

Bodyguard 9051

Chapter 9051

After tidying up the temporary camp, they lit a bonfire, barbecued, and drank together. The team seemed to be very happy.

Lin Yi sat in a corner, keeping a low profile. He was happy to have no one to disturb him, but Qin wunian was very popular. After all, she was a pretty lady with the aura of a noble family's daughter. With her long sleeves and dancing, it was hard for her not to be popular.

Comparing the two, Lin Yi naturally received even less attention.

Lin Yi casually ate a piece of meat, thinking about where Daniya was and where the star Ink River would appear. He didn't seem to notice the noise around him.

But Lin Yi's spirit sense had been observing the surroundings the whole time, and it had a wider range than the warning formation. Because of that, Lin Yi noticed the few darkness beasts in the surroundings immediately.

The night demonic Wolf was a very common darkness demon beast in the wilderness. To be more precise, it was a darkness demon beast that had evolved from a darkness spirit beast. Its strength was basically at the mountain opening stage and above.

This time, a small pack of darkfiend wolves had come to ambush them. There were a total of 12 wolves, which was the same number as the adventurer team.

In terms of strength, the alpha Wolf had also reached the late stage of earth split. Seven other wolves had also reached the earth split stage, and the remaining four wolves were also at the peak of the late stage of mountain split and the consummate level of mountain split.

It was even better than the composition of the adventure Team! Of course, this didn't include Lin Yi's team composition. If Lin Yi wanted to attack, he could kill the wolf Pack with one hand.

The head Wolf of the pack was quite intelligent. It approached quietly from the dark and stopped at the edge of the warning array. After confirming that it was only a warning array and that there were no other hidden means, it directly led its Wolf Pack to launch a full-force attack!

The warning array was broken in an instant, and after the alarm was sounded, it died. The adventurer team was immediately alarmed and got up to face the enemy.

The Wolf Pack's attack speed was very fast. The warning array was about a hundred steps away from the camp, but when the alarm came, the Wolf Pack was already close.

They were really as fast as the wind and as fast as Thunder. Those who reacted slowly would probably not survive the first sneak attack of the wolves.

Fortunately, the core members of this adventurer team were very experienced and could be considered to be battle-hardened, so they reacted the moment they received the alarm.

The original eight members of the team had formed a battle formation at the first moment, resisting the attack of the twelve night demonic wolves. They were not at a disadvantage at all.

"Newbies, protect yourself well. If you have time, you can work together to earn some profit!"

Jin ziduo laughed and said, not putting the group of night demonic wolves in his eyes at all.

The two newly joined martial artists were a little dumbfounded. Their reactions were a little slower, and when they realized that they had been ambushed, they realized that they could not intervene.

However, since Jin ziduo had already spoken, they would just wander outside the battle formation and sneak attack the weakest night demonic Wolf. Regardless of whether it would be effective, it would be considered as helping.

Qin wunian glanced at Lin Yi, his eyes questioning. Lin Yi shrugged, indicating that he wasn't going to participate. She didn't say anything and followed the two newbies to the outer ring.

Lin Yi, on the other hand, held his knife and didn't want to join the fight at all. He just stood outside the ring and watched.

The pack of night demonic wolves realized that their prey was unexpectedly strong. The head Wolf let out a long howl and started to retreat with its subordinates. Huang shanmao commanded the battle formation to pressure them and followed closely. He had no intention of giving up.

There were still many valuable things on the darkness demon beasts. When the adventure Team had nothing to do, they would also hunt darkness demon beasts to make money. Now that they had encountered a night demonic Wolf, it would be strange if they didn't seize the opportunity to make some money.

The pack of demonic wolves was completely suppressed by the adventurer team's battle formation. Although the battle formation was full of flaws to Lin Yi, it was almost impossible for the pack of demonic wolves.

They had no choice but to retreat with all their might. The head Wolf brought the ground opening stage night demonic Wolf and attacked with all their might to cover the mountain opening stage night demonic Wolf's retreat before retreating.

In the middle of the fight, the two sides moved hundreds of meters. The night demonic Wolf's mobility was even stronger. Seeing that it was about to break away from the battle formation, the gold Daggers suddenly emerged from the formation. The great spear in his hand swept in all directions. Relying on the support of the battle formation, he forcibly scattered the night demonic Wolf's neat formation.

"Hahaha! A bunch of bastards dare to be so arrogant in front of me! Since you're here today, don't even think about leaving! All of you, stay!"

The Golden Bellucci's momentum increased sharply, further forcing the pack of night demonic wolves to scatter. The teammates around him also charged forward with all their might, helping him split up the night demonic wolves.

The head of the night demonic wolves howled again and charged left and right for a while. Relying on its own tyrannical strength and speed, it helped the other few ground opening stage night demonic wolves resolve their crisis and then broke out of the encirclement.

The six ground-opening stage night demonic wolves followed him to break out of the encirclement, leaving the five weakest night demonic wolves howling in unison and desperately blocking the way, buying time and space for the alpha Wolf and the ground-opening stage night demonic wolves.

Jin ziduo laughed out loud. The sound waves rolled and actually suppressed the howls of those wolves. His great spear moved up and down, stabbing and provoking. The spear flowers were numerous. Relying on the support of the battle formation and the support of his companions, he killed five Darknight demonic wolves in succession!

Unfortunately, the seven wolves that had broken out of the encirclement had already gone far away. They stood on a slope and looked back. They howled at the sky in unison, mourning for their dead companions who had brought up the rear.

Lin Yi could feel the sadness and hatred in their howls. Wolves were vengeful creatures, and night demonic wolves were more intelligent than humans. They would definitely come for revenge if they had the chance.

However, the adventurer team had already shown their strength. Before the night demonic wolf group was certain of their victory, they would only wander around and wait, and would not come to die again!

"Vice-captain Jin is mighty! We've killed five night demonic wolves in one go. This time, we can also benefit from this!"

one of the new martial artists smiled and went up to compliment him. "boss huang and the other brothers are also very strong. it's our honor to be able to join the team!"

as he spoke, he took the initiative to pack up his prey and drag the dead night demonic wolf back to the temporary camp.

jin ziduo's face was full of pride, but he didn't forget to be modest, ""it's everyone's credit that we were able to kill these darknight demonic wolves. if it wasn't for the battle formation's support, we wouldn't have been able to defeat this pack of darknight demonic wolves so easily!"

"so, although i'm the one who killed the prey, the main credit this time won't be counted. the eight of us are the main credits. you newbies can count it as secondary credit. i'll give you more profit in the first battle after joining the team. just treat it as a good start!"

Chapter 9052

"Thank you, boss Huang! Thank you, vice-captain!" The martial artist who was dragging the prey was overjoyed.

This fellow was a quick-witted one. Although Jin ziduo was the one who said those words, Huangshan Mao was the team leader. Hence, when he thanked Jin ziduo, he did not forget to mention Huangshan Mao first.

Shi Gandang was a little scared, but since there were benefits, he naturally followed suit and expressed his thanks. Qin wunian thanked him with a smile, but he didn't think much of it.

She was just a freeloader, and God knew when she would have to part with them. No matter how much profit she had, she might not be able to get it!

As for Lin Yi, he didn't even make a move from start to finish, just watching the show from the sidelines. He definitely didn't get a share of the profit, at most a basic share.

Jin ziduo mocked Lin Yi as soon as he got back to camp, "You guys are not bad. At least you helped. Let's not talk about whether you were of any help. At least you had the intention."

"Unlike some people, they don't even have the courage to make a move. I'm afraid they're too scared to move? This kind of person doesn't even have the right to enjoy the basic benefits. He's really nothing!"

"Although we're all on the same side after joining the team, I've also said that our team doesn't support idle people, especially those who don't have courage and don't know how to advance and retreat with their companions. They're really weak!"

"If you have some self-awareness and know that you really can't do it, then quickly quit! It won't look good if we chase them away!"

It was obvious that Jin ziduo wanted to kick Lin Yi out of the team!

Lin Yi smiled faintly, "with boss Huang leading everyone to form a battle formation, it's more than enough to deal with those night demonic wolves. For someone with low strength like me, I'll only get in the way if I go up. It'll be troublesome if I affect the operation of the battle formation."

"Just as vice-captain Jin said, we should know our own limits. I know that going up will cause trouble, so of course I have to stay by the side obediently. Not causing trouble is the best help. Boss Huang, isn't that the truth?"

Huangshan Mao snorted, his face filled with disdain, "What you said makes sense. I'll let it go this time, but if you're afraid of battle again, our team really can't keep you!"

He didn't have a good impression of Lin Yi, either. He let Jin ziduo mock and suppress Lin Yi as he pleased along the way to get rid of Lin Yi.

He spoke up for Lin Yi occasionally, but it was just to make sure Jin ziduo had the right to speak.

"I understand! Then, even if I cause trouble next time, I'll still fight forward bravely. Don't worry, yellow boss!"

Lin Yi smiled faintly and casually cupped his hands to Jin Duoduo. He then took out the low-level formation flags and set up the alarm formation.

Qin wunian smiled at Huang shanmao and Jin ziduo. ""Boss Huang, vice-captain Jin, although Sima Zhongda did not participate in the battle, the alarm array he set up played a role and gave us some time to react. It's a contribution, right?"

"That's why I said that Sima Zhong da isn't completely useless. Our team has different responsibilities. The two of you are magnanimous. Give Sima Zhong da more time and he will definitely show his worth."

It would have been fine if Qin wunian didn't say it. Now that he said it, Jin ziduo was even more disdainful."With just his apprentice-level formation techniques? What use could it have? But forget it, for your sake, we'll be more lenient with him. "

Huangshan Mao's face was full of mockery,"you still say he's useful? what's the use of relying on a girl to speak up for him?" It was simply laughable! If it wasn't for your face, I wouldn't have accepted this kind of person into the team. I hope he'll take care of himself in the future and won't let you down!"

Lin Yi didn't know what was wrong with these two, either. They were just playing nice before, and now they were mocking him for the sake of Qin wunian ... Could it be because of Qin wunian that they were even more hostile towards him?

It didn't seem unreasonable-since ancient times, beautiful women were often plagued with trouble. These two had their eyes on Qin wunian, so the more Qin wunian protected Lin Yi, the more they viewed him as an enemy. It made sense!

Lin Yi didn't care what the reason was-it was just a little taunt, and it didn't really hurt. He wouldn't kill them for that, would he?

After setting up the alarm, Lin Yi returned to the fire and said to Huang shanmao,""Boss Huang, the formation is done. To ensure safety, do we need to set up a proper defensive formation?"

Lin Yi, of course, wasn't the one to set up a proper defensive formation-it was the formation master in the team who had to do it. Lin Yi had to maintain his formation as an apprentice, so he couldn't set it up himself.

Huangshan Mao didn't say anything and Jin ziduo laughed, "There's no need to go through so much trouble. That group of night demonic wolves should be the strongest darkness magical beasts in the wilderness of this area. There shouldn't be any more powerful darkness magical beasts in their territory,"

"Half of them are dead. The remaining seven wolves managed to escape and will not dare to come back for revenge. So, an alarm array is enough. Of course, we must keep watch at night."

"Sima Zhong da, I'll leave tonight's Night Watch to you! Do it well and don't be careless! You won't be of much help in battle, but at least you have to keep watch properly!"

Normal formation Masters weren't as fast as Lin Yi-they could set up formations with just a wave of their hands. Lower-level formation Masters needed a lot of time to set up even a defensive formation.

After the setup was completed, there was a break in between, and then they had to spend more effort to remove the formation and put away the formation flags. It was indeed a more troublesome thing.

Under the premise of ensuring that they would not encounter any danger, the team's array master was indeed too lazy to make a move. It was too troublesome. With the early warning array and arranging for people to keep watch, it was enough to deal with it.

Of course, this was also Jin ziduo's little trick to make things difficult for Lin Yi. Under normal circumstances, even if he arranged for people to be on night duty, they would take turns. Now that he only appointed Lin Yi, his intention was clear.

lin yi shrugged nonchalantly, "alright, i'll keep watch. everyone's been fighting hard. it's only natural that we get a good rest!"

jin ziduo smiled sarcastically, thinking that lin yi was easy to bully. however, he couldn't do anything about it anymore. if lin yi could resist, he could still use it as an excuse, but he could only give up now.

"at least you're tactful. then it's decided!"

he thought that he'd taught lin yi a lesson, but he didn't know that lin yi just didn't want to waste time with him. he didn't care about the night watch at all.

martial artists did indeed need to rest, but if they really wanted to keep up, not sleeping for a few days wasn't a big problem. the reason why they had to set up camp at night, other than adjusting their condition to their best, was also to avoid encountering darkness magical beasts in the wilderness.

Chapter 9053

Darkness magical beasts were the most powerful at night, and it was much more dangerous to encounter them in the wilderness than to be on guard at the same place!

Lin Yi preferred to watch the stars in the sky when he was on Night Watch alone, rather than wasting his time with Jin ziduo.

Qin wunian thought that Lin Yi and her were teammates after all, and Lin Yi was her Savior. It wasn't good to just leave them be. "You'll keep watch for the first half of the night, and I'll take over for you for the second half, okay?"

"No need. You haven't fully recovered from your previous injuries, right? Rest well and don't worry about The Night Watch. It doesn't make a difference whether I sleep or not. Besides, he's right. After the night demonic Wolf escaped, it probably won't come back tonight. You should rest in peace and recover as soon as possible!"

Lin Yi rejected Qin wunian's good intentions and hinted to her that she should recover soon so that she could decide whether to stay or leave.

Qin wunian gave it some thought and nodded. ""Alright! I'll listen to you. If you feel tired, you can call me up at any time to take your place. My injury is actually fine, so don't worry. "

"Alright, I got it! Let's just say it like that so as not to attract their attention!"

Lin Yi insisted on keeping watch alone, and Qin wunian didn't say anything more.

Nothing happened that night. The night demonic Wolf wouldn't launch a second attack if it wasn't confident. Lin Yi spent the whole night looking at the stars and studying the power of the stars in his mind, but he got nothing.

In the early hours of the morning, the sky was almost bright, and the temporary camp was bustling with noise. Everyone packed up and set off again on their horses.

Qin wunian leaned closer to Lin Yi and whispered, ""Are you tired? I've completely recovered. If you don't like staying here, we can find a chance to leave!"

When he left, he would also take the black Spirit Ferghana horse and let Huang shanmao and the others suffer in silence. It was quite interesting.

"I'm fine, I'm not tired! Anyway, it's on the way, so we'll go together for the time being. If we want to leave, we'll still have to take this road, so there's no need to create more trouble. "

If Lin Yi was alone, he could just leave. But with a burden like Qin wunian, he probably wouldn't be able to outrun Huang shanmao and the others. It'd be a waste of time if he kept on tangling with them. It'd be better to avoid unnecessary trouble. He'd follow them to find Daniya first!

"Oh," Qin wunian replied. "Alright, we'll do as you say!"

Jin ziduo turned around and saw Lin Yi and Qin wunian mumbling to each other. He sneered, ""The people behind, hurry up and catch up. You're the last to fight, but you're also the last to travel? Can't you be more shameless?"

Lin Yi frowned. He couldn't be bothered to argue with a small fry like him, but getting mocked from time to time wasn't a good thing!

It was just like how an adult wouldn't stoop down to the level of a child, but when a naughty child kept finding fault with them, the adult couldn't help but want to teach them a lesson.

Jin ziduo was like a naughty kid, constantly testing Lin Yi's patience and madly testing the edge of death. He didn't know what would happen to him if he really pissed Lin Yi off!

Fortunately, Huangshan Mao started to play the Red face and white face game again. He turned his head and said indifferently, "Everyone, focus your attention and hurry up! Time is of the essence. If we are late, we might miss the banquet at the star Ink River!"

This was Lin Yi's way out of trouble. Jin ziduo hmphed and turned his horse around, no longer mocking Lin Yi.

Lin Yi's lips twitched. Since it's over now, let's just forget about it!

They didn't say a word along the way, and the group advanced at full speed. By afternoon, they entered the forest area. Although there were paths made by stepping, it was still inconvenient in the dense forest, and their speed had been reduced by a lot.

"Everyone, stay alert! The danger factor in the forest is relatively high, and darkness magical beasts may appear at any time, especially those clans that are good at hiding. They like to launch sneak attacks in this kind of dark environment!"

As the team leader, Huangshan Mao walked at the front. At the same time, he did not forget to remind the others, "Pay more attention to the positions of the two wings, as well as the area above. New members, be more vigilant. Sometimes, when there is danger, we don't have the time or opportunity to help. Everything depends on you!"

The senior members all had a tacit understanding and were in charge of certain things under certain circumstances. They didn't need Huang Shan Mao to give them any instructions. Only the four new members, who hadn't integrated well with the team, had some advice.

"Yes!"

"Understood!"

The four of them, including Lin Yi, agreed. They weren't fully integrated with the team yet, but they were all experienced fighters, and understood this.

Unless they were ambushed by a stronger darkness magical beast, their defenses wouldn't be a problem under normal circumstances.

They had not walked far into the forest when they suddenly smelled a faint fragrance.

"Stop!"

Huangshan Mao raised his hand and the twelve Black Spirit Ferghana horses stopped. Huangshan Mao sat on the horse and sniffed the air carefully, "Does anyone smell something? It seems like ... Some kind of spirit herb has matured?"

"Indeed! I can smell it too!"

Jin ziduo nodded and then looked at The Alchemist in the team, "Sixth brother, you're an expert. What do you think?"

The Alchemist called sixth brother closed his eyes and sniffed a few times, revealing an ecstatic smile, ""There's no mistake! It was the fragrance of the nine leaf red gold ginseng! He didn't expect to find such precious spirit herbs here! We're in luck!"

The nine-leaf red gold ginseng was a body-tempering treasure that could be used by Warriors at the sea shattering stage. Even if it was not used to refine pills, it would still have a very good effect.

This kind of natural treasure had always been in demand, but not in the market. If they took it to an auction, they could make a lot of money. If an adventurer team could find a nine-leaf red gold ginseng on a normal day, they wouldn't need to work for a year!

Therefore, when sixth brother said that this was the fragrance of the nine-leaf red gold ginseng, Huang shanmao, Jin ziduo and the rest's eyes lit up and their faces were filled with excitement.

The Black Star River was nowhere to be found, but the nine leaf Scarlet Gold ginseng was already right in front of him!

"Go! Let's follow the scent and look for it!"

Without another word, Huangshan Mao turned his horse around and galloped towards the side. There was no road there, but that didn't mean that it couldn't be taken. There was no road in the dense forest, but with so many people taking it, it naturally became a road. Huangshan Mao felt that he might be able to step out a road for future generations to walk on!

Lin Yi frowned. Nine-leafed red gold ginseng? The fragrance was indeed similar, but it was too optimistic to conclude that it was a nine-leaf red gold ginseng!

There seemed to be some other scent hidden in the depths of the fragrance, but he was not sure what it was.

The team followed Huang shanmao into the depths of the forest. The Black Spirit Ferghana horse was a dark spirit beast, so it did not have much of a problem passing through the forest. Its speed could not be compared to that of a plain, but it was enough to satisfy the rider.

Chapter 9054

After running for two to three li, the fragrance of the nine leaf red gold ginseng became more and more intense, and the joy on the faces of Huangshan Mao and the others also increased.

For the time being, they didn't find any traces of other humans in the surroundings. Although there were many martial artists participating in the fight for the Black Star River, their team's luck seemed to be the best. When the nine leaf Scarlet Gold ginseng ripened, there were no other competitors!

"We're very close. Don't let down your guard. Everyone, stay on high alert!"

As the captain, Huangshan Mao did his job well and didn't let the victory get to his head. The closer he got to the nine leaf red gold ginseng, the more cautious he became.

The crowd responded in unison, forcefully suppressing the excitement in their hearts. They followed Huang shanmao and slowed down their horses, approaching the source of the fragrance step by step.

Soon, everyone saw the source of the fragrance. Under a huge tree, there was a red-gold plant that was Three Palms tall, swaying gently. The plant had a total of nine red-gold leaves, and at the top of the center was a small flower, which was also red-gold in color.

However, the fragrance did not come from the red-Golden Flower, but from the dried ginseng that was exposed at the bottom of the plant. The rich fragrance was emitted from the dried ginseng, and anyone who smelled it would feel relaxed and happy. Even their cultivation realm showed signs of loosening up.

"It's indeed a nine leaf red gold ginseng! That's great! Boss Huang, we're in luck this time! The nine leaf Scarlet Gold ginseng has just ripened. Even if we split it among all of us, it'll be enough to increase our strength!"

The sixth brother rubbed his hands excitedly, wishing he could immediately pounce over and dig out the nine leaf red gold ginseng!

"Sixth brother, start digging the nine leaf red gold ginseng. Everyone else, be on guard! Where there are heavenly treasures, there will definitely be magical beasts guarding it. There might even be a very powerful darkness magical beast here, so you must be careful!"

Huangshan Mao didn't let the harvest get to his head, and began to methodically lay out the defenses. The nine leaf red gold ginseng was already in their bag, and now they had to make sure that no other people or darkness magical beasts would interfere!

"Yes," sixth brother replied and jumped off his horse to the bottom of the tree. He began to dig the soil around the nine leaf red gold ginseng carefully. The others formed a defensive circle and surrounded sixth brother and the nine leaf red gold ginseng.

The digging process was very smooth. Although sixth brother was very careful, it only took him seven or eight minutes to dig out the entire nine leaf Crimson Gold ginseng.

The nine-leaf red gold ginseng was as thick as a child's arm and was about a palm and a half long. It was completely red and gold in color, and after it was all unearthed, its fragrance became even stronger. Huangshan Mao and the others were even more careful, afraid that the fragrance would attract powerful human warriors or Dark Demon beasts.

However, it seemed that luck was on their side. No enemies had appeared from the beginning to the end. Sixth brother successfully dug out the nine leaf red gold ginseng, and his heart was filled with unspeakable excitement.

"Boss Huang, we did it! To prevent any accidents from happening, let's split up now?"

Sixth brother didn't want to wait and looked at Huangshan Mao with a fervent gaze, ""Although it's more efficient to concoct pills, our goal this time is the Black Star River. Concocting pills is a waste of time!"

"Directly consuming the nine-leaf Scarlet Gold ginseng can also greatly strengthen the body and increase one's strength. What we need to do now is to increase our combat strength. It's a good thing that we've seized the initiative in the battle for the Dark Star River. It's the perfect time to consume the nine-leaf Scarlet Gold ginseng!"

If there wasn't anything important, directly consuming the nine leaf Scarlet Gold ginseng would be a waste of heavenly and earthly treasures. However, in order to compete for the resources of the star Ink River, there was absolutely no waste!

Since he didn't have the time to refine pills, it didn't matter if he wasted some of the medicinal power. If he could increase his strength and obtain a chance of victory in the later operations, everything would be worth it!

Huangshan Mao nodded, "that makes sense!" There's actually no magical beast guarding the nine leaf Scarlet Gold ginseng. This doesn't seem very possible. Let's leave this place first, move to a safe place, and divide the nine leaf Scarlet Gold ginseng!"

"However, I have to say this first. The nine-leaf red gold ginseng is the most effective for earth-splitting cultivators. Even sea-splitting cultivators can't underestimate its efficacy."

"However, for mountain split cultivators, the nine leaf red gold ginseng's medicinal effects are too strong. It's very likely that they won't be able to withstand it and die from an explosion. Therefore, the nine leaf red gold ginseng will not be distributed to the mountain split cultivators this time!"

"When we return, the team will convert it into other income to make up for the share of the mountain opening stage martial artists! You guys don't have any objections, right?"

Huangshan Mao looked at the mountain split cultivator indifferently. The old members wouldn't have any objections, of course. He wanted to see what Lin Yi and the other three new members thought.

If a newcomer wanted the nine-leaf Crimson Gold ginseng and even asked to share a portion, he might just turn hostile!

Shi Gandang and the other mountain-opening newbie martial artist immediately expressed that they had no objections and would follow the captain's arrangements. Although Qin wunian was a little moved, he wouldn't stand up and ask for a rebuff at this time, so he echoed the captain's words.

Lin Yi was the only one left!

"Sima Zhong da, do you have any problems with my arrangements?"

Huangshan Mao stared at Lin Yi, "If you have a different opinion, you can bring it up. We will definitely consider it properly!"

Lin Yi muttered to himself before smiling. "I don't have any objections to the distribution plan, but I see that there's something wrong with this nine leaf red gold ginseng. Are you sure you want to immediately divide it? I'm afraid that whoever eats this will die of poisoning!"

Sixth brother's face sank and he snorted coldly, "what do you mean?" Are you questioning my skill? Don't tell me I don't even know if the nine leaf Scarlet Gold ginseng is beneficial or poisonous?"

Although he was not a Grandmaster Alchemist, he was still a diamond Alchemist, which was a very high rank!

Putting aside his skills in refining, his ability to identify herbs was not to be underestimated. Lin Yi's claim that the nine leaf red gold ginseng was poisonous was a question of his professional abilities. It wasn't too much to fall out with him on the spot!

Sixth brother's face only sank, which was already considered very cultured. Jin ziduo, on the other hand, was not so easy to talk to. He sneered and ridiculed on the spot, ""What do you know, you trash? Could it be that you're also an alchemy Grandmaster? then we've been disrespectful!"

"Tell me the truth. You've lived for so long, but have you ever seen a treasure as precious as the nine leaf red gold ginseng? I'm afraid I've never seen it before? You really don't know sh * t, but you still like to come out and show off!"

"Fine, I'll give you a chance. Tell me, what's the poison in this nine leaf red gold ginseng? If you can tell me the truth, I'll forgive you this time. "

"If you can't come up with any reason and still dare to talk nonsense here, don't blame me for being merciless. Today, I won't tolerate a villain and trash like you who deludes the masses with your lies!"

Jin ziduo's words were full of threat, and his eyes looked at Lin Yi as if he was looking at a dead man, ready to fight at any moment.

Chapter 9055

Lin Yi shrugged, "ha ... I'm not a Grandmaster, and I've never seen the world before. I'm only reminding you because we're teammates!"

"Believe it or not, it's up to you. Anyway, I don't have a chance to eat this thing. You can eat it if you like. It doesn't matter to me whether it dies or not!"

Qin wunian looked at Lin Yi suspiciously. She was well-versed in medicine and medicine, and while she wasn't an Alchemist, she was an expert in medicine.

If it weren't for that, she wouldn't have dared to set Lin Yi up in the three step soul-breaking forest. Of course, it was an accident that she ended up getting caught in the trap ...

No matter what, in Qin wunian's eyes, there was no problem with the nine-leafed red gold ginseng. She thought the same as Jin ziduo and the others, thinking that Lin Yi was just making things up because he couldn't get a share of the nine-leafed red gold ginseng.

She didn't think there was anything wrong with Lin Yi doing that. He was just venting his anger, she understood! However, it was unnecessary to attract the hostility of Jin ziduo and the others because of this!

"Alright, let's not talk about this for now. Everyone, get on your horses and move. We'll talk about this when we reach a safe place!"

As the captain, Huang Shan Mao suppressed the dispute and waved his hand to lead the team out of the place. At the same time, he gave sixth brother a subtle look, indicating that he should check the nine leaf red gold ginseng.

He thought that Lin Yi was just spouting nonsense, but he still had to be careful.

Anyway, it wouldn't take much effort to check it carefully. If it was really poisonous, at least he could avoid being poisoned.

Sixth brother nodded slightly to show that he understood. Then, he used his feet to control the horse while checking the nine-leaf red gold ginseng from all aspects. He even pinched a few roots and put them into his mouth to try.

Regardless of whether it was an Alchemist or a pharmacist, they all had the spirit of a Shennong trying a hundred herbs. When they encountered unknown medicine, they would trust their own tongue and body more to distinguish the medicinal properties.

The Ginseng Root melted in his mouth, and sixth brother's eyes brightened. He could feel the medicinal effect of the nine leaf red gold ginseng, but at the same time, he didn't find any poison.

No problem!

Six nodded to Huang shanmao and passed the message. Huang shanmao, Jin ziduo, and the others let out a breath of relief. At the same time, they were even more dissatisfied with Lin Yi's nonsense and were ready to find a chance to teach him a lesson.

On the other hand, sixth brother felt a little regretful. He should have been more daring just now and put more ginseng roots in his mouth!

The nine-leaf red gold ginseng consumed for the poison test would not be counted in the distribution. A little more was a little more!

The whole nine-leaf red gold ginseng was more than enough for four earth-opening stage martial artists to use, but there were five earth-opening stage martial artists in the team. If it was divided into five portions, it would be a bit stretched.

This was also the reason why Huang shanmao and the others did not have the intention to monopolize the nine leaf red gold ginseng. He and Jin ziduo were the team's captain and vice-captain, so they could get the nine leaf red gold ginseng they needed in full. The excess would be divided equally among the remaining three earth-splitting stage cultivators.

Sixth brother was one of the three. Although he was an Alchemist, everyone knew how weak an Alchemist was. It was already good enough for him to get an incomplete portion of the nine-leaf red gold ginseng.

Therefore, sixth brother regretted not being more daring when testing the poison. Even if he had to eat one more Ginseng Root, it would still be beneficial!

He had missed his chance!

Without mentioning the regret in sixth brother's heart, the group of them urged their horses forward and quickly left the place where they found the nine leaf red gold ginseng. However, they didn't return to the gallop road. After all, there were many teams that were looking for the star Ink River. They had to avoid encountering other teams!

After walking for ten minutes, they found a mountain wall in the forest, and there was a cave that wasn't too deep. Huang shanmao stopped outside the cave and turned back to Lin Yi.

"Sima Zhong da, go in and see what's going on. If there's no problem, everyone can rest in the cave. We'll set up a defense around the cave, and then eat the nine leaf red gold ginseng to increase everyone's strength!"

Lin Yi became a Coolie again-the cave wasn't dangerous at all, and a simple scan of his spirit sense would tell.

Lin Yi didn't reject Huang shanmao's request. He got off the horse and walked into the cave. After a forty-meter passage and a turn, he saw the cave that was seven to eight meters high and three to four hundred square meters.

It was dark, but it didn't affect a practitioner's vision. Lin Yi glanced at it and turned back to Huang shanmao.

Huangshan Mao immediately brought his men into the cave, including the Black Spirit Ferghana horses. The place was big enough to accommodate them anyway.

For safety's sake, the formation master set up a stealth formation at the entrance and a defensive formation in the cave. During this time, Lin Yi was sent out to collect some dry wood and grass.

A fire was lit in the cave, and dry grass was spread on the ground. The environment was quite comfortable!

it was still early, about four hours before the sky turned dark. huangshan mao had already decided to spend the night here. after using the nine leaf red gold ginseng to raise his strength, he could consolidate it a little!

when everything was ready, the eyes of the five earth formation stage cultivators once again focused on the nine-leaf crimson gold ginseng, each of their eyes filled with unconcealable eagerness and desire.

"boss huang, shall we start dividing now?"

sixth brother took out a jade knife and placed the nine leaf red gold ginseng on a jade plate. he looked up at huangshan mao.

huangshan mao coughed lightly and nodded, "good! however, we can't take it together. although we've made many preparations, we might still be attacked. in order to avoid danger, we should do it in batches!"

"jin ziduo and i will wait for a while to protect everyone. who do you think will take it first? you're welcome. the earlier you improve your strength, the earlier you can replace us!"

the sixth brother looked left and right, the jade knife in his hand waving non-stop. he quickly divided the nine leaf red gold ginseng into five portions, two of which were obviously bigger, adding up to almost half the portion. these were the portions for huang shan mao and jin jin duo.

the smaller portions were split equally among the three earth formation stage practitioners, six included. the other two looked at each other, but didn't reach out their hands immediately. lin yi's poisonous words were still a thorn in their hearts.

the sixth brother put away the jade knife and picked up a nine-leaf red gold ginseng. he said with a smile, ""then i won't be polite, i'll go first! if there's anything wrong, i can handle it in time!"

as the alchemist in the team, sixth brother's poison resistance was definitely the strongest. since the others were worried, he would not hesitate to do so. after all, he had already tasted it just now and was sure that it was not poisonous.

Lin Yi's lips twitched-these guys were asking for it! They had already been warned, but they still didn't believe it!

He had no choice but to let them be!

The sixth brother was filled with confidence and joy as he threw the nine leaf red gold ginseng into his mouth. It still melted in his mouth, and the taste was excellent. The only pity was that the amount was too little. If he could get the full amount, he would be satisfied even if he didn't find the star Ink River.

Chapter 9056

While enjoying the wonderful taste, sixth brother felt sorry that the amount was not enough. He closed his eyes and revealed a happy smile. He was waiting for the nine leaf red gold ginseng to refine his body, increase his level, and increase his strength.

All of a sudden, sixth brother's smile froze. The nine-leaf red gold ginseng that he swallowed seemed to have turned into countless steel needles, piercing holes all over his body. In an instant, his body was like a sieve with thousands of holes!

His face had also become extremely distorted and ferocious. His slanted mouth opened and could not be closed. White foam flowed out of the corners of his mouth, and his throat made a hissing sound of air leaking.

"It's ... It's poisonous ..."

Sixth brother desperately issued a warning. In fact, even if he didn't say it, the others also understood. If they couldn't even see that he was poisoned, how blind must they be?

To be honest, six didn't think that the nine leaf red gold ginseng was really poisonous like Lin Yi said!

He had tasted the Ginseng Root before, and it was a genuine nine-leaf red gold ginseng! Why did it change this time?

Sixth brother had doubts in his heart, but he couldn't think about it now. He only wanted to save his own life, so he tried to control his hand to take the detox pill!

He had been too confident and was not prepared at all. If he had known this would happen, he would have grabbed the detox pill in his hand!

"Quickly save sixth brother!"

Huangshan Mao shouted in a low voice, his heart filled with fear. If he had been the first to consume it, he would have been the one on the verge of death!

Jin ziduo took a step forward and slapped away sixth brother's convulsing hand. He quickly took out an antidote pill and put it into his mouth. This was an antidote pill made by sixth brother himself. Everyone in the team was equipped with it, so there was no need to take it from sixth brother.

Unfortunately, the antidote did not take effect immediately. A layer of black Qi had already appeared on sixth brother's face, and his body had become stiff and began to Twitch.

"No! The antidote pill didn't cure the disease! What kind of poison is this?"

Jin ziduo couldn't help but roar, "quickly think of a way!" Is there any other way to save sixth brother?"

The sixth brother was the only Alchemist in the team, and he was also a cultivator of the earth formation stage. Although his combat power was a bit weak compared to his peers, after integrating into the battle formation, he could provide more bonuses to Jin ziduo, who was the main attacker.

Therefore, Jin ziduo really wanted to save his sixth brother. Especially in the future, if they encountered such poisoning again, they still had to rely on his sixth brother!

Huangshan Mao was secretly vexed. He now regretted letting sixth brother take the nine leaf red gold ginseng first. If it was someone else who was poisoned, at least sixth brother, this Alchemist, could think of a way to save them. But now that sixth brother had fallen, they were instantly at a loss!

Who could save sixth brother?

Huangshan Mao suddenly had an idea! Who could save sixth brother? From the looks of it, there was only that good-for-nothing Sima Zhongda!

No one present could tell that there was something wrong with the nine leaf red gold ginseng. Only Sima Zhongda had said that there was something wrong with the nine leaf red gold ginseng and that it would be poisoned after consuming it. However, no one believed him!

So, was Sima Zhongda a more powerful Alchemist or pharmacist than sixth brother? No matter what it was, as long as it could save people, it was fine!

"Sima Zhongda! Do you know what poison sixth brother is suffering from? Hurry up and help him untie it, or he won't be able to hold on any longer! As long as you can save sixth brother, your status will be the same as sixth brother's in the future!"

Huangshan Mao had given Lin Yi the opportunity to enter the core stage in a moment of desperation. As for whether or not it would work, it would depend on Lin Yi's ability.

If Lin Yi could really save sixth brother, Huangshan Mao wouldn't mind accepting a core member. After all, he might need Lin Yi's help at any time!

Qin wunian looked at Lin Yi suspiciously. He thought that Lin Yi was just talking nonsense, but the truth was that he was right!

Could it be that this guy really knew about the medicinal properties of medicine? The three step soul-breaking forest could save her life?

"Sima Zhong da, if you can really save sixth brother, please help! We're all brothers of the same team. If you have the ability to do it, you must not leave us in the lurch!"

The other teams all begged Lin Yi, but Jin ziduo was the only one who didn't want to lose face and just stood there, looking at Lin Yi coldly.

Lin Yi looked at the panting sixth brother-this refiner didn't really piss him off or anything, after all, so it was a bit unreasonable for him to leave him in the lurch!

"Fine, I'll try! It's just that this poison is very strong, so I'm not sure if it'll be effective. I can only do my best and leave it to fate!"

Lin Yi said as he walked to six's side, hitting all the acupuncture points on his body to stop the blood flow and slow down the spread of the poison. He turned to the group, "Take out all the spare medicine. I'll see if there's any suitable antidote."

There were high-level antidotes in the space of the jade pendant. Even if they couldn't completely cure the poison in sixth brother's body, they should be able to suppress and alleviate the symptoms.

However, Lin Yi didn't want to take anything out of the Jade space. Qin wunian knew exactly what was in the storage bag used for concealment.

He was too lazy to find an excuse to explain!

"Quick, take out all the medicines you have and the ones in the team's reserves!"

Huangshan Mao didn't say a word and immediately ordered his team to cooperate!

Lin Yi took out the Jade knife six used to split the nine-leafed red gold ginseng with and sniffed it. He then casually wiped it on his clothes, cleaning off the remaining juice.

Then, he picked up sixth brother's arm and made a cut on his wrist. Black blood slowly flowed out, and a foul smell suddenly rose in the cave. The fragrance of the nine-leaf red gold ginseng was completely gone.

Everyone subconsciously held their breath and covered their mouths and noses, afraid that the stench also contained poison. If that happened, they would all be dead!

"Don't worry, this poison won't spread through the air! Although the smell is a little unpleasant, I can guarantee that you will be fine!"

Lin Yi said calmly as he used the Jade knife to make a cut on six's other wrist, letting the black blood flow out slowly.

Huangshan Mao and the others let out a breath of relief. They didn't notice that they had already accepted everything Lin Yi said!

He didn't have any doubt at all. If this had happened a moment ago, this would have been unimaginable!

All sorts of medicine and elixirs were quickly piled up in front of Lin Yi, allowing him to choose.

Lin Yi took out the Jade plate he used to store the nine-leafed red gold ginseng on and threw the rest on the ground. Huang shanmao and Jin ziduo's eyes twitched as they watched, not knowing what to say.

He did the same thing after taking the plate-he just wiped it clean with six's hand, since he wasn't the one eating it.

Lin Yi was already prepared for this type of poison. He glanced at the medicine and picked out the ones he needed, cutting them with the Jade knife and throwing them into the Jade plate.

Chapter 9057

There were some pills that were crushed into powder and added to a Jade plate. No one knew what effect they would have. In any case, as an experienced pharmacist, Qin wunian didn't understand at all ...

Lin Yi's movements looked orderly, but they were actually quite fast. In an instant, he had gathered all the ingredients in the Jade plate.

Huangshan Mao and the others had a very shallow understanding of medicine, far from Qin wunian's level. They couldn't understand Lin Yi's method.

Lin Yi threw the Jade knife away and closed his hands on the Jade plate, gathering the selected herbs in his palms. He then activated the refinement fire in his palms and began to refine the herbs.

The others didn't know what Lin Yi was doing. The fire was hidden very well in his palms, and they couldn't see anything unusual. They only saw Lin Yi slowly rubbing his hands together, and then some medicinal powder fell from the gap between his palms onto the Jade plate.

Very quickly, the medicine had turned into fine powder and was piled up in the middle of the Jade plate. Huang shanmao and the others did not suspect anything. It was not difficult to grind the medicine into powder. To cultivators of their level, it was easy to even grind steel into powder, let alone some medicinal herbs.

There were still some dregs left in Lin Yi's palm-the useless stuff he'd extracted with his fire was turned into nothingness after he'd gathered the necessary ingredients.

"Who's going to help? open his mouth!"

Lin Yi took out a bottle gourd, opened the lid and dripped two drops of wine into the powder as he looked at the group.

The wine in the gourds was just normal wine, and Lin Yi didn't know where he got it from, but it tasted good and he bought some for himself. He also lost a few gourds in his bag.

Qin wunian had seen it when he checked the storage bag earlier, and she had opened it to smell it as well, but she didn't find anything special about the wine.

She didn't expect Lin Yi to use it to mix medicine, did she make a mistake?

Qin wunian was confused, but he knew that this wasn't the time to investigate the truth. Jin ziduo knelt down and lifted up sixth brother's upper body, leaning him on his leg. He then used his hand to open sixth brother's mouth.

Lin Yi picked up the plate and rubbed the medicine mixed with the wine into a paste before casually making it into a ball and throwing it into six's mouth.

"That's enough. Close his mouth. He should be fine after eating my specially made detoxification pill. He'll wake up in a while."

Lin Yi dusted his hands, and the paste on them was a little sticky. He wiped his hands on six's chest a few times and explained seriously, "If it's taken orally and applied externally, the effect will be better. Sixth brother will wake up faster!"

Huangshan Mao and the others were speechless as they looked at Lin Yi. Why did he have to say that it was for external use? Who had ever seen someone apply medicine on clothes?

Besides, sixth brother was poisoned and not injured. He didn't have any clothes and didn't need to be applied externally. You should put in more effort to find an excuse, right?

Oral and external application?! So the juice from the Jade knife and plate that was applied on sixth brother's body was also an external application?

And that mushy pill, you call it an antidote pill? Which family's medicinal pill would look so casual? It was more like a fuzzy antidote.

Huang Shan Mao and Jin ziduo were a little suspicious. Wasn't it a little too much for them to turn to any doctor in a hurry? This Sima Zhong da didn't seem very reliable no matter how they looked at him ...

It wouldn't be an exaggeration to say that he was an expert in Jianghu!

But now that he had already eaten it, he could only try it as a last resort!

Huangshan Mao's team members were all praying for a miracle. Compared to Lin Yi's unreliable methods, they trusted sixth brother's skills more.

Sixth brother, you have to be F * cking safe!

Lin Yi didn't care what they thought, and walked to the side to rest after he was done. It wasn't a pill, but the ingredients and the way he made it weren't something that could be done easily.

It was more than enough to cure the poison.

The cave fell into silence. Seven or eight minutes passed in silence. The black gas on sixth brother's face had dissipated, but his face was still pale and bloodless.

You could say that the poison had been cured, so the black gas dissipated. You could also say that the poison had deepened, which was why his face looked so bad. In short, sixth brother had not woken up, so everything was possible.

"Sima Zhong da, didn't you say that sixth brother would wake up soon? Why is there no movement?"

Jin ziduo couldn't take it anymore, raising his head and glaring at Lin Yi, "Don't tell me you're also just spouting nonsense without any confidence?"

If sixth brother died, and Lin Yi didn't have the real strength, Jin ziduo would be the first to attack Lin Yi. He was even thinking that Lin Yi said that to give him a way out.

With the death of the sixth brother, was Sima Zhong da going to use this to save his life?

He had said before that he would do his best and leave it to fate, and that he wasn't sure if he could wake up. It was clear that he had long planned to leave a way out!

"What's the hurry? Sixth brother is an Alchemist, his physical fitness is not as good as a fighter, and his drug resistance is stronger than a fighter of the same level, so it's normal to spend more time!"

Lin Yi smiled, not minding at all, "Not to mention that not much time has passed. I wasn't sure if he would be fine before the treatment, but after he took the medicine, I dare to say that he will be fine!"

"Vice-captain Jin, if you don't believe me, you can try eating the same amount of nine leaf red gold ginseng. I can say that you will wake up earlier than sixth brother!"

He was just teasing Jin ziduo. Seeing that the nine leaf red gold ginseng was such a deadly poison, it would be strange if Jin ziduo dared to eat it!

What if Sima Zhong da refused to help or deliberately delayed the treatment? Wouldn't they have died in vain? Only someone with a flooded brain would try!

Huangshan Mao saw that the atmosphere wasn't right and quickly came out to smooth things over, "Everyone, please speak less. Don't mind it, Sima Zhongda. Vice-captain Jin is too concerned about his brother's safety, that's why he's a little impatient!"

"I see that sixth brother's complexion has improved a little. I think the antidote has already taken effect! That's right, Sima Zhong da, you knew from the start that the nine leaf red gold ginseng was poisonous. Did you know what was going on? As far as I know, it's impossible for the nine leaf Scarlet Gold ginseng to be poisonous! Isn't this the real nine-leaf Crimson Gold ginseng?"

Huangshan Mao was intentionally changing the topic. At the same time, he had some questions in his heart. Why would the nine leaf Scarlet Gold ginseng be poisonous?

All the nine-leaf red gold ginseng that had appeared in the past were treasures that could increase one's strength! Unless they had encountered a fake nine leaf Scarlet Gold ginseng!

Chapter 9058

"It's really a nine leaf red gold ginseng, but it's been tampered with!"

Lin Yi leaned lazily against the wall, a mysterious smile on his face. "In truth, something was wrong from the very beginning. The nine leaf red gold ginseng's fragrance was too strong, and it actually attracted us from so far away."

"It's even more strange that there aren't any magical beasts guarding this heavenly treasure! You guys should also feel that something is wrong, right? The process of obtaining the nine leaf red gold ginseng was too easy!"

Hearing Lin Yi's words, Huang Shanmao and the others were stunned. Indeed, the process of getting the nine leaf red gold ginseng was unbelievably smooth. If their team had such good luck, they could've retired and become rich a long time ago. Why would they take the risk?

It was just that they had been blinded by the nine leaf Scarlet Gold ginseng at that time. Even if they thought of this, they would still justify it with good luck.

Now that he looked back, he realized that there was indeed something fishy about it!

"In addition, there is a trace of an almost imperceptible strange smell in the fragrance of the nine leaf red gold ginseng. My nose is particularly sharp, and I'm especially good at identifying medicinal materials, but I couldn't be completely sure of this at the time."

Lin Yi shrugged and shrugged helplessly, "My words carry little weight in this team. Without any evidence, I can only give everyone a little warning. It's up to you to believe it or not. I can't change your decision!"

"And to be honest, I was only suspicious at the time. I wasn't sure, so I didn't have the courage to insist on my opinion. The final facts proved that my suspicion was correct!"

"The nine leaf red gold ginseng has indeed been tampered with. It was injected with another kind of medicinal liquid. It's not poisonous on its own, but after fusing with the nine leaf red gold ginseng, it became highly toxic!"

"There is no doubt that this is a carefully planned conspiracy, and the target is our Guild! If I'm not wrong, the mastermind might have already surrounded us outside the cave and is waiting to attack us all at once!"

Huangshan Mao's expression changed. Lin Yi's words made sense. The nine leaf red gold ginseng was a precious treasure, and it was used as bait and injected with poison. The enemy must have a big target!

There was no doubt that their team was the other party's target. If they first threw out the treasure that they couldn't refuse, the nine leaf red gold ginseng, they might be able to provoke internal strife in the team and kill each other to eliminate a group of enemies.

Huangshan Mao's team was still rather United and did not face such an extreme situation. However, it did not matter if there was internal strife or killing each other, it was just a side effect.

The most important thing was that the nine leaf red gold ginseng itself was a treasure that could increase one's strength. Moreover, Huang shanmao's team needed to increase their combat strength as quickly as possible, so it wouldn't take long before the nine leaf red gold ginseng was divided and eaten.

There wasn't a lot of nine leaf red gold ginseng, so it couldn't be distributed evenly to every member. Therefore, only the most important and strongest members of the team could consume the nine leaf red gold ginseng.

If the plan went well, the strong ones in Huangshan Mao's team would be wiped out in one fell swoop, and the remaining weak ones would naturally not be a threat!

As the leader of the adventure Team, Huang Shan Mao was naturally not an idiot. After understanding these points, his expression changed and he was filled with fear.

If it wasn't for Lin Yi's warning, huangshanmao and the others might really have taken the poisonous nine leaf red gold ginseng together instead of doing it in batches, letting sixth brother try it alone!

At that time, even Sima Zhongda might not be able to save the five earth formation stage cultivators in time. The chances of the entire team being wiped out were really high!

"Detestable! Who is it that put in so much effort to plan such a sinister plan against us?"

Huangshan Mao gritted his teeth, his face contorted with malevolence, "If I find him, I'll definitely cut him into a thousand pieces and put him to death by a thousand cuts! Otherwise, I won't be able to dispel the hatred in my heart!"

"Boss Huang, what Sima Zhongda said makes sense, but this conspiracy might not be targeted at us, right? We didn't find any traces of our enemies when we came out of meteorite town. It's impossible for someone to set up an ambush for us before we did, right?"

Jin ziduo looked at Lin Yi with suspicion, "Besides, the nine leaf red gold ginseng is a precious item. If our enemies really want to deal with us, wouldn't it be more appropriate for them to ambush us?"

"Who would be so generous to use such a precious nine-leaf Crimson Gold ginseng as a poisonous bait? With this money, they can use it to increase their combat strength before ambushing us, isn't that good?"

Huangshan Mao felt that what he said made sense. If he had the nine leaf red gold ginseng, he wouldn't use it as bait to trick his enemy.

If he could do it himself, why would he need to pay such a huge price?

It was obviously more worthwhile to improve his strength!

Before he could figure this out, sixth brother finally made a move. His face was still pale, but his brows were relaxed, and he was no longer in as much pain as before.

With a slight groan, sixth brother slowly opened his eyes and looked at the top of the cave with a slightly dazed look. He thought for a while and gradually realized what the situation was.

"Sixth brother, you're awake! That's great!"

Jin ziduo put aside the question of the nine leaf red gold ginseng and revealed an ecstatic expression.

He wasn't really that happy, but as the vice-captain, having a good relationship with the team's only Alchemist was obviously beneficial. So although his expression was a little exaggerated, it didn't lose any sincerity.

Huangshan Mao also went over and expressed his concern joyfully. The other team members also went over and greeted sixth brother.

No matter what they were thinking, at least on the surface, this adventurer team seemed to be relatively United.

Lin Yi was still sitting at the same spot, not showing any signs of getting close to her. There was even a slight mocking smile on his face.

After six accepted the greetings and understood the whole situation, he was surprised by Lin Yi's methods and struggled to get up to thank him.

"Sima Zhong da, I really have to thank you this time! If you didn't help me in time, I would have died! I can't thank you enough for your great kindness. If you need my help in the future, I'll definitely do my best to climb a mountain of daggers and dive into a sea of fire without hesitation!"

Six thanked Lin Yi with a straight face, and so did Huang shanmao. He was very grateful to Lin Yi for saving an important member of the team.

Lin Yi waved his hand and interrupted them. "Let's not talk about these trifles! Boss Huang, don't you think we're in danger? Since the other party had arranged such a meticulous plot, how could there not be a follow-up plan?"

Chapter 9059

"If I'm not wrong, the mastermind has been following us for a long time and has surrounded us. Shouldn't we first consider how to get out of danger before talking about other things?"

Huangshan Mao looked quite smart, but he actually didn't think of this? Lin Yi only laughed because he felt that Huangshan Mao's attention was too easily diverted.

He should have thought of the follow-up ambush when he mentioned the other party's targeted conspiracy! After all, the nine-leaf Crimson Gold ginseng's goal was to increase the team's combat power, not to annihilate the entire team.

After killing the team's high-end combat power, there would definitely be a corresponding annihilation operation. This did not require any reasoning ability, and was an obvious thing.

In the end, when sixth brother woke up, Huangshan Mao, Jin ziduo and the rest actually started to ask about his well-being!

Please, you're about to be wiped out, what's the use of caring about the injured now! Wasn't it better to think of a countermeasure earlier?

The reason why the mastermind didn't attack immediately was probably because he didn't know if the nine-leaf red gold ginseng plan had succeeded. If it had, how many people had he killed?

Anyway, there was no hurry. The mastermind behind the scenes had a lot of patience to wait for the results. No matter how many experts died, as long as the remaining people left the cave, the difficulty of being ambushed would definitely be much lower than the difficulty of them attacking the cave.

Huangshan Mao was taken aback, and his face turned ugly. As the captain of an Adventure Team, his experience and wisdom couldn't be low, and with Lin Yi's reminder, he naturally understood everything!

Undeniably, Lin Yi was right. If he was the mastermind behind all this, he wouldn't just get the nine leaf red gold ginseng and everything would be over.

He had to follow them in the dark and wait for an opportunity to ambush them!

"Sixth brother, how's your current condition? Do you have the strength to fight?"

Huangshan Mao turned to sixth brother and asked in a deep voice, "If I haven't fully recovered, how long will it take? We're in a dangerous situation right now, so we can't lack your combat power!"

Although alchemists were considered weak in the same rank, but if they formed a battle formation, sixth brother's rank could still provide a significant boost. Especially since Huang shanmao's team had long been used to a battle formation of eight people, which was their strongest fighting force!

Without sixth brother, the seven-man battle formation could still fight, but its power would be greatly reduced. In such a critical moment, Huang shanmao did not dare to be careless. He had to use his full strength!

Sixth brother took out a few pills and threw them into his mouth like eating jelly beans. He crushed them and swallowed them in one bite, then replied, ""Don't worry! Give me the time it takes to brew a cup of tea and let me circulate the medicinal power of the pill. I'll be able to recover to my best state!"

Being poisoned would indeed make sixth brother weak, but the poison had already been cleared. If he used a few medicinal pills to recover without caring about the cost, it would not have much of an impact.

In any case, the sixth brother was only forming a battle formation to provide amplification. In a real head-on battle, he didn't need to risk his life. The gold Tudor would be the main attacker!

Huangshan Mao nodded, and Yan SU's expression relaxed slightly, "That's good. The rest of you, get ready. Adjust your condition to the peak and get ready to fight at any time!"

"Yes!"

Jin ziduo and the others agreed in unison. They did not cower in the face of danger. Perhaps it was because they knew that there was no way to retreat and they could only fight to the death!

Previously, he had entered the cave to safely consume the nine-leaf red gold ginseng. Now that he knew that there was an ambush behind him, it immediately became the stinky move.

The cave was easy to defend and hard to attack, but it was also a land of death. To put it bluntly, Huang shanmao and the rest were simply turtles in a jar!

Huang shanmao glanced at Lin Yi, a strange emotion in his eyes, but he didn't say anything to Lin Yi. Instead, he gave orders to the other three newbies, including Qin wunian.

"You three, protect Sima Zhongda with all your might! In a moment, we will form a battle formation to clear the way. You don't need to participate, just protect him and follow behind us!"

"We've fallen into the enemy's trap this time. It'll definitely be a fierce battle when we get out. In a situation where the enemy is in the dark while we're out in the open, we can't linger in the battle. Therefore, we must prioritize breaking out of the encirclement!"

"Sima Zhong DA's combat strength is not strong, but his abilities in medicine are very precious. You must protect him well! At the same time, you must follow us closely and don't fall behind! If you fall behind, we might not have the chance to come back and save you!"

Huangshan Mao's intention was very obvious, to form a group to protect the healer!

The three newcomers, including Qin wunian, were recruited as cannon fodder, and Lin Yi was the same. However, after displaying his value, Huang shanmao naturally had a different plan in mind.

Lin Yi couldn't be hurt, and it didn't matter if the other three died-as long as they protected Lin Yi, they wouldn't feel bad even if the other three died!

As the team leader, Huang shanmao had regained his calm and had a clear plan in his mind. He knew nothing about the enemy's situation, so breaking out was the only choice!

Even if he wanted to take revenge, he would have to wait.

"Understood!"

Qin wunian nodded in agreement, and Shi Gandang and the other newbie could only follow suit. However, their expressions weren't too good, as if they weren't too happy that Lin Yi had become someone they needed to protect!

Lin Yi only smiled, not making any comments. These three mountain opening realm martial artists, how much protection could they provide?

The mastermind had calculated the possibility of the nine leaf Crimson Gold ginseng's poison killing plan failing, and then calculated the battle strength of all the people on this side to their peak state, arranging for a force that could absolutely crush them to deal with it.

Three mountain split cultivators, four including Lin Yi, were probably just cannon fodder in the eyes of the enemy.

Huangshan Mao turned to look at the Black Spirit Ferghana horse on the other side, his face revealing a pained expression, "Let's leave these Black Spirit Ferghana horses here for the time being! We need to use our full strength to break out of the encirclement, and we can't leave on our horses!"

Outside the cave was a dense forest environment, and riding the Black Spirit Ferghana horse would not be able to unleash the power of the battle formation. At the same time, it would not be very convenient to break out of the encirclement and escape.

If they were in the plains and wilderness without the Black Spirit Ferghana horse, there was an 80 - 90% chance that they would fail to break out of the encirclement. However, in the dense forest, it would be more agile to abandon the Mount, and the chances of breaking out of the encirclement and escaping would also be higher.

For the sake of his life, he could only give up on the Black Spirit Ferghana horses!

Qin wunian secretly cursed his bad luck. He was here to ride the Black Spirit Ferghana horse, but after riding it for such a short time, he was about to abandon it ...

Everyone nodded in silence. They all understood that this was a helpless move. As long as they could escape, it wouldn't be too difficult to find another Mount. At most, they could just snatch some!

After everything was arranged and sixth brother had recovered, Qin wunian shouted with a cold face, ""Let's go!"

The old members of the group tacitly took out their weapons and formed a battle formation. With Jin ziduo as the vanguard and yellow-robed luxuriant man in the middle, they strode out.

He did not remove the formation he had set up. This was his last escape route. If he failed to break out, Huang shanmao still wanted to retreat to the cave and use the geographical advantage to defend.

Chapter 9060

The formation could save him a lot of trouble.

Lin Yi didn't think much of it-what was the point of leaving a path of retreat when one had to cut off all paths of retreat? It would just demoralize their own troops.

Moreover, this cave was not a way out. So what if the other party directly collapsed the mountain and buried the people inside alive? Of course, at the level of Huangshan Mao and the rest, they might not die even if they were buried alive. Instead, they would have a chance to escape.

If he really couldn't, Huangshan Mao could also choose this path. Although it was a narrow escape, at least there was a chance of survival. It was also because of this chance that the enemy didn't make a move to collapse the mountain, right?

What they wanted was to kill!

Not leaving any chance of survival for Huangshan Mao's team!

In any case, the battle between the two sides was about to begin. The passage was not long, and they soon reached the entrance of the cave. Jin ziduo waved his spear and rushed out first, followed by the rest of the formation.

Huangshan Mao had expected that the moment he left the cave, he would be attacked by the ambushers, but that didn't happen!

It wasn't that there weren't any enemies, it was just that the enemy didn't bother with sneak attacks and openly allowed Huang shanmao's team to come out of the cave!

"Night demonic Wolf?!"

Huangshan Mao's pupils contracted and expanded rapidly. The shock in his heart was indescribable. At the same time, he finally understood who was scheming against them!

It was the seven night demonic wolves that had escaped earlier!

They had returned for revenge, and they had brought powerful reinforcements!

This time, there were nearly 100 night demonic wolves. Half of them were at the mountain opening stage, while the other half were at the earth opening stage. Two of them had even reached the early stage of the sea Rift realm!

Other than that, there was a dark demonic beast Man in human form at the front. He wore a silver-gray robe and looked to be around 30 years old. Lin Yi could tell that he was at the mid-stage of the shattered Sea realm, but he wasn't sure if he was the dark demonic Wolf in human form.

"Yo! Not a single one of them died! I'm really disappointed! It seems that you are quite smart to see through my little game. This is a little boring!"

The shapeshifted darkness magical beast laughed and said, "Forget it. You humans are so boring. I shouldn't have expected you to bring me so much fun! It seems that only your fresh and fragrant blood can make me feel happy!"

Huangshan Mao's heart sank and he felt a chill down his back. He couldn't see through this man's strength, but he could feel the pressure from his aura. It wasn't something his team could resist.

The other party had calmly arranged the wolves outside the cave, surrounding the entrance in a fan-shaped formation. It would be very difficult to break through!

Not to mention those sea split-stage night demonic wolves, just the number of earth Genesis-stage night demonic wolves was enough to make them despair.

The seven night demonic wolves that had escaped death earlier howled at Huang shanmao and the rest with hatred in their eyes!

The man chuckled and said, "it seems like my companions can't wait to drink your blood. Since that's the case, let's not waste any more time!" Let the feast begin!"

"Oh, I'm sorry. There are only so few of you. I'm afraid there's not enough to go around! It could not be considered a feast, but only a snack before a meal! It's better than nothing!"

The wolves howled in unison and lowered their bodies, ready to attack.

"Charge!" Huangshan Mao shouted.

This was their only chance to break out. Once they were successfully surrounded by the pack of night demonic wolves, they would never have another chance to break out!

Only by opening up a gap now would he have the chance to use the dense forest environment to escape the pursuit of the night demonic wolf group. Even though the chances were slim, it was the best choice that Huangshan Mao could think of!

Jin ziduo's great spear burst out with full force. A fierce killing intent surged from the tip of the spear. The battle formation followed him and advanced forward, directly stabbing into the weakest spot of the Wolf Pack.

The rookies behind the battle formation wanted to follow the battle formation, but they suddenly realized that they could not keep up with the speed!

"Shi Gandang and the other newbie martial artist thought that it was because they were not strong enough. They shouted for us to wait and tried to catch up with them, but they found that the night demonic wolves were already charging at them.

The battle had just started, and the connection between the battle formation and the rookie cannon fodder had been cut off by the night demonic Wolf!

Huangshan Mao didn't even turn his head. He had said long ago that he wouldn't turn back to help. In fact, he had purposely increased his speed!

Lin Yi's display of value was useful, but in the current situation, it was meaningless. He was a burden!

If they wanted to break out of the encirclement, they couldn't bring any burdens with them, and so at the last moment, Huang shanmao made Lin Yi return to his initial position as cannon fodder!

As long as the four of them could attract some of the night demonic wolves' attention and reduce the pressure on them, they would have successfully displayed their value!

Lin Yi understood what was going on in Huangshan Mao's head, but it was all within his expectations.

Despair rose in Qin wunian's eyes. The battle formation was getting further and further away, and they were facing more and more Darknight demonic wolves. It looked like they were doomed!

If he could survive, he would never go to Shun Feng Ma again!

Lin Yi didn't know that Qin wunian was repenting in his heart, swearing never to ride a horse again. To Lin Yi, this was just a small scene, there was no danger at all.

As long as he unleashed his strength, all the night demonic wolves in front of him, including that dark demonic beast that had taken human form, would be annihilated with a flip of his hand!

However, the star power's restriction on Lin Yi was too strong. He didn't want to experience the consequences of letting go of his strength.

You can't start a massacre!

"The captain and the others are back! They're back to save us!"

The newbie martial artists who had already fallen into despair suddenly saw the battle formation led by Huangshan Mao turn back. They were overjoyed and cheered loudly. Seeing that they were about to be killed by the night demonic Wolf, they actually used their little universe again and forcibly extended their lives.

However, when he saw the truth of the situation, his smile instantly froze on his face. His throat was almost torn apart by a night demonic Wolf in the mountain opening stage.

It was Lin Yi who pulled him back, saving his life.

"Retreat! Retreat into the cave!"

Huangshan Mao and the others didn't come to save Lin Yi and the others, but they failed to break out and were forced back by the pack of demonic wolves!

Jin ziduo's spear was broken, his chest caved in, and he spat out a mouthful of blood. His battle formation had almost collapsed.

The strength of the demonic Night Wolf group was far beyond Huangshan Mao's expectations. Their formation seemed to have found a weak point in the encirclement and successfully cut off the tail, using Lin Yi and the other three as bait.

Everything seemed to be going smoothly. Other than the toughness of the weak point, everything was within Huang Shan Mao's calculations.

Jin ziduo acted as the sharp blade and hit the iron plate head-on. The seemingly weakest point was not friendly to Huang shanmao's team at all!

He had thought that he could tear apart the encirclement, but he had been ruthlessly taught a lesson! In just one exchange, Jin ziduo was seriously injured and his weapon was destroyed!
