

Bodyguard 9131

Chapter 9131 The End

Qin wunian was the weakest, so he'd stay in the middle and let fate decide. No matter which side found the tunnel, she'd be closer. It'd be even better if she found the tunnel, Lin Yi and Daniya would be able to meet up faster.

The three-minute timer had not started yet. It would only officially start when someone stepped into a certain range, so Daniya could leisurely introduce the situation and make plans.

Qin wunian felt slightly relieved, but also a little ashamed. If the three of them were to split the loot equally, each of them should have searched for 1100 gates of Starlight. However, Tian Huixing did not even mention the number. It was obvious that she was given free rein.

100 or 200 was not a small number, but 3400 was more than expected.

"No need for that, leave it to me!" Lin Yi waved his hand.

It's just 3300 gates of Starlight, what's the big deal?

With the thousand transformations activated, almost a thousand Lin Yi's appeared on the 33rd step in a short time!

Daniya and Qin wunian were both stunned. They had never seen Lin Yi use this move before, and it was their first time seeing it.

"This is one of my martial arts techniques. It can only be used in the star Cloud tower. It can't be used when we return to the sub-Island, so you don't have to be too surprised."

Lin Yi explained with a smile. With a wave of his hand, all his clones rushed into the Starlight gate. The three-minute countdown had officially begun.

With so many clones, each of them only needed to check three to four gates to complete the mission. Lin Yi was worried at first, what if the appearance of the clones increased the number of gates.

When the first level required eight people to open the stellar gates together, the clone was considered a living person. If it was the same now ... There would be millions of stellar gates. Just thinking about it made one feel despair!

Lin Yi would probably have to go back and climb the mountain again.

Fortunately, the 3300 gates of Starlight had been fixed in place. When the clone rushed over, no new gates appeared. However, countless stars began to flicker around him, as if he was hesitating whether to form new gates.

"Tianying planet, you actually still have such a method! It's really amazing, amazing!"

Daniya couldn't help but click her tongue in admiration and then said,""However, you better hurry up. I think new gates of Starlight are about to be born. The number this time ... Will make people despair! Before that, we have to find the right passage!"

"Don't worry, I won't delay anything!" Lin Yi smiled.

The nearly 1000 avatars activated the Thunder escape technique and turned into streaks of lightning as they flashed to the various Starlight gates. Without any hesitation, they extended their hands to push the Starlight gates.

Almost at the same time, seven to eight hundred clones were hit by the Starlight gate's counterattack. All kinds of strange attacks appeared, and Lin Yi's clones were killed without any resistance.

The remaining clones were not attacked, but they did not find the right entrance.

In a short period of time, nearly one-third of the targets had been eliminated, and the correct choice was in the remaining two-thirds!

Daniya's expression changed and she cried out,""How could this be? Why did the offensive power of the Starlight gate increase so much?"

One had to know that the second level was still at the level of a mountain's opening. If not for that, Qin wunian would not have followed them up.

The gate of Starlight on the thirty-third step not only tested luck, but also speed. In addition to the basic repulsive force, there were all kinds of unexpected attacks, traps, and so on. It was very easy for mountain opening stage and earth splitting stage cultivators to be forced down and start over.

In other words, the power of this attack was not enough to threaten Warriors above the sea splitting stage!

Daniya was someone who had experienced it herself, so she naturally understood this very well. She didn't think that the power of this attack would increase so many times that it could even kill Lin Yi's sea shattering realm clone with one strike!

Lin Yi wasn't surprised at all. He smiled faintly, "It's normal. My method seems to be cheating. Thus, the measures taken by the pagoda have become much more intense."

"I'm already very surprised that you didn't kill all my clones at once! But it doesn't matter, it's just a clone, if it's killed, it can be Reborn!"

As he spoke, Lin Yi continued to activate the thousand changes of wood and forest, and the doppelganger reappeared in front of the unopened gate of Starlight.

It was clear that the self-repair process of the pagoda was a process. If it were Lin Yi, he would have created a Starlight door that corresponded to the number of clones. That was reasonable.

The star Cloud tower, on the other hand, didn't react immediately. As long as the Starlight didn't turn into doors, Lin Yi only had to deal with the first 3300 doors.

Daniya's mouth was wide open and she was speechless. Were these clones immortal? It seemed like there was nothing to worry about!

The newly-born and the remaining clones relied on the extreme speed of the Thunder escape technique to check nearly a thousand Starlight gates at once. This time, the counterattack of the pagoda was even more powerful and brutal. All the clones were destroyed in an instant.

The correct passage still had not appeared!

The surrounding Starlight began to grow brighter and brighter. Every speck of Starlight seemed to be swaying as it prepared to transform into a Starlight gate.

Once the new gate was formed, there would be millions of targets. Even if Lin Yi had the thousand forest transformation and lightning movement, he wouldn't be able to finish the search in time!

Fortunately, the new ones had yet to truly appear, and there were only about 1300 left from the beginning!

The thousand transformations didn't stop there. Lin Yi created a new batch of clones the moment the star Cloud tower destroyed them. They rushed to the undetectable gates with lightning arcs.

If it was someone else, even if they knew the thousand changes of wood and forest, they wouldn't be able to do what Lin Yi did. Without the endless spiritual Qi in the Jade space to convert into Qi to

replenish his consumption, Lin Yi wouldn't be able to continuously create so many sea shattering realm clones!

Daniya and Qin wunian were already completely numb. Everything had happened in a short one or two seconds, and the continuous shock had reached their heads. It seemed like they had gotten used to it ...

"I found the tunnel! Let's go!"

The third batch of doppelgangers had also suffered a fatal blow. They were almost completely annihilated, and only one doppelganger had survived. That was a treatment that could only be obtained after finding the correct passage!

He was very lucky!

There were only about 300 of the first batch of gates left, but Lin Yi didn't have time to send his clone to check. New gates had been formed, and if he didn't succeed this time, he'd have to try his luck in the million-level ones!

Fortunately, Lin Yi's luck had always been good, and this time was no exception!

Chapter 9132

After finding the correct path, even if there were millions of new doors, they wouldn't change the correct path because Lin Yi's clone was guarding the opened path.

Lin Yi reached out his hands and pulled the two of them into the tunnel. Who knew what would happen if they didn't leave now? they weren't in a hurry, but they didn't need to waste time starting over.

Xingyun tower's reaction was considered fast, but Lin Yi was even faster. He used the thousand forest transformation to find the right entrance in an instant.

When the million star gates formed, the three entered the correct path, and all the gates faded back to their original weak Starlight.

The repelling force from the thirty-fourth step was easily neutralized, and only Lin Yi's expression was calm as he made his way up the stairs, not minding what happened at all.

Daniya and Qin wunian, on the other hand, still hadn't recovered from the shock. Even though Lin Yi had pulled them up the thirty-fourth step, their faces were still filled with shock.

An endless stream of sea Rift stage clones that could transform into lightning arcs and move thousands of miles in an instant ... This was a super Army that he carried with him!

Daniya was thinking that if Lin Yi had used these two moves in the node world, he wouldn't have to worry about being hunted down. He was a powerful Army, and it was not certain who would be besieged and annihilated!

On the other hand, Qin wunian was thinking that this was the true strength of Sima Zhongda, the strongest of the thirty-six heavenly stars in the endless primordial era.

No wonder he could easily break out of the encirclement of hundreds of sea splitting stage and heaven breaking stage cultivators. If I had such a heaven-defying skill, I could do it too!

"Aren't your two moves too powerful? It can only be used in the star Cloud tower?"

After Daniya calmed down, she found something to be interested in and elbowed Lin Yi's arm. "I can learn, right? Why don't you teach me?"

She didn't need to be polite with Lin Yi-if she was interested, she'd just ask. It wasn't like Lin Yi didn't teach her anything before, for example, how to train her spiritual sense. To Daniya, those things were no less valuable than the two skills Lin Yi just showed her.

Lin Yi smiled, "you can learn it, but you won't be able to use it even if you learn it. Using these two skills requires a type of energy called pure Qi. You can't cultivate pure Qi in the star Cloud tower, so you won't be able to use the skills even if you learn them."

The star Cloud tower didn't restrict the use of Qi, but it couldn't provide an environment for Qi training. If it weren't for the endless supply of Qi from the Jade space, Lin Yi wouldn't be able to use those skills without any restraint.

If the true Qi in his body was used up in a short period of time, the star Cloud tower would not provide him with Reiki to replenish it.

"Ah? You mean to say that in order to use this martial technique, you need to first cultivate a type of energy called true Qi?"

Daniya sighed, "what a pity!" I also want to transform into lightning and create hundreds or thousands of clones with a wave of my hand. Just thinking about it is already very impressive!"

She still wanted to learn Lin Yi's skills and train her pure energy, but since Lin Yi said that she couldn't train in the star Cloud tower, she had to give up on that idea.

After all, the benefits of the star Cloud tower were tangible and she had to race against time to obtain them. She couldn't possibly waste her time on cultivation that had no effect.

Only at the current stage could cultivation greatly increase one's combat power, so it was worth the time to try.

"We'll talk about it in the future when we have the chance. After all the problems are solved, I'll bring you to a place where you can cultivate true Qi. Then, I'll teach you all of this!"

Lin Yi wasn't stingy with his teaching-he'd teach anyone he recognized as his partner, as long as they were willing and suitable for it.

When the matters in the heaven's legacy continent were over and he returned to the starsource continent, he would let Daniya cultivate in the nine-story glazed Pagoda for a period of time. The nine-story glazed Pagoda allowed one to cultivate true Qi, so naturally, one would be able to use these skills. The only obstacle was whether Daniya had the aptitude to learn these skills.

Lin Yi glanced at Daniya. He didn't notice if she had the wood or lightning attributes before. If she didn't, she wouldn't be able to learn the thousand forest illusions and lightning escape.

There was no rush to mention this matter. He would see when the time came.

Qin wunian was envious-she wanted to learn as well ... If Daniya wasn't there, she might have asked to learn from Lin Yi.

Now, however, there was a difference between close and distant. It was better to watch quietly. After all, they were two stars of the strongest thirty-six heavenly stars in the ancient Supreme and endless desolation. They were true companions, and she, Qin wunian, was picked up on the road by the Tianying planet ...

She had even specially designed this. Just thinking about it made her lose her confidence.

After a few words, the two girls got used to Lin Yi's strength and quickly returned to their previous state, holding hands and talking and laughing, ignoring Lin Yi.

Lin Yi was already used to this!

After climbing another seven or eight steps, the stars at the top of the second level lit up. This meant that someone had passed the second level and officially entered the third level!

"Tianying planet, the second layer has also been broken through. Should we speed up?"

Daniya finally felt a sense of urgency when she saw the second floor light up,""You even said that you would help me find my enemy to take revenge. This carefree look, no matter how I look at it, there is no sincerity! We're climbing the star Cloud tower, do you think this is a game?"

Lin Yi couldn't help but chuckle. The two of them were chatting so happily like they were going on a walk, and now they were blaming him?

Am I the one wasting time?

"You're right. Let's speed up!"

Lin Yi didn't argue-there was no point in doing so. He'd better hurry up and stop wasting time.

Daniya giggled. She didn't think that Lin Yi was a coward-she thought that Lin Yi backed off because they were intimate.

The three increased their speed, and Lin Yi asked Daniya,"Which floor did you come down from? Did you reach the sixty-sixth step?"

The experience from the first level was already useless on the second level-it was evident on the thirty-third step. If it weren't for Lin Yi's speed, he'd have to start all over again on the first step.

That was why Lin Yi wanted to ask Daniya if she had any information on the sixty-sixth step.

"I didn't reach the sixty-sixth step. At the sixty-fifth step, I was ambushed by those despicable villains, which was why I lost my footing and fell. Speaking of which, I have to thank them. If they hadn't ambushed me, I wouldn't have been able to meet up with you!"

Daniya was still indignant when she said the first half, but she immediately smiled like a flower when she said the second half.

Chapter 9133

It wasn't easy to encounter one in the star Cloud tower. Each level had eight staircases, and to reach the top, one would be randomly assigned to one of them.

During this period, they would also fall back down due to various reasons. Even if they were on the same starry stairway, it was not easy for two people who were separated to meet each other.

Daniya and Qin wunian were extremely lucky to be able to meet up with Lin Yi.

"Why did they attack you on the sixty-fifth step? If it's the sixty-sixth step, it'll be easier to understand ..."

Lin Yi frowned-the situation on the sixty-sixth step aside, the sneak attack on the sixty-fifth step, with so many people working together, looked like it was planned!

Were they deliberately targeting Daniya, or were they going to ambush whoever reached level 65? Daniya just happened to be there and wasn't the main target?

"They must have been eyeing me for a long time. They didn't get any advantage from me before and even suffered a lot of losses, so they are resentful and secretly planning to deal with me!"

Naturally, Daniya was talking about the practitioners "conspiracy theories, while Lin Yi was thinking about whether there were people waiting to be killed on the 66th step.

It was just like what he had done on the first level. At that time, the people behind him didn't dare to go up to the sixty-sixth step, and could only gather on the sixty-fifth step without moving.

However, the second level should be different from the first level. Perhaps there were other reasons for those who stayed on the sixty-fifth step?

"Let's go up and take a look first. Whether or not they're targeting you, it's been so long, they shouldn't be staying on the sixty-fifth step, right?"

Lin Yi didn't continue guessing-there were too few clues, and there was no point in making random guesses. It was best if he could find them, and the truth would come to light.

The sixty-fifth step wasn't far away. The three of them consciously increased their speed and soon reached the sixty-fourth step.

Lin Yi himself wasn't afraid of any ambush, but Qin wunian was in the team. For safety's sake, he used the thousand changes of wood and forest to create a clone to Scout the way.

In the end, he only found loneliness.

There was no one on the sixty-fifth step, only specks of Starlight.

"Those damn despicable people must have run away after the fight!"

Daniya had expected this, but she was still a little indignant. "They better not fall into my hands. I'll make them pay for it!"

"Don't worry, they won't be able to escape! If they're not here, they must be up there. If we chase after them, they won't be able to retreat unless they've already been knocked down. "

Lin Yi comforted them as he led the two to the sixty-sixth step. The three received a message from the star Cloud tower at the same time.

In addition to the usual benefits that could be obtained by choosing to withdraw, there were also conditions that needed to be met to continue climbing.

On this step, a Star Beast of any race would be randomly condensed by the star power, and its strength was 10% of the total strength of all the humans on the 66th step.

Simply put, if Lin Yi came up alone, the star beasts would be 1.1 times his strength. For example, if Lin Yi's strength was 100, the star beasts would be 110.

And now there were three people. If the total of the three people was 200, the Star Beast value that appeared would be 220!

Lin Yi was speechless-this was the same as the thirty-third step! The more people there were, the less cost-effective it was!

Fortunately, there were only three people on his side. It was not too outrageous to have 1.1 times the sum of the three people. If it was 100 heaven breaking cultivators ...

It was simply unimaginable how powerful a Star Beast condensed from star power would be!

No matter how they joined forces, the individual strength of many individuals could not be compared to the existence that was higher than their total strength.

"No wonder those bastards are hiding on the sixty-fifth step. They must have gotten the news of the sixty-sixth step, so they're deliberately waiting for them to pass one by one, right?"

Daniya came to a realization when she received the message, and the anger in her heart grew. So she had really been dealt with in passing?

If the other party had seriously ambushed her, it meant that they were valued. But now that the truth was out, Daniya's mind was a little unbalanced. Was this lady a sheep that you had stolen?

"Tian Huixing, you will be the main attacker later. I have yet to recover from my injuries, so I will be in charge of commanding!"

Lin Yi smiled and changed the topic. "The three of us will form a battle formation. It won't be a problem to deal with that Star Beast."

With Lin Yi's skill in battle formations, it wasn't hard for him to combine the three people's strength into one and double it.

Dealing with the star beasts could be said to be easy and pleasant.

Other people might be in a difficult situation facing the Star Beast under this rule, but Lin Yi was definitely not one of them.

Without a Grandmaster in battle formations like Lin Yi, they wouldn't be able to use their full strength even if they had a battle formation.

Let's put it this way. For the same three people, each person's combat power was 100. If they worked together, it was normal to be able to exert about 150. After all, when they worked together, it was not as simple as one plus one equals two. It was possible that one plus one would be less than one due to the influence of each other.

If they formed a battle formation, at least they wouldn't be affected by each other. Then, using the battle formation to increase their strength, it would be good if the three of them could reach 250 or 260.

Facing a 330-strength Star Beast, they would definitely be suppressed. Lin Yi's battle formation was based on the three people's combat strength, and with the starting point of 300 and doubling it, it would be 600.

This was the advantage of Lin Yi's battle formation compared to the main battle formations on the sub Island. It was also the reason why martial artists who learned Lin Yi's battle formation were always successful!

"Don't worry, leave it to me! With the presence of my famous Supreme ancient being, the strongest of the 36 heavenly stars, the heavenly comet, any Star Beast is nothing!"

When Daniya mentioned her resounding nickname, she immediately became full of energy and extremely tsundere.

Lin Yi, on the other hand, was having a headache-what kind of nickname was this, with a famous title in front of it?

As he spoke, the information in his mind was completely digested. The star Cloud tower must have felt that it had given them enough time to understand. Hence, the stars on the steps began to shine brightly. The power of the stars began to gather at a point like a vortex, and began to form star beasts.

Lin Yi commanded the two girls to form a battle formation. This time, they just needed to pass the test easily. There was no need to use skills like the thousand changes of wood and forest. According to his previous experience, if the clones were counted in the number of people, the Star Beast's strength would increase dramatically, and it would be a big problem.

He could form a battle formation with his clones as well, but he wasn't sure if he was at the mid-stage of the heaven breaking realm or the sea splitting realm he could only use right now. Was the power of the doppelganger based on the strength of the original body or the strength of the doppelganger?

The difference was too big, and Lin Yi didn't want to test it out. He'd be happy if he could get through this easily. He wasn't a masochist, so why was he looking for trouble?

Chapter 9134

Qin wunian followed the two big shots and enjoyed the happiness of being carried by them. He was in a very relaxed mood and said with a smile, ""What kind of Star Beast do you think will be formed? It could be any race in the information. "

"I hope they're cute. Cats and dogs are good, but they're so cute. What if we can't do it?"

Daniya laughed and said domineeringly, "You're thinking too much. There's nothing I can't do. It's not your turn to do it anyway. Don't worry and just watch from the side. "

Qin wunian thought about it and agreed. She was just an existence who waved flags and shouted ' 666', so what was there to consider and not do it?

The atmosphere was very relaxed. They were just waiting for the Star Beast to appear and Daniya would slap it to death before continuing on her way. However, they didn't expect an accident to happen!

More than a dozen figures suddenly appeared on the 66th step. Each of them had a very powerful aura. The weakest one was a half-step heaven breaking cultivator, and there were only two of them. The rest were all heaven breaking cultivators!

The strongest among them had even reached the peak of the middle stage of heaven breaking!

Qin wunian's face paled when he sensed such a powerful aura. He was instantly flustered. Where did this troublemaker come from at this critical moment?

The star power that was about to condense into a Star Beast suddenly paused. Daniya's eyes widened as she looked over and found that the star power had completely stagnated. It didn't continue to condense the Star Beast, nor did it dissipate, as if the pause button had been pressed on the screen.

Lin Yi rubbed his forehead helplessly-accidents could happen at any time!

The Star Beast didn't continue to condense, which meant that the people who came later had also been counted in by the star Cloud tower. Now, the stagnation was to give them time to receive and digest the information!

After scanning with his spirit sense, Lin Yi had a rough idea of the group's basic information. There were seventeen people in total-two half-step heaven breaking cultivators, one mid heaven breaking cultivator, two mid heaven breaking cultivators, four early heaven breaking cultivators, and the rest were all early heaven breaking cultivators.

This strength wasn't weak at all. In other words, the boost it gave to the Star Beast was extremely terrifying. Lin Yi couldn't guarantee that the three of them could still fight the Star Beast with ease.

No, I'm afraid it's not a problem of being able to handle it with ease, but a problem of being able to protect myself!

This was really troublesome!

"The more people there are, the stronger the Star Beast will be?"

The strongest of the group was a bald man, and he was the fastest to digest the information. He looked at Lin Yi and the others with cold eyes, "Although they're just three small fries, it's better to reduce the burden at this time!"

The bald man appeared in front of Lin Yi and the other two in a flash, speaking arrogantly, "If you choose to give up, I'll spare your lives! Otherwise, don't blame me for being ruthless!"

He probably thought that before the Star Beast had condensed, reducing the number of people on the steps would make the Star Beast less powerful. Moreover, it wouldn't be able to exert its combat power with unfamiliar people, and it would be a burden because of the mutual influence.

Therefore, it was necessary to be clear about the unstable factors before the start. This idea couldn't be said to be wrong. The mistake was that he didn't know the strength of the person he was going to face!

Qin wunian was well aware that he was just a newbie in the beginning stages of his cultivation. The bald man probably couldn't understand how a newbie in the beginning stages of his cultivation could appear before him.

Not important! In any case, he was just a rookie in the beginning stage.

Lin Yi, on the other hand, didn't pretend to be a mountain opening stage rookie anymore. Since he could use the strength of a sea-shattering cultivator, he didn't really lie to his opponent.

The two of them were not threatening at all, so the bald man was very relaxed, and even looked down on Daniya.

Daniya's aura was hidden very well, and with her strength, even the bald man couldn't see through her. Naturally, he thought that she was at the same level as Lin Yi.

He had never thought that Daniya was an expert that he and his allies could not afford to offend!

Lin Yi frowned and said in a low voice, "Get lost!"

I didn't even bother about you guys ruining my business, and you're still here to talk nonsense? If it wasn't for the fact that the Star Beast could form at any time, Lin Yi would've just slapped it.

The bald man's expression changed, and he sneered, ""You don't know what's good for you!"

He didn't waste any more time since the Star Beast could appear at any time. As he spoke, he sent a slap towards Lin Yi's face.

What Lin Yi didn't do, the bald man did!

Unfortunately, he couldn't finish it, and Lin Yi didn't even need to care about him because Daniya made her move!

The three of them were already in battle formation. Daniya's attack was not only her own strength, but also the amplification of the battle formation. Her speed was as fast as lightning, arriving first even though she moved later!

The bald man had just moved when Daniya's slap landed on his face. With a crisp slap, the bald man was instantly sent flying, falling straight down like a kite with a broken string after reaching a high point, and just happened to crash into his companions "team.

"Who gave you the courage to attack us? Are you looking to die?"

Daniya's face was frosty as her cold eyes swept over the Warriors, finally landing on the bald man who had lost a few teeth.

At this moment, the bald man's eyes were filled with shock and blood was foaming from his mouth. He struggled to stand up and looked at Daniya with fear.

The strength Daniya displayed had already exceeded his imagination, and even made him feel powerless as if he was no match for her.

"You'd better choose to give up now, or later ..."

Daniya had originally wanted this person to leave the sixty-sixth step on his own accord. Perhaps he would be able to change the situation before the star Cloud tower condensed a Star Beast. Unfortunately, before she could finish speaking, the stagnant star power once again swept out, and the image of a ferocious beast quickly took shape.

Under the starlight, a Tiger with a single horn and a pair of wings on its back appeared in front of everyone. It was three feet tall and four feet long. Its body formed by the power of the stars seemed to be invisible, but it also had a heavy feeling.

His star-like eyes coldly looked down at everyone on the steps, as if he was a King descending from the heavens, and an invisible pressure surged like a tide.

This was a Star Beast that had fused with the strength of all 20 people present and increased by 10%. Just the invisible pressure alone was enough to make the two half-step heaven breaking cultivators lose their balance and almost fall to the ground.

The other heaven breaking cultivators weren't having a good time either. Each and every one of their faces was flushed red, and they were already using all their strength to resist the astral beast's pressure. On the other hand, Qin wunian, this little mountain opening stage rookie, was doing it with ease and ease because of the protection of the battle formation. He didn't feel that it was too hard.

"So strong!"

Daniya's expression was grave, and she no longer paid attention to those martial artists. Instead, she turned her attention to the Star Beast, "Sima, is it possible for us to defeat this Star Beast? I don't think it'll be easy!"

Chapter 9135

She couldn't even be bothered to call Lin Yi "Tianying planet" anymore-it was clear that the pressure from the Star Beast wasn't small.

"I just don't think it'll be easy," Lin Yi said with a smile. That means there's a chance of winning. You already have the answer, so why do you still need to ask me?"

Daniya was startled. When she thought about it, it was really like that. When she spoke, she subconsciously felt that the pressure of facing the Star Beast was great, but it wasn't invincible!

Lin Yi's heart felt heavy as he finished speaking. The pressure from the Star Beast was extremely huge, and he was just trying to comfort Daniya.

After the Star Beast was completely formed, it opened its big mouth and let out a silent roar at the people on the steps. An invisible shock wave suddenly exploded, and the huge thrust almost blew the people away.

The seventeen martial artists had already taken the lead in making a defensive response, but they didn't form a whole. Two martial artists half a step into the heaven breaking stage forcibly left the platform and became airborne.

The horn on the Star Beast's forehead flashed, and two streams of star power, faster than lightning, easily entered the bodies of the two martial artists who were half a step into the heaven breaking stage.

The two of them, who were panicking because of the sudden floating, had no ability to resist at all. They could only watch helplessly as the two streams of star power hit them. When they wanted to resist, they were shocked to find that their bodies had already exploded from the star power!

Two blood-colored fireworks exploded in the air, mixed with many bright stars. It was unexpectedly poignant, but the heaven breaking cultivators who witnessed this all felt a bone-chilling coldness from the bottom of their hearts.

Instant kill!

Although it was said that he had killed two half-step heaven breaking experts in seconds, and most of them could do it under certain conditions, the Star Beast obviously didn't use much strength.

It was just a casual roar, and then two normal attacks from the horn!

It was too easy!

"Join forces! Hurry up and join forces!"

Several of the remaining 15 heaven breaking cultivators were shouting loudly, and blue veins were popping out on their foreheads. They knew that this was a serious matter, and they would definitely die if they fought one on one!

The Star Beast in front of them was 1.1 times the combat power of everyone on the sixty-sixth step combined. No one could fight against the Star Beast alone, and the only way to survive was to join forces!

Unfortunately, these heaven breaking cultivators didn't come from the same power. They were only a motley crew that had temporarily joined forces for the rich benefits in the star Cloud tower. There was no tacit understanding between them at all. It was too difficult for them to quickly form a battle formation with combat power.

In a hurry, they could at most form a low-level battle formation that was the most widespread on the continent, the kind that increased power by a little bit better than nothing. However, they had not

discussed who could take the role of commander in advance, so chaos was inevitable in the process of forming the battle formation.

The Star Beast wasn't interested in waiting for their entire team to fight again. It seemed to be very keen on finding the weakest point to launch a precise attack, just like the two half-step heaven breaking cultivators just now.

Qin wunian was the weakest among them, but because of Lin Yi's battle formation, he wasn't the weakest. The Star Beast didn't pay attention to Lin Yi and continued to focus on the fifteen martial artists.

The Star Beast's body seemed huge, but its movements were extremely light. With a slight push of his feet, he appeared behind the fifteen heaven breaking stage cultivators like a Swift breeze.

Its two hind legs stood upright, and its two front claws slammed together as if it were swatting a fly. The weakest heaven breaking cultivator didn't even have the chance to make a sound before he was smashed into pieces by the two claws.

"Dammit! You animal!"

The other heaven breaking cultivators who had reacted roared again and again, but unfortunately, the damnable one was already dead, and it was too late for them to save him.

As for the various attacks that they launched out of anger, they only caused a series of small ripples when they hit the Star Beast's body. They didn't cause much damage to the Star Beast.

Lin Yi's eyes narrowed, his heart heavy.

Compared to the sixty-sixth step of the second level, this Star Beast was a bit too powerful.

Normally, even mountain split stage martial artists had a chance to pass the second level's sixty-sixth step. However, it had now become a hell of slaughter. Even heaven breaking stage martial artists were killed in an instant. The difficulty of this was evident.

If Qin wunian had been here alone, Lin Yi would've thought that he had a high chance of passing. But now, even with the formation's support, Qin wunian had no right to interfere.

"Sima, this damn thing is too strong. We have to take action. If we wait for him to kill all those people, it will be even more difficult for us to deal with him!"

Daniya steadied her mind and said in a deep voice,""Although I don't really want to save them, if the lips die, the teeth will be cold. We still need these shields to help us. Let's do it!"

Lin Yi thought that the Star Beast wasn't a ghost-it was still in the Jade space!

However, Daniya was right. Once the Star Beast dealt with the heaven breaking experts, it would be even more difficult to deal with them.

They were all in the same boat now, and they couldn't escape. Lin Yi nodded and made the two attack.

In a three-man formation, Daniya was the main attacker, Lin Yi was in charge of commanding, and Qin wunian was in charge of gathering the numbers.

After increasing her speed to the maximum, Daniya's attack instantly landed on the Star Beast's next route of movement, slightly blocking its attack.

The other heaven breaking expert, who had almost been killed by the Star Beast, turned pale. He instinctively retreated with all his strength, distancing himself from the Star Beast.

This guy's forehead was covered with fine cold sweat, and his eyes were flickering. He had just returned from the gates of hell, and the fear in his heart was indescribable.

Not waiting for the others to call out to him, his figure flickered, and actually directly disappeared!

"Fuck! That damn coward actually chose to escape and give up!"

Some people saw this scene and immediately cursed. After the appearance of the Star Beast, other than the outcome of clearing the stage and continuing to advance or being shot down or killed by the Star Beast, they had no choice but to go up or down the stage.

The only choice he had was to give up on staying in the star Cloud tower and end his journey there. He would be teleported out immediately!

Those who chose this method would be rejected by the star Cloud tower and would have to search for opportunities in the star Ink River.

Because of the Star Beast's ferocity, the heaven breaking expert had decisively chosen to give up. At least he had managed to save his life. After all, the Star Beast had killed three experts in a row, and all of them had been killed in seconds. He didn't even have the chance to drop to the lower levels.

The Star Beast was stopped by Daniya, and his cold eyes swept over Lin Yi and the other two. His body flashed, but he didn't go after Daniya. Instead, he continued with his previous strategy of picking on the weak.

Chapter 9136

This time, many of the heaven breaking experts were on guard, but they still couldn't resist. The power of the basic battle formation they formed was too small, and even their own fighting strength couldn't be fully displayed, so how could they resist the Star Beast?

The heaven breaking cultivator who had been chosen by the Star Beast put on a tight defensive posture and took the Star Beast's claw head-on. Then, he was sent flying by the huge force, and in the air, blood spurted out of his mouth.

Fortunately, he was still alive and hadn't been killed by the Star Beast, but the injuries on his body were also extremely serious, so it was basically impossible for him to participate in the battle.

Before he even landed, the heavily injured patient no longer hesitated and chose to give up. He was teleported out of the star Cloud tower. After all, no matter how many benefits the star Cloud tower had, it was not as important as his life!

After the first and second one, the rest of the people were scared witless, and several of them chose to give up. There were seventeen people at the beginning, but after three of them were killed by the Star Beast, a wave of people immediately gave up, and in the blink of an eye, only five people were left!

The Star Beast didn't pursue those who chose to give up. As long as someone chose to give up, even if it had already locked on to them, it would change its target at the last moment. It should be because those who gave up had a special fluctuation, which prevented their last way to live from being cut off.

"You five, come over and listen to my command!"

Lin Yi didn't know what to say-a practitioner who could reach the heaven breaking stage should be someone with a strong will, who would've thought there were so many idiots!

If they didn't run and followed Lin Yi's command, they might have a chance to defeat the Star Beast. Now that they ran, the Star Beast was still as strong as before, and the rest might not have a chance.

What a pig-like teammate!

The remaining five heaven breaking cultivators were wavering between giving up and persevering, and finally chose to continue. Hearing Lin Yi's words, one of them couldn't help but yell,"Who the hell are you? Why are you still acting like a big Shot at this time?"

"If you want to help, then hurry over! Although the three of you aren't that strong, you can at least attract the Star Beast's attention!"

These five were the best of the original seventeen, and their formation was stronger than the previous dozen. They'd seen Daniya's strength, but they still didn't want to accept Lin Yi's command.

They even ignored Daniya's strength and wanted Lin Yi and the other two to be their cannon fodder to attract the star beasts' attention. They deserved to be unlucky for scheming in a life and death situation.

Lin Yi didn't know what to say-teammates weren't just people who gave up early, the remaining five were no different.

"Sima, ignore them! Let's look for the Star Beast's weakness ourselves. Bringing the five of them with us will only drag us down!"

Daniya sneered. She also looked down on the five heaven breaking cultivators and felt that they were not worthy of being called her teammates, even if they were temporary!

Lin Yi nodded and turned to Qin wunian."If you feel that something is wrong, choose to give up immediately. The Star Beast will not kill those who give up."

The danger level of the Nebula tower was higher than expected, and Qin wunian was too weak. Lin Yi felt that giving up now might not be a bad thing for her.

After all, he couldn't take care of her all the time. If she encountered the forced isolation on the first level of the Ninety-ninth step, she would have to rely on herself to explore.

"I know, don't worry!"

Qin wunian didn't waste any words and agreed with a solemn expression. She valued her own life very much and would definitely choose to give up if things didn't go her way. After all, she was the only young lady left in the Qin clan.

The Star Beast didn't care what the other eight people were talking about. It was still looking for the weakest point and slowly eating them up. The five heaven breaking stage cultivators thought that they would be more relaxed after Lin Yi and the other two arrived, and the Star Beast might change its target to the three of them.

Unexpectedly, the Star Beast didn't change its target and continued to stare at the battle formation formed by the five of them.

"Dammit, why is this beast staring at us? Those three were clearly easier to deal with!"

The martial artist who asked Lin Yi and the other two to go over roared in anger, expressing his confusion at the Star Beast's actions.

Daniya retorted without mercy, ""Do you still not understand? Star beasts are only interested in the weak. If you're weak, why are you still being reasonable?"

"Don't say anymore, focus on dealing with the Star Beast!"

Lin Yi directed the formation to work, and while the Star Beast was distracted, he went around and attacked it from the back. Daniya attacked with all her might, but she still didn't cause much damage.

Each attack would at most blow up a piece of the Star Beast's body, but under the circulation of the star power, it would quickly recover, and it wouldn't affect the Star Beast's movement at all.

The five-man Group on the other side didn't feel the support benefits of Lin Yi's trio. In their eyes, it didn't make a difference whether they had the three or not-they still had to face the storm of star beasts.

And it was the kind that was super focused!

The Star Beast had its eyes on one person. Before it killed him, it would focus on him and attack him, completely ignoring the counterattacks of others!

How was he supposed to play with this? There was no way to do it!

The heaven breaking cultivator who had been targeted was on the verge of tears. If it wasn't for the fact that the battle formation formed by the five of them was of a higher level than the previous one, he would have been killed by the Star Beast long ago.

Although he could barely hold on now, it looked like he was swaying in the wind and rain, and he was not far from dying.

It wasn't easy for him to cultivate to his current level, and he didn't want to die so easily! So, should he give up now? Or should he give up? I should just give up!

"I'm sorry, I can't hold on any longer! You guys better pray for yourselves!"

This guy shouted. It could be considered as an explanation, so that he wouldn't suddenly leave and screw over the other four.

It would be fine if he could kill them, but if he couldn't, the four of them would give up on leaving and go out to hunt him down.

"Bastard!"

The remaining four cursed in unison. Their battle formation of five could barely cope with the Star Beast's attack. Suddenly losing one of them, not to mention how much the power would be reduced, it would take a certain amount of time to change the formation to fill the empty position!

In the end, he was teleported out of the star Cloud tower as soon as he finished speaking, not giving them any chance to react.

The Star Beast had let him go, but it still didn't let their team go. It turned its attention to another heaven breaking cultivator.

The person who was targeted almost vomited blood. There was clearly a woman in the mountain opening stage hanging out there, so why the hell were you staring at us? You can't just say that you value men over women, right?

"I can't hold on any longer, I'm retreating too!"

After taking a blow from the Star Beast and almost dying, this guy chose to give up without saying anything. The remaining three knew that they had lost and could only leave the star Cloud tower unwillingly.

In the blink of an eye, only the three of them and the Star Beast were left on the stairs!

Chapter 9137

Daniya couldn't help but ridicule, 'a bunch of gutless bandits! They'll only add to the trouble. I'll definitely kill them the next time I see them!"

If these troublemakers didn't show up, Lin Yi's group of three would have no problem dealing with the Star Beast, but these guys ran away after raising the easy difficulty to hell difficulty!

If he didn't find them and kill them, he wouldn't be able to take this lying down!

"What should we do? Are you going to give up too?"

Qin wunian was a little flustered as he asked weakly, ""So many heaven breaking experts have already run away, can the three of us deal with this Star Beast?"

To be honest, she also wanted to run away. Even heaven breaking cultivators ran away faster than the other. She was just a mountain opening rookie. The courage she needed to stay was really nowhere to be found!

Daniya was speechless. As the main attacker of the battle formation, she enjoyed all the Buffs, but she was unable to cause effective damage to the Star Beast.

Under such circumstances, it would be a lie to say that he could deal with the Star Beast!

Even if she could hurt the Star Beast, she dared to say that she would slowly torture it to death. What else could she say now?

"Don't be discouraged, there must be a way!"

Lin Yi didn't give up yet. He encouraged the two girls as he led them to Dodge the star beasts 'attacks. The weakest of the three was undoubtedly Qin wunian, so the star beasts' target was now her.

With this as a premise, Lin Yi could at least have a target in mind when dealing with them. He could use the strength of the battle formation to carry Qin wunian and Dodge with ease.

"Daniya, protect Qin wunian. I'll try to deal with the Star Beast!"

As Lin Yi spoke, he'd already switched places with Daniya, becoming the main attacker.

Lin Yi was the commander of the battle formation, and Daniya didn't even have a chance to fight back. However, she was confident in Lin Yi, and since he said he was going to deal with the star beasts, she could back off.

Qin wunian finally found out Daniya's name. They had been calling each other heavenly comet before, and even though they were chatting as if they were best friends, they didn't even ask for her name. Plastic sisters!

Lin Yi didn't know what Qin wunian was thinking at this critical moment-if he did, he'd probably make her leave the star Cloud tower on her own.

He was about to lose his life, and he still had time to waste his brain?

The Star Beast's attack missed, and it continued to pursue Qin wunian like the wind. Lin Yi's three-in-one battle formation, on the other hand, was able to keep up with the Star Beast's speed in a small area. Lin Yi was the one holding the Star Beast off.

Lin Yi didn't try to force it. He used his skills to deal with the Star Beast and wasn't at a disadvantage yet. If those heaven breaking cultivators who had given up on the tower saw this, they would probably doubt their own eyes.

There were more than a dozen heaven breaking cultivators working together, but they couldn't stop the Star Beast's attack at all. Lin Yi and the other two looked extremely weak, but they could actually fight the Star Beast as equals?

In the process of blocking, Lin Yi took the time to create a super alchemy bomb. Other skills might not be effective, and he didn't have the time to try them one by one-he decided to use the Super alchemy bomb to decide the winner!

The Star Beast didn't care much about Lin Yi's interception. Its main focus was still on Qin wunian, so it wanted to bypass Lin Yi and attack Qin wunian.

Lin Yi deliberately exposed a flaw and let the Star Beast fly past him, taking the opportunity to blast the Super alchemy fire bomb on the side of the Star Beast's body.

Under Lin Yi's control, the Super alchemy bomb's explosive power gathered into a beam, not dissipating at all, and directly opened a hole in the Star Beast's body.

This was the first time the Star Beast had received such a serious injury since it had taken form. Its two front legs had even been broken by the explosion of the Super alchemy fire bomb.

However, the astral beast didn't seem to be in pain at all. It was only blocked by Lin Yi's attack for a moment, and couldn't continue to attack Qin wunian.

His broken legs and body that had been blasted apart by the Super alchemy bomb recovered almost instantly.

The star power seemed to be drawn by its body and quickly gathered on the injured Star beast's body, healing all the injuries in one fell swoop.

Daniya's face turned pale. He was powerful, had shocking defense, and could even recover in an instant. He was known to have an undying body. How could they fight?

"Sima, let's use our defense to attract the star beasts' attacks and then knock us away. Let's start over again?"

Daniya suggested in a low voice. The Star Beast's power had already exceeded her imagination, and she didn't want to give up on climbing the star Cloud tower. The best choice was to let the Star Beast knock her down.

The cultivators who had been killed previously didn't have a chance. Any attack from the Star Beast could kill them in seconds. Therefore, the others didn't dare to try to be knocked down. They could only helplessly choose to give up and use the star Cloud tower to transport them out to save their lives.

Lin Yi's battle formation couldn't take the Star Beast's attack head-on, but with Lin Yi's control and some skills, there was a chance of being sent flying.

Falling down the first step and climbing up again was better than being killed or leaving the star Cloud tower. Since Daniya had already tried again, she wasn't afraid to try again.

"Sima Zhong da, I think this is a good idea! If we do it again, the star beasts won't be this strong!"

Qin wunian immediately expressed his support. Her face was drained of blood. Staying behind was already the limit of her courage.

Lin Yi shook his head. "I can't guarantee that I'll be sent flying by the Star Beast's attack without a scratch. Also, if I were to do it again, I don't know what the result would be if I were to encounter another group of people!"

If Qin wunian chose to give up and leave the star Cloud tower, Lin Yi and Daniya could try to get the star Beast to send them flying back to the second level.

Lin Yi's real concern was Qin wunian. She was the star beasts' primary target, and if he wanted to lure the star beasts to attack the battle formation, Qin wunian would be the only one to be attacked.

If there were any problems with his control, Qin wunian would die without a doubt!

Lin Yi couldn't risk Qin wunian's life, so he had to give it his all!

"Don't worry, I can try again!"

Daniya and Qin wunian were about to say something when Lin Yi cut them off. "This time, I believe there's a high chance of success!"

Before he could even finish his sentence, Lin Yi had already dismissed the formation and turned into a lightning bolt as he charged towards the astral beast. The astral beast, who had already recovered to its peak, ignored Lin Yi. After the formation was dismissed, Qin wunian's aura dropped drastically. The astral beast locked onto her without hesitation, wanting to rush over and kill Qin wunian.

"Xiao naofu, I'm right in front of you, where do you think you're going?"

Lin Yi's speed wasn't any slower than the Star Beast's when he used the Thunder escape technique alone. When it moved, Lin Yi moved as well. When he appeared in front of the Star Beast again, he stretched out his hands and actually hugged the horn on the Star Beast's forehead.

Chapter 9138

The Star Beast's body paused. It was a battle Machine formed by star power. The horn on its forehead was its strongest point, but it was also the key point!

Once the horn was destroyed, the Star Beast would collapse. Therefore, the horn on the forehead was actually the key to clearing the stage!

Lin Yi didn't know about this. He only wanted to stop the Star Beast and provoke it so that it couldn't go around him to find trouble with Qin wunian. That was why he hugged the horn.

The horn on the Star Beast's forehead suddenly shone with a dazzling light, and the powerful star power instantly gathered, turning into an attack beyond the heaven breaking stage, bombarding Lin Yi's body!

The key to clearing the game was not something that could be easily grasped!

This was the Star Beast's strongest point, and the Star Beast in front of him could be considered to have surpassed the heaven breaking stage. Lin Yi couldn't withstand its full-power attack!

Lin Yi, who touched the horn, finally changed the Star Beast's target. It no longer insisted on killing the weakest person, but the human holding its horn!

The vast power of the stars exploded from the horn. Daniya, who was protecting Qin wunian, was blown away by the aftermath of the explosion, flying several thousand meters away without any resistance.

If it wasn't for the fact that they were heading in the wrong direction, the two of them could have gone with the flow and climbed up to the second level. Unfortunately, even with Daniya's strength, she was unable to stabilize herself in the aftermath of the explosion and could only let the shock wave carry them down far away.

"Sima!"

"Sima Zhong da!"

The two girls who were in a daze cried out at the same time as they landed on the ground. Daniya knew that she couldn't withstand the Star Beast's explosion.

If she were to hold her horn and take the Star Beast's attack, she would probably not even be left with ashes!

Where's Sima Yi? Is He Dead?

Daniya panicked for some reason, even feeling a bit of pain as she thought of Lin Yi being blown to pieces. She felt a suffocating panic.

It was the same for Qin wunian. The two of them couldn't care about each other, and she didn't thank Daniya for saving her life. All her thoughts and eyes were focused on the center of the explosion.

Although they were a few kilometers away, their vision wasn't affected at all. They could clearly see the star Beast standing in the same place, and Lin Yi, who they thought was gone, didn't move at all!

"That's great! This bastard didn't die!"

Daniya couldn't help but curse, feeling as if a huge rock had been lifted off her chest. As for why Lin Yi wasn't dead, that wasn't important!

It was good that he was alive!

Lin Yi was indeed fine, and his heart didn't even waver. The Star Beast's attack must have exceeded his tolerance limit. Under normal circumstances, taking it head-on would be courting death.

So Lin Yi had decided from the start that he would use his trump card, the mayfly star undying body!

This was a temporary skill he'd gotten on the first level, and he could only use it once on each level-it was quite precious, and Lin Yi had wanted to save it for the Ninety-ninth step.

He didn't expect to be forced out on the sixty-sixth step!

At this moment, Lin Yi's entire body was shining with Starlight. He was like the brightest star in the sky, standing in front of the Star Beast. The Star Beast's burst of power that exceeded the limit of the heaven breaking stage just now, 99% of it had landed on Lin Yi.

However, Lin Yi, who had activated the star undying body, didn't feel any power from the attack at all. It wasn't even as light as a breeze.

During the 30 seconds of invincibility, the star Cloud tower would not be destroyed, and the star undying body would not be destroyed!

No matter how strong the Star Beast was, it was only based on the total strength of the humans on the sixty-sixth step. It was a battle weapon created by the star Cloud tower, and it used the power of the star Cloud tower.

Using the power of the Nebula Pagoda to deal with the star undying body was like dropping a drop of water into a River. It couldn't even cause a splash!

The horn on the Star Beast's forehead fell apart in Lin Yi's hand. When the indestructible body of stars touched the Star Beast, it was like a Prince putting a sword on his soldier's neck. The soldier could only kneel!

The huge Star Beast dissipated without a sound. All the star power was like a breeze, disappearing without a trace.

Lin Yi still had his hand stretched out, a little dazed. To be honest, the development of the situation was a little unexpected. Lin Yi wanted to rely on the thirty seconds of invincibility of the star undying body to fight the Star Beast head-on.

If he still couldn't deal with the Star Beast, he would have to stay for two to three seconds to protect Daniya and Qin wunian. He would use his body to receive the Star Beast's attack and fly out of the sixty-sixth step together.

He didn't expect that ... The Star Beast would be finished before they even fought!

The star undying body Suan ni was awesome!

It would be great if he could have such an awesome skill permanently!

"Sima! Are you alright? What just happened? How did you kill the Star Beast? How did you get that Starlight? You ..."

Daniya flew back with Qin wunian, her mouth shooting out all sorts of questions like a machine gun. At the same time, she was expressing her interest in Lin Yi's undying star physique.

Lin Yi laughed, "I told you, the Star Beast is nothing. We'll definitely succeed this time!"

Daniya wanted to say that you seemed to have said that there was a great chance, but it wasn't a guarantee, right? However, seeing that the Star Beast was really taken care of, she decided not to expose Lin Yi.

"I'm using the reward I got from clearing the first floor, the temporary skill, star indestructible body! It's just nice to counter the star beasts ..."

Lin Yi thought about it and understood, so he explained his guess.

In the end, Daniya wasn't concerned about how Lin Yi defeated the Star Beast, but why she didn't get the indestructible star body after passing the first level.

She didn't even care about the so-called reward for the first level!

When comparing goods, one had to throw them away. This comparison was infuriating!

The next discussion was naturally about the indestructible star body. Even the reward of passing the sixty-sixth step and obtaining a part of the power of stars did not attract any attention.

Lin Yi continued to climb with the two girls, the topic of conversation revolving around how Lin Yi got the star undying body. Daniya was very envious of this skill, so she wanted Lin Yi to see if he could get one on the second floor.

When they finally reached the Ninety-ninth step, the three of them still couldn't figure out the reason.

If Lin Yi was the only one left to get this special reward, Daniya couldn't replicate it!

Lin Yi couldn't help her!

Moreover, he still didn't know what kind of test the second level's ninety-nine steps would be, and he didn't have a direction in his plan!

As she stepped onto the Ninety-ninth step, Daniya completely gave up on the idea of farming an indestructible star body on the second level, because the rules were completely different from the first level.

The second level's final test was the Suan ni minority!

"Finally, someone's here. We can start!"

When the three reached the Ninety-ninth step, there were already eighteen people waiting for them. They were all heaven breaking cultivators. Those who could appear here at this time were all not weak. Even sea splitting cultivators were almost at the back.

Chapter 9139

The person was clearly getting impatient, as if he'd been waiting for quite some time. Lin Yi and the others understood why he was getting impatient after receiving the message in their minds.

Because he had to wait for someone!

The second level's test required at least twenty people to begin. It didn't matter if there were more people, the eighteen of them must have waited for a while, watching the people in front of them pass the second level, but they couldn't do anything.

Now that Lin Yi's group of three was here, the test could begin!

Two rings of Starlight suddenly appeared on the ground of the platform. They were about thirty meters in diameter. Everyone present understood that this was a place for them to make a choice.

The rules of the minority battle were very simple. There were two choices, one correct and one wrong. When the number of people in the circle of light that represented the correct choice was a small number, the people in the circle of light could enter the position of the star at the top of the second level and be transported to the third level.

If the number of people in the correct circle of light is more than the number of people, the result will be invalid, and you will have to try again!

There were six rounds of selection and six chances. If no one passed, everyone would be knocked down to the first step to climb again. If someone passed, those who remained on the platform after six rounds would continue to wait for the next person to come and take the test.

This was the situation of choosing the right aperture. If the number of people in the wrong aperture was the majority, the punishment of the pagoda would be triggered. The punishment would be three times at most, and there would be no fourth time!

When there were only a few people in the wrong Halo, there was no punishment or reward. The test continued.

In the first round of selection, a question appeared in everyone's mind. Out of the twenty-one people present, two people would be randomly chosen to fight. Who would win?

After the question was asked, two beams of Starlight flickered rapidly above everyone's heads and finally settled on two people.

These two people were both in the early stage of heaven breaking, and on the surface, they looked evenly matched, so it was possible for either to win or lose.

"Fuck! What kind of stupid question is this? do we have to fight it out?"

One of the two chosen ones cursed loudly, expressing his dissatisfaction to the star Cloud tower. It seemed like this was his first time taking part in the test, unlike the other cultivators who were calm and collected. He was obviously experienced.

The star Cloud tower didn't care about the cursing of the chosen martial artist and continued to transmit information. Everyone was clear who the two light rings represented. They had to make a choice within 30 seconds. Exceeding the time limit would be considered as giving up and they would be sent out of the star Cloud tower.

"F * ck your mother! Of course I'll choose myself! Even if we really have to fight, I Won't Back Down!"

The martial artist from before continued to vent the anger in his heart and then stood in the light circle that represented his victory.

The star Cloud tower didn't remind him to fight, so he decided to take a stand first.

"Sima, which one should we choose?"

Daniya touched Lin Yi's elbow lightly and whispered, "The two of them have similar strength, so it's hard to judge who's better. However, that guy who's swearing is a little impatient, so his chances of winning are lower ... What do you think?"

"You think he's hot-headed?" Lin Yi replied softly, smiling. That would be underestimating him! How can a cultivator who has cultivated to the heaven breaking stage be so easily impetuous?"

"Eh? You mean he's deliberately playing the fool to lower his opponent's vigilance and make others look down on him?"

Daniya understood immediately, her eyes flashing with understanding.

Qin wunian also came to a realization, 'that's right! The name of this test is the number of people who decide the outcome. If he wants to win, he can't let others think that he can win!"

It sounded a little awkward, but it couldn't be more accurate!

That foul-mouthed guy deliberately made people think that he was fickle and useless, so his evaluation of him would naturally be lowered. If he wanted to pass smoothly, the first thing he had to ensure was that he would always stand on the side of the minority. Even if he lost, the minority would not be punished!

It was a good plan, but it was a pity that this kind of trick couldn't be hidden from the eyes of those who were determined. No one present was a fool and wouldn't be deceived by the illusion in front of them.

"Hahahaha, I admire forthright people like you! I choose you!"

Lin Yi and the other two were still talking when someone followed the guy into the circle, followed by three more. There were five people in the circle now.

The other chosen martial artist was expressionless and silent. He lowered his head and walked into the circle of light that represented his victory. As a chosen one, he could stand in the opposite circle and deliberately lose the competition to let his opponent win. This way, his choice would be correct.

However, if he did that, everyone would know that he would go easy on them and fake his moves. If everyone chose the right aperture, then what the hell would the few duels be for?

This was the difficult part!

Five on each side, one on each side, and four immediately walked into the few circles of light, forming a balance between the two sides.

The remaining people looked at the others, wanting to wait until the last moment to see which side had fewer people before rushing in. Whether it was right or not, the most important thing was to ensure that they were in the minority!

Thirty seconds to make a choice was not too much or too little. It was enough for everyone to think about it and make a decision, but it was not enough for them to deliberately delay.

"Sima Zhong da, are we going to choose that person?"

Qin wunian looked at the martial artist who was still cursing. Since he was so confident, wouldn't it be safer to choose him?

"No, we'll go the other way!" Lin Yi said, shaking his head. Those who still have the mind to play mind games before the battle, or those who are much stronger than the opponent, are at ease, but in a situation where their strength is similar, it is definitely more advantageous to focus on the person. Let's go!"

The guy wanted to use reverse psychology to make himself the minority, but Lin Yi kept doing reverse psychology and vice versa, turning negative into positive.

After the three of them made their decision, they directly entered a circle of light. The remaining people saw that their time was about to run out, and if they didn't choose, it was equivalent to giving up. They could only follow their feelings.

The guy who was scolding was missing three people, so he naturally took priority. Five people rushed over at the same time, and the last three turned around and rushed to the circle of light Lin Yi was in when they realized the situation had changed.

If there were ten over there and three over here, it would become eleven!

The majority will never win!

The cultivator at the back of the three showed a ferocious smile and suddenly attacked the two cultivators in front of him. He didn't aim to kill them in one blow, but to prevent them from entering the circle of light.

One's own choice was very important, but among the few decisions, the other people's choices were more important. This guy clearly understood this, so he hid at the end so that the others couldn't choose!

There were only two seconds left. If he hindered the movements of the two in front of him and forced them to stay outside the circle of light after the time was up, he could enter a small number of circles of light!

Chapter 9140 The Power Of The Devil

The plan was perfect, but unfortunately, no one present was a fool. The two in front of him were not good people either, and they also had the same idea of hindering the others.

At the same time as the last person made his move, the two in front also made their moves. Their targets were also the two cultivators other than himself!

The three people's strength was similar, and each of them took a step back after the attack, and their momentum was forced to stop!

The final 1.5 seconds!

The people in front couldn't care about their opponents and desperately rushed towards the circle of light. The short distance of more than ten meters was now almost like a natural chasm!

Other than Lin Yi's group of three, the other five practitioners in the circle of light all attacked the people who were charging at them. They didn't need to kill them, they just needed to stop them from getting close!

A minority did not necessarily have to rely on the choices of others. One could also create an environment for the minority!

"No! Get lost!"

The cultivators at the forefront roared in anger. At the last second, if they couldn't enter the Halo, they would be transported out of the Nebula tower. To the experts who entered the Nebula tower, this was the most unacceptable outcome!

Who would be willing to go home on the second level? The goal of a heaven breaking cultivator was to at least reach the tenth floor!

Most of them wanted to break the record and break through the 11th floor, directly passing the 18th floor. It wasn't even considered a threshold!

Now that someone was about to fall at the doorstep, how could he be willing?

The five people in the circle were expressionless as they continued to stop them. Everyone had the same goal at this time, and they absolutely would not allow the remaining three to come in and cause trouble!

After the warrior in the front shouted, his figure suddenly disappeared. When he reappeared, he was already inside the circle of light! His roar was more to confuse the two martial artists on the road.

Because of his sudden disappearance, the second-in-line warrior, who thought that someone could stop him, suddenly found that he had to face the attack of five Warriors of the same level, and immediately lost his composure.

Not dodging? He would die without a doubt!

Even if the five people in the circle of light didn't want to kill him, the power of the five people's joint attack was not something he could face head-on. Moreover, if he was hit, even if he didn't die, he could forget about entering the circle of light!

The martial artist who had relied on his trump card to instantly enter the circle of light did not say a word. He turned around and joined the group of five to help intercept the fellow brothers who were originally in trouble!

Including him, there would be nine people in the circle of light, which was still a small number, so the others also tacitly agreed with the existence of the new companion.

At the same time, a chaotic battle broke out inside the circle of light on the opposite side. At the last second, reducing the number of people in the circle could ensure that a small number of people would stand!

The last second passed, and the time limit was up!

Two of Lin Yi's people outside the circle didn't make it, and the other side wanted to keep a small number, so a chaotic battle broke out at the last moment and one of them was pushed out!

"No!"

The three of them outside the light circle roared in anger. They were then teleported out of the Nebula tower by the Starlight, ending their journey in the Nebula tower. For the time being, they could only take a stroll in the star Ink River.

As for those who remained on the platform, they were in an awkward position. There were nine people in each of the two circles of light, so there was no minority!

A draw?

I'm sorry, there's no such thing as a draw in the star Cloud tower. If there's no minority, there's no winner. Everyone here is a loser!

A few martial artists' faces had already turned black. They had experienced the minority before and were eventually eliminated to wait for the next batch to continue. Therefore, they knew very well that this time, no one would benefit.

It was only the first round of the six rounds of selection, and one of the three chances of failure had been used!

Everyone, including Lin Yi, felt a part of the star energy they had absorbed being drawn out, about a quarter of the total.

After painstakingly climbing the star Cloud tower, the biggest gain for everyone so far was actually the power of the stars they had absorbed along the way. One mistake had reduced them by a quarter. It would be strange if they looked good!

As for the two martial artists who were chosen as the topic, the star Cloud tower didn't require them to come out and fight. The power of the stars completely simulated the various values of the two, forming two star human figures. They made a pose in the air and disappeared.

Because the number of people chosen by both sides was equal, there was no need for them to decide the winner. They just had to show their faces a little and it was over.

Everyone's face was as dark as water. Originally, if they chose the correct answer, even if they had the majority, they would not be punished. Who would have thought that the star Cloud tower would judge

the choice of a draw as a total loss? Even the problem itself was directly pulled down because of the choice of a draw.

'This is unfair ...'

However, he had no choice. Who could reason with the star Cloud tower?

"So this is what the star Cloud tower is used for ... The aura I felt was almost the same as the two of them, but it's impossible to fully simulate a martial artist's strength!"

Daniya pouted disdainfully and muttered, "A person's experience, reaction time, way of thinking, and so on will all affect the direction and outcome of the battle. Even if the star Cloud tower can perfectly simulate their body, strength, and even combat skills, it can not guarantee that the simulated result is real!"

Lin Yi nodded, "that's true. But the star Cloud tower is doing this fairly. At least we don't have to worry about someone throwing the game to change the result."

Qin wunian had just watched a chaotic battle of mutual deception, and his heart was in a mess. At this moment, he joined the discussion. "Shouldn't we pay attention to the behavior of the others? Don't tell me that what they did just now isn't worth our attention?"

Lin Yi had told the two girls before that he could create a sound-proof barrier, so they didn't need to mind what he said. That was why Qin wunian had brought it up so directly.

From her point of view, it didn't matter how the star Cloud tower raised the question. What was important was how the others chose and how they ensured that they were the minority!

Or to put it bluntly, the problem with the pagoda was not the main point. The main point of this test was how to ensure that they were the minority!

The other practitioners had already set an example, and Qin wunian wanted to know what Lin Yi and Daniya would choose to join.

Daniya shrugged her shoulders without a care, "No need! They taught us how to win, so we don't have to worry about anything. "

With Lin Yi around, Daniya didn't think that anyone would be able to stop the three of them from entering the light ring. The only thing she had to worry about was Lin Yi's clone skill. Would he be counted as a kill by the star Cloud tower?

If Lin Yi had seventeen or eighteen clones in the circle of light, he'd have the majority!

At that thought, Daniya's eyes lit up as a proud smile appeared on her face. She elbowed Lin Yi's arm, "Sima, I've thought of a good idea. It can guarantee that we'll definitely be in the minority's circle of light!"

Lin Yi looked at her and laughed, shaking his head. "Don't tell me you want me to use my clones to fill up my opponent's Halo?"

If the clones counted as heads, Lin Yi could make hundreds of clones and squeeze into the opponent's light ring at the last minute. The opponent wouldn't have time to react, no matter if they wanted to change sides or expel the clones!
