but the people who had met her ...

he didn't have time to think about that. lin yi shook his head and continued setting up the formation. soon, the layering formation was completed and lin yi disappeared into the formation. the valley returned to its original state, without any abnormalities.

even if someone were to enter the valley and search back and forth, they wouldn't be able to see lin yi even if they passed by him. once the formation was activated, they'd be blown into pieces!

with the formation's protection and concealment, lin yi took out the ancient stellar realm jade talisman and activated it without hesitation, releasing the ancient stellar realm, but the range was limited to a five-meter radius around him.

other people bought these jade talismans for combat, attack, or defense, but only lin yi used it to study the power of the stars. he didn't want to use it on an enemy, since he had to split his attention to study it in battle.

it was more efficient to focus on one thing than to be distracted.

lin yi sat cross-legged on the ground. when he opened his star field, the ground disappeared. it was as if he was sitting in the starry sky, and it was a strange comfort.

the stellar field was filled with dense stellar energy, gently wrapping around lin yi. it was completely different from the violent attitude it had the last two times they met.

lin yi's first attempt was to draw the stellar energy from the stellar field into his body, trying to use the new stellar energy to merge with the original and expel it out of his body.

he didn't expect the new star energy to enter his body so smoothly, greatly increasing all aspects of lin yi's strength. however, it couldn't merge with the previous star energy-it was like water and oil, and even if they mixed together, they didn't affect each other.

the first attempt failed!

lin yi didn't mind-he didn't expect things to go so smoothly, and failure was within his expectations.

next up was his second attempt. he would use the new star power to attack the old star power that was entangled with him. both sides had the same power, so it should be effective, right?

the facts proved that things were not that simple!

the powers that came from the same source did not clash. when the two met, although they could not merge, there was no rejection. thus, the plan to use poison to attack poison had failed once again.

with that, lin yi could only give up on the idea of a simple success and start focusing on the origin of the star power. as long as he could understand it thoroughly, it wouldn't be a problem to solve the problem of the star power in his body and soul.

the power of the stars was not something that could be easily analyzed. furthermore, the jade talisman was only a simplified version of the ancient heavenly cycle stellar domain. although the source of the power was the same, it was much more difficult to analyze it completely after the simplification.

so lin yi activated the ancient stellar field continuously, using up all three chances, and only found a tiny clue in the end-it was far from a success.

it was like a 10000-piece puzzle. only five or six pieces that seemed to be related were found, but the five or six pieces had not been put together yet.

well, the effect was a little despairing!

lin yi had thought of copying the sky array sect's formation, using it to simulate the ancient star field. the power of the stars was much stronger than the jade talisman 's.

it was a pity that the formation could be copied, but not the ancient star realm. there was something lin yi didn't know-he couldn't activate the ancient star realm just by copying the positions of the nodes.

as the three uses of the jade talisman were exhausted, it turned into dust and dissipated. the ancient stellar heavenly cycle domain also returned to nothingness after time was up.

Lin Yi sighed and took out the six-part star source instrument, ready to study this treasure that he'd spent almost all his fortune on. He wanted to see how he could use it to find the star Ink River.

Lin Yi's expression changed as he put the device back into the Jade space before he even had time to check it out.

In this Hidden Valley, there were actually hundreds of powerful warriors. Most of them were above the heaven breaking stage, and a small half of them were above the late-stage sea Rift realm and below the heaven breaking stage.

It was obvious that these people were here for Lin Yi. Lin Yi had been studying the power of the stars in the ancient star field, so he didn't notice anyone entering the valley.

Looking at how they were searching carefully, it was clear that they were not passing by the valley by chance. They had a clear goal and knew that he was definitely hiding in the valley!

How did they do it?

Lin Yi was suspicious-he'd clearly gotten rid of them all! Moreover, there were no marks on their bodies that could be traced, so why did these people chase them into the valley with such a clear goal?

As for Daniya, who was going back to the capital, Lin Yi wasn't too worried. The Masters from the Tianji continent didn't just come from the valley. There were many more who hadn't appeared yet, probably going after Daniya.

But with Daniya's strength, even if he couldn't win, he could still break out and escape. Lin Yi didn't need to worry about that. He should be thinking about how to escape from the valley.

Lin Yi's formations were naturally wondrous, and under normal circumstances, even a formation master wouldn't be able to notice anything.

However, no matter how profound the formation was, it couldn't withstand the search of so many experts of the sea splitting stage and the heaven breaking stage! Lin Yi didn't really pay much attention to it when he set up the formation, so it was inevitable that he would leave some small traces and flaws.

As expected, all the bad things that he thought would happen would eventually happen!

Chapter 9037

Lin Yi was just thinking that the formation might be discovered, and it really was!

"There are traces of a concealment formation here! Sure enough, the news is correct. The kid with the six-point star source instrument is hiding in this Valley!"

Someone shouted loudly, immediately attracting everyone's attention. These several hundred experts obviously did not come from a single force, and even belonged to dozens or hundreds of different forces.

However, after hearing that they had discovered something, there was no chaos among them. Each of them occupied an advantageous terrain and set up a tight defense in the valley.

There was no doubt that they'd come to a temporary Alliance after the failed pursuit. They'd probably kill Lin Yi first and get the device back, then decide how to split it.

"What a profound formation! The person who set up this array was at least an array master! Everyone, let's attack this place together! Using brute force to break the formation! Otherwise, I don't know how much time I'll have to waste to break the formation!"

There was no lack of grandmasters in the crowd, and after discovering Lin Yi's formation, they found the best way to break it.

Break it with force!

In any case, he couldn't do anything about technique, so he could only use strength to open up a path!

if there were only three to five heaven breaking masters, lin yi's formation would be able to kill them all, but with hundreds of masters working together, even the ancient star field in the jade talisman would be destroyed! let alone this random stacking formation!

lin yi couldn't help but sigh as he rubbed his eyebrows.

what else could he do in this situation?

the formation definitely couldn't withstand the combined power of so many people, so it was better to escape!

hundreds of heaven breaking and sea shattering attacks came down at the same time. the effect of the invisibility formation instantly disappeared. the light of the defensive formation circulated, but it could only resist for less than two seconds before it shattered like glass.

the remaining killing and trapping arrays were of no use at all. under the torrent-like attacks, they were easily destroyed without any resistance!

lin yi's formation was strong, but there were too many people attacking this time, and they were all top-tier masters of the tianji continent. they couldn't stop it, but they had no choice!

the moment the formation was broken, lin yi turned into a shadow and swam through the gaps between the attacks like a fish, trying to break out of the encirclement with the speed of his super butterfly microstep.

with the help of the complicated terrain of the mountains and jungles, he might be able to shake off the pursuers again.

"Where are you running to? You'd better obediently surrender!"

The martial artist who first discovered Lin Yi shouted and immediately blocked him. The other martial artists reacted quickly as well and surrounded Lin Yi, trying to stop him.

All they wanted was the six point star source instrument, and Lin Yi's life wasn't on their watch list. They didn't show any mercy and just wanted to kill Lin Yi.

Continuous explosions rang out around Lin Yi. He pushed his super butterfly microstep to its limit, even slightly activating the star energy in his body to ensure that he didn't get hurt under the attacks.

However, as the surrounding practitioners focused their attention on Lin Yi, their attacks became more and more concentrated, and they started to seal off any space that Lin Yi could Dodge to. Naturally, Lin Yi's situation became more and more dangerous.

"Stop struggling! No matter how much you struggle, it will only increase your pain. Hand over the six star source instrument and I can spare your life!"

The martial artists on the outside who couldn't even attack started to shout loudly, trying to influence Lin Yi with words. Although Lin Yi was surrounded and looked like he was going to die, they were willing to do anything to make sure they got the six point star source instrument!

If Lin Yi really handed over the six point star source instrument, even the person who spoke couldn't guarantee that Lin Yi would be able to keep his life!

He'd promised to spare Lin Yi's life, and the others didn't say anything. They were all from dozens or even hundreds of different forces, so who could make the decisions for who?

Lin Yi turned a deaf ear to these disturbing words. Faced with countless attacks from heaven breaking and sea shattering realms, the Jade space didn't alert him anymore. It was afraid of disturbing Lin Yi and kept quiet.

"Good! If you want the six-point star source instrument, then take it!"

Seeing that all the escape routes had been sealed, Lin Yi was truly enraged. Since they wanted the six-point star source instrument, then none of them would get it!

The moment he took out the six point star source instrument, Lin Yi used it as a shield and faced the strongest attack without hesitation.

The Warriors were shocked. The six-part star source instrument was their main target. Even those who had not participated in the auction had their companions who had described the appearance of the six-part star source instrument in detail.

Each of their attacks alone were enough to destroy a mountain, let alone the combined attacks of so many people. The six-part star source instrument was not a top-grade shield. It was impossible to block their attacks. Even if it only grazed the side, it would be enough to completely destroy it!

In a hurry, these martial artists could only barely change the direction of their attacks. However, there were other martial artists launching attacks around them, and the overly concentrated attacks formed a huge obstacle at this time.

Lin Yi was just one person, and everyone else was his enemy, so he didn't have to worry about anything. On the other hand, the other side was all his own people. This sudden change caused the attacks of dozens of martial artists to collide, forming a strange explosion.

During this process, Lin Yi's six-point star source instrument was inevitably affected and turned into ashes. Lin Yi took advantage of the chaos and found an opening to flash into the enemy's formation.

"I took out the six-point star source instrument, but you guys destroyed it! You guys can discuss what to do next! Forgive me for not accompanying you any longer!"

Lin Yi had a mocking smile on his face as his body flashed through the crowd like a flash of light and shadow, quickly breaking out of the encirclement!

Seeing that the six-point star source instrument had been destroyed, the short-term Alliance of hundreds of people suddenly fell apart. Their common goal was gone, and there was no unified plan for what to do next.

"Kill that kid! No matter what, I can't let him leave today! Otherwise, none of the people who had participated in the attack today would have a good life! You don't want to be targeted by such a young enemy every day, do you? Don't forget that he still has an even more terrifying companion who isn't here!"

Someone in the crowd shouted, and the chaos really did stop. A lot of practitioners subconsciously followed his advice and turned around to attack Lin Yi.

As for whether or not he would accidentally hurt others, he didn't care. Anyway, they weren't friends. If he accidentally hurt someone, it was because he wasn't good at learning. He deserved it!

Chapter 9038

All sorts of attacks gathered around Lin Yi, and the people who got hurt by accident started yelling and cursing, turning back to the people who hurt them. The chaos that had just settled down erupted again.

At this time, many people were thinking that it wouldn't be a loss to take advantage of this opportunity to kill a few experts that they couldn't deal with. After all, everyone's target was the star Ink River. If they killed a few of them now, they would have fewer opponents and threats when they fought for the star Ink River. It wouldn't be a loss!

Lin Yi's death wasn't that important anymore! Even if Lin Yi and Daniya wanted to take revenge, there were so many people and so many forces, they didn't know when it would be their turn!

It's over!

The valley was filled with the sounds of killing, and Lin Yi's pressure was a lot lighter, but it wasn't as if no one was chasing him. Most of the cultivators were in a chaotic battle, but there were still about 30 to 40 heaven breaking cultivators chasing Lin Yi. It seemed like they wouldn't stop until they killed him!

Lin Yi was surrounded by these people, and he couldn't get rid of them for a while. He was getting more and more irritated-it was impossible to deal with so many masters at the same time with the strength of complete earth creation realm.

In order to save his life, Lin Yi had no choice but to use more of his true strength. The star energy in his body started to stir, starting to cause trouble.

If this continued, Lin Yi wouldn't even need these martial artists to kill him. If the star energy in his body could successfully rebel, then he'd really be done for!

"Get lost!"

Lin Yi roared and exploded with all his strength. With the demonic sword in his hand, he drew out a black light and directly beheaded the three early heaven breaking Masters in front of him!

Lin Yi, who had been using mid-tier and late-tier sea-shattering powers, suddenly exploded with mid-tier heaven breaking power. The thirty-odd men were all stunned and shocked.

In such a bad situation, this kid was still hiding his strength? What a terrifying opponent!

Especially the elegance of that sword, it was indescribable and could be said to be breathtaking!

Such a terrifying opponent would be a nightmare for all of them once he fully matured! He had to be killed!

The martial artists surrounding Lin Yi were stunned for a moment, but they were even more determined to kill Lin Yi. They all shouted and killed Lin Yi without holding back.

Lin Yi was seeing stars. After using all his strength for the sword attack, the star energy took the opportunity to burst out, wreaking havoc in Lin Yi's body.

After that one strike, Lin Yi couldn't use his full strength even if he wanted to. The influence of the star power was too great, and his combat ability plummeted. If he couldn't break out of the encirclement immediately, he would die!

Lin Yi had no choice but to grit his teeth and endure it. He continued to use his full strength to send out another burst of soul shock, enveloping the surrounding martial artists and causing them to stop their attacks temporarily and enter a brief period of dizziness.

If Lin Yi was in his best condition, he could grab the chance and kill ten or twenty of them without a problem. However, after the first strike, he forced himself to use his full strength to burst out his consciousness. Lin Yi was about to collapse, how could he have the energy to harvest their heads?

In a flash, Lin Yi broke through the encirclement and left the valley, disappearing into the forest. The martial artists who woke up were a little confused and wanted to continue chasing Lin Yi, but they were afraid of being affected by the shock again.

In that defenseless state, it was too easy to be killed. No one was willing to take such a risk, unless there was someone else leading the pursuit, and they followed to take advantage of it!

The unorganized mob reappeared-no one wanted to trade their lives for someone else's benefit, and so they all watched as Lin Yi disappeared into the forest. No one stepped out to chase after him!

And the many cultivators who were caught in the chaotic battle actually did not really fight until they bled. After their first attack failed, most of them began to have the idea of restraint.

After all, there were still powerhouses from other forces around. If the sneak attack failed and they continued to fight, it would only benefit others for no reason!

It didn't matter how the storm was resolved in the end, and Lin Yi didn't care about their lives. What he needed to do now was to suppress the star power's dual effects on his body and spirit!

After ten minutes of running, Lin Yi could feel that he had reached his limit. If he continued, he wouldn't be an arrow at the end of its flight anymore, but a lamp without oil!

Fortunately, there were no martial artists chasing after them. Otherwise, they would be in big trouble!

He barely managed to find a hidden place, and he didn't even have time to set up a formation. He threw out a stealth formation disk and activated it. He immediately sat down cross-legged and began to suppress the star energy that was wreaking havoc in his body!

If more pursuers came, Lin Yi wouldn't be able to defend himself in his current state. The invisibility formation disk wasn't enough to guarantee that it could hide him, but Lin Yi had no choice but to take the risk and heal himself. Otherwise, there wouldn't even be a need for people to chase after him-the power of the stars could kill him.

Time passed, and Lin Yi sat quietly on the ground, suppressing the star power in his body and spirit. There was a slight pain on his face from time to time.

After a whole eight hours, the sun rose and the moon set, Lin Yi finally opened his eyes the next afternoon.

Letting out a long breath, Lin Yi's brows furrowed, his heart heavy.

Yesterday's battle was short, but it still gave the star power an opportunity. Fortunately, Lin Yi's research on the star power wasn't all in vain, and he had some ideas, which saved him from the danger after the star power exploded.

However, after suppressing the star power, the level of strength Lin Yi could use safely dropped again. Before, he could still use the strength between the peak of earth-opening realm and early stage of sea-shattering realm, but now, he could no longer use strength above the peak of mid-stage earth-opening realm!

His opponents were the heroes of the entire heavenly secret continent. Even those at the sea Rift stage were considered mediocre, but he couldn't even use the combat strength of a sea Rift stage cultivator. He felt really helpless when he thought about it!

Lin Yi shook his head slightly and put away the invisibility formation disk. He was super lucky that no one came after him for eighteen hours. If any earth opening lackeys found him, they'd probably be able to kill him too.

This place wasn't too far from the valley he was hiding in yesterday-Lin Yi only ran for ten minutes before he couldn't hold on any longer and started healing. If those martial artists really wanted to track him down, they would've found him.

It seemed that after the six-part star source instrument was destroyed, they had also given up on tracking him. It was really a great fortune in misfortune!

Lin Yi identified the direction and sneaked back to the valley where he met up with Daniya yesterday. He had to go back no matter what.

The valley was already empty, leaving behind only the aftermath of the battle. Lin Yi used his spirit sense to scan the entire Valley, but he didn't find any traces of Daniya.

He didn't know if she didn't come back, or if she came back and found something wrong, so she left the valley to look for him. There were too many traces in the valley, and Lin Yi couldn't tell. He could only choose to wait in the valley.

Chapter 9039

Another day passed and Daniya still didn't appear!

Lin Yi waited for the sun to rise before turning around and leaving the valley, flying towards the Tianji Empire's capital.

Regardless of Daniya's condition, he should be able to find some clues in the imperial capital. At the very least, he could purchase information from clairaudient and learn more about the situation.

It was a calm journey, and Lin Yi was very careful. He didn't run into any of the Masters from the different forces, and he returned to the imperial capital without any trouble.

To Lin Yi's surprise, even the clairaudient and the others were gone, let alone Daniya. It was as if all the media outlets in the Imperial City had left. Lin Yi couldn't find anyone to buy the news from.

With no other choice, Lin Yi found a popular teahouse and sat in the corner, listening to other people's conversations and gathering some clues.

"... The Tianying star and tianhuishi star who won the six-point star source instrument were later separated after being chased by many powerhouses. The Tianying star was besieged by hundreds of heaven breaking and sea splitting stage experts in a Valley in the mountain range. In the end, he broke out of the siege and escaped. I wonder if he died after that?"

"He should still be alive, but I haven't heard any news from Tianying planet for the past two days. Even if he's alive, he should be seriously injured and hiding in some secret place to recuperate, right? It's a pity that the 400 million star source instrument was said to have been completely destroyed in the battle, with not even a scrap left!"

"Do you guys think that the Tianying planet will come out for revenge? Although those who participated in the siege were all powerhouses from all sides, the strength of the Tianying planet is also terrifyingly tyrannical. They were able to break out of the siege of hundreds of experts. If they recover from their injuries and secretly attack those powerhouses, who can withstand this?"

The most talked about in the teahouse was Lin Yi's battle in the valley, and they didn't know how the news got back, but these weak people in the imperial capital were talking about it as if they saw it with their own eyes!

Lin Yi paid more attention, hoping to hear some interesting news.

The topic of those people's conversations still revolved around this. After all, this was a major event that could be said to cause a sensation in the entire continent of heavenly secrets. The auction of the six-point star source instrument in the imperial capital was also the location of the incident and the fuse that ignited it. It was also a super hot topic recently.

Wherever you go, it's fine. If you don't talk about this, you'll feel like you're being excluded!

This was especially true in places like restaurants and taverns, where people would talk about this topic at least two out of three times. Lin Yi didn't even need to eavesdrop.

"We will definitely seek revenge! Not to mention the Tianying planet's own strength, he has the ability to break out of the siege of hundreds of super powerhouses, so why would he be afraid?"

"Besides, aren't they known as the so-called thirty-six heavenly stars? It seems that planet Tianying has more than 30 companions of similar strength. With such a powerful force, no matter which force they seek revenge on, they will probably be defeated!"

"I know. They are known as the strongest thirty-six heavenly generals in the primeval era. Although this nickname is a little long and smelly, and it also sounds like they are praising themselves, it is undeniable that they are really strong!"

"That's right, that's right. Let's not talk about the Tianying planet for now. Let's talk about the Tianhui planet. She looks like a delicate little girl, but her strength is shocking. She's especially ruthless and kills people without blinking!"

"She killed dozens of people who surrounded her! They weren't just any Tom, Dick, or Harry. They were all the weakest experts at the sea splitting stage! In front of the heavenly comet, they were like dried weeds and rotten wood. None of them could even fight back. "

lin yi's ears twitched. he was excited-he finally heard news about daniya! it seemed that when she returned to the imperial capital, she was also besieged by those experts!

but with daniya's strength, there was no problem in breaking through. the problem was, where did she go after breaking through? why didn't he return to the valley to meet up with me? or did daniya actually return to the valley but didn't meet him, so she left to look for him?

lin yi's questions were answered very quickly.

"unfortunately, in the end, two fists can't beat four hands! the heavenly comet was indeed powerful for a time. however, the number of experts surrounding her was endless. no matter how strong she was, she could not fight for long and could only escape in the end!"

"what do you mean by fleeing? the heavenly comet is retreating strategically. they clearly know that there are more people, but they still stubbornly resist. to be able to kill dozens of people and retreat with ease, she is a true first class expert!"

"yes, yes, yes. tianhui meteors are experts. it's a pity that she has killed too many people. many experts from different forces are not willing to let her go. they are all chasing after her. i wonder if she is still alive ..."

lin yi understood now-daniya had provoked the public and was being hunted down!

she didn't have the six point star source instrument, so she wouldn't be a target in the first place. after lin yi's news came, he would probably stop hunting her.

however, daniya was ruthless and killed dozens of masters from all sides, leading to the relentless pursuit. she was not like lin yi, who publicly destroyed the six point star source instrument and used his spirit sense vibration to scare people away, thus avoiding the pursuit.

now that he thought about it, perhaps daniya really didn't go back to the valley. she knew that there were people after her, and bringing her to the valley would only cause trouble for lin yi. the further away she was from the valley, the safer lin yi would be.

at that time, daniya probably didn't know that the valley lin yi was in was also under siege. if she knew, she would probably rush to the valley to save lin yi.

Lin Yi got a general idea of where Daniya went after the conversation, and he didn't need to listen to the rest of the unreliable guesses.

After leaving the teahouse, Lin Yi headed straight for the imperial capital's gates. He didn't have time to bother with the missing reporters!

The most important thing now was to find Daniya first. After the two of them met up, they would go and find the star Ink River!

It wasn't that Lin Yi wanted Daniya to be his bodyguard, but he was worried that without him around, Daniya's wild nature would act up and she would kill too many people. If the dark Demon beasts were to do something in the continent, and too many of the top-class Masters of the continent were killed or injured, the entire continent could fall!

Lin Yi wouldn't go easy on those who should be killed-he'd leave those that he didn't have to kill for now, in case the dark Demon beast clan benefited for nothing.

After leaving the imperial capital, Lin Yi identified the direction and followed the direction that he heard Daniya was breaking out from. It had been two days, and he didn't know where she was. He hoped that he could find some traces along the way!

After running like lightning for half a day, Lin Yi stood at the peak of a small mountain and looked around. There were many traces of battle around, and it was quite intense. It was clear that there were many people involved in the battle, and they were all quite strong.

If he didn't guess wrong, Daniya and the people who were chasing after her had fought here. Perhaps Daniya was a little impatient from being chased, so she hid here and killed them.

Chapter 9040 The Power Of The Devil

There were many bloodstains on the ground, most likely from the fighters Daniya had killed. There were no corpses though, and if there were, they would've been taken care of by the forces they belonged to. Lin Yi had no way of knowing how many people were killed or injured.

The only thing he could be sure of was that Daniya hadn't been killed and had once again broken out of the encirclement after the battle.

Lin Yi was about to follow the trail when his spirit sense caught a young woman hanging on a tree in the distance. She seemed to be unconscious.

Lin Yi was heading in that direction, so he decided to take a look.

"Help! Help me!"

Lin Yi had just gotten close when the unconscious woman seemed to have woken up. She started struggling for help, but the rope around her seemed to be special. The more she struggled, the tighter it got. The woman was a martial artist, but she couldn't break free.

"Young master, save me! Young master, save me!"

The young woman's face was full of fear, but when she saw Lin Yi approaching, she immediately revealed a happy expression. She cried for help and kept twisting her body to get Lin Yi's attention.

Her clothes were torn and tattered, and her figure was excellent. As she twisted and struggled, she would occasionally reveal her snow-white skin, which added a bit of temptation.

Lin Yi turned a blind eye to it and only nodded, "Don't panic, lady. I'll put you down!"

After saying that, he took out an ordinary short knife, walked to the tree, and jumped lightly. He waved the knife and Cut the Rope. Although the rope was specially made, it could not block the sharp blade of the short knife. The Hanging Woman let out a soft cry and fell straight down.

Lin Yi reached out his hand to stop the young woman from falling. Since he saved her, he might as well be a good person to the end. Watching her fall to the ground seemed a little heartless.

But the young woman didn't even have the strength to steady herself, and she fell into Lin Yi's arms with a slight pull.

Lin Yi pushed the girl away and steadied her. "Young lady, be careful! There's a pill here, you might as well take it to recuperate. "

The young woman didn't have any serious injuries, only looking a little weak. Lin Yi only took out the lowest level recover pill he had.

It wasn't just Lin Yi who couldn't use such a low-quality recover pill, the people around him didn't need it either. It wasn't easy to find one, and who knew how long it had been there, thrown in a corner and never seeing the light of day.

It wasn't that Lin Yi was stingy and didn't want to give up the high-level great recovery pill, but the young girl really didn't need it. Besides, Lin Yi felt that something was wrong after saving her.

At Lin Yi's current level, his senses were extremely sharp. If he felt something was wrong, then there must be something wrong. Plus, he was in a bad condition right now, so he had to be more careful.

He'd revealed his face at the auction, and so he'd changed it a little when he'd been in the capital. He looked like an ordinary young man now, and it made sense for him to take out a low-tier recover pill like this.

The young woman seemed a little disappointed that she didn't fall into Lin Yi's arms. She pretended to be weak and tried again, but gave up after Lin Yi held her.

She looked at the low-level recover pill in Lin Yi's hand and a slight disdain flashed in her eyes, which quickly turned into joy. If Lin Yi wasn't paying attention to her every move, he would've missed it.

"Many thanks, young master! I'm indebted to young master for saving my life and even gifting me a pill. I, Qin wunian, can't thank you enough!"

The young lady, Qin wunian, bowed in thanks and accepted the pill from Lin Yi's hands graciously. She raised her head and swallowed it. "This time, it's all thanks to young master. Otherwise, this little girl would have lost her life here. Once again, I thank young master!"

lin yi waved his hand indifferently, "lady qin, you don't have to be so polite. it's just a small matter!" anyone who sees this situation will help. it's no big deal!"

"young master is truly unparalleled in his benevolence and righteousness! you've saved this little girl's life with the ease of lifting a finger! no matter what, i have to sincerely thank young master for his help!"

qin wunian exchanged a few more pleasantries before changing the topic. "I have yet to ask for young master's name. If there's a chance in the future, qin wunian will definitely repay young master!"

"It's just a small matter, there's no need to repay me! I'm Sima Zhong da. Miss Qin can directly call me by my name!"

Lin Yi felt that Qin wunian had an ulterior motive, so he didn't leave immediately. He continued to feign civility. "How does lady Qin feel now? If there's nothing serious, I'll take my leave first!"

Retreating to advance!

If Qin wunian didn't have any other thoughts, he would naturally let Lin Yi leave, but if he did, he wouldn't just let it go!

As expected, the moment Lin Yi said he was leaving, Qin wunian immediately said, "Young master Sima, I'm still a little weak. Although young master's pill is very effective, I still need some time to recover. I wonder if young master Sima can stay a little longer?"

In fact, she was cursing Lin Yi for being a blockhead-shouldn't he be asking her why she was hanging on a tree? This was the only way to start a conversation!

What did he mean by leaving immediately? I'm not pretty enough? Is it good that she doesn't have a figure? Why didn't he look attractive at all?

"I'm sorry, but this one still has matters to attend to. If young lady is fine, you can rest here for a while and recover."

Lin Yi still wanted to leave, but what was Qin Wunian up to?

Qin Wunian gritted his teeth inwardly, but he still put on a bright smile. "Forgive me for being presumptuous, but may I ask where young master Sima is going?"

Lin Yi's direction was clear, but Qin Wunian wouldn't say it himself. He wanted Lin Yi to say it, in case Lin Yi denied it and things would change.

"I'm going to Luori City! The distance is a little far, so it's inconvenient to delay. Lady Qin, be careful. Goodbye!"

Lin Yi didn't have a map with him anymore, but he had memorized the general location and terrain. Luori City was the city they were heading to, and it was still seven or eight days away.

These seven or eight days were calculated based on the strength and speed of an initial stage martial artist. Lin Yi was now disguised as an initial stage martial artist, so it wasn't too strange to say that Luori City was a little far.

"That's great! I'm going to Moonshine City, and I'm going the same way as young master Sima! Can I ask young master Sima to bring me along so that I can look out for each other on the way?"

Qin wunian was overjoyed. Moonshine city was in the same direction as luori city, but moonshine city was further away and they had to pass by luori city.

She was looking for an excuse to travel with Lin Yi!
