

Bodyguard 9041

Chapter 9041 The End

Lin Yi was a little confused-what was she trying to do? Did he see through my identity? It shouldn't be, right?

Qin wunian's strength was only at the consummate level of the mountain split realm. If she had really seen through his identity, would she dare to deal with him?

According to the rumors, Lin Yi was from the Tianying planet. He was someone who could easily break out of the encirclement of hundreds of heaven breaking and sea splitting Masters. A mere peak of mountain splitting realm coming to scheme against such a master? was he courting death?

"Ah, I was wrong. I'm actually going to morning sun City. After leaving this forest, I'll have to turn in that direction. We're not going the same way. Lady Qin, you should go to moonshine city by yourself!"

Lin Yi pointed in another direction with a serious face. Sunrise City and luori city were two completely different directions. They were in opposite directions.

Qin wunian's smile froze. Are you F * cking toying with me? Could Sunrise City and Sunset City be wrong? It was one word short! It seemed to make sense ...

Sigh ... He didn't know if he should say it out loud!

Qin wunian was a little embarrassed. He wanted to use the excuse of saying something wrong as an excuse, but this was a little too stiff!

"Haha ... So it turns out that young master Sima wants to go to morning sun City. Then we really don't go the same way, it's such a pity! I thought that young master Sima was also heading towards luori city to watch the show. I've misunderstood. "

Qin wunian's mind raced. Although he was trying to stall for time, he was thinking of a way to salvage the situation.

Lin Yi pretended to be surprised, "for fun?" What's there to see?"

"Does young master Sima not know? I heard that one of the 36 heavenly stars who caused a huge commotion in the imperial capital is called Tian Huixing. He is being chased in the direction of Sunset City. "

Qin wunian replied casually, 'this is a battle between many heaven breaking powerhouses, isn't it exciting enough? It's a rare sight to see even in a century! Moreover, because the heavenly comet is heading in that direction, everyone is guessing that the legendary Star Ink River should also be there. "

"The Black Star River is a peerless treasure that can seize the Fortune of the heavens and earth! The ones participating in the competition are all big shots at the heaven breaking and sea splitting stages. However, they fight for the fattest meat. Many weak cultivators can't squeeze into the competition at that level, but they might have a chance to get some soup!"

"I heard that countless Warriors are rushing there. They all want to get a share of the loot when the Dark Star River appears. No, those under the sea splitting stage are not qualified to get a share. At most, they can drink a mouthful of the water of the Dark Star River!"

"Even a mouthful of the star Ink river's water is enough for a cultivator below the sea shattering stage to make great progress. That's why I thought that young master Sima was just someone who wanted to join in the fun. It seems that I have misunderstood!"

As Qin wunian spoke, he was still thinking of moves in his heart. As the saying goes, when one plan fails, another will come up. He couldn't stop thinking!

Lin Yi suddenly smiled, "so there's a party like this!" It would be a waste not to join in the fun with such an opportunity. Then, he would go in the direction of luori city to take a look! Who knows what benefits we might get!"

Judging from Qin wunian's expression, he probably didn't know that he was on the Tianying planet, right? Although he didn't know what her goal was, she had given him a clue about Daniya, so he would take her with him and see what she was planning!

Qin wunian heaved a sigh of relief and immediately smiled. ""That's great! With young master Sima taking care of me along the way, this young lady is much more at ease!"

"How did lady Qin get hung on the tree just now? What happened?"

Now that they were going to travel together, Lin Yi at least remembered to ask about the previous situation, and this helped to calm Qin wunian's resentment a little.

"Actually, it's nothing much. I was only lightly punished because I collided with a senior's carriage! This matter is my fault for acting impulsively, so I deserve this punishment. "

Qin wunian gave a perfunctory reply. Under the premise that strength was everything on the sub-Island, if the weak bumped into the strong, they would be killed immediately. It was not a big deal to just hang them up and punish them.

Using such an excuse to explain the situation so easily, Lin Yi didn't want to press further. After all, it was Qin wunian's private matter, and it would be awkward if he asked too much!

"Young master, do you have any extra clothes to lend me? I've lost all my belongings!"

Qin wunian's face was filled with awkwardness as he started to fiddle with his tattered clothes. From time to time, his body would reveal a hint of spring, and his seemingly unintentional appearance added to his allure.

Unfortunately, Lin Yi wasn't interested in her looks at all. He took out a long robe from his storage bag and handed it to her."I do have clothes, but you can make do with them for now. They might be a Little Big!"

In fact, Lin Yi had female clothes in the space, but they were all prepared for people close to him. He didn't intend to give them to strangers, let alone strangers with ulterior motives like Qin wunian. It would be good enough to give him a long robe that he had never worn before.

"Many thanks, young master Sima!"

Qin wunian, on the other hand, didn't mind and put on the robe happily. Because of the difference in size between him and Lin Yi, the robe swayed a lot after he put it on. He tidied it up carefully and the effect was quite good, giving it a unique flavor.

Lin Yi turned a blind eye to her actions. After she was done packing up, he walked in the direction they had decided on. Qin wunian followed closely behind, not daring to stray too far away.

As the two walked, Qin wunian tried to talk to Lin Yi, but the latter only mumbled nonchalantly and didn't say anything meaningful. It was as if he was focusing all his energy on the high-intensity journey.

Of course, this was only the peak of the mountain opening stage-it couldn't compare to Lin Yi's real speed. To Qin wunian, it was just right-any faster and she wouldn't have the energy to talk anymore.

It was getting dark, and they couldn't find any towns or cities to stay in. They could only camp in the wilderness. Lin Yi found a Leeward place and started a bonfire, ready to rest.

He didn't know where Daniya was now, but he had to follow the clues slowly and wasn't in a hurry. He wanted to see what Qin wunian was thinking tonight.

"Young master Sima, you can just sit down and rest. I'll prepare some food. In this aspect, I have some experience and confidence. I'll definitely make young master Sima satisfied!"

Qin wunian took the initiative, taking on the responsibility of cooking dinner. He beckoned to Lin Yi and went off to look for prey nearby.

Lin Yi didn't mind and just sat by the fire, waiting for her to perform.

After a short while, Qin wunian returned in a hurry with two hares, a pheasant, and five fish in his hands. They were all ordinary animals that were completely defenseless in front of a mountain split-stage martial artist.

There was a stream not far away. Qin wunian had already taken care of it before he returned, and he started roasting it the moment he returned.

Chapter 9042

"Young master Sima, the conditions are a bit simple and crude, and I don't have anything on me, so the food I make may be a bit lacking in taste. However, it's okay, the fragrance of the ingredients itself is very strong."

Qin wunian nimbly flipped the tree branches to skewer the wild rabbits, pheasants, and fish. He smiled and said, ""When we pass by the town tomorrow, we'll replenish some spices and buy some ingredients. The food we make will be much more delicious. For today, I'll have to trouble young master to make do with it."

Lin Yi took out a bunch of bottles from his storage bag. "I have some seasonings here. You can use them as you like. I'm always out and about, so I have to eat and sleep in the open. That's why I always bring a little of everything."

Qin wunian was pleasantly surprised, 'that's great! In this way, he wouldn't have to worry about not having any taste! Since young master Sima is able to bring all sorts of condiments with him, it seems like you're also a gourmet!"

"If you do not do a good job, please forgive me, young master Sima!啊啊啊,我要全力以赴了,不能有丝毫差池才行!"

Lin Yi smiled faintly and didn't say anything else. He stared at the fire, deep in thought.

It didn't take long for Qin wunian to finish preparing the five fish, and the aroma assailed their nostrils after some seasoning. It couldn't compare to Lin Yi's barbeque, but it was still pretty good.

"Young master Sima, let's eat a fish first. The wild rabbits and pheasants still need some time. After eating the fish, it should be almost done!"

Qin wunian passed a fish to Lin Yi, who seemed to have just snapped out of his daze. He smiled and thanked Qin wunian before taking the fish and eating it without hesitation.

Under the flickering light of the fire, a hint of undetectable joy flashed across Qin wunian's eyes. He immediately turned around and continued to prepare the other ingredients.

Lin Yi finished the fish in no time, and Qin wunian saw that and passed him another one.

"You should eat too. Don't just focus on the barbecue. It's not good for your stomach."

Lin Yi took it and praised with a smile, "Miss Qin's cooking skills are indeed outstanding. A simple grilled fish is also a delicious dish with all the colors, flavors, and flavors!"

"Young master Sima, you flatter me. I'm not hungry yet. It won't be too late to eat after I'm almost done cooking. Young master, you can eat as much as you want and don't need to worry about me!"

Qin wunian appeared to be overjoyed as he smiled and said, ""To be praised by young master, even if I don't eat, I'm already full!"

As he spoke, Lin Yi had already eaten two more mouthfuls of grilled fish. His eyelids suddenly felt heavy, and he fell to the ground.

"Young master Sima, young master Sima ..."

Qin wunian's eyes had a hint of pride, but his face was full of worry. He leaned closer to Lin Yi and gave him a light push. "Young master, what's wrong? Was he tired from the journey? Young master, young master Sima?"

Lin Yi didn't react at all, as if he'd really fallen asleep-he even let out a light snore.

Qin wunian finally revealed a proud smile and immediately started searching Lin Yi's body for his storage bag.

Lin Yi, who was pretending to be asleep, found it funny. Was this woman trying so hard just to steal some money?

Qin wunian thought that he could really knock Lin Yi down, but he didn't know that Lin Yi was a Grandmaster. How could mere drugs trap him?

From the moment Qin wunian returned with the prey, Lin Yi already knew that Qin wunian had drugged the prey!

Whether it was barbecuing or drugging, Qin wunian was like a child's play in front of an expert!

He didn't expose Qin wunian on the spot because he wanted to see what she was up to. If she had any ill intentions, Lin Yi could easily take care of her.

Even if he was entangled by the power of the stars and could only display the strength of mid-stage earth creation, it was enough to easily crush Qin wunian.

In the end, Qin wunian only wanted to steal?

Lin Yi pretended to be unconscious perfectly according to the properties of the drug, allowing Qin wunian to do whatever he wanted. Qin wunian didn't suspect anything at all, boldly searching for Lin Yi's stuff.

There weren't many things in the storage bag-they were all useless things in Lin Yi's eyes. It was originally a storage bag for show, and if Qin wunian really wanted it, Lin Yi didn't mind giving it to him. He had plenty of these things anyway.

Of course, the trash in Lin Yi's eyes was still good stuff in the eyes of other mountain split cultivators. They wouldn't lose anything even if they killed someone.

In the end, Qin wunian returned the storage pouch to its original place with a disappointed look after he flipped through it. He even specially adjusted the corners of his clothes, as if it had never been touched.

after she was done, she searched lin yi's body again and was even more disappointed when she didn't find anything else.

"no... it doesn't seem like he's the target i'm looking for ... but it should be him in my premonition. damn it, there's no way to predict again. i can only take one step at a time ... what bad luck!"

qin wunian mumbled to himself as he sat back down by the bonfire to continue his barbeque, his face still filled with unconcealable disappointment.

after she'd settled down, she waved her hand at lin yi, and a faint fragrance lingered around his nose before disappearing.

with lin yi's expertise in medicine, he could instantly analyze the ingredients in the fragrance and what effects it would have on him. it was the antidote!

qin wunian clearly didn't want to leave right away. in order to not raise lin yi's suspicion, he immediately removed the drug he put in the food.

lin yi calculated the time it would take for the medicine to take effect and pretended to agree. he sat up, confused. "what's going on? i think i fell asleep for a while?"

"young master sima, what are you saying? are you asleep?"

Qin wunian turned his body to the side, his eyes fixed on the Hare and pheasant above the fire. He turned around with a smile when he heard Lin Yi's words. "Eh, young master Sima, did you just lie down? Are you tired? Do you feel uncomfortable anywhere?"

"If you want to sleep, then sleep for a while. The wild rabbit and pheasant are not ready yet. How about I wake you up when they are ready? If you don't want to eat this fish, just put it aside!"

Lin Yi scratched the back of his head and smiled awkwardly, "I don't feel tired, nor do I feel uncomfortable. I just seemed to be in a daze for a moment. Maybe your grilled fish was too fragrant and I was a little intoxicated?"

After he finished speaking, he picked up the grilled fish in his hand and continued to gobble it down. The medicinal properties in the fish had already been removed by Qin wunian, so there naturally wouldn't be any abnormalities if he ate it again.

"Fragrant! It was really very fragrant! Lady Qin, you should eat too. It won't delay your work if you eat and roast at the same time!"

"Alright, seeing young master Sima eating so happily, it really makes me happy. I'll eat too!"

The two of them, each with their own thoughts, happily ate the barbecue by the bonfire. No one mentioned the little interlude just now, and it was covered up just like that.

Chapter 9043

The next morning, the sky was starting to turn white, and Lin Yi and Qin wunian got up to pack up and continue their journey.

Lin Yi was considering if he should ditch Qin wunian and speed up on his own. She was clearly up to something, but he didn't know what she was up to.

Lin Yi's interest was piqued when he recalled Qin wunian's mumbling last night about premonition and whatnot. Was that premonition directed at him? And what was Qin wunian looking for?

Interesting!

Why didn't Qin wunian leave with Lin Yi's storage bag after he failed to achieve his goal? why did he still follow them? Was he suspicious of the previous search and wanted to continue probing?

Lin Yi had a lot of questions, and after comparing the two, he decided to wait and see what Qin wunian was up to.

at noon, the two of them passed by a dense forest. qin wunian reminded them, ""young master sima, you know this place, right? this place is also known as the three step soul breaking forest, and there are all kinds of poisonous creatures growing inside. if you're not careful, you'll definitely die within three steps!"

"but the three step soul breaking forest is the only path we have to take. if we take a detour, it will take at least one or two days. do you think we should continue on this path or spend more time taking a detour?"

lin yi looked at the dense forest not far away. there was indeed black mist, and he could smell the sweet, fishy smell without getting close. it was obvious how poisonous it was.

"i've heard of the three step soul breaking forest, but i've never been there before. i heard that the poisonous gas in the forest will be thinner at noon, and the poisonous creatures will stay dormant. it's the most dangerous time at night, right?"

Qin wunian nodded with a smile. "Young master Sima is indeed knowledgeable. There's indeed such a saying. Under normal circumstances, if we're not in a hurry, most people would choose to take a detour. However, our time is rather tight. If we want to get a share of the loot, we can't waste too much time."

"It just so happens that it's the time of the day when the poisonous gas is the weakest and the poisonous gas is the least. Young master Sima, do you mean that we should take the risk and cross through the three step soul-breaking forest?"

She was very confident in herself. As a martial artist at the mountain opening stage, she had a strong resistance to ordinary poisonous gases and poisons. She also had a deep understanding of medicine and medicinal properties. She felt that there would not be any problems walking through the three step soul-breaking forest.

As for whether Lin Yi was in danger, Qin wunian didn't care. In fact, he wanted to use the danger of the three step soul-breaking forest to test if Lin Yi was hiding anything.

He had directly pointed out the dangers of the three step soul-breaking forest, but it was more to goad him.

"Lady Qin is right. We are in a hurry and don't have time to waste a day or two on a detour. We can only take the risk and pass through the three step soul breaking forest. Fortunately, it's noon now, so the danger has been reduced by a lot. Let's not delay any further and leave quickly!"

Lin Yi said as he took out two antidotes from his storage bag. They were ordinary, about the same level as the recover pill he gave Qin wunian.

It wasn't a problem for Lin Yi to deal with normal poisonous creatures, but it was useless against stronger ones. Lin Yi was actually immune to all kinds of poison, so he wasn't afraid of the three step soul-breaking forest at all.

She had only wanted to put on an act with Qin wunian. Furthermore, she had checked the storage pouch last night and knew that there were antidotes inside, so she had simply taken them out and used them.

"Come, take this detox pill. Your defense against poison will be stronger! The chances of passing through the three step soul-breaking forest safely would be higher. After we leave this three step soul-breaking forest, we should be able to reach the fallen star Town in a short while, right?"

Lin Yi had a geographical map in his mind, and he knew what was around him. Meteorite was a small town, and its population wasn't as large as the other big cities, but it had everything a big city had.

"That's right. After we reach meteorite town, we can rent a Mount, and we will be able to travel much faster! I'll definitely be able to make it in time for the feast!"

The feast that Qin wunian was referring to was naturally the opportunity that had appeared in the star Ink River.

But she didn't think that Lin Yi would have the chance to reach fallen star Town. With this low-level antidote, he wouldn't even be able to get out of the three step soul-breaking forest!

Qin wunian didn't point this out. Instead, he took an antidote pill that she thought was useless and swallowed it before walking into the three step soul-breaking forest.

Lin Yi followed closely behind, and the two entered the forest. The light was a lot dimmer, and the black mist was a lot thicker. The sweet smell lingered, making people feel drowsy.

"Young master Sima, pay attention to hold your breath. The poisonous fog in the three step soul-breaking forest has the effect of numbing, causing hallucinations, and fainting. If you accidentally inhale too much, I'm afraid you'll fall into a deep sleep in this dense forest!"

Qin wunian reminded Lin Yi out of kindness, but in reality, he was thinking of ways to test Lin Yi without giving himself away.

Qin wunian didn't get anything from knocking Lin Yi out last night, but he still didn't want to give up. He wanted to test Lin Yi again with the special environment of the forest.

"Thank you for your reminder, miss Qin. You have to be careful yourself!"

Lin Yi nodded, but before he could finish his sentence, a branch fell from a tree and twisted in the air-it wasn't a branch, but a small snake.

As it neared the top of Lin Yi's head, the little snake's tongue flickered and it opened its mouth, revealing two small but sharp fangs.

Lin Yi took out a short knife from his storage bag and swung it up before the snake could land on him. The blade hit the snake's body, but it didn't cut it.

Although Lin Yi had hidden his strength, he was still at the mountain opening stage. The snake's skin wasn't even cut open, which showed how strong the snake's defense was.

However, the force contained in the short knife was still there. The little snake's defense was amazing. After all, it was falling from the air. It was pulled by the short knife and deviated from its original path. It flew directly to the side and hit a tree trunk.

"It's the iron thread venomous spirit snake! Be careful not to get bitten! This is a deadly poison!"

Qin wunian cried out from the side. Although he was reminding Lin Yi, his eyes were filled with anticipation, perhaps even gloating over his misfortune.

The iron thread venomous spirit snake's poison was extremely shocking. Even if a ground opening stage cultivator was bitten by it, they would die in an extremely short time.

An ordinary detoxification pill couldn't detoxify the poison of the iron thread venomous spirit snake. This kind of venomous snake wasn't a darkness magical beast. It should be considered a top race among the darkness spirit beasts.

In addition to its poison, the iron thread venomous spirit snake's defensive ability was also extremely amazing. It was very difficult for ordinary swords to damage its skin, so its skin was a very precious material for leather armor.

In addition to its toxicity and its difficulty in capturing, the price of the skin of the iron thread venomous spirit snake had always been high. Experts disdained to take the risk of hunting the iron thread venomous spirit snake, and those with average strength could not deal with it, so it was quite embarrassing!

Chapter 9044 The Power Of The Devil

Qin wunian didn't expect to encounter such a venomous snake so soon after entering the three step soul-severing forest.

He could use it to test Sima Zhongda!

The steel wire venomous spirit snake didn't fall to the ground after hitting the tree. Its small body arched and bounced back like a black arrow, flying straight at Lin Yi's face.

Lin Yi raised his dagger and accurately blocked the snake's path. The little snake was about to hit the blade, but twisted in the air and dodged the blade by a hair's breadth. It opened its mouth and bit Lin Yi's neck.

Qin wunian was beside Lin Yi, and he saw that the snake's fangs were about to touch Lin Yi's neck. In the end, his vision blurred, and for some reason, the snake suddenly sped up and charged at him!

"Ah!"

Qin wunian cried out in shock and hurriedly unleashed all his strength, trying to send the iron thread venomous spirit snake flying.

If he was poisoned by the iron thread venomous spirit snake, she would also feel that it would be troublesome. If she could avoid getting injured, it was best not to get injured!

However, this steel thread venomous spirit snake was incomparably agile. It twisted its body in the air and slithered away from Qin wunian's palm, continuing to charge at her with great perseverance.

Qin wunian's eyes turned cold. His ten fingers glided and bloomed in the air like flowers, completely sealing off all possible directions of the iron thread venomous spirit snake.

No matter what, he was still a cultivator at the mountain split stage. He wasn't so weak that he couldn't even handle a small snake. Qin wunian's fingers continuously flicked the steel thread venomous spirit snake, interrupting its mid-air advance.

Although he didn't manage to hurt the iron thread venomous spirit snake, he had at least stopped its attack. In the end, Qin wunian closed his fingers and grabbed the snake's vital spot.

The darkness spirit beast was also unable to break away from the snake species 'weakness, and with its vital points pinched, the originally spirited iron thread venomous spirit snake immediately lost all of its ferocity.

The tiny snake writhed slightly in Qin wunian's hands, and it looked like it didn't even have the strength to struggle!

"damn stinky snake, you actually dare to sneak attack us! i'll make snake soup out of you tonight! you want to bite me? i'll eat you first!"

qin wunian's heart relaxed, but his anger immediately rose. he grabbed the steel wire venomous spirit snake and whipped it on the tree a few times, cursing in anger.

"be careful, miss qin!" lin yi suddenly called out.

qin wunian was startled. careful of what?

before she could think of anything else, her calf suddenly went numb. she looked down and saw that it was another iron thread venomous spirit snake. it had slithered out of the fallen leaves and bit qin wunian's calf with lightning speed.

In the blink of an eye, Qin wunian's calf started to turn black and he lost all feeling, as if that leg no longer existed!

The black Poison spread rapidly. If it wasn't dealt with, the poison would attack Qin wunian's heart in a few seconds. At that time, he would be dead!

Qin wunian turned pale with fright. He didn't dare to let go of the steel thread venomous spirit snake in his hand. He didn't have the time to tear off the one on his leg and used his remaining hand to quickly take out the antidote.

Knowing that they would have to pass through the three step soul-severing forest, Qin wunian had naturally made some preparations. He had prepared some necessary antidotes, including the iron thread venomous spirit snake's antidote.

Unfortunately, when she grabbed the bottle containing the antidote for the iron thread venomous spirit snake, the poison had already spread up, causing her arm to feel numb.

He wanted to open the bottle, but his hand trembled and the bottle fell to the ground! Not only that, but because his fingers had gone numb and he had lost control, the iron thread venomous spirit snake that had been holding onto the seven-inch wound had also regained its freedom!

The moment it could move, the iron thread venomous spirit snake opened its mouth and bit Qin wunian's wrist!

As the poison from both sides attacked each other, Qin wunian's face darkened. It was really dark, but it didn't mean he was angry.

"Save ... Save me!"

Qin wunian's eyes widened, filled with fear. She didn't expect the iron thread venomous spirit snake's poison to be so Swift and violent that she didn't even have the time to take the antidote.

The only person who could save her now was Lin Yi!

But she wasn't sure if Lin Yi would be able to pick up the antidote and feed it to her under the attack of the two snakes!

Qin wunian didn't have much time left!

In another two or three seconds, the poison would attack her heart. Even if there was an antidote, she would die without a doubt!

Lin Yi didn't expect Qin wunian to be this useless. He was a mountain-opening martial artist, after all, and yet he didn't even know he was being attacked by a poisonous snake!

Furthermore, it was also somewhat unexpected that a body-tempering martial artist at the mountain-opening stage had such poor resistance to poison!

Lin Yi thought that Qin wunian was good at using medicine, and would have a stronger resistance to poison!

It turned out to be a Bluff, a paper tiger that was weak in reality!

The venom of the two iron thread venomous spirit snakes was incomparably ferocious. Qin wunian had only said a few words, and his tongue had already started to go numb, unable to even speak.

Not only that, but her consciousness also began to become a little dazed. For a moment, there was only deep despair in her heart!

It was too late ... Even if Sima Zhong da killed the two snakes and gave her the antidote, it would still be too late! Why was it like this? I don't want to die yet!

Qin wunian's eyes were filled with panic, unwillingness, and a longing for life as he slowly fell backward!

Lin Yi's lips twitched. It wasn't a pity to let someone with ulterior motives die, but he still hadn't figured out the answers to those questions yet. If he let her die just like that, he wouldn't be able to find the answers in the future!

How troublesome!

He swung his short knife, and two perfect arcs were drawn in the air, killing two iron thread venomous spirit snakes as easily as crushing dry weeds and smashing rotten wood!

Qin wunian was already in a daze, so he didn't see Lin Yi's stunning attack.

The snake's defense wasn't weak, but that was only in the early stage of mountain opening. Lin Yi only needed to use a bit of his strength, early stage earth opening, and the short knife in his hand to kill the two snakes.

After killing the two venomous snakes, the dagger didn't stop. It accurately swept past the two places where Qin wunian had been bitten-his wrist and calf!

The area where he was bitten started to swell up, and there were two big black bumps. Lin Yi's blade sliced off the two big black bumps, and black blood spurted out, splashing on the surrounding trees, leaves, and grass.

No matter what it was, once it came into contact with the black blood, it would sizzle and quickly corrode. The three step soul-breaking forest was filled with poisonous fog. Even if it was a non-poisonous plant, after being exposed to it for a long time, it would have a certain amount of poison and a strong resistance to poison.

Even so, when it came into contact with the poisonous blood in the bite wound of the iron thread venomous spirit snake, it was corroded without any resistance. It could be seen how strong the poison was!

Lin Yi didn't panic at all. He sniffed the blood on the blade as he pulled it back, analyzing the poison in an instant. He then took out an antidote from the Jade space.

It wasn't the lowest grade in the storage bag, but it wasn't the highest grade detoxification pill either. It was the kind that he had refined himself.

Chapter 9045

This was more than enough to deal with the iron thread venomous spirit snake's poison, and Lin Yi didn't even plan on letting Qin wunian consume it. He crushed the pill and sprinkled it on the two wounds, and the black blood quickly receded, turning red in a few seconds. The black gas on his skin also quickly dissipated, returning him to his original white skin.

Lin Yi picked up the medicine bottle on the ground, opened it and sniffed. It was indeed the antidote for the iron thread spirit snake's poison, but it was far less effective than his own antidote pill. There was no need to take it now.

After some thought, Lin Yi pried Qin wunian's mouth open and poured all the medicine in the bottle into her mouth. He then turned around and told her that it was her own medicine that cured the poison.

After all, last night, Qin wunian had rummaged through his storage pouch and found out that there was no pill that could cure the iron thread spirit snake's venom.

After that, Lin Yi took out another set of clothes from his storage bag and tore off a few bandages to bandage Qin wunian's wounds.

Generally, injuries could be healed by taking a pill. Powerful body-tempering martial artists had super self-healing abilities. Sometimes, even without taking pills, external injuries would heal very quickly.

Qin wunian was a woman, after all, and Lin Yi gave her special treatment. He didn't give her any healing pills, and only bandaged her wounds with rags.

Qin wunian was still unconscious even after the wound was treated. The venom was cleared, but she wouldn't wake up so soon. Lin Yi thought about slapping her face to wake her up, but decided against it.

the three step soul-breaking forest wasn't a good place. lin yi wasn't afraid of it, but he couldn't stay here for long to prevent qin wunian from overthinking. he carried qin wunian on his shoulder and continued to move forward.

with lin yi's speed, it didn't take long to get through the forest. the biggest danger here came from the poisonous fog and so on, but lin yi ignored them and came out from the other side.

"it hurts! let me down!"

qin wunian finally woke up after they exited the forest. lin yi was carrying her face down on his shoulder, and her stomach was pressed against his shoulder. she could feel the suffocation even in her unconscious state.

if she didn't wake up soon, she was afraid that she wouldn't be able to wake up!

"you're awake? that's good! i was afraid you wouldn't make it! it's good that you're awake!"

lin yi's acting skills were off the charts as he hurriedly put qin wunian down, his face full of fear."that was really close! you almost died! it's a good thing your antidote was effective and pulled you back from the brink of death!"

qin wunian was a little dumbfounded. she knew that in her current state, the poison had almost reached her heart. she shouldn't have been able to save herself just by using the antidote she had prepared, right?

however, she was indeed still alive, and the poison in her body had almost been cleared. was the antidote really that effective?

at the same time, qin wunian also noticed that her wound had been bandaged. she instinctively felt a little disdainful of the torn cloth from her clothes ...

"many thanks, young master sima. you have saved me once again, i am truly grateful! i don't even know what to say!"

Qin wunian composed himself and thanked Lin Yi once more, "Eh, we've already passed through the three step soul-breaking forest? So fast! Young master Sima, did you encounter any danger? After all, you still have to take me, a burden, with you!"

When she realized that she was already out of the three-step soul-breaking forest, Qin wunian was surprised. She wondered how long she had been unconscious for her to have unknowingly left the boundary of the three-step soul-breaking forest.

"I didn't encounter any danger! After those two iron thread venomous spirit snakes bit you, they ran away. I was in a hurry to treat your injuries and detoxify you, so after a simple treatment, I quickly took you and ran out. "

Lin Yi said with a straight face. "I don't know what's going on, but other than those two iron thread venomous spirit snakes, no other poisonous creatures appeared along the way. The poisonous fog is also very thin, and the field of vision is very good. There's no obstacle when running."

"Maybe it's because the time is just right. Didn't you say that noon is the best time to pass through the three step soul-breaking forest? If not for that, I might not have been able to escape with you!"

Qin wunian blinked, not knowing what to say. She had a feeling that things weren't as simple as they seemed. This sincere-looking Sima Zhongda seemed to be lying, but she didn't have any evidence!

She had no choice but to believe him!

"How are you feeling now? Can I walk? We won't be far from meteorite town once we're out of the three step soul-breaking forest. Let's go to meteorite town to recuperate for a while, shall we?"

Lin Yi pretended to be concerned about Qin wunian and looked around. "How about this? I'll make a chair that I can carry you on my back. You can sit on the chair, and I'll carry you to meteorite town. What do you think?"

Qin wunian glanced at Lin Yi. Lin Yi had purposely made himself look a little disheveled, after all, to match the situation of escaping from the three step soul-breaking forest.

Now that this slightly disheveled face was filled with concern and sincerity, Qin wunian suddenly felt a little moved.

The first time she was hanging from a tree was one thing, but this time, Lin Yi really did save her life!

In the three-step soul-breaking forest, who would risk their lives to carry someone out if not for the kind of companions who could entrust their backs to each other?

If they were attacked by other poisonous creatures, their chances of survival would decrease by several times if they carried a burden. Those who could leave alive would end up dying with them.

Therefore, in most adventurer teams that were formed at the last minute, when such a cumbersome teammate appeared, most of them would directly abandon it. It was already very benevolent to feed you a mouthful of medicine and let you die on your own.

Lin Yi didn't care about his own safety and insisted on carrying her out. It was uncomfortable, but it was nothing compared to his life.

"No need, I'm fine. This small injury won't affect my movement!"

Qin wunian's tone was much gentler than before, and there was a clear difference from when he was intentionally approaching Lin Yi, but she didn't notice it.

As he spoke, Qin wunian sat on the ground and untied the cloth on his calf. He looked at the wound ... A piece of flesh had been sliced off!

She thought that it was a snake bite, but now she realized that Lin Yi had sliced off the wound!

This wasn't hard to understand. In order to release the poisoned blood as soon as possible, there was nothing wrong with this treatment method.

As a martial artist, this kind of flesh wound was nothing at all. With the self-healing of the body, it could be healed within a day.

Qin wunian took out the medicine he had brought with him and sprinkled it over his wound. After bandaging it up, he stood up.

"Young master Sima, let's go. After applying the medicine, the wound will heal very quickly. When we reach the fallen star Town, it should be almost healed."

Lin Yi didn't force her. If Qin wunian couldn't walk, he didn't mind piggybacking her up. Since she could walk on her own, it was fine.

The two of them continued on their way. The injury on Qin wunian's leg had somewhat affected his speed, but it was still within an acceptable range.

Chapter 9046

as they slowed down, qin wunian started chatting with lin yi again, ""young master sima, i can't thank you enough. you've saved me twice, i'll definitely repay you in the future!"

"lady qin is too polite, why are you talking about these things again? it's just a small matter, it's not a favor, you don't need to take it to heart. "

lin yi really didn't care about saving his life. at qin wunian's level, he couldn't repay him in any way.

"How can I not remember the kindness of saving my life?" Qin wunian suddenly smiled bitterly. However, I really don't have anything that I can use to repay young master Sima for saving my life!"

"If it was in the past, I would definitely be able to take out something that would satisfy young master Sima to thank young master's great kindness. But now, I can only remember your kindness in my heart for the time being. When I have the opportunity in the future, I will repay you double!"

Lin Yi heard that-this guy had a story!

"Miss Qin, in the past ... I'm sorry, should I not have asked about your past? I'm sorry, please don't take it to heart, lady Qin!"

"There's nothing to be concerned about. It's not a big secret. Young master Sima has saved me twice, so you can ask me anything you want."

Qin wunian smiled faintly, but there was a hint of helplessness and misery in his smile. "Actually, I used to be the young lady of the Qin family. If it wasn't for the Qin family's accident and the collapse of the building, I wouldn't have been stranded outside and ended up in such a state."

"If the Qin clan was still around, I would naturally be able to take out many items that would satisfy young master Sima as thanks. However, I'm currently so embarrassed that I'm penniless. I've embarrassed myself in front of young master Sima!"

She thought that Lin Yi knew what the Qins were like, but he really didn't know what they were ... But from her tone, she couldn't help but feel proud when she mentioned the Qins-the Qins from before weren't simple at all.

It should be a well-known clan in the Tianji continent. Perhaps it was on the same level as the Tianji Mei mansion. In this case, it was indeed very powerful.

"So lady Qin is the Qin family's eldest young lady from the direct line of descent, my apologies! If you don't mind, can you tell me what happened to the Qin clan? why did such a powerful clan become so weak?"

Lin Yi acted as if he knew about the Qin family and went along with Qin wunian's story-there really weren't any flaws!

Qin wunian shook his head with a bitter smile. "Actually, I'm not too sure what exactly happened. At that time, I was traveling and wasn't at home, so I managed to escape. By the time I received the news, the Qin clan was already gone!"

"Not only was the main family destroyed, but the branch sects were also destroyed! The Qin clan's properties that were spread all over the continent were also divided up by the various powers in an extremely short amount of time. "

"I even suspected that the operation to destroy the Qin family was an evil act committed by the families, sects, and dynasties that were involved in the division of the Qin family's assets! Unfortunately, I don't have any evidence. "

"In one night, the once prosperous Qin clan was annihilated. The Qin clan's disciples who were wandering around were often hunted down and killed. As the young lady of the Qin family's direct line of descent, I am the same. "

"I won't hide it from young master Sima. Actually, my name isn't Qin wunian, but Qin Shuang. In order to avoid being hunted down, and also to comfort the spirits of my parents and family in heaven, so that they don't worry about me and don't miss me, I changed my name to wunian!"

"Originally, I wanted to change my surname too, so that it would be safer. But now that my family has been destroyed, I might be the only direct descendant left in the Qin family. If I change my surname, the Qin family will really be destroyed. That's why I have this last bit of persistence!"

Qin wunian's voice was low, and his mood was low. His face was filled with sorrow, and he didn't seem to be lying.

Lin Yi didn't expect Qin wunian to have such a blood feud. A super family was destroyed, leaving her as a weak girl. It was quite pitiful.

Speaking of which, the Qin family's young lady was only at the beginning stage of her cultivation. She was indeed a little weak. Looking at the Tianji Mei mansion, Mei gancai looked like an idiot and a good-for-nothing, but she was already at the middle stage of the broken sea realm.

In front of Lin Yi, Mei gancai was a noob, but in the younger generation of other families, she was a shocking genius. At least, the Qin family was far from the Tianji Mei house.

"Lady Qin has a blood feud with her. Even if she is being hunted down, she still firmly chose her surname. I believe that you will be able to revive the Qin family in the future!"

Lin Yi tried to comfort her, but he didn't know what to say. "I'm sorry, I brought up miss Qin's sad past again! It's my fault!"

"It's nothing, it's all in the past," Qin Wunian smiled. I still have to thank young master Sima for your kind words. I also believe that I can revive the Qin clan!"

"This time, the appearance of the Black Star River is the best opportunity. If I am able to gain something from the Black Star River, my strength will increase greatly. Naturally, I will have the opportunity to rebuild the Qin clan's thousand-year-old Foundation!"

She didn't hide her desire for the Black Star River. In any case, everyone in the entire heaven's legacy continent wanted to obtain the Black Star River. It would be strange if she didn't have any thoughts about it.

"Miss Qin has great ambitions, I'm sure you'll get what you want!" Lin Yi nodded in appreciation. Even if we can't restore the Qin family's original glory, we can take it one step at a time. We can rebuild the Qin family first and slowly develop and strengthen it!"

The topic of the Qin family ended there. The two of them casually said a few more words, and neither of them had the intention to go deeper.

As they chatted and hurried along, they soon arrived at the small city they were supposed to rest in, meteorite town.

"It's quite lively here. Although it's not as prosperous as the imperial capital, it's still full of people, shoulder to shoulder. Miss Qin, you've been to meteorite town before, right? Has it always been like this?"

Lin Yi couldn't help but praise when he saw the crowded streets. "This is my first time here. This is really unexpected!"

"Meteorite town is just a small town," Qin wunian smiled. "It doesn't have any famous specialties, so how can it be so prosperous normally? When I passed by in the past, the streets were also deserted. "

"Today's Grand occasion is just a special case. If I'm not wrong, most of the people who have come to the fallen star Town are the martial artists who have come to join in the fun after hearing about the news of the star Ink River. "

Lin Yi nodded in agreement. It was true that most of the people in fallen star Town were practitioners, and they were basically all at the mountain opening stage and above, and were considered Masters.

Those below the mountain split stage knew that the star Ink River wasn't a treasure that they could lay their hands on. If they were to get involved, they wouldn't even be qualified to be cannon fodder. Therefore, only those at the mountain split stage and above would want to get involved in the star Ink River.

Unfortunately, they thought that they could get a piece of the star Ink river's matter. They didn't realize that most of the heaven breaking and sea splitting stage experts of the entire heavenly secret continent had already participated. How could mere earth splitting and mountain splitting stage experts compete with those big shots?

To put it bluntly, cultivators at the earth formation stage and below could only barely reach the threshold of cannon fodder in the fight for the inky Star River!

"Let's find a place to rest first. We'll continue our journey after you've fully recovered!"

Lin Yi didn't have much to say to these practitioners who were destined to die. With so many practitioners joining in the fun, it would be even harder to find the traces left behind by Daniya. It didn't matter if they delayed for a while.

Lin Yi was confident in Daniya's safety, and if they really couldn't find her, she'd definitely rush over when the star Ink River appeared.

"My injuries are no longer a big problem. Let's go rent a Mount. It will speed up the journey."

Qin wunian stomped his feet, indicating that the wound on her leg was almost healed. With a Mount, even if the wound was not fully healed, it would not be a big problem!

"That's good. Let's go and find a Mount. You've been to meteorite town before, so you can lead the way!"

Lin Yi went with the flow-it wasn't a bad thing to get on the road earlier, after all. There wasn't much point in squeezing in meteorite town with so many people.

Qin wunian nodded in agreement and led Lin Yi through the streets and alleys. They soon found a store that rented flying spirit beasts, but unfortunately, all of them had been rented out.

The meteorite town was only a small town. They were the only shop that rented flying spirit beasts in the town. If they lost them, it meant that there were no more flying spirit beasts in the entire meteorite town.

Qin wunian took a step back and sought for two black Spirit Ferghana horses as a means of transportation. Although they were not as fast as flying in the sky, the speed and endurance of the Black Spirit Ferghana horses were much better than his own two legs when running on the ground. Furthermore, he could preserve his stamina to deal with the battle that could happen at any time.

However, Qin wunian and Lin Yi couldn't find any mounts in the entire town, let alone a Black Spirit Ferghana horse. There wasn't even a normal horse!

It was overcrowded!

The first problem was to sweep away all the resources in the small town of meteorite ...

Qin wunian stood at the end of the street, speechless as he looked at the crowded crowd. He didn't know what to say.

"Young master Sima, if we were to go and steal two black Spirit Ferghana horses, we should have some confidence, right?"

Qin wunian already had the thought of robbing them.""After we get out of meteorite town, we will guard the road. There will definitely be people riding alone. With our strength, it won't be a problem for us to seize two mounts without looking for Masters above the earth opening stage. What do you think?"

Lin Yi's lips twitched. He was a Super Master of the heaven breaking stage after all, and one of the three tycoons of the star source continent. Why would he go to the Tianji continent to Rob people, and what's more, Rob a Mount of a mountain split stage martial artist?

I can't afford to lose that face!

If this news were to spread back to the starsource continent, he would be too embarrassed to go back!

"I think ... We can go to the next town and see for ourselves. Maybe we can buy a Mount. We don't have to Rob ..."

Lin Yi imagined the scene-robbing an opening mountain martial artist on the road was like him snatching a lollipop from a kid in front of a kindergarten. It was too beautiful to look at!

"Alright, young master Sima is a man of justice and would not do such a thing. I was just joking just now, don't take it to heart. Maybe we can change our method!"

Qin wunian immediately changed his tone and gestured for Lin Yi to look at the end of the street."Young master Sima, look. There's a group of people over there. They seem to be recruiting members. How many mounts do they have? let's go and ask them what their purpose is. If we're on the way, how about we sneak in?"

It wasn't uncommon for adventurer teams to recruit members at the last minute, but basically every team had a fixed team structure. The number of people recruited at the last minute only accounted for a small part, so as to avoid being overwhelmed.

The opening of the star Ink River this time could be said to be a major event for the entire heaven's legacy continent. All of the martial artists who had designs on the star Ink River had swarmed over. Those adventurer teams with fixed members might feel that they didn't have enough people, so it was normal for them to temporarily recruit some members.

In fact, there were many cases of temporary team recruitment in meteorite town. Lin Yi and Qin wunian had seen a few of them before, and they'd been beaten up by society when they tried to find mounts themselves.

Helplessly, he could only change his mind and look for a Mount. If he didn't go Rob, then joining an adventurer team with spare mounts was a good choice.

As for the destination, there was no need to worry. Most of the martial artists in the fallen star Town were heading towards the Black Star River. Since everyone had the same goal, they would eventually end up with the same destination.

"That's a good idea. Let's go and take a look!"

Lin Yi had already noticed the group before Qin wunian spoke. There were a total of eight people in the group, with twelve Black Spirit Ferghana horses. They needed to recruit four temporary members.

At this moment, the Black Spirit Ferghana horse was in high demand in fallen star Town. Other than Warriors who had mounts, those without mounts would want to get their hands on a Black Spirit Ferghana horse.

Therefore, this group had always been the focus of attention. Many people had even gone forward to discuss the possibility of buying the Black Spirit Ferghana horse, but they were rejected as expected.

After the team put up a sign at the end of the street to recruit temporary members, it also attracted a lot of people to watch. There were also many who were interested, but not many actually applied.

"Lady Qin, they only have a total of four spots. Why is it that there are so many interested people, but almost no one came forward to answer the call? What are you all waiting for?"

Lin Yi hadn't been in a team like this for a long time. He'd always been at the top of the food chain in the starsource continent, so he didn't know what was going on.

Qin wunian, however, was very clear about the intricacies of this matter. He immediately chuckled. "Young master Sima, the martial artists that are interested are basically all rogue cultivators. They want to join a team, but they are afraid of being scammed by the team!"

"In fact, everyone knows that when a team with fixed members temporarily recruits people, if there is any danger, they will definitely treat the temporarily recruited members as cannon fodder. Or rather, this kind of temporary recruitment is basically recruiting cannon fodder!"

"If an unspecialized martial artist wants to join a team and have someone to rely on, he doesn't want to risk his life to be cannon fodder. He naturally has to observe and hesitate before making a decision."

"We don't have to worry about that. We're only borrowing their Black Spirit Ferghana horses. If they want to trick us, we can just leave and be done with it. There's no need to worry!"

Qin wunian's train of thought was very clear. 'I'm just here to hitch a ride. It's no problem for me to cheer for you guys, but I'll politely decline the offer to die.'

If they really wanted to scam someone, it was still not certain who would scam who!

Lin Yi nodded with a smile, agreeing with Qin wunian's words.

The two of them crossed the street at a steady pace. During this period of time, the team had already recruited an unaffiliated martial artist. There were three black Spirit Ferghana horses left, which were three spots.

The newly joined martial artist was at the late stage of the mountain split realm. He had a strong and muscular body, but he seemed to have developed limbs and a simple mind. He wanted to go to the star Ink River alone to try his luck, but he knew that his chances were not high. Being able to join a team of adventurers was better than fighting alone.

Chapter 9048

"Make way, make way! We want to join!"

Qin wunian shouted as he pushed the crowd aside to make a narrow path, squeezing in with Lin Yi.

They were all here to watch the show, why were they so free? If you don't want to answer the call, then quickly go and do your own things! Would they be able to see the star Ink River if they were just watching?

As he cursed in his heart, Qin wunian pushed his way to the front row with great difficulty. He said to the leader of the group, ""My companion and I would like to join your team!"

Lin Yi squeezed in from behind Qin wunian, and raised his right hand to signal when he heard her. "I'm her companion. I wonder if we're suitable for each other?"

The leader eyed Lin Yi up and down a few times, a look of disdain on his face. "You even have to hide behind a woman when you're here to sign up. I can tell that you're a good-for-nothing with one look! I'm sorry, but our team doesn't accept trash!"

Lin Yi blinked. What was this mockery? Hiding behind a woman's back?

Qin wunian was just more proactive, fighting to lead the way. It wasn't Lin Yi who wanted her to do it. Besides, your team was recruiting a temporary member, was it really good to offend people the moment you opened your mouth?

With Lin Yi's eyes, he could naturally see the strength of the entire team. The strongest of the first eight members was the leader who spoke, a peak late-stage earth-splitting cultivator.

Other than him, there were four other earth formation Stage practitioners, and the last three were at the peak of the mountain-opening realm. They were even stronger than the burly man who just joined, but from Lin Yi's point of view, they didn't even have the right to be cannon fodder if they wanted to join the star Ink River Battle.

"What are you saying? We're willing to join your team because we're giving you face. If you have something to say, say it. What do you mean by humiliating us?"

Qin wunian didn't wait for Lin Yi's reply and stood up for him, ""Don't think that we have to join your team. Right now, what meteorite town has the least lack of is recruitment teams. Who Do You Think You Are?"

The leader glanced at Qin wunian and suddenly laughed."Little girl, you're quite tough and gutsy, daring to speak to us like that! Aren't you afraid that we'll kill you?"

Qin wunian was truly afraid that they would kill him if they didn't agree, but he still had to maintain his tough appearance. ""I'll see if you can kill one! If you dare to make a move in front of so many people, you must be mentally prepared to be killed instead. "

Many cultivators would have trump cards that they could use to fight with their lives on the line. Qin wunian was fearlessly acting as if he had a trump card that could instantly kill his opponent, hoping to scare them so that they wouldn't dare to act rashly.

"Interesting. Your strength seems to be alright. You can join our team, but forget about your useless companion. We don't need a weak rookie. You also know that the situation is different this time. Everyone will be in trouble if he brings a burden with him. This is also for his own good!"

The leader's lips curled into a mocking smile. Perhaps he really did like Qin wunian, or perhaps he was just trying to drive a wedge between Lin Yi and Qin wunian. It was just a casual move, after all, and it didn't matter if they ended up together or not.

Qin wunian hmped and was about to speak when Lin Yi stopped him.

Lin Yi didn't seem to mind the captain looking down on him. He smiled and asked, "Do you have any criteria for recruiting people? Did it depend on strength? Or was it based on looks? You don't want those who are more handsome than you?"

In terms of looks, Lin Yi was an instant kill when compared to the leader!

Lin Yi's words were like a slap in the face in front of everyone, a counterattack!

The leader didn't get angry. He laughed and said, ""What's the use of being good looking? Would it be more effective to use his face to block? We only talk about strength here!"

"You can join us if you want, but show us your strength! Our team's recruitment is at least at the middle stage of the mountain opening realm. As long as you have the strength, what's the big deal if we include you?"

It was only mid-stage mountain-opening, Lin Yi smiled. These guys were looking for cannon fodder, weren't they?

If they really wanted to cooperate, with their strength, they should start from the consummate level of mountain opening and the peak of initial stage of earth opening as the upper limit. This way, the newly recruited members would be able to integrate well into the team and it would be more convenient for everyone to cooperate.

The lower limit was set a few levels lower than the lowest level of the original members. It was obviously for the ease of control, so that they would not be afraid of resistance when they were used as cannon fodder.

Lin Yi really wanted to know what this guy's face would look like if he showed his sea-shattering strength.

It would probably look as ugly as constipation.

He probably wouldn't be able to describe the sour feeling of recruiting cannon fodder and recruiting a father in a short time!

Of course, Lin Yi wouldn't scare the kid right now-he burst out with his aura and showed his mid-stage strength.

"What a coincidence, I'm in the middle stage of mountain split, does that mean I've passed?"

The leader looked at Lin Yi and smiled, "Interesting, alright! Seeing that both of you are very interesting, join the group together! However, since you've joined the team, you must have team spirit and can't disobey the team's orders!"

"I understand! Right, you're the captain, right? How should I address you?"

Lin Yi didn't let him continue. He smiled and cupped his fists, "I'm Sima Zhongda, and she's Qin wunian. Thank you, Captain, for taking us in!"

Qin wunian blinked, but didn't say anything. Lin Yi and her were just here for free, so who cared about team spirit? team orders?

It was good enough that they could join in. If the situation turned bad, they could just escape on their Black Spirit Ferghana horses!

"Little brat, you're quite bold! Not bad! I'm the captain, my name is Huang shanmao, people give me the nickname three eyed cat, you can call me boss Huang, or you can call me yellow God cat!"

When Huangshan Mao mentioned his name, he felt a little smug.

Lin Yi immediately thought of the couple, the Beauty and the Beast, the couple-it seemed that the Tianji continent really liked nicknames! Of course, Huang shanmao could not be compared to Meng buzhuai and Yan Wuming. The difference between the two of them was like heaven and earth!

But what the hell was this three-eyed cat? I don't see him having three eyes. To say that he had good eyes was bullshit!

He couldn't even see through the true strength of the recruited team members, so how could his eyesight be good! It's more like he's blind!

"So it's three eyed cat boss Huang, I've long heard of you! It's our honor to be able to follow boss Huang's team!"

Lin Yi didn't have to hide the fact that he'd never heard of the three eyed cat, but he'd have to act as if he'd heard of it.

Huangshan Mao thought that he was really famous, and nodded with a proud expression, "It's good that you know. In the future, if you work hard, we brothers will not mistreat you. In the future, we will all be on the same side. Let's go and get to know the other brothers first. We still need to recruit one more person. "

Chapter 9049

Lin Yi and Qin wunian went along with the flow and introduced themselves to the other members. The older members didn't show much enthusiasm, only nodding in greeting.

Only the newly joined unspecialized practitioner seemed to be more friendly towards Lin Yi and Qin wunian, probably because they felt that their strengths were similar and the situation was the same, so they wanted to sign up and form a small group.

Lin Yi's attitude was one of being friendly and cold at the same time, so he got along quite well with Shi Gandang.

Seeing that this adventurer team only had one quota left, the people who had been watching finally couldn't bear it anymore. Three martial artists expressed their willingness to join in succession. Two of them were at the consummate level of mountain split, and one was at the middle stage of earth split.

In the end, Huangshan Mao chose a cultivator at the consummate level of the mountain opening realm. As expected, he was choosing people based on the standard of cannon fodder. If he really wanted to strengthen his strength, he would definitely choose a middle stage earth opening realm cultivator.

The mid-stage earth-splitting cultivator didn't have any objections to this choice. In fact, he even seemed to have realized something. He sneered and left.

"Alright, everyone's here. Let's set off immediately and leave meteorite town!"

Huangshan Mao called everyone to get on their horses and said, "Have you all prepared your supplies? The party has reserves, but if you consume the party's reserves, it will be deducted from your share when we distribute the harvest later. Therefore, it's best for you to prepare in advance so that you don't feel like you're at a disadvantage. "

The original members were all prepared, and Huangshan Mao's words were directed at the four new members. With so many fighters entering the town, it wasn't just the mounts that were being fought over-the other resources were also being fought over.

It was already very difficult for them to obtain enough pills and equipment in meteorite town.

And so, Lin Yi and the others said they were ready, and Huangshan Mao nodded, leading the way out of meteorite town and into the wilderness.

After leaving the city, he could still see some teams of martial artists advancing in the surrounding area. However, they all maintained a sufficient distance to avoid misunderstandings and conflicts.

Huang Shan Mao rode his horse slowly and turned back to his team members, "I don't need to say anything about our target this time. Everyone in the entire heaven's legacy continent already knows about the news of the ink Star river's appearance."

"We don't expect to obtain any core benefits from the Black Star River. Those are the things that the big shots of the heaven breaking and sea splitting stages are fighting for. Our team is just going to the periphery of the Black Star River to try our luck. If we can obtain some water from the Black Star River, we'll have made a big profit!"

"So, in terms of the degree of danger, as long as we don't touch the cake of the big shots, there shouldn't be much danger. Our main target is the team similar to ours."

"Besides the star Ink River, we will definitely have other benefits along the way. As for how to distribute them, we will have detailed rules. The vice-captain will explain this to you clearly."

The vice-captain that Huangshan Mao mentioned was the second strongest cultivator in the team. His name was Jin ziduo, and his strength was at the late stage of earth creation. He had a nickname, universe thunderclap, and was much more imposing than the three-eyed cat. It was obvious that his martial arts were extraordinary.

Jin ziduo's figure was thin, and his nickname was far less imposing. However, his expression had always been very arrogant, as if he didn't like anyone except Huang shanmao.

"The distribution plan is very simple. We're working as a team, so any gains will be recorded into the team's income and then distributed!"

"Along the way, we will definitely encounter some darkness spirit beasts and darkness demon beasts, as well as find some precious medicinal herbs, ores, treasures, and so on. These will all be distributed according to the rules."

"First, let's talk about the basic distribution. One-third of the harvest will be divided into twelve portions. All of us can get a portion. This is the most basic income, and everyone who joins the team will get it!"

"As for the remaining two-thirds, we'll split it into ten portions. Boss Huang and I, as the team leaders, can each get a fixed share of the leader's benefit."

"Then, the main contributors will get two shares of the benefits. The members who contributed more will get three shares, the members at the earth-opening stage will get two shares, and the members at the later stage of the mountain-opening stage and below will get the last share."

"All of the distribution can be stacked if the conditions are met. For example, if I, Jin ziduo, killed a darkness demon beast, and two people helped me, I would be able to get more benefits."

"This includes basic income, fixed leader income, main contribution income, and member income during the land creation period. As for secondary contribution income, it won't be distributed."

"As for the two who contributed more, they are ordinary members during the earth-creation stage. They can only get the basic benefits, secondary benefits, and the benefits of the earth-creation stage members. If that's the case, does everyone understand?"

Jin ziduo's distribution plan was clear and detailed, without any obvious flaws. The only one who was targeted was probably Lin Yi!

The strength Lin Yi displayed was in the middle stage of the mountain opening stage, and other than the basic benefits, there wasn't even a share for the members of the mountain opening stage. Unless they were able to contribute during the process of obtaining the spoils, they would only get one-thirty-six percent of the overall benefits!

Of course, Lin Yi didn't care at all-he wouldn't even want to have all the loot he could get during the earth formation stage!

Jin ziduo glanced at Lin Yi, intentionally or otherwise, after he finished talking about the distribution plan."No one has any objections to this plan, right? If you have no objections, we'll do as you say!"

It looked like he was asking for opinions, but in fact, it was like he was issuing a notice. He didn't give anyone a chance to object.

The original team members must have been used to this distribution plan, and the four new members did not have much say. They were all martial artists in the beginning stage of their mountain cultivation, so they did not have the guts to resist Jin ziduo.

And compared to the unluckiest Lin Yi, the others would at least get a share of the loot-having someone at the bottom would definitely make them feel better.

Of course, Qin wunian wasn't gloating at Lin Yi's misfortune, but they were just freeloaders. It didn't matter if there was profit or not, as long as it was a profit, they weren't picky about how much it was.

"Very good, it seems that no one has any objections, but it's decided! Sima Zhongda, you're the weakest in the team. If we encounter a battle, I don't expect you to put in much effort. I only hope that you won't drag the team down!"

Jin ziduo even called out Lin Yi's name at the end,"You can take on more of the trifle matters outside of battle. After all, the team will split a portion of the profits with you, so you should at least make some contributions. Our Guild doesn't feed idlers, so you should pay more attention to yourself!"

Chapter 9050 The Power Of The Divine Realm

It was normal for the vice-captain, Jin ziduo, to step out and teach a lesson to a newcomer, but Lin Yi was the target. Was it Huang shanmao's idea, or did he just think that Lin Yi was the weakest and could be toyed with?

Lin Yi only laughed at the level of provocation, not taking it to heart. It was like a son who hadn't even gone to kindergarten telling his father that the house shouldn't feed idlers-he couldn't possibly be angry at his son, could he?

Jin ziduo wasn't satisfied with Lin Yi's reaction and said impatiently, "Sima Zhong da, I'm talking to you, but you didn't even react. Do you think you're very impressive? Are you looking down on me, the vice-captain?"

"Vice-captain Jin, you must be joking. I agree with what you said. I've noted it down!"

Lin Yi didn't want to cause any more trouble and couldn't be bothered to argue with Jin ziduo. If this guy didn't let him go and continued to show off his power, it would be hard to say what would happen when he got tired of it!

At this moment, Huangshan Mao opened his mouth to smooth things over, "alright, since everyone is clear on the distribution plan, then let's start speeding up!" There's still a long way to go. I've heard that the heavenly comet's trail has already passed the setting sun City and the ink Star River could open at any time. We have to hurry. "

He and Jin ziduo, one red-faced and one white-faced, had beaten the newcomers and established their prestige at the same time. Then, they threw out goals to gather the morale of the people. They really had many means.

Lin Yi's heart skipped a beat when he heard the name-what an unexpected gain!

As expected, Daniya was on this route and had appeared near luori city. As experts of the heaven breaking and sea splitting stages, their speed was naturally not something that mountain splitting stage cultivators could compare to.

He didn't know where Daniya would be by the time he got to luori city.

Speaking of which, these Warriors who wanted to go to the star Ink River to try their luck couldn't have been targeting Daniya and using her as their target to find the star Ink River, right?

Did they misunderstand and think that the place where Daniya appeared would have clues to the Stardust River?

This mistake was a little too big! How would Daniya know the location of the Stardust River? She didn't even touch the device when she separated from Lin Yi.

However, Lin Yi didn't mind. It was a good thing to be able to find Daniya. He could leave the star Ink River for later. It wouldn't be too late to find it after he met up with Daniya.

Huangshan Mao took the lead and began to speed up. The others also galloped in the direction of setting sun City.

At dusk, the group found a place in the wilderness near a stream to set up camp. It was far from the town and could be considered a dangerous area.

When night fell, there might be darkness spirit beasts or even darkness demon beasts in the vicinity. If a martial artist below the mountain opening stage set up camp in this kind of place, they would definitely end up without even a corpse the next day.

Huang Shan Mao's team had earth formation stage cultivators, so they weren't afraid of the darkness demon beasts in the wilderness. However, they still had to make the necessary preparations.

"sima zhong da, go and dig some trenches and traps, and then think of a way to make some warning devices to avoid being attacked by the darkness magical beasts at night. you are the weakest one, so you can take on these trivial matters on your own in the future. don't always wait for me to tell you to do them!"

jin ziduo ordered lin yi to do the hard work as soon as he got off the horse, treating lin yi as the team's coolie.

lin yi's lips twitched. if there really was a dark beast coming at night, normal alarms wouldn't work!

the darkness demon beasts were quite intelligent, and their vision, hearing, and smell far exceeded that of humans in the dark. traps were a joke.

the only thing that could really defend against the dark beasts "attacks was formations. jin ziduo asked lin yi to do the hard work because he had nothing better to do. at most, he would be guarding against some normal beasts.

in front of a mountain split stage martial artist, what was an ordinary wild beast? was he delivering food to the door?

Lin Yi didn't mind Jin ziduo making things difficult for him, but he didn't really want to do the hard work. He took out some formation flags and said, "I know how to set up formations. Let's set up a defensive formation at the side. It's much better than traps and trenches."

These array flags were also placed in his storage bag to keep up appearances. Their quality was relatively low and they were not good goods.

An array master was a must in an Adventure Team, and Huang shanmao's team had a fixed array master. Jin ziduo was planning to wait for Lin Yi to finish his work before getting the array master to set up another one, but he didn't expect Lin Yi to know how to set up an array.

"Oh, you're an array master? I really couldn't tell! You're not as useless as you think you are! Let's see your performance then!"

jin ziduo raised his hand, signaling for lin yi to start setting up the formation.

although the team already had a fixed array master as a teammate, it was definitely not a bad thing to have another array master! if lin yi could really show his value, jin ziduo would immediately change his attitude towards lin yi.

it was still the same sentence, on the sub-island, strength was king!

lin yi replied and started putting the formation flags in a serious manner. jin ziduo shook his head and laughed in disdain.

"just this? he's only at the level of an array apprentice, right? i thought he would at least be a low-level array master ... trash is indeed trash!"

Jin ziduo smiled and turned his head, no longer looking at Lin Yi setting up the formation step by step. Not mentioning the speed of completion, the formation he set up was also the simplest one, the alarm formation.

It was indeed a little better than trenches and traps, but it was just a little bit. It was not even worth mentioning!

"Vice-captain Jin, don't be too harsh. It's already very good for a young man to have such an array Dao standard!"

The array master in the team had a proud look on his face. He had thought that someone would threaten his position as an array master, but it seemed that he had been overthinking.

A mere apprentice-level trash was not worth taking to heart!

The others all had different feelings. Some were relieved, thinking that Lin Yi's sudden rise in status wouldn't threaten them, while others were a little disappointed. After all, if the team became stronger, they would be safer and more confident in their future operations.

Qin wunian was the only one who thought that something was off. She didn't know that Lin Yi knew how to set up formations, but she'd seen these low-level formation flags when she was looking through her storage bag, and she'd had her suspicions. But the way Lin Yi was setting up the formation felt a little off, as if he was putting on an act ... Could she have been overthinking it?

No matter what, Lin Yi had spent some time setting up the alarm formation, so he didn't need to waste any more effort on digging trenches and traps.

The other array master in the team did not set up a defensive array either. The night in the wilderness was very dangerous for martial artists below the mountain opening stage. To them, as long as they were prepared, there would not be any problems.

A simple alarm array was enough.
