

## Bodyguard 9121

Chapter 9121-the power of the divine realm

Lin Yi couldn't help but want to complain. He thought that the kill rule was removed, but it was just hidden deeper!

However, in this case, those who kept low-level martial artists in order to obtain the qualifications should be dumbfounded. The heads that they kept had all entered single-player mode first. They did not know if they would have a chance to reach the fifth Stellar Gate.

Even if there was a chance, it would be difficult to control it. It would most likely end up in someone else's hands!

It was much harder to get a head, so the man attacked without hesitation the moment Lin Yi appeared. He used all his strength to kill Lin Yi, not just defeat him!

"You sharp-tongued brat, your escape technique just now was not bad. Unfortunately, you met me today, and it's destined to be the end of your miserable life! This day next year will be your death anniversary. I hope someone will remember to burn some paper money for you!"

The man with the long hair grinned hideously, and the twisted scar on his face became even more hideous. As he spoke, he casually activated an array talisman.

Lin Yi's expression was a little strange. The talisman would form a temporary imprisonment array, and it was not a low level one. If it was a normal sea splitting stage or early heaven breaking stage warrior,

they would be caught off guard and trapped for a short time, unable to move and lose the ability to resist.

Unfortunately, Lin Yi wasn't an ordinary person. In terms of array skills, he hadn't met anyone on the sub Island that could compare to him.

He wanted to use a mere imprisonment talisman to restrict him? He could only give him a hehe!

The man with the disheveled hair didn't know what Lin Yi was thinking. After activating the restriction talisman, he yelled and raised his executioner's blade, charging at Lin Yi. The sharp blade light cut through the sky. If Lin Yi couldn't Dodge it, he would be cut in half!

Just as the blade was about to land on Lin Yi's head, the man saw the mocking smile on Lin Yi's face. He had a bad feeling about this.

Lin Yi didn't even have time to think about it before he turned into a lightning arc, instantly distancing himself from the blade light and shooting over from a distance. He used this space to increase his speed to the maximum.

The demonic devouring sword's Black light was wrapped in countless tiny lightning arcs, and it suddenly appeared on the side of the man's neck. The blade light didn't even reach Lin Yi's original position-it was obvious how fast Lin Yi's counterattack was.

The man with the disheveled hair was scared out of his wits. He felt that something was wrong after seeing the smirk on Lin Yi's face. When the lightning arc flashed, his hair stood on end as the shadow of death loomed over his heart. At the critical moment, it was his battle instinct that saved his life!

He didn't know how Lin Yi was going to fight back, but he let go of the executioner's blade in the nick of time and spun half a circle with his left heel as the axis!

Lin Yi's demonic devouring sword sliced through the air with a lightning arc, but it missed by a hair's breadth. It didn't kill the man, but only left a bloody mark on the back of his neck!

Blood spurted out, but it was not fatal!

The man with the draped hair turned pale with fright. The aura on his body exploded, and he grabbed the executioner's blade that he had previously let go. He waved it around him, forming an impenetrable blade curtain, and quickly leaned against an invisible barrier.

This was the star barrier that restricted the people who entered from leaving. Lin Yi's lightning escape technique was also blocked by it, so there was no doubt about its toughness!

The man with the disheveled hair had a lot of battle experience. With his back against the barrier, he only needed to defend within a 180-degree range, and he didn't have to worry about Lin Yi's lightning movement suddenly attacking him from behind.

Lin Yi's attack missed, and he felt a bit of regret. This wasn't the first time!

If he were to fight with a heaven breaking cultivator, he would barely be able to match half of his peak strength. He was still a little lacking!

The battle intuition and reaction speed of a heaven breaking cultivator were not to be underestimated. In this kind of fatal situation, they could react in advance and successfully save their lives.

When the man was fully focused on defense, Lin Yi's lightning escape technique to attack was a little weak. Although the super fast speed could form an indestructible penetrating force, he would also suffer a huge impact from the direct impact!

"Hahahaha, kid, I have to admit that that move just now was indeed a bit threatening! I was caught off guard and almost fell for your trap! It's a pity that I've already seen through it. It won't be so easy to deal with me with the same trick again!"

The man with the disheveled hair laughed as he leaned against the barrier. The cold sweat on his back hadn't disappeared yet, but he did have the confidence to deal with Lin Yi's attack.

His own speed definitely couldn't keep up with the Thunder escape technique. There was no comparison in this aspect, but his eyes could catch some of the movement trajectories of the Thunder escape technique.

It wasn't hard to block Lin Yi's direct attacks through prediction and small-range changes in movement. If she found the right opportunity, she could even kill Lin Yi.

"Come on! Continue! It couldn't be that he was powerless after one hit, right? Kid, you know very well that if you want to leave this place, you have to beat me! So, what are you still dawdling for?"

The man with disheveled hair was experienced, and he knew that Lin Yi would only find an opening if he attacked now. He was far slower than his opponent, and he'd be dead if he attacked first.

So his arrogant words were actually meant to provoke Lin Yi. He wanted Lin Yi to attack first in anger, and then he could find a chance to fight back.

Lin Yi wasn't angry at all. Instead, he smiled at the man. "You talk too much! But that's not what you said just now. Who just said that today will be my death anniversary next year? Why? A dignified heaven breaking expert doesn't dare to attack a mere sea shattering expert?"

"I think it's more appropriate to call you weak after one hit. Where did your momentum go? Or is it that you're originally a tortoise, and you immediately pull back your head after stretching it out, using your thick turtle shell to protect yourself?"

Lin Yi had never been afraid of taunting, and if the man wanted to fight, Lin Yi was ready to fight him to the end!

The man with the disheveled hair was thick-skinned enough to not react much to Lin Yi's mockery. The scar on his face twisted as he revealed a menacing smile, "Little brat, you really have a sharp tongue. I really admire you, I can't even bear to lay a hand on you!"

"How about this, I'll let you off today. You can stay to the side and don't get in my way. We'll mind our own business and not interfere with each other. How about it?"

Lin Yi's mouth twitched-this guy was asking for a beating with his shamelessness. He was obviously at a disadvantage, and yet he still made it sound like he had the absolute advantage.

"I don't need you to let me go. If you have the ability, then come at me! I would like to continue to experience your brilliant moves!"

"I'm too lazy to argue with you. If you want to fight, then come over. I'm happy to fulfill your wish!"

Chapter 9122 Power

The man with the disheveled hair put on a fearless face, almost pointing his finger at Lin Yi and yelling, "come over here!"

Lin Yi didn't know what to say-a heaven breaking master was being so obedient ... Was this a twisted human nature or a loss of morals?

The man with the long hair looked crude and brutal, but he was as cunning as a Fox. If he wasn't, he wouldn't have sneaked up on Lin Yi the moment he appeared.

It was quite embarrassing for a high-level martial artist to launch a sneak attack on a low-level martial artist when they were unprepared. People would laugh at him to death if they knew about it. However, the man with the disheveled hair did it without a care. It could be seen that he was a person who placed profit above all else.

And so, after realizing that Lin Yi wasn't easy to deal with, he wouldn't make the first move again!

Face? How much was that thing worth per 500 grams?

"Brat, if you don't want to come over and fight, then listen to me obediently and quickly stay aside. We'll each take half of the territory. If someone comes in and appears in whose territory, the person who does so will deal with him. What do you think?"

The man with the draped hair rolled his eyes and continued to act shamelessly. He proposed a seemingly fair solution, ""Isn't that fair? Although I'm the first one to arrive here, I'm willing to give you a chance to attack with the same probability. You don't have any objections, right?"

"Ha ... Will there be a successor? Do you think I don't know that only two people can appear here at a time?"

Lin Yi smiled teasingly, "I don't know if you're brainless or if you think I'm brainless, but it doesn't matter. There's no point in wasting time with you. If you want me to beat you up, then I'll do it!"

The man with the draped hair laughed. "You're quite arrogant, little brat. Come, come, come. I'll see who's going to beat who up today!" Hurry up and come over to die!"

It didn't matter what Lin Yi said. The most important thing was to make the first move, giving the man a chance to fight back. Hearing that Lin Yi was finally going to make a move, he was a little happy.

Of course, the man with the long hair was on full alert against Lin Yi's speed. He didn't dare to be careless at all. He put on a casual face to numb Lin Yi's senses.

Lin Yi's lips curled up, as if he'd seen through everything. "Are you looking forward to me using the same move against you? Do you think that you have full confidence in dealing with my move just now? Have you thought of a way to use the flaw in my move to kill me?"

The man's heart skipped a beat-Lin Yi had spoken his mind, so was there something wrong?

Lin Yi didn't open his arms, "I originally wanted to show you my other skills, but since you're looking forward to seeing me use that move, I won't disappoint you! So please open your eyes wide and take a good look!"

The man with the draped hair forced a smile. "You're quite arrogant, little brat. You know that the same move can't threaten me at all, yet you still dare to use it. Then I'll definitely teach you a good lesson. Come on!" Watch how I'll deal with you!"

Lin Yi tilted his head and pondered, "I'll give you one last chance. Surrender now and let me send you down. With your heaven breaking strength, you'll be back here soon. If you want to resist, you'll have to bear the consequences!"

"Hahahaha, little brat, you really know how to joke. I'll also give you one last chance, hurry up ..."

Before the man could finish, he saw identical figures appear beside Lin Yi. Two, four, eight, sixteen ... In an instant, the entire area was filled with Lin Yi. There were at least nine hundred to a thousand of them!

Moreover, each of them had a powerful aura, and they were not illusionary illusions ... So, what the hell was this?

The man felt like he was about to go crazy-there were nearly a thousand Lin Yis with the same aura, and he'd have to spend so much effort just to deal with one, and a thousand of them?

He might as well just die ... Would it be too late to surrender now?

Wood forest thousand transformation!

Lin Yi created nearly a thousand clones at once, and their strength was very close to the original body 's. Because the original body was in the mid-stage of heaven breaking, the clones weren't affected by the power of stars, so they were in the sea splitting stage.

In the eyes of the man with the long hair, there was no difference!

"Since you don't want this last chance, I'll fulfill your wish. Have a taste of my move again!"

Nearly a thousand Lin Yi's spoke at the same time as they took out the demonic sword and activated their lightning movement!

There was only one real demonic devour sword, and the clones only had the appearance. They didn't have the sharpness and power of the sword, and Lin Yi didn't expect the clones to succeed in one hit.

The man's expression changed and he cried out, ""Wait ..."

I can't wait!

Lin Yi had already made his move. Nearly a thousand of his clones turned into lightning arcs and charged at the man. His eyes could barely catch one or two lightning arcs and he could predict them to defend and counterattack.

But now, it wasn't just one or two lightning bolts, but close to a thousand!

The dazzling lightning completely covered the Starlight on the platform, and all that was left in front of the man with the long hair was a vast expanse of white. He subconsciously raised and waved his executioner's blade, but it was pierced through by countless attacks!

The high-speed attacks of nearly 1000 doppelgangers easily tore through the defensive layer that the man with the long hair tried to set up, hitting all his vital points!

A body practitioner at the peak of the early stage of heaven breaking was extremely strong, and the clones created by the thousand changes of wood, forest, and forest weren't strong enough to break through the man's defenses, but Lin Yi had his ways!

The vital points were naturally lower in defense, and Lin Yi's clones directly aimed at a few vital points, attacking them layer by layer. Each of them was hit one to two hundred times in a row, and no matter how strong the body's defense was, it couldn't take it.

Even water droplets could penetrate rocks, let alone Lin Yi's clone using the super-fast speed of the lightning escape technique to attack a person's vital points.

Before the man with the scattered hair could finish his sentence, his body trembled continuously under the continuous attacks. He did not manage to last until all his clones attacked once before he was torn apart by the lightning and turned into ashes!

Lin Yi didn't hold back-he'd be playing with his life if he held back against a heaven breaking master!

Therefore, the man with the disheveled hair was dead. He was completely dead, and not even a speck of dust was left!

If he'd known this would happen, he wouldn't have sneaked up on Lin Yi and let Lin Yi knock him down to the lower level to climb again.

Unfortunately, there were no 'if's'!

Lin Yi let out a long breath, and nearly a thousand clones disappeared with him. Fortunately, he could use his pure Qi this time. If he only focused on body refining, it would be very difficult to fight against these heaven breaking cultivators continuously due to the restrictions of the stars.

Who knew when he would be killed by his opponent due to the backlash of the star power.

## Chapter 9123

After the man with the disheveled hair died, the three gates of the stars completely solidified and opened. It was still the gate of life and death on the left and the gate of random in the middle!

Lin Yi was just about to pick one when another message popped up in his head-he'd just killed a heaven breaking opponent, so he'd been given 60 seconds of viewing time.

As long as he thought of the other party's appearance and the other party was on this platform, he could see the other party's current situation!

Within 60 seconds, you can only look at one person or a few people at the same time. There are no restrictions on the view!

Lin Yi's heart skipped a beat, and he immediately thought of Qin wunian and the others. A few Starlight screens appeared in the air, broadcasting their movements Live!

Lin Yi glanced at it and was speechless-there were only four screens, and he was thinking about everyone in the team. Those who weren't on the platform were no longer there!

As for whether he had been killed, beaten to the bottom, or randomly teleported to somewhere, no one knew!

Of the remaining four, Lin Yi was familiar with three of them-Qin wunian, Huang shanmao, and six. The last one was someone he didn't really know.

The screen of light showed that Qin wunian had entered the life gate of the third astral gate, and then appeared before the fourth one, waiting for his next choice.

Huangshan Mao was also in the third Stellar Gate. His forehead was covered in cold sweat as he gritted his teeth and walked into the death Gate. It seemed like he was very afraid of the death Gate, and didn't understand why he still chose the death Gate.

Fortunately, Huang shanmao also made it to the fourth choice, the stellar Gate. Lin Yi found it a little fun to see him heave a sigh of relief.

Six made the same choice as Lin Yi and went through a random door, and then ... There was no "then"!

Lin Yi watched as he entered the random door, and the screen disappeared-it was clear that he'd been sent off the platform out of bad luck, or maybe he'd been sent to the second or third floor-he wasn't here anymore.

In the end, the unfamiliar team member's performance was similar to Huang shanmao 's-he chose the life sect with fear and trepidation, only to be torn apart by a burst of star energy.

His luck was not good. The life gate was the true gate of death, and his own strength was not enough to resist the power of stars that exploded in the gate of death, so he was killed without any suspense.

The entire scene appeared in front of Lin Yi, and the light screen quickly faded.

In just a few seconds, two of Lin Yi's four teammates were gone ... This first floor wasn't very friendly to practitioners who weren't strong enough!

Lin Yi couldn't do anything about it-after being separated, even if he wanted to take care of them, he couldn't.

Sixty seconds were up, and Qin wunian and Huang shanmao's screens were gone. Lin Yi turned to look at the three gates he needed to choose.

The time he spent watching other people was also included in the time limit, so Lin Yi had less than twenty seconds left.

He had just been ambushed after coming out of a random door. If it was safe, he shouldn't choose a random door again to avoid some unknown trouble.

But Lin Yi decided to walk to the random door after some thought.

Today's luck seemed to be quite good. It couldn't be that he would be ambushed every time, right?

Perhaps Lin Yi's luck was really good, or maybe it was because he just killed a heaven breaking master and got the star platform's recognition.

This time, after he came out of the random door, he did not encounter any sneak attacks. Instead, the information he received in his mind was the last door to enter the core of the star platform!

His luck was not bad!

Lin Yi opened his eyes, and the effects of the shifting stars faded. In front of him was a tall Stellar Gate, and six martial artists were standing in front of it, looking at Lin Yi.

"The seventh one is here. He looks weak, so he must be lucky. He picked a random door from the start and was sent to this last door! Hmph, what a lucky boy!"

A red-haired middle-aged woman squinted her eyes at Lin Yi and snorted, "Forget it. It's a good thing that someone is coming now. I can't ask for too much!"

"Luck is also a part of one's strength. To be able to come here successfully is enough to prove one's ability! You should be very clear that the first level isn't so easy to pass!"

On the other side, a middle-aged man in a golden robe replied to the red-haired woman expressionlessly. It seemed like he was helping Lin Yi, but Lin Yi could feel that the Golden-robed man and the red-haired woman didn't get along.

He wasn't speaking up for Lin Yi, but for the sake of insulting him.

From the information in his mind, Lin Yi learned that the rules of this gate were that eight people were required to open it at the same time. They could enter the core of the final platform, the star that was lit up like a star!

So when Lin Yi appeared, the six practitioners didn't have any hostility at all. They wanted to enter the second floor, and everyone present was an Alliance for the time being. They just wanted to open the stellar gates as soon as possible. Even if it was a life and death enemy, they would pretend not to see it.

After the stellar gates were opened, they would take their revenge. By then, no one would interfere, unlike now, where anyone who dared to make a move would definitely become The Public Enemy!

"Someone's coming again! You can open the stellar gates now!"

The other practitioner interrupted the red-haired girl's rebuttal and squinted at the empty space not far from Lin Yi. There was a spatial fluctuation there, and a strong figure stepped out of the light door.

The eighth person was chosen!

The others' eyes lit up. The first level wasn't of much value to them. Only by climbing up as quickly as possible would they be able to reap enough benefits.

No one was willing to be blocked here and not be able to move an inch forward. Leaving this place was something everyone was eager to do.

The newly arrived majestic figure adjusted to it for half a second. His Bell-sized eyes coldly scanned the surroundings. He did not speak immediately, as if he was digesting the new information that had appeared in his mind.

Lin Yi's pupils contracted-this guy ... Was a Dark Demon beast!

Initially, he had concealed his aura very well. However, when he passed through the stellar gates, he was more or less affected, causing his aura to fluctuate and leak slightly.

If it was someone else, they might not be able to notice it, but Lin Yi had dealt with the dark beasts too many times. He even had Daniya with him before, so how could he miss out on this small aura?

"What are you guys waiting for? Immediately open the door!"

The voice of the dark magical beast in the form of a brawny man was low and deep. When he spoke, it naturally produced a faint sense of oppression that made people feel uncomfortable.

Chapter 9124 -Power

His strength was at the mid-stage of heaven-breaking, and other than Lin Yi, the strongest of the other six was at the peak of the early stage of heaven-breaking, and the weakest was half-step heaven-breaking.

Five heaven-breaking cultivators and one half-step heaven-breaking cultivator felt their hearts sink when the burly man spoke. They felt an immense pressure.

However, the muscular man was right. Everyone was here, and it was time to open the stellar gates!

The six of them looked at each other, and the Golden-robed man said, ""Let's start, stop wasting time!"

The other five nodded and stood in their positions. They looked at Lin Yi, who didn't move at all. He didn't seem to have any intention of opening the door.

The red-haired woman frowned and said unhappily, "kid, what are you daydreaming about?" Hurry up and help open the stellar gates, stop dawdling!"

The muscular man looked at Lin Yi indifferently, his aura rising.

Lin Yi ignored the red-haired lady and crossed his arms as he looked at the man. "Even the darkness demon beast clan's experts have come to the star Cloud tower to join in the fun. Is this the reason why you've all gathered here?"

"Tell me the truth. Other than the star Cloud tower, what other plans do you dark magical beasts have? The heaven's legacy continent's node is already under your control? Is that why you're preparing to start a Great War and destroy the entire continent?"

The other six people's expressions changed slightly, and their eyes suddenly had some inexplicable meaning as they stared at the muscular man.

The humans on the sub-Island and the darkness demon beasts were basically mortal enemies. When the two sides met, there was no compromise to speak of. Unless one side was in an absolutely dominant position, there would be no possibility of a conversation.

Lin Yi didn't want to expose the man's Dark Demon beast identity-the enemy was out in the open, and he was in the dark, which made it easier for him to get information. But if he didn't expose him now, the other six might team up and help the dark Demon beasts deal with him.

It was seven against one, and Lin Yi wasn't afraid of anything. It was just that there was no reason for the human masters to stand on the side of the dark Demon beasts.

"You're from the darkness demon beast clan?"

The Golden-robed man frowned slightly. As he stared at the muscular man, he was already on guard."Kid, you're not talking nonsense, are you? Do you know him?"

The muscular man's expression did not change. He sneered,""I said that this kid is from the darkness demon beast clan. What do you think?"

His breathing had stabilized, and on the surface, he seemed to be completely in line with the human's casual counterattack, which was naturally flawless.

When a large group of darkness demon beasts appeared in Nebula tower, not many people entered. They were one of the first groups to enter.

The muscular man might have had an accident during the climb, or he might have been unlucky and was sent down when he chose the random door. In short, his progress should be behind most of the darkness magical beasts.

Lin Yi didn't want to let go of this chance to catch someone who was alone. Who knew what would happen if he opened the Star Gate and entered the core area? There was a high chance that he would be directly teleported to the second level.

Lin Yi wouldn't be able to do anything if he were to join up with the other dark beasts.

"You're the most powerful one here, while I'm the weakest. If I were a darkness demon beast, what reason would I have to jump out and accuse you of being a darkness demon beast?"

Lin Yi's expression didn't change at all, "Your identity as a member of the darkness magical beast clan has been exposed, so you're trying to turn the tables and muddy the waters. Do you think that everyone's brains are as stupid as your darkness magical beasts?"

The corner of the muscular man's mouth twitched. If he wanted to speak, he should just speak. Why did he have to use his beast form to attack?

The Golden-robed man was deep in thought. He agreed with Lin Yi's statement. Lin Yi was at his weakest level, so it didn't make sense for him to provoke the strongest person and cause public anger!

Unless the muscular man really was from the darkness magical beast clan!

The red-haired woman said impatiently, "why are you talking so much nonsense?" I don't care which one of you is from the darkness magical beast clan, but there's no way to prove it right now, so let's work together to open the astral gate first!"

"After it's opened, it doesn't matter if you want to fight to the death or beat your dog brains out. Now, stop talking nonsense and come over to help open it!"

She didn't care about the darkness demon beast clan. If the darkness demon beast clan attacked the heaven's legacy continent, she might do her best to resist.

But right now, it was only an expert from the darkness magical beast clan. No matter if it was the muscular man or lucky boy, they were just small matters to her. How big of a wave could they cause?

The most important thing now was to open the astral gate and not delay her from continuing to obtain benefits!

Lin Yi ignored the red-haired lady. There were many masters from the dark Demon beasts this time, and there might be more than one wave. It was rare to meet someone alone, so he had to think of a way to get some information!

"Brat, I can't be bothered to talk nonsense with you. Although there are many good things in the star Cloud tower, they can't withstand so many people plundering them. As the saying goes, those who are fast will get what they want. After opening the stellar gates and entering the second level, I will naturally take care of you!"

"Did you hear what that female hero said?" the muscular man coldly said. Cooperate with us and open the door. Don't let us down!"

The dark beasts, who could transform into humans, weren't stupid. This one put Lin Yi on the opposite side of everyone in just two sentences, and he'd successfully integrated and called himself "us."

If Lin Yi didn't cooperate, he'd naturally become everyone's enemy. He wouldn't even need to do anything-the others would gang up on Lin Yi.

The red-haired woman's eyes were threatening as she took a step towards Lin Yi."Lucky boy, you're the only one left. Don't try anything funny and obediently open the astral gate!"

She didn't care if the man was from the dark Demon beast race. If Lin Yi didn't agree, she would attack immediately.

Entering the core of the first layer and then rising to the second layer was what she was most concerned about.

At first, when the others heard that they were from the darkness demon beast clan, their expressions turned grave. After being influenced by the red-haired woman, they felt that it was indeed more appropriate to open the astral gate first.

At most, they could join forces to kill these two suspected dark magical beasts after opening the door. Then, there would be no delay!

"Little brother, let's open the stellar Gate first. After that, we will discuss how to solve the problem between you two."

"That's right. There are already many people who have passed the first level and entered the second level. If we continue to waste time here, they might enter the third level and we might still be here. To be able to enter the star Cloud tower is a great opportunity. We can't waste it. "

Chapter 9125 -Power

Two of the fighters spoke up, trying to persuade Lin Yi to open the stellar gates. Under the red-haired lady's influence, everyone thought that it didn't matter if the man was from the dark Demon beast race or not.

Those who didn't say anything basically agreed with this fact.

Lin Yi's face darkened. He thought that by revealing his identity as a Dark Beast, these human masters would at least come after him together. He didn't expect that he would be the one being targeted!

"Aren't you worried that the darkness demon beast clan, which is stronger than you, will turn around and pose a great threat to you after meeting up with its clansmen?"

Lin Yi didn't expect them to help anymore, but shouldn't they at least stay neutral?

"I'm not going to reason with you anymore. I hope you can stand to the side and not interfere with me dealing with this heaven breaking expert of the darkness demon beast clan!"

The red-haired woman laughed, "kid, you're very arrogant!" Since you know that he's stronger than us, where did you get the confidence to deal with him? Let's not talk big. Hurry up and open the stellar gates, don't waste time!"

Before she finished her sentence, she appeared beside Lin Yi in a flash, her hand reaching for Lin Yi's throat. She was prepared to force the door open after she had Lin Yi under control.

Lin Yi's eyes turned cold. He didn't use his lightning escape but used butterfly micro-steps to Dodge the red-haired woman's claw.

"Eh, you're quite capable! You're pretty good at escaping, so is this why you dare to talk back to us?"

The red-haired girl laughed, not minding Lin Yi's attempt to avoid her hand. It wasn't just luck that brought them here-they had to have some hidden cards up their sleeves.

As she spoke, she continued to press forward, her arms swinging faster and faster. The air was torn apart, and the afterimages were real, but Lin Yi still dodged them with ease.

"You'd rather attack me than deal with the darkness demon beast clan? So you're a spy of the darkness demon beast clan? Or are you also from the darkness magical beast clan?"

Lin Yi didn't just Dodge the red-haired woman's attack with ease, he even spoke calmly, though his tone was cold.

It was fine if they didn't want to help, but they couldn't even be neutral, and they had to help the darkness demon beast clan? There should be a limit to selfishness!

The red-haired woman's actions had angered Lin Yi!

He didn't expect the red-haired woman to get angry first. "What are you all doing? Don't you want to open the astral gate? Hurry up and help us catch this kid!"

She thought that Lin Yi was the weakest and that it would be a piece of cake for her to catch him, but she didn't expect Lin Yi to be so slippery. He dodged her palm by a hair's breadth every time.

It was fine if she couldn't catch him once, but she couldn't do it twice or thrice. She couldn't catch Lin Yi in four or five times, and she was starting to get angry.

It'd be awkward if she stopped, and it'd be like putting on a monkey show if she continued to fight Lin Yi alone. She had no choice but to let the others attack Lin Yi together.

The flexibility of the movement technique also required space to perform. If the space was compressed by being besieged, the so-called flexibility of the movement technique would be useless.

The muscular man's lips curled into a faint mocking smile. The development of the matter was similar to what he had expected. The greed of humans had indeed blinded rational thinking.

The only thing that surprised him was the fact that Lin Yi wasn't caught by the red-haired woman so easily. Since that was the case, he didn't mind lending a hand.

"Don't worry, this kid won't be able to escape. I'll definitely make him willingly help me open the stellar Gate!"

The burly man joined the fight as he spoke. His mid-stage heaven crushing strength gave Lin Yi a lot of pressure. The others looked at each other and hesitated for a moment before surrounding him as well.

She didn't attack right away, but it was obvious that she was trying to reduce Lin Yi's movement space.

With the psychology of the crowd and the benefits, the seemingly weakest Lin Yi would naturally become the target of everyone!

Lin Yi laughed coldly. He was really disappointed in these people!

"Little brother, don't resist anymore. Obediently cooperate and open the door. After that, we will definitely not interfere with the grudges between you two. Why do you want to anger everyone at this time?"

The Golden-robed man surrounded Lin Yi as well. He didn't attack Lin Yi directly, but he tried to persuade him gently, "You don't have any chance of winning if you fight against seven people. Everyone is here to seek opportunities. What's the point of losing your life on the first level because of your stubbornness?"

"You shut up! What's there to talk about with this kid? If you want to help, then do it quickly. If not, then just stay there and don't waste our time. "

The red-haired woman was not polite at all to the Golden-robed man. She glared at him fiercely and rebuked him ruthlessly.

The Golden-robed man's expression was somewhat unsightly. If it wasn't for the fact that most of the people were on the red-haired woman's side, he might have turned hostile and attacked.

Lin Yi's butterfly microstep was restricted. After all, he was surrounded by a few heaven breaking Masters, and he couldn't use his full strength to fight them.

Therefore, he could only get serious!

The lightning escape technique was activated!

With a flash of lightning, Lin Yi had easily escaped the encirclement and reappeared dozens of meters away.

"Heh ... This is really eye-opening! For the sake of a small benefit, a top-tier expert of the heavenly legacy continent would actually take the initiative to ally with the darkness demon beast clan to deal with their own race! You guys really know how to bring glory to the heaven's legacy continent!"

Lin Yi's face was full of mockery, and his eyes were full of contempt, "With human experts like you around, it's no wonder that there are so many high-level darkness magical beasts on the heaven's legacy continent! It looks like the destruction of the heaven's legacy continent is only a matter of time!"

"Shut up! You're just a kid who relies on luck, what right do you have to judge us? I'm going to teach you a good lesson today and let you know how to respect your seniors!"

The red-haired girl was getting a little angry-even seven people couldn't catch Lin Yi, and this made her even angrier.

She didn't even think about how miraculous Lin Yi's method of escaping was!

The others, on the other hand, looked serious. They thought that it would be easy to take Lin Yi down, which was why they agreed to the red-haired woman's choice of attacking Lin Yi and forcing him to open the stellar Gate.

They didn't expect Lin Yi's performance to change their perception again and again. It was clear that the strength level on the surface couldn't really show the young man's combat strength!

He had miscalculated!

It was just that they couldn't back down now. If they backed down now, they wouldn't have to worry about their face anymore. Lin Yi's insistence on targeting the strongest Man would drag on forever!

After all eight of them were here, no one else would enter this area, so they couldn't count on new people to open the door for them. They had to wait until Lin Yi and the burly man finished fighting.

Or they would help one side to defeat the other as soon as possible, force or kill them, and wait for the newcomers to come in.

Now it seemed like they had no other choice but to continue working together against Lin Yi!

Chapter 9126

"Since you insist on allying with the darkness demon beast clan, then there's nothing more to say!"

Lin Yi hmped coldly as he channeled his Qi again, activating the thousand changes of wood and forest!

In an instant, hundreds of Lin Yi's clones appeared in the area. His real body took out the demon devouring sword, and the clones formed similar black swords.

Lightning escape technique!

Hundreds of lightning arcs crackled as they cut through the distance, bringing with them endless lightning as they came slashing over, enveloping the seven people in front of them.

Everyone, including the dark Demon beast in human form, was shocked. They had never seen or heard of Lin Yi's attack before!

Fortunately, they weren't weak, and with seven of them working together, they formed a temporary defensive layer, blocking Lin Yi's lightning bolts.

Other than that, he took out all sorts of defensive items, such as defensive formation discs, defensive formation talismans, shields, and the like, blocking the hundreds of lightning arcs.

If Lin Yi's attack power was raised to the heaven breaking stage, the seven of them wouldn't be able to withstand it even if they worked together. However, Lin Yi's original body could only use the attack power of the sea shattering stage, and his clones were slightly weaker than his original body. He attacked seven people at the same time, and none of them were injured.

"Not bad! As expected of the combined defense of the darkness demon beast clan and the human race's top powerhouses. It's really impregnable and difficult to break!"

A lightning arc flashed, and Lin Yi returned to his original spot. The hundreds of clones spoke at the same time, saying the same thing-it was quite an imposing manner.

"This should be enough for the warm-up, right? Next, we will begin the real battle. Are you all ready?"

Lin Yi didn't even get to finish his sentence when the faces of the people in front of him turned even uglier. That dense and terrifying attack just now was just a warm-up?

Are you F \* cking kidding me?

If it wasn't for the seven of them working together and facing that kind of attack alone, none of them would dare to Pat their chests and guarantee that they would be able to block it. There was a high chance that they would be seriously injured or even killed.

What F \* cking warm-up exercise!

"Wait ..."

Someone wanted to open his mouth and calm down. To be honest, he regretted it. Lin Yi seemed to be the weakest, but with such terrifying combat strength ... If he could choose again, he would choose to team up with Lin Yi against the muscular man.

It didn't matter if the muscular man was from the darkness demon beast clan or not. What was important was that he liked to challenge mid-stage heaven crushing experts!

Unfortunately, he didn't have the chance to say it out loud. Lin Yi was angry, and the consequences were serious!

It was a matter of principle for them to be in cahoots with an expert from the darkness magical beast clan!

Once the darkness demon beast clan and humans started a war, this kind of person would be a traitor!

The stronger one was, the greater the harm!

It's fine to get rid of him earlier!

His divine sense trembled!

Lightning thousand explosion!

The divine sense attack was the first to be launched. However, these top experts of the heavenly secret continent all had divine sense defensive tools on them. These things were really precious, and very few people below the sea splitting stage had such tools.

However, cultivators above the heaven breaking stage were all top figures of their respective forces, so it was not rare for them to have them.

Lin Yi didn't mind that the spirit didn't achieve its intended target. It was just a test, and it didn't delay his follow-up attack.

Hundreds of Lin Yi's using the lightning thousand explosion at the same time would turn into an ocean of lightning. It was a pity that there weren't any real lightning to use here. Just using pure energy and physical strength was on a completely different level.

The seven players on the other side were still in a defensive position, so the Thunder explosion was not very effective. However, the endless flashes of lightning almost blinded their eyes. They could only see a bright silver and white light, and nothing else.

The faint light of the stars that had been everywhere had long since been extinguished by the lightning, even giving them the illusion that they were in a world of lightning.

Lin Yi's lips curled up into a cold smile. Maybe the lightning explosion could severely injure the seven of them, or maybe it couldn't-it didn't matter.

That was because there were still follow-up attacks brewing!

It had been too long since he had used true energy, so he hadn't used this move for a long time. Now that he used it, he really missed it.

The true Qi pill fire and the consciousness pill fire were compressed and condensed in the palms of his hands, and they slowly closed in on each other.

Using his true Qi as a fusing agent, he easily fused the two alchemy flames together, creating a super alchemy flame bomb!

Completed!

Lin Yi's spirit sense locked onto the dark Demon beast in human form. He casually threw the Super alchemy bomb in his hand, and it flew towards the man like a meteor!

Although it didn't use its full power, the power of this super alchemy bomb wasn't small. Even a heaven breaking middle stage darkness demon beast wouldn't be able to resist the damage of the explosion.

The man lost his vision in the lightning explosion, and even his spirit sense was affected by Lin Yi's spirit sense. Although it couldn't affect their bodies, it could affect their weak spirit sense.

Therefore, the descent of the Super alchemic bomb was completely undetectable to the muscular man. As long as it hit, he would most likely die immediately!

Seeing that the Super pill fire bomb was about to hit its target, the muscular man's expression changed drastically. Although he couldn't see, as a member of the darkness demon beast clan, he had an extremely sharp sense for danger.

He would die!

If he continued to stand here, he would die!

The premonition was so strong that it even caused his primordial spirit to tremble and tremble. Without any hesitation, the muscular man instinctively dodged with all his might.

The lightning thousandburst had yet to dissipate. He had given up all defensive methods to resist the lightning thousandburst, and his only thought was to get as far away from this place, which he felt was a fatal threat.

Unfortunately, he had underestimated the power of the lightning explosion!

The Super alchemy bomb could kill with a single blow, but the lightning explosion wasn't just for show. To ignore the lightning explosion in order to avoid the Super alchemy bomb was the same as entering a Tiger from the front door and entering a Wolf from the back!

Countless lightning arcs struck the muscular man's body, causing him to be badly mangled. At the same time, his body trembled uncontrollably, and the muscles all over his body lost control due to the numbing feeling of the lightning.

He had barely dodged, but he was only halfway through his movement before he froze on the spot, unable to move.

The Super pill fire bomb easily hit the left side of the muscular man's body. Even though his muscles were numb, he could still feel the pain of his body being torn apart.

The shrill scream had only sounded halfway when the power of the Super alchemic fire bomb was completely released. It formed a new explosion vortex along with the surrounding lightning thousand explosion.

The few people who were helping the dark beasts to attack Lin Yi weren't spared either-they were all caught in the mess.

Although they weren't the first targets of the Super pill fire bomb, the range of the explosion wasn't something they could easily escape from.

Chapter 9127

Lin Yi watched the explosion indifferently. The hundreds of clones behind him split into four groups and surrounded the explosion range.

If these heaven breaking experts were still alive after the explosion of the Super alchemy fire bomb, they wouldn't have time to rejoice, because they still had to face a battle formation made up of four sea splitting experts.

Lin Yi's battle formation!

Even if they were at their peak, they might not be able to fight against Lin Yi's battle formation, let alone after a series of super attacks.

Luckily, they didn't have to face Lin Yi's battle formation anymore, including the dark Demon beast in human form. The lightning explosion and the Super alchemy fire bomb had torn them apart.

When everything calmed down, the seven masters were all dead, not even a trace was left. When Lin Yi's spirit sense saw this, he waved his hand and dispersed most of the clones, leaving only seven of them behind.

The lightning arcs disappeared and the flames were extinguished. The entire area returned to its original Starlight-like appearance as if nothing had happened. The seven masters had never existed.

"Blinded by greed, you're so foolish!"

Lin Yi said coldly as he looked at the empty space. He'd treat it as an epitaph for the six human masters who'd helped the evildoer.

In fact, the red-haired woman was the one who deserved to die the most. Not only was she the first to attack Lin Yi, but she also made the others attack with her. The Golden-robed man seemed to be on bad terms with the red-haired woman, speaking up for Lin Yi before. Of course, it was more like he was hitting on the red-haired woman.

Unfortunately, he ended up with the red-haired woman and stood against Lin Yi, becoming one of the cannon fodder!

To be honest, Lin Yi didn't want to use such a violent method. After revealing his Dark Demon beast identity, everyone could work together to take down the burly man-that was the best choice. Perhaps they could get some valuable information about the dark Demon beast clan from him.

However, the red-haired lady only cared about the immediate benefits, and ignored Lin Yi's warning and hints. In the end, neither of them got what they wanted.

After taking care of these people, Lin Yi and his seven clones stood in eight different positions and opened the celestial gates according to the instructions in his mind.

The stellar Gate required eight people to open, but Lin Yi could do it by himself. The thousand changes of wood forest's clone was also recognized by the platform.

It was like a cheat-like ability, but no one else here could use it other than Lin Yi.

After passing through the last star Gate, the view before him suddenly brightened up. The surrounding Starlight had all dimmed, leaving only a sphere that was burning like a star in the center.

Another message appeared in Lin Yi's mind-the first level's final reward ... Was canceled!

Lin Yi's method of passing the last door was problematic-only one person appeared on the platform in the end, and the reward that should've been received by eight people at the same time was canceled.

In its place was the normal star energy that washed over his body. Nine times the amount of star energy he had gained from level 99 fell from the sky, completely enveloping Lin Yi.

This time, Lin Yi's skin didn't stop the star energy from entering his body, and it seeped into his muscles.

However, not all of the star power that had seeped in had been absorbed. It was only a small portion, and the rest could only be completely digested at the third level.

On top of that, Lin Yi also received a temporary skill as compensation for the loss of his original reward. Lin Yi wanted to say that the star Cloud tower was quite humane, even doing something like compensation ...

Temporary skill: Blazing Star undying body!

In the star Cloud tower, Lin Yi could use the power of the stars to support himself and form the star undying body.

Other than the first level, every level after that would allow him to use the star undying body once for thirty seconds. Lin Yi could use it on his own, but it would also be activated when he received a fatal attack.

Simply put, the function of the star undying body was to be invincible!

It was connected to the star Cloud tower. As long as the star Cloud tower was not destroyed, the star body would not be destroyed!

Let alone heaven breaking Masters, even if all the martial artists in the tower joined forces, they wouldn't be able to hurt Lin Yi at all!

Lin Yi was shocked after he realized what the indestructible star body was!

He really didn't know how to describe it other than F \* ck!

30 seconds of invincibility, which could be used once on each floor. Was this a temporary skill?

This was like having an extra life on every level!

With his current combat strength and the thirty seconds of invincibility, he could even charge in and activate his unparalleled mode against a group of Dark Demon beasts!

Lin Yi rubbed his chin. With a reward like this, it didn't seem like it was a big deal that he didn't catch the dark Demon beasts alive. There were many Dark Demon beasts coming to the Nebula tower anyway, and there would be plenty of opportunities to catch them next time.

Originally, it was still a bit difficult for him to capture the darkness demon beast clan's powerhouses alive with his sea Rift stage strength. With the star undying body, there were many things he could do!

Other than that, the suppressed star power in Lin Yi's body seemed to be activated. He wasn't sure, but he felt that this was a good thing.

Perhaps after it was drawn out, it would merge with the power of the stars that had seeped in, naturally solving this greatest hidden danger.

Unfortunately, the star power he had obtained in the first layer was still too little, so he couldn't draw out all the star power in his body and sea of consciousness at once. If there was any leakage, it would only cause more trouble.

Lin Yi could only continue to suppress these problems and find a chance to solve them later.

After receiving the reward, the star-like burning sphere released a ray of light, forming a circular portal in front of Lin Yi.

Lin Yi turned around to look at the bright Starlight on the platform, but it was empty at the same time. It was as if Huang shanmao and Qin wunian weren't on the platform.

He didn't know how the two of them were doing. If they were still there, they should be at the last door, right? Or had he been teleported to another place?

If it was possible, Lin Yi didn't mind waiting for them to appear. However, the tunnel only existed for 60 seconds. If Lin Yi didn't pass through after 60 seconds, the tunnel would close. At the same time, it would automatically assume that Lin Yi had given up on climbing the star Cloud tower and would be sent out ...

"You two, good luck ..."

Lin Yi sighed softly and stepped into the portal when the last second came. As for Qin wunian and Huang shanmao, he could only hope that they would take it easy.

The passage from the first level to the second level went smoothly. Lin Yi didn't feel anything special and arrived at the second level. It was still the 99 steps.

Chapter 9128

Lin Yi looked left and right, but didn't see anyone else. They'd probably all climbed up.

Just as he was about to start climbing, a light flashed in front of his eyes, and a figure appeared out of thin air. He staggered a step before regaining his balance.

Lin Yi blinked and smiled-his luck was pretty good, indeed!

"Sima Yi! No, Tianying planet! Where the hell have you been! I've been looking for you!"

The person who appeared in front of Lin Yi was none other than Daniya, who had gotten separated from him. Seeing that Lin Yi was beside her, she immediately smiled in surprise and threw a punch at Lin Yi's shoulder.

"It looks like you're fine, and you've recovered some of your strength. I knew that you didn't climb as fast as me. As expected, you've only just reached the second level ... You've only just reached it, right? It couldn't have been shot down, right?"

"I just got here, did you get shot down?" Lin Yi smiled.

"Who ... Who was shot down? You're talking nonsense, I didn't, I'm not!"

Daniya's face was slightly red. She had just made a slip of the tongue and revealed a flaw. Now, she immediately denied it three times, "I'm the heavenly comet of the strongest 36 heavenly stars in the ancient times. How can I be defeated by someone?"

"Don't think too much. I sensed your aura and came down to find you. Otherwise, do you think I would appear in front of you so coincidentally? What a joke! I'm the heavenly comet of the strongest 36 heavenly stars in the ancient times. Who can be my match? Do you believe that I can destroy the entire Star Cloud tower?"

Lin Yi couldn't help but smile. Daniya's strength was strong, but now ... It was obvious that she was just bragging. Even his spirit sense couldn't detect her, so how could she have sensed him and come down to find him?

A typical case of bragging without a draft!

But then again, to be able to force Daniya down, the opponent she met must be really strong!

"Yes, I believe you. Daniya, you do have the power to sweep through the entire Nebula tower. So who was the one who knocked you down?"

"Right, if you believe me, then I'm definitely right! I was ... Bah! Sima Yi, that's enough! I already said that no one can beat me down! Do you still not believe me?"

"I believe you, so what happened?"

Daniya couldn't help but pout at Lin Yi's patronizing attitude.

You're an Ace Double agent, do you think I'm a kid trying to trick you? Is there a mistake!

Forget it, I won't argue with this guy, I, lady Daniya, am a magnanimous person!

Daniya gave herself some mental preparation before pouting. "I met the group of people who were chasing me before. They joined forces to attack me. Of course, I'm not afraid of them. However, the star Cloud tower suddenly attacked me, and I accidentally fell down!"

"That's right, the first level of the astral stairs uses gravity, while the second level uses repulsive force. You haven't tried it before, right? Actually, the repulsive force of the second level is not too difficult. Our strength will not be affected too much. "

"It's just that you need to pay more attention during battle. I was not careful just now and was pushed out of the stairs by the force of the pagoda. Then, I was transported to the lowest step."

Daniya definitely wouldn't admit how powerful those Warriors were when they worked together, so she could only say that the repulsive force of the pagoda was too sinister and pushed her out when she wasn't prepared.

Lin Yi filtered out all the fake elements and understood the situation.

Before Daniya entered the Black Star River, she must have been entangled with the human experts who were chasing after her. After entering, with so many human experts, there would definitely be a group of them who would meet.

Even Lin Yi had run into Daniya on his own, and with so many people, it was easy to form a team. It was normal for them to ambush the target they were chasing.

Even if their original goal was to enter the star Ink River with the six star source instrument, now that they had achieved their goal, they would have no choice but to become enemies with Daniya. If they had the chance, how could they let her go?

"I understand! Which step were you ambushed at? Let's speed up a little and go up to take revenge on them, how about it?"

Lin Yi nodded with a smile, his words making the angry Daniya smile.

"Of course! I was just waiting for you to say that! We're the strongest of the 36 heavenly stars in the ancient times, how can we let this happen to us? We have to take revenge. Let's go, let's go!"

Lin Yi couldn't help but smile. This nickname that Daniya came up with out of excitement was now famous throughout the Tianji continent!

It was just a little awkward to say. Probably no one would say anything about the strongest 36 heavenly stars in the primeval era. They would only remember the Tianying planet and the Tianhui planet.

As expected, Lin Yi felt a repelling force as he stepped on the stairs. It wasn't a constant force, but it came and went. Just when he thought that everything was fine, or when he had used up all his energy, a new force would come and push him.

It wasn't a problem during normal times, but it could be fatal during crucial times. No wonder someone of Daniya's level of strength would be forced down the ladder.

After feeling the second layer's repulsive force, Lin Yi didn't think too much of it. After all, it was only the second layer, and it was at a level that even mountain opening realm martial artists could withstand.

"Daniya ..."

"Call me tianhuixing!"

Tianhuixing Daniya raised her head proudly, obviously very satisfied and proud of this nickname. She didn't forget to get into character even when she was with Lin Yi.

"Okay, master Tianhui, can we talk?" Lin Yi was speechless.

"Of course, speak properly! I didn't ask you not to speak!"

Daniya blinked innocently, thinking that Lin Yi was making things up ...

Lin Yi's mouth twitched as he scratched his forehead. "Let's get down to business. When the star Cloud tower opened, it seemed that many experts of the darkness demon beast clan had entered, and they were all quite powerful. I met a middle heaven breaking expert of the darkness demon beast clan on the last platform of the first level. "

"However, he didn't show much of his strength and was finished off by me as quickly as possible ... Did you encounter them? If they see you, will they recognize you?"

Daniya's expression did not change as she nodded, ""Yes, I did see them, but I didn't talk to them. After all, they must be up to something. I didn't receive any orders, so it's not appropriate for me to go there."

"As for whether they will recognize me, I don't think so. Unless I reveal my aura, they won't be able to see through me with my aura-concealing skills."

Daniya's eyes rolled twice, and she said without a care, ""I understand what you mean. You don't have to say it out loud. You want me to find an opportunity to get in touch with them, right? it'll be even better if I can get into their ranks, right?"

#### Chapter 9129 Power

It seemed like there was no way to end her career as a double agent. Daniya didn't want to do this kind of thing. If she really mixed into the darkness magical beasts, she didn't know what would happen.

Give Lin Yi the information on the dark Beast race? Or should he reveal Lin Yi's plan to the dark beasts? Even if she wanted to follow Lin Yi to the end before, once she was in the dark Beast clan, it was hard to guarantee that things would go back to normal.

Daniya rubbed her brows, thinking to herself that women's thoughts were indeed hard to guess. If even she couldn't guess what would happen, then it would be strange if others could!

Lin Yi looked at Daniya, who was rubbing her brows in a lonely manner. "I do have this intention, but if you don't want to go, it's fine!"

Daniya suddenly remembered what Lin Yi did in the world node. Indeed, it wouldn't affect Lin Yi's plan with or without her. If she helped, it would be easy to gain his trust as a true master of the dark Demon beast clan.

Even if she didn't help, Lin Yi could still pretend to be a Dark Demon beast and sneak into the enemy's camp.

It wasn't like Lin Yi hadn't done this before-in fact, he'd gotten used to it.

"It's a small matter, just leave it to me! I'll sneak in and check out the situation if I have the chance. "

Daniya agreed immediately. Lin Yi's condition was a lot better, but she was sure that he wasn't fully recovered yet. She'd rather go and play the spy game than let Lin Yi take the risk.

Besides, if she went, she might be able to keep the dark Beast Masters alive. If Lin Yi went, he could just plan and kill them without using force.

After all, they were of the same race, so they could at least have some feelings for each other. He would try his best not to let them all be annihilated!

Daniya's mind was spinning. She didn't realize that her trust in Lin Yi was almost blind. Lin Yi's injuries weren't healed yet, and she still thought that the heaven breaking dark beasts weren't his match.

He really ... Had good taste!

"Alright, then you should be careful too. Don't let them find out anything strange. Although you're strong, they have a lot of people. If your identity is exposed, you might not be their match!"

Lin Yi said a few words, and the deal was settled.

The two of them chatted leisurely and unknowingly climbed the 23rd step. The repulsive force of the second step was not a problem for them at all. Under the premise of mental preparation, it was impossible for the repulsive force to appear in a scene where it could lift a thousand Jin with just four Liang.

"Sima Zhong da! I've been waiting for you!"

Lin Yi didn't even have time to scan the place with his spirit sense when he heard a familiar cheer.

Lin Yi raised his head in surprise. Wasn't that the young miss of the Qin family, Qin wunian?

Not far away, Qin wunian ran over, unable to hide the joy on his face. It was only when he saw Daniya beside Lin Yi that he stopped in his tracks.

Daniya was a complete heaven-breaker, after all. She didn't purposely release her aura, but she didn't have to hide it when she was with Lin Yi.

Therefore, when Qin wunian sensed the aura of an expert on Daniya's body, his heart trembled, and he instinctively felt a sense of fear.

"Qin wunian ... Did you go through a random gate and get transported to the second level?"

Lin Yi seemed to be asking a question, but he was actually stating a fact. The person who was behind him suddenly appeared in front of him. If it wasn't a disguise, then she must have used the random door!

This luck ... Was much better than his own!

Qin wunian's face crumbled at Lin Yi's words, and he almost burst into tears. "Yup! I felt that both the gates of life and death were dangerous, and only the random gate was safe, so I chose the random gate. I didn't expect to appear here!"

Realization dawned on Lin Yi. Qin wunian had mentioned before that she used some sort of item to predict his movements. It seemed that she had a talent in this area, at least her sense of danger was stronger.

Other than relying on pure luck, the ability to predict the future was the most powerful weapon!

If he didn't guess wrong, Qin wunian had to face the door of death, the door of life with people waiting for him, and the door of random.

With her strength, the door of life that someone was waiting for was no different from the door of death. Therefore, the only way to survive was the random door. She was considered extremely lucky to be able to reach the second level directly.

"Isn't that good? You've saved a lot of trouble by coming directly to the second level. If you had come up from the first level step by step, I don't think you would have been able to appear on the second level!"

Lin Yi looked at her, confused. What was with that face?

"But I'm already at the top of the first level's platform," Qin wunian pouted. "Why didn't you give me the reward for the first level and sent me to the second level instead?"

Lin Yi couldn't help but chuckle. So there was such a thing-Qin wunian was teleported here without even getting the reward?

However, the information he had obtained earlier seemed to be sent up through a random door. It did not affect the reward for skipping levels, right? Did he change the rules here?

Wait a minute!

Lin Yi's smile froze, feeling a little guilty for some reason ... Could it be because of him?

It was obvious that Qin wunian had teleported here after he had entered the second floor. Why had he obtained the temporary skill, the indestructible astral body, which could be considered a heaven-defying life-saving skill on the first floor?

This was because the original rule of eight people opening the stellar gates to obtain the reward had been broken by him alone!

So, could it be that the rules of the others were changed because he obtained the star undying body divine skill?

It was very possible!

Lin Yi laughed dryly and tried to comfort her, "Maybe you haven't felt it yet, but when you reach the third level, all the rewards from the first level will be given to you?"

No matter what the truth was, there was no denying the existence of this possibility. Qin wunian's mood brightened up a little as he felt that Lin Yi's words made sense. After meeting up with Lin Yi, he felt much calmer.

With someone to carry him, it shouldn't be a problem to get to the third level, right?

"That's right, Sima Zhong da, who's that pretty big sister beside you? We've only been apart for a while, and you've already found a new partner?"

Qin wunian stopped thinking about the reward and turned his attention to Daniya, who was giving him a lot of pressure. If Lin Yi wasn't beside her, she would probably be too scared to even speak.

He only dared to ask about Daniya because of Lin Yi's presence.

In fact, she was also a little unhappy. They had only been separated for a while, so how did Sima Zhong da suddenly have a beautiful woman by his side?

Hmph! Scumbag!

Daniya didn't wait for Lin Yi to reply and smiled faintly, "Tianying planet, I also want to ask, who is this young lady? We've only just separated and you've already found a pretty girl to be your companion?"

Heh, men~

Chapter 9130 Power

Lin Yi felt an invisible electric current crackling in the air-the two women were worlds apart in strength, but it seemed like they were on equal footing again.

Sigh, women ...

Qin wunian was taken aback. When he heard Daniya address Lin Yi as Tian Ying planet, he immediately understood that this beauty in front of him was the legendary Tian yingxing!

Was the heavenly comet that young and beautiful? It was a little unexpected, but it wasn't hard to understand since Lin Yi was also young and handsome.

"Argh! Could it be that you're the legendary heavenly comet, the strongest of the 36 heavenly stars in the endless primordial era? I've long heard of your great name, it's like thunder piercing my ears! It's my great fortune to be able to meet you today!"

Qin wunian's reaction was quick, and he immediately sent a flattering message. She didn't know that this sentence had just scratched Daniya's itch.

Daniya immediately beamed with joy and nodded, ""Yes, yes, yes! I am the famous heavenly comet, the strongest of the 36 heavenly stars in the endless primordial era! Little sister, you have good taste. I've been keeping a low profile, but you recognized me at a glance!"

"As expected, the title of the strongest thirty-six heavenly generals has spread throughout the world. I'm really a little embarrassed!"

Lin Yi's mouth twitched, not seeing any hint of embarrassment in the girl's face.

"Sister Tianhui is as beautiful as a flower, devastatingly beautiful, and her temperament is out of this world. No matter how you try to hide it, people will be able to see through your true identity, just like the brightest star in the Galaxy!"

He didn't know what Qin wunian was planning, but he kept on farting like a rainbow. Lin Yi even suspected that Fei daqiang had taken over her body ... She wasn't like this before!

Lin Yi had no idea how flustered Qin wunian was. The appearance of the Tianying and tianhuixing planets was like a pair of bright Twin Stars. In a short time, the legends of these two masters had spread throughout the Tianji continent.

Now that Tianhui Xing was here, Qin wunian was afraid that Daniya would misunderstand her relationship with Lin Yi ... The problem was that she didn't know what kind of relationship Daniya had with Lin Yi. What if it was that kind of relationship and she was misunderstood as having that kind of relationship with Lin Yi?

The heavens pitied her. Qin wunian wanted to say that she was just a newbie in her mountain-opening stage! What if the heavenly comet decided to take him as the third party? wouldn't he die a miserable death?

At this moment, Qin wunian instinctively imagined himself in the scenario of a third party suddenly running into the first wife. Thus, in a state of panic, he only wanted to use all kinds of rainbow farts to pacify Tian Huixing so that she wouldn't be turned into ashes by a snap of his fingers!

It never crossed her mind that there was nothing going on between her and Lin Yi, so why would she feel guilty?

Fortunately, Daniya and Lin Yi weren't in a relationship, so she didn't think in that direction at all. This saved Qin wunian from an awkward situation.

At the same time, Qin wunian's ingratiating words made Daniya very pleased. The relationship between the two women rapidly heated up, and in a few words, they actually became closer. They were just short of going shopping while holding hands ...

Sure enough, as long as women had a good chat, they could quickly become best friends. It would be even more perfect if they had some common interests.

Lin Yi walked to the front, his face expressionless. The two women were so happy that they completely ignored him. Even when Lin Yi tried to speak, he was interrupted by them impatiently.

Forget it, I'll continue climbing the astral stairs!

As the two women chattered and laughed, the three of them arrived at the thirty-third step smoothly. They didn't meet anyone else along the way. Besides the fact that there were fewer people on the second floor, most of them were blocked on the first floor, which also showed that the repulsive force on the second floor didn't affect others much.

The Masters in front of Lin Yi were probably all climbing very fast-they all went up one by one, no one dawdling behind.

On the thirty-third step, Daniya finally ended her conversation with Qin wunian. She turned to Lin Yi, "The second level is different from the first level. You don't have to defeat others to pass the thirty-third level."

Lin Yi nodded. He received the message in his head the moment he stepped onto the stairs.

The thirty-third step of the second level didn't need to be fought over. As long as one found the right passage within the time limit, they could continue to climb.

In three minutes, find the correct path and climb up the 34th step. If you can't find it, you'll have to climb the first step again.

The search process was not smooth sailing, and there might be unknown dangers. If one was not strong enough, not prepared enough, or was not careful, it would not be strange for one to die Here.

Speckles of Starlight lit up, and the thirty-third step was vast and boundless. Three thousand three hundred speckles of Starlight lit up and turned into a Starlight door.

The number of Starlight doors would be given according to the number of people. On average, each person would have 1100 doors, and the more people there were, the more doors there would be.

If one person climbed up the 33rd step alone, then one of the 1100 doors would be the correct one. Lin Yi had three people now, so only one of the 3300 doors would be the correct one!

Lin Yi was already imagining what would happen if a hundred people came up in a group ... There was a one in a hundred thousand chance that their heads would split open, right?

"Sima Zhong da, this test is a bit difficult! Only one of the 3300 doors is the correct passage, and we only have three minutes. What should we do? We'll split up and search?"

Qin wunian's expression changed slightly. She was very clear that she had become the one who was dragging them down!

Even if they found the right door, they still had to enter it. If they split up, she would be at one end and the passage on the other. It was uncertain if they could make it in time!

Daniya glanced at Qin wunian and said, ""Three minutes should be enough under normal circumstances, but no one knows what will happen in the middle. I was just lucky to find the right door after searching through more than 150 doors."

"If we're unlucky, we probably won't be able to make it in time if we have to reach around a thousand. There are all sorts of traps and attacks behind those doors that are impossible to guard against."

Only then did Qin wunian realize that Daniya was someone who had already gone through it once. Even the Grand Tianhui star had to start all over again. She was even more apprehensive about her future.

Daniya explained a few of the dangers she had encountered, but they were basically random events that didn't repeat themselves. It wasn't easy to summarize some of her experiences.

"I'll be in charge of this end and search from the edge to the middle. You go to the other end and start searching from the middle. Qin wunian will start from the middle. You can go anywhere you want."

After the introduction, Daniya made some arrangements. She and Lin Yi were strong and fast, so they searched from the sides to the center, shortening the distance between them.

Once the true passageway was discovered, it would be convenient for them to enter.
