

## Bodyguard 9111

### Chapter 9111

Before they knew it, they'd arrived at the thirty-third floor, a small resting point and a small reward point at the same time.

Lin Yi had been paying attention to the star energy in front of him-there was a faint trace of it entering his skin every time he went up a step, probably the benefit of the process.

It was a pity that the first 33 steps of the first step didn't have much star energy. It was said to be a benefit, but it was more obvious to those below the mountain opening stage. Lin Yi's body was a genuine heaven breaking stage, and this little bit of star energy couldn't even penetrate his skin.

"Hehe, the rookies are here! It was really slow! You made us wait!"

On the thirty-third step, there were dozens of earth formation Stage practitioners gathered, and they all looked at Lin Yi and the others with malicious eyes.

Among them were people from the an and Liu families. Most of them were the Warriors who had come in later. As for the Warriors at the sea shattering stage and the heaven breaking stage, they had all left the thirty-third level and continued to climb.

Lin Yi and the group, who had just stepped onto the thirty-third step, didn't quite understand what was going on at first-why did it seem like these earth-opening stage practitioners were waiting for them to come up?

Immediately, a message appeared in everyone's spiritual sea, explaining the current situation!

The thirty-third step was a resting point, a reward point, and a battle Point!

For those who wanted to continue climbing, unless they were the only one climbing the entire stairway of stars, they would have to defeat one person. It didn't matter whether they were killed or knocked down. Only then would they be able to continue climbing!

There was nothing to say about killing him, so he just killed him.

Falling meant defeating the opponent. The opponent would instantly return to the bottom and start climbing again, but they would be forced to wait for ten minutes before they could start again. At the same time, the difficulty of the climb would be doubled.

It wasn't impossible to continue climbing at level 33 if you didn't kill or defeat an opponent. You just had to give up the reward of level 33 and bear the ten times difficulty of the normal climbing.

The 10x difficulty of the first and second levels might not be much, but the 10x difficulty of the latter levels ... Could kill!

So these earth stage practitioners were all waiting here, waiting for Lin Yi, these weak noobs in their eyes, to come and give their lives to them!

Of course, the an and Liu families knew that Lin Yi wasn't a newbie-he was a wolf in sheep's clothing. Angelan couldn't even take one hit from Lin Yi, and he was killed instantly ... Who else could be his match?

The an clan and the Liu Clan knew this, but they didn't say anything. The experts of the heaven breaking and sea splitting stages had already completed their tasks and continued to climb. Perhaps they had also lost some members in battle, but most of them had continued to climb smoothly.

For the rest of the earth stage battles, the Liu and an families were clearly at a disadvantage in terms of numbers. They were pretending to make peace, saying that they'd wait for Lin Yi's group to come up and let the other side make the first move.

Knowing Lin Yi's strength, the an and Liu families were trying to trick the new batch of practitioners!

The other party hadn't seen Lin Yi's strength before, and he recalled how Lin Yi didn't even dare to say a word to him. He felt that it would be a waste if he didn't crush this soft persimmon. If he went to war with the an and Liu houses first, the rookies behind might benefit in the end. So, the two sides came to an agreement and waited for Lin Yi's group to arrive.

This was what Lin Yi saw-the Liu and an practitioners were looking at him with weird expressions, while the other one was looking at him like he was food!

"Brothers, who's first? There's only eleven in total, more wolves than meat, how should we distribute them?"

The earth formation Stage practitioners who thought Lin Yi and the others were noobs laughed as they discussed who should lead and who should clean up.

The rules of the stairway of stars allowed for a group battle with numbers. However, regardless of whether one person was killed or knocked down, only one person would be admitted to the top.

There was an advantage in a group fight, but who could continue to advance in the end would depend on luck, unless they had discussed in advance who would be the one to complete the final blow.

However, this group of cultivators didn't take Lin Yi's group seriously at all. Why would they team up to fight these newbies?

One against ten was the best way to open the gate. Unfortunately, there were only eleven noobs, which was not enough!

That group of people was also a collection of several forces. After discussion, each family had arranged for people to be there. It was a win-win situation!

"Come, come, come, you're my handpicked opponent. Come over here obediently and let me beat you down. At least you can keep your life and not get injured. If you dare to disobey, you'll have a good time!"

The man who came out first curled his finger at Lin Yi. With Lin Yi's strength at the beginning stage, he thought that he could kill him with a finger.

In order to be reused, it would be a pity to kill him. This fellow was still considering how to hold back so that he wouldn't injure the other party too badly and cause him to give up on climbing the stairs of stars.

After all, this was only the first level of the starry stairway. If there was such a rule on the thirty-third step, would people also need to sacrifice their heads on the sixty-sixth and Ninety-ninth steps?

The second and third level's 33rd, 66th, and 99th level should not be lacking, right? Therefore, even though they were noobs, they were still indispensable professionals who could give away their lives!

Ten more fighters came out after the man, all of them grinning as they locked onto their opponents, arranging the eleven people on Lin Yi's side.

"I say, be gentler. Don't hurt these children. What if they cry and shout to go home? Be careful, don't kill anyone, understand?"

Someone from behind laughed and reminded these martial artists who had come out. They also didn't want to go up and kill each other. If there weren't any rookies, they could only attack the people around them.

Without a doubt, this would only be used at the last moment ... Bah, we're all brothers, and loyalty comes first. How could we attack our brothers?

Everyone put on a righteous expression on their faces, but in their hearts, they were calculating who they should attack when it came to killing each other. Who would they have a greater chance of winning?

And who would make them hunting targets? He needed to strengthen the security!

The Motley crowd had their own little calculations in their hearts, and their mouths were in a mess of support and ridicule, as if the eleven people who appeared could perform a flower!

The practitioners from the Liu and an families were silent as they looked at these arrogant people with weird expressions. They were wondering how these stupid people would react when Lin Yi showed his fangs.

"Hey, little girl, just cooperate with us. We don't want to kill anyone, so just let us hit you. I promise we won't hurt you, and you can come back up later. If you resist and I hurt you, I'll be very sad!"

The bearded man who had locked onto Qin wunian had a wretched smile on his face. He walked over to Qin wunian with his mouth wide open, as if he wanted to tease him.

Chapter 9112 Power

Every second was precious in the star Cloud tower. This was referring to the cultivators at the very top. The earth-splitting stage was not even considered to be in the middle level, so it was naturally not for them to fight for the good stuff. That was why they had the time to wait here and even discuss with the earth-splitting stage cultivators of the an and Liu families.

Therefore, when this bearded man wanted to play, the others laughed and agreed, without the slightest sense of urgency.

Lin Yi suddenly laughed coldly, "you guys think that you're the strongest here, right?" Or do you think that you are the last group of people to enter the pagoda? after you, there won't be any more experts coming up?"

"You're just a group of earth formation cultivators. Where did you get the confidence to think that you can kill all the people who came later? Don't you think that I'm not talking about anyone here, but all of you here are actually weaklings?"

"In front of the experts who will come later, you are just rookies waiting to be slaughtered. Waiting here is just a preparation for the people who come later! So I don't understand, where do you get your sense of superiority from?"

The real experts had already rushed up. There seemed to be a lot of people left behind, but in fact, many of them were less earth-opening stage cultivators. Without a doubt, they were all knocked down by the heaven-breaking and sea splitting stage experts.

It was just that they were restricted by the rules and had a cooldown time, so the martial artists who had fallen down could not catch up for a while. There were no blood stains on the steps, so they probably did not die.

Those experts of the heaven breaking and sea splitting stages also had to make preparations for the later stages of the battle. If they didn't get killed, they would have to fight with opponents of the same level, which would greatly delay their progress.

"Kid, are you teaching me how to do things? Are you tired of living?"

The bearded man's face darkened as he looked at Lin Yi unkindly. He turned to the man who had chosen Lin Yi without looking back, "Let's change to another one. I'll let you have the girl. I'm going to teach this kid a good lesson and let him know how to behave!"

"But I can't guarantee that he'll still have the life to start all over again. Perhaps you can look forward to him being more sensible after he reincarnates!"

The other big man shrugged and laughed indifferently, "Fine, I'll change to a pretty girl to play with. I won't lose anything. Since you like pretty boys, I'll let you have them!"

The martial artists of the an and Liu families had strange expressions on their faces. Pretty boy? I hope your faces won't turn too pale later!

These guys were so bad, each and every one of them was holding back their laughter, waiting to see a joke!

Lin Yi raised his head and looked up at the starry stairs. The leader was about to reach the second resting point. The first group was full of heaven breaking and sea shattering stage Warriors, so the first step of the starry stairs didn't affect them at all.

"You guys really talk a lot! Didn't you notice that your master is about to reach the sixty-sixth step? They'll probably wait for you guys to go up there and give your heads away, right? You still have time to dawdle?"

Lin Yi turned to the bearded man with a half-smile. "It's your responsibility to rush to your deaths, but now you're dragging things out. Do you not want to contribute to your master? Aren't you afraid of being punished for slacking off like this?"

These words pierced his heart!

The earth-splitting stage cultivators had become the stepping stones of the heaven-breaking and sea-splitting stage cultivators. The earlier they went, the faster they would be knocked down.

In fact, these earth-splitting stage cultivators already had this kind of awareness and didn't think there was anything wrong with it. After all, passing the thirty-third step would get more rewards.

Those who were knocked down were still much stronger than those who couldn't pass with level 33 helmets!

"Brat, you're really annoying! I'm definitely not going to let you off today! Your pretty boy will become a bloody mess. I guarantee that even your mother won't recognize you!"

The bearded man's face was twisted as if he'd been hit where it hurt. His heart was burning with rage as he shouted and pounced at Lin Yi.

Lin Yi stood with his hands behind his back, a faint sneer on his lips. He waited for the bearded man to get in front of him before suddenly sending a flying kick.

The scorching Fire Wave instantly erupted, and countless flaming leg shadows stacked on top of each other on the bearded man's body. The violent force should have sent him flying, but there was a clever force that attracted his body to the spot.

Wild fire thousand legs!

In Lin Yi's skill tree, the fiery thousand legs was considered a low-end skill, but with the combination of pure Qi and a strong body, the explosive power was extremely terrifying.

The bearded man couldn't react at all and was directly kicked to death by the countless flaming leg shadows!

He didn't even have time to scream before he was blown into the air and exploded into pieces. Then, he was burned into ashes and disappeared without a trace.

Everyone was silent!

Let alone the bearded man, even the Liu and an family practitioners who had seen Lin Yi in action were shocked!

After all, Lin Yi's beheading of angoran was focused on speed, and he looked cool when he pulled out and retracted his sword. It was strong, but it wasn't shocking.

It was completely different when the wild flame thousand legs kicked the bearded man to death. That kind of explosive feeling and impact would make anyone who saw it tremble with fear. It was as if the endless flame shadow of the leg would shroud them at any time!

No one thought that they were much stronger than the bearded man, and naturally, they didn't think that they could block Lin Yi's thousand raging fire legs if they were in his position!

"I'm sorry, but you probably won't be able to see my reincarnation. I hope that you'll be more sensible after you reincarnate and stop being so arrogant and rude!"

Lin Yi retracted his leg calmly and looked at the spot where the bearded man was standing, giving his last blessing!

Then, he turned his head and looked at the other 10 earth formation stage cultivators who were preparing to come over and take his head easily. These guys were walking halfway and were instantly petrified when they saw the full-bearded man turn into ashes!

To hell with the mountain opening period!

This son of a B \* tch was clearly an expert at the sea splitting stage! Pretending to be a rookie in the mountain opening stage in order to play the pig to eat the Tiger?

How the F \* ck can we play with this? Can't everyone be more sincere?

The 10 petrified earth formation stage cultivators were cursing madly in their hearts. However, they didn't know what kind of expression they should show on their faces. Each of them had a stiff face, and they didn't know whether to advance or retreat!

Lin Yi's ruthlessness had completely intimidated them. The previous heaven breaking and sea shattering Masters basically didn't kill anyone, but Lin Yi turned the bearded man into ashes with one move ... They couldn't afford to offend him!

It wasn't easy for them to enter the star Cloud tower. Who would want to die? Wasn't it great to live a good life and develop wretchedly to become a peerless master?

If they were just knocked down and started climbing again, these earth formation stage cultivators wouldn't care. To die ... Whoever wants to go, go!

Chapter 9113 -Power

"Hehe ... It's a misunderstanding! It's all a misunderstanding!"

The man, who had chosen Lin Yi as his target first and was saved by the bearded man in the end, was sweating profusely as he forced a smile to apologize to Lin Yi.

"We're not familiar with the idiot who died. It was a temporary team. He deserved to die for his cheap mouth! Of course, since he has offended you, we still have to apologize on his behalf ..."

He was already dead, and it wasn't enough to make up for it, and they had to take his place?

The burly man was also very aggrieved, but he had no choice. He had to bow his head under the eaves!

Lin Yi was too violent when it came to killing people-he had to lower his head and admit defeat if he didn't want to die, and that was never wrong!

"Apologize? Then shouldn't you show some sincerity?"

Lin Yi raised a brow and smiled as he looked at the ten earth formation Stage practitioners who didn't dare move."What did you want to do just now? now, just stand there obediently and let my people send you down!"

"This is the sincerity of an apology! Of course, if you don't want to, I won't force you, because I don't mind moving my limbs!"

The burly man's face darkened, and so did the other nine!

They had thought that this was a team of noobs and weaklings coming to deliver their kills, but in the end, it was still the same. It was just that the side had changed, and it was them who delivered their kills  
...

He was unwilling! He didn't dare to!

He was feeling very complicated!

"I admit that you're very strong and can be considered an expert among the sea shattering stage cultivators. However, we have heaven breaking stage experts above us! Don't be too arrogant!"

"You've already killed one of our men," the burly man shouted. "You have the right to continue your position. If you stay and help your subordinates suppress us, you'll be breaking the rules!"

"Why didn't our heaven breaking and sea splitting stage experts stay behind to help us? It was all for the sake of the rules! Everyone came in for the benefits, a higher rank bullying a lower rank, in order to continue to move up the quota, it is a matter of course. "

"But if you continue to attack even after you have a spot, you're not following the rules. Even if you can go up, you'll be killed by our experts! Why do you have to do this? Isn't it better for everyone to play within the rules than to fight in a chaotic battle?"

This guy was really putting in a lot of effort-he'd come up with all these rules just so Lin Yi wouldn't make a move, or he'd leave the thirty-third step first.

In fact, what he said did make some sense. Those experts of the heaven breaking and sea splitting stages were in a hurry for time. Keeping their heads was another thing. The tacit understanding that everyone had formed in the end was also another thing.

Otherwise, if everyone was standing up for the weaker ones, there would be no need to climb up. They would just beat the sh \* t out of each other on the 33rd level!

"Rules?" Lin Yi chuckled. I'm sorry, what right do the weak have to talk about rules with the strong? The fist is the biggest rule!"

As he spoke, Lin Yi raised his fist and waved it in front of the man's eyes. "Your master has the right to talk to me about the rules, but they didn't tell me!"

"So I'm the rule here! I told you to come over obediently and cooperate with my men to shoot you down, so you must obey!"

Lin Yi scanned the room domineeringly, his eyes cold and indifferent. "Now, who agrees? Who's against it?"

The burly man struggled in his heart and suddenly flew back to the crowd of cultivators, shouting, "Brothers, he's just one person, and he wants to suppress so many of us! This is simply preposterous!"

"If we join forces, no matter how strong he is, he might not be our match. Don't worry, everyone! We can't let go of someone who breaks the rules like this!"

He was still unwilling to give up and wanted to get his companions to attack together. With their numbers, they might have the strength to fight.

Unfortunately, he had forgotten that most of the so-called companions behind him were just a motley crew who had formed a temporary Alliance. Who would fight with a seemingly powerful expert of the sea splitting stage for them?

Therefore, before the burly man's voice fell, the martial artists who had not come out earlier all retreated, leaving him at the front.

"Hey! You guys ..."

The burly man felt that something was wrong. When he turned around and saw this scene, he was really scared out of his wits and couldn't even get angry!

Lin Yi sneered as his body flickered, appearing in front of the man in an instant. "It seems like you're not convinced, so you're going against me, right?"

"No..."

The man was scared out of his wits as he watched Lin Yi's palm land on his heart. He couldn't even Dodge or resist.

It was too fast!

That was the last thought in his mind. The last thing he saw was a flash of lightning that pierced through his heart!

The lightning bolts numbed all his muscles and nerves, and even his spirit sea was attacked. He didn't know that Lin Yi just used a spirit sense collision, and with the lightning bolts, he lost control of his body and consciousness.

The heart that had been pierced by the lightning arc did not bleed much. The wound was charred by the lightning arc, preventing the blood loss.

Lin Yi had already gotten the spot to move up, so killing one more was pointless. He decided to leave him alive for the others.

The palm that was pressed on the burly man's chest casually grabbed and threw him in front of Huang Shan Mao, "Kill him!"

Lin Yi's voice was calm, and he didn't raise his voice, but it was an unquestionable command.

Huangshan Mao knew that if he killed this man, he would be chased to death by sky breaking and sea shattering Masters. But this was Lin Yi's order, what would happen if he disobeyed?

He wouldn't have to wait for the heaven breaking and sea splitting cultivators to kill him-these earth splitting cultivators would probably treat him as Lin Yi's companion and tear him apart. At that time, he wouldn't be able to count on Lin Yi to help him if he didn't listen to orders, right?

Kill, it's death! Even if he didn't kill, he would still die! And he would die even faster!

Choosing the lesser of the two evils, Huangshan Mao knew what to choose, but he had no choice!

He would treat it as a proof of his loyalty!

Huangshan Mao didn't hesitate for too long. He gritted his teeth and made up his mind. He quickly killed the defenseless man!

After killing the burly man, Huangshan Mao received a message in his sea of consciousness. He now had the qualifications to continue moving upwards!

But he didn't dare go up alone-he'd be delivering food to Lin Yi ... He had to cling onto Lin Yi!

The remaining nine people who had been chosen knew that they had no way to retreat. Rather than losing their lives, it was not a big deal to be beaten down and start all over again!

"I'm willing to cooperate!" One of them gritted his teeth and stepped forward.

As long as Lin Yi didn't make a move and just stood there, Qin wunian wouldn't be able to kill him-he'd only be defeated, but it wouldn't even hurt!

Lin Yi smiled faintly, "very good, you're smart!" Qin wunian, beat him down. "

#### Chapter 9114 Power

Qin wunian was considered one of the weakest people present. When he saw her step out, he heaved a sigh of relief in his heart and walked to the edge of the steps. With his hands behind his back, he smiled, indicating that Qin wunian could make his move.

Being beaten by the weakest beauty was at least better than being beaten by those rough men, right?

"Alright!"

Qin wunian didn't try to be pretentious. After nodding in agreement, he casually struck out with his palm, landing it on the other party's chest. He didn't use much strength and couldn't even break through his defense.

The man was very cooperative. He exerted force on his feet and flew out of the steps. Starlight flickered in the sky and he disappeared.

The astral stairs directly acknowledged that he had been knocked down by Qin wunian, so he had been sent back to the bottom level to start all over again. Qin wunian had also easily and happily obtained the right to continue climbing.

The other eight followed their example and walked to the edge of the steps, not putting up any resistance as they waited for the rest of Lin Yi's men to make their move.

Sixth brother and the others had nothing to say. They went up and hit them all down the stairs with a palm each, obtaining the qualification to continue going up.

Lin Yi watched quietly from the side, intimidating the others so they wouldn't have any ideas.

At the same time, he was also absorbing and comprehending the astral energy. The reward for this level was twice the total amount of astral energy from the previous thirty-two levels. In addition to the faint comprehension of astral energy, it was a pretty good reward for Qin wunian and the others. It could improve their physical fitness and strength by quite a bit.

But to Lin Yi, it was still too weak. Even after doubling the star energy, it still couldn't even penetrate his skin. It was like a drop of water falling on dry land or three drops of water falling on it, it made no difference!

"Let's go, we'll continue up!"

Lin Yi scanned the area-whether it was the side with two dead and ten knocked down, or the Liu and an families, they all put on polite smiles under Lin Yi's gaze, not showing any dissatisfaction.

Even if they wanted revenge, they had to wait until they met up with the Masters on their side. Lin Yi's strength was enough to suppress everything, and provoking him when he couldn't win was something only an idiot would do.

Qin wunian, Huang shanmao, and the rest followed behind Lin Yi without a word, continuing their journey to the next step.

After Lin Yi's group left the thirty-third step, the Liu and an family's practitioners suddenly attacked one side in sync.

The difference between them and the enemy was huge before, and they were at a disadvantage in a group fight, but after Lin Yi's group took out twelve of them, the difference was small!

It was the an and Liu family's idea to let the other side deal with Lin Yi's group, and now that they'd lost out, they'd definitely come back for revenge. They'd be idiots if they didn't know how to strike first!

They had just lost twelve of their core members, and now they were suppressed by Lin Yi's aura. The enemy was indeed a bit relaxed, and they were panicking after being ambushed by the two houses.

Fortunately, even though they were down by twelve people, they still had the advantage in numbers. After a short period of panic, they quickly calmed down and began to organize a resistance and counterattack.

A chaotic battle erupted on the thirty-third step, but it had nothing to do with Lin Yi and the others!

After ascending to the thirty-fourth level, the rules did not change. The gravity was still increasing in an orderly manner, and there was no threat. It was clear that the difficulty of the first level mainly came from the other cultivators who participated in the climb, and not the starry stairs itself!

"Sima Zhong da, thank you for helping us just now ... But once we reach the sixty-sixth step, don't bother about us!"

Qin wunian followed beside Lin Yi, climbing five steps in a row. He had been silent the entire time, but his sudden words surprised Huang shanmao and the others.

Tell Sima Zhong da to ignore them? Then how could they survive?

It was already good enough that he was knocked down to the lower levels! If he didn't handle it well, he might be directly killed by those big shots at the heaven breaking and sea shattering stages!

Lin Yi turned to Qin wunian curiously. "What's wrong? Don't tell me you don't even have the confidence to pass the first level?"

"No... That's true! In the previous two groups, the top experts were in the front, and the earth-opening stage cultivators could only stay behind. Although we continued to move forward with your help, I'm afraid that there are no earth-opening stage cultivators in the front!"

Qin wunian rubbed his brows and smiled bitterly. ""If the rules of the sixty-sixth level haven't changed, we'll just be sending our heads to those heaven breaking and sea splitting stage experts! Even if they didn't wait at the sixty-sixth level and instead fought each other, the winner would be the king. "

"The situation isn't much better, because after we go up, there's no one else but us! If we want to move forward, we have to either wait for the people behind us or ... We have to kill each other!"

It would be better if they could kill each other. At least half of the people would be able to advance. What they were most afraid of was that the big shots at the heaven breaking and sea splitting stages would not attack each other in order to preserve their strength and would wait on the 66th floor for the people behind them to die.

If that was the case, their small team would most likely be wiped out!

Qin wunian was worried that Lin Yi wouldn't be able to do it, so he wanted to warn Lin Yi first. Little did he know that Huang shanmao's face had turned white when he heard this.

The guy started to think that Lin Yi was keeping them here as pets, and when he needed them, he'd kill one and continue climbing!

It was terrifying!

Huangshan Mao started to worry, but he had no way out now. Even if Lin Yi really treated him like a pig, he'd be slaughtered and eaten when he got fat.

If they left Lin Yi's protection, they would have to leave the star Cloud tower immediately or they would die!

Lin Yi waved his hand, "it's okay, the longer the channel is open, the more people will enter the tower. When we reach the 66th floor, there will be more people who will pass the 33rd floor."

"There's a 50% chance of passing. Those who are shot down can climb back up. In addition, more people will come in later, so you don't have to worry about no one getting killed! At the very least, we don't need to worry about this on the first three floors. "

Qin wunian thought about it and agreed. They had only entered the star Cloud tower earlier because of Lin Yi, and they had only reached this point. As long as the entrance of the star Ink River was not in a hidden place, the number of people entering would increase exponentially as time passed.

Just as Lin Yi had said, she didn't need to worry about the number of people on the first three levels, but as for the first three levels ... Qin wunian felt that she would be satisfied as long as she could pass the first three levels!

After all, he only had the strength of a mountain-opening cultivator. What more could he hope for? When it's about time, he should leave the star Cloud tower and go to the Black Star River to cultivate and digest his cultivation.

Chapter 9115 Power

If the star Cloud tower didn't appear, the entire Tian Ji continent's high-level martial artists would flock to the Black Star River. How could it be simple? As a mountain split stage martial artist, she definitely had enough to eat!

The two chatted for a while more before continuing their climb. There was a small amount of star energy gathering in their bodies at every step, twice as much as the first 33 steps. Lin Yi needed more, however, so the small amount of star energy was absorbed before it could even pass through his skin.

Lin Yi had already given up-the first few levels were obviously limited in terms of star power, and he needed to go higher if he wanted to activate the star power in his body and sea of consciousness.

Resisting the gradually increasing gravity, the group arrived at the 66th floor smoothly. Huang shanmao was nervous the whole time, afraid that the big shots of the heaven breaking and sea splitting stages would be waiting to kill him.

In the end, the place was already empty, not even a shadow was left.

"What's the situation? Did those big shots fight each other? Even so, the victor can't be decided so quickly, right?"

Qin wunian's brows furrowed slightly as he turned his head to look around in confusion. Unfortunately, there were no traces left on the starry stairs. Even if someone had died, they would have been cleaned up quickly and would not have remained on the stairs.

Lin Yi pondered for a bit before replying casually, "Actually, there aren't many people left on the 33rd level. It doesn't match what we saw before. Therefore, when those experts at the heaven breaking and sea splitting stages ascended to the 66th level, some people at the half-step sea splitting stage and the consummate level of the earth splitting stage followed them."

"In order not to delay the time to continue ascending, these cultivators at the half-step sea splitting stage and the great circle of earth splitting stage who followed us naturally became leeks harvested by the heaven breaking and sea splitting stage cultivators!"

"Even if there are some gaps, isn't it easy for a heaven breaking expert to deal with a sea splitting expert? It won't be much different from the ground-opening stage!"

The group leading Lin Yi's group wasn't some iron wall. They were split into two teams on the surface, but Lin Yi didn't know how many teams they were split into in private.

For the sake of their own interests, everyone had their own ulterior motives. Who would stop and wait for the people behind to come up and give their heads to them? Of course, he had to get rid of a martial artist who wasn't on his side and get the upper position first.

The so-called "own people" had to be people from their own family or sect. In addition, those temporary allies were not considered as their own people. If necessary, they could also be sacrificed!

Realization dawned on Qin wunian. In order to save time, the big shots of the heaven breaking stage probably wouldn't fight each other. In the eyes of the real big shots, the experts of the sea shattering stage were just a reserve of higher levels.

Huangshan Mao lowered his head, panicking inside. If they really wanted to make a move, it shouldn't be his turn, right? However, once he started, there would be a time when it was his turn in the future!

"Alright, everyone take a rest and cultivate well. When the follow-up people come up, we'll set off after we've obtained the qualification to ascend! We're not in a hurry. "

The first person to pass the first level and enter the second level would receive more generous rewards, but the rewards were not unique. Those who followed would also receive more or less.

Lin Yi didn't really care about all this-he could just wait for the rest of the kills to come!

Huangshan Mao heaved a sigh of relief and quickly sat down to cultivate and absorb the power of the stars!

He couldn't completely absorb the power of the stars for the time being, and if he chose to leave when he reached the top, a part of it would be taken back.

Even so, he could still use the power of the stars to strengthen his body, or at least increase his current battle prowess!

After a while, someone finally caught up to them. The fight didn't last long after Lin Yi left, and the winner was decided very quickly.

Both sides suffered losses, but they didn't fight to the death. After everyone got the upper position, they stopped with great restraint.

If they had the time to fight for their lives, they might as well go up and get some benefits ... Some people thought that they might meet their own Masters on the 66th floor, and take Lin Yi's group down!

In the end, they discovered that their own experts were nowhere to be seen, and the targets they wanted to suppress were all waiting for them!

He had fought his way up here, but he was just serving food to others. Just thinking about it made him feel despair!

"Welcome, we've been waiting for you!" Lin Yi smiled.

The martial artists at the front wanted to cry. I didn't ask you to wait for me!

"Old rules, if you take the initiative to stand properly, you can suffer less. Anyway, this will happen sooner or later, so it doesn't matter if it's earlier or later! Aren't we more gentle?"

Lin Yi said kindly as he gestured for them to line up. There weren't many people in the first batch, only nine, and it wasn't enough for Lin Yi.

"You bastard, don't even think about humiliating me! I'd rather go down myself than give you a chance!"

The one at the very edge shouted loudly. He stood up and leaped, wanting to jump down the steps himself. This was considered giving up on his own accord, and he could still retain a portion of his gains and rewards.

Of course, if he wanted to come up again, he would have to start all over again.

It was better than being harvested and used as a stepping stone, right?

The guy decided to go all out, thinking that he'd lose less and that he'd be able to show off, but Lin Yi was already in his path.

"Did I let you down? Don't even think about going down, don't even think about killing yourself!"

Lin Yi said coldly and kicked the guy back to the stairs. He then turned into a lightning arc and returned to his original position.

"Who else would rather jump down than help us?"

Lin Yi crossed his hands behind his back and scanned the crowd. The martial artists all lowered their heads and no one responded. No one dared to look Lin Yi in the eye.

"I'll make it clear first, this is his first offense. I didn't make it clear before, so I'll give him another chance. From now on, whoever refuses to cooperate and insists on jumping down, don't blame me for not being polite!"

"I'll kill those who were intercepted by me directly. Those who have the ability to avoid my interception, I'll kill the rest and then go down to hunt them down. Did you all hear that clearly? Don't say that I didn't warn you!"

This was what it meant to be warned!

With that, Lin Yi raised his leg and sent the guy flying back to the bottom of the pit.

The practitioners who had their heads lowered changed their expressions, the frustration in their hearts indescribable. Lin Yi's threat made their hair stand on end, and they couldn't even think of resisting.

Who would want to do this if they had the slightest confidence in beating Lin Yi?

On the thirty-third level, so many people didn't make a move. Now, there weren't even ten of them, so how could they resist?

"Good! We admit defeat! I just hope that you know what you're doing. When you meet our experts, it'll be amazing if you can still be so arrogant!"

One of them gritted his teeth and spat out a few harsh words before walking to the side of the steps, putting on a heroic expression as if he was ready to be killed. Lin Yi gestured for Qin wunian to make the first move.

Chapter 9116

Huang shanmao and the others followed after him, but no new people came up for a few minutes. Lin Yi walked to the side and looked down, only to see that many people were still on the 65th floor. They knew that Lin Yi was blocking them and decided not to come.

Each step of the stairs was way too big-he might not be able to feel it when he was climbing it, but it was too far to look at. Even with Lin Yi's eyesight, he could only see the bottom step.

If they didn't come up, Lin Yi couldn't go down either-falling back a level meant giving up, and he'd have to start all over again!

"Captain Sima, why don't you go up first? It's a waste of time to stay here!"

Huangshan Mao looked at Lin Yi carefully, "We're actually not important. It's fine to stay here and wait ..."

These weren't his true feelings-he was just trying to get on Lin Yi's good side, and he was going against his conscience. He couldn't wait to be tied to Lin Yi's belt, so how could he persuade Lin Yi to go alone?

It was just a gesture!

Lin Yi looked at Huangshan Mao with a smile that wasn't a smile-he knew what he was thinking. The guy's face reddened under Lin Yi's gaze, and he laughed awkwardly, unable to say what he had in mind.

"Let's wait a little longer. The new martial artists won't know that there's someone at level 66 waiting for them to deliver their heads. The guys at level 65 won't be kind enough to remind them either. They'll only be happy to see it happen."

"If someone dies, these guys can safely reach level 66. That's why they can't wait for the next person to come up so that they can continue to advance!"

Qin wunian's expression changed slightly. The newly arrived cultivators won't just be those below the earth formation stage. The opening of the inky Star River this time has attracted more than half of the experts of the entire heaven's legacy continent to gather within the heaven's Legacy Empire!"

"And only a small portion of the people who enter in the same batch as us will enter first. More powerhouses will come in one after another. What if the ones who come to level 66 are heaven-breaking powerhouses? Sima Zhongda, can you deal with a heaven breaking cultivator?"

Huangshan Mao's face changed as well-he didn't think that Lin Yi could handle a heaven breaking master. Even if Lin Yi didn't attack them, they still wouldn't be able to escape the fate of being taken down by the other bosses.

No, being beaten down to the lower levels was still a good thing, but it was also normal to be killed casually!

Just as Qin wunian finished speaking and these thoughts flashed through Huangshan Mao's mind, everyone's vision blurred and eight figures suddenly appeared on the sixty-sixth step.

They were about five to six hundred meters away from Lin Yi's group, but when they saw Lin Yi and the group, they all flashed across the distance and appeared in front of everyone.

"Tsk, tsk, tsk, you're quite lucky! We've just reached level 66 and there are already so many heads waiting for us. This saves us the time and trouble of fighting each other!"

The messy-haired young man in the lead smiled evilly as he scanned Lin Yi's group. "There's still some extra, I can take two with me as backup. This chick is quite pretty, and she's more pleasing to the eye, so she's mine!"

The man looked young, but Lin Yi could feel that his actual age was far beyond what he looked like. He should be an old monster, and his strength was quite impressive, already at the peak of the early stage of heaven breaking!

The other seven people were also on par with each other. They were basically all in the early stage of heaven breaking. Only one person was at the peak of the early stage of heaven breaking, and he and the messy-haired young man were the two strongest people.

From the looks of it, they were only companions, not companions. If Lin Yi's group wasn't at level 66, they might have to fight each other ... That would be the most disadvantageous result for them.

So Lin Yi guessed that they had a backup plan, like keeping their sea-shattering comrades at level 65, and having them abduct some people from level 65 to send up their heads if needed!

Qin wunian's face darkened. She was indeed one of the weakest people, so it was no wonder that others always targeted her. Furthermore, women were more popular in comparison. This was an undeniable fact.

She subconsciously moved closer to Lin Yi. Facing eight heaven breaking Masters, just the pressure from their bodies was not something a mountain opening cultivator like her could handle.

If it wasn't for the fact that everyone had been maintaining their battle formation, they probably wouldn't even be able to withstand the other party's pressure and would have directly knelt down!

The messy-haired young man glanced at Lin Yi and chuckled, "Little girl, I'm taking you to the Ninety-ninth floor to give you a good fortune, so why are you hiding? That pretty boy is your lover, okay?"

"Hehehe, this Lord loves to break up couples the most. Since he's your lover, then all the more I'll kill him! He had decided! I'll kill the pretty boy and take you, this little girl, away, how about it? Are you happy? Are you surprised? Are you surprised?"

Lin Yi looked at the messy-haired young man's performance with a blank expression, not a hint of emotion on his face. He waited for the young man to finish before speaking indifferently, "Are the people who send their heads over so arrogant now? You're just a mere peak of the early heaven breaking stage, who gave you the courage to speak so arrogantly here?"

The messy-haired young man was stunned for a moment, then he held his belly and laughed wildly. "Hahahahaha, what did I just hear? Did you hear wrong? Did you all hear that? This pretty boy said that he was merely at the peak of the early stage of heaven breaking? Trifling? Hahahahaha!"

The laughter suddenly stopped, and the messy-haired young man's eyes were as sharp as knives, piercing through the air at Lin Yi, ""Since when did an ant-like mountain opening stage trash dare to call a heaven breaking stage martial artist a trifle?"

He felt like his dignity was being challenged. He raised his arm and pointed at Lin Yi with his right index finger. "Use your dirty and lowly blood to wash away your sin of offending the heavens!"

The power was gathering at his fingertips. Once it was activated, even a warrior at the earth splitting stage would be killed instantly, let alone a warrior at the mountain splitting stage. An ordinary sea splitting stage warrior wouldn't be able to resist it either.

Lin Yi's strength was too weak, even weaker than Qin wunian 's. The messy-haired youth didn't even put Lin Yi in his eyes.

It was like an ant challenging you. Would you use all your strength to punch the ant? That's crazy!

With just a slight press of his finger, it was enough to completely crush an ant!

"Idiot, he can see through your true level!"

Six of the other Seven Heaven breaking cultivators had their arms crossed in front of their chests as they watched the show. Only one of them couldn't help but shout.

Without fighting, they couldn't clearly see each other's level, but they could feel that they were in the same range.

Lin Yi, on the other hand, said the teenager's exact strength level without a second thought. Who would believe him if he said he didn't have something?

However, the messy-haired young man seemed to have been angered. He couldn't even see such an obvious fact, and he still had to use the method of teaching a rookie a lesson to deal with an unknown enemy?

That would be a real idiot!

Unfortunately, his warning came a little too late!

Chapter 9117

Lin Yi moved at the same time as the messy-haired young man raised his hand!

After his true Qi was restored, the star power in his spiritual sea was also suppressed more firmly, and the power of his spiritual sense attack naturally increased.

It was just a simple clash of consciousness-even if he used all his strength, it wouldn't affect the suppression of the star power. The moment Lin Yi used the clash, he pulled out the demon devouring sword and activated his lightning escape!

His body and sword both turned into lightning, and in a flash, he had already arrived in front of the messy-haired young man, and the collision of spiritual sense had just hit the other party.

He didn't expect this guy to have a spirit sense defense item on him. A milky white light flashed on his forehead, blocking Lin Yi's spirit sense collision. The messy-haired young man was shocked.

In his pupils, a lightning arc filled his entire vision. Lin Yi, who appeared from the lightning arc, swung his sword. The black demonic devouring sword was surrounded by dazzling lightning as it sliced through the air, slashing towards the messy-haired young man's neck.

Once hit, even a super expert at the peak of the early heaven breaking realm would not be able to escape and would only be beheaded!

Lin Yi's strength had tasted the sweetness of it-this combination of skills was clean and efficient, with absolute speed and the penetrative power of speed, plus the sharpness of the demonic devour sword, killing a heaven breaking cultivator wouldn't be a problem.

Especially if the spiritual awareness collision hit, the other party would not even have the chance to react!

He didn't expect the messy-haired young man to have a spirit sense defense item on him, blocking Lin Yi's spirit sense attack. The reaction speed of a heaven breaking stage martial artist was beyond imagination, and even lightning escape couldn't completely escape his eyes.

The messy-haired young man's pupils contracted sharply as he faced the sword that came at him with a lightning arc. Then, he turned his body slightly at the critical moment and avoided the sharp edge of the demon devouring sword. He only left a few strands of hair in the air that had been cut by the sword Qi and burned by the lightning!

He was covered in cold sweat!

The messy-haired young man was shocked. He tried to increase the distance between them, but the power accumulation at his fingertips had been completely interrupted. The most important thing now was to stay alive!

He could already feel that if his reaction had been just a little slower, or if he didn't have any tools to defend his divine sense, he would have been beheaded in one strike!

Lin Yi hmphed. He didn't plan to stop. Since he started, there was no point in arguing. He'd just do it!

The lightning continued to flash and circle around the messy-haired young man. In terms of pure speed, even a peak heaven breaking early stage martial artist could not compare to the lightning escape technique.

The messy-haired young man had completely given up on counterattacking and pulling the distance apart. He put all his focus on defense, and his eyes could barely catch Lin Yi's lightning movement. He relied on the Super small range of movement to adjust and defend against hundreds of Lin Yi's attacks.

And these hundreds of attacks were completed in the blink of an eye!

The other heaven breaking cultivators had been watching the show, but now their expressions were serious. Lin Yi's attack didn't seem too strong, but his speed was shocking, especially the lightning escape technique, which they had never seen before. It made them even more cautious.

If the messy-haired youngster was one of their companions, they would've attacked Lin Yi together, but they didn't want to help. It was obvious that they weren't on the same side, and they wanted Lin Yi and the messy-haired youngster to be injured!

One of them rolled his eyes and sneaked around the battle, trying to get closer to Huang Shanmao and the others. He wanted to get a position while Lin Yi and the messy-haired young man were fighting.

If he could leave level 66, he would leave immediately. The rest of them fighting until they lost their heads had nothing to do with him! It was fine as long as he could get the benefits as soon as possible.

Unfortunately, he had underestimated Lin Yi. Every step of the stairs was as vast as the starry sky. Lin Yi's spirit sense couldn't cover every step, but it could cover this area.

Just as the person who wanted to ambush him got closer, the lightning arc suddenly appeared in front of him, followed by the collision of divine sense and the demon devouring sword!

Fortunately, they were all the top bosses of the Tianji continent, and all of them had defensive items with them. They also blocked Lin Yi's sneak attack, and then fell into the same situation as the messy-haired young man ...

The lightning movement didn't have its full potential within a ten-meter radius-it was like stopping right after you started, and Lin Yi wasn't affected at all by running on both sides. In fact, it even unleashed some of the potential of the technique.

With his pure Qi recovered and his body strengthened, Lin Yi didn't use much of his energy when using the lightning escape technique. The recovery speed wasn't much slower than the consumption, and he could continue using it.

"You dare to touch my people? Is there anyone else who wants to try?"

Lin Yi's voice was a little erratic-the lightning movement was too fast, after all, one word coming from the east and one coming from the West, sometimes far and sometimes near-it was very awkward to hear.

The other heaven breaking cultivators were speechless. He was too fast! He could really do whatever he wanted! A single person blocking two heaven breaking experts and still so easily provoking them with words?

"This guy is a little tricky. Why don't we all go together and quickly get rid of him and then pass the sixty-sixth step?"

Someone wasn't too happy, thinking that Lin Yi's provocation had offended him. He suggested working together to kill Lin Yi. This could also be considered as solving the hidden danger. After all, it was difficult to deal with someone with such speed alone.

It was better to take advantage of the crowd now and get everyone to mess with Lin Yi!

The ones who didn't make a move were tempted as well-killing Lin Yi wouldn't just get rid of a strong competitor, they'd also get the head of someone who could pass the sixty-sixth step.

Other than Lin Yi, the rest of Huang shanmao's group were like cabbages on the side of the road, they could harvest them however they wanted!

The men looked at each other and saw something in each other's eyes. They all made a move at the same time, ready to attack Lin Yi.

To deal with a fast opponent, one only needed to compress the movement space of the other party, making it impossible for them to use their speed!

If one or two people couldn't do this, then what about eight heaven breaking experts working together?

Of course, they thought that they could definitely restrict Lin Yi's speed. After all, when Lin Yi made his move, he only showed the strength of the peak of the late stage of the broken sea realm. He was relying purely on the speed of the lightning to deal with it.

If Lin Yi was at the heaven breaking stage, the messy-haired young man wouldn't have been able to block that attack!

"Ha ... You guys are really tempted? Alright, I'll show you how fast the lightning movement technique is!"

Lin Yi let out a long laugh and activated his lightning escape to the maximum. The lightning flashed non-stop, splitting the battlefield into eight. He left one attack in each direction and moved to another.

## Chapter 9118

At this moment, the eight of them could only fight on their own against Lin Yi's lightning attacks. After Lin Yi opened up the distance, he used his lightning escape technique even more smoothly, which made Huang shanmao and the others dumbfounded.

That was eight heaven breaking cultivators! Wasn't this a little too awesome?

As expected, the legend of planet Tianying breaking out of the encirclement of hundreds of heaven breaking and sea splitting stage cultivators was not a lie. It was the truth!

"Stop! Listen to me for a bit!"

The martial artist who had previously called the messy-haired young man an idiot did his best to defend and retreat, shouting at the same time!

The others wanted to stop as well, but Lin Yi's lightning movement couldn't hurt them, but he had the initiative. They couldn't stop just because they wanted to!

Lin Yi felt a little unlucky-he finally got to use his Qi again, but he couldn't get rid of it with his star power, and his spirit attacks were blocked by tools. He couldn't kill any of his opponents.

Of course, if he really wanted to kill them, he'd have to go all out. These eight weren't Lin Yi's match, but he didn't have to do that!

If there was no enmity, why would he waste his own energy to kill them all?

And so, Lin Yi pulled his hand back and returned to his original position with a faint smile, "What do you want to say? You can tell me now!"

His ability to advance and retreat as he pleased, as if everything was under his control, made the eight heaven breaking cultivators on the other side feel a little admiration.

"I want to say that there is no need for us to continue fighting. We have all seen your strength. You are qualified to climb to the higher levels of the Nebula tower. Now that all the powerhouses are racing against time, why should we waste our time here?"

The guy calmed himself down and started persuading Lin Yi, "Right now, we can't decide the winner in a short time. It's not good for either of us to continue fighting. Why don't we shake hands and make peace?"

"Also, you're indeed very strong. If you don't mind, we can work together. Whatever gains we get later, we can split them equally or distribute them according to our contribution. We can discuss it later!"

His brain worked pretty fast, and he even wanted to get Lin Yi to join his team.

Lin Yi raised an eyebrow and chuckled. "There's no need to work together, but shaking hands and making peace ... Is fine! Most of the people on my side already have the qualifications to go up, I'm still short of three!"

"If I'm not wrong, you should have a backup plan at level 65, right? Send a signal for them to come up. I only want three spots, and then everyone will go their separate ways!"

The practitioner looked at Lin Yi strangely, as if he didn't understand why Lin Yi brought so many burdens with him.

All the top powerhouses were afraid that there wasn't enough time and were rushing to fight for benefits with all their strength, but this kid was still leading the team forward unhurriedly? Was there something wrong with his brain?

"Alright! Then it's settled!"

He didn't think too much about it-getting Lin Yi on his side was just something he did in passing. If Lin Yi was willing, then he'd be like a flower on top of a brocade, but if he wasn't, then it didn't matter-they'd all be competitors in the end anyway!

It wasn't strange for Lin Yi to guess that they had set up something on the 65th step. It was just like how they saw someone stop on the 65th step and guessed that something was up on the 66th step. They left the sea splitting Masters behind and let the heaven breaking Masters come and see.

These were all basic operations!

After sending the signal, more than thirty sea split realm cultivators and forty earth split realm cultivators came up. Lin Yi took a look and saw many familiar faces among them.

At this moment, they all had bitter faces. They didn't want to come up, but they were captured and sent up to die. What could they do? They were also in despair!

Lin Yi didn't hold back at all and picked three earth formation Stage practitioners to send them off. He then casually cupped his hands to the practitioners, "Thanks! Then we'll take our leave first, see you again!"

The eight heaven breaking cultivators weren't happy about it, but they still cupped their hands and greeted Lin Yi. Even if they had to fight him later, they couldn't lose their manners!

After leaving the sixty-sixth step, Lin Yi led everyone to continue climbing at a steady pace, and it wasn't long before the people behind him passed them. It was too soon for them to meet again ...

But Lin Yi didn't mind and continued to climb at his own pace. More and more people caught up, and as expected, the number of people entering exploded after the entrance was discovered!

The practitioners passing by weren't interested in Lin Yi's weak-looking team-they'd only wonder how a noob team like this got to where they were.

Under normal circumstances, even if he wasn't killed, he should've been stuck at level 33 repeatedly, doing charity and getting killed.

Although it was strange, no one was willing to stop and waste time. If they encountered steps like level 33 or level 66, which required a human head to pass, the rookies would become a resource in high demand.

Huangshan Mao was nervous the whole way-it was weird that Lin Yi didn't care if someone beat him to it.

If he really didn't care, why would he fight for the six-point star source instrument? Wasn't this to be one step ahead of others? Could it be that he had given up on himself after losing the lead?

He had all sorts of guesses, but he had no way to verify them. Lin Yi was giving him too much pressure right now, and he didn't dare to say or ask anything. He kept all his thoughts in his heart.

Other than Qin wunian, the others were the same-the more powerful Lin Yi was, the more they lowered their position. They didn't even have the right to be Lin Yi's lackeys anymore ...

Qin wunian, on the other hand, didn't change much-she was much more relaxed after knowing that Lin Yi was from the Tian Ying planet. She was the only one who still dared to chit-chat around Lin Yi.

"Sima Zhong da, are you going to bring us to the point where we can't climb up? Actually, there's no need to go through so much trouble. I think that bringing us to the third floor is more or less enough. After that, you should hurry up and chase after the person in front!"

Huangshan Mao's forehead was filled with black lines. This young miss Qin really didn't treat him as an outsider? Not only did he address the Tianying planet's Big Shot by his name without any respect, he even shamelessly requested to be brought to the third level?

How shameless! I f \* cking like this kind of shameless person!

Huangshan Mao looked at Lin Yi without saying anything, a trace of desire flashing past his eyes.

It was not bad to be carried by a Big Shot to the third level directly! Because of the existence of the thirty-third and sixty-sixth steps, which required a human head in exchange for qualifications, the difficulty of climbing the starry stairs was much higher than expected!

If Lin Yi didn't lead the group, Huang shanmao estimated that they would either continue to sink at the thirty-third step or leave the star Cloud tower in despair to find some opportunities in the star Ink River.

Qin wunian stated his request casually, and Huangshan Mao's heart was filled with anticipation. At the third level, he would at least be able to obtain all the rewards from the first level. Even if he were to stop here, it would be enough to find more benefits outside the star Ink River!

Chapter 9119 Power

Lin Yi smiled faintly, not accepting or rejecting. We haven't even passed the first level of the star Cloud tower. The specific information only stopped at the 66th step of the first level. It's too early to say that we have a plan.

As he spoke, the starry stairway under everyone's feet suddenly shone brightly. All the stars lit up with a brilliant radiance. No, it was not just under their feet. Everything that entered their eyes was the same!

All the stairways of the stars, both at the top and at the bottom, were emitting dazzling Starlight.

The first level had been lit up by someone!

Everyone's omniscient view could clearly see that the 18 levels of the Nebula tower were different now. The first level was extremely bright, while the other 17 levels were a little dim.

"Someone has passed the first level! It's so fast!"

Huang shanmao subconsciously mumbled to himself, stunned. He looked at Lin Yi guiltily, afraid that Lin Yi would change his mind and leave them behind to chase after the first group.

"It's normal," Lin Yi shrugged nonchalantly, "the eight gates opened at the same time, and there were Masters from all sides trying their best to climb. Lighting up the first level now is already a bit slow! It seems that the platform at the top of the first level is not easy to pass through. "

The thirty-third and sixty-sixth steps both had restrictions-there was no way the top wouldn't have any restrictions. Lin Yi thought that the first step would light up by the time he reached the sixty-sixth step.

Someone had only passed the first level at this time. It was obvious that they had wasted a lot of time.

"No matter what, let's increase our speed. We've already dragged Sima Zhong da down. We can't continue to climb slowly like this. Everyone, use your full strength!"

Qin wunian waved his fist to cheer everyone on. ""Even if the best reward is gone, you should at least get a medium-grade reward, right? Come on, let's sprint!"

Her strength was one of the lowest in the room, but no one found anything wrong with what she said. After all, her relationship with Lin Yi was different from the others, and even Huang shanmao had to give her face.

That's right, giving face to Qin wunian was giving face to Lin Yi. As for the identity of the Qin family's young miss ... She was the young miss that the Qin family's traitor was after, what was there to respect?

"Brothers, did you hear that? The second level is beckoning to us, let's go!"

Huang shanmao also put on his captain's aura and told everyone to speed up. He didn't want to drag Lin Yi down for too long, and if Lin Yi got impatient, then their good days would be over.

After all, everyone saw Lin Yi's speed with their own eyes. If it weren't for them, with Lin Yi's speed, the reward for being the first to pass the first level wouldn't fall into anyone's hands.

The others responded one after another. They shouted and used all their strength to climb up. They had already passed ninety steps, and under everyone's hard work, the increase in gravity didn't seem to have happened. Instead, the time it took to cross each step was faster.

After a while, Lin Yi led everyone up the Ninety-ninth step, and a huge platform with bright Starlight appeared in front of them. To be more precise, the platform looked like a Nebula, with a star shining like a star in the center.

That was where the core of the first layer had been lit up. Through this lit star, he could enter the second layer!

"There's no one left on the first floor. It seems that everyone has entered the second floor. Everyone, follow me ..."

Lin Yi had just finished his sentence when he felt that something was wrong. Huang shanmao, Qin wunian, and the rest had all disappeared from his consciousness!

Lin Yi didn't even notice when or how they disappeared.

It was too strange!

Everyone had clearly stepped onto the Ninety-ninth step together and stood on this huge platform that was like a Nebula. Why did they suddenly disappear?

Lin Yi's spirit sense scanned back and forth, but he couldn't find anything. He connected it to the fact that the entire Star Cloud platform was empty, and he understood a bit more!

It was not that there was no one on the star Cloud platform, but that everyone here was isolated by a magical force!

Perhaps Huang shanmao and the rest were also standing on the platform alone and were panicking?

Lin Yi looked up at the star-like fire ball in the center of the platform and stepped forward!

If he wanted to enter the second floor, he would have to complete the solo mode test!

He took a step forward, and the stars shifted!

The scene before Lin Yi's eyes changed. The stars in the sky moved quickly, forming three star gates in the void. At the same time, a message was imprinted in Lin Yi's consciousness.

The gate of life, the gate of death, and the gate of random!

Out of the three gates to the stars, one had the word 'life' formed by stars, one had the word 'death' formed by stars, and the last one had no word, which was the random gate.

And the gate of life might not really be the gate of life. After entering it, one might encounter great danger, and it was also possible to die directly.

Similarly, the gate of death might not necessarily lead to death. Facing death and living, entering the gate of death might be the true path to life!

As for how to choose, it would depend on the decision of the person who entered.

As for the random door, it was both simple and complicated. It was simple because it wasn't like the door of life and death, which reversed each other. It was a random door, and anything could happen after entering.

The doors of life and death, regardless of life and death, would still be within the range of this Star Cloud platform. And if you entered the random door, not only would you experience the situations that the doors of life and death might encounter, you might also be directly sent out of the star Cloud tower and have to start over again!

If they were lucky, they might be able to enter the random door and reach the core of the star Cloud platform, entering the second level.

If he was lucky, he might even be teleported to the second level, the Ninety-ninth step, or even the third level!

Lin Yi's expression was weird-the random door was so stubborn! It was a gamble of luck to the extreme!

It was possible that they would die as soon as they entered, or they would enter the third level without delay in receiving the rewards for the first two levels ... There would probably be many people who would try their best, right?

One step to heaven, one step to hell, it was quite exciting just thinking about it!

The message didn't say how many doors he needed to go through to reach the core, but Lin Yi guessed it wouldn't be too few. There were three astral gates in front of him, and he had to choose one.

Because there was a time limit for each choice, if he did not make a choice within 90 seconds, he would be expelled from the star Cloud tower and banned from entering again!

No one would give up at this stage. Even if they made the wrong choice and entered the real gate of death, they still had to try their luck!

Lin Yi felt that his luck had always been pretty good, so he walked straight into the random door in the middle!

Without any clues, choosing which gate of stars was a gamble. In that case, he might as well take a big gamble!

Chapter 9120 The Power Of The Divine Realm

Stepping into the random Stargate, the scene of the stars turning upside down appeared before Lin Yi's eyes again. Soon, three more stargates appeared in front of him, and he received a new message in his consciousness.

To sum it up, it basically meant that you stepped into a random door, but nothing happened, and you returned to your original starting point!

Lin Yi didn't know what to say-so he'd just wasted his time ...

It seemed that his luck was not as good as he had imagined ... Not to mention directly entering the second and third levels, he was not even close to the core of the star Cloud platform. How infuriating!

It seemed like he didn't have to try the random gate in the middle. Which one should he choose?

Lin Yi didn't think for too long-time didn't allow him to think too much. He turned right as soon as he returned to his original spot. A normal person would subconsciously choose the life gate the first time.

Although everyone knew that the door with the word 'life' might not necessarily be the door of life, compared to the dark word 'death', they would still prefer the door of life.

So Lin Yi chose the death door, to live towards death!

Lin Yi heard a thunderous boom as he stepped into the death door. He couldn't help but wonder if he'd really entered the death door.

Lin Yi quickly went into a defensive position, ready to take on any unexpected attacks. To be honest, Lin Yi wasn't too nervous.

Even if it was a true death Gate, it did not mean that it had the ability to threaten him. After all, this was only the first level's test. In theory, the test here should be targeted at martial artists below the mountain opening stage.

For example, with Qin wunian's level of strength, his life would be in danger if he entered the true gate of death. Lin Yi, on the other hand, was a heaven breaking expert. Even if his strength was limited by the power of the stars and could only use a small part of it, it was still far beyond the level of the first level of the Xingyun tower. He basically wouldn't be fatally injured.

Lin Yi was confident, and so he didn't really mind the first level's test. Even if he made the wrong choice, he could still rely on his strength to test it again and again, and just rush through step by step.

Just as Lin Yi was preparing for the unknown attack, he heard the notification that he'd successfully passed the first gate of stars ... So that Thunder was a special sound effect after he'd made the right choice?

Lin Yi's mouth twitched as he felt the malicious intent from the mysterious Pagoda ...

Looking back, the edge of the platform had disappeared, leaving only the void with many stars. The three gates of stars were still in front of him, and if it weren't for the notification in his mind, he would've thought that he was back at the starting point.

This time, it was a random door!

Lin Yi didn't think much about it and decided to try his luck again. This time, he didn't go back to the starting point. He heard the familiar sound of thunder, several times more intense than before.

He won the grand prize?

Lin Yi's eyes were dazzled by the Starlight, and he couldn't see the situation in front of him. His spirit sense was also affected, and he couldn't find anything useful.

Lin Yi could only tell that this was a few times more correct than the previous one-did they go straight to the center of the first floor?

Before he could finish his thought, the Jade space sent out a crazy warning. Lin Yi himself also felt a sharp killing intent. He was shocked and immediately activated his lightning escape technique. He didn't care about North, South, East, or West. He had to get out of here!

After running for tens of meters, he seemed to have run into some barrier that his lightning movement couldn't penetrate. Lin Yi then came out of his lightning movement state. His divine sense was back to normal, and his vision was clear again. Only then did Lin Yi grasp the situation around him.

There were still some lightning arcs left at the spot where he was standing before, but they just disappeared. The killing intent that Lin Yi felt came from a strong man with long hair. His arm muscles were bulging, and even if he didn't use any force, he could feel the explosive power within.

He was holding an executioner's blade in his hand, and there was a dark blade mark where Lin Yi had just been, other than the lightning that had disappeared. It had cut open the ground made of stars, revealing the endless void inside, and it was quickly healing.

"Eh? He was actually a pretty boy who pretended to be a pig to eat a Tiger! This is interesting!"

The man turned to look at Lin Yi-there was a scar on his face, starting from the right side of his forehead, sliding across his brow, nose, and ending on the left side of his cheek. The scar moved with the movement of his facial muscles, making him look extremely menacing.

"I hate pretty boys like you the most. You have some strength, but you like to hide it. You want to secretly plot against others. You are really sinister villains. I should kill all of you!"

Lin Yi's face was dark-if he didn't have his pure Qi back, he could've used the lightning movement technique with just a thought, and the man with long hair would've succeeded!

The opponent was at the peak of the early heaven-breaking stage, and even with the Jade space's warning, Lin Yi wouldn't be able to escape with his butterfly microsteps since he couldn't provide accurate information with his vision and divine sense!

I almost died!

The man's face was more obvious, but Lin Yi didn't have any impression of him. Not only had he never seen him before, but he hadn't even seen him in the star Cloud tower before. He should be someone who climbed up the stairs from another place.

They didn't know each other, and there was no enmity between them. Lin Yi was furious!

"Heh ... I'm not as sinister as you! A heaven breaking expert actually took advantage of the chaos when other people were teleporting to launch a sneak attack without even saying a word. Compared to you, isn't the so-called "pretending to be a pig to eat the Tiger" a child's play?"

Lin Yi smiled coldly as he observed his surroundings.

He had thought that this platform could only be played in single player mode, but he didn't expect the sudden appearance of a multiplayer mode. The random door was really a surprise!

Or perhaps it was no longer the first level's ninety ninth step star platform?

Lin Yi's suspicions were dispelled as new information came into his mind.

This was still the first level of the stars platform, but Lin Yi was already at the fifth door, the three doors. The random door made Lin Yi's progress a lot faster, so the sound of thunder was much stronger than the first time.

As for the other martial artists who tried to kill him, it was because the rules stated that the stellar gates would only appear after two people entered.

However, there was only one person who could enter the stellar gates!

The two of them had to try their best to defeat or kill each other before they could open the stellar gates. If the one who failed died, there was nothing to say. Even if he survived, he would have to return to the bottom and climb again.

As expected, the rule of killing people on the thirty-third and sixty-sixth steps was still there!
