

## Bodyguard 9101

### Chapter 9101

The four of them had not been separated at the first moment, but had immediately joined forces. In addition, the power of the array had decreased. From the perspective of the situation, not only did they not fall into a disadvantage, but they were also using the continuous counterattacks to consume the array.

This was also one of the reasons why Lin Yi didn't bring a team to hunt them down. If they were separated, it would be easier to take Huang shanmao and the others down one by one, but now there were no conditions.

The sky was getting darker and darker, and the moon was starting to appear. Lin Yi didn't pay attention to the four people who were trapped in the formation anymore. He took out the six star source instrument and started to observe the moon.

"This is the six-part star source instrument! The star Ink River? The Tianying planet?"

Huangshan Mao's eyes went wide as he couldn't help but cry out. He wasn't Qin wunian, and he had never thought that Lin Yi would be the legendary six-point star source instrument user from the Tianying planet!

No, the legendary six-point star source instrument had been destroyed in the siege!

But this is indeed a six-point star source instrument, right?

Huangshan Mao started to doubt his life!

He had never seen a 60% star source instrument before, but the rumored one was exactly the same as the one in front of him. It seemed impossible that it wasn't!

If it really was the six-point star source instrument, then Sima Zhongda was the Tianying planet?

Not only Huangshan Mao, everyone except Qin Wunian was surprised and overjoyed! Not everyone could calmly accept the appearance of such a legendary Big Shot!

Of course, his happiness was also quite sincere. If he followed the big boss of the Tian Ying planet, he would definitely be able to find the star Ink River!

Didn't they risk their lives just to go to the star Ink River and drink some soup?

Now that he might be able to eat meat, how could he not be happy?

Lin Yi didn't have the time to care about what they were thinking-the full moon was already in the sky, and there was still some light from the setting sun on the horizon.

The moonlight wasn't obvious under the setting sun, and the moon was just a faint disc, but that didn't stop Lin Yi from using the six point star source instrument!

Under Lin Yi's control, the six part star source instrument emitted a faint silver light. The moon in the sky seemed to have sensed it and scattered down a similar silver light, connecting with the six part star source instrument's light. In an instant, they became one.

The entire sky suddenly dimmed, and the setting sun completely disappeared. The moonlight gathered like mercury and followed the previous trajectory, sending it into the six-point star source instrument.

The six star source instrument in Lin Yi's hand shone brightly, as if a full moon had appeared on the ground. Qin wunian, Huang shanmao, and the others couldn't open their eyes from the cold moonlight, wondering if the full moon had fallen from the sky.

Of course, the moon would not really fall, but the light of the full moon seemed to have been absorbed by the six-point star source instrument, losing its original light.

When the sun and the moon dimmed, the stars that were covered by their light appeared in the sky. The bright Galaxy began to emit light and spread across the sky!

Lin Yi couldn't help but suck in a breath of cold air. He really didn't expect the six-point star source instrument to be able to create such a big scene!

Lin Yi didn't even have time to feel what it was like to hold the moon in his hands. The light from the star source instrument shot up into the sky again, but it didn't return to the Moon. Instead, it pierced into the Galaxy like an endless sword!

An invisible fluctuation spread out in the camp. The formation that was set up earlier had already been depleted by more than half by the four people from the Qin clan. Now, under the impact of this fluctuation, the formation was actually opened!

Lin Yi was taken aback-this was an accident. He'd planned to keep the four trapped in the formation, and even if he couldn't kill them, he'd at least be able to stop them from coming out.

He didn't think that the fluctuations from the device would affect the formation ... There was no other way now. Lin Yi couldn't find the time to set up the formation again. Fortunately, the fluctuations from the device also stopped the four people's movements.

They were out of the formation, but they couldn't come to Lin Yi immediately!

"The six-part star source instrument!"

"Star Ink River!"

The four of them had no strength to move forward after breaking free from the formation, but it didn't stop them from seeing what Lin Yi was doing!

Even Huang Shan Mao could recognize the six-point star source instrument, so how could the Qin family not recognize it? The way they looked at Lin Yi was like they were looking at a treasure trove!

"Hahahaha! He had thought that he was just here to kill a few little bugs, but he did not expect to be so surprised! Qin Shuang, I really want to thank you for making such a huge contribution to the Qin family!"

The Qin family's leader, a half-step to heaven piercer, laughed wildly. He could not hide the joy and pride in his heart. "When the Black Star River opens, we will be the first to enter the river. The benefits we will get are self-evident! In order to express my gratitude, I'll consider giving you a quick death, you little bugs!"

Lin Yi hmped coldly, too lazy to deal with this stupid old man.

The light from the six-part star source instrument was connected to the Galaxy, and a circular door of light opened up in front of Lin Yi. He couldn't see what was inside the door, but he could feel the vast power inside.

"Let's go!"

Lin Yi didn't say anything and entered the light door first. This was obviously the passage to the star Ink River. If it closed immediately after they entered, the four of them might not be able to follow them in!

At the same time Lin Yi entered the light door, ten or so Starlights fell from the sky, turning into meteors and scattering across the Tianji Empire.

If he wasn't wrong, that should be the other entrance to the star Ink River. After the six parts star source instrument opened the entrance, the other entrances opened as well. They didn't open as early as Lin Yi's, but they were only a few seconds late.

Seeing Lin Yi enter the light door, Qin wunian quickly followed behind. Huang shanmao and the rest didn't dare to delay and all sped up, entering the light door.

The four from the Qin family hadn't broken through the restriction yet, and they weren't in a hurry when they saw Lin Yi and the others enter. They knew that the entrance to the star Ink River wouldn't close so quickly, and it wouldn't be a problem to delay a little.

Lin Yi, Qin wunian, and the others passed through the door of light and ascended rapidly in the colorful passage. In a short time, they appeared in the endless starry sky!

Of course, this wasn't the real universe. Lin Yi could feel that this was another dimension, or rather, this was a small world that looked like the universe!

In front of everyone was a River of Stars. In the pitch-black void, countless shining stars formed a circular River. In the center of the river were layers of nebulas. From afar, the nebulas seemed to form a super huge Nebula tower!

There were a total of 18 layers of nebulas, and they overlapped to form a tower-shaped star field, magnificent and brilliant!

Even Lin Yi couldn't help but sigh at how small he was in front of this magnificent scene!

## Chapter 9102 Power

"This ... This is the star Ink River?"

Qin wunian was so excited that even his voice was trembling. She had heard countless rumors about the Black Star River, but this was the first time she had seen it with her own eyes!

The River of Stars surrounding the Nebula Pagoda flowed slowly. Although they had yet to enter it, there was still a vast energy gushing towards them. Every cell in Qin wunian and the others seemed to be cheering in joy.

There was no need for them to deliberately cultivate. They could feel that the strength of their bodies was slowly increasing. If they were to truly enter the star Ink River, what kind of astonishing effect would it have?

Huangshan Mao and the rest were even worse off. Qin wunian's voice was only slightly trembling from excitement, but their entire bodies were trembling non-stop. They couldn't even speak, and all they wanted to do was to rush into the black Star River and have a good swim!

Lin Yi took a deep breath and calmed himself down. He could understand why Huang shanmao and the others were so excited. In fact, Lin Yi himself was even more excited, he just didn't show it!

This was because the rules of this small world were different from those of the sub-Island!

Lin Yi entered and found that he could use pure Qi! The true energy that had disappeared for a long time had reappeared in his body. This represented something completely different!

During his time on the sub Island, Lin Yi's body was strong, but his strongest skills were still those that required pure Qi to activate!

The star power was still hiding in his body and essence spirit, waiting for a chance to come out and cause damage, but Lin Yi had pure Qi in his body. He didn't have many more tricks up his sleeves, but just suppressing the star power was much easier!

The trip to the star Ink River was now in the bag!

"Hahahaha, little bugs, do you think you can get rid of this old man like this? Although I'm very grateful to you for bringing this old man into the Star Ink River, your good days will end here!"

The Qin family's leader, a half-step to heaven piercer, laughed wildly as he revealed himself. Behind him were three other Warriors at the late stage of sea shattering realm and above.

The fluctuations didn't restrict them for too long-Lin Yi's group only arrived a few seconds later, and they appeared in front of Lin Yi.

When they saw the magnificent scene in front of them, the four practitioners from the Qin family had forgotten that they were going after Lin Yi and the others. They were all shocked, and then intoxicated!

"Is this the legendary Star Ink River? It was simply too unbelievable! There was actually such a world-shaking place! Hahahahaha! It was really like he had worn out his iron shoes in a long search, but found it without any effort! The Black Star River now belongs to this old man!"

The half-step heaven-cleaving cultivator was incomparably excited and even began to dance with joy. He had been stuck at half-step heaven-cleaving for many years and had never been able to take that final half-step.

However, after arriving here, the firm shackles that prevented him from breaking through actually showed faint signs of loosening!

The star Ink River! The heaven breaking stage!

He really had no choice but to go crazy!

Lin Yi smiled coldly, "you're overestimating yourself!" There are many people coveting the star Ink River, even heaven breaking experts. You are just a Qin clan traitor, Who Do You Think You Are? You dare to claim that the star Ink River is yours?"

"With your strength, I advise you to quickly turn around and leave. You must not enter the Black Star River. Otherwise, I'm afraid you won't even know how you'll die!"

Demi-heaven's smile disappeared at Lin Yi's taunting, and he squinted his eyes and bared his teeth. "You're just a little bug, yet you dare to boast so shamelessly? The reason why I didn't deal with you immediately was because you brought me to the star Ink River. I wanted to let you live a little longer. "

"Since you don't value your life, this old master doesn't mind sending you on your way now! Looking at you, you don't have any last words, do you? Then obediently stretch out your neck and accept your death!"

As far as he was concerned, Lin Yi's array skills might be strong, but his strength was really low. He could just move his fingers and rub Lin Yi to death countless times!

And so, he casually reached out his hand to grab Lin Yi's neck, ready to gently twist the boy's head off.

Lin Yi laughed coldly. If he was still in the demon Fang hunting group's camp, he wouldn't be able to defeat this half-ASCE-heaven old thing with his limited strength without formations and buffs.

However, he was now at the bank of the Black Star River, and the true Qi in his body had recovered. With the endless true Qi, it had become much easier to suppress the power of the stars.

Although he couldn't use his full strength yet, recovering back to the sea-shattering realm wasn't a problem. With the addition of his pure Qi, a half-step to heaven-breaking cultivator wasn't a threat to Lin Yi anymore!

Lightning escape technique!

With a flash of lightning, Lin Yi easily dodged the opponent's grab and appeared in the middle of the four.

"I've said it! There are too many people coveting the star Ink River, Who Do You Think You Are? How old are the four of you together?"

There were lightning arcs dancing around Lin Yi's body, but there was a strong wind gathering in his open arms.

Wind splitting teeth-thousand blade slash!

Countless wind blades exploded. The thin wind blades, which had been compressed to the extreme, were extremely sharp. Even the body-tempering defenses of the sea splitting stage and the half-step heaven breaking stage couldn't resist such sharp cuts!

It was one of Lin Yi's trump cards when he was still low level, and now that he was in the heaven breaking stage, the power of the wind crack tooth, thousand blades slash had increased by who knew how many times.

If it was someone else, even if they could use their Zhen Qi, they would be unable to use powerful martial skills because they had not cultivated their Zhen Qi for a long time.

Lin Yi didn't have to worry about that at all-the endless Qi in the Jade space could be converted into Qi in his body at any moment, replenishing whatever he was lacking.

In terms of pure energy endurance, Lin Yi was never afraid of anyone!

The Qin family's flying spirit beast was extremely fast. From a small black dot to a clear view of its appearance, it only took a blink of an eye.

Four figures descended from the sky and landed in the camp easily, but before they could say anything, they were greeted by Lin Yi's compound formation!

The moment the formation was activated, endless attacks rolled out and completely enveloped the four Qin clan experts.

"Dammit! There's actually a Grandmaster-level formation lying in ambush!"

The old man at the half-step heaven breaking stage, who was the leader of the group, roared again and again. He took out the ball of annihilation and threw it at his feet. The gray fluctuation appeared again, but it could not break through the siege of the array.

A formation that could only be set up by a Grandmaster had already exceeded the scope of the ball of annihilation's destruction!

However, the effect still existed. The operation of the entire formation became a bit more sluggish, and the power it could exert was far from what it should be under normal circumstances!

"Your Qin family's forbidden Sphere of Destruction is stronger than I imagined! My formation is still affected!"

Lin Yi furrowed his brows and looked at Qin wunian. "This is completely different from what you said before!"

#### Chapter 9103 The Power Of The Divine Realm

Qin wunian said that only grandmasters could set up formations to deal with the sphere of annihilation, but Lin Yi's formation wasn't something a Grandmaster could set up!

Even a silver array Grandmaster did not have this ability! However, the sphere of annihilation could affect it. Clearly, Qin wunian's information had a serious error!

Qin wunian's face reddened. This was a serious mistake-if it weren't for Lin Yi's formation, they would've been surrounded by the Four Masters of the Qin family!

"The ball of annihilation wasn't this powerful before! It seems a little different now. Perhaps it has been modified?"

Qin wunian's tone was a little uncertain, and his eyes flickered for a moment before they were filled with resentment. "These traitors must have given the secret of the forbidden sphere of annihilation to their new master. If it was only these traitors, it would be impossible to improve the forbidden sphere!"

Lin Yi understood-only a continent-level house like the Qins would have a trump card like the sphere of annihilation, and whoever could destroy them would have to be stronger than them!

What the traitor couldn't do, they had a high chance of doing it. It shouldn't be too difficult to grasp the secrets of the sphere of annihilation and make some improvements.

After all, it was much easier to repair and decorate the original house than to build a new house from scratch!

"Is the enemy here?"

Huangshan Mao and the others heard the commotion and rushed out of their tents. They weren't in the mood to rest, but they saw that Lin Yi and Qin wunian seemed to need some private space, so they quickly hid in their tents.

The Qin clan's people had rushed over. They were also one of the targets, so they couldn't stay out of it. They could only respond actively.

When he reached Lin Yi's side, Huangshan Mao had already ordered his men into battle formation, "Vice-captain Sima, should we make a move now? Using the power of the formation to attack them?"

Lin Yi looked at the sky and pondered, "There's no need for that. My formation can still buy us some time. As long as we leave this place, they won't be a threat anymore!"

The formation was affected by the sphere of annihilation, but it could still trap the four of them for now. Lin Yi's formation didn't have much meaning-these people were much stronger than the three before, and they were working together too. A sneak attack wouldn't kill them.

Huangshan Mao suppressed his suspicions-Lin Yi was the boss now, and whatever he said was final. He didn't dare to ask anymore.

Without Lin Yi's protection, he and his team would be crushed to pieces in a matter of minutes. Only by following Lin Yi could they have a chance of survival.

In the formation, the four practitioners were dashing left and right, constantly consuming the formation's power. Originally, they would have been split up and destroyed by Lin Yi's formation when they landed.

He didn't expect that the guy in the lead would react so quickly and throw out a ball of annihilation. Although it didn't break the formation, it stopped the formation from operating at its maximum capacity.

The four of them had not been separated at the first moment, but had immediately joined forces. In addition, the power of the array had decreased. From the perspective of the situation, not only did they not fall into a disadvantage, but they were also using the continuous counterattacks to consume the array.

This was also one of the reasons why Lin Yi didn't bring a team to hunt them down. If they were separated, it would be easier to take Huang shanmao and the others down one by one, but now there were no conditions.

The sky was getting darker and darker, and the moon was starting to appear. Lin Yi didn't pay attention to the four people who were trapped in the formation anymore. He took out the six star source instrument and started to observe the moon.

"This is the six-part star source instrument! The star Ink River? The Tianying planet?"

Huangshan Mao's eyes went wide as he couldn't help but cry out. He wasn't Qin wunian, and he had never thought that Lin Yi would be the legendary six-point star source instrument user from the Tianying planet!

No, the legendary six-point star source instrument had been destroyed in the siege!

But this is indeed a six-point star source instrument, right?

Huangshan Mao started to doubt his life!

He had never seen a 60% star source instrument before, but the rumored one was exactly the same as the one in front of him. It seemed impossible that it wasn't!

If it really was the six-point star source instrument, then Sima Zhongda was the Tianying planet?

Not only Huang shanmao, everyone except Qin wunian was surprised and overjoyed! Not everyone could calmly accept the appearance of such a legendary Big Shot!

Of course, his happiness was also quite sincere. If he followed the big boss of the Tian Ying planet, he would definitely be able to find the star Ink River!

Didn't they risk their lives just to go to the star Ink River and drink some soup?

Now that he might be able to eat meat, how could he not be happy?

Lin Yi didn't have the time to care about what they were thinking-the full moon was already in the sky, and there was still some light from the setting sun on the horizon.

The moonlight wasn't obvious under the setting sun, and the moon was just a faint disc, but that didn't stop Lin Yi from using the six point star source instrument!

Under Lin Yi's control, the six part star source instrument emitted a faint silver light. The moon in the sky seemed to have sensed it and scattered down a similar silver light, connecting with the six part star source instrument's light. In an instant, they became one.

The entire sky suddenly dimmed, and the setting sun completely disappeared. The moonlight gathered like mercury and followed the previous trajectory, sending it into the six-point star source instrument.

The six star source instrument in Lin Yi's hand shone brightly, as if a full moon had appeared on the ground. Qin wunian, Huang shanmao, and the others couldn't open their eyes from the cold moonlight, wondering if the full moon had fallen from the sky.

Of course, the moon would not really fall, but the light of the full moon seemed to have been absorbed by the six-point star source instrument, losing its original light.

When the sun and the moon dimmed, the stars that were covered by their light appeared in the sky. The bright Galaxy began to emit light and spread across the sky!

Lin Yi couldn't help but suck in a breath of cold air. He really didn't expect the six-point star source instrument to be able to create such a big scene!

Lin Yi didn't even have time to feel what it was like to hold the moon in his hands. The light from the star source instrument shot up into the sky again, but it didn't return to the Moon. Instead, it pierced into the Galaxy like an endless sword!

An invisible fluctuation spread out in the camp. The formation that was set up earlier had already been depleted by more than half by the four people from the Qin clan. Now, under the impact of this fluctuation, the formation was actually opened!

Lin Yi was taken aback-this was an accident. He'd planned to keep the four trapped in the formation, and even if he couldn't kill them, he'd at least be able to stop them from coming out.

Chapter 9104 Power

Furthermore, Qin wunian and the others were weak. Without him watching from the side, who knew what would happen?

Taking advantage of the lead, Lin Yi had already brought Qin wunian and the others into the resplendent Galaxy when the dark Demon beast experts entered.

The Galaxy in the universe was made up of real stars, but this Galaxy was different. In the void, there was a pitch-black liquid substance that was flowing slowly around the 18 levels of the star Cloud tower.

This liquid substance was quite magical. It was as black as ink, but it was transparent, like the void. There were countless stars inside, which formed this brilliant Galaxy.

When one was in it, one would not feel like they were in water because the liquid substance was similar to air and would not soak into any material on one's body. When one's fingers moved across it, one could feel the resistance of the liquid, but they did not have the ability to soak into it.

"How magical! This was the Black Star River! Even though it's only the outermost layer, the rich energy is already making my body hungry and thirsty!"

As soon as Huang Shan Mao entered the Black Star River, he couldn't help but close his eyes and open his arms. He had an intoxicated look on his face as he lifted his head and took a deep breath. All the pores on his body seemed to be absorbing the energy within the Black Star River.

It was the same for the others. The energy surrounding the Black Star River had already started to temper their bodies! This liquid Star Ink River was, in essence, a kind of energy.

If it weren't for Lin Yi, they'd only be drinking some soup here if they were lucky enough to enter the star Ink River. The meat deeper in would be the other big shots' food.

Regardless of whether they had the guts to snatch the food of the big boss, it would be good enough if they could come in, and it was the last batch. They just had to have a share of the soup and they would win.

In other words, they had already achieved the initial goal of Huangshan Mao and the rest. Even if they didn't gain anything, this trip would not have been in vain!

"This is only the outermost area. The real good stuff is all inside!"

Qin wunian, on the other hand, was much calmer. After all, she was the young miss of a great clan, and could casually look down on Huang shanmao and the others.

However, when she looked up at the 18-level Star Cloud tower surrounded by the Galaxy, she couldn't help but exclaim, ""I've never heard of such a magnificent sight like the Black Star River. I've always thought that it was just a River. I've really been ignorant and ignorant!"

The 18 level Nebula tower stood tall and was suspended in the void. It was like a person looking at the endless star fields in the virtual universe. However, being in the star Ink River, one could clearly see the entire 18 level Nebula tower. It was a very mysterious feeling.

As the saying goes, one can not recognize the true face of Mount Lu, but only because they were on the mountain. Right now, Qin wunian and the others had the feeling that they were on the mountain, but they could see the true face.

"Sima Zhong da, let's go in! There seemed to be many experts behind them, and they were all very powerful! We're not his match!"

Qin wunian's expression changed as he pulled on Lin Yi's arm. "The other passages didn't seem to be in a hidden place. Someone has come in through the other passages so quickly!"

"We have to act as soon as possible. We still have a slight lead and try to get as many benefits as possible. When they come, we might not have a chance!"

Lin Yi's mysterious method of dealing with the four from the Qin family was extremely powerful, and Qin wunian and the others had a new evaluation of Lin Yi's combat strength. However, she still felt that Lin Yi was no match for the people who came later.

She had to admit that her senses were quite accurate. Lin Yi's spirit sense scanned behind him and he knew that a group of Dark Demon beast Masters had entered this time. There were a total of 90 of them, and they were all heaven breaking Masters!

It was ridiculous!

He had never seen so many heaven breaking experts at once even when he was in the territory of the darkness demon beast clan. Why did they suddenly appear when the star Ink River opened?

With such strength, he could just randomly find a node and use it as an excuse to open a passage to the node, right?

So, the darkness demon beasts from the other continents had gathered at the heaven's legacy continent for the sake of the inky Star River? Or was it that the Black Star River was just doing it in passing, and their real goal was to forcefully occupy a certain node and open the teleportation channel?

Lin Yi couldn't figure it out-there were too few clues!

The dark Demon beast was too strong, and even if Lin Yi could use his pure Qi, he couldn't face it head on. He could only avoid it!

"Let's go in and take a look!"

Lin Yi nodded slightly. He didn't discuss with Qin wunian about the enemies behind them and brought everyone to the star Cloud tower as fast as they could.

The Galaxy revolved around the center of the pagoda. By right, after passing through the Galaxy, one would be close to the ninth and tenth level of the pagoda.

The amazing thing was that even though they didn't feel anything, the bottom level of Nebula tower appeared in front of them after they crossed the Galaxy. It seemed like there was some kind of restriction. If they wanted to enter Nebula tower, they had to start from the bottom.

A giant Starlight door appeared in front of Lin Yi and the group. Countless Starlight formed this light door, and even if the door wasn't opened, everyone could feel the energy fluctuations coming from inside.

"Is this the entrance? How do we get in?"

Huangshan Mao rubbed his hands excitedly. Their original target was the outer Star Ink River, and now that they were following Lin Yi, they'd already thrown their original target off.

The Black Star River was right behind him, but Huangshan Mao was already disdainful!

Sixth brother approached the light door and reached out to push it twice. The light door didn't move at all, so he increased his strength and finally used his shoulder to hit it. The result was the same.

The Starlight door was as stable as Mount Tai, while sixth brother was like a breeze that blew across the mountain peak!

Lin Yi turned to look at Qin wunian, who shook his head with a bitter smile, indicating that he didn't know how to enter the gate either.

Although the Qin clan had more information about the Dark Star River than the outside world, everyone was basically at the same starting line here. The others didn't know how to open the stellar light door, and the Qin clan didn't know either.

Lin Yi frowned. If he couldn't open the Starlight door, then the small advantage he had before would be gone. He remembered that the six point star source instrument could open the passage to the star Ink River, so he took it out and tried it out.

No reaction!

Obviously, the six-part star source instrument could only open the passage to the star Ink River from the lower realm. It was not the master key of the star Ink River. The light door here did not match it.

"Sima Zhong da, what do we do? The people behind him were about to arrive! Why don't we leave this place first and go around to see if we can find a way to enter?"

Qin wunian turned back to look at where they had come from and said with some urgency, ""I don't know what's going on with you guys, but I can miraculously see the entire tower formed by the Nebula. Besides the Starlight gate here, there are seven other light gates that are similar to this one!"

Chapter 9105 Power

"If we change our position, we might be able to enter easily! Don't you think so, Sima Zhongda? We can't hesitate on this matter, we have to make a decision immediately!"

"Yes, yes, yes. I've also discovered that we can miraculously see the entire Nebula tower from here. There are indeed a few other light doors at the entrance. It's similar to the Octagon tower, with doors in eight directions!"

After Qin wunian finished speaking, Huang shanmao immediately nodded in agreement. The others also expressed that they had seen this situation.

Seeing that the dark Demon beasts were coming, Lin Yi didn't want to waste any more time and nodded, ""Alright, let's take a look in other directions first! In the case of multiple gates, perhaps only a few can be opened!"

After making the decision, the group followed Lin Yi and went around the tower. From a distance, the Dark Star River was tens of millions of miles long. In other words, the circumference of the tower was also tens of millions of miles.

Even though there were eight doors, the distance between them was unknown. Under normal circumstances, with the speed of Qin wunian and the others, it would take at least one to two years to walk from one door to the other.

But something strange happened again-Lin Yi only walked for two minutes or so before they saw the second Starlight door. It was like they'd turned a corner, and they'd reached their destination!

"What a magical place! It looks infinite, but it's only a few steps. The profoundness contained in it is not simple!"

"That's indeed the case, but the star Ink River is one of the most mysterious places in the world, shouldn't it have all kinds of mysteries? It doesn't matter if we don't understand, as long as we can get the benefits we want!"

"That's right, that's right. When you're hungry, you should eat if there's food. Who cares how the food is made? That's because he had nothing better to do, right?"

The people in the team clicked their tongues in wonder and whispered to each other. Their goal was very clear, and that was to get enough benefits from this place. As for what secrets there were, they did not care at all!

Lin Yi was surprised as well-they'd only walked a few steps, but the dark Demon beast's aura had completely disappeared. Even his spirit sense couldn't detect it, so it was clear how far they were.

"The Starlight gate here is also closed and can't be opened! Shall we continue?"

Huangshan Mao went to try it out first before turning back to Lin Yi, "Or maybe we can go back and take a look. If the original Starlight gate has been opened by someone else, it will be faster to follow them in, right?"

Lin Yi walked up to the door and touched it, but he couldn't find any way to open it. "Let's keep going. There will be more and more people coming, and there are too many experts to count. It's not a wise choice to turn back and cross paths with them. "

"I'll listen to you!"

Huangshan Mao agreed immediately. He was very clear about his position now-he had to listen to Lin Yi's arrangements in the star Ink River!

The group continued forward, and they saw a new Starlight gate after turning a corner. The original gate of light was already millions of miles away!

Lin Yi felt as if someone had cast a spatial bending buff on him-a single step was all it took for him to travel a few hundred thousand miles.

In a more sci-fi way, one could say that one had unknowingly passed through a wormhole and could ignore the limitations of space and distance.

No matter what, this was a good thing. Everyone could save a lot of energy and didn't have to think of ways to travel long distances!

However, to everyone's surprise, there were already other humans in front of the Starlight gate. There were quite a number of them, with a total of forty-six people divided into two groups. Clearly, they were not from the same group.

"Someone's coming! Hehe, what kind of trash is this? people of the earth formation stage and the mountain Formation stage dare to come here and join in the fun!"

The people who were closer to Lin Yi's group were the first to notice the weak-looking group. One of them, a woman in her thirties, sneered at Lin Yi and his group.

"Even if we don't talk about the heaven breaking stage, we should at least have a few experts at the sea splitting stage to lead the team. Wouldn't it be better to just obediently drink some soup in the outer Star River?"

Lin Yi glanced at the woman who spoke, but didn't pay her any attention.

The number of people in these two teams was similar, 22 on one side and 24 on the other. The strength of the two teams was also similar. The main group was made up of earth-splitting stage Warriors. Each team was led by a heaven-breaking expert. In the middle of each team, there were four or five sea-splitting stage Warriors.

Compared to Lin Yi's side, any team had the ability to crush Lin Yi's team on the surface!

"Hmph! There are idiots who don't know their place everywhere. Angoran, go and clean up these small fries, don't let them get in our way!"

An old man with an aquiline nose and goatee beside the girl glanced at Lin Yi and the others from the corner of his eyes. He waved his hand indifferently, signaling for one of the martial artists in the group to deal with these seemingly weak rookies.

One of the men replied, thumping his chest with his right fist before walking towards Lin Yi and the others with a sinister smile.

"Trash, you're coveting something you shouldn't be coveting. Why don't you just eat some bones and drink some soup outside? Why did you have to come in and trouble others? you really deserve to die!"

Angelan walked towards Lin Yi and the others step by step. With every step he took, his aura rose a little. Soon, his peak mid-stage Shattered Sea realm aura was revealed.

On the surface, Lin Yi's strongest person was still Huang shanmao. He was only in the earth formation stage, so he wasn't even in Angelan's eyes. He was even thinking about how many different ways he could use to kill these weak martial artists!

The group of people on the other side was not their ally. Now that they were using the small fries in front of them to show their might, it was a good way to show off their muscles and intimidate the people on the other side.

Huangshan Mao and the others felt the violent aura coming from him, and their hearts sank. They subconsciously formed the battle formation Lin Yi taught them.

Other than Lin Yi, they only had this formation left to fight against Angelan!

Of course, Angelan wasn't a big deal-they'd seen how Lin Yi fought the four Qin pursuers, after all, and he couldn't even compare to the four Qin traitors.

The problem was that Angelan wasn't alone. He had more than 20 companions behind him. The strongest among them was a genuine heaven breaking expert, and he also had a few experts at the sea splitting stage. This combat power wasn't something the four members of the Qin family could compare to!

"Sima Zhong da, if I'm not mistaken, these people are the clansmen of the an clan of the heaven's secrets continent. Although the an clan can't compare to our Qin clan and can't be considered strong on the continent's level, they are definitely an extremely powerful clan on the continent's level."

Qin wunian seemed to be afraid that Lin Yi didn't know his opponent's background, so he introduced them to Lin Yi in a low voice, ""The an family's martial skills and cultivation techniques are famous in the heaven's legacy continent for their powerful attacks. In a direct battle, they can often challenge those of a higher realm."

Chapter 9106

"Compared to the way of attack, their performance in defense is somewhat lacking. Therefore, many times, if they can't kill their opponents, they can be easily killed by their opponents. The chances of them dying together isn't small either!"

"These should be the elites of the an family. Should we retreat? There's no need to clash with them here. There's still someone who's waiting to reap the benefits from the other side ..."

Qin wunian spoke very quickly, and the meaning behind his words was to tell Lin Yi not to get into a conflict with the other party. With only Angelan at the peak of the mid-stage of the shattered Sea realm, and with the support of the battle formation, there was still a chance for Lin Yi to escape unscathed if he caught Lin Yi off guard.

If the heaven breaking experts of the an family were to make a move, the outcome would be hard to say.

Originally, after knowing that Lin Yi was from the Tianying planet, Qin wunian's confidence in Lin Yi had increased by a hundred times. After all, this was a strong man who could break out of the encirclement of hundreds of heaven breaking and sea shattering stage powerhouses. If he encountered a single heaven breaking stage cultivator, wouldn't he be able to do anything to him?

However, Lin Yi didn't display that level of combat strength, and instead, he was being secretive the whole way. Qin wunian felt that he had suffered a serious injury during the siege, and had yet to recover!

So Lin Yi's strength shouldn't be at his peak right now, not even one-tenth of it. Otherwise, the four traitors would've been killed in seconds!

In such a situation, the best choice was to avoid a direct confrontation with the an family and retreat to preserve their strength!

Lin Yi didn't know what Qin wunian was thinking, or he would've praised her!

The situation was basically true!

The only mistake was that Lin Yi's injury was due to the power of the stars, not the siege from before. The siege only made his injury worse!

"Retreat? Where should we retreat to? There's a Wolf at the front door and a Tiger at the back. What can we do if we're afraid of the wolf in front and the Tiger behind?"

Lin Yi smiled."Cultivation is against the natural order. Opportunities are all about fighting for them. Sometimes, when there's no way out, you have to crush everything in your way!"

Qin wunian was taken aback, but he had to admit that Lin Yi was right!

The fight for the star Ink River was destined to be tough even before it started. How could this situation compare to Lin Yi being surrounded by hundreds of heaven breaking and sea splitting stage cultivators?

If they retreated as soon as they saw someone, then what was the point of fighting for the opportunities in the star Ink River? He could just absorb some energy and drink some soup from the outermost layer!

Huangshan Mao perked up at Lin Yi's words and smiled, "Captain Sima is right. If we want to get something, we'll just have to risk our lives. What's the big deal? So what if it was the an family? We don't need to be afraid of them!"

Get into formation to face the enemy!

Huangshan Mao had quietly turned Lin Yi's vice-captain into Captain-he didn't officially acknowledge it, but at least he acknowledged Lin Yi's leadership.

Under his command, the battle formation had taken shape. Lin Yi was in the center, ready to face Angelan!

"Hahahaha, ignorant fools, do you think that a lousy battle formation can stop your master angoran?"

Angoran continued to press forward unhurriedly, his aura growing stronger and stronger. When his aura reached its peak, it would be the time for him to launch a thunderous attack!

"What you need to do now isn't to set up some lousy battle formation, but to kneel and beg for mercy. Only then will your master Angoran show mercy and let you live."

"You want to resist? You guys are thinking too much! A bunch of weaklings, no matter how they work together, they're still a bunch of weaklings. They actually want to fight against a Tiger, this is simply ridiculous!"

Angoran mocked as he entered the appropriate attack range. He grinned and clenched his fist. "Watch closely, master An can beat you weaklings into pieces with one punch!"

Lin Yi said impatiently, "so much bullshit!" Are you going to kill us with your tongue?"

Angoran was stunned, and his raised fist stopped in the air. What was this? A mere weakling actually dared to retort so impatiently? Are you tired of living?

"Hahaha! What a joke, it seems like you can't wait to die, right? Please be merciful and grant your last wish, uncle An!"

Angolan laughed in anger. He stomped on the ground and shot forward like a cannonball. His raised fist was filled with terrifying power. Huangshan Mao, who was the first to be hit, couldn't help but gulp.

As the sharp arrowhead of the battle formation, he had to face Angoran's attack directly. Even with the support of the battle formation, that punch that could destroy the world still brought him super strong pressure.

At this moment, Huangshan Mao missed the original Arrowhead Jin ziduo. If he didn't die, he would be the one taking on Angoran's fist!

Just as Huangshan Mao was cheering himself on and gathering all his courage to fight to the death, he saw a flash of lightning from the corner of his eye.

Lin Yi didn't plan on using the formation to fight the enemy. He was just a mid-tier sea breaker realm warrior, who was he when he could use his pure energy?

Lightning escape technique!

Lin Yi flashed past Angelan and appeared behind him.

Angoran waved the demonic devouring sword in his hand and casually sheathed it. He maintained his charging posture. He took a few steps forward, but then his head suddenly fell back.

The headless body still had its fist raised and continued to run two steps forward. Huangshan Mao was stunned to see the headless body fall to the ground in front of him. The powerful fist fell limply to the ground, not even causing a splash!

"The An family! You're nothing more than this!"

Lin Yi's face was extremely calm, as if the one who was beheaded wasn't a master at the peak of the mid-stage of the shattered Sea realm, but an ordinary chicken or duck that could be easily slaughtered.

He had to admit that after his body became strong, the Thunder escape technique and the demonic devour sword were extremely powerful!

He didn't even need any martial arts techniques. His pure speed was enough to destroy everything!

Among all the martial arts in the world, only speed can not be broken!

If they were facing an opponent who also used pure energy, they might have all sorts of methods to deal with Lin Yi's super speed attacks, but these sub Island Warriors purely relied on their strong bodies to fight. Under the situation where their speed was suppressed, they were simply lambs waiting to be slaughtered!

This was also the conclusion Lin Yi had come to from his previous experience. When he first recovered his pure Qi, he instinctively used the wind splitting teeth-thousand blades slash against the four traitors of the Qin family, but he couldn't kill any of them.

After thinking about it, he realized that with the speed and impact of the lightning movement technique, he could easily cut it with the demon devouring sword. Why did he have to go through so much trouble?

The sinister old man from the an family suddenly turned to Lin Yi, his pupils contracting as he chuckled. "Young man, you're quite hot-tempered! This old master was a bit wrong, I didn't expect you to have some strength!"

Chapter 9107

If there weren't any other forces nearby, elder Yin Wu would definitely use all his strength to suppress Lin Yi, including Huang shanmao and the others. They all had to die!

It was a pity that there were people from other factions on the other side, and they had the advantage in numbers. With one angoran dead, the old man didn't want to put in more manpower to deal with Lin Yi.

If both sides suffered, it would only benefit the others!

"How is it? Do you still want to continue?"

Lin Yi raised his head proudly and looked at the old man coldly, "The an family's strength is definitely not limited to this. Do you want to fight to the death with us here, or do you want to wait until we enter to see who is stronger?"

The an family still had one heaven breaking cultivator and four sea shattering cultivators. He could still fight them, but he didn't want to.

Triggering the backlash of the power of the stars was a small matter. The key was that the darkness magical beasts that had come this time were powerful and numerous. Most importantly, they had advanced and retreated together, and had become a united force.

The humans, on the other hand, were in a state of disunity. The an family could at least stall the dark Demon beasts for a while, but the situation wasn't clear yet, and Lin Yi couldn't come up with a long-term plan. He could only prepare more enemies for the dark Demon beasts.

Old man Yin Wu looked at Lin Yi with a dark smile on his face, ""Young people are really amazing! Since you've already displayed sufficient strength, then this time you're naturally qualified to take a share of the loot! This old man doesn't have any objections!"

After this, the an family wouldn't let Lin Yi go-they'd hunt him down as hard as they could!

However, elder Yin Wu didn't want to let Lin Yi off so easily. He turned to the other side and smiled, ""Old Liu, what did your Liu clan say? This young man's strength isn't bad. You don't have any objections to counting them in, right?"

He wanted to stir up a fight between Lin Yi and the Liu family so that he could reap the benefits!

The leader of the Liu Clan was a tall and thin white-haired old man. He was also their only heaven breaking expert. When he heard the words of the old man, he lightly smiled and said, "It's not like our clan's disciples have been killed, what's there to say?"

"Old ghost an, since you've used the lives of your clansmen to acknowledge the other party's strength, then count them in! What was the point of fighting to the death? We still want peace!"

The white-haired old man spoke in a light tone, as if he was really a peaceful person.

Then, he and the old man with the sinister cloud sneered in their hearts at the same time. They were both old foxes who had cultivated for a thousand years. Who were they trying to fool?

The old man wanted to make Lin Yi go and start a conflict with the Liu family, how could the old man not see through it? Even if he didn't put Lin Yi in his eyes, he couldn't stand out and object at a time like this!

It didn't matter if they had a conflict with Lin Yi, or if they forced Lin Yi to go to the an family, it wouldn't do them any good. On the other hand, keeping Lin Yi alive as a third party might just mess things up!

It was easier to fish in Muddy Waters!

"You're right! We want peace!"

The sinister old man grinned, but his heart was numb. He casually ordered people to collect angoran's corpse.

After all, he was a disciple of the an family. Even if he didn't care, he had to at least take care of his funeral. Otherwise, who would listen to his orders?

Lin Yi didn't think that he'd be able to gain a foothold after killing someone.

They had been prepared for an intense battle, but in the end, they said that peace was the most important thing ... The arrogance just now was gone just like that?

As expected, strength was everything! The bigger fist was the greatest principle!

"Old man Liu, our luck is good this time. We actually encountered the appearance of the legendary Star Cloud tower, the core of the star Ink River. In the past, when the star Ink River opened, it was mostly just the outer part of the star River. The star Cloud tower has not opened for hundreds of years, close to a thousand years!"

The sinister old man ignored Lin Yi and changed the topic to the Liu family's leader, "This time, there are countless forces and experts who have come to the star Ink River to seek benefits. Why don't we join hands? What do you think, old ghost Liu?"

Just because he promised to let Lin Yi join didn't mean that he would let Lin Yi go. Since he couldn't make Lin Yi go to war with the Liu family, he immediately changed his strategy and suggested an alliance with them.

As long as the plan succeeded, the two houses would join forces and deal with Lin Yi's group together. Not only would they have fewer constraints, but their strength would also increase significantly, and they would have a higher chance of winning.

Even if it wasn't to deal with Lin Yi and the others, entering the star Cloud tower would still be beneficial!

The white-haired old man muttered to himself for a moment before nodding slightly, "Old an, you've finally put forward a useful suggestion. I have no objections. If our two families join forces, our chances of entering the pagoda will be greater!"

As he spoke, he looked up at the Starlight gate not far away. "There are a total of eight light doors in the entire Star Cloud tower. It's said that as long as more than half of the light doors have someone in front of them, the door will open. Now, it seems like there are still other doors that have no people!"

Elder Yin Wu nodded and said, "that's right!" The teleportation channel hasn't been open for long, and those who can come in now just happen to be near the teleportation entrance. It can be said that they are extremely lucky. "

"However, the sound of the meteors falling to the ground isn't small. Even if there's no one nearby, it'll definitely attract attention. Soon, someone will find the location and teleport over. I reckon that it won't be long before people appear from all the other light gates. It'll be good if some of us are willing to go to the other light gates and occupy a position."

They were trying to get Lin Yi to go to another door-they could open the entrance as soon as possible and Lin Yi wouldn't have to fight for resources.

As for asking them to move by themselves ... They were also afraid that if they moved and the door of light opened, they would be at a great disadvantage!

Especially in a situation where one side was moving while the other was staying, no one would be willing to move to another light door. The two old foxes from the an and Liu families didn't even bother testing each other out, only pointing at Lin Yi with a casual attitude.

In fact, Lin Yi didn't mind going to the other light doors. After all, he could reach it after turning the corner. But these two old ghosts seemed to know a lot about the star Cloud tower and the star Ink River. He wouldn't be able to hear them if he left, so he naturally had to pretend that he didn't understand anything and stay here to get more information.

The two old geezers saw that Lin Yi didn't move and knew that this was a little fox. They were all thinking the same thing and didn't want to do anything anymore.

"Old geezer Liu, legend has it that when the star Cloud tower in the center of the star Ink River opened a few hundred years ago, there was a peerless expert who managed to open which level?"

Lin Yi didn't know what old man an was thinking, but he actually started chatting with him when Lin Yi wanted to know more about Xing Mohe.

Chapter 9108

On the other side, old Liu scratched his beard and thought, ""I think the 10th level of the star Cloud tower has been opened? Then, he died on the eleventh floor! If he comes out alive, I'm afraid he'll be in the limelight!"

"However, he can't be considered a peerless expert. It's said that he was one of the more powerful experts on the heaven's secrets continent's level. In the entire continent's level, although he's also a top figure, there are many people who are on the same level as him!"

"It's a pity! This is the consequence of being too greedy. If he didn't continue to go up after opening the tenth level and instead came out to steadily digest his gains, it would be enough to guarantee that he would become the number one person of that era in the heaven's legacy continent!"

Old Liu sighed as he glanced at Lin Yi, intentionally or otherwise. "Of course, young people are not as cautious as old people like us. Their passion and drive are the driving forces for their improvement!"

"If I were thirty years younger, I would also be a fearless young man who didn't dare to take risks. What potential do I have to grow?"

Lin Yi raised an eyebrow. These two old men seemed to be telling him not to be too greedy, but after thinking about it carefully, it wasn't the case at all. They were clearly telling him not to be afraid and to move forward bravely until he died in the star Cloud tower!

Lin Yi didn't really care about that-they didn't need to worry about it. He wouldn't give up so easily when he came across a huge opportunity like this, and he wouldn't stupidly hold on in a situation where he couldn't break through his limits.

No matter what the two old geezers wanted, Lin Yi was happy to hear them talk about the legends, but they couldn't continue.

Not far away, the Starlight gate silently turned into Starlight and dissipated. It should be that more than half of the eight gates had people appearing, and that was why the entrance of the entire Nebula tower was opened!

"Let's go!"

Old man an and old man Liu shouted at the same time and led their men into the Star Cloud tower. The light door was extremely wide after it opened. Even if dozens of people walked side by side, there would not be a jam.

Although the two clans had formed an alliance, when they entered the pagoda, they were still on different sides and had nothing to do with each other. It was obvious that the verbal Alliance was not approved by the two old ghosts.

When facing a common enemy, they might be able to work together, but when there were no external enemies, the two families had to be wary of the sneak attacks of their so-called allies!

Lin Yi shook his head with a smile. This kind of Alliance could break anytime. If it were him, he'd rather not have this kind of Alliance.

Wouldn't it be nice to directly deal with them as enemies? Why did he have to keep it by his side? it was fun to be on guard against being stabbed in the back by his allies at all times?

"Let's go, we're going in too!"

Lin Yi wasn't in a hurry. He waited until the two families had entered the star Cloud tower before calling for Qin wunian and the others to follow.

At the same time, he didn't forget to remind them, "you heard what the two old men said just now, right?" The dangers in the star Cloud tower might be beyond your imagination, so don't force yourselves. "

"No matter how great the benefits are, it's not as important as your lives. If you feel that something is wrong, you should stop and leave immediately. There are too many experts entering the pagoda, plus the danger that they are in, I'm afraid I can't protect you all."

They'd fought side by side before, after all-Lin Yi didn't see them as close partners, but there was still a bit of kinship between them.

After entering the star Cloud tower, Lin Yi wouldn't be able to take care of them. In order to compete with the other strong practitioners, he couldn't be too slow either. Huang shanmao and the others might fall behind by many levels and wouldn't be able to help at that time!

"I understand! Don't worry, Captain Sima, we'll take care of ourselves!"

Huangshan Mao's smile was a little forced, but he quickly revealed a relieved expression,"To us, being able to enter the star Cloud tower is already a huge gain beyond our imagination. We won't ask for more. After Captain Sima enters, just do what you want to do. You don't have to worry about us!"

Of course, he wanted to follow Lin Yi and have Lin Yi protect them, but he also knew that it was unrealistic. Facing such an opportunity, it was already good enough for everyone to take care of themselves.

Lin Yi might be able to help them out if it was convenient, but Huang shanmao felt like he was forcing them to slow down.

Qin wunian's expression was firm as he nodded vigorously. ""That's right. Sima Zhong da, go ahead and do what you need to do. It's good enough that I can enter the star Cloud tower and reap some benefits. I know my limits very well, and my life is very precious. You can rest assured. "

"The Qin clan is still waiting for me to revive it. Those traitors are still waiting for me to clean up the sect. The opening of the star Cloud tower this time is the opportunity for me, Qin wunian, to rise up and revive the Qin clan!"

Lin Yi looked at her deeply before walking into the door. "That's good! Take care!"

Inside the Starlight door, there was no colorful light or ethereal paradise. There was only a huge starry stairway in the void!

All they could see was the flight of stairs in front of them. However, just like how they looked at the star Cloud tower from the outside, everyone seemed to have a God's perspective. They could miraculously see that there were seven other staircases!

It corresponded to the eight gates of the pagoda!

Each of the staircases extended for millions of miles into the void. There was no end to it at all. However, because everyone had a God's perspective, they could clearly see that all the staircases would eventually converge together, and at the top was a huge starry platform.

There was only a huge dark sphere on the platform, floating quietly.

Every step was the same, with a total of ninety-nine steps. Each step was a vast starry sky. It was impossible to see with one's eyes after entering the door. Such a Grand and vast flight of steps ... How the hell was he supposed to go up?

The height of one step was estimated to be 50000 to 60000 meters. It would take a while to fly even by plane ...

Huangshan Mao and the rest were all dumbfounded. They were prepared to come in for a feast, but they didn't expect it to be so big, so big that they didn't know how to start.

Lin Yi's spirit sense had locked onto the people from the an and Liu families. They knew something about the Xingyun tower, so he might be able to see what they did.

In the end, before the two families could do anything, an inexplicable fluctuation appeared in the starry sky. Everyone received a message in their sea of consciousness, explaining the current situation.

The Nebula tower had a total of 18 levels, and each level had 99 steps to climb. Only by climbing all 99 steps and lighting up The Black Sphere on the platform would one be able to open the passage to the next level.

The difficulty of climbing the steps wasn't in the height or width of the steps. There were spatial rules in the star Cloud tower. It was like turning a corner to see the Starlight door. It looked far away, but it could become very close.

Chapter 9109

When one started to climb the steps, the steps would become suitable for humans to climb, so the real difficulty was the difficulty or crisis that appeared on each step.

Only by withstanding the pressure and resolving the crisis would one be able to step onto the next step. In the process of climbing, there would be some benefits. There was a reward for every 33 steps.

If one fell halfway, the benefits obtained would be cleared by some kind of rule, and one had to start all over again. If one wanted to keep the benefits obtained, they could only choose to quit at every thirty-third step or directly reach the top of the platform.

Those who quit on the rewards steps could keep one-third of the benefits. If they received a reward, it would be completely withdrawn. Those who quit after reaching the top of the platform could keep one-half of the benefits and rewards.

In order to retain all the rewards from the first level, one had to pass through the second level and enter the third level. If one exited from the second level, other than obtaining the second level rewards that were in line with the rules, the first level would still be calculated according to the method used to ascend the platform.

Lin Yi finally understood why the guy who entered and died a few hundred years ago didn't leave the tenth floor.

He didn't want to spit out the benefits that he had already obtained!

He must have wanted to try it after entering the 11th level. If it didn't work, there was still time to quit. However, when he found out that it didn't work, he couldn't even quit. He died on the 11th level, leaving behind a legend that lasted for hundreds of years!

"Do you all understand the rules?"

Lin Yi quickly digested the information and turned to Qin wunian and the others. "Everyone should have received the news from that fluctuation, right?"

Huangshan Mao and the rest hurriedly nodded, their expressions not looking too good.

Before the thirty-third step, the benefits obtained were all empty. If they didn't ascend the thirty-third step, they didn't even have the qualifications to withdraw.

"The general rules are clear. As for the specifics, we still need to go up the stairs to know!"

Qin wunian looked more composed at this moment. He raised his head to look at the starry stairway and frowned slightly. "Sima Zhong da, your goal ... Should be the small inheritance on the ninth floor, right?"

There were rewards on each level's platform. However, the most valuable ones were the small inheritances on the ninth level and the last inheritances on the eighteenth level!

It was unknown where the inheritance of the Nebula Pagoda came from. However, it was said that those who obtained the inheritance of the Nebula Pagoda would be able to suppress a region and sweep across the current generation!

Out of the 18 levels of the Nebula tower, only half of it was on the 9th level and the 18th level. The small inheritances on the 9th level were only the introduction to the real inheritance, or rather, the foundation!

Even so, a small inheritance was enough to shine in the world!

This information was one of the messages transmitted by the fluctuations, and everyone could receive it.

"It might not be difficult for you to pass the ninth level, but if you really want to get the small inheritance, you have to start climbing from the eleventh level! The legendary expert who died on the eleventh floor hundreds of years ago ... Perhaps he couldn't even give up after he started climbing!"

Qin wunian's delicate brows furrowed deeper as he turned to Lin Yi with worry in his eyes. "It's already good enough that I can climb the first level. If I'm unable to climb the next level, I'll give up immediately. As for you ... Please take care of yourself and don't force yourself!"

Why did that powerful master from hundreds of years ago fall on the 11th floor? Why didn't he give up after passing level 10? At that time, he should be able to feel that he was reaching his limit.

It was very simple. It was for the small inheritance on the ninth floor!

Qin wunian felt that even if this Lin Yi from the Tianying planet was injured, he would at least set his sights on the small inheritance on the ninth floor. However, if he wanted to complete the small inheritance, he would have to climb to the eleventh floor.

Even a powerful expert from hundreds of years ago had died. Could Tian Ying planet's Sima Zhong da ... Be an exception?

Lin Yi looked at Qin wunian deeply and nodded with a smile. "Don't worry, I don't have any specific goal. I'll stop when I reach my limit. No matter how great the benefits are, what's the point of dying to enjoy them?"

These words were meant to comfort Qin wunian. In fact, Lin Yi didn't really care about the small inheritance on the ninth floor. If he wanted to take it, he would take the real inheritance on the eighteenth floor!

How useful could a small inheritance at the entry level be? Lin Yi's own skills and Arts, which one of them wasn't top tier?

As for that impressive person who had died on the eleventh floor hundreds of years ago ... It could only mean that he wasn't really impressive but was just bragging!

After being able to use pure energy, Lin Yi's confidence increased. Even if he wasn't at his peak, his combat strength wasn't any weaker.

As they spoke, more and more cultivators arrived. It seemed that the passage within the Tianji Empire's territory had already been discovered by more and more people!

This time, more than a hundred people poured into the Starlight gate. The people from the an and Liu clans had already started to climb the stairs and successfully reached the second step. They didn't seem to have any difficulty and seemed to be very relaxed.

Lin Yi hadn't started climbing yet, so he met the hundred people who just entered.

"Woof! The star Cloud tower of the star Ink River only appears once every few hundred years. All kinds of weaklings dare to come and join in the fun!"

Among the hundreds of people who had entered, there were more than 10 heaven breaking realm and 50 sea splitting realm cultivators. The rest were all Warriors at the consummate level of the earth splitting realm and half-step sea splitting realm.

Although they didn't seem to be from the same force, they had at least formed an alliance on the surface since they were moving together. It was similar to the Alliance between the an clan and the Liu Clan.

The one who spoke was a middle-aged man at the front, looking at Lin Yi and the others with disdain. "This is not a place where low-level noobs like you can get your hands on. If you want to live, you'd better obediently go to the Black Star River and drink some soup. In the past, that would already be a Supreme opportunity for your level!"

If the star Cloud tower didn't appear, the Black Star River would be a great opportunity that everyone would fight for. However, when the star Cloud tower appeared, the Black Star River would become an existence that everyone disdained!

It was just that realistic!

Another middle-aged woman chuckled and said, ""Why bother with them? With such puny strength, he probably won't even be able to reach the third floor, much less pose any threat to us!"

"Let them be! It's better to hurry up and start climbing. It seems that there are already people climbing up ahead. If we fall too far behind, we won't get any benefits!"

In the time it took to exchange a few words, the people of the an and Liu families had already reached the fourth step and were currently moving towards the fifth step. Their speed was quite fast, and it could be seen that the starry stairs in front of them posed no pressure to them.

The middle-aged man who spoke earlier snorted, ""What's there to be afraid of? we're only leading by such a small margin, we can catch up at any time! Although these noobs aren't much of a threat, they're still an eyesore!"

"With their strength, they don't have the right to enter the star Cloud tower. Climbing the starry stairs with them will only lower our status!"

They were looking down on Lin Yi's strength, just like how nobles looked down on beggars on the streets. Walking together, they felt that beggars were an insult to their dignity as nobles.

## Chapter 9110 The Power Of The Devil

"Stop wasting time! There are eight gates in the star Cloud tower, and there are countless people who are faster than us. Why are you guys still dawdling here? do you think that there are too many benefits for others to take?"

The leading gray-haired old man said impatiently and took the lead to rush towards the starry stairway.

From his point of view, it wasn't easy to enter the star Cloud tower. Of course, they had to make use of every second to climb the stairs of stars and obtain the most benefits. To waste time on a bunch of newbies, they must be sick in the head!

If they didn't like the look of it, they could just kill them directly. Were they trying to show their high strength and status by talking nonsense?

What an idiot!

The other heaven breaking Masters didn't say anything. They didn't even look at Lin Yi's group as they followed behind the grey-haired old man and started climbing.

Lin Yi smiled coldly and didn't say anything. A few of these people had participated in the encirclement before, but Lin Yi had already disguised his appearance, and his strength and aura were at the mountain opening stage. These people wouldn't recognize him at all.

Who would have thought that a rookie in the mountain opening stage would actually be the Tianying planet that they had failed to kill even with hundreds of people?

Of course, even if someone found out that Lin Yi was on the Tianying planet, they probably wouldn't be in the mood to find trouble with him. After all, the star Cloud tower was already open, and the six-point star source instrument was completely useless.

The most important thing now was to climb the stairs of stars. A meaningless battle would only waste the opportunity!

"Hmph! Rookies, you're lucky! I don't have time to waste with you! If you know what's good for you, you'd better get out of the star Cloud tower, because you don't have the right to enter!"

The middle-aged man still wanted more-he'd gotten addicted to looking for superiority from Lin Yi and the others, but after the others started climbing the stairs, he didn't waste any more time and quickly followed after them.

Only now did Huangshan Mao and the others dare to take a deep breath. There were so many heaven breaking and sea splitting cultivators here. Just their auras alone were enough to suppress them so much that they couldn't even lift their heads up, let alone talk about retorting!

After the group of martial artists had left, he felt cold sweat all over his body, his limbs weak, and his heart full of lingering fear. Among these more than a hundred people, the weakest was at the consummate level of earth splitting realm!

Huangshan Mao was really a huge burden.

"Everyone, don't worry about those people. Just take care of yourself. It doesn't seem to be a problem to climb the stairs at the bottom. Let's keep up!"

Lin Yi said faintly as he led them over.

Lin Yi felt his body sink a little as he stood on the first step of the stairs. The gravity seemed to have increased by quite a bit, and he estimated that it was 0.5 times stronger.

To a body-tempering martial artist, this bit of gravity was nothing at all. If one wasn't careful, they wouldn't be able to feel it.

0.5 times the gravity was equivalent to a few dozen pounds of weight. No wonder the person in front was so fast and climbed up the steps without being affected at all.

Other than the 0.5-fold increase in gravity, Lin Yi could also feel a very weak trace of the star energy seeping into his skin and muscles.

If Lin Yi didn't buy the ancient Star Domain Jade tablet to study the power of the stars, he would've missed it.

There was indeed the power of stars! The star Cloud tower was the key to solving the problem of the star power in his body!

Lin Yi was overjoyed. As long as he could get rid of the star energy in his body and return to his peak condition, he would have a better chance of climbing the 18th level!

However, the power of the stars on the first step was too weak. It only lingered on the surface of his skin for a while before disappearing. It was impossible to study how to use it to deal with the power of the stars in his body.

Only by continuing to climb up and obtaining more star power would he be able to study how to resolve the star power in his body and spiritual sea.

"The steps up ahead aren't difficult. Let's go up together! Don't get left behind!"

Lin Yi remained calm and concealed the joy in his heart as he continued forward. While Qin wunian and the others still had energy to spare, he could go with them and protect them.

When they couldn't keep up with Lin Yi, they'd have to rely on their own efforts.

Qin wunian nodded. "Indeed, it's not that difficult. Perhaps it's just the beginning, so the first level shouldn't be too difficult. Everyone, make the best use of your time. This is our chance. As long as you can enter the third level, you will be able to obtain the first level's reward!"

The reward wasn't unique, but everyone who saw it would get a share. However, the first one to get it would definitely be the best, and the later it was, the worse it would be.

Therefore, those powerhouses were all racing against time, fighting to climb to the platform above the Ninety-ninth step and seize the best reward.

Lin Yi didn't know what he'd get for being the first, but his instincts told him that it wasn't anything special. The difference between the first and last wasn't big enough to make him feel heartache.

Lin Yi didn't even care about the small inheritance on the ninth floor, so what were these rewards? Thus, he wasn't in a hurry to fight for it and just had to accompany Qin wunian and the others.

To Qin wunian and the rest, even the rewards from the first level of the star Cloud tower were many times better than the rewards from the Stardust River outside. Thus, their goal was clear. They would first enter the third level and obtain the complete rewards from the first level. That would be considered as them achieving their initial goal!

Next, he would have to see if he had the strength to continue moving forward. One more level meant one more level of reward. It was definitely not a loss!

There weren't too many tricks on the second step either. The gravity had increased from 0.5 times to 100 times, but it still didn't affect them much. Everyone passed through the second step very quickly.

If the gravity on the first floor only increased like this, it would be extremely easy for everyone. How strong was the body of a body-refining martial artist? Even if the gravity was several hundred times stronger than normal, he could still move ... It wasn't that easy, right?

Qin wunian calculated in his heart. Her weight, in addition to her various equipment, was about a hundred Jin. Compared to those burly men, she definitely had quite an advantage.

If it was 100 times the normal gravity, the weight on her body would be equivalent to 10000 pounds ... It was not that she could not bear it, but her movements would definitely be affected. 200 times the normal gravity would be even more difficult, 300 times ... Would she still be able to walk?

The key was that the increase in gravity was all-round, including the body's internal organs. Compared to simply carrying tens of thousands of pounds of weight, the pressure on the internal organs was more of a headache.

I wonder if I can enter the third floor ...

Earth-splitting stage cultivators were much more relaxed. Compared to mountain-splitting stage cultivators, earth-splitting stage cultivators had stronger bodies, so they could naturally withstand higher gravity.

Everyone was repeatedly calculating in their minds, wanting to know where their limits would appear. Only by understanding this could they better formulate a strategy to distribute their physical strength.

It was just like running a long distance race. One had to use their physical strength reasonably. If they ran with all their strength, they might fall to the ground and be unable to move in less than half the distance.
