Chapter 9071 The Power Of The Divine Realm

"Humans, you've entered our territory, and you have the blood of our people on you. Today, you'll die Here!"

The black Tiger spoke in the human language, and there was a hint of mockery in its eyes. "With your strength, you won't even have the chance to resist. We'll annihilate you all in an instant. However, the heavens care for all living things. I can give you all a chance. I'll let some of you live."

"Want to hear it? The rules are simple. There are twelve of you, so I'll give you half of the survival quota. Six of you will live, and six of you will die. You can decide for yourself, who will live and who will die?"

"If you're very sentimental and would like to negotiate, I have no objection. But actually, I'd like to see you fight each other and take your lives in your own hands!"

"What do you think? am I very generous? This is your only chance to survive, so take advantage of it! Are you planning to discuss or fight?"

With victory in his grasp, the black Tiger was ready to play a game of cat and mouse. Obviously, watching humans kill each other made it particularly fun.

And whether the final Victor could leave alive was still a matter of a word from him!

Huangshan Mao's face was ashen as he coldly shouted, "If you want to kill, then kill. Why are you talking so much nonsense? we humans have our own integrity, and we would rather die than be fooled by you darkness demon beasts!"

"Brothers, I've caused all of you trouble this time, but since we can't live together today, then let's all die together! It's not a bad thing to die so generously!"

"Vice-captain Sima, I'm sorry! I, Huangshan Mao, was wrong for not listening to you! I hope you can forgive me. If I didn't insist on doing things my way, I wouldn't have caused you to lose your life with us!"

As he finished, Huangshan Mao's expression became more carefree, "Indifferent to life and death, fight if you're not convinced! Brothers, let's kill a few darkness magical beasts before we die! Killing one is enough, killing two is more profitable!"

"Kill!"

"F * ck his mother!"

The party members shouted at the top of their lungs and raised their weapons high. Knowing that they were going to die, no one wanted to surrender. No one accepted the black Tiger's suggestion to exchange their comrades' lives for their own.

Break the cauldrons and sink the boats, fight with their backs to the water!

Without a doubt, Huang shanmao's team was very United. They were all brothers who could be trusted!

Lin Yi didn't have a good impression of them, but he couldn't deny that their spirit and presence in a life and death situation was impressive.

Boss Huang, I accept your apology, so I'll ask you one more time, are you willing to let me command this resistance?"

Lin Yi admired their spirit and changed his mind. He decided to give Huang shanmao another chance since he had already apologized!

Of course, if Huang shanmao still wanted to take command at a time like this, then Lin Yi really didn't care!

Huangshan Mao's eyes lit up, as if he had seen a ray of light in the dark!

"Vice-captain Sima, do you have any other ideas? From now on, everyone, including me, will absolutely obey your orders. Even if you want me to rush up and die as bait, I won't say anything!"

Huangshan Mao was very straightforward. In his opinion, just the black Tiger at the sea Rift stage was enough to kill their entire team. The powerful darkness demonic beasts around them could be used as background. Their only purpose was to prevent them from leaving.

In this situation, if Lin Yi could still get everyone out of here alive, he'd be completely convinced-what was a mere command?

"Very good! Since that's the case, everyone, listen to my command and get on your horses!"

Lin Yi immediately got into character and started directing the operation. The eight people led by Huang shanmao didn't say anything and immediately got on their horses, not caring about their formation anymore.

"Next, I will use my divine sense to guide everyone. Please pay attention to the guidance of my divine sense and don't make any mistakes! Everyone's there, don't get distracted!"

Lin Yi said as he spread out his spirit sense. Everyone could feel a spirit sense guiding them, and everyone's position changed slightly, quickly forming a battle formation.

Huangshan Mao was shocked. This battle formation looked very mysterious! Moreover, he didn't need to dismount from his horse. He could use it directly on the Black Spirit Ferghana horse.

The power of the battle formation was even more shocking. It was several times stronger than the battle formation they had formed with eight people. How was this possible?

"Boss Huang, don't be distracted. Listen to my command and charge forward!"

Lin Yi's reminder woke Huang shanmao up from his shock and ordered him to attack.

Commanding a battle formation was a piece of cake for Lin Yi-he'd done this a lot when he was leading the cavalry across the world, but he was always at the front line, the sharpest blade.

And this time, Lin Yi was the last one to lead the group!

"Charge!"

Jin ziduo was still the sharp blade in front. He raised his long spear and shouted loudly. He began to urge his horse forward, his target was the strongest Black Tiger.

To be honest, Jin ziduo was still a little scared when facing the black Tiger at the sea splitting stage. However, he didn't hesitate because this was his only chance. If he didn't fight, he would die. Only by fighting would he have a chance of survival!

Huang shanmao didn't have the time to think about how Lin Yi could set up such a mysterious battle formation. He quickly followed his spirit sense and charged behind Jin ziduo.

Lin Yi split up eleven strands of his spirit sense to accurately direct everyone's movements. It couldn't be extremely precise, but it was enough. It wasn't easy to get these people who had never practiced this battle formation to work together.

In order to make sure they could break out, Lin Yi hid at the back and started waving formation flags around him, setting up a movement formation.

The people at the front were focused on Lin Yi's spiritual sense and fighting the dark Demon beasts at the same time, so no one had the time to notice Lin Yi's movements. The dark Demon beasts saw what Lin Yi was doing, and they couldn't understand what he was doing.

It wasn't that the dark beasts didn't understand formations, but they couldn't even understand Lin Yi's movement formations!

Jin ziduo, who was at the forefront, had already rushed in front of the black Tiger. As he shouted, he mustered the courage to stab forward with his spear. The power of the battle formation was gathered in the sharp sound of his spear, and the increase in power was unprecedented!

"Go to hell!"

Feeling that this spear could even kill the black Tiger in an instant, Jin ziduo instantly became excited. The scene of the black Tiger being pierced by the spear seemed to appear in front of him!

However, the scene that he had imagined did not appear. The black Tiger's eyes became a little more serious. It raised its tiger claws and slapped the side of the spear tip. This time, it did not hold back because it felt a threat from the spear tip!

Chapter 9072

The Tiger's Claw and the Spear's tip collided with a loud bang. The black Tiger felt a huge force coming at it, and its body tilted, staggering two steps back.

Jin ziduo's spear was also sent flying. The counterforce trembled the spear handle at an extremely high speed, causing the spear handle to emit a slight buzzing sound. Jin ziduo himself was not affected.

A part of the force from the black Tiger was absorbed by the spear, and the rest was quickly distributed to the battle formation, which was easily absorbed by the defensive power of the battle formation.

Jin ziduo's confidence was greatly boosted. With a flick of his wrist, he wanted to take advantage of the victory and continue to attack the black Tiger. Although this spear attack didn't kill the black Tiger, he felt that the next spear attack might be able to!

Lin Yi's order came, "Don't fight! Continue to break out!"

Jin ziduo's heart shivered, and he finally reacted. They were still trapped in a tight encirclement, and if they were to persist in fighting the black Tiger, they would soon be drowned by the darkness demon beasts!

"Yes!"

No matter how much he didn't like Lin Yi before, Jin ziduo lowered his body and agreed, turning around and charging!

The black Tiger was forced to retreat a little, which was beyond the expectations of the darkness magical beasts behind it. Facing the long spear of the gold duos, it was actually unable to resist for a while.

Jin ziduo finally had a taste of what it meant to be unstoppable. At the same time as he shouted out his satisfaction, he focused all his attention on the sudden thrust.

After the black Tiger steadied itself, it wanted to counterattack and kill Jin ziduo from behind. However, the other people in the battle formation did not stay idle either. Although they were not as overbearing as Jin ziduo's spear, it was not a problem to block and stop the black Tiger.

The 12 black Spirit Ferghana horses began to speed up and followed the gold dwarves into the formation of the darkness magical beasts. Even though they didn't cause much damage, the morale of the people in the formation was greatly boosted, and they were a hundred times more confident.

They would definitely be able to break out!

Lin Yi's movement formation quickly took shape-it wasn't a complicated formation, just a defensive one to block the pursuit from behind.

After all, the power of the stars was still there, and Lin Yi couldn't fight the dark Demon beast. As long as he could break out of it, that would be the best result.

The black Tiger was the strongest darkness demon beast in the encirclement this time. Under normal circumstances, it was impossible for a team of 12 people, with the strongest being only at the late stage of earth splitter, to choose to break out from the side of the black Tiger.

So there weren't many powerful dark beasts behind the Tiger. After all, it could easily wipe out Huang Shanmao's entire team by itself. He didn't expect Lin Yi to choose this direction as a breakthrough point!

Once the strongest point was broken through, it would become the weakest point!

Jin ziduo was still a little suspicious before the charge started, thinking that Lin Yi was trying to get revenge and wanted him to die first. Although he didn't look back during the charge, he couldn't help but feel nervous. It wasn't until he successfully broke through the black Tiger that he realized that the pressure behind him was reduced by a few times!

"Get out of the way! If you don't want to die, get lost!"

The gold Tudor waved its spear and shouted for the battle to be fierce. The Black Spirit Ferghana horse beneath it was getting faster and faster, and the edge of the encirclement could already be seen!

It can work! He could break through!

The dark beasts, of course, wouldn't let the duck that was already in their mouth get away. Without the Tiger's command, the two wings retreated and moved parallel to Lin Yi's group, blocking them.

In the dense forest, the dark beasts were faster than the dark spirit Ferghana horses, and Lin Yi and the others still had to face obstacles while the dark beasts on the two wings were unobstructed. There was naturally a difference in speed between the two sides.

It wasn't easy to see the edge of the outer perimeter in front of him, but gold duor wasn't happy for long before he was shocked to find that the darkness magical beasts on the two wings had already formed a new layer of interception.

If this continued, it was simply impossible to break out!

Unless they could get rid of all the darkness magical beasts, there would always be darkness magical beasts blocking their way!

Jin ziduo was a little dumbfounded. He instinctively waved the long spear in his hand, but suddenly felt that it was a little heavy!

Even with the support and amplification of the battle formation, there would be a limit to a person's physical strength. What would be the result when one could not swing the spear?

There were only twelve of them in total, and the darkness demon beast could wear them down even if it took turns!

"Change direction!"

Lin Yi was well aware of the development of the situation, and his spirit sense covered the entire area, not letting any changes escape his eyes and ears.

The darkness magical beasts on the two wings would take a detour to block the front, and the original deployment of the two opposite wings would be weakened. As long as they could accurately find the flaws, it wouldn't affect the process of breaking through.

As he gave the order, Lin Yi used his spirit sense to guide everyone to the side. The gold duos at the front followed his orders loyally, and the entire battle formation curved slightly, quickly adjusting the direction of the attack.

However, if he did that, he would have to deviate from the path he had created!

There were trees on the sides, and the path they created was a place where the trees were relatively sparse. Outside the path, it was not suitable for the Black Spirit Ferghana horses to gallop, especially after they formed a battle formation. The movement of the entire battle formation would be affected by the obstruction of the trees every second.

It wasn't that Lin Yi didn't know this, but this was the only way to break out. In order to maintain the operation of the battle formation, Lin Yi's spirit sense was busier and more precise, preparing every detail of the battle formation in advance and guiding everyone to execute it.

Under Lin Yi's precise guidance, the Black Spirit Ferghana horse avoided the trees nimbly and maintained the formation at the right time. Every step it took was perfect.

But this effect was achieved while increasing the burden on Lin Yi's spirit!

Although Lin Yi didn't use any powerful spirit attacks, he still relaxed the suppression of the star power, causing the star power in his sea of consciousness to start stirring, waiting for an opportunity to counterattack.

The situation wasn't looking good, and Lin Yi's expression started to turn serious.

The black Tiger could tell that Lin Yi was the core of this small team, and it just so happened to be chasing after him. It fixed its eyes on Lin Yi and sped up to attack him, but it was blocked by a mobile defense formation.

"Focus on the human at the end of the group. We can let the others go, but this human must die!"

The Tiger couldn't break through the formation, and Lin Yi's threat level immediately increased by a few levels. It roared and ordered the dark beasts to focus on Lin Yi.

This was also a psychological tactic. He purposely said to focus on Lin Yi and let the others go, hinting to Huang shanmao and the others to abandon Lin Yi and run for their lives.

If he could successfully separate Lin Yi from the other eleven, it would be an unexpected gain. It didn't matter even if it was useless, as focusing on Lin Yi wouldn't go wrong.

As long as they could get rid of Lin Yi, the other eleven would be a bunch of weaklings to the black Tiger. It could easily get rid of them!

Chapter 9073 Power

Continuous roars sounded, and this was the response of the dark beasts. As expected, more and more dark beasts started to turn their attention to Lin Yi and attack him.

Fortunately, the mobile defense formation didn't need to consume Lin Yi's own body's energy or spiritual sense. Otherwise, facing such a dense attack, the star power wouldn't be able to be suppressed and would cause trouble in Lin Yi's body and spiritual sea!

"Continue to break out of the encirclement. Don't worry about the pursuit behind. I can handle it!"

Lin Yi's face didn't change as he ordered, "There's a weak point in the encirclement ahead. We can break out if we put in more effort! Full force attack!"

"Yes!"

Everyone, including Jin ziduo and Huangshan Mao, acknowledged the order in unison. Seeing that victory was within their grasp, their morale instantly soared. Each and every one of them exploded with all their strength, cutting through the darkness magical beasts 'blockade like a hot knife through butter.

Originally, the encirclement on the side was strong enough, and with the trees blocking the way, it was almost impossible to break out of the encirclement. However, the pressure in front made the darkness magical beasts on the side rush over at full speed to help and intercept.

Who would've thought that Lin Yi's formation would be so agile and flexible? with a quick turn, he took advantage of the opening when the enemy left.

They wanted to turn back to help, but it was already too late. Some of the slower ones were still rushing forward to join in the interception, but they ended up blocking the darkness magical beast experts who wanted to return to help.

For a moment, the situation was in chaos, but the black Tiger only focused on Lin Yi's attack and didn't direct the response, giving Jin ziduo and the others a small opportunity!

Lin Yi was planning to change the second time depending on the situation, but he didn't expect the breakthrough to go so smoothly. It seemed like there was no need for that anymore!

Jin ziduo took the lead, and his long spear was unparalleled. He forcibly killed his way through the encirclement, and when there were no more darkness magical beasts in front of him, he couldn't help but feel ecstatic.

"Success! We've broken out!"

Jin ziduo let out a mad roar, the joy in his heart gushing out. He had just been determined to fight to the death because he had fallen into a dangerous situation, but he didn't expect that in such a short time, he would be able to reverse the situation and easily break through the encirclement of the darkness magical beasts.

"Keep running, don't stop, don't turn back!"

Lin Yi shouted as he continued to charge forward. It wasn't easy to get an opening, and if he was careless, he might be surrounded again. Using his spirit sense to guide eleven people to form a precise battle formation at such a high intensity was a heavy burden on his spirit.

If they were surrounded again, Lin Yi didn't know if it'd take more energy if he just attacked or if it'd take more energy to direct them.

Jin ziduo agreed to Lin Yi's order, and so did the others. It was already a blessing to be able to break out of the encirclement, and they didn't want to go back and kill a few more dark beasts.

The Black Spirit Ferghana horses also had the Buffs of the battle formation, and their speed and agility were greatly increased. After breaking out of the encirclement, they charged again. With Lin Yi's warning, they didn't have to worry about the vision ahead.

"Chase! We can't let them off! If they catch up, kill them without mercy!"

The black Tiger let out a furious roar, mixed with a few Tiger roars, vaguely revealing a hint of exasperation.

The darkness magical beasts in the surroundings followed suit, trying to close the distance between the two sides. However, the Black Spirit Ferghana horse was known for its speed, and under normal circumstances, it might not be as strong as these powerful darkness magical beasts.

However, the Black Spirit Ferghana horse's speed and nimbleness were superior to them due to the Buffs from the battle formation. In just ten seconds, it had avoided all the trees like a ghost and disappeared into the dense forest in the distance.

All the dark beasts, including the black Tiger, could only watch as Lin Yi and his group broke out of their carefully planned encirclement. They were all dumbfounded.

It was really like seeing a ghost!

How could they break out of the encirclement? Dozens of times the difference in numbers, dozens of times the difference in strength-the black Tiger had come with the mentality of toying with Lin Yi and the others, but it ended up being toyed with!

"Follow them. We must find them and eat them all!"

The black Tiger was furious. This was too embarrassing! There was no need to say anything, there were many different races of darkness magical beasts gathered here, and if they all returned, he would immediately become a joke!

There were also good trackers among the dark beasts. The dark spirit Ferghana horse left a clear trail behind, and Lin Yi didn't have time to clean it up, so it wasn't hard to track it.

Therefore, these darkness magical beasts didn't give up and followed the tracks left behind by the Black Spirit Ferghana horse. However, there was a slight difference in speed between the two sides, and they couldn't catch up for a while.

Lin Yi's spirit sense didn't give up on tracking the dark Demon beasts, and he only let out a breath of relief when they disappeared from his range.

After maintaining the battle formation for another ten minutes, Lin Yi's spirit was at its limit. He could only disband the formation.

"We've temporarily escaped from the darkness demon beasts, but they haven't given up and are still following us from a distance!"

Lin Yi massaged his temples, feeling a slight headache-the stars were starting to stir again. He felt a bit better after he stopped commanding them to maintain the formation.

"The traces we left behind are too obvious, and it'll take a lot of time to clean them up. With this time, the darkness demon beast might be able to catch up to us!"

"I need to make a decision now. If I want to hide from the darkness magical beasts, I have to give up on these dark spirit Ferghana horses! What do you think, yellow boss?"

Lin Yi didn't have a choice. It was faster on the Black Spirit Ferghana horses, but there were so many tracks left behind that it was impossible to clear them. The dark Demon beasts might have other methods to track them, too, so it was impossible to clear the tracks.

So Lin Yi decided to use the dark spirit Ferghana horse as bait, letting them continue running forward. After giving up their mounts, everyone would be more agile in the forest, like moving on the treetops and so on, which would make it easier to hide from the dark Demon beasts.

Huangshan Mao considered for a moment before nodding, "I understand vice-captain Sima's meaning, then we'll do as you say! In any case, when we reach the next town, it shouldn't be a problem to replenish our mounts. "

The town of fallen star was relatively small, so the sales of mounts were not large to begin with. That was why there was a shortage of mounts. However, this situation would be greatly alleviated in the next town.

After all, Huang Shan Mao's group was one of the teams that had left meteorite town earlier than them. The teams that were faster than them were definitely those with mounts. They did not need to replenish their mounts.

As for those without mounts, even if they set off from meteorite town at the same time, they would definitely not be able to catch up to the speed of Huang Shan Mao and the others. There was no need to worry about them becoming competitors.

Chapter 9074 Power

Giving up the twelve Black Spirit Ferghana horses in exchange for everyone's survival was a great deal!

"Very good. Since that's the case, everyone, get ready to dismount and jump onto the trees. Let the Black Spirit Ferghana horse continue to run in this direction while we move in another direction from the trees!"

Lin Yi kicked the horse's belly as he spoke, and the Black Spirit Ferghana horse sped up in pain. Lin Yi, on the other hand, jumped off the horse and landed on a branch.

The others didn't dare to hesitate and followed suit, having the Black Spirit Ferghana horse gallop faster while they themselves directly leaped from their horses onto the branches.

"Everyone be careful, don't leave behind any traces, so as not to be tracked by the darkness magical beasts. Also, I hope everyone can think about the change in battle formation just now, so that it can be used in the future when facing enemies."

Lin Yi carefully wiped away the traces he left on the branches and continued, "I can't continue to command and guide you to form a battle formation. I've already reached my limit just now. If there's anything you don't understand, you can ask me at any time."

"If we encounter a large group of darkness magical beasts again, you will have to fight in battle formations. At most, I will use words to command you, and I won't be able to guide you as precisely as I did just now. I hope everyone can understand!"

Huangshan Mao heaved a sigh of relief and hurriedly nodded, "I understand, I understand. This battle formation is quite profound. We're all very happy that vice-captain Sima is able to teach us!"

Lin Yi's previous performance had really scared Huangshan Mao. That inhuman ability to command was even more shocking than the mysterious battle formation!

If Lin Yi could maintain this attitude, Huangshan Mao wouldn't even have the heart to resist. It would be better if he just gave up the captain's position.

Now that Lin Yi said that he couldn't do it again, he subconsciously felt happy. At least he had a chance to keep his position as Captain, right?

He just didn't realize that he'd become a little more respectful when he spoke to Lin Yi ...

After finishing what he wanted to say, Lin Yi led everyone to jump on the branches of the huge trees, carefully erasing their traces. They weren't fast, but they were well hidden-the dark Demon beasts wouldn't be able to catch up to them in a short time.

Because they were not moving very fast, everyone had the time to recall the operation of the battle formation and their cooperation in the previous battle. They did not notice it during the battle, but now that they thought about it, it was more and more exciting!

The exquisiteness of this battle formation could be said to be unparalleled! At the very least, from what they could remember, such exquisite battle formations had never appeared in the heaven's legacy continent. Perhaps those aristocratic families and sects with deep foundations would have them, but they had definitely never seen them before.

People asked questions from time to time, and Lin Yi patiently answered them one by one. The others also listened carefully to confirm their own ideas. Although they couldn't form a battle formation yet, it was undeniable that everyone's understanding of the formation had improved.

He was probably not too far away from being able to form his own battle formation to fight! After all, most of them had experience in battle formations, and they learned quickly.

After another four hours or so, there were no signs of any Dark Demon beasts. They might have been lured in that direction by the Black Spirit Ferghana horse. Lin Yi guessed that they'd realized that they were tricked.

Perhaps the darkness magical beasts had already turned back to search for their tracks, but it would be too late for them to catch up by the time they found some clues!

"Vice-captain Sima, there's another fork in the road ahead. Have we returned to the right path?"

Qin wunian was running at the front, so he was the first to discover the path in the forest. It wasn't because she was strong, but because Lin Yi was afraid that she would leave too many traces behind. That was why he let her walk in front while he followed behind her.

As for the fork in the road Qin wunian mentioned, Lin Yi's consciousness had already noticed it, but he didn't say it out loud.

Following Qin wunian's words, the others also noticed the fork in the road ahead and felt a sense of joy in their hearts. This was because when they were breaking out of the encirclement, they could not differentiate which way was which, so they had no idea where they had run off to!

Who knew what kind of darkness magical beasts they would encounter if they were to get lost in the forest and go in circles? Finding the path in the forest meant finding the right direction!

The group stopped on a branch near the fork in the road. While they rested for a while, they decided on their direction again.

Jin ziduo subconsciously looked at Huang shanmao, wondering if comrade Huang was going to jump out and make the choice again. The previous choice almost killed the whole team. If it happened again, the brothers would probably rebel, right?

"There's no need to look at me, everyone. What else can I say after what happened just now?" Huang shanmao said with a bitter smile. I don't want to become the Guild's sinner. "

"Right! Yellow boss, you really have nothing else to say! We've already proven that listening to vice-captain Sima is the right choice. This time, we'll listen to vice-captain Sima!"

Sixth brother's support for Lin Yi sounded like he was mocking Huang shanmao, but he was also helping Lin Yi out. After he said that, the others wouldn't be so fixated on Huang shanmao's fault anymore.

As expected, when everyone else expressed their support for Lin Yi, no one mocked Huang shanmao anymore. Between stepping on people and supporting people, everyone was smart enough to support Lin Yi. It was more important to gain Lin Yi's favor, there was no need to waste their breath on Huang shanmao.

Lin Yi nodded slightly,"since everyone's willing to listen to me, then I'll help myself!" We won't take either of these two paths!"

As soon as he said this, everyone was stunned. They had finally found a way out, but they were all not going to choose? Was he going to continue running around in circles in the forest?

Shouldn't they leave the forest area as soon as possible? The only way to reach the next town was to pass through this dense forest and enter the wilderness again!

If they stayed in the forest, they'd only be found and surrounded by the dark Demon beasts again. Lin Yi himself said that he couldn't control the battle formation accurately anymore, and even if they could use their own understanding of battle formations, they'd be unfamiliar with it.

In addition, the Black Spirit Ferghana horse had already escaped, and now that they were surrounded by darkness magical beasts, they wouldn't have enough speed to break through!

"Sima Zhong da, what do you mean by this? Aren't we going to choose a path? Don't tell me you're not going to leave this forest?"

Qin wunian looked at Lin Yi, confused. She was the only one who would call Lin Yi by his name, while the others would address him as vice-captain Sima.

Lin Yi smiled and shook his head, "of course we'll leave the forest. We just don't leave from the roads. We all know that the fastest way to get through the forest is by following the roads. Do you think the dark Demon beasts don't know about this?"

Chapter 9075 Power

Lin Yi frowned. There were twenty-three people in this team. There were no sea severing cultivators, but there was one half-step sea severing cultivator and two complete earth splitting cultivators.

There were only four martial artists at the mountain opening stage. The rest were all earth opening stage martial artists. In terms of strength, they were several times stronger than Huang shanmao's team!

It was the same in terms of equipment. Huangshan Mao's team was a little weaker, but they were only a little stronger than Huangshan Mao's team without Lin Yi. With Lin Yi, it was a completely different story.

Compared to the darkness demon beast clan, these 23 people were basically the same as Huangshan Mao's group. They were all just food!

Lin Yi frowned. He was already being so careful to hide his tracks and avoid the dark Demon beasts-what if the traces left by these guys attracted the dark Demon beasts?

All their previous efforts would be in vain!

"Boss Huang, come over here!"

Lin Yi opened his eyes and called out to Huang shanmao, who was lying on the other branch.

Huangshan Mao wasn't asleep yet. He wanted to resist Lin Yi's call, but he didn't have a reason to do so. After all, they needed Lin Yi's guidance to get out of danger.

Helplessly, huangshanmao pinched his nose and agreed as he walked to Lin Yi's side, "Vice-captain Sima, what's the matter?"

It feels like ... I, boss Huang, am the F * cking vice-captain! Who was the boss?

Lin Yi lowered his voice and said, "Boss Huang, I can sense a group of people approaching us. They're heading in the direction we're going to take tomorrow."

"If we let them go like this, they'll definitely leave some traces on our path. If the darkness magical beasts notice us, we might be implicated."

"That's why I called you over to ask for your opinion. Do you think we should go and remind them to change their route? By the way, they have a total of twenty-three people, and their strength is generally above our team 's!"

When Huangshan Mao heard this, he immediately cowered. The number of people had doubled, and they were even stronger. Did they have nothing better to do than to ask them to change their course? Who could withstand a fall out?

"Vice-captain Sima, I think it's better to avoid trouble. They don't know of our existence. If we go and deal with them now, we'll expose our whereabouts for no reason. Let them be!"

Huangshan Mao laughed awkwardly, "at most, we'll just change our direction slightly and avoid them!" This way, they might even be able to help us draw away the darkness magical beasts 'attention! If that's the case, wouldn't we have profited?"

Lin Yi nodded, his face serious. "That's right, it's better to avoid trouble. We can't risk being discovered by the darkness magical beasts, so you should go and negotiate with them and have them avoid our route!"

Huangshan Mao almost vomited blood. Sima Zhongda, that's enough! Do you not understand what I'm saying or are you just pretending to be stupid? Is this what you mean by 'it's better to avoid trouble'?

Lin Yi patted Huangshan Mao's shoulder and said seriously, "Boss Huang is knowledgeable and eloquent. Only you can complete such an important mission. Go on, our brothers will support you!"

Huangshan Mao wanted to cry, that wasn't what he said just now! Sima Zhongda, you truly have the ambition of a Wolf. Are you trying to seize the opportunity to seize the throne?

Even if you want to be the boss, you don't have to trick people like this, right? Go find the team of 23 experts and tell them to change their course.

Just how disdainful must one be to do such a thing? Once the other party turned hostile, he wouldn't even have the chance to escape, right?

"Vice-captain Sima, this matter is a little inappropriate. Why don't we take a long time to discuss it? What I mean is that we can change our route to avoid the traces they left behind, and then let them attract the darkness magical beasts' attention, isn't that good?"

Huangshan Mao didn't want to take on such an unlucky mission, so he tried his best to reject it. Lin Yi didn't buy it and continued patting his shoulder.

"Boss Huang, I already said no! You have to go this time and find out more about the other party. If we can cooperate, it might not be a bad thing!"

Lin Yi continued to persuade him. Huangshan Mao was furious, but he suppressed the urge to curse. It was common to fight in the city, let alone in the wilderness.

If he offended someone and was not strong enough, he would deserve to be killed. At that time, where would he, Huang shanmao, go to reason?

"Alright, I'll go with you to take a look! Don't try to block them, at least figure out where they're going, so that they don't overlap with our route and get caught up by the darkness magical beasts for no reason!"

Lin Yi didn't say anything as he pulled Huangshan Mao towards the group of martial artists. He didn't forget to remind the others, "You guys continue to rest and stay alert. I'll send you a signal if there are any problems!"

Huangshan Mao was helpless-Lin Yi had already said that, and now he was even trying to pull her along. He couldn't really say no, and could only go with him.

The two of them quietly moved through the branches and soon approached the group of martial artists. Huang shanmao's eyesight was good. He saw the other party's appearance through the intertwining branches and leaves. His expression suddenly changed.

She quickly grabbed Lin Yi's arm and lowered her voice, "Vice-captain Sima, that's the demon Fang hunting squad over there, we shouldn't show ourselves! These people are cold-blooded and do anything. They have no morals to speak of. "

"If we appear in front of them, there's no need to talk about negotiation. We'll most likely become their prey and directly Rob us. They've done this kind of thing many times!"

"That fierce?" Lin Yi blinked. A hunting group that likes to grind their teeth sounds a little cute, but why are they so unparticular in their behavior?"

The corner of Huangshan Mao's mouth twitched. 'It's mo ya, not mo ya ... Forget it, it's not important, as long as you're happy!'

"Vice-captain Sima, have you never heard of the demon Fang hunting group before? They're a hunting group that's famous for their ferocity in the continent. The entire group consists of several thousand martial artists, and experts are as numerous as the clouds and the rain. What we've seen is just a small team that they've sent out. "

Huangshan Mao felt a bit helpless. His team only had eight fixed members, which couldn't even compare to a regular team of the demon Fang hunting group. It was really like comparing goods to throw away goods, and comparing people to people would kill!

In the past, when he heard the demon Fang hunting group's name, Huangshan Mao would take a detour. This time, he would rather die than meet the other party!

"The demon Fang hunting group not only has the advantage in numbers and strength, but they are also all ruthless. In their eyes, there is only strength, nothing else. Anyone weaker than them is prey!"

Chapter 9076

Lin Yi frowned. There were twenty-three people in this team. There were no sea severing cultivators, but there was one half-step sea severing cultivator and two complete earth splitting cultivators.

There were only four martial artists at the mountain opening stage. The rest were all earth opening stage martial artists. In terms of strength, they were several times stronger than Huang shanmao's team!

It was the same in terms of equipment. Huangshan Mao's team was a little weaker, but they were only a little stronger than Huangshan Mao's team without Lin Yi. With Lin Yi, it was a completely different story.

Compared to the darkness demon beast clan, these 23 people were basically the same as Huangshan Mao's group. They were all just food!

Lin Yi frowned. He was already being so careful to hide his tracks and avoid the dark Demon beasts-what if the traces left by these guys attracted the dark Demon beasts?

All their previous efforts would be in vain!

"Boss Huang, come over here!"

Lin Yi opened his eyes and called out to Huang shanmao, who was lying on the other branch.

Huangshan Mao wasn't asleep yet. He wanted to resist Lin Yi's call, but he didn't have a reason to do so. After all, they needed Lin Yi's guidance to get out of danger.

Helplessly, huangshanmao pinched his nose and agreed as he walked to Lin Yi's side, "Vice-captain Sima, what's the matter?"

It feels like ... I, boss Huang, am the F * cking vice-captain! Who was the boss?

Lin Yi lowered his voice and said, "Boss Huang, I can sense a group of people approaching us. They're heading in the direction we're going to take tomorrow."

"If we let them go like this, they'll definitely leave some traces on our path. If the darkness magical beasts notice us, we might be implicated."

"That's why I called you over to ask for your opinion. Do you think we should go and remind them to change their route? By the way, they have a total of twenty-three people, and their strength is generally above our team 's!"

When Huangshan Mao heard this, he immediately cowered. The number of people had doubled, and they were even stronger. Did they have nothing better to do than to ask them to change their course? Who could withstand a fall out?

"Vice-captain Sima, I think it's better to avoid trouble. They don't know of our existence. If we go and deal with them now, we'll expose our whereabouts for no reason. Let them be!"

Huangshan Mao laughed awkwardly, "at most, we'll just change our direction slightly and avoid them!" This way, they might even be able to help us draw away the darkness magical beasts' attention! If that's the case, wouldn't we have profited?"

Lin Yi nodded, his face serious. "That's right, it's better to avoid trouble. We can't risk being discovered by the darkness magical beasts, so you should go and negotiate with them and have them avoid our route!"

Huangshan Mao almost vomited blood. Sima Zhongda, that's enough! Do you not understand what I'm saying or are you just pretending to be stupid? Is this what you mean by 'it's better to avoid trouble'?

Lin Yi patted Huangshan Mao's shoulder and said seriously, "Boss Huang is knowledgeable and eloquent. Only you can complete such an important mission. Go on, our brothers will support you!"

Huangshan Mao wanted to cry, that wasn't what he said just now! Sima Zhongda, you truly have the ambition of a Wolf. Are you trying to seize the opportunity to seize the throne?

Even if you want to be the boss, you don't have to trick people like this, right? Go find the team of 23 experts and tell them to change their course.

Just how disdainful must one be to do such a thing? Once the other party turned hostile, he wouldn't even have the chance to escape, right?

"Vice-captain Sima, this matter is a little inappropriate. Why don't we take a long time to discuss it? What I mean is that we can change our route to avoid the traces they left behind, and then let them attract the darkness magical beasts' attention, isn't that good?"

Huangshan Mao didn't want to take on such an unlucky mission, so he tried his best to reject it. Lin Yi didn't buy it and continued patting his shoulder.

"The demon Fang hunting group not only has the advantage in numbers and strength, but they are also all ruthless. In their eyes, there is only strength, nothing else. Anyone weaker than them is prey!"

Chapter 9077

"If there are rules in a place where the binding power of the rules is greater than the strength of the demon Fang hunting group, they will choose to follow the rules. But if there are no rules or the binding power of the rules is less than their strength, they will become the rules!"

"Those who follow will prosper, and those who resist will die. This is the Code of Conduct that the demon Fang hunting group follows. No matter what their goal is this time, I think it's best for us to avoid them!"

Huangshan Mao said a lot in one breath, his voice getting softer and softer as he went on, afraid that the demon Fang hunting group would hear him. He kept pulling on Lin Yi's clothes, signaling for him to leave so that the demon Fang hunting group wouldn't notice.

It seemed that compared to the encirclement of the darkness demon beast clan, the demon Fang hunting squad was even more terrifying in his heart!

Lin Yi had nothing to say!

Perhaps Huang shanmao's words and actions had been heard, but five members of the demon Fang hunting team nearby had their arrows drawn, aiming at where Lin Yi and Huang shanmao were hiding.

"Who's there? come out immediately! Don't make a mistake! Otherwise, don't say we didn't warn you if you get hurt!"

The leader of the demon Fang hunting group smiled coldly as he looked at Lin Yi's position, his right index finger beckoning a few times. "You've already been exposed. Don't try to hide anymore! We don't have much patience here, so come out yourself, don't make us do it!"

Huangshan Mao's face instantly turned pale. He wanted to escape immediately, but facing the arrows of the demon Fang hunting group, he didn't dare to act rashly.

Lin Yi's head hurt a little. It was troublesome to meet a group of unreasonable bandits. If he fought with them, he might not be able to win, and the noise they made might attract the dark Demon beasts "attention.

At that time, it would be too much fun to be pincered by the two sides!

"Release the arrows!"

The demon Fang hunting team's captain ordered after seeing no reaction from Lin Yi.

He didn't care if the other party was hesitating or not. As long as he didn't come out immediately, it was equivalent to hostility. Using the bow and arrow to force him out was obviously a good idea!

The archers with the five longbows all had good shooting skills. When the first arrow was shot, the second arrow was already nocked and fully drawn. It followed the tail of the first arrow, then the third arrow, the fourth Arrow ...

Rapid fire arrow technique!

The five of them fired off a rain of arrows in an instant, shrouding Lin Yi and Huang shanmao's hiding spot in the branches. The power of each arrow was shocking, enough to pierce through the trunk of a giant tree and break a normal branch.

Huangshan Mao's expression changed drastically. It wasn't that he couldn't deal with these arrows, but he would lose the chance to retreat if he blocked them!

Although Lin Yi had displayed his magical abilities, Huangshan Mao subconsciously didn't believe that Lin Yi could always be that magical. Facing the demon Fang hunting group, he was even more scared before the battle started. He felt that if he was held back by the other party, he would be dead for sure!

Lin Yi didn't mind the demon Fang hunting group's rain of arrows. He took out a defensive formation and activated it, covering the entire tree trunk. Dozens of arrows hit the defensive layer, but it only made the sound of rain hitting a banana tree. Not a single leaf was hurt.

"Ha ... The demon Fang hunting group really lives up to their name, trying to kill someone without saying a word! In fact, what you're doing is wrong. If you want to kill someone, just come at me! Why are you shooting so many arrows at the tree? the tree is innocent, and you want to do this to it?"

Lin Yi chuckled as he flew down, putting all the arrows into his storage bag. "These are all weapons. Although they didn't hurt the trees, it's not appropriate for them to hit the flowers and plants, so I'll help you put them away!"

Huang shanmao's face was pale. He really didn't want to face the demon Fang hunting group, but Lin Yi had already appeared and he was exposed. He couldn't run, so he could only jump down and follow Lin Yi.

Lin Yi still had the defensive formation disk, after all. It could hold him off for a while or two, and it felt much safer than him being alone.

"Hahaha! I was wondering what kind of expert was hiding in the dark, but it turns out that it's just two little mice sneakily hiding on the side!"

The captain of the demon Fang hunting squad laughed towards the sky, the smile on his face suddenly disappearing as he casually waved his hand, "Boring! Kill them!"

In his eyes, Huang Shan Mao's strength was not bad, but there were many in his team who could beat him in a one-on-one fight. Not to mention, the demon Fang hunting group never had the habit of fighting one-on-one with their enemies.

If you can fight as a group, why do you have to fight one-on-one? Did you have nothing better to do?

As for Lin Yi, he was just a weak mountain opening chicken, what use was a defensive formation disk? So he didn't even have the interest to ask a few more questions and ordered for Lin Yi and Huang shanmao to be killed!

Sure enough, the demon Fang hunting group didn't need any reasoning, seeing a weak opponent, they directly classified them as prey!

The six earth formation practitioners behind him formed a simple battle formation, surrounding Lin Yi and Huang shanmao in the middle. The five archers were still aiming their arrows at the two, preventing Lin Yi or Huang shanmao from breaking through.

Looking at their cooperation, it was clear that they had done this many times, and it was unknown how many people had been easily wiped out by the demon Fang hunting group.

"Stop! We're not just two people! Do you really intend to have a fight with us here?"

Huangshan Mao hollered, forcing out a malevolent expression, "To tell you the truth, our companions are also hidden nearby. Can you find their location? If you want to make a move, think about whether it's worth it or not!"

These words were said with a bit of ferocity on the outside, and also exposed Huang Shan Mao's guilty conscience. The captain of the demon Fang hunting group seemed to be a bit more interested.

"Oh? Do you still have another team? I thought it would be boring to play with you two little mice, but there are more little mice. That's interesting. "

The captain shrugged his shoulders indifferently, "they'd better come out as soon as possible, or they won't have time to collect your corpses!" Of course, they probably won't be able to collect your corpses when they come out, because they will accompany you to the netherworld!"

"Aiya, isn't that a little cruel? Would they be so scared that they would run away? Tsk, tsk, shouldn't we make a bet and see if they will come out to save you?"

The six practitioners surrounding Lin Yi and Huang shanmao revealed sinister smiles as their auras grew stronger and stronger. They were ready to launch their final attack and kill Lin Yi and Huang shanmao instantly!

Chapter 9078

As for the defensive array board, it looked like a good item. Unfortunately, with the support of the battle array, it probably couldn't withstand their joint attack and would break!

The demon Fang hunting team had done many things like killing and robbing, so they were very experienced in this area!

Lin Yi didn't panic at all in this situation-he even smiled mockingly."The demon Fang hunting squad is nothing more than this! Do you really want to make a move? Don't you want to think more?"

As he spoke, he took out a dozen arrows from his storage bag. Lin Yi casually threw them out, but the speed and strength couldn't compare to the archers' arrows.

But at such a close distance, it wasn't like the arrows weren't lethal. If they hit a vital spot, it was possible to kill in one shot, but Lin Yi's accuracy seemed to be a little off. The arrows weren't aimed at the enemy, they were all flying in the air!

Huangshan Mao cursed madly in his heart, just this little bit of ability? It's better not to take it out and embarrass yourself, okay? Furthermore, he had just said some ruthless words, and now he had made such a joke. Was he trying to make the other party laugh to death so that he could leave without any effort?

Just like Huangshan Mao, the demon Fang hunters were also on the verge of breaking down. They didn't think that Lin Yi was just randomly shooting arrows to show off. The arrows weren't aimed at their bodies, but it was worse than shooting them directly!

If he were to shoot directly at their bodies, they could basically ignore Lin Yi's strength at the beginning stage with their earth stage strength.

Unfortunately, each of these arrows were stuck in the operation nodes of their six-man battle formation, causing their battle formation to come to a standstill.

Not only that, if they wanted to take action, they would run into these seemingly harmless arrows. Those who could do such a thing ... Were they still human? In terms of the research and understanding of battle formations, he must be at least a Grandmaster!

Of course, the demon Fang hunting group wouldn't give up just because of a small setback. On the contrary, Lin Yi's performance only made them more aggressive.

The six earth formation Stage practitioners decided to break their formation and split up again, using their individual strength to deal with Lin Yi's arrows. This way, the situation was turned around.

Lin Yi was only using his strength at the mountain opening stage, and the arrows didn't pose any threat to any earth opening stage.

"Yo! He was actually a battle formation expert, what a rare sight! Unfortunately, it's not like our demon Fang hunting squad hasn't encountered a battle formation expert before. Even without using a battle formation, we can still get rid of you!"

The captain at the back laughed. They were indeed experienced. There was no need for him to command. The team members would automatically make the best response according to the situation.

"I'll give you a chance. How about joining our demon Fang hunting squad? Our demon Fang hunting group is still very humane, and boss is also very thirsty for talents. As long as you are willing to join our demon Fang hunting group, you will be able to live a good life in the future, and you will be able to do whatever you want in the heaven's legacy continent. "

"Isn't it much better than a small, nameless team like yours, living a precarious life? Do you want to consider? If he wanted to consider it, he had to hurry up! I'm afraid you'll be killed by my people before you think it through!"

"Although we respect the wise, it's very normal for a corporal to be killed when he doesn't want to talk to us. After all, if he doesn't want to be friends with us, he can't stay to be our enemy, right? It's understandable, right?"

The demon Fang hunting group's Captain said, trying to recruit Lin Yi for their use. They probably saw that Lin Yi's strength in battle formations was very strong and profound, and felt that they could take him back to use.

At the same time, the six earth formation Stage practitioners had already split up and started attacking Lin Yi's defensive Formation Board. They were using force and force at the same time, trying to take Lin Yi down completely!

As for Huang Shan Mao, he had already been completely ignored by him. An earth opening stage cultivator didn't have much meaning to the demon Fang hunting group. One more didn't matter, and one less didn't matter.

If he had to worry about what kind of trouble he would cause if he recruited them, killing them directly was the most refreshing!

Lin Yi used the defensive formation disk's defensive power and didn't need to do anything himself yet, so he replied with a smile, "The demon Fang hunting group's recruitment method is quite special! Unfortunately, a mere demon Fang hunting group doesn't have the qualifications to recruit me!"

"Moreover, I don't have a good impression of your demon Fang hunting group. As the saying goes, those who walk different paths can't make plans together. I originally wanted to discuss something with you, but since you can't even speak properly, then forget it!"

Lin Yi said as he flicked the arrows out. He didn't care if they were threatening or not-the arrows were coming from the enemy's side, after all, and there wasn't much use for them. He just threw them out to kill some time.

The enemies basically ignored Lin Yi's arrows, pushing them aside occasionally and continuing to attack the defensive formation. The six earth formation Stage practitioners attacked at the same time, and the defensive layer of the formation started to shake as well, looking like it was going to be broken soon.

"Hey, you're quite stubborn! Since you don't want to live, then you can just die! You're not the only one who knows how to use battle formations. You ungrateful brat, don't regret it after you die!"

The hunting team's captain pouted and gently waved his hand. ""Hurry up and kill them! Didn't they hear that they had accomplices hiding nearby? After killing these two, it's time for us to hunt again! Find them and kill them all!"

If you cut the grass and don't remove the roots, it will grow again in the spring wind!

The demon Fang hunting group's principle had always been to either not do it, or do it to the extreme! Any enemy must be exterminated to avoid any unnecessary trouble in the future.

They also knew how to avoid the strong and avoid the weak. They would never provoke those they couldn't afford to provoke, and kill those they could. This was why they were able to mix so well in the heaven's legacy continent and had such a fierce reputation.

Lin Yi and Huang shanmao obviously didn't have any background, so the demon Fang hunting group naturally wanted to kill them all.

"What a bunch of lunatics. They can't even talk properly. Do they really Rob anyone they see? Isn't that a little unreasonable?"

Lin Yi couldn't understand the demon Fang hunting group's actions. Shouldn't there be a specific target for robbery? But looking at the demon Fang hunting group's appearance, it was clear that they wanted to kill whoever they encountered, what a joke!

Huang shanmao laughed bitterly. "They don't Rob anyone they see. The weaker ones, like the ones at the xuansheng stage, obviously don't have much to gain from them. They don't even bother to attack them. Unless they want to kill for fun, they usually don't attack."

"We just so happen to be in their area of action, so our strength is very suitable. Adding on to that the reason for the star Ink River, the demon Fang hunting group is probably preparing to eliminate all the fighters with similar strength to avoid having too many people fighting for the star Ink River, which would cause some uncontrollable factors to appear."

Chapter 9079

Lin Yi patted Huang shanmao's shoulder and praised him, "Boss Huang, you have a clear mind! This should be the case! If not for the star Ink River incident, the demon Fang hunting squad might not have been so overbearing. "

"You know them best! I didn't think of that. With their overbearing style, it's not strange for them to do that! What a pity, I wanted to cooperate with them ... But since they don't want to cooperate, I can only let them cooperate passively!"

Lin Yi raised an eyebrow-he'd already formed a preliminary plan, but there were still some details he needed to figure out. He'd just have to play it by ear when the time came.

The captain saw that Lin Yi was still in the mood to chat with Huang shanmao and couldn't help but remind him,"Hey, I said I'm going to kill you all, then find your team members and kill them, didn't you hear me? Do you think I'm trying to scare you?"

"I heard it, I heard it! All the best! Kill us first, we're still alive and kicking, there's nothing you can say to convince us!"

Lin Yi nodded politely, but his tone was like he was coaxing a kid.

The captain of the demon Fang hunting team laughed in anger. Was this guy stupid? Or did he think that this bro was just joking?

"Did you hear that? They were laughing at them for not being able to break a mere defensive array disc and not being able to take down two weaklings! Do you still have the face to laugh?"

The captain shouted, and the six earth formation Stage practitioners surrounding Lin Yi and Huang shanmao gathered their energy and used all their strength to bombard the defensive layer.

The five archers on the outside also began to draw their bows and release arrows. This time, they did not pursue rapid shooting. The rapid-fire archery technique was fast, but it correspondingly gave up

some attack power. Therefore, they changed to armor-piercing heavy arrows, aiming at a point on the defensive layer and attacking the same place continuously.

It was only the second round of armor-piercing heavy arrows, but the defensive layer began to show signs of instability. The six earth-splitting stage close-combat martial artists saw the opportunity and also launched attacks toward that position.

Huangshan Mao's heart started beating faster and his breathing started to speed up. His face was as pale as a sheet of paper-Lin Yi's defensive formation disk was his bottom line.

Once the defensive disk array was broken, with the demon Fang hunting group's strength, he and Lin Yi wouldn't even have the chance to escape, unless this damn Sima Zhongda could once again show the strength he had used to beat back the pack of Night Demon wolves.

The problem was that Sima Zhong da himself had said that he had used his trump card to scare off the pack of demonic Night Wolves. It was a one-time use item and could only be used once. Now that he was facing the demon Fang hunting group, he didn't know what else he could do but wait for death ...

Lin Yi could feel Huang shanmao's nervousness, so he turned back and smiled,"Boss Huang, don't be nervous! It's just twenty demon Fang hunting teams, what's there to be afraid of? You faced 500 to 600 darkness magical beasts and were willing to die. Do you think 20 people can scare you?"

Huangshan Mao wanted to roll his eyes, but he was too nervous and didn't have the mood to do so. He could only Mutter unhappily,"How is that the same? The darkness demon beast clan and US humans are mortal enemies, and there's no way we'll surrender!"

"So if we die, then we die. There's nothing to say, but the demonfang hunting group isn't a dark magical beast ... Do you think we can still surrender? They value your battle formation skills, so maybe they'll let us go?"

Lin Yi's mouth twitched. He didn't know if he should say that Huang bingqi was very clear-headed, or that he was so scared of death that he even surrendered. Didn't he realize that the demon Fang hunting group only wanted his battle formation ability, not him?

In other words, if the two surrendered, Lin Yi might be able to join the demon Fang hunting group, but Huang shanmao would most likely be killed. After knowing this, would brother Huang still want to surrender?

"Boss Huang, stop overthinking! Isn't it just a demon Fang hunting group! Don't worry, they can't do anything to us. You said they like to Rob people, right? We'll Rob them later to help you vent your anger, what do you think?"

Lin Yi's expression was relaxed, not at all aware that he was surrounded and not in a dangerous situation. Huang shanmao suddenly had a bit of hope, maybe ... Sima Zhongda still had a hidden card?

Even if he really had a trump card, Huangshan Mao didn't dare to think of robbing the demon Fang hunting group, he only wanted to quickly escape and thank the heavens!

"Vice-captain Sima, don't joke around. If you have any ideas, quickly use them! When your defensive formation plate is broken, we'll really be dead!"

Huang shanmao looked at Lin Yi with hope in his eyes, hoping that Lin Yi would immediately pull out some killing move and get rid of a few members of the demon Fang hunting group before breaking out of the encirclement ... No, it was better not to kill them!

If they killed someone, this enmity would be formed and would never be resolved. Being targeted by the demonic Fang hunting group was even more terrifying than being targeted by a darkness magical beast!

"Vice-captain Sima, there's one more thing I forgot to remind you. The demon Fang hunting squad usually moves together in a Squadron or more. We're only facing a small squad right now!"

"If I'm not wrong, there should be even more demon Fang hunting group fighters nearby. Under normal circumstances, a Squadron should have around two hundred people, so we can't afford to offend them too much. If we get bitten, we really won't be able to escape!"

Huangshan Mao's heart jumped as he thought of this, using a soft voice to remind Lin Yi. His eyes couldn't help but look in other directions, afraid that the demon Fang hunting group would suddenly appear in large numbers!

Lin Yi's eyes brightened, a mysterious smile on his lips. "There are so many people? This was unexpected! Alright, let's leave first!"

The defensive formation disk's defensive layer was full of cracks and was on the verge of collapse, but Lin Yi didn't seem to care. He continued to speak calmly.

When he said "let's leave first," the defense formation disk finally reached its limit and broke into pieces on the ground. The defense layer was also completely shattered.

The captain of the demon Fang hunting team laughed wildly, "Hahahaha, kid, you're quite good at acting tough! Now that your tortoise shell has been shattered, I'll see what else you have! If you don't have any new tricks up your sleeves, just obediently accept your death!"

The six earth formation Stage practitioners surrounding Lin Yi and Huang shanmao grinned evilly as they passed through the shards, ready to vent all their anger on Lin Yi and Huang shanmao!

Huangshan Mao's eyes widened as his pupils rapidly contracted and expanded. The fear in his heart was almost tangible, but at this moment of life and death, he had no lack of courage. He roared and prepared to fight back.

Chapter 9080 The Power Of The Devil

Even if it was useless, he had to show his attitude. Even if he couldn't kill, he had to bite off a piece of meat from the enemy!

At the same time, he was screaming in his heart, "Sima Zhong da, if you still have any trump cards, hurry up and take them out!" If you don't take it out now, we'll be finished together!

Lin Yi faced the six earth creation Stage practitioners and revealed a bright smile. His eight white teeth were especially eye-catching, but what was even more eye-catching was the formation flag that suddenly appeared in his hand.

The hunting team leader was slightly puzzled. What was the use of taking out an array flag now? Raise the white flag and surrender? However, those array flags were black, so it had nothing to do with surrendering, right?

In a life and death situation, what use could an ordinary array flag have?

Before he could figure it out, Lin Yi told him what this normal array flag did!

Before the six earth creation Stage practitioners could surround him, the formation flag in Lin Yi's hand flew out gently. The moment it landed, a light flashed and an illusory formation formed!

Lin Yi and Huangshan Mao disappeared the moment the formation appeared. The members of the demon Fang hunting group were all stunned, not understanding what had happened.

Where did this illusory formation come from? An array flag can set up an array? Don't joke around!

The hunting team leader's face was dark and gloomy, no longer as proud and arrogant as before. "It's the arrow that was just thrown out! He used those arrows as formation flags! The last formation flag was the core, and it instantly activated this formation!"

"Use all your strength to break the formation! This illusory formation was set up by that kid in a hurry. It was not perfect and could be broken by force! Let's attack together! We can't let them escape!"

The demon Fang hunting group's fighters all started moving. They were experienced, and with their full strength, it only took five or six seconds to break Lin Yi's illusion.

When Lin Yi set up the formation, he didn't think that it could delay them for too long-two or three seconds was enough, but the demon Fang hunters took a few more seconds. By the time they broke the illusion and escaped, Lin Yi and Huangshanmao were long gone, not leaving a trace behind.

The hunting team leader's face turned ashen as he gritted his teeth and said, ""You've been hitting geese all day long, but you've been pecked in the eye by the goose! That kid's array skills are so amazing, he's probably already a Grandmaster!"

"Someone, go back and inform the squadron to come and search for those two people. We can't let them go! The rest of you, look for any traces nearby. They haven't left for long, so there must be some traces left. Find them and kill them without mercy!"

This guy wasn't just angry, he was really determined to kill.

The demon Fang hunting group wasn't afraid of a Grandmaster, but making an enemy out of a Grandmaster didn't have any benefits for the demon Fang hunting group!

When it came to face-to-face combat ability, grandmasters of array path were at most garbage existences, at most a bit stronger than alchemists, so the demon Fang hunting group didn't fear them at all.

But if an array path Grandmaster was given enough time and space to set up a powerful killing array and then lure the demon Fang hunting group into it, who knew how many members of the demon Fang hunting group he could kill? it was even possible for him to directly exterminate them!

Lin Yi's display of skill in formations was enough to threaten the entire demon Fang hunting group, and so the demon Fang hunting group wouldn't let such an enemy leave alive and wait in the dark for an opportunity to strike!

"Yes!"

The members of the demon Fang hunting group loudly agreed. One of them quickly turned around and flew back the way they had come. Just as Huang shanmao had said, behind this small team was a demon Fang hunting group's mid-sized team!

The captain was confident that he could take out Lin Yi's team with his own team, but he needed to find out where Lin Yi and the others were hiding as soon as possible. One team wasn't enough, and he needed to put in a middle company as well.

On the other side, Lin Yi had brought Huangshan Mao back to where Qin wunian and the others were. The scene that had just happened was a little magical to Huangshan Mao.

An arrow that was casually thrown out was actually an illusory formation that was deliberately set up? He was standing right next to Lin Yi, but he didn't realize the secret at all!

He'd thought that Lin Yi was only an apprentice before, but now he realized that the formation master in their team might only be an apprentice under Lin Yi ...

"Vice-captain Sima, who exactly are you?"

Huangshan Mao couldn't hold it in anymore-Lin Yi's performance was way beyond his imagination, and this wasn't the level of someone who just joined a random party!

Such a talent, even a large team like the demon Fang hunting group would probably fight to the death for him, right?

Of course, now that Lin Yi and the demon Fang were mortal enemies, they probably wouldn't have any more thoughts of recruiting Lin Yi. According to their usual style, it would be more reasonable to just kill him.

Thinking of this, Huang shanmao was actually a little happy. He didn't know if it was because he was gloating or something else, but Lin Yi and the demon Fang hunting squad becoming enemies was a good thing!

Lin Yi turned around and smiled,"that's quite a philosophical question, yellow boss!" Who am I? Of course, it was Sima Zhongda! It's just that it's a little difficult to prove that I'm Sima Zhongda. This involves the scope of philosophy, and I can't explain it clearly in a few sentences. "

"You see, we've already arrived. Simply put, I'm Sima Zhongda, your vice-captain. How about we have a more in-depth chat about who I am when we have time?"

Huangshan Mao was dumbfounded. What the hell was this? Sure enough, even a genius-looking person's brain would be a little abnormal?

What he didn't realize was that Lin Yi's nonsense had made him forget the main purpose of his question-who was he?

"Sima Zhong da, you've returned! How's the situation? Did things not go well?"

Qin wunian had been paying attention to the direction Lin Yi and Lin Yi left in, and he rushed over to them when he saw them return."I think I heard some noise. Did you guys fight?"

There was a considerable distance between the two sides, but it wasn't strange that Qin wunian could hear the commotion caused by the demon Fang hunting group's attack on the defensive formation plate.

The others also noticed it. Jin ziduo also came over and said,"We didn't receive your signal, so we asked everyone to stay where they were and not go to help you."

"It's right to not have a past! That's the demon Fang hunting squad over there. They're going to kill us if we don't get along. We have to leave immediately. It won't be long before they find our tracks!"

Huangshan Mao's face was serious as he looked at Lin Yi,"Vice-captain Sima, do you have any objections? The demon Fang hunting squad is different from the darkness demon beasts. They are known as hunting squads, and tracking their prey is their specialty. No matter how careful we are, we won't be able to erase all traces. We have to quickly increase the distance between us!"
