

Bodyguard 9081

Chapter 9081 The Power Of The Divine Realm

After being targeted by the demon Fang hunting group, the most annoying thing was being followed no matter where he ran. To be honest, Huang shanmao was already in despair, but in order to survive, he had no choice but to run with all his might.

"Of course we're leaving, but there's no need to worry too much. If the demonic Fang hunting group really wants to kill us, they'll be the unlucky ones in the end!"

Lin Yi didn't really mind and smiled, "Don't worry, don't worry. Just now, we left unscathed. They can't do anything to us even if they come again!"

Huangshan Mao's mouth twitched, how could he be at ease!

"Vice-captain Sima, do you have any trump cards? Set up an ambush for them or something? That would take time to set up, right? Now isn't the time to talk, you should hurry up, right?"

Huangshan Mao remembered Lin Yi's skills in arrays-that kind of skill, he could still feel the shock when he thought about it. An array master could really change the tides of a battle with just a wave of his hand!

If Lin Yi wanted to set up a trap and kill array or something to deal with the demon Fang hunting group, then he did have a chance of winning. Instead of being chased by them, he might as well use their desire to kill them!

So Huang shanmao's eyes lit up as he looked at Lin Yi expectantly. As long as Lin Yi said he wanted to set up a formation, he'd give his full support!

In the current situation, other than relying on the strength of an array master, there was no other way to turn the situation around!

"I'm not planning on ambushing the demon Fang hunting group, there's no need to waste time." Lin Yi shrugged.

Huangshan Mao's expression darkened. He still had to run for his life! Forget it, if he wanted to escape, so be it. It was good that he was alive.

"Boss Huang, you just said that the demon Fang hunting team usually moves in a Squadron of two hundred people, right? So, there should be at least a hundred people chasing after us, right?"

Lin Yi had a plan in mind-he had to confirm this information.

Huangshan Mao let out a long sigh, these words hurt their morale! They couldn't even deal with a small team of more than twenty people chasing them, let alone a company of two hundred people!

However, there was no need to worry about the debt. No matter how bad the situation was, it was just like that. Huang shanmao nodded his head gloomily, thinking about what to say to boost the morale of his team members.

Before he could think of an excuse, Lin Yi pinched his chin and chuckled, "That's good. There are too few people. I'm afraid it won't be enough!"

Huangshan Mao was slightly startled, "what?" Vice-captain Sima, what do you mean? Do you have a plan?"

Lin Yi didn't go into details, but took out a formation disk and passed it to Huang shanmao, ""Boss Huang, find a place to hide. Use a concealment array disc to hide. Leave the demon Fang hunting team to me!"

Qin wunian was stunned. She was a woman who had checked Lin Yi's storage bag before, and she was certain that the invisibility formation disk wasn't in there! Where did this thing come from?

Could it be that Sima Zhong da had another storage bag that had not been discovered?

This man ... His means of hiding his money was quite brilliant!

For a moment, all sorts of thoughts ran through Qin wunian's mind. Since there were undiscovered storage bags, belts, rings, and the like, could the thing she was looking for be in that storage equipment?

She looked at Lin Yi suspiciously, but she couldn't ask.

Huangshan Mao took the formation plate naturally. He had seen Lin Yi use a defensive formation plate before, so it shouldn't be too low level. It shouldn't be a problem to hide for a while.

The problem was, was Sima Zhong da going to deal with the demon Fang hunting group by himself?

"Vice-captain Sima, how are you going to deal with the demon Fang hunting group? Although you're very powerful, the other side has many people, and you're alone. You can't fight them head-on! Let's just run away together. "

Huangshan Mao wanted Lin Yi to take care of the demon Fang hunting group, but he had to pretend to care.

Lin Yi smiled and waved his hand, "no need. It's more flexible to do the rest by yourself. It's inconvenient to do it with more people, so I want you to hide. Don't worry, there will be results soon. I'll come to you then!"

Qin wunian was suspicious of Lin Yi, and didn't think that there was anything wrong with him going against the demon Fang hunting group alone.

And so, the decision was made. Lin Yi turned around and left, disappearing into the thick branches of a tree. Huang shanmao, on the other hand, brought the rest in the opposite direction, looking for a suitable place to use the invisibility formation.

After a few steps, Jin ziduo suddenly opened his mouth, ""Boss Huang, do you think ... Sima Zhongda ran away on his own? He sent us away, he might be using us as bait!"

"Think about it, he'll definitely be very agile by himself, and we have more people, so it'll be easy to leave traces, and the chances of the demon Fang hunting group finding us will be even higher! Sima Zhong da actually wants us to attract the attention of the demon Fang hunting group so that he can escape?"

Huang shanmao stopped in his tracks. He was completely stunned by Lin Yi's performance and didn't think that this possibility existed. Now that Jin ziduo mentioned it, it made more and more sense!

In the blink of an eye, Huangshan Mao's back was covered in cold sweat!

According to Jin ziduo's guess, Sima Zhongda was leaving now to give directions to the demon Fang hunting group, right? As long as they deliberately left some traces that pointed to their group, with the demon Fang hunting group's ability, they would definitely be able to track them down!

"Jin ziduo, don't measure the heart of a gentleman with your own mean measure. With Sima Zhongda's strength, is there a need to use you as bait? You must be joking!"

Qin wunian subconsciously stepped forward to speak up for Lin Yi. If his prediction was correct, then Sima Zhongda's defeat of the demon Fang hunting team should be a matter of course!

The question was, was that prediction wrong? Qin wunian wasn't sure himself, but she trusted Lin Yi instinctively, thinking that he wouldn't lie to them.

Huang Shan Mao laughed drily. "Yes, yes, yes. Vice-captain Jin was just joking. Miss Qin, please don't take it to heart!"

A guess was ultimately just a guess. If Jin ziduo was wrong and he fell out with Qin wunian now, things would be bad when Sima Zhongda returned after dealing with the devilfang hunting group.

If he could even deal with the demon Fang hunting squad, then the only thing he needed to consider was which finger would be easier to crush.

Jin ziduo snorted coldly, not giving Qin wunian any face. "You don't have to defend Sima Zhongda. I've seen through it long ago. Although you two joined our team as partners, you might not be that close!"

"Right now, you're doing your best to protect Sima Zhong da. If he really abandons you and uses you as bait, let's see how you'll react!"

Huangshan Mao was afraid that the two of them would fall out, so he quickly tried to smooth things over, "Don't blame me, lady Qin. You also know that Jin ziduo has this kind of bad temper. He's straightforward and says whatever he thinks. In fact, he doesn't have any malicious intentions!"

Chapter 9082

"Of course I believe vice-captain Sima. Vice-captain Jin was just raising his doubts. After all, vice-captain Sima didn't explain in detail what plans he had just now, so it's normal for vice-captain Jin to be uncertain."

As he said this, Huangshan Mao's tone changed, "Since everyone is suspicious, let's go back and find vice-captain Sima! It just so happens that I've always been worried about him acting alone. It's too dangerous!"

"What if we fight with the enemy? how troublesome would it be if two fists can't fight four hands? Let's go and help him, at least we can save him at the critical moment. What do you think, lady Qin?"

Suspecting that it was Jin ziduo and the others, but caring about Lin Yi was Huang shanmao himself. This guy's words were beautiful and flawless, and Qin wunian couldn't find any rebuttal.

Besides, Qin wunian was indeed a little worried or curious about Lin Yi's actions. Since Huang shanmao was willing to take the risk, she naturally wouldn't object.

"Since boss Huang said that he's going to get Sima Zhongda, then let's go get him! It's just that we might run into the demon Fang hunting group this time, are you sure you want to do this, boss Huang?"

Qin wunian tilted his head to look at Huang shanmao. His fear of the demon Fang hunting group hadn't been perfectly hidden, and anyone with eyes could see it.

It wasn't easy for Huangshan Mao to make up his mind to turn back!

Huangshan Mao's heart was at a loss. He was definitely afraid of the demon Fang hunting team! It was too late to escape, so how could he go back and die?

He didn't want to go back and take a look, and he was afraid that Lin Yi would sell him out. If that happened, he would be in a more dangerous situation. It was better to go back and take a look.

After the short communication, the group turned back, wanting to follow Lin Yi, but Lin Yi didn't leave any traces behind ...

Huang shanmao didn't know what to do next, and Lin Yi had already walked far away, so he didn't have time to think about what Huang shanmao and the others were thinking.

Lin Yi's plan was to drive the Tiger to devour the wolf. The demon Fang hunting group was very strong, and he couldn't even deal with a small team under the influence of the star power, let alone a company of them. Killing them would also mean getting killed by the star power. It wasn't worth it.

Coincidentally, the darkness magical beasts were also chasing after them. They should be allies with the demon Fang hunting team, since the enemy of an enemy was a friend.

The problem was that both sides didn't know of each other's existence, and the hunting group and darkness magical beasts were natural enemies. Who was the Hunter and who was the prey usually depended on the strength of both sides.

All Lin Yi had to do was lure the dark beasts to the demon Fang hunting group and pretend that they were his reinforcements. After that, he just had to retreat and watch the fight from a safe distance!

Thus, the first thing he had to do was to find the location of the darkness demon beast clan. This wasn't difficult, and if he wasn't wrong, the short battle with the demon Fang hunting group should have attracted the attention of the darkness demon beast clan. Their Scouts might have already arrived to observe the situation.

Everything was as Lin Yi expected. Not long after, he saw a small scouting team of six night demonic wolves quietly moving through the forest.

There wasn't a night demonic Wolf in the encirclement before, but Lin Yi had always guessed that the formation of the encirclement was related to the night demonic Wolf, and now it was confirmed.

These cunning guys didn't take on the task of a frontal attack, but instead wandered around the periphery, scouting. If it weren't for Lin Yi's unexpected choice when he broke out, he wouldn't have been able to escape their pursuit.

Lin Yi calculated the distance and decided to stop the pack of night demonic wolves. If he let them pass, they'd easily bump into the demon Fang hunting group.

Now was not the time for them to meet. They had to at least attract the majority of the darkness magical beasts over.

"Long time no see! Have you forgotten the pain after the wound has healed? are you ready to be our enemy again?"

Lin Yi suddenly appeared in front of the six night demonic wolves. With his super butterfly microsteps, the night demonic wolves didn't even notice how Lin Yi appeared.

The demonic Night Wolves immediately went into a defensive stance, their leader being a mid-stage earth splitter. It lowered its body and looked at Lin Yi with alert eyes.

"It's you! Human, what do you want to do? Are you taking revenge on our clan?"

Although it didn't transform, the leader of the night demonic Wolf spoke clearly, and there was no problem in communicating. "Tell your companions to come out! This is indeed a good opportunity for you to take revenge!"

He didn't say anything about being a Scout, but instead described the encounter as Lin Yi's revenge, and also secretly asked for Huang Shanmao's whereabouts.

He was indeed a good scout!

Lin Yi praised him in his heart before mocking, "Take revenge? I don't even care about the existence of your night demonic Wolf Clan. Of course, if you are determined to be my enemy, I don't mind exterminating you all!"

"Don't think that I'm joking. Your leader should be very clear that I have the absolute strength to do this, so he didn't dare to look for trouble with me directly. He secretly played tricks and urged the other darkness magical beasts to deal with us, right?"

"No, I didn't! It wasn't! Don't spout nonsense!"

The leader of the night demonic Wolf immediately denied it and said righteously, ""I don't know what you're talking about. We're just looking for prey to fill our stomachs! If you're not here for revenge, then let's just mind our own business and part ways. "

After losing to Lin Yi last time, the night demonic wolves were extremely afraid of Lin Yi. They formed an encirclement and didn't appear directly, which was why they were laughed at by the other dark demonic beasts.

These six night demonic wolves didn't even have the thought of testing Lin Yi. They just wanted to leave this place safely and send the news back.

"Ha ... You make it sound like it's true! Originally, what you've done was enough for me to kill you all to vent my anger, but you're so weak. Killing you would be bullying the wolf. "

Lin Yi smiled in disdain, his master's aura on full display."Forget it, I'll let you off today. Go back to where you came from. Tell your leader that if you dare to target me in the dark again, I'll definitely annihilate your night demonic Wolf Clan. Try me if you don't believe me!"

The leader of the night demonic Wolf bared its teeth and growled, as if it was extremely dissatisfied with Lin Yi's words. However, it didn't have any desire to charge up and fight. It was just showing Lin Yi not to underestimate them.

Chapter 9083

"What?" Lin Yi teased. Not convinced? Don't want to leave? Since I have nothing to do, it won't take me much effort to kill you all. Come on, I'll let you all make the first move, so that you won't have the chance to make a move when I make a move. "

"That would be too much of a bully. Even if I wanted to kill you, I should at least give you a chance to attack, right? I've always been a generous person, so why are you still hesitating? Make your move!"

Although Lin Yi couldn't use too much of his strength, he was still a true heaven breaking Super Master. His last shout was like a master's aura, making the six night demonic wolves so scared that they almost prostrated on the ground to show their submission!

"Let's go!"

The leading night demonic Wolf didn't even dare to say anything. After giving the order in a deep voice, it turned around and fled. If it didn't leave now, it was afraid that its legs would go soft and it really wouldn't be able to leave!

Lin Yi smiled and disappeared behind the tree. The six night demonic wolves thought that Lin Yi had left, but in fact, Lin Yi was following them, they just didn't notice him.

In terms of familiarity, the dark Demon beasts were far more familiar with this place than Lin Yi, but Lin Yi had the plant element. After he shook off Huang shanmao and the others, this was his real home ground!

The night demonic Wolf ran for a while and only stopped when it felt that it had lost Lin Yi. The leader of the night demonic Wolf gave an order, ""You two go back separately and report that you've found traces of that human. Request for elite experts to be sent as reinforcements."

"The rest of us will continue to track that human. We can't let him escape from our surveillance. If we are discovered again, we must be mentally prepared to be killed. However, our sacrifices will not be in vain. The rest of our clansmen will avenge us. This human must die!"

The two night demonic wolves didn't waste time talking. They nodded and split into two directions, running at full speed. They were afraid that they would be killed by Lin Yi if they went back alone.

Although the remaining night demonic wolves were afraid of Lin Yi's strength, they didn't raise any objections. They looked like they were not afraid of death. Lin Yi, who was hiding in the dark, couldn't help but praise these night demonic wolves.

As for killing the two night demonic wolves, Lin Yi definitely wouldn't do it. He wanted them to go back and attract the main force of the dark demonic beasts. If there were only a few of them, how could they fight the demon Fang hunting group? It's more like delivering food to the demon Fang hunting group.

After the night demonic Wolf that delivered the letter left, the one in the lead looked at the remaining three night demonic wolves and said in a deep voice, ""Our mission is very dangerous. Are you dissatisfied? If you have something to say, say it now, in case you don't even have time to leave your last words later. "

This guy was actually very scared in his heart, so he spoke to ease his tension. But wasn't he afraid of making his subordinates more nervous by saying this?

It didn't matter if they were nervous or not. They knew that they were going to die, but they still carried out the mission. There must be something more important than their lives, so those night demonic wolves had nothing to say. The heavy air was filled with a bit of killing intent, and there was a posture of cutting off all cauldrons and sinking boats.

Lin Yi laughed to himself. These night demonic Wolf Scouts were pretty strong, but with his current condition, he wouldn't go after them unless he had something better to do. What was the point of getting himself involved for no reason?

Since they wanted to bite him, then he would lead them in circles!

Lin Yi made up his mind and left quietly, returning to the place where they met before. He started to leave some traces consciously, and soon, the four night demonic Wolf Scouts turned around silently and found the traces Lin Yi left behind.

She followed him without hesitation, not knowing that she had fallen into Lin Yi's trap.

Lin Yi took the night demonic Wolf Scout for a ride, using his spirit sense and the nature of the plants to accurately control the safe distance between him and the demon Fang hunting squad.

Before the main force of the dark demonic beasts arrived, he couldn't let the demon Fang hunting group encounter the night demonic wolves, but Lin Yi didn't let them stay idle either. Now that the demon Fang hunting group was searching for Lin Yi's team, they were more scattered.

Not only was it easier to encounter dark beasts, but it was also not good for both sides to start a full-scale fight. So when Lin Yi was assisting the night demonic wolves, he also left some traces and clues at the demon Fang hunting group's side, leading them to pull back their forces and form an encirclement.

The target of this encirclement was an illusion that Lin Yi gave them. Well, it should be said that it was an illusion at the current stage. After a while, it would become a real target, but this target would probably surprise the demon Fang hunting group!

Under Lin Yi's control, the three parties started playing a game of hide and seek in the forest. It wasn't a big area, and they could run into each other at any time, but they were like two magnets that repelled each other, never touching each other.

Lin Yi was having a lot of fun, but the game was about to come to an end.

When the dark Demon beasts received the news, they immediately gathered all their elites and rushed over at full speed. Some of the dark Demon beasts suspected that this was Lin Yi's plan to lure the Tiger out of the mountain. After all, Huang shanmao and the others didn't show up, and only Lin Yi appeared alone.

However, the black Tiger did not care at all. So what if he did?

His target was only Lin Yi, and he didn't care about the other trash. After he took care of Lin Yi, he could kill the rest at any time.

So the Tiger only left the weakest dark beasts to monitor the path out of the forest, while it brought the main force to kill Lin Yi.

Lin Yi's spirit sense told him that the dark Demon beasts were about to arrive, and he smiled faintly as he started the final preparations!

First, he activated a simple concealment array and placed it in a predetermined location. Then, he went to lure the demon Fang hunting group's encirclement over. Because of the concealment array, the other side wouldn't be able to see the existence of the encirclement.

After calculating the time, Lin Yi turned towards the dark Demon beasts and pretended to reveal himself in front of the Tiger.

"Yo, we meet again! It was really a small world! I didn't expect that we would be so fated to meet again so casually ... You guys can continue with your work, I won't disturb you any longer!"

Lin Yi laughed and said a few words before turning around and running!

The black Tiger laughed wildly, "kid, do you think you can escape this time?" If I let you run again, where will I put my face?"

When Lin Yi appeared, the four night demonic wolves that were on a ride with him finally came face to face with Lin Yi again. They immediately reported the situation to the black Tiger, indicating that there was no one else here other than Lin Yi!

Chapter 9084 -Power

They thought that Lin Yi didn't interact with other people since they were following him, but they didn't know that it was the truth that Lin Yi wanted them to believe.

The real situation was that not far away, there was an illusion created by a concealment disk array that cut off the vision of the demon Fang hunting squad and the darkness demon beasts!

The plan to drive the Tiger to swallow the wolf had officially begun!

Lin Yi pretended to panic and flew away without looking back. He didn't even say a word, and this kind of behavior completely stirred up the dark Demon beasts' emotions!

There's nothing to say, just do it!

All the dark beasts followed behind the black Tiger, chasing Lin Yi, but in the blink of an eye, they lost sight of him.

"Hehe! A concealment array? You dare to show off your little tricks in front of me!"

The black Tiger laughed disdainfully, but its pursuit slowed down a little. "That damn human will definitely not be able to escape today. Everyone, be on your guard. Don't give him any chance to take advantage of us. We must avoid unnecessary casualties!"

He was afraid that Lin Yi might have set up something behind the formation, so he didn't rush forward and started advancing steadily. In his eyes, since Lin Yi's whereabouts were exposed, there was no way for him to escape!

On the other side, Lin Yi, who had just passed through the invisibility formation, activated the illusionary formation he had prepared beforehand and started to create illusions.

After a few steps, he was surrounded by the demon Fang hunting group. The captain who met Lin Yi before laughed when he saw him!

"Hahaha! Let's see where you can run to this time! If you kneel down and surrender now, we can still give you a chance. We, the demon Fang hunting squad, have always been more lenient towards people. If you don't know what's good for you, then don't blame us for not being polite!"

Lin Yi stopped in his tracks, stunned. He smiled coldly. "They really are humans who like to pester others! Since you want to die, I'll fulfill your wish. I'll kill you all today!"

As he spoke, he activated the movement illusionary formation, and the illusion that Lin Yi had prepared took shape. Everyone in the demon Fang hunting group saw Lin Yi transform into a Black Tiger in the midst of a Dark Demon beast!

Lin Yi admitted that he'd been slacking off-he didn't think too much about it, and used the black Tiger as a reference. It did look pretty strong, after all, and it could scare people.

The members of the demon Fang hunting group were all shocked, "It's a shapeshifted darkness magical beast?!"

They weren't surprised that Lin Yi had transformed into a Dark Demon beast, but the strange thing was that he was charging at them with a strong aura after turning into a Black Tiger! Under normal circumstances, facing two hundred demon Fang hunting teams alone, wouldn't an idiot choose to run?

None of them thought that Lin Yi was an idiot!

Especially the demon Fang hunting team that had met Lin Yi before-they'd seen Lin Yi's skill in formations and formations, as well as his ability to plan and plan without him even making a sound.

Would such an extremely intelligent Beast of Darkness be so foolish as to launch a suicide attack?

That was impossible!

"Be careful! There's definitely a trap!"

When the squad leader had shouted earlier, he couldn't think of any tricks, but his intuition told him that things were definitely not that simple!

With his reminder, the demon Fang hunting group didn't let their guard down. The encirclement was on high alert, all their attention focused on Lin Yi's Black Tiger form. They were ready to fight in their best state.

Then, they saw a terrifying scene. The trees not far away shattered like mirror images, and hundreds of powerful darkness magical beasts suddenly rushed out, each of them baring their fangs and claws, revealing their bloody mouths.

As expected, there was a trap! This was the counterattack of the darkness magical beasts?

In terms of numbers, the darkness magical beasts were almost double the number of the demon Fang hunting team, and they were extremely powerful, above the average level of the demon Fang hunting team.

The demon Fang hunting team wouldn't have been afraid if they had encountered such a large group of darkness magical beasts. After all, humans were good at fighting together, and their battle formations weren't something that the darkness magical beasts could compare to.

But Lin Yi's display of profound skill in battle had shattered all of the demon Fang hunting group's confidence, and now they'd fallen into the enemy's trap.

The situation was critical!

"Plan number three!"

The demon Fang hunting team's company leader shouted, immediately giving out orders.

Before taking action, the demon Fang hunting squad would always have a detailed plan to deal with all kinds of sudden situations. Plan No. 3 was to launch a full-force attack and then immediately retreat.

Facing the darkness magic beasts charging over, the demon Fang hunting team didn't have the heart to continue fighting. Using a wave of full-power attacks to slow down the other side's speed and influence their judgment before taking the opportunity to retreat was the most reasonable choice in the current situation.

But today's situation was a little different. Lin Yi's plan to provoke the dark beasts wasn't something that could be stopped easily!

After the darkness demon beasts broke the invisibility formation, they saw another scene. Lin Yi put his hands on his waist and laughed arrogantly.

"Hahahaha, you're indeed brainless beasts. You've been fooled! This is my real team. They've been lying in ambush here for a long time, waiting for you to come to their door and die!"

"Don't think that you have the advantage in numbers. Under our joint attack, you are nothing but a group of chickens and dogs! Obediently accept your death!"

Lin Yi's taunting illusions and the demon Fang hunting group's combined attack made the dark beasts go crazy. They didn't need the black Tiger's command and all rushed up, facing the demon Fang hunting group's combined attack without retreating an inch.

The two sides clashed without any suspense, and thinking that the other side was Lin Yi's men, they didn't hold back at all. This way, the demon Fang hunting group's plan to retreat was hard to achieve.

They didn't expect the darkness demon beast clan to be so determined. Even if they had to pay a certain price, they didn't slow down. As such, their wave of attacks didn't slow down the other party's attack, and instead wasted their precious time to retreat.

In the blink of an eye, the two sides were already entangled in a fierce battle. The demon Fang hunting group was unable to retreat and could only fight back, the battle turning into white heat from the start.

Meanwhile, Lin Yi, the one who started it all, used the effects of the movement formation to hide on a tree not too far away, watching the show as the two sides fought. The only thing he didn't do was clap his hands and cheer!

The demonic Fang hunting group was undoubtedly being suppressed, and was at an absolute disadvantage. Whether it was in terms of numbers or battle power, the darkness demon beast clan was superior.

Chapter 9085

In fact, under normal circumstances, the demonic Fang hunting group wouldn't be so vulnerable. They could rely on their battle formations to support them, and they might have the ability to deal with the darkness demon beasts.

It was a pity that Lin Yi's previous performance had already intimidated the demon Fang hunting group. They were afraid that using battle formations would restrict their movements, so they only used some normal joint attack techniques and didn't dare to use any battle formations.

They had given up their greatest advantage, and they were at a disadvantage in all other aspects. It would be strange if they could fight against the darkness demon beast clan!

It was also thanks to the initial wave of attacks that caused many casualties on the darkness demon beast side, causing their strength to decrease. If not for that, this battle would have long turned into a one-sided slaughter!

The battle had been going on for five or six minutes, and both sides had suffered significant losses. This was especially true for the demon Fang hunting group, where almost everyone was injured. More than half of them had died, and less than eighty people were still alive.

If this continued, the demon Fang hunting squad would be completely annihilated!

The demon Fang hunting group's experts, such as the company leaders and the small team leaders, had fought to the death, trading their lives for the darkness demon beast clan's powerhouses' lives, and only then did the battle come to an end.

It wasn't that they were willing to sacrifice themselves for the sake of righteousness. If they could run, they would've done so long ago, even if they had to use the other demon Fang hunters as cannon fodder to save their lives.

However, the darkness demon beast clan's powerhouses had bitten them to death with bloodshot eyes, and they wouldn't let them leave even if they died. There was no way they could escape other than this!

The demon Fang hunting group's members took this opportunity to break away from the battle and immediately entered a scattered pursuit, losing many people in the process.

Lin Yi continued to watch the show. On the way, he met Huang shanmao and the others who came back for him. If he didn't find them and hide them in time, they would have been caught in the battle and attacked by the demon Fang hunting squad and the dark beasts!

"Why are you guys here? Didn't I tell you to find a place to hide?"

Lin Yi pulled everyone to hide on the branches and activated the invisibility formation, expressing his dissatisfaction. "If I hadn't discovered you, you would have been attacked by both the demon Fang hunting squad and the dark Demon beasts. Do you understand?"

This wasn't the most important thing-if their appearance made the demon Fang hunting squad and the dark beasts realize that the conflict before was Lin Yi's plan, that would be bad!

Although it was impossible to restore peace in the situation where both sides were fighting each other, it was not impossible to turn around and target Huang shanmao and the rest first!

Huangshan Mao was a little embarrassed as he quickly answered, "Vice-captain Sima, we're worried about you being alone, so we came to find you to provide some support. Who knows, we might be able to help you."

He didn't dare to say that he was worried about Lin Yi and was afraid that Lin Yi would sell them out. That would offend Lin Yi too much!

Thus, as he spoke, he sneaked a glance at Qin wunian. If Qin wunian were to make things clear, he hoped that she wouldn't do something stupid.

Qin wunian indeed had no intention of pointing it out. He nodded and said,"That's right. We were worried that you would be in danger by yourself, so we came to help you. It's your fault for being so mysterious and not explaining the plan clearly. If we knew what you would do, we naturally wouldn't have to worry."

Lin Yi went silent for a while. Looking at the expressions on their faces, it was clear that this wasn't the case, but there was no point in pursuing this now!

They didn't trust him, but he didn't trust them either. Huang shanmao and the others were at most people on the same side, far from being his companions. Lin Yi didn't even feel disappointed.

"Alright! It's my fault for not explaining this clearly. I didn't say much before because I wasn't confident. The danger involved is also greater, so I asked you to hide. As you can see, the plan was to drive the Tiger to swallow the wolf, and the result was not bad. "

Lin Yi's dissatisfaction had already dissipated, and he explained,"The war between the darkness magical beasts and the demonic Fang hunting group can be said to have resulted in both sides suffering great losses. This is a pretty good result for us."

Although the darkness magical beasts had the upper hand and won, they had suffered some losses. Their initial charge had been the result of the demonic Fang hunting team's all-out attack, and they had also suffered a lot of losses.

Compared to the demonic Fang hunting group's miserable defeat, the darkness demon beasts didn't win miserably, nor did they win a great victory. It was only a small victory.

Killing 1,000 enemies, losing 800 of their own!

Lin Yi's plan was completed perfectly.

Huangshan Mao looked at the traces of blood along the way, his respect for Lin Yi growing, "Vice-captain Sima really has good methods, he actually managed to injure the darkness magical beasts and the demonic Fang hunting team without shedding a drop of blood!"

This sort of trick was like turning the clouds and turning the rain with a flip of his hand-the two sides fighting to the death had no idea that they were being played in Lin Yi's hands, and Huangshan Mao knew that he couldn't do it!

He didn't have the plan, and even if he did, he didn't have the ability to carry it out. He didn't even understand how Lin Yi did it.

"Alright, we've watched enough. Since we're here, let's go out and exercise together!"

Lin Yi saw that the dark Demon beast had given up, perhaps because they thought that they had achieved enough, or maybe because they thought that the remaining people wouldn't be able to escape the forest sooner or later, or maybe because they needed to rest.

In short, this short and fierce battle ended, and the demon Fang hunting group suffered heavy losses. In the end, less than 30 people managed to escape, while the rest were killed by the darkness magical beasts.

Huang shanmao and the others didn't know what Lin Yi wanted to do, but they wouldn't object to anything he said now. They just had to follow him.

After travelling silently through the forest for ten minutes, Lin Yi led the group to the remnants of the demon Fang hunting group. There were only twenty-five of them left, and all of them were injured. They didn't have much strength left.

It wasn't easy for them to get rid of the dark Demon beasts, and just as they were taking some healing pills and bandaging their wounds, Lin Yi suddenly appeared in front of them.

"Everyone has worked hard! It really wasn't easy to escape from the darkness magical beasts! You can all be said to be brave warriors! If we weren't enemies, I would definitely cheer for you!"

Lin Yi smiled as he looked at a few familiar faces in the crowd. It was the demon Fang hunting team's captain and his three men. "It's a small world, how many times have we met today? Fate isn't shallow!"

The entire demon Fang hunting group's mid-sized squad was almost completely annihilated, but the first small squad they encountered, including the squad Captain, still had four survivors. This was quite a feat.

From this, it could be seen that this small team could be considered an elite among the entire Squadron. After all, those who could serve as Scouts were basically all elites.

Chapter 9086 The End

The squad leader looked as if he had seen a ghost and immediately shouted in a low voice, ""You darkness magical beast! If it weren't for the advantage in numbers, do you think you could have won? If you have the ability, then come and fight me one-on-one!"

Huangshan Mao and the others looked at Lin Yi with weird expressions. Dark Demon beast?

Don't joke around!

This was a darkness magical beast, so why would they need to hide so painstakingly? He would have been killed and torn apart a long time ago!

Lin Yi chuckled, "what a bunch of idiots. You still don't understand what's going on. Looks like you won't even know how you're going to die if I don't tell you!"

"To put it simply, what you saw was just an illusion that I wanted you to see. You know illusionary arrays and concealment arrays, right? I was the one who lured the darkness demon beast there, just like how I lured you guys there, the method is the same. "

"In that case, you should be able to understand what happened, right? If you still don't understand, then you really deserve to be finished. You won't be killed by the darkness magical beasts, but by your own stupidity!"

The captain wasn't an idiot-he understood what Lin Yi meant with a few words!

Especially when the keywords concealment spell formation and illusionary spell formation were mentioned, the whole matter suddenly became clear!

"You ... You set us up? Did you arrange everything?"

The squad leader's expression changed, his eyes filled with fear. ""You're going to lure us over and then provoke the darkness magical beasts to charge? Yet, you're sitting on the mountain and watching the Tigers fight?"

No wonder! It was no wonder that when the squadron carried out plan No. 3, those darkness magical beasts seemed to have gone crazy as if their lair had been destroyed, and they didn't even bother to Dodge or avoid as they rushed over!

Under normal circumstances, in order to avoid losses, the other party should have taken defensive and evasive measures. No matter what, they would pause their charge and reduce their speed to zero!

With such a buffer, the squadron could proceed with their retreat plan in an orderly manner. Even if there was a follow-up battle, their formation would not be chaotic, and the demon Fang hunting group would definitely not have suffered such heavy losses!

Lin Yi smiled faintly, "that's about it. I didn't provoke the dark Demon beasts because they were after our team. If we reveal a trace, they'll naturally chase us."

"You all wanted to kill me, but in the end, it became a fight between you two. So, don't be too hot-tempered when you're out here. Can't we talk things out? The moment they met, they started fighting and killing, and in the end, they all died!"

"If we could have communicated with each other calmly, we wouldn't have ended up in such a tragic state. Don't you think so? Is there really a need?"

The captain's eyes were burning with anger, and his teeth were almost crushed from gritting them. How could they communicate with a large group of darkness magical beasts in the forest?

The two sides were natural enemies, and there was no room for discussion at all! And all of this was arranged by you, so why are you still pretending to be compassionate? This was simply preposterous!

"Alright, let's cut the crap. You know the ins and outs, so it's not an injustice to die! I've heard that your demon Fang hunting group likes to Rob, so now, I'm going to Rob you. Obediently take out all your valuable things!"

Lin Yi lifted his chin slightly, his eyes full of disdain as he looked at the demon Fang hunting group. He raised his right index finger and hooked it a couple of times, "You should be very familiar with this business. Don't make me repeat myself!"

"F * cking familiar!"

The members of the demon Fang hunting group felt a bone-deep humiliation. They were familiar with robbing others, but when had they ever been robbed before?

However, the current situation was stronger than the people. They were all injured, and the medicinal effects of the medicinal pills could not heal them instantly. The physical strength and other things they had expended also needed time to recover.

The demon Fang hunting group might have twice as many people as Lin Yi, but they couldn't fight back even if they wanted to!

"You're ruthless! This time, we'll admit defeat!"

The captain gritted his teeth and threw his storage bag in front of Lin Yi. The other members of the demon Fang hunting group followed, some hesitating before throwing their storage bag out unwillingly.

There were more and more robbers, and it was finally their turn to be robbed!

"I've given you everything, can you leave now?"

The captain looked at Lin Yi warily. They were very familiar with robbing, and many times, they'd kill the victim after taking their stuff to avoid any future trouble.

The captain didn't think that Lin Yi would let them go just like that. He could've done it a long time ago, but who knew if Lin Yi was trying to lower their guard?

Handing over their storage bags in exchange for their lives, many people thought that they had reached a deal and would relax at this time, and then they would be seized and killed!

The captain wasn't going to let his guard down just like that, but Lin Yi really didn't want to kill them. He was just here to enjoy the robbery.

About 90% of the demon Fang hunting group's company was dead, and the remaining 10% was covered in injuries. Lin Yi didn't even bother to kill the old and weak.

"Alright, since you're all very tactful, you can leave if you want! Be careful not to encounter any darkness magical beasts. As far as I know, the darkness magical beasts here are very vengeful, and they'll definitely continue to hunt you down. Good luck!"

Lin Yi reminded them kindly and waved them away.

The captain couldn't believe that Lin Yi would really let them go. He retreated carefully and only sped up after they were a certain distance away. At the same time, he was on alert for Lin Yi to give chase.

Lin Yi really wanted to let them go, but Huangshan Mao and Jin ziduo had other thoughts. Seeing the demon Fang hunting group about to disappear from sight, Huangshan Mao couldn't help it.

"Vice-captain Sima, are we really going to let them go? They are the demon Fang hunting group!"

Huangshan Mao clutched at his shirt and couldn't help but swallow a mouthful of saliva. After calming himself down, he said, "We already have a grudge against the demon Fang hunting team, and it's the kind that won't rest until one of us is dead. If we let them go now, the demon Fang hunting team won't let us go!"

"Why don't we take advantage of their injuries and get rid of them all? we'll just treat it as the darkness demon beast clan killing them. This way, the news won't spread, and the demon Fang hunting group won't notice us!"

Jin ziduo nodded repeatedly and said, "Boss Huang is right. We let them go this time, but once they recover, they'll definitely take revenge. With our numbers, we can't escape the demon Fang hunting group's pursuit!"

"Only by killing all of their people now can we be safe in the future! Thus, the remnants of the demon Fang hunting team had to die! Don't leave a single one alive!"

He and Huangshan Mao didn't mention that if Youyou didn't want to silence him, there was no need for her to come out and Rob him!

Chapter 9087

Robbing without killing, thoroughly offending the demon Fang hunting group, wasn't this just eating their fill! They just couldn't bring themselves to complain about Lin Yi like that.

If it weren't for Lin Yi, they would've killed the demon Fang hunting group already, but now that they were about to leave, they couldn't help but stand up and say something.

"Vice-captain Sima, if we don't act now, they're really going to escape! Although there are still darkness magical beasts watching from the side, they might still be able to escape. To avoid future trouble, let's make a move!"

Huangshan Mao really didn't want to provoke the demon Fang hunting group. Now that he had completely offended them, he had to find a way to make up for it. Killing them was the best choice.

Lin Yi curled his lips, "I said I'd let them go, so I won't do anything to them!" If you're still worried, you can follow me. I won't stop you, and I won't participate in this. You can do as you please!"

Lin Yi didn't have much expectations for Huang shanmao's team anymore, so they could just love Yingluo!

Huangshan Mao's expression relaxed as he immediately nodded and smiled, "I understand! This matter has nothing to do with vice-captain Sima, it was completely our decision. We didn't want to let those scum of the demon Fang hunting group off!"

He thought that Lin Yi was trying to put up a front and didn't really understand Lin Yi's thoughts. After getting permission, he shouted and led his men to chase after him.

Other than Qin wunian, the others followed Huang shanmao. Beating up a drowning dog was also to ensure their safety in the future. Everyone was extremely enthusiastic.

If the members of the demon Fang hunting squad were in their peak condition, Huangshan Mao and the others could only flee at the mere sight of them. It was only at this moment that they dared to take advantage of their weakness and chase after twenty five members of the demon Fang hunting squad!

"Why aren't you following them? Aren't you afraid that the demon Fang hunting group will find trouble with you after they escape?"

Lin Yi turned to Qin wunian and asked curiously, "I heard that the demon Fang hunting group is very protective of their members. If someone is killed, they will definitely take revenge. This is also the foundation of their team's cohesion. Aren't you worried that this matter will be leaked and they will target you?"

Qin wunian shrugged and laughed in a relaxed manner. "What's there to worry about? Anyway, I trust you. If you're not worried, then I'm not worried!"

She was smart enough to notice the slight dissatisfaction Lin Yi showed when he saw them, as well as the slight distance after that, so she stood firmly on Lin Yi's side this time.

Even if the demon Fang hunting group's people escaped and attracted their endless pursuit, so what? It wasn't like she, the young lady of the Qin family, had never been hunted down before!

Lin Yi nodded and didn't say anything else. He brought Qin wunian to the top of the tree and found a branch to sit on.

"Let's wait for them here. It's getting late, so we'll rest here today. "

Lin Yi leaned against a tree and looked at the sky through the leaves. "The moon is out. It's almost half a month, right? It's already very round, and tomorrow night might be the full moon. "

Qin wunian sat down next to Lin Yi and mimicked him as he leaned against a tree and raised his head to look up. The moon had just risen, and from its appearance, it looked very close to a full moon.

"Yeah, it's the middle of the month tomorrow night. If the weather is good, we can see the full moon! Do you think the Black Star River will appear tomorrow night?"

Qin wunian's sudden change of topic startled Lin Yi.

"Why do you say that? Is there any relationship between the star Ink River and the full moon?"

"Eh, haven't you heard of this legend? The star Ink River only appears during the full moon. Many people have speculated that there is a certain relationship between the two, but no evidence has been found. "

Qin wunian turned to look at Lin Yi with a strange expression. "This should be something that everyone knows, right? There's no evidence to prove that the two are related, but the star Ink River does indeed appear during the full moon. "

"If he doesn't appear tomorrow night, we'll have to wait for the full moon next month, right? Sigh ... Our journey is too slow. If we really appear at the location of the heavenly comet, we might not be able to make it before tomorrow night. "

Lin Yi looked up at the moon and didn't say anything. The heavenly comet was Daniya, and she obviously wouldn't know where the star Ink River was. Those who thought that they could find the star Ink River by following Daniya would probably be disappointed.

If the night of the full moon was really the opportunity for the appearance of the star Ink River, would it appear tomorrow? Where would it appear?

Lin Yi was determined to get the star Ink River!

The star power in his body and soul was like a parasite that made him want to die. If he couldn't get rid of the star power, Lin Yi's strength would be limited forever. It was too troublesome! The star Ink River was their only hope.

"If only we had the six-part star source instrument, we would be able to know the location of the star Ink River in advance. Unfortunately, I heard that the six-part star source instrument was destroyed when the Tianying planet was besieged!"

Qin wunian continued on this topic. When he mentioned the six-point star source instrument, his tone was filled with regret. "Now, everyone can only rely on their luck. Only the heavens know when the star Ink River will appear. Those who are far away simply can't catch up. It's really a competition of luck!"

Speaking of luck, Qin wunian's spirits were lifted. After all, his strength was definitely not comparable to others, but luck was a different story!

If the star Ink River appeared nearby and those big shots were too far away, they might be able to drink a mouthful of the black soup!

Lin Yi replied perfunctorily, but his mind was still on full moon.

In fact, the six-part star source instrument was not destroyed!

Previously, it was just a fake to attract attention. The real six-part star source instrument was still in the Jade space.

If tomorrow night was really the opportunity for the appearance of the Black Star River, then he would have to find an opportunity to use the six star source instrument to determine the location of the Black Star River! He had to reach the vicinity of the Black Star River before it appeared!

Lin Yi couldn't take out the six-point star source instrument in front of Qin wunian. He couldn't expose his identity as a person from the Tian Ying planet. If he attracted the attention of those experts, it would bring him a lot of unnecessary trouble.

After waiting for a while, Huang Shan Mao and the others quietly returned, their bodies reeking of blood. They had clearly caught up to the demon Fang hunting group and successfully killed them.

Qin wunian called Huang shanmao and the others up from the tree. Huang shanmao heaved a sigh of relief when he saw that Lin Yi was still there, but he also felt a little pressured and conflicted.

Lin Yi's stratagems and other abilities were undeniable, and Huang shanmao really needed Lin Yi to be the pillar of the team. However, he wasn't confident enough under Lin Yi's pressure.

He let out a breath of relief when he saw that Lin Yi didn't leave, but he was a little nervous when he saw that Lin Yi didn't leave. He had mixed feelings!

"Vice-captain Sima, the members of the demon Fang hunting team have all been killed. We don't have to worry about them sending the news back and exposing our enmity with the demon Fang hunting team."

Huangshan Mao felt like he was reporting to his superior, and it was a bit awkward, but he had to explain it to Lin Yi. He suppressed his emotions and continued, "We made the scene look like a darkness demon beast attack. Even if the demonic Fang hunting group finds it, they won't suspect us."

Chapter 9088

"As long as we say the same thing, we'll forget about this matter. If we meet the other members of the demon Fang hunting team in the future, we can't give ourselves away ... Of course, vice-captain Sima has nothing to do with this, we ..."

"Alright, I know what you're trying to say, so you don't have to say anything more. We'll do as you say!" Lin Yi interrupted. Everyone must be tired today. Have a good rest and leave the forest as soon as possible tomorrow. "

"After today's battle, the darkness demon beast clan has also suffered many losses. Perhaps they won't be able to seal off the dense forest too tightly. Tomorrow will be a good opportunity to leave!"

Huangshan Mao was silent for a moment before he nodded and turned around to let everyone rest.

The bright moonlight shone on the treetops, and everyone was either cultivating or sleeping. Lin Yi took on the responsibility of keeping watch, and when no one was paying attention, he set up a stealth formation around him and took out the six star source instrument!

Lin Yi had already learned how to use the device after the research. He took it out and aimed it at the moon.

Because the moon was too bright, it was difficult to see stars in the night sky. However, after the six-point star source instrument was aimed at the moon, the moon gradually dimmed, and stars appeared around it!

The pointer on the six-part star source instrument kept on shaking and spinning. When it finally stopped, it pointed to the place where the star Ink River was about to appear.

The stars were shining brightly in the sky. The six-part star source instrument seemed to have absorbed enough power from the stars and quickly completed the positioning of the star Ink River!

Lin Yi, however, was a bit surprised when he saw the needle. This direction ... The sky?

The Black Star River appeared in the sky and not underground?

What a joke!

Lin Yi thought that there was something wrong with the device, and so he kept turning and turning it, but no matter how hard he tried, the needle would always point towards the sky.

That's right, the Black Star River would appear in the sky!

"What the hell is this? How do I get there?"

Lin Yi couldn't help but curse, but the 60% star source instrument in his hand had a special touch. He couldn't help but realize that with this thing, he could open an entrance to the star Ink River when it appeared!

He grabbed a blade of grass!

Lin Yi was shocked. The six point star source instrument had this function? This is awesome!

In addition to the entrance opened by the six-part star source instrument, the star Ink River would also open some other entrances randomly. Whoever could find and enter them would be able to be teleported to the star Ink River.

Lin Yi, on the other hand, didn't have to rush around anymore-he just had to wait until the full moon tomorrow and use the device to open the entrance!

He had earned big!

He had really made a big profit by buying the six-point star source instrument at the auction. Even if he had to pay ten times or even a hundred times more, he would not lose anything!

After getting the information he wanted, Lin Yi put away the six point star source instrument, satisfied. The stars in the sky disappeared, and the moon brightened again. Lin Yi glanced at the sleeping Qin wunian, a smile in his eyes.

This time, it was all thanks to her reminder. Otherwise, he wouldn't have known that the six-point star source instrument had to be used against the moon and Starlight. The only way to use it that the damn thing and the others had found out was only for the six-point star source instrument itself, and it didn't include the conditions of the outside world.

If it wasn't for Qin wunian, Lin Yi might've missed the full moon the next day. Whether he could enter the star Ink River or not really depended on his luck.

Nothing special happened for the rest of the night, and when the sun rose, Lin Yi brought Huang shanmao and the rest to hide, avoiding the dark Demon beasts "search. They left the forest area and entered the wilderness.

It was also thanks to the demon Fang hunting group-if they didn't have to fight the dark Beast clan, it would've been much harder for them to leave the forest.

"I've finally left this damned forest! I don't want to come back here in the future!"

Huangshan Mao turned back to look at the dense forest that was far behind him, and finally let out a long breath, "Vice-captain Sima, it's all thanks to you that we were able to escape without any casualties! Thank you so much!"

Lin Yi smiled faintly, "it's nothing, it's what I should do. You don't have to be so polite, boss Huang." Eh, there seems to be a camp ahead, should we go over and take a look?"

The field of view was great in the wilderness, and the camp Lin Yi mentioned was about three to four kilometers away from here, but not far from the forest-about the same as Lin Yi's group. The straight line between the two was parallel to the forest.

Huangshan Mao also saw the campsite and said hesitantly, "Vice-captain Sima, is there a need for us to go over? Shouldn't they leave the forest as soon as possible? What if we encounter a darkness magical beast that comes out of the forest?"

Jin ziduo had a different view on this. Hearing this, he immediately said, "Boss Huang, I think we should go over and take a look. Since it's a camp, there might be a Black Spirit Ferghana horse or something similar as a means of transportation."

"We need to hurry on our way. It's too slow to rely on our own two legs. If we can buy some mounts from there, we'll be much faster! I think the people in the camp will be happy to help us when we're outside, right?"

The demon Fang hunting group was famous for their penchant for robbing, and Huang shanmao's group wasn't a good person. When there was a need in the wilderness, it was very normal for them to Rob.

If not for that, he would not have had the idea of recruiting new people as cannon fodder from the beginning!

No one was a good person, so Jin ziduo's meaning was naturally clear. As long as the other party had a Mount, it would be best if they were willing to sell it. If they were not willing to sell it, then they would just Rob! Unless they couldn't win, then there was no other way!

Huangshan Mao was still hesitating. He looked at Lin Yi and whispered, "Actually, looking at the scale of that camp, it's very likely that it was left behind by the demon Fang hunting group. When they entered the forest to chase us, they didn't bring their mounts!"

"I suspect that they have left their mounts in the camp, and there must be someone guarding it. The situation is unclear, so it's not appropriate to rush over."

He was thinking that since the demon Fang hunting group had been killed in the forest, if he went to the demon Fang hunting group's camp and found that the people left behind were stronger than him, it would be awkward.

If they couldn't silence the other party, and the other party found out the identity of their team, they would link it to the annihilation of the demon Fang hunting squad and lock them as suspects. In the future, they would be in big trouble!

With the mentality that it was better to have less trouble, Huang shanmao would rather walk to the next town to search for a Mount than take the risk of attacking the demon Fang hunting group's camp!

Jin ziduo was also silent. Previously, when they were chasing after the remnants of the demon Fang hunting group, everyone's morale was high, but if they really wanted to fight head-on with the troops left behind by the demon Fang hunting group, he had no confidence!

Or to put it bluntly, Jin ziduo felt that his team had no advantage over the demon Fang hunting team!

Chapter 9089

Qin wunian didn't think too much and said directly, "What's not appropriate? The demon Fang hunting squad has already been completely annihilated. Even if there are a few people left, they won't be our match. "

"Especially since we have Sima Zhong da with us. We don't need to be afraid of anything. If we can find a group of mounts, we can reach the entrance of the star Ink River even faster! Everyone, think about it, time and tide wait for no man! That's the star Ink River!"

Qin wunian felt that the Dark Star River would appear tonight, so he naturally wanted to speed up. Where would he find the time to waste walking?

The demon Fang hunting group? What was there to be afraid of if they were all dead? Moreover, with Sima Zhongda by his side, Qin wunian's heart was filled with a sense of security!

Six was one of the more supportive members of Lin Yi's group, and with Qin wunian leading the way, he hesitated before speaking up, "I agree to go over and take a look! Boss Huang, if that camp is really the temporary camp of the demon Fang hunting group, then we should go!"

"If the members of the demon Fang hunting squad that died in the forest had a special method of communication, we might have already been exposed to the demon Fang hunting squad."

"It's better to take advantage of the fact that they're all alone now and directly rush over to silence them! It's not a bad thing, but it's a risk we have to take. What do you think, yellow boss?"

After hearing what old six said, the others also nodded secretly. If they wanted to avoid future trouble, they had to kill all of them. There was nothing to say about this, so they really had to go to this camp!

Huangshan Mao frowned. He had to admit that it was possible!

So ... He had no choice but to go!

"Alright, let's go and take a look! Vice-captain Sima, I'll have to trouble you to take care of our brothers later on. "

Huangshan Mao lowered his stance-he needed Lin Yi's help to protect him, it'd be safer that way.

"You're too kind, boss Huang. It's just my duty. There's no need to mention it!"

Lin Yi said a few polite words, and the group changed their route to the temporary camp.

Before getting close, Lin Yi's spirit sense scanned the camp. It was indeed the demon Fang hunting group's camp. A mid-sized camp wasn't too big or small, and there were quite a few decorations around it. Other than the regular fence, there were also some formations.

The camp's defenses were more than enough to deal with the sneak attacks of ordinary darkness magical beasts, but if there were too many of them, it would be far from enough, and all the defenses would be easily destroyed.

There were not many people left in the camp. It was about a small team of 18 people, five less than the first team they encountered, and their average strength was slightly inferior.

As expected, the difference in standards between a team in charge of logistics and a team in charge of Scouts was not small!

"It really is the demon Fang hunting squad's camp. There are defensive facilities, warning, defense, and other formations on the outside, but I can't see what's going on inside. The demon Fang hunting squad should've been stationed here for a while, right? The camp is well built. "

Huangshan Mao stopped outside the campsite and looked around. His expression was not too good, ""We only have so few people, it's hard to win if we attack head-on. Vice-captain Sima, do you have any ideas?"

He knew that Lin Yi's skills in formations were high and his wisdom was outstanding, so he threw the problem to Lin Yi. After all, he wasn't the one who said he would come, so Shuai Guo didn't have any pressure.

"Boss Huang is right. Since we can't win by force, we'll let them come out on their own!"

Lin Yi didn't even need to think about it-if he wasn't affected by the power of the stars, he'd be able to crush them easily. Now, to save time, luring the snake out of its hole wasn't a bad idea.

"What do we do?" Huangshan Mao was startled.

"It's very simple, just go up and provoke them directly! We're so weak, and we're in the wilderness, so we don't have to worry about an ambush. If you were to encounter such a situation, what would you choose?"

Huang shanmao thought about it seriously. If he put himself in the shoes of Wan Wan and the rest setting up camp, and then there were five or six rookies outside shouting and provoking, he was sure that the other party had no backup and no Trump cards. What would he do?

F * ck! What else could he do? It's over!

If you don't even dare to do this, then what's the point of coming out? isn't it better to go home early, wash up, and sleep?

Thinking like this, Huangshan Mao understood. With the demon Fang hunting group's personality, how could they not come out to teach them a lesson after being provoked at the camp entrance? Unless there were only one or two people left behind, they really wouldn't be able to defeat the enemy ...

"That's not right! Vice-captain Sima, it's impossible that there are only a few people left to guard the camp. If they come out with more people and strength than us, what should we do?"

Huang Shan Mao was almost excited, but after thinking about it, he felt like he had fallen into an ice cave. He didn't know how many people the demon Fang hunting group had left behind, or how strong they were. If he went up to provoke them, wouldn't he be courting death?

If the other party dared to come out, they definitely had enough confidence to take them all down. If they did not dare to come out, it meant that they were not strong enough and had to rely on the camp for defense. Provoking them would be useless!

"Don't worry. There aren't many people inside, and their strength is average. We'll be able to deal with them. You can go and anger them and lure them out. Leave the rest to me!"

Lin Yi patted his chest and gave Huang shanmao a calming pill.

Huangshan Mao looked at Lin Yi suspiciously-how did the guy know that there weren't many people inside, and that they were just average? I feel like you're talking nonsense ... Could it be that you're trying to lie to me because I didn't study much?

Lin Yi gave him a look, telling him to go quickly. Huang shanmao didn't think it was a good idea, but Lin Yi had already said it. If he still refused, it wouldn't make sense. How could he be a boss in the future?

Helplessly, Huangshan Mao could only ... Send his underlings to provoke them. After all, he was the boss. Of course, he had to let his underlings do this kind of thing!

Of course, before sending people out, Huangshan Mao had specifically warned them not to reveal their origins. They could just make up a name to deceive people, in case the demon Fang hunting group hunted them down.

"Woof! Those inside, listen up. We are from the 36 heavenly generals. If you don't want to die, come out and surrender. Hand over your belongings and we can spare your lives! If you don't know what's good for you, this day next year will be your death anniversary!"

The guy who went to provoke them was a talent, too-he called out the thirty-six dippers right away, and Lin Yi almost stumbled, thinking that he'd been exposed ...

However, it was clear that the waiter was just randomly speaking nonsense. Right now, the most popular thing in the continent was the name of the thirty-six dippers that Daniya had randomly made up, so it wasn't new for someone to impersonate her.

Chapter 9090 The Power Of The Devil

Huangshan Mao was satisfied with this and smiled at Lin Yi, "Vice-captain Sima, when the people inside hear the name of the thirty-six dippers, they will know that we are imposters. They will definitely be unhappy if we use the Tiger's skin as a banner!"

"There's nothing to say. They'll come out and expose our lies in a while. Threatening others with lies to show their guilty conscience, they'll definitely make a high-profile move. There's no running away!"

Lin Yi's mouth twitched, not knowing what to say. He couldn't just remind him that the names of the thirty-six dippers had a lot of prefixes, like something like eternal Supreme, endless prehistoric ... That'd be more like it, right?

In any case, the provocation arranged by Huang Shan Mao was very effective. After cursing for a while, the demon Fang hunting squad members who had stayed behind in the camp all gathered and opened the gates to meet the enemy!

"Where did this wild dog come from, daring to bark in front of our demon Fang hunting group, are you tired of living? Are you in a hurry to die?"

The burly man in the lead cursed as soon as he came out, not caring about the meaning of the thirty-six dippers at all. "With just a few pieces of wood like you, you dare to come out and Rob? Come, come, come, let me see who gave you the courage!"

The other members of the demon Fang hunting group also joined in, releasing their auras at the same time, each one of them appearing extremely fierce.

It had always been the members of the demon Fang hunting group who went out to Rob others, when had they ever been robbed? If it was really an expert, it wasn't that they couldn't admit defeat. The problem was that Huang shanmao's group looked very ordinary. Although they were the ones who stayed behind, they had absolute confidence in suppressing them!

In such a situation, he really could not be afraid!

Huangshan Mao quickly turned to Lin Yi. He only agreed to send people because Lin Yi said that he would take care of the rest.

They said that they didn't have many people and weren't strong ... They clearly had more people and were stronger than us! Did he have to be so scamming?

Huangshan Mao couldn't find a place to vent his anger. Lin Yi smiled and raised his hand. "It's time for actual combat. Everyone, get into position and get into formation!"

Lin Yi had taught them the tricks of battle formations before, and they'd had experience fighting under the control of a spirit before. Hearing Lin Yi's orders, they instinctively started to move, forming a battle formation against the demon Fang hunting group.

Once the battle formation was formed, everyone including Huangshan Mao suddenly had confidence and Huangshan Mao did not have any complaints!

After all, everyone was well aware of the power of this battle formation. If it could break through the encirclement of the darkness magical beasts, what could a mere ten or so members of the demon Fang hunting group do?

"Tsk, you think you can do whatever you want with a battle formation? What a joke! In front of our demon Fang hunting group, no battle formation is useful!"

The leader of the group laughed and waved his hand, "Brothers, let them see what a real battle formation is. Today, we have to teach them how to be human!"

The demon Fang hunting group shouted in unison, their figures flickered as they quickly formed into a battle formation, not giving in to Huang shanmao's attack.

Before fighting, the demon Fang hunting group's people had been confident in their own battle formation, thinking that few people of the same level could compete with it. The battle formation on the other side looked unfamiliar, so it wasn't a famous battle formation, and its power was bound to be limited.

So the demon Fang hunting group didn't wait for Huang Shan Mao's side to attack first, but instead took the initiative to attack. They were prepared to use their strength to completely crush the other side, and destroy everything in front of them!

Lin Yi's lips curled up into a smile as he calmly gave the order, accurately attacking the enemy's formation's weak points. This time, he didn't use his spirit sense to guide them-just a verbal command was enough.

After all, this wasn't the first time that Huang shanmao and the others had used this battle formation. The enemies they had to face weren't ferocious darkness magical beasts anymore, and there were less than 20 of them. This was more than enough.

The first wave of attacks accurately stopped at a critical point of the enemy's formation, and the entire formation paused for a moment. Lin Yi's new command followed, and the attacks changed quickly, cutting into the enemy's formation and hitting another critical point.

With just two attacks, the demon Fang hunting group's battle formation fell apart!

"How is this possible?!"

The leading man cried out in shock. He had never encountered a situation like this before. Even if the demon Fang hunting squad's battle formation couldn't be considered one of the top battle formations of the heaven's legacy continent, it had never fallen into a disadvantage when facing a battle formation of cultivators of the same level!

Why would there be an accident today? The other party's martial artists were clearly not as strong as their side!

"Why not? Didn't you want to teach us how to be human? Come on! Don't just talk and not practice!"

The gold Tudor in the lead swung its long spear and fiercely stabbed at the leading man like a poisonous Dragon coming out of its cave. At the same time, it didn't forget to attack the other party with words with a hideous smile, "With your little abilities, you're not even comparable to a wild dog in the wilderness! What demon's Fang hunting group? it's just the demon's Fang joke group!"

The leader of the burly men was greatly shocked. Before he could retort, he instinctively wanted to avoid Jin ziduo's spear. He didn't expect that the spear would suddenly accelerate halfway and instantly break through the upper limit of its original speed, appearing in his chest like lightning.

Under the support of the battle formation, Jin ziduo's strength soared. This move could be said to be exquisite. The big man of the demon Fang hunting group was scared out of his wits. He raised his weapon, trying to block this fatal spear tip.

Unfortunately, his interception only managed to stop lone in the end. Jin ziduo's spear was like a venomous snake spitting out its tongue. After piercing through the other party's heart, it immediately turned to its next target. The burly man's interception only passed through the afterimage left behind by Jin ziduo after he retracted his spear.

"How ... Is that possible ...?"

The burly man's eyes were wide open with disbelief. He looked at the blood spurting out of his chest and fell backward!

Jin ziduo didn't stop at all. As the sharpest spear in the battle formation, he did quite well, charging forward to kill the enemy. In the blink of an eye, he had killed through the demon Fang hunting group's formation.

The battle formation had collapsed, and their Captain had been killed. The demon Fang hunting group had completely turned into a pile of loose sand, unable to resist Jin ziduo's long spear. Huang shanmao and the others who followed closely behind were even more merciless, their swords and sabers brandishing as they completed a wave of harvest!

The battle ended in less than ten seconds!

The members of the demon Fang hunting squad who had been clamoring to teach Huang shanmao and the others a lesson had all been reincarnated as human beings ...

Even though they had already experienced the power of this battle formation, Huang shanmao and the others still couldn't believe it. This was a small demon Fang hunting team!

Why was it as easy as slaughtering chickens and dogs? It was too dreamy!

Jin ziduo, in particular, leaned on his spear and laughed heartily at the sky in front of the camp's Gate. He had killed to his heart's content just now, and now he had a strong spirit. His ego had swelled!
